THE BLUE PRINT
VOLUME VIII. NINETEEN HUNDRED AND FIFTEEN

PUBLISHED
BY THE
STUDENTS
OF THE
GEORGIA SCHOOL OF TECHNOLOGY

ATLANTA - - - - GEORGIA
GREETINGS
1914-1915
TO

JOHN WILLIAM HEISMAN,
COACH

We respectfully dedicate this BLUE PRINT, because
"he has made us what we are."

1915
The Blue Print

When you've finished up with college and you're working out in life,
There'll be times you're up against it in this never-tiring strife,
When your brain gets all befuddled and your liver's on the bum,
And you can't enjoy a toddy, "ner er leetle wee of rum."

When you get so darn disgusted that you don't know what to do—
If you'll just get that old "jimmy" and this time-worn Print of Blue
Prop your feet upon the mantel, put a "no home" on your bean,
Then you'll soon be back in college with the Class of old Fifteen.

Gosh, won't it be delightful just to root again for Tech!
And the good old girls you've danced with to the tune of 'Ramblin' 'Reck!
And the "Profs" who used to shoot you if you tried or didn't try,
Gee, don't they all seem friendly now that years have passed them by.

Well you'll spend some goodly hours 'fore the "jimmy" pipe goes out,
Playing "bull" with some old fellows, or some guys you read about,
And when time does come for quitting, you will close it with a sigh,
For it's hard to start to working when your college days come by.
In the publication of this book we present to our readers Volume VIII of the BLUE PRINT. It has been our aim to bring out a book characteristic of all that is best and of most enduring value to our life here. The atmosphere of the campus, the strife of intercollegiate contests, the lighter side of our college days—these are the things we like to remember, and have stored away for future years. We have had cherished ambitions, only to see their glory fade away as fog before the morning sun. But the very effort to attain those heights has brought results, which, we trust, are not unworthy. May you find herein a record of such triumphs and defeats as will increase your love for Alma Mater and deepen your reverence for Tech spirit.

1915
TRULY a name with a magical sound. Vast possibilities, immeasurable results! What can this mean to you and what would you give or do to make it a reality?

Georgia Tech stands upon the threshold of a new era in its career and truly an epoch which will forever stand in history as that in which the school took its true place in the world's work. Although young, the school now ranks among the leading technical schools of the world, but up to the present time it has been performing only the larger half of the real work for which it was destined.

Producing high-grade engineers has been the principal aim of the school but with the completion of the new Power Station which will supply an abundance of power, light, heat, compressed air, high pressure water service and refrigeration to the school, there will have been established the Research Bureau which will ultimately benefit the nation to an extent which is beyond our power to calculate. The school will become the great center of the South, where its graduates, its friends, engineers, manufacturers and business men may come and receive assistance in solving the innumerable industrial problems which have to be solved in any State or Nation.

Over $100,000 worth of splendid equipment has been donated by leading manufacturers and as you know, the work of erecting the building is now in progress. This project has been carried steadily and successfully forward through the most trying period in the history of our country and in a few months the school will be supplied entirely from the new Station, which will have all of the modern devices that can be used practically or for educational purposes.

There will be about twenty-five of the leading manufacturers of this country represented with equipment in the new Station. Each one of them is giving us the very best product that he knows how to make and the combined knowledge of the expert engineers of all of these
companies will give us an enviable equipment for practical work and theoretical experiments.

A campaign has been most successfully begun in Atlanta which will bring into cooperation all of the principal manufacturers and business men of Georgia in this project of establishing Research Laboratories at Georgia Tech. The movement has received the most cordial and hearty approval of the leading business men, manufacturers, public service corporation officials and State officials, including our dearly beloved governor, Honorable N. E. Harris, the founder of Georgia Tech.

The school feels grateful for the splendid co-operation that has been accorded us by the business men and manufacturers of Atlanta, as well as those far-off friends in the North who have contributed so handsomely in materials and equipment. The great papers of Atlanta have championed the cause and we have received assurances from all over the State of Georgia from newspapers, Chambers of Commerce and business men, that they stand waiting to do their part in pushing this great project so that it may be speedily put into active operation.

When the Research Bureau and Laboratories have been opened the graduates of Georgia Tech are going to experience a greater pride for their Alma Mater than ever before. Great engineering schools in the North and West are already operating such laboratories with marked success. It is no new and untried field of endeavor that we are entering. We are making a study of similar Bureaus of Research in this and foreign countries so that we will be able to begin with a well-perfected system.

There are two principal objects in establishing this Research Bureau. First, to enable
manufacturers and others to perfect their present processes so that their products may be manufactured more perfectly and at the same time at less cost. Second, that the State of Georgia especially and then the enjoining States who may come to us for help may develop the vast natural resources which lay under our feet and all about us, simply waiting for the magic hand of the chemist, engineer, manufacturer or builder to turn them into products whose value become untold millions. There are an endless variety of ways in which the school properly equipped may help in solving the problems of the South with regard to manufacturing, transportation, sanitation and general prosperity.

To the students and graduates of Georgia Tech, this great project should be and is of deepest interest. Up to the present, the graduates, upon leaving the school, look back upon the buildings and campus as places of trial and often defeat. Places that are dear because of so many pleasant and precious memories but having little or no relation to their work in the world, which unfortunately, they often find is vastly more severe than that which they have been required to perform in order that they might receive their diplomas.

The new Research Bureau, of which the new power station is the foundation, will change all this. When a student crosses the threshold of the school and faces the serious problems that confront every engineer, he will look to his Alma Mater, not only as the place in which he has received his training but also the place to which he can go with the new problems of science, invention and manufacturing, which are handed to him to be solved. The school will be doubly valuable to him after graduation and while these great benefits are limited to no special set of men, the ex-students and graduates of Georgia Tech, because of their intimate knowledge of the school's resources and their ability to use its equipment, will be placed in a position to derive the maximum amount of benefits from the system of research which will soon be inaugurated.

The work that will be done by these laboratories will consist especially of scientific research, invention and testing and it is believed by many who
have given this subject careful consideration, that it will be the means of doubling the manufactured products of Georgia in a decade. It will make it possible to furnish work to many thousands of those who are either idle or employed part time and will also provide work for thousands of men who are annually seeking new homes and fortunes in the South. It will bring wealth and prosperity into every county and town in Georgia which will take advantage of the opportunities which will be presented by the school.

Every graduate and student of the school should feel it not only a duty but also a great privilege to assist in every possible way in this great project which will mean so much to his personal welfare, especially in business and then in the general welfare and prosperity of Georgia and the South. Let every student stop and realize that soon the school will be in the eyes of the nation as being one of the few great progressive institutions which have established Research Laboratories for State development so that they may lend a helping hand now and share in the honor and benefit which will shortly belong to those who put their shoulder to the wheel and help to push Georgia Tech into this enviable position.

In going from the office of one president to another among the great corporations in the North and soliciting equipment for the new Station, it has been a common expression, "I did not know you had such a splendid engineering school in Georgia," and it has been the reputation of Georgia Tech and its graduates which has made it possible to secure such an unprecedented list of donations of equipment and material and I trust that the students and graduates will fulfill in every detail, the expectations of these manufacturers in assisting to complete this great project.

PHINEHAS V. STEPHENS,
Faculty

KENNETH GORDON MATHESON, A.M., LL.D., President
A.M., Leland Stanford, Jr., University, 1897; LL.D., Washington and Lee University, 1906; Kappa Alpha.

WILLIAM HENRY EMERSON, Ph.D., Sc.D., Dean
U. S. Naval Academy, 1880; Ph.D., Johns Hopkins University, 1886; Sc.D., University of Georgia, 1912; Phi Kappa Phi; Alpha Tau Omega.

THOMAS PETTUS BRANCH, B.E., Secretary and Registrar
B. E., Vanderbilt University, 1886; Associate Member American Society of Civil Engineers; Engineering Society of the South.

JOHN SAYLER COON, M.E., ScD.,
M.E., Cornell University, 1877; Sc.D., University of Georgia, 1912; Youngest Charter Member of American Society of Mechanical Engineers; Sigma Xi.

M.E., Cornell University, 1912; Tau Beta Pi; Phi Kappa Phi.
Instructor in Drawing and Commerce

HERBERT ALBERT WЕISS, M.E.,
M.E., Cornell University, 1912.
Instructor in Drawing

JAMES HUGH McKЕE, Ph.B.,
Ph.B., Dickinson College, 1909; Phi Beta Kappa; Phi Kappa Phi; Phi Kappa Sigma.
Instructor in English

WILLIAM ANDERSON ALEXANDER, B.S. in C.E.,
B.S. in C.E., Georgia School of Technology, 1912; Civil Engineering Society; Anak; Kappa Sigma.
Instructor in Mathematics, Assistant Coach in Athletics

JOHN LAURENCE DANIEL, M.A.,
M.A., Washington and Lee University, 1905.
Instructor in Chemistry
Faculty

WILLIAM S. NELMS, A.B., A.M., Ph.D.,
A.B., Southwestern University, 1903; A.M., Southwestern University, 1904; Ph.D.,
Columbia University, 1913; Sigma Xi; Phi Kappa Phi.
Assistant Superintendent of Dormitories, Assistant Professor of Physics

DAVID MELVILLE SMITH, B.S., A.M.,
B.S., Vanderbilt University; A.M., University of Chicago; Phi Beta Kappa;
Kappa Sigma.
Assistant Professor of Mathematics

ARTHUR A. R. PERRINE, B.S., E.E.,
B.S., Kansas State College, 1908; B.S., Armour Institute of Technology, 1909;
E.E., Armour Institute of Technology, 1912; formerly Instructor in Montana State College and Mississippi A. & M. College; A. I. E. E.
Assistant Professor in Electricity

PAUL STANLEY WOODWARD, B.S., M.S.,
B.S., Stetson University; M.S., University of Illinois.
Assistant Professor in Chemistry

DAVID LESLIE STAMY, A.B.,
A.B., Ursinus, 1908.
Assistant Professor of Mathematics

JOHN HENRY SCHROEDER, B.S. in E.E.,
B.S. in E.E., Georgia School of Technology, 1913.
Instructor in Electricity

DANIEL STANLEY ELLIOTT, A.B., A.M., Ph.D.,
A.B., Johns Hopkins University, 1911; A.M., Johns Hopkins University, 1913;
Ph.D., Johns Hopkins University, 1914; member of the American Physical Society; Fellow, 1913-14, Johns Hopkins University; Gamma Alpha.
Assistant Professor of Physics

ROBERT JAMESON SCOVELL, A.B.,
A.B., University of Indiana, 1909; Rose Polytechnic Institute; Johns Hopkins University, 1911.
Assistant Professor of Modern Language
Faculty

RICHARD R. KIRK, A.B., A.M.,
A.B., University of Michigan, 1903; A.M., University of Michigan, 1904; formerly
Instructor in Rhetoric at Michigan, 1904-1908; Instructor in English at
Cornell, 1909-1914; Phi Beta Kappa; Phi Kappa Phi; Phi Kappa Sigma.
Instructor in English

ROGER SHEPPARD HOWELL, B.S., in M.E.,
B.S. in M.E., Georgia School of Technology, 1914; Acis, Phi Kappa Phi.
Instructor in Experimental Engineering

FERGUSON REDDIE ORMES, B.A.,
B.A., Colorado College, 1912; B.A., Yale University, 1913.
Instructor in English

CHARLES ALFRED JONES, B.S. in T.E.,
B.S. in T.E., Georgia School of Technology, 1904.
Instructor in Textile Engineering and Dyeing

HARRY HEBDEN
Instructor in Textile Engineering

LEISTER EARL WILLIAMS, A.B., B.S.,
A.B., Southern University, 1910; B.S., University of Chicago; formerly Instructor in
Southern University; Kappa Alpha.
Assistant Professor in Mathematics

HORATIO HUGHES, B.S., M.A., Ph.D.,
B.S., College of Charleston, 1905; M.A., 1906; Ph.D., Johns Hopkins
University, 1913.
Professor of Chemistry

PAUL E. HEMKE, A.B.,
A.B., Central Wesleyan College, 1909; Graduate Work at University of Chicago,
1910-1912; formerly Instructor at Central Wesleyan College.
Assistant Professor in Mathematics

HUGH HARRIS CALDWELL, A.B.,
A.B., Davidson College, 1903; graduate student Columbia University, 1909-1911;
formerly Professor of English at Alabama Presbyterian College, 1907-1909;
Horace Mann School Teachers College, 1910-1914.
Associate Registrar and Field Agent
Faculty

RICHARD HENRY LOWNDES, B.S. in M.E.,
B.S. in M.E., Georgia School of Technology, 1903; Chi Phi.
Professor of Drawing

EDWARD HORACE CARMAN, JR.
“Ed”
(1894-1915)
Born at Dalton, Ga., December 17, 1894, but society called him to Atlanta at an early age where he prepped at University School, Boys High School and Peacock. Technique Staff, 12, ’13, ’14; Assistant Manager of the Blue Print, ’13-’14; Associate Editor, ’14-’15; Vice-President Peacock Club; Sophomore German Committee; Sophomore Pageant Committee at Quarter Centennial; Y. M. C. A. Cabinet, ’13-’14; Henry Grady Literary Society; Honor Court, ’13-’14; Glee Club, ’13-’14-’15; Dramatic Club; Cotillion Club; S. M. E.; Φ K Σ.
Was one of the Mechanical Seniors who floated away on the Corn Show parade, and was all-Southern gatekeeper at secret football practice.
“A lion among ladies is a most dangerous thing.”

JOHN LEANDER DAVIDSON
“Dave” “John L.”
(1894-1915)
Born at Kingston, Ga., July 1, 1894, but later moved to Quitman, from whence he came to Tech. Preped at Sparks Collegiate Institute and entered Tech in 1911. Blue Ridge Conference; Scholarship “I”; S. M. E.
“He that hath knowledge spareth his words.”
CHARLES WILLIAM DILLINGHAM  
"Dilly"  
(1892-1915)  
Born in Rock Hill, S. C., on the eleventh day of August, 1892. Prepared at Rock Hill High School and Chester High School, from which he entered Tech in 1909. Now makes his home in Atlanta. Glee Club, '09-'10; S. M. E. II K Φ.  
"He has a lean and hungry look. He thinks too much. Such men are dangerous."

HIRAM ODELL FULSON  
"H. O."  
(1893-1915)  
"He is a good wagoner who turns in a small space."
ALLEN PHILIP FRANCIS
“A. P.”
(1894-1915)
Born at Hartford, Connecticut, September 17, 1894, but forsook the cold northlands for a sunnier climate and settled in Atlanta. Preped at Boys High School and entered Tech in 1911. Acis Society; S. M. E. Scholarship “T.” Φ Κ Φ.
“Why is this thus? What is the reason of this thusness.”

JESSE JORDAN GARDNER
“J. J.”
(1894-1915)
Born at Marietta, Ga., March 17, 1894. Could not resist the desire to ride on street cars and has been coming to Tech for the past four years via this line. Preped at the Marietta High School, and entered College in 1911. Class Football, '12-'14; Class Baseball, '12-'13; Manager of Tennis, '15; Tennis “T”, '14; Vice-President S. M. E.; Scholarship “T”, '14. Σ Α Ε, Φ Κ Φ.
“To be rather than to seem.”
JAKE ADAM GOLDMAN
Known the school over as “Dutch”
(1892-1915)
At the time of his birth he was considered the “cutest little thing in Greenville, Miss.” Received his early education at Mississippi A. & M. and entered Tech along about 1909. Inspector, ’12-’13-’14-’15. Scrub football four years. S. M. E. Helped to set the foundation stakes for the Y. M. C. A., Mechanical Building and Hospital.
“A wise man has to act like a fool sometimes,
Or no one will take him seriously.”

HOMER LEWIS HARLAN
“H. L.”
(1893-1915)
Born at Atlanta, Georgia, October 2, 1893. Prepped at Tech High and started his career at Tech 1911. S. M. E.; Acis Society. Φ Κ Φ.
“The words of wise men are heard in quiet.”
GEORGE BLACK LAMAR
"G. B."
(1892-1915)
First saw the light of day in Beech Island, S. C. After graduating from Castle Heights School at Lebanon, Tenn., he entered Tech in the Fall of 1910. Yellow Jacket Staff, '11-'12, '12-'13; Honor Court, '13-'14; Bull Dog; Cotillion Club, Φ Δ Θ.
"Remove not thy ancient landmarks."

ROBERT M. LANG
"Hawkshaw"
(1892-1915)
First blinked his eye at the sun at Waverly, Georgia, on October 1, 1892. Entered Tech 1911 from the South Georgia College at McRae. Scrub Football, '11-'12; Varsity, '13-'14; S. M. E.
"Judge not that ye be not judged."
JAMES DAVIS LAW  
"Jim"  
(1893-1915)  
Atlanta is proud to claim him as her son for he first smiled on February 1, 1893. Prep at Tech High School and entered Tech in 1911. Vice-President Junior Class, '12-'13; S. M. E.; S. E. S.; Assistant Manager Football, 1912; Manager Football, 1913; Advertising Manager, 1914; Cotillion Club; Bull Dog; Koseme; Anak; Dramatic Club Board; Vice-President 'Gene Turner Baraca Class. A T Ω. B.S. in Electrical Engineering.  
"One of the best there is."

JAMES HERTY LUCAS  
"Luke"  "Jimmie"  
(1892-1915)  
Born in the hamlet of Society Hill, South Carolina, but prep at the Savannah High School and Dalton High School, from which he entered Tech in 1911. Glee Club, '11-'12-'13-'14-'15; Scrap Iron Quartette, '15; Editor Yellow Jacket, '14-'15; President All Saints Tech Bible Class '13-'14, '14-'15; Honor Roll, '12; Scholarship “T”; Class Football, '13-'14; Scrub Football, '13; Acis Society; S. M. E.  
"Give us, oh, give us the man who whistles at his work."
WILLIAM T. MCCULLOUGH, JR.
"Bill"
(1894-1915)

Claims the city of Atlanta as his home in which he was born April 22, 1894. Received his preparation at the Boys High School and entered Tech with the present class in 1911. Class Basket-ball, '12-'13; Class Track, '12-'13-'14; Technique Staff, '13; Yellow Jacket Staff, '14-'15; Varsity Basket-ball, '13-'14; Manager Basket-ball, '14; Prom Committee; Junior Marshal; Cotillion Club; Sec.-Treas. S. M. E.; Koseme. X Φ.

"O grant me honest fame or grant me none."

EDWARD BROWN NEWILL
"Ed"
(1895-1915)

Was born at Atlanta, February 6, 1895. Attended the Tech High School, from which he entered Tech to take two degrees in 1912. Junior Member of S. M. E., '13-'14; President S. M. E., '14-'15; Student Member A. I. E. E.; Mandolin Club '13-'14; Engineering Editor of the Yellow Jacket, '14-'15. Φ Κ Φ, Κ Σ.

