IN MEMORIAM
William Henry Emerson

Throughout the years he held aloft the torch of wisdom, honor, justice, duty, truth, and loyalty. His hands are folded, but still the unwavering light burns on in countless flames. Which he has kindled in the hearts and minds of those he served so freely to the end.

1925
DEDICATION

To the one who read our first poems, we dedicate this volume.

FOREWORD

In years to come, may you find the influence of your efforts. May you, by seeing these pages, recall the light of other days and the joy of youth. May your books, with their old friends, be a comfort to you.
William Vernon Skiles, B.S., A.M.
Dean and Professor of Mathematics
Along Cherry Street

Electrical Building and Swann Dormitory
Old Shop Building

Entrance to the Academic Building
The General Science Course

The General Science Course was established in 1923, and is especially designed for those students who feel that they have time for a general education before specializing in a particular field of engineering. The course offers subjects in mathematics, English, Business Administration, modern languages, history, psychology and economics, besides many engineering subjects. It differs from the regular engineering courses in that many of the technical subjects are omitted. Despite its short time at Tech, it is proving a popular course. The degree awarded is Bachelor of Science.

WILLIAM VERNON SKILES, B.S., M.A.
B.S., University of Chicago; M.A., Harvard University; Beta Theta Pi; Phi Beta Kappa; Phi Kappa Phi; Member Georgia Academy of Science.
Dean of the College and Director of the General Science Course.
Professor of Mathematics.
The Mechanical Engineering Course

The Mechanical Engineering Course at Georgia Tech is the oldest, and one of the very best. In recent years it has developed into a course that trains the student for almost any field of mechanical engineering he may care to enter. Through the third year the course is the same for all students, but in the senior year four attractive options are offered, any one of which the man may choose. These are: (1) The Regular Mechanical Engineering Course; (2) Automobile Engineering; (3) Power Plant Option, and (4) Industrial Engineering. In the beginning of the course a careful groundwork in the fundamental sciences is given, and as the student advances technical subjects are given, until when the degree is received, the student has a foundation in all elements of engineering as well as specialized knowledge of mechanical engineering.

ROY STEPHENSON KING, M.E., M.Sc., Sc.D.
M.E., Ohio State University; M.Sc., University of Minnesota; Sc.D., University of Georgia; Sigma Xi; Phi Kappa Phi.
Head of the Department of Mechanical Engineering

WILLIAM VAN DUNKIN, B.S., M.E.
B.S., M.E., University of Illinois
Professor of Mechanical Engineering

HOMER HARLAN NORMAN
Instructor in Workshops

ALEXANDER W. BROWNING
Instructor in Workshops

JOHN THOMAS TOPHAM
Virginia Mechanics Institute
Instructor in Machine Shops

EDWARD BENJAMIN MARTINDALE
Chief Foreman of the Machine Shops

HORACE ALEXANDER THOMPSON
Foreman of the Smithshop

WILLIAM VAN HOYTEN
Foreman of the Foundry

JOHN HENRY HENIKA
Foreman of the Woodshop

There is no course which should be more attractive than the course in Electrical Engineering, in view of the wonderful discoveries and advances made in recent years in every phase of this science. The department is a wide-awake one, which has made much progress since its establishment in 1896. The increase in enrollment in Electrical Engineering each year is an adequate testimonial to the excellent course offered to young men. Beginning as soon as the student enters school, he is taught the theory of his subjects, and then is sent to the laboratory to prove them experimentally. This procedure is followed in the Electrical Engineering Department also, with the result that the student develops his powers of observation and learns to think for himself.

THOMAS WITT FITZGERALD, B.S., M.E., E.E.
Diploma, Marshall College; B.S., E.E., West Virginia University; University of Arizona; Emory University; Phi Kappa Phi; Tau Beta Pi; Georgia Academy of Science; American Association of University Professors
Head of the Department of Electrical Engineering

THOMAS GRAYDON SEIDELL, B.S. in E.E.
B.S. in E.E., Georgia School of Technology; Phi Kappa Phi
Associate Professor of Electrical Engineering

D. PETER SAVANT, E.E., B.S. in E.E., M.S. in E.E.
B.S. in E.E., Rose Polytechnic Institute; M.S. in E.E., Harvard University; Phi Kappa Phi
Associate Professor of Electrical Engineering

JAMES LAWTON ELLIS, JR., B.S. in E.E.
B.S. in E.E., Georgia School of Technology
Assistant Professor of Electrical Engineering

HOO BRUCE DEILING, B.S., B.S. in E.E.
B.S. in E.E., University of West Virginia; Phi Sigma Kappa
Assistant Professor of Electrical Engineering

CHARLES CLO SHUMARD, B.S. in E.E.
B.S. in E.E., University of Missouri
Assistant Professor of Electrical Engineering

EARL SHERMAN HANNAFORD, B.S. in E.E.
B.S. in E.E., Tufts College
Instructor in Electrical Engineering

ERIC NYGARD, B.S. in E.E.
B.S. in E.E., University of Washington
Instructor in Electrical Engineering
The Civil Engineering Course

The course is arranged to fit the graduate for nearly any subordinate position of the profession, and bring him to the point where he may be able to continue his studies professionally and develop in any field he may choose. The field of Civil engineering has advanced and broadened in scope with the advances of civilization, until the words "Civil Engineer" may mean many things. The opportunities for service are many and varied, since the practice of civil engineering includes highway engineering, railroad engineering, sanitary engineering, construction, power development, irrigation, and many others.

FRANKLIN CHADWICK SNOW, C.E., Sc.D.
C.E., Ohio State University; Sc.D., University of Georgia; Pi Kappa Alpha
Head of the Department of Civil Engineering

JACK MORGAN SMITH, B.S. in C.E.
B.S. in C.E., University of Wisconsin
Associate Professor of Civil Engineering

RALPH PETERS BLACK, A.B.
A.B., University of the South; Graduate Work, Columbia University; Delta Tau Delta
Assistant Professor of Civil Engineering

James Herty Lucas, B.S. in C.E., B.S. in M.E.
B.S. in C.E., B.S. in M.E., Georgia School of Technology; Square and Compass
Assistant Professor of Highway Engineering

CHARLES CURTIS HOMMON
University of Chicago
Instructor in Civil Engineering

The Engineering Chemistry Course

The graduate in this course is well fitted to enter the industry and pursue his subject on either its analytical side or its manufacturing side. The engineering chemistry student at Georgia Tech receives work in the shops and the experimental engineering laboratory that will enable him to understand machinery and superintend its operation. His course in Drawing fits him to read and express himself by means of mechanical drawings. The work in chemistry itself begins with the fundamentals and is progressively technical in the higher subjects of the course.

GILBERT HILLHOUSE BOOFS, B.Sc., Ph.D.
B.Sc., University of Georgia; Ph.D., University of Pennsylvania; Pi Lambda Delta; Phi Beta Kappa; Phi Kappa Phi; Sigma Xi; Scabbard and Blade; Member Georgia Academy of Science
Head of the Department of Chemistry

JOHN LAURENCE DANIEL, M.A.
M.A., Washington and Lee; Alpha Chi Rho; Phi Kappa Phi
Professor of Industrial Chemistry

BENJAMIN BLACKSTON WROTH, A.B., Ph.D.
A.B., Washington College; Ph.D., Johns Hopkins University; Phi Kappa Phi
Associate Professor of Chemistry

WILLIAM SIMPSON TAYLOR, A.B.
A.B., Swarthmore College; Graduate Work, Columbia University
Assistant Professor of Chemistry
The Textile Engineering Course

The importance of the Textile industry to the South has become more and more evident to the observer. Many mills which heretofore have been in the North have changed to a location south of the Mason and Dixon line. It is easily seen that a first class Textile school is almost a necessity to the South, and it was in 1899 that the first instruction in this branch of engineering was given in the South, here at Georgia Tech. The department now offers excellent advantages to young men who intend entering the textile industry. It is equipped for performing practically every process of cotton manipulation from the cotton field to the finished fabric. The Textile building is a splendid example of modern mill construction.
The Architectural Course

The regular course in Architecture is a four year course leading to the degree of Bachelor of Science in Architecture. It is the purpose of the department to offer the necessary training in design, construction and allied subjects that will eventually fit the student for the practice of Architecture, and will also enable him to be of immediate value as a draughtsman. With this end in view the course of study combines with the strictly professional work, the essentials of a liberal education, aiming to give the student as broad a foundation as possible for his future work. Architecture is regarded primarily as a Fine Art, and the aesthetic side of the profession is emphasized throughout the course.

JOHN LLEWELLYN SKINNER, B.A.Sc., M.Arch.
B.A.Sc., University of Toronto; M.Arch., Harvard University; Beta Theta Pi; Phi Kappa Phi
Head of the Department of Architecture

JAMES HERBERT GAILEY, B.S. in Arch., M.S. in Arch.
B.S. in Arch., M.S. in Arch., University of Pennsylvania
Associate Professor of Architecture

HAROLD BUSH-BROWN, A.B., M.Arch.
A.B., M.Arch., Harvard University
Associate Professor of Architecture

KENNETH KINGSLEY STOWELL, B.S., M.Arch.
B.S., Dartmouth; M.Arch., Harvard University; Phi Delta Theta
Assistant Professor of Architecture

RICHARD W. ALGER
Vice-President, Marye, Thornton and Alger, Architects
Instructor in Architecture

JOHN MADISON WATTERS, B.S., B.S. in C., LL.B., M.Accts.
B.S., Hall-Moody; B.S. in C., M. Accts., New York University; LL.B., Memphis University Law School
Head of the Department of Commerce

THOMAS WILLIAM NOEL, A.B., M.B.A.
A.B., Grand Island College; M.B.A., New York University
Associate Professor of Commerce

WILLIAM TAYLOR WARD, A.B., M.A.
A.B., M.A., Philander Smith College, India
Associate Professor of Commerce

FREDERICK BENJAMIN WENN, B.C.S.
B.C.S., New York University; Kansas State University; Delta Mu Delta; Delta Sigma Pi; Delta Tau Delta
Associate Professor of Commerce

THE NEW STADIUM

Construction work in progress on Grant Field to make the concrete bowl complete. When this structure in completed Georgia Tech will have the largest stadium in the South.

This bowl will be the scene of many fierce battles next year. The Golden Tornado has, in the past, rolled back many invaders from the Tech flats, and when the referee’s whistle opens the 1925 season a hard fighting team will defend the Gold and White.

The Chi Psi Pirates Ball at the Biltmore was one of the spring season’s most colorful dances.
High Tension Club initiates Juniors. A very touching romance on the Wheatstone Bridge is being radiocasted from Station B-U-N-K.

Initiations are the most touching scenes of one's college career.

Top. Six hundred stalwarts dash out the gate in the annual three and one-half mile cross country race. Only three hundred of them came back.

Center. Miss Ruth McMillan presents Gaddis, of the Freshman Class with the winner's cake.
Pi Delta Epsilon puts on the South's first male fashion show. The Atlanta merchants furnished the apparel for the Tech beauties. The show proved to be a tremendous success, causing state-wide comment.

Activity and strenuous athletic competition as displayed on Grant field.
The annual shirt fight between the Freshmen of Knowles dormitory and Swann dormitory is quite rough.

After about thirty seconds not a shirt could be found so fight had to be discontinued.

Freshmen will be Freshmen and therefore must be amused. An afternoon’s amusement on the campus is sometimes a trifle rough.

Close attention is given to the Freshmen by the Sophomores who contribute to their daily entertainment.
The K. A. Easter egg hunt. The freshmen struggle for the golden egg.

The spirit of the eternal Frosh bubbles forth in the annual May Day celebration. The queen accompanied by the king and the entire Freshman band disport themselves upon the campus.

Celebrating the victories of the Golden Tornado. The night shirt parade is a nightmare to motormen and Ford drivers.

Freshman May Day. The queen and her attendants.

Senior Poem

How swiftly have the days of college sped
That we looked forward to with doubts and fears!
How soon the vista that once stretched before
Becomes the memory of a few brief years!
And yet—we know they've not been spent in vain—
For each of us has gained from learning's store—
And made his friendships that will long remain—
And caught some vision of the work before.

A few brief years?

But work will be less grim—
Our armor more sufficient for the strife—
The light we have received a bit less dim
In this mysterious business we call Life—
Four years to college lost is more than gained
For Life holds out no terrors to the trained.

—A. L. B.
EARL WEST ABREY
"Sam" "Abe"
Osceola, Arkansas
Electrical Engineering
"I have gained my experience."
"Abe" should be a natural leader for his name is always at the top of the roll. He can rightfully claim the distinction of having been at the head of practically all his classes in at least one respect. His greatest ambition is to teach the professors the correct pronunciation of his name.

ALEXANDER PEARSON ALMOND
"A. P."
Elberton, Georgia
Architecture
"Make yourself an honest man and then you may be sure there is one less rascal in the world."
Sincere appreciation is always felt for one who sets his goal at the top and lets nothing turn him from that objective. During four years, the acquirement of the best training Tech can give in Architecture has been A. P.'s desire. We believe him to have been successful and we admire his pluck and conscientiousness. Elberton will some day point with pride to this loyal son of hers.

WILLIAM WILLIAMS AMOROUS, X 4,
"Wild Bill"
Marietta, Georgia
Electrical Engineering
"I cannot tell what the dickens his name is."
"Wild Bill" is certainly a man of hobbies. These have varied from movie, chewing gum, basketball and motorcycles to radio—a permanent pastime. We think after his trip to Europe last summer a new hobby is slowly arising; just give it time and Bill will live up to his name and be a perfect heart breaker.

ABE ARENSON
"Abe"
Macon, Georgia
Civil Engineering
"Higher must I climb, yet higher, wider still, must be my gaze."
Abe was one day old when Santa Claus made the rounds back in 1904; so you see he was an unusual and different somebody from the very start. He has not slackened his pace as an unusual sort in the lapse of his twenty years but, to the contrary, is gaining momentum each day. When in doubt just ask Abe, for he is always there with the correct solution.

RUSSELL LAMAR BALL, A T
"Pee Wee"
Albany, Georgia
Commerce
"Jack be nimble, Jack be quick."
On his toes from morn till eve, "Pee Wee" has yet to learn the art of sitting still. A second Babson is this small financial manager, pecuniary possibilities having attracted his attention from the day that he first graced Albany, Georgia, back in 1903. He has cute little feet, hair that you love to touch, and has walked all over Atlanta on his hands. If he ever goes on the stage it will be to furnish acrobatic stunts as the "opener" in vaudeville.

