THE
BLUEPRINT
of 1924
FOREWORD

In order that you may carry through life a tangible memory of these glorious days dedicated to education and training, and so ever remind you of the happy moments afforded by your Alma Mater, we have compiled this, the seventeenth Blue Print.
To John Saylor Coon, M. E., Sc. D.

In sincere gratitude for the years of service which have made possible the present status of our institution and influenced so markedly its constant progress, this, the Seventeenth Blue Print, is respectfully dedicated.

AN APPRECIATION

Dr. William Henry Emerson, Ph. D., Sc. D.
Dean of the College
IN MEMORIAM

Dr. Thomas Pettus Branch, B. E., Sc. D.
Professor of Civil Engineering
Deceased May 20, 1923.
Administration

BOARD OF TRUSTEES OF GEORGIA TECH

N. E. Harris, Chairman
E. B. Black  J. W. Grant
G. H. Carswell  E. R. Hodgson
Frank Freeman  N. P. Pratt
F. C. Furbrow  L. W. Robert, Jr.

EX-OFFICIO MEMBERS

J. M. Brown  Clark Howell
C. L. Walker  W. E. Simmons
M. M. Parks

OFFICERS OF ADMINISTRATION

Marion Luther Brittian, A.B., LL.D.  . . . . . . . . . . President
William Henry Emerson, Ph.D., Sc. D.  . . . . . . . . . . Dean
Allan Benton Morton, A.M.  . Dean of Night and Summer School
Floyd Fielt, A.B., M.A.  . . . . . . . . . . . . . . . . . . Dean of Men
Hugh Harris Caldwell, A.B.  . . . . . Secretary and Registrar
Frank K. Houston, C.P.A.  . . . . . . . . . . . . . . . . . . Treasurer
Faculty of the Institution

MAURIN LUTHER BRITTAIN, A.B., LL.D.
A.B., Emory College; LL.D., Mercer University; Graduate Work, University of Chicago; Kappa Alpha; Phi Kappa Phi; President of the College

THOMAS WITT FITZGERALD, B.S., M.E., E.E.
Diploma, Marshall College; B.S., M.E., E.E., West Virginia University; University of Arizona; Enoy University; Phi Kappa Phi; Beta Tau; Georgia Academy of Science; American Association of University Professors; Head of the Department of Electrical Engineering

WILLIAM GILMER PERRY, M.A., D.LITT.
M.A., D.Litt., Davidson College; Phi Kappa Phi; Head of the Department of English

GILBERT HILHOUSE BOGGS, B.Sc., PH.D.
B.Sc., University of Georgia; Ph.D., University of Pennsylvania; Phi Beta Kappa; Sigma Xi; Phi Kappa Phi; Head of the Department of Engineering Chemistry

FLINT FIELD, A.B., M.A.
A.B., Willamette University; M.A., Harvard University; Graduate Work, University of Chicago; Theta Chi; Dean of Men and Head of the Department of Mathematics

JOHN BARRY CRANEHAW, M.A., Ph.D.
M.A., Randolph-Macon College; Ph.D., Johns Hopkins University; Graduate Work, University of Berlin; Gamma Tau Delta; Phi Kappa Phi; Head of the Department of Modern Languages; Faculty Director of Athletics

JESSE BOLAND EDWARDS, B.S., E.E., M.E.
B.S. in E.E. and M.E., Alabama Polytechnic Institute; Graduate Work, Cornell University, University of Chicago and University of Michigan; Head of the Department of Physics

JOHN MARSH WATTERS, B.S., in C., LL.B., M.Arch.
B.S., Hall Moody; B.S. in C., M.Arch., New York University; LL.B., Memphis University Law School; Head of the Department of Commerce

ROBERT STEPHENSON KING, M.E., M.Sc., Sc.D.
M.E., Ohio State University; M.Sc., University of Minnesota; Sc.D., University of Georgai; Sigma Xi; Phi Kappa Phi; Head of the Department of Mechanical Engineering; Head of the Department of Experimental Engineering

CLARENCE BERNARD SEAL.
Graduate of the Philadelphia Textile School; Head of the Department of Textile Engineering

CLARENCE EDWARD COOLEY, Ph.B.
Ph.B., Yale University; Beta Tau; Head of the Department of Machine Design

FRANKLIN CHARLES SNOW, C.E.
C.E., Ohio State University; Pi Kappa Alpha; Head of the Department of Civil Engineering; Head of the Department of Highway Engineering
THOMAS GRAYDON SEIDELL, B.S. in E.E.
B.S. in E.E., Georgia School of Technology; Phi Kappa Phi
Associate Professor of Electrical Engineering

ROGER SHEPPARD HOWELL, B.S. in M.E.
B.S. in M.E., Georgia School of Technology; Phi Kappa Phi
Associate Professor of Experimental Engineering

ALLEN BERWIN MORTON, A.B., M.A.
A.B., M.A., Brown University; Phi Beta Kappa; Phi Kappa Phi
Associate Professor of Mathematics
Dean of the Night and Summer Schools

DAVID MERVILLE SMITH, A.B., M.A., Ph.D.
A.B., M.A., Vanderbilt University; Ph.D., University of Chicago; Kappa Sigma; Phi Kappa Phi
Associate Professor of Mathematics

J. RUSSELL JENNINGS, B.S.
B.S., Denison University; Graduate Work, University of Chicago, Cornell University
Associate Professor of Physics

CARROLL DANIEL BULIMORE, B.S. in M.E.
B.S. in M.E., Virginia Polytechnic Institute; Phi Kappa Phi
Dean of the Co-operative Department
Associate Professor of Machine Design

EARL HUGO FLYNN, E.E.
E.E., University of Cincinnati; Alpha Nu Sigma; Tau Beta Pi
Associate Professor of Co-operative Engineering

ARTHUR HAMMOND ARMSTRONG, A.B., M.A.
A.B., Yale University; M.A., Columbia University; Beta Theta Pi; Pi Delta Epsilon
Associate Professor of English

JACK MORGAN SMITH, B.S. in C.E.
B.S. in C.E., University of Wisconsin
Associate Professor of Civil Engineering

ROBERT NEAL THOMPSON, B.S.
B.S., George Peabody College for Teachers; Graduate Work, University of Chicago, Columbia University; Phi Kappa Phi
Associate Professor of Physics

D. PETER SWEANT, E.E., B.S. in E.E., M.S. in E.E.
E.E., B.S. in E.E., Rose Polytechnic Institute; M.S. in E.E., Harvard University;
Phi Kappa Phi
Associate Professor of Electrical Engineering

BENJAMIN BLACKSTONE WORTH, A.B., Ph.D.
A.B., Washington College; Ph.D., Johns Hopkins University; Phi Kappa Phi
Assistant Professor of Chemistry

JAMES ERVIN McDANIEL, A.B., M.A.
A.B., Erskine College; M.A., Columbia University; Graduate Work, Harvard University, University of Berlin; Delta Theta Pi; Phi Kappa Phi; Chi Phi
Assistant Professor of English

HAROLD BUSH-BROWN, A.B., M.Arch.
A.B., M.Arch., Harvard University
Assistant Professor of Architecture

THOMAS WILLIAM NOEL, A.B., M.B.A.
A.B., Grand Island College, M.B.A., New York University
Assistant Professor of Commerce

WILLIAM TAYLOR WARD, A.B., M.A.
A.B., M.A., Princeton University, India
Assistant Professor of Commerce

CHARLES ALFRED JONES, B.S. in E.E.
B.S. in E.E., Georgia School of Technology; Phi Psi
Assistant Professor of Textile Engineering

DAVID LESLIE STAMY, A.B., M.A.
A.B., Ursinus; M.A., University of Chicago; Phi Kappa Phi
Assistant Professor of Mathematics

GEORGE HOLBROOK McKEE, A.B., M.A.
A.B., Washington and Lee; A.M., University of Pittsburgh, France
Assistant Professor of Modern Languages

JAMES LEEYEL ELLIS, Jr., B.S. in E.E.
B.S. in E.E., Georgia School of Technology
Assistant Professor of Electrical Engineering

JAMES LAWTON ELLIS, JR.
B.S. in E.E.,
THOMAS PHARE BRANCH, B.S.
B.S. in E.E., Georgia School of Technology; Beta Theta Pi
Instructor in Mathematics

LEWIS WALTER CHAPIN, A.B.
A.B., Emory University; Kappa Alpha
Instructor in English

MACK CATCHIM GORMAN, A.B., M.A.
A.B., M.A., University of North Carolina
Instructor in English

SAMUEL EMORY RODGERS, A.B., M.A.
A.B., M.A., Washington and Lee University; Columbia University; Phi Beta Kappa;
Mu Lambda Sigma
Instructor in English

WILLIAM PAYNE BROWN, A.B.
A.B., Davidson College; Phi Beta Kappa
Instructor in English

WILLIAM SIMPSON TAYLOR, A.B.
A.B., Swarthmore College
Instructor in Chemistry

CHARLES CURTIS HOMMON
University of Chicago
Instructor in Civil Engineering

JAMES WILLIAM MULL, B.S.
B.S., Knox College; Graduate Work, Harvard University; Tau Kappa Epsilon;
Alpha Chi Sigma; Phi Kappa Phi
Instructor in Chemistry

WAYNE KIRBY RIVERS, B.S.
B.S. in Commerce, University of Georgia; Alpha Kappa Phi; Beta Gamma Sigma;
Phi Kappa Phi; Sigma Upson
Instructor in Chemistry

HUBERT J. WOLF, Ph.B.
Ph.B., Yale University
Instructor in Electrical Engineering

EDWARD EDGAR BORTELL, B.S.
B.S. in M.E. University of Michigan
Instructor in Physics

AMITIO PRITCHARD HEWLETT, B.S., M.A.
B.S., M.A., Mississippi College; Graduate Work, George Peabody College for Teachers
Instructor in Chemistry

SULLY BRYAN BERRY, B.S., L.L.B.
B.S., L.L.B., University of Mississippi; Alpha Phi Epsilon
Instructor in Commerce

JOSEPH BLAINE HOSMER, B.J.
B.J., University of Missouri; Alpha Delta Sigma; Kappa Tau Alpha
Instructor in Commerce

LEONARD ROBERT SHEETZ, B.S.C.
B.S.C., University of Georgia
Instructor in Commerce

JOHN WILLIAM JEFFREY, B.S.
B.S. in Commerce, Georgia School of Technology; Delta Sigma Phi
Instructor in Commerce

HELEN K. FELDER, B.S., M.A.
B.S., University of Mississippi; M.A., Columbia University
Instructor in Mathematics

GARELL B. ESTABROOK, B.S.Ch.E., M.S.
B.S.Ch.E., Purdue University; M.S., Ohio State University; Gamma Alpha
Instructor in Physics

RICHARD BLOOM GIBBONS, B.S.
B.S. in M.E., Georgia School of Technology
Instructor in Experimental Engineering

LEONARD ROBERT SIEBERT, B.S.
B.S., University of Georgia
Instructor in Commerce

JOHN WILLIAMS JEFFRIES, B.S.
B.S. in Commerce, Georgia School of Technology; Delta Sigma Phi
Instructor in Commerce

HERMAN K. FULMER, B.S.
B.S., University of Mississippi; M.A., Columbia University
Instructor in Mathematics

LEONARD ROBERT SIEBERT, B.S.
B.S., University of Georgia
Instructor in Commerce

JOHN WILLIAMS JEFFRIES, B.S.
B.S. in Commerce, Georgia School of Technology; Delta Sigma Phi
Instructor in Commerce

HERMAN K. FULMER, B.S.
B.S., University of Mississippi; M.A., Columbia University
Instructor in Mathematics

GARELL B. ESTABROOK, B.S.Ch.E., M.S.
B.S.Ch.E., Purdue University; M.S., Ohio State University; Gamma Alpha
Instructor in Physics

RICHARD BLOOM GIBBONS, B.S.
B.S. in M.E., Georgia School of Technology
Instructor in Experimental Engineering

LEONARD ROBERT SIEBERT, B.S.
B.S. in M.E., University of Missouri
Instructor in Electrical Engineering

LEONARD ROBERT SIEBERT, B.S.
B.S., University of Missouri
Instructor in Electrical Engineering

LEONARD ROBERT SIEBERT, B.S.
B.S. in M.E., University of Missouri
Instructor in Electrical Engineering

LEONARD ROBERT SIEBERT, B.S.
B.S., University of Missouri
Instructor in Electrical Engineering

ELIZABETH L. LASHMIRE, B.A., M.A.
A.B., M.A., Carnegie Institute of Technology; Tau Zeta Delta
Instructor in Architecture

LOUIS EDWARD BARRELL, A.B., M.A.
A.B., Harvard University; M.A., University of California
Instructor in Modern Languages

TALBERT WARD AMBROSE, A.B., M.A.
A.B., Indiana University; M.A. Harvard University; Alpha Chi Sigma
Instructor in Chemistry

EDMUND OLIV CUMMINGS, B.S., Ph.D.
B.S., University of North Carolina; Ph.D., Massachusetts Institute of Technology; Phi Beta Kappa
Instructor in Chemistry

WILLIAM HARVEY RICHARDSON, B.S.
B.S., University of North Carolina; Graduate Work, Massachusetts
Institute of Technology
Instructor in Chemistry

CORNELIUS AUGUSTUS WELLS, B.S., M.S., M.A.
B.S., Mercer University; M.S., University of Georgia; M.A., Columbia University
Instructor in Chemistry

ROBERT BROADHURST LEACH, B.S., M.E.
B.S. in M.E., Georgia School of Technology
Instructor in Machine Design
WILLIAM BENJOHNS, B.S. in E.
B.S. in Engineering, Georgia School of Technology; Phi Kappa Phi
Instructor in Machine Design

CARROLL DEBRET EDGAR
Graduate, Johns Hopkins Course in Machine Design; Square and Compass
Instructor in Machine Design

EDWARD BENNO MARTINDALE
Chief Foreman of the Machine Shops

HORACE ALEXANDER THOMPSON
Foreman of the Smithshop

WILLIAM VAN HOUTEN
Foreman of the Foundry

ROBERT C. BEATY, B.S., M.A.
B.S., Mississippi College; M.A., Vanderbilt University; M.A., Southern Y.M.C.A. College
General Secretary of the Y.M.C.A.

CLAUDE MARTIN HAYGOOD, B.S., M.A.
B.S., University of Alabama; M.A., Vanderbilt University
Business Secretary, Y.M.C.A.

LYMAN BAINE HALL, A.B.
A.B., University of Kentucky; Alpha Delta Sigma; Delta Sigma Pi
Assistant Secretary, Y.M.C.A.

JOHN BONAR WHITE, A.B., M.D.
A.B., Davidson College; M.D., Johns Hopkins University; Beta Theta Pi;
Nu Sigma Nu
School Surgeon

MISS LUCRA HAMMOND
Librarian

MISS JUZIA HAMMOND
Assistant Librarian

JOHN HENRY HENIKA
Foreman of the Woodshops

HOMER HARLAN NORMAN
Instructor in Woodshops

JOHN THOMAS TOPHAM
Virginia Mechanics Institute
Instructor in Machine Shops

HOMER MONROE CARTER, B.S. in E.E.
B.S. in E.E., Georgia School of Technology; Phi Delta Theta; Phi Kappa Phi
Student Assistant in Electrical Engineering
ACCORDING to the conventional style of a true history, this story should commence “in the beginning”—and so be it. The Class of 1924 began on a rather large scale toward the latter part of the month of September, 1920, with six hundred and one subheads,—each having the finest sort of conviction that he was undoubtedly the most important reason for having an educational system. Although arriving from all parts of the South, East, North and West, they soon found themselves being molded into groups for classes and still larger ones for other purposes. For a time, petty desires were forgotten, to give room for a lot of that intangible sort of thing that has been the making of the school, “Tech Spirit.” This was taken on in part of the school and every one of the six hundred and one the feeling that he was a real and vital part of the school.

It was not long before the class was organized and officers elected. John Stanton, President; Fred Moore, Vice-President; and Red Murphey, Secretary-Treasurer. Plans began to form, plans that, if all accomplished, would do no less than make veritable volumes of history—each and every one of them containing what meant to that particular individual the very secret of a completely successful college career. Of course, this included work on school activities, as well as a firm desire on the part of every member of the class to lead his classmates along to great scholastic attainment. Books became worn from excess use and school activities were soon crowned with recruits from the class, eager to place themselves near the top as possible. To mention every phase of this movement of enthusiasm, and to trace every step in the activities of each of the many participants, would require volumes of research and investigation. It must suffice to draw conclusions.

That first year was a memorable one for the Class and for Tech. It was the same year that Tech so completely changed the attitude of Centre College toward athletics, and especially football. Proclaimed Southern Champions again for the sixth consecutive time, the Golden Tornado was awarded the distinction of being one of the truly great aggregations of the country. That same year marked the bringing out of many strong men from the ranks destined to be leaders later on. Various and sundry talents were found to be included in the category of the class, and not only athletes were developed, but journalists, players, musicians, diplomats, and what not.

The fall of the following year saw the return of the class, somewhat smaller in number, but still hanging on to that undying spirit to win out. Although the summer months had the effect of dimming some of the ideals and lessening to a great extent the bubbling enthusiasm of the year before, nevertheless, time was soon to see a remarkable spirit of cooperation and endeavor which has never been equaled in the history of the school. With a course of study more specialized than that of the year before, and with an increasing interest and active participation in school activities, the year was soon to show the development of strong personalities. It was at this point that began the making of the college-bred “tea-hounds” of the class. Quite a number chose for their career the various phases of society life, as related to that body of social dictators known as the “Tech set.” Others branched out into the field of journalism, seeking laurels with the aid of the almighty pen. Of the remaining, some sought after athletic prowess, those gifted with the fabled “silver throat” after harmony, and into every known activity on campus. The year drew to a close with much accomplished individually and for the school.

Once more, the fall following saw a gathering together of a still smaller number of the class, returning from summer frolics, eager to take up the thread again which had been too soon, with much planned and little accomplished, but with a realization coming to each and every one that the happy moment of his life had come—he at last stood on the threshold of that period of life, likened to none other. His senior year at Tech.

For the last time, he was to be a real and vital part of the life of the school, for the last time he was to put his shoulders to the wheel to do his share in placing it at the top in every line of endeavor. A thought of sadness, 'tis true, but soon was followed by a desire to be up and doing; to give his last and best before the time was too late. With Don Hartford as President, many things were accomplished, school activities were boosted, new societies were organized, the honor system was enthusiastically supported, and last—but first—men were made who were to be the leaders of industry, commerce, and enterprise—men who were destined to make Tech famous in years to come.

Many names might be mentioned, names of men who have played a great part in making the class what it has been. This would not only include students who have been “big” in every sense of the word, but also the names of professors, whose personalities have been molds into which have been formed many great personalities. Two presidents who have here held before us the best that's around us. They are all true “good fellows” and will find their reward in years to come.

ALF L. CARROLL, 24.
Senior Poem

Our play is done, our lessons through
And Time for us hath turned the glass:
We heed not, as we watch their flow,
How downward fast the red sands pass.

We heed not how the clouds come on
That shadow all the sunny land—
The day when heart from heart must part
And clinging hand unlink from hand.

What shall that Dies Irae give
In place of that it takes away:
How fill the time we have to live
While youth treads downward to decay?

Good-by, true friend; Good-by, old Tech;
Good-by, each dear familiar spot;
Good-by, sweet season of our youth—
"The golden, happy, unforgot!"

—C. B. W.
WILLIAM GASTON ADAMS

**Commerce**

Asheville, North Carolina

"Bill" Asheville, North Carolina

Bill has traveled quite a bit since 1895. Among the places that he will remember longest is his trip to France. He prepped at Northwestern Military Academy at Evanston, Illinois. His vast knowledge makes him respected by his mates.

"To become a C. P. A. and a member of the Am. Institute of Accountants."

CECIL FRANKLIN ADAMSON, O X

**Commerce**

Savannah, Georgia

"Skeet" Savannah, Georgia

Skeet has been dancing with beauties since he first started in at Lanier High, Macon. He lived in Macon long enough to get the spirit, and wants to move the capital there. Winsome and debonair, he is popular alike with both sexes.

Scholarship "T"; Tech Ad Club; Savannah Club; Winner Military Medal '23; Captain R.O.T.C. '23; Major '24; Captain Honor Company '23; Honor roll '21, '22, '23, '24; Yellow Jacket Staff '22, '23.

"To move the Capital to Macon or Savannah."

KENNETH LOUIS AIKENS

**Mechanical Engineering**

Atlanta, Georgia

"Ken" Atlanta, Georgia

Kenneth's main feet is in the drafting room. His experience along this line turns him into a good position to argue with various professors from time to time, which he did not hesitate to do. He is also one of those clever boys. with the usual grin accompanying his wit.

A.S.M.E.

"When do we eat?"

JAMES GERALD ALBRIGHT, JR.

**Mechanical Engineering**

Hartwell, Georgia

"Minnie" Hartwell, Georgia

Minnie prepped at Piedmont, where he got an idea that Commerce was a crip. Perhaps it was, but he says that it isn't now. After sticking in there and fighting for four consecutive years, he managed to finish.

Second Lieutenant R.O.T.C.; Company Football '22. '23; Battalion Basketball '23; winner of last cake in cross country '21.

"To advertise Coca Cola in Cuba."

WALTER HAMIE ALLEN, K X

**Commerce**

Greenville, South Carolina

"Squire" Greenville, South Carolina

Squire is one of the best dressed and neatest boys in the class. He not only dresses neat but does neat work. and does all things in a clean cut way.

Delta Sigma Pi; Cotillion Club.

"To pass Commerce 67."

JOHN HAMLIN ALLEY

**Civil Engineering**

Asheville, North Carolina

"Doc" Asheville, North Carolina

John is another of those men who are spending four years learning how to run an automobile. In that sense that some day he may be able to buy one. At least that is an optimistic way to look at it.

Freshman Football Squad, '20; First Lieutenant R.O.T.C.; S.A.E.

"To 'allie' my name with fame."

HARRY RICHARD ALLISON, E

**Civil Engineering**

Asheville, North Carolina

"Forkie" Asheville, North Carolina

Harry may look awkward but when he puts on a baseball uniform he pitches that old ball across better than any pitcher Tech has had for a long time. In fact in just about every line he puts them across, especially in the gentle art of repartee. He has done a great deal for Tech and his loss will be felt.

Varsity Baseball, '22, '23, '24; Freshman Baseball, '21; Anak; "T" Club; Civil Crew; Secretary Athletic Association; Student Council; A.O.T.C.; Honor Roll; '22; Senior Invitation Committee.

"To raise another one like Jackie Coogan."

JOHN IVERSON ALMAN

**Commerce**

Greenville, South Carolina

"Bob" Greenville, South Carolina

Mingle prepped at Piedmont, where he got an idea that Commerce was a crip. Perhaps it was, but he says that it isn't now. After sticking in there and fighting for four consecutive years, he managed to finish.

Second Lieutenant R.O.T.C.; Company Football '22. '23; Battalion Basketball '23; winner of last cake in cross country '21.

EDWARD ALMOND

Electrical Engineering

"E. P."

Ed is one of our best electrials, always getting in his work in good shape. For this reason he should make someone a good electrical engineer and Westinghouse or G. E. would do well to look him up when about to undertake some new design.

"To be president of Westinghouse."

WILLIAM AMORES, X F

Electrical Engineering

"Wild Bill"

Bill has thrilled the Avenue daily for the past four years by dashing up and down the hill on that red Indian of his and each time looking like he was going to break his neck. He has managed to survive, however, having only broken three legs.

A. I. E. E.

"To tame the wildest motorcycle."

GEORGE FOTIS

Co-operative Engineering

"George"

The Ex. E. Department was indeed fortunate to obtain the service of George and to induce him to come over from Greece to Tech. This shows the farsightedness of the department. George has made good in his studies and also in his connections with the Department of Labor.

Company Football; Company Basketball; Phi Kappa Phi.

"To head the Ex. E. Department."

JOHN RANDOLPH ARMSTRONG

Electrical Engineering

"Rudolph"

No one in his home town ever dared to predict that Rudolph would be a fish when he came to Tech, and while he hasn't quite reached that stage, he certainly has mastered the art of swimming. But not to be content with that, he now aspires to fly. This shows the farsightedness of the department. George has made good in his studies and also in his connections with the Department of Labor.

Company Football; Company Basketball; Phi Kappa Phi.

"To head the Ex. E. Department."

OLIVER CLIFFORD ATTIDGE

Engineering Chemistry

"Dago"

Richmond Academy is the proud prep school in whose halls Dago studied so that he wouldn't have to take entrance exams at Tech. His stay here has been eventful, most of the days being spent up with the Physical and Industrial Chemistry books.

Emerson Chemical Society.

"To pass Physical and Industrial Chemistry."

CARL WILBUR BARKER

Civil Engineering

"Carton"

Carl has succeeded in making an ideal college life for himself—a happy medium between hard study and the social side of life. Consequently he has developed into an efficient engineer and a dog with the women.

Civil Crew; R. O. T. C.; A. S. C. E.; President; Beta Tau; Second Lieutenant '22; Honor Roll '21, '22, '23; Barrage Staff; Company Football; Scholarship '23.

"To show 'em how it's done."

ARTHUR BRANCH BAKER

Textile Engineering

"Bake"

Bake is undoubtedly in the wrong course. A man that can take money away from anybody the way he does in the Student Supply should be a Commercial. However, this training should help him in being a success in his chosen field. His ambition also belies his course.

Freshman Manager Track, '20; Company Football, '20, '21; Student Supply.

"To become a Quartermaster for life."

FRED MONROE BALL

Civil Engineering

"Fred"

Fred's idea of a good time is to find a nice quiet place, light up his pipe and just sit still. He is very good-natured and has a host of friends. If he can find a job that does not require physical exertion he will make a big success.

A. S. C. E.; Civil Crew.

"To never get tired."
ERNEST KELNER BANNER
Civil Engineering
"Jessie Jam" Fort Worth, Texas
A hard guy from a hard state. Outside of robbing the boys as one of the Quartermaster
Department, Jesse is a good boy. Down at camp in Pensacola he showed that, after all, he was sus-
ceptible to the charms of the fair sex.
Technique Staff; R. 0. B. T.; Am. Soc. C. E.; Friendship Council; Churchman's Club; Student
Supply.
"To keep on in the footsteps of Filthy."

DAVID ANDREW BAYNES
Commerce
"Andrew" Elma City, North Carolina
David began getting ready to come to Tech on the thirteenth day of December, 1893. He has
had lots of studying to do, and attributes the loss of his hair to this. He feels, however, that the
diploma will justify the sacrifice.
"To enter the manufacturing field."

JOHN PINSON BAUM, A T A
Textile Engineering
"Johnny" Atlanta, Georgia
In Johnny we find one of those few boys who is really sincere in everything that he under-
takes. Small wonder he holds many honors, considering the thoroughness with which he
executes his many duties. He has given much of himself for Tech.
Varsity Baseball, '22, '23, '24: Captain, '24; Scrub Baseball, '23; Anak; Phi Kappa Phi; Cotil-
lion Club; Student Council, '23, '24; Secretary, '24; Pan-Hellenic Council; Beta Tau; Scholarship
"T"; Lintheads; Honor Roll, '21, '22, '23, '24; "T" Club; Vice President North Avenue Bible
Church; Technique, '21, '22; Y. M. C. A. Cabinet; Student Supply.
"To become President of the Cotton-pickers."

DANIEL BEARD
Co-operative Engineering
Benville, Louisiana
"Dan" Dave's name has no bearing on the case as he has never been known to go two weeks without
calling the old Gillette into service. After five years at this grand old institution he is quite
home to shave himself with ease.
"An executive General Engineer."

CHARLES MATHEW BEATTY, K A
Mechanical Engineering
Memphis, Tennessee
Between an old dilapidated Dodge and a fourth hand Studebaker, Chollie has his tricks and
he can not be blamed for getting to class an hour or two late. He was getting along fine until
he woke up in one of Prof. King's movies and demanded his money back. He sure does keep
a fond of us even to this day.
Oil Can Club; Cotillion Club; A. S. M. E.
"Laugh and the world laughs with you, snore and you sleep alone."

ARTHUR OSSIAN BENTON, II K F
Textile Engineering
"Ike" Fitzgerald, Georgia
Ike is quite a figure in the Textile mill. Just at the proper moment he slouches around the
corner with some droll remark that brings a laugh from the crowd. He is one of the very
best grippers that we have but always does it in a way that gets away with it.
Cotillion Club; Pan-Hellenic Council; Lintheads; First Lieutenant H. O. T. C.; Fitzgerald
Club.
"To be satisfied."

