Junior Poem

For two long years we've gone the gait,
A weary, heart-rending, studious state
Wherein the mettle of the man is tried
Withstanding tempting pleasure long denied.

We shaky, quaky, ignorant freshmen were
When first we met our profs without demur;
And then we lordly Sophs perforce became
No whit detracting from that lordly name.

And now as Juniors we have thus become
The backbone of our social life. And some
Have bent their energies to stand foremost
Among those heads, amid the struggling host,

That lead, and in that leading strive
To place our Alma Mater in the drive
For those ideals the best of men hold dear,
The criterion of a finished engineer.

Accuracy, thoroughness, service, honesty;
Four building stones for future prosperity
In after-life, for there again we wore
Befitting a man of twenty-four.

—W. H. F.
Junior Class Officers

W. D. Hartford .................. President
R. O. Wilhelm .................. Vice-President
F. O. Walsh .................. Secretary and Treasurer

Junior Class Roll

W. G. Adams ............... North Carolina ............... Commerce

Cecil Franklin Adams ......... Savannah ............... Commerce
Honors Roll, '21, '22, '23; Capt., R. O. T. C.
"Skeeter"

Kenneth Louis Aikens ......... Atlanta ............... Mechanical Engineering

James Gerald Albritton ......... Atlanta ............... Mechanical Engineering
Phi Kappa Sigma; Bull Dog; Cotillion Club; Scrub Baseball, '21, '22; Football, '22; Koseme.
"Jerry"

James McRae Alford ............. Bonifay, Fla. ............... Civil Engineering
Phi Sigma Kappa.
"Mack"

L. K. Allen ............... Clayton, Miss. ............... Electrical Engineering

Walter James Allen ............. Greenville, S. C. ............... Commerce
Kappa Sigma; Delta Sigma Pi.
"Squirrel"

John H. Aller ............... Nacoochee ............... Mechanical Engineering
"Dock"

Harry Richard Allison ......... Asheville, N. C. ............... Mechanical Engineering
Sigma Phi Epsilon; Baseball.

J. L. Allman, Jr. ............... Hartwell ............... Commerce
Phi Delta Theta.
"Minnie"

Harold Almand ............... Conyers ............... Commerce
Baseball.
"Doc"

William Anderson ............... Marietta ............... Electrical Engineering
Chi Phi.
"Wild Bill"

Vernon L. Anderson ............. Fort Pierce, Fla. ............... Mechanical Engineering
Beta Epsilon (Montana State).
"Andy"
GEORGE F. ANTON .......... Atlanta .......... Co-operative Engineering
Cosmopolitan Club; Secretary and Treasurer '23; Student Assistant in EX. E.

JOHN RANDOLPH ARMSTRONG .......... Albany .......... Electrical Engineering
Sigma Alpha Epsilon; Swimming Team.

Sophomore Poem

"My gauntlet's run. Without a doubt
I've had experience in and out.
Plane analyt and mess-hall fare
And flunks that catch you unaware
Are all behind.

"I've learned to shun the ways of those
Who fall in love with every Rose.
In one short year I've learned with ease
The methods calculated best to please
The blase maid.

"It's more than true that last year—well,
The upper-classmen gave me—.
But Oh my word! A greener crowd
I never saw before, endowed
With such ungraceful shanks

"As twenty-six, a motley sort
With high school wit and boyish sport
And homesick dreams of pretty Nan
And mother's pies and Uncle Dan
And all that rot.

"But wait and see; leave it to me,
Before mild June will set us free
I'll hare this bunch so broken in
With trouser-seats worn flat and thin
They'll educated be.

For if a Soph sat down in ease
And freshies did much as they please
What would the school be then? I guess
We're more important than the rest—
No es verdad?"

Waste Not

The years have passed since first you looked in awe
On campus of Old Tech, each thronging year
A canvas many-hued with ever more
Resplendent glow. And now the end is near—
Too quickly, quickly has it come! You might delay,
But ceaseless falling flow the feasting sands of day.
Mist-shaded are the years so nearly past;
Still closer will in future time be drawn
The curtains of this precious year, the last
Departing glory of a coronal borne.
Too carelessly perhaps, put by with sorrowful haste,
Too lightly trampled into dust of days you waste.
Then cherish it, Ye Classmen! Cherish each
Fleeting moment that with pace relentless bends
To overtake the month of June. Outreach
A yearning hand. Soon naught but memory lends
Her doubtful radiance. Do well in this last hour
Ere you forever pass from Alma Mater's dower.

—C. B. W.
Freshman Poem

We're Country rats, City rats,
Rats from all quarters;
Laughably insolent
Careless cavorters.
Widely conversant
Of facts scandalizing;
We think to run rampant;
Oh! Somewhat surprising!