JOHN DAVID BANSLEY, JR.
"John"
Atlanta, Georgia
Commerce
"Come, give us a taste of your quality."
John began chewing the Dana News to make banana sheets four years ago and has never faltered since. When it comes to scholarship he is right there. His exams are so far apart they resemble mile posts in the Arctic zone. John has satisfied us in every respect except one; for as yet he has been immune to all attacks of the opposite sex. We still await the day when John will blossom forth as a full-fledged tea-hound.

NICHOLAS ARTHUR ATHANASON
"Nick"
Augusta, Georgia
Electrical Engineering
"Still to be neat, still to be dressed. As you were going out to a feast."
We present to you now, ladies and gentlemen ladies especially, the handsomest of the Greek gods that have survived the invigorating atmosphere of truth in America and the Electrical course at Georgia Tech. How much longer his native land may continue its prosperity without him we are not aware but the United States hopes to hold him. Tech will always claim Nick as a favorite son.

JAMES ELI AVERETT
"Jimmy"
Columbus, Georgia
Co-operative Engineering
"Smile and the world smiles with you."
"Eli, the Ladies’ Man" received his title at his initiation into the Co-op Club when he kissed his fair bride during the mock wedding ceremony. Many friends will miss him after he leaves to carry on his constructive work at the Columbus, Ga. plant of which he is now Assistant Superintendent. Best of luck to you, Eli.

PAUL LOCKWOOD BARROW

"Red"

St. Petersburg, Florida

Mechanical Engineering

"If our cannot command success, our may at least deserve it."

"Red, the Engineer," as he is commonly termed, is living proof of the fact that the more we study the more we learn. Whenever the M. E. Department wants work done and done correctly, it turns to him. In addition to having given him a high regard for scholarship, Florida has given him facial charms which set him on a pedestal far above mere average man. Phi Kappa Phi; 1st Lieutenant, R. O. T. C.; Free Body Club; A. S. M. E.; Student Assistant, Machine Design Department.

LEONARD EARL BATES, "Duckie"

Waycross, Georgia

Civil Engineering

"Rare compound of quality, noble and true, with plenty of sense, and good humor, too."

"Duckie" first made his presence felt at Tech by his fleet-footedness on the basketball court during his freshman year. His ability to ring up goals resulted in several victories for the frosh team of that year. "Duckie" has worked hard and faithfully with the basketball teams of each year and well deserves the two letters he has received.

Freshman Basketball: Scrub Basketball (21); Varsity Basketball (14, 31); Track Manager (13, 21); Civil Crew; A. S. C. E.

THOMAS ELLIOT BELL, "Spar"

Richland, Georgia

Co-operative Engineering

"Full rap needs a steady hand."

"Spar" is purely and thoroughly a Richland product for he was born there, prepped there and gave this as his home town when he first registered with Mr. Caldwell five years ago. He has acquired the name of "Power Plant" from his fellow workers in the Co-operative Department for reasons that we are unable to divulge. He can always be depended upon to do the right thing at the right time.

LEVI TALMADGE BELLAH

GEORGE ESTES BARDWELL, "George"

Atlanta, Georgia

Mechanical Engineering

"A man's reach should exceed he grasp."

George knows the meaning of consistency and has also acquired the art of liking the girls. He can be found during spare hours reading magazines, while rocking to and fro in a rocker. A place at his history reveals the fact that he enjoys polishing with those mechanical and architectural young men who are naturally happy, and see the funny side of everything.

Yellow Jacket (3); A. S. M. E.; Free Body Club; Oil Can Club.

TANDY LEIGH BARR, "Candy Bar"

Clio, Alabama

Electrical Engineering

"Wood instruction is better than riches."

Realizing that his native town of Clio is not as renowned as it should be, Tandy has set out to make it famous and says that all he needs is the proper opportunity. While in school his chief desire has been to reflect credit on his prep school Alma Mater, Emerson Institute. His classmates will vouch for his efforts at any time.

HERWELL PAUL BARTON, "Horse Power"

Americus, Georgia

Co-operative Engineering

"Consistency, thou art a jewel."

"Horse Power" Barton is known and loved for his ability to stay in and fight long after physical exhaustion has come over him. The record he has made on Tech's cross-country teams assures us that he may aspire and accomplish feats of an impossible nature. "Horse Power" is one of the most sincere students that we send out this year: he always stands for justice and right. Track (5, 4, 3); Cross Country (5, 4, 3, 2); 2nd Lieutenant, R. O. T. C.; Tau Beta Pi; Co-op. Club.

"Horse Power" Barton is known and loved for his ability to stay in and fight long after physical exhaustion has come over him. The record he has made on Tech's cross-country teams assures us that he may aspire and accomplish feats of an impossible nature. "Horse Power" is one of the most sincere students that we send out this year: he always stands for justice and right. Track (5, 4, 3); Cross Country (5, 4, 3, 2); 2nd Lieutenant, R. O. T. C.; Tau Beta Pi; Co-op. Club.
Robert House Betts, E. S.

"Rob"

Boswick, Georgia

Commerce

"Here's metal more attractive."

Here we have the "man behind the Elkie Coaches". Rob has just about as active as he could be in the time spent here. The only organisation that he doesn't belong to is Bill Ward's Club and he hasn't been in enough for that. To provide, he entered the Southern Business College. After he had succeeded in obtaining possession of a "dip" from this institution, the Evening School of Commerce claimed his efforts. His favorite sports are football and basketball and his greatest weakness, strong cigars and the ladies.

ARTHUR BRYANT BOBMAN, 2 X 4
"Booze"
Shreveport, Louisiana
General Science
"He violent but not too swarzenee." "Booze" tells the story that a famous manufacturer once told him that he would employ college graduates who have exhibited in their school life the ability to make friends and learn readily. Evidently "Booze" has taken this to heart for he has made all the social functions and is graduating with his class. How do they do it ?

FRANK ROGUE
"Bigle" "Steinmetz, Jr.", Atlanta, Georgia
Mechanical Engineering
"Ad verse in learning as you advance in rife." We know very little about Frank's past history but if he has always been the steady conscientious fellow that he has been at Tech he must necessarily have left a good reputation behind him. "Bigle" by virtue of being out of school for a few years, realizes the value of a college education and has made an excellent record scholastically. His tendencies seem to foretell for him a bright future in the design of steam power plants.

STEPHEN PENNINGTON BOND
"Steve"
Americus, Georgia
Architecture
"A little nonsense now and then is relished by the best of men." Any field calling for an ever ready enthusiasm yields its own reward to those who can wield the gaff. Due to his qualities, every activity to which Steve has attached his efforts has added to it something of a spontaneous expression of art. R. O. T. C. Football (4, 3, 1); Blue Print Art Staff (3); Yellow Jacket Art Staff (6); Captain, R. O. T. C.; Shellhard and Blade; Architectural Society.

Richard Vance Bolstrand, 1 Y 2
"Bozo"
Miami, Florida
Commerce
"Something is rotten in the state of Denmark." Warburton High, Missouri, first claimed the distinction of having "Bozo" enrolled among its student body. Later this distinction was claimed by Miami High and from there he came to Tech. "Bozo" is a prince of a fellow and his line is the most versatile in school. Though he is only a Freshman he is already a member of the Skull and Key and Inter-Fraternity Council (4, 3); Civil Crew; Cotillion Club.

GARRY ALONCE BOYCE, X 9
"Garry"
Savannah, Georgia
Architecture
"Keep thee true to what is best in thee." Garry hails originally from Charleston, S. C., but he moved to Savannah before he was old enough to know better. Garry came to Tech to learn to be a chemist but, after inhaling H2S fumes for a year and a half, he decided that he was an artistic rather than a scientific type. "Garry" has decided to enter the textile business and is one of the most prominent members of the band for four years his aesthetic nature evidenced, and serves as president of Kappa Kappa Psi this year.

SAMUEL ERIC BRASWELL
"Shrimp"
Atlanta, Georgia
Textile Engineering
"With mirth and laughter let old wrinkles come." Having put in two years of service where he was most needed at the time, this ambitious young engineer returned to school when he entered Tech. He was ever a credit to the Army and when he leaves Tech in June with his B.S. degree he is bound to do things which will reflect continued credit upon his Alma Mater.

John Robert Brannon, 2 X
"Skinny"
Rome, Georgia
Civil Engineering
"A man is the part he plays among his fellows." "Skinny" is well nicknamed; we know that the first time he made his appearance in a track uniform he finished last. His lucky physique is tormented by a perpetual bad luck that follows him. His most prominent feature is his aesthetic nature evidenced, and served...
CHARLES CROTHERS BREITHAUPT

"C. C."
Natchez, Mississippi
Electrical Engineering

"The best of prophets of the future is the past."

"C. C." has certainly progressed along social lines since his freshman days. None of his old associates would have believed that he would ever have the ambition "to be free every night". He is a strong believer in the capabilities of the Chevrolet for making friends as well as in covering ground.

Scholarship "T"; Tau Beta Pi; A. I. E. E.

JAMES ROSSER BRITT, K A

"Jimmy"
Atlanta, Georgia
Architecture

"A smart coat is a good letter of introduction."

Watch out, girls, for here is the famous "Jimmy" Britt. Please, we beg of you, do not cut his picture out of the book as we don't wish to have either mutilated "Jimmy" prepared for Tech at Agnes Scott and Tech High School. Since entering our portals he has made All-Star Huyler's and Garber's Hall teams. Truly, though, his friends are numerous indeed and all will be very reluctant to see him leave Tech town.

Cotillion Club: Architectural Society, Treasurer; Charrette Club.

CECIL ATKINS BROACH

"Cecil"
Atlanta, Georgia
Evening School of Commerce

"Knowledge is power."

Cecil made his introduction to this world on a June morn—well, we won't reveal his age but we will let you in on his birthplace, the metropolis of Many, Louisiana. He attended the Coalgate High School in Coalgate, Oklahoma, where he gave promise of future greatness by graduating as valedictorian of his class. To use Cecil's own words, his hobby is, "Collecting lawful money of the United States, any time, any place, any denomination." We wonder if he will ever realize his ambition, "To break Wall Street."

Commerce Club.

NEIL ERNEST BROOKS

"Konk"
Atlanta, Georgia
Automotive Engineering

"There is in the smallest thing a message for us, could we but read it."

Thoroughly business-like, a keen sense of humor and a good personality generally characterize Neil. Havert had the experience of a few of the world's hard knocks in the business end of the game of life, he determined to finish his education at what he believed the best engineering institution obtainable. He carries with him a large quantity of engineering instinct, which will start him on the road to success.

Society Automotive Engineers.

JOHN JACKSON BROUGHTON, E

"Jack"
Pinewood, South Carolina
Electrical Engineering

"To an accomplished and wisely make the most of good fellowship."

We would not be surprised were "Jack" to return to Tech again next year for he seems to enjoy the experience of appearing with the senior section in the annual. He had so counted on this being a "Brown" page until Jack showed up. Sans jesting we were glad to have him back in Tech town and there is no doubt in our minds he will receive his degree for he has plowed hard all year and shown he meant business.

Soror Football (3, 1); A. I. E. E.

CHARLES MANLEY BROWN, F T S

"Charley"
Atlanta, Georgia
Commerce

"A rhapsody of words."

"Charley" is one of the best liked men in the Commerce Department and his smile and friendly arguments make him welcome wherever he goes. To use Charley's own words, "Success is the product of partnered effort". We wish him well as he enters civil life in the real estate firm after he receives his diploma in June. A bright future is promised for him if he does not let basketball interfere with his business.

R. O. T. C. Football (11); R. O. T. C. Basketball (2, 1); Yellow Jacket (2); Golf Club; DeMolay Club.

HOLT CUTHERBERT BROWN

"Brownie"
Cornelia, Georgia
Civil Engineering

"Genius wins sometimes; hard work always."

This representative from Cornelia seems to have brought all the sunshine (no. not moonshine) of his home town with him to Tech. His cheerful countenance oftentimes makes his associates overlook many disappointing things of college life. To hear "Brownie" tell it one would believe he smiled his way through college and into the several coveted honors he has won, but we know that it takes real worth.

Phi Kappa Phi; Square and Compass; Masonic Club; A. S. C. E.

ROBERT LAWSON BROWN, F 4 A

"Sparky"
Macon, Georgia
Commerce

"What's gone and what's past help should be past grief."

"Sparky" is one of those fellows that you seldom hear tell of this day and time; he was born under a lucky star. He says that he is one of the select few who can remain on probation for four years and still be in good standing. From these facts, nothing but a brilliant future is predicted and the commercial world should receive him with much applause.

Delta Sigma Pi; Cotillion Club.
WILLIAM HOPKINS BROWN, Σ A E

"Bill"

Columbus, Georgia

Special Textile Engineering

"They who are pleased themselves must always
please."

"Bill" is one of those quiet boys and hence it is hard
to find anything of interest in his past. Suffice it to say that "Bill" hails from Columbus.

ROBERT FRANCIS BRYAN, Σ Ν

"Bobbie"

Union Point, Georgia

Special Textile Engineering

"All are worthy of lore, if we have it in us
to love."

It is almost a crime that "Bobbie" had to step into a
two-year course but after all it must be for the best
for he would not be able to accept all the honors that
would come to him with four years of Teching. "Bobbie"
was one of the mainstays on the Freshman baseball
team last year. He acquired his training on the sand
lots of Union Point. (U. S. A).

Freshman Baseball ; Sophomore Manager, Basket-
ball ; Skull and Key ; Honor Roll (1) ; Cotillion Club.

HENDERSON CARLISLE BULLOCK, K A

"Carlisle"

Tuscumbia, Alabama

Electrical Engineering

"Full many a gem of purest ray serene,
The dark unfathomed cares of ocean bear."

In spite of the fact that Carlisle had a motorcycle
during his Junior year and a Dodge his Senior year
he has finally come to the place where he can tell the
Physics Department Just what he thinks of them. His
four years plus a couple of summer schools, have resulted
in a broad training and a host of close friends both on
and off the campus.

TERRILL ASHBY BROWN, B Θ II

"Bus"

Enid, Alabama

Electrical Engineering

"He who, while others slept, was toiling up-
ward in the night."

"Bus" has proved ideal in the capacity of editor-in-
chief of the 1925 Blue Print; a tireless and unceasing
worker; possessed of tact and initiative, together with a
congenial nature that makes it a pleasure for one to
work with and for him. Through the extreme "Bus'
work with and for him, the Freshman Baseball and Fresh-
man Football have shown such a marked improvement
that their eight per-
tent, in their truest sense, the results of our associations
this year.