OSCAR LEON BETTS, JR.
Civil Engineering
"Osky" Rome, Georgia
Oscar is a live wire. He is always there with plenty of pep and consequently there is any particular
story to be pulled off it usually fails to please to get up the idea. He is very
well liked by all the fellows.
Skull and Key; Civil Crew; Treasurer A. S. C. E.; Scabbard and Blade; First
Lieutenant R. 0. T. C.; Tech Aero Squadron.
"Construction Engineering."

WILLIAM PELL BLACKWELL, JR.
Mechanical Engineering
La Fayette, Georgia
"Bill" Bill took engineering at the Berry School before entering our halls. His stay here has
been profitable to him. He has already shown his ability and will become an engineer in the
near future.
A. S. M. E.
"To become an Engineer."
LAWRENCE MILLARD BLAKEY
Electrical Engineering
Auburn, Illinois
"Larry"
Larry is one of the hard-workingest boys that we have. For the past three years he has been one of the dirty work men on the publications and the Marionettes. During this time he has corralled a vast number of friends, each one of whom will vouch for him at any time.
"To discover and develop the Fourth Dimension without becoming insane."

JOHN HANNAH BOOTH, ΣΦΕ
Electrical Engineering
"Johnny"
Atlanta, Georgia
Johnny is a rather mischievous being, having been the cause of more than one rumpus in the rooms of the Commerce Department. In spite of this little fault of his he has managed to remain in school long enough to be called a Senior and has had fervent hopes all year of obtaining the long sought-for "dip."
Company Football.
"To finish bookkeeping for good and all."

RICHARD BRADFORD
Electrical Engineering
"Brad"
Atlanta, Georgia
Brad is one of the military boys. Especially does he shine on the days when they have parade. Besides his ability in uniform, he is an earnest follower of Voltaire, and has a good record in his classes.
A. I. E. E.: Captains R. O. T. C.
"To drill a company by electricity."

CHARLES THEODORE BRASFIELD, JR.
Electrical Engineering
Natchez, Mississippi
"Bras"
Charley is another one of the sages. He is nearly always in the background until a dependable opinion is needed, when he steps to the front and always has the right dope. For this reason he has a full share in the success of all his classmates.
Beta Tau; Honor Roll, '21. '22.
"To get up by eight o'clock."

JOHN HANNAH BOOTH, ΣΦΕ
Electrical Engineering
"Johnny"
Atlanta, Georgia
Johnny is a rather mischievous being, having been the cause of more than one rumpus in the rooms of the Commerce Department. In spite of this little fault of his he has managed to remain in school long enough to be called a Senior and has had fervent hopes all year of obtaining the long sought-for "dip."

Charley is another one of the sages. He is nearly always in the background until a dependable opinion is needed, when he steps to the front and always has the right dope. For this reason he has a full share in the success of all his classmates.
Beta Tau; Honor Roll, '21. '22.
"To get up by eight o'clock."

WILLIAM OLMUS BHITT, JR., ΣΦΕ
Mechanical Engineering
Thomaston, Georgia
"Bill"
Bill is one of the merriest souls that we have, and always furnishes a couple of good rounds of laughter. The only trouble is that Bill thinks it is because he is funny looking. A glance at the above picture disproves this and lends a hint of Bill's remarkable personality.
Bull Dogs; Cotillion Club; Oil Can Club; Gee Club; A. S. M. E.
"None."

LLOYD ARTHUR BROOKS
Co-operative Engineering
"Oscar"
Pinewood, South Carolina
Oscar began chopping stove wood on September 14, 1902, at Chamblee, Georgia. He must have kept at this occupation, for his hands look like regular Swift Premium hams. We would feel mighty funny if he ever took a notion to "crown" us with one of his extremely large fists. His ambition is to be a successful manufacturer of engines and tools.
Tech High Club; First Lieutenant R. O. T. C.; Company Football, '22. '23.
"To graduate."

JOHN JACKSON BROUGHTON, ΣΦΕ
Electrical Engineering
"Jack"
Pinewood, South Carolina
Jack is a good natured boy and has made a host of friends during his stay at Tech. We have been unable to discover the exact secret of his success, but it is rumored that he uses the caveman system to obtain the best results. A. I. E. E.

JOE DAVID BROWN
Co-operative Engineering
Cochran, Georgia
"Joe"
Joe was born in Cochran, Georgia, and came to Tech from there in the fall of 1929. He has worked hard both in school and while out on the job, where he has made quite a name with his employers as well as with his professors.
Coop Club; A. S. M. E.; West Inn Club.
JOHN HENRY BROWN, JR., '21
Engineering Chemistry
Loudon, Kentucky

"Jack"

"Jack" hopes to follow in Hudson Maxim's footsteps, and discover something before everyone else knows about it. Almost every afternoon is spent in the Chemical Laboratory doing research work.

Beta Tau; Emerson Chemical Society; Honor Roll '21.

"To live without working."

FRANK CONRAD BRYAN, '22
Electrical Engineering
Green Acres, Florida

"Papa Frank"

Frank has worked his way into the top four years, so now he is very well known. He was born in Georgia but considering the name of the town that he moved to, there must have been sufficient attraction to cause him to move there.

Beta Kappa Psi; A. I. E. E.; Florida Club; Band. '22, '23, '24; Blue Print, '24.

"To put my son through Tech easier than his daddy did."

EDWARD STANLEY BULLOCK, '24
Co-operative Engineering
Kissimmee, Florida

"Ned"

Despite the time necessary in the work of the Co-op Course, Ned has found time to enter into many activities. Each of those in which he has participated has found in him a hard and conscientious worker, always striving to do his best.

"To cross the ocean."

THOMAS EDGAR BUSBIN, '24
Commerce
Fayetteville, Georgia

"Bambino"

It wouldn't make any difference if Buz had to study with a victrola playing in the next room. He has the will to concentrate, and gets his work up on scheduled time. Prepped at Gordon where he acquired the name "Bambino" for his ability to swat the pill.

Freshman Football, '20; Scrub Football, '21, '22, '23, '24; Freshman Baseball, '21; Scrub Baseball, '22; Fayetteville Club; Owls Club; Alcohol Club; First Lieutenant R. O. T. C.

"To be an expert Marketer."

EDWARDS NELMS CAMPBELL, '24
Commerce
Morristown, Tennessee

"Eddie"

Before Eddie knew much of Tech, he went to the University of Virginia, where he studied law. Since his arrival here he has kept things moving and has not missed a night's dancing yet. Technique Staff, '22, '23; Assistant Manager Clerical Staff, '23; Yellow Jacket, Assistant Advertising Manager, '22; Advertising Manager, '23; Alpha Delta Sigma.

"To enter the Advertising and Merchandising Field."

ZACK ST. ELMO CARNES, '24
Special Textile
Atlanta, Georgia

"Z."

Zack is an ardent follower of the game of tennis and on several occasions has uphold the name of Tech in a championship match. He learned quite a few of his tricks in the game while preparing at Tech High.

"To get a chance at Bill Tilden."

ALF LINDSAY CARROLL, '24
Electrical Engineering
York, South Carolina

"Al"

Al is one of the little but loud guys. Not loud in the sense of noise but loud in the sense of always being there in the middle of the pack. He is most popular among the boys in his course and without question the most popular in the campus. Being a peroxide blond of the best variety he is quite popular in other places as well.

Scabbard and Blade; Cotillion Club; Pi Delta Epsilon; A. I. E. E.; Adjutant 4th Battalion, '24; Company Football, '21; Honor Roll, '22; Assistant Business Manager, Blue Print, '24; Business Manager, Yellow Jacket, '24; Assistant Manager Track, '23; Manager, '24; Associate Editor Technique, '23.

"To startle the world in general."

HOMER MONROE CARTER, '21
Post Graduate Commerce
Cleburne, Texas

"Cupid"

Homer was not satisfied with the honors he was able to obtain during four years, although they were sufficient for three or four ordinary men. He returned this year and took a post graduate in Commerce. Football Football, '20, '21, '22; Varsity Football, '21; V. M. C. A. Cabinet, '21; Captain, B. O. T. C., '21; Scabbard and Blade; Scholarship '17; Secretary Student Association, '21; Secretary Senior Class, '22; A. I. E. E.; Phi Kappa Phi; Manager Baseball, '24.

"Pity on the boys in Electrical."
GEORGE RIVES
Mechanical Engineering
Sparta, Georgia
"Brud" Sparta, Georgia
Georges has worked hard since he has been at Tech, though both his avoirdupois and his smile belie the fact, and he rightly deserves the place he has made in the class. The above mentioned avoirdupois has sometimes been a disadvantage, but George says the smile does the work.
A. S. M. E.
"To use my diploma to the best of my ability."

WILLIAM HENRY CASH
Civil Engineering
Chattanooga, Tennessee
"Carry Hash" Chattanooga, Tennessee
This long legged engineer hails from Chattanooga, Tennessee, where he first saw those good looking girls. Since seeing them he has had a profound respect and love for same. He came to Tech in the fall of 1920, and has been working hard ever since at more things than one.
R. O. R. Y.; Am. Soc. C. E.; Civil Crew.
"To be a good Plumber."

EDMOND PERRY CALDWELL
Mechanical Engineering
Indianapolis, Indiana
"Jess Willard" Indianapolis, Indiana
Although somewhat diminutive in stature, Jess makes up for this in an enormous amount of brains. His chief cause for popularity was a threat to throw a certain professor through two panes of glass and some thirty feet of space. Combining practical experience with what he has learned at Tech Jess should make a big success.
Square and Compass; A. S. M. E.; Scrub Football.
"Successful and Contented."

CLEO MAURICE COLON, H A A
Electrical Engineering
Gibsland, Louisiana
"Ole Lady" Gibsland, Louisiana
Gibsland, Louisiana, is the home town of Cleo, but in 1918 he grew tired of small town sports and journeyed off to La Baptist College, where he graduated in 1920. He has been offered quite a few jobs, but none of them are near enough to Gibsland, and he must be near Gibsland, and that sweet girl who lives there. Louisana Club; A. I. E. E.; Technique Staff, '22, '23, '24.
"To make a success as salesman for some electrical supply company."

ROBERT LUCULLUS COOPER, F Σ K
Electrical Engineering
Arlington, Tennessee
"Coop" Arlington, Tennessee
Coop is a strong believer in the development of "Shakes Pepole," as he has demonstrated on numerous occasions. He claims the height of his ambition is to be an inspector in a girls' school, but we believe him not. However, that is a good thought, and we wouldn't mind giving that a try ourselves.
A. I. E. E.; A. S. M. E.; 2nd Battalion Football Team; '22; Friendship Council; '22; Tennessee Club; "I" Club; A. I. E. E.
"To operate Papa's still."

BURNS CALDWELL Cox
Co-operative Engineering
Cedartown, Georgia
"Harry" Cedartown, Georgia
Harry went to Reinhardt College before coming to Tech, and might have stayed there if the war had not intervened. When he returned from France he came to Tech and since then has been doing everything to remain here.
"To combine the theoretical and practical."

JOHN JAMES JONES COX, Η Σ K
Mechanical Engineering
Waynesboro, Georgia
"J 3" Waynesboro, Georgia
Working under the handicap of a name like his, Jimmie has done remarkably well. He gets up his work and is popular with his mates. His curly hair and knockout smile have been the cause of the complete surrender of many female hearts.
"To form a protective society against Quebec bridge."

HENRY CROWELL, Σ A E
Electrical Engineering
Columbus, Georgia
"Flip" Columbus, Georgia
Flip is an ardent military man, being one of the last fashand and bluster that we have. In the classroom, the most of the boys from Columbus, he has done good work, and his clever wit is always welcomed into a bull session.
"If it's worth doing, do it right."

"To use my diploma to the best of my ability."

"To be a good Plumber."
"Successful and Contented."
"To make a success as salesman for some electrical supply company."
"To operate Papa's still."
"To combine the theoretical and practical."
"To form a protective society against Quebec bridge."
"If it's worth doing, do it right."
EDWARD FABREY CUNNINGHAM
Mechanical Engineering

"Admiral"
Savannah, Georgia

Admiral acquired his nickname by his seagoing look. When he puts his hat on the side of his head and starts that swagger of his, he is indeed a rear Admiral. Differing from most of his classmates, he is quiet and unassuming and consequently has many friends.

A. S. M. E.; Savannah Club.

"To command the good ship Rock and Rye."

JAMES FLEMING DANIEL, JR.
Commerce

"Jimmie"
Anderson, South Carolina

Jimmie made the honor roll his Sophomore year, and that was the year that he got married. How did he do it? He and Lynn have been dieting at the Sandwich shoppe. Lynn won the Eating Contest.

"Real Estate, Bonds and Insurance."

WILSON FORREST DANIELL
Civil Engineering

"Bebe"
Beaumont, Texas

It seems strange that one so fair as Bebe Daniels should come from the land of bronchos and cactus. But we are forced to admit it. Not only from the standpoint of looks, but also from charm and personality, does Bebe live up to his namesake.

"To be a highway engineer and follow in the footsteps of Filthy."

HARRY LILLY DAVIS
Commerce

"Light Horse"
Magnolia, Mississippi

Before Light Horse ever heard of Tech he went to the University of Mississippi, where he studied Commerce. Through the recommendation which was carried on between the Dean and H. L. the advantages of the courses offered were explained to him, and he was induced to enter.

Technique Staff. '21: Second Lieutenant R. O. T. C.; Ad Club.

"To get a Degree of B. S. in Commerce."

PAUL ROBERTSON DAVIS, R. S.
Electrical Engineering

"Sol"
Huntsville, Alabama

Paul is another boy with that most creditable ambition of wanting to see Tech beat Notre Dame in 1924. This evidence of his patriotism and loyalty to his Alma Mater, which have been much in evidence during his stay here. Another thing: Paul is strictly Filthy clad.

"To see Tech beat Notre Dame in 1924."

WILLIAM JOSEPH DEBARDELEBEN, JR.
Commerce

"Sir William"
Atlanta, Georgia

Bill first got his popularity at Emory University Academy, where he decided that he didn't want to go to any school other than Tech. He is liked for his pleasing personality.

Georgia Tech Golf Club; Tech Ad Club.

"To please the women."

JOHN RICHARD DEERING, JR.
Textile Engineering

"Sharp Shooter"
Atlanta, Georgia

Though Johnny's appearance may be slightly against him, it may prove a valuable asset to him when he goes to handling cotton mill hands as plant superintendent. He has been a consistent worker during his years at Tech and is liable to be heard from soon.

"To fulfill my ambition."

WALTER KING DEFRe
Textile Engineering

"Defie"
Macon, Georgia

Like so many of the Macon boys, Defie is strong on his home town and no doubt when he graduates he will take his place as a member of the Bibb family. Toward this end, he has worked hard while in school and feels that he is fitted for this position.

"Oh yes, she is a blonde."
JOHN REESE DEJARNETTE
Mechanical Engineering
Norcross, Georgia
John has been a most consistent worker during his four years here as is evidenced by his Phi Kappa Phi key. Not only that, but he is popular with the boys. He is another of those boys that made the life of Pop miserable last year, his arguments sometimes putting the poor man at a perfect loss.
A. S. M. E.; Phi Kappa Phi: Scholarship "T"; Scabbard and Blade; Honor Roll. '21, '22, '23; Captain, E. O. T. C.; Beta Tau.
"To beat Tiny out of his Ex. E. job."

CLARENCE DENICKE, T. N.
Mechanical Engineering
"Skinny" Macon, Georgia
Skinny's claim for distinction lies in an uncanny ability to whistle like a train. Although he has many athletic and other honors, these are as nothing compared to this feat. With it he has been the delight of the Freshmen and the distraction of the profs for four years.
"To finish with the Physics Department."

HENRY PREXTON DEERY, J. R.
Electrical Engineering
Macon, Georgia
Having had some two years' experience on the U. S. S. Pocahontas during the war High Power became so infatuated with the John Smith idea that now he wants to be president of Wesleyan College.
"To be president of Wesleyan College."

GEORGE LEROY DICKENSON
Civil Engineering
"Dick" Bainbridge, Georgia
Dick is well fitted by that old epithet, "Good old boy." He is quiet but a thoroughly good fellow and very well thought of by his classmates. He should make somebody a good rod-jumper.
Company Football; R. O. T. C.; American Society Civil Engineers; First Lieutenant, R. O. T. C.

MALCOLM RHETT DONALDSON
Electrical Engineering
Mount Pleasant, South Carolina
After becoming familiar with the bright lights of that thriving seaport, Charleston, he moved to Mount Pleasant. Porter Military Academy pronounced him proficient in their course of study in 1920 and he entered Tech that fall. Donaldson is a good student and has a bright future ahead of him.
"To sail America's Cup Defender."

JOHN MUNNERLYN DONALSON
Electrical Engineering
"Pete" Blakely, Georgia
Pete is a very highly accomplished young man—that is at two particular things. One of these, Uncle Gus discovered, much to his dismay, back in 1919 and the other—we'd rather not tell it now, but we might hint that the alarm clock now owned by this youth is equipped with an electric gong, the original bell being of insufficient size.
"To be a success after graduation."

WALTER PRUITT DOROUGH, J. R.
Commerce
"Pete" Atlanta, Georgia
This boy is often admired by the golf team for his exceptional drives. He and Lynn haven't settled their argument yet, but it is feared that Pete will get whipped down, as Lynn made a hole in one the other day.
Golf Club; Ad Club; Tech High Club; Company Football and Basketball. '20, '21, '22; Delta Sigma Pi.
BARNEY SAVAGE DUNBAR, Σ A E

Special Architecture

"Googie"

When Barney made up his mind to take architecture, it meant many a gay moment for the Department as this boy has an original and ready wit that he frequently displays. He also possesses a serious nature and has proven himself a steady and conscientious pencil pusher in his architectural work.

Blue Print, '23.

"To have Augusta appreciated."

WILSON Hume EASTMAN

Civil Engineering

"Sweetheart"

Old Rome herself would have boasted of this genius. He manages to hold his own when it comes to scholastic work, as is evidenced by the gold "T" that he proudly sports. Previous to his entrance at Tech, Wilson spent four years at Tech High.

Scholarship "T"; Honor Roll, '21; Phi Kappa Phi; Am. Soc. C. E.

ERROLL ECKFORD, Ξ X

Commerce

"Joe"

Joe prepped at Marist College, and also at the University of Georgia, coming to us in '21. He filled the office of Manager of the Golden Torr'eds of '22 and did it well.

Basketball, '22, '23, '24; Alternate Captain, '22; Manager Football Team, '22; Freshman Basketball, '21; Delta Sigma Pi; "T" Club; Cellion Club; Bull Dog Club.

"To enter the Real Estate Business."

JAMES FRANK EDWARDS, Φ Δ Θ

Special Textile

"J. Frank"

J. Frank has shown his worth, both in the classroom and on the cricket path. He gave them all a scare in the cross country run last year, numbering among the first eight runners to check in. His numerous friends regret that he is to be at Tech but two years.

Architectural Society: Square and Compass; Masonic Club; Honor Roll, '21, '22.

"To be a marathon globe trotter."

JOHN AUSTIN ENGLAND

Co-operative Engineering

"Fly Weight"

—And another Brewer was born.‖ Fly Weight has an ambition to spend a million dollars, even as you and I. We hope that he gets all that he can spend, but that the time taken to spend it be a lifetime.

Boxing '23; A. S. M. E.; A. I. E. E.

"To spend a Million Dollars."

SCROOP WESLEY ENLOE, JR., Σ K

Textile Engineering

"Duke"

Duke spent a few years in his architectural studies at the University of Pennsylvania but came to Tech last year to complete his endeavors in this field. He has a musical streak, being adept at getting a tune from the ivories.

Architectural Society: Square and Compass; Masonic Club; Honor Roll, '21, '22.

"To be exempt from all my exams one term."

KAARE ESPEDAHL, Σ K

Architecture

"Duke"

There is no doubt that Harris is one of the smartest boys in the class. Everyone is very much impressed on that score. He has a fine scholarship record. Starting with the class of last year, he was forced to drop out last year for his health, but came back to finish up.

Phi Kappa Phi; Scholarship "T"; A. S. M. E.; Square and Compass.

"To do right and be of benefit to humanity."
FRANK MORTIMER EXLEY, II K A
Civil Engineering
Savannah, Georgia

Here we have the foremost politician of the school. Frank has worked hard during his four years in school, and has seen for himself many offices of honor, and he has never failed to have a host of friends around him. His work as cheer leader is also to be commended.
Cheer Leader, 21, 22, 23, 24; Cotillion Club; President Civil Crew; Vice-President Am. Soc. C. E.; Pan-Hellenic Council; 22, 23, 24; Treasurer, 23; Beta Tau; Honor Roll; Band, 20, 21; Business Manager, Glee Club, 24.

"To sing Hulla Engineer with Mr. Beatty."

JOHN THOMAS FARGASON, JR., K
Mechanical Engineering
Memphis, Tennessee

"John" is all he is to the boys, but he has more friends than any John who has been nice enough to meet us. He is of the quiet unassuming type, and his popularity is voiced in his office as president of the A. S. M. E. And you can't beat John on reliability.
Phi Kappa Phi; Beta Tau; Free Body Club; Honor Roll, 23; President, A. S. M. E.; Y. M. C. A. Friendship Council.

"To make Santamaria President of Mexico."

JOHN FARMER, O X
Electrical Engineering
Savannah, Georgia

Johnny is sure a fish in the water, being more at home there than on land. He has a sunny disposition that is contagious and wins him many friends. Being a decided blond he has a distinct advantage both on and off the dance floor.
Swimming Team, 20, 21, 22, 23; A. I. E. E.

"To give up Agricultural pursuits."

JOHN FRANCIS FICKEN
Civil Engineering
Atlanta, Georgia

John is one of those forehanded boys who always gets up his work ahead of time. For this reason his standing in the class is very good. He proudly admits that he is a pretty good carpeniter as well.
Freshman Track, 22; E. O. B. T.

"To get an Ex. E. report accepted the first time."

JOE FINKLESTEIN
Electrical Engineering
Atlanta, Georgia

Joe has played so much basketball with teams around Atlanta he has scarcely had time to keep up his work at Tech. The way in which he has managed to do it is evidenced by the fact that he has got his diploma.

"Something for Nothing."

ERNEST ARLINGTON FORT
Civil Engineering
Lumpkin, Georgia

This would-be bridge over the Atlantic has shown the folks back in Lumpkin that he can excel in two things—Civil Engineering and Coast Artillery. Not only that, but he possesses the happy faculty of making friends easily.
Honor Roll, 23; R. O. B. T.; A. S. C. E.; Civil Crew

"To build an esculator across the Atlantic."

HOWARD ANTHONY FORTSON, A E
Textile Engineering
Augusta, Georgia

Bully is a good looking scout and has won a place of esteem among his fellow cotton-pickers. His popularity does not stop here as he has been the cause of many suicides among his classmates, being quite an idol among the female contingent of the college set.
Skull and Key; Cotillion Club; Bull Dags; Pan-Hellenic Council; Lintheads; Captains, R. O. B. T.

"One more victim than Vaselino."

DONALD MIX FREEMAN, O E
Civil Engineering
Atlanta, Georgia

When not keeping that Cadillac from collecting cobwebs, Don finds time to do that little studying necessary for a Civil Senior. Despite the Cadillac, he is forced to walk a mile for his cigarettes, and then they don't satisfy. Don has enough friends to satisfy him, however, without the machine.
Beta Tau; Civil Crew; Am. Soc. C. E.; Honor Roll.

"To be a good rod-jumper."

JOE PINKLESTON
Electrical Engineering
Atlanta, Georgia

"Fick"
HERBERT SPENCER FREEMAN
Co-operative Engineering
Lemon City, Florida

"H. S."
Herbert came to Tech after two years in the service and he says war is a cinch compared with four years at Tech. However, he has managed to survive and find time to make a large number of friends who will be sorry to see him leave.
Bitty Tots, '21; Co-op Club; Captain, R. O. T. C.
"Friends"

WILLIAM PARMER FREEMAN
Commerce
Atlanta, Georgia

"Andy"
Andy is the source of much amusement in many of the different military classes. He keeps Professor Ward busy answering all of his unnecessary questions and keeps the class laughing at his wit.
DeMolay Club; Second Lieutenant R. O. T. C., '23; Honor Roll, '23; Ad Club.
"To catch a winning hand."

CLARE ALANSON FAYE, Σ Δ E
Civil Engineering
Oklahoma City, Oklahoma

"Clare"
Clare's football career began with the A. E. F. and after he returned to the side, he took up the sport at Tech with such earnestness that he won a place on the All-Southern. His only fault is an inclination toward laziness, which he says is just an aversion to hard work.
Varsity Football, '21, '22, '23; Alternate Captain, '23; Birmingham Bowl Race, '20; Anake;
"To be an asset to my profession."

ERNEST GASKINS
Engineering Chemistry
Williamson, Georgia

"Cupie"
She wouldn't do what he asked her to, and she soaked him in the eye. It all happened down in Williamson on April 21, 1899, when Ernest told his mother that he was going to study Chemistry at Tech. We don't know why she changed her mind, but it is nothing to regret.
Emerson Chemical Society.
"To raise a bunch of Chemical Engineers."

LUTHER CLINTON GEORGE
Commerce
Golden, Mississippi

"Luke"
Luke has decided, after many long conferences with the Dean, that he wants to enter the accounting field, so is devoting his time towards that. He should make good, for he is a faithful worker.
"To become a Certified Accountant."

WILLIAM WEBSTER GIBSON
Electrical Engineering
Thomasville, Georgia

"Gib"
Gibby is afflicted with the golf bug. When he can find time off the links to study, he does it, but it must in no way interfere with his continual battle with old man par.
A. I. E. E.
"To design an infallible putter."

ALBERT KENT GLOVER, Φ E
Textile Engineering
Charlotte, North Carolina

"A. K."
Albert moves around remarkably fast considering his number thirteens. Considering these same number thirteens, however, it is no wonder he is somewhat lazy. His only excess exertion is expended when convention demands that he keep moving on a dance floor.
"To find a congenial partner."

WILLIAM GOLDSMITH, JR., Δ T Δ
Special Textile
Greenville, South Carolina

"Cap'n Billy"
Cap'n is the military genius of Georgia Tech. In fact he says so himself. If he had his way the Scabbard and Blade would have an initiation every day, as these things are fondest he is of. Besides this he has two other hobbies: Football tickets and Cadillacs.
Scabbard and Blade; V. M. C. A. Cabinet; Technique, '22, '23; Captain, R. O. T. C., '23.
"To overcome that which seems most difficult."
ROBERT ARMSTRONG GOODBURN, II Δ Δ
Electrical Engineering
Miami, Florida

"Bobbie" Miami, Florida
Speaking of Sharks reminds us of Florida, and since Bobbie hails from the 'Gator state, this may have some bearing on the fact that he is such a shining light in the classroom. However, his popularity by no means ends here, for he is also a shark on the tennis court and cinder trail.
"To raise $-10."

DYER THOMAS GEORGE
Mechanical Engineering
Unicoi, Tennessee

"Power Plant" Unioco, Tennessee
Here we have the authority on power plants in the Senior Class. He is acknowledged to possess all the dope pertaining to this phase of industry at his fingertips. He also possesses the knack on making friends, as he has many.
Free Body Club A. E. M. E.
"To be a successful power plant engineer."

MYER HARRY GORDON, T E Φ
Commerce
Macon, Georgia

"Mike" Macon, Georgia
Mike is a very far-fetched lad, having come over from Russia. One would think that moving to this country he would settle down in a civilized place, but instead he went to Macon. Despite this fact he has picked up his work and is graduating.
First Lieutenant R. O. T. C.
"To teach law to the Bolsheviks."

CALVIN WARD GORE
Electrical Engineering
Wilmington, North Carolina

"C. W." Wilmington, North Carolina
"C. W." calls Wilmington, North Carolina home and a good place it is too. Atlantians seem to like your well known summer resort as we saw quite a number riding the angry waves there last summer. We decided long ago that it was better to pass the re-exams than none at all so count us in on that ambition.
First Lieutenant R. O. T. C. '21, '22.
"To pass all re-exams."

