F, in the future, you can take this sixteenth Blue Print of campus history, and scanning its pages in a reminiscent mood, with a broadened vision fostered by added years, live a half hour with your old class-mates listening to the voice of your Alma Mater calling you to battle for the high ideals for which she stands, we will feel that thousands of hours spent in compiling this history could not have been better utilized.

OFFICERS OF ADMINISTRATION

Marion Luther Brittain, A.B., LL.D. .................. President
William Henry Emerson, Ph.D., Sc.D. .................. Dean
Allan Benton Morton, A.M. .................. Dean of Night and Summer School
Floyd Field, A.B., M.A. .................. Dean of Men
Thomas Pettus Branch, B.E., Sc.D. .................. Secretary
Frank K. Houston, C. P. A. .................. Treasurer
Hugh Harris Caldwell, A.B. .................. Registrar

Faculty

Marion Luther Brittain, A.B., LL.D.
A.B., Emory College; LL.D., Mercer University; Graduate Work, University of Chicago; Kappa Alpha; Phi Kappa Phi
President of the College

William Henry Emerson, Ph.D., Sc.D.
Ph.D., Johns Hopkins University; Sc.D., University of Georgia; Graduate of the United States Naval Academy; Alpha Tau Omega; Phi Kappa Phi
Dean and Head of the Department of Engineering Chemistry

Floyd Field, A.B., M.A.
A.B., William and Mary College; M.A., Harvard University; Graduate Work, University of Chicago; Alpha Sigma Tau
Dean of Men and Head of the Department of Mathematics

John Sayler Coo, M.E., Sc.D.
M.E., Cornell University; Sc.D., University of Georgia; Sigma Xi; Phi Kappa Phi
Head of the Department of Mechanical Engineering

Thomas Pettus Branch, B.E., Sc.D.
B.E., Vanderbilt University; Sc.D., University of Georgia; Beta Theta Pi; Phi Kappa Phi
Head of the Department of Civil Engineering; Dean of the Cooperative Department; Secretary to the Faculty

John Bascom Crenshaw, A.M., Ph.D.
A.M., Randolph-Macon College; Ph.D., Johns Hopkins University; Graduate Work, University of Berlin; Gamma Tau Delta; Phi Kappa Phi
Head of the Department of Modern Languages; Faculty Director of Athletics

John Madison Watters, B.S., B.S.C., L.L.B., M.AccTs.
B.S., Hall Moody; B.S.C., M.AccTs., New York University; L.L.B., Memphis University of Law School
Head of the Department of Commerce

Roy Stephenson King, M.E., M.Sc., Sc.D.
M.E., Ohio State University; M.Sc., University of Minnesota; Sc.D., University of Georgia; Sigma Xi; Phi Kappa Phi
Head of the Department of Experimental Engineering

Clarence Bernard Seal
Graduate of the Philadelphia Textile School
Head of the Department of Textile Engineering
THOMAS WITT FITZGERALD, B.S. M.E.
B.S.M.E., University of Virginia; Phi Kappa Phi
Head of the Department of Electrical Engineering

CLARENCE EDWARD COOLEDGE, PH.B.
Ph.B., Yale University
Head of the Department of Machine Design

WILLIAM MONROE MCLAURIN, A.B.
A.B., George Peabody College for Teachers; Graduate Work, University of Chicago
Head of the Department of Industrial Education

FRANKLIN CHADWICK SNOW, C.E.
C.E., Ohio State University; Pi Kappa Alpha
Head of the Department of Highway Engineering

WILLIAM GILMER PERRY, M.A., D.LITT.
M.A., D.Litt., Davidson College; Phi Kappa Phi
Head of the Department of English

THEODORE SAUNDERS DUNN, B.S., M.S., E.M.
B.S., M.S., E.M., Missouri School of Mines; Pi Kappa Alpha
Head of the Department of Geology and Metallurgy

JOHN LLEWELLYN SKINNER, B.A.Sc., M.ARCH.
B.A.Sc., University of Toronto; M.Arch., Harvard University; Beta Theta Pi
Head of the Department of Architecture

ANDREW LEWIS PENDLETON, JR.
Graduate of the United States Naval Academy; Major, Coast Artillery Corps, U.S.A.; Kappa Alpha; Phi Kappa Phi; Honorary Member Scabbard and Blade
Head of the Department of Military Science and Tactics

HUGH HARRIS CALDWELL, A.B.
A.B., Davidson College; Graduate Work, Columbia University; Phi Kappa Phi
Registrar

GILBERT HILLHOUSE BOGGS, B.Sc., PH.D.
B.Sc., University of Georgia; Ph.D., University of Pennsylvania; Phi Beta Kappa; Sigma Xi; Phi Kappa Phi
Professor in Inorganic Chemistry

WILLIAM VERNON SKILES, B.S., A.M.
B.S., University of Chicago; A.M., Harvard University; Beta Theta Pi
Professor of Mathematics

John Lawrence Daniel, M.A.
M.A., Washington and Lee; Alpha Chi Rho; Phi Kappa Phi
Professor of Industrial Chemistry

Emind Weyman Camp, B.S. in T.E.
B.S. in T.E., Georgia School of Technology
Associate Professor in Textile Engineering

Thomas Graydon Seibell, B.S. in E.E.
B.S. in E.E., Georgia School of Technology; Phi Kappa Phi
Associate Professor in Electrical Engineering

ROGER SHEPHERD HOWELL, B.S. in M.E.
B.S. in M.E., Georgia School of Technology; Phi Kappa Phi
Associate Professor in Experimental Engineering

ALLEN BENTON MORTON, A.B., A.M.
A.B., A.M., Brown University; Phi Beta Kappa; Phi Kappa Phi
Associate Professor in Mathematics; Dean of the Night and Summer Schools

JAMES HERBERT GAILEY, B.S., in Arch., M.S. in Arch.
B.S. in Arch., M.S. in Arch., University of Pennsylvania
Associate Professor in Architecture

DAVID MELVILLE SMITH, A.B., M.A., Ph.D.
A.B., M.A., Vanderbilt University; Ph.D., University of Chicago; Kappa Sigma; Phi Beta Kappa; Sigma Xi; Phi Kappa Phi
Associate Professor in Mathematics

J. RUSSELL JENNIS, B.S.
B.S., Dennison University; Graduate Work, University of Chicago, Cornell University
Associate Professor in Physics

HUBERT ESCHEN DENNISON, A.B.
A.B., University of Tennessee; Alpha Tau Omega; Delta Sigma Pi; Phi Kappa Phi
Associate Professor of Commerce

E. HUGO FAYTH, E.E.
E.E., University of Cincinnati; Alpha Nu Sigma; Tau Beta Pi
Associate Professor of Co-operative Engineering

ARTHUR HAMMOND ARMSTRONG, A.B., A.M.
A.B., Yale University; A.M., Columbia University; Beta Theta Pi
Associate Professor of English

JACK MORGAN SMITH, B.S. in C.E.
B.S. in C.E., University of Wisconsin
Associate Professor in Civil Engineering

ROBERT NEAL THOMPSON, B.S.
B.S., George Peabody College for Teachers; Graduate Work, University of Chicago, Columbia University; Phi Kappa Phi
Associate Professor of Physics

EATON WERDER, B.S.
B.S., Massachusetts Institute of Technology; B.S., Harvard University
Associate Professor of Machine Drawing

D. Peter Savant, E.E., B.S. in E.E., M.S. in E.E.
E.E., B.S. in E.E., Rose Polytechnic Institute; M.S. in E.E., Harvard University; Phi Kappa Phi
Associate Professor of Electrical Engineering
BENJAMIN BLACKSTONE WROTH, A.B., Ph.D.
A.B., Washington College; Ph.D., Johns Hopkins University; Phi Kappa Phi
Assistant Professor of Chemistry

CHARLES ALFRED JONES, B.S. in T.E.
B.S. in T.E., Georgia School of Technology; Phi Psi
Assistant Professor in Textile Engineering

DAVID LESLIE STAMY, A.B., A.M.
A.B., Ursinus; A.M., University of Chicago; Phi Kappa Phi
Assistant Professor of Mathematics

LESTER COLLINS FAHRIS, A.B., A.M.
A.B., A.M., George Peabody College for Teachers; Graduate Work, Columbia University
Assistant Professor of English

JAMES ERSKINE MCDANIEL, A.B., M.A.
A.B., Erskine College; M.A., Columbia University; Graduate Work; Harvard University, University of Berlin; Delta Theta Phi; Phi Kappa Phi
Assistant Professor of English

GEORGE HOLLIDAY MCKEE, A.B., A.M.
A.B., A.M., Washington and Lee; University of North Carolina, France
Assistant Professor of Modern Languages

JAMES LAWTON ELLIS, JR., B.S.
B.S. in E.E., Georgia School of Technology
Assistant Professor of Electrical Engineering

ROGER L. GIBBONS, A.M.
A.M., Harvard University; Graduate Work, Pennsylvania College; Sigma Xi
Assistant Professor of Mathematics

LEWIS FOLTAT HILDEBRANDT, A.B.
A.B., Johns Hopkins University
Assistant Professor in Modern Languages
PERCY LAMAR ARMSTRONG, A.B., A.M.
A.B., A.M., Southwestern Presbyterian University; Pi Kappa Alpha
Instructor in Mathematics

JOHN LOUIS DRECOLL, A.B.
A.B., Washington and Lee University
Instructor in Mathematics

DAV BENJAMIN SANFORD, B.S. in C.E.
B.S. in C.E., Georgia School of Technology
Instructor in Civil Engineering

WILLIAM SIMPSON TAYLOR, A.B.
A.B., Swarthmore College
Instructor in Engineering Chemistry

IRA AMON UPTIDE, B.Sc.
B.Sc., Randolph-Macon College; Graduate Work, Princeton University; Chi Beta Phi
Instructor in Engineering Chemistry

JAMES HERTY LUCAS, B.S.
B.S. in C.E. AND C.E.
B.S. in C.E., B.S. in M.E., Georgia School of Technology
Instructor in Highway Engineering

CHARLES CURTIS HOMMON
University of Chicago
Instructor in Civil Engineering

School Surgeon

MISS LAURA HAMMOND
Librarian

MISS JULIA HAMMOND
Assistant Librarian
"Our Alma Mater"

Oh sons of Tech, arise, behold!
The banner as it reigns supreme,
For from on high the White and Gold
Waves in its triumphant gleam;
The spirit of the cheering throng
Resounds with joy revealing
A brotherhood in praise and song
In the memory of the days gone by.
Oh scion of the Southland
In our hearts you shall forever fly!

We cherish thoughts so dear for thee
Oh Alma Mater, in our prayer,
We plead for you in victory
And then in victory we share.
But when the battle seems in vain
Our spirit never falters,
We’re ever one in joy or pain
And our union is a lasting bond.
Oh may we be united
Till the victory of life is won.

—I. H. G.
On the 22nd day of September, of the year of our Lord the nineteen hundred and nineteen, there might be seen ambulating, trotting, strutting, running, or walking about Georgias Tech's stately domicile some six hundred and fifty-four newcomers who had been met at the terminal station the evening before by Dr. Matheson and brought out to the campus where they met Uncle Gus with Angel's Food cake, custard pie, and ice cream all prepared in readiness for their coming. After dinner they were tucked into bed in Knowles or Swann apartments by Professor Armstrong, who was very kind and attentive, bringing in coal and hot water for the next morning. The butler had the valet wake the FIRST YEAR MEN promptly at eleven the following morning as it was essential that they be made to realize that they were no longer at home so must make a pretense at work in the future.

Among this large assemblage were both those who could show corns in calloused palms if you tiptoed to look, and those who wore spats. Eighty-seven per cent wore twelve and a half collars and number thirteen shoes. Despite these eccentricities, there was one characteristic in common, and that was an insatiable curiosity—this to the delight of the busy Sophs who were ever attentive, showing the FIRST YEAR MEN all manner of things and demonstrating others. Verily, verily, they had the vision of a diploma and preparation for responsibility, but some of us saw our scholarship records go glimmering for work on school activities. During our stay on the campus, we furnished four varsity football men, two for basketball, two for track, and two for baseball, besides a large number of those active in the Marriettes, Glee Club, and the various publications.

We were proud of our Freshman cups of gold, the year ending with the largest banquet ever held by a school organization, a Lyric Theatre party, and a Freshman cap burning on Grant Field, the like of which has never been seen yet.

On the 22nd day of September, of the year of our Lord the nineteen hundred and nineteen, there might be seen ambulating, trotting, strutting, running, or walking about Georgias Tech's stately domicile some six hundred and fifty-four newcomers who had been met at the terminal station the evening before by Dr. Matheson and brought out to the campus where they met Uncle Gus with Angel's Food cake, custard pie, and ice cream all prepared in readiness for their coming. After dinner they were tucked into bed in Knowles or Swann apartments by Professor Armstrong, who was very kind and attentive, bringing in coal and hot water for the next morning. The butler had the valet wake the FIRST YEAR MEN promptly at eleven the following morning as it was essential that they be made to realize that they were no longer at home so must make a pretense at work in the future.

Among this large assemblage were both those who could show corns in calloused palms if you tiptoed to look, and those who wore spats. Eighty-seven per cent wore twelve and a half collars and number thirteen shoes. Despite these eccentricities, there was one characteristic in common, and that was an insatiable curiosity—this to the delight of the busy Sophs who were ever attentive, showing the FIRST YEAR MEN all manner of things and demonstrating others. Verily, verily, they had the vision of a diploma and preparation for responsibility, but some of us saw our scholarship records go glimmering for work on school activities. During our stay on the campus, we furnished four varsity football men, two for basketball, two for track, and two for baseball, besides a large number of those active in the Marriettes, Glee Club, and the various publications.

We were proud of our Freshman cups of gold, the year ending with the largest banquet ever held by a school organization, a Lyric Theatre party, and a Freshman cap burning on Grant Field, the like of which has never been seen yet.

The History Follows:

Four years have passed. We have gone through it all: Freshman, Sophomore, Junior and now Senior—through Chemistry, Physics, Electricity, Thermodynamics, Experimental Engineering, seventeen thousand hours of laboratory; through Dr. Perry's sessions, Professor Skiles' seances, the President's conferences, and the ordeal of paying our fees nine times. We are hardened now. The old business world will suffer a jar when we go out and push them aside to make a place for ourselves and our diploma.

The History Follows:

Though the school was just recovering from the S. A. T. C. regime, we brought a spirit to the campus which was invincible, so it was but a short time after college night that we began to pry things loose by electing officers and cementing ourselves into an organization.

IV

Many of us returned for our Senior year with everything put away but the base of mathematics and an increasing number of laboratory periods getting us into harness. With an increase in the school work came also a greater participation in activities. We furnished four varsity football men, two baseball regulars, four top-notch track men, and five members of the basketball varsity, besides a general distribution of men in other activities. W. P. Lyman, President; H. D. Carter, Vice-President; and M. L. Marshall, Secretary and Treasurer, were the officers who guided the class through that year.

III

Throwing house-party engagements to the winds, we gathered at Tech's old halls for the third time brimful of enthusiasm for the year of work and play, our ranks numbering three hundred and seventeen. We were quick to organize with W. P. Lyman re-elected as President, H. D. Carter filling the position of Vice-President, and J. J. McDonough in the capacity of Secretary and Treasurer. The class of '23 followed former classes in having their most active year as Juniors, so it is but natural that we contributed about half of the athletes of the basketball varsity for the 1921-22 season. Among them were twelve football men, six baseball men, five members of the basketball varsity, and eleven athletes of the cinder path. Many new activities, developed mainly by members of the class, sprung up making for a much more evenly balanced institution. 21-22 was a banner year for Tech and the class of '23 contributed no small share of the whole.

J. J. McDonough, President; W. P. Lyman, Vice-President, and M. L. Marshall, Secretary and Treasurer, composed our first group of officers.

During this first year on the campus, our class furnished four varsity foot-

ball men, two for basketball, two for track, and two for baseball, besides a large number of those active in the Marriettes, Glee Club, and the various publications.

We were proud of our Freshman cups of gold, the year ending with the largest banquet ever held by a school organization, a Lyric Theatre party, and a Freshman cap burning on Grant Field, the like of which has never been seen yet.

IV

Many of us returned for our Senior year with everything put away but the vision of a diploma and preparation for responsibility, but some of us saw our scholarship records go glimmering for work on school activities. During our stay on the campus we have furnished two football captains, three basketball captains, two baseball captains, and two captains of track teams, two editors of the Yellow Jacket, and an editor of the Blue Print. The present year has demonstrated to us the fact that responsibility and hardship go hand in hand with comradeship and love for our classmates and Alma Mater. It is with a saddened heart that we leave our mother institution, realizing that we have accomplished but a small part of our history. May our real history be founded upon our training in old Tech's halls, constructed on sound engineering lines of the future, and guided by the ideals for which our Alma Mater stands.

Senior Poem

I

Four years ago you wondered how
Your Ship would fare for four long years.
But how the time has passed! and now
You hesitate as life appears.

II

"Too soon," you cry, "The end has come!"
Anticipation looms no more,
"I've planned a lot, but little done—
The warning should have come before!"

III

Young man, if all your learning fail,
And books would bring you sorrow,
Remember Life's continuous sail;
Forget the word, "to-morrow."

IV

Anticipate, remember, too,
For joy as such is all you find,
But neither of these things you'll do
If you delay the present grind.

L'ENVOI—

A doer of the present be
Bring honors high to "Twenty-Three".

—I. H. G.

Bachelors of Science in Mechanical Engineering

JOHN SAYLOR COOK, M.E., Sc.D.
Professor

JAMES FRANK BELL, K A
“Frank”
Atlanta, Georgia
This boy is a product of Tech High. He is quite popular on the campus, having built many friendships during his four year stay. He seems to have attempted the musical side of Tech activities, and the loss of his rich bass voice will be felt by the Glee Club next year.
A. S. M. E.; Technique, '21; Cotillion Club; Band, '20, '21; Glee Club, '21, '22, '23; Tech High Club.

LEVI BALLARD
Brunswick, Georgia
This young hopeful began this earthly journey at Lexington, Ga., in the early days of September, 1902. Later he moved to the sea-coast town of Brunswick. After prepping at the Glynn Academy, he caught the old Tech spirit, and came here in '19.

ARLEIGH ARTHUR BLACK
“A Squared”
Lakeland, Florida
Here we have one of the best-hearted boys on the campus. Uncle Sam sent him here in return for sixteen months war service. During the war he learned how to shoot Germans and at Tech he has used this training to help Tech put out a winning Rifle Team. Incidentally, he has already joined the matrimonial ranks.
Rifle Team, '20, '21, '22, '23; Florida Club; American Legion.

VERNON LYONS BORUM, T. 4 , E
“Skinny”
Tampa, Florida
This fellow is a living proof of the falseness of the charge that the college football player is there only for football and is absolutely unaware of the existence of textbooks. Skinny is a prince of a chap and has made a wonderful record in everything he has attempted at Tech.
A. S. M. E.; Honor Roll, '21, '22; Scholarship “T”; Phi Kappa Phi; Scratch Football, '19, '20; Varsity Football, '21, '22; Kosenne; Anak; Bull Dogs; “T” Club; Captains, R. O. T. C.

HARRY ANDERSON BUTLER, II
“Alec”
Savannah, Georgia
This genial youth first smiled back in 1901, the fortunate spot of said occasion being Savannah, Ga. While still claiming Savannah as his home, he is quite fond of various and sundry Atlanta admirers whom he has gained during his four-year stay here. One or more of these may persuade Alec to remain in the vicinity of Tech even after he receives his diploma.
Cotillion Club; Skull and Key; Savannah Club; Second Lieutenant, R. O. T. C., '22.

TRIGG PRESTON CAMPBELL, A T
“T. P.”
Morristown, Tennessee
Trigg has been a demon for work, holding down responsible positions on several of Tech’s publications. He has also been a well-known figure in R. O. T. C. circles, having spent a year at V. M. I. previous to his entrance to Tech. Trigger’s curly blonde hair is said to have smashed several hearts of the weaker sex.
Technique, '20, '21; Clerical Staff, '22; Advertising Manager, '23; Yellow Jacket, '23; Infantry Editor, Barrage; Supply Officer, First Battalion. R. O. T. C.

CHARLES STEVENS CARTER, N
“Nick” “Snake”
Lithia, Georgia
This boy aims high in his plan of attack on the world. He states that his ambition will not be fulfilled to his entire satisfaction unless he becomes a good flyer, obtains a pretty wife, and makes a success of himself. Well, we hope we receive an invitation to the wedding.
Aviation Club; Track Squad, '20, '21; Mexican Athlete.
Hugh Davis Carter, Jr., K A

"Hugh"
Atlanta, Georgia

Here indeed we find a versatile young man. Though definitely connected with four branches of athletics, he was not content to stop there, but promptly demonstrated his ability as a song bird, an actor, and a social lion. He is a member of practically every honor club on the campus.

Varsity Track, '20, '21, '22; Swimming Team, '20, '21; Scrub Basketball, '20, '21, '22; Football, Assistant Manager, '20, '21, Manager, '22; Marionettes, '20, '21, '22; Glee Club, '21, '22; Technique, '20, '21; Skull and Key; Koseme; Bull Dog; Anak; Cottage Club; Tech High Club; A. S. M. E.; Vice-President Class, '21, '22, '23.

Thomas Frederick Carter, Jr., X 4

"Nick"
Richland, Georgia

Introducing to our admiring readers Nick Carter himself. However, the gentleman here presented is quite tame and civilized. After obtaining his degree last June as a straight Mechanical Engineer, he returned again for a year of work in the Automotive Engineering Department. Nick is a born mechanic.

Technique, '17, '18, '19, '20, '21, Circulation Manager, '21; Society of Automotive Engineers; American Legion.

Samuel Taylor Coleman, III, 4 A 0

"Duck"
Macon, Georgia

This diminutive product of Lanier High School, Macon, has made a very enviable record since his matriculation at Tech four years ago. Dressed in his tight-fitting uniform and slick Sam Browne belt, he makes quite a figure as he struts along Peachtree each evening, the sun gleaming from the buttons that decorate his manly shoulders.

A. S. M. E.; Phi Kappa Phi; Honor Roll, '22; Honor Court, '21, '22; Roll Dog; Skull and Key; Cottage Club; A. S. M. E.; First Lieutenant, R. O. T. C.; Scabbard and Blade; Glee and Mandolin Clubs, '21, '22, '23; Vice-President, Glee Club, '23; Technique, '22.

Simeon Bates Cook, 4 K

"Sim"
Chattanooga, Tennessee

This slender youth began life on September 12, 1901. He received his preparatory training at the McCallie Prep School, and then packed his trunk for Tech. Cook has made himself quite popular among the other members of his class, and a bright future is predicted for him.

A. S. M. E.; Track, '21, Company Football.

John Fitzhew Cox, B 0 II

"Jack"

Thomasville, Georgia

Jack has not been with us very long, but he has been here long enough to earn a place in the hearts of many of us. After spending a couple of years at California Tech, he came to Georgia Tech and has been one of our best boosters. He has done his part in helping make this year’s class occupy the high position it does.

Track, '22, '23.

Hugh Inman Dubose, X 6

"Venus"
Atlanta, Georgia

"Venus" possesses a shape that makes the former owner of that name tremble with jealousy each time she beholds him. Hugh is alleged to take advantage of every opportunity possible, including beauty shops and daily exercises, to preserve his heritage. As an exponent of the art of Terpsichore, he has few if any equals.

A. S. M. E.; Cottage Club.

William Augustus Edwards, 2 X

"Pete"

Atlanta, Georgia

Here is a Mechanical Engineer who is a darn good business man, judging by the success of the various Tech organizations that have been managed by him. Gus is often quite serious, which is in keeping with the part assigned to him in the first sentence of this sketch.

Marionettes, '22, Business Manager, '20; Technique, Assistant Advertising Manager, '21; Yellow Jacket, Business Manager, '21; Honor Roll, '21; Tech High Club; A. S. M. E.; American Legion.

Richard Roodey Garrison

Charlotte, North Carolina

Garrison was born in his present home town some twenty-six years ago, the family Bible giving the exact date of said event as May 31st, 1897. Garrison is a big-hearted fellow and his many friends on the campus believe that he will be heard from in the future years.

A. S. M. E.; Company Football, '19.
JOHN EDWIN GETZEN, Φ Σ Κ

"Skinny"

Pendergrass, Georgia

Skinny sighed his first tear and wept his first sigh in the metropolis of Pendergrass on November 28th., 1901. This young fellow uses his head, as is evidenced by the fact that he took a post-graduate course in M. E. after he had won a degree in E. E. Skinny is a ladies' man from way back, slinging a wicked telephone line. Maybe that is why he took Electrical Engineering.

Phi Kappa Phi; Band, '18, '19, '20, '21, '22; Captain in Band, '21, '22; Honor Roll; Scholarship "T"; R. A. R. Club; Blue Ridge Club; A. S. M. E.; A. I. E. E.; B. S. in E. E.

EDWARD WILLIAM HAHN, A Χ X

"Eddie"

Charleston, South Carolina

Porter Military Academy sent Tech a good man when this boy decided to matriculate here. Eddie has spent nearly twenty-two years on this bit of dirt called Earth, but we are glad that he decided to stop off at our beloved Georgia Tech for four of that number. He has made many friends for himself in that time.

Honor Roll, '21; Phi Kappa Phi; Band, '19, '20, '21, '22.

KARL HERMAN HALLER

"X Y"

West Palm Beach, Florida

X. Y. is possessed of a very quiet nature. It was probably different back in 1898, when Karl first beheld the glow of dewy dawn. But the continual sound of the breakers on the beach near Tampa has probably made him realize the futility of perpetual noise. He is graduating.

ARTHUR WILLIAM HARRIS, Η Κ Φ

"Ike"

Savannah, Georgia

Yes, Ike is from the town wet other places than on the sea shore. Around Tech Arthur is quiet and demure, but this is no criterion of how he acts when on his native haunts, with all the usual reinforcements at hand. He is serious about his work, and conscientious to a degree which should make him a successful engineer.

Skull and Key; Cotillion Club; First Lieutenant R. O. T. C.; Savannah Club.

ERNEST WILLIE HARWELL

"E. Willie" "Amos"

East Point, Georgia

E. Willie admits his home is in East Point. Otherwise, he is all right—Wait! What's this? "Ambition to make an automobile 'Uncle Si' will like." Gee, the poor boy's crazy, we fear. Well, we wish him luck and really wouldn't be surprised to see him do it.

Society of Automotive Engineers; Company Football, '16, '20; Tech High Club.

JAMES HENRY

"Jack"

Nashville, Tennessee

We know that this boy will some day be as great a genius as his namesake, Mr. Ford. He admits it himself, though somewhat modestly. As you might already have guessed, he is never so happy as when riding with Henrietta. Evidently she is his soul-mate, and he says he will never rest until he has developed her almost to the point of perfection.

"To build a Ford that will run 41.17 miles per." Society of Automotive Engineers; Tennessee Club.

ELLIOTT FRANCIS HIGGINBOTHAM, 4 , 7.; Κ

Brunswick, Georgia

Hig is a rather quiet chap, seldom opening his mouth to express an opinion until he has heard the other fellows give their views. In this way he has built up a reputation for great wisdom, even as the owl. We are all watching Higgie with much interest just to see whether or not he has been fooling us.

Y. M. C. A. Friendship Council; A. S. M. E.; Technique; Brunswick Club.

DAVID CHURCH HISCOX, Τ Τ Α

"Dave"

Atlanta, Georgia

Here's another one of the hopeless, benighted, and incurable automotive engineers. This member believes he can eventually make a Ford run on its reputation. Personally, we doubt if he'll be successful. Here is a full-fledged R. O. T. C. major, having gotten his training under Uncle Sam back in the war days.

Society of Automotive Engineers; Honor Roll, '29; Major, R. O. T. C.; American Legion.
HENRY JOHN JAEGER
Florence, South Carolina
H. J. comes to us from the Citadel, where he obtained his degree in Civil Engineering. During the past two years, he has made numerous good friends on the campus, and it is with regret that we realize that he is not to spend more time among us. He was born in Florence, South Carolina, on May 27th, 1900.

JOHN TIMOTHY KILLEN, JR.
Macon, Georgia
Here we have a quiet, studious chap. He can usually be found with a cheerful smile beaming down on the rest of the world from his six-feet height. The only thing against him is that he's from Macon, but possibly he couldn't help that.
Phi Kappa Phi; Scholarship T; Honor Roll, '19, '20, '21, '22.

JOSEPH GAULT LATHEM, JR., A K X
"Jay"
Atlanta, Georgia
J. G. came to Tech from Tech High, of Atlanta. Last year he took a course in Automotive Engineering and since he entered as a Sophomore, decided to return for a fourth year and get a degree in straight Mechanical Engineering subjects. Jay always wears a smile and is well-liked on the campus.
A. S. M. E.; Society of Automotive Engineers.

ARTHUR ENGSTROM LECHRAW, X 4
"Arthur"
Atlanta, Georgia
Arthur seems to have devoted the majority of his time spent in activities along literary lines. He has been actively connected with all of the Tech publications. He also has essayed to try his skill with the "light fantastic toe" and we hear he is quite a popular member of the dancing set.
A. S. M. E.; Cotillion Club; Pi Delta Epsilon; Blue Print Staff, '22; Yellow Jacket Staff, '22; Technique Staff; Advertising Manager, '21; Business Manager, '22; Boys' High Club.

ROGER WOODS MALONE, K A
"Roy"
Macon, Georgia
Macon again! This time we have a boy athletically inclined; Roy is also somewhat of a master of the art of Terpsichore. He is a likeable sort of fellow, making friends wherever he goes, especially among the fairer sex.
Scrub Football, '21, '22; Scrub Basketball, '21, '22; Varsity, '21; Company Football, '19, Captain, '20; Captain Company Basketball, '20; Cotillion Club; A. S. M. E.; First Lieutenant, R. O. T. C.

ROY L. MARTIN
Atlanta, Georgia
Roy has an all-time, never-fail, ever-ready smile that keeps his face constantly beaming and so helps make the rest of mankind feel a little better. Roy is a good student and an efficient one, graduating at the youthful age of twenty. He has a pair of arms like a mule—in strength, but shape.
Honor Roll, '19, '20; Boxing, '19, '20; Captain R. O. T. C.

DONALD C. MOORE, II
"Dinty"
Atlanta, Georgia
D. C. started out some twenty-four years ago at Montrose, West Virginia, but reached Atlanta in time to obtain a diploma from Tech High four years ago. One day shortly after this event, he happened to journey out toward North avenue and thus saw Tech for the first time. Feeling a deep mysterious call to things higher in the educational world, he decided to remain awhile, but is now ready to tramp on again.
Masonic Club; A. S. M. E.; Tech High Club; Blue Print, '22.

JOSIAH PUTNAM MURDAUGH, II
"Pete"
Bartow, Florida
Pete is another Tech man from the Alligator State. He obtained his preparatory training at Summerville Institute and entered Tech in the fall of 1919. He wishes to announce that his name is not murder, but that in reality he is quite a peace-loving youth of but twenty-two winters.
JOHN JOSEPH McDONOUGH, III, Σ A E
"Jack"
Savannah, Georgia
Here is the brainy pilot of the Tornado for the past four years. Arriving here in September, 1919, Jack went down on Grant Field and proceeded to demonstrate that, even though a Freshman, he deserved a place on Coach Heisman’s football team for that year. And he got it—and has held it against all opposition ever since.