"With just enough learning to misquote."
JOSEPH LAWRENCE PARKER
"Peck"
(1893-1915)

Born in Athens, Ga., on the eighth day of June, 1893. Prep at Furman University, Greenville, S. C., and entered Tech back in 1910. Has attended Summer School every year since that time just to keep away from the home town and the University. Class Football, '10-'11, '11-'12, '14-'15; Dormitory Inspector; President Student Government Association; S. M. E.; Koseme. Θ N E, Σ N.

"That rascal hath good mettle in him."

KEITH PATTERSON RIBBLE
"K. P."
(1894-1915)

Born in Harrisonburg, Virginia, May 28, 1894. Received his early training at the John Marshall High School, Richmond, Va. Moved to Atlanta and entered Tech in 1911. Honor Roll, '11-'12-'13; Assistant Manager Technique, '12-'13; Business Manager Y. M. C. A. Handbook; S. M. E. K A.

"Fashioned so slenderly,
Young and so fair."
BRUCE JONES SAMS
"B. J." "Brucey"
(1895-1915)
Born at Savannah, Georgia, March 30, 1895. Moved to Atlanta where he attended the Tech High School and entered Tech in 1911. Technique Staff, '12-'13; Assistant Manager Basket-ball, '12-'13; Class Basket-ball, '12-'13; Manager Class Basket-ball, '13-'14; Captain Class Basket-ball, '14-'15; Junior Marshal; Vice-President All Saints Tech Bible Class, '14-'15; Chairman Y. M. C. A. Membership Committee, '14-'15; Blue Print Staff, '13-'14; Business Manager, '14-'15; S. M. E.; Koseme; Cotillion Club. Κ. Σ.
"I would that my tongue could utter,
The thoughts that arise in me."

JOHN PITMAN SUTTON
"Goat"
(1895-1915)
His only regret—that Agnes Scott is not Co-ed. Born in LaGrange, Georgia, August 24, 1895. Now makes his home in Decatur. Prepped at Tech High School and entered Tech in 1911. Class Football, '13-'14; Mandolin Club, '12-'13; S. M. E., Decatur Club; M. M. M. X Φ.
"All things I thought I knew, but now confess,
The more I know I know, I know the less."

1915
JOSEPH JONES TWITTY
"Joe"
(1895-1915)
Born at Pelham, Georgia, on the twenty-fourth day of November, 1895. Preped at the Pelham High School in his own town and came to Tech with the present class in 1911. Class Baseball, '14; Class Football, '14; Glee Club, '15; S. M. E.; Cotillion Club. A T Ω.
"He trudged along, unknowing what he sought,
And whistled as he went for lack of thought."

JAMES RICHARDSON WESTBROOK
"Jimmie"
(1890-1915)
Born in Tunnel Hill, Ga., October 10, 1890. Preped at Reinhardt College and entered the Sophomore Class in 1911. Honor Roll 1914. S. M. E.
"He will do what he says he will do."
WALTER WYNNE BALLEW
"Smoke"
(1894-1915)

Born January 11, 1894, at Rome, Georgia. Moved to Cedartown where he gained his early preparation in the Cedartown High School and entered Tech in 1911.

Henry Grady Literary Society, '12-'13-'14-'15; President '14-'15; Sergeant-at-Arms, '15; Honor Roll, '12-'13-'14; Scholarship "T"; Tech Bible Class; Technique Staff, '13-'14, '14-'15; Yellow Jacket Staff, '14-'15; Student Member A. I. E. E.; Acis, '14; President, '14-'15; Student Assistant in Electrical Laboratory.

"I awoke one morning and found myself famous."

LELAND BENNETT BASS
"L. B."
(1892-1915)

Born in that ancient city of Rome, Georgia, October 12, 1892. Prepared at Darlington High School and entered Tech in the Fall of 1909. He remained until he finished the Junior Class in 1912 when he felt the call of the outside world. Finding further need for resuming his studies he re-entered Tech in February 1914. Student Member A. I. E. E.

"The love he bore for learning was his fault."
Otis McDowell Benton
“Charlie”
(1894-1915)
Born in “Bloody Jasper”, November 3, 1894, but later moved to Monticello, Ga., the county seat. Prepared at the University School for Boys at Stone Mountain. Student Member A. I. E. E.
“A proper man as one shall see in a summer’s day.”

Cyril St. Clair Boland
“Boly”
(1895-1915)
Born at Prosperity in the State made famous by Cole Blease, May 1, 1895. Prepared at P. M. A. and entered Tech in 1910. Now lives at Charleston, same State. Student Member A. I. E. E.
“He shows occasionally surface indications of intellect.”
GEORGE ALLAN CHAPMAN
"Allan"
(1893-1915)
Born in Pittsburg, Pa., but wandered South and enrolled in the Tech High School from which place he entered Tech in the Fall of 1911. Class Basket-ball, '13; Class Football, '14; Senior Class Play, '14; Marionettes. S. M. E.; A. I. E. E. O. E.
"We do not what we ought, What we ought not we do, And lean upon the thought That chance will bring us through."

ROBERT ALLEN CLARK
"Bob"
(1893-1915)
A product of Ringgold where he was born September 18, 1893. And to think that he still claims that place as his official residence! Class Football, '12-'13-'14; Class Baseball, '11-'12-'13-'14; Scrub Baseball, '13; Class Basket-ball, '12-'13-'14; Class Historian, '13; Class Manager Baseball, '13; Sophomore German Committee, '13; Junior Marshal; Dormitory Inspector; Student Secretary Y. M. C. A., '13; Honor Roll, '10-'11-'12; Class Prophet.
"Of all the girls that are so smart, There's none like pretty Sally."
ROBERT ALVA CLAY

"Senator"

(1890-1915)

Bade the world howdy in Monroe, Georgia, and being with an ambition to learn, went through Monroe High School, Emory, and then joined the Navy, from where he came to Tech in the Fall of 1910.

Scrub Football, '10-'11-'12-'13; Captain, '12-'13, Varsity, '14; Class Football, '10-'11-'12; Manager, '10; Scrub Baseball, '11-'12-'13-'14; Class Baseball, '11-'12-'13-'14: Captain, '11-'12; Manager Varsity Baseball, '15; Secretary Student Association, '13-'14; Treasurer Y. M. C. A., '12-'13-'14-'15; Honor Court, '14-'15; Secretary, '14-'15; Dormitory Inspector: Koseme; Anak; A. I. E. E. A T A.

"Already I am worn with cares and age."

BISHOP CLEMENTS

"Bishop"

(1891-1915)

Made his first bow in the small unofficious hamlet of Durand, Georgia, on the twentieth day of November. Prepared for Tech at the Durand High School, and decided to further his knowledge by entering in the Fall of 1911. Student Member A. I. E. E; Acis.

"My son, if you would be a wise man,
Let your ears grow, and tie your tongue with a rope."
FOSTER B. CRUTCHER
"Crutch"
(1892-1915)

Hails from the broad flat lands of Newton, Mississippi, where he was born on September 16th, 1892. Attended the Webb Preparatory School and decided to make engineering his vocation, coming to Tech in 1911. 'Varsity Football Squad, '12-'13-'14; Class Football, '11-'12-'13-'14; All-Class; '12, '14; Member A. I. E. E.

"I may not be handsome, but I swear that I have a distinguished look."

JOHN MILTON CULTIFF
"Milton"
(1894-1915)

Vows that his birthplace and home is at Albany, Ga., where he was born one hot July afternoon about the 18th. Prepied at the local High School and began his engineering and social duties in the Fall of 1911. Glee Club, '13-'14, '14-'15; Tech Bible Class; A. I. E. E.

"A human face is the masterpiece of God."
Fred Wiggamore Darby
"Fritz"
(1890-1915)
Says that he was born in Monroe, Georgia, on the twentieth day of January, 1890, but nevertheless, he hails from Vidalia, Georgia. Not satisfied with the learning he derived from Vidalia High School, he went to Mercer, from where he came to Tech, entering in the Fall of 1911, and at once becoming a star in the shark world. Student Member A. I. E. E.; Honor Roll, '13-'14.
“Ignorance is the curse of God,
Knowledge the wing wherewith we fly to Heaven.”

Charles White Franklin
“Snookums”
(1895-1915)
Blew into this world at about the time Tech was opening in 1895, September 13, and for all that unlucky birthday, he made his way thru the country school of his home town, called Statesboro High School and from thence managed to spend four very advantageous years at Tech. Student Member A. I. E. E.; II K Φ.
“Thinking is but an idle waste of time.”
Benjamin Jones Gantt
“Sprog”
(1895-1915)

Got his first good night’s sleep in Macon, Georgia, and although he should have known better, has lived there from March 11, 1895, to the present day, passing thru Gresham High School and coming to Tech in the Fall of 1911, to the delight of the town girls.

Mandolin Club, ’12-’13-’14; Glee Club, ’12-’13-’14-’15; Manager, ’14, President, ’15; Assistant Cheer Leader, ’14; Junior Marshal, President Class, ’14; Bull Dog; Koseme; Anak.
A T Ω.

“Let us rest under the shade of the trees.”

Ray Price Glover
“R. P.”
(1893-1915)

Ray was first sighted in Salisbury, North Carolina, on October 9th, 1893, and continued to stick by his home town by going thru the Salisbury High School, but the call to Tech was too strong, and he deserted his home state to enter Tech in the Fall of 1911. Honor Roll, ’12-’13-’14; Scholarship “T” ’14; Student Member A. I. E. E. Φ Κ Φ Fraternity.

“He that hath knowledge, spares his words.”
SAMUEL GORDON GREEN
“Shorty”
(1891-1915)

Born in Wayside, Georgia, on the fourth day of February, 1891. Began growing very early, continued it thru Green’s High School, was still growing when he entered Tech in 1911, and had such long pockets that he had to take the quartermaster’s job to keep them full.

“T long, lean, body, but one that hath,
Methinks, a mint of learning.”

MAURICE JOHNSON HATHORN
“Bones”
(1890-1915)

A product of the Gate City, born and raised. Prep’d at Boys High School, Atlanta, Georgia, and entered Tech in 1909, but felt the call of the coin, and left in his Sophomore year. However, he soon found that it was easier to attend Tech than to work, so he re-entered in 1912. Senior Electrical Society.

“Yon Cassius hath a lean and hungry look.”
PHILO HOLCOMB, JR.
“Shorty”
(1893-1915)

First gazed down upon his worldly brothers of Atlanta, Ga., May 25, 1893, and since then has been gazing down upon them from even a loftier height. Prepared for his collegiate struggles at Tech High School from which he entered Tech in 1911. A. I. E. E.; Acis.

“He stoops to conquer.”

CLARENCE LUMPKIN JORDAN
“Smooley”
(1896-1915)

Born in Monticello, Ga., but moved to Atlanta as soon as he was old enough to know better. Wrote his first limerick on May 29, 1896. Prepped for Tech at the Technological High School and enrolled with the present class in the Fall of 1912.

Class Track, ’13-’14-’15; Varsity Track Squad, ’13-’14; Assistant Business Manager Yellow Jacket, ’13-’14; Yellow Jacket Staff, ’14-’15; Technique Staff, ’13-’14-’15; Blue Print Board, ’14-’15; Grady Literary Society; Commencement Debate, ’13; Intercollegiate Debate, ’14; President Delphian Literary Society, ’14-’15; Marionette, Cast “Electricity”; Poet of Senior Class; Cotillion Club; S. E. E. X Φ.

“I dare not to write as funny as I can.”
WILLIAM VAIL LOVELL
“Bill”
(1893-1915)
Born at Leesburg, Florida, but soon moved to Sanford, Florida, where he prepped at the Sanford High School. Began his college education at Stetson University, but decided that Tech was the better school, and entered the Junior Class in 1912. Was out of school one year and then returned to graduate in '15.
“Ye thought? Ye are not paid to think.”

RALPH GLENN MALONE
“Boots”
(1892-1915)
First heard of at Villa Rica, Georgia, on the twenty-ninth day of December—came near being a Christmas present. Prepped for Tech at Villa Rica High School, and came here in the Fall of 1911, to the joy of Coach.
Class Baseball, '13-'14-'15; Varsity Squad, '13-'14-'15; Junior Marshal; Prom Committee; Honor Court, '13-'14; Scholarship "T"; Manager Football, '14; Senior Class Historian; Anak. Σ Φ E.
“Let us eat, drink, and be merry, for to-morrow we may die.”
Earle Williams Marvin
"Cole Blease"
(1892-1915)

Grinned for the first time on June 12th, 1892, at White Hall, South Carolina, where he prepped at White Hall Graded School, and came to Tech in 1911, to grin some more every time he is called a German. Student Member A. I. E. E. Acis. "As if man were created to no use, But only to show his teeth."

Edgar Burwell Montague
"Monty" "Eddie" "Midget"
(1891-1915)

Came to the realization that he was cut out for more than the ordinary April 25, 1891, at Richmond, Va. Later moved to Atlanta where he has been a shining light ever since his prep school days at Boys High School. Entered Tech in 1911 to pursue a course in Electrical Engineering and athletics.

"Born for success he seemed.
With grace to win, with heart to hold."
JAMES MARSHALL NORMAN  
“Jim”  
(1893-1915)  
Deigns to call Atlanta, Ga., his home where he was born under the parental roof, December 14, 1893. Attended Tech High School and entered Tech 1911. His intellect runs toward Electrical, that is, certain currents of it. Junior Marshal; Acis Society. A II A.  
“I am not in the roll of common men.”

DILLON OLIVER RAFFO  
“Jack”  
(1893-1915)  
A small, but cute product of the sea coast. Born on St. Simon’s Island, September third, 1893, but adopted Brunswick, Georgia, as soon as he could attend school. Preped there at Glynn High School and came to Tech in 1911.  
Glee Club, ’11-’12-’13-’14; Honor Roll, ’11-’12; Honor Court, ’13-’14; Band, ’11-’12-’13-’14-’15; Acis. A II A.  
“Might not a child of good discretion Be leader to an army?”
JESSE COLUMBUS REED
“Jesse”
(1892-1915)
Born at Eton, Georgia, May 26, 1892, and determined to be a soldier boy, prepping at Eton Military Institute, but soon decided that it was better to engineer than to fight, so he moved to Tech in the Fall of 1911, and began to engineer.

“He never did harm that I heard of.”

JOHN MILTON REIFSNIDER, JR.
“Reif”
(1892-1915)
The momentous event, at least in his life, happened in February of 1892, in the old town of Westminster, Maryland. He began his education at Westminster High School, but felt the lure of the Sunny South, and came to Tech in 1911.
Class Football, ’11-’12, ’14; Manager ’12; Class Baseball, ’12, ’14; Manager ’12, ’14; Manager Varsity Baseball, ’14; Yellow Jacket Staff, ’12-’13; Vice-President Student Association, ’12-’13, President, ’13-’14; Honor Court, ’12-’13-’14; President, ’14; Secretary Class ’14; Vice-President Y. M. C. A., ’14; Dormitory Inspector; Assistant Superintendent Dormitories; Instructor Civil Engineering Department, ’14-’15; Koseme, Anak, S. M. E., A. I. E. E. K A.

“But I have lived, and have not lived in vain.”
THOMAS GRAYSON SEIDELL
“Doc”
(1881-1915)

Began using a “slip stick” in 1881, at Salisbury, North Carolina, and continued to work for awhile. After showing the engineers of all Carolina how to engineer, he decided to come to Tech and show the professors here a little bit. No sooner said than done, and he was enrolled in 1912. Phi Kappa Phi Honor Fraternity.

“Mieux vaut tarde que jamais.”

BLANCHARD DRAKE SMITH
“Polly”
(1894-1915)

It is claimed that he started asking questions in LaGrange, Ga., on November 25, 1894, and he stated that he still lives there. However he exhausted the supply of answers at both LaGrange High School and Emory, then came to Tech in 1911, to pester H. P. Wood.

Track Team, ’12, ’14; Track Squad, ’13; Varsity Football Squad, ’13, ’14; Class Football, ’12, ’13, ’14; holder Tech Pole Vault Record Co-tillion Club; Kosome; K. A.

“For the more you have known of them, The less you settle to one.”
PERCY FOREACRE SNEED

"Percy"

(1894-1915)

Born February 8, 1894, at Garrett, Indiana. Moved to Atlanta, where his choice of prep schools has been, University School for Boys, Georgia Military Academy, Boys High School, Tech High School, Peacock School.

Records in Mess-Hall; Class Football, '11, '13-'14; Varsity Football, '15; Class Track, '11, '13-'14; Marionettes Cast "Electricity." K A. "Fair Venus with Adonis sitting by her

Under a myrtle shade, began to woo him."

JOHN J. STRICKLAND, JR.

"Strick"

(1893-1915)

Ye gods, he admits that he was born in Athens on the 20th of April, 1893, not only has the nerve to admit it, but claims that he attended high school there, and still lives there! Come to Tech in 1911.

Junior Marshal; Class Basketball, '12-'13-'14, Captain, '13, Manager, '14; Vice President Y. M. C. A., '13; Mandolin Club, '11-'12-'13-'14; Secretary Student Association, '14; Honor Court, '12, '14, Vice-President, '14; Vice-President Cotillion Club; Vice-President Koseme; Bull Dog; Anak; A. I. E. E. X Ψ.

"The hairs on thy head are numbered."
LOWELL SYLVESTER TERRELL  
"Terrell"  
(1892-1915)

First opened his eyes on the old red hills of Clayton county, Georgia, where he continued to keep them open through Old Oak College, and closed them for the first time in the Sub Class of Georgia Tech in 1910.

"All things I thought I knew, but now confess,  
The more I know I know, I know the less."

JOHN WALTER TURNER  
"Doodles"  
(1894-1914)

When you are in Rome, Ga., do not do as Romans do or you will have to carry around a step ladder to mount the car. "Doodles" is exactly the same size now that he was on February 15, 1894, and he has been away from there, at Tech, for the better part of four years.

Class Football, '11, '12, '13; Y. M. C. A. Cabinet; K A.

"O Rome, Rome, thou hast been a tender nurse to me."
VICTOR GRAVES VAUGHAN
“Tex”
(1894-1915)

Born in the wild and wooly west, San Antonio, Texas, on March 11, 1894. Claims to have punched cows during his off time at Wolf Vocational School, but nevertheless, sought a civilized place like Georgia Tech to finish his education.

Class Basket-ball, ’12, ’13, ’14, ’15; Varsity Basket-ball, ’14; Class Football, ’14; Texas Club; S. A. I. E. E.

“And thou art long and lank and known a true production of Texas.”
ROBERT LEE BANNERMAN
"Bob"
(1893-1915)
Born at Meridian, Florida, on March 14, 1893. Received his preparation at the Leon High School, Tallahassee, and entered Tech in the fall of 1911.
President Society of Civil Engineers; Florida Club; Acis; A II A.
"The silence often of pure innocence Persuades when speaking fails."

CHARLES MILLSAPS BUTTERFIELD
"But" "Shy"
(1893-1915)
Entered the walks of life April 24, 1893, at Norfield, Mississippi, but migrated to Brookhaven in the same State which Vardeman has placed on the map. Tired of walking he founded the N. C. & M. R. R., with which he has worked (or worked) every summer. Prepared at the West Military Academy, San Antonio.
Vice-President Mississippi Club; Treasurer of Civil Society; Marionette Cast, '14, "The Magistrate;" Marionette Board of Control, '15.
K Σ.
"There's gold, and it's haunting and haunting;
It's luring me on as of old;
Yet it isn't the gold that I'm wanting
So much as just finding the gold."