DANIEL JACK GORE
Electrical Engineering
Wilmington, North Carolina

"D. Jack" Wilmington, North Carolina
This is the other Gore twin. The two of them have been constantly together during the four years of their stay here. Jack has many friends and will take many pleasant recollections back to Wilmington with him.
Company Rifle Team; Tar Heel Club; A. I. E. E.
"To have a certain electrical prof working for me."

ASBURY BROOKS GREEN, X Φ
Co-operative Engineering
Valdosta, Georgia

One of those who say little but do much—a boy who is appreciated by his entire class, and one who does work without kicking. For five years he has made friends among the students, and these will always be friends.
Brearman Society; Captain R. O. T. C., '22, '23.
"To rise without looking back."

JOEL HARDIN GREGG
Electrical Engineering
Lyndon, Kentucky

And now we take great pleasure in presenting one of the master minds of the class. Kentucky Military Institute certainly did a great work in preparing Gregg. He is one of those good natured fellows who never gets mad and rightfully claims all his acquaintances as his friends.
"Success in Power Transmission."

CHARLES WILLIAM HALLENBECK, II Φ
Mechanical Engineering
Freddonia, New York

"Holly" Freddonia, New York
Holly's purpose in life is to find a method of making biscuits that doesn't require the use of a rolling pin. He says from experience that the elimination of this article would make mankind much happier. His spare time is spent in driving around in a Moncrief furnace with a Ford hood on it.
A. E. M. E.
"To have more like the first one."
LEROY WINTHROP HARKALL
Mechanical Engineering
Charleston, South Carolina

“Shorty”

Three times since his sojourn at Tech Shorty has managed to get by without paying his fees, and each time because Mr. Houston was unable to see him over the counter. He sports that old Phi Kappa Phi key, though, and it looks mighty impressive on that perfect twen-tieth vest.

Phi Kappa Phi; Free Body Club; Homer Roll, 21, 22, 23, 24; Technique, 21, 24; News Editor, ’23; Scholarship "T"; A. S. M. E.; R. A. R.; Young Men’s Christian Association Friendship Society.

“To get Frank Johnson up in time for class”

HERBERT ROBERTS HAMMOND, E E F
Electrical Engineering
Atlanta, Georgia

“Brett”

Brett has been around town for some time, having come here from Pennsylvania. During the course of events he came to Tech and since then has been making friends among the ampere chasers of the class of 1924.

A. I. E. E.; Company Football.

“To be an engineer some day.”

EDWARD CARROLL HAMMOND
Commerce
Atlanta, Georgia

“Ed”

Ed first decided to study to be an expert accountant back on September 14, 1902, in Americus, Georgia. He came to Tech High to get a good prep school education, so that he would be best fitted to study under Dean Watters and Company.

First Lieutenant R. O. T. C.

“Too many ambitions to record.”

HAYWOOD SHEPHERD HANSELL, JR., Σ Ν
Mechanical Engineering
Fort Benning, Georgia

“Possum”

This boy’s nickname is the most appropriate thing that ever happened. Not that he is ever caught napping, but he certainly looks like his namesake as he makes his appearance for those eight o’clocks. His other qualifications include an ever-present pipe and an operatic tenor, slightly.

Oil Can Club; Scabbard and Blade; Free Body Club; Lieutenant Colonel, E. O. T. C.

“Anything to keep from working, even to joining the Army.”

ALBERT SYDNEY HANSON, O X
Special Textile
Macon, Georgia

“Trampus”

Another wearer of the number twelves. Despite this handicap Albert has covered considerable ground in making friends. He seems to be a whiz in evumoming hardships, as he sails from Macon. He started in at Mercer a year before he came to Tech.

First Lieutenant R. O. T. C.

“To be President.”

IRE HAMILTON HARDIN, Σ Τ Σ
Mechanical Engineering
Atlanta, Georgia

“Iro”

If too only did his studying with the regularity with which he writes letters he would indeed lead the class. Despite this he manages to get in his work and it has even been rumored that these letters furnish the inspiration. At any event he has won a position of esteem among the fellows, and has many firm friends.

Honor Roll, ’21; A. S. M. E.

“To find something that is what I thought it was.”

WILLIAM DONALD HARTFORD, Σ Φ E
Textile Engineering
Chattanooga, Tennessee

“Don”

In Don we find assembled all those qualities which go to make up a real leader of men. There is no doubt but that he is the most popular man on the campus, and if the individual leader of the school were picked it could be no one but him. The splendid way in which he has carried his honors also adds to his credit.

Track, ’21, ’22, ’23, ’24; Secretary and Treasurer, Skull and Key; Secretary and Treasurer, Bull Dogg; President, Kappa; President, Alpha; Captain, E. C. T. C.; Scrub Football, ’21, ’22, ’23; Honor Court, ’21, ’22; Student Council, ’23, ’24; President, ’24; President Junior Class; President Senior Class; Vice-President Y. M. C. A.; Vice-President Athletic Association; Secretary, Pan-Hellenic Council; “T” Club; Linheads.

“To continue to serve.”

MAURICE EARL HEARD
Special Textile
Lansett, Alabama

“Boots”

Maurice comes from a town where there are plenty of cotton mills, and now that he has found out the way it should be done he is going back home and revive the place. His ambition shows that he is going out for big game. He has got the right spirit.

Technique; Pan-Hellenic Council.

“To make a million dollars in the next ten years.”
CORNELIUS ELLIOTT HEATH, X 4
Mechanical Engineering
Augusta, Georgia
"Elliott"
Besides spending considerable time in pushing sub-debs around a dance floor, Elliott finds time to get up his work in fine style and at times he even shows indications of becoming an engineer. If friends have anything to do with it, he will, as he certainly has quantities of them.
Oil Can Club; Cotillion Club; A. S. M. E.; Technique. '22, '23; Martinette.
"To prove it to her."

RICHARD LEONARD HENLEY, K X
Electrical Engineering
"Dick"
Richmond, Virginia
Dick is another Finchley clad lad and at once a prominent social leader. His way with the women is not to be questioned, at least not judging from results.
Cotillion Club.
"To win an endurance dance contest."

HAROLD NELSON HILL, H 2 2
Electrical Engineering
Waco, Texas
Harold has had many love troubles, and has written to Marie Rose to have her help him straighten him out. We don't know what information he received, but it has helped him out with his studies.
Track, '22, '23, '24; Kappa Kappa Psi, President '24; Beta Tau; First Lieutenant R.O.T.C. '23, Captain '24; Band, '21, '22, '23, '24; Longhorn Club, President '21; DeMolay Club, President '23; A. I. E. E.
"To marry a red headed girl."

RALPH LENTOS HILL
Textile Engineering
"R. L." Dawson, Georgia
Since the first term of his freshman year, when he led his class, Ralph has always been right at the top in his studies. By nature he is a very quiet boy and he is well thought of by all his classmates.
"If it's worth doing, do it right."

ARTHUR SPIER HILBRATH, 9 X
Mechanical Engineering
Savannah, Georgia
"Hillbilly"
If it weren't for Ex. E. his life would be an easy one. He has that Geechee brogue and a smile that won't wear off. Consequently he is absolutely essential when there is anything going on.
A. S. M. E.
"To get Ex. E. reports in on time."

JOHN WELBY HONOR, JR.
Electrical Engineering
Atlanta, Georgia
"Webby"
You now see before you a very promising young engineer commonly known as Honour. Webby is by no means a midget, and is one of those clever individuals whose droll remarks are constantly sending old men to the corner.
A. I. E. E.; Boys' High Club.
"To teach a girls' Sunday School class."

GEORGE ANDERSON HUBBARD, 6 X K
Electrical Engineering
Leda, Virginia
"Boots"
George is an exceptionally quiet boy. Perhaps that is why he is so well liked. He has never said anything to make anybody dislike him. It is rumored that he is a dark horse and hiding a daring past but definite proof has not been put forward.
Beta Tau; A. I. E. E.
"To find the proper girl to be old Mother Hubbard."

ROY DESHAZO HUFFINES
Special Textile
"Uncle Roy"
Denton, Texas
Roy is one of the old timers, having first played football on the Golden Tornado somewhere back about 1918. He left Tech for two or three years and this last year came back to finish up.
On the gridiron he fought his way up through the scrubs to the varsity squad. Finally he demanded a varsity job and he got it.
Varsity Football, '18, '23.
"The oil game for mine."
EDWARD OSWELL HUSSEY
Co-operative Engineering
"It isn't what you say, but what you do." is Eddie's motto. When he does a thing one may know that it is done right. He has made many friends here and elsewhere, the elsewhere being Lanett, Alabama.

"To get one month's vacation with pay."

"Eddie" Fitzgerald, Georgia

It isn't what you say, but what you do. is Eddie's motto. When he does a thing one may know that it is done right. He has made many friends here and elsewhere, the elsewhere being Lanett, Alabama.

"To get one month's vacation with pay."

WALKER PATTERSON INMAN, X 4
Commerce
"Monk" Augusta, Georgia
Monk says that he was born in Borneo, East India, but he would have a hard time proving such to us. He prepped at Culver, coming to Tech to win Military fame in '20. He has made quite an imposing figure in his Cadillac and Pearce Arrow.

Golf Team; Cotillion Club; Glee Club; Marionettes.

"To make Phi Beta Kappa."

TEA CARL JACOBUS
Electrical Engineering
"Jack" Tampa, Florida
Carl is small in stature but certainly fits into those Finchley clothes of his. Early in life he made a pilgrimage from Nashville to Tampa, which place is now his home. He intends to go back there and show them up after he gets the "dip."

"To be."

JOE LEMIE JENNINGS, 'A 0
Textile Engineering
"Tripod" West Point, Georgia
Joe may be little but he sure can play baseball, as he has demonstrated the last three years. It was this ability that won him the position of alternate captain on this year's nine. He is very popular in the mill, as well as elsewhere.

Freshman Baseball, '21, '22, '23; Alternate Captain, '24; Freshman Football, '21; Fitzgerald Club.

"To become Postmaster-General."

CYRIL NATHANIEL JOHNSON
Commerce
"Punch" Eagan, Georgia
Cyril is one of the Dean's brightest accountants. He is studious, and dependable. Nothing appears too hard for him, and he does all that is required unflinchingly. Scholarship "T"; Gold Medal highest grade in Sophomore Infantry; Honor Roll '21, '22, '23.

"To get a C. P. A. degree."

CECIL PATRICK JOHNSON
Co-operative Engineering
"Pat" Columbus, Georgia
Pat has the ability to amuse people very easily; even so easily, that he knows many from staying when he is around. Many of his moments are spent with the fair sex; sometimes he entertains them, sometimes they entertain him.

"To be exempted from all future Camps."

JOE LESLIE JENNINGS
Textile Engineering
"Tripod" West Point, Georgia
Joe may be little but he sure can play baseball, as he has demonstrated the last three years. It was this ability that won him the position of alternate captain on this year's nine. He is very popular in the mill, as well as elsewhere.

Freshman Baseball, '21, '22, '23; Alternate Captain, '24; Freshman Football, '21; Fitzgerald Club.

"To become Postmaster-General."

"It isn't what you say, but what you do." is Eddie's motto. When he does a thing one may know that it is done right. He has made many friends here and elsewhere, the elsewhere being Lanett, Alabama.

"To get one month's vacation with pay."

"Monk" Augusta, Georgia
Monk says that he was born in Borneo, East India, but he would have a hard time proving such to us. He prepped at Culver, coming to Tech to win Military fame in '20. He has made quite an imposing figure in his Cadillac and Pearce Arrow.

Golf Team; Cotillion Club; Glee Club; Marionettes.

"To make Phi Beta Kappa."

"Jack" Tampa, Florida
Carl is small in stature but certainly fits into those Finchley clothes of his. Early in life he made a pilgrimage from Nashville to Tampa, which place is now his home. He intends to go back there and show them up after he gets the "dip."

"To be."

"Tripod" West Point, Georgia
Joe may be little but he sure can play baseball, as he has demonstrated the last three years. It was this ability that won him the position of alternate captain on this year's nine. He is very popular in the mill, as well as elsewhere.

Freshman Baseball, '21, '22, '23; Alternate Captain, '24; Freshman Football, '21; Fitzgerald Club.

"To become Postmaster-General."

"Punch" Eagan, Georgia
Cyril is one of the Dean's brightest accountants. He is studious, and dependable. Nothing appears too hard for him, and he does all that is required unflinchingly. Scholarship "T"; Gold Medal highest grade in Sophomore Infantry; Honor Roll '21, '22, '23.

"To get a C. P. A. degree."

"Pat" Columbus, Georgia
Pat has the ability to amuse people very easily; even so easily, that he knows many from staying when he is around. Many of his moments are spent with the fair sex; sometimes he entertains them, sometimes they entertain him.

"To be exempted from all future Camps."

"Tripod" West Point, Georgia
Joe may be little but he sure can play baseball, as he has demonstrated the last three years. It was this ability that won him the position of alternate captain on this year's nine. He is very popular in the mill, as well as elsewhere.

Freshman Baseball, '21, '22, '23; Alternate Captain, '24; Freshman Football, '21; Fitzgerald Club.

"To become Postmaster-General."
MARION JOHNSON
Electrical Engineering
"L. M.
Columbus, Georgia
Marion is a good natured boy and a good electrical man. With these qualifications he should make a success when he leaves the old school. At least his classmates predict this for him.
A. I. E. E.: First Lieutenant, R. O. T. C.
"To introduce electricity into Columbus."

RUDOLPH GORDON JOHNSTONE, X 4
Textile Engineering
"Ruddie"
Winnabour, South Carolina
Ruddie prepped at Peacock and Boys' High, learning how to make the tea dances while attending these institutions of learning. He hasn't forgotten how to dance since learning, because he doesn't take much time out for any other kind of recreation except this.
Skull and Key, Secretary '22; Cotillion Club; Lint Head Club.
"To become a Mormon."

GEORGE GIBBONS JONES, F 2 K
Electrical Engineering
Florence, South Carolina
Gibbie first started boarding at Mrs. Vawter's in September, '20, having entered Tech that year. Since starting out in the engineering field, he has not failed to dream that he was taking Textile, and has been caught asleep in his classes many mornings.
"Three squares a day."

COURTLAND COOPER JORDAN, 2 F E
Special Textile
"Cody"
Athens, Georgia
C. C. was born in Covington, Georgia, in November, 1903, but that place was too small for him so his parents decided to move to Atlanta. In time to send him to Tech High for his prep school education. He is now one of the most enthusiastic cotton pickers we have.
Scrub Football, '22, '23; Tech High Club; Company Football and Basketball, '22, '23.
"To achieve success in the Textile world."

WESLEY MILLS KAYLOR, II A A
Mechanical Engineering
Decatur, Georgia
Bill won his seat in the hall of fame on the mid-term Ex. E. exam when he led the mechanical seniors by a considerable margin. He is one of that quiet type that act up work without talking too much about it.
A. S. M. E.; Yellow Jacket Staff, '23.
"To make good in the Engineering field."

WILLIAM FRANCES KEENAN, 0 X
Civil Engineering
Cartersville, Georgia
Bill's life would be one of roses if it were not for George. Having about seventy-four demerits to his credit, he is forced into the indignity of getting to eight o'clock military classes on time. This is indeed a curse.
A. S. C. E.; R. O. T.; Honor Roll, '21; Company Football,
"None whatever."

FRED GRIFFIN KELLY, JR.
Electrical Engineering
"Scientific"
Ensley, Alabama
It is with great pleasure that we next present the scientific genius of the class. Kelly once expressed his sentiments concerning final examinations and all listeners were very glad he taught them not. But since he has forgotten about the University of Virginia, he is one of the best liked fellows on the campus.
Honor Roll. '22, '23, '24; Scholarship "F".
"A worthy Disciple of Truth."
JOHN KENDRICK
Electrical Engineering
Atlanta, Georgia

"Jack"
John is a local product and so his presence at Tech is not hard to account for. He has shown considerable promise in his work and should turn out to be a credit to the class.
A. I. E. E.
"To be an Electrical Genius."

JEFFERSON EMMETT KING, K E
Civil Engineering
Baton Rouge, Louisiana

"Cap'n"
Cap'n was born October 12, 1901, at Ruston, Louisiana, and there he prepped at Ruston High. He went to Louisiana Polytechnic Institute and graduated from there in 1922 with a B.S. in General Engineering. He entered Tech in the fall of 1922 and has been making a fine showing ever since. His ambition is "To Serve" and we all feel sure he will do well.
Boxing Team, '22, '23; A. S. C. E.; E. O. T. C.; Friendships, Freshman Track; Turner Bible Class; Civil Crew; Railroad and Electric; Glee Club, '22, '24; "Expert Machine Gunner"; Member First Battalion Athletic Committee.
"To Serve."

WILBUR KING, K S
Mechanical Engineering
Wilmington, North Carolina

"Tut"
Tut spent a year at the University of Virginia before coming here, but in the three years here he has made many friends. He is quiet and is seldom in that much admired occupation of physically mauling his instructors.
Scrubs Football, '22; Scrub Basketball, '22; Freshman Basketball, '22; Free Body Club; A. S. M. E. .
"To be a success."

DAVID JULES KIRCHIS, T E F
Commerce
Key West, Florida

"Glee Club"
Around the class room this gold dust twin sparkles. He is known by the instructors for his promptness in taking the issue of the lesson. He has been of invaluable assistance to the Glee Club this season.
Glee Club, '26, '27, '28, '29; Scholarship "T"; Florida Club, President, '22; Technician Staff.
"To make 'em cry for me like babies cry for Castoria."

REUBEN KYLE, JR., H A
Mechanical Engineering
Columbus, Georgia

"Rube"
"Well, I don't know"—when that is said, one may know that Rube is around. He has an ambition to be original. Well, we'll say that he is! Everyone who knows him likes him, for he is witty in a way that is pleasant.
Y. M. C. A. Cabinet; Cross Country Team; Freshman Football; Freshman Basketball; Freshman Track; Columbus Club; A. S. M. E.; Second Lieutenant, E. O. T. C. '23.
"To be original."

GRAY LAMBERT
Commerce
Lasca, Alabama

"Wally"
"Wally" prepped at Camp High Industrial School and then left the United States long enough to face the Germans overseas. After doing noble work there he came to Tech determined to absorb a little of the knowledge that is given at this old school. We expect to see him a C. P. A. soon.
"To startle the accounting world."

THEOSON GAMET LANE
Electrical Engineering
Macon, Georgia

"Gant"
The Georgia city of pugilistic fame announced with pride the arrival of Gantt back in August of 1922. Lane hates to talk about himself much, so we were unable to determine his ambition, but we do know that he prepped at Lanier High.
Company Basketball, '22; First Lieutenant. '22.
"From Macon always from Macon."

WOLFE KAY LEFKOFF, T E F
Textile Engineering
Atlanta, Georgia

"Woof"
Lefkoff first put in his appearance in Mr. Driscoll's math class in '20, and it was there that he made himself the shining light. Being proficient in the climax art he is an outstanding man in the Textile mill.
"To own, operate, sweep up and clean up the Key Kotton Korporation of Kent, Kentucky."
BROOKS SMITH LIDE, S A E
Civil Engineering
Meridian, Mississippi
Brooks is a most popular boy and says he just can't help being so good looking. He has many virtues, foremost among which is his ability to make friends. His years at Tech served to prove this fact conclusively. He is one of the lucky boys that graduated in January.
R. O. T.; President, A, S. C. E.; President, Civil Crew.

"To get through Tech, then?"

JAMES ALLEN LINK, JR.
Civil Engineering
Atlanta, Georgia
"Missing" Link, the rest of us having already decided that "Miss-" Darwin should have grown a beard! Link is an Ex. E. shark of renown, being an expert on the poppet steam valve.
A. S. C. E.; R. O. B. T.

"To become a sausage"

CHARLES PELHAM LOCKWOOD, II A A
Civil Engineering
Columbus, Georgia
True to the tradition of his home town, Pel has always been an ardent admirer of the fair sex. This must have attributed to Pel's neat ways. He has made a good scholarship record and should make a good rod-hopper.
A, S. C. E.; R. O. B. T.; Civil Crew; Columbus Club; Second Lieutenant, R. O. T. C.; Y. M. C. A. Friendship Council; Blue Print Staff. '23, '24; Associate Editor. '24; Company Football. '20. '21; All Saints' Bible Class, President, '22; Churchman's Club, President, '23.

"To make a success in life."

JAMES HERMAN LYNN, JR., II K Ph
Commerce
St. Augustine, Florida
This boy is one of Tech's mainstays on the golf foursome. Last year he reached the semi-finals in the Inter-Collegiate meet. He and Bob Daniels are still driving neck-and-neck in the eating contest.
Golf Team. '23, '24; Delta Sigma Pi; Golf Club; Florida Club; Commerce Club; Inter-Commercial Fraternity Council; First Lieutenant, R. O. T. C.

"Under par or bust."

ANDRAH BRATTON, K A
Automotive Engineering
York, South Carolina
"Andy" is most versatile, being both a catcher and a pitcher. He can catch more baseball and pitch more bull per twenty-four hours than anyone we have had the distinction of meeting. He gives proof of experience as the secret. He ought to know.

"If at first you don't succeed..."

LIONEL KOPPEL LEVY
Architecture
Augusta, Georgia
For four years now Lionel's drawings have graced the Tech publications and the reputation they have won him is one to be envied. His work in the Architectural Department has been of equal merit, his designs having won several mentions. He has an Irish sense of humor for which he is noted.
Pi Delta Epsilon; Band. '20, '21; Glee Club. '21, '22; Stage Manager. '22; Marionettes. '22; Blue Print. '22, '23, '24; Art Editor. '23, '24; Yellow Jacket Art Editor. '22. '23; Y. M. C. A. Friendship Council; Art Editor Technique. '23, '24; Art Editor Barrage. '23.

"To draw hosiery ads."

JOHN FRANKLIN MCLINTIC, JR., X N
Commerce
Pine Bluff, Arkansas
Johnny Mac has been a prominent figure on Grant Field for some time and it is with regret that we see him leave. He is one of the best natural men it has been our pleasure to know, and during his stay at Tech has made a host of friends.
Scrub Football. '19; Varsity, '20, '21, '22, '23; Captain. '23; Anak; Koorne; Ball Dogs; Delta Sigma Phi.

"To change the name of Arkansas."

MARVIN GLASS PERRY
Electrical Engineering
Center Hill, Florida
Slim has always caused more or less attention because of his size. This size is not to be limited to his physical condition as his record in school shows.
A. S. E. E.; Florida Club.

"To overcome the Ex. E. Department."

"Enrico" Meridian, Mississippi
Brooks is a most popular boy and says he just can't help being so good looking. He has many virtues, foremost among which is his ability to make friends. His years at Tech served to prove this fact conclusively. He is one of the lucky boys that graduated in January.
R. O. T.; President, A, S. C. E.; President, Civil Crew.

"To get through Tech, then?"

JAMES ALLEN LINK, JR.
Civil Engineering
Atlanta, Georgia
"Missing" Link, the rest of us having already decided that "Miss-" Darwin was a woman. Darwin should have grown a beard! Link is an Ex. E. shark of renown, being an expert on the poppet steam valve.
A. S. C. E.; R. O. B. T.

"To become a sausage"

CHARLES PELHAM LOCKWOOD, II A A
Civil Engineering
Columbus, Georgia

Electrical Engineering
Center Hill, Florida
Slim has always caused more or less attention because of his size. This size is not to be limited to his physical condition as his record in school shows.
A. S. E. E.; Florida Club.

"To overcome the Ex. E. Department."
ROBERT BERTRAND ANDERSON CAMPBELL MACINTYRE, K A
Special Textile

"Bert"
Here we have the character of the institution. In Bert is vested that particular office of Court Jester as applied to the Georgia School of Technology. He fills his office in an incomparable manner and is the only man at Tech who could sell William Jennings Bryan a case of Scotch and get away with it.

Cotillion Club; Marionettes; Give Club. '23, '24; Vice-President, '24.
To show up Al G. Fields & Co.

ROGER WOODS MALONE, K A
Post Graduate Commerce

"Rog"
Rog didn't get enough of school in four years and came back to do a little post grad work. We were only too glad to have him back. but Cupid took a hand in the matter and poor Roger has assumed his duties as the head of a household. We are sorry to see him go and wish him luck.

Scrub Football. '21, '22, '23; Scrub Basketball. '21, '22; Varsity. '23, '24; Company Athletics; Cotillion Club; A. S. M. E.; Oil Can Club; First Lieutenant. R. O. T. C.
"To dodge the rolling pin as long as possible."

JOHN FRANKLIN MARLOWE
Electrical Engineering

"Joe-bob"
"Red" first came to us in 1919 but failed to put in his appearance in 1921. After being away two years he made up his mind that he wished to become an Electrical Engineer and that Tech was the place to secure the essentials, so again Mr. Houston took the "filthy lucre" that placed him in good standing.

A. I. E. E.
"To be an Electrical Engineer."

WILLIAM HENRY MARTIN, Jr.
Special Textile

"Winkie"
Winkie first went to Michigan to school but, having conferred with some member of the Commerce Department, decided to come here and take instruction from Dean Watters. He is decidedly popular and an outstanding student.

Marionettes. '23, '24; Scabbard and Blade; Captain Company "C", R. O. T. C., '22, '23. "Get it or bust."

KENNETH GORDON MATHESON, Jr., K A
Mechanical Engineering

Bryn Mawr, Pennsylvania
Kenneth is the second great man of the same name to leave Georgia Tech with all the honors the school has to bestow upon him. He has followed in the footsteps of his father, and earned the utmost respect and admiration of every man in the institution. He is unassuming and unaffected and a man Tech will be proud to point out as an alumnus.

Phi Kappa Phi; Pi Delta Epsilon; Beta Tau; Vice-President, Alpha; Kappa; Bull Dogs; Vice-President; Senior Class; Honor Court, '22; Student Council, '23, '24; Vice-President, '24; Trench Follies, '22, '23; Oil Can Club; Scholarship "T"; Oil Can Club; Blue Print, '22, '23; Technique, '23, '24; Associate Editor, '23; Technique Board, '24; Cotillion Club; Varsity Tennis Team, '23, '24. Captain, '24; Captain, R. O. T. C.; A. S. M. E.; Treasurer, "T" Club.
"To do everything I undertake to the best of my ability."

CHESTER MAYNARD
Electrical Engineering

"Chess"
"Chess" first started thinking up some way of getting to Georgia Tech and getting even with the Ex. E. department on the 29th day of January, 1900. He prepped at the Winder High School, finishing there in 1916. Since his arrival he has continued his thoughts about our much beloved department but with little success.

Square and Compass: A. I. E. E.
"To put something over on the Ex. E. Department and then die happy."

THOMAS MOORE MCCARRELL, Jr., K A
Civil Engineering

"Mac"
"Mac" was born in Jacksonville, Florida. but soon decided he didn't like it and moved to Charleston. South Carolina. where he prepped at Charleston High before entering Tech in 1920. When asked what his ambition might be he said that he wanted a schedule without an eight o'clock class. He must stay up late at night!

Honor Roll. '21, '22; Glee Club, '23, '24; Managing Editor of Yellow Jacket, '23, '24; R. O. R. T. A. S. E.
"To make an eight on time."

KENNETH GORDON MATHESON, Jr., K A
Mechanical Engineering

"K. G."
Kenneth is the second great man of the same name to leave Georgia Tech with all the honors the school has to bestow upon him. He has followed in the footsteps of his father, and earned the utmost respect and admiration of every man in the institution. He is unassuming and unaffected and a man Tech will be proud to point out as an alumnus.

Phi Kappa Phi; Pi Delta Epsilon; Beta Tau; Vice-President, Alpha; Kappa; Bull Dogs; Vice-President; Senior Class; Honor Court, '22; Student Council, '23, '24; Vice-President, '24; Trench Follies, '22, '23; Oil Can Club; Scholarship "T"; Oil Can Club; Blue Print, '22, '23; Technique, '23, '24; Associate Editor, '23; Technique Board, '24; Cotillion Club; Varsity Tennis Team, '23, '24. Captain, '24; Captain, R. O. T. C.; A. S. M. E.; Treasurer, "T" Club.
"To do everything I undertake to the best of my ability."

CHESTER MAYNARD
Electrical Engineering

"Chess"
"Chess" first started thinking up some way of getting to Georgia Tech and getting even with the Ex. E. department on the 29th day of January, 1900. He prepped at the Winder High School, finishing there in 1916. Since his arrival he has continued his thoughts about our much beloved department but with little success.