Varsity Football, ’19, ’20, ’21, ’22; Scrub Baseball, ’19; Manager, Basketball, ’21; Skull and Key; President, Koseme; President, Bull Dogs; "T" Club; Anak; Cotillion Club; A. S. M. E.; Savannah Club; First Lieutenant, R. O. T. C.

JOHN NEWTON McCLURE, H K A
"Mac"
Norcross, Georgia
The small town of Duluth was surprised one quiet day in mid-winter of 1899 by a piercing yell. On investigation, the source of this shriek was found to be the youthful lungs of Mac, then but ten hours old. Now, at the age of twenty-four, he still possesses the ability to bring forth sounds from his mouth, but seldom does he allow it to take the form of that earlier outcry.

Second Lieutenant, O. R. C.; Masonic Club.

BENJAMIN JAMES O’CONNOR, A T
"Mike"
Kibbee, Georgia
Mike first arrived at the portals of Tech back in the war days of ’17. However, he soon left school at the call of his country, but later returned to obtain his degree. Mike came here from the Brewton Parker Institute, wherever that may be.

American Legion; Kinematics Club.

JACK WATKINS PATTERSON, 3 K X
"Pat"
Atlanta, Georgia
Pat was born in some unknown corner of Texas, the exact name given to the crossroads there being Pilot Point. Though a long way from the Lone Star State, Pat says he is very well satisfied with Georgia and expects to practice here the training he received in the Automotive Engineering course.

Tech High Club.

WILLIAM RUSSELL PHILLIPS, JR.
"Goofy"
Atlanta, Georgia
William Russell Phillips, is one of those students so frequently seen who have to plug for their knowledge, but unlike many of them, he always gets what he starts after. Entering Tech from Boys’ High in 1918, Goofy, during the four years since then, has constantly stuck to his work and now graduates as an Automotive Engineer. Offices’ High Club.

GENARO MENENDEZ PTOVA
"Jimmy"
Campos, Brazil
Arriving at Tech in 1919 and finding the English language much more difficult to pronounce in the United States than in the class room of the Campos High School, Jimmy has remained and is now ready to receive the much desired sheepskin. Povoa has learned to play football since his arrival at Tech and made his numeral in the last season’s play.

CHARLES ERNEST POWELL, K Σ
Atlanta, Georgia
Here is a rather ambitious man, determined to get an education. He gives us the information that he first beheld the glow of dawn back in the Middle Ages, date approximately 1893. In his endeavors to get the aforementioned education, he got a bad start by entering Mercer University, but learned enough there to realize his mistake and so came to Tech.

A. S. M. E.; Masonic Club; Boys’ High Club.

WILLIAM WIGHTMAN RICHARDSON, II A A
"Red"
Washington, District of Columbia
Red decided that in order to be able to run the Government in the right way he would need an education. Having decided that Tech offered the best opportunities, he left Washington for a few years, but is now ready to return and seize control of the Government. It is alleged that he first intends to take over the Mint and the Prohibition Enforcement Bureau of the Department of Justice.

Advertising Manager, Technique, ’23; Assistant Advertising Manager, Yellow Jacket; Blue Print; Masonic Club; A. S. M. E.; Honor Roll, ’21, ’22; First Lieutenant, R. O. T. C.; Company Football; Marionettes.
JOHN WESCO'TT ROURK, JR., II K 4, "Woo Fang"
Savannah, Georgia
Savannah has the honor of being the birthplace of this budding Mechanical Engineer. "Woo Fang" has been a familiar figure in the Band and R.O.T.C. Cadet Corps during his stay, thus proving that even though a Rourk, he is not a "rookie."
First Lieutenant, R.O.T.C.; Band, '20, '21; Cotillion Club; Savannah Club.

CHARLES G. SHEPHERD "Shep"
Macon, Georgia
"Shep" began his career through this life back in the autumn days of '96. He spent a few years at Lanier High, and later decided to finish his education at Tech. Though a few years older than the majority of his fellow classmates, he is well-liked by each and all of them.
Technique; A. S. M. E.

CLARENCE CUNNINGHAM SKELTON "War Baby" "Chicken"
Irwin, Georgia
"Chicken" began drilling shortly after August 18th, 1899, the late Spanish War being his main inspiration. When the World War found him at Hixson High School, Hixson, Tennessee, he left school and served overseas for two years. He returned in time to enter Tech with the rest of the class of '23.

HARRY VANE STARBIRD, 2 Φ Ε "Harry"
Apopka, Florida
What kind of a bird is a starbird? In our opinion, if the quiet being here presented is a fair specimen of the species, a starbird is all right. H. V. is rather short and inclined to say little and that little in a quiet tone that lends him an appearance of dignity. With these eyes of his, we believe that we, too, could be heart-smashers. A.S.M.E.; Masonic Club.

EARLE GORDON THOMAS, JR., 2 X Kirkwood, Georgia
This boy is possessed with a wanderlust, as indicated by his statement that his ambition is "to examine this terrestrial globe we call the earth." Realizing that an education was essential to a proper appreciation of its wonders and to a knowledge of the art of hoboining, he took a few years off and came to Tech.
Tech High Club; Second Lieutenant, O. R. C.

HAMILTON AURELIUS TIDWELL, "Tip"
Atlanta, Georgia
This beardless youth of twenty summers, despite his classic and aristocratic name, is really quite a democratic fellow. He broadcasted his first shout of joy on November 11th, 1902, nearly frightening the inhabitants of Buford, Georgia, beyond their wits. Since his entrance to Tech, where he has become more prominent in the public view, November 11th, has been declared a national holiday.

MARION CRAWFORD VERDERY, 2 T Α "Preach"
Augusta, Georgia
Preach is a jolly sort of engineer. He hails from one of Atlanta's most promising suburbs and expects to go back there in June and wake the place up, especially the feminine element of the town. He admits that A.R.C. is the best prep school in the world and also that he holds a charter membership card in the Tech "Hobo" Club.
Technique; Barrage; Augusta Club; Company Football, '20, '21, '22.

THOMAS HERBERT WATSON, JR.
Whitnire, South Carolina
Tom Watson (our Tom, not the late Senator) was born in Greenwood, South Carolina, the event being the cause of great festivities in the sunny Southern town. Twenty-one times since then the town has decorated itself and declared a holiday to celebrate the date of his arrival. He will return there in June and become their chief Mechanical Engineer.
CHARLES THOMPSON WILDE
“Oscar”
Jackson, Tennessee
Oscar marched up to the log fire, expectorated vociferously to the ruination of the kindled blaze, and clearing his throat with a guttural cough, announced his arrival with a deep-chested “Waaaaaa” on the morn of January 26th, 1902. Having thus surprised his family at the start, he has since surprised them again by staying with us four years, during which time he has made many friends who would aptly describe him with his last name, the “e” left off.

IRA EUGENE WYATT, 4> K
“Hank”
Columbia, Mississippi
Hank came to Tech from somewhere in Mississippi back in the days of ’19. During that time various and sundry causes have produced in him a total absence of ambition, he told us. He can usually be found playing his saxophone; this is evidently his way of forgetting his troubles. (We fear most of his troubles are connected with the fairer sex.)
A. S. M. E.; Band, ’23; Mississippi Club.

THOMAS WITT FITZGERALD,
B.S. M.E.
Professor

JAMES WELLS ASBURY, 2 & E
“Sleepy”
Clarksville, Georgia
Asbury entered the arena of life on September 2nd, 1900. He prepped at Piedmont College Academy and came to Tech in the fall of 1919, where he has spent a quiet but by no means a slumberous life.
“If you have no pull, WORK.”

WINTON EVERETT BATES, JR., E X
“W. E.”
Waycross, Georgia
The state of South Carolina lost a good citizen when Bates left for Georgia, after having graced Charleston with his birth. He now claims Waycross as his home. After finishing at the Waycross High School he entered Tech in 1919, and has made his presence felt ever since. He is too timid to tell his ambition.
Marinette; Technique, ’21; Barrage, ’23; Assistant Business Manager, Blue Print, ’23; Y. M. C. A. Cabinet, ’22.

Bachelors of Science in Electrical Engineering

JAMES WELLS ASBURY, 2 & E
“Sleepy”
Clarksville, Georgia
Asbury entered the arena of life on September 2nd, 1900. He prepped at Piedmont College Academy and came to Tech in the fall of 1919, where he has spent a quiet but by no means a slumberous life.
“If you have no pull, WORK.”

WINTON EVERETT BATES, JR., E X
“W. E.”
Waycross, Georgia
The state of South Carolina lost a good citizen when Bates left for Georgia, after having graced Charleston with his birth. He now claims Waycross as his home. After finishing at the Waycross High School he entered Tech in 1919, and has made his presence felt ever since. He is too timid to tell his ambition.
Marinette; Technique, ’21; Barrage, ’23; Assistant Business Manager, Blue Print, ’23; Y. M. C. A. Cabinet, ’22.
EUGENE RUFUS BONDS  
"Hick"  
Russellville, Arkansas  
Hick received his training for Tech at the High School in Russellville, where he was born some twenty-two years ago. He entered Tech in 1919, and since that time has been carving himself a niche among the "juice" men of the class of '23. If he lives up to his ambition he will make his classmates proud of him.  
"A million or nothing."  
Company Football, '23.

SAMUEL PAUL BRATTON, Δ Σ Φ  
"Brat"  
Little Lot, Tennessee  
"Brat," the good-natured electrical, was born in Little Lot, Tennessee, June 5th, 1896. His desire to enter Tech caused him to spend four long years at Chattanooga High School. From thence he entered Tech in the fall of 1919 and he HOPES to be able to leave in June, 1923.  
"To develop a love for my profession."  
Tennessee Club; Blue Ridge Delegation, '21; A. I. E. E.

HERMAN BAINBRIDGE BROWN, Π Τ Λ  
"H. B."  
Lawrenceburg, Tennessee  
Behold the mainstay of the rifle team! Ever since he has been at Tech, H. B. has been chalking up bull's-eyes for the school on the range. Due to his ability to shoot profs as well as targets with deadly accuracy, he is graduating this year, having made a fine record in electrical engineering.  
"Retribution for four years' labor."  
Tennessee Club; Rifle Team, '20, '21, '22; Captain, '22; A. I. E. E.; Technique, '22; Winner Rifle Competition, '22.

WILLIAM JOHN CAMPBELL  
"Bill"  
Jacksonville, Florida  
Bill first took a peep at the balmy Southern skies on a bright September morn, the twenty-first day, to be exact. He spent the majority of his days there in Jacksonville, graduating from the Duval High in 1919. He then became fired with ambition, and so entered Tech that fall. Bill is well-liked on the campus and will make some company a first-class engineer.  
"To grow oranges at the North Pole."  

I. REID CARLISLE, JR., Κ Α  
"Reid"  
Atlanta, Georgia  
Reid began singing in the Sunday School choir at one of the local churches in the early part of the twentieth century—1901, to be exact. Making a killing at all performances, he started in search of a larger field. Hearing of the opportunities of the Glee Club, he came to Tech in 1919, after a stay of four years at Boys' High.  
"To get even with the Ex. E. Department."  

JOHN WRIGHT CARSWELL, Σ Α E  
"Johnny"  
Waynesboro, Georgia  
The first stop on this young engineer's road of life was Bellevue, Georgia, where he landed on the 19th day of September, 1901. Johnny decided to see the world, so he entered the Waynesboro High School, but soon left for the Shenandoah Valley Academy, soon to move on to the Academy of Richmond County, Georgia. He entered Tech in 1919, and has been much in evidence ever since.  
"To be a farmer."  
Company Football, '22, '23; Scrub Baseball; A. I. E. E.

HOMER MONROE CARTER, Σ O  
"Cap"  
Cheyenne, Texas  
For a Mexican athlete this man has done wonders since he has been at Tech. He is not only premier in scholarship, but is a good athlete and one of the most popular boys on the campus. Although from the wilds of Texas, he is rather quiet and reserved, although when he does talk he always has a good word to say about everybody.  
"To beat the sands of Texas with electricity."  
Scrub Football, '20, '21, '22; Y. M. C. A. Cabinet, '23; Captain B. O. T. C.; Scabbard and Blade; Scholarship "T"; Secretary Student Association, '21; Secretary Senior Class; A. I. E. E.; Phi Kappa Phi.

JOSEPH MAURICE CHAMBLISS  
"Slim"  
Moreland, Georgia  
Following an instinct that led him to take electrical engineering, he came to Tech to gratify that desire. He attended Emory University Academy for a number of years. From all accounts his pre-dominating instinct which was so early fostered will some day make him one of the big men in the electrical world.  
"Who's What."  
A. I. E. E.
HENRY BYRON CHAPMAN

"W. B. R."
Atlanta, Georgia

This radio bug first began broadcasting in some local domicile about the year 1900. He prepped at Commercial High, but soon mastered the gentle art of "mems pounding." You can hear him nearly any night on the ether.

"To become a Radio Bug"

HARVEY RUSSELL CONNELL, A Σ T

"Harvey"
Orlando, Florida

After a couple of years at the University of Florida, Harvey came to Tech and began playing football on the Tornado. He has made the team a valuable man and has won a place in the hearts of his teammates. Originally quite a social lion, he has somehow gone back on the dances. It is possible that he now finds the porch swing more inviting.

"To supplant Fitzgerald."

THOMAS LAUREN CORWIN, II

"Tom"
Newark, New Jersey

Tom has become quite a prominent figure on Grant Field, and in his capacity as track manager became well known about the campus. He is of a vivacious nature, having come from the damp state of New Jersey, and is a terror to the ever-present buttermilk.

"To be an electrical engineer."
Honors Roll, '20; Manager Track, '22; Lieutenant, R. O. T. C.; Phi Kappa Phi.

ARTHUR WILLIS DAVIS

"Whiz-Bang"
Hamilton, Georgia

Augustus is the sort of a person that tends to his own business, and leaves the other fellow's alone. This may be due to his being a married man. While he was not at Elm Grove Institute or Tech he was across the sea fighting the Germans. White-Bang is the "Daddy" of the class.

ROBERT EDMOND, JR., φ K Σ

"Bob"
Norfolk, Virginia

A whirlwind blew down North Avenue one day and after it had passed we found out that it was only Bob in his new car. With his good nature, friendly disposition, and likable personality, he is one of the best of fellows. He was born in New Orleans and went to St. James School, Maryland, to get his early education.

"To be a designer."
Major, R. O. T. C., '22; Scabbard and Blade; A. I. E. E.

ARTHUR B. ENGEL

"Wally"
Lookout Mountain, Tennessee

We can't get much evidence on A. B. except that he was partly responsible for the electrification of the Lookout Mountain Inclined Railway. After ringing up fares on the Chattanooga street cars for a few years he obtained a preparatory education at the Central High School and came to Tech in 1919.

ROBERT BENJAMIN FLOWERS

"Bob"
Atlanta, Georgia

"Bob" came into the world at Griffin, Georgia, but reached Atlanta in time to prep at Tech High. After imbuing the fundamentals of the engineering profession he entered Tech in the fall of 1919. Some time when he is in a good humor ask him about the radio department of Uncle Sam's Navy, but be prepared to spend the night.

"To be Dr. Marconi, Jr."

HIRAM STANLEY FOX

"Tesla"
Winchester, Kentucky

After four years hard work at the Kentucky Wesleyan Academy, he began the daily grind at Tech when the leaves were falling in the fall of 1919. A good man is hard to down, as he is to come up for a "dip" in June.

"To Know, To Do, and To Be."
Band, '20, '21, '22, '23; A. I. E. E.
BYRON ASHERBY GLOVER
"B. A."
Atlanta, Georgia
Glover was born, reared, and educated within the city limits of Atlanta, and after extensive travels through a number of North Georgia cities he decided to hitch his mule at Tech High. Four years there proved sufficient to get him in the Freshman Class at Tech in 1919.

"Radio Engineer."
Tech High Club; Aero Squadron.

CHARLES HANCOCK GRAHAM, A K X
"Fessor"
Atlanta, Georgia
This is the man of smiles. You will always find him smiling, and what he lacks in other capacities he makes up in smiles. With his genial good will he is never to be found in an ill humor. He prepped at Tech High and came to Tech in 1919.

"Smile and the world smiles with you."

NOYCE LOVIE GRIFFIN, φ Σ K
Rocky Face, Georgia
Griffin is the guy who is going to broadcast power by radio. The G. E. Co. has been after him for his idea, but he says it is the only one he ever had and he cannot part with it. He first began to work on the project in Rocky Face some twenty-three years ago and came to Tech in order to perfect it. Here's wishing him the best of success.

"To broadcast to Mars."
Masonic Club.

JAMES MONROE HAIRE
"Jimmie"
Dunnellon, Florida
This worthy student was born at Crystal River, Florida, some twenty-six years back. He claims never to have gone to a prep school, but came to Tech in 1920 with a firm determination to obtain a degree in electrical engineering and to that end has been a very consistent worker.

"Sixty, please."

FRANK HENLEY
"Doc"
Atlanta, Georgia
Doc is another of those reserved boys. One not acquainted with him might class him with the sleepers, for seldom is he known to disturb the rambles of Seidel. Although born in Jasper, he prepped at Tech High, from which he entered Tech in 1919.

"To master the Fourier Series so as to occupy C. P. Steinmetz's chair."
Tech High Club; A. I. E. E.

JACKSON BRANTLEY HIERES, JR., H A A
"Jack"
Miami, Florida
This budding Steinmetz emitted his first yell at Miami, but this is not to be held against him. His initial conception of Newton's Law of Gravitation was obtained at the Miami High School, from whence he came to the Georgia School of Technology in the fall of 1919. J. B.'s brilliance has illuminated the campus ever since his arrival.

"To complete in a successful manner that which I have started."

JAMES JACKSON HIGDON, O K
"Jack"
Atlanta, Georgia
Behold another man of the world! He was born at High Springs, Florida; prepped at the Knoxville High School, Knoxville, Tennessee, and is now residing in Atlanta, Georgia. Since entering Tech in 1919, Hig has given us the "whys and wherefores" of many difficult subjects without saying much about any of them.

A. I. E. E.

EMMETT WOMACK HINES, φ α Ω
"Emmett"
Milledgeville, Georgia
Although Emmett was formerly well liked on the campus, his connections with the Ex. E. department have caused considerable furor among the seniors of the institution. Despite this fact, his ability to file the horsehide has placed him in a commanding position on the campus.

TIP KELLEY
"Irish"
Atlanta, Georgia
This young Irishman first began blowing his own horn around these parts some twenty odd years ago. If he can escape from the institution in June he expects to go over and electrify his home capital, Dublin, (Ireland).
"Freedom for Ireland."

THOMAS ADAMS KIRKWOOD
"Tom"
Bennettsville, South Carolina
It was some time before the registrar could grasp the fact that anybody, even Tom Kirkwood, could have been born in Bennettsville. This seems to be true, which fact, because of Tom’s splendid record at Tech, raises the stock of said city several notches.
"To be a farmer."
A. I. E. E.

WILLARD WEBSTER KRAUSS, 4,d
"Sonny"
Brunswick, Georgia
Sonny first shocked the world by his birth in 1902, was raised in constant companionship with switches, and having been brought up electrically, has continued in that profession. He entered Tech from Glynn Academy and has made a large number of friends during his four years here.
"To be a lawyer."
Secretary Brunswick Club, '23; A. I. E. E.

FRANKLIN PERRY LEAPHURT, JR., X 4
"Tarzan"
Columbia, South Carolina
Although one of the smallest men in the class, Perry always manages to make himself heard above the constant racket in the E. E. Lab. He is a most sedate looking personage, his hair being the envy of the campus. It is rumored that he is an authority on hair tonic and can grow it anywhere except on his head. He spent some time at the University of South Carolina before coming to Tech.
"Persistence always wins."
Lieutenant, R. O. T. C., '22, '23; A. I. E. E.

JAMES HELLAND LEPPERT
"Jerry"
Atlanta, Georgia
Jerry missed his calling when he took electrical engineering. He is "the" authority of Atlanta on second-hand cars. Four times during his career at Tech cars have fallen to pieces with age under him. Still, each week he drags out some new wreck and by some means persuades it to run. Jimmy prepped at Tech High School.
Tech High Club; Al-Ko-Hall Club.

WILLIAM ERIC LINCH
"Willie"
Flovilla, Georgia
He hails from the very quiet town of Flovilla, hence he is of a very quiet nature. After spending four years at Locust Grove Institute, he came to Tech in 1918, when everybody was doing "squads right." The strain was too much for "Weary Willie," so he stayed away a year, but came back and by combining his efforts and ambition he is to get his sheeepskin.
"Success."
Scholarship "T"; A. I. E. E.

FRANK ROGERS LONGLEY, II A
"Kitty"
Chattanooga, Tennessee
Kid is one of the bright boys of the class. Ever since his advent in 1919 he has had the profs completely buffalowed. The question is, how does he do it? One would never suspect that he was born in LaGrange, but Frank swears he couldn’t help it and does his best to smile it off. He prepped at G. M. A.

WILLIAM PAUL LYMAN, K A
"Polly"
Montevallo, Alabama
Polly has been receiving special deliveries every week since July 12th, 1900, and during that time has spent $131.07 for stamps in order to answer them. Nevertheless, Paul is one of the most popular men on the campus and is always ready to help anybody that is hard up. We don’t blame the source of the specials a bit; in fact, for such a popular man, we might suggest two a week.
"Electrical Engineer in a mine."
Scratch Football, '20, '21; Varsity Football, '22, '23; Track, '20; Manager Basketball, '22; Barrage, '23; Cosmopolitan Club; Bull Dogs; Koseme; President, Y. M. C. A., '22.
PALMER McDougald Maxwell, 4 Σ K

Calvary, Georgia

Pee Wee is rather diminutive in size and he informs us that he has been that way ever since he was born in 1902. Although very much in love, he manages to do fine work in his studies, and after getting a receipt for his four years' labor at Commencement, he intends to put what he has learned to good advantage. "Still thinking of her!"

"Day by day, in every way, she will love me more."

Technique, '23; A. I. E. E.

HORACE ALEXANDER MOORE, 4 Σ K

Carlton, Georgia

This young Mercury first began getting his wind running after the mail down in Lexington, Georgia. The course was not stiff enough, so he journeyed to Carlton, where he was among those present at the local high school. He entered Tech in 1919 and has been running ever since.

"To break the record from New York to San Francisco."

LAURISTON GREENE MOORE, JR., A T 9

Jacksonville, Florida

The junior member of the firm of Barnett & Moore, Grafters, began training for his profession way back in 1901, and since that time he has missed few opportunities to fleece the innocent populace. It has been said that it takes a good man to get anything out of a Tech student, but this firm seems to have little trouble. It is Larry's ambition to play one of the title roles in the "Merchant of Venice."

Pan-Hellenic Council, '22, '23; Vice-President, '23; President Florida Club, '21; Skull and Key; Vice-President Cotillion Club, '23; Scabbard and Blade; Captain, R. O. T. C., '23; Assistant Manager Basketball, '20; Assistant Manager Football, '21, '22.

WILLIAM MOSES, JR.

Columbia, Tennessee

Bill has been with us for a long time and is still a familiar figure on the campus. Not satisfied with one degree, he returned for a fifth year and a degree in E. E., in addition to the original one in M. E. Bill is not only an engineer, but a scribe of some note, having worked on all the publications.

"To compete with the sun."

Technique, '19, '20, '21, '22; Yellow Jacket, '22, '23; Tennessee Club; Vice-President, '22; Chess Club; R. L. T. C.; Assistant Manager Basketball, '20; Assistant Manager Football, '21, '22.

THOMAS S. Moss, Σ Σ

Athens, Georgia

This gentleman started chasing the ladies in the learned city of Athens in 1900. They led him to Atlanta, where he has been ever since, attending Tech as a side line. He has a good ambition, so here's wishing him success.

"To be a man."

RUSSELL LAWTON McCALL

"Mar"

Ogeechee, Georgia

This "globe-trotter" has seen much of this continent for his age. He graced Louisville, Kentucky, with his presence in the middle of winter, 1901; prepped at Mars Hill College, North Carolina, claims Ogeechee as his home, and has gone to Tech in Atlanta. We now know that Dr. Steinmetz, Jr. was his guide in the laboratory, having been his instructor in the fields of Physics and Electricity.

FRANCIS RIGGS McCLELLAN, 4 Σ K

Waycross, Georgia

Shrimp came to us from Waycross, for which Tech owes thanks to that town. Shrimp is a live wire, both electrically speaking and otherwise. He told us that one improvement he would suggest for Georgia Tech is to make the school co-ed. But since it isn't, he has made the best of the situation, and has taken care of the ladies after school hours.

"To be an executive of a public utility company."

HERBERT Searcy McGee, Σ Σ E

"Nugge"

Juliette, Georgia

"Nugge" was presented to an admiring world on July 5th, 1899, at Juliette. He put on shoes and came to Tech in 1919, and now that he is leaving we understand that he is going to give the Georgia Railway & Power Co. competition in Dublin, (Ireland).
CHARLES PAYNE McMURRY  
"Long Distance"  
Atlanta, Georgia  
When not writing jokes for the Yellow Jacket, Mac spends his time chasing street cars down Luckie Street. In choosing the place for all activities, he picked the home of Georgia Tech. He was born in Atlanta, prepped at Tech High, and has faint hopes of quitting from Tech in June.  
"Explore North Pole."  
Yellow Jacket.

ROBERT STRATTON NEBLETT, B O II  
"Papa Lore Bird"  
Corricana, Texas  
Papa Tweet-tweet had his first measurement made for a square meal back in the good old days of the Alamo. Though he has a terrible time with his foundlings, he is perfectly normal, being at home in an atmosphere of thermionic valves, electrons, hysteresis, magnetization curves, input, output, IR drop, and polarization.  

JAMES TURNER NOLEN, JR.  
"J. T."  
Middleton, Tennessee  
Turner came to Tech a natural engineer and a jolly good fellow. He still resides in the place of his birth and has been away from there only eight years—four at Castle Heights and four at Tech.  
"To fly like a bird."  
Technique, '20, '21, '22; Tennessee Club; Al-Ko-Hall Club; Aero Squadron; A. I. E. E.

RODOLPH STEWART OLIVER, JR., A T II  
"Ruddy"  
Plains, Georgia  
R. S. is and has been the pride of Plains since 1902. This youth three obtained his training for one of his best activities at Tech. We refer to his ability as a shinny expert. As a member of his fraternity team number one, he has met and downed all opposition in sight.  
"When in doubt keep silent."  
Phi Kappa Phi.

KARL MOORE PATTerson  
"Pat"  
Harrisonburg, Virginia  
It is a hard matter to do justice to a fellow like Pat. He is one of those good-natured, attractive Irishmen whom we instantly recognize as a good man. He was introduced to society at Elkton, Virginia, on the 7th of October, 1900; wandering to Andrews High School, North Carolina, he then pushed on to Atlanta and asked to fill a vacant chair at Tech.  
"To rise. There is more room farther up."  
Co-op Club; Lieutenant, R. O. T. C., '21; A. I. E. E.

ARTHUR PERRYMAN  
"Pete"  
Atlanta, Georgia  
Another of the home town products. After emerging from the throngs of Boys' High, he notified Mr. Caldwell that he would drop around in September and look things over. He has seen things around the campus pretty thoroughly and expects to move on to a new locality.  
"Lineman for a wireless company."  
A. I. E. E.

GEORGE HOMER PORTER, JR., Σ Φ  
"George"  
Atlanta, Georgia  
George began as a rookie in the service back in 1900, but soon left the ranks for higher positions. After walking guard at R. M. A. and Dahlonega, he came to Tech and immediately demonstrated his ability as a military officer.  
"To take General Pershing's place."  
A. I. E. E.; Lieutenant-Colonel, R. O. T. C., '23; Seaboard and Blade.

EDWARD CRAWFORD PRITCHETT  
"Thos"  
Atlanta, Georgia  
They call him "Thos" because he is purely theoretical. Pritchett is entirely a local product. He was born in Atlanta on January 4th, 1904, prepped at Tech High, and is now finishing at Tech. He is the mascot of the class and is graduating in three years.  
Phi Kappa Phi.
HARRY WILLIS PROUT

"Patee"

Norfolk, Virginia

Prout showed his ability in the social life soon after entering Tech and has played a prominent part in a majority of the "Tea Hound" festivities during the past four years. However he has found sufficient time from Nunnally's to devote to his college work. He says everywhere is his home, born in Mt. Carmel, Illinois, educated at Jacksonville, Florida, and now hangs his hat in Norfolk, Virginia.

"To amount to something."

A. I. E. E.; Captain, R. O. T. C., 23.

GEORGE ANDREW QUALLINS

"Squint"

Taunton, Massachusetts

This young man, who claims that ambition is unknown to him, was born in Lebanon, New Hampshire, but his family moved to Massachusetts and "Squint" had to follow suit. To keep from having to go to a well known technical school near the city of Boston, however, he broke away and entered Tech in 1919.

A. I. E. E.

WILLIAM THOMAS REED, II, K 4

"Bur"

Portsmouth, Virginia

We present to you now, ladies and gentlemen (ladies especially), the only original, untamed, and incorrigible lady-killer in the class of 1923. Yes, he just slays them right and left, and doesn't even stop to see who he has made his victims. With his fair hair and rosy cheeks they all fall naturally. He was born in Richmond, Virginia, and prepEd at the Portsmouth High School.

Company Football, '20, '21; Vice-President, Marionettes, '22, '23; Captain, R. O. T. C., '23; Scabbard and Blade.

ERNEST CAMP RICHARD, Σ X

"Rhubarb"

Miami, Florida

This young prep school inspector made his presence known in Elberton, Georgia, on July 24th, 1901, and thereafter followed his greatest mistake, for he moved to Florida. Then began his career as inspector for he prepEd at G. M. C., McKees' School for Girls, Green Cove Springs High School, and Washington Seminary.

Honor Roll, '20; A. I. E. E.; G. M. C. Club; Florida Club; Technique, '20, '21; Marionettes; Lieutenant, H. O. T. C., '23.

WILLIAM A. ROSS, T T

"BM"

Atlanta, Georgia

Bill is a rather quiet chap. To look at him you would think he was quite bashful, but well-founded rumor has it that he has had Sunday night dates regularly, occasionally in one of the suburbs of the city. We haven't heard yet whether it is Hapeville or Buckhead.

A. I. E. E.

FRANCIS AMORY SAXON, φ Σ K

"Goat"

Augusta, Georgia

Goat, after breaking three-fourths of the hearts of Augusta and capturing the other one-fourth, decided to enlarge his sphere. Having heard that Agnes Scott and Cox College were in the vicinity of Tech, Goat made his appearance here a few years ago. There will be much weeping when Goat graduates in June.

"To bring Bessie Tift to Atlanta."

JOHN TROUP SHEWMAKE, K A

"Moxie"

Dublin, Georgia

This electrical shark first began pushing the little volts around back in 1902. He prepEd at G. M. A., where he heard of Prof. Seidell and immediately decided to get his education at Tech.

"To rival Steinmetz and Seidell."

