WHO SHOULD APPLY
Qualified candidates for the GlobalTeam EMBA will have several years of professional work experience, during which they will ideally have demonstrated increased responsibility, professional growth, and leadership. The individual should be highly motivated to develop business skills critical for leaders in a global environment.

PROGRAM FORMAT
Students will participate in four residencies during the 17-month long program. During each residency, students will attend classes, visit companies, attend cultural events, and most importantly, work on building a true understanding of global business issues. Between each residency, students spend a semester of alternating weekends on campus at Georgia Tech in a highly interactive classroom format taught by the college’s most accomplished faculty.

WHAT YOU WILL GAIN
The GlobalTeam EMBA provides a strong foundation to assume even greater leadership responsibilities within a company. Graduates will develop additional expertise in managing in a global setting. Through successful completion of the program participants will earn a degree from Georgia Institute of Technology and a certificate from a GlobalTeam partner school.