JAMES HARRISON CLAXTON
"Jimmie"
(1894-1915)
Born and reared in Montezuma, Georgia, April 6, 1894. Prepared at the Montezuma High School and entered Tech in the fall of 1911. Society of Civil Engineers; Acis Society.
"Now I aren't no 'and with the ladies.
For, takin' 'em all along,
You never can say 'till you've tried 'em
An' then you are like to be wrong."

HERBERT WILLIAM HUNTER
"Herby" "Xmas"
(1893-1915)
First saw the glories of the sunlight October 16, 1893, at Memphis, Tennessee, and has been glorying at it and numerous other things since. Prepared at the Memphis High School and the Savannah High School. Vice-President Civil Society. Σ N.
"No profit grows where there is no pleasure ta'en
In brief, sir, study what you most affect."
WALTER MCCLAREN ROBINSON
"Count"
(1894-1915)

Took his first jump into this world August 20, 1894, and has been jumping ever since, through Boys High School and then to Tech in the fall of 1911.

Varsity Track Team, '12, '13, '14, '15; Captain, '15; Manager, '14; Manager Class Track, '14; Senior Ring Committee; Junior Prom Committee; Junior Marshal; Cotillion Club; Koseme; Bull Dog; Anak; Society of Civil Engineers. K A.

"Story? God bless you! I have one to tell you, Sir!"

GEORGE HARTMANN SPARKS
"Shorty"
(1892-1915)

Made his first appearance at East Point, Georgia, on the fifth day of December, 1892, and though he was near a good place to live, continued to stay there. Being a man of great brain, he decided to enter Tech without any prep. school training in 1911.

Track Squad, '13, '14; Class Track, '13, '14; Assistant Manager Track, '14; Manager, '15; Civil Engineering Society; Acis.

"He that maketh sparks flash from his feet, Hath, methinks, spent too much time thereon."
WALTER ARCHER TROY
“Wat”
(1893-1915)

Howled for the first time in Montgomery, Alabama, on the 24th of October, 1893, but being young and knowing no better, moved to Macon where he attended Lanier High School and entered Tech in 1911.

“A cheerful disposition is a fund of ready capital.”

LINTON GARNER WATTERS
“Duck”
(1890-1915)

Made his first survey on October 1st, 1890, near Rome, Georgia. Prepared at Floyd County Model School and tutored privately. Having nothing better to do, after this he worked two and one-half years, and entered the Sub. Class at Tech, February, 1911.

Class Football, ’11, ’12, ’13, ’14; Class Baseball, ’11, ’12, ’13, ’14; Scrub Football, ’11, ’12, ’13, ’14; President Rome Club, ’15; Society of Civil Engineers. A II A.

“His corn and cattle were his only care,
His supreme delight a county fair.”
ISHAM FAISON WITHERINGTON
"Doc"
(1890-1915)

Born twenty-four years ago at Faisan, N. C. Prepared at Faisan Military School and entered Tech in the fall of 1912.

"A merrier man,
Within the limit of becoming mirth,
I never spent an hour’s talk withal."

CLYDE MATHESON WOOD
"Grandpa"
(1890-1915)

Was born in Macon (Georgia) about the time that aforementioned city first started the question of obtaining the capitol, some twenty-five years ago. Entered Tech as a sub in 1906. First prepared at G. M. A. and later at Locust Grove.

Quartermaster, ’13, ’14; ’14-’15; Honor Court, ’14-’15. II K A.

"I wish I was a little rock, sittin’ on a little hill;
Not doin’ nothin’ at all, but jus’ a sittin’ still;
I wouldn’t sleep, I wouldn’t eat, I wouldn’t even wash—
I’d jus’ sit still a thousand years and rest myself, b’gosh!"
BENJAMIN SEAY BARKER, JR.
"Ben"
(1893-1915)
Made his first jacquard design September 10, 1893, at that ancient city called Rome, Georgia. Spent part of his youth at this place and then moved to Gainesville. Preped at Peacock School and entered Tech in 1910.
Society of Textile Engineers; Class Baseball, '10-'11; Class Football, '15; Cotillion Club, Φ Κ Σ.
"His only books were women's looks And all they taught were folly."

JOSEPH CHRISTOPHER BROADNAX
"Brody" "Joe"
(1893-1915)
Born in Greensboro, Alabama, on the seventh day of January, 1893. Later made his home 'neath the parental roof at Ensley where he attended the local schools and entered Tech in the fall of 1913.
Class Football, '13, '14, '15; Class Baseball, '14; Class Basket-ball, '14, '15; Assistant Postmaster, '14; Postmaster, '15; Marionettes Cast "The Magistrate," '14; Marionettes Board of Control, '15; Advertising Manager Marionettes, '15; Delphian Literary Society; Society of Textile Engineers. Σ Φ Ε.
"Money is success."
CHARLES FRANKLIN BURNEY
“Cholly”
(1894-1915)

Reared and raised within the city limits of Monticello, Georgia, where he spent many happy hours before the desire for a textile education overcame him. Left the parental abode in 1910 to come to Tech after receiving his preparation at Monticello High School.

Class Football, '10; Committee for Draughting By-Laws and Constitution for the Textile Society; member of Society of Textile Engineers.

“I dare do all that becomes a man, He who dares do more, is none.”

ROBERT ALBERT CAMP
“Bob”
(1894-1915)

Has put in twenty years of his life since his natal day, November 19, 1894, at Winder, Ga. Prepped at Riverside Military Academy and came to Tech in the autumn of 1911.

Class Football, '11, '14; Scrub Football, '14; Class Baseball, '11, '14; member of Textile Society; Cotillion Club. ΠΚΑ.

“Thinking is but an idle waste of time.”
PAUL FARKAS
"Paul"
(1892-1915)

Born at Albany, Georgia, on August 3, 1892. Prepared at Albany High School and the University School for Boys.
Society of Textile Engineers.
"Work is the keynote of all success."

LEON AUGUSTUS GRAYBILL, JR.
"L. A."
(1890-1915)

A real Georgia cracker from Oconee where the sun cast its first rays on him February 26, 1890. Tiring of the red hills of his native heath and seeking the gay white lights of a great city he entered the Freshman Class about 1910. Preped at Georgia Military College.
Class Football, '10, '11, '12, '14; manager Band, '13, '14; Textile Society. 

"Oh! Hell, I ain't got no motto."
JOHN MILTON ROBINSON, JR.
“Robby”
(1892-1915)
The swamps of Louisiana, somewhere in the vicinity of Bayou La Chute, concealed him from the time of his birth in December, perhaps the 21, until the time he entered Castle Heights School and came from there to Tech in 1912.
Member of Textile Engineers Society; Cotillion Club; Bull Dog.
A T Ω.
“Pass if you can, if you can’t, change your course.”

JOHN RAYMOND ROBSON
“Noise”
(1894-1915)
A product of that historic town by the sea, Charleston, where he first peeped on February 25, 1894. Attended the Charleston High School and attained his military carriage from Staunton Military Academy.
Society of Textile Engineers, A II A.
“Give me quiet above all things,
No signs of dissension or strife.”
JOHN ANDERSON SIMMONS
"John" "Indigo"
(1892-1915)
Spun his first yarn at Monticello, Georgia, on the 19th day of September, 1892. Later moved to East Point, just outside the city limits of Atlanta, where he attended the East Point High School, and entered Tech in 1911.
President Textile Engineers Society, '15.
"My son, if you would be a wise man,
Let your ears grow, and tie your tongue with a rope."

WHITELAW REID STUMBERG
"W. R."
(1892-1915)
Listened to the cry of the coyote from beneath the coverlets August 12, 1892, at San Antonio, Texas. Prepared for Tech at Saint Mary's College, San Antonio and entered the Freshman Class in 1912.
Society of Textile Engineers; Texas Society; Class Football, '12, '13; Class Basketball, '13, '14. Φ Κ Φ.
"I like the man who faces what he must
With step triumphant and a heart of cheer."
VAN NOY WIER
“Happy”
(1891-1915)

Born at Greenville, South Carolina, April 4, 1891, but when a mere child was persuaded to move to Athens. Being constantly in touch with the University he came to Tech in 1911, thereby showing the excellent training received in the Athens High School.

Technique Staff, ’12-’13, ’13-’14; Circulation Manager, ’14; Circulation Manager Yellow Jacket, ’14-’15; Vice-President Textile Society, ’14-’15; Senior Emblem Committee; Secretary Pan-Hellenic Council, ’14-’15; Glee Club, ’12, ’13, ’14, ’15; Manager of Glee Club, ’15; Cotillion Club. K Σ.

“When I work, I work
And when I play, I play.”

Aren’t college annuals this year full of this kind of scope? Eh?

1915
JAMES JOSEPH WALTON BIGGERS
“Jim” “Jimmie”
(1893-1915)

Born at Columbus, Georgia, on the tenth day of January, 1893, and prepared for Tech at the Industrial High School of said city, from which he entered the Freshman Class in 1911.

Class Football, '13, '14; Class Basket-ball, '13-'14; Orchestra, '11-'12; member of Acis Society; K. K. K.; Architectural Society.

“You ought to be quiet and do nothing rashly.”

EDWARD LYNN DRUMMOND
“Lynn” “Yiddisha”
(1890-1915)

Drew his first cartoon on the side of his crib on the 8th day of a hot August afternoon way back in 1890, at Savannah, Georgia. Entered Tech in 1911 and left in 1913. Came back in 1914 to finish. Preped at the Savannah High School.

Historian Freshman Class, '11-'12; Secretary-Treasurer Savannah Club, '11; Glee Club, '11, '12; BLUE PRINT Board, '12, '13, '14; Staff Artist, '14; Mandolin Club, '12, '13, '14; Leader Mandolin Club, '14; Staff Artist YELLOW JACKET, '13, '14; President Garret Rats; Dramatic Club Cast, “Brown of Harvard,” '13; Vice-President Savannah Club, '14; Marionettes Board of Control, '14; Architectural Society; Koseme. Σ Φ Ε.

“Look on my works, ye mighty, and despair.”
STEPHEN RALPH FETNER
"Fet"
(1892-1915)
Born at Laurenburg, North Carolina, October 17, 1892. Spent some little time at this place and then moved to Hamlet in the same State. Spent his prep school days at Hamlet High School and entered Tech in the fall of 1911.
Class Football, '13, '14; Class Baseball, '14; Scrub Baseball, '14; member Tech Bible Class; Architectural Society; Secretary-Treasurer North Carolina Club, '14. A II A.
"For thus I live remote from evil speaking."

CHARLES WESLEY FULWOOD
"Charlie"
(1892-1915)
Kicked the slats out of his crib for the first time on August 1, 1892, at Tifton, Georgia. Prepared for Tech at the Tifton High School and came to Tech in the fall of 1911.
Member of Architectural Society.
"Do unto others as they would do unto you,
Only do them first."
GRISWOLD M. HILL
"Gris"
(1891-1915)

Born at Gloversville, New York, two weeks before Christmas, 1891. Preped at the Gloversville High School and seeking a warmer climate landed at Tech in 1911.

Class Football, '11; Class Baseball, '11, '13; Ass’t Mgr. Varsity Football, '12; Cheer Leader, '13, '15; Chm. Freshman Banquet, '11; Chm. Sophomore Banquet, '12; Yellow Jacket Staff, '11, '13; Blue Print Board, '12, '15; Staff Artist, '13; Editor-in-Chief, '15; Sec.-Treas. Junior Class; Sec.-Treas. Senior Class; Vice-Pres. Agricultural Society, '13; Junior Marshal; Junior Prom Com.; Senior Emblem Com.; Pres. Cotillion Club, '14-'15; Advertising Mgr., '13; Bull Dog; Koseme; Sec-Treas., '13. KΣ.

"It is a good thing to be rich, and a good thing to be strong. But it is a better thing to be beloved of many friends."

HENRY HUNTER JORDAN
"Lengthy" "2H"
(1894-1915)

Had his first glimpse of the red hills of his native heath, Monticello, Georgia, the 27th of October, 1894. Preped at the Monticello High School and entered Tech in the fall of 1911.

Architectural Society. Tech Bible Class.

"Success comes only after the hardest of labor."
WILLIAM HENRY KWILECKI
"Count"
(1893-1915)

Bade all howdy at Bainbridge, Georgia, December 12, 1893. Prepped at the Randolph-Macon Academy and seeking higher learning he chose Tech, at which institution he has been seeking ever since. Entered the Freshman Class in 1911.
Architectural Society.
"It's the little things in life that count."

WALTER PERRY MARSHALL
"W. P."
(1890-1915)

Born in Savannah by the sea, December 2, 1890. After finishing his course at the Savannah High School and wishing a profession upon which to lean, he sought the confines of Tech, entering in the fall of 1911.
Honor Roll, '12, '13, '14, '15; Class Baseball, '14; Yellow Jacket Staff, '15; Savannah Club; President Savannah Club, '15; Architectural Society; President Architectural Society, '15; member of Acis Society. Φ Κ Φ. Mention in Society of Beaux Arts Competition.
"Mine honor is my life; both grow in one.
Take honor from me, and my life is done."

1915
ERNEST OREN SMITH
"Smoogie"
(1892-1915)

Yelled for the first time at Dawson, Georgia, August 19, 1892. After yelling for a considerable length of time there, he decided that Columbus was a better place to live, and he now calls that burg his home. Entered Tech in 1911 after passing thru the Secondary High School of Columbus.

Grady Literary Society; Class Football, '14; Glee Club, '13; Architectural Society. agua.

"Alas, he drew so much one day
He failed to draw his breath."

CHARLES STINSON WATTS
"Charlie"
(1892-1915)

Born in the far country of Camden, Arkansas, on May 20, 1892, and invaded both the Camden High School and Hendrix College, before coming to Tech in 1911, changing his home to Atlanta, Georgia.

Cotillion Club; Bull Dog; K. K. K.; Treasurer Architectural Society. H K A.

"Dark eyes sparkled and gleamed,
Many maidens were fair."
HENRY RICHARDSON CLARKE
"Red"
(1892-1915)
Began his existence in Augusta, Georgia, and continued to exist there, going through the Academy of Richmond county, and then coming to Tech in 1911, where he existed well indeed.

Technique Staff, '14, '15; Grady Literary Society, Vice-President, '14; Secretary Tech Bible Class; Glee Club, '13, '14; Emerson Chemical Society.

"Work? Why sure I'll do it."

JEFFERSON BARTOW OSBORN
"Brute"
(1894-1915)
Pulled his first crazy bone in Atlanta, Georgia, and continued to amuse the Atlantans through Tech High School and started it at Tech in 1911.

Cotillion Club; Secretary and Treasurer Emerson Chemical Society, '12; Vice-President, '14; President, '15; Senior Emblem Committee. A T Ω.

"A wealth of witty sayings, of grins and seemly mirth."
WILLIAM ROSCOE TUCKER
“Tuck”
(1888-1915)
Completed his first experiment in Dawsonville, Georgia. Prepared for Tech there and entered as a lowly sub in the fall of 1908.
Freshman Orator; Tech Bible Class; Champion Welterweight wrestler; Captain Wrestling Team; Assistant Physical Director; Class Football; President Grady Literary Society; Intersociety Debater; President Garret Rats; President Emerson Chemical Society.
“From darkness thru battle into light.”
History of Senior Class, 1915

GLANCING down the long, dark corridors of time, I see before me many strange and wondrous events. But the most radical of these events occurred one beautiful September morning in 1910, when a great throng of awkward but ambitious youths invaded the campus amid the jeers and laughter of the recently weaned Freshmen, now proud to call themselves Sophomores. By dint of diligent inquiry and considerable strategy we finally found the registrar’s office. Here, with our hearts in our throats, we were given the “Third Degree;” then after a tearful separation from father’s cash we were announced apprentices.

Our search for knowledge this first year was somewhat hampered by counter examinations in rule book, and purchasing chapel seats and bath tickets. But the greatest impediment to our advancement was an aching void located about the center of gravity of our anatomy. This resulted from our attempts to initiate our tender digestive apparatus to the mysteries of mess hall hash. So when June rolled around the successful candidates for the Freshman class were very, very few; but from all points of the compass came our Freshmen, a great throng of ambitious but misguided youths.

As Freshmen, we soon elected officers and began our work in earnest. We took an active part in class activities, having strong teams in the different branches of athletics. We also furnished a goodly number of varsity men for both football and baseball.

But into each life some rain must fall, according to Longfellow and the Faculty. This was exemplified in our Sophomore year by a cloudburst of Calculus. We fell before it as though it were a pestilence, while its victims were numbered by the score. However, the troubles of the Sophomores are written in many a committee report, so let us recall only one distinctive feature of this year. Our class baseball team won the first championship to fall to our class.

As Juniors we began to develop. School life, like every other phase of life, is a battle. It is a survival of the fittest. So by this time the misfits had fallen by the wayside, and we found ourselves a unit of about one hundred bustling youngsters. Our members were prominent in every branch of student activity. The year was crowned by a successful and elaborate “Prom.”
A Senior, above all things, must be dignified. Hence, as some of us were lacking in that respect, numerous adornments appeared in our midst. The only time we inbent our dignity was on a certain Saturday in November, when it was forgotten in that marvelous pageant which followed the defeat of our ancient rival.

But to-day we stand upon the threshold of our college career, and now that all our hardships are but dim memories of the past, we look with pride upon the largest class that has ever received degrees from the Georgia School of Technology. And now that our diplomas are in sight, sweet are the memories that are wafted to us of all our struggles and toils. Though these things are but memories, yet 'tis a pleasure to have them crowding upon us, and in the years to come, great will be our pride to think of the grand old days the Class of '15 spent at dear old Georgia Tech.

R. G. Malone, Class Historian.
T was with that old familiar feeling of a "ship without a sail" that I sat down for the first time, pen in hand, to write the prophecy of the Senior Class of 1915, and it was with about the same feeling that said ship has when it hits an iceberg that I realized that I didn't know how to get the sufficient inspiration. I read and re-read the old worm-eaten volumes of the alchemists of yore, but nowhere could I derive an insight into the future. Finally, as I was blowing dejectedly about the streets of Atlanta, the Rex loomed up large before me. All the weird tales of the drunks I had heard came vividly back to me. "Why not try it yourself?" I asked. No sooner said than done, and I was looking into the depths of my third "light" which was spinning around with a movement somewhat kin to a flying ginny. It was then I began "seeing things." Deep into the whirling vortex of that "light" I saw the old familiar face of none other than our "big league" baseball player, "Shorty" Montague, whose appearance showed his mind to be in a state of perplexity. Being of an inquisitive nature, I finally coaxed him into propounding to me the problem. This proved to be a man choosing his destiny. In fact, it was whether to accept the presidency of the American Bell and Telephone Co., which had recently been tendered him, or to retire from active life. After some time I succeeded in showing him that he would be of more service to his country by accepting the former.