Barrage; A. I. E. E.

JAMES M. SUTTON

"Jimmie"

Memphis, Tennessee

Saw the gay lights of Memphis for the first time on New Year's Day, 1901. He stayed there long enough to finish at Central High School and then came to Tech in September, 1919. Since then he has spent his time keeping at a safe distance from all skirts, but Jimmie is a terror to all Freshmen.

JOSEPH LAFAYETTE TORBETT, O K σ
“Chick”
Columbus, Georgia

“Chick” began familiarizing himself with the bragging points of Columbus early in the twentieth century. It was only after he had spent four years in study at the high school of that metropolis that he realized that he must come to Tech to enhance his chance of getting in “Who’s Who.” He breezed in in September, 1919, and is now reaping his reward.

“Free beer—wild women—and the great outdoors.”

GEORGE LOWRY VICKERY
“Vick”
Highland, North Carolina

The city of Atlanta has never been the same since Vick decided to move to Highland. However, Vick decided he liked the city of his birthplace, so returned here for four years under Fitzgerald and Company.

“To be an aviator.”

Al-Ko-Hall Club; Aero Squadron; A. I. E. E.

HOUSTON LONGINO WELCH, B S II
“Longy”
Collins, Mississippi

Longy first began clearing the eleven-foot mark at Collins, some say on March 12th, 1900. He is best known for his general good nature, lasting smile and magnetic personality. He has gathered many friends since he has been with us. He leaves us, but we hope some day to see him clear the Woolworth building.

Honor Court, ’22; Vice-President, Athletic Association, ’21; Track, ’20, ’21, ’22, ’23; Alternate Captain, ’23; Koseme; Mississippi Club; Z. Z. Z.; A. I. E. E.

THE BLUE PRINT

Bachelors of Science in Civil Engineering

THOMAS PETTUS BRANCH, B.E., Sc.D.
Professor

CARROLL BRADFORD ANNIS, A S T Y
“Fat”
Laurel, Mississippi

“C. B.” says that he has absolutely no scholastic honors. However, he has played a little football and baseball so he need not be consoled. After a few short years in New Orleans, “C. B.” moved to Laurel, Mississippi. He graduated from Laurel High, then spent a few years at Mississippi U. before coming to Tech. “C. B.” says that some day he hopes to know as much about framed structures as Tommy.

Company Football, ’20; Company Baseball, ’21; First Lieutenant, E. O. T. C.; Mississippi Club; Am. Soc. C. E.

WALTER BLAIR BINFORD, JR.
“Walt”
Griffin, Georgia

Having tied cans to the tail of every dog in Griffin, and experienced all the excruciating joy of kicking up the dust with his bare feet on every road leading from town, Walt decided to investigate Fink trusses and listen to words of wisdom from Tommy. You never can tell how high a good man might go so we expect Walt to be Griffin’s city engineer some day.

Am. Soc. C. E.

LEONARD MASCOTT BLUMENTHAL, T E F
“Blummy”
New Orleans, Louisiana

Athens, Georgia, claims the distinction of being the birthplace of this old math shark, this important event taking place February 27th, 1901. Shortly afterward, however, “Blummy” heard of Creole cooking and moved to New Orleans, where he prepped at Boys’ High. The favorite pastime of this budding “Math Proff” is taking summer courses in higher math.

Louisiana Club; Am. Soc. C. E.; Honor Roll, ’20, ’21, ’22; Scholarship Gold “T.”
DENNIS WILLIAM BROSNAN, JR., O E
Albany, Georgia

This little chip of "auld Ireland" was born in Albany, Georgia, on April 14th, 1903, preparing for Tech at Albany High. The biggest thing that happened to "Willie" during his Senior year was that grapple he had with old man appendix. What we are gradually leading up to, however, is the fact that the nurses were so charming that "Willie" could hardly be dragged away from the hospital after he had fully recovered.

Civil Crew; Honor Roll, '19, '20; Am. Soc. C. E.

JESSE HAYWOOD BURKE, II A A
"Boots" "Ant"
Atlanta, Georgia

Boots (some say his name is "Ant") is one of the crack shots of the famous Tech Rifle team. He was born in Atlanta September 20th, 1899, and before Christmas had started crying because he could not go to Tech right away. However, his greatest ambition has been realized and after four years sojourn in our midst he can laugh at Tommy's jokes as well as the best of us.

"To teach Ex. E."
Am. Soc. C. E.; Rifle Team.

ANDREW JACKSON COOPER, JR.
"Coop"
Dallas, Georgia

Andrew Jackson first attained fame along about 1862 during the Civil War, but since his namesake came to Tech the name has achieved new laurels, for "Coop" is one of the shining lights of the Senior Civils. He is a "shark" in design, being one of the few men that can design a concrete bridge and draw it up all in the same afternoon.

Am. Soc. C. E.; Scholarship Gold "T."

GEORGE ROSS COSLOW
"Wah Hee"
Jacksonville, Florida

Old "Wah Hee" picked Jacksonville as the place of his birth and gave his first war whoop August 9th, 1896. He prepped at David High and spent about a year in the army under a certain sergeant who is now his classmate. George's chief occupation is in trying to pay back the favors (?) he received during the war.

Technique, '21; Am. Soc. C. E.; Civil Crew.

DONALD DALE CUNLIFF, II A A
"D. D."
Los Angeles, California

"D. D." should by all rights be given credit for the World's Fair, having planned the whole thing in his precocious mind while nursing in bed in St. Louis September 23rd, 1901. As his present home is Los Angeles, (not so far from Hollywood and Mac Swen- nel's bevy) "D. D.'s" motto is "Back to California." Lack of experience makes for uncertainty.

Phi Kappa Phi; Blue Print, '21; Civil Crew; Am. Soc. C. E.; DeMolay Club; Honor Roll, '21, '22; Scholarship Gold "T"; Y. M. C. A. Friendship Council.

GEORGE HENRY ECHOLS, II A A
"Babe"
Atlanta, Georgia

This ever flowing fountain of wit and humor originated some twenty-one years ago at or near the State Asylum in Milledgeville. He has exhibited his happy smile at various prep schools in the state, but obtained his diploma from Boys' High. During the past four years he has won a larger and larger circle of friends, all of whom unite in wishing the best of success to Babe.

"To be a Hydraulic Engineer on the Sahara Desert and get paid for it."
Technique, '22, '23; Associate Editor, '23; Associate Editor, Blue Print, '22, Staff, '23; Pi Delta Epsilon; Boys' High Club; Am. Soc. C. E.

CHARLES GREENE FLEETWOOD, A A T
"Red"
Savannah, Georgia

Way back on January 10th, 1902, the city of Savannah, Georgia, was all lighted with big bonfires and resounded with the noise of whistles. When a stranger asked the reason for the celebration he was informed that the advent of "Red" Fleetwood, the future Tech football player and artist, was being celebrated. "Red" prepped at Savannah High and entered Tech in the Fall of '19. His ambition is to be a sanitary engineer—wants to make a big clean-up, y'know.

Football, '21, '22; Scrub Football, '19, '20; Assistant Track Manager, '20, '21, '22, Manager, '23; "T" Club; Honor Roll, '19; Art Staff, Yellow Jacket, '21; Am. Soc. C. E.

DONALD DALE CUNLIFF, II A A
"D. D."
Los Angeles, California

"D. D." should by all rights be given credit for the World's Fair, having planned the whole thing in his precocious mind while nursing in bed in St. Louis September 23rd, 1901. As his present home is Los Angeles, (not so far from Hollywood and Mac Swen- nel's bevy) "D. D.'s" motto is "Back to California." Lack of experience makes for uncertainty.

Phi Kappa Phi; Blue Print, '21; Civil Crew; Am. Soc. C. E.; DeMolay Club; Honor Roll, '21, '22; Scholarship Gold "T"; Y. M. C. A. Friendship Council.

DONALD DALE CUNLIFF, II A A
"D. D."
Los Angeles, California

"D. D." should by all rights be given credit for the World's Fair, having planned the whole thing in his precocious mind while nursing in bed in St. Louis September 23rd, 1901. As his present home is Los Angeles, (not so far from Hollywood and Mac Swen- nel's bevy) "D. D.'s" motto is "Back to California." Lack of experience makes for uncertainty.

EDUARDO LOZANO FURBER

“Ed”
Guadalajara, Mexico
“Ed” hails from a land of revolutions and tamales, each equally as hot. He is from a country as foreign as Hoboken. You see, Ed was born in Guadalajara (call it Jonesboro and go on), Mexico, on October 13th, 1900. He prepped at the—well, the Jonesboro High School. From there he went to Meridian College, where he won a B.S. degree. “Ed” then decided that he must be a Civil Engineer, therefore he entered Tech in the fall of ’19.

JAMIE CLARK GOODE

“Goodie”
Griffin, Georgia
Jamie’s first peek at this terrestrial sphere was on May 7, 1902. At an early age he moved from Conyers, the city of his nativity, to Griffin. Went from bad to worse, so to speak. Our hero prepped for Tech at Griffin High and started shooting the profs of our campus in the fall of ’19. From all reports that we are able to gather, Jamie is known in his native heath as the “Sheik of Griffin.”

LESLIE EMERSON GRADICK, II

“Shrimp”
Jacksonville, Florida
“Shrimp” first started surveying the surrounding landscape down in Geneva, Florida, on December 6th, 1901. And from that preliminary survey he found that nothing would satisfy him but to be a Civil Engineer, so with this end in view he entered Tech in the fall of ’19. Like all true Florida ‘gators, Shrimp hates cold weather, hence his motto: “To the South Sea Islands every winter.” We firmly believe, however, that it is not all climate he finds so attractive.

EMORY DAY HALL, II

“Duke”
Savannah, Georgia
“Emory,” hard; “Day,” light; “Hall,” a passage; hard light passage, the three words which typify the manner in which Duke has gone through Tech. Duke is one of the lads who go down to Tybee every summer and have thrilling experiences with the mermaids before taking the trip to “dry” Atlanta long with “wet” Geeches.

JOSEPH JAMES HILL, JR.

“Joe”
Bartow, Florida
Joe was born in Canton, Ohio, October 16th, 1900, but shortly after this great event he heard of Tech and decided to come South. He prepped at Savannah Institute and claims Bartow, Florida, as his home. Joe lays claim to fame through his witty answers to Tommy’s questions.

HOMER AUGUSTUS HOWELL, A T A

“Happy”
Augusta, Georgia
Mr. Homer Augustus Howell has a classic name but a jazzy smile. “Happy” made his debut into this vale of tears at Raleigh, North Carolina, on January 15th, 1903. However, he claims Augusta, Georgia, as his home town. It has been predicted that as the ancient cities fought over the birthplace of Homer, in like manner will the modern cities contend concerning the nativity of this genius.

EMORY LEE JENKS, A E

“Vondy”
Atlanta, Georgia
We always wondered why “Vondy” never laughed at a joke on Griffin. Explanation: He was born there on January 19th, 1901. At an early age, however, Emory saw the error of his ways and moved to Atlanta, preparing for college at Boys’ High School. “Vondy” sells insurance during his spare time, which explains his classic motto, “Make ‘insurance’ doubly sure.” When interviewed as to an ambition, he stated that at present he had none but that his future was “insured.”

WILLIAM STARKE JETT, JR., E A E

“Billy”
Memphis, Tennessee
Billy first attained fame upon our fair campus by his “sea-going” hat; however, some time last summer this famous hat was stolen so that Billy now lays claim to fame through his peculiar antics when leading cheers. So famous has this hiking “Civil” become that he was mentioned for All-American Cheer Leader by Walter Camp.

"To have an Ambition."
CHARLES EVEREST JOHNSON, O K 2
“Papa Charlie”
Wilmington, North Carolina
Colonel Johnson, possibly better known around the campus as “Papa Charlie,” gave his first command in the latter part of the nineteenth century, the exact date being June 26th, 1897, in New Orleans. Charlie is an old football warhorse of the great team of 1917. He is also a veteran of a more serious game, having served over a year with the Marines in France. Scabbard and Blade; Varsity Football, ’17, ’20, ’21; Scrub Baseball, ’17; Skull and Key; Koseme; “T” Club; R. O. T. C., ’20, Major, ’21, Colonel, ’22; Phi Kappa Phi; Scholarship Gold “T”; Honor Roll, ’20, ’21, ’22; Am. Soc. C. E.

ISRAEL HERMAN KANNER, T E 4
“Issy”
Sanford, Florida
Issy was born down in Sanford, Florida, and says that as soon as he gets that old “dip” from Tommy that he is going to catch the Royal Palm and go back to the Snakes and Alligators. Issy’s only failing is a slight laxity with the truth as far as the glories of Florida are concerned. He is, however, a great believer in the teachings of Tommy. “To be Tobe Edwards’ star pupil.”
Scrub Baseball, ’20; Am. Soc. C. E.; Florida Club.

CLYDE MARION KENNEDY, JR., B 0 II
“Kanuk”
Birmingham, Alabama
You never can judge a man by his size, but you can get a fair indication by the size of his head. Kanuk wears a 7 ½ hat and his ivory isn’t an inch thick either. He has led his class for three years and no doubt will set the pace again. An example of the type of man who lets hooks interfere with his college education. Phi Kappa Phi; Scholarship Gold “T”; Honor Roll, ’20, ’21, ’22, ’23; Civil Crew; Captain, R. O. T. C.; President, Am. Soc. C. E.

ARTHUR R. MYERS
“Ruby”
Atlanta, Georgia
Colonel Arthur R. Myers was born up in Portsmouth, Virginia, somewhere back in the tertiary or miocene era. He first came to Tech about seven years ago and played football under Coach Heisman. This year he decided to return for his sheepskin. Ruby is quite a shark in concrete and steel design because of hard work and practical experience. His ambition is vaguely connected with the destruction of the E. E. department.

GEORGE McBRIEDE, 0 9
“Little George”
Newnan, Georgia
Little George is a round example of the all-around man. He is equally at home in the classroom, athletic field and drawing room. Gage designs, shaky Flink truss, makes a mean tackle, and shakes a wicked hood, but to mention the other parts of him that wobble at the same time. A good engineer will leave Tech in June, 1928. Phi Kappa Phi; Scrub Football, ’19, ’21, ’22; Civil Crew; Bull Dog; Am. Soc. C. E.

DONALD GORDON NICHOLS
“Nick”
Savannah, Georgia
Though born in Augusta, Nick moved to Savannah to enjoy the proximity to Europe and all that it means. Nick has a perverted idea of how far his paws will take him with the profs, but he is right there when it comes to getting under Tommy’s skin. Savannah Club.

HOOKER EARL PEPPER, 0 3 K
Belzoni, Mississippi
Way back on September 9th, 1902, the sleepy little town of Belzoni, Mississippi, was startled by a big Tech drum yell. Its author was none other than Pep and the cheer was his first one. He plugged along through the grammar grades, always with the ambition to go to Georgia Tech. After graduating from Belzoni High he realized this ambition in the fall of ’19. Pep’s desire is to put Belzoni on the map. Technique; Yellow Jacket; Civil Crew; Mississippi Club.

LEO KENNETH PERRY, II A II
“L. K.”
Atlanta, Georgia
L. K. first saw light of day May 3rd, 1902, at West Palm Beach, Florida, but decided that he was too far from Tech so he moved to Atlanta and prepped at Marist. His favorite occupation is chasing “Hogs” down in the C. E. 38 Lab. L. K. is a good student and we believe that he will continue in the brilliant way in which he has started. Here’s luck to you, L. K.
“To be a corporal in the Salvation Army.” Second Lieutenant, Officers’ Reserve Corps; Am. Soc. C. E.
CHARLES PRATT RATHER, K A
g. P. T.
Tuscumbia, Alabama
They moved the capital to Little Rock when Pratt pulled on his fighting boots there October 6th, 1901. After prepping at the school in Tuscumbia, Alabama, for a couple of years, he came to Tech and has made himself quite evident in a short while. Along with good work in the classroom he can plunge the line or the water and has equalled good records on the cinder path. Besides this Pratt is no mean ladies' man.

Freshman Football, ’20; Numeral, ’21, ’22; Swimming Team, ’21; Track, ’21, ’22, ’23; Assistant Manager Basketball, ’23; Anak; Bull Dog; Koseme; Skull and Key; Civil Crew; Am. Soc. C. E.; Cotillion Club.

HENRY LLOYD SKANNAL, JR., K A
“Scandal”
Shreveport, Louisiana
“Scandal” was born in Sligo, Louisiana, on November 23rd, 1900, but moved to Shreveport and prepped for Tech at Shreveport High School. When asked concerning his ambition, Henry answered naught, but drew a question mark, hence we gathered that his ambition is rather questionable. As Scandal is already pretty good as an amateur “hobo,” perhaps he intends to enter that field professionally.

Phi Kappa Phi; Civil Crew; Am. Soc. C. E.; Louisiana Club.

ARCHIBALD YARBOROUGH SMITH
Miami, Florida
“Archie” has had rather a varied career along educational lines. After graduating from Southern College Academy he spent two years at the University of Florida, there deciding that he would rather see the “Yellow Jackets” in action than see the slow moving “Gators.” The greater part of his time is taken up in the design of a plate girder bridge for “Tommy.”

Am. Soc. C. E.; Aero Club; A. A. E.

EDGAR SCARRY SULLIVAN, B K φ
Pete
Atlanta, Georgia
Pete first began developing his lungs on September 8th, 1900. After getting plenty of wind developed in Mobile, Alabama, he moved to Atlanta, where he has been a familiar figure in various orchestras in the city. When not playing his violin or cornet, he frequently finds time to indulge in his favorite indoor sport, dry humor.

“To leave the world a little better than I found it.”
Glee Club, ’21, ’22, ’23, ’24; Major of Band; R. O. B. T.

GEORGE ALBERT THOMPSON, JR., B Φ H
White Plains, New York
Al was born in White Plains, New York, on December 8th, 1901. It seems that these White Plains boys are wanderers, for Al came all the way down to A. R. C. to prep for Tech, where he entered in the fall of ’19. Al is a warbler of note (or rather notes), as he was manager of the successful Glee Club of the past season.

Glee Club, ’20, ’21; Assistant Manager, ’22; Manager, ’23; Blue Print Staff, ’21; Skull and Key; Cotillion Club; Civil Crew; Am. Soc. C. E.; Augusta Club.

ERNEST FRANKLIN TIPPETTS, H K A
”Tip”
St. Petersburg, Florida
Tip decided on Lake George, New York, as the place of his birth, and June 18th, 1900, as the date. However, he moved to Florida, the state famous in these Volsteadian days as the one closest to Cuba, although we won’t say whether or not the latter fact caused his desertion from New York. Tip prepped at St. Petersberg High and entered Tech in the fall of ’19.

Technique, ’20, ’21, ’22, Associate Editor, ’22; Pi Delta Epsilon; Civil Crew; Pan-Hellenic Council; Am. Soc. C. E.; R. O. B. T.; Florida Club.

JOSEPH THADDEUS WATTERS, Φ Σ K
”Minnie”
Hermitage, Georgia
“Minnehaha,” or laughing Watters, called “Minnie” for short, was born in Hermitage, Georgia (no kidding, really, there is a town by that name). “Minnie” prepped at Rome High and first honored Tech with his presence in the fall of ’19. He is a regular lady’s man, which explains why he always had a reluctance to go home for the holidays, his fair charmer being a resident of Atlanta.

Phi Kappa Phi; Technique Staff; Barrage Staff; Civil Crew; Homer Roll; Lieutenant, R. O. T. C., ’22, Captain, ’23; Am. Soc. C. E.; Rome Club.

CODIE DEAN WELLS
”Codfish”
Bowie, Texas
Codfish entered Tech in the stormy days of the Stick-Around-Till-Christmas organization of the fall of 1918. He is a good engineer and a practical man, but he has apparently never become educated, for he still lags to return to his native wilds where he first saw the Lone Star flag August 26th, 1900. Am. Soc. C. E.; Long Horn C'ho Masonic Club.
FRANCIS EDWARD WHITELAW, II K 4, "Ted"
Charleston, South Carolina
Ted Hails from Chawlston, "By the Sea, By the Sea, By the Beautiful Sea." He has the carriage and air of one used to associate with the Henglish nobility, and such things as sea bags, yachts, port-holes, etc., most appear through his artistic gogs. He is musically inclined, playing the Victrola with a debonaire grace and charm all his own. We have a faint suspicion "Ted" should have been Percival. Scullard and Blader; Civil Crew; Captain, R. O. T. C.; Am. Soc. C. E.

HENRY WILCHINSKI WILTON, 4, E II
"Shinski"
Macon, Georgia
"Shinski" first started falling in love down in Macon, Georgia, on December 29th, 1902, and he has been falling regularly ever since. When cornered he admits that Macon is his home town and that is where he prepped, entering Tech in the fall of '19. Henry started his course in Chemistry, but after a certain little explosion, of which he was the author, he decided that as a chemist he would make a good civil engineer. Honor Roll, '20; Macon Club; Am. Soc. C. E.

Bachelors of Science in Textile Engineering

Clarence Bernard Seal
Professor

JOHN INZAR ALFORD
"Inzar"
Gloster, Georgia
Inzar, the Mountain Boy—born in Gloster, Georgia (20,000 feet above sea level, 1,000 miles from civilization). He finally escaped from the walls of Young Harris College and has spent four of his twenty-four years here, trying to grow a beard. So far he has failed. Masonic Club, Vigilance Committee, '19, '20.

MAURICE BEVERLY ASBURY, 2 & E
"Squirt"
Elberton, Georgia
Women! Women!! Women!!! And, of course, Love! Squirt is in love, has been in love since February 16th, 1902, and will be in love the next time he is heard from. He squirmed through Elberton High and hooked a Phi Kappa Phi key here, which he wears in his eye. Glee Club, '21, '22, '23; President, '23; Mandolin Club, '21, '22, '23, '24; Sextette, '21, '22, '23; Marionettes; Technique, '20; Phi Kappa Phi Cotillion Club; Textile Society; Elberton Club.

SAXON ANDERSON CONNOR, 2 & E
"S. A."
Marietta, Georgia
Born, bred, married, and yes, if you ask, still living in Marietta, one of Atlanta's star suburbs. He always gets by on his ability to chew tobacco and tell about the way he felt when he saw a moving picture for the first time. He shyly admits he was born in 1903. Textile Society; Varsity Track Team, '20; Marietta Club.
HAMPTON LAMAR DAUGHRITY, JR., Σ Χ
Jackson, Georgia

This young exponent of the science of military tactics states that he was born in Jackson, Georgia, went to Jackson High School, and hopes to work there. As he spent one year at Georgia, we feel that we can only gripe with him and say no more in parting.

VICTOR MANGET DAVIS
"Red"
Cave Springs, Georgia

The Registrar shook in his shoes when Red swaggered into the office, laid his guns on the counter, shifted his tobacco to his other cheek and announced in a loud voice that he was from Hearn Academy and wanted an education. He now has it. (Sh! Red was born in Marietta in 1902.)

Textile Society; Rome Club; Honor Roll, '21, '22; Phi Kappa Phi.

THOMAS CHAMPION DREW, Σ Χ
Macon, Georgia

T. C. is strictly a Macon product, having been born there and having militaried around Lanier High School, of that city. In his four years here he has attended Shorter College almost as much as he has Tech. It must be the uniform that knocks 'em cold.

Textile Society; Commander, Scabbard and Blade; R. O. T. C., Captain and Regimental Adjutant, '20, '21, '22, '23, '24; Colored, '22.

HENRY BEVERLY GARDEN, Π Κ Φ
"Fritz von-der Blinkden Heifen-Stofen Slaushorn"
Macon, Georgia

Heinricht was announced, "It's a boy," in Macon, February 8th, 1900. A week later, having organized his first stock company in Dinty Moore's garage, he starred in an original melodrama, "Who Threw the Overalls in Mr. Smurphy's Chowder." After winning initial success in his home city he took his company to the next town, New York. Work became boresome to one of such wit and artistic impulse, so he came to Tech and has been the "comedienne extempore" of the campus since then. Singing and dyeing are his specialties.

Band, '20, '21, '22; Manager, '22; Glee Club, '21, '22; Publicity Manager, '21; Technique, '21; Blue Print, '21; Captain, R. O. T. C.; Textile Society; Macon Club.

SHERRY MCAULEY HAMILTON
"Shelly"
Dalton, Georgia

This hard-working young benedict (and, incidentally, a proud father) was born way back in '94. He prepped at McCallie and the U. S. Naval Academy, then went in for learning, and so came to Tech. He has it on good authority that he made Phi Kappa Phi on his undisputed ability to chew tobacco and drink dopes at the same time.

Honor Roll, '21, '22, '23; Scholarship "T"; Phi Kappa Phi; Textile Society.

RUDOLPH FERRILL HAUENSTEIN, Β Ω Ρ
"Lore-Bird"
Hattiesburg, Mississippi

Rodolph Vaselino has nothing on our Rudolph when it comes to having the ladies after him. Rudy rushes in where others fear to tread. He gets by, too. The town of Hattiesburg celebrates on the sixteenth of March because of Rudy. So far they have celebrated twenty-two times.

Textile Society; Glee Club, '21, '22, '23; Mississippi Club; R. O. T. C., Battalion Adjutant, '23; Summer School Club.

MARION KELLY HINDE, Δ Ε Φ
"Kelly"
Atlanta, Georgia

Kelly is only a vest pocket edition, yet he takes Textile along with the big boys and smokes Piedmonts with Zack. Born in Columbia in the terrible winter of 1902, he moved to Atlanta to go to Tech High.

Textile Society; Rifle Team, '22.

JOE LESLIE JENNINGS, Φ Ω Φ
"Joe"
West Point, Georgia

Joe became famous on the Tech campus when he offered to take Ty Cobb out in Peters Park and feed him to the groundhogs. Ty cooled down and offered Joe a contract. Anyway, Joe went to high school in West Point, having pitched his first bowl (deep stuff) on July 26th, 1903.

CHRISTIAN FREDERICK KOHLRUSS, JR., HKO

"Chris"

Augusta, Georgia

John P. Sousa and Paul Whiteman have shadowed this trumpet-tooting demon of music ever since he came to Tech. (Both John and Paul were heavily armed.) He is a confirmed exponent of the theory that slumber is more sweet than toil. Who's Who states that he was born in 1898 and prepped at Richmond Academy.

Textile Society; Scabbard and Blade; R. O. T. C., Captain, '20, '21, Major, '22, Band, '20, '22, '23; Assistant Director, '21, '22, '23; Glee Club, '22, '23; Director of Orchestras and Jazz Band, '23; Director Tech Orchestra, '21, '22, '23; Technique, '20, '21; Military Editor of Technique, '22.

FRANCIS MARION KIMBLE, JR, E

"Count"

Poulan, Georgia

Poulan doesn't sound exactly Anglo-Saxon and according to the way he is "Counted" around the campus one would not think Kimble is either. "Count" has been painting little pink and blue squares for some time. He was born on December 24th, thus making him first cousin to Santa Claus. As the population of Poulan increases 25 per cent. when "Count" goes home, we are sure the city is proud of him.

Textile Society.

JOHN FLETCHER LOWE, E A E

"Doctor"

Washington, Georgia

Slowly unwinding his long frame and half opening one eye, the Doctor sighed heavily and told us he was born in Washington, Georgia, on the second of August, 1902, dozed through Washington High, and is now desperately in love. A few seconds later he was sleeping as soundly as before.

Textile Society; Sleeper's Club.

HENRY GRADY MILLER

"Slick"

Calhoun, Georgia

Slick was born in 1899 near Calhoun, the exact place being unknown except to a few revenue agents and an explorer who died in his efforts to penetrate the wilderness. However, Slick is now quite tame and speaks the English language with ease.

Textile Society; Masonic Club; Technique, '21, '22, '23; Lieutenant, R. O. T. C.; Student Assistant Instructor.

WALTER MARSHALL MITCHELL, E A 0

"Mitch"

Tifton, Georgia

Tech gives thanks to Tifton for sending Mitch to her, although he was born in Cordele, Georgia, on the second day of August, 1901. A good athlete, a good student, a good fellow—in other words, a Man. He prepped at Tifton High and G. M. C.

Varsity Football, '21, '22; Varsity Track, '22, '23; Vice-President, Skull and Key; Koseme; Bull Dog; Anak; Cotillion Club; Secretary and Treasurer, '22, '23; "T" Club; G. M. C. Club; President, Senior Class; Secretary, Pan-Hellenic Council; Student Council; Textile Society.

ROBERT WILLIAMS MCKINNEY, KA

"Bob"

Chattanooga, Tennessee

Bob says he matriculated in Textile only as a means to an end. His ambition is to join the Internal Revenue Service and search the mountains of Tennessee for moonshiners and bootleggers. He is numbered among McCallie athletes and has smiled his happy smile since October 26th, 1900.

Textile Society; Cotillion Club.

LLOYD KELSO RUSH

"Radio Rex"

Bemus, Tennessee

This diminutive Marconi owned his first crystal set at the age of 3.1416 and has been broadcasting since September 16th, 1900. He learned his multiplication tables at Union University and later grabbed a Gold "T" here.

Textile Society; Scholarship "T"; Blue Print Staff, '23; Chief of Tech Radio Station.

WILLIAM AUGUSTUS LONGSTREET SIBLEY

"Bill"

Milledgeville, Georgia

Bill must have been named when the family had a reunion. He has only been with us two years, having come here from the Naval Academy, where he was a member of the soccer and gym teams. Lived in Milledgeville since February 12th, 1902, so he just had to go to G. M. C. A darn good fellow.

Textile Society; Cotillion Club; Glee Club, '23.
DANIEL McQUIGG STONE, H K A
"Doctor"
Chattanooga, Tennessee
Doctor Stone, the Dean of the '23 class, ideal of the set, and All-American Hart Schaffner and Marx model, now makes his debut to the world of working men. Doctor became the pride of the family on August 17th, 1900, in Chattanooga.
Battalion Adjutant, R. O. T. C.

TERRELL HARRIS TUMLIN, B 9 II
"Tum"
Atlanta, Georgia
Terrible Terrell, the handsome six-foot brute from Decatur, now stands ready to receive offers from any young thing with the right amount of cash (stock in cotton mills included). Born in Carrollton, yet he graduates with comparative ease. P. S. Age—only 20. Textile Society; Boys' High Club.

RICHARD ERNEST WALKER, JR., 43 A 9
"Ponzi"
Brunswick, Georgia
R. E. tasted the salt air of Brunswick for the first time on January 21st, 1900. He received his training in managing periodicals at the Glynn Academy. Dick is a cheerful individual, and is well-liked everywhere. Despite the responsibility of managing the Blue Print this year, he managed to attend classes and do his school work well enough to graduate. Textile Society; Technique; Boys' High Club; Emerson Chemical Society; Ti02; Technique, '19-'20; Barrage, '22-'23; Honor Roll, '20; Pi Delta Epsilon; Phi Kappa Phi.