Blue Print (4, 3, 2) ; Assisitant Editor (4) ; Editor-in-
chief (4) ; Give Club, (4, 3, 1) ; Manager Basketball (2);
Manager Freshman Football, (2), Senior and Captain, (1),

FINIS EWING CARTERSON, JR., B Θ II

"Fize"

Macon, Mississippi

Civil Engineering

"What a man has, so much he is sure of."

This young man hails from a state that is famous
for its beautiful women and is therefore a connoisseur
of the contrary sex. He started even before they name
"novel" was coined to him. "Fize" was the first to talk
"Pheas and Red Heads". His stay with us has been
short but he leaves a host of friends who wish him the
best that this old world has to offer.

Inter-Fraternity Council (2, 3) ; Civil Crew; President
(4) ; Cotillion Club; A. S. C. E., President (4).

J. R. CAMMICHAEL

Jackson, Georgia

Co-operative Engineering

"If you don't aim high you will never hit high."

"Red" may be pointed out as the one who made red-
headed boys popular with the contrary sex. He is a
fellow who can be depended upon to do the right thing at
the right time and is always ready to do his share in
any work or play.

1st Lieutenant. R. O. T. C. (4, 3) ; Co-op Club; Briar-
es Society.

STERLING MAXWELL CARPENTER, A 9

"Six"

Newnan, Georgia

Civil Engineering

"When duty and pleasure conflict, let your
conscience be your guide."

"Little Six" came to us in 1921 from Newnan High
School. There he was known as a fine athlete and an
all-round good fellow. These attributes have followed him
to through college for today he may be classed
among the big men on the campus. Coach Alec has
took his 120 pounds of solidity and made the Golden
Tornado in the past two years. His loss will be keenly felt when next fall rolls around.

Freshman Football; Scrub Football (2); Varsity
Football (4, 3); Lacrosse (4, 3); Skull and Key; Keenener Club; Cotillion Club; Civil Crew.

A. S. C. E.
L. E. CARTER, S. N. X

"Lent"

Guin, Alabama

Commerce

"Lent" must be first cousin to old St. Nick, for his birthday falls on December 25th each year. Since his blood is always warm, and his heart is always full of jolly cheer, he has been known to carry the campus and has become known as the man who does not mind hard knocks. He is a hard worker and has helped the "Golden Tornado" each year by his consistent playing as a scrub.

One of the gold scholarship "T's" plus the diploma he has associated with him in college he has demonstrated his ability in his studies, for he carries away with him the result of some twenty-one years under that Southern sun. "Starts" has been so busy trying to keep up with his studies that he has not had time to grow like that down here. If Fred does not enter the engineering world an excellent engineer will be lost. He has tried mantully to withstand the charms of the "Lookout Mountain Boys" never surrender. "Lew" has been one of the most reliable upholders of battalion athletics and the Department of Commerce. As a result he has a well-rounded college record which any Tech man would be proud to equal.

BENJAMIN EARL CHANDLER, II A A

"Sharts"

Newberry, South Carolina

Civil Engineering

"Sharts" has been a familiar figure on campus and has become known as the man who does not mind hard knocks. He is a hard worker and has mastered all the earmarks of a very successful financier and we expect great things from him after he leaves Tech.

WARREN CHEATHAM, III A A

"Bill"

Macon, Georgia

Electrical Engineering

"Bill" is one of those fellows whom you cannot help but like. Even if he does try to tickle you with his "line" it is said that the same "line" has escaped him. For some unknown reason Warren decided to be an electrical engineer some four years ago. From the day of his arrival at Tech he has distinguished himself in the classroom and hence has been hitting the Honor Roll with unusual frequency. But "Lanky" has not condescended to leader of that gang which makes life uncomfortable for the Romeo's who visit in his vicinity so often. We are still firm in our belief that "Bill," some day, will really fall in love.

WILLIAM FLETCHER CHESTER, JR., II A A

"Lee"

Chattanooga, Tennessee

Electrical Engineering

"Lee" has been one of the most reliable upholders of battalion athletics and has Department of Commerce. He has tried mantully to withstand the charms of the "Lookout Mountain Boys" never surrender. "Lew" has been outstanding. Through his untiring efforts the "T" has come to be a real factor in campus life. Tech never produced a truer man or better friend.

RICHARD LLEWELLYN CHAPMAN, PH K 2

"Lew"

Chattanooga, Tennessee

Commerce

"Lew" has been one of the most reliable upholders of battalion athletics and has Department of Commerce. He has tried mantully to withstand the charms of the "Lookout Mountain Boys" never surrender. "Lew" has been outstanding. Through his untiring efforts the "T" has come to be a real factor in campus life. Tech never produced a truer man or better friend.

C. A. D. CARTER, III A A

"Pinky" "Speedy"

Marietta, Georgia

Electrical Engineering

C. A. D. Carter is one of those fellows whom you cannot help but like. Even if he does try to tickle you with his "line" it is said that the same "line" has escaped him. For some unknown reason Warren decided to be an electrical engineer some four years ago. From the day of his arrival at Tech he has distinguished himself in the classroom and hence has been hitting the Honor Roll with unusual frequency. But "Lanky" has not condescended to leader of that gang which makes life uncomfortable for the Romeo's who visit in his vicinity so often. We are still firm in our belief that "Bill," some day, will really fall in love.
ERNEST WALKER CHILDS
"Chilluns"
Omaha, Georgia
Electrical Engineering
"Our business in the field of fight is not to question, but to prove our might."
E. W. came to Atlanta from Omaha, Ga., "a widely-known locality," but not located on the map. Immediately after his arrival his name was changed to "Chilluns" and this title has remained. His great height has enabled him to look upon life from a high plane and also enabled him to become a very imposing figure in military circles.
R. 0. T. C. Football (3, 2); Captain, R. O. T. C.; Honor Roll (1); A. I. E. E.

DARWIN WINNEL CLANTON
"D. W."
Swainsboro, Georgia
Co-operative Engineering
"A light heart lives long."
Darwin has his own theories and they are by no means as antiquated as those of another by the same name. Many of "D. W.'s" brilliant ideas have borne good fruit for they have been the leading factor in the progress of the Briarean Society of which he is president. His classmates predict that he will be the first of his class to marry.
Co-op Club; Briarean Society, President (4).

CHARLIE KENCH COBB
"C. K."
Canton, Georgia
Special Textile Engineering
"Do good by stealth, and blush to find it fame."
Buttermilks are classified in two groups: one being the pesky boyish runts around Tech and the other—wells, just ask Charlie Kench. We honestly believe if Percy Marks had seen this handsome, line-slinging shiek he could have written a much better "Plastic Age." But since Charlie's here only two years he believes in making the most of an opportunity. Amen.
Track 12, 1 i; Cross-country (1) ; R. 0. T. C. Football (2).

JULIAN ORIS COLE
"J. O."
Atlanta, Georgia
Textile Engineering
"From the crown of his head to the sole of his foot, he is mirth."
Julian, having lived in Atlanta almost all of his life, attended Ford High and came to Tech to learn of the intricacies of Textile Engineering. His possibilities as a football player were overcome by a strong desire to teach school so this fall he set out to teach Math in North Carolina. His return this year was welcomed by a host of friends and it is predicted that he will make Berbruck Football (1) ; R. O. T. C. Football (3, 2); Honor Roll (1).

LAWRENCE MASON COOK
"Cooky"
Atlanta, Georgia
Civil Engineering
"The light of other days is faded and all their glories past."
This miniature edition of Hercules is noted on the campus for two things—his fighting ability and his laugh. An unshakable disturbance factorizing a tax of overgrown "buttermilk" pace sensation for demonstration of the former—renowned ability while the latter is a charm that has caused him to be known as "M'iss Georgia Tech." This was made when, in a confiding mood, he told of a beauty contest he once won. Since then he has been known as "Miss Georgie Tech."
Veazey Monroe Cook, 0 N.

"Veazey"

Atlanta, Georgia

Electrical Engineering

"Promise is most given when least is said."

Veazey is indeed "in his own" when there is decorative work to be done which requires artistic skill and ability. His services are always desired and welcomed when work of this kind is to be performed and he never fails to show his willingness to help when the occasion arises.

Marionettes (4, 3, 2); Technique (4, 3); A. I. E. E.

Edgar Melville Costley

"Gabey"

Atlanta, Georgia

Automotive Engineering

"Woman's wealth is beauty, but learning that of men."

It is said that when the stork brought "Gabey" to this earthly sphere he came back the next day with a fast running automobile. Whether or not this is true we know that automobiles have been quite prominent in his existence. Edgar has figured in many races but his daily race is to make his 8:00 o'clocks on time in which he usually loses out by a few seconds. Indications are that in later years he will be a king in the car industry.

Second Lieutenant, O. R. C.

Thomas White Cotrhan

"Tom"

Greenwood, South Carolina

Architecture

"Nothing can be done at once hastily and prudently."

Tom has succumbed to the wiles of the Atlanta girls and has become a ladies' man of some repute. Tom claims that his failing health is due to the late hours spent over the drawing board in the Architectural Department but the architects state that he is rarely ever there at night. He will make good if the ladies do not get him first.

Floyd Ellsworth Cotton, 0 K Σ

"Pop"

Asheville, North Carolina

Civil Engineering

"If worry were the only cause of death, then would I live forever."

"Pop" entered Tech in the days before the War (we are not referring which war!). He has evaded all efforts of the faculty to hasten the completion of his career at Tech, and now believes that he has absorbed all that is good and noble about the world. Some day, ere long, all of us will be riding over his roads.

Winner Cross Country (1919); Track (2, 1); Kosem: Bull Dog; "T" Club; Cotillion Club; Civil Crew; A. S. C. E.

Henry Rew Cook, K A

"Rew"

Meridian, Mississippi

Special Textile Engineering

"Reason is not measured by size or height, but by principle."

Rew did not know what an easy, good time he was having until he left school at the end of his second year to go to work; so the next year he was back again—this time to take Special Textile. But now that he has finished he says that he is ready to get a job, settle down, and spend the rest of his days somewhere down in Mississippi.

William Robert Crawford

"Bill"

Atlanta, Georgia

Electrical Engineering

"The load becomes light which is cheerfully borne."

"Bill" and his lie with the Signal Corps in his Freshman year and for four years has been one of those who have managed to keep the military in a constant state of alarm. His friendly smile and earnest endeavor have been a real asset to the Night School and we all wish him future success and greatness.

Charter Member, Owl Honorary Society, Secretary (8); Commerce Club.

Julien Bryan Cumming, A T Ω

"Juju."

Rome, Georgia

Textile Engineering

"Journey's end in lovers meeting. Every wise man must know."

"Ju Ju." tall of figure, and all the way from Rome, Georgia. He has dreamed of being an electrical engineer but finally decided to follow the Textile field. His great mistake was made on the night when he walked into a feed joint and called for pie "La La Mode". Since that time he has had a great battle for supremacy, the esculent title falling into the background. To him belongs the art of meditation.

Lacrosse (3, 1): Cotillion Club.
William Clay Curen, Jr.

"Bill"
Co-operative Engineering

"Patience is the best remedy for every trouble."

"In "Bill" is vested the responsibility of upholding the reputation of Rising Fawn, Georgia. His taciturnity has won for him many friends and one of his best traits is his ability to make a team. He is a leader of men of his age and his willingness to work will be a noticeable factor in their next year's team.

E. O. T. C. Football (4, 5, 2); A. S. M. E.; Society Co-op Club.

Julian Turk Daniel

"Dan'l"

Milan, Georgia

Automotive Engineering

"Consistency, thou art a jewel.

"Dan'l" has the reputation of never speaking unless spoken to but when he speaks, words of wisdom flow. His taciturnity has won for him many friends and one of his best traits is his ability to make a team. He is a leader of men of his age and his willingness to work will be a noticeable factor in their next year's team.

Robert Gordon Daniel, Jr.

"Bob" "Tony"

Athens, Georgia

Electrical Engineering

"If we cannot help, at least we need not hinder."

"Bob" entered Tech in 1922 with high aspiration. He did not take his studies seriously but when he saw the need for leadership and he changed over to Civil Engineering. His work in the classroom has been very consistent and conscientious both in the regular and summer sessions and as a result, he can claim the distinction of being the only three year man in this year's graduating class.

A. E. C. E.

Edward Lee Darling, Jr.

"Uncle George"

Blackshear, Georgia

Co-operative Engineering

"Return the world as it is, not as it ought to be."

"Uncle George" experienced a bit of difficulty during his early days at Tech but he soon learned to be the mark and attend all his eight o'clock classes. There is no advice he has to give, openly, to those of his friends who are following his trail. However, he never hesitated to help if he saw a brother in need, and he always has been active in the welfare of his college classmates.

Square and Compass; Bilearan Society; Co-op Club.
Anthony DeVaugn

"Anthony"

Atlanta, Georgia

Evening School of Commerce

"Yet must I tell a tale of chivalry or whereof comes that knight so proudly by.

Unlike his namesake, Major Anthony Wayne, he is a sober and silent youth. He attended the Riverside Military Academy and Joe's High, having graduated from the latter. Sherlock Holmes has nothing on Anthony for he is engrossed in character sculpting and from story to story his imagination runs amuck. He is also winning much fame as a magician and bits of information. is making a success of his professional training.

"Oggie" is noted also for his all too evident reluctance to attend the Tuesday night "Life" class. His enthusiasm is well justified, however, for he is engaged in character reporting and, from story to story, his imagination runs amuck.

The state of Arkansas has sent us many men but never has it sent us one like "Pinky". He lined up with the Kaiser besides quite a bit of business experience. It is reported that he will soon be truly followed.

Robert Melville Dinsmore

ROBERT MELVILLE DINSMORE

Little Rock, Arkansas

Mechanical Engineering

"Actions speak louder than words."

Old "Oggie" Georgie Dick is the next to appear for he is engaged in character sculpting and, from story to story, his imagination runs amuck. He is also winning much fame as a magician and bits of information.

"Actions speak louder than words."

No one knows how "Johnny" managed to stagger so far from home but rumors have it that there was a lady in the case. Whether this be true or not, it certainly did not interfere with his studies. He is one of the few students in the M. E. Section who might be insured as the state of Arkansas has sent us many men but never has it sent us one like "Pinky". He lined up with the Kaiser besides quite a bit of business experience. It is reported that he will soon be truly followed.