Square and Compass: A. I. E. E.
"To put something over on the Ex. E. Department and then die happy."

THOMAS MOORE MCCARRELL, Jr., K A
Civil Engineering

"Mac"
"Mac" was born in Jacksonville, Florida. but soon decided he didn't like it and moved to Charleston. South Carolina. where he prepped at Charleston High before entering Tech in 1920. When asked what his ambition might be he said that he wanted a schedule without an eight o'clock class. He must stay up late at night!

Honor Roll. '21, '22; Glee Club, '23, '24; Managing Editor of Yellow Jacket, '23, '24; R. O. R. T. A. S. E.
"To make an eight on time."
VIRGIL ENLOW MCDOWELL
Textile Engineering
Dawson, Georgia

"Mack" Dawson, Georgia

This dashing young Coast Artilleryman, who is the proud possessor of a plated sharpshooter's medal, is the type of man who always tries to worry him. Despite the fact that he has the Honors Roll, he is one of Tech's best textile students, this being much in his favor. Honor Roll, '23; Company Basketball, '21; Company Baseball, '20, '21.

"Fast to finish."

JOE WILL MCGEE
Commerce
Raymond, Georgia

"Mac" Raymond, Georgia

"Mac" prepared at Fourth District A. & M. and about the time he finished, he decided his ambition was to become an accountant. After four years here he is about ready to see it realized. No doubt he will make a success because our observations have shown that he has learned much about debits and credits, since giving himself over to Dean Watters.

Phi Kappa Phi.

"To be a Certified Public Accountant."

JOHN A. McGLOTHLIN
Special Textiles
Chattanooga, Tennessee

"Money Mark" Chattanooga, Tennessee

Mark sailed when we were in the fall of 1922, and has devoted the past two years to good hard work over in the textile mills. Now that this period of time is over, Mark feels he is well able to start the textile world.

Square and Compass.

"To be President of 'See More' Hosiery Mills."

JOHN MILLAR, III
Mechanical Engineering
Newport News, Virginia

"Jawn" says his birthplace was in good old Ireland; Belfast by the sea. As for an ambition he says if he's looking, but we know that he will make a success of whatever he goes into. He has graced the Honor Roll every since coming to the Institution and has scrubbed on Grant Field quite a few afternoons.

"To be the world's best mechanic."

GEORGE STERLING MCKEE
Mechanical Engineering
Milledgeville, Georgia

"Fannie" has indeed been a revelation. In spite of his smallness of stature, he has startled the campus with his deep bass on the parade grounds. His most famous feat was shipping Professor Kellogg's golf bag and offering him a cigar. The effect was one of the most startling ever witnessed on the campus.

Honor Roll, '20, '21, '22; Body Club; Technique Staff, '20, '21, '22, '23; Circulation Manager, '21; Blue Print Staff, '21; Second Lieutenant '22, Captain, '23; Scabbard and Blade; Columbus Club.

"Success in whatever I undertake and a little home out in the West."

WILLIAM TROY MCWHORTER, A.T.A
Textile Engineering
Atlanta, Georgia

If there's a man on the campus Mac doesn't know, there must be something wrong with him. He spends his time telling the high quality of Muse clothing, bulling, and doing his stuff socially on the weekends. Incidentally he knows textile engineering from the raw cotton to the finished curtain.

Lincoln: Captain R. O. T. C. '24; Yellow Jacket Staff, '22.

"To make Tech the Style Centre of the South."

EDWARD GRAHAM MERRITT, K S
Commerce
Atlanta, Georgia

"Ed" is one of our best dressed men and always has a smile for everyone he meets. As a result he numbers his friends by the hundred. Glance at the list below and decide for yourself just how versatile he is—he must be as good at dancing as he is at making rules.

Alpha Kappa Psi: Cotillion Club: President, '24; Delegate Inter-Fraternity Council Meeting New York, November, 1923: Golf Club; Student Council, '24; Pan-Hellenic Council, '23, '24; President, '24.

"Let no possible graft go unused."

WILLIAM HOWARD MCNEIL
Textile Engineering
Milledgeville, Georgia

"Jawn" says his birthplace was in good old Ireland; Belfast by the sea. As for an ambition he says if he's looking, but we know that he will make a success of whatever he goes into. He has graced the Honor Roll every since coming to the Institution and has scrubbed on Grant Field quite a few afternoons.

Scrub Football, '21, '23; Freshman Football, '20; Phi Kappa Phi; Free Body Club; Cosmopolitan Club; A. S. M. E.; Honor Hall, '21, '22, '23; Y. M. C. A. Cabinet.

"To be the world's best mechanic."

JOHN MILLAR, III
Mechanical Engineering
Newport News, Virginia

"Jawn" says his birthplace was in good old Ireland; Belfast by the sea. As for an ambition he says if he's looking, but we know that he will make a success of whatever he goes into. "To be the world's best mechanic."
JOHN AUBREY MINOR, E E
Electrical Engineering
Marion, Georgia
“Curly”
John is a military boy and a hard worker from start to finish; what he goes into he tackles in earnest. On the track and in the class room he has shown up well. He expects to keep this up after he leaves Tech, as he is on the watch for favorable reports of his doings later.
Track, ’23, ’24; Scabbard and Blade; Major Fourth Battalion; Secretary and Treasurer A. I. E. E.
“To keep from starving to death.”

THOMAS HOWARD MITCHELL, X E
Co-operative
Bartow, Georgia
“Mitch”
Mitch is a track man of note, having worked hard on the cinder path since first coming to Tech. His endeavor was rewarded and he has been of value to the Alma Mater in several track meets. Tom possesses a very pleasant personality and has made many friends while here.
“To make a fortune.”

CHARLES HOWARD MOONEY
Mechanical Engineering
Atlanta, Georgia
“Runt”
Charlie is another of those boys with whom a grin seems to be chronic. He is seldom without it and consequently always finds himself in the party. He started out to be an architect, but soon mended his ways and became an ardent supporter of the B.T.U.
A. S. M. E.; Tech High Club; Second Lieutenant O. R. C.
“To be successful and happy though married.”

WILLIAM ALVIN MOORE
Electrical Engineering
Atlanta, Georgia
“Tarzan”
No. Moore is no ladies’ man even though his picture may give one the impression of a tea hound. Don’t let this statement give you the impression that Tarzan spends all his time studying. On the contrary, he is one of those fellows who manage to make the grades and still has a few spare moments for other things.
“To conquer the world for Electricity.”

EDWARD EVERETT MORRIS
Commerce
Macon, Georgia
“Percy”
The sweetest thing Percy ever did was to take Commerce. He possesses the thing that is most needed in that course—a good line of bull. He is also one of the best officers Tech ever turned out. His ability to talk and to handle men ought to give him a good start in the world of business.
Macon Club; Captain Co. A, ’22; Second Lieutenant O. R. C.
“To be what I am not.”

PAUL MATHEWSON NEESE
Civil Engineering
Marietta, Georgia
“Neese”
Noise expects to go back to jolly old London town and rebuild London bridge when he graduates. In the meantime he is making a collection of photos and a good line to shoot the English maidens. Here’s to Saint George and Merry England, and may your navy never be defeated.
R. O. B. T.

GEORGE JEFFERSON NEIGHBORS
Electrical Engineering
Cleburne, Texas
“Jeff”
Jeff is the business manager of this fine looking Annual and his capability will speak for itself. He came all the way from the “Lone Star State” to show the professors some of his knowledge. He is a likable chap and one worth knowing.
Blue Print Business Manager; Phi Kappa Phi; Pi Delta Epsilon.

JOHN BEATTIE MURRAY
Automotive Engineering
Shelby, North Carolina
“A. S. M. E.”
It took twelve hospitals to rearrange the juxtaposition of John’s anatomy caused by a recent trip to France, but he graduated from each with honors and retained his education. During this time he became an authority on mechanics, design, and several other subjects.
A. S. M. E.; S. A. E.
“To be a regular ‘He’ man.”

JOHN BEATTIE MURRAY
Automotive Engineering
Shelby, North Carolina
“A. S. M. E.”
It took twelve hospitals to rearrange the juxtaposition of John’s anatomy caused by a recent trip to France, but he graduated from each with honors and retained his education. During this time he became an authority on mechanics, design, and several other subjects.
A. S. M. E.; S. A. E.
“To be a regular ‘He’ man.”
ALAN VAN HOOK NEILSON, 6 X
Civil Engineering
Gberapa, Louisiana

"Mate"

This silent, shaggy-looking man from the land of the Creole is quiet but consistent. If you get what we mean. He does well enough in his subjects to stave off the Committee, and he has succeeded in making a name for himself as a connoisseur of femininity.
R. O. B. T.
"To have what I want."

GEORGE DAVID NEWTON
Civil Engineering
"Fig"
Fayetteville, North Carolina

Outside of being a Tarheel this boy is all right. He has never missed a performance of the Bonita and is an authority on good music. In spite of these shortcomings he will make a good engineer and a success.
"To design a tunnel under the English Channel."

GEORGE DAN NOLEN
Mechanical Engineering
"Dan"
Middleton, Tennessee

From the midget of the freshman class Dan has grown to be the most proficient in his studies and has added two inches to his height. With the prestige resulting from these he has established himself with the roster as well as the fellows.
A. S. M. E.; Honor Roll, '23; First Lieutenant R. O. T. C.
"To finish Georgia Tech."

HENRY MARTIN NORTH, 4 X
Electrical Engineering
Augusta, Georgia

"Wang Loo"

Henry came to Tech after a most eventful career at Richmond Academy and has made a similar one here. He has done considerable work with the Marionettes and has made friends with the College girls, who are all quite willing to stick by him.
Technique; Marionettes.
"To take electricity into China."

CHARLES SWIFT NORTHERN, 4 X
Textile Engineering
Atlanta, Georgia

"Geo. Muse"

The young "Tea Hound" who wants to make Tech the style center of the South. If he keeps up at the rate he is going he sure will have it there before long, too. Being a native of this fair city of Atlanta he, of course, went to Tech High and then came to Tech in the fall of 1920.
Junior Track Manager; Football Rubber; Cotillion Club; Linthom; First Lieutenant R. O. T. C.; Marionettes, '21, '22; Cast, '21, '22.
"To manufacture suits for George Muse and wish 'em off on Tech."

DONALD PARKIS
Electrical Engineering
Johnson City, Tennessee

"Madame"

Madame is one of the characters of the class. His manner is an appealing one and his classmates have not failed to appreciate it and predict a glowing future for him.
A. I. E. E.
"To live by electricity."

LESLIE PATTON
Co-operative Engineering
Atlanta, Georgia

"Fat"

Pat has been a hard worker in the Y. M. C. A. during the time he has been at Tech and has made quite a name for himself in this line. His school work has also been worthy of note so that the school will lose a valuable man in losing him.
Y. M. C. A. Celibate; Technique; Blue Print; Secretary Y. M. C. A., '23; Friendship Council.
"To profit by Gene Turner's example."

ALLAN JOHNSON NORTH
Mechanical Engineering
Hawton, Georgia

"Greasy"

Allan's principal line is design. He is one of the best in his subjects and is designated a steam engine for an airplane; the only trouble being in getting out to shoved in coal. As soon as this difficulty is overcome, his fortune is made.
A. S. M. E.; Company Football.
"To finish Georgia Tech."

DONALD PARKIS
Electrical Engineering
Johnson City, Tennessee

"Madame"

Madame is one of the characters of the class. His manner is an appealing one and his classmates have not failed to appreciate it and predict a glowing future for him.
A. I. E. E.
"To live by electricity."

Co-operative Engineering
Atlanta, Georgia

"Fat"

Pat has been a hard worker in the Y. M. C. A. during the time he has been at Tech and has made quite a name for himself in this line. His school work has also been worthy of note so that the school will lose a valuable man in losing him.
Y. M. C. A. Celibate; Technique; Blue Print; Secretary Y. M. C. A., '23; Friendship Council.
"To profit by Gene Turner's example."
PHILIP SHERWOOD PAUL, D T A
Mechanical Engineering
Dallas, Texas

“Phat”

“French” is a demon about automobiles. He would rather putter around some old delirium of an engine than sleep. In mathematics, he and Tiny matched their arguments to such an extent as to take up most of the course. His trusty pipe and avoirdupois should make him a most capable engineer.

beta Tau; Scabbard and Blade; Secretary A. S. M. E.; Honor Roll, ‘21, ‘22; Captains A. O. T. C.; “To go into the 4th business (Cottin).”

LEWIS GORDON PITTS, X
Textile Engineering
Atlanta, Georgia

“Rabbi”

This plump young love bird is quite a tea hound, as well as a fairly good Textile Engineer. His training at Kentucky Military Institute trained him to get out of a lot of unnecessary work while at Tech.

“Not to get mixed up with physical exertion.”

CHARLES ALBERT PHIPPS, II
Electrical Engineering
St. Petersburg, Florida

Al
c

How a man can do so much work as Al does is beyond us. He has been successful in practically every activity in school. Add to this the fact that he is one of the highest students in the electrical class and you wonder increases. However, Al finds time to make the social round and to be in love.

“To be of value as a Foreign Missionary.”

CECIL WEAVER POWELL, II
Commerce
Fitzgerald, Georgia

Knowing Cecil quite well, we must say that he is a very conscientious boy. Regardless of how late he comes in from his date, he will study for his next day’s classes before going to bed. His delight in shooting certain of his professors, and you can usually tell by the expression on his face whether he has had a successful evening or not.

“To accomplish the great things that I attempt.”

LEWIS EARL PUNNET
Electrical Engineering
College Park, Georgia

This good looking youth persuaded his family that Norwich, New York, was entirely too cold for his shining countenance so he prepped at G. M. A. While there he became aware that such an institution as Tech existed and a desire to see what its walls contained caused him to enter her portals as a rat in 1920, where he has been tooting his horn ever since.

CECIL HENRY RAMSEY, K
Civil Engineering
Albany, Georgia

“Shiek”

“Shiek” has been very consistent in his studies and activities since coming to Tech town. We find him the possessor of quite a few honors, as he leaves the old school, and some day he is liable to make his home town famous. Many are the ladies, too, who have succumbed before his mighty smile.

“arxiv money out of the Engineers’ $100.00 per.”

HENRY LEWIS REEVES
Mechanical Engineering
North Chattanooga, Tennessee

Henry

Henry is one of the most popular boys in the Junior class. He is a fine student and is always ready to help his friends.

Laugh and the world laughs with you.”

JAMES LEAK REEVES, X
Commerce
Madison, Georgia

Leak is a quiet lad and has a good word for everybody. He prepped at Madison High and then brought his winning personality to Tech where he has made friends with everyone with whom he has come in contact.

“arxiv money out of the Engineers’ $100.00 per.”

JAMES LEAK RYDER, X
Commerce
Madison, Georgia

Leak is a quiet lad and has a good word for everybody. He prepped at Madison High and then brought his winning personality to Tech where he has made friends with everyone with whom he has come in contact.

“arxiv money out of the Engineers’ $100.00 per.”
CHARLES FRANKLIN RICH, Σ X
Civil Engineering

"Charlie"
Wilmington, North Carolina
This boy sling a mean transit, or whatever you do with one. Anyway he knows his stuff. On Friday nights, too, he is usually in evidence at the dances, talking confidentially to some maiden.
Honor Roll: '21; A. S. C. E.; Civil Crew; R. O. B. T.
"To live up to my name—which I confidently expect to do."

MURRAY WHEELER RIKARD
Civil Engineering

"Pappy"
Newberry, South Carolina
We predict a wonderful addition to the civil engineering profession when this boy graduates. He will no doubt specialize in bugology. Pappy has made many friends in school, and has at the same time pretty well shot his profs.
"To build an apartment house in Peters Park."

ALLEN WEEKS RIPLEY, JR.
Civil Engineering

"Rip"
Atlanta, Georgia
Rip first began making love on October 25th, 1902, and has been at it ever since. He prepped at Boys' High School and entered Tech in the fall of 1920. Since coming to Tech he has been a good student and will leave behind him a good record.
Lieutenant Officers Association; E. O. R. T.

ROBERT WAYSON ROANE, Ω X
Special Textile

"Buho"
Atlanta, Georgia
"Buho" havin' lived here in Atlanta all his life went to Boys' High School, prepped, and then entered Tech in the fall of 1920. Since coming to Tech he has been quite active in basketball and baseball. Buho was a member of Freshman Five for the last two years.
Basketball: '21; Basketball: '21, '22, '23, '24; Captain: '24; Freshman Basketball: '21; Keene; Boys High Club.

HENRY COOK HOBERT, Jr., Ω X
Civil Engineering

"Marty"
Atlanta, Georgia
This budding genius started shooting the profs February 10, 1904, and after scoring them all over he decided to try his hand at Tech and so entered here in 1924. If it wasn't for the Ex. E. Department "Harry" says he'd be all right.
Honor Roll: '21, '22, '23; Adjunct Editor, '24; Editor-in-Chief, '25; T. H. S. Club; Cadet Colonel, '24; Technical Staff: '24; Company Football Champions, '21.
"To be a Toreador."

DELMAR DARRIN ROBERTSON
Mechanical Engineering

"Bub" Atlanta, Georgia
A man of many accomplishments. His editorship of this annual will vanish for his ability, and in other things he is just as good. When he graduates Tech will lose an excellent student, a high-powered journalist, and a mighty good boy.
Pi Delta Epsilon; Scabbard and Blade; Beta Tau; Scholarship "T"; Marionettes, Vice-President, '24; Badge Print, '22, '23, '24; Assistant Editor, '23; Editorial-Chief, '24; Technical, '22, '23, '24; Manager Editor, '24; Technique Board; Oil Can Club; Captain E. O. R. T.; A. S. M. E.; Golf Club; Winner Freshman Oratorical Medal, '21.
"Through life as an optimist."

JAY EDWIN ROHRER
Civil Engineering

"Bub"
Fitzgerald, Georgia
Rip has pulled the old Winkle stunt for some twenty-two years now and is beginning, at times, to show signs of waking up. He always manages to be on hand when the nourishment is passed around, and his droll manner has won him many friends. Let him in case for you.
"Rip Van Winkle was right!"

HAROLD FRANCOIS ROZIER
Electrical Engineering

"Baby"
Sparta, Georgia
Baby is a very quiet boy and tends strictly to his own affairs. Perhaps this is why his studies have always been done in just-spit style. He has won the respect of his classmates because of his reasoning ways.
"To do it with electricity."
ERNEST RUBIN, T E 4
Electrical Engineering
Atlanta, Georgia

"Rube"
Rube is a hard-working rascal and has so far managed to stall the well-known wolf of deficiencies from his door. If he can continue to do this throughout life he should make a success of the game he has chosen as his life's work.
"More Kilowats per horsepower."

ALFRED RUB RUMBLE
Electrical Engineering
Macon, Georgia

"Radio Ralf"
If ever in doubt, ask Radio Ralf why those two stages of radio frequency refuse to cooperate properly, or why it is that Aunt Margaret's parrot is the only thing you can hear in the Magnavox.

JAMES WARREN SANFORD, D 0
Electrical Engineering
Augusta, Georgia

"Dingle"
This ambitious youth claims the growing metropolis of Augusta as his home, and A. R. C. as his alma mater of prep days. Entering Tech in 1920, he has been continually absorbing ideas in his never-ending attempt to procure that B. S. degree. Dingle holds no fear of leap year and is right at home among the fair sex.

ILDEFONSO SANTAMARIA
Mechanical Engineering
Havana, Cuba

"Santa"
Santa gets the gold medal for being good natured. He has been accused of being President of Mexico on so many times that he is beginning to believe it himself. At any event he has the wholehearted support of the senior class and they want him to enter the race.

SAMUEL GOURRIER SELSER, E
Civil Engineering
Alexandria, Louisiana

"Bromo"
"Bromo" was born on July 22, 1903, at Silverview Plantation but didn't like it so much there so he went to St. Paul, Minnesota, to prep at St. Thomas. After getting all the knowledge he could from that part of the country he came to Tech in 1920. He claims Alexandria as his home town, and hopes to get back there some day as chief engineer.

J. C. R. E.; Civil Crew.

LEE SENS, D K S
Special Textile
Cameron, Texas

"Kid Sens"
Kid Sens first went to the University of Texas, where he made an enviable record on the track. After spending four years at the University he joined the army and stayed in Mexico for a few years. It is reported that his track ability can not be of use to Tech.

Alpha Kappa Psi: Sigma Delta Psi.

FRANK KEHRER SHAW
Electrical Engineering
Atlanta, Georgia

"Shimmie"
Though named Shimmie, he maintains that Chemistry is no crip. He spends half his time arguing about the greatness of Tech High, and the other half in trying to get out of work.

WALTER THOMAS SHEPARD
Civil Engineering
Atlanta, Georgia

"Shep" first started yelling like a rambling wreck back in December of 1901, and immediately
decided that nothing would do but that he must come to Tech and design a few bridges and a
truss or two. He prepped at Tech High and finally got here in 1920.

To go; to see; to conquer. (With apologies to Julius Caesar.)

WILLIAM EDWARD SICKLE

Engineering Chemistry
Savannah, Georgia

After spending a few years doing prep work at the Savannah High School, Red came to
Tech to interest himself in the deep studies given by the Chemical Engineering Department. He
has been successful in the pursuit of all his subjects, having made the honor roll several
times.

Beta Tau; Kappa Kappa Psi. Vice-President. '24; Savannah Club; Emerson Chemical Society,
President. '24; Marionette Orchestra Leader; Gee Club Orchestra. '23, '24; Band. '23, '24, '25;
Bomber Ball. '22, '23; Captain R. O. T. C. '24.

To succeed John Phillip Sousa.

FRANK WINTHROP SMALLEY

Engineering Chemistry
Savannah, Georgia

Frank, after prep work at G. M. A., came to Tech in 1919. It is said that while he was
restricted to the Campus at prep school he took up magic, and in this way he has learned
to dispose of the many beakers and glasses that have been in his laboratory.

Emerson Chemical Society; Savannah Club; G. M. A. Club.

To sleep 248 hours without waking.

JULIAN EARLE SMITH

Commerce
Reidsville, North Carolina

After serving his country in France, this young Tar-Heel came to Tech to break some schol-
larship records. And break them he has, for there was never a more studious lad than J. E. At
the same time he has succeeded in entering heartily into activities and being a well liked student—
a rare combination.

Golf Club. '23, '24; Inter-Commercial Fraternity Council; Blue Print. '24; Technique Advertising
staff. '23; Yellow Jacket Advertising Staff. '22, '23; Editorial Board. '24; Vice-President Senior
Commerce Class; Delta Sigma Pi; Honor Roll. '22; Vice-President Georgia Tech Chamber
of Commerce.

To rival Babson.

MILTON ALLAN SNYDER

Mechanical Engineering
Philadelphia, Pennsylvania

"Old Master" went four years at Emory and graduated from there before he decided to
take up architecture. He has been at Tech for three years, during which time his quite dry
repartee has been of such good quality that he is now recognized as an authority on this subject.

Architectural Society; Honor Roll. '22, '23.

To desire a palace for her.

MILTON MARVIN SMITH, "Muggsy"

Special Textile
Atlanta, Georgia

Muggsy started in school several years ago but dropped out for a while. He couldn't stand
it anywhere else so he came back this year to finish up. He is exceedingly good natured and
consequently very popular.

Scrub Football. '21; Scrub Basketball. '24; Scrub Baseball. '24; Cotillion Club.

The smile gets them.

RICHARD JACKSON SNELLING

Architecture
Pinehurst, Georgia

"Old Master" went four years at Emory and graduated from there before he decided to
take up architecture. He has been at Tech for three years, during which time his quite dry
repartee has been of such good quality that he is now recognized as an authority on this subject.
Architectural Society; Honor Roll. '22, '23.

To desire a palace for her.

SAMSON SNYDER, "Strong Man"

Commerce
Bastrop, Louisiana

During Sampson's junior year his home town became one of the most talked of places in
the United States. Although his ambition was to put Bastrop on the map this was taken
away from him by the Ku Klux Klan and all he can do now is to return knowing that the old
home town has at least been heard of.

To put Bastrop on the map.
STEPHEN VAN RENSSLAER SPITLER, A 2
Civil Engineering
Continental, Ohio
Born at Toledo, Ohio, on June 3, 1901, “Steve” decided that it was too big for him and so moved to Continental where he prepped at the Continental High School. Steve heard of Tech later on and decided to come here and so he did in 1921. He has a fine record which speaks for itself.
“Happy, though married.”

OLIVER PORTER STARK, JR.
Electrical Engineering
Russellville, Arkansas
Bo is one of those whose efforts have been expended toward keeping the name of Arkansas from being changed. So far his efforts have been successful. He is now going back there and apply the principles of applied electricity to the problem, which should cinch the matter.
“To keep the fences of friendship in repair.”

JOHN CURTIS STATON.
Electrical Engineering
“John” Atlanta, Georgia
The brilliancy of John Staton cannot be kept within the boy. He got a good start in the freshman class and has not let the professors rest since he learned to ask them things that they knew nothing about.
Varsity Football, ’20, ’21, ’22, ’23; Track, ’23, ’24; First Lieutenant R. O. T. C., ’22, ’23, ’24; Associate Editor, ’21, Technique; ’22, ’23; Board, ’24; President Freshman Class; Sophomore Baseball Manager, ’22; Glee Club, ’21, ’22, ’23, ’24; Blue Print, ’21, ’22, ’23, ’24; Associate Editor; ’22, Technique; ’21, ’22, ’23, ’24; Student Council, ’22; Heterian (7” Club, ’22; Phi Delta Epsilon; Kiwan; Cotillion Club, ’T Club, Boys High Club; Scholarship Editors.
“To take Henrietta’s place in the newspaper world.”

ARTHUR STEIL
Civil Engineering
“Barney” Fernandina, Florida
“Barney” was born at Fernandina, Florida, on December 31, 1900, and there he first started prep school at Fernandina High but soon tired of it so he came to Atlanta and tried the Georgia Military Academy. He didn’t like it quite well enough, so he went to Tech High School and graduated from the latter in 1920. He entered Tech the same fall and although he is inclined to be very quiet, he is quite studious and has made a good record at school.
R. O. B. T.
“To get revenge on the Ex. E. Department.”

WALTER CHANDLER STEVENS, X
Electrical Engineering
“Walt” Carlton, Georgia
Any man who is lucky enough to possess a complexion like Walt’s will never feel lost on the dance floor. Walt, it is reported, is seen to pose as a model in a Woodbury soap ad. Technique staff, ’23, ’24; Society Editor, ’24; First Lieutenant, ’24; Circulation Manager, ’24; A. I. E. E.; Honor Roll, ’22; First Lieutenant, ’24.
“To pose for Mr. Arrow.”

WARREN ASHEW STEWART
Automotive Engineering
Atlanta, Georgia
Warren is one of the automotive boys, resulting from an automobile ride during his early youth. Since that time he has had several and hence he has decided to make in his life’s work. He is becoming second only to Bratton in the art of Bulldog.
S. A. E.; Company Athletics.
“To make my progress and success by service.”

RUSSELL HANFORD STOKES. 2; X
Electrical Engineering
“Rosie” Atlanta, Georgia
Rosie is one of the deepest men we have. His bass voice descends two and one-half notes below those perceivable to the human ear. His work for four years on the Yellow Jacket Four has been of excellent quality. He had to resign as a major in the R. O. T. C. as when he gave commands at parade, the stands were shaken from the foundations.
“Do noble things, not dream them all day long, and so make life, death, and that vast forever one grand sweet song.”

JAMES HOWARD STONE
Co-operative Engineering
“Red” Carrollton, Georgia
When Red returns home with that long dreamed of dip tucked safely under his arm, we know that there will be much celebrating going on for they are mighty proud of Red and his accomplishments.
Co-op Club.
“Soft words turn a heart of stone.”
SAMUEL CORNELIUS STOVALL, JR.  II  A  
Master of Science  
Atlanta, Georgia

"Little Sam"  
San got his Phi Beta Phi key several years ago but after teaching in the Eng. E. Department decided that a Master's degree was necessary so he took the necessary steps to obtain it.

Clay Belknap Summers  
Electrical Engineering  
Asheville, North Carolina

"C. B."  
Floria's seemed unsuited for "C. B." so while still in his prime, he left Jacksonville to its fate and selected Asheville where he obtained his high school diploma. Entering Tech in 1920, he has been laboring industriously to get a degree. His only regret is that each day contains but 24 hours which he may dedicate to his work and Tech. A. I. E. E., '24; Tech Press, '22, '23; History Hall, '21, '22.