WILLIAM HENRY EMERSON, PH.D., Sc.D.
Professor

GERALD EUSTLER ARMENTROUT, H K
"Johnny" "Fish"
Augusta, Georgia
"Little but loud" could not be more aptly applied than to the gentleman here presented to view. Johnny fears neither man nor devil and will tell you so any time you wish to know it. Though weighing less than 150 pounds, "our hero" has stuck with the football squad four years, making his well-deserved letter in his senior year. Phi Kappa Phi; Anak; Koseme; Ti02; Emerson Chemical Society; Vice-President, '22-'23; Honor Roll, '20; "T" Club; Scratch Football, '19, '20, '21; Varsity, '22; Asst. Manager, Baseball, '21, '22, Manager, '23.

EDGAR ROGER ATCHISON, JR., H K
"Count"
Tullahoma, Tennessee
Roger is one of those quiet manly sort of males so rarely seen in these days of tea-hounds and flappers. The inside dope has it that the "Count" is quite a lady-killer, especially when arrayed in his uniform and Sam Browne belt. "A skin you love to touch."
"To be the best Mining Engineer in Coffee County, Tennessee."
Emerson Chemical Society; Ti02; Technique, '19-'20; Barrage, '22-'23; Honor Roll, '20; Scabbard and Blaze; R. O. T. C., Captain, '21-'22, Lieut.-Col., '22-'23.

GEORGE PRESCOTT BARTLETT, 4, K
"Carbona"
Atlanta, Georgia
This atom of the senior chemical molecule is noted for his ability to digest everything in sight on the "Low Temperature Carbonization of Coal." Despite the fact that appearances are against him, and he has a distinct tendency to string his gum while chewing, he has the ability to produce in a way which will undoubtedly make him a successful engineer.
Blue Print, '22, Senior Editor; '21, Technique Asst. Ed.; '22-'23; Emerson Chemical Society; Tech High Club; Tech De Molay Club; Honor Roll, '20-'21-'22; Phi Kappa Phi; Pi Delta Epsilon; Scholarship "T".

Bachelors of Science in Engineering Chemistry

WILLIAM HENRY EMERSON, Ph.D., Sc.D.
Professor
HOMER PARK BOND, Δ Σ Τ
"Horsepower"
Atlanta, Georgia

Behold! The Sleeping Beauty! This boy's chief occupation is sleeping, his chief diversion studying. It is our prediction that some day some young lady will wake him up and then he will set the world afire. Perhaps he has already found Her, else, why the beautiful mustache?

Emerson Chemical Society; Honor Roll, '20; Company Football, '19, '20, '21; Company Baseball, '20, '21, '22; Captain of Ordnance, R. O. T. C.

WALTER M. BRANCH, Γ Τ Δ
"Tweezy"
Cedartown, Georgia

This noble descendant of the ancient alchemists is one of the quieter members of the H2S inhalers. Nevertheless, he and his motorcycle have been far-famed and his frequent absences have usually been traced to motor trouble. It has been rumored that the cause of his trouble was due to Walter attempting to run it on his new compound, "H2NO3."

Emerson Chemical Society.

ALVIN L. CHASON
"Al" "Chase"
Colquitt, Georgia

"Chase-on" is one of the best-liked members of the chemists that hold forth every afternoon in the back lab. "Al" served with Uncle Sam during the late war, but entered Tech later and is one of the best men in the lab. By his extensive researches he has earned for himself the well deserved title, "The Great Peanut Chemist."

Emerson Chemical Society.

J. HEUSTIS CLARK, Γ Τ Δ
"Useless"
Birmingham, Alabama

This young man was born, raised, and educated (?) in Birmingham. Clark states that his chief purpose in being is to live up to his nickname, but such a good student and efficient analyst is bound to prove himself more than useful to some corporation in the coming years.

Emerson Chemical Society; Phi Kappa Phi; Honor Roll, '20, '21.

LESLIE CORNELIUS PRITCHETT
"Elsie"
Atlanta, Georgia

This boy, probably the smallest one seen (and heard) up in the lab, is always on the job and working hard. He has done some mighty fine work in the past four years, entering Tech from Tech High in '19. Elsie had the honor to be elected to Phi Kappa Phi on account of his excellent work, and he is very proud of his key.

Emerson Chemical Society; Phi Kappa Phi.
T. WALLACE QUINN, 2 X
"T. Wallie"
Atlanta, Georgia

The mystery of the twentieth century centers in the riddle as to what the "T" in Quinn's name really stands for. The ladies will no doubt say it stands for "Terrible", due to his heart-breaking abilities. However, his fellow chemists will tell you in strictest confidence that it honestly means "Titrate," which is what Wallie "don't do nothing else but." He was born in Macon in 1492 (A. D.).

Emerson Chemical Society; Technique, '18; Blue Print, '22; Freshman Oratorical Contest, '19.

CHARLES WALKER SAUSSY, JR., X φ
Savannah, Georgia

Walker is a big-hearted cheerful individual and is quite popular among those with whom he is thrown in contact. He always enjoys a good joke, and the old Chemical Building has rocked many times to the tune of his loud laughter. C. W. finds time between his lab hours and study hours to swim at the center "Y" and has become quite a fresh-water shark.

Emerson Chemical Society; Cotillion Club; Marionettes; Captain, Swimming Team, '23; Second Lieutenant, R. O. T. C.; Pan-Hellenic Council, '23.

WILLIAM HARRY VAUGHAN, JR., B φ II
"Dragline"
Clarksdale, Mississippi

It has been said that good things come in small packages and here is living proof of it. Any individual with so much self-confidence and self-possession coupled with practical knowledge and lack of conceit is sure to make his mark in the world. This is said, not because of, but despite the fact that he is ye humble editor.

Phi Kappa Phi; Pi Delta Epsilon; Technique, '18-'19; Blue Print, '19, '21, Asst. Editor, '22, Editor-in-Chief, '23; Captain, R. O. T. C.; President, Emerson Chemical Society; Honor Roll, '19, '21, '22; Scholarship Gold "T"; Glee Club, '23; Y. M. C. A. Friendship Council; TiO2.

BERT HARDEN WELLS, D φ E
"Red"
Kissimmee, Florida

Here is Exhibit A in the "Laugh and Live Club."
Known to the world at large as "Pinkie" or "Red" and to the fairer sex as "my Kissimmee Kid," Bert can always be found with a jolly radiant beam on his face. As a bass horn tooter, Red is supreme, bar none.

Emerson Chemical Society; Band, '18, '19, '21, '22; Captain in the Band, '22.

B. JOSEPH EISEMAN, φ E II
"Iceman"
Atlanta, Georgia

Joe enjoys the distinction of having gone through Tech High and Georgia Tech in three years each, or a total of six years. He expects to get his B.S. degree and diploma next June as a birthday present. Commencement preceding his seventeenth birthday about ten days. Joe's hobby and life is chemistry. He is also quite a tennis shark.

Emerson Chemical Society.
Bachelors of Science in Architecture

JOHN LLEWELLYN SKINNER, B.A.Sc., M.ARCH.
Professor

RODERICK STONE BRANTLEY, Φ Σ K
"Red"	"Cutie"
Boston, Georgia

Here is "Le danseur Egyptienne supreme." His exhibition in "Sneezer et Cleopatrick" is beyond description; so likewise is his performance in the modern dance halls. If Cutie learned all this in the city of Boston (Georgia), then all we have to say is, "Lead us to Boston. We want to see his inspiration."

Marionettes '20, '21, '22, '23; Vice-President '22; Yellow Jacket, '22; First Mention, Beaux Arts Competition.

HARRY LACOSTE ELLERBE, Σ Φ E
"Elurb"
Atlanta, Georgia

Harry has made for himself an enviable record in Tech dramatic and literary circles. As "LaCoste," he has contributed to the Yellow Jacket, and as author of "Sneezer et Cleopatrick," he has also gained fame. He has won for himself the title of All-American "lady" by his unsurpassable impersonation of feminine characters in the various Marionette performances.

Technique, '20, '21, '22, '23; Yellow Jacket, '22, '23; Assistant Editor, '23; Architectural Society; Marionettes; Board of Control, '22, President, '22; President, Tech High Club, '22; Second Mention, Beaux Arts Competition; Pi Delta Epsilon.

JOHN BELL GILL, JR., Σ Φ E
"Johnnie"
Statesville, North Carolina

With age comes wisdom. This boy is rather quiet and therefore very popular, since he gives the other fellow the chance to talk. He made one mistake in his youth by starting in at North Carolina State, but soon realized the error of his ways and came to Tech.

Yellow Jacket Staff, '22, '23; President, Architectural Society; Homer Roll, '15, '20; Second Mention, Beaux Arts Competition; Marionettes, '22.

IVER HENRY GRANATH, A K X
"Lord Knockemoff"
Atlanta, Georgia

Here we have a youth imbued with the spirit of the poets and bards of old. Last summer Iver Henry became inspired and brought forth the new Alma Mater song, which is beyond doubt the finest Alma Mater song a college ever had anywhere. Also under the name of Lord Knockemoff, he has been the chief prop and contributor to the new Tech Comic, the Yellow Jacket.

Marionettes; Technique, '20, '21, '22, Staff Poet, '22, '23; Tornado, '21; Yellow Jacket, Assistant Editor, '21, Editor, '22; Pi Delta Epsilon; Tech High Club.

WALTER PERCIVAL GRAYDON
"Percy"
Atlanta, Georgia

Here is a big fellow to be so young and shy. Percy is inclined to be quiet—somehow all these architects seem to be quiet—maybe they think it is in keeping with the dignity of their profession. Walter has done some good work in the drawing hall and received a Beaux Arts Mention in his Junior year as well as one in his Senior year. We wish him continued success and predict a bright future for him.

Architectural Society; Mention, Beaux Arts Competition, '22; First Mention, '23; Company Football; Tech High Club.

LIONEL K. LEVY
Augusta, Georgia

Levy has the talent of an artist, but his only claim to the temperament is his desire to draw from live models. Killarney has cornered the art work on all three of the publications this year. He is a tireless worker, contributing much to the showing of the department in the Beaux Arts Exhibits.

Band, '21, '22; Glee Club, '22, '23; Marionettes, '23; Tornado, '21; Yellow Jacket, '22, '23; Art Editor, '22; Technique, '22, '23; Art Editor, '23; Blue Print, '21, '22; Art Editor '22; Pi Delta Epsilon; Augusta Club; Member B. A. I. D.; Barrage Artist.

FRANK WYATT MANNING
Smyrna, Georgia

This scholar entered Tech back in the ante-bellum days, but at the end of his freshman year joined the Army engineers for two years, serving overseas for nine months. He has made a splendid record since his return to Tech, and we all wish him the best in life.

Band, '21, '22, '23; Yellow Jacket Art Staff, '22, '23; Phi Kappa Phi; Architectural Society; Treasurer, '21-22; Homer Roll; Student Supply; Masonic Club; Marietta Club; Second Mention, Beaux Arts Competition.
LEE C. McCLURE  
"Mac"  
Fort Worth, Texas

Old Mac is one of those brawny heavy-set fellows that hail from the Lone Star State. He has a broad, appealing grin that he quite frequently displays, which partly accounts for the many friends that he has in school. Prior to Mac's entrance in Tech, he lent a helping hand to Uncle Sam and did his share of the fighting, at one time having been on the casualty lists. Archival Society; Honor Roll; First Mention, Beaux Arts Competition.

PENROSE TERRETT TEAGUE, X & 9  
"Pete"  
Augusta, Georgia

Augusta and similarly the Academy of Richmond County are here represented by no less a personage than Pete Teague. Pete is a quiet, unassuming boy, but though he doesn't always say how much he is doing, he can nearly always be found to be right there with the next one on any architectural work. Archival Society; Augusta Club.

HOWARD RAYMOND WEEKS  
"Rosette"  
Abbeville, South Carolina

"Wee Willie" Weeks belongs to the heavyweight class. Like most of our stout cousins, Willie is quite a jolly individual. He is trying to oust Santa Claus from his time-honored job. Like Santa, "He has a red nose and a little round belly, That shakes when he laughs like a bowlful of jelly." Archival Society; Second-Lieutenant, 21, Major, 22; O. T. C.; Second Mention, Beaux Arts Competition.

Bachelors of Science in Commerce

JOHN MADISON WATTERS, B.S., B.S.C., LL.B., M.Accts.  
Professor

DAVID IRENEUS BARION, S A E  
Clarksville, Georgia

"The man unconquerable" is Clarksville's chief claim to glory. Red is the type of man that possesses all those admirable qualities that make and keep friends. He is the possessor of a sterling character and always uses his influence with his fellow students to seek and attain the highest standards of life. Ambition: Fulfilled Thanksgiving night. Football, '18, '19, '20, '21, '22, Captain, '23; Track, '20, '21, '22, '23; Marionettes; President, Athletic Association, '22, '23, Vice-President, Student Association, '22; Vice-President, Student Council, '23; President, Freshman Class; Honor Court, '19, '20, '21; Secretary, Junior Class; Y. M. C. A. Cabinet, '18, '19, '20, '21, '22; Bulldog; Anak; Delta Sigma Pi.

JOHN EDWIN BIGGS, JR., X & 9  
"Jiggs"  
Bramwell, West Virginia

"With the "g" and "s" left off of his Christian name, Biggs would be fairly well described. After entering Tech he met Dean Watters, and finding that he would have plenty of time to pursue his main activities unhindered if he took Commerce, they struck up a bargain. With all sails set and plenty of fuel in the bunkers he can turn out some wicked stuff in the literary line. Ambition: "To graduate." Technique Staff, '19, '20, '21; Editor, Yellow Jacket, '21; Cotillion Club; Alpha Kappa Psi; Pi Delta Epsilon.

NATHAN ATKINSON BROWN, JR., II A 2  
"Na"  
Columbus, Georgia

The Columbus "Enquirer-Sun" on June 6th, 1901, was notable in that it mentioned the birth of "Na" the day before. This youth soon developed into one of those versatile chaps who conquer all fields of love and finance with equal ease. After demonstrating his efficiency in the "finer art" to the belles of the village, he came to Tech seeking new fields to conquer. A moonlight night, a girl, some Beechnut, a porch swing and Na. is in his seventh heaven of delight. Advertising Staff, Technique; Editorial Staff, Blue Print; Columbus Club; American Legion; Tech Aero Squadron; Shewbow Squad; Owah Club; Yellow Jacket.
WILLIAM BONEY CARR, H K A
"Bill"
Bainbridge, Georgia
"Bill" was born at Caesar, Mississippi, but early in life chose Bainbridge as his home. Here he had his first experience as a modern heart smasher, his line creating havoc with the hearts of the fair sex in that beautiful little city. "Bill" and his line finally came to Tech after two uneventful years spent at Davidson.
Glee Club, Quartette; Pan-Hellenic Council; Cotillion Club; Honor Roll, '21-'22; Delta Sigma Pi.

WILLIAM BYRON COHEN, φ E II
"Bill"
Norton, Virginia
He of the cheery smile and complete understanding of "profs" was born among the heat producing hills of Virginia in the village of Norton on October 15th, 1902. Bill is a disciple of the late William Tell and on several occasions he has presented the teachers with large red apples by which means he hopes to save his grades as the late W. T. saved his son's life.
Ambition: "To be a Pawnbroker."

THOMAS RICKENBACKER CULLER
"Toni"
Cameron, South Carolina
Tom says that he has an ambition, but so far he seems to have kept it a secret. Anyway, the profs say that he doesn't seem to demonstrate any ambition in his studies with the exception of insurance. In this he ranks supreme, being one of the "big three." We freely predict that Tom will conquer Cameron without a struggle when he finishes Tech.
Captian and Adjutant Fourth Battalion; Owah Club; Showbow Squad.

ERROLL ECKFORD, Σ X
"Jue"
Atlanta, Georgia
"Jue" is one of those likeable chaps, who has that rare faculty of making friends with everyone. Early in life he discovered that he and basketball were the best of friends and hence soon developed into one of the best centers that Tech has so far produced.
Freshman Basketball, '21; Varsity Basketball, '22, '23; Cotillion Club; Delta Sigma Pi.

JAMES THOMAS EDWARDS, JR.
"Tobe"
Fayetteville, Georgia
Fayetteville has produced many famous baseball players, but they will not produce as good a first baseman as Tobe in the next hundred years. He has "scrubbed" hard on three different teams, but found his own on the baseball team. The American League will indeed be lucky when Tobe decides to "go up."
Ambition: "To lead the American League in hitting."
Scrub Football, '19, '21; Baseball, '18, '22; Scrub Basketball; Anak; Delta Sigma Pi.

LIONEL JOSEPH GASSEN, Ω Ω φ
Sulphur, Louisiana
"Kitty"
Kitty hopes that he will not be so close to brimstone in his after life as he has been since 1901. He is mainly noted on the campus as the "Uncle Gus" of the Delta Sigma Phi's and his ability at wielding the big stick and high finance. Demure but unerring with the ladies.
Ambition: "Making money make money."
Baseball, '21, '22; Louisiana Club; Honor Roll, '21; Delta Sigma Pi.

CALVIN EUSTACE GIBSON
"Uke"
Thomasville, Georgia
If the ladies will give him enough spare time, we predict a great future for this handsome personality. He was born on Independence Day, 1899, and we hope that he will be able to enjoy his independence for a few more weeks before he takes the final plunge. Prepped at Norman Institute.

EDWARD EVERETT GOODLOE, JR.
"Bijo"
Big Stone Gap, Virginia
This patronizer of the Bijo first developed his theatrical inclination at Big Stone Gap on March 18th, 1901. He prepped at the local High and decided to become a connoisseur of theatrical productions and the commercial world, so he came to Atlanta and Tech to develop his talents. The sudden demise of the Bijo somewhat curtailed his activities along theatrical lines but latest reports are that he has reformed and is now a regular attendant of the Bonita.
EDWARD GORDON GOODLOE, Σ Χ
Ed. G.
Big Stone Gap, Virginia

"E. G." first began his career in Big Stone Gap. At an early age he decided to go to Virginia Polytechnic Institute before conquering the world and getting married. After this he decided that his education would not be complete unless he came to Tech. Ambition: "To control the coal business."
Alpha Kappa Psi; Shewbow Squad.

LOUI GREET, K A
"Judge"
Gadsden, Alabama

The "Judge" has had such a wide and varied career before coming to us that we hardly feel able to write his Tech career. He prepped at Disque High, went to Vanderbilt, where he made quite an enviable record, and then started out to conquer the world. Germany got the same idea about that time so Loui went over and conquered Germany instead. "Judge" has made a good record at Tech and he will carry the same amount of success with him through life. Ambition: "To learn to spell the word."
Honor Roll, '20, '21, '22; Phi Kappa Phi; Phi Delta Phi (Vanderbilt).

JAMES ROBERT GRIGGS, JR.
"Kid"
Marietta, Georgia

Although only twenty summers have passed this ambitious youth, he has already tasted much that the world of Commerce has to offer and has come to be regarded as somewhat of an authority on insurance, real estate bonds, and the post office system. "Kid" is a native son of Cobb County and prepped at Marietta High.
Ambition: "To be a financier."

WILLIAM MERIWEATHER HILL, JR., Σ E
"Minnie"
Washington, Georgia

"Minnie" was born in the sandy hills around Washington about the time school opened for the fall term in 1901. It was some years later at Washington High that he decided to become a great surveyor and baseball player. The first step towards the big leagues was taken in 1922 when "Minnie" very thoughtlessly tagged Ty Cobb out in an attempted pilfering of our little sack that adorns second base. Ambition: "To be a movie magnate."
Scrub Baseball, '20, '21; Varsity Baseball, '22, '23; Cotillion Club; Bull Dogs; "T" Club; Delta Sigma Phi.

EDWIN WALSH HODGE, K
"Ebb"
Ruston, Louisiana

Ebb began life under a terrible handicap, the old stork dropping him very roughly at Arkadelphia, Arkansas as though disgusted at the destination of his mission. Never too full, Hodge says that people have been "Ebbing" him ever since he moved to Louisiana, so he is about out now. Having stood the campus racket for four years, we predict that he will find that he is not out yet.
Alpha Kappa Psi; Oowah Club; Shewbow Squad.

CHARLES FRANCIS HOLLBERG, JR., II A A
"Duke"
Senoia, Georgia

"The Duke" surveyed his first domain at the rapidly growing metropolis of Senoia on July 10th, 1901. He started to Senoia High but soon knew more than the faculty, and having broken all of the hearts in the vicinity, he came to G. M. A. The rapidly increasing population of the capital city opened new fields for him to conquer so he decided to come to Tech where he could appeal to the masses through our numerous publications.
Editorial Staff, Technique, '22, '23; Editorial Staff, Blue Print, '22, '23; Editorial Staff, Yellow Jacket, '22, '23; Coweta Club; G. M. A. Club; Owah Club; Shewbow Squad.

ALEXANDER TROTTER HUNT, K
"Pinkie"
Hodge, Louisiana

"Pinkie" made the first pony backfield in September, 1901, at Arkadelphia, Ark. He prepped at Staunton Military Academy and came to Tech about four years ago. A hard worker, likeable and ambitious, "Pinkie" made good from the start. Senior Hunt is also a Spanish shark of note.
Scrub Football, '19, Varsity, '20, '21, '22; Junior Baseball Manager; Skull and Key; Screamer; Bull Dogs; Secretary, "T" Club, '22; Anak; Honor Roll; Vice-President, Senior Class; Alpha Kappa Psi; Psi Kappa Phi.
JAMES L. KEEN, H A
"Lem"
Dublin, Georgia

Back in the balmy days of 1919, Dublin sent forth this loyal son to delve into the mysteries of higher education, at that much-heard-of institution, Georgia Tech. James L. found refuge in the protecting arms of Dean Watters & Co., who after four years of careful supervision, have now decided that it is time for him to go back and demonstrate to the towns-people just what college will do for a growing boy.

"To get married."

Oowah Club; Shewbow Squad; Masonic Club; G. M. A. Club.

MARS DEN LAW'S MARSHALL, B O II
"Ducky"
Meridian, Mississippi

"Ducky" is one of the scintillating stars of the commerce department, being an authority on all questions pertaining to finance and investments. He hails from Meridian, the city of eternal springtime. It has been that way these twenty-one years, since "Ducky" came to gladden the hearts of all the countryside. Time passed and so did "Ducky," and one fair morning found him clamoring at the portals of Tech.

Secretary and Treasurer, Freshman Class; Secretary and Treasurer, Sophomore Class; Alpha Kappa Psi; Des Moines Delegate; Cotillion Club; Skull and Key.

ROBERT H. MATTOX
"Lanky"
St. Augustine, Florida

"Lanky" first began to rave about Florida at Newnan, Georgia, where he conceived the idea of emigrating to that state on the nineteenth of October, 1900, and he has been a little prejudiced ever since in favor of Florida and the ladies. He only practices on the fair sex of Atlanta, but they appreciate it just the same.

"To be a retired bootlegger."

Florida Club.

ALEXANDER ROSS MOORE
Durham, North Carolina

Moore decided early in life that his ambition was "to become an authority in "Financial Circles." He soon found that the best way to fulfill his ambition was to come to Tech and take Commerce. The World War occupied his attention for a time, but failed to keep him from entering Tech.

"To be an authority on Finance."

EDMUND RICHARDS MORGAN, E N
"Eddie"
Macon, Georgia

Mercer lost one of the South's most promising baseball players when "Eddie" decided that "Kid" Clay's pasture was the place for him. Time has shown that Tech gained the South's premier third baseman as well as a most promising financial genius. He propped at Lanier High a few years.

Captain, Freshman Baseball; 20; Varsity Baseball, 21, 22, 23; Captain; 23; Secretary "F" Club, 23; Secretary Athletic Association, 23; Skull and Key; Cotillion; Koseme; Pan-Hellenic Council, 21, 22, 23; Delta Sigma Pi.

EDWARD POPE MURRAY, E P E
Columbus, Georgia

In conformity with her usual custom of producing great men, Columbus welcomed "Ed" August 22nd, 1901, with a little more than the usual celebration, for he was destined to go to Tech. Always a magnet for the ladies, "Ed" was a great success at Columbus High and an even greater success in Atlanta.

Scrub Basketball, 19, 20, 21, 22, 23; Marimettas; First Lieutenant, E. O. T. C., 21, 22; Captain, 22, 23; Commerce Society; Water Nimble; Technical Staff, 18, 19; Columbus Club; Shewbow Squad.

JOHN FRANKLIN McINTYRE, JR., E N
"Big Boy"
Pine Bluff, Arkansas

The most impressive thing about Big Boy is his mouth, containing as it does an array of ivories like a pool room. Besides pushing the opposing line back a few yards every time the ball is snapped, lie says Commerce is the best course at Tech and really believes it. No man in school makes friends with such ease, so John will some day probably have the farmers electing him to raise the price of pork.

Scrub Football, 18, Varsity, 19, 20, 21, 22, 23; Captain, 23; Anaki, Koseme; "F" Club, Vice-President, 22; Student Council, 22, Delta Sigma Pi.

RODERICK STEWART McIVER, JR., A T f2
"Mac"
Greenville, South Carolina

This tennis shark was born in Savannah, but soon emigrated to Greenville. Early in life Mac began his career as a tennis shark and a lady killer and soon became quite expert in both. He came to Tech and at once began making new records in these two lines. Mac is one of those chaps you can't help but like and the more you know him the better you like him.

"Not to work for others, but to have others work for me."

Tennis Team, 22, 23; Manager, 23; Oowah Club; Shewbow Squad.
WILLIAM LAMAR PARKER, Σ Α E

"Kid"

Thomasville, Georgia

This able contemporary of Rufus Wallingford started trading at Waycross in 1901. He later swapped hats and marbles at Thomasville High, where he became well known for his ability to get the best of the bargains. Having studied finance at Tech, "Kid" promises to put the well known Wallingford in the shade.

"To get rich quick."

GEORGE GREEN RILEY

"George"

Americus, Georgia

"George" first made the Riley family proud back in Arlington, Georgia, on April 2nd, 1902. They soon moved to Americus and managed to hold him there until he finished Americus High. He came to Tech in 1919 on the condition that they let him come back when through. His specialties are "Bullfighting and Singing." His ambition is to become a successful business man.

Commerce Club; Company Football, '19, '20.

GEORGE PERRY ROUNTREE

"George"

Summit, Georgia

"George" is a native son all the way, starting at Lyons, Georgia, in 1901. He prepped at Emanuel County Institute, moved to Summit, and found his way to the protecting arms of Dean Watters. He hopes in the course of a few years, with the aid of a vigorous political campaign, to be elected mayor of Summit.

CHARLES MITCHELL SEWARD

"Baron"

Washington, District of Columbia

In spite of the fact that the "Baron" was born at Washington, and served as a major in the army, he is one of the most realistic-looking "noblemen" and is second only to the Prince of Wales when it comes to breaking feminine hearts. It is generally understood that he is single "at present."

"To grow more hair and break more hearts."

Member Yaarab Shrine Temple; Masonic Club.

DUNCAN SINCLAIR, K 2

"Shine"

Moultrie, Georgia

"Shine" is entirely inconsistent in his nature. While most of the time he is of a quiet, reserved nature, he has the audacity at times to emit terrible noises in company with some others who call themselves the Glee Club. We would like to find out which of his attributes he uses with the women, as he seems to get the desired effect.

"To be a ladies' haberdasher."

Glee Club; Mandolin Club; Alpha Kappa Psi.

FRED RICKER STOKES

Covington, Georgia

Stokes, after participating in the late war, came to Tech, but was unable to start another one with his former success among the Profs. However, he did "shoot" them successfully; and now, armed with the old sheepskin, he is expecting to become victorious with his fight along the highway of life.

ALFRED AUSTIN TENNISON, II Α Δ

"Lord Alfred"

Texarkana, Arkansas

From an Arkansas Traveler to a B. S. C. degree at Georgia Tech in four years is Alfred's enviable record. In the good old days of '98, he asked if he may be permitted to tell what he knew about accounting and the other mysterious subjects of that department, and since that day he has been one of the "Commercial Sharks." Alfred expects to go back to the old town, and there put into practice what these four years have taught. He states that he has no ambition, she's already married.

Phi Kappa Phi; Honor Roll, '20, '21, '22.

THOMAS HARLAN WATKINS

"Tommie"

Decatur, Georgia

This is a man with a smile that never wears off. His smile is so characteristic of himself that it seems to be contagious, as everyone near him smiles when they first lay their orbs upon his handsome young countenance. "Tommie" first came into fame when he woke the sleepy village of Decatur from its peaceful slumber with vociferous yells of joy in 1908. Since that date the village has never quite recuperated from this shock, and the "old-timers" insist that it should be classified as one of the nine wonders of the world.

"Won't do to tell."

GEORGE PERRY ROUNTREE

"George"

Summit, Georgia

"George" is a native son all the way, starting at Lyons, Georgia, in 1901. He prepped at Emanuel County Institute, moved to Summit, and found his way to the protecting arms of Dean Watters. He hopes in the course of a few years, with the aid of a vigorous political campaign, to be elected mayor of Summit.

Commerce Club; Company Football, '19, '20.

CHARLES MITCHELL SEWARD

"Baron"

Washington, District of Columbia

In spite of the fact that the "Baron" was born at Washington, and served as a major in the army, he is one of the most realistic-looking "noblemen" and is second only to the Prince of Wales when it comes to breaking feminine hearts. It is generally understood that he is single "at present."

"To grow more hair and break more hearts."

Member Yaarab Shrine Temple; Masonic Club.

DUNCAN SINCLAIR, K 2

"Shine"

Moultrie, Georgia

"Shine" is entirely inconsistent in his nature. While most of the time he is of a quiet, reserved nature, he has the audacity at times to emit terrible noises in company with some others who call themselves the Glee Club. We would like to find out which of his attributes he uses with the women, as he seems to get the desired effect.

"To be a ladies' haberdasher."

Glee Club; Mandolin Club; Alpha Kappa Psi.

FRED RICKER STOKES

Covington, Georgia

Stokes, after participating in the late war, came to Tech, but was unable to start another one with his former success among the Profs. However, he did "shoot" them successfully; and now, armed with the old sheepskin, he is expecting to become victorious with his fight along the highway of life.

ALFRED AUSTIN TENNISON, II Α Δ

"Lord Alfred"

Texarkana, Arkansas

From an Arkansas Traveler to a B. S. C. degree at Georgia Tech in four years is Alfred's enviable record. In the good old days of '98, he asked if he may be permitted to tell what he knew about accounting and the other mysterious subjects of that department, and since that day he has been one of the "Commercial Sharks." Alfred expects to go back to the old town, and there put into practice what these four years have taught. He states that he has no ambition, she's already married.

Phi Kappa Phi; Honor Roll, '20, '21, '22.

THOMAS HARLAN WATKINS

"Tommie"

Decatur, Georgia

This is a man with a smile that never wears off. His smile is so characteristic of himself that it seems to be contagious, as everyone near him smiles when they first lay their orbs upon his handsome young countenance. "Tommie" first came into fame when he woke the sleepy village of Decatur from its peaceful slumber with vociferous yells of joy in 1908. Since that date the village has never quite recuperated from this shock, and the "old-timers" insist that it should be classified as one of the nine wonders of the world.

"Won't do to tell."
CLEMENT WALKER WESTON, E
Logtown, Mississippi

"Clem"

We cite Clem as an example that a state doesn't have to have great cities to produce great men. He was born at Logtown on March 10th, 1902, and after prepping at Columbia Military Academy, came to Tech to study Engineering. He soon saw that Engineering didn't offer large enough fields for his activities, and so changed to Commerce.