I had no sooner accomplished this, than the best moral man of the class appeared—Bishop Clements. He related to me his experiences at Harvard, having gone there to take a post-graduate course in English before accepting a position of like capacity in one of the "Great Northern Universities."

Being flushed with the "filthy lucre," it being towards the first, I had the order duplicated, and with it went the corresponding tip. While I was wondering who would be next, it arrived, being set down with a healthy thud, jarred Ribble and Carman from their peaceful slumber. Their paths had indeed been rosy, for, after working a couple of years to get some practical experience in Mechanical Engineering, they bought the controlling interest in the Oceanic Steamship Company, and were now living high on the profits derived therefrom.

Look who's here! Our poet, Clarence Jordan. For him, nothing but success could have come, being possessed of such talent that Homer's
work faded into insignificance when compared to his. He writes poetry for a living and does electrical work as a side line.

"Hello, Senator, I knew you would be here. I suppose you have been detained by the ladies." I was mistaken, he had been in conference with the "Big leaguers", and signed to play with the Boston Nationals. You knew him as a quarter back, you also know him for the numerous things that he has done for Tech. 'Nough sed, predict what his future will be yourself. His only regret was that he could not take the "Shacks" with him when he left here.

This glass contained such "quality" that it was impossible for me to stop, besides it was only ten o'clock, much too early for me to seek the companionship of my boudoir. I was repaid thrice for my "bean," as this one continued to present such prominent men as Ballew, Gantt, Osborn, and Drummond.

Walter Ballew seemed very much at home here as signified by his loquacious laugh and sparkling eyes. As chief engineer of Stone and Webster, he didn't intend for me or any of his subordinates to see him here, but I promised not to squeal.

Ben Gantt, our handsome Senior, has succeeded in making Gantt Mfg. Co. one of the largest in the world, having as his chief adviser, a certain professor whom he had formed his love for while being instructed in electrical traction at Tech.

Lynn Drummond is the guy that put the "arc" in architecture. Besides being the foremost architect in the South, his designs cover the Saturday Evening Post. Playing the guitar is his chief amusement.

"Yea, verily, bring forth a bat, a smoke, or rat." Our old friend, Brutus Osborn. He first took an advanced course in chemistry at the University of California. From thence he wandered to South America. Here he discovered that the Amazon is covered with radium, and I last saw him trying to formulate a scheme to obtain this without disturbing the relative position of the molecules of water. The only reason I could assign to this was because if he disturbed the water, he couldn't see the much longed for, ray-dium.

Glass of suds No. 6, recalled the stage of a movie theatre. The curtain rose and out stepped "Doc" Witherington, clad in a palm beach suit and straw hat, accompanied by six chorus girls, who proved to be Claxton, Benton, Raffo, Tucker, Marshall and Graybill. The orchestra (a piano and kettle drum) began. Doc and his crew sang, "All Dressed
"Up and Nowhere to Go." On seeing me, he came down and gave me the glad hand. When I asked him "Why this masquerade," he grew very angry at my kidding his "act." With that I took another swig and the vision was gone.

What is this I see? I asked myself as a street scene appeared before me with a taxicab in the lead. Surely that isn't "Dutch" Goldman at the wheel. Yet that's who it is and it seems as though "Dutch" was making good use of "A. G.'s" training. A greater surprise awaited me on the interior. There I saw "Wat" Troy and "Peck" Parker riding in high style. They paused long enough to tell me their form of labor. Both had long since put engineering aside for the footlights. "Wat" had become Gaby Desly's side partner in the greatest hit of the season and "Peck" was manager of the company.

I was now reaching the point where I could see things constantly. "Shorty" Green's life appeared. He was back on the farm but still had the habit he found at Tech of raking in the coin. I found him, not in overalls, but clad in togs of the latest style and as overseer of a great plantation. He refused to take all the credit of success but very modestly attributed it to Fritz Darby, his chief engineer. The scene now shifted to a cotton field, where I saw "Shark" Darby pulling a gee line over a hay burner.

Our old colleague Hill came next. Gris was editor-in-chief of the Gloversville (N. Y.) Semi-Annually, having put to a good use his early experience as editor-in-chief of the Blue Print.

My mind then wandered back to Georgia Tech where I had a vision of Reifsnider, sitting in a nicely furnished office, over the door of which was a sign "Civil Engineering Department." Reif was now the head and whole cheese of the C. E. Department, and there he sat shooting the same line and seeming as happy as ever.

A "Victory" tobacco salesman was the next person I beheld, in the form of Joe Broadnax. The textile industry having become crowded he "discarded" the cotton business, and took a more lucrative position, similar to postmaster.

The clock struck eleven, and I made my way, with the assistance of the walls and railing to the street, where I hailed a passing cab. From then on, all seemed blank, until the eight o'clock whistle aroused me from my slumbers of the morning after the night before.

R. A. CLARK, Prophet.
Senior Class Poem

Seniors, Life's great gates are open and her streets are gay bedecked,
Will you thru then fearless, shoulders squared, and head erect?
Or like some forgotten weakling, fall beneath the mystic spell
Of a fair, alluring garden—where the pleasure seekers dwell?

Engineers should have ambition, God has given them ideals,
Inspiration that's unequaled, when a man's own body feels
Part of some colossal structure stretching upwards to the sky,
Victor of some raging hill-stream where the hidden powers lie.

Builder of some giant network giving light to worlds of men,
Guard of never-tiring engines clearing paths where swamps have been,
Architect of pace and progress; men who know, and think, and feel,
Not mere cogs in Life's great gristmill, but the power at the wheel.

Engineers, your country's people look for progress from your hand,
Every resource, hid for ages, in some undeveloped land
Is your thesis. Will you take it, or like thoughtless men refuse
All the wealth which God has given you ability to use?

'Tis no easy, short-lived battle, this great light of Life—but long—
And the weaklings must surrender, giving place unto the strong.
Architects of your own future, you can make it what you will,
Make your name the finished product or the chaff within the Mill.

Seniors, make your watchword—Honor—Give your life a deal that's square.
Build at once on firm foundations, that your future may be fair.
Work to-day, that in the Dreamtime all your cares may fade away
In the hopes of bright to-morrow and the dreams of yesterday.

Totals—Tech 209—Total—Opponents 40

Captain Fielder came to the realization of the fact that he was a pig-skin artist about the middle of the 1912 season. Each year he has been coming back stronger and stronger and more experienced than ever. He is always in the thickest of the battle, encouraging his men and showing great fighting spirit. He is one of the fast men of the team and when he hits there is nothing else to do but give way. “Wooch” was as good a captain as a Tech team has ever had and will be greatly missed next fall.

When the time came to elect a captain for the 1915 team, “Froggie” was chosen without a dissenting vote. While only a first year varsity man, being ineligible his first year in college, he is without a doubt the logical man for the place. All season long it has been his great generalship and field maneuvering that won many a game. Our only score against Georgia came as a bit of strategy on his part. Besides being a heady player he is a powerful runner and a very good kicker. Great things are expected of him next fall. We look to you as All-Southern, “Froggie.”
Talley was seriously handicapped this year on account of an injured shoulder received during the last season. He is one of the men who has made people take notice, and is destined to do so again. He brought special attention to himself in 1913 by his line plunging. He is a big man, heady and is a pastmaster at forward passing. Talley has two more years at Tech and his prospects are of the brightest.

Patten was in better condition this year than the previous season, and his playing was spectacular throughout the entire fall. He was one of the best ground gainers that the varsity had, and could be depended upon whenever the occasion demanded. He is a fierce runner and of the hardest type to tackle. Unfortunately he will not be in college next year, but has taken up the harder scrimmages of life.

“Big Six” gets our palm as the gamest and grittiest man that ever donned a pair of moleskins. From the first blast of the whistle he was in the thickest of the fray, fighting with the greatest of vim and that never-say-die spirit. His very presence gave confidence to the rest of the team and he could be depended upon to do the lion’s share of the work. He is not only a leader on the gridiron but in the class room as well. A serious injury in the Georgia game may keep him out of next fall’s line-up, but we sincerely hope that he is back to give all he’s got.

This was Lang’s second year on the team. Last year he played a guard, and this year he was used at the same position. He is one of the biggest men on the varsity, not only in stature but in spirit as well. “Bob” gets his dip this June but it is to be hoped that he returns—to be one of the mainstays of the team.
Preas was not declared eligible to play with us until after the football season was well off the map, so he did not get much of a chance to show his prowess except in one or two games. Nevertheless everyone knows what he is capable of doing if given the chance. He has three more years yet to play, so look out somebody! We’re looking at yer Jim, so give ‘em all you’ve got. He is one of the best all-round athletes in College.

“Big Jim” proved to be the sensation of the season when it came to bucking and real, sure enough line plunging. As termed in one of the local papers “Satellite Senter,” he certainly lived up to the name and proved to be the star in many a game. He crumbled the Auburn line as it has not been crumbled in many a day, and went through it at will. This is Jim’s first year as a varsity footballist and he can be depended upon to be a mainstay for several years to come. He was picked on Coach Heisman’s All-Southern for an end. He is a good track and basket-ball player as well.

Sneed showed better form this year than ever before and by good consistent work won a place on the varsity. He is about the best man physically in college and his ability to handle himself as a lineman can best be attested to by asking some of his opponents. He, too, has played his last for Tech for he gets his sheepskin when June rolls ’round.

“Cush” played his usual good game at end and half, whichever place he was picked to fill. He was one of the hardest runners and tacklers wearing a Tech uniform, and just about the greatest at gathering in forward passes. Injuries kept him from a good many games, but nevertheless he showed up well enough in the games he did play in to win his letter. “Cush” will be sadly missed when the roll is called next fall as he has also felt the call of the outside world.
Jack is one of the coming men of the team. This is his first year to make good, but we look for something better from him next year. He has the weight and speed and with a little more experience should make a most valuable man.

Spence is a powerful man, always follows up the plays, and what makes him an exceptionally good man is the fact that he has the beef and the punch that goes with it. He played an end most of the season and showed up well considering that this was his first year. With more seasoning he will make a valuable man. Spence has three more years to play and great things are expected of him.

"Gris" played his usual strong game at end, and was one of the mainstays at bucking. His beef and knowledge aided the team materially throughout the season. He is fast and a hard man to down as some of the Georgia and Auburn men will testify.

Churchill, better known as "Pewt" is one of those raw-boned fellows from the districts of West Texas. This was his first year on the team and he showed that he has got the goods by his splendid playing in all the games in which he participated. We look for great things from this big fellow in years to come for he has several more to play.
Mauck played his first college game last fall and if that is an example of what he can do with a little more teaching and experience, all we can say is that we have all the pity in the world for the opposing linemen. This giant is all over at once, using feet, hands and legs to block, and tear through a line—why he makes a line look like a paper bag after an altercation with dum-dum bullets. He is also a good track and basket-ball player.

And now comes "Ole Pep" McCord. This man, gentle readers, was the life of many a battle and was a great help in many of Tech's conflicts as he kept up a running fire of encouragement to his team mates as well as taunts to his opposers. He played at center and filled that position creditably. We are sorry that he will not be back next year to lend a hand. He ought to make a real live wire in the business world.

Tyler was the smallest man on the team when it comes to stature, but he made up for this with his fight and pluck. Out at the first of the season with an operation, he was back in time for the late fall games as aggressive as ever. We extend the warm clasp to this lad. He's fast and clever on both the gridiron and diamond. At quarter or half he was always able to squirm for a gain of some kind.

"Big Alec" as this long, lanky, lean lineman is called to distinguish him from the Coach of same cognomen, was one of the hardest players on the varsity. Always willing to do his best and to exert his utmost, he usually made things hum when he got mixed up with them. This was his second year as a varsity man and showed wonderful improvement over the previous season. Go to it boy, we're for you!
Beard played in hard luck this year and was kept from most of the season's games with a banged-up shoulder. However Paul is a valuable man and given an even break he can be trusted to do his share of the work. We look to him as being one of the big men next season, for he's got the beef and speed.

"Pug," as he is most affectionately called, played a stellar game at center, and given a little more experience will make one of the best in the game. He's a hard tackler, has got the nerve and—well he is just a dern good player that's all there is to it. He's a mighty good baseball man, too.

"Shift Left" 27-56-45-Hike. That's the signal for "Joe" to take the old pigskin and just circle end with an interference of about 'steen men in front of him. And ten to one he gets away for a long gain. It's never known to fail, for when he gets that signal for a sweeping end run he's a goner. He's a hard tackler and even harder to tackle.

We were mighty glad to see "Senator" get his letter this, the last year that he will be with us, for he's a game through and through. He is one of the men who leave us this year, and every one who knows him will be sorry to see him go. He scrubbed for nigh unto four years as hard as any one could scrub and the awarding of his letter was justly deserved.
"Well, boys, the team's going to give them all they've got, now it's just up to you to give the team all you've got"—Uh huh, guess we all did! You just simply couldn't listen to one of Coach's talks and keep from yelling like a Hindoo Indian—maybe that's not some combination, but when Coach Heisman gets around, everything looks different, and acts different, too. He's spirit, himself, and no man, however he may chaff under a deserved "cussin" out, ever forgets, that, though Coach may seem a little harsh on the outside, he's white, clear white inside, and that he's always giving all he's got to Tech.

"Fellows, I haven't got much to say, now, but just watch that team fight to-morrow." That's Alec, old fighter from the start, and its a safe bet he makes that team fight, too.

They're the two old standbys, and they're the two that made the Red and Black bite the dust last fall. Not only do they make the Yellow Jackets invincible on the field of battle, but they're the friends of every student, always ready to help wherever and whenever they can, and not a man ever graduates from Tech that does not wish he was back in Chapel having spirit infused in his bones from the hyperdermic tongues of Coach and Alec, two of the finest friends a fellow ever had!
Varsity Squad, 1914
The Georgia game of 1914 was, as usual, played on Grant Field. According to the "advance dope" Tech had somewhat of an edge, although it would be impossible to find two teams more evenly matched than this classic struggle showed.

FIRST QUARTER
Captain Fielder won the fourth consecutive toss of the season and chose to defend the northern goal. Powell kicked off fifty yards to Fielder, who returned ten. After making first down on short line plunges, Tech was held for downs, and Morrison punted thirty yards to Paddock, who was downed in his tracks.

*Georgia's Ball.*
Paddock hit the line for five yards. Thrash added ten more through the line. Marshburn made five around right end. Thrash failed to gain on two line bucks. Thompson made first down. Paddock made five around right end and added another one around left. A forward pass, Paddock to Henderson, netted five yards. Powell bucked the line for ten yards, bringing the ball to Tech's ten-yard line. On the next play Georgia fumbled and Lang recovered for Tech.

*Tech's Ball* on their ten-yard line. Senter and Goree tried three-line bucks but were unable to make it first down. Morrison punted thirty yards to Hitchcock, who was downed in his tracks.

*Georgia's Ball.* Paddock and Powell were unable to make the required ten yards after four attempts, and the ball went over to Tech on their 35-yard line.

*Tech's Ball.* Senter went through the middle of the line for five. Morrison rammed through guard for ten more. Johnston hit the same place for five. Fielder added four more around left end. Morrison made it first downs through center. Senter hit the line for four yards. Patton made a beautiful run of thirty yards around left end. It was the longest run of the game. Johnston and Goree failed to gain through the line. Morrison made two through center. Fielder went around left end for a touchdown. He added another point by kicking goal.

(Score—Tech 7, Georgia 0)
Powell kicked off thirty-five yards to Fielder, who returned ten.

*Tech's Ball.* Georgia penalized ten yards for holding. Senter got five through the line. Georgia suffered a five-yard penalty for being off side. Fielder made four around left end. The quarter ended here with the ball in Tech's possession in the center of the field.

**SECOND QUARTER**

Morrison, after attempting a forward pass, kicked thirty yards to Powell, who fumbled, Marshburn recovering for Georgia.

*Georgia's Ball* on their twenty-yard line. The Red and Black were unable to make a first down, and Paddock kicked to Tech's thirty-five yard line. Fielder was downed in his tracks.

*Tech's Ball.* Fielder made ten around left end. Senter and Johnston each added a yard. Patten was put out of the game for roughing it and Tech penalized half the distance to their goal. Hayes relieved Patten. After failing to gain, Morrison punted.

*Georgia's Ball* in the center of the field. Georgia punted, after failing in their effort for a first down. And on the second play Tech fumbled, and Georgia recovered. Paddock and Hitchcock worked a forward pass for seven yards, and Powell made a first down through the line. Another forward pass, Powell to Thompson, netted the Athenians fifteen yards, and placed the ball on Tech's 15-yard line. Georgia was penalized fifteen yards for holding. A double pass, Peacock to Powell, netted three yards. The halt ended here with the ball in Georgia's possession on Tech's twenty-five yard line.

**THIRD QUARTER**

Fielder kicked to Powell on his five-yard line, and he returned the oval thirty yards.

*Georgia's Ball.* After several attempts at line plunging, Paddock attempted a forward pass, but Morrison, of Tech, intercepted it.

*Tech's Ball* on thirty-five yard line. Spence and Morrison made a first down on short line plunges. Fielder was thrown for an eight-yard loss. Spence attempted a forward pass, but it was incomplete and Morrison punted fifty yards to Marshburn, who returned five.

*Georgia's Ball* on their ten-yard line. Thrash made ten through the line. Paddock, got five through center. Georgia was penalized five yards for off sides. Paddock and Thrash failed to gain. Thompson added fifteen yards on an end over end play. A series of short line plunges added another first down. Thompson forward passed to Marshburn for twelve yards, Georgia was penalized 25 yards for holding. Another forward pass added five yards and the quarter ended with the ball on Tech's thirty-yard line.
FOURTH QUARTER

Powell punted thirty yards to Fielder, who returned ten.

Tech's Ball on their forty-yard line. Spence bucked the line for four yards and Morrison made it first down through center. Goree hit the line for five yards. Morrison punted to the thirty-yard line out of bounds, and the ball was brought in fifteen for play.

An exchange of punts left the ball in Georgia's possession on their forty-yard line. After failing to gain, Georgia again punted to Fielder. Tech's Ball on their forty-yard line. Spence got through the line. Johnston added six more on a line plunge. Johnston made it first downs through the line. Montague got six around right end. Morrison attempted a forward pass, but Georgia intercepted it. Several substitutions on both sides were made at this stage of the game. It was Georgia's ball on her five-yard line. Numerous forward passes were tried by the Red and Black, none of which were successful. The game ended with the ball still in their possession on their five-yard line.

Final Score—Tech 7, Georgia 0.

When Coach Heisman sent out the first call for baseball candidates last spring over a hundred men responded. In the array of diamond talent were six “T” men of the previous year, including Captain “Murphey” Pound, “Joe” Pitts, “Smooy” Eubanks; the two Montagues, “Edgar” and “Tyler,” and “Wooch” Wooten. With these as a nucleus, it was still necessary to develop two catchers, a twirler, two infielders and a couple of outer gardeners.

We had a good team—there’s no doubt of that—but for some reason or other they didn’t seem able to play the ball they were capable of until the first game of practically every series had been lost.