"To get a chance to sleep hours and hours and more hours."

Benjamin Branch Talley, Jr.  
Electrical Engineering  
Atlanta, Georgia

"The Oneudeck"  
"B. B." just came to Tech this year, having spent the previous three years at Oklahoma A. & M. During this short time that he has been with us he has become very well known. He came into prominence at the Student Volunteer Convention at Indianapolis.

"To make her happy."

Fred Tanner, Jr.  
Electrical Engineering  
Atlanta, Georgia

"Fritz"  
Fritz and the Gate City are as one and inseparable, and he is a strong follower of fair Atlanta accounts. At any rate, after prep-school at Tech High, Tanner entered Tech in 1919 and ever since has been preparing to make the world sit up and take notice when he steps forth as a promising engineer. Tech High Club; Glee Club, '23, '24.

"To become rich or a slave."

James Herbert Taylor, Jr.  
Commerce  
Atlanta, Georgia

"J. H."  
Herbert has an abundance of both clothes and golf clubs, and he can use both to perfection. He is one of the best golfers in school and in his golf caps indeed presents an imposing spectacle. Besides his born Rimmed glasses and an ever-present smile, his assets shive many friends. O. T. C.; Glee Club; Golf Team, '23, '24; Commerce Club.

"Real estate and automobile distribution."

John Scott Thompson, Jr.  
Architecture  
Gretna, Virginia

"Joe"  
Joe got so much in the habit of riding bronchos in his home town that now he has to get George Word to ride him around on the back of a motorcycle so he can try. He is a fine boy despite the fact that he comes from a foreign land, and he has many friends. DeMolay Club.

"Success in my profession."

Nenian Cartwright Thompson  
Electrical Engineering  
Huntsville, Alabama

"Tommie"  
Just why Tommie has such a great desire to see Tech's Golden Tornado defeat Notre Dame we can hardly see. However, that is a very worthy ambition and few Tech men like to be present when defeat is administered. You can tell from his picture that he is a natural born engineer.

"See Tech beat Notre Dame."
ROBERT STANDISH THOMPSON  
Electrical Engineering  
East Point, Georgia  
"Steinmetz"  
If arguing and reading "Popular Science" has anything to do with making money, verily we pronounce this young man one of our future millionaires. Even if the above conditions do not hold, we still predict a very successful career for Thompson.  
Honor Bell, ’23; American Legion.  
"To always finish what I start."

JAMES DENNIS THURMOND  
Civil Engineering  
"Bull"  
Senoia, Georgia  
"Bull" started surveying things in the rapidly growing metropolis of Senoia on August 14, 1903. After gaining all the knowledge Senoia High School had to give him he came to Tech seeking higher fields and now he is about to learn how to build bridges.  
"To outdo Montana and Durham."

ERNEST FRANKLIN TIPPETTS, II K A  
Civil Engineering  
St Petersburg, Florida  
"Tip"  
Florida, nearest Cuba, appealed to Tip so he moved there. He prepped at St. Petersburg High School and Mercersburg Academy, entering Tech in the fall of 1919.  
"To make the first million."

CORNELIUS JASPER TURNER, X  
Commerce  
Cedartown, Georgia  
"C. J."  
Turner had rather argue than to eat. we believe, but there is much to be said in his favor. He is usually right, which is much more than can be said of some others that we know. He is a conscientious student and is deriving much benefit from his "experiment" with Dean Watters & Company.  
Alpha Delta Sigma.  
("To graduate and succeed."

EDWARD KING VAN WINKLE, X  
Textile Engineering  
"Rip"  
Atlanta, Georgia  
We have always been told to say the nice things about anyone you know, and everything we have ever heard about this boy has been nice. As a wielder of the tennis racket, he is a shark. He is also capable of much music both by hand and throat.  
Tennis Team, ’21, ’22; Lost Head Club, Catalonia Club; Vice-President, ’24; First Lieutenant, E. O. T. U.; Glee Club, ’22, ’23; Mandolin Club, ’22, ’23.  
"To do it right."

JOHN WESLEY VEAL  
Commerce  
Roopville, Georgia  
Veal had rather argue than to eat, we believe, but there is much to be said in his favor. He is usually right, which is much more than can be said of some others that we know. He is a conscientious student and is deriving much benefit from his "experiment" with Dean Watters & Company.  
Alpha Delta Sigma.  
("To graduate and succeed."

CECIL BRUCE VICK, X  
Mechanical Engineering  
Seaboard, North Carolina  
Bruce gave up a good school, North Carolina State, just at his home and came to a better one. We know he has enjoyed his four years in the "Gate City of the South" much more, but old N. C. State must have given him a good start for he is one of our brightest students.  
Scholarship "T"; Yellow Jacket Editorial Board, ’24; A. I. E. E.  
"To patent a new pneumonia cure."

FRANK OGDEN WALSH, JR., Σ A E  
Mechanical Engineering  
Atlanta, Georgia  
What ho! Adonis! When Frank can find time. he is most studious and has managed to keep well up in the class despite the terrible strain of pushing sub-debs around town. He is exceedingly popular because of a beautiful, one-tone issuing from his throat on all occasions.  
Scrub Football, ’21, ’23; Track Squad, ’21; Marathonettes, ’21, ’22; Glee and Mandolin Clubs, ’21, ’22, ’23; Assistant Business Manager, ’22; Tech Golf Club; 600 Club; Catalonia Club; Α. Σ. M. E.; Vice-President, Sophomore Class; Secretary and Treasurer, ’23, ’24; Bull Dogs.  
"To get even with the Ex. E. Department."
EDGAR CARRUTH WALTHALL, J. T. J.
Mechanical Engineering

"Eddie"
Atlanta, Georgia

After grumbling several days before starting, Eddie usually manages to get in his reports on time. This, of course, is provided that it does not interfere with his golf. He has a great many friends both in Tech and in his sister school, Bremen, where his Lunenburg is a decided asset. Swimming Team, '22, '23; Secretary, Oil Can Club; Caucasus Club; Golf Club; Band; Glee Club, '21; Mandolin Club, '21; A. S. M. E.

"Simple calculations show no ambition."

BENJAMIN EDMUND WATKINS
Automotive Engineering

"Ben"
Indian Springs, Georgia

This man hails from Indian Springs, but claims Minden, Texas, as his birthplace. He prepped at Flovilla High School and then went to Maryville College, graduating from there in 1918. He entered Tech in 1921 and has been a consistent worker ever since. A. S. M. E.:

"To put an automobile motor in a baby carriage."

ROBERT CAMERON WATKINS, II
Mechanical Engineering

"Bob"
Atlanta, Georgia

Bob is probably one of the youngest boys in the class but no one would ever discover it to look. When he enters all dressed up in those knickers and that sweater, he puts out B. T. U. at a considerably faster rate than Pop when he is telling about the Quebec failure. Skull and Key; Oil Can Club; Caucasus Club; A. S. M. E.

"To put an automobile motor in a baby carriage."

RICHARD SLADE WEBB
Co-operative Engineering

"Dick"
White Springs, Florida

From the land of Sunshine and Flowers comes this hard working student who is now about to enter the world of business and pass on to his fellow students his place in ranks. He has made a fine record in the Coop Department. First Lieutenant, Co. M-1.

"To co-operate with Tommy Edison."

HOMER SQUIRE WEBER
Mechanical Engineering

"Web"
Chattanooga, Tennessee

On February 24, 1909, this "Squire" was born at Knoxville, Tennessee, but soon decided to move to Chattanooga, where he prepped at Central High School. He came to Tech in the fall of 1919 but was out the year 1923. He came back last fall to complete his course. He has made a few scholastic records. Phi Kappa Phi; Scholarship "T"; Honor Roll, '20, '21; A. S. M. E.

"To design a self-filling bread-wagon."

JAMES WOODRUFF WEEMS
Co-operative Engineering

"Jimmy"
Atlanta, Georgia

Jimmy was born at Selma, Alabama, but soon moved to Atlanta after wandering around and prepping at Darlington High School. He entered Tech in 1919 and has been a hard worker ever since. As a student assistant in the Ex. E. Department he has made a good record. Phi Kappa Phi; Beta Tau; Soothing and Blade; Brevard Society; President, '24; Honor Roll Club; President, '24; A. S. M. E.; K. G. T. C.; First Lieutenant, '23; Captain, '24; Honor Roll, '20; Company Football, '20, '21, '22, '23; Student Assistant, '24.

"To lead a 'certain girl' to the altar."

THOMAS AMBROSE WELSH
Mechanical Engineering

"Tommy"
Savannah, Georgia

This young Geechie was born in Savannah, Georgia, where he prepped at Savannah High School and entered Tech in the fall of 1920. His main trouble is an affliction of auto-mobileing. Consequently he is an ardent Motor Transporter. Despite this he is very popular among the boys. A. S. M. E.

"To find out how the Quebec bridge failed."

WILLIAM LOVE WESTBROOK
Co-operative Engineering

"Willie"
McComb City, Mississippi

"William" will share an imagination of his control of temper for not one has been known to "fly off the handle". Willie is far from being a book worm, but it seems he can be satisfied with the facts in whatever he undertakes. As a result he has made a very commendable record for himself. Phi Kappa Phi; Scholarship "T"; Honor Roll, '20, '21, '22, '23; Company Football, '20, '21, '22, '23; Student Assistant, '24; A. S. M. E.

"To be an Engineer."
CARL BARESMALLONCHE WHYTE, X Ψ
Electrical Engineering
Little Rock, Arkansas

Carl is one of the cleverest boys in the class. As editor of the Yellow Jacket his fund of humor seems to be infinite and the books he put out were a credit to the school. He has also contributed liberally to the other publications.

Pi Delta Epsilon; Yellow Jacket, '22, '23, '24; Editor-in-Chief, '24; Blue Print, '23, '24; Technique, '22, '23; Publisher, Gay Club, '24.

JOHN JAMES WHITFIELD, JR.
Architecture
Hawkinsville, Georgia

This debonair young architect has been a large factor in making the Marionettes the success they now are. His ready wit, his pleasing personality—coupled with his excellence as a student, make Jimmie a social lion and an asset to the school. We will all be sorry to see Jimmie leave us this year.

Phi Kappa Phi; Pi Delta Epsilon; Cotillion Club; Pan-Hellenic Council, '23, '24; Architectural Society, Vice-President, '24; Honor Roll, '21, '22, '23, '24; Marionettes, '22, '23, '24; Secretary-Treasurer; President, '24; Blue Print, '21, '22, '24; Technique, '21, '22; Yellow Jacket Art Staff, '23, '24; Beaux-Arts Awards, '23, '24; Scholarship Gold "T"; Beta Tau.

"The country's premier architect."

JAMES HENRY WIDEMAN, JR.
Special Textile
Fitzgerald, Georgia

"Jim"

"Jim" first came into existence on February 1, 1900, at Thomasville, Georgia, but soon decided that he liked Fitzgerald better so he moved there and prepped at the local High School. He entered Tech in the fall of 1922 and has been a hard worker ever since.

"To upset the Textile world."

EUGENE JOHN WIKLE
Commerce
Atlanta, Georgia

"Boys"

Now here is a boy that you can not forget; his beaming countenance fixes itself upon your memory, and is one that the Commerce Department will long remember. With his amiable disposition and an ambition like his, one can't go wrong.

Blue Print Staff, '24; Associate Editor, '24.

"To make a million dollars."

RICHARD OTPOR WILLIAMS
Co-operative Engineering
Wapello, Iowa

"Dick"
One of the best Deb men in the Co-op Department. He is a hard worker and possesses a fascinating personality. He's the man to see if you want a job during Grand Opera season. We hope he stays South—we need good men like him.

Co-Op Club; Delta Society; R. A. E.; Alabama Club; Vice-President Class, '24; Technique, '22, '23, '24; Y. M. C. A. Cabinet, '25; Blue Ridge delegation; Company Basketball, '23, '24; Second Lieutenant, R. O. T. C.

"To be liked by men."

WILLIAM ALEXANDER WILLIAMS, K A
Textile Engineering
Knoxville, Tennessee

Bill is the best jumper we've got, holding the S. I. A. A. record for this event. Bill has jumped quite a bit since leaving Knoxville. He proposed at Tech High School, where he started his jumping career. Bill entered Tech in 1920, and since coming here he has won a host of friends and all wish him success in the business world.

Track Team, '21, '22, '23, '24; Alternate Captain, '24; Skull and Key; Cotillion Club; Marionettes; Supply Officer Second Battalion.

"To fall in love."

RICHARD FURMAN WILLINGHAM, K
Mechanical Engineering
Atlanta, Georgia

"Dick"

Dick's reason for attending Tech is at once evident. He happened to be born in Atlanta, and of such disposition as to be too lazy to do anything more strenuous than kick a sub-deb or two around the Court at Druid Hills. Therefore, it is natural that he would go to the nearest college to avoid superfluous exertion.

Oil Can Club; A. S. M. E.; Tech High Club.

"To be a Mechanical Engineer."

ROBERT SADBERY WILSON, JR.
Electrical Engineering
Lyons, Georgia

"Dick"

In introducing this good looking chap, we show you another fellow who was a little bashful about talking with the interviewer, but we finally managed to find that he was born in Midville back in 1897. When we questioned him as to his ambition, he seemed to think we were a bit personal so we were afraid to ask him what he had done while at Tech.

"None."
ALLEN GURNEY WOODRUFF, JR.
Mechanical Engineering
Pembroke, Ontario, Canada
"Tiny"
Being a fat man, Tiny can't help being good natured. This has meant four years on the football scrubs and has done a great deal for his Alma Mater. It was a great surprise when such a good fellow took a position with the Ex. E. Department.
A. S. M. E.; Savannah Club; Scrub Football, '22, '23.
"To rear little Basabbling Wrecks."

FRANK REARDON WOOLFORD, Κ S K
Civil Engineering
Little Rock, Arkansas
"Woolf"
Here is one of those hard boiled guys from down in Arkansas. In spite of this handicap, he has made the Honor Roll with great regularity. If you want to know anything about military, ask him. If he doesn't know he'll make up something plausible. Like other Wolfs, his bark is much worse than his bite, pardoning the metaphor.
"To gain age and experience."

ROBERT HUGHES WORKE, JR., Φ Δ O
Commercial
Nashville, Tennessee
"Ram"
Ram first accounted for himself way back in the nineteenth century in the year 1896. He prepped at the Wallace University School and came to Tech in the fall of 1920. He has made a fine record here, as well as many friends.
Phi Kappa Phi.
"To live up to that name."

ALLAN LUCAS WOODS, III, Β K Α
Commeres
Pensacola, Florida
"Ted"
Here we have the sandwich artist supreme. His shop onPeter is a favorite for those who crave something different. Ted has a habit of giving out free samples on the weekends, but he has a legitimate reason. He is the smartest girl that ever looked into the eye of man.
"To satisfy the most discriminating tastes."

OLIN ADCOCK
Evening School of Commerce
Atlanta, Georgia
"Olin"
"Olin's" greatest faults are playing basketball and engaging in "Mexican Athletics". He is one of the best all around boys that the Evening School has produced. Olin is a product of Social Circle, Georgia, and prepped at Social Circle High School.
"To climb that well known ladder."

HOMER CAGE
Bachelor Commercial Science
Atlanta, Georgia
Big Boy is certainly the appropriate name for this boy because he towers to unusual heights, some seven feet, to be exact. He hails from Jasper, Georgia, and prepped at the High School in this big city.
"To be a Certified Public Accountant."

PERRY CRAWFORD
Evening School of Commerce
Atlanta, Georgia
Perry is a product, originally, of Knoxville, Tennessee, but is now from the Gate City of the South. Perry prepped at Boys' High School and entered the Evening School after his graduation. When you ask him where he works, he immediately replies, "Ask The Man Who Owns One."
"To own the car he sells."

GEORGE FRANCIS DOWMAN, Α Τ Δ
Evening School of Commerce
Atlanta, Georgia
Judge is the most generous boy that has come within the range of our acquaintances. He is always wanting to do something for somebody, and is usually doing it. His Ford has become the official chauffeur of all the sub-dudes, and consequently George is in great demand.
Alpha Kappa Psi; President, Commerce Club, '24; Vice-President, Junior Class; Vice-President, Senior Class; Band, '24.
"Biggest sheet metal supply house in the South."

TERRELL HIGDON YON, Π K A
Commerce
Pensacola, Florida
"Ted"
Here we have the sandwich artist supreme. His shop on Peter is a favorite for those who crave something different. Ted has a habit of giving out free samples on the weekends, but he has a legitimate reason. He is the smartest girl that ever looked into the eye of man.
"To satisfy the most discriminating tastes."

"To own the car he sells."

"Biggest sheet metal supply house in the South."
James Holliday
Evening School of Commerce

"Jimmie"
Atlanta, Georgia

Jimmie comes to us after prepping at Marist. While in prep school there he made a fine record, which he continued after he got to the Evening School. He is mighty good natured and consequently very popular. He may decide to go to regular school and get a degree from there.

Alpha Kappa Psi; Commerce Club.

"To get acquainted with Mr. Bradstreet."

Jules Hollingsworth, Jr.
Evening School of Commerce

"Cotton"
Atlanta, Georgia

Cotton is noted for the fact that he can tell more jokes than any man in the Evening School, but despite this serious drawback he is one of the best liked boys we have. He prepped at Tech High School and attended Oglethorpe University before coming to the Evening School of Commerce.

Delta Sigma Pi; Commerce Club.

"To amount to something."

George Elmer Tisinger
Evening School of Commerce

"Red"
Carrollton, Georgia

"Red" is from Carrollton, Georgia, prepped at the Fourth District A. & M. School, and after moving to Atlanta entered the Evening School. Red is noted for his activities along the line of Mexican Athletics and his dry wit keeps the classes awake.

Commerce Club.

"To solve the traffic problems confronting the world today."

Jere A. Wells
Evening School of Commerce

"Jere"
Hapeville, Georgia

Jere hails from the big city of Hapeville, and is one of the most influential citizens, due to the fact that he has just been elected Superintendent of Schools for Fulton County. Jere is one of the handiest workers in the Evening School and great things are predicted for him.

Commerce Club.

"To be a Certified Public Accountant."

Weyman Theodore Williams
Evening School of Commerce

"Weyman"
Atlanta, Georgia

Weyman is the most popular man in the Evening School, having been president of his class for two consecutive years and president of the Commerce Club. Not only is he popular with the boys but he has an awful drag with the female contingent of the college set.

Alpha Kappa Psi; President, Commerce Club; '22; President, Juniors Class; President, Senior Class; Assistant Business Manager, Blue Print, '23.

"To stay away from blondes."

Fred Ward Collier
Evening School of Commerce

"Freddie"
Atlanta, Georgia

Despite the fact that Freddie was born in Fayetteville, Georgia, and prepped at Franklin College Institute, he is one of the best boys in the Evening School. "Freddie" is always one of the first to volunteer to do something for the school.

Commerce Club.

"To be a man's man."

Walter Ewing Foster
Evening School of Commerce

"Castoria"
Selma, Alabama

Fostoria, Alabama, claims this young lawyer as her native son, which, no doubt, accounts for his nickname, "Castoria." He prepped at Lowndes County High School and after moving to Atlanta graduated from the Atlanta Law School. During the World War he served as Lieutenant of the infantry and is now a strong booster of the American Legion.

Commerce Club.

"To be President of these United States."

Olon Elbert Scott
Evening School of Commerce

"Olon"
Atlanta, Georgia

"Olon" was born in the metropolis of Adrian, Georgia, and prepped at the High School in Adrian. He is one of the best liked boys in the Commerce School and the question he asks the Dean in class are the delight of everyone.

Commerce Club.

"To be a C. P. A. and a LL.B."
Harold Almand  
Commerce
Conyers, Georgia

"Doc"
This accounting shark first entered Tech in 1919, but for some good reason stayed out a year, returning in good form, and taking up his desired course. 'Tis said that he doesn't study, but the Dean had better not find that out.

John Anderson  
Special Textile
West Point, Georgia

"J. M."
Anderson prepped at West Point, Georgia, beginning in May, 1905. After staying there until 1922 he decided to become a mill superintendent, and came to Tech immediately.

Juan Santiago Barro  
Civil Engineering
Habana, Cuba

"Don Juan"
After graduating from the Gulf Coast Military Academy in 1919, "Don Juan" entered Tech. Since that time he has been a steady worker and a good student, and has won the respect and friendship of all his associates. Even the tangled intricacies of the renowned Ex. E. Department have been unable to shake "Don Juan's" strong determination to become a Civil Engineer.

Arnold Bunns  
Textile Engineering
Atlanta, Georgia

"Al"
"Rinn's ambition is to become a Cotton Mill Superintendent or Buyer. It makes no difference, because the salary paid to either will be sufficient to support him and the young Binnis."

Jesse Haywood Burke  
Civil Engineering
Atlanta, Georgia

"Boots"
"Art"
Boots first applied to come to Tech 'way back in September, 1909, when he first started telling his folks about his wishes by yelling at them. During his stay with us he has learned to wear a C. E. outfit like the rest of us.

Horace Golden Caldwell  
Co-operative Engineering
Kelso, Tennessee

"Parson"
"Parson is a Tennessee mountaineer from head to foot, and that's saying a lot. Born at Kelso he prepped at Sewanee and entered Tech in 1919. He is a man who talks little but works late. During his spare time he is said to run the Atlanta Gas Works, and he also helps Uncle Sam handle the mail during the Christmas rush.

Frederick Estrett Conkling, O X  
Civil Engineering
Bayville, Long Island

"Fred"
Fred has only been with us for three years and during that time has accumulated quite a scholarship. He attributes it to the fact that he always has a pipe in his mouth, which is a crowning feature in an engineer.

Robert Frederick Cook  
Textile Engineering
Oglethorpe, Georgia

"Sailor Bill"
Bill was born in the State of Alabama way back in 1902, but his folks decided that it would be better to move to the best state in the Union, so they brought him to Georgia and educated him at the North Georgia Agricultural College.

William Clifton Corb  
Special Architecture
Brayton, Tennessee

"Calk"
After spending a number of years at Central High School at Knoxville, W. C. came to Tech, entering her doors in 1922. He says that he has gained much knowledge during his stay here. Who knows better!
Back in '20, Edgar stood among the best in Mr. Driscoll's Trig class. He hasn't changed much the past few years, and we feel sure that he will not change when he meets the problems of the business world.

"To own a hundred mills."

E. L. Darling
Co-operative Engineering

Doll didn't enter until late in '19, when he signed up in Captain Autrey's Army for the first Louis's position. He didn't get it at that time, but at present leads the squads in their drills.

"To be a leader in business."

Pinkey Gibson Daves
Civil Engineering

Pinkey is one of the best track men that ever came to Tech and during his four years here he made an enviable record for himself. Besides this track ability he has a remarkable personality that has won him many friends among his classmates.

Allen Hill Davis
Co-operative Engineering

Sergeant is the youngest and smallest man in his class, but despite this fact he manages to get by as well as the next one. He has accumulated quite a number of friends while here.

A. I. E. E.; Coop Club; Mississippi Club; Second Lieutenant, R. O. T. C.

"To master the Atomic Theory."

Ralph Wilford Discheuex
Architecture

Ditch entered the architecture course Ditch decided to go on with it, instead of being a pugilist. He hopes some day to defeat Jack Dempsey, but in the meantime will probably be an office boy in some architect's office.

Architectural Society.

"To knock out Young Strutmire."

Edward Cotton Fens
Textile Engineering

"Snapper Banks."

W. C. has an ambition worthy of note. It is, "To have Track Man Andy's looks, Red Deer- ing's personality, and Albert Govee's morals." He may be able to look like Track Man Andy, but we hesitate to say that he may never have Red's personality and Albert's morals.

Charles Greene Fleetwood, O X
Commerce

Red started getting ready to enter the portals of old Tech early one morning in January, 1902. His one ambition was to play with the Golden Tornado, and he hasn't missed fulfilling it. Scrub Football, '18, '20; Varsity, '21, '22, '23; Assistant Track Manager, '18, '19, '22; Manager, '23; "T" Club; Honor Roll, '19; Yellow Jacket Art Staff, '21, '23, '24; A. E. C. E.

Lucy Greal, K A
Industrial Education

"Judge"

Judge prepaped at Doque High, went to Vanderbilt and studied law, then quit and took a trip to France to see what a regular German looked like. After the war, he came down to the metropolis and entered the best school in the South. Graduated in Commerce, '23, and will get his degree in Industrial Education this year.

Honor Roll, '20, '21, '22, '23; Phi Kappa Phi; Phi Delta Phi (Vandebilt).

"To learn to spell the word 'Ambition.'"

James Capers Hulce, II K 4
Civil Engineering

"Jimmie"

Jimmie is little but his grin is always in evidence, so that he can't get by unnoticed. He is pretty much of a hound and a prominent sub-lab pusher, and always receives the glad hand from his classmates who like him fine.

Cotillion Club; Civil Crew.

"To have an En. E. report accepted the first time."

James Capers Holme, II K 4
Civil Engineering

"Jimmie"

Jimmie is little but his grin is always in evidence, so that he can't get by unnoticed. He is pretty much of a hound and a prominent sub-lab pusher, and always receives the glad hand from his classmates who like him fine.

Cotillion Club; Civil Crew.

"To have an En. E. report accepted the first time."

Cotillion Club; Civil Crew.

"To have an En. E. report accepted the first time."
ALEXANDER TROTTER HUNT, Φ Κ Ζ
Post Graduate Commerce

“Alick”

Hoped, Louisiana

Arkadelphia, Arkansas, was the place, and September, 1901, the time. Alick prepped at
Staunton Military Academy, where he learned to be a hard worker, as he well showed on the
gridiron. We will be sorry to see Alick leave.

Knower: Bull Deny; “I” Club, Secretary. ’22: Alpha Honor Roll. ’20, ’21, ’22; Senior Class Vice-
President. ’22; Alpha Kappa Psi; Phi Kappa Phi.

ALBERT C. KNIGHTON
Commerce

“Al”

Cathbert, Georgia

“Al” served in Uncle Sam’s army during the recent argument with Germany. We some-
times wonder just when he lost all that hair—was it in France or did some girl pull it out? We
also hope to see Tech beat Penn State and hope that day will not be far distant. At that
time let’s hope to be on hand again and celebrate that evening.

“See Tech beat Penn State.”

CORBIN KUNZ
Electrical Engineering

“Kunzie”

Los Angeles, California

Boys’ High received the honor of prepping this young man. They turned him over to Tech in
1920. and thinking him in good hands, his family deserted. Kunz says he has a little sneaking
idea that he will be able to locate them when he leaves for Los Angeles this June—with his
sheepskin.

De Molay Club: Boys High Club: Blue Print, ’21.

“To make speeches as J. W. Honour.”

EDWARD GORDON NABELL, Ω Χ
Civil Engineering

“Monk”

Emi Point, Georgia

Monk decided to leave Newman, the place of his birth, in 1902, to try his winning ways in
East Point. He prepped at Tech High and entered Tech in 1920.

R. O. R. T.; Square and Compass; Scabbard and Blade; “T” Club; Major, R. O. T. C.

“We love and learn.”

GEORGE HOMER PORTER, Σ Χ
Electrical Engineering

“George”

Atlanta, Georgia

George used to walk guard at R. M. A. and Dahlonega before he came to us. He has always
wanted to relieve General Pershing, and has become more desirous since taking several courses
under Captain Autrey.

A. I. E. E.; Lieutenant-Colonel, R. O. T. C.; Scabbard and Blade.

“To take General Pershing’s place.”

WILLIAM ARIX NEWTON
Special Textile

“Bill”

Jackson, Georgia

Not only is Bill a good textile engineer, but he is one of the best catchers we have. Also
be is a mighty easy kind of fellow to know, and has many friends.

Freshman Baseball; Baseball Varsity, ’24.

“To build nine cotton mills in Jackson.”

HAROLD LEROY PARROTT
Commerce

“Polly”

Fitzgerald, Georgia

We hear. “Polly”, that Tenth and Peachtree still has its attraction for you. However, you are
not the only one that hangs out around there at certain hours. After rooming with you awhile
we are afraid to tell too much of the many things we know about you but we might say that
most of them are good. We want to thank you for all the many tips you gave us on how to
win the girl.

Fitzgerald Club; Yellow Jacket, ’23; Blue Print, ’24.

“That a President may come out of Fitzgerald.”