"To be mayor of Logtown."

Cotillion Club; Skull and Key; Koseme; Bull Dogs; Shewbow Squad.

BOYD FRANKLIN WHITE
"Dean"
Mableton, Georgia

This Commerce shark first saw the light of morn at Temple, Georgia. The populace of this thriving metropolis were amazed at the scholastic ability that he demonstrated. After finishing D. B. L. at Drake-town, Georgia, he came to Tech, looking for further fields to conquer. We firmly predict that in the future he will be known as a Professor of Commerce in some fortunate institution.

Phi Kappa Phi.

WILLIAM LEWIS WILSON, H A A
"Bill"
Thomasville, Georgia

"Bill" has been a native of Thomasville since September 28th, 1900, where he first smiled at a good-looking girl. Since then he has not confined his smile to the fair sex, but has a cheerful smile on his chubby countenance for everyone; it is even said that he smiles at hard work. At any rate his record shows that he has "put out" and we expect him to have a great success on the "outside."

"To be a Certified Public Accountant."

Honor Roll, '20, '21, '22; Gold "T"; Shewbow Squad; Owach Club.

WILLIE CLAUD COUCH
"Bill"
Turin, Georgia

"Bill"'s father first boasted of his son's arrival on September 4th, 1895, at Turin. He was royal to the old home town and prepped at the local high school and would undoubtedly be the town's leading citizen today had it not been for the war. After seeing that little matter settled, he came to Tech to become the leading merchant in a larger town.

"Leading merchant of the city."

First Lieutenant, R. O. T. C.; Alpha Epsilon Pi.

Bachelors of Science in Cooperative Engineering

THOMAS PETTUS BRANCH, B.E., Sc.D.
Professor

JOHN A. ATCOCK, JR.
"Johnny"
Bullochville, Georgia

Many thousands of people have observed the functioning of the South's Best Football Scoreboard, on Grant Field, but very few of them know that this little man is largely responsible for its operation. Johnny has been the Life of the Co-op House for five years, and his absence will be felt keenly, especially at the bull sessions.

"To know, to do, to be—rich."

Company Football; First Lieutenant, R. O. T. C., '21, '22; Co-op Club, Vice-President, '21, '22.

ELLIS WAY BULLOCK
"E. W."
Eastman, Georgia

Ellis experienced a great deal of difficulty during his early days as a freshman, and now in his Senior year he is making a specialty of getting freshmen started in the right path. In fact, his duties as Assistant Co-ordinator consist mainly of guiding the new men's feet to their proper place on the first rung of the ladder to success.

"To navigate deep water."

Co-op Club; A. C. C.; A. I. E.

OSCAR DOUGLAS CALHOUN
"Doug"
Atlanta, Georgia

Here is a man whose specialty is running. He has been running around Atlanta for a long time and since entering Tech five years ago he has been running around the track. Being of an extremely destructive nature, he has smashed records on the track and hearts in Atlanta with seeming ruthlessness. His smiling face would never betray him, but in spite of his innocent look he is one of the most heartless heart-breakers in the known world.

Track, '22, '23.
COLEMAN LAWSON DAVIDSON

"Dave"
Shelbyville, Tennessee
Few men at Tech have had such obstacles to surmount as had Dave during his first years. It has been a hard pull for him to finish his course and he richly deserves the honors which are coming his way. Those who know him best honor and respect him for his hard work and perseverance in the face of great difficulty. He has done his work well and is sure to reflect credit on his Alma Mater by the work he is ready to do in his profession.
Co-op Club.

JAY LESTER FRANKUM

"Hysteresis"
Martin, Georgia
Be not deceived, gentle reader, by the appearance of this long, lank, hungry-looking individual; he has an appetite that would shame a self-respecting ostrich. Now that he has finished his course he is perfectly happy, for he has also found out who is boss of the scoreboard. Although many of us are inclined to kid Frankum along at present, the time is surely coming when we will be proud to say that he was a classmate of ours.
Co-op Club; A. I. E. E.

ASBURY BROADDUS GREENE, A. K. X

"Rasbury"
Valdosta, Georgia
On most subjects and especially in class, "Rasbury" maintains a profound silence, but when it comes to formulating alibis he is undoubtedly king of them all. In other words, he is quite the berries, if you catch our subtle meaning. Questions regarding his many escapades and his frequent week-end trips to the metropolis of Winder are invariably met with an imperturbable front and a perfect alibi.
"To be what SHE expects."
Captain, R. O. T. C.

WILLIAM BEN JOHNS, JR.

"Willie Ben"
Farmington, Georgia
Willie Ben spent two years in the Navy during the World War, and tries to convince us that he was a bad man in those days. He has been saying ever since he came to Tech that in years gone by he was bold and tough. But, of course, we don't believe any of that stuff. We happen to know that he has never in all his life committed even one little act that was not entirely above reproach.

THOMAS CHRISTIAN MILNER

"Tom"
Cartersville, Georgia
It has been said by some eminent scientist that there are only some five hundred-odd bones in the human body, but Tom stands as a living proof to the contrary. He can pull more than that in a minute. During one of his numerous sojourns in the wilds of Tallulah, where he has been doing his bit toward dispelling the darkness of Atlanta, Tom contracted some peculiar ailment, the signs of which cropped out on his upper lip. Poor fellow, he has never looked the same since.
"To do one thing well—forget red ink."
Co-op Club; Masonic Club; Road Race Team, '19, '21.

THEODUS KIGHT

"Kite"
Macon, Georgia
"Kite" spent a year or so hovering around Sparks College, wherever that is, but finally saw the light and came to Tech. Although he is not what might be referred to as a high flyer, he has distinguished himself in several lines of activity. As a player on the company athletic teams, as a share-tail in Major Pendleton's army, and in the industrial field he has come into prominence.

RAY MCKINLEY MATSON

"Olaf"
Citronelle, Alabama
When "Mat" rolled in from Beloit College he was slightly peeved because Tech did not adopt Beloit's Alma Mater song. However, he soon became reconciled and consented to stay with us. "Mat" is very prominent in religious circles, and intends to become a missionary to Korea. He is working hard now so he will be able to teach the Koreans all about the Rankine cycle.
Technique, '20, '21, '22, '23; Lieutenant, R. O. T. C.; Phi Kappa Phi; Y. M. C. A. Cabinet, '20; Cosmopolitan Club; Honor Roll, '20, '21; Treasurer, North Avenue Bible Class.

WILLIAM THEODORE MEALOR

"Ted"
Gainesville, Georgia
"Ted" is one of the chosen few among us who have been able to make practical use of the experience gained in Uncle Sam's service and to derive therefrom the advantages and profits to be gained from being in close association with the Military Department of the institution. Note that we carefully refrain from using the common term graft. In spite of his unquestionable superiority in this line he has never seemed anything but one of us, and we are proud to own him as a classmate.
"To do one thing well—forget red ink."
Company Football, '20, '21, '22, '23; Co-op Club; West Inn Club.

THOMAS CHRISTIAN MILNER

"Tom"
Cartersville, Georgia
It has been said by some eminent scientist that there are only some five hundred-odd bones in the human body, but Tom stands as a living proof to the contrary. He can pull more than that in a minute. During one of his numerous sojourns in the wilds of Tallulah, where he has been doing his bit toward dispelling the darkness of Atlanta, Tom contracted some peculiar ailment, the signs of which cropped out on his upper lip. Poor fellow, he has never looked the same since.
"To do one thing well—forget red ink."
Co-op Club; Masonic Club; Road Race Team, '19, '21.
CURTIS FLOURNOY STEPHENS
“Steve”
Renfroe, Georgia
“Steve,” the demon electrician, has managed to acquire an astounding amount of knowledge during his short stay at Tech and can tell you more about wiring and sub-station operation than is published in the dictionary, the atlas, or anywhere else. “Steve” is an all-round good fellow and is very popular with those who have been associated with him.

LEE MARVIN TAPPAN
“Little Tap”
Atlanta, Georgia
“Tap” hasn’t grown very much in all his twenty years, but he hopes that some day he will be a big man. In spite of his diminutive stature he has shown us that a small man can sometimes amount to a great deal. In fact, we are told that somewhere in the western part of Atlanta he is regarded as the only man in the world.

WILLIAM MONROE MCLAURIN,
A.B.
Professor

ALBERT HAMMOND STATON, K Ζ
Atlanta, Georgia
Al has the faculty of doing a number of things at one time and of doing them all just as well and usually better than anyone else. Al returned to Tech after graduating last year and among many other things has done much good work in organizing the Student Council, which has replaced the old Honor Court.

Varsity Football, ’18, ’19, ’20, ’21, ’22; All-Captain, ’21; All-Southern End and Tackle, ’18, ’19, ’21, ’22; Varsity Basketball, ’20, ’21, ’22, ’23; Captain, ’21; Track Squad, ’19, ’20; Glee Club; Blue Print, ’19, ’20; Technique, ’19, ’20, ’21, ’22, ’23; Phi Kappa Phi; Pi Delta Epsilon; Cosmopolitan Club; Boys’ High Club; “T” Club; Koseme; President, Anak; President, Student Council; President, Southern Federation of College Students; B. S. in M. E.; Editor Georgia Tech Alumnus.
Certificate in Special Textile

CLARENCE BERNARD SEAL

Professor

JOHN HARDMAN BARNETT, Η Κ Φ
"Jock"
Commer, Georgia

Realizing that an education is a valuable aid to one's good looks, Johnny packed his Tuxedo and left Marian Institute for Tech. That was in 1918. In spite of the handicap of being born on April first, John is nobody's fool, and in his twenty-two years he has made an enviable impression upon many people, both male and female. President, Skull and Key, 20; President, Cotillion Club, 21; Koseme; Bull Dog; Pan-Hellenic Council, 22; 23; President, 23; Student Council; Textile Society.

JAMES DAVID BREWSTER, Α Τ Ω
"Jimmie"
Newnan, Georgia

There is little we can say in addition to what the newspapers have already told you about this young man—except that he is the unanimous All-Southern Social Lion of the Set. He was born in his present home town, the date of this important event being January 9th, 1902. He hopes some day to become a faculty member. Football, 19, 20, 21, 22; Basketball, 20, 21, 22, 23; Track, 22; Skull and Key; Cotillion Club; Textile Society; Newman Club.

ZACK ST. ELMO CARNES, Α Σ Φ
"Zack"
Atlanta, Georgia

This tennis playing demon of the Capital City boasts of the fact that he helped Uncle Sam as a gob during the war, and still smokes Piedmonts as evidence. Zack came to us from Tech High. "To defeat Bill Tilden."

Textile Society; Tech High Club.

STANLEY WITHERALL CONVERSE, Φ Δ Θ
"Vernon"
Burlington, Vermont

Stanley grabbed a B. S. in Commerce from the University of Vermont and then caught the first train for Tech. Now that he has an education, he will return to his birthplace, Bridgeport, Vermont, where he has—er—friends. Freshman Basketball Squad, 22; Honor Roll, 22; Textile Society.

JOSEPH HUGH HILL, Φ Δ Θ
"Back"
West Point, Georgia

Buck started at Auburn, but heard of Special Textile and came to Tech. He was born in West Point, prepped at West Point High, and has a girl in West Point. (He believes in patronizing home industries.)

JAMES BONAR JARRETT
"Jab"
Residence Unknown

For reasons which he can doubtless explain Mr. Jarrett refused to divulge any information regarding his birth place, date, home town, activities since entering Tech, and his honors. He also would give us nothing regarding his ambition. In fact, he said nothing but, "I don't want to say anything," and let it go at that. So far is he from saying, "I am also a Phi Kappa Phi," that one might say he is super-modest.

STERLING PERRY JENKINS, Φ Δ Σ
"Jeaks"
Midland, Georgia

Hailing from Columbus, the city of cotton mills, this boy naturally took Textile, and some day hopes to run one of the big mills there. He was born in Midland, Georgia, April 22nd, 1902, but prepped at Columbus High School. Company Football; Columbus Club.
CHARLES DEXTER JORDAN, A, O
"Dex"
Columbus, Georgia
Dex is something of a Bohemian, as he has attended the University of Georgia as much as he has Tech. He was born November 24th, 1898, and has already won a place in the Musical Hall of Fame by his banjo playing.
Company Football, '18; Technique, '18; Second Lieutenant, R. O. T. C.

JAMES DONALD LEWIS, Σ N
"Jimmie"
Concord, Georgia
Jimmie is the youngest graduate man in the department, having been born on April 26th, 1904. He tossed the old pill for Concord High and then came here, where he played baseball with Tech's freshmen.
Freshman Baseball, '22.

ERNEST DUDLEY NEWTON, A, Σ
"Ed"
Jackson, Georgia
Ed and his brother must intend opening a mill, as both are taking the same course. This one was born on September 6th, 1901, at Jackson, Georgia, and prepped at the local high school. That's all we could glean of his past.

WILLIAM ARIS NEWTON, JA, A, Σ
"Kid"
Jackson, Georgia
Kid, the other Newton boy, was not so bashful and told us he was born on February 24th, 1904, and played on the freshman baseball team of '22. He also admitted that he prepped at Jackson High.
Freshman Baseball, '22.

HOMER WHELCHEL
"Calypso"
Cordele, Georgia
Tech is always sure of points when this old war-horse enters a track meet. Calypso holds nearly all the strong arm records and is also a corking good football player. Born near Dahlonega, Georgia, December 1st, 1899, he went to Tifton A. & M. for his preparatory work.
Football; Varsity, 20, 21, 22; Scrub, '19; Track Squad, '21, '22, '23; Z. Z. Z. Club; "T" Club.

ISAAC HARMON HENDERSON
"Ike"
Anderson, South Carolina
In spite of the fact that Ike is married and the father of two young Hendersons, his one desire is to be Sultan of Turkey. As he was born in 1894 at Abbeville, South Carolina, there is small hope of his ambition being realized.
Textile Society; Matheson Literary Society.

GOLDEN SANDERS HINTON
"Dock"
Dacula, Georgia
The writer learned more about geography when he found Dock was born at Dacula, Georgia. It must be a good town, judging by its representative. Dock will celebrate his twenty-third birthday on September 26th, next.

EARLE G. JOHNSON
"Dick"
Atlanta, Georgia
Tech offers to the world the most dignified Special Textile graduate in many years. He acquired his dignity at Tech High. He was born in Cedartown, September 4th, 1901, and is now a member of the firm of Lyle, Johnson & Jenkins, Textile Engineers.

LEE HAROLD LYLE, II, K Φ
"Irish"
Atlanta, Georgia
Irish, Atlanta's famous All-Prep Everything, announces his graduation this June in Tech's second hardest course (Commerce, first). The "Mick" was born in Atlanta on November 23rd, 1899, prepped at Tech High and helped out in the World War.
Certificate in Special Architecture

JOHN LLEWELLYN SKINNER, B.A.Sc., M.ARcH.
Professor

A. THOMAS BRADBURY
"Shorty"
Atlanta, Georgia

A. T. is one of the two seniors that have stuck with the special two-year course in architecture, but during this short time he has shown the boys in architecture by his hard and consistent work that he is going to make good when he gets out on his own hook. Shorty is capable and thorough and loves his work, all of which assures us that we are going to hear from him in his endeavors in the architectural field.
Architectural Society; Beaux Arts Mention; First Mention, '22.

MARION TAYLOR DAWSON
"Ben" "Dutch" "Slip"
Atlanta, Georgia

M. T. may be his initials, but he's anything but empty when it comes to gray matter. This does not necessarily mean that he is brilliant. He is a plugger and a stickler, for he is the other of the two senior specials in architecture that are left of the eight or ten who began this difficult course in September of the year of our Lord, 1921.
Architectural Society.

Bachelors of Commercial Science

JOHN MADISON WATTERS, B.S., B.Sc., L.L.D., M.Accts.
Professor

JULIAN WHITFIELD BENSON
"Admiral"
Atlanta, Georgia

"Admiral" hails from some part of Georgia, but has been in Atlanta most of the time since August 13th, 1900. A born money-maker, he began by sack-gold for a large bank. His ambition is to live a million days and make a million dollars.
Commerce Club; Treasurer, Senior Class of the Evening School; Alpha Kappa Psi.

ELIZABETH BAKER
"Sis Bake"
Zebulon, Georgia

"Sis Bake" graced the metropolis of Zebulon at a date which she says is unfair for anyone to know. After attending such places as the University of Wisconsin, Columbia University, Simmons College, Valparaiso University, and the like, she realized how little she knew, so entered the Evening School. She holds the unique distinction of being the second woman to graduate at Tech. Her ambition is to keep someone's home budget.
Commerce Club.

EUGENE GRANVELL ACREE
"Gene"
Tucker, Georgia

"Gene" was born at Winona, Georgia, on May 16th, 1907. After prepping at Tucker High, he came to Atlanta. He entered the Evening School in 1920. Gene is arsenic among the fair sex and is indeed a likeable chap. His ambition is to become king of the advertising world.
Commerce Club; Executive Committee of Senior Class; Delta Sigma Pi.
ALSBERRY LEE CHAPMAN
"Chap"
Atlanta, Georgia
Chap doesn't talk much, but is given quite frequently to deep thought. He began his trip through life at Dunwoody, Georgia. He entered the Evening School in 1920 and has made wonderful progress in his studies. His ambition is to become a Certified Public Accountant. Commerce Club.

MAX M. CUBA
"Max"
Atlanta, Georgia
This young Hebrew was chartered under the laws of New York on December 10th, 1902. Realizing the keen competition, he wandered south and stopped here. Having high ambitions, he entered the Evening School immediately after finishing Commercial High. His ambition is to become a Certified Public Accountant. Commerce Club.

PAUL ALEXANDER DAVIS
"Paul"
Atlanta, Georgia
Paul was born in the seacoast town of Brunswick, but moved somewhat inland soon after this event. He received his early training from a private tutor. His ambition is to become one of the world's leading public accountants, but we fear he has too much interest in the fair sex. Treasurer, Junior Class in the Evening School; Vice-President, Commerce Club; Alpha Kappa Psi.

CARLTON GREER GEORGE
"Lloyd George"
Atlanta, Georgia
To glance at him one would not think that he was born in Texas. However, he has spent the greater part of his life in Atlanta. He made an excellent record at Boys' High and Commercial High, entered the Evening School in 1920, and has specialized in financial subjects. "Lloyd George" just naturally digests anything that pertains to finance. His ambition is to become an authority on international finance. Commerce Club; Delta Sigma Pi.

NORMAN L. HAILEY, H X φ
"Lizzie"
Hartwell, Georgia
Here we have one of those deep thinkers who is always looking far into the future. "Lizzie" hails from Hart County, where he was born on December 6th, 1899. He prepped at Hartwell High and entered Tech in 1918. His specialties are "Water Nymphs," and his motto, "Speech is silver, silence is golden." Track Team, '18, '19; Co-op Club; Commerce Club; Gene Turner Bible Class.

LOVELL C. HARBELL
"Refus"
Atlanta, Georgia
Rafus is a fellow of many accomplishments. He's a basso singer, student, teacher, and last but not least, a bachelor. He was born May 10th, 1888, at Friendship, Tennessee. His ambition is to become a Certified Public Accountant. A real man. Commerce Club.

JAMES PRESTON HOOK, X φ
"Hook"
Augusta, Georgia
Hook was born in aristocratic old Augusta, received his earlier training at Richmond Academy and then came to Tech. When the World War came, he answered his country's call and went overseas as a Lieutenant. Being fortunate enough to return, he determined to finish school. Hook has "big" ambitions, and we know he will succeed. Commerce Club.

DANIEL COOPER INGLETT
"Coop"
Atlanta, Georgia
"Coop" is purely an Atlanta product, having been on the market since September 19th, 1899. He prepped at Tech High and then started on the one way street of life. Time and a little experience improved his judgment and he entered the Evening School in 1920. Coop's line is ladies and insurance, so of course he has to "wear a smile for everyone." Vice-President, Junior Class of the Evening School; Executive Committee of Commerce Club; Alpha Kappa Psi.
CHARLES ROBINSON PERRY
“Charlie”
Atlanta, Georgia

“Charlie” is a native of the Gate City, having been here since February 6th, 1897. He prepped at Tech High and entered Tech in 1916. The World War, one thing, and another (he’s married) delayed Charlie, but having determination he returned to school work and will now graduate.
Band, ’16, ’17; Glee Club, ’16, ’17; Treasurer, Commerce Club, ’22, ’23; Vice-President, Senior Class; Alpha Kappa Psi.

JOHN MONROE PHILLIPS
“John”
Monticello, Georgia

On the morning of February 25th, 1901, there was much excitement down in Jasper County. A babe had been born who had all the earmarks of a world leader. Entering the Evening School in 1920, John has taken a leading part in all activities and will soon be the proud possessor of his degree. His favorite indoor sport is “Bull Slinging” and “Heart Breaking.” His ambition? Well, you can count on John.
Secretary, Junior Class; Secretary, Senior Class; Secretary, Commerce Club, ’22; Blue Print, ’23; Alpha Kappa Psi.

CHARLES HAMILTON PITTMAN
“Pitt”
Atlanta, Georgia

The country Jake who said that a real man could not be produced in a city is wrong, for here is one. “Pitt” has been here since June 3rd, 1896, receiving his earlier training at Tech High. The war held him up a while, but he later entered the Evening School and has since married. We will vouchsafe that he will be one of the world’s leading accountants before very long.
Commerce Club.

JULIUS HOOVER RENAULT
“Jule”
Atlanta, Georgia

On September 9th, 1892, at Orlando, Florida, it looked as though “Jule” was destined to be an Alligator, but his folks moved to Atlanta and he has developed aspirations untold. He prepped at Commercial High, then tried singing “basso.” He entered the Evening School in 1920, and beyond any doubt is developing into a real “Auditor.”
Commerce Club.

EDWARD BLAIR WILSON
“Eddie”
Ripley, Tennessee

“Eddie” is nothing short of a mathematical wizard. Aside from trying to drill “trig” into Frosh Engineers’ heads all day he has been coming to Night School for the past three years. His ambition is to know something about everything—evidence of this is seen in that he has attended Vanderbilt, University of Chicago, Columbus and last but not least, Georgia Tech. His hobby is flunking freshmen. B. S. and B. C. S.

Junior Poem

For two long years we've gone the gait,
A weary, heart-rending, studious state
Wherein the mettle of the man is tried
Withstanding tempting pleasure long denied.

We shaky, quaky, ignorant freshmen were
When first we met our profs without demur;
And then we lordly Sophs perforce became
No whit detracting from that lordly name.

And now as Juniors we have thus become
The backbone of our social life. And some
Have bent their energies to stand foremost
Among those heads, amid the struggling host,

That lead, and in that leading strive
To place our Alma Mater in the drive
For those ideals the best of men hold dear,
The criterion of a finished engineer.

Accuracy, thoroughness, service, honesty;
Four building stones for future prosperity
In after-life, for there again we score
Befitting a man of twenty-four.

Sophomore Poem

"My gauntlet's run. Without a doubt
I've had experience in and out.
Plane analyt and mess-hall fare
And flunks that catch you unawoare
Are all behind.

"I've learned to shun the ways of those
Who fall in love with every Rose.
In one short year I've learned with ease
The methods calculated best to please
The blase maid.

"It's more than true that last year—well,
The upper-classmen gave me—.
But Oh my word! A greener crowd
I never saw before, endowed
With such ungainly shanks

"As twenty-six, a motley sort
With high school wit and boyish sport
And homesick dreams of pretty Nan
And mother's pies and Uncle Dan
And all that rot.

"But wait and see; leave it to me,
Before mild June will set us free
I'll hare this bunch so broken in
With trouser-seats worn flat and thin
They'll educated be.

For if a Soph sat down in ease
And freshmen did much as they please
What would the school be then? I guess
We're more important than the rest—
No es verdad?

—W. H. V.

Waste Not

The years have passed since first you looked in awe
On campus of Old Tech, each thronging year
A canvas many-hued with ever more
Resplendent glow. And now the end is near—
Too quickly, quickly has it come! You might delay,
But ceaseless falling flow the failing sands of day.

Mist-shaded are the years so nearly past;
Still closer will in future time be drawn
The curtains of this precious year, the last
Departing glory of a coronal borne.
Too carelessly perhaps, put by with scornful haste,
Too lightly trampled into dust of days you waste.

Then cherish it, Ye Classmen! Cherish each
Fleeting moment that with pace relentless bends
To overtake the month of June. Outreach
A yearning hand, Some naught but memory lends
Her doubtful radiance. So well in this last hour
Ere you forever pass from Alma Mater's door.

—C. B. W.
Freshman Poem

We're Country rats, City rats,
Rats from all quarters;
Laughably insolent
Careless cavorters.
Widely conversant
Of facts scandalizing;
We think to run rampant;
Oh! Somewhat surprising!

Some lessons we've studied
While other we've not.
The quickest we've learned
Was quite rudely taught.
Adien, haughty spirit;
Perforce are we parted.
We've learned to behave
From the Soph tender-hearted.

The Evening School of Commerce

Some ten or eleven years ago, the Alumni of Georgia Tech became interested in finding a way to secure some sort of business training for the Juniors and Seniors in the school at that time. Under the impetus of their interest and cooperation, a series of talks was begun by Atlanta business men, one each week during the spring of 1913. An Alumni here and there may recall on that program, Fred Paxson, J. B. McCrae, Joel Hunter, Edgar Watkins, W. M. Frambo, Bob Gregg, and many others prominent in Atlanta business.

The Alumni during that summer got busy and agreed to help finance an Evening School of Commerce, whose instructors would give lectures on business relations to the Juniors and Seniors. The Junior course was never worked out, as their schedules did not permit an hour when all Juniors could assemble, nor did the finances permit a series of courses which would meet the needs of the individual degree departments. The Evening classes were held that first year on the campus under the leadership of Wayne Kell. Among the lecturers on that roll were: Dr. Wallace, Dr. Crenshaw, Ed Green, Homer Watkins, and a number of informed men. Up until June, 1914, the Evening School of Commerce was nothing more than an experiment in the eyes of the Board, but that summer they adopted it. The Alumni are due all the credit for this, for it was they who had the original idea.

The basic idea is this: Every engineering student should have on his schedule or should have available on the campus, special courses in Economics, courses in Finance, Personal Relations, Production Costs, Organization, Sales, Advertising, Accounting, the Law of Contracts, Negotiable Instruments, Realty Values, and the like.

With the coming of Dean Watters, the department began to lose its provincial form, and the development into a sizeable day as well as evening school has permitted it to take a place among the leading departments of the school in keeping with the place already held by our engineering departments.

Now the Evening School classes are held in a downtown office building, which permits young men already in business to obtain college training which otherwise they could not get. Students have received credit for work done in Columbia, California, Harvard, New York, Northwestern and many other institutions. The scholastic standing of the Evening School has thus been established on a par with the best in the country. The character of the work has been further improved by the fact that 95 out of 440 students enrolled during the past year have had previous collegiate training; 89 colleges and institutions were represented. Many men, having graduated in the engineering departments of Tech, find it advantageous to take up courses in the Night School.

Evening School Senior Class History

In our humble opinion, it was indeed a great day for the Georgia Tech Evening School of Commerce when seventy-five forlorn specimens of humanity marched into the office of the registrar and demanded to be enrolled in the class of 1923. We say demanded; two or three of the more forward ventured to get through without stuttering, but demand sounds better than the actual truth. This was in the fall of 1920, and marked the largest number to be enrolled up to that time.

Time numbered by and members of the class dropped out until at the beginning of the Junior year only twenty of the wisest of the class were left. (Again we present our humble opinion). At least, we felt considerably more important as Juniors than we had the year before. During the next year the class fared better and most of the men thought a year as a senior would offer an improvement to their poise and dignity, so they remained on the roll of the class of '23.

The class of '23 was the first in the history of the Evening School to form an organization during the Junior year. It was an entirely new venture, but there is little doubt that practically everything accomplished was a direct result of this class organization. The Junior Class officers were: Ray Spitler, president; Cooper Inglett, vice-president; John M. Phillips, secretary; and Paul A. Davis, treasurer. The Commerce Club was organized, and through the efforts of the class of '23, resolved itself into a vital factor in school life. Three Juniors held important offices in the Club. They were: Ray Spitler, vice-president; John M. Phillips, secretary; and Charles R. Perry, treasurer.

During the summer intervening between the Junior and Senior year, the Class sponsored a banquet given in honor of Georgia Tech's new president, Dr. M. L. Brittain, at which over one hundred students and members of the faculty were present. The banquet was a great success, despite the fact that most of the students were out of the city for the summer.

The Senior Class was organized at the beginning of the present year, with the following officers: Ray A. Spitler, president; Charlie Perry, vice-president; John M. Phillips, secretary; and Julian Benson, treasurer. It has been the policy of the Class during its Junior and Senior years to have "get-together" suppers every two weeks, the purposes of which have been to promote a feeling of good-fellowship and to cement its members with a fraternal bond which has molded the Class into a better working unit.

As the Class of '23 goes out into the world, leaving behind all those things we held so dear, we want to leave something which will serve as a bond between ourselves and our Alma Mater; something besides a mere intangible memory; exactly what has not been settled, but plans are being formulated toward that end.

And now, old Alma Mater, our dear old Georgia Tech, it is with throbbing heart that we salute thee and bid thee farewell. May thy banner of White and Gold be borne triumphant ever, and thy glory of the past be something with that which the future will unfold.

The Castle of My Dreams

'Tis calm tonight.
The wan moon spreads her fan
Of tender light o'er feelings.
Caressed by the gentle sighing wind,
Twinkle facily.
And the veiling star flames as a torch
To light with mellow radiance
The aerial road which mounts
To that great filmy height
Where rests the castle of my dreams.

Oh, wondrous night! Oh radiant moon!
That brings
The quintessence of a spell that wrings
From out the ages,
With an invisible force, those dreams
Most dear to man
When soul within him sings
And worlds are at his feet.

Wouldst journey to my castle?
Come with me and we shall see
The wonders of eternity.
But slowly, softly, enter here
And look on treasures gods hold dear.

Those virtues which, through worlds of kings
Have lived, immortalized, the same
As when created by the Godly hand
And touched forever with a fire
Divine through all the years of man
Encompass us in a sphere
Whose light is Love
And Kindness a reflection of the same;
Where Mercy and Compassion
Tone the atmosphere
Into a vivifying food for souls.

Here a soul may drink
Of all these nurturing virtues
And the scheme of things
Sink in its core so deep
The radiance of Divinity lies bare.

No mortal soul may ever cross
The threshold of this sphere and then depart
To sate the secret of its wonder
To those who have not entered here.
So I drop my pen and leave to thee
The dearness of its memory.
—W. H. V.
Beauty

BEAUTY is a quality to which we all do humble homage. A masterpiece of art, a majestic piece of architecture, the grandeur of nature's beauty still moist and verdant from the Master's mighty stroke, all awaken within us that instinctive admiration which has led man through all eternity to the execution of noble deeds and the attainment of the highest ideals with his eyes toward God.