"Johnny"

The state of Arkansas has sent us many men but never has it sent us one like "Pinky". He lined up with the Kaiser besides quite a bit of business experience. It is reported that he will soon be truly followed.

"Johnny"

Dinty had a big part in the tiddlywinks game with the Kaiser besides quite a bit of business experience. It is reported that he will soon be truly followed.

"Oggie" was a promising mechanical engineer. Although coming from far-off Illinois, "Sam" attended Tech High where he began his career as a musician. Since he has been at Tech he has served in the capacity of Wop's right-hand man and has proven one of the band's most accomplished musicians.

"Bessie"

Dinty had a big part in the tiddlywinks game with the Kaiser besides quite a bit of business experience. It is reported that he will soon be truly followed.

"Bessie"

"Johnnie" managed to stagger so far from home but rumors have it that there was a lady in the case. Whether this be true or not, it certainly did not interfere with his studies. He is one of the few students in the M. E. Section who might be insured as the state of Arkansas has sent us many men but never has it sent us one like "Pinky". He lined up with the Kaiser besides quite a bit of business experience. It is reported that he will soon be truly followed.

JEROME WATSON ECKELS  
"Jerry"  
Atlanta, Georgia  
Electrical Engineering  
"Young in limbs, in judgment old."  
"Jerry" received his first taste of the engineering world back at Tech High. It was here also that he started training for swimming teams. Since his arrival in our midst he has been actively engaged in putting the swimming team in the Hall of Fame. In season he has been a leader in military basketball and football. Swimming 13, R. O. T. C. Football (4, 2); R. O. T. C. Basketball (4, 2, 1).

ALLAN GREER EDWARDS, 0 X  
"Hank"  
Marietta, Georgia  
Co-operative Engineering  
"No man was more foolish when he had not drawing pencil in hand, nor wiser when he had."  
"Hank" possesses an unusual ability to portray an individual's likeness with a pen or pencil. He refuses, however, to divulge the manner whereby he learned to perform this work, so we presume that it is a gift. Greer possesses just enough wit and humor to make him the good sport that he is. R. O. T. C. Football (3, 2, 1); Blue Print Art Staff (4); Briarean Society.

ROY A. ELLIOT  
"Roy"  
Atlanta, Georgia  
Evening School of Commerce  
"Show me a man who makes no mistakes and I will show you a man who never does anything."  
No one knows what Roy's middle name is, for he keeps it a profound secret. Several guesses have been made but all have been as unproductive as a poor man's cellar. Since Roy's first lusty yell in the spring of 1904, he has been into a number of things, among them being the Commercial High School and fire insurance. He is somewhat dippy on the subject of symphony music. He has been active in Commerce Coil) social affairs and is full of pep, push and vim. Commerce Club.

SCROOP WESLEY ENLOE, JR., 4 X  
"Eaglebeak"  
Dillsboro, North Carolina  
Textile Engineering  
"There is not one moment without some duty."  
"Eaglebeak" has been just itching all over for the baseball season to roll around that he might strut his stuff before the opposing batters and his many feminine admirers, always present in the stands. Scrub Baseball (6, 2); Varsity Baseball (4, 4, 1); Scrub Football (1, 2); R. O. T. C. Football (11); Glee Club (4, 2, 1); Blue Print (2, 2, 1); Athletic Association; Foot- ball (2, 2); Tennis (2, 2); Little League; Commerce Club; Vice-President (5); Inter- fraternity Council (5, 5, 2, 3); Student Council (5, 4, 3, 4, 11, 11); Skull and Key; Koseme Lintheads; Cotillion Club. Vice-President (15); Inter- fraternity Council (5, 5, 2, 3); Student Council (5, 4, 3, 4, 11, 11).

HARRY D. EPTING  
"Eppy"  
Newberry, South Carolina  
Electrical Engineering  
"Tis perseverance that prevails."  
Harry does not believe in revealing everything apparently for he insisted upon us using only his middle initial. Harry believes, however, in his standing as a leader on the Tech Bible Class at St. Marks. Back in 1923, he was chosen as a delegate to the National Student Volunteer Convention in Indianapolis. This, in itself, is an immediate and worthy recommendation of his character and ability. We need say no more.

CHARLES RALPH EWING, T. X  
"Ralph"  
Pawtucket, Rhode Island  
Special Textile Engineering  
"He was ever precise in promise-keeping."  
Ralph hails all the way from Pawtucket which was the stamping ground of our Puritan fathers, if we recall history correctly. His emulation of high ideals and sincerity has led us to believe that there really must be something to Holy Smoke. May he always be able to spin a successful "yarn". Track Squad (2, 1); Honor Roll (1).

ROY TATUM Fagan, 9 X  
"Roy"  
Piedmont, Alabama  
Special Textile Engineering  
"A good meal lubricates business."  
Roy has only been mingling with us here in Tech town for a couple of years but that has been long enough, he says, to learn the most important things about the textile industry in general and knitting mills in particular. His "knit-wit" ability will get him there yet.

JAMES McINTOSH FAMBROUGH, E  
"Piggie"  
Boston, Georgia  
Civil Engineering  
"Attempt the end and never stand in doubt."  
"Piggie" picked out Boston, Georgia, as his birthplace and the town must have suited him well, for he still sometimes a large portion of the population of this city to us as being the most delightful and sunny. He is a fine surveyor and no doubt will if we give him time. 2nd Lieutenant, R. O. T. C. Civil Crew; A. I. E. E.
WILLIAM BETHEL FANNSWORTH, A.F.

"Biggy"

Memphis, Tennessee

Committee

"The pleasing paineburth that awaits her;"

It was not until the day that "Biggy" left Roanoke, Tennessee, that the town began to grow. He says that he had to swing ten miles on a brand new horse in order to get to the main road when he was on his way to Castle High School and the Military Academy. The secret in Alpaca to the high school acquaintance was to be put off at Georgia Tech and since that time he has developed into a typical golfer and warrior of the gridiron.

Yellow Jacket (4, 3); Alpha Delta Sigma; Honor Roll (12).
GEORGE CULLEN GARDNER

Co-operative Engineering

"Live to learn and you will learn to live."

George's rise to gridiron fame has been nothing short of meteorical. From a linesman on the Co-op football eleven back in 1920, he rose to the captaincy of Georgia Tech's "Golden Tornado" and one of the South's greatest and deadliest tackles. Our hats are off to you, George. May you be as successful in life.

R. O. T. C. Football 1, 2, 3; Varsity Football (5, 4, 3, 2, 1); Captain; Varsity Baseball (6, 5); Bull Dogs; "T" Club, Coop Club; Bionesian Society.

HORACE BILLINGS GARNER

"Horace"

Buford, Georgia

Evening School of Commerce

"The Guard dies but never surrenders."

Upon his graduation from Buford High School, Horace entered Oglethorpe University. The Atlanta Law School later claimed his efforts and he graduated in due time and process. Having an insatiable desire for knowledge, Horace selected the Evening School of Commerce as his next Rubicon. He is exceedingly proficient in his knowledge of Economics and Merchandising and is one of the brainiest men in school.

Alpha Kappa Psi; Commerce Club.

MATTHEW HOMER GASTON

"Alphonse"

Jackson, Georgia

Electrical Engineering

"Take the world as it is, not as it ought to be."

"Alphonse" was born and raised in the city of Jackson, Ga., but he does not seem to have prepared there—least of all, he failed to admit to us just where he did spend his days in high school. He has made it a point to well prepare each day's assignment for homework and hence will be only a few seats from Walter, the other pride of Jackson, when the roll of the graduates is sounded in June.

2nd Lieutenant, R. O. T. C.

LOUIS EDWIN GATES

"Honk" "Einie"

Bradenton, Florida

Engineering Chemistry

"Methinks I'll give my time to playing soldier!"

After seeing and hearing "Honk" perform on the parade ground for the last three years, many have been led to believe that Louis Gates missed his calling by not attending West Point. His interest and enthusiasm were always aroused in any new project that the Military Department wished to undertake. We will venture to say that "Honk" was for advocating a parade and review six days each week.

R. O. T. C. Football 4, 3, 2, 1; R. O. T. C. Basketball (2); Lieutenant Colonel; R. O. T. C. Junior Class Fort; Technique (6, 2); Barrage (2); Scabbard and Blade; Mu Lambda Sigma; V. M. C. A. Cabinet (4); Honor Roll (2); Emerson Chemical Society.
ROBERT SHUFORD GIBBS, JR.

“Bob”

Mars Hill, North Carolina

Electrical Engineering

“A fool wonders, the wise man asks.”

Although “Bob” descended the mountains where coming to Atlanta he never forgot the spirit of his home land. His friends who have seen him at all times have marveled at his quiet and unassuming simplicity and friendship which could be counted upon always when a fellow needed a friend.

R. O. T. C. Football (2); Boxing Squad (3); Honor Roll (3, 2).

WILLIAM REGINALD GILKESON

“Gilly” “Billy”

Summerville, Georgia

Electrical Engineering

“Life is what we make it.”

The sport reports from Tech about boxing during the last four years have always mentioned this son of Summerville. Besides this and his love for three meals each day, “Billy” is wedded to electricity and intends to specialize in this industry more rigidly after graduation than during his undergraduate days. Consequently there is no doubt boxing will soon be only a side line and as to eating, Edison may find in him a rival for fasting.

Boxing Team (3, 2, 1).

HERMAN ALTON GLASS

“Silicate”

Atlanta, Georgia

Automotive Engineering

“The more a man knows, the less he knows he knows.”

Until one friend “Silicate” became a student at our institution of learning, his chief ambition was to own an oil company. But now, having owned and operated several such companies successfully, he is looking for larger worlds to conquer. In this, his last year, he has taken over the reins of managership of the Freshman basketball team and has proven very efficient in handling them.

Manager, Freshman Basketball (4); A. S. M. E.; Society Automotive Engineers.

JOHN ENGLISH GLENN, JR.

“Sleepy” “Fat”

Decatur, Georgia

Textile Engineering

“There should be legislation to protect men from their feminine admirers.”

When we started out some four years ago in classmate, very few of us knew that there was such a personage as Johnny Glenn. But during the football season this year, his name was quite frequently repeated en masse as Johnny trotted out on the field. “Fat” was a bit disappointed with the coming of warm weather this fall as he was hoping to get out and snort some varsity “1.”

Freshman Football; Scrub Football (3, 2); Varsity Football (4).
Bobbie
Miami, Florida
Post Graduate in Commerce

"He has no faults except that he is faultless."

Bobbie seems to have an eye for business, for, with real estate booming back home at Coral Gables, he bobbed up last fall, not with the E. E. Department any longer. However, he believes him to have had designs on this year's winner of the annual cross-country run. Watch him step that one!

Robert Armstrong Goodburn, II A Δ

"Bobbie"

"Success", as he is affectionately called by his fraters, is somewhat of a marvel, we say. When his X. E. work was forced upon him, it meant the loss of sleep, but "Bobbie" seems to have an eye for business, for, with real estate booming back home at Coral Gables, he bobbed up last fall, not with the E. E. Department any longer. However, he believes him to have had designs on this year's winner of the annual cross-country run.

Walter Bruce Greeves, II K ,uinty

"Walt"

Barnesville, Georgia

Post Graduate in Commerce

"He has no faults except that he is faultless."

Walt is a product of the old school, has a lot of ideas of his own, and has never been known to wear a foot helmet in other than comedian fashion. He has seen the world as a fighter in France. At random he picks up a tingle and brandishes bugle calls which to date have been heard to the accompaniment of his intensity also detuning the piano at the 2 T 1!

Freshman Football; Varsity Football (4, 3, 2); Freshman Track; Assistant Manager, Basketball (4, 3, 2); Manager, Basketball (4); LaCroix (4, 3); "T" Club; Swimming (4); Skull and Key; Koseme; Bleeding Toe; A. S. C. E.; Civil Crew; Cotillion Club; Student Council 13.

Davey George Greaves, Φ K 2

"Dave"

St. Petersburg, Florida

Architecture

"That man that hath a tongue, I say, is no more"

"Dave" is a firm believer in the ancient adage that two heads are better than one and has carried out his beliefs by taking a shot at marriage. Naturally, as captain of the Rifle team, he scored a bullseye. "Dave" is a soldier of fortune in every sense of the word; a sailor, a military captain, and a gentleman of leisure. We are pulling for you, "Don". and believe that you will make good.

Paul McCurtt Grieffs, Π A

"Grieffs"

Cedartown, Georgia

Commerce

"Silence is the perfectest herald of joy."

Grieffs, without a doubt, should be one of the chief prizes of that thriving metropolis, Cedartown. He has made a record of which we are all proud, besides a host of students that "Don" has gotten his reports in, attended all the debonairer parties and made a goodly number of friends at tech. He has shown the Profs that he knows his "groceries."

Ben Robert Gordon, A E H

"Bobbie"

Mayfield, Kentucky

Electrical Engineering

"Distinction without a difference."

The state of Kentucky has a splendid representative at Tech in the person of "Bobbie", for he takes an active part in all college affairs. "Bobbie" is destined for greater fame in commerce history at Tech. Amen!
LILY FRIEDA GROBLI
Atlanta, Georgia
Evening School of Commerce

"A thing of beauty is a joy forever."

Being the only young lady member of the class of '25, "Lirio" is worthy of special commendation and mention. She has been a hard working and conscientious secretary throughout its momentous existence and has always performed her duties in an energetically satisfactory manner. As President of the Commercial Club, she saw to it that Commercial Work was a success. She was captain of the Junior-Senior basketball team and a member of the Student Council. Secretary, Junior Class; Secretary, Senior Class; Commerce Club, Secretary (3).

DONALD GUNN
"Shotgun"
Rome, Georgia
Co-operative Engineering

"An honest word is better than two oaths."

Donald Gunn has already made a name for himself by gaining more points after exams are over than any other student. Gunn has had his own room in the Military Department, which he has held for three years as a first lieutenant. With a lot of practical electrical knowledge "Shotgun" is well prepared to give the new generation of Edisons a fast race.

1st Lieutenant, R. O. T. C.; Scabbard and Blade; Briarean Society.

GUY WINTERS GUPON
"Judy"
Portal, Georgia
Electrical Engineering

"He only is a well made man who has a good determination."

A man who can overcome obstacles with a smile and a cheerful disposition cannot help but succeed in whatever he attempts. "Judy" is quiet and unpretentious, but those who have worked with him find friendship is high reward. His ambition is to become a radio expert.

R. O. T. C. Football (3).

BERNARD AARON HALL, Jr.
"Herb"
Bay Minette, Alabama
Commerce

"Music hath charms to sooth the savage beast."