Some lessons we've studied
While other we've not.
The quickest we've learned
Was quite rudely taught.
Adieu, haughty spirit;
Perforce are we parted.
We've learned to behave
From the Soph tender-hearted.

The Evening School of Commerce

SOME ten or eleven years ago, the Alumni of Georgia Tech became interested in finding a way to secure some sort of business training for the Juniors and Seniors in the school at that time. Under the impetus of their interest and cooperation, a series of talks was begun by Atlanta business men, one each week during the spring of 1913. An Alumni here and there may recall on that program, Fred Paxon, J. B. McCravy, Joel Hunter, Edgar Watkins, W. M. Fram- 

brough, Bob Gregg, and many others prominent in Atlanta business.

The Alumni during that summer got busy and agreed to help finance an Evening School of Commerce, whose instructors would give lectures on business relations to the Juniors and Seniors. The Junior course was never worked out, as their schedules did not permit an hour when all Juniors could assemble, nor did the finances permit a series of courses which would meet the needs of the individual degree departments. The Evening classes were held that first year on the campus under the leadership of Wayne Kell. Among the lecturers in that roll were: Dr. Wallace, Dr. Crenshaw, Ed Green, Homer Watkins, and a number of informed men. Up until June, 1914, the Evening School of Commerce was nothing more than an experiment in the eyes of the Board, but that summer they adopted it. The Alumni are due all the credit for this, for it was they who had the original idea.

The basic idea is this: Every engineering student should have on his schedule or should have available on the campus, specialty courses in Economics, courses in Finance, Personal Relations, Production Costs, Organization, Sales, Advertising, Accounting, the Law of Con-tracts, of Negotiable Instruments, Realty Values, and the like.

Now the Evening School classes are held in a downtown office building, which permits advantage to take up courses in the Night School.

With the coming of Dean Watters, the department began to lose its provincial form, and the development into a sizeable day as well as evening school has permitted it to take a place among the leading departments of the school in keeping with the place already held by our engineering departments.

Students have received credit for work done in Columbia, California, Harvard, New York, Northwestern and many other institutions. The scholastic standing of the Evening School has thus been established on a par with the best in the country. The character of the work has possibly been best attested by the fact that 95 out of 440 students enrolled during the past year have had previous collegiate training; 39 colleges and institutions were represented. Many men, having graduated in the engineering departments of Tech, find it advantageous to take up courses in the Night School.

THE BLUE PRINT

Evening School Senior Class History

In our humble opinion, it was indeed a great day for the Georgia Tech Evening School of Commerce when seventy-five forlorn specimens of humanity marched into the office of the registrar and demanded to be enrolled in the class of 1923. We say demanded; two or three of the more forward ventured to get through without stuttering, but demand sounds better than the actual truth. This was in the fall of 1920, and marked the largest number to be enrolled up to that time.

Time numbered by and numbers of the class dropped out until at the beginning of the Junior year only twenty of the wisest of the class were left. (Again we present our humble opinion). At least, we felt considerably more important as Juniors than we had the year before. During the next year the class fared better and most of the men thought a year as a senior would offer an improvement to their poise and dignity, so they remained on the roll of the class of '23.

The class of '23 was the first in the history of the Evening School to form an organization during the Junior year. It was an entirely new venture, but there is little doubt that practically everything accomplished was a direct result of this class organization. The Junior Class officers were: Ray Spitler, president; Cooper Inglett, vice-president; John M. Phillips, secretary; and Paul A. Davis, treasurer. The Commerce Club was organized, and through the efforts of the class of '23, resolved itself into a vital factor in school life. Three Juniors held important offices in the Club. They were: Ray Spitler, vice-president; John M. Phillips, secretary; and Charles R. Perry, treasurer.

During the summer intervening between the Junior and Senior year, the Class sponsored a banquet given in honor of Georgia Tech's new president, Dr. M. L. Brittain, at which over one hundred students and members of the faculty were present. The banquet was a great success, despite the fact that most of the students were out of the city for the summer.

The Senior Class was organized at the beginning of the present year, with the following officers: Ray A. Spitler, president; Charlie Perry, vice-president; John M. Phillips, secretary; and Julian Benson, treasurer. It has been the policy of the Class during its Junior and Senior years to have "get-together" suppers every two weeks, the purposes of which have been to promote a feeling of good-fellowship and to cement its members with a fraternal bond which has molded the Class into a better working unit.

As the Class of '23 goes out into the world, leaving behind all those things we hold so dear, we want to leave something which will serve as a bond between ourselves and our Alma Mater; something besides a mere intangible memory; exactly what has not been settled, but plans are being formulated toward that end.

And now, old Alma Mater, our dear old Georgia Tech, it is with throbbing heart that we salute thee and bid thee farewell. May thy banner of White and Gold be borne triumphant ever, and thy glory of the past be as nothing with that which the future will unfold.