Passive beauty possessed of a beautiful soul approaches godliness surrounded by a mystic power which bids all worship with an inherent yearning. Activated by beauty of soul, passive beauty is manifest in beauty of speech, beauty of action, beauty of thought, and beauty of character; the immortal marks of our Creator's hand. The following young ladies exemplify the highest type of beauty in its full meaning; beauty of feature and beauty of soul; and they are loyal supporters of our beloved Alma Mater and the 1923 Blue Print.
Mr. W. H. Vaughan,
91 West North Ave.,
Atlanta, Ga.,

Dear Mr. Vaughan,—

I am returning
the photographs marked one, two,
three and four. Where the standard
of good looks is so high, this is a
difficult task. I much prefer to
mark them all 'one'.

Sincerely yours,

The above is a reproduction of the letter received by the editor from Mr. Gibson, who was kind enough to select the most beautiful pictures from the large number sent him for judgment. It was due to his interest that we were enabled to obtain an impartial selection. We wish to thank the many young ladies who submitted pictures for we share with Mr. Gibson a desire to mark them all 'one.'

Pan-Hellenic Rushing Rules

(Tentative)

GEORGIA TECH

SECTION I, ARTICLE 1—

No man attending a high school in Atlanta or vicinity (vicinity being construed any point that may be reached by car line) shall be rushed by any fraternity at Georgia Tech until two weeks after the opening of the school term.

(a) Prep school men cannot be invited to fraternity dances.

(b) That no man shall enter Tech pledged. All pledges made previous to the specified period will be automatically broken.

(c) No fraternity shall rush a man at Tech between the opening date of Summer School and the second Monday of Fall term.

(d) No night school student, at Tech, shall be eligible for membership in fraternities.

ARTICLE 2—

In the case where a man ineligible for pledging under Article 1, of this section, is pledged to a chapter of a fraternity at another college, and later decides to come to Tech, his pledge is automatically declared broken by the Pan-Hellenic Council at Tech and he shall not be eligible for membership in any fraternity for his first year at Tech. In such cases it is understood that any fraternity may have the privilege of rushing the man during his first year.

(a) During a period beginning the second Monday of Fall term prospects may be rushed until the following Saturday night at midnight. On the following day, Sunday, dates for the different chapters, both Local and National, will be arranged by the Pan-Hellenic Council.

ARTICLE 3—

If a student is pledged to a fraternity and breaks his pledge of his own free will and accord and without the coercion of another fraternity, he may be pledged by any other fraternity after the report of said action has been made to the Council.

ARTICLE 4—

No prospective student shall be allowed to live in a chapter house during the summer vacation, unless a member of a National fraternity.

SECTION II, ARTICLE 1—

The penalties for breach of the above rules shall be expulsion of the guilty chapter from the Council.

ARTICLE 2—

It should be understood by the different chapters that the Pan-Hellenic Council is for the advancement of all fraternities and that the best results can only be obtained by cooperation. The spirit, as well as the legal wording of these rules should be supported by the respective fraternities.

REALIZING that a real success in life must be founded upon a vigorous manhood and continued good health fostered by clean living, the college heads of today whole-heartedly support participation in athletics. So it is a far-sighted policy which makes athletics the chief activity of our campus. In a very short time the name of Georgia Tech has appeared in bold type among the greater institutions of learning in the United States, and in this same space of time the prowess of her athletic teams has won the sincere high regard of all as opponents of the finest mettle. Rising first in prominence to a sectional peerage, the reputation of our teams has spread until our schedules show an increasingly greater number of intersectional games each year with worthy representatives of the North, East, and West. Our teams always present a solid front unbroken by petty personal consideration from within. We are Southerners; we play the game cleanly and hard; the game for the game; and a just consideration for our foes always goes hand in hand with an honest desire for the best team to win. As our engineers are known for their versatility, adaptability, and thoroughness in executive positions, so our teams are known for their clean, hard fighting, and students and friends have learned to support them with that invincible spirit which rides triumphantly to a victory in bitter defeat or victoriously to a remarkable win with the same equanimity. It is our ideal to maintain this spirit, keeping Georgia Tech a premier in college athletics.

Tech Wins S.I.A.A.

A magnificent day ended gloriously, a football season was closed successfully, a valiant team lost, and an eleven of true, sportsmanly athletes won the S.I.A.A. Championship on Grant Field before the largest football audience in the history of the south. Our old friendly rivals of many years were met and conquered in the best of spirit on the memorable Thanksgiving which has passed into history within the archives of our Alma Mater.

The day seemed electrified by the impending contest. As the sun beamed a fair promise crossing the meridian at noon, many were passing through the gates at the field and the others were draining the last drops of demi tasse marking the close of the annual dinner of dinners. As the warriors came on the field the stands were roused to vibration with thousands of voices and the bands of Tech and Auburn played the accompaniment while the limbs of every tree in five blocks and the roofs of every neighboring house shook with the noise. Signal practice over, the two elevens took their respective sides, when a hush fell on the audience as the Auburn eleven, led by Captain Shirley, bore a magnificent silver service across the field to Captain Barron, who met them with the Yellow Jackets and accepted it as one of the presents of his wedding to be solemnized at six o'clock that evening.

The presentation finished, the two old-time rivals squared for the contest. The large crowd saw a real football game that day; one of the cleanest games ever played in the Southland; every minute of it intense. The two outstanding stars of the game were Captain Red Barron of Tech and Captain Shirley of Auburn, both of whom were to play their last game. Red charged the opposition more energetically than ever, well demonstrating the fact that on that day Tech was to lose one of the greatest players in her history, one of the greatest backs in the United States. Captain Shirley proved himself the most worthy opponent Tech has found in many a day, his offensive work seeming almost superhuman at times. Auburn journeyed to meet us with the greatest team she has ever had, but she met one just enough better to take her measure; Tech driving to a glorious win while Auburn was defeated but not beaten as they fought the hardest and cleanest game ever seen on Grant Field.

Championship From Auburn

Tech defended the southern goal, McDonough returning Moulton's kick ten yards. After two downs, Brewer punted thirty-five yards, and Shirley returned the ball for some brilliant runs before punting over Tech's goal line. Two first downs, and Brewer punted to Auburn's twenty-eight-yard line. On the fourth down Shirley punted and McDonough fumbled, Lawrence recovering for Auburn on our eighteen-yard line. Auburn failed to gain on downs, and after running two downs, Tech punted to Auburn's forty-two-yard line. By a succession of fierce line blows, Tech worked the ball to Tech's fourteen-yard line, when several passes failed. Several brilliant line plunges and end runs ended when Tech lost the ball on Auburn's twenty-yard line, one pass of twenty-eight yards, McDonough to Hunt, being the feature of the advance. Following trials at the line, Shirley punted and McDonough scored over the line after a next end run of twelve yards by Barron, and a fourteen-yard pass, Brewer to J. Staton. Brewer kicked goal. The half ended with the ball on Auburn's thirty-yard line in Tech's possession.

On the kick-off, Barron returned the ball twenty-three yards, and Brewer followed with a thirty-yard run to Auburn's twenty-three-yard line. After three plunges, Brewer failed to drop-kick goal. Failing to gain, Shirley kicked to Barron. A long series of line bucks, end runs and passes gave Tech first down on Auburn's sixteen-yard line. Another first down and a series of bucks ended when Red went over for the second touchdown, and Shirley accepted a pass and Auburn punted over Tech's goal line. On an attempted triple pass, Tech fumbled and Lawrence recovered for Auburn on Tech's fourteen-yard line. A series of short line plunges gave Auburn their touchdown. Moulton missed goal. After several exchanges, a few long runs by Shirley, and an intercepted pass, the game ended with the ball in Auburn's hands on their thirty-five-yard line.

A bluish, smoky dusk had settled down on Grant Field during the contest and it closed in on the battling elevens as they retired on that glorious day. Barron, gladiator of many encounters, finished his last game for Tech and left the field bound for his wedding ceremony. Al Staton, Brewer, Davis, McDonough, Mitchell, Lyman and Hunt ended their football careers at Tech on a field of glory, and their names will live long in our memory and in the history of Tech athletics.
COACH ALEX

William A. Alexander, better known as “Alex”, began his career at Georgia Tech in 1906 as a student. Up until that time his experience along football lines was a negative quantity. After four years of hard work on the scrubs he had absorbed enough knowledge to land a berth on the regular team and make his letter in 1912.

Although the faculty tried to get rid of him by giving him a degree of B.S. in Civil Engineering, he refused to leave and returned in the fall of 1912 as assistant to Coach Heisman and as instructor in the Mathematics Department. He served in this capacity until the outbreak of the war, when he joined the army and served in France as a Lieutenant in the Engineers. After another year as assistant in 1921, he was made head coach of athletics upon the resignation of John Heisman.

His record as director of athletics has caused national comment and the eyes of the sport world are on him. He is the youngest coach at a major college and for that reason his brilliant work is even more praiseworthy. His biggest asset is his personality, which is so outstanding in his work as to command the love and respect of everyone with whom he comes in contact. The school is behind him to a man, and will support him in anything he may undertake.

Our Assistant Coaches

Coach F. F. Wood, the mighty line coach of the Tornado for the past five or six years, came to Tech from Notre Dame, the school that is noted for its famous football teams. Coach Wood has developed a powerful line during his stay at Tech; each year seems to find this part of the team stronger than in the preceding season. His coaching has helped develop such linemen as Bill Fincher, Al Staton, Oscar Davis, and other noted Tech forwards. The thoroughness of Coach Wood’s drilling was apparent to all who witnessed the 1922 Auburn encounter.

Coach R. A. Clay, more often called simply “Kid”, is a Tech product from many years ago. “Kid” received the bulk of his football training under the tutelage of Coach Johnny Heisman. But “Kid” Clay’s game is baseball, and he is always happiest when the short cold days of winter begin to blend into the warmer days of early spring. “Kid” Clay now has had full charge of the baseball work for the past two years, and each season has turned out a team that has fought its way to the pinnacle of Southern college baseball.

George Griffin has almost become a landmark at Grant Field. George is depended on to help mold the freshman football team into a team thoroughly drilled in Tech athletics. Someone once started the expression, “Let George do it,” and someone else applied it to our George. The result has been an unbeatable freshman squad for the past two or three years.

It is doubtful if Tech would feel right should “Daddy” Amis decide to leave our campus. “Daddy” was the hub around which the Tornado was built for several years and it was with much regret that Tech followers saw the old warrior play his last game two seasons ago. But “Daddy” was not to leave his alma mater, for he returned to coach the freshman basketball and baseball teams and assist George Griffin with freshman football.

Thus is Tech fortunate in her assistant coaches!
DAVID IREXUS BARRON, Halfback
Clarkesville, Georgia, claims the distinction of being the birthplace of the versatile Captain "Red". The old home town, however, could not hold him long and he prepred at Monroe A. & M. Here he established a statewide reputation as a stellar athlete. On coming to Tech in 1918, he stepped right into a varsity position and since that time has played halfback on the Golden Tornado. He and Al Staton share the honor of being the only men to win five letters in football. His great spirit has repeatedly kept the team in the running, and as captain of the 1922 eleven, his generalship was superb. As a climax to a wonderful career, he married Miss Alice House, on Thanksgiving. His honor roll includes repeated All-Southern berths and a position on Walter Camp's second All-American.

JOHN FRANKLIN McINTYRE, Guard
John might be termed a knock-about sort of fellow. He was born in Bigbee, Mississippi, but soon drifted out into the wilds of Arkansas and took up his abode in Pine Bluff. He returned to civilization in 1919 when he enrolled at Tech. He made his football numeral on the famous 1920 Tornado and in 1921 he was awarded a letter. He came into prominence on the eleven of 1922 when he earned the distinction of being one of the South's best guards, and in recognition of his fine work his teammates elected him to one of Tech's greatest honors, captain of the Golden Tornado for 1923.

ALBERT HAMMOND STATON, Tackle
Al is a local product, having done his preliminary work at Boys' High School in Atlanta. He came to Tech in the fall of 1918, and that year played tackle on the football team. He is a member of the old Pittsburg bunch that thrice made the trip with such unfortunate results. Al is one of the most consistent players that we have ever had and is always dependable. He has several times earned a position on the Composite All-Southern during the five years that he played on the gridiron. He has been married for some time now and is already training Albert, junior, in the ways and wiles of a tackle. The team will miss Al long after he has gone.

OSCAR GOLDSMITH DAVIS, Guard
Oscar is one of the original hard luck boys. Since he left Boys' High School, where he prepred, he has been tossed continually in some scrape with old man jinx. In 1918, his first year at Tech, after he had won the position of varsity center, he had his leg broken in a motorcycle accident and was laid up for the season. He barely missed making his letter in 1919, and the next year with the beginning of the Alexander regime, burst forth as one of the outstanding guards of the South. Since that time he has been one of the mainstays of the team. Appendicitis kept him out part of 1921, but his tremendous aggressiveness last year won him nationwide praise. Not only did he make the composite All-Southern, but Lawrence Perry placed him at guard on his All-American.

JOHN JOSEPH McDONOUGH, Quarterback
Geechie hails from the city of rice and peculiar pronunciation, Savannah. Here he played three years on the football team, trying every position in the backfield. He secured the directing position on the team his first year at Tech and for four years has been the field general of the Golden Tornado. Besides being a marvel at strategy, he is the best tackler and runs the best interference of any man since the days of Joe Guyon. Although somewhat small of stature he is as hard as a rock, and except for the time he acquired a broken ankle in the Pittsburg game of 1920, has rarely suffered from injury.

JOHN CURTIS STATON, JR., End
John followed in the footsteps of his brother, Al, and graduated from Boys' High School. There he played four years on the team, during which time he tried every position except end. For this reason it is indeed strange that when he came to Tech in 1920 he should make varsity end on the team of that year. With Bill Fincher for a partner he did some fine playing that year and won a position on the composite All-Southern. Although hindered in 1921 by a broken arm, he had a good season, and was back in form again last year. John has another year and should be a great help to the team when the 1923 season rolls around.

JAMES DAVID BREWSTER, Halfback
When Jimmie reported on the field for football practice in 1919 he was so small that even the fact that he had made three letters at Newnan failed to create much impression. He had the goods, however, and played in the Auburn game of that year. He was moved to fullback and was a good player of that position, and has since been one of the regular halfbacks. He is a wonder at sidestepping and is one of the best punters in the South. It is certainly to be regretted that he will not be able to play next year.
CLAIRE ALANSON FRYE, Center
Clare is another man from the wild and wooly west, hailing from Oklahoma City, Oklahoma. At that time he was hindered by a scarcity of avoirdupois, but played on the local high school team. Two years of football with Uncle Sam's aggregation served to season him so that after scrubbing a year at Tech, he was awarded his numeral in 1920. The next year he played at various positions on the varsity line but did not come into his own until last year, when he was selected as All-Southern center. He is the alternate captain of the 1923 eleven.

WILLIAM PAUL LYMAN, Tackle
Paul began his football career at the McCallie High School, in Chattanooga, where he played for three years and was captain of the team in his senior year. Pollie came to Tech in 1919, and was a valuable asset to the scrub team of that year. He moved up to the second varsity the next year and was awarded a numeral. 1921 found him at varsity tackle, at which position he has done some remarkable playing. Paul is one of the most popular boys that ever came to Tech, being twice president of his class. It is hard to lose men like Paul, but they will graduate.

ALEXANDER TROTTER HUNT, Fullback
To look at Pinky one would never suspect that he was born in a place with a name like Arkadelphia, Arkansas, but he soon moved over into Louisiana, which, we hope, is better. He prepped at Staunton Military Academy, where he played on the football team. After a year on the scrubs, he became a member of the famous pony backfield, and as such, won his letter as substitute quarterback in 1921. Last year he took over the big job of filling Judy's shoes, which he did admirably well.

VERNON LYONS BORUM, Guard
The birth certificate of Skinny is filed in the city of Norfolk, Virginia, and is dated somewhere about 1901. After playing football at Savannah and at Maury, Virginia, he came to Tech in 1919. He served faithfully on the scrubs and the second varsity until in 1922 he won a position on the varsity. There never was a harder worker than Skinny and he certainly deserves praise for the way he has given of himself for Tech.

THOMAS MILLEGE MURPHEY, Halfback
Red is another Chattanooga product, and did his preliminary work at Central High School, and later at McCallie. At both of these schools he made a name for himself in an athlete and was heralded as such when he came to Tech in 1920. He was a star on the Freshman team and contributed to the success of Tech's first venture of this sort. After scrubbing most of the 1921 season, he made the varsity squad last year as substitute half and showed up to fine advantage, earning his letter. He should make a good man next year.

WALTER MARSHALL MITCHELL, End
Walt gets his checks in letters postmarked Tifton, Georgia, his parents having moved there from Cordele, where he was born. He played two years on the Tifton team, and one with G. M. C. before coming to Tech. For some reason Walt didn't try out for football until his junior year, when he rapidly worked his way up on the scrubs until before the season was over he was playing varsity end. He made a name for himself over night and has maintained it throughout the 1922 season.

FELTON McCONNELL, Guard
Irish did his prepping at Gainesville and Commerce, having been born in the town of Carnesville, Georgia. From there he went to the University of Virginia, where, after scrubbing a year, he won his letter in 1920. Although Felton came to Tech in 1921, he was unable to play that year because of the eligibility ruling. Unfortunately a broken foot, sustained during the early part of last season, hindered him materially and he was unable to perform with his usual ability. Next year should find him in fine shape again.
JOSEPH ALEXANDER USRY, Tackle

Baby Joe refuses to divulge the place of his birth, merely stating that it was in the neighborhood of Thomson, Georgia. It was there that he began his quest for food twenty-one years ago and has kept it up ever since. Joe played guard on the Thomson High School team, which taught him enough football to secure him a position on the freshman team of 1920. The next year he won a numeral by his good work on the second varsity. In 1922 he held down a varsity berth at tackle and received considerable recognition for his fine work.

CHARLES GREEN FLEETWOOD, Center

Red is a Geechee, which is to say that he is from Savannah. Were it not for his superabundance of red hair he would probably be called by that name rather than Red. However, after playing on the Savannah High School team he came to Tech in 1919. Although light, he learned much about football in the regular's soirees with the varsity. In 1921 he was awarded his numeral for work at center on the second varsity, and last year gave Frye a terrible struggle for the regular position. He put up such a fight that he was awarded his letter.

HARVEY RUSSELL CONNELL, Tackle

Two years of football on the team of the Oakland High School of Oakland, Florida, served to fit Harvey for college football. After leaving high school he went to the University of Florida, where, in two years, he had built up quite a reputation at the game. He entered as a freshman at Tech and was another member of the famous rat team of 1920. His showing on the scrubs and second varsity his sophomore year was good and last year his increasing ability won him the coveted “T.” Harvey will be right on the job next year, his family having moved here from Florida.

GERALD EUTSLER AHMENTROUT, End

Johnny is one of those fellows who know all about the game but are tremendously handicapped by the lack of weight. What he lacks in weight, Fish makes up in aggressiveness. If he were twenty pounds heavier the coaches would be afraid to let him on the field. As it is now, he knocks them down to his own size and then plays them on equal terms. Although born in Newport News, he prepped at Richmond Academy in Augusta, where he played on the team for three years.

1893 Football Team

One of the pages of Tech’s athletic history brought to light. Many men since become prominent are on this team, among them General Leonard Wood, one of the highest officials of the American army.
Review of the 1922 Football Season

Oglethorpe, 21—Tech, 31

The Golden Tornado got away to a flying start in the 1922 season by defeating the Oglethorpe Petrels in the opening game by the score of 31 to 6. This plucky bunch did some fine work and kept the Tech men working like Trojans for what they got. The feature of the game, however, must be awarded to the visitors and the individual, Mauzer. This whirlwind received a kick-off in the shadow of his goal posts, criss-crossed through the entire team with the help of perfect interference, and placed the ball behind Tech's goal line. Credit must be given to the whole Tech line in this game, for not a single first down was chalked up against them.

Davidson, 0—Tech, 19

The game with this bunch of wildcats has always been one looked forward to at Tech. The Davidson team always comprises a band of fine, clean sports that play hard and fight to the last. The game was played in a driving rain on a muddy field, and the conditions were extremely difficult to the spectator, was somewhat lacking in interest. The Tech line kept up its splendid record and again held the opponents without a first down. In the backfield Red did some splendid work but, of course, was badly handicapped by the condition of the field. Jack McDonough's ability to lead a team in action was evident in the sterling manner in which he performed.

Alabama, 7—Tech, 33

The Crimson Tide poured into Athens confident of wiping out any trace of football supremacy that they might encounter. It seems that Tech is always at a better advantage when the dope is against them, for the game had been in progress a few minutes before it was evident that the Crimson Tide was receding before the Golden Tornado. The work of Pup McWhorter was the outstanding feature from the Tech point of view, although he was ably assisted by Red and Jack in getting the ball down the field. Again, to the dismay of Tech supporters, a man ran the ball the whole length of the field from the kick-off, this time the performer being Oliver. The passing of the Jackets was the best ever seen on Grant Field and not a single fumble was made.

Navy, 13—Tech, 0

Despite the desperate efforts of every man on the Tech team the Tornado was compelled to bow before the stronger team of Midshipmen. It seems as though the Jackets are to be forever disappointed in their invasions in the East. The offensive work of Cap Red and the deadly tackling of Clare Frye, although creating a national sensation, were unable to stop the intricate aerial attack of Annapolis, and the individual, Maurice. This whirlwind received a kick-off in the shadow of his goal posts, criss-crossed through the entire team with the help of perfect interference, and placed the ball behind Tech's goal line. Credit must be given to the whole Tech line in this game, for not a single first down was chalked up against them.

Notre Dame, 31—Tech, 0

For the first time in nine years the Tech team suffered two consecutive defeats, when they were humbled by the fast Notre Dame team by a score of 31 to 0. Fighting desperately to retrieve the disaster of the previous week the Jackets put all they had into the fray; even this fell short. In their anxiety the backfield men seemed unable to hold the ball and their fumbles proved costly, nearly every one being recovered by one of the westerners. Jimmie Brewer booted a beautiful drop-kick from the thirty-five-yard line for Tech's only score of the game. It is no fault of the line that Notre Dame was allowed to score. Their passing game was nothing short of phenomenal. The whole game was hard and clean, Jack winning the honors for Tech and Castner for the visitors.

Clemson, 21—Tech, 7

This game is one of the most novel ever played at Tech. Each quarter found an entirely new and different team on the field for the Jackets. The Tigers put up a fine scrap and held the Tornado to a 21 to 7 score. The encounter looked to be a runaway for the golden jerseyed men but the visitors seen bruised and steadied off the attack of the Tech backs. In the second quarter Harmon, Clemson back, receiving a kick in the middle, slipped away from the ends, crossed to the sidelines and made the prettiest run of the game for a touchdown, much to the disgust of the second team.

Georgetown, 7—Tech, 19

For the fourth successive time the Tornado turned back the Hilltoppers in their invasion of Grant Field, this time the score being 19 to 7. The game was exceedingly rough, many penalties being made by both teams. Jimmy Brewster and John Staton were the stars of the game, the former making one of the prettiest runs ever seen on Grant Field. Although it was but thirty-five yards, he sidestepped his way through the entire Georgetown team with no interference, practically every one of the opposing players having a chance at him. Flavin did some fine running for the visitors and in the last quarter started a rally which was brought to an end when Paul Lyman intercepted a forward pass.

North Carolina State, 0—Tech, 17

The North Carolina State team was turned back with a 17 to 0 score. Red Barron played one of his best games on the gridiron in this encounter, making one spectacular run of forty yards for a touchdown. The forward passing of the team was excellent, many passes being completed for good substantial gains. In the last half Henry Reeves kicked a drop kick of forty yards, one of the best seen on the field. In the last quarter State opened up a desperate passing game in an effort to overcome the lead of the Jackets but it proved of no avail. Parks was the star of the North Carolina team.

Auburn, 14—Tech, 7

Thanksgiving Day always promises the city of Atlanta a good football game, and in 1922 was no exception. Seven men were playing their last game for Tech and they certainly put all they had into the fight. Despite the splendid running of the Auburn backs, especially Shirley, the line held splendidly and the backs came through with the necessary two touchdowns to win by a 14 to 0 margin. Red and Jack were the outstanding stars, if any may be picked from the galaxy that performed so gallantly.

1923 Football Schedule

Oglethorpe University . . . . . September 29th . . . . . Atlanta
Virginia Military Institute . . . . . October 6th . . . . . Atlanta
University of Florida . . . . . October 13th . . . . . Atlanta
Georgetown . . . . . October 20th . . . . . Atlanta
Notre Dame . . . . . October 27th . . . . . South Bend, Ind.
University of Alabama . . . . . November 3rd . . . . . Atlanta
Kentucky State University . . . November 17th . . . . . Atlanta
Auburn . . . . . November 24th . . . . . Atlanta
The Annapolis Game

For the fifth time in as many attempts Tech was turned back from the North defeated, but not beaten. It was the Midshipmen from the United States Naval Academy who turned the trick this time, repulsing our warriors with such a brilliant aerial attack that they were never quite ready for the many trick plays which oftentimes went for distances of ten and fifteen yards.

All that excellent coaching can do for a team was displayed in the performance of the Middies.

The seniors were given permission to attend the game, so excitement ran high as many gathered for the Washington train at Peachtree Station. Friday evening the team went to Bancroft Hall, and the students and supporters from Georgia and the South sought such amusement as the Capital afforded. Early the following morning the band gave a concert on Pennsylvania Avenue, and the coterie of southerners scattered to the various points of interest about the historic city. The day was bright and clear with a briskness in the atmosphere, making it an ideal day for the greatest of all American college sports. As the sun passed the meridian crowds began to flock down to the little town of Annapolis, nestled in the forks of the Chesapeake Bay.

Inside Farragut Field the sward stretched smoothly, green with a sod yet spared by the first light frosts of approaching winter. Nothing more need be said of the buildings than that they harmonize with structures about Washington. The descending sun cast lengthening shadows across the field; a hydro-aeroplane droned about above; white sailboats slipped across the bay under a gentle breeze which whipped the blue expanse into rolling swells beyond the end of the east wall.

About twelve hundred southerners occupied E section on the south side of the field. The two teams ran a few signals and took position at the referee's whistle, the Navy having about thirteen pounds to the man on the line and Tech having seven pounds to the man in the backfield.

The Middies kicked off to Tech, Red carrying the ball back to Tech's thirty-five yard line while the band rambled. Unable to gain on downs, an exchange of punts followed, when the Navy executed a clever pass to our own thirty-five-yard line and pushed the ball over for her first score.

After the next kick-off Tech began an offensive which took her to the Midshipmen's twenty-yard line, where the ball was lost on downs. After an exchange of punts, Tech lost the ball to the Navy on downs on her own thirty-five-yard line due to poor head work, and the Annapolis eleven put the pigskin across with a prettily executed pass. McKee to Taylor, over the goal line. The score stood 18 to 0 at the end of the first half.

To Tech's credit it may be stated that she held the Middles scoreless in the last half. Several passes for long distances were missed by bare breadth. Tech had two chances to score but took advantage of neither of them. A long pass, McDonough to Hunt, and a brilliant fifteen-yard run by Red put us in striking distance of the goal, but the ball went over on downs. At another time Clare Frye fell on a ball blocked from the toe of the Navy punter which might have gone for a touchdown had it been snapped up.

It was quite clear that the Navy won because of a superior team and better teamwork. Taylor did stellar work for them at end. Frye and Barron divided honors for Tech, Barron receiving a fag of his long end runs, and Frye playing the finest defense game seen on any field in some time. The features of the game were the clever trick and aerial plays of the Middies, the absence of any penalties on either side, and the end of the game, which saw Tech holding a line fourteen pounds to the man heavier for six downs with their feet practically across their own goal line on a foreign field.

DECEMBER the fourteenth will long be remembered as the date of the 1922 football banquet. Early on this memorable evening guests began to gather in the lobby of the Capital City Club. In the assemblage might be found heroes of days gone by, now valiant supporters of their Alma Mater. Here and there were a few camp followers whose names are instinctively coupled with Tech and a Tech football banquet.

As the order was given at seven o'clock, those eminent and extremely fortunate personages eligible for the banquet filed into the dining room and took their places at the tables. The team retired in order to elect the captain of next year's team. An atmosphere of expectancy and tension awaited the return of the varsity. Headed by Coach Alexander they resumed their seats, refusing to divulge to the guests the result of their conclave.

Colonel Lowry Arnold, one of the most loyal supporters Tech ever had, acted as toastmaster for the occasion. Receiving orders from him all other matters were forgotten as the guests indulged in the material part of the banquet. This part being finished, chairs were pushed back and the speeches of the evening began. After a few of his customarily clever jokes, the master of ceremonies introduced Coach Alexander, who announced that John McIntyre had been elected to captain the 1923 Golden Tornado, to be assisted by Clare Frye as alternate. He praised the team for electing McIntyre, saying he was sure John would merit the honor conferred upon him.

The new captain was too happy to talk and when he was called upon managed to express his thanks more by his manner than by his words. The crowd understood and got right in behind him with a rousing cheer.

The other speakers followed. First, Al Staton made some remarks about Red and his recent marriage. He spoke from three years' experience when he said Red would not be captain of that team. Bob Jones made a wonderful talk, resounding with his loyalty and love for the school. There followed talks by our eminent President, Dr. Brittain, and various members of the press, famous at Tech banquets for their witty speeches.

Red Barron was given a wonderful ovation as he got up to speak. Red has always been a favorite and will be until the end of time. He is just naturally built that way. The climax was reached when he walked over and presented Coach Alexander with the keys to a Ford Coupe, which our good friend Mr. Bussey had left outside. It was a token of appreciation from the team for the wonderful work of the best coach in the world.

Doctor Crenshaw presented each member of the team with a pair of handsome cuff buttons as a gift from the Athletic Association, which he followed with a financial report of the Association.

After a few closing remarks, Toastmaster Lowry Arnold declared the party adjourned, and another of the famous Tech football banquets had passed into history.
Review of the 1922 Freshman Football Season

The year of 1922 closed upon the most successful football team that a Freshman class has yet produced. The Freshmen had by far the hardest schedule that they have yet played. This year’s Freshman team developed men whom we unhesitatingly predict will be stars of the "Tornado" of the future. The Freshmen played eight games, losing only one of these, that being a hard fought game to the Freshmen of the University of Florida.

FRESHMEN, 45—FEDERAL PRISON, 0

This game was the first of the season for the Freshmen and was easily won by them. Their goal was never in danger, while they bucked the line and ran end runs for seven touchdowns.

FRESHMEN, 7—UNIVERSITY HIGH, 0

The second game of the year was with the strong U. S. B. team. This was a hard fought game, the Freshmen winning, 7-0.

FRESHMEN, 47—WOFFORD FRESHMEN, 0

The Freshmen lived up to our high expectations by trouncing the Wofford Freshmen 47-0. The game was featured by the splendid playing of the entire team.

FRESHMEN, 13—UNIVERSITY HIGH, 7

Along about the twenty-seventh of October the Freshmen again played the strong U. S. B. team. As in the first game, the Freshmen won, but not without a hard struggle. Score, 13-7.

FRESHMEN, 26—CLEMSON FRESHMEN, 0

On November fourth the Freshmen won a cleanly fought battle from the Clemson "Rats". Wycoff’s ferocious line plunging and Williams’ end running brought on the destruction.