Jackson, Georgia, has been calling this boy "Son" for about twenty-one years. "Judy" prepped at the Savannah High School but the fascination of Atlanta was too great to attempt to overcome and hence he moved here. Boy's High is his true Alma Mater for he holds a "sheepskin" from that institution. His hobby is music and he toots a tricky trombone.

Commerce Club.

FRANK GLENN HARRIS, A T U
"Franco"
Atlanta, Georgia
Commerce

"The sum of earthly bliss."

Little Frank enjoys the antics of Barney Google, and has never been known to miss a comic strip. He is known to all as "Spark Plug". His brain was educated at Tech High and then he cast his lot with the Tech Commercial Department. He has shown speed in his classes as well as on the football field, thus further acquiring his estimable title of "Spark Plug".

Freshman Football; Varsity Football (4, 3); Delta Sigma Pi; Cotillion Club.
JOHN PHILLIP HARRISON

"Johnnie"
Brunswick, Georgia
Textile Engineering

"We know what we are, but not what we may be."

This cotton state man aspired to know what was done with the products of his section. His arrival in Atlanta was heralded by friends who have seen to it that besides learning textile from the cotton standpoint he is also informed on the subject of silks and satins. He may go back thinking cotton is not so important after all.

LOUIS ANDREW HAWKINS, JR., Φ Σ Κ

"Abie"
Atlanta, Georgia
Commerce

"Who can tell, save he whose heart hath tried?"

No, folks, this isn't the original of "Abie's Irish Rose" or anything like that but just a nickname donated to a deserving apostle of "Jew Engineering" and for some strange reason has stuck to him like iron glue on a piece of tinfoil. Just why he is not included in "Who's Who" is not wholly because of his "conservative monetary standard" but also to his youthful number of 'teens.

JOHN WALSTON HENDERSON, Θ Δ Χ

"Johnnie"
Williamsburg, Virginia
Architecture

"Do the best you can as you see it and trust to luck that you haven't inherited defective eyesight."

Conscientious application yields its rewards without orientation to him who makes the effort. Certainly not while the "Franklin Effect" is present. His social success is due to attractive personality, good looks and genuine affability. His boyish mannerisms and cheery countenance speak louder than many words of his personal commendation. When "Johnnie" came to us from Williams and Mary College, he already possessed a B.S. degree in Math and Chemistry. Architectural Society.

CHARLES EDISON HENDRICKS

"Charley"
Atlanta, Georgia
Co-operative Engineering

"Fortune is unstable, while our will is free."

"Charley" is one of the leading men of the Co-op course as is evidenced by his election to the Presidency of the Co-op Club in this his last year of schooling. A fine and worthy reason for his popularity.

JAMES WALTER HENDRICKS, JR.

"Walt"
Sardis, Georgia
Co-operative Engineering

"He is well paid that is satisfied."

"Walt" has never regretted the step that he took some five years ago when he set his heart on receiving a diploma via the Co-op route. Too many are prone to waver and fall by "the wayside in the struggle for a B.S. degree in this lengthy course but not "Walt". He has never faltered once and as a result will make an excellent engineer.
GEORGE STANLEY HODGES
Macon, Georgia
Special Textile Engineering

"So many worlds, so much to do, so little done, such things to be."

"Brother" Hodges says he was born in 1905 and yet insists that he is only seventeen years old to date. We naturally wonder where he learned his early Math. However, that may be only one of those yarns that he has become so adept at spinning since coming to Tech two years ago. It is quite an art at that.

NEIL HODGES
"Red"
Americus, Georgia
General Science

"In the full tide of successful experiment."

After spending three years with the Electrical Engineering Department, "Red" decided that the General Science course was introduced for his special benefit and so he is found among the few who comprise the first class to graduate from this new department. Americus is pointing to Neil "to succeed in business."

2nd Lieutenant, R. O. T. C.

BENJAMIN CLIFFORD HOGUE
"Big Ben"
Atlanta, Georgia
Architecture

"It is better to learn late than never."

"Put it over big or not at all" seems to be the aim of this war veteran and contractor who has taken time out to spend a few years at Tech as a student architect. Big Ben's personality and drive have been a source of wonder to younger men with whom he has been associated. In the Architectural Year Book Committee he has represented the big adventure of life to come of which he has already tasted.

Square and Compass: Masonic Club; Architectural Society, Secretary (5); Chairman, Architectural Year Book Committee.

ALBIN OMBERG HOLDEN, "Al"
Atlanta, Georgia
Commerce

"Then take, good sir, your pleasure while you may; With life so short 'twere wrong to lose a day."

"Al" Holder has had a diversified career since leaving Rome, Georgia, his native city and Tech High, his prep school. He has been an air mail pilot, a high school principal, an airway surveyor, a jeweler, a dance instructor, and a band instructor. He is not only the pride of the Tech Glee Club this year as its leader but also the principal attraction in the 1925 Wesleyan Annual, bearing the title, "Best looking man at Georgia Tech."

"Count" has all the disposition and talent necessary for success.

Glee Club (4, 3, 21, President (4); Yellow Jacket Art Staff (3); Inter-Fraternity Council (4); Delta Sigma Pi; Commerce Inter-Fraternity Council (4); Golf Club (3); Cotillion Club.

ARCHIBALD DINSMORE HOLLAND, II
"Denny"
Atlanta, Georgia
Co-operative Engineering

"He was who believes he can."

"Denny" likes his books to the extent that he was called upon to assist in the X.E. Department this year. But he has also found time to participate in several branches of activities, especially in the Military Department where he ranks to an unusual degree. He has not let his small stature prove a handicap in battalion football but has grown to be one of the dependables of the Co-op team.

R. O. T. C. Football 15, 4, 3, 21; Captain, E. O. T. C.; Stab and Blade; Co-op Club; Biblical Society; St. Mark's Tech Bible Class, President (5).

JAMES EDWARD HOLLIDAY, "Jim"
Atlanta, Georgia

"Such joy ambition finds."

This is Jim's first year in regular school. He graduated from the Evening School of Commerce last year and then decided to get a regular degree. He is very good natured and is well spoken on the campus. We hope that 'Jim" will find something back to us next year, for he will be much missed when he leaves.

Alpha Kappa Psi; Alpha Delta Sigma.

RUSSELL PERSONS HOUSER
Fort Valley, Georgia
Electrical Engineering

"Nature forms us for ourselves, not for others."

Russell shyly admitted that he was reared among the Georgia Peaches in Fort Valley where he has been content to spend his holidays for the last twenty-five years. We do not blame him at all. Anyone who battles YE 79 with the tenacity that Russell has deserves the admiration of the class and he has it!

DONALD BURTON HOWE, "Don"
Tallapoosa, Georgia
ROY DESHAU HUTTINES, K A
"Uncle Roy"
Denton, Texas
Special Textile Engineering

"He that hath no beard is less than a man."
"Uncle Roy" first registered at Tech back in 1918. After two years he had to leave school but the football training that he had received stuck with him and when he returned last year he had no difficulty in landing a berth with the varsity squad. He has a build all his own that makes him a distinctive and marked player on the gridiron.

THOMAS WALTER HUGHES, A T A
"Walt"
Savannah, Georgia
Commerce

"He bath a daily beauty in his life."
"Walt's" curly locks, his genial smile and that insouciant air of his has made him popular both with the students and the damsels. His interest in the Seminary is more than passing, that is to say, it shifts from one inmate to another. Outside of his social activities "Walt" has managed to find time to carry on several activities and cajole the Dean into giving him a diploma.

ARTHUR DENISON HULL, A T
"Den"
Rome, Georgia
Textile Engineering

"Talk of nothing but business and despatch that business quickly."
This handsome young specimen from Rome has tried everything possible on the track and has succeeded at running the hurdles. He likes to laugh, go to Keith's, and talk about the days that are yet to come. To him the world is a bale of cotton.

FREDERICK MARCUS HULL
"Fred"
Rockingham, North Carolina
Mechanical Engineering

"Though old and wise, be still advised."
Fred is a demon when it comes to the solution or analysis of a mechanic's problem. His home town people are patiently waiting for the day when he will return. As well as being a good student, he has shown that bears is an essential in cricket, having played K. O. T. C. football for three consecutive years.

JOHN WILSON HUME
"Johnny"
Atlanta, Georgia
Civil Engineering

"Our wills and fates do so contrarily run that our devices are still overthrown."
Here we come face to face with one of the youngest members of the present Senior class. "Johnny" started his last year of college still in his 'teens. He is by no means a native of that city, for he was born in our own Rome, Georgia. "Johnny" is an authority on steel design.

WILLIAM HUNTER, III, X
"Red"
Atlanta, Georgia
Textile Engineering

"I drink when I have occasion and sometimes when I have no occasion."
"Red, No. 3" is a Scotchman by birth as well as by taste. For four solid and consecutive years, his greatest delight in each school day has been to speed up North Avenue at lunch hour imitating the Fourth of July to the best of the ability of his mufflerless "cut down" and the dozen "hair-breath Harps" riding the spokes. But he will settle down yet.

HERBERT HUTTON, K 2
"Herbert"
Savannah, Georgia
Electrical Engineering

"Grasp every opportunity; heed not what others may say."
Herbert is the biggest little man that Tech has developed in many years. Savannah never produced a more popular or influential character than Herbert Hutton. Modesty and self-confidence are two of Herbert's greatest assets. His is the result of a carefully and systematically planned college training.

DAVID BURNS HYER, JR., R A
"Dare"
Charleston, South Carolina
Electrical Engineering

"His cares are now all ended."
One would never suspect "Dave" to be from Charleston judging from the unmerciful amount of chatter that he reels off incessantly. He has an independent manner that he has taken on since the buzzards drove him away from his home town. His disregard of public opinion will be either the making or breaking of him yet.
WINNIE JACKSON, K 2
"Winkie"
Atlanta, Georgia
Commerce
"An honest man. close-button'd to the chin.
Broadcloth without and a warm heart within."
"Winkie" was somewhat backward in telling his ambition but we venture that he wouldn't mind filling the shoes of Bill Tilden. In other words, "Winkie" is quite a tennis shark and is the third captain to come from the Commerce Department this year. He is a good student and well liked by all.
Tennis (4, 3), Captain (4); 1st Lieutenant, R. O. T. C.; Alpha Kappa Psi; Cotillion Club.

VONNIE LAMBE Jacobs
`'Bud"
Atlanta, Georgia
Electrical Engineering
"Take the goods the Gods provide thee."
Vonnie decided that his education would not be complete without a degree from Georgia Tech. His nickname is an addition of the last four years. He numbers among the things he hopes to attain in the future an ascent of Jacob's Ladder. This should not prove so difficult for one with a name like his.

CHARLES JENSEN
"Young Pop"
Aarhus, Denmark
Automotive Engineering
"The best safe for one's money is a prudent wife."
"Young Pop," as he is affectionately known, possesses one of the rarest of virtues—a real sense of humor. When not working in the classroom or hurrying home to feed wife, he can always be found entertaining the boys with some of his Danish humor. He has seen quite a bit of the business world, a factor that has been of much aid to him in his daily work.
Yellow Jacket (3); Cosmopolitan Club; A. S. M. E.; Society Automotive Engineers.

FRANCIS EDWARD JOHNSTON, Jr., II K A
"Ed"
Savannah, Georgia
Electrical Engineering
"The man who smokes, thinks like a sage and acts like a Samaritan."
"Ed" is another one of these "Geechees" who, we are glad, selected Tech as the place to obtain a higher education. He is, among other things, the charming smoke ring thrower of the south. "Ed" is quiet and ready to do any things at times but he knows what he is talking about. He has ambitions of graduating some day.

JAMES THOMAS JOHNSON, JR., F Σ K
"Jimmie"
Montevallo, Alabama
Electrical Engineering
"Gentle in manner, firm in reality."
We've often wondered why Elinor Glyn doesn't take lessons from "Jimmie" and write a love story really worth while. He says life is full of the best and beautiful, especially when you can be so much in love that even Christmas cards don't interfere with your "daily" life. He is a pretty good swimmer and has the key to the library, the key of every well-spun campus locker. Baseball (4, 3, 2, 1), Track (4), Blue Ridge Club; A. I. E. E.; Honor Roll (1); "Y" Cabinet (3).
CHARLES DAVID KEEN, II K A
"Dream Daddy"
Marianna, Florida
Commerice

"A daughter of the gods, divinely fair, and most divinely fair."

Charlie is the living refutation of the occasional charge that the Tech B, O. T. C. is not perfect. The Military Department, and the whole school has suffered a great loss in that Charlie attended Florida for two years before entering Tech. Marianna, Florida, claims Charlie as a son, and to be named, "Daddy," is the proclamation of his feats. He refuses to either confirm or deny the outstanding claims of his friends. He refuses to either confirm or deny our suspicions so we will have to content ourselves by following his methods more closely in the future.

Gay Part Kephi, II K F
"G. P."
Gay, Georgia
Mechanical Engineering

"Believe yourself fit to command when you are ready to command when you have learned to obey."

One would be led to suppose that this aspiring engineer has experienced a decidedly successful year for by the time he is ready to command he will have learned a little about it. He has made a fine record, lots of honors, and a host of friends since his arrival at Tech.

JOHN PAYSON KENNEDY, JR., II T A
"J. P."
Atlanta, Georgia
Commerice

"According as the man is, so must you humor him."

Bacterial perfection has been acquired by Byron to an exact degree and he looks like a typical New Yorker. However, he is a product of Tech High and has been seen with a few commercial subjectivits. Byron likes to sit and dream dreams and his great trait is his knowledge of how to be quiet.

James Lewis Knight, Jr., II T A
"Jimmy"
Carterville, Georgia
Textile Engineering

"A lion among ladies is a most dreadful thing."

Carterville has produced many famous sons in years gone by but probably none are more renowned, especiaIly among the fairer sex, than "Doc" Knight. No doubt his fastness caused him to be placed at battalion end and while there learned the art of removing interference which has proven a valuable aid along his social lines.

BYRON HILL KING, Jr., A T E
"Teasty Fair"
Atlanta, Georgia
Commerice

"Anything for once" is the motto of our good friend "Jose" and that in itself is sufficient reason why a student and a bachelor are needed on some dates. The "Jose" will be there to perform the necessary duties like lighting. So doubt his fastness caused him to be placed at battalion end and while there learned the art of removing interference which has proven a valuable aid along his social lines.

