Foreword

We believe that the function of a College Annual is that it should be an expression of the life and conditions existing at the great Institution which it represents. Our purpose has been to portray as near as possible not only the student life at Georgia Tech, but also the habits and activities of the members of our student body. If, in after years, this volume may serve to keep more bright the memory of our college days, with its associations and friendships, our labor will not have proved in vain.