We won only three series of games the entire season, the Mississippi, Illinois and Alabama series.

Our first game of the season was on March 26th, when Auburn invaded our territory for a stay of two days and a series of three games. It being the first game of the season we could hardly expect to win it—at least we didn’t. The next day we came back at them strong, winning the first game of a double-header, and having the lead in the second when J. Pluvius put a stop to the activities. It was in this game that we discovered we had a real twirler in “Pug” Bryant. He hadn’t given up a hit and during Auburn’s last time at bat struck out all three men.

Mississippi College next invaded our haunt, straight from a couple of wins over Alabama, and with a wonderful twirler in Brooks. Be it remembered that this guy struck out twenty Alabama batters only a couple of days before he hit the Yellow Jackets’ stronghold. We took Mr. Brooks into camp by the tune of 6 to 4. We easily defeated them in the second game—6 to 0.

Illinois was our next victim but they proved worthy opponents. They were on their annual Southern trip and it might be well to state that the Tech series was the only one they lost. We won out in the ninth inning in the first game—go-

1915
ing into the ninth with the score 2 to 1 against us. We got our stingers to working though and nosed home a 3 to 2 victory. The result of the second game was the same as the first, the only difference being in the score, which was 5 to 2. Illinois won the Championship of the West.

As usual, Mercer won the first game of their series, due mainly to the superb twirling of a certain Mr. Hunt. We evened up the count on the second game, but a third and deciding game was not played.

Vanderbilt came next, after a season's absence, and again we lost the first game. Also again we won the second. The scores in both games were rather one-sided, being 11 to 2 and 18 to 6 respectively.

The team then went on a road trip, playing Mississippi A. & M., and the University of Alabama. This trip proved a rather disastrous one for we lost two out of three to Alabama and the only one we played with Mississippi A. & M. Things were looking rather gloomy at this stage of the race, for we hadn't won a series since the Illinois games, and the Georgia games were only a few days away.

Following the Mississippi defeat we returned to our own stamping grounds and engaged the University of Alabama in a return series of two games, both of which we easily won, making the final count in the number of games won against them 3 to 2 in our favor.

The Georgia games were now upon us. As usual the “dope” veered strongly to the Red and Black collegians, although we had long since learned to discard the “dope bottle” when we played the boys from the Classic City. As for the games themselves, probably the least said, the better. They were typical Tech-Georgia games, and by this is meant everything that the term “Tech-Georgia” implies. Georgia won, and with them went the winner’s share of the spoils. They had the best team, and a goodly portion of the grand old luck which follows a winner. It did seem mighty tough to lose that second game in Athens, after holding the lead until the last half of the eighth inning. To “Pug” Bryant goes the honor of winning the only game we copped of the four. He had the Red and Black swatters entirely at
his mercy in the last game, and we are depending on him strongly to “bring home the bacon” this year.

Thus, it will be seen we won three series, lost two and tied three. The season could have been a good deal better, and also—a good deal worse.

Five men will be lost to the 1915 team, but there are as many from last year’s squad and ineligibles that can be counted on to fill the losses.

Track History

In reviewing the splendidly successful track season of last spring, we must give credit to many athletes individually and to the team collectively for setting a standard which will be hard for succeeding teams to equal.

Work began in the early spring with a squad of earnest, gritty Freshmen and loyal upperclassmen. The first year men were always ready and willing to follow the advice and accept the help which the older and the more experienced upperclassmen gave with a willingness which speaks volumes for their college spirit. Five old varsity men were back in harness ready for the first meet and with a firm determination to even up matters with a few who had so gloriously trimmed us in years gone by.

On April 11, the annual Field Day meet was held and all events were closely contested. It was nip and tuck between the Sophomores and Freshmen, the final event putting the class of 1916 ahead by a half point in the final count. Totals—Sophomores 61 1/2, Freshmen 61, Juniors 42, Subs 35, and the Seniors 25 1/2. Churchill broke the college record for the hammer with a heave of 126 feet 8 inches and Preas, a Freshman, broke both the record for the discus and shot-put. His marks in these events were 108 feet 4 inches, and 37 feet 8 inches respectively. All of this was very encouraging and the team got down to real hard work.
On April 25, Clemson came down from their Carolina haunts and the Varsity was determined to retrieve all previous defeats. This they did, a feat that a Tech track team had never before accomplished. Points—Clemson 52, Tech 62.

May 15 and 16 the team journeyed to Meridian, Mississippi, and entered the S. I. A. A. Tech showed to advantage and carried away some of the most coveted laurels. It was at this meet that Robinson broke his own splendid Southern Intercollegiate record in the high jump by setting a mark of 5 feet 11 1/8 inches. Several of the point winners played in hard luck and we were content with fifth place after two days of gruelling work.

On May 22, the first Interscholastic Track Meet was held at Grant Field under the auspices of the Tech Athletic Association and was well attended by the prep schools of the State who sent representatives for all events. Georgia Military Academy won first place after a very spirited contest. This was the first time anything of this nature had been attempted in the State, and was such a success that it was decided to make it an annual event and something that will be looked forward to year after year.

Tech loses only one man by graduation, her stellar captain for two years, "Joe" Logan. His absence will be keenly felt in the dashes and hurdles, but there are several good men in college that with a little training will make valuable men in this department. All of the other varsity men are in college and with this nucleus and promising material from the entering classes, Tech's chances for a winning team are most bright.

CLASS ATHLETICS
All-Class Basket-Ball Team, 1914-15
BASKET-BALL has been struggling for an existence at Tech as a major sport for some time past. Last year the team was a success, but not so the financial end, and it was decided to do away with it this year and try as an experiment the idea of having a class league and to award sweaters to the ones selected for an All-Class Team. The plan worked out very well indeed as far as real lively games are considered and there was great enthusiasm on the part of the players, but the interest manifested by the student body was very poor indeed. Next year some plan should be worked up to get everyone interested.

Practice began shortly before Christmas, but it was not until after the holidays that playing began in earnest, and then there were some rare exhibitions pulled off. Every game was close and exciting from the first blast of the whistle until the timer sounded his blast. To name the class which showed up the best would be quite an undertaking so it will suffice to say that up until the last two weeks things were about even, and then the Sophs and Freshmen began to pull away from the others and it was left to them to play the deciding game. This was the game of games and the one for the class championship honors. With bright visions of class numerals staring them in the face these two teams went at it, tooth and nail, and to draw blood. They did. The detailed accounts of the game show that the score surged back and forth and was tied and untied several times. At last the Fresh team managed by superior basket shooting to forge ahead and remain there for the remainder of the game, and when the referee blew his whistle the score stood in favor of the first year men.

The All-Class Team as picked by Coach Heisman is constituted of the following men. It presents a strong line-up and one that would have ranked well with the other teams of the South if they had been put out as the Varsity.

Center, Senter, '16, Dunwody, '18; Forwards, Spence, '17, Strupper, 18, Golden, '18; Guards, Preas, '17, Johnston, '17; Utility, Phillips, '18; Manager, P. E. Beard.
THE ATHLETIC ASSOCIATION is to be congratulated upon the phenomenal success of class athletics during the past year. Starting with the class baseball games of a year ago, the track season and the football games of last fall and up to the basketball season, this branch has filled a great want and is furthering that long-felt want at Tech—that of Class Spirit.

The Class Football games of 1914-15 showed a marked improvement over those of a year before. The teams were stronger, the games better attended and the interest shown was far greater than anticipated. The season started a week after Thanksgiving and a large crowd was on hand to cheer their respective classes on to victory. In the opening game the Freshmen and Juniors tied up in a 0-0 game. Right here the fun started. The following Saturday also brought forth some fine football, in fact the games played before Christmas were, as a whole the decidedly better of the entire season. The Soph-Fresh game was a battle royal, and if either side had anything on the other it was not apparent to the casual onlooker. The first game ending in a tie, 0-0; it was necessary to play a second game, which also resulted in a tie game.

The Seniors coached by Coach Heisman put out a good team, making up for the rather poor showing of the year previous. They had some good men in Reifsnider, Montague, Parker and others.

The Juniors had one of the strongest teams of the college but just could not seem to get together. Glover, Merrill, Span, Gardner put up excellent games for this class.

The Sophomores had one of the best all-around teams in the bunch, but were greatly handicapped in their last games by the loss of Knapp who sustained a broken leg. Harkins, Meyers, Spengler, Funkhouser and Bird, besides Knapp, deserve especial mention for their playing.

The Freshmen had every right to the best team on account of the first year rule not allowing first year men on the varsity. Beyond a doubt they had the finest material to pick from, and we find such as Barnwell, Strupper, West, Hill, Hall and others putting up ripping good games.

The All-Class team as picked by Coach Heisman is composed of the following, and compares very favorably with the selections of other years:

Center, Fitzgerald, '19; Guards, West, '18, Crutcher, '15; Tackles, Barnwell, '18, Spengler, '17; Ends, Harkins, '17, Meyers, '17; Quarter, Strupper, '18; Halfs, Reifsnider, '15, Hill, '18; Full Back, Glover, '16.

1915
THE one occasion of all others when dignity should have reigned supreme was at the Senior Hop, however, it seemed that the other gods and fates had called a council of war, and the unanimous decision of this immortal gathering was, that dignity should not even be allowed to come to his own party, and so it was that on the second night of Commencement, Taft Hall at the Auditorium-Army was decorated so lavishly that it might have been thought that some foreign prince or crowned head was to make his bow to society. Instead of that however, all these wonderful garlands of wild bamboo and palms and ferns had been collected from various parts of the world to cover the bier of poor old dignity.

As the clock struck the hour of ten, the orchestra struck up the grand march and the president of the class of 1914 proceeded to lead his followers through a series of intricate figures that only he himself knew the solution of and it was due to his skillful leadership that the dancers finally saw that out of this seeming chaos of palm beach suits and evening dresses he had spelled 1914 in graceful letters. The dancing continued until the first peep of day, and then it was that we all hurried home having chased the glowing hours with flying feet and we all knew that there could never be another Senior Hop that would be able to compare with this one, at least not until next year.
THE JUNIOR PROM of 1914 will long be remembered as one of the most humorous and at the same time one of the saddest occasions of the entire Commencement of 1914. The reason for the former was the midway stunts that were carried on on the upper campus, and for the latter was the fact that this was the last time that the Seniors would ever meet together and all join hands and sing Ramblin Reck together before their stern battle of life begun.

At eight o'clock the band played the funeral march and all the seniors fell in behind it and they filed across the campus. Fax Montague then took charge of the ceremonies and all of these things which they most hated were thrown into a pile and so it was that the Senior exercises on the night of the Junior Prom passed into history.

However even though the business of the evening had been transacted the fun was just beginning, for boys were flying to all parts of the campus, announcing the fact that the event of the evening was just beginning, and the crowd filed to the northwest corner of the upper campus where the Great Mellow Drama called "Cross Eyed But True," was played by skilled actors. The country maiden milked a big Bull Durham sign and a dishpan rose for the moon on the treetops, and one of the stars danced with a movement that rivalled any Ingersoll in the world, and the heroine threw snow all over herself and her deserted orphan while her husband smoked up all the wicker furniture in their home. After this wonderful display of histrionic talent the Shack Circus began, and Stanley in his wildest rambles never came across any more varieties of animals than were exhibited in that one collection of Shackites.

After all the shows were over the crowd adjourned to the Crystal Palace to chase the glowing hours with flying feet, finally leaving for home in the early morning hours wishing that it was all to do over again.
S is always the case when Commencement rolls around nothing will do but that the Sophomore class must have a German and as the Class of 1916 was not one bit out of the ordinary in its desires to entertain and to be seen on the ball room floor, at a class meeting held in Chapel it was unanimously decided to give a dance during Commencement. Then there was more squabbling as to the date when the rest of the school would allow these young, ambitious things to parade themselves before the community and say, "Behold your hosts!"

However, it was finally decided to let them hold full sway on the first morning of Commencement, and so it was that when Reg Fleet and his corps of assistants threw open the doors of the Crystal Palace and said to the assembled crowd, "In the name of the Sophomore class I bid you a hearty welcome one and all," we beheld a Crystal Palace that will long be remembered for its wonderful decorations. Wild smilax was strung in four garlands from the corners of the room to a crown piece in the center of the hall and at the end was inscribed in the decorations, 1916 to 1914. Pennants and banners were hung in all the nooks and corners and punch was served from two miniature arbors in the ends of the hall. The Rathskeller Orchestra played their most "favorite tunes and bore down on them hard." Needless to say it was a great success from the Grand March to Home Sweet Home.
If there is one time during the whole year that any of the beautiful girls that Georgia is so famous for, had rather be in Atlanta than any other place in the wide, wide world it is on the night when the fraternities of the Georgia School of Technology all unite to see what splendid host college boys can be. The young ladies from all parts of the southland as well as from Georgia itself, all come to Atlanta on their annual pilgrimage to the shrine of Terpsichore on this night and as a consequence no girl in the south can ever feel that she has made a complete success as a social star, until she has at least one Pan-Hellenic card to stow away in her memory book.

The Pan-Hellenic of 1914 was no exception to the rule on this score it may well be said, and we were all surprised to see the complete change that Taft Hall had undergone when we saw it on the night of this particular Pan, from the Senior Hop of the night before, and now banners bearing the coat of arms of each fraternity had been placed throughout the hall and the orchestra was screened from view by a bank of ferns and palms and from behind this leafy bower the musicians continued to pour forth their favorite melodies until two o'clock and then a hot supper was served by the freshmen of the fraternities, these young Greeks doing every bit of the serving, including the punch pouring, and the answering of the frequent calls for ice water that were heard from all sides.

Finally old Sol rose up in the east to find to his extreme horror that we had been dancing here all night but when we explained the circumstances to him he said that it was perfectly all right since it was a Pan-Hellenic, and so after all the milk men had passed and all the cars had started running we decided that since it was time for breakfast we had better go home too, and this we did, after we had given one last rousing Teckety 'Reck.
THE annual commencement pageant was inaugurated at the Quarter Centennial Celebration, and it was feared by some that this feature of our commencement exercises would pass away with the class of 1914, but such was not to be the case as was demonstrated by the fact that when the first signal was blown for the pageant to assemble the entire student body turned out in costumes that would have done justice to any fete day of the European continent.

First in line was the band, and it was in turn followed by the class of 1914 in their caps and gowns, then came the monstrous exhibit of the "Greater Tech" campaign with thirty of the most stalwart boys in school carrying a sign fifty feet long and written in letters six feet high on which was the motto, "Georgia's Greater Tech." These displays were followed by other views of the campus and pictures of the new power house, the sweeping campaign for this having just gotten under way.

Next in the line of march came the undergraduates and such a display of dazzling color, varied and abbreviated garments has never been seen running wild on the streets of Atlanta, before or since. There were in that line of march Uncle Sams, ballet girls, black face comedians, babies of all ages, nurses, chorus girls, pirates, wild men that chased negro newsboys off of all the uptown corners, policemen that stopped traffic just to let one of the militant suffragettes break up a saloon, uncrowned kings followed by their whole retinue of liveried servants, Father Time was also on hand for his hare of the fun, and the Junior Civil represented Rambling Recks, while the Textiles were imitating the old Georgia Crackers so well that lots of people asked if they had any butter or eggs to sell to-day, and "Oh, how shocking to see that young lady sitting in Nunnally's with such a vast expanse of her limbs exposed to the eyes of the world," but the good old lady was mistaken because it was none other than one of the Freshmen from school.

1915
Immediately facing the exit from the campus, and by the side of the road over which each student plods his way, wearily, or reluctantly, or mayhaps sometimes confidently, to the shops, the labs, and the class rooms—where he has a chance of "escape," or of "shooting," or at times of being "shot."—there stands a building which is a veritable refuge for all who may be moved by need, or drawn by its comforts, to drop there for relief from the pressure of a hard schedule. Well may this building, with its operatives, be called "a house by the side of the road," standing as a friend to every man who will partake of the things it has to offer. When the man just entering school, comes in to inspect its apartments, its social hall, its committee rooms, its offices and meeting places for all student activities, its post office, its lunch room, its shower baths, its game rooms and auditorium, as a Tech man he is possessed by a strong sense of pride in it all; but void of any sense of uneasiness or awe. It is the Campus Home, where all men meet, free and equal, the country lad, in modesty and innocence, and the cosmopolitan youth who think our city slow; the timid Sub and the dominant Soph—to find themselves at home, yea, even in their own home.

But the Y. M. C. A. is not merely a comfortable home—there are other, invisible qualities. It may well be compared to a person, whose features we have pictured, but whose character is not yet revealed. There are in and about this home two men who never weary of being friends to folks. Being friends is their business the year round, and yet they are not friends because it is their business, but they are here because they loved it well enough to make a business of it. They study to know the different ways in which they may be friends to the fellows around. You may call on them at any time for companionship, or to serve your needs. Most of the time they are in the outer office where they may be approached by all.

The Tech Y. M. C. A. is more than a building and leaders. It is a living, pervasive spirit in the life of the school, insistent and invisible as the rising sap in spring, which reveals itself in bud and branch, this spirit reveals itself in kindly actions, in friendly attitude of man to man, in confidential conversation, in college politics aimed at service, in athletics, and intra and inter-fraternity relations, in the publication, in scholarship, in a high sense of a man's honor and worth, in realization of individual duty. Over three hundred men at Tech meet once a week, for most of the year, in groups simply among themselves, to talk over and study the Bible. It means something. This spirit, persistent and lively, finds expression in the clear-hearted, clear-eyed type of man who stands up straight, looks the world in the eye, bears on his strengthened shoulders his full measure of this life's burden and finds a joy in helping the other fellow who needs help.

1915
The Literary Societies

NINeteen HUndred And FiFteen witnessed Tech's first two well-organized literary societies; the Henry W. Grady and the Delphian. Following close upon the defeat of Clemson in an inter-collegiate debate last spring, a second literary society, the Delphian, was organized, but due to the exams, the new society was not realized until the fall of 1914. On College Night, at the beginning of the year, an invitation was issued to all students of Tech to become members of one of the two societies. The opportunity was immediately grasped by a number of students, and from that date, the literary societies progressed rapidly, until now they number nearly one hundred young Demosthenes.

The Henry W. Grady Literary Society took the initiative in making the societies a part of college amusement, by giving a howling comedy, called, "The Trial for Bigamy." This play was such a success that the Delphians followed suit about two weeks later in "A Chicken Thief Married." These two plays were given in the auditorium of the Y. M. C. A., and were written and arranged by the members of the respective societies.

1915
The Gold and White waves proudly o'er a school that's crowned with glory.
Dear Georgia Tech, we to thee, thy praise we'll sing forever.

Sons of Tech will you each strive to make her live in story?
Praise thy colors Gold and White, that were dishonored ne'er....

CHORUS:
Hail to thee our Alma Mater honor to thy name!

We will be, O Tech of Georgia loyal to thy fame.

The Phi Kappa Phi Honor Fraternity

The Phi Kappa Phi is an honor society composed of graduate and undergraduate members of all departments of American universities and colleges. Its object is to emphasize scholarship in the thought of college students and to stimulate mental achievement by the prize of membership.