THOMAS LEAVERT KELLY, II T A
"Jack"
Thomaston, Georgia
Commerice

"What comes from this quarter, set it down as so much gain."

Jack has distinguished himself at Tech by his ardent work on the Yellow Jacket and his ability to make friends wherever he goes. Twentieth Century efficiency seems to be his goal, being quite serious and always striving since leaving there to pass up a number of enjoyable evenings. As the Business Manager, he goes to work on the Yellow Jacket and his ability to make friends wherever he goes. This year was that he would be deprived of the privilege of selecting the Technique sponsor.

JOEL JAMES KNIGHT, II T A
"Jose"
Atlanta, Georgia
Commerice

"As lightning. So doubt his fastness caused him to be placed at battalion end and while there learned the art of removing interference which has proven a valuable aid along his social lines."

JACKSON LEWIS KNIGHT, II T A
"J. P."
Atlanta, Georgia
Commerice

"Snakie Jake" learned the art of slicing sandwiches back in Bull Street when very young. He has never regretted this accomplishment that he mastered for with it he has been able to gather those few extra shekels that are so necessary in showing his admirers an enjoyable evening.

JOHN PAYSON KENNEDY, JR., II T A
"J. P."
Atlanta, Georgia
Commerice

"According as the man is, so must you humor him."

Bacterial perfection has been acquired by Byron to an exact degree and he looks like a typical New Yorker. However, he is a product of Tech High and has been seen with a few commercial subjectivits. Byron likes to sit and dream dreams and his great trait is his knowledge of how to be quiet.

Delta Sigma Pi; Alpha Delta Sigma.
WILLIAM JOSEPH LANIER, JR.
"Joe"
Forest City, Arkansas
Mechanical Engineering
"Education is an ornament in prosperity and a refuge in adversity."
Consistency, dignity and scholarship are three things in which "Joe" seems always to shine. In the class-room "Joe" always stands out as a man of experience, both in the theoretical and the practical. His dignity, mingled with a pleasing personality, has made for him many lasting friendships.

LUCIUS LASEK
"Louie"
San Francisco, California
Civil Engineering
"He that hath patience may compass anything."
After a varied career which included service during the big scrap, Louie arrived at Tech. He has never failed to keep in view his purpose for being in school, as so many of us are prone to do. His chief occupation is work. He is a devoted student of Dr. Snow's lectures. With his unusual ability he will undoubtedly rise to the top of his profession.

CECIL LATIMER
"Cecil"
Decatur, Georgia
Electrical Engineering
"I am as sober as a judge."
One must know Cecil a long time to appreciate him. Behind his solemn face is a personality and intelligence loved and respected by all who know him. Cecil is an earnest believer in the ability of a Ford, having relied on one of these trusty vehicles to get him to school on time all year. He has an ambitious ambition: "To unlock the power in the atoms."

FRASER CAROLYN LAW, A T
"Honor"
Atlanta, Georgia
Co-operative Engineering
"No termination without determination."
The only reason that he has never won the championship in laughing is because no one can compete with him. He laughing has been amusing to all. His keen edge has been sharpened by the laughter of his classmates.

CHARLES ANDREU LEBBEY, 2: 4, E
"Lebby"
Savannah, Georgia
Electrical Engineering
"It is a very hard undertaking to seek to please everybody."
This electrical genius first started sparking many years ago in the schools of his native city and has been at it to a shocking degree since entering Tech. "Lebby's" air is one of great dignity but, should anyone tell you that he is gay and light-hearted, we would vouch for the statement at once.

LUKE JORDA L'HEUREUX, 4
"Luke"
Alexandria, Louisiana
Electrical Engineering
"He is a gentleman because his nature is kind and affable to every creature.
"Luke" has always been known for his gentlemanly behavior. He is well-liked by all and is always willing to help others. His dedication to his studies is evident in his consistent performance.

JOHN K. LATOCK, JR.
"Jack"
Baton Rouge, Louisiana
Electrical Engineering
"'Tis well to be honest and true."
Here is one from Louisiana who evidently is not interested in sugar cane and is so quiet you could easily suppose him interested in no one thing especially. Contrary to the experience of most social lions his college life has been made up of one experiment after another, not with the fair sex but with Ex. E. From the way John spends his time this is the most interesting thing in the world, girls included.

E. MCIVOR LAW
"John"
Miami, Florida
Electrical Engineering
"An honest countenance is the best passport."
"John" is a man to be admired. Returning from "over there" he entered Georgia Tech greatly handicapped. He has continued his struggle for a thorough education with the determination "to make good" foremost in his mind and now at the end of four years, the realization of his dreams is near.

JOHN K. LATOCK, JR.
"Jack"
Baton Rouge, Louisiana

"John" is a man to be admired. Returning from "over there" he entered Georgia Tech greatly handicapped. He has continued his struggle for a thorough education with the determination "to make good" foremost in his mind and now at the end of four years, the realization of his dreams is near.
JAMES WESLEY LEMAY

"Jimmie"

Atlanta, Georgia

Architectural

"A winning smile is always worth while."

Every year there are one or two men who graduate in less than the regular four years' time and "Jimmie" is one of that distinctive few in the class of '25. It was almost too easy for him so he entered school activities. He has shone his sterling worth on all sides and at all times and is bound to succeed in whatever he attempts.

Marionette (4, 2); Blue Print (4, 2); Demons; Editor, "Va Jacket" (4); Editor, "Y" Handbook; DeMolay Club; Architectural Society.

JOHN MARTIN LEVERETT

"Heavy"

Doerun, Georgia

Civil Engineering

"Look beneath the surface, let not the several quality of a thing nor its worth escape thee."

"Heavy" Leverett proves without a doubt that the saying about nobody loving a fat man must be wrong. "Heavy" is generally liked by everyone but especially by the Civils who know him best. He has not waited to get his diploma to begin cashing in on his training for he had a job during the holidays surveying around Doerun, Georgia, in an effort to locate it on the map.

A. S. C. E.

ROBERT SLATER LITTLE

"Bobby"

Atlanta, Georgia

Commerce

"It is the mind that makes the man and our rigor is in our immortal soul."

Here we have the Dean's chief "promoter" in real estate. Knowing "Bobby" as well as we do, it would not surprise us to see him rivaling Adair some day, or at least instructing at Tech. He has made the Honor Roll with consistency and will in all probability find out in the future that he learned something at Tech.

Yellow Jacket (2); Honor Roll (3, 1).

ALEXANDER H. LOVETT

"Alec"

Atlanta, Georgia

Civil Engineering

"The world's a bubble, and the life of man less than a span."

A native Atlantian, he roamed over a greater portion of the globe, worked several years in the construction field, served throughout the war, and has won all the decorations that he thought were worth having. "Alec" always mixes a goodly portion of fun with his work and his greatest delight is ragging the young collegians.

A. S. C. E.

ARTHUR W. LUEHRMANN

"Arthur"

New Orleans, Louisiana

Co-operative Engineering

"He doeth well that doeth his best."

Arthur absolutely refused to disclose what his middle name is. He prides himself that he has managed to keep his secret and he is quite confident that he will keep it for he states that it is "To Die." Co-op Club; Epsilon Society.

THERON WYATT LUMRY

"Hawkshaw"

Carson, Louisiana

Co-operative Engineering

"A good example is the best sermon."

Lumry has more stick-to-it ability than all of the rest put together. "If it can be done I will do it" is his motto. Some day his friends will say, "I wish Lumry were here to show me how." R. O. T. C. Football (3); 1st Lieutenant, R. O. T. C. (1).

ROBERT LEAH MACDOUGALL, II

"Mac"

Philadelphia, Pennsylvania

General Science

Much may be made of a Scotchman if he be caught young."

Thomas Dixon might have a fit subject for another story but our "Mighty Mac" here presented to view; not of the riders of the night but rather of those sturdy Scotchmen of the "banks and braes of Monnie Doon." A Scotchman from Philadelphia! If "Mac" is a Yankee, we know that we will never fall out with the North over any question under the sun.

Oil Can Club; A. S. M. E.

JOHN HARRIS MADDox

"Hoppe"

Dennison, Texas

Mechanical Engineering

"Do not prophesy unless you know."

"Hoppe" was quite a traveler until he visited Georgia and discovered it's wonderful "peach crop." When not engaged in manufacturing automobiles or instructing a class of physical culture, he may be found hard at work instructing his fellow students in the fine art of "jumping the fence." R. O. T. C. Football (4, 2, 1); R. O. T. C. Basketball (4, 1, 2, 2); Boxing Squad (3); A. S. M. E.
JOHN GRAY MADRY  
"John"  
Atlanta, Georgia  
Evening School of Commerce  
“When found, make a note of it.”  
Alabama State Normal College received his smiling countenance when he was a mere youth and he astonished his relatives and friends by making the football team. Since his graduation from that institution he has been actively engaged in becoming wealthy. He is in a talkative business at present, being an auditor for the American Bell Telephone Company.

ROSWELL THEODORE MALLORY,  Jr.  
"Preacher"  
Athens, Georgia  
Special Textile Engineering  
“Hope, of all ills that men endure, the only cheap and universal cure.”  
As a boy in Athens, “Rummy” was so impressed by the University of Georgia students that he entered the University after finishing the Athens High School. He soon realized the error of his ways, however, and came to Tech in his Sophomore year, where he has been a quiet but hard-working man in the Textile Department.

ULA LEE MANNING  
"Ula"  
Smyrna, Georgia  
Special Architecture  
“Blessed is he who has found his work.”  
Ula has managed to keep up the Manning record of fun-making established at Tech by his brother, Frank, a graduate of the Architectural Department two years ago. Ula’s favorite pastime is to stick to his drawing board in the Department all night, take the first trolley to Smyrna to wash his face and come back in time to make that eight o'clock class. In spite of loss of sleep after such a trip he could do more work than any other two of his classmates.

JOHN NISBET MARYE,  Jr.  
"Niz"  
Atlanta, Georgia  
Mechanical Engineering  
“None but himself can be his parallel.”  
Had “Niz” arrived on this terra firma of ours exactly one month later than he did, he could have boasted to the month’s delight of being the Joker of April Fool’s Day. As it is, the joke is on (or should I say with) us. His ability to talk incessantly and readily won for him much fame in the early years of his college career. As a Spanish “Athlete” he has no peer. “Niz” will make his mark we feel sure. May he live to realize his ambition, “To have eleven children.”

WILLIAM CHARLES MASON  
"Bill"  
Macleod, Alberta, Canada  
Civil Engineering  
“Diligence increaseth the fruit of toil.”  
“Bill” is another old veteran with a many-hued career back of him. After serving in France and teaching at Tech High, “Prof” Mason decided he did not know enough and so came here to see what Tech had to offer in Civil Engineering. He is more than satisfied with what he has found and simply swears by Dr. Snow. A glutton for knowledge, “Prof” is the type of student who raises the level of Tech’s high scholastic standard.

STEPHEN CUTHBERT MAY  
"Steve"  
Washington, D. C.  
Automotive Engineering  
“Ambition rules my brain and lore my heart.”  
“Steve” has a lot of trouble giving his home address, inasmuch as he is the son of a Naval officer. It is but natural that he should be interested in national defense and as a result he holds quite a responsible position in the Military Department. In the M. E. Section Steve has come to be synonymous with scholarship, having taken many honors in this field during his short time with us.

MARK WILFORD MAYS  
"Mark"  
Fitzgerald, Georgia  
Textile Engineering  
“Let the whole wide world wiggle, ’cause I’ve got it by the tail.”  
In order that Fitzgerald might soon lead the world in textile manufacture, Mark journeyed to Tech and became a regular lint head. When he is not busy talking Mark is continually daubing paint on fabric designs and dreaming of the days when he will make calico and stamp it with his own trade mark.

FRANK MAYO  
"Venus"  
Atlanta, Georgia  
Engineering Chemistry  
“In spite of all the learned here void, I still my own opinion keep.”  
If experimenting with the unknown will help to fame, Einstein will be Frank’s water-boy some day. We can not guess how he keeps up with his work so well for his desk is but a pile of unheard of compounds which are of the offensive odor type. Frank believes in a gentle art of warfare for there is no doubt that the enemy will evacuate to save his nose.

MARK WILFORD MAYS  
"Mark"  
Fitzgerald, Georgia  
Textile Engineering  
“Let the whole wide world wiggle, ’cause I’ve got it by the tail.”  
In order that Fitzgerald might soon lead the world in textile manufacture, Mark journeyed to Tech and became a regular lint head. When he is not busy talking Mark is continually daubing paint on fabric designs and dreaming of the days when he will make calico and stamp it with his own trade mark.
THOMAS BENSON McBRAYER, Δ Σ Φ

Mac

Anderson, South Carolina
Mechanical Engineering

"I dare do all that becomes a man; who dares do more is none."

No one will ever forget Tom's South Carolina drawl or his good-natured sarcasm. When not fighting an X. E. report he can be found taking it out on some member of the boxing team. "Mac" has already made a name for himself in the mechanical engineering field, having reconditioned a second-hand Briscoe. We dare not predict what the future will make of him.

Boxing Team (3); Technique (4); A. S. M. E.

JAMES EMORY McCOOK, JR., K A

"Mike"

Little Rock, Arkansas
Civil Engineering

"Knowledge is the only fountain of the love and the principles of human liberty."

"Mike" journeyed to the cold regions after completing two years with us. He tried out Massachusetts Tech during his Junior year but returned to us in time to receive his diploma with the classmates that he knew as a freshman. It is known to be a fact that a goodly part of his time has been spent at Agnes Scott. No doubt that is the explanation for his strong dislike of M. I. T.

A. S. C. E.

LAURENCE LOWE McCULLOUGH

Atlanta, Georgia
Evening School of Commerce

"Fall s kev radly to the purpose."

"Mac" has been given to the habit of corraling coins in a penny savings bank since early infancy. True to this childhood aptitude of his, "Mac" has specialized in banking since his graduation from Boys High, accepting a position with the Trust Company of Georgia. He is a quiet chap who speaks with actions rather than words. His favorite sport is tennis and, judging from reports of past opponents, he is an expert.

Commerce Club.

THOMAS JOSEPH MCDONOUGH

"Tom"

Savannah, Georgia
Electrical Engineering

"Knowledge and timber shouldn't be used much until they are seasoned."

In "Tom" we present the "king of the Geechees." He seems to be fond of the Military Department and has devoted much of his time and activities here. He tried a little company football one year but he was spent out of shape by the first spot to tread on, that he had to give it up. "Tom" has been adjutant of the Third Battalion all year.