WALTER WILLIAM ROBERTS
Commerce

“W. W.”

Chattanooga, Tennessee

“W. W.” surely likes to argue with the professors and one thing in his favor is the fact that
he usually knows what he is talking about. His election to Phi Kappa Phi is one indication as to
just what he has done here. We always like to hear him start talking because he lessens the
possibility of our being called upon and making the usual 0.

Phi Kappa Phi.

“To get a job.”
LOUIS ROSENBERG
Special Textile
"Ricke" Atlanta, Georgia
Louis was born abroad, having come from Russia. He left the Bolshevik country to come to
the city which is the home of the Ku Klux. Prepped at Tech High School and entered in 1921.

GEORGE SHRINE RUSSEY
Special Architecture
"DeRussey" Atlanta, Georgia
Russey left his prep school, Tech High, during the recent conflict, and joined the Navy.
After the war was over he came to Tech to study architecture.
"To become a shotgun architect."

JULIUS CLARENCE SHAW, II K A
Textile Engineering
"Goof" Cartersville, Georgia
This old boy spent a few years on the seas with the Navy, but all the while he was dreaming
of returning to Tech to finish his education, if he ever got back. He first entered in 1923, but
had to leave to fight for God and Country.
"To efficiently apply engineering in the textile world."

WILLIAM ARTHUR STEWART
Textile Engineering
"War" Atlanta, Georgia
After spending several seasons in Austin, Texas, at the University, W. A. came here to finish
his education. This one boy understands how to shoot the proofs, and all the class marvels at it.
Anyway, he does it and gets away with it.

JAMES STONE
Textile Engineering
"J. C." Concord, Georgia
Jake came to us from Tech High, where he prepped for a long number of years. The early
details of his life were not disclosed to us, but he did admit that he was born in Hampton, Geo-
r gia, in the early nineties.

THOMAS FRANKLIN STRINGER
Co-operative Engineering
"T. F." Columbus, Georgia
Stringer prepped at Columbus, Georgia, until he had enough credits to enter Tech. Since
arriving in this fair city he has done his bit in no little way.
"Technique. '22. '23; Company Basketball. '20. '21; Briarean Club; Co-op Club; Columbus
Club; A. S. M. E.; A. I. E. E.; Lieutenant. R. O. T. C.; Student Assistant. '23. '24
"To obtain and be able to enjoy it."

GEORGE VANCE UPCHURCH
Textile Engineering
"Red" Athens, Georgia
Red comes to us from the home of the Red and Black, and has stuck it out for a couple of
years. He prepped at Riverside and G. M. C.
"Be a Textile Man."

HOMER WHELCHEL
Special Textile
"Calliope" Cordele, Georgia.
Calliope holds nearly all of the strong arm records of the Southland, and is one of the team's
best football linemen. He prepped at Tifton A. & M. before entering, and was there that he
learned to throw the discus and shoot the bull.
"Scrub Football. '19; Varsity. '20, '21, '22, '23; Track Squad. '21, '22, '23; E. Z. E. Club;
"T" Club."
"To learn to make both ends meet."

ROBERT BARTON YOUNG
Special Textile
"Young Edison" Cedartown, Georgia
Bob comes to us from the University of Georgia, after finding out that he had gone wrong
by ever entering there. He has managed to pass with good grades and we hope that he makes
good out in the business world.

Junior Poem

To mighty Seniors now we say,
"We wish you luck Diploma Day,
When you will abdicate your throne,
Farewell, familiar haunts you've known;
Give us a chance to sleep and snore
In classes that you say will bore,
And take the honors, play the game,
Add to our Alma Mater's fame.
Juniors now,—then Seniors new—
Old 'twenty-five' will carry through."

In our struggle here for knowledge,
Fame, and fortune in this college,
May the Juniors' motto be—
Earnest work, Fidelity.
May each classmate catch the gleam
Of what true worth can really mean,
And with this vision e'er in view
Old "twenty-five" will carry through.

Sophomore Poem

One year ago this very day
We cried aloud in great dismay;
For we were beat and we were stung
By the huge clubs our masters swung.

But those sad times seem long ago,
When we were young and didn't know
That if you sat on suction
now,
'Twas hello ten, good-bye zero.

Now we have tasted sweeter things,
And found out why the iceman sings,
And why innocent girls at night,
Like to gaze at stars, lovely sight.

We've learned that three and one make four,
And five and two means shoot some more;
We've strutted 'round the ball room floor
As should a dauntless Sophomore.

The freshmen bow before us low,
They shiver-wham-a mighty blow,
For we must teach them how to act,
And follow in our tracks, 's fact.

The Evening School of Commerce

The present Evening School of Commerce in its infancy was a school of very different nature from the present one. The school began some eleven or twelve years ago by a series of talks given by the Atlanta business men for the engineering students at Tech. The engineering Juniors and Seniors realizing that some manner of business training would be essential to their welfare in later life, this series of talks was begun, one each week during the spring of 1913. It is to these business men, their interest and cooperation, that we should give credit for the present evening school.

It was during the summer of 1913 that the Alumni got together and agreed to help finance an Evening School of Commerce to be installed the next year. The instructors in this school were to give instruction on business subjects to the Juniors and Seniors in School. This plan did not work out so well the first year, however, due to the inability of the Juniors to assemble at one hour, and the lack of sufficient finances. The evening classes were held that first year on the campus under the direction of Wayne Kell. The lecturers that first year were chosen from the faculty, as well as business men in the city. Up to June, 1914, the evening school was merely an experiment in the eyes of the faculty, but that summer they adopted it. We must thank the alumni for this as it was their original idea and the push that made it a going thing.

The main purpose and idea of the evening school was the fact that every engineering student should have on his schedule, or have available on the campus, special courses along business lines, such as: Sales, Organization, Advertising, Accounting, Law of Contracts, of Negotiable Instruments, Realty Values, Credits, Collections, and the like.

Soon the department lost its first experimental state and provincial form, for with the coming of Dean Watters the school has readily advanced and taken its place among the leading schools of its kind in the country. The department now rivals the place held by the engineering departments of our university and the student of this school is enabled to acquire a fundamental business knowledge which makes him fit for a career in business circles.

The evening school classes are now held in a well equipped downtown school on Auburn Avenue, which is easily available for those students who hold positions, and take advantage of the classes at night. The scholastic standing of this evening school is on a par with the best of like nature in the country. There are somewhere in the neighborhood of four hundred and fifty students enrolled, and probably a majority of these students have had already previous collegiate training, many colleges and institutions being represented. It is to the interest of all engineering students to take advantage of the opportunities that this school offers, and many are at present doing this.

History of the Senior Class
Evening School of Commerce

The Class of 1924 began its career with about eighty-five members and although nothing was done towards organizing the class during the freshman year, its members were seen in practically all the activities connected with the Evening School of Commerce. The year was concluded with only thirty-five men completing the full requirements.

During the junior year, with the help of the class of 1923, the class was organized with the following officers: Weyman Willingham, President; George Dowman, Vice-President, and Miss Margaret Jewett, Secretary-Treasurer. Despite the fact that there were only twenty men in the junior class, they aided the seniors in organizing the freshman class and were very active in the Commerce Club of the Evening School, Weyman Willingham being president for the school year, 1922-23. Also the juniors entertained the class of '23 with a banquet at the Chamber of Commerce Cafe. The year was finished by only twenty men.

During this year monthly dinners were held at the Daffodil at which the faculty and business men of Atlanta were entertained.

When the final year rolled around only twelve men survived and were eligible to receive the degree of B. C. S. Immediately at the beginning of the senior year, the class was organized with Weyman Willingham as president, George Dowman served as Vice-President, and Perry Crawford filled the position of secretary-treasurer of the class. Many things were done by the senior class during this, the final year; the outstanding attainments being the organizing of the junior and freshman classes, monthly dinners at the Chamber of Commerce Cafe, while the president of the Commerce Club was furnished from its ranks, George Dowman being elected to this honor.

Pan-Hellenic Rushing Rules

SECTION I, ARTICLE 1—

No man attending a high school in Atlanta or vicinity (vicinity being construed any point that may be reached by car line) shall be rushed by any fraternity at Georgia Tech until two weeks after the opening of the school term.

(a) Prep school men cannot be invited to fraternity dances.
(b) That no man shall enter Tech pledged. All pledges made previous to the specified period will be automatically broken.
(c) No fraternity shall rush a man at Tech between the opening date of summer school, and the second Monday of the fall term.
(d) No night school student at Tech shall be eligible for membership in fraternities.

ARTICLE 2—

In the case where a man ineligible for pledging under Article 1 of this section, is pledged to a chapter of a fraternity at another college, and later decides to come to Tech, his pledge is automatically declared broken by the Pan-Hellenic Council at Tech and he shall not be eligible for membership in any fraternity for his first year at Tech. In such case it is understood that any fraternity may have the privilege of rushing the man during his first year.

(a) During a period beginning the second Monday of the fall term prospects may be rushed until the following Saturday night at midnight. The rushee shall accept such bid as he desires between 12 noon Sunday and 12 noon Monday without further action being taken by the fraternities. After Monday, 12 noon, there is open rushing for the remainder of the year.

SECTION 2, ARTICLE 1—

No fraternity shall approach the pledge of another fraternity with the idea of breaking his pledge or talking fraternity matters to him.

ARTICLE 2—

If a student is pledged to a fraternity and breaks his pledge of his own free will and accord and without the coercion of another fraternity, he may be pledged by any other fraternity after the report of said action has been made to the Council.

ARTICLE 3—

No prospective student shall be allowed to live in a chapter house during the summer vacation, unless a member of a national fraternity.

SECTION 3, ARTICLE 1—

The penalties for breach of the above rules shall be expulsion of the guilty chapter from the Council.

ARTICLE 2—

It should be understood by the different chapters that the Pan-Hellenic Council is for the advancement of all fraternities and that the best results can only be obtained by cooperation. The spirit, as well as the legal meaning of these rules should be supported by the respective fraternities.

Athletics

MEASURED in the eyes of the business world a college is judged by the ability and training of its graduates. Among men in other colleges, however, the ranking of a school depends largely upon the prowess of its athletic teams. Realizing this and valuing the esteem of other colleges as well as the esteem of the outside world, the authorities of Georgia Tech consider athletics as a most important part of the curriculum of the institution. A thorough knowledge of the subjects in the scope of engineering housed in a strong robust body is the goal toward which Tech men are working. As a result of this policy the merit of our teams has penetrated the country and each year finds representative teams from other sections of the country as well as from the Southland on our schedules. The entire athletic system of the institution operates under the motto: "It isn't whether you won or lost, but how you played the game," and in its fulfillment petty politics and internal strife are almost entirely eliminated. We play for the game's sake, hard and clean, and may the best man win. Although only comparatively few men can play on the teams, the entire student body displays a spirit of co-operation that is rapidly bringing to the institution a national reputation for indisputable sportsmanship.

H. R. AILSON ....... Secretary
Coach Alex

William A. Alexander, or better, "Alex," as he is known to everyone who ever heard of Tech and its Tornado, entered the portals of this institution as a student in the fall of 1906. At that time his knowledge of football was that of the ordinary spectator. However, he went out for the team and served faithfully with the scrubs for four years. As a reward for his years of zeal with the scrubs he made the team and his letter in 1912. Alex was awarded his degree of B.S. in Civil Engineering in the spring of 1912, but the fall of the same year saw his familiar figure back on the campus once more. He had returned as assistant to Coach Heisman and as instructor in the Mathematics Department. After serving in this capacity for several years there came the war, and Alex, feeling the call of duty, responded and joined the army. Returning from France where he served as Lieutenant in the Engineers, he resumed his old job. In 1921 he was made head coach of athletics, following the resignation of John Heisman.

Tech is justly proud of her Coach, who has reached such a high place in the field of athletics, for Alex is regarded as one of the greatest coaches of the larger universities. Through his efforts Tech has made a name for herself in athletics and the prowess of her teams is well recognized by all schools, large and small. Favorite and idol of the students, his is a personality which cannot be resisted. Let us hope that his years as Coach will be many to come.
Assistant Coaches

R. A. CLAY, Baseball, Football
Since "Kid" has had charge of the baseball team Tech's prowess in this form of athletics has markedly increased. From a rather average aggregation of players, Coach Clay has built up teams that have figured well to the front in Southern collegiate baseball circles. It is also due to his efforts that the scrubs are able to give the football varsity the practice so necessary to a finished team.

F. F. WOOD, Line Coach
The achievements of Tech lines for the last few years have proved that the picking of Coach Wood as an All-American lineman in the days when he attended Notre Dame was a true reward for ability. Not only has he the ability but he is so able to impress it upon his charges as to turn out a good line each year, despite the material on hand.

C. C. GRIFFIN, Track, Football
George has been at Tech so long that he has become the handy man around the place. He started helping with track and became so good at it that he has now full charge. In football, after coaching two freshman teams, he has been given charge of the scrubs, who have the important task of furnishing fodder for the varsity to feed upon.

T. B. AMIS, Freshman Teams
"Dad" has been given exclusive charge of freshman athletics and has made a marked success with them. Taking up the work begun by George Griffin he has carried it on in a true Tech style and turned out creditable teams in all the sports.

JOHN FRANKLIN MCINTYRE, Guard

Although having arrived from Pine Bluff, John turned out to be a grim reality, as opposing lines have found out during the last three years. After serving a year in France, John came to Tech in 1919 when he scrubbed on the football team. In 1920 he made his numeral and the next three years found him in a regular berth. As Captain of the 1923 team, he made a masterful leader and played his position with that zeal and ardor, characteristic of a Tech football Captain.

FELTON MCCONNELL, Guard

That guards make good captains is evidenced by the fact that Irish was elected to succeed Johnny Mac as captain of the football team. After spending a couple of years at the University of Virginia, Felton came to Tech. He was ineligible the first year, but having already made his letter at Virginia, one year of scrubbing made him right in line for a varsity berth. He made his letter in 1922 and 1923 and is Captain-elect for 1924.

JOHN CURTIS STATON, End

The junior member of the firm of Staton and Staton has followed in the footsteps of his brother Al and leaves Tech with four years of football behind him that will be remembered for many years to come. In his freshman year John made the Composite All-Southern and since that time he has been one of the most dependable ends in the South.

CLAIRE ALANSON FRYE, Center

Claire has quite a string of football experience behind him. In 1917 and 1918 he was All A. E. F. center in France. After that he scrubbed at Tech a year, made his numeral in 1920 and his letter in 1921, 1922, and 1923. The last two years his defensive work has been invaluable help to the team and his passing has always been accurate and sure.

ALEXANDER TROTTER HUNT, Quarterback

Pinkey was born in Arkadelphia, Arkansas, prepped at Staunton Military Academy and entered this institution in 1919. He played on the famous pony backfield of 1920 and the next three years was awarded his letter. Although hindered by injuries, his last season was a most creditable one.

GEORGE CULLER GARDNER, End

George was a find from company football. In 1920 he was a main factor in the championship team and the coaches got him on the squad with exceeding promptness. He made his letter in 1922, being the first co-op to be awarded a varsity letter. His work on the 1923 team was rewarded when he was elected alternate captain for 1924.

JOSEPH ALEXANDER USRY, Tackle

How the name of “Baby Joe” ever happened to grace such an enormous personage as Joe Usry will probably remain a mystery but his ability on the gridiron is well known. He has made his letter for two years and when the roll is called next year Baby Joe will be there in considerable avoirdupois.

AUGUSTUS JOSEPH MERKLE, Tackle

Gus is a Savannah boy but has made a remarkable record in spite of that fact. He played on the freshman team of 1922 and last year played regular tackle on the varsity. He was the fastest man on the rush line and next year may be shifted to end in order that his speed may be used to better advantage.
Ivan Andy Williams, Halfback

Ivan entered Tech after having been one of the greatest prep school halfbacks ever developed in the west. His ability along these lines was proven during his freshman year when he starred on the rat team. Last year was his sophomore year but he played varsity half, despite the handicap of an injured neck. Great things are expected from Ike during the 1924 season.

Stephen Douglas Wycoff, Fullback

Doug came from the Little Rock high school with the Williams brothers and has been burning things up ever since. He created a sensation on the freshman team of 1922 and last year as fullback on the varsity his line plunging was superb. He was picked as fullback on every All-Southern pick and was awarded the position of Captain of the Composite-All-Southern team. Before he leaves school Doug should have a national record of note.

Robert Edwin Reeves, Halfback

Bob is the third of the sophomore backfield men to make a letter. He was a running mate of Ike Williams on the freshman team of 1922, and last year continued as such on the varsity. He is an excellent defensive man and a great help to the team.

William Bethel Farnsworth, Halfback

Bip prepped with such other stars as Covington of Center and Bonax of Vandy and when he came here in 1920 he played fullback on the freshman team. In 1921 he made his letter as sub fullback and although he dropped out in 1922 he returned last year and again made his letter.
Fred Becker Moore, Halfback

Fred is a consistent ground gainer and has that important knack of following his interference. He is the only three letter man in Tech today, which shows that he has other ability than just football. This is his junior year so he will be back.

Homer Monroe Carter, Quarterback

Homer was one of the boys that scrubbed under Coach Heisman. He has worked hard on the scrubs and sure deserved his letter in 1923. He is a real self-made player who always puts his level best into the play. He is rather quiet and extremely popular with his teammates.

Henry Lewis Reeves, Halfback

It took weeks and weeks of practice but Henry finally got it down to the point where a drop kick from the thirty-five line was a dead cinch. He will always be remembered for his kick in the V. M. I. game which gave Tech the winning margin, the score being 10 to 7.

Starling Maxwell Carpenter, Tackle

Six came to Tech while the memory of his famous brother was still fresh in the minds of the students and so everybody look on to see if "Little Six" would uphold the family name. This he proceeded to do in fine style and he was awarded his letter in 1923.

Albert Davis, Quarterback

Red prepped at Culver and learned to play football up there in Indiana. After scrumbling a year he made his letter this season. He is a hard plunger and a good man in running interference. He is red headed and therefore good natured and always on hand with that old grin.

Roy Desha Hu Ffines, Tackle

Roy made his letter in the old days of 1918 and 1919. After that he left Tech and the United States and went to Texas. He returned, however, in 1923 and fought his way up through the scrubs to the varsity. He has two more years of varsity football ahead of him.

Samuel Herbert Werner, Tackle

Sam played on the freshman team of 1921 and was one of the outstanding players. The next year he dropped out of school but returned this year. Although he was late in going out for the team he played in half the Auburn game and won his letter.

Herbert Edward Hall, Guard

Herbert came to Tech after finishing his schooling down at Bay Minette, Alabama. That was in the year of our Lord, 1921. He played on the company team of that season, and showed up well. The next year he scrubbed the season with the varsity and in this year's play he made his letter. One of the most consistent players on the squad, he can always be counted on for a hard fight.
Review of the Football Season of 1923

OGLETORPE, 28—TECH, 26
Tech's "Gullion Tornado" got under way in its first game of the season by defeating the Oglethorpe Petrels by a 28-13 score. This team showed that, although defeated, they could certainly fight. This was clearly demonstrated when, in the first half, they were leading Tech's "Tornado" with a 12 to 0 score the first time that a Tech team has been led by a Petrel team. Again Maurer, Oglethorpe's whirlwind back, crossed Tech's goal line twice during the game. Tech come back immediately, however, and began three successive marches to Oglethorpe's goal. Credit must be given the whole Tech team for the game they played, for with an almost wholly new team, Coach "Alec" showed that he had certainly instilled into them that "never say die" Tech spirit.

V. M. I., 7—TECH 10
The game with the "Flying Cadets" was one that will long be remembered by those who saw it. The Cadets certainly lived up to their name and played a hard clean game. At no time was there any let-up in the playing of either team, but rather an increasing tension as the game progressed. Tech was led by the opposing team and again she pulled out from behind with the aid of that wonderful fighting spirit, displayed by Tech teams of old. The feature play of the game came near the end of the first half. Coach Alec sent in Henry Reeves to try for a field goal, and although at the thirty-yard line, Henry put the ball between the posts, chalking up the winning score. White carried off the honors for the visitors.

GEORGETOWN, 10—TECH 20
Confident of victory, the Floridians poured into Atlanta to stop the Tornado. In the first half Florida intercepted a pass and carried the ball to Tech's 11-yard line. A completed pass and a line back carried the ball over for the first score. In the last quarter, Coach Alec sent in two tiny backs, Harris and Albright. These men, with perfect interference, started a bucking, also starred for Tech. With a dash, reeled off three touchdowns, giving Tech the lead. The star of the game was Albright, who, after brilliant playing, scored two touchdowns. Wycoff, with his splendid line bucking, also starred for Tech.

NOTRE DAME, 35—TECH, 7
For the second time in as many years, Tech lost to Notre Dame; this time by a 35 to 7 score. Meeting what was supposed to be the best team in the country, the Golden Tornado blew hastily against this team, which, on successive Saturdays, had defeated both the Army and Princeton, two of the most powerful elevens in the East. From behind a three-touchdown lead, Tech fought desperately and rallied, driving the ball sixty yards for a touchdown; a thing which neither the Army nor Princeton had been able to accomplish. Although we were beaten, we have no alibis to offer, for every man on the team gave his utmost, and we are proud to be able to say that we gave them a hard fight. The whole game was hard and clean, Wycoff winning the honors for Tech, and Miller for Notre Dame.

ALABAMA, 0—TECH, 0
In a game played on a muddy field and in a drizzling rain, Tech was tied by Alabama in a 0 to 0 game. Tech completely outclassed Alabama, however, making twenty-two first downs to Alabama's none. Still we were not able to score. On the fourth down, a confused signal cost Tech the game, for she had the ball on Alabama's one-yard line, and a fumble lost our chance. Alabama carried the ball for a total of seven yards, averaging one yard per play, while the Tornado backs carried the ball for an average of seven yards per play.

REVIEW OF THE FOOTBALL SEASON OF 1923

FLORIDA, 7—TECH, 7
Confident of victory, the Floridians poured into Atlanta to stop the Tornado. In the first half Florida intercepted a pass and carried the ball to Tech's 11-yard line. A completed pass and a line back carried the ball over for the first score. In the last quarter, Coach Alec sent in two tiny backs, Harris and Albright. These men, with perfect interference, started a march that was nothing short of marvelous, circled the Florida ends for a touchdown, tying the score. During the game, Tech made a total of twenty-first downs to Florida's seven. Albright, Harris and Wycoff starred for Tech, while Mildekauf played best for the 'Gators.

GEORGETOWN, 10—TECH 20
Four times, Georgetown's "Hilltoppers" had invaded Grant Field, and four times they had been turned away by defeat. This fifth time was no exception, for although Tech played in two tiny backs, Harris and Albright. These men, with perfect interference, started a bucking, also starred for Tech. With a dash, reeled off three touchdowns, giving Tech the lead. The star of the game was Albright, who, after brilliant playing, scored two touchdowns. Wycoff, with his splendid line bucking, also starred for Tech.

THE BLUE PRINT

AUBURN, 0—TECH, 0
For the first time in many years Thanksgiving Day was one long drizzle. It was a disgruntled crowd that witnessed the game, and although it was the first scoreless game between these two rivals, it was a lonely played affair. It was replete with fumbles and flukes and the ball changed hands frequently. Once Auburn seriously threatened the Tech goal line and once Tech tried a field goal but the game ended without scoring by either side.
Auburn Game

Thanksgiving Day proved a disappointment in more ways than one. First of all, after plans had been made for the biggest crowd that had ever assembled for an athletic encounter in the South a drizzle set in early in the morning that lasted all day and a number of loyal citizens decided in favor of the stuffed turkey and the fireplace, rather than the doubtful joys to be derived from two hours in the rain. This was doubly disastrous as the first concerted home-coming for the alumni was somewhat dampened.

However, both student bodies and a large number of fans were on hand to witness the famous annual classic between the two famous elevens. As soon as the game started the rain was forgotten in the excitement of the battle. From the start it was a see-saw affair. The ground was in such a slippery condition that long runs were impossible and the condition of the ball made forward passes out of the question. It was at once evident that it would be a plunging affair. As each team excelled in defense against this form of attack little could be accomplished. Time after time one team and then the other would rush the ball for three downs and be forced to kick. Fumbles occurred at intervals, but were equally balanced so that neither side obtained the advantage.

The half ended with the ball in the middle of the field and both teams drenched to the skin and reeking with mud. Between the halves the Tech hand marched on the field arrayed in gold sweaters and white ducks and formed a big "T". It made a most colorful spectacle as it played "Ramblin' Wreck" and cheered the sinking spirits of the huddled spectators.

The second half continued as the first. Once Auburn got within striking distance of the Tech goal by recovering a fumble but a forward passing attack failed and the ball was kicked out of danger. Again, Tech managed to get far enough into enemy territory to attempt a drop-kick but the ball was too wet and the attempt failed.

Thus it was that for the first time since the two institutions have played that a game resulted in a scoreless tie and a very much disappointed crowd wended its weary, wet way homeward.

Notre Dame Game

It was not without forebodings that the Tech team journeyed to South Bend to play Rockne's famous Irishmen. On the preceding Saturdays the Notre Dame team had decisively beaten the strong Army and Princeton teams on foreign ground. The Army had not been able to make a first down and the Princeton game had been a walk-away. A team that could do that a thousand miles from home would be a terrible adversary on its home field.

Our fears were well founded as the game showed. Although the Tech team fought with more than its usual tenacity they were unable to cope with the fleet backs of Notre Dame. Time after time the Tornado line threw back line plunges, only to have the versatile Don Miller dash around end, aided by perfect interference, for twenty or thirty yards. Before the Tech men woke up to the fact that they were in a football game he had run through the whole team for a touchdown twice. His ability to do this was most uncanny. After the Tech line had thrown back plunges, the backfield had broken up forward passes, and it looked as though the Irishmen were going to be completely stopped, the Notre Dame quarterback would call the touchdown signal and Miller would run through the whole team for a touchdown.

After three or four times this got monotonous and Tech started on a campaign of her own. With Doug Wycoff doing the most of the work, the Tornado carried the ball down the field for sixty yards and a touchdown, something that neither the Army or Princeton had been able to accomplish. Because of the splendid work of Doug and his teammates, the results showed that although the final score stood 35-7 against them, they had made more first downs than the Irishmen.

The team was excellently treated and everyone in South Bend was unanimous in saying that in Doug Wycoff, Tech had one of the greatest fullbacks in the whole country. Although this makes two straight defeats at the hands of Rockne's men we are determined that we shall have our innings and next year we hope to get back one of them when we meet the Irishmen again.
Penn State Game

Since the humiliating defeat at the hands of the Penn State team of 1921 it has been the ambition of the Golden Tornado to avenge that defeat and take the scalp of the "Lions." It was with this in mind that the team arrived in College Station.

From the start the Tech team fought like demons, and it was at once evident that the struggle would be one which would not be decided until the final whistle blew. Still smarting from the defeat at the hands of Notre Dame and from the tie game with Alabama, the Jackets were determined. The Tech tacklers were fearless and they managed to almost completely smother the famous Wilson, who had proved so disastrous against the Navy and other Eastern teams.

If the Tech defense was good, the Penn State defense was faultless. Try as they would the Tech backs were unable to gain against the Lions. The Jackets were forced to resort to a purely defensive game. They did this exceedingly well, however, and the best the Penn State men were able to do was to score once. After this the Tech men held their own and throughout the last half managed to keep their goal line out of danger.

Although they scored but one touchdown, they beat us again and beat us fairly. We are hoping that, as with Notre Dame, we may be able to avenge these defeats next year when the Lions meet us on Grant Field.

The 1923 Football Banquet

The 1923 football banquet, like the 1922 football season, was marked by that spirit of good fellowship which cements more firmly the bonds of friendship and makes each Tech man a brother to every other. The banquet was given on the night of December the fourteenth at the Capital City Club and was a complete success viewed from every angle.

At the appointed time those who had made themselves eligible for this occasion began to file into the hall. The assembly of players, alumni, and friends of Tech never looked or felt better in their lives and they wanted others to know it. The team retired at first to elect the captain for next year's varsity and the alternate. They soon returned and everyone took seats for the spread.

Colonel Lowry Arnold, toastmaster of this, and many other Tech football banquets from time immemorial, presided in his enjoyable manner. The guests forgot all other matters for a time while the material part of the banquet was disposed of. After the debris had been cleared away, the chairs were pushed back and Mr. Arnold introduced John McIntyre, captain of this year's Golden Tornado. Mac announced the election of Felton McConnell as captain, and George Gardner as alternate to lead the Yellow Jacket gridders in 1924.