THE CHAPTER ROLL OF THE FRATERNITY

The Chapter at the Georgia School of Technology was instituted April 3, 1914. The charter members were from the Faculty of the school. Alumni members were elected from the previously graduated classes and undergraduate members from the class of 1914. Each year a portion of the members of each Senior class, who have distinguished themselves in scholarship and in other matters of school life, are to be elected. Election to honorary membership may be made of men who have given distinguished service to the State and to the school.

Possessing somewhat of a timid nature and not caring to get within the camera's rays, our staff photographer, K. A. Merrill, was unwillingly snapped on the campus and we herewith publish his picture. Through his untiring efforts all of the Senior snapshots were taken as well as many of the other snaps used are products of his camera and dark room. We give him all credit for the success of the photographic side of the book.

JACK CALLAN
THE NEWTONS HOLD THEIR ANNUAL MEETING

ELECTION OF NEW MEMBERS.

On April 1st, anniversary of the foundation of the Newtons four young negative exponents of the science of mathematics presented themselves before President Burrus.

The following examination was set, and successfully passed by all candidates:

1. Differentiate \( \log x \) by Burrus method.
3. Prove Moore's factor theorem, and apply to your result Burrus method of simplifying complicated expressions.

Each candidate was next required to present some result of original research.

Summers, R. J., qualified by giving a new method of differentiating \( \log x \).

\[
\frac{d}{dx} \log x = \log.
\]

This theorem was received with applause and President Burrus congratulated the young author heartily.

Tutan; G. W., contributed the following:

\[3-1 = \log.\]

"The proof," said Tutan modestly, "is quite simple and original."

\[3-31-3 \quad \text{Hence by simple multiplication of exponents}\]

\[3-31-3 = 1\]

Tears stood in the eyes of President Burrus as Tutan concluded. Shaking the young mathematician by the hand he assured him, in broken voice, that in thought, con- (Continued on page 4, Col. 2.)

SECOND STORY MEN BREAK Nth COMMANDMENT

CHAPTER HOUSES AT TECH VICTIMS OF ATROCIOUS ROBBERIES.

No less than four Chapter houses have been criminally broken into and robbed in the last year. Such a state of affairs is without a precedent in the history of Tech, and, while the articles stolen were very valuable (?), the indignities placed upon the occupants were such as warrant this article, in hopes that the President will send a company of soldiers down here to protect our students.

The A. T. O. Scare.

Twas somewhere between the mystic hour of midnight and calculus, when Mr. B. J. Gantt awoke from that blissful sleep which is (Continued on page 4, Col. 1.)
In bringing up for discussion a subject, which, while it is a trifle early to discuss it, ought, nevertheless, to be brought before the College now because it is a subject which requires great thought and deliberation and because it is one which must be discussed before any decision can be reached, not only because so much hangs on what is done about it but because also it is a venerable tradition. All customs which have the sanctity of age must have some good in them, else they would not have endured to this time and else they would quickly have been visited with the destiny which threatens all worthless things— they would have been killed, I mean.

On the other hand consider the brutality of the thing. The shedding of innocent blood, the cowardly attacks of men armed with clubs upon poor innocent, defenseless babes in the woods. But to abandon this unseemly jesting, I want to pray you one and all to seriously consider this question which I have submitted, to discuss it with your roommate, with the janitor, with Sambo, with the De- catur street tailors and with all who would not be interested in it. Look at it not only for its bearing on you but for its political, economical and social effects, how it will affect the doctor, the faculty, the druggist.

In conclusion, I earnestly hope that you will all unite with me in gravely considering the abolishment of this pernicious evil.

Compulsory chapel for the dormitory rat is a confabulation co nundrum to us all. Much has been said on both sides; that is, there has been much discussion. We will not treat of the merits of the question, but will content ourselves with answering the objection that no satisfactory substitute for Chapel can be found. After considerable thought, we have hit upon a plan which might serve as a substitute, as complete and revolutionary as it is simple.

Let a well-equipped Big Ben alarm clock be placed in each of the dormitories. At 7:49 let the dormitory assemble in a first floor room and play a game of hearts or set back for order of precedence. The first man will step to the clock and punch it. Immediately a concealed phonograph will render some enchanting and well-loved tune. The patient will then punch the clock again. This will sound a click of hidden mechanism and an excellent photo of the punch will be taken—an ingenuous artifice by which the Faculty may ascertain the completeness or incompleteness of his attire. We suggest the following scales for marks to be worked off on the coal pile:

Hair not brushed or no necktie—½ mark; no shirt—1 mark; raincoat over pajamas—5 marks; room mate's slippers—5 marks. On every other Tuesday, every third Friday and all Chinese holidays such delinquencies will count quadruple.

In complying with Code Section 468 of the Laws of the State of Georgia, requesting every corporation and concern doing business at a profit to submit an itemized statement of the profits realized during the year, we hereby submit the grand profits of the Blue Print to and including the salaries paid the office boys, flunkies, and editor. This official account in the Blue Print is published with a view to putting a quietus on the multitudinous prattlings of certain parties.

FACULTY ESPOUSE

WARRING NATIONS

WATERLOO A NURSERY COMPARED TO THE GIANTIC STRUGGLE OF GRANT FIELD.

McCarthy Fires the Lab. Report
Heard Around the Campus.

By Percy P.
(Staff correspondent for the Blue Print).

(Special bull to the Blue Print).
Grant Field, on time; their tender sympathies, nursed by years of contact with gracious youth, aroused by awful tidings of blood and carnage across the pond, the valiant members of the Faculty, sidling, some with the Allies and some with the Tuscons, repaired to the vestal field of football fame to decide this momentous question.

The Allied forces were the first to take the field, commanded in person by Kink George. The left wing was composed of the English squadrons, commanded by Col. Cornwallis Cockle and Lieut. Pitt Perry. The Speed Kink, commanded by the Speed Kink, composed the center, and the Flying Squadron, commanded by Commodore Perrine brought up the right wing. The rear guard was well reared by H. R. H. McKeen. Truly they presented a formidable sight when Count Kilkem Kirk, of the English squadron, played "England Shave the Queen" on his razoo.

Hearing this hair raising tune, the Germans had a close shave from running, but rallied to the music of "The Watermelon Rhine," and immediately appeared on the field, commanded by Kaiser Coon, himself. Crown Prince Schroeder (Dutch) commanded the left wing, the right and center being commanded by His Royal H goodness Blink and Kink Emerson, respectively. The rear guard, under the supervision of Baron Randall, failed to come up.

No sooner had the armies faced each other than the doughty champions, Count Cockle and Comte Morton, of the Allies, and H. R. H. Blink and Uncrowned Prince Wood, of the Germans, rode forth on bulls to parley voo. After the proceedings had been delayed as long as possible by these great exponents of courage, it was the un-supported vote of all present, except one McCarthy of the Austrians, that peace would be declared. Great rejoicing went round, and said McCarthy, who had been asleep, woke and thought from the delicately dancing figures, that the battle was on. No sooner thought than he girded up his lolas, and hit Kink George with a lab report, said report was heard all around the Campus, and the Allies immediately rushed to the rescue of their Kink. Thusly, unwittingly, and therefore, the bloodiest battle of history was started.

The machine guns of the Allies, supervised by Baron Benbow, opened fire on the German pretzels, commanded by his Royal H generous Heinie, shooting lathes, nuts, screws, etc., with explosive force. Heinie immediately fainted, and Gentlemen Billy took charge out of the german runt guns. "Gentlemen," quoth Billy, "Pour it in er," and directly the german guns belched and yawned whereupon the din was terrific. The battle of guns continued for about ten minutes, when disorderly Neal strode up to Kaiser Coon's tent, and found his July personage, contentedly smoking a corn cob pipe and designating a uniflow engine that would blow up the Allies. Nealing in front of him, Neal made the report that Col. Tobe, of the airmen, wished to go up in a dingyble and drop an electron on the dome of the English squadron. Delighted with the brilliant idea coming so unexpectedly from Col. Tobe, the Kaiser spent a few sleepless moments deciding to let him go up. Up went the dingyble (Ford engine) with brave Col. Tobe, but Lieut. Skiles, of the signal department (Allies) shot a sine and cosine curve at him and brought our hero down in a heap. Whereupon the stout-hearted Germans had another glass of beer around, and rushed to avenge their fallen comrade. Such a charge (leaving out the Quartermaster's) has never been recorded in history! The German left wing charged madly at the Allies' right, whose hero, Commodore Perrine, started the flying squadron, and beat everyone of them to the fence, where, in defense of their country, they mounted to top offense, and hurled direct current down at the invaders, commanded by Crown Prince Schroeder and Uncrowned Prince Wood, they, by coming up the hill a little way and then re-treating a little, did great damage (Continued on page 5, Col. 1.)

NEWSPAPER DOPE.
(Special from our Tifton Correspondent)

Tifton, Ga., Oct. 12th.—Our silver cornet band is soon to burst up. I reckon. Carl Huber who plays the plekedow has struck on helpin' Sum Bloom tew carry the base drum when they ain't playin'. He says if he has tew lug it around he wants the fun of knockin' the thunder out of it.

It will be remembered by the many readers of this paper that the Carl Huber mentioned in the above article was for a number of years the star performer in Romans band at the State Institute for Demented Engineers, at Atlanta.

Wear Bill the Tailor's Hand Engraved Clothes

THE BEST MEN OF TECH HAVE STAMPED ON OUR CLOTHES WITH APPROVAL.
See our beautiful yellow, fivteen-buttoned, lace-trimmed, cotton and canvass fall model. If you buy our suitings you will certainly buy our overcoat to cover it. If you buy our overcoat, you will want another!

WHERE DO YOU BUY YOUR HEARSE?
Racing Motor Hearses!
These hearse, proclaimed in Ro mans band at the State Institute for Demented Engineers, at Atlanta.

DO YOU KNOW THE FUNDAMENTALS OF MUSTACHES?
Howell, Grimes and Perrine (The Alfalfa Trio)
Will demonstrate, inoculate and appropriate. Come to see us. For men only.

ARE YOU A CHRISTIAN SCIENTIST?
NO!
Well you don't have to be to realize why the Quartermaster's is the worst place in Atlanta to sell old books.

"We work for our benefit."
The Quartermaster's Excelsior.

SECOND STORY MEN BREAK
Nh Commandment.

(Continued from page 1, Col. 2.)
only given to the pure in heart and tramps, just in time to see his Sun-
day trousers leg as it quietly went out of the door. Mr. Gantt, being a mild-tempered man, swiftly drew the cover over his head so as to avoid a row, also so as not to be confused in case the burglar was caught. When the receding footsteps announced the fact that the burglar was downstairs, Mr. Gantt arose from his position and proceeded to heat a piece of coal in order to make it hot for the burglar. He then wandered nonchalantly into the room occupied and snored in his Twitty, who thought Gantt a mild-tempered man, swiftly drew out of the door. Mr. Gantt, being a tramp, just in time to see his Sun-
trembled until morning found all of Tad's adherents. Naughty burg-
er, hearing the tooth band come chattering down the steps, betook himself cellarwards, and hid beneath a large pillar therein. Where-
upon the Terrible Three held an impromptu debate on the advisa-
bility of entering said cellar in search of the burglar. After ma-
ture deliberation, and many and soul stretching negative speeches by Mr. Gantt, the Terrible Three hied them bedwards and peacefully trembled until morning found all three sleeping in a 6-inch space in the floor and the door locked, thus preventing Mr. Robinson from taking his cold bath. These are but few of the indignities suffered, the loss, and by the way, it was Mr. Gantt's overalls, and not his Sun-
day pants that were taken, was in-
significant compared to the dam-
age done the nervous system of the Terrible Three; Mr. Twitty es-
cially collapsed in class the next morning when it was announced that in the campaign for the S. M. E. society that he was to "sell-
to the campaign for the S. M. E. society that he was to "sell-
her" stocks.

The Newtons Hold Their Annual Meeting.

(Continued from page 1, Col. 1.)
tent and method the theorem re-
vented him strongly of H. P. Con-
way at his best.
The remaining candidates, O'Kelley, R. E., and Hickman, B. B. presented the following triple play which they executed successfully with the aid of Tutan.
O'Kelley to Tutan to Hickman:
Prof.:—"O'Kelley, what is the equation of the sine curve?"
O'K.—"Well, now Professor, I don't exactly recall the equation but it looks like this." (Draws a circle in the air.)
Tutan:—"(With face aglow with enthusiasm): "I know, Professor, it's y = ex."
Hickman (contemptuously): — "Pshaw, kid, that's a straight line."
President Burrus was all but over-
with this achievement.
"We have here a proof," he said, "of the value of collaboration. The unerring geometric intuition of O'Kelley, plus the analytic mind of Tutan, plus the keen critical in-
sight of Hickman—all these were required in this theorem."

Under communi-
cations a letter was read from Moore, J. S., announcing that he was keeping up with his classes O K. and a card from Struppa bearing greetings.
Honorable mention was next
voted to two young men who barely
missed becoming Newtons. To
Rockwell, J. J., for his famous
translution of "Deutschland aber alles," i.e. "It's all over with the
Dutch." To Brim, S. A., for in-
vestigating the question, "How many grams make a centimeter?"
A hot discussion of the limiting
of initiatives to four next ensued.
Tutan, in an earnest appeal, de-
clared Prof. Smith's entire eleven
o'clock section was eligible. "But
for this arbitrary restriction," he
announced dramatically, "Jno. P.
Ross would be with us to-day."
The applause that greeted the name of Ross was so tremendous that President Burrus, after an attempt to restore order, declared the New-
tons adjourned "sine die."

Interesting Spots About Atlanta.

One of the quaint sights of the city is a building called the Pied-
mont Hotel. I have often seen it when standing in that interesting
spot called Mr. Nunnally's, and
finally went in and asked the clerk all about it. It is made entirely of
marble, alabaster, and precious
metals, and is equipped with hot
and cold elevators, fireproof water,
cyclone cellars, and other modern
inconveniences which they told me
about, but which I have since for-
gotten. On the ground floor is the
bar, at which buttermilk and other
dairy products may be purchased.
The circular swinging doors not
only serve the purpose of exit and
entry, and as an obstacle to shirt-
tail parades, but they pump the
house water supply.

Have you ever noticed the old
smith-shop which stands between
the shops and textile mill, imme-
diately back of the chapel? It has
an interesting history. It was
originally inhabited by Indians.
Later it was used as a refuge for
Admiral Dewey when he fled from
the British. In the Civil War it
was used as a part of the fortifica-
tions for the town. Still later it
was used for the purpose of hous-
ing Pud's "Speed Demon." At one
time it was removed to the Na-
tional Museum, but since then has
been returned to its original rest-
ning place, where—ah me! it lies,
its glorious past forgotten.

(Continued from page 9, Col. 3)
FACULTY ESPOUSE WARRING NATIONS.
(Continued from page 3, Col. 2.) with their alternating current. Finally Wood was crowned with an ampere, and, generating a yell, he ampered to make a short circuit to the field battery, and there perched on an ohm, played, "Can't Git 'Em Up." Dismayed by the loss of one of their leaders, the left wing shunted across the field and went to meter supporters.

No less fierce was the battle that raged in the center of both armies. Kink Emerson's men came forward firing atoms and molecules at every step, but our roman hero, the Speed Kink, knew how to ward them off. He made a descriptive drawing of all their movements, and by a rare ingenious train of mechanism, refused to let them pass because they didn't know enough English. The German center, though, soon wrecked his train, and, undergoing a chemical change, charged the Allied center with fourteen test tubes, three flasks and a platinum wire. Whereupon the Allies uttered a yell of "Robbers" and took themselves to the rear bank, closely pursued by the ferocious men of Kink Emerson, who seemed determined to collect all their damage fees.

"Class," orated H. R. B. Blink, taking a new cut, "Didn't I tell you to charge?" Immediately the brave germans charged ferociously, but were compelled to return to their lines and wait a half hour because Colonel Cornwallis Cockle hadn't completed his war toilet. Lieutenant Pill Perry, however, seeing them returning, committed the crime of lesse majeste, by leading the brave English squadron after the germans in order to cover himself with glory, quoting: "And a little child shall lead them." So fierce was the characteristic charge of Lieutenant Perry that in a little less than a half hour he had nearly crossed Grant Field. Dismayed at having to work again, H. R. B. Blink summoned Private Scovell of the Scouts to go forward and find out whether the English were really going to charge or were only taking exercise before retiring. Hiding behind his mustache, Scovell twisted his body into the form of a field of alfalfa and grew to wards the Allies. What was his surprise to "run into another field of alfalfa in the person of Crenshaw of the Allies who was also

(Continued on page 10, Col. 3)
TECH WINS SOUTHERN CHAMPIONSHIP OVER AUBURN

IN MARVELOUS BATTLE OF SKILL, BRAWN AND BRAINS HEISMAN'S HOPEFULS WIN CLASSIC STRUGGLE—FINAL SCORE—40 to 6

Yellow Jackets Run Rough Shod Over Opponents In Last Half.

(By staff correspondent who was in the immediate vicinity of the battle.)

Fully 39,000 people were on hand to see the Thanksgiving battle between Tech and Auburn this afternoon in which the championship of the South was at stake. Long before time came for Innis Brown, who had been chosen to referee the important struggle, to blow the whistle every available seat in the grandstands and temporary bleachers had been taken, and the giant stadium was a seething mass of humanity. Every little nook and corner had a spectator all its own. People were there from all sections of the South, and there was hardly a Southern hamlet or village which was not represented by one or more enthusiasts.

Each team had its following, and the excitement before the game was nigh to the kindling point. The Tech student body, 1,500 strong, with their band of 80 pieces, occupied the temporary bleachers on the west side, and the furs, cheers and racket they sent up could be heard from Rabun Gap to Tybee Light. Confidence supreme reigned in their camp, and it was soon seen that they were counting on having a helluva time before, during and after the game. The Auburn student body, with their band, occupied the eastern stands and their following seemed almost as large as that of the Yellow Jackets.

At exactly 2:20 p. m. President K. G. Matheson, who was occupying an elevated stand near the boxes, arose and flashed a wireless to the Tech student body that their hopefuls were leaving the dressing room. Hardly had his information reached the Jackets' headquarters before 22 pigskin artists, donned in yellow and white spangles, trod upon the field for a little practice. Their advent upon the scene was sufficient cause for the Yellow Jackets to send up one mighty whoop, the echo of which can still be heard on Grant Field.

A few minutes later the Orange and Blue artists took the field, and immediately the Auburn band struck up the tune, "We'll Roll it Over Them," accompanied by a very wild display of joy.

It was purely a championship struggle, and both teams seemed...
SPIRIT MEETING.