R. O. T. C. Football (12); Captain, R. O. T. C.; Student and Bands; Savannah Club; A. I. E. E.

Electrical Engineering

"I came not to hear such flattery now, and in my presence."

Frank came to us from the hills of South Carolina. Ever since he has been stepping out in society the ladies have all gone wild over this big, good-looking boy. Our wish is that we may be so placed in later life that we will be able to see something more of "Mark." Here's to your happiness.

Cotillion Club.

CORMAC MURRAY MCGARVEY

"Mac"

Brunswick, Georgia
Architecture

"Never do today what you can put off 'till tomorrow."

The desire for perfect development among the Greeks led them to both intellectual and physical pursuits. "Mac" evidently learned this lesson early and during his college career has kept up such a system of physical training as to have enabled him to participate in several branches of sports. We must not pass "Mac" without making mention of that good nature which he possesses.

Track Squad (4, 3, 2); LaCrosse Team (5); Architectural Society.

CHARLES BURHAM MCGEHEE, Σ Χ

"Mac"

San Antonio, Texas
Civil Engineering

"Life is not so short but there is always time for courtesy."

"Mac," after having spent three fruitful years at the University of Texas, decided to venture farther away from his home town to complete his college education. "Mac" has yet to realize his ambition--"To tame a rattlesnake"--but it is hoped that his future outdoor work in civil engineering will provide the opportunities that our hero has thus far vainly sought.

A. S. C. E.

LUTHER JACKSON McGINTY

"Ma"

Atlanta, Georgia
Textile Engineering

"Labor to keep Wire that little spark of celestial fire,—conscience."

"Ma" is one of the quietest souls that we have ever chanced to meet but of course that is not held against him. Even mindful of his own affairs, he goes along with the times and enforces the solemn rule that we must fit in well in the noisy cotton mills of his future days.

2nd Lieutenant, R. O. T. C.
"A good reputation is more valuable than money."

"Mac" served in the World War before he came to Tech and although he will not talk much about his feats "over there" he sure does handle those words when it comes to lessons. Spanish words are not quite so easy for "Mac" but lately he has learned to jabber them rather profusely.

"A decent boldness ever meets with friends."

"The greatest Roman of them all," "Mac" has entered here for the past four years and we have thoroughly enjoyed his visit. He has found it necessary to leave us on most of the week-ends to sojourn in Rome. We mean to infer by this that he is in love with a hometown girl. He does not smoke, he does not drink—we almost said he has not any weakness, but we are reminded of his "affaires du coeur."

"Let no act be gone at haphazardly, nor otherwise than according to the finished rules that govern its kind." "Silent Cal" has nothing on Joe who is the last word in aloof dignity. His aloofness is justified, however, for he has drunk deep at the well of knowledge and makes up for his reticence in class where he is an all-around "shark." Joe got married a while back, not being able to hold out until June, and now is quieter than ever.
“They that govern most make the least noise.”

M. C. A. Cabtiet (6, 5, 4); Treasurer (21); Secretary (4); Secretary. Athletic Association (5); Gofflin Club.

JAMES LESTER MOORE, K Σ

Atlanta, Georgia

Evening School of Commerce

“Kindness is the first element in the modern hero.”

Moore is engaged in the newspaper business and holds a responsible position with the paper that “Covers Dixie Like the Dew.” James is one of those quiet fellows who accomplish a lot more than they let on about. We understand that he is a proud father and for that reason he is one of our best dressed men and always has a smile for everyone he meets. It is almost success.

PANCHEN MOORE

Atlanta, Georgia

Electrical Engineering

“To look up and not down, to look forward and not back, to look out and not in—and to lead a hand.”

Panchen has threatened the interviewer with individual and collective death if his real nickname appears in the Blue Print. So with due respect to our life it has been omitted. Panchen claims the distinction of being one of the foremost radio bugs of the class. And then to further the cause of Arrow products. John has been a life-saver in the entertainments at the Commerce Club banquets. Delta Sigma Pi; Commerce Club. Treasurer (2), Executive Officer.

Dwight Harold Morgan, B K A

Carrollton, Georgia

Special Textile Engineering

“Nothing can be pleasing which is not also becoming.”

“Shine” has made a fine record since he has been at Tech. He has made a big success in baseball and is very popular on the campus as is proved by the number of activities in which he has engaged and the many honors that he has received. We send him off with the best wishes of all.

HAROLD ROBERT MORRIS

Rockport, Illinois

Electrical Engineering

“Confidence is the first element in the modern hero.”

Harold was born in Kentucky, the land of fast horses and pretty women. And like all natives of the state he has the typical stature and the admirable steadfastness of purpose. Harold has come a long way from home and we have certainly been glad to have him. His three-letter men, as he starts out in the great game of life.

HARRIET PETER MUGGER

Atlanta, Georgia

Electrical Engineering

“A fair exterior is a silent recommendation.”

John is one of our best dressed men and always has a smile for everyone he meets. It is almost success.

EDWARD GORDON NABELL, JR.

East Point, Georgia

Civil Engineering

“Holiness in great souls must not go unwatched.”

Newman proudly claims the distinction of occupying this ambitious junior seat and justly has it a right to be proud of him. “Shine” prepared at Tech High and Moore at Tech, Harold, with the典型 stature and the admirable steadfastness of purpose.

R. D. MURPHY

Louisville, Georgia

Electrical Engineering

“Shine” has made a fine record since he has been at Tech. He has made a big success in baseball and is very popular on the campus as is proved by the number of activities in which he has engaged and the many honors that he has received. We send him off with the best wishes of all.

PHIL BLASIER NARMORE, B B H

"Phil"

Arcadia, California
Co-operative Engineering

"If you would have things come your way, go after them."

Phil's presidency of the Cosmopolitan Club this year was only a natural event, he having been born in Mobile, Alabama, prepped in California while supering in Atlanta. However, his election to the Business Manager's position of this annual came only after conscientious yet ceaseless work on his part. A more capable manager could not have been given the reins than Phil. A more capable manager could not have been given the reins than Phil.

John D. Nash

Stone Mountain, Georgia
Civil Engineering

"So nigh is grandeur to our dust, so near is God to men."

This elongated, good-humored commuter from Stone Mountain is versatile to the highest degree. Among other things he manages to divide his time designing bridges, superintending a Sunday school and following his wit and good humor are enjoyed when the time comes to lay aside more serious thoughts.

FRANK NEWTON, Σ X

Macon, Georgia
Electrical Engineering

"Frank"

"To be a well-favored man is the gift of fortune."

Frank does not boast of a nickname but why should he when everyone in E. C. and C. O. D. knows that he has a nickname? Now his nickname doesn't mean anything to him and he thinks that it is a laugh at his expense. In the class room his word is respected just as much as it is on the playing field.

BENJAMIN JOHN NORTHROP, II A A

"Shake"

St. Petersburg, Florida
Engineering Chemistry

"Give every man thine ear, but few thy voice. Take each man's counsels, but reserve thy judgment."

It has been whispered that "Shake" was such a wild character while in the Navy that Uncle Sam sent him to Tech to be disciplined. We are afraid, however, that there was a mistake somewhere—at least he has tamed the feminine taste, Palmolive wouldn't rate honorable mention. Back off, ladies, he already has her picture.

WILBUR DAWSON OWENS, 0 X

"Kid"

Pensacola, Florida
Electrical Engineering

"In such a scrawl the wisest may be perplexed and the boldest staggered."

From the sun-kissed shores of Florida came this doable young man and with comparatively ease he has won a place in the hearts of all those with whom he has been associated. He came to Tech to work and to profit.

PATRICK CLIFFORD O'NEILL, Φ Σ K

"Pat"

Alexandria, Louisiana
Electrical Engineering

"Nothing great was ever achieved without enthusiasm."

"Dishman" seems to have the great growth of brush in that skin you love to touch and with a Mar-

field Parish line so thin it can't be seen. It's difficult to say which of these two assets have made his stock rise so mightily. but, if we'd venture a question to the feminine taste, Palmolive wouldn't rate honorable mention. Much stuff off looking, he already has her picture.

WILLIAM DAWSON OWENS, 0 X

"Kid"

Auburn, Georgia
Commerce

"Breast is the soul of milk."

Walter Dawson Owens, pleasant king and fireproof magician, has made an enviable record for himself since leaving the sheltering folds of his paternal home in the Boston, Georgia, vicinity. Many changes have taken place in his making. From one of the grandest freshmen he has advanced to the stage of lady guillotiner. Ben plans to build up the state of Florida after he graduates and has taken his first step in this direction by moving to Lakeland.
BEN ROBERT PADGETT, JR., "Ben"
Atlanta, Georgia
Commerce

"I have not slept one wink."
The many advantages of the Commerce course were never realized or utilized until Ben began seeking his B.S. Ben's four-year vacation has been one of the most peaceful and undisturbed in Tech history. He has a good nature and never lets anything wipe the smile off his face. Ben can talk the tires off of an automobile and will make some business firm a good salesman.

Technique 421: Yellow Jacket 13, 21: Blue Print (41: 2nd Lieutenant, R. O. T. C.; Alpha Kappa Psi; DeMolay Club; Aero Club.

JOE PALMISANO, "Palm"
West Point, Georgia
Special Textile Engineering

"Constant and steady endeavor will receive its reward."
Immediately upon entering Tech in 1922, "Palm" donned a catcher's togs and stood ready and waiting for the swiftest that the pitchers had to offer. He has been a constant mainstay of Coach Clay's teams for four years and his home runs have been the feature of many games. His consistent efforts were rewarded by his election to captain the '25 team in his last year.

Baseball 44, 3, 2, 1; Captain: Cotillion Club; "T" Club; Inter-Fraternity Council 144.

GEORGE THOMAS PAPAGEORGE
Atlanta, Georgia
Civil Engineering

"Things true and evident must of necessity be recognized by those who would contradict them."
George is living proof of the well-known adage, "You can never tell what a man can do until he tries." He got off to a good start some twenty years ago at Constantinople. Here at Tech, he has always stood out in his classrooms and has also taken an active part as secretary, in the Cosmopolitan Club, doing his part in making the Club's activities of interest to those comprising its membership.

Cosmopolitan Club, Secretary 141; A. S. C. E.

HENDRICK CALVIN PATRICK
"Pat"
Athens, Georgia
Commerce

"No one should be judged in his own cause."
"Pat" is a fine fellow and we all like him. After subduing the Germans he came to Tech and has been trying to do the same with studies. He must have succeeded as he graduates in the regular time. Hendrick has many offers from business firms but has decided to start a cat farm and has offered a position to Dr. Ward to be his advertising manager. Don't push, please!

HENDRICK EARL PEPPER, "Rookie"
Belzoni, Mississippi
Civil Engineering

"Let me live by the side of the road and be a friend to man."
If sleep constituted an engineer's college course, "Rookie" would have graduated from Tech while still in prep school. His one great ambition has been to prove to the world that he does know Qualitative, even though none of the Profs believe it. and now he delights in telling of the "Used-to-be's" when Chemistry deprived a promising Civil of many precious hours of good, old-fashioned sleep.

Technique 421- Yellow Jacket 111- 1st Lieutenant, R. O. T. C.; Civil Crew; Mississippi Club.

HENRY HARVIE PERKINS
"Cy"
Lumpkin, Georgia
Civil Engineering

"There are some things which men confess with ease, and others with difficulty."
"Cy" never says Lumpkin, his home town, in a very loud voice, because it is so small a place as to crowd things a bit when two Romans go to see them. He should be successful back home if his reputation at Tech is any criterion. "Cy" is a charter member of the first Literary Society to form at Tech and has also blazed the trail in Tech Bible class work of the "Y" cabinet.

R. O. T. C. Football 121; Matheson Literary Society; Mu Lambda Sigma; Honor Roll (3); Y. M. C. A. Cabinet (4); A. S. C. E.
EDWARD WILLYS PERRY

"Eddie"
Atlanta, Georgia
Evening School of Commerce

"It is worth a thousand pounds a year to have the habit of looking on the bright side of things."

Ralph is one of the best liked fellows in school, due to his charming personality and rare generosity of spirit. He graduated from Boys High School and entered to Emory University to carry on his school training. After four years of hard work he came to the end of the road as one of the honor men of his class with the degree of LL.B. in his rearview mirror. He became an Evening School student and has proven to be one of the honor men of his class with the degree of LL.B. in his rearview mirror. He has worked steadily with the evening school and has proven to be one of the honor men of his class with the degree of LL.B. in his rearview mirror.

RALPH HOLLIDAY PHARR.

"Judge"
Atlanta, Georgia
Evening School of Commerce

"Nothing is strong as gentleness, nothing so gentle as real strength."

Gwyn possesses a nickname all his own; one never to be forgotten. We called him Edgar Allen Poe until we found a better name. He has worked steadily with the evening school and has proven to be one of the honor men of his class with the degree of LL.B. in his rearview mirror. He has worked steadily with the evening school and has proven to be one of the honor men of his class with the degree of LL.B. in his rearview mirror.

JOHN HAMMOND PETERS

"Geecher"
Leesburg, Florida
Civil Engineering

"Difficulties are things that show what men are."

WILLIAM FLOYD POOLE
"Monk"
Winder, Georgia
Mechanical Engineering
"Labor conquers all things."
"W. F. Poole (twenty 1897), cousin engine after years of experimental work will probably be an announcement in the engineering journals of the future if this young genius continues on his present pathway. He is another one of the boys who never talks except when called upon and then always knows his stuff so well that the instructors can not conscientiously give him less than 95% a grade.

WILLIAM RALPH POTTS
"Major"
Commerce, Georgia
Electrical Engineering
"A cheerful disposition is a fund of real capital..."
"Major Ralph" was sent to us from Commerce, Georgia, but failed to take Commerce at Tech, a step he has never ceased to regret. Ralph is always willing and able to help his more unfortunate mates. His ambition is "To be a good fellow" and if we are allowed our say—so in the verdict, it is being realized every day.
Freshman Baseball; R. O. T. C. Football (2, 1); A. I. E. E.

MATTHEW MAURY PREWITT, EX
"Cap"
Atlanta, Georgia
Civil Engineering
"The appearance of things to the mind is the standard of every action to man."
Although "Cap" spent one year at V. P. L., he wisely decided upon Tech as his Alma Mater. Maury, having served in the capacity of a pedagogue during summer months, has often proven his intellectual ability as he has the faculty of saying something whenever he speaks. "Cap" has his military inclinations, too, having displayed his ability on the parade grounds on frequent occasions. Honor Roll (2); 1st Lieutenant, R. O. T. C.; Scabbard and Blade.