Next came a short speech from McConnell and Gardner, who though hardly able to say anything after the honors recently bestowed upon them managed to convey their thanks and appreciation. Coach Alexander followed with a short speech on the important facts of the past season and also said that he was more proud of the 1923 team than any he had ever coached.

John Staton was the orator of the occasion and voiced, as he said, the sentiments of "the Old Guard who were now passing out of the pictures." He paid a tribute to all the coaches and said that the friendship of Coach Alec meant more to the players than anything that had ever come into their lives.

Dr. Crenshaw awarded the gold footballs to the members of the team, and each of the Old Guard spoke a few words straight from the heart. Dr. Brittain then told of the pride he had in the high caliber of our athletics, and the scholastic records of the players.

Speaking for the Atlanta press, Major John S. Cohen stated that they were always pleased to give Tech all the support in their power.

There was joy and sorrow at the 1923 football banquet, and the spirit of Tech pervaded the atmosphere throughout the whole affair.
Review of Freshman Football Season of 1923

After two practice games in which the Federal Prison and the University School were defeated by scores of 26-6 and 7-0, respectively, the Freshmen opened the season against Piedmont College and defeated them by the score of 13-0. The game was a preliminary to the Tech-Florida bout and though the Piedmont team played hard the Freshmen gained almost at will.

The next week the first year men were again victorious, Dahlonega being the victim. This game was a well-played one and though at first it looked like an easy victory, the mountain lads tightened during the last half, which was an exceedingly fast affair.

The Florida Freshmen paid us a visit and for the second time in as many years they took the measure of the Tech Rats. After holding the "Alligators" scoreless for the first two quarters, the Tech men went into a slump and during the last half permitted twenty points to be scored on them making the score 20-0.

The Freshmen again met defeat at the hands of the Alabama yearlings, the score being, 17-0. This game was played in Tuscaloosa and was the first trip of the season. The scoring was all done in the second quarter, the Tech men making their best attempt in the first quarter when they made three first downs in succession.

In the next game the rats again met defeat at the hands of an Alabama team, this time Auburn being the opponent. Although the Freshmen fought hard the Tigers managed to score 16 points on them. During the last quarter a rally was started which netted one touchdown but this failed to overcome the lead of the earlier part of the game. The game ended with the score 16-6.

Review of the Basketball Season of 1924

The basketball season was opened with a practice trip which the team made during the Christmas Holidays. First they journeyed to Macon where they met the strong Macon Y. M. C. A. team and defeated them by the score of 31 to 28. It was a narrow margin and the game was a closely played one throughout. The Jackets showed up exceptionally well in this, their opening game of the season.

From Macon they journeyed to Savannah where they met the Athletic Club team of that city. In this game the Tech men were playing real basketball and succeeded in beating the Geechee team 39 to 29. The next night the winning streak was continued when the Jacksonville Y. M. C. A. team was nosed out by a 32 to 31 score. The Albany Y. M. C. A. was too strong for them, however, and the basketball team lost its first game of the season to this team, the score being 39 to 28.

The first game in Atlanta was played against the Atlanta Athletic Club team. In past years the Club has turned out some teams of national reputation and this apparently got on the nerves of the Tech men for they were unable to keep their hands on the ball and lost by a large margin.

The first college game of the season was played with Clemson on their court. This proved to be an easy one and the Jackets won by a 48 to 13 score. Coming back to Atlanta the following night, the old rivals from Auburn were defeated easily, the score being 39 to 24. The first defeat at the hands of a college team was administered by the Furman team, which managed to run up 42 points to the Jackets 36.

After the Furman game came two with Mercer, both of which proved disastrous. The first game was rather close, the score being 29 to 26. Up until the last few seconds the outcome of the game was a toss-up, but a field goal just as the whistle blew gave the Baptists the verdict. The second game, however, was a more one-sided affair and the final result was 36 to 20.

The next two games were possibly the best of the season. The first of these, with Alabama, was a see-saw affair in which first one side and then the other would get ahead. The Alabama men were so much taller than the Tech men, that they had a distinct advantage under the basket. In the end this height told, and Alabama was on the long end of a 33 to 28 score. In the Mississippi game the long range guns were brought into action. It started when the A. and M. boys dropped in five shots from the middle of the floor, before the Tech team even touched it. Startling out under a handicap of ten to nothing was hardly easy, but the Jackets gradually cut into the lead until at the end of the half the score stood at 23 to 18. The second half began the same way and the visitors ran the score up to 31 to 20 in no time at all. Then Tech got in a big rally and scored ten points, bringing them within one point of the leaders. From this point the game was a hot affair until it ended with the score at 40 to 36 in favor of the Mississippi Aggies.

Another game with Clemson turned out much the same as the first, as did the return game with Auburn. Tech winning both of them by large margins. It seems singular that after winning these two games with Auburn so easily, it should be Auburn that would eliminate Tech from the tournament.

Games Won | Lost Percentage
19 | 10 | 9 | .526

A game with the local Y. M. C. A. team also resulted in a victory for the Jackets but the following week they were again defeated at the hands of the fast Alabama team. As if this were not enough, the team came back to Atlanta and played a game with the Jewish Progressive Club. Although the club has an excellent team, there was no excuse for the drubbing they gave the Tech team. The Jackets were way off form and the final score was 41 to 20.

The last two games of the season were victories, one over the University of Chattanooga being by a score of 23 to 18, and the other from the University of Kentucky, 33 to 27. The season was a remarkable one in the large number of close games that were played. With the exception of one or two, all the games that were lost were by very narrow margins.
S. I. C. Basketball Tournament

The fourth annual basketball tournament of the colleges comprising the S. I. C. was held in Atlanta beginning February 28th, and ending with the finals March 4th. The tourney was of unusual interest this year due to the exceptionally good teams turned out by the colleges, and the uncertainty as to which team would emerge victorious. Large crowds were present to witness the various contests, numbers of students from the colleges in the vicinity coming in to spur their respective teams on to victory.

From a Tech standpoint, there is not much that can be said, though Tech did have a very good team they were eliminated by Auburn in the first contest after a hard fight. The four teams going to the semi-finals were matched so evenly, that no one could forecast the outcome and the interest waxed keen. The finals were played by Alabama and North Carolina, the latter team winning. North Carolina deserves a great deal of praise for the splendid team they put out, and their clean, sportsmanlike playing that they showed throughout.

Review of Freshman Basketball Season of 1924

Freshman basketball having become an established branch of athletics at Tech, the year 1924 witnessed the fourth freshman cage season. The team of this year was exceptional and the season very successful as the results show at a glance. The games were well played at all times, and the first class playing of the men on the team showed that they would be strong contenders for berths on the varsity in the future.

The season began with the University High Bluebirds, and finished after ten other contests and several trips, with a stiff contest with the Carrollton A. C. The Freshmen won nine of their eleven contests and lost but two out of that number, giving them the excellent percentage of .818.

The initial contest against the University High team was a hard fought game from beginning to end, and the final result was in doubt up to the time the whistle blew. The score showed a victory for the Tech five, 19 to 18.

The second game of the season was another hard fought affair and the result ended in a one point victory for the opponents, Draughon's School, 25 to 24.

In the next affray the Mercer freshmen met the Tech quintet at home and put forth an unusual exhibition of basketball skill, downsing the home team to the tune of 31 to 14. The Tech bunch played hard, but were outclassed.

The Auburn Rats next sallied forth to do battle with Tech's team on their home ground. The green jerseyed cagemen met and conquered them in a strenuous contest, the score being 20 to 18.

G. M. C. was the following team to invade Tech flats and they speedily went down in defeat, though they put up a hard fight. The score showed 25 to 18.

In a match with Darlington High bunch, the game proved a walkaway for the Tech youngsters from the beginning, though the Darlington boys struggled valiantly. The scorebook showed a victory for Tech 26 to 16.

On the road the Tech rats revenged their defeat by Mercer, by returning the compliment on their home grounds with the close score of 18 to 17. Auburn was again swept down in defeat to the tune of 26 to 16 in an easy game for the Freshmen. LaGrange was also mowed down by the Tech quint with a score of 23 to 17.

Oglethorpe Freshmen were the next to succumb to the freshman Yellow Jacket five in a good game ending 20 to 18. The last affray of the season was played away from home on the Carrollton A. C. ground, Tech winning the large end of a 43 to 31 score.

The season was a highly successful one and a great deal of credit should be given to Jamison, James, Schwaltz, Parrish, Moreland, Connally, Rauber, and Baker who were the factors in bringing this about. We predict that these men will be heard of in the future on the varsity Yellow Jacket squad.

Review of the Baseball Season of 1923

It has been so long since Tech has not won a Southern Championship that hardly anything else was considered by the baseball team of 1923. Of the twenty games played, Tech lost two, and only one of these was to a Southern Conference team. Honors in two games were split with Auburn, both games resulting in a tie.

The season opened with Penn State in a two-day series, Tech pulling from behind in a ninth inning rally in both of these hard fought games. The following week the team went under in a hard fought game with Pennsylvania, the score being 3-2. The team redeemed itself the next week, though, by defeating Maryland 4-3, and Dartmouth the following week-end in two games, the scores being 8-0 and 8-2. Our next two games, which were with Florida were easily won by our team by scores of 2-0 and 12-0.

The road trip started the week following, with the first stop at Auburn. Here the game with Auburn ended in a hard fought tie, the game being called on account of rain. The next day the team again engaged Auburn, and again the rain stopped the game in the fifth inning, neither team having the advantage. Alabama was next to fall beneath the slugging of the Jackets in a two-game session, both games ending with Tech at the long end of 6-3 and 12-2 scores in the respective games. The team then journeyed over to Macon, where they took the Mercerites into camp in another two-game series.

Returning home, the Jackets trimmed the University of North Carolina by a 9-2 score. The next week Tech took two slugging feasts from Kentucky by scores of 9-2 and 10-2 respectively, in a two-game series. The final games with Oglethorpe were both won by the Jackets; the first by a 4-2 score and the second by a 3-0 score.

The entire team deserves credit for the splendid showings which they made, both on the road and at home. “Tobe” Edwards and Ed. Morgan both finished their careers at Tech with a splendid season. Tech won more honors this season than any other school, both in percentage of games won and in the placing of men on the composite “All-Southern.”

Review of Freshman Baseball Season of 1924

The Freshman Baseball Team of 1923 was really the first exclusively freshman baseball team to be put out at Georgia Tech. As such, this bunch of hardworking Junior Jackets, under the able guidance of Coach Dad Amis, set a standard which subsequent freshman teams will have difficulty in raising. Playing some of the strongest prep and college teams in the South, they came through the season with a record of six games won, four games lost, and one tied for a season’s average of .600.

The freshmen took the road the first thing off the bat and journeyed to Greenville where the Furman Freshies were unable to stop them and the game resulted in a 3-1 victory for the Tech Rats.

The following week saw the team on the plains for a two-game series with the Auburn Freshmen. The first game was a tooth-and-nail fight, resulting in a 3-3 tie. Because of this game a double-header was played the next day, the Tigers taking the first, 4-3. Tech came back in the next game and pasted the ball with such viciousness that at the end of the fifth inning the score stood 13-1 in their favor, evening the series.

From Auburn the team journeyed to Barnesville where they met defeat at the hands of the strong Gordon team. Both sides played air-tight ball until the last inning when Gordon managed to bring in the only run of the game and win by a 1-0 score.

The day after their return, the freshmen took on the G. M. C. cadets at Fort McPherson. The strain of the Gordon game the day before told on the boys and error after error was made. G. M. C. was thus able to pile up a large score in the early part of the game, and the Fresh rally in the last few innings was not sufficient to overcome the big lead, the final score being 11-6. The second game could not be played on account of rain.

The Auburn Rats then came to Grant Field for a return engagement, determined to win the series. The Tech men thwarted their plans, however, and took both games in great style, the first 5-3 and the second, 4-2. This put them two games ahead of Auburn for the series.

The next two and final games of the season were played in Milledgeville against G. M. C. In the first game, “Steady” Thompson reached the peak of a wonderful season of pitching and held the heavy-hitting cadets to two lone hits, while the whole freshman team batted the way to a 12-1 victory. They could not connect with the horsehide the next day and the game went to their opponents 2-0.

While not exceedingly remarkable from a won-lost standpoint, the 1923 Freshman season was yet successful and indeed served its purpose well.

Review of the 1923 Track Season

With the close of school last year the curtain went down on the completion of one of Tech's greatest years in track history. The team won in three of their five meets, placing second and fourth in the other two, respectively. Tech again won the Southeastern Amateur Athletic Union championship, also the Georgia state championship. Sewanee was defeated to the tune of 78-38. In the Intercollegiate Relay Race Carnival, the first event of its kind ever held at Tech, the team placed second, scoring 20 points to Mississippi's 24-1/2 which won. At Montgomery the team placed fourth in the Southern Intercollegiate Meet, Welcher being our only entry to cop a first, several others taking second or third places.

The above records shows that Tech regards track now not as a minor sport, but as a very important sport; and that she has spent much time and pains in turning out a good team. To Coach Griffin goes a large part of the credit for our team. He worked unceasingly to enable the school to show up well in the various meets, and the above record shows that his work was well done. The showing of our team proves that Tech can excel on the cinder path as well as on the gridiron; that she can turn out sprinters and field men as well as linemen and halfbacks.

Probably the most interesting of the meets held on Grant Field during the season was the Intercollegiate Relay Race Carnival. This was the initial trial of a meet of this nature and it was a great success. Ten colleges competed and a large number of high schools. Mississippi A. & M. proved to be Tech's stumbling block, as it has done so much before with its exceptional track stars. Tech placed first in four of the eleven events. Tech beat Vanderbilt, her next nearest opponent in the meet nine points.

The score for the Southern Intercollegiate Conference Meet was: Mississippi A. & M., 47; L. S. U., 40; University of Tennessee, 14; and Tech, 13 1/2.

The results in the Georgia State Track Meet showed an overwhelming victory for Tech, with the score of 71, University of Georgia being 38, Oglethorpe 27, Emory 23 1/2, and Piedmont College 7 1/2.

In the Southeastern Amateur Athletic Union Meet the results were: Tech, 26; Atlanta Athletic Club, 25; University of Georgia, 24, and Tech Freshmen, 16.

Sewanee was easily defeated with a score of 79 to 33. It was in this meet that Homer Welcher, premier javelin hurler of the track squad, shattered the Southern record for the javelin throw with a distance of 188 feet and 8 inches. Due to the fact, however, that Sewanee is not a Conference team this does not go on record.

At the end of this highly successful season letters were awarded to sixteen of the faithful ones who had merited them, and Homer Welcher was unanimously elected captain of the 1924 track team.
Intercollegiate Relay Race Carnival

Four-Mile Relay—Vanderbilt, First; Kentucky, Second; Tech, Third. Time, 14:49.3.

Half Mile Relay—Miss. A. & M., First; Tech, Second; Clemson, Third. Time, 1:32.5.

One-Mile Relay—Clemson, First; Miss. A. & M., Second; Florida, Third. Time, 3:33.3.

Half Mile Relay—Clemson, First; Tech, Second; Vanderbilt, Third. Time, 1:32.5.

Half Mile Relay—Miss. A. & M., First; Vanderbilt, Second; Tech, Third. Time, 1:32.5.

One Mile Relay (Freshmen)—Tech. First; Vanderbilt. Second; Miss. A. & M., Third. Time. 3:33.3.

Half Mile Relay—Chandler, Tech, First; Miss. A. & M., Second; Clemson, Third. Time, 1:32.5.

Three-Mile Relay—Tennessee, First; Tech, Second; Miss. A. & M., Third. Time, 14:49.3.

Sprint Medley Relay—Tennessee, First; Tech. Second; Miss. A. & M., Third. Time. 3:42.7.

120-Yard High Hurdles—Brinson, Miss. A. & M., First; Nash, Sewanee, Second; Marquis, Auburn, Third. Time, 15.9 seconds.

Pole Vault—Welch, Tech. First; Waller, Vanderbilt. Second; Pierce, Piedmont, Third. Distance, 11-11-8.

High Jump—Brewster, Tech. First; Pierce, Piedmont, Third; Gooch, Sewanee, First; Brunson, Miss. A. & M., Third. Distance, 5-10.

Javelin—Priester, Miss. A & M.. First; Welchel, Tech, Second; Sanders, Sewanee, Third. Distance, 186.7.

120-Yard High Hurdles—Brinson, Miss. A. & M., First; Nash, Sewanee, Second; Marquis, Auburn, Third. Time, 15.9 seconds.

Pole Vault—Welch, Tech. First; Waller, Vanderbilt. Second; Pierce, Piedmont, Third. Distance, 11-11-8.

High Jump—Brewster, Tech. First; Pierce, Piedmont, Third; Gooch, Sewanee, First; Brunson, Miss. A. & M., Third. Distance, 5-10.

Javelin—Priester, Miss. A & M.. First; Welchel, Tech, Second; Sanders, Sewanee, Third. Distance, 186.7.

The Cross Country Run of 1924

The morning of this most picturesque event dawned clear and fair and the firmness of the turf and the clearness of the day prophesied the splendid race that was to follow. Six hundred hopefuls crowded the starting line and swarmed out of the gate at the boom of the salute gun.

There was the usual wild race to be the first to get out of the gate, but as the race swung over the hills and through the valleys, these aspiring young men soon fell out. It was a wonderful sight to see the men start strong and determined to conquer at any cost, and to return weary and foot-sore but proud that they "had run the race."

The first man to appear through the gate was John Barrett, a long-winded sophomore from Arkansas, who led the field by fifty yards. Barrett's time was 18:18 which clipped 11 seconds from the former record, held by Horace Moore. H. P. Barton and Ben Peacock finished second and third. Barrett received the finest of the 132 cakes awarded, a varsity "T", and a gold medal. Barton was awarded a large cake and a silver medal, while Peacock was awarded a bronze medal. The first 132 men finishing received cakes donated by the faculty and the friends of the school.

It was an inspiring sight to see the men come in exhausted but with that do or die spirit. As each group entered the gate there ensued a race to see who would be the first of that group to cross the finish line. At the end of 26 minutes the gates were closed and the men were numbered for the selection of cakes.

The Delta Tau Delta fraternity won the Pan-Hellenic cup given to the fraternity with the highest number of points. If this cup is won three consecutive times it becomes the property of the winner. The Phi Delta Theta fraternity won it last year. The freshman class triumphed over the other classes; Swan won in the dormitory group, and Company "G" made the highest score of any of the military companies.
Tennis Team of 1922-23

Review of the Tennis Season of 1923

The annual school tournament which was held the last part of May on the courts at Piedmont Park was one of the best in the history of tennis at Tech. From a field of about fifty men the singles narrowed down to E. K. Van Winkle, R. S. McIver, Jr., E. P. Murrah and K. G. Matheson. In the semi-finals Matheson and Van Winkle were eliminated and McIver and Murrah left to play off the deciding sets. Three hours and a half were required to settle the singles championship but after a most bitterly fought battle McIver came out on top, 4-6, 6-0, 8-6, 4-6, 6-2. With this victory McIver gained the singles championship for the second time having won it in 1922.

In the doubles tournament the finals were played by practically the same men as were the semi-finals of the singles. K. G. Matheson and R. S. McIver defeated Zack Carnes and E. P. Murrah by the score of 6-3, 6-4, 6-4. On a whole the school tournament was a great success and did a great deal toward putting the team in shape for the successful season which was to follow.

The first match play that the team of 1923 attempted was in the Southern or S. I. C. tournament held at East Lake the last Friday and Saturday of May. McIver and Matheson represented Tech in the doubles and Carnes, Matheson, McIver and Murrah in the singles. The doubles team was eliminated early in the race. Carnes stayed in the race through the semi-finals in the singles. N. C. State was the winner of the tournament both in the doubles and singles.

In the Georgia State Tournament held in conjunction with the annual state track meet at Emory, K. G. Matheson and R. S. McIver won the doubles championship without losing a set. This is the second successive year that the Tech team has won the doubles championship in this tournament. In the singles Tech did not fare as well and the victory went to Simpson of Emory.

The tennis team of 1923 took three trips. The first of these to the University of Alabama was highly successful. The team composed of Matheson, Carnes, McIver, and Murrah won every match both in the singles and doubles and lost but one set in the entire tournament.

The second trip attempted by the team was not what might be called a howling success. The foe this time was Camp Benning at Columbus. Tech's colors went down in every match with the exception of one. In this E. P. Murrah defeated Capt. Sintzer of the Fort after a hard fight. Murrah is to be congratulated on his victory because this match is the only one that a member of the Fort Benning Team of 1923 lost to a college man.

In a return match in Atlanta the Fort Benning team were again victors and this time they made it unanimous and took every match.

In the third trip of the team, this time to Greenville where a three-sided tournament was to be played with Clemson and Furman, old “Jupe” took a hand and wet courts prevented the match from taking place.

Review of the Golf Season of 1923

In the first part of March, 1923, a golf club was formed at Tech. This was not a new movement, but it had been several years since we had had a golf team or club. This new organization seems to have opened a much needed field as a large number of men became members. The club had eight honorary members (faculty) besides thirty-three student members.

Captain Frazier Hale, of the military department, who was selected as advisor, and F. B. Farnsworth were among those most active in the formation of the club.

Immediately upon organization the club decided to sponsor a golf team. Finding that the Athletic Association was ready to back them, the men began practicing on the various courses about Atlanta. Under the coaching and advice of Captain Hale the team was moulded into shape and on April the 28th the team entered on its career by playing the University of Alabama at Montgomery. The men picked for the team were Sonny Krauss, Bip Farnsworth, J. H. Lynn, and Taylor. Farnsworth was elected captain. Although Alabama won with a score of 10 to 7 it was not at all a bad match.

The next match was with eight followers of the Scottish game from Newnan. Tech won, defeating their opponents 33 to 0. The team in this match was made up of Tully Walsh, Wilmer Davis, Bill Spalding and those who played in the Alabama match. Krauss brought in the best score.

Tech next won a victory from a pack of golf-hounds sent down by the University of Tennessee. Taylor, Krauss, Brannon and Lynn representing the Yellow Jackets played to a score of 15 to 1 in their favor.

On May the 9th, 10th, 11th and 12th the First Annual Intercollegiate Association tournament was held. The matches were played at the Cherokee Country Club of Knoxville, Tenn. A team consisting of W. B. Farnsworth, captain, J. H. Lynn, J. B. Brannon, W. W. Krauss, and Captain Hale, advisor, represented Tech at this match.

In the team trophy Tech showed up well, tying Tennessee for second place. Georgia won first place.

The team scores over the 36-hole qualifying route were:

- Georgia—688.
- Tech—698.
- Tennessee—698.
- Alabama—708.
- Sewane—728.

Publications

It was not until after the school had been in operation for some years that an attempt was made to publish a paper or periodical. A publication called the Yellow Jacket was published for a short time, but it was short-lived. It was not until the spring of 1912 that a concerted attempt was made along these lines. In this year Gene Turner began the publication of a weekly paper known as the Technique. He managed to obtain enough support to enable him to publish several issues that year. The next year with compulsory subscription he was able to carry on the work in a business-like manner and firmly established it as a Tech institution.

Thus began the Tech publications. At the present time there are besides the Technique, The Blue Print, which is the annual or yearbook of the institution; the Yellow Jacket, which is a comic published monthly, and the Alumnus, a communication to keep the alumni in touch with the activities of the school.

At the present time the Technique is more than maintaining its position as the South's liveliest college weekly. Each year it has been enlarged until most of the issues this year have been ten and twelve pages rather than eight. Its columns contain a complete review of the campus activities each week, as well as keeping in touch with other schools throughout the country.

The Blue Print has yearly increased in size and quality and if subscription is made compulsory as a part of the Student Activities Fee its editors should be able to place it on a par with the annuals of the largest universities in the country. In its pages are to be found pictures and accounts of the outstanding events of the school year.

The Yellow Jacket is still in its infancy, having been published only three years. Despite this fact it is rapidly assuming a foremost position among the nationally known college comics. It is purely of the comic nature and is replete with wit and clever jokes.

The Alumnus is also a young publication. Strictly it is not a school publication, being published by the alumni, but it contains nothing but Tech news and so may be considered as such. Its purpose is to keep the alumni in touch with the various activities of the school.

The men who are responsible for these publications are deserving of considerable praise. For the most part their days and nights of hard labor go unrewarded. After all it is the publications that mold the policy of the school and advertise its greatness to the world.

Review of Glee Club Season of 1924

The Georgia Tech Glee Club of 1924 made its premier at Washington Seminary on February 23. The program was a departure from the ordinary college Glee Club in the respect that several novelties, such as musical comedy numbers, blackface comedians and instrumental numbers were added. The club was very heartily received and congratulated.

Following the opening several week-end trips were made. The first trip to Shorter College at Rome found a very beautiful and appreciative audience. The next week-end the club journeyed to Madison where a very successful performance was given.

On Monday, April 7, the club left Atlanta on the road trip of the year. At Griffin, the first stop, the club was very pleasantly received. On Tuesday night a concert was given at Americus. On Wednesday the trip was continued south to Valdosta, Jacksonville, Fla., was the next stop and one of the most pleasant of the trip. Savannah was the next stop on the Glee Club itinerary and the club was received with characteristic Southern hospitality. At Macon, the last stop of the trip, the club was graciously received. Dances were given after the concert in all of the towns and the boys were given an opportunity to meet many very fine people.

On this trip, more so than on any of the previous trips, the members of the club were entertained in the homes of alumni and friends of Georgia Tech. It was due to the kindness of these friends that the week was made more pleasant.

On Saturday, April 19, the club gave two performances at the Atlanta Theatre. The Atlanta performance is the most important of the Glee Club season. The hard work of the club was rewarded by a very flattering appreciation.

The departure from the classical program of the ordinary Glee Club was received with hearty approval by all of the audiences played before. The addition of female impersonators contributed much to the success of the club. Efficient management of the business and of the actual performances enabled the club to enjoy a season that was both profitable and pleasant.

Review of the Marionette Season of 1923

The 1923 season was a turning point in the history of Marionettes. From the old custom of working up a play, giving it before an Atlanta audience, and then letting it go at that, they developed a series of road trips, which proved most successful from both an artistic and a financial standpoint. The first venture of this kind was during the fall of 1922 when "Officer 666" was played in Griffin and Barnesville. The success of this trip caused a number of trips to be made during the spring of 1923, each one meeting with success.

The play dramatized during the spring was Booth Tarkington's "Clarence". Previous to this only one play had been put on each year, but this made the second as "Officer 666" had been staged during the fall. The Atlanta performances of "Clarence" were staged on April 13th and 14th at the Woman's Club Auditorium. The cast played to a full house both nights and scored a decided hit. In his part of Clarence, Harry Ellerbee reached a climax of a most colorful career with the Club. His characterization was superb. Other outstanding stars were Lawrence Petri and Jimmie Whitfield.

The following week the cast lifted anchor and journeyed to Newberry, South Carolina, where a performance was staged. The day following this, two performances were put on in Columbia, one in the afternoon and one at night. After laying over Sunday in the South Carolina capital an attack was made on Converse College at Spartanburg which was most successful. For the first pretentious trip since its organization the Club deserved all the credit received and established a name for itself among the people of our neighbor ing state. A week later a short trip to Dalton was made and the audience again was delighted with the dramatization of the play.

Immediately following the close of school, in fact the day after the Pan-Hellenic dance, the club left on another trip, this time in the opposite direction. On June 13th a performance was staged in LaGrange and the following night one in Roswell, Alabama. The climax of the season was reached in Thomasville on June 15th. Although the people in every town visited were more than willing to do everything in their power for the entertainment of the cast, here the entertainment provided was faultless.

During the fall of 1923 "Polly with a Past" was staged. After playing in Griffin on the night of November 30th, the Atlanta performances were put on, on the nights of December 7th and 8th, before capacity audiences. Landom Clark as "Polly" was the star, but he was ably supported and Jimmie Whitfield, as the hero, came in for his share of the praise. Three week-end trips were made with this play: one to Newton, Georgia, one which included both Dalton and Rome, and one to Athens. All these turned out well and made a fine impression on the audiences. On February 12th the big South Carolina trip got under way. The opening performance was again staged in Newberry, followed by one in Columbia. Next the boys played in Abbeville. The real fun of the trip happened at the two girls' schools, Anderson and Converse. This last place wound up the most successful trip and season in the history of the Marionettes. If this much can be achieved in one year, there is no limit to the possibilities of the future.