Captain Morrison won the toss, and by doing so established a record not failing to call the toss a single time this season. A slight wind was blowing towards the northern goal, and he very wisely decided to defend the one at the other end of the field. "Are you ready, Tech?" "Are you ready, Auburn?" (Whistle) and the great struggle was on. Louiselle booted the oval sixty yards down the field straight into "Wooc'h" Fielder's waiting arms. The Yellow Jacket interference got together like a brand new Ford engine, and Wooc'h was not downed until he was in the center of the field. Captain Morrison directed his attack at Auburn's left flank, and Messrs. Goree, Senter, Johnston, et al., human battering rams, soon put the pigskin twenty yards nearer the Auburnites' goal. The play was now well in Auburn's territory and the hitherto impenetrable line of the Orange and Blue seemed unable to hold their own against the terrific onslaughts of Tech's Krupp guns. However a couple of plunges by the Tech backs failed to make a very substantial gain and it seemed as if Auburn must give way before the mightier force. The next speaker upon the program is a man who has devoted so much time is devoted to his brain, I must give way before the mightier force. The next speaker upon the program is a man who has devoted so much time to the criterion of excellence. As a worthy example, I might use a personal illustration. In my college days, I spent my days and nights studying and even now that I am regarded as one of the foremost exponents of learning at Tech (cheers) I still study hard, and try to make my classes follow my example. I thank you for the privilege of speaking, and hope that your worthy purpose will succeed." "I am sure that we all feel deeply touched," quoth President Glover, "by the personal illustration of Dr. Alexander, and that we will all profit by his speech. The next speaker is a man who has made his way into our midst by diligent study, and a student that every member of the faculty points at. We will now hear from Mr. Cecil Grimes."

"Boys," quoth the young doctor of A., after the cheering had stopped, "it gives me unbounded pleasure to appear before you this morning in this worthy endeavor to bring the scholarship of Tech up to the criterion of excellence. As a worthy example, I might use a personal illustration. In my college days, I spent my days and nights studying and even now that I am regarded as one of the foremost exponents of learning at Tech (cheers) I still study hard, and try to make my classes follow my example. I thank you for the privilege of speaking, and hope that your worthy purpose will succeed." "I am sure that we all feel deeply touched," quoth President Glover, "by the personal illustration of Dr. Alexander, and that we will all profit by his speech. The next speaker is a man who has made his way into our midst by diligent study, and a student that every member of the faculty points at. We will now hear from Mr. Cecil Grimes."

The cheering that followed the mention of Mr. Grimes's name, was so voluminous that the roof began to quake.
Third Quarter.

Auburn kicked off to Tech, and Morrison returned the ball to his 35-yard line. Joe Hayes went around left end for a gain of ten yards. T. Johnston went through the center like a streak of greased lightning for another ten. Morrison bucked five, and Goree dittoed. A forward pass, Morrison to Goree netted twenty-five yards, and the Tech contingent went wild with joy. Cries of "make it a hundred," came from the Jackets crowd, and immediately Fielder went around right end for fifteen yards. Here the Auburn line held for downs, Tech only making five yards on the next four attempts. Louisselle punted to Joe Hayes on Auburn's forty-yard line, and Joe went through the entire Auburn team for a touchdown. He showed marvelous sidestepping and dodging ability. Carpenter missed his try at goal, the ball going wide by a few inches only.

Score: Tech 20, Auburn 0.

Auburn again kicked off, and Hayes was downed in his tracks by Keary. After making a first down Tech was forced to kick, Auburn soon returning the oval to them well back in their territory. Morrison opened up with a volley of forward passes, the first one, to Goree, being wild. The next one, Morrison to Beard netted fifteen yards. Then Morrison turned loose one of the longest and prettiest heaves ever seen on Grant Field, the oval sailing thirty yards into Tyler Montague's waiting arms. Tyler then twisted and squirmed his way through would-be tacklers to Auburn's ten-yard line. Successful bucks by Senter and Johnston put the ball on Tech's twenty-yard line. Senter, Auburn only touchdown. The try at goal was wide.

Score: Tech 26, Auburn 0.

Angered by the fact that their opponents had eased over a touchdown at this stage of the game, the Jackets went to work with a snap and vengeance that bode ill for their opponents from the hamlet of Auburn. The "Get together, Tech" of Captain Morrison seemed to inspire them to great things, for on the kick-off Tyler Montague displayed the prettiest piece of work seen on the Flats in many a day, and repeated Homer Cook's run of a couple of years before, for 80 yards and a touchdown. It was the longest run of the game, and seemed to take the pep and fight out of the Auburn team for the time being. The try at goal was good, Fielder making the boot.

Score: Tech 33, Auburn 6.
of them being good. In this manner the Jackets soon worked the ball to Auburn's twenty-yard line, where a trio of bucks by Senter, Goree and Morrison put the ball ten yards nearer another touchdown. Then Morrison pulled another one of those heady plays for which he is famous, and instead of trying another series of bucks, sent Fielder around left end for another touchdown. The Jackets were trying fiercely to roll up half a hundred points against their opponents. Carpenter kicked goal.

Score: Tech 40, Auburn 6.

Auburn again kicked off, and again Tech resorted to the forward pass and trick plays. A double pass, Morrison to Fielder to Hayes, brought the Tech student body to their feet, as Hayes wasn't down until he was in the middle of the field. Short end runs by Fielder, Rountree, and Glover again placed the ball within striking distance of another touchdown. Right here the whistle blew announcing the end of the game—a game great in more ways than one, for it brought to Tech her first Southern football championship.

Here's to the champions of 1915. They certainly deserve the honor.

WHAT IS GEORGIA'S GOAT?

How, oh how many times have you been asked this momentous question, 0 gentle reader? And still how, oh how many times more have you been forced to admit that as far as you know, 'tis but a metaphor. Such an answer is sad, and to correct this erroneous reply, we intend to give herewith the true origin of the word, GOAT, as applied to Georgia.

Were you to refer to the encyclopedia, you would probably find that the goat is a member of the genus, Cheese. Were you to peruse Darwin, you would find that said goat is descended from the gnu, a Hindu word meaning, to know. These two definitions, 0 gentle reader, while correct in so far as they go, for who would dare to say that Georgia's goat is not a cheese? That you gnu, but to delve even deeper, as our friend Cecil Cicero, the Dago Bard, was wont to sneeze, the goat must have color, he must have many, very many, things which are not attributed to him the said supply sources. These things we will donate you, O perfect perusers, with such sang froid as our French will allow.

When last we saw this marvelous animal, 1914, he wore a magnificent white, Tech-made coat, of wash goods. Such coats, we were informed, were his hobby. His dainty simp-like feet were red and black. This last statement is contestable, for, though the red and black is nearly always on the bottom, it could hardly be said that it comes out on top when the goat lays down. The family bawl of the goat is very changeable. In the fall it is a football, in the spring, when all the onions are in bloom, he shows his scurvy nature by scoffing at the beautiful beauties of nature with a base bawl. The favorite hunting ground of the goat is a huge field, hollowed out as if by some large bat or a mammoth pigskin. Had you ever hunt...

DRAMATIC TRIAL IN THE ROCKEFELLER APARTMENTS.

Walter Wynne Ballew Faces Serious Charge of Having a Birthday—Feeling at High Tide. (Special Dispatch to The Tat-}
tler.) — Rockefeller Apartments, Jan. 11th, 1915.—A special meet-
ing of the R. A. R. chapter of the Twin Double A was called to or-
der to-night for the express pur-
pose of dealing justice to one of their honored members on the
charge of having a birthday, and
at the same time having attained
his majority. (Ladies, we have a
man in the house). In the absence
of Judge Howell, perhaps now bet-
ter known as "Instructor Howell," the
meeting was presided over by
Clerek "Jesup." The accused, being a member of high standing in the R. A. R.'s, holding the dignified and ever-im-
portant position of prosecuting at-
tome, and not being deaeurs of prosecuting himself, the acting
judge appointed Assistant Sheriff
Howe to act as Prosecuting Attor-
ney and Chief Bull-Slinger, and to
prosecute the regular ordained
prosecuting attorney, the same be-
ing one "Smoke" Ballew, of Cedar-
town (Ga.)

Direct evidence, as well as some very strong circumstantial evi-
dence, was produced against the
prisoner at the trial, same being
in the form of a card of congrat-
ulations from one of his numerous
female friends. (Note: A motion
was made to strike out the word
"numerous" but failed to carry.)

Said card at the time of the trial
was in the possession of one "Ed
Oehmig, sole occupant of room No.
One.

Mr. Oehmig was the first witness
to take the stand. His testimony
in substance was as follows: That
the accused, in his estimation, had
been acting somewhat out of the
ordinary for the past twelve hours.

Upon cross-examination, who was
acting as his own counsel, the wit-
ness testified that there was no
doubt but what his (the defend-
ant's) actions were caused by the
knowledge that a man who has
reached the momentous age of
twenty-one is not supposed to stick
his feet under "pa's" table any long-
er, and that said knowledge was
working backward and forward in
simple harmonic motion in the de-
fendant's brain.

The most damaging evidence
against the accused was presented
by the court's star witness and li-
censed room mate of Mr. Ballew,
the same being none other than that
one Cecil Fife, of Fayetteville,
Ga. (U. S. A.) Mr. Fife stated that
he had very strong suspicions of
some very weighty matter float-
ing around on the defendant's
brain, due to the fact that he
had broken all precedent by bath-
ing during the middle of the month.
This was something very unusual
for the accused, according to Mr.
Fife's testimony.

Mr. Howe for the court, in his
speech to the jury, brought out
some very strong points which had
been overlooked by the two wit-
nesses. The accused moved that
these passages be stricken from
that part of the trial to be consid-
ered by the jury. The judge over-
rulled the motion. Mr. Howe, in
a very convincing manner, stated
that it seemed to him that one who
had managed to reach the ranks
of a sedate Senior in the "South's
greatest Engineering School" (par-
don us K. G.) should have better
sense than to leave such damaging
testimony as a birthday card in
another room besides his own, and
should be found guilty if for no
other reason than this alone. He
closed with a mighty argument to
the jury to use every lick of Roose-
veltian oratory and appealed more to
the emotions of the jury, rather
than trying to convince them of
his innocence. He suggested that
they put themselves in his place
for the time being, and then apply
the golden rule.

In his charge to the jury the
judge instructed them that from
the testimony which had been pro-
duced at the trial, and also accord-
ing to the Constitution and By-
laws of the R. A. R.'s a verdict of
guilty should be brought in. The
jury retired and immediately
brought in their usual verdict.

It being an unwritten law that
the exact punishment which a pris-
oner undergoes before the R. A. R.
tribunal shall not appear in print,
we find it impossible to state the
extent of Mr. Ballew's bodily and
mental anguish. Suffice it to say
though that the motto of the court:
"To make every lick count"— was
kept constantly in mind, as oth-
ers who have been in his place
will easily testify.

Mlle. Cutliff's

The Criterion of Beauty Parlors

Mlle. Cutliff says: "We have in-
spired Tech boys for four years.
Hairdressing a specialty.

DEAD?

If so, Apply to
J. J. STRICKLAND
(The loquacious undertaker)

The best funeral you ever had.
We have never had a client that
kicked.

Death has lost its sting since we
entered the funeral field.

Trade Mark—REST EASY.
(The people's friend).

AIN'T YER COACH?

He ain't no doc or lawyer an' he
ain't no president,
He ain't no people's pony with a
million dollars spent.
But his heart's all right an' mel-
low, an' he's just a darn
good fellow.
Ain't yer Coach?
He'll yell an' cuss an' bawl yer
when yer fumble o'er a play,
An' he'll tell yer that yer rotten,
when yer fumble o'er a play,
Though he works yer an' he moves
yer, yer kin bet yer boots
he loves yer.
Don't yer Coach?

Sometimes he seems like snowin'
he's so harsh an' stern an'
cold,
Yet he's nothin' but er youngster
though his days would call
him old.
An' we never mind his manny fer
he gits old Georgia's Nanny,
Don't yer Coach?
Ther boys, they all stick by him,
fer they know that he's a
friend,
Ther kind yer like ter freeze ter,
fer he helps yer ter the end.
An' in athletic show off, well, he's
just ther best we know of,
Ain't yer Coach?
This delightful little game is played and must be played by all Juniors who are so fortunate to take Architecture. Object of said game is to get as much drawing done in an hour as possible and to use up as much tracing paper as would take to make a pattern of the latest tango kimona for an African skeetsicks. At the end of nine hours those that have survived without dinner or supper have the privilege to submit their designs to the New York society provided that they are accepted by the department, in which advent they are given six weeks of incessant day and all-night work in order to get their problem in on time. Prizes are awarded for this in the shape of Mentions, and the ones obtaining the most outlandish and impossible design is usually the winner. Notable designs submitted by local aspirants have been prisons, garages, castles, and morgues.
YE AULD SENIOR BENCH.
(An uncopy-written play.)
Seen—On said Bench.
Dramatis Personae.
Some Sad, Slothful Seniors
The weary whistle whistles whimsically, announcing that one more hour has passed into the coal heap of the past. Those seniors, too lazy to study, or feeling the need of a little restful bull, perch upon the senior bench and begin firing:
Fellows, I had the rummiest dream last night, I dreampt that I was being sold at a rummage sale.
Gosh, you must have thought you were a barrel of rum.
Ye Gods, can't you guys quit punning. Now look at me, I never pun, but—
Yes, look at that watch chain. Methinks 'tis ten foot long. How did you foot the bill? Did you buy it by the foot or reel?
Anyone can see its not real. Here, here, this can't go on. Who'll buy me a dope?
An Ominous Silence.
Did any of you guys get anything out of this lesson?
Yeah—What?
A good night's sleep—Uncle Gus walks up.
Boys, are you ready to buy those robes from me?
Naw, we ain't going to buy anything from you.
Why?
'Cause the other companies are going to sell them cheaper.
No they're not. I'll sell them twenty-five cents chaper than any other cheap company going.
Aw, we want good robes. I'm for wearing overalls myself.
Well I'll sell you overalls cheaper—
A general shout of laughter, and Uncle Gus goes away with his feelings hurt.
You Electricals should have seen Uncle Si turn the hose on this morning. Told him he was an Australian booby.
Yes, but he didn't tell me to get a job in after life using my head for a vacuum cleaner.
Whew, get him an umbrella and a couple of towels.
Whistle.
Say, do any of you fellows know what a regular electrical senior is? I bite. What is it?
A guy that Wood put Perrine in Dutch if he could—D. C.?
Yes, A. C.
I'm going to class after that.

WHY PROFESSORS CAN GIVE ZEROS—AND NOT LAY AWAKE ALL NIGHT, REPROACHING THEMSELVES.
"I thought this was all the farther the lesson went."
"I wasn't here the last time and did the wrong lesson."
"Didn't you say that we stopped at paragraph 467?"
"I understood you to say that we could omit this."
"That is not in my book."
"I didn't know that we would be held for that work."
"I never read the fine print at the bottom of the page."
"I know how to work it but can't."

ARE YOU AFFLICTED WITH INSOMNIA?
If so, take Professor Kirk's course in Economics.
All patients guaranteed not to sleep over Sixty Minutes in One Hour.
Apply Second Floor of Academic Building.

PIPES.
"If you should see a bumblebee, Who tries to flirt with thee, And you have any sense at all You'll let that bumblebee."
That's good logic, but you can't let Dutch Goldman's French-made English, hand-painted walking pipes be—they're too good.
VERNON SKILES.
(Apologies if possible to R. Kipling.)
You may talk of wear and tear
When you're a student out here,
And you think that nothing's quite
so hard as Analyt;
But if you engineer
It's math you'll have to use,
And you'll lick the bloomin' boots
of him that knows it.
Now in Georgia's sunny clime,
Where I used to spend my time
A-slaving at the Georgia Tech,
Of all them rum-faced crew
The finest man I knew
Was our mathematical prodigy,
Vernon Skiles.
He was "Skiles! Skiles! Skiles!
"You hawk-faced bunch of learn-
ing, Vernon Skiles!
"Shot me this time, didn't you?
"Think I'm some boob don't you?
"You squint-eyed, sharp-faced,
math-proof, Vernon Skiles."
II.
He would lecture and explain
'Til the longest day was done,
And he didn't seem to know the
use of wear.
If we cussed or flunked or cut,
You could bet your bloomin' nut,
He'd be right behind us bringing
up the rear.
With all our records in his head,
He gave exact our daily grade
And watched us 'til the whistle
blew retire.
And for all his harsh outside
He was white, clear white inside
When he went to coach the bone-
heads 'fore exam.
It was "Skiles! Skiles! Skiles!"
When exams were rolling up like
thunder on the hills,
We all rose up and said,
"Lend us a hand please, Vernon
Skiles!"
III.
I shan't forget the night
When I dropped behind the fight
With the galling thorn of Calculus
in my side.
Choking mad, about to burst,
And the man that spied me first
Was our good old grinnin' driver,
Vernon Skiles.
He lifted up my head,
And he nursed me where I bled—
Showed me how to integrate for
fair;
Math to me was always tough,
How I loath the wretched stuff.
But I'm grateful for the help from
Vernon Skiles.
It was "Skiles! Skiles! Skiles!"
"Here's a Freshman with a per-
fect vacuum
"In the thing he calls his head,
"In blank despair, his prayers
said;
"For God's sake come and help
him, Vernon Skiles."
IV.
He took my paper down
And cast on it a frown,
But gave me two points and slid
me thru.
"You'll never know math,
"But math isn't all, and
"I hope you get your dip," says
Vernon Skiles.
So I'll write him later on
From the place where I'm gone—
Wherever my construction camp
is pitched.
He'll be standing at the boards
Teaching math to poor Sopho-
morens,
And he'll integrate once more for
me, will Vernon Skiles.
Yes, "Skiles! Skiles! Skiles!
"You four-eyed Yankee math-shark
Vernon Skiles!"
Tho' many times I'd have slayed
you,
By the living God that made you,
You're a better man than I am,
Vernon Skiles!
NEVER U. MIND.
Poets' Corner

NO WONDER THEY WANT SUFFRAGE.
The Frenchmen are a crazy bunch,
They really are so silly,
They call their loving mothers "mares"
Their daughter's name is "Filly."
They really are a common race,
Just like the German brewers,
For all the high class people call
Their darling sisters, "sewers."
The Germans, they are just as bad,
A girl, the Lord defend her,
For whilst the men are men all right...
A girl is neuter gender.

A WAR VERSE.
He swore he "loved her dearly;"
At the Hop he told her so,
And thought that of his "jolly,
His fair love would never know.
But when he saw the items
In the bills that "Brody" brought
He found that he had loved her,
More dearly than he thought.

A PERFECT MAN.
There is a man who never drinks,
Nor smokes, nor chews, nor swears—
Who never gambles, never flirts,
And shuns all sinful scenes.
He's a Freshman!

A PERFECT MAN.
There is a man who never does
A thing that is not right;
His "wife" can tell just where he is
Every morning, noon and night.
He's a Senior!

KEEP UP THE GOOD WORK,
WILLIE.
Bainbridge, Ga., Oct. 12th.—Willie Kwilecki of this place was a visitor at the home of his parents during the past week. Willie is engaged in pursuing a course of study in architecture at Georgia Tech and is meeting with great success. He has recently discovered in some of his research work a long lost master, Samuel Kelly.

Frosh (upon first glancing at Yellow Jacket)—"I wonder what course the man who made up these jokes is taking?"
Second wearer of the yellow cap—"Enbalming."