FRESHMEN, 0—FLORIDA FRESHMEN, 17

Napoleon had his Waterloo and the Freshmen were served likewise when they met the strong Florida Freshman team. This, undoubtedly, was the hardest fought game of the season, and when the smoke had cleared our Rats were on the short end of a 17-0 score.

FRESHMEN, 7—PIEDMONT COLLEGE, 0

The Freshmen, by playing good ball and by consistent line plunging, nosed out the gridders from Piedmont College 7-0. The teams seemed evenly matched, the Freshman score coming in the third quarter when Reeves carried the ball over on an end run.

FRESHMEN, 27—AUBURN FRESHMEN, 0

The Freshmen completed a great season by defeating the Auburn Rats on November twenty-fifth. The Tiger Rats were outclassed and the Jacket Rats had it all their own way. Auburn put up a game fight, but they were completely outplayed; Tech gained at will. Wycoff’s kicks were the feature of the game. Barron, Williams, Merkle, Wycoff, and Marshall starred for Tech, putting up a brilliant exhibition of football. These men are the stars of tomorrow, and we are glad to see that they come up to the Tech football caliber.
Press Comment on the Golden Tornado

As evidence of the reputation of the Georgia Tech football team throughout the country during the past year we quote the following comments of various coaches and scribes:

"Just at present Georgia Tech, Georgia University, Centre and Auburn form a big four, whose material, methods of coaching and style of play are national in potency and scope. Georgia Tech meeting such teams from out of Dixie as the Navy, Notre Dame and Georgetown, has taken a huge stride toward increasing the interest in intersectional encounters."—Lawrence Perry.

"Georgia Tech has a stronger and more united shift in which the whole line takes part than any team using a shift of this character."—Walter Camp.

After the Navy game, Conroy, the crack Navy quarterback and All-American on several selections, sought out several of the Tech players. Said he, "I just want to tell you fellows that you played the cleanest game that has ever been played on Farragut Field. You lost, but you're the best bunch of sports in defeat that I ever saw. I couldn't let you get out of town without telling you. I hope we play Tech next year."

"The work of Barron, captain of the Tech team, is highly praised here and he is considered one of the best backs that has ever opposed the Navy. As a whole, Tech played a hard game and its line gave the powerful Navy forwards a much harder time than was generally supposed."—News item from Annapolis in Atlanta Journal.

"Bob Folwell, the Navy coach, says that Red Barron of Georgia Tech is one of the best backs he has seen in ten years, and the chances are that if Red would like to sail the ocean blue, he can get a dozen appointments to the Naval Academy."—Lawrence Perry in the Atlanta Journal.

Coach Knute Rockne, of Notre Dame, said this: "I had heard that Tech was a trifle partial on Grant Field, and came to Atlanta expecting most anything. I have never been more agreeably surprised in my life. The crowd was most fair, applauding our good plays as much as they did the players of the Tech men. The students were absolutely considerate of our team at all times, giving our signal caller absolute quiet."

"Notre Dame came to Atlanta ready to receive impressions. The visit was an introduction to the South for almost the entire squad, most of whom are sophomores who hail from the Middle West, East and Pacific Coast. We knew that Georgia Tech was considered invincible in its home city. From various sources we concluded that some artificial conditions existed to produce this unusual power. The game is over and we know why Tech wins on its own soil, and in making the discovery we have been delighted. They hit hard but they hit legally, and they play the sort of game that makes them one of the leading teams of the country."—Frank Wallace, Notre Dame correspondent.

Mike Donahoo, the diminutive coach at Auburn, said of Tech: "They have the best team in the South by far, better than any we have played this year regardless of location. They are a clean, hard fighting bunch of fellows and deserve the victory they achieved over my men."

Review of the 1923 Basketball Season

Coach Alexander’s remarks at the annual basketball banquet at Druid Hills sum up about as well as is possible Tech’s 1923 basketball season. He stated: “While the season this year has not been so impressive from the won-lost standpoint, still I consider this year’s team to be by far the best one Tech has ever had to represent her on the court. It is the first time in the basketball history of Tech that I have felt that I had a team upon which I could depend either to beat or hold to a close score any team in the South. It has taken four years to produce such a team, but from now on, our basketball teams will rank right along with our other teams.”

This, in fact, tells the story. Tech has won nine games and lost nine, but of the nine games lost only one (the first game with the A. A. C.) was anything like a runaway. Not so an alibi, but as an agreement of experts, it may be said that Tech’s opponents this year were the cream of southern teams. A proof of the fact is that five of the games which she lost were to semi-finalists in the Southern tournament. Two were lost to city athletic clubs; the Atlanta Athletic Club, and the Birmingham Athletic Club; and two to Alabama and Auburn, both of whom Tech defeated.

Victories over the University of Georgia and Centre on successive nights, in themselves stamp the season a successful one. Alabama, Auburn, Mercer, Clemson, Florida, and the Jewish Progressive Club all fell before the indoor Jackets at least once.

The season opened shortly after the Christmas holidays with the Atlanta Athletic Club. Tech startled the audience the first half by scoring 16 points to the Clubbers’ 10, but the last half proved a runaway for the more experienced and better conditioned men, and the game ended 40 to 28. A trip to Macon on the following night also ended in defeat at the hands of Mercer—32 to 26.

The team then went on a winning streak and upset old man Dope at every turn, taking the next seven games. Auburn was the first to fall before the onslaught of the raging Tornado. Tech defeated them by a score of 35 to 17. A trip to Clemson the following night proved successful, the score being 26 to 17, although tied at 6-6 at the end of the first half. The play in the first half was marred by the very close defensive work of the Carolinians, and almost phenomenal shooting the last half from any and all corners of the court gave Tech the game.

The next three games in Atlanta proved to be the easiest of the schedule. The J. P. C., Clemson, and Florida, were no match for the fast passing Jackets. Tech won the first, 39 to 27; the second, 35 to 22; and the third, 52 to 20. Alabama came to town with a string of victories a mile long. They had won fourteen straight games from such teams as the A. A. C., Kentucky State, and Centre. But the Tech men, fighting with their backs to the wall, played the best game of their career, and returned victors, 39 to 34. Another surprise was given the basketball world on the next Saturday night when the famous Mercer team was defeated by the close score of 33 to 27. Mercer was conceded by nearly everyone to be one of the best teams of the season, but this apparently did not affect Tech in the least, for they passed all around them and made the baskets count.

The next five games were all played away from home and all resulted disastrously. At times during these rather discouraging road games Tech played brilliant basketball, but inconsistency of play in nearly every case was the cause of her downfall. Chattanooga won the first, 41 to 29. B. A. C. won the second, 37 to 81. The Jackets staged a remarkable comeback in this game, scoring 26 points to Birmingham’s 10 in the last half, but even this spurt was not enough. The Alabama game on the following night was a thriller all the way through. Tech led most of the time, but some pretty shots in the last few seconds for Bama gave her the game by a 35 to 37 score. Mississippi proved to be the best team on the schedule and on the following night they won, 45 to 31, in a fast game. The game with Auburn on her own court the following week turned out to be a typical Auburn-Tech scrap, and it was not until the last minute that the outcome was known and they led, 29 to 26.

Tech entered the Southern tournament with these five losses staring them in the face. They were determined, however, to make up for them. Centre came first and was defeated in a fast game, 34 to 25. Tech’s superiority was again evident during the second encounter between these two schools.

And then came Georgia! Before the greatest crowd that has ever witnessed a basketball game in the South, Tech got revenge on her ancient rivals when she defeated them, 27 to 22. Georgia made a brave stand but was unable to hold the ravaging Tornado in check. The next game found Tech a little stale from her previous games. Mississippi A. & M., who won the championship the following night, defeated Tech in the semi-finals, 25 to 17.

A play-off for third place was won by Mercer the last night by the score of 30 to 26.

The next five games were all played away from home and all resulted disastrously. Southern Intercollegiate
Basketball Tournament

The third basketball tournament of the Southern colleges far surpassed the two earlier tournaments both in interest displayed and the brand of basketball offered the public. The teams began playing on Tuesday, February 27th, and did not complete the fight for the title until Saturday night, March 3rd. The interest in the games was augmented by the fact that the student bodies from Tech, Georgia, Chattanooga, and Mercer were present at one or more games, and thus added to the high pitch of excitement over the outcome.

Of course, from a Tech standpoint, the victory over Georgia on Thursday night was the outstanding feature of the tournament. The end of the first half found Tech leading by nine points, and though Georgia put up a much better brand of ball in the second half this lead was far too much to be overcome. This victory put Tech in the semi-finals for the third time in as many tournaments.

Welker, G. W.
Welker, T. A.
Waller, L.
Wynott, D.
The second Tech Freshman basketball season marked the development of the best new material which has ever come on the campus. The 1923 Freshman team showed all the earmarks of top-notchers who will furnish stiff competition for places on next year's varsity before the final selection of berth takes place. Before the season ended the yearling five were passing, running the floor and finding the basket with a smoothness and ease worthy of any varsity, and many were the games with the varsity which were in doubt until the whistle ended the contest.

The season began with Riverside, ran through a gauntlet of everything in sight which offered competition, and ended with a game at West Point where the Athletic Club quintet offered the stiffest opposition of the season. Not a game was lost which was scheduled, in most cases the Freshmen winning by a very comfortable margin.

The first game on tap was a scheduled tilt with the Riverside five at their gymnasium. The court was small and awkward to the green jersey boys, but they returned the victors with a 23 to 11 score.

The following week Griffin was met on their court, a low ceiling affair with pillars and obstructions adorning the boundaries. After a rough battle in restricted quarters, the Frosh journeyed back through the country with a 10 to 7 win.

Gordon was defeated the next Saturday on the foreign court by a 32 to 23 margin. This was the first good court the Freshmen had encountered away from home. The Gordon quintet had a good team, holding the yearling five pretty well in hand during an exciting game.

The green-jerseyed youngsters took the measure of the Georgia Military Academy cage-men with ease on a local court the following week-end. It was pretty much a walkaway for the youngsters, G. M. C. being able to cage 16 points to the Freshmen 36.

The next game on a local court proved to be a good contest for the Freshmen when Riverside turned loose everything they had learned in preparation for the game. After a fast and rough contest, the first year five emerged with a 34 to 26 victory.

The Gordon five which invaded our district the following week suffered a much worse beating than they received on their own court, the Freshmen coming through with an easy 32 to 13 win.

The toughest game of the season came the next Saturday night when the yearling quintet played G. M. C. on the court where they had not been defeated for three years. The score does not indicate the closeness of the game, but the final count brought joy to the Frosh when a 33 to 18 score was returned in their favor.

The last game came as a contest with the best team met during the season. The West Point Athletic Club had held Auburn to a one point win and the Tech boys were expecting a tough proposition. At the end of the first half the local boys were leading by a margin of 13 points, so the scrubs finished the encounter to a 31-19 conclusion.

The season was highly successful; all won and none lost; so it is only fair to predict that such men as Wycoff, Draper, King, Barron, Marshall, Wilder and Reeves will appear as stars of future varsity cage contests.

Review of 1922 Baseball Season

Tech has won so many Southern championships of late that she hardly considers the season a successful one unless the S. I. A. A. banner comes into her possession. The baseball team of 1922 did not run away with every opposing team but it certainly came through with a fine record. Of the twenty-five games played, fourteen were won and eleven lost. Of these last, two were to the Detroit Americans, two to Georgetown (national collegiate champions), and two to Auburn and Washington and Lee; while Tennessee, Harvard, and Oglethorpe got one apiece. Auburn, Tennessee, Washington and Lee, and Oglethorpe, all fell before the Jackets at other times. Victories over the Naval Academy, University of Maryland, Clemson and Mercer complete the list.

The season opened with Ty Cobb's Detroit Tigers on Grant Field. Tech made a great showing for a college team, but the hard-hitting big leaguers triumphed in both games—4 to 2, and 7 to 4. The following week the team came back and routed Clemson, 8 to 4, and 6 to 2. The first game with Auburn was rained out and in the second they managed to pile up a lead of seven runs in two innings, yet the Jackets missed tying them by one run. This last was a thriller, being a pitchers' battle between Tige Stone and Harry Allison, Palmismo's home run decided the contest. The games in Auburn were split. After losing the first, 8 to 3, Tech won the second, 5 to 4. Poor headwork on the bases lost the game to Harvard, 4 to 3, although the easterners were outhit.

This last was a thriller, being a pitchers' battle between Tige Stone and Harry Allison. Tech won the first, 8 to 5. Tech won the second, 5 to 4. Poor headwork on the bases lost the game to Harvard, 4 to 3, although the easterners were outhit.

Returning home, the Yellow Jackets downed the University of Tennessee twice, the scores being 3 to 2, and 6 to 2. The next week Tech split another series with Washington and Lee, losing one, 3 to 2, and winning the other, 8 to 6. The final games with Oglethorpe proved nothing less than batting fests for both teams. Tech won the first, 10 to 2, but Oglethorpe came back in the second and won a 6 to 3 victory. The third and final contest went to Tech by the one-sided score of 13 to 6.

To Captain Red Barron are due most of the honors for the season. Red finished his last year of baseball at the top of the list in hitting, in stolen bases, and in runs scored. Sun Ingram also finished his career in a splendid way, being second to Red in each of these departments of the game.

Review of the 1922 Freshman Baseball Season

The Freshman baseball team of 1922 came through a stiff schedule against some of the best prep teams of the state by winning seven games, losing four, and tying one. This gives them an average of .636 for the season.

The initial game of the season was scheduled with G. M. A., but was prevented by King Jupiter Pluvius. The first game to be played was with the team from the Federal Penitentiary, the Freshman returning with an 8-3 victory. This game gave promise of a hard hitting team and it was with high hopes that the team journeyed to Milledgeville to play the strong G. M. C. team.

However, the G. M. C. team was altogether too strong for the "Rats". The Tech team had bitten off more than it could chew for such an early period of the season. G. M. C. had little difficulty in piling up a 15-3 score on the Jackets. The next day they repeated with a 5-0 victory, completely baffling all attempts of the Freshman batters to score.

This series was marred by the tragic and fatal accident to the G. M. C. shortstop, Davenport. During the game he and the centerfielder ran together in an attempt to field a fly ball. He died a few days later from concussion of the brain resulting from the collision.

The next series was with the Monroe Aggies, the first game resulting in a 8-6 tie. This game was a hard fought affair, neither team being able to hit at the end of the game well enough to put across a winning run. The next day's game was rained out.

Then came the series with Gordon Institute, which resulted in an even split, Gordon winning the first one, 3-1, and Tech the second one, 8-3. These two games were well played, the first game being the better of the two, though not from a Tech standpoint.

G. M. C. came to Atlanta for a return engagement, and once more defeated the Jacket team, this time by the score of 4-2. However, the next day the team had their batting eyes working better, and finally took the counts into camp with an 8-4 victory. This game marked the beginning of a winning streak that lasted throughout the remainder of the season.

Riverside was the last team to meet the Rat team, the two playing four games, two here and two on Riverside's diamond. Tech won the first game, 5-4, and the second, 6-4. These games were much closer than the last two games, which were played in Atlanta. The Freshman team won the last two games, 4-1, and 7-2, and thus closed with victory a season that started out rather discouragingly.

The season served to train several men for the varsity of 1923, since the 1922 team lost its entire outfield. The team worked hard all through the season, each man realizing his opportunity during the coming season. This probably improved the general character of their playing as much as anything.

CAPTAIN: HENRY GRANGER
Review of the 1922 Track Season

The 1922 Track season was by far the most successful that we have had in quite a number of years, the team winning the Georgia State Championship, the Southeastern Amateur Athletic Union Championship, the dual meet with Sewanee, and the triangle meet with Auburn and Clemson. In the Birmingham Athletic Club meet Tech placed second, losing only to Mississippi Agricultural and Mechanical College. Tech scored 80½ points in this meet, capturing the second place and defeating twelve other colleges.

In accomplishing the above record under the coaching of George Griffin, with little outside assistance, the team should feel justly proud, as it is the first time Tech has made a showing on the cinder path for some few years in keeping with her high standards in other branches of athletics. A. & M., with its usual group of stellar track men, seemed to be the only stumbling block of the season, the remainder of the meets going to us by comfortable margins.

It was a slightly brisk, sunny day which burst upon us on April 3rd, the date set for the annual field day. About half of the school turned out in uniform for the various events, and the remainder stood in the stands or aided in running the various events.

Whelchel broke all standing southern records for the javelin throw, hurling the shaft for 178 feet and 5 inches. The school record for the two-mile run was lowered to 10 minutes and 28 seconds by Calhoun. Pratt Rather tied the school record for the 220-yard low hurdles, running them in the excellent time of 25 and 4-5 seconds. Red Barron tied the 100-yard dash record of 10 seconds flat. Anderson tied the 220-yard dash record of 22 and 2-5 seconds. Red Barron tied the high hurdles and a tie for first place in the pole vault.

In accomplishing the above record under the coaching of George Griffin, with little outside assistance, the team should feel justly proud, as it is the first time Tech has made a showing on the cinder path for some few years in keeping with her high standards in other branches of athletics. A. & M., with its usual group of stellar track men, seemed to be the only stumbling block of the season, the remainder of the meets going to us by comfortable margins.

The meet with Sewanee was quite easily captured by a score of 80 to 32. The only events won by Sewanee being the high hurdles and a tie for first place in the pole vault.

The Southeastern Amateur Athletic Union Meet

Grant Field, Monday, May 22, 1922

Georgia Tech, 63; Georgia, 59; Oglethorpe, 47; Emory, 27; Atlanta Athletic Club, 16; Birmingham Athletic Club, 10; Alabama, 7; Clemson, 6; Auburn, 6; Atlanta Athletic Club, 6; Carrollton High, 3; Tech Freshman Team, 2.

The Birmingham Road Race

The annual road race held at Birmingham, Alabama, on December 10th, 1922, was just one more opportunity for Tech to show her supremacy in Southern athletic circles. Ellsworth Richter, the great marathon runner of the Birmingham Athletic Club, won the race again, breaking the course record for the third consecutive time. His new record was 15 minutes, 47-1-5 seconds for the three-mile course.

Although Daves, the first Tech man to finish, failed to cross the line until four others had completed the course, the entire Tech team came in so close together that in team points Georgia Tech led the entire field. The other Tech men who counted for points were Moore, 8th; Mitchell, 10th; Cooper, 19th; and Roberts, 20th. Barton, the other Tech entrant, finished 21st, but did not count for points, as only the first five were counted. This showing was indeed remarkable, and with four and possibly five returning next year, Tech should be able to again win this event next December.

Alabama, 117
Birmingham-Southern, 117
The Cross-Country Run of 1923

A gully-washer blew out of the north all day and part of the night preceding the Saturday of March 17th, the day set for the annual cross-country. About eight o'clock the old sun looked moodily out of the mist and clouds and gradually took on somewhat painful smile. The three and a half mile course was very heavy, and the day was quite cool, but seven hundred thinly clad cake contestants romped around the starting line at two-thirty, and the race literally started with a bang from one of the salute guns of the military department.

As usual there was a wild race among those who aspired to be first out of the gate, but the course soon marked a thin long line strung out for a quarter of a mile, while the ones who ran the fastest two-twenty to the gate dropped out. Such a varied collection of garb is never seen in one spot as appears for the starting gun on Grant Field each year. Everything from golf shoes to the old man's night shirt served to guard the runners from the effects of high speed competition over the course.

The first man to break through the gate was Lindsay Roberts, who finished far in front of his nearest competitor. R. L. Cooper and H. P. Barton finished second and third. Roberts received the finest cake, a cross-country "T", and a gold medal. Cooper received a big cake and a silver medal, while Barton won a bronze medal.

THE SCHOOL TOURNAMENT

The annual school tournament was full of unexpected upsets. Blake and Williamson, who had just previously won the Southern championship in both singles and doubles, were both eliminated early in the singles, and lost the finals in doubles to McIver and Matheson. From a field of about forty men the singles narrowed down to McIver, Matheson, Smith, and Williamson. The first two had a royal battle which took two days to decide, McIver finally winning, 5-7, 6-8, 6-3, 6-3, 6-1. The first day's play resulted in both men having two sets and the score standing 6-6 in the last, when it was decided to stop play on account of darkness. Smith won from Williamson by default, and then McIver defeated Smith in the finals in straight sets, 6-1, 6-1, 6-1.

In the doubles Williamson and Blake won the upper bracket by defeating Carnes and Wilson, 6-1, 6-1, 6-4, 6-1. Matheson and McIver won their semi-finals match by defeating Sliger and Regan, 6-1, 6-2, 6-1. In the finals McIver and Matheson won from Blake and Williamson, 6-1, 6-4, 6-4, 7-5. It was anybody's match all the way through, as the score plainly indicates. The school tournament was just the thing needed to round off the rough edges in preparation for an unusually successful season.
Review of the 1922 Tennis Season

Tech attempted a complete tennis schedule last year for the first time in the history of tennis at the school. Matches were played with Camp Benning and North Carolina; teams represented Tech in the Georgia State and Southern tournaments; and there was also the annual school tournament. The team, composed of Blake, Williamson, McIver, and Matheson, won every one of these meets except the one with North Carolina, conceded one of the best teams in the country.

Practice began about the middle of March on the East Lake courts at the East Lake Country Club. Due to afternoon classes and the time required to ride to the club, the men were never able to get in the very best of condition. Despite these handicaps, however, a very creditable team was formed, as the results given below will indicate.

TECH, 5—CAMP BENNING, 1
Tech met Camp Benning in Atlanta on April 15th, and had little trouble in defeating them. Blake came back after losing his first set to Switzer, and won, 2-6, 6-0, 6-2. Williamson won handily from Whittamore, 6-2, 6-4; as did McIver from Perwein, 6-2, 6-4. Matheson was defeated by Gordon, 7-5, 6-3. Tech took both of the doubles matches when Blake and Williamson defeated Switzer and Whittamore, 6-2, 6-1; and Matheson and McIver won their match over Perwein and Gordon, 6-4, 6-4, 6-8.

TECH, 4—CAMP BENNING, 3
The following week the team journeyed down to Columbus to play the soldiers a return match. It required an extra doubles match to decide the winner this time, but Tech managed to win out after falling behind. Blake again won his match from Switzer, 6-4, 6-4, while McIver was downing Perwein for the second time, 6-2, 6-4. Williamson and Matheson were defeated in their singles match, the former by a 6-2, 6-4 score, and the latter by a 6-4, 6-3, 6-0. Williamson and Blake also lost their doubles match, 6-4, 6-4, but Matheson and McIver won theirs in a strenuous match, 13-11, 5-7, and 6-8, which evened up the count. In the play-off Blake and Williamson got revenge over Switzer and Whittamore when they defeated them, 6-4, 6-4, 6-1.

NORTH CAROLINA, 5—TECH, 1
North Carolina proved to be a little too large a dose for the Yellow Jackets. Tech, however, put up a better fight than the score indicates. Blake, Tech's number one, defeated T. Coxe, 6-8, 6-2 and 9-7. Williamson lost to W. Coxe, 6-2, 8-6. McIver had a very close match with R. A. Johnston (formerly of Tech). It took the North Carolinian three hard sets to win, but he finally emerged victor, 6-10, 9-7, 7-5. Matheson lost to Bruton, 6-4, 6-8. North Carolina then won both doubles matches in the afternoon.

GEORGIA STATE TOURNAMENT
This meet was arranged in conjunction with the annual state track meet held every year at Emory. Simpson, of Emory, defeated Blake, of Tech, in the finals, 9-7, 8-6, 6-2, 6-0, after Blake had won from Gordy, of Oglethorpe, in straight sets. Williamson and McIver upheld Tech when they defeated Silver and Krauffman, of Emory, in the finals, 6-4, 6-4, 6-4, after they had defeated the Oglethorpe entries.

SOUTHERN TOURNAMENT
Tech's team, composed of Blake and Williamson, walked away with the Southern championship in both singles and doubles from an excellent field of men. Blake won the finals from the Tulane entry, and Williamson and Blake won the doubles from the Georgia team. As a result of their fine work these two men were awarded cups and "T"'s.

At the instigation of the Anak Society, the Student Council was nominated, elected, and accepted by the Faculty for duties embodying all of the constitution of the former Honor Court, and, in addition, everything in connection with any activity of the campus. It was understood that they were to have full powers of trial and judgment in case of any infraction of the school regulations regarding honor or conduct. They were also to act as an official body through which the student could appeal in case of dispute with the Faculty. The Faculty retains the power, however, of finally deciding any question in dispute.

This organization is a distinct step forward on our campus, and no doubt will be productive of much good in the future. Its greatest advantage over the old system lies in the fact that the Faculty now has the opportunity of easily examining a question from the students' viewpoint.

It is no small honor to serve on the Council, and the men who are members richly deserve the honor, having proven the worth of their judgment many times during the years they have been with us.

History of the Technique

Prior to 1912 there was no well organized newspaper of any kind at Georgia Tech. There had been a publication in the first few years of the school's existence, but it was short-lived, and we know very little of it today. In later years students managed the publication of the Yellow Jacket, which appeared as a periodical for a short time. Efforts on the part of the student body to perpetuate this paper were sporadic and ineffective. The need for a newspaper was realized, but the organization was lacking.

In the spring of 1912 Gene Turner began the publication of a weekly paper known as the Technique, having gained the support of enough students and sufficient backing from the school authorities to enable him to put out a few issues that year. However, it was too late in the school year to accomplish very much, but he returned to school the following year fired with the ambition to keep this paper going on a business-like basis. During the following year the paper was printed successfully, with Turner as Editor, and subscription was made compulsory to the students, the subscription price being made a part of their fees.

Each year after this has seen great improvement in the style and business management of the Technique, until it has come to us in its present form, "The South's Liveliest College Weekly" in point of news, and an independent organization from a business standpoint.

The ideal of the editors is and has ever been to keep the student body fully informed of all happenings on the campus and to promote and encourage all measures tending toward the betterment of the school as a whole and the students individually.
The Yellow Jacket

In the fall of 1920 the first edition of a humorous monthly publication was accomplished. It met with only limited success. The promised second number never materialized, but the student body was informed that the following fall would see the edition of a new comic publication to be known as "The Yellow Jacket".

Late in the fall of 1921 the first number of "The Yellow Jacket" made its appearance on the campus and met with great success, considering the fact that the staff had little support from the student body at the start of the school year. The first staff deserves a great deal of credit for its work during those trying times.

Starting work this year with renewed confidence, the staff has produced a paper that is making a name for itself among college humorous sheets. Its circulation at the present time is over two thousand copies per month. This phenomenal growth is only more remarkable when one takes into consideration the fact that the magazine is only two years old.

The members of the staff have worked unceasingly, and the fact that their work has been crowned with success is its own reward. The versatility of Tech's humorists is the joy of the entire student body. Attention has been drawn to the Art work, which is, with other features, entirely original. The magazine is well balanced with bubbling wit, humor, drawings, and illustrations full of life in all its movements of joy and sorrow known to the college man.

The Function of Pi Delta Epsilon

The Georgia Tech Chapter of the Pi Delta Epsilon National Honorary Journalism Fraternity was installed in June, 1922, some years after a charter had been granted to the former Scribblers' Society. It immediately began to take an active part in promoting the efficiency of Tech's campus publications, and in the following months did much good work in that way.

Although the co-ordination of the campus publications was a worthy object, a much more vital and immediate need for its service became apparent to the chapter. The school has for years labored under heavy disadvantages due to lack of funds to provide for equipment and maintenance. Despite the obstacles which confronted her, Tech has accomplished work equal to that of the most generously endowed institutions of its kind. Appreciation for this work has been shown by engineering firms and the corporations who hired graduates, but not in a material way by the people who have been most benefited by the training of their sons. To acquaint these people with the facts about Tech, and to enlist their support in obtaining finances for the school became one of the prime objects of the Tech chapter of Pi Delta Epsilon.

Since the fraternity took up the publicity work, news letters have been sent to the home town paper of every Tech man who has distinguished himself at school, explaining the honor and its connection with the training which he is receiving at school. Religious influences, the academic work, physical training, military activities; in fact, all of the many vital phases of Tech life have had their proportionate parts in the publicity broadened in this manner.

The needs of the school have been mentioned in connection with the wonderful progress which Tech has made with the inadequate equipment available, urging that the school be enabled to continue and expand the work which is a potential basis for industrial development in Georgia. Tech is being put before the public in its true light, and it is waiting for their judgment as to whether it shall be assisted in its single-handed fight to develop Georgia's industrial youth or be left without adequate support in the great undertaking for which it has so well demonstrated its fitness.

Around this as a prime object are grouped other activities of the fraternity. Ways and means of bettering the publications are the subject of much instructive discourse at the weekly meetings. The proper co-ordination so as to produce in the most efficient manner a combination of the publications which give publicity, the news, humor, and the history of the school is ever the goal toward which the fraternity aims. The power of the writers of the past ages has been one of the most uplifting influences toward the development of the present civilization. It has been the power of a few strong men with the ability to think for the masses and record their thoughts in readable form which has led from darkness to the light of the present day and is ever leading toward the radiance of the future. To so present the news of what the men of today are doing that we all may catch the spirit of an eternal striving for that which is for the common good, and so lead that each "thought may be a stepping stone to higher things" is the ideal toward which all of our journalistic endeavors are directed.

Pledged to the cause of Tech's development as far as it is possible to carry it on through the proper publicity, the chapter this year set out on its large but far-reaching task. May it, with the full co-operation of the students, alumni, and faculty, realize a complete fulfillment of the success which now promises to reward its efforts.

The Orchestra
THE 1923 season started off with a stellar performance at Washington Seminary. The feminine inmates accorded an enthusiastic hand during the performance and a reception afterwards which was quite the best we have had in years. After singing the last few numbers at the Frat we journeyed homeward to the world.

Agnes Scott was the scene of the next scrimmage before an audience composed of everything from mullet feminine hearts to blase Atlanta business men. Old Rebecca Scott rang to the noise of singing, music, laughter, and screams before the curtain fell on the last chorus and the varsity went out to shake hands around.

The heavy Bandoline Buzzards sailed through stormy weather to a tea-hound paradise in Gainesville on the campus of old Brenau. This was the first good stage they had encountered, and the old spirit put the performance over in fine style despite the weather conditions. The girls and boys had a reception arranged for us following the song, the Brenau Follies and the Georgia Tech Glee Club entertaining one another in pairs.

Shorter, in Rome, was next scheduled the week previous to the trip to Elberton, Spirit's home town. We were received the best possible at both places. At Elberton Spirit surpassed himself before the admiring eyes of the fair sex from his native heath, bringing rounds of applause at every appearance.

Then came the big trip from April 16th to April 22nd. Columbus, Albany, Tifton, Valdosta, Savannah and Macon were played in probably the best road trip the Club will have for some time to come. It would take a volume to relate everything that happened on the trains, at the hotels, on the stage, and at the receptions, dinner parties, and dances. The Club enjoyed a great trip to the fullest extent. Something hilarious was eternally happening on every and all occasions similar to the time Hauenstein pulled two bricks out of his suitcase during a performance, and the old spirit put the performance over in fine style despite the weather encountered, and the old spirit put the performance over in fine style despite the weather.