Honorary Organizations at Georgia Tech

To reward those of the students who have expended their time and efforts in the various activities, there have been formed several honorary organizations. There is one of these societies for each phase of college activity, and membership in them stamps the man as a leader in that activity. Among these societies are: Phi Kappa Phi, Pi Delta Epsilon, Scabbard and Blade, Anak, Koseme, Bull Dog, Skull and Key, Delta Sigma Pi, Alpha Kappa Psi, Beta Tau, Kappa Kappa Psi, and Mu Lambda Sigma.

Phi Kappa Phi, carrying the idea of excellence in scholarship and activities, is probably the highest honor attainable. Election to membership takes place at the beginning of each year, only 10 per cent of the members of the Senior class being eligible.

Pi Delta Epsilon, the national collegiate journalistic fraternity, limits its membership to those men who have successfully completed two years on one of the school publications.

Scabbard and Blade, a national military fraternity, plays an important part in the military life of the school. Membership in this organization is a reward for proficiency in the performance of military duties.

The Anak, a Senior Society, is the most powerful society on the campus, being composed of twelve men who have proven themselves to be leaders in the activities of the school. Commencement details are arranged by this society.

The Koseme Society, is the junior organization. Its members, composed of nine men who work with the sole purpose of improving Tech, have charge of the Cross Country Run and the annual Field Day.

The Bull Dog, one of the oldest societies at Tech, is a social organization, and is composed of the most prominent men of the Junior and Senior Classes.

Skull and Key, the Sophomore society, elects about twenty of the outstanding men in that class every year.

Alpha Kappa Psi and Delta Sigma Pi are national honorary commercial fraternities. Its members are chosen from the outstanding men in all of the classes.

Beta Tau, a local honorary fraternity, has taken its place on the campus. Its membership is limited to those who make the highest averages during their first three years at Tech.

Kappa Kappa Psi is an honorary musical fraternity whose membership includes those who have shown exceptional merit in their work for the band.

Mu Lambda Sigma membership is the reward for those who have shown work and talent in public speaking in the honorary forensic society.
Koseme Society

Dances
Review of the 1924 Social Season

There is nothing in college life that yields so many happy memories as does the reminiscence of social affairs. The past social season has been a succession of brilliant and unique dances and parties, kid dances, fancy dress balls, Valentine, Leap Year, and artist balls following in a dazzling and never ending procession. These affairs have thrills that will be remembered with pleasure and leave regret that the good old days are gone.

The commencement season brings a happy and carefree time to everyone. The four splendid dances that were given at this time last year were enjoyed to the utmost and will long be remembered. Goff's Orchestra of Erie, Pennsylvania, played the sweetest and most tuneful melodies and the Brookhaven Country Club furnished a setting that will linger long in the memory of those who attended. The Junior Prom, the Sophomore American, the Senior Hop were all enjoyed immensely, but the Pan-Hellenic was by far the best. This dance has a place in the life of every Tech graduate that is difficult to define, but it is very fitting that the graduate should bid farewell to his friends and associates of his college life at the break of dawn of a bright summer day.

The fall season was made more enjoyable by the tea dances given by the Chi Phi fraternity after each of the football games. The fall season is the time when most of the social clubs of the school such as the Bulldogs and the Cotillion club give their dances. The sororities at Washington Seminary also give their dances at this time of the year.

With the beginning of the new year most of the dates until the last month of school were taken and the social season was begun in earnest. The first dance of the year is usually the Pan-Hellenic, which was given after the return from the Christmas holidays.

With the coming of Spring several unique and brilliant affairs were given. Ball care was forgotten and carefree youth enjoyed the entrancing strains of the music and the poetry of motion. Frangrant nights, a beautiful moon, happy couples strolling here and there furnished a setting for the enthusiastic merriment and joy of youth that will never be forgotten.

Notable among the dances of the spring season was the Fancy Dress Ball given by the Phi Sigma Kappa fraternity at the Druid Hills Golf Club. This beautiful club furnished a setting for a brilliant array of costumes and beauties that will linger long in memory. Another entertainment that will be remembered was the Valentine Ball given by the Kappa Sigma fraternity at Druid Hills. A veritable harvest moon was not half so glorious as the bevy of beauties that graced the occasion.

The Leap Year dance given by the Theta Chi fraternity was one of those glorious evenings. The Druid Hills Golf Club, the scene of so many delightful affairs, was brilliantly lighted and filled with happy laughing couples. Masters of symphony produced music which inspired everyone to dance and have a good time. Following their usual custom the Delta Tau Deltas gave an Artist Ball at the Biltmore. This beautiful hostelry was a charming setting for a handsome array of Southern beauties. Revelry and merriment were the keynote of the evening. An inimitable orchestra exploited all the charms of music, and the strains of "Home Sweet Home" came all too soon.

With the advent of Summer the curtain was rung down on the most brilliant and enjoyable social season Tech has ever seen. Inimitable Southern girls, the Georgia moon, and the best of orchestral offerings will linger long in "that inward eye of Solitude"—Memory.

The Significance of the R. O. T. C. in College

Realizing the important fact that the college man is the nation's best military asset and that in the many schools and universities throughout the United States are to be found real leaders of men, our government instituted the Reserve Officers' Training Corps in the majority of the leading colleges within the nation, whereby these leaders may become well versed in the customs and practices of modern warfare. Hence, in case a national emergency might arise, the War Department will have at its command, a reserve corps of trained officers, mentally, morally, and physically qualified to command troops and perform the various duties of staff.

The significant features and the benefits derived therefrom are many indeed but only a few of the more important ones can be mentioned here. To catalogue each would require much more space than is granted here.

The work with the R. O. T. C., as handled by efficient instructors is conducive to good citizenship. This fact cannot be questioned when the disciplinary, responsible and self-reliant duties that must result from work of this nature is justly considered. The association with and the example of instructors leads the student to honorable, honest and upright habits, all of which are stepping stones to good citizenship.

Viewed from a standpoint of health, it is quite obvious that the physical exercise obtained from work in the out-of-doors is beneficial. Athletic contests and games are often times held as a part of the regular course, also. Exercise of this kind provides the student with a clearer mind and stronger body which prove of inestimable aid to him in the routine work of his classes.

Finances play an important and intricate part in the R. O. T. C. movement in the colleges. Besides a serviceable and attractive uniform that is furnished each year by the government, the small sum paid to those in the advanced courses proves of great assistance to the college man, oftentimes being a means of enabling the student to continue his college career which otherwise might have remained unfinished.

And then there are found organizations that act as an incentive to the students to do better and more conscientious work. Chief among these is the national military fraternity of Scabbard and Blade. It is a means of reward for those who have done the most towards the advancement of the respective unit. Election to its membership is a coveted honor.

The thoroughness with which the work is handled is shown by the summer camps that are sponsored by the War Department. The students spend six weeks of one summer in a military camp at the entire expense of the government, learning the finer points of a soldier's life, that can be gained only from actual experience of this kind.

Taken all in all, the aims and purposes that result from the R. O. T. C. movement lead to the upbuilding and betterment of the individual, the colleges of the country and the nation taken as a whole.

- 10:00 P.M. — Pan-Hellenic Costume Ball ..... Brookhaven Country Club
Commencement

It is rather a bit of irony to have the Commencement after four years of hard labor, but such it is called, and such it really is. The Class of 1923 finally managed to satisfy the Experimental Engineering Department to the extent that they were awarded their diplomas on the morning of June the eleventh.

Due note is made of the above fact because technically speaking it was the most important occasion of the week. Actually, however, most of the boys were glad to know they had finished and gotten through all right that a mere diploma was not necessary. Also there were so many other things on hand to be done.

The visitors for the week began coming in Friday, June 8. That night the first of the dances was held at Brookhaven, the Junior Prom. As usual, this was a real affair, being in the nature of a get-together party for the old men who were back. Many acquaintances were renewed and many of the girls had another chance at victors of the past.

Saturday was devoted to the entertainment of the house party guests in the nature of bridges and teas. In the evening the Senior Banquet was held at the Georgian Terrace, and as usual this was a tremendous success. Ardent speeches inspired the graduates to take their stand in the world and make their Alma Mater proud of them.

After the Banquet the Sophomore American was held at Garber's Hall. This dance was very crowded, and as everyone was in a jovial mood, was a most lively one.

Sunday morning the caps and gowns were donned for the first time and the Bacca-laureate Sermon was delivered to the Seniors at the First Presbyterian Church by Dr. Lyons. The rest of the day was spent in anticipation of the morrow.

At ten o'clock Monday morning the Faculty filed down and took their places on the stage. This was erected on the campus in front of the library, which, shaded by the numerous trees there, formed a most appropriate setting. The Seniors took their seats and the exercises were graciously rendered.

During the afternoon the Marionettes staged a special performance of "Clarence" for the out-of-town guests. This is something new as a part of the program and was greeted enthusiastically. The Senior Hop took place in the evening at Brookhaven and made the third of the group of dances. Like the others it was most successful and left everybody enthusiastic for the Pan-Hellenic.

This came on the following night, the night of nights. Starting about eleven o'clock, it lasted until seven in the morning. Many things happened during that time and it was with exceeding regret that the party broke up because everyone knew that meant that it was all over, and the members of the Class of 1923 had become full-fledged alumni.

ACT I—SCENE 1
Hector McApplejohn, handsome head-waiter at the Peacock, is in love with pretty Kitty Cohen, who appears—all of her—in the chorus of the Bonita Follies. After the dance is over, the orchestra goes home. To complicate matters, the Count Dumbski drives his imported taxi off the bridge into the Chattahoochee, and it becomes necessary for someone to go down for the Count. After the steamship has docked, the papers are delivered to the child’s mother, and the dirigible returns to Athens. Not to be outdone, Richard disguises himself as a beef-steak and starts acting tough. Henrietta turns out to be Courtney’s stenographer, and they clinch in the middle of the stage.

ACT II—SCENE 1
Rupert: “What has Papa? What Has?”
Papa: “Use the rake, my son.”

Georgia School of Technology

"A TECHNICAL SCHOOL WITH A NATIONAL REPUTATION"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power. The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Courses in CIVIL, ELECTRICAL, MECHANICAL, TEXTILE, GENERAL, AND CERAMIC ENGINEERING, ENGINEERING CHEMISTRY, ARCHITECTURE, COMMERCE, AND GENERAL SCIENCE.

Coast Artillery, Signal Corps, Air Service, Infantry, Motor Transport, and Ordnance Units of the R. O. T. C.

Tattler's Latest Book Reviews

"CAUGHT IN THE ACT."
By I. Sawyer DeWitt.
A remarkable novel of awe-inspiring capabilities. A treatise on modern-day burglary. A marvelous undertaking by a man so young in his art.
Procter & Gamble Co. 8c yet.

"THE STOLEN KISS"
By Justin Funn
An all-embracing volume by an all-embracing author. Cool, refreshing, delightful. A marvelous undertaking by a man so young in his art.
Procter & Gamble Co. 8c yet.

"THROWN OUT"
By Percy Astro Dadd
The author with his usual clarity depicts the vicissitudes of present-day matrimony. A novel of intense interest, full of action and plot.
Charles, Peabody Co. Latest. 20c yet.

"Jilted"
By Betty Under Goode
The second novel from Mrs. Goode this week. Effusive, foolish and outlandish. Particularly commendable for vest pocket use.
Smith Brothers. 5c yet.

"THE INNOCENT"
By Hugh Kister Furst.
The first of the season on naive seduction. Passionate, terrifying, risque. An effective bit of authorship. You feel safe if you are equipped with it.
Kelly Springfield Co. 20.00 yet.

"AFRICAN GOLF."
By Roland Bett Hire
Hart, Schaffner & Marx. One Price Yet.

"THE BUREAU DRAWER"
By Pryor Pullen Vayne
A work of extraordinary merit. A clear, clean and decent novel. The first of its kind this year.
Fairy Soap Co. yet.

"THE PROFESSOR"
By Noah Bitt Moore
The story of a professor by a professor. A treatise on absent mindedness, its causes and remedies. Delightful, archaic and inane.
Western Union Co. Delivered at your door. yet.

"LEAP YEAR"
By Willie B. Henman
A love-story, characterized by its author, a man of no little pertinacity. Highly commended in all circles.
Rice and Hutchins Co. $2.00 yet.
Our Swan Song

The engineers, they have tin ears,
They wear old ads and britches,
They pound on rocks and gouge out blocks
Of dirt, just for the ditches.

The engineers, though young in years,
Don't often care for trifles
They live in stalls off catnip balls,
And shoot fried eggs with rifles.

'S TOO TRUE
"In the Spring a young man's fancy
Lightly turns to thoughts of love,"
—And in summer, and in autumn,
And in winter—see above.

"What did your girl say when her dress
blew up over her knees at the Candler
Building the other day?"
"Heaven's above."

"My wife is governed very much by sug-
gestion."
"Yes?"
"You see, we lived in Saint Paul for three
years without having any children. Then
we moved to Twin Harbors and my wife
presented me with twins. Then we moved
to Three Rivers and she blessed us with
triplets."
"Well, for goodness sake, stay away from
Thousand Isles."
The initials of a friend

You will find these letters on many tools by which electricity works. They are on great generators used by electric light and power companies; and on lamps that light millions of homes.

They are on big motors that pull railway trains; and on tiny motors that make hard housework easy.

By such tools electricity dispels the dark and lifts heavy burdens from human shoulders. Hence the letters G-E are more than a trademark. They are an emblem of service—the initials of a friend.

GENERAL ELECTRIC
“Have you seen Ethel Barrymore in her new role?”
“No; but I’ve seen Gilda Gray in hers.”
—Bison.

TO PAUL WHITEMAN FROM HIS MOTHER

Paul, your Mammy’s growing old,
Silver threads among the gold,
Still, the old gal’s toes ain’t cold—Debutante (between dances): “I’m awfully tired. Me for home and my little bed.”
Agreeable partner: “Fine! I’m with you there.”

When I watch you strut your stuff,
Boy, I sure start feelin’ tough!
Never seem to hear enough—Virtue: An idealistic nomenclature for an unfortunate circumstance, originated by Adam’s wife, and laughed at by his mistress.

Big fat mamas I may be,
My old age ain’t frettin’ me.
Jazz just makes me young and free—Chastity: An unfortunate circumstance born of Ignorance, fathered by Fear, and serenaded by the Old Maids of both sexes.

If at last shall come the day
When they’re putting me away,
Though the funeral march they play,
Shake your feet!—Virility: The unfortunate circumstance born of Fear, fathered by Lust, and serenaded by the Old Maids of both sexes.

HOW TO MAKE A FRAT.

(1) If they say “come back any time,” do so. Any time 10:00 A.M. is a good time, for example. It makes you stand out as original. This will make the brothers remember you better when balloting.

(2) Never admit your unsophistication by wiping your feet before you enter the house, or by removing your hat until someone asks to take it. Cass fluidly. Chew by all means, and never look for the cuspidor. Just aim in the general direction of the corner of the room. When upstairs loll on the beds carelessly.

Fraternity men love to see these little things which depict the man of the world.

(3) Always remember to be humorous. Spill your pet puns as often as they occur to you, or oftener. If one of the brothers gets serious, laugh at him. He’s trying to be funny. Greet ‘em all with a grin, a jibe, and a friendly poke in the ribs.

(4) If you are not sure as to the frat you should join, list the things you expect of a fraternity and publish them in the Technique and the Yellow Jacket. Hire a secretary to handle your correspondence.
T is for Tilly, that old Irish wit,
Who'll sit by my side and never say "Quit."

E is for Elsie, the girl who works fast.
That's the real reason she now has a past.

C is for Carlotta, the girl of my youth,
The tom-boy whose mother would blush at the truth.

H is for Hulet, a girl of much fame.
She isn't so bad, but oh! what a name.

G is for Gilda, the sweet sort of kid,
Who didn't give a dam for whatever she did.

I is for Irene, so lively and gay,
Whose memory is linked with that great day in May.

R is for Ruth, of Follies renown.
It takes lots of Jack to show her the town.

L is for Laura, the cute bob-haired vamp,
Who nearly took me with her to Nort-hamp.

S is for Sue, who used to be nice,
But now she is called "My Dear Mrs. Price."

T is for Tilly, that old Irish wit,
Who'll sit by my side and never say "Quit."

E is for Elsie, the girl who works fast.
That's the real reason she now has a past.

C is for Carlotta, the girl of my youth,
The tom-boy whose mother would blush at the truth.

H is for Hulet, a girl of much fame.
She isn't so bad, but oh! what a name.

G is for Gilda, the sweet sort of kid,
Who didn't give a dam for whatever she did.

I is for Irene, so lively and gay,
Whose memory is linked with that great day in May.

R is for Ruth, of Follies renown.
It takes lots of Jack to show her the town.

L is for Laura, the cute bob-haired vamp,
Who nearly took me with her to Nort-hamp.

S is for Sue, who used to be nice,
But now she is called "My Dear Mrs. Price."

A young married man of a near-by town,
whose family was recently enlarged by twins, rushed into the telegraph office to break the glad news to his parents. In his haste to get the joyful tidings on the wire, he wrote: "Twins today. More tomorrow."

Mrs. Newkale: "My dear, isn't that the 'Sextette' from 'Lucia'?"

"No I think the orchestra is playing a selection from 'Rigoletto.'"

"I am positive it is the 'Sextette' from 'Lucia.'"

Thereupon Mr. Newkale goes to the orchestra stand and reads the placard posted in the space where the names of the selections played are usually posted. In a minute he returns.

"My dear, we are both wrong. It's the 'Refrain from Smoking.'"

"Oh Sonny, Sonny, Such extravag-
ance. At four o'clock in the afternoon you buy an All Day Sucker."  —Puppet.

TEBROR AND TATTLER

HOLLYWOOD NEWS.
Mary Miles Minter,—nineteen today, yesterday, tomorrow and forever!

THE FAREWELL
How I did wish she might stay. For months she had been my best companion, in sunshine and in rain. She greeted me with calmness when I came home from classes, disgusted with the work of the day; she consoled me at night when I was downcast and sleepy. She even let me put my head on her soft white bosom. She rocked me to sleep at all hours of the night. How I loved the softness of her on my cheek. Her caresses were the best I had ever felt. But she could not stay forever. I realized that in the beginning, but yet I wanted her,—I needed her. The doorbell rang. The time for parting had come. My pillow case was going to the laundry.

TRY AND—

MODERN ROMANCE.
Just imagine yourself cast away on a tropical isle, far from the paths of commerce and possible rescue, together with a beautiful unmarried girl, the idol of your dreams, with whom you rapidly fall in love and who will return your love with a passion as intense and devoted as your own; as you pass the days like two children of nature beneath the warm southern skies, fed by the profusion of wild, growing things, and sheltered by the spreading palm.

Yes, just imagine it. That’s as close as you will ever get.

Headline: "Ninety per cent of the girls who marry are working girls."
"Yes, and one hundred per cent of the girls who marry are working men."

GET IT.
—Black and Blue Jay.

Little Pat: "I can't play with you 'cause you're a Jew."
Little Ike: "But we're not playing for money."

LEAP YEAR

Harold, b' gosh I luv yuh,
But I simply can't propose.
Guess I ought ta tell yuh,
My reason's not what you'd suppose.
I mean all right toward yuh,
'Cause here's my reason why:
This skirt has me so tightly squeezed,
I simply can't get on my knees.

—Wampus.

Bobbie (aged seven, helping cousin dress
doll): "What goes on next?"
Cousin: "Really, Bobbie, I don't think I
ought to tell you."

"Boy, call me a taxi."
"All right, you're a taxi."

—Voodoo.

"Lend me a nickel, Helen, I'm going for
an auto ride with your man."

—Wampus.

Famous actress at home: "My home life has always been ideal," said Mrs. Peeca Asphalt, of the Dumb-dora Sextette, "My husband and I are real pals to each other." Unfortunately her husband was not at home at the time this picture was taken.

THE TATLER'S QUESTION BOX
(Conducted by Unda Ware.)
Address your questions on any subject to this department, and Mr. Ware will answer them for you.

Dear Unda: Can you tell me who made the first nitride in this country?
—Chemist.
Chemist: That's easy—Paul Revere.

Dear Unda Ware: Why do business men condemn the Hawaiian Vaudeville?
—Collitch.
Collitch: Too much waist motion.

Dear Unda Ware: Is there anything I can do to keep my hair from falling?
—Bachelor.
Bachelor: You might try catching it.

Dear Mr. Ware: What would you say was the leading element in the reform movement?
—Fair One.
Fair One: Corsets.

Questions Mr. Ware has under consideration:
Is an icicle a hard drink?
Is a bishop a bird of pray?
"You mustn't... I've a tainted mouth."
"What do you mean?"
"Taint to be kissed."
—Royal Gaboon.

College life is a strenuous life. You are developing both Brain and Brawn, and while there are scattered cases of brilliant minds in feeble bodies, usually the body must be well fed and well nourished to enable you to "Carry On" in the class-room, and certainly you must be well nourished to be able to hold your own on the athletic field.

UNCLE SAM BREAD HELPS YOU TO MAKE THE GRADE IN THE CLASS-ROOM OR ON THE FIELD BECAUSE IT IS PROPERLY MADE FROM THE FINEST MATERIALS OBTAINABLE.

TERROR AND TATTLER

THE HANDSOME BROTHER
How the ladies love him! There is always one of them at every house. Fair hair, robust, perfect, with a purity of feature that belies his character. A fellow with his looks has to sin in self-defense.

THE ATHLETIC BROTHER
No house should be without one. Neither quite as hard as he's pictured nor as dumb as he looks, thank God. Quite an asset to the house when it comes to prestige or piano moving.

THE MUSICIAN BROTHER
The kind of egg who thinks the musical fraternity rates higher than Theta Nu Epsilon. He's wonderful at rushing smokers, but his form isn't quite so good the night before exams.

THE ARGUMENTATIVE CHAP
One of these guys can prolong a meeting till 11:40 any time, holding his audience helpless, but not spell-bound. It is rumored that 20 minutes under water is the only sure cure for him.
Rastus: "Gal, did yuh get them flowers I sent yu?"
Rastette: "Didn't get nuthin' else."
Rastus: "Gal, did yu wear them flowers I sent yu?"
Rastette: "Didn't wear nuthin' else."
Rastus: "Then what did yu pin them to?"

Her father leaned from his window sill,
Whilst his daughter eloped with sweet "Bill."
But her daddy laughed and chuckled in glee,
As he thought, "No wedding bills for me."

"Say, Grandpa, were you in the Ark?"
"No, son."
"Well, then, why weren't you drowned?"

CROWNED QUEEN OF THE MAY

Vivacious Thelma Timber, who was crowned at the Piedmont Park lawn fete last week.
The mark is on the left side of her face and does not show in the picture. I Did Happ, who did the crowning, will be tried next week.

SERMONS AT HOME.

By Mr. Frank pane
ARE YOU A NUT OR ARE YOU A BOLT?
I assume that my readers know that this world of ours is nothing but a vast assem-
blage of nuts and bolts. If too many nuts break loose, the bolts will slip and our
world will collapse! Only recently a nut broke loose—and what was the result?

Nine people were killed before the nut was found! We are all vital parts of this
huge machine! Which are you—the NUT or the BOLT? If you are a bolt, keep your-
self well oiled. A rolling stone makes hay while the sun shines, but a wet bolt gets
rusty. If you are a nut, SIT TIGHT AND DON'T GET LOOSE! Remember, EVERY
NUT CAN BE CRACKED, but EVERY BOLT HAS A HEAD!

Well, old girl! I'm glad to meetcha.

Shake!

Carbonic Gas has many uses—but it is principally consumed in the preparation of carbonated drinks at soda fountains—and in the manufacture of bottled carbonated beverages.

In a water or beverage, Carbonic Gas is not only healthful of itself—it actually reduces or entirely eliminates any bacteria which may have been present in that fluid. The types of harmful bacteria which grow in the human body are most easily destroyed by this carbonation—and a beverage, carbonated and bottled under sanitary conditions, remains sanitary and actually improves with storage.

The Mellon Institute of Industrial Research, University of Pittsburgh, concludes its report on carbonated beverages with these words: "...especially when one is in a strange vicinity, with a doubtful or admittedly dangerous water supply, the chances of immunity from disease are better if one drinks only highly carbonated beverages."

CRYSTAL BRAND CARBONIC GAS

is pure, sweet and odorless, and is put up only in the Red Drum with the Black Band.

SAVANT ADDRESSES EDUCATORS; SAYS SOUTH SEAS VERY DRY

Dr. Ancient Mariner, famous explorer who has just returned from the South Seas, was the main speaker at the Biology luncheon today. The speaker told of his adventures with the Albatross, a skeleton ship, and the "Spirit of the Polar Regions". He said in part, "Water, water everywhere, and not a drop to drink". It is believed by everyone present that the doctor had something "just as good", however.

MAYFLOWER ARRIVES WITH ANTIQUES; NOT ALLOWED TO DOCK

The American immigration problem was somewhat accentuated today by the arrival of the steamship "Mayflower" with several hundred passengers on board. The new arrivals hail from England and are seeking jobs as ancestors.

The Pilgrims declare it their intention to sell all the antique looms which they have imported and then to make an extensive tour of the country.

DENMARK IN THE DUMPS; ROYAL FAMILY WIPED OUT

All Denmark is in mourning this morning. Prince Hamlet, heir apparent to the throne, died last night, leaving no insurance. The cause of the beloved Prince's death is as yet unknown. A Mr. Horatio was the last man to see the Prince alive.

DOUBLE-CROSSED
Sir: "Yep, I had a beard like yours once, and when I realized how it made me look, I cut it off, 'B'gosh."

Hi: "Wal, I had a face like yours, once, and when I realized I couldn't cut it off, I grew this beard, by heck."

A FISH STORY
By Jake King

"Where are you going my pretty maid?"
"I'm going fishing sir," she said,
"But why, the make-up, why the clothes?"
"Oh, any old fish will fall for those."

THE IDEAL ROOMMATE
That Fischer products richly deserve their reputation of being the finest and most attractive examples in existence is quickly proven by the examination of any body which bears the emblem—Body by Fischer. Smooth graceful streamlines on all sport models and speedsters,—in fact, everything to suit the individual taste. Special attention given to those minor accessories which add so much to one's personal comfort.

Afterword

After countless hours of laboring over prose, poetry, and pictures we come to this the last page. It is little wonder that confusing thoughts run through our minds as we finish this, the 1924 Blue Print, in which we have placed all of our hopes. There have been many times during the compilation of these pages when we have taken precious moments from the work to muse over the possibilities and the responsibilities of presenting a true account of everything that has taken place at Georgia Tech for a year, in such a manner as to be worthy of her. Of these some have been vain with the hopes of success, while others haunted with the fear of failure. Now the work is finished. As you glance through the preceding pages you may rest assured that our every aim has been to please you. Hours have been taken from school duties and from social pleasures and recreations in order to make the 1924 Blue Print as near as possible what it should be. Each one of these fostered the sincere hope that our best has been equal to the task and your highest expectations will be realized.

Lionel Levy has reached the climax of a wonderful career in college art work and results of his experience have marked this book as a criterion of annual art. Busby has been more than reliable as an assistant and the work of Butterfield and Bartlett has lent much to the success of the undertaking. These men have been unceasing in their efforts and too much can not be said in their praise. Powell, as Senior Editor, has compiled a section second to none. To all these men, and to the numerous others who have contributed time and effort we are more than grateful and whatever recognition they may receive will only partly repay them for the services they have rendered.

In a professional way we have received invaluable aid in compiling the annual from Mr. McCutcheon, Mr. Bond and Mr. Slack of the Johnson-Dallis Company. They have given repeatedly of themselves and of their experience to better this Blue Print. The service rendered by the White Studios Company, of New York City in the photography work cannot be valued too highly. They have done everything in their power to facilitate this work. Mr. Walter Winn, of the Atlanta Journal, has been of repeated service, and the Wrigley Engraving Company has furnished us with an irreproachable grade of work. Through the co-operation of all of these agencies, the Johnson-Dallis Company has been able to publish the best possible book.

And now, fellow students, we wish to thank you for your cooperation and assistance. We justly hope that we have lived up to the old Tech standard in this work, and that you are pleased with the results. If this has been accomplished we shall feel that our labor has been more than justly repaid.

THE BLUE PRINT OF 1924.