NO WONDER THEY WANT SUFFRAGE.
The Frenchmen are a crazy bunch,
They really are so silly,
They call their loving mothers "mares"
Their daughter's name is "Filly."
They really are a common race,
Just like the German brewers,
For all the high class people call
Their darling sisters, "sewers."
The Germans, they are just as bad,
A girl, the Lord defend her,
For whilst the men are men all right...
A girl is neuter gender.

THE RUBY RETOLD.
Into this Georgia Tech, and why not knowing,
And all around it like water willy-nilly flowing,
Then out of it, like suds from off a beer,
We know not whither willy-nilly blowing.

What, without asking, hither hurried hence,
And, without asking, thither hurried thence?
O many a cup of this forbidden beer,
Must drown the memory of those deficits.

Ah, Guy, could you and I conspire,
To grasp this bunch of Profs entire,
Would we not hammer them to bits—and then
Just flunk them to our heart's desire?

A little sheepskin gotten with a bow,
A job to work, a contract too, and now
You'll wish you'd studied in this wilderness,
For then you'll find you simply don't know how.

Gee, but I had a funny dream last night."
"I know, I saw you with her."
A LOVER'S ALMANAC.

Introduction.

Although we are sadly lacking in personal experience in this line, from many heart to heart talks around the Senior Bench with such lady's men as Hill, Montague and Carman, we feel sure that the below chronicled protoplasms of the genus, LOVE, are correct.

Love's a little bug that bites and itches, and the more you scratch, the gooder it itches.

Alimony is where the woman shines. It is the process of riding herself of all the drawbacks of marriage, namely man, and keeping all the assets, namely coin.

Death is generally better than alimony, for it nearly always brings life insurance.

SOCIAL SLAPS.

(By Cyrus Campus.)

The College Widow.

A College Widow is generally defined as one of that deadly species who amuses a "rah rah" boy in his hours of recreation, sits upon his books when he attempts to study—metaphorically, Martha—spends his book money and raises the laundry william. This definition is, however, erroneous, for there are many females who go with college boys who are not College Widows any more than we are, but it is not of this variety that we shall discourse. Suffice to say, you get muh, Pleadies! 'Tis of the other kind, subtle, charming and dangerous, that we will continue to waste our time upon.

College Widows are all good looking, but they are more or less spary in good cooking. The last named ingredient is generally reserved for those unlucky fellows who think it wise to try it—we will not venture our opinion, "for," sayeth Steinmetz, "one must learn by experience." They are generally in evidence at a college dance, either dancing or flunking an exam for some guy. It is quite usual to see them at a ball game eating peanuts for nourishment, while escort eats his heart out. They all have particular accomplishments, ranging from a well-developed sigh to an automobile, and it would be hard to say which is the more desirable, the sigh or the automobile.

Every three years a new breed comes on and the Tech boys train them up so that they will be creditable debutantes, receiving no thanks in return. A College Widow has more or less brain, and it is a favorite pastime for a college lad to find it after a period of three years. Taken all in all, school would not be school without these sparkling, laughing, daughters of Terpsichore—for there would be no lessons flunked. Also, life would lose its savor to some of the boys if they couldn't throw off a little superfluous hot air on ears that, alack, do not heed. We make the above two statements only including some of the fellows, other lucky (?) guys are woman-haters, and they are—well let a Widow define them for you.

FACULTY ESPOUSE WARRING NATIONS.

Faculties who think it wise to try it—we will not venture our opinion, "for," sayeth Steinmetz, "one must learn by experience." They are generally in evidence at a college dance, either dancing or flunking an exam for some guy. It is quite usual to see them at a ball game eating peanuts for nourishment, while escort eats his heart out. They all have particular accomplishments, ranging from a well-developed sigh to an automobile, and it would be hard to say which is the more desirable, the sigh or the automobile.

Every three years a new breed comes on and the Tech boys train them up so that they will be creditable debutantes, receiving no thanks in return. A College Widow has more or less brain, and it is a favorite pastime for a college lad to find it after a period of three years. Taken all in all, school would not be school without these sparkling, laughing, daughters of Terpsichore—for there would be no lessons flunked. Also, life would lose its savor to some of the boys if they couldn't throw off a little superfluous hot air on ears that, alack, do not heed. We make the above two statements only including some of the fellows, other lucky (?) guys are woman-haters, and they are—well let a Widow define them for you.
Cartoonist's Page

A Stewed Stude.

Meaning "Two Lights!"

Waiting for a Criticism.

Reeking with the odor of exceeding freshness.

What is it?

"College Bread" (a four-year loaf)

Shades and Shadows.
CAMPUS IMPROVEMENTS.

PROPOSED MONUMENT TO THE FELLOWS WHO DROP OUT OF SCHOOL BECAUSE THEY DO NOT LIKE TO WORK IN THE FOUNDRY AND GET THEIR HANDS ALL DIRTY

THIS IS NOT A CORRESPONDENCE SCHOOL. IF YOU WANT TO KEEP YOUR HANDS SOFT, GO TO A BARBER COLLEGE. CLEANLINESS IS NOT NEXT TO G O O L I N E S S; IT IS NEXT TO IMPOSSIBLE.

LOOKS LIKE A HE MANICURIST? BGOSH!

NAME IT, WE HAVE NOT GOT THE HEART...

(So Do Burroughs)

REWARD.

To any one enticing one "Ignatz" Hardwick upon the third floor of the Y. M. C. A. a life membership in the R. A. R. order is offered. By order of The R. A. R.'s.

WANTED—Safe place to invest $16,000.—Blue Print Staff.

WANTED—Boys with strong digestive powers.—Mrs. Brooks.

WANTED—All those taking Sophomore and Freshman math to report to Summer School. Special rates to those entering upon their fourth time.—Apply to the Dean of the Summer School.

WANTED—Students to buy a limited number of old English Themes which I am willing to dispose of at $1.00 per word.—Prof. McKee.

HELP WANTED—All kinds.—The Allies.

WANTED—An adding machine or a cash register before the next football season with Tech.—Mercer University.

Too LATE FOR CLASSIFICATION.—G. B. Lamar—as usual.

"GONG" AISLE TAXI SERVICE.

WE ALWAYS EXCEEDED THE SEED LIMIT.

PROMISES EVERYBODY.

SERVES NOBODY.

HOT SPORTS ALL COME TO O. G. SCALDING.

For their croquet needles, push pins, checker boards and chess. Everything you don't want at a price you can't pay.

Georgia Tech agent, Uncle Gus, the man who makes a living off Tech boys, and also an auto.

DID YOU EVER GET LIT?

That is, in a prohibition State? No? Then try some of Mumm's Extra Dry, not too wet for any State, but good and palatable for all.

"Ask the Faculty."

"Is that a Phi Beta Kappa Key?"

"No, it's a Yale Lock."

Aw, go to your dreams of fair Phylis, your sights, and your songs of a curl.

My pipe is a bachelor hermit, that never would dream of a girl.

Go to, you old simpleton lover, your lady will finish you right.

My pipe? Why I wouldn't leave it for any old sweetheart to-night.

Ask the "Velvet Albert" which is the better, a pipe or a girl?

HAVE YOU TRIED TO ADVERTISE IN THE BLUE PRINT?

Some men advertise very freely in these wonderful sellers, and their names are among those who are also advertised on the Bulletin Boards. See us at once for further information as to those thus favored.

IT PAYS TO ADVERTISE.

Anyone desiring to obtain a free subscription to the Tattler may enter the competition. It is absolutely free and many attractive prizes are offered. See next issue for details.

WITH THE TERROR AND TATTLER'S CORRESPONDENT AT THE FRONT.

(Continued from page 1, Col. 3.)

diplomatic phrase in Russian and I was released.

"Another curious and heart-rending scene occurred in London also. A certain Senior from Tech was arrested by a keen-eyed English detective who had observed the crowd with binoculars. The charge preferred was that he was a German, wearing an upturned Kaiser Wilhelm mustache. The police commissioner, however, after examining him without the binoculars, dismissed him on the grounds of insufficient evidence."

SLIPPED BY THE BOARD OF CENSORS.

R. A. CLAY HAS DEMONSTRATED ATHLETICS TO TECH BOYS FOR SEVEN YEARS.

ATTENTION!

Those students going to resign after the mid-terms, and who desire 1915 annuals, will please leave their names and addresses with The Blue Print.

**Grades** are on a basis of 100. Less than 60 per cent. on Grade or 50 per cent. on examination makes the student Deficient.

**Definitions** are given in full on Second Term Reports as shown below.

Three grades are very unsatisfactory.

**Repeat Rule:**
Students who repeat a subject and fail will not be allowed to take any work for which such subject is a prerequisite, and no student will be allowed to enter school at the opening of the fall term who is continuing a subject in which he has failed.

**Registrar:**

[Signature]

[Note: This report does not include the results of the examination of any deficient subject.]
Just Jokes

CLASS STONES.
Freshman—Emerald.
Sophomore—Blarney-Stone.
Junior—Grindstone.
Senior—Tombstone.

Young Willie Wurst was much in love;
His very soul was awirl;
He took Miss Weiner in his arms,
For he never sausage a girl.

EXPERT OPINION.
"Big" Aichel (at the Atlanta)—
This show will have a long run.
"Dutch" Goldman—How's that?
Aichel—It has good legs.

MORE TRUTH THAN POETRY.
A school paper is a great invention;
The school gets all the fame,
The printer gets all the money,
And the staff gets all the blame.

Dentist (easing the pain of the tooth)—"Did you feel that air?"
Doc Witherington—"That's exactly what I am doing now.

HEARD IN THE ARCHITECTURAL HALL.
Spann learns that there has been an "academic" of rats in New Orleans during the past summer, and "Mose" Ferguson amazes him with accounts of the fatilities.

Drummond, who has never taken any French did not understand Prof. Smith when he spoke in History of Architecture of the French King, "Louey Dooze," and asked that the word dorr or dure be spelled out for him.
"X-I-I," says honorable prof.

"Baldy" Jordan insisted on setting aside a portion of his Faculty Club House plan in Senior design, to resemble apartments of "keeper." Prof. Smith informed him that he was not designing a zoo.

BONES.
Sneed—How are you getting along at college?
Chapman—Oh! all right. I'm trying very hard to get ahead, you know.
Sneed—Well, heaven knows you need one!

QUICK SKETCH.
Time—Last registration day.
Place—Tommy's office.
Scene I—(Enter Traubs).
T. P. Br.—Are you two brothers?
Traubs (in concert)—No sir, we are twins!
Curtain.

Our joke department is sadly depleted because of the fact that so many of the jokes turned in were on Ford cars. Having a slight leaning for these intricate pieces of locomotion, also a rather mercurial turn of mind we forwarded all the jokes to Henry Ford with the thought that maybe they could be put to better use by him in advertising. Up to the time of going to press we have heard nothing but are still in hopes of receiving one of his cars for not publishing them.

Brim in Physics Class—Dr. Nelms, how many grams in a centimeter?
She—"I'm sure I could fall in love with Ben—he's so unselsh.
Fifth Victim—"How's that?"
She—"Why he gives nearly all my dances to other fellows."
Fifth Victim—"Yes, I've noticed that."

T. Pettus Branch, in Senior Geodesy—"Mr. Troy, what is standard time?"
Troy (after looking at watch)—"Eighteen minutes of eleven."

"I say, who was there to see you last night?"
"Only Mary Dean, father."
"Well, tell Mary Dean that she left her pipe on the piano."

Kind advisor to Editor of Blue Print—"Gris, do you know on whom you can lean when you get tired of the Blue Print?"
Editor—"No, pray tell me."
She—"The staff."
CONTRACT TO BE LET.

(Matrimonial)

Sealed proposals will be received by a Tech graduate, class of 1915, hereinafter called the Engineer, for a wife, hereinafter called the Suffragette, under the agreement, plans and specifications herein outlined.

All proposals must be in the office of the Engineer by 8 o'clock p.m., July 1st, 1920, it being hoped that by this date the money invested in five years at the Georgia Tech will pay sufficient dividends for a matrimonial venture.

All proposals will be read in private and all rejected ones will be returned, provided the Engineer be furnished with sufficient postage for a matrimonial venture.

All proposals must be accompanied by a guarantee that the Suffragette will enter into the contract for the full performance of the duties upon which the proposal is submitted if the proposal is accepted.

The Engineer reserves the right to reject any or all proposals.

Plans.

Plans to accompany each proposal as follows: One full front bust photo, Suffragette to be wearing an evening gown would not pass the National Board of censorship. At least five Kodak details of Suffragette taken at the seashore, on camping trips, at football games, etc., and indicating her general bearing. No photos are to be hand colored or crayon enlargements accepted.

Agreement.

Trouble:—In case of disagreement after contract the subject will be arbitrated by the two parties, the Hague Code being used. Suit for divorce may be entered after contract the subject is submitted. F

Financial.

1. All income derived by the Engineer to be expended as agreed upon by both parties each having equal voice. At the beginning of each month a financial sheet to be drawn up and the income for that month to be divided between the individuals and mutual needs of the two parties as agreed by them, a sinking fund of not less than 20 per cent. being first deducted.

2. All income derived by the Suffragette to be expended as she deems fit, the Engineer under no conditions to hold any of same in trust or to be responsible for its safety. His advice as to the appropriation of same to be furnished only on the request of Suffragette.

Two bank accounts to be opened, one each for the sinking fund and checking account for paying expenses. All checks to be signed by Engineer and countersigned by Suffragette. None other than National banks to be used.

3. All financial contracts with outside parties entered into by either Engineer or Suffragette must be signed by both.

4. The Suffragette to provide as good a servant as the means and local talent will afford.

5. The Suffragette never to allow anything in the guise of food to come on the table which cannot be eaten, such as bones, chicken necks, potato peelings, ancient or foreign cheese.

6. Meals to be served at regular hours, the Suffragette to proceed with the meal at the appointed hour whether or not the Engineer is in attendance. If he arrives after the meal is finished, he will personally get his handout from the warmer and eat same on the kitchen table, without any side remarks. The servants routine is not to be interfered with.

7. The Engineer to be allowed to bring any reasonable number of eligible friends for meals without any side remarks or looks from the Suffragette, provided he gives her three hours’ notice.

8. The Suffragette to see to it that the Engineer’s bed room slippers are never pushed so as under his bed as to necessitate his crawling under the bed to procure same.

9. The Engineer’s bed to be made up by tucking the bottom sheet at the head and the top sheet at the foot of same bed. Very few servants can comprehend all this, and so the Suffragette’s daily inspection will be necessary.

10. The furniture, books, etc., in the Engineer’s bed room and study are not to be moved around to please the Suffragette’s changing ideas of position.

11. The Engineer to be allowed to smoke whenever, wherever and whatever he pleases except cigarettes. He must never chew.

12. In general, the house to be kept in a tidy and neat condition at all times so that no barbaric spring and fall upheavals will be necessary.

Specifications—Physical.

1. The Suffragette may be either blonde, brunette or mixed, but she must not have red hair.

2. She shall weigh between 125 and 160 pounds and be between 5 feet 2 inches and 5 feet 8 inches.

3. She must not wear heels more than one inch high. She must never paint or pencil and not use white powder excessively.

4. The Suffragette must have a decided taste for good music in addition to being a good musician. She shall be able to play the more tuneful airs from II. Trovatore. Rigoletto, Madame Butterfly, Faust, Lohengrin, Tannhauser and the Chocolate Soldier. She must be familiar with the works of Grieg, Chopin, Massenet, Nevin, Beethoven, Mendelssohn and Wagner.

5. She must have a taste for such writings as those of Stanton, Riley, Lamb, Moore, Milton, Dickens, Kipling and Robert W. Service. She must have a positive distaste for Robt. W. Chambers and all like breed.

6. In general—She is not to be a rank bighour, but her tastes must be sound with a tendency to soar occasionally above the commonplace of life.

Social.

1. The Suffragette must be a graduate of a class B or class C college which has a good Carnegie rating. Graduates of the Class A colleges are generally broken in health.

2. The Suffragette must have a decided taste for good music in addition to being a good musician. She shall be able to play the more tuneful airs from II. Trovatore. Rigoletto, Madame Butterfly, Faust, Lohengrin, Tannhauser and the Chocolate Soldier. She must be familiar with the works of Grieg, Chopin, Massenet, Nevin, Beethoven, Mendelssohn and Wagner.

3. She must have a taste for such writings as those of Stanton, Riley, Lamb, Moore, Milton, Dickens, Kipling and Robert W. Service. She must have a positive distaste for Robt. W. Chambers and all like breed.

4. In general—She is not to be a rank bighour, but her tastes must be sound with a tendency to soar occasionally above the commonplace of life.

Moral.

The Suffragette must be a member of and an active worker in some church, which has a sound doctrine. She must not be inclined to religious dissipation, but her religion is to be a practical one which will work seven days per week. She must not monkey with foreign missions.

In general—She must be so absolutely good that her example will tend to make a really good man of the Engineer. And she will have to go some. She considering his five years of studying the most cussable of all subjects taught at Georgia Tech.

A Final Word of Appreciation

And to think, this little volume over which we have labored so constantly and earnestly is nearly finished—it has been great fun and no little work, but of course no one thinks of the latter. We have no apology to make, but offer the book as it is, which we pray will meet with your approval.

Before discarding the editorial robe and assuming the more commonplace garb of everyday life, it is our pleasure to accord a word of thanks to some of the men outside of the Board of Editors who have been of no little assistance in our work. I. F. Witherington has been of great assistance to the Editor-in-Chief, both for his timely suggestions and benefit of experience. To Phinehas V. Stephens, '05, we give thanks for the very complete article on the Greater Tech. E. M. Jackson deserves special thanks for his untiring efforts in the art department. For help on the managerial side we appreciate the work of R. M. Miller, S. H. McDaniel and others. K. A. Merrill has been the busy man with the camera.

In closing we would state that we only regret that space will not permit of our mentioning all who have assisted in making our task a pleasant one. There are indeed many and we owe our sincerest thanks to all.

STUDIO 58 1/2 WHITEHALL ST.
WOULD you believe that the structure pictured above is a "Frat" house? It doesn't fit into the landscape of a campus very well—but the esprit de corps dwells therein just the same. Architecturally speaking, its lines are somewhat crude, but it was built to meet the precise needs of a big Fraternity. Every member is a hard worker—a M.P.A. (Master of the Preservative Arts) doing post-graduate work leading to a D.P.F. (Doctor of the Philosophy of Fitness)—and team-work is the strong point of the organization. Every piece of college printing that goes out from here is an illustration of the skill with which each man contributes his individual quota of brains as well as brawn to the united effort which is to make the final goal of its author's purpose.
OUR BOYS RISE TO THE HIGHEST POSITIONS

There are young men among our graduates who are Superintendents in factories, mills, etc. They "cut corners" to success by entering Bagwell Business College.

There is nothing mysterious about it. You will readily see the possibilities for yourself, if you let us explain.

We train young men and women to be better stenographers, better bookkeepers, better office workers than the thousands who learn only superficially.

Our methods are proved the best by actual results.

When you enroll with us you will be absolutely sure of getting the kind of training that will develop your ability to the highest point.