The review of the season might well be appended by an appreciation for the work of the Club officers. Old Intyre, and Garden and Bryson were universally received as top-notch comedians on every program. The instrumental club, though smaller than usual, played numbers in a manner far superior to anything ever produced in the school before. The chorus were the numbers on the program showing the greatest improvement over former years, the Club officers receiving compliments on these parts of the program at every performance. The ability of the Yellow Jacket Four to weave their selections of the melodious, the old, the new, the sly, and the modern in music into a harmonious whole won them repeated applause at every appearance. The sentimental trio felt nothing short of what their names imply, harmonious melodies flowing from the three instruments in such a crescendo that they impressed their audience to a quite silence. Last, but in no sense least, might be added the most uproarious comedy staged by a Glee Club in Georgia. The boys in "The Horse On The Far Bloom Rose" brought down peals of laughter from every audience before which they played.

Taken all in all the 1923 season was the best yet attempted.

The Marionettes during the past year have added to their well-deserved laurels of previous seasons by their presentation of three plays, "Under Cover", "Sneezer et Cleopatrick" and "Officer 666".

"Under Cover" was offered to the public in the spring of 1922. This well-known play was staged at the Atlanta Theatre before a large and appreciative audience, and was unusually successful. Joe Duckworth and Harry Ellerbe obtained the majority of the applause, the latter appearing in one of his unsurpassable feminine roles. Others who contributed to the success of the play included Russell Stokes, Louis Pitts, Robert Dunwoody, Charlie Northern, and Nisbet Marye.

The spring of 1922 also marked the presentation of "Sneezer et Cleopatrick", the first play to be written and staged entirely by Tech students. The author of the play was Harry Ellerbe, who also directed the production of the play. This play was an inimitable farce and kept the audience in gales of laughter throughout the entire performance. In this play Roderick Brantley, as Cleopatrick; George Ramey, as a dancer, and I. H. Granath, as Sneezer, gave performances that were frequently encored by the audience.

The fall of 1922 marked the first attempt of the Marionettes to produce an autumn as well as a spring play. The play finally adopted by them was the melodramatic farce, "Officer 666". This play was welcomed by all who were fortunate enough to hear it, and met with such success that it later was taken on a two-day road trip to Barnesville and Griffin. Several new men were introduced to the audience, the best being Bert MacIntyre, Frank Griggs, and William Ware. As usual, Harry Ellerbe carried off the majority of the applause as Mrs. Burton, the watchful aunt.

Honorary Organizations at Georgia Tech

It is only just that a man who has bent his time and energy toward the betterment of Georgia Tech should be rewarded for his labors. For the purpose of according a man the recognition he has earned in some form of school activity, the honorary societies have been instituted. For almost every type of activity there is an honorary organization, whose membership comprises those who have done the most and the best in that phase of college life. Among the most prominent of those at Tech are: Phi Kappa Phi, Scabbard and Blade, Pi Delta Epsilon, Anak, Koseme, Bull Dog, Skull and Key, Alpha Kappa Psi, Delta Sigma Pi.

Membership in Phi Kappa Phi is the highest honor that may be attained at Tech. Qualifications are excellence in scholarship as well as participation in the activities of the school. For the underclassman Phi Kappa Phi stands out as emblematic of a successful college career and is the incentive for three years of hard work. Elections are held at the beginning of the Senior year, and 10 per cent of the Senior class are eligible.

Military training has assumed an important part among the departments at Tech. In 1921 the Scabbard and Blade, national military fraternity, established a chapter at this institution. Its membership is a reward for proficiency in the performance of military duties, and it has been of material assistance in making Georgia Tech one of the Distinguished Colleges of the United States.

For a great many years work on the publications went unnoticed. The Scribblers' Club marked the first attempt at recognition. In 1922 a charter was obtained from Pi Delta Epsilon, a national collegiate journalism fraternity. Membership is limited to those who have successfully completed two years' work on the publications and is the goal of the literary men in the school.

The Anak Society is actually the most powerful society on the campus. Its membership includes twelve Seniors, who, by their work in athletics and other activities, have helped to build up a Greater Georgia Tech. All of the details of Commencement are handled by the Anaks, a society which has been on the campus since 1908.

The Koseme Society is a Junior organization, each year sixteen Juniors being elected to its ranks. This society handles the cross-country and the annual field day, and is at all times working for the good of Tech.

The Bull Dog is one of the oldest societies at Tech, having been founded in 1910. It is a social organization and has a membership of eighteen Juniors and Seniors.

The Skull and Key is the society of the Sophomore Class and has been in existence since 1916. Twenty of the outstanding Sophomores are elected each year to membership in this society.

Alpha Kappa Psi and Delta Sigma Pi are honorary commercial fraternities. Those men in the Commerce Department whose efforts have been outstanding both in activities as well as scholarship are elected to membership in one or the other of these fraternities, both of which are national organizations.

Off To Blue Ridge

To the land of the skies, where the hills ride high,
And each peak wears its midnight crown:
Where the dead old day has been laid away
With a moonlit sky for a shroud:
Where the high noon's glare and the crisp night air
Are a medicine chest for health;
And the golden glow as the sun sinks low
Is God's treasury house of wealth;
I'm off for a week and a few more days
To the student world of the South.
Invention time that in character pays.
With a soulful song in my mouth.

Thus sang a lad, yes, an undergrad,
As he ended his finals in May,
When his dusty books with their threatening looks
Were joyfully laid away.

What we really need, and will have, indeed,
Is a chorus of men who will shout it,
And hike for the hills that cure your ills,
And cut loose and mean business about it.

To work and to live, to play and to give
While the best of our life is before us,
From the roof of the earth where life proves its worth
We can sing in the conference chorus.

MAJOR A. L. PENDLETON, JR., C. A. C., D. O. L.
Commandant

It has been due to the efficiency, ability, and untiring efforts of Major Pendleton that our Military Department has grown to the splendid organization which it now is. Starting with some eight hundred men principally enrolled in the basic courses of three units four years ago, he has built an efficient organization of some fourteen hundred cadets, four hundred of which are Juniors and Seniors taking advanced work in six units which have a record of two successive years as a distinguished college. Besides his unusual ability as an executive, Major Pendleton has built for himself an enviable position in the hearts of all those with whom he has come in contact as a gentleman, lover of our Alma Mater, and a kind friend, and it is with sadness that we hear he is to leave our campus, where he has won the respect and admiration of all.

The National Significance of the R. O. T. C.

The ultimate aim of all collegiate training is good citizenship. The Reserve Officers Training Corps is an integral part of the scholastic organization on a par with the English and Mathematics Departments, and in the complex make-up of the modern school there is probably no one element more conducive to good citizenship. To catalogue the advantages of the R. O. T. C. would be to catalogue the advantages of education. We may, however, consider some of the more significant features.

The R. O. T. C. will add to the educational resources of schools and colleges and will give to the student a training which will be as valuable to him in his industrial or professional career as it would be should the nation call upon him to act as a leader in its defensive forces. He is taught that the base line which he finds, in artillery work, to be of prime importance, is just as important in any other precise surveying and that the methods of procedure are identical. The same mechanical principles which are employed in government trucks and tractors are applied to all internal combustion engines. The electrical training derived from the signal corps is of vast importance in commercial life of today. Personal hygiene and sanitation are of equal value to soldier and civilian. The United States army offers an on duty with the R. O. T. C. are not only most thorough gentlemen personally, but are highly skilled technicians as well, thus making themselves of inestimable value as a supplementary faculty.

The R. O. T. C. effects a marked saving in the personal expenses of the student as well as in the case of his school. The equipment furnished by the Government provides better facilities for academic instruction and enables students to do more thorough research and experimental work at no increased cost to the school. The uniform, which is supplied the student gratis, constitutes a most attractive, serviceable and economic form of dress for school wear. The fact that he is in distinctive dress forces on him the realization that he is more than an individual—he is part of a student body, the reputation of which is degraded or exalted by his every act. He feels a duty toward every man in the same uniform, and this sense of responsibility is one of the fundamentals of our Government. The pay given to advanced students is of surprising assistance, particularly to the deserving student who is paying his way through school.

Effort along any legitimate line is commendable and deserving of reward. There now exists in thirty of the leading R. O. T. C. schools of the country an honorary military fraternity approved of by the War Department and known as the Scabbard and Blade. This fraternity aims to develop, preserve and reward the essential qualities of good and efficient officers and to unite into a closer relationship the military departments of other schools. It bears the same relation to military excellence that Phi Beta Kappa and Phi Kappa bear to academic work, and membership in it is equally exclusive and esteemed.

The military pursued by our Government is based eventually upon the judgment of the people as a whole, and for that judgment to be sound, there must be a more wide-spread knowledge of military history, customs and policy. Much can be accomplished through stimulation of interest at centers of learning. It is difficult to feel patriotism for a country if one is not acquainted with the operation of its military system. Many people are still of
the opinion that military training consists solely of saluting, drilling and calisthenics. These are but a few of the means to a noble end. The military aim of the system is to supply the regular and reserve army with officers, capable of quick, clear thinking, who shall have acquired the power of analysis and the faculty of concise, logical expression.

The summer camps, in addition to furnishing most beneficial recreation, serve to bring together men from different sections of the country, men different as to ideas, interests and aims. They are in the most impressionable period of their lives, and their associations at this time will tend strongly to promote sympathy and to combat any tendency toward sectionalism. This six weeks of travel and the new associations are worth a year at college.

The estimate of a man in the military system is typically democratic and typically American. There is no consideration of family, of connections, of of estate; he stands naked before his judges to be rewarded for his individual merit and qualifications. He has learned that his own are the only feet upon which he can stand. The rivalry for appointment as cadet officers gives the student a taste of the competition that shall hold the scales of achievement when he shall have taken his place in the ranks of the army of world citizenship!

The benefits of military training to the physical man need no discussion. Its importance as mental discipline has been shown. Of more value than either of these is the character training. Through the working of the system and by the association and example of his instructors he becomes honorable, up-standing and self-reliant. There are cultivated in him attributes of character that will be equally beneficial to him whether his forte be drawing or digging ditches. Military tactics and athletics bring to him a regard for the rights of others, magnanimity for his opponent, and the sense of the importance of team-work and co-operation. He appreciates the observance of rules in everything; he has found that it is not the winning of the game, but how the game is played!

Is it not significant that the insignia of the Reserve Officers' Training Corps is the hand of the Statue of Liberty bearing aloft the resplendent Torch of Knowledge?
Calendar of the 1922 Commencement

JUNE 8TH—JUNE 13TH

THURSDAY FROM EARLY MORN
House party guests arrive in

THURSDAY AFTERTN
Exams finished: A shave, a shine, and a hair-cut
(Pran tic celebration meanwhile)

THURSDAY EVENING
Junior Prom at Brookhaven

FRIDAY, VERY A.M.
A race to town, and—"sweet dreams, ladies!"

FRIDAY, SLIGHTLY P.M.
Festivities at house parties

FRIDAY EVENING
Senior Hop at Brookhaven

SATURDAY, EXTREMELY A.M.
Repeat of Friday, very A.M.

SATURDAY AFTERNOON
Bridge parties at the fraternity houses

SATURDAY EVENING
Senior Farewell Banquet; Sophomore American at Brookhaven

SUNDAY MORNING
Baccalaureate sermon by Dr. C. J. Harrell

SUNDAY AFTERNOON AND EVENING
Bridge parties at the fraternity houses

MONDAY MORNING
Commencement Exercises on the Campus

MONDAY AFTERNOON
Prepared to throw the Last One

MONDAY EVENING
Pan-Hellenic Costume Dance at Brookhaven

MONDAY AT MIDNIGHT
Midnight Luncheon at Brookhaven

TUESDAY MORNING AT SEVEN
It just simply couldn't last forever

TUESDAY NOON
"All's well that ends well"

Thirty-Third Annual Commencement

MONDAY, JUNE 12, 1922
10:00 A.M.

PROCSSIONAL

INVOCATION
Dr. D. P. McGeachy

INTRODUCTORY
Nathaniel Palmer Pratt
(Administrative Executive)

COMMENCEMENT ADDRESS
The Hon. Thomas W. Hardwick
Governor of Georgia

MUSIC

ADDRESS TO GRADUATES
Chancellor Barrow

CLOSING ADDRESS TO GRADUATES
Hon. N. E. Harris

Valedictory Address
Albert Hammond Staton
"The Technical Spirit"

AWARDING OF PRIZES
Willis A. Sutton
Superintendent of Atlanta Schools

The Walter P. Andrews Oratorical Medal
The Scottish Rite Essay Medal
Scholarship Gold T's
Scholarship Gold Key

CONFERRING OF DEGREES, CERTIFICATES AND COMMISSIONS IN THE RESERVE OFFICERS' TRAINING CORPS
Dr. Kenneth Gordon Matheson
Junior Prom

An important event in the life of the Junior, an occasion never to be forgotten, was the Junior Prom of 1922, held on Thursday evening of Commencement week. It was the Junior party; ushering in as it did the commencement season of festivity, it must needs be the equal of anything to follow. The opening event must set the pace. The season of class dances and Pan-Hellenic was to be one of unprecedented gaiety, so no pains were spared to make the first dance the standard by which they all were judged.

Brookhaven Country Club, the scene of so many of the most delightful affairs of the preceding year, was chosen as the most appropriate setting for the dances composing the finale of the social season. Brilliantly lighted, and filled to capacity with happy, dancing couples, it presented a festal scene unparalleled for many moons.

As the evening progressed and the merry-making reached its height, the moments sped by all too quickly for the happy dancers. Whether one was dancing or strolling by the lake in the light of a resplendent moon, the hands of the clock seemed to have wings. The night was one of those rare concoctions of nature in which the hand of Providence has seemingly interwoven that most beautiful and soothing to make one shed his cloak of care and face the gentle breeze with a soft, exultant joy in stimulating life, the mere living of it. And when such a scene becomes but the background for one of fairer sex bespeaking all of that finesse of the Creator's hand in every graceful move and gracious speech delicately portraying her cast into a finer mold, the inspiring influence felt since time immemorial, is it any wonder that carefree youth could not be denied; one that had been anticipated with joy, and now that it had actually transpired, all thoughts of worldly things passed into oblivion, leaving only that exhilarant joy to those present that is only possible to carefree youth when dull care has been forgotten.

But the hour of three came all too soon. The musicians indicated quite plainly that they had completed their work and that the gay affair must come to an end. Encores and entreaties were to no avail; and a quick feeling of remorse that a rare flower of life was slipping into the garden of memories heralded the end of the dance. The only consolation lay in the fact that the other three dances were yet to come.

Senior Hop

Enthusiasm, joy and gladness, with perhaps a touch of sadness in the hearts of the Seniors, who had just completed the long, hard four-year struggle for the coveted diploma, were probably the most outstanding emotions on that memorable occasion of the Commencement week of 1922, "The Senior Hop."

Brookhaven Country Club was to be the "garden spot of the world" on that memorable night in June. Everyone was on hand promptly at 10 o'clock, when the orchestra appeared—and the orchestra, well, it was none other than those inimitable producers of gas—Garber-Davis—which prowess with wind and string instruments needs no further comment.

The evening was one of those glorious ones that can never be forgotten, the moon in its resplendent beauty, met its reflection in the depths of the dark waters, where the faint fragrance of the near flowers was wafted down by the gentle zephyrs from the shrubbery and woods. It was an evening when carefree youth could not be denied; one that had been anticipated with joy, and now that it had actually transpired, all thoughts of worldly things passed into oblivion, leaving only that exhilarant joy to those present that is only possible to carefree youth when dull care has been forgotten.

Revelry and merriment were at hand; joy reigned supreme in this pleasure-land of delight. At intermission happy couples strolled along the balconies and through the grounds, exuberantly exchanging greetings with one another. At one o'clock dancing was resumed, with the spirits of those present seeming to reach the highest point every minute, until everything seemed to exude the mad joy of living, old man fun was having the time of his life. Hours passed like seconds, and the world seemed to be attempting to crowd all the joy that it holds into a few short hours, making everyone so contageously happy that even the stars winked instead of twinkling, and the moon laughed instead of the mere customary beam.

But one's joys cannot remain indefinitely. The enthusiastic merriment and joy of youth, like all things, must eventually yield to the call of Father Time. The evening was drawing to a close. The dancers, seeming to realize this, put all their pep into every dance until the hour of two was reached by the steady hands of the clock. Again and again the orchestra was encored, but of no avail. The end was at hand. The tumult and the shouting died as those present at this long-remembered hop passed on their separate ways, forgetful of care, but ever retaining the memory of this, the most brilliant of all "Senior Hops."
Sophomore American

It was one of those nights when the full summer moon, casting its silvery glance through the fresh foliage and forming mystic shadows beneath the swaying branches, forces into equally somber shadow, the rarity of the June day; brushing aside with its gentle breezes, all thought of the glaring sun. After two such nights, during which the compelling strains of the saxophone and the clarinet, the laughter and song transcribed two periods of ecstasy, small wonder that the idea of a third should be more appealing than the hurried uncertainty of the customary tea dance. Thus it is the Sophomore American of 1922 was held on one of the most beautiful June nights in the history of this land of moonlight.

When the crowd, joyful in the anticipation of the evening, crowded up the steps at Garber's Hall, Jan Garber and his wonderful musicians had started the opening number of a program so filled with jazz that it left no doubt as to the orchestral supremacy of the South. Because of the alarming proximity of Sunday morning the dancing began earlier than those of the preceding evenings. As the excitement increased, the more seriously inclined couples found benches, secluded in the shadows. The sophomores, drinking in the realization that this collection of Southern pulchritude, unsurpassable in color and vivacity, was paying homage to the class of nineteen twenty-four, because the most prominent among the dancers. Seemingly tireless, they were the feature of an eventful evening. Too soon the company realized the coming of the Sabbath was upon them. In the midst of the revelry the striking of twelve brought a realization of the day of rest. In spite of a flurry of protest, the orchestra refused to continue, and the throng slowly and wearily broke up into groups and began the journey homeward. After the third successive night of the reign of King Jazz, who, though ruling in a state of revelry, is exacting in his toll of energy, everyone welcomed a chance to rest up for the even more strenuous affair, the climax of the social year, the Pan-Hellenic.

Thus the first Sophomore American ever held at night was a decided success and will live for a long time in the memories of those who were fortunate to attend. The moon, sinking lower in its zenith, but having lost none of its splendor, smiled down on the fruits of her handwork and gradually dropped behind a distant fringe of pines with a final gleam of satisfaction, marking the passage of a night that had established itself in the hearts of Tech men and those inimitable Southern girls.

The Pan-Hellenic

Never in the history of the school has a commencement season ended in such a blaze of glory as in nineteen-twenty-two at the Pan-Hellenic Masquerade Ball. The night fell out of a clear, blue sky, the silver stars came out, and that much-heralded Georgia Moon rose in all its glory. The happy throng, trouble thrown to the winds, began gathering at ten-thirty, with the determination to have one night of care-free enjoyment and good time before settling down to a long, dreary, tiresome summer.

Costumes! In that bevy of beauties representing every state in our union there were costumes ranging from the meek little Puritan to the Queen of Sheba, and from the chic little parlor maid to the blase bathing beauty. Among the masculine element there was everything from a street gamin to a Rear Admiral and from an Apache to Rameses the Second. The night sped on until supper was announced and the grand rush began for a place at the shrine of sustenance. The music was resumed at one-thirty and held full sway until the first grey streak of dawn appeared over the hills, and making its way across the lake, arrested the dancers in their mad whirl of pleasure. A short intermission was called for sandwiches and coffee. Then the fun began as the riot of color streaming from that glorious sun seemed to excite the already jubilant crowd to a frenzy. Some were inspired to give solo dances, which, if possible, further induced pep into the crowd. Everyone seemed filled with the desire to outshine everyone else on the dance floor.

Finally, after one last flurry, the tired orchestra melted into the strains of "Home, Sweet Home", and the weary throng sat down to breakfast as the sun's bright rays plainly spoke the passing of the most wonderful night to a place of honor in the garden of memories.
During the scholastic year of 1920-1921, Dr. K. G. Matheson and several prominent alumni of the school laid plans for the building of a Greater Georgia Tech, the schedule demanding an expenditure of several million dollars. The plan called for a state-wide tour of advertising and soliciting subscriptions on the strength of the untold value that Tech is constantly bringing the state in educated men. The school realized how badly handicapped it was in the matter of equipment and also knew that to make Georgia Tech truly useful, expansion must come.

The campaign resulted in the subscription of about two million dollars. Soon thereafter the money began coming in to the treasurer of the campaign, and building immediately began. Plans were drawn for a new physics structure, at that time the most urgent need of the school. The picture reproduced above shows the progress that has been made on this building. This edifice will be ready for occupation next September. The plans for a Greater Georgia Tech also embrace the establishment of new work on the Tech campus. Probably the most noteworthy example of this is the new ceramics department contemplated for a study of the utilization of Georgia's vast resources in clays. Several meetings were held in the spring of 1923 between the school authorities and prominent ceramic manufacturers of the state, at which plans were laid for the beginning of this work. Within the next year or so this new work will begin, and expansion of Georgia Tech will become a reality.
The National Alumni Association

The National Alumni Association of the Georgia School of Technology was organized in 1920 for the purpose of aiding the school in the Greater Georgia Tech Campaign which was then in progress. A group of alumni in New York were largely instrumental in its formation, Mr. H. B. Evans, Mr. L. E. Collier, Mr. P. C. Brooks and Mr. P. V. Stephens aiding materially with their time and money.

During the course of the campaign, the Association was very active, getting the names of about 2,500 of the former students of the school, and carrying on a good work in the organization of the local Tech clubs in the various large centers of the country. More than a score of these clubs were organized, about ten of them being in the state of Georgia, and the rest in the larger cities of the country.

After the heat of the campaign was over, the activities of the Association were carried on in a perfunctory way, due chiefly to the fact that there was no paid secretary, and the progress of the Association depended on the spare time of some busy men.

Mr. Frank Freeman was elected president of the Association in the summer of 1921. He at once set to work to try to make the Association of vital interest both to the Alumni and the School. Mr. Hugh Bell was employed in the spring of 1922 as Secretary, and held the position until August of that year, when he left the Association to go into other work.

Albert H. Staton was appointed Secretary in August, 1922, and a meeting of the Atlanta Alumni was held, in which a number of Alumni agreed to stand the expenses of a thorough reorganization of the office work, and if possible the publication of a magazine. In August, the office consisted of two chairs and a typewriter presented by Mr. Freeman. Now the Association has a well equipped office, the names and present addresses of 3691 of the former students, with a complete addressograph file of them. The publication of the magazine was begun with the March issue, and the Association is assured of the remainder of this year. The outcome of the work for the school year 1923-24 depends solely on the support given the Association by the Alumni.

We left for the seashore when we received the above picture of our sponsors. A man is only so strong, so don't blame the staff for what you find in the following pages; we didn't do it.

FULL TEXT OF BACCUS-LOWRATE SERMON IN THIS ISSUE!

As usual, the Terror and Tatler is first! The following Baccus-Lowrate sermon will be delivered by the Reverend Pastor N. Spoke before the graduating class of the Georgia School of Technology in the spring of 1986, A.D. (Reprinting in part or as a whole strictly forbidden.)

The sermon is as follows:

Gentlemen,

I am particularly interested in you, young men, because my son was once a member of your school. A smart lad, my son! He won his degree in one year—can you imagine? One year in Tech and winning the R. O. T. C. degree. (Laughter.) I can see your smiles and it really does seem incredible, but I assure you that I have the proofs.

Young men, you can be thankful, thankful because your degree is evidence of culture. You can be thankful that you are familiar with Plato, Shakespeare, and Bunyan. Some day you may have occasion to read some of their works! You can be thankful that your clothing is distinctive, and that if you wear an old, worn-out suit people will ascribe it to intellectual independence rather than necessity. Indeed, you have much to be thankful for.

There is one point that I should like to impress more than any other I can think of, and that is the value of teamwork. You simply cannot overestimate the value of teamwork! When I was in college two of my friends and myself would always pull together. In a quiz we would finish in half of the time the rest of the class took! How did we do it? I ask you, gentlemen, how did we do it? Team work! Ah, there's nothing like team work!

(to be concluded)

AT THIS POINT THE SPEAKER WAS EGGED AND TOMATOED.

Florrie: "Were you at the ladies' track meet?"
Whitlaw: "Yes, and the lap you ran in those tight skirts was a revelation."

Florrie: "You horrid thing."

Fleming: "Young man, lights go out in this place at ten-thirty." Han Fleetwood: "Oh, that's all right—
don't leave 'em burning on my account."

Han Doc: "What is in the sea besides sodium chloride and calcium phosphate?"

Fleming: "Shaving Songs of Famous Profs"
Dr. Perry:
Lily, Lily of the Valley—
(Snarf! Scrape!)
To bask amid thy fragrant scents,
(Snarf! Scrape!)
I wonder absent-minded, dilly, dally,
(Snarf! Scrape!)
And an absent-minded thought gets me offends,
(Snarf! Scrape!)
Ah! A beautiful thought! Let us dwell upon it—So!

Bob Cat: (Necessity has never been the mother of invention in his case.)

Prose:
Ho-hum! (puff-puff) Ho-hum!
("Crick! Cric-cek!")
I must tell 'em my favorite pun!
("Crick! Cric-cek!")
If they laugh in my class
At this pun—they shall pass,
And they'll know it by heart ere I'm done!
("Crick! Cric-cek!")

"Oh! I can't ever be a pretty girl," wailed little Susie Smith. "One of my knees is crooked."

The style of a girl's clothes nowadays reminds me of a barbed wire fence.

Choo: Howzat?

KA: They protect the property, but don't obstruct the view.

It was a soft, balmy spring night. The moon was at its zenith, casting its mellow radiance on the greenward from a cloudless sky when Dolph passionately declared his love.

"My darling," he cried, soulfully, in tones vibrant with emotion, "I will lay my fortune beside your feet."

"Oh, but your fortune is not very large," cooed the object of his affection.

"No," he replied, affectionately slipping his arm around her trim waist, "but it will look large beside your tiny feet."

He won her.

Bo-CAT: My good man, you had better take the street car home.

Knox: 'Sh' no ushe! Buss wouldn't let me—hic—keep it in the houshe.

VAGABOND: What a peculiar looking thing on your upper lip.

HOMER BOND: My dear girl, never knock a mustache when it's down.

Kisses That Came in My Life

I kissed her first at nine o'clock; Life never seemed so sweet. At twelve o'clock down came her dad And helped me with his feet.

I kissed her in the afternoon, And just as she was leaving, She reply cold an she passed by, "Are you engaged this evening?"

I kissed her in the moonlight, My head was in a whirl; My mouth and eyes were full of hair— My arms were full of girl.

I kissed her in my dreams that night; The kiss was wondrous, sweet, But I woke, enchanted, And found I'd kissed the sheet.

I kissed her in the classroom, Young hopeful, aged sixteen, called up. I turned around and saw the Prof., Georgette, a college widow of long standing, Quite calmly looking on.

"Indeed not," she said. "I can't go out with a baby!" "Please pardon me," he replied, "I didn't know"—

I kissed her in the garden, My brain was rather gladdish; "Please pardon me," he replied, "I didn't know"—

I kissed her in the vestibule, I yearned for more and more; I went to kiss her once again But kissed the closing door.

I kissed her in her limousine, She tasted good to me; Our Hudson left the boulevard— And climbed into a tree.

I kissed her in her blushing nose, But not so carefully; And when I tried it once again— I kissed the silver sea.

I kissed and kissed and kissed that girl, Oh woe be unto me! Though they all had set me in a whirl, Not a single one was free!
The initials of a friend

You will find these letters on many tools by which electricity works. They are on great generators used by electric light and power companies; and on lamps that light millions of homes.

They are on big motors that pull railway trains; and on tiny motors that make hard housework easy.

By such tools electricity dispels the dark and lifts heavy burdens from human shoulders. Hence the letters G-E are more than a trademark. They are an emblem of service—the initials of a friend.

GENERAL ELECTRIC
A DISTINCTLY new tendency is apparent in architectural thought and design today. Architects are designing in masses—the great silhouette, the profile of the building has become of far greater importance than its detail. There is a new vigor and simplicity even in buildings which are conventionally classic in their detail. Masses mount upward, supporting the tower, accentuating its height. The new architecture is tending toward great structures rather than multiplicity of detail.

Certainly modern invention—modern engineering skill and organization, will prove more than equal to the demands of the architecture of the future.

Frank Hollberg's ears make his head look like a loving cup.

The liveliest thing on the campus, and the only thing that seems not to have caught the spring fever is Dean Watters' pet cootie, which he seems to have inherited from some re-hab.

Equipped with many years' experience for making photographs of all sorts, desirable for illustrating College Annuals, best obtainable artistry, workmanship, and the capacity for prompt and unequalled service.

Photographers

Executive Offices 1546 Broadway
Laboratory 220 W. 42nd Street

New York

BELIEVE IT OR NOT—

Frank Hollberg's ears make his head look like a loving cup.

The liveliest thing on the campus, and the only thing that seems not to have caught the spring fever is Dean Watters' pet cootie, which he seems to have inherited from some re-hab.
It is with confusing emotions that we approach this last page of the volume which represents that which has been indelibly inscribed upon the records of our Alma Mater during the past twelve months. The Annual has been our sweetheart for many pleasant hours; many, many times demanding attention in the wee hours of the morn when we could have been soothing our tired minds and bodies on downy couches. It is with sadness and gladness that we part with her; the ideal which is to blossom into a thing which we hope will be beautiful. You may know that we have had our hearts in the work when you realize the endless detail involved, the sacrifice of social hours, and the neglect of school work which we have cheerfully given to the compiling of this Blue Print of old Tech's history.

Our foremost desire at all times has been to please you, and we hope that we have succeeded. L. K. Levy has bent his best efforts toward making this book the most artistic of the volumes yet published. G. P. Bartlett has been unswerving of his time and pains to make the Senior Section the best ever. Robertson, in his capacity as Assistant Editor, has rendered invaluable help. To all these men and those who contributed a wealth of good material, whether it was prose, poetry, art work, or business administration, we extend our heartfelt appreciation. To them as a whole is due any praise which this Blue Print of the campus activities might merit.

To those who have aided us in a professional way in perfecting the mechanical part of the book we have the warmest praises. Mr. Dallis, Mr. McCutcheon, Mr. Theo Smith, and Mr. Slack, of the Johnson-Dallis Company, have become our personal friends through a common interest in the book. The White Studio, of New York, has given unexcelled service toward making the photography of the book uniform, artistic, and available at the slightest wish. Mr. Walter Winn, of the Atlanta Journal, has given many finished pictures for the book in addition to much time and effort. Miss Paden and Mr. Houston have both rendered invaluable aid in collecting. With the services of these interested parties only has it been possible to produce the visualized effects desired in the book.

Finally, the Staff desires to express its appreciation for the splendid way in which the student body as a whole has staunchly supported the book in a manner which has made it possible to enlarge the volume to a point where it is a more true representation of our great school and all those finer things for which she stands.

If, in the perusal of this Annual, you have lived a short hour with your classmates, wishing that you were back among them in Tech's musty walls, and you have learned from these pages the great ideals of her engineers—HONOR, TRUTH, ACCURACY, DETERMINATION, and STEADFAST PURPOSE, we can write the final word in this volume with an invigorating happiness which comes only to those who feel they have completed a large task successfully.

1923 Blue Print.
Autographs