GORDON PRICE
"Pluto"
Atlanta, Georgia
Electrical Engineering
"Everything comes to him who waits, so why worry."
"Pluto's" personality is a carefree one, indeed. His pet hobby is sleeping, awakening to eat and then sleeping some more. He will admit that himself. Naturally he is slowly increasing in size; one would never know he is the same Gordon Price that enrolled as a freshman back in the fall of 1921. "Pluto's" Ford counteracts his quiet nature but the two together have drawn him close to all he meets.
A. I. E. E.

ELGIN RAMSAUR, PT A
"Zip"
Macon, Georgia
Electrical Engineering
"A liberty to that only which is good, just, and honest."
"Zip" has had to suffer the consequences for four years of an error that he made upon entering our institution—he was misled into believing that Electrical Engineering would be to his liking. He was not long in realizing his mistake but had enough spunk in him to realize his error through to the finish. "Zip's" ideas are original and are a sure cure for the blues. Try him out any time.

EDWARD L. REESE
"Burr" "Cap"
Ducktown, Tennessee
Electrical Engineering
"Let us only trust and do our best, and wear a smiling face."
We are proud of "Cap" Reese. Though not exactly a "shark" at shooting the Profs, it is apparent he has absorbed one fundamental (with apologies to Prof. Sidell) prerequisite to success—"Aim high." His ambition will affirm this absorption.—To catch that "unit pole" and calibrate the X. E. Department. Our only hope is that we will be on hand when he does succeed in this.
Square and Compass.

CLIFFORD JAMES ROBERTS
"Chif"
Savannah, Georgia
Civil Engineering
"Let us have faith that right makes might; and in that faith let us dare to do our duty as we understand it."
Being from Savannah, "Chif's" early days at Tech were handicapped, for there were so many outstanding men from that city, it seemed to him an impossibility to ever make a comparable record for himself. In spite of this and Ex. E., he has succeeded in exceeding many and is graduating. His affiliation with Bible Class, Y. M. C. A. and Literary Society work has proven an inspiration to the younger members of these organizations.
Phi Kappa Phi; Tau Beta Pi; Mu Lambda Sigma; Matheson Literary Society. President (3); Honor Roll; Student Supply; Friendship Council (2, 1); Civil Crew; A. S. C. E.; Savannah Club.
"Dutch is our man and we hate to see him leave."

The genial personality of Curry has made him a fast friend of the entire Co-operative student body where he has made many acquaintances. His academic record has been irreproachable. "Rosy" is one of these Louisiana boys who cannot seem to keep his mind on his work, much to the despair of his beloved professors. He will soon return to the "City of the Swamps" to another semester of what is doubtless one of the tenderest occupations of any boy—sitting on his feet.

William Anthony Rooks, Jr.  "W. A."  Savannah, Georgia  Electrical Engineering

"Do your duty and do it well—what more can anyone do?"

"W. A." got off to a bad start, fate decreeing that he should go through the entire Georgia, and was given his name because he was born in Massachusetts. His academic record has been quite bad; but wherever he is he endeavors to satisfy his conscience. Golf Club (3, 2); Student Council, Secretary (4); Civil Crew, Secretary-Treasurer (4), Varsity Baseball (1); A & C E.

Robert Beverly Habersham Rockwell  "B. B. H."  "Rocky"  Savannah, Georgia  Electrical Engineering

"You may relish him more in the soldier than in the scholar."

Bob has been one of the chief worries of the Rube. Editor all year for we were fearing that we would never be able to include his full name across the allotted width of one page. But he has proven a greater worry to his opponents in Battalion football for the past four years. His ability is voiced in his election to the captain's chair of two of the four teams on which he has played.

Warren Goodson Rogers  "Dutch"  Atlanta, Georgia  Electrical Engineering

"We can live without love; what's love but repining? But where is the man who can live without display?"

Without a sign of shame. Warren admitted that he prepared in Brooklyn. New York, and was given his nickname because he was born in Massachusetts. His academic record has been quite bad; but wherever he is he endeavors to satisfy his conscience.

illion Club; Secretary, Charrette Club; Architectural
society.

FRANK KEHAU SHAW
"Shimme" "Dink"
Atlanta, Georgia
Electrical Engineering

"Questioning is not the mode of conversation
among gentlemen."

We learn that Frank led to be content with Butler.
Indiana, as his birthplace. Just how long he stuck
it out in that cold region we are unable to say, but
he gives Tech High School in Atlanta as his preparatory
training post for entering Tech. "Shimme" was the
Southerner and we would venture to say that he will not be
very far from his Alma Mater when he takes up
his profession. He has been in school many hearts have been broken by him. He
is usually called the "Carnival Boy" because the girls all
know him and like him and no one has been called the
most popular and one of the leaders of the Senior Class.

CLARENCE WILLIAM SERRING
"Clarence"
Atlanta, Georgia
Evening School of Commerce
"Count that day lost whose low descending sun,
Fails from your hand an worthy action door."

Here we have one of those "Show Me" state products for Clarence first opened his presence in Brookfield, Mis-
souri. We are led to wonder if it was the need of a
mighty climax that drew him away from the prairie
country of his native born or whether it was done as
a means of saying himself that there would be no
path for him.

Lee Moultrie Sonmons, Σ A E
"Lovis" Lee

Clyde Curtis Sowards
Electrical Engineering

"He that wrestles with us strengthens our nerves and sharpens our skill."

We do not accuse Clyde of trying to get "suction" when he said West Virginia was his home state, even though Professor Fitzgerald was near by. It worried the boys at camp considerably last summer when Clyde would not go to New York for the week-end with the rest of the class. Clyde yet refused to disclose his name.

Captain, R. O. T. C.

WILLIAM FRANCIS SPEARING, JR., A. E.

"Riff"

Atlanta, Georgia

Textile Engineering

"He who knoweth more than I, I envy. He who knoweth less, I pity."

Marvin College sent us this handsome young "Arrow of New York City. Among the best men of the class probably no other man knows the type as well as he. "DIFF" specially seems to be visiting the girls and well does he deserve the name of "kker's delight." Although very athletic by nature, Will has never gone out for any sports except golf. Last year he won the Golf Championship of Tech.

Eugene L. Fryer

Civil Engineering

"So we build up the being that we are."

As we begin our spiel on "Don," we wish that a whole class more was granted us, for it could be faultlessly filled with stories of the Harvard man. "Don" is a man of the Textile Department. "Sib" came to Tech from Milledgeville where he prepped at G. M. C. While here he has proven himself to be a really bright fellow in the Co-operative class as well as a good fellow and a pronounced delight to the "college battles at Tech."

John Deane Sparks

Business Administration

"Do"

Atlanta, Georgia

Evening School of Commerce

"In the fell clutches of circumstance, I have not yielded or cried aloud, under the smothering influence of chance, my head is bloody but unbowed."

As we begin our spiel on "Chic" we wish that a whole class more was granted us, for it could be faultlessly filled with stories of this year's "scoreboard". "Chic" is a bit of harmony in the Architectural Department. The baseball team is going to lose a slugger and a hard worker when "Chic" walks up and demands his club. As we begin our spiel on "Chic" we wish that a whole class more was granted us, for it could be faultlessly filled with stories of this year's "scoreboard". "Chic" is a bit of harmony in the Architectural Department. The baseball team is going to lose a slugger and a hard worker when "Chic" walks up and demands his club.

Volf Tenzel
Odessa, Russia
Co-operative Engineering

"He true to your word, your work, and your friends."

Very few ever come to Tech without any knowledge of English as did Volf. Due to this he did not have time for campus activities but turned his attention to his studies. He succeeded in the end and completed the five-year Co-operative course in four years, and won the highest scholastic honor Tech could give.

Wesley Wentworth Thompson
Augusta, Georgia
Electrical Engineering

"Do not love your enemies: have no enemies to hate."

"Speck," the boy who is famous for his jokes! No matter what you fire at him he always has a comeback and is able to tell you what Pat or Mike said under the same circumstances.

Charles Bowie Transou
Atlanta, Georgia
Automotive Engineering

"A handful of common sense is worth a bushel of learning."

Here we have another of the home town products. After emerging from Tech High School he notified Mr. Caldwell that he would drop around in September and to look the institution over. He has seen things rather thoroughly on the campus and his work in the class-room is such excellent political material we fear politics will get him eventually.

Ernest Floyd Tenzer
Atlanta, Georgia
Evening School of Commerce

"Life is a quarry out of which we are to mould, chisel and complete a character."

"Bud" is a World War veteran of the British and United States Naval forces. His first home was at Odessa, South Carolina, where he entered at the Clinton High School. During his sojourn at that institution he made the baseball and basketball teams. "Bud" is very expressive for he sells "Ole Hoss" shipments of the Delta Sigma Pi; Commerce Club.

Nathaniel Tenzer
Macon, Georgia
Textile Engineering

"Troy was not taken in a day."

"Bud" fancied that he had been around the Tech flats long enough so he has gone about his work all year with the determination to finish things up and get started in that textile mill of his. His enterprising ways have kept him busy in the new Tech Cafeteria each noon. R. O. T. C. Football (3, 2); Freshman Swimming;

William Homer Tenzer
Atlanta, Georgia
Mechanical Engineering

"To thine own self be true; thou canst not then be false to any man."

"Bud" is an example of the little men playing the big battle. He has certainly come to the front and to-day we find him one of the busiest and most active men of the class. "Bud" has the hunch of rubbing shoulders with the Pros and seems to be able to make them do wonders for him. He is studying M. E., but he is such excellent political material we fear politics will get him eventually.

John Launcelot Underwood, Jr.
B E T
Buckely, Georgia
Electrical Engineering

"The cautious seldom err."

There must be a thorough course given in horn tooting given at Lassiter Grove Institute for, in sending us "Johnny," Tech received a most finished and versatile freshman. "Johnny" and his tribe have kept him busy. He is a student in the R. O. T. C. and he should be heard from before long.

Nathanial Tenzer
Atlanta, Georgia
Evening School of Commerce

"What shall I do to be forever known, And make the aye to come my own?"

"Bud" has traveled quite extensively between Oxford, New York, and Lakeland, Fla., and maintains after noon classes. R. O. T. C. Football (3, 2); Freshman Swimming; Heiser Roll (1).

"What shall I do to be forever known, And make the aye to come my own?"

"Bud" has traveled quite extensively between Oxford, New York, and Lakeland, Fla., and maintains after noon classes. R. O. T. C. Football (3, 2); Freshman Swimming; Heiser Roll (1).
JOSEPH ALEXANDER USRY, 6 X

"Baby Joe"
Thompson, Georgia
Mechanical Engineering

"A clear conscience is a sure card."

"Baby Joe," in coming to Georgia Tech in search of a technical training, took a chance at allowing those wonderful oratorical powers with which he is gifted, to go undeveloped. He has accomplished great things with his ability to argue and, best of all, to convince. "Baby Joe" has been a faithful and steady worker on the football squad since he first put foot on our campus, some five years ago.

Freshman Football; Scrub Football (2); Varsity Football (5, 4, 3); Free Body Club; "T" Club; A. S. M. E.

WILLIAM CALVIN VANCE

"Cal"
Benton, Louisiana
Mechanical Engineering

"There is not a moment without some duty."

"Cal" intended to go to L. S. U., but the calls of real city life were too strong for him and he journeyed to Tech where the natural resources are without question. He is another example of what constant plugging and consistent application will do for a man who is really in earnest about getting an education. He has acquired many close friends in his four years at Tech with his ever ready desire to do the other man a good turn.

Technique (4, 3, 2, 1); A. S. M. E.

JAMES M. WALDROP

"Walldrop"
Alexander, North Carolina
Commerce

"The power of thought—the magic of the mind."

James, although he is no relative to Jesse James, could probably tell you many tales about this noted desperado. Before the war he planned to attend Tusculum College and by the time he finishes this, his fourth, year at Tech, he should be able to more than cope with his fellow "Jewish Engineers."

HAINES KENT WALKER

"Kent"
Whitney, Florida
Electrical Engineering

"Time to the world the best you have and the best will come back to you."

This tall quiet youth insists that he was born in Pennsylvania. This is somewhat difficult to believe after hearing him use that famous southern drawl these past four years to perfection. Kent is a signal corps shark and, we fear, is going to miss his calling if he does not place as an electrical engineer with Uncle Sam.

Emerson Chemical Society.

JOHN POWELL WARD

"Johnny"
Cordele, Georgia
Civil Engineering

"Life gives to you only what you give to life."

He has other sobriquets but we thought it best to use "Johnny." Manifoldly blessed by nature's hand, "Johnny" makes light of the gifts lavished upon him and prefers to trip merrily along without a care. He has tried everything at least once, even designing, and in some things holds the endurance record. If "Johnny" ever does get ambitious there is no limit to the heights he will scale.

R. O. T. C. Football (2); Honor Roll (3, 1); 1st Lieutenant, R. O. T. C.; A. S. C. E.
RUSSELL EUGENE WATERS
"Rusty"
Fort Valley, Georgia
Commerce

"Get all you can and what you get hold."
If Fort Valley needs commercial graduates Tech needs
her men to teach. especially if they are like –Rusty.
His interest in basketball has been of great aid to the
teams each year for strange to say business principles
can be applied here as well as in marketing peaches.
We believe Rusty will be even more successful in life
than he was in his college activities.
Manager: Basketball (3); 1st Lieutenant, R. O. T. C.

WALTER FULMER WELLS, I T 3
"H. G."
Newberry, South Carolina
Architecture

"Obey; be loyal: do your work and do it well."
Fulmer is a quiet and unobtrusive lad and keeps
straight in the path of his own business. He is a boy
with never a minute to waste. He has won quite an
enviable reputation with the Marionettes and his work
in the Architectural Department has been of equal merit.
He will leave his mark in the world. Ask those who
know him!
Marionettes 14. 3. 2. 11, Secretary (4. 3. 2. 11):
Tech-technique (4, 3. 2); Electrical
131: Blue Print 131: Architectural Society.

AUGUST FREDERICK WERNER
"Gus-	"Wiener"
Washington, D. C.
Electrical Engineering

"There is not wealth like unto knowledge."
This veteran of the war came to Tech to learn and he
succeeded, by putting all his enthusiasm into his studies.
The unknown fields of electricity he believed needed
another pioneer to widen the horizon of knowledge. We
hope the future unfolds as well as is indicated by the
mark he has made in that study while here.
Phi Kappa Phi: Scholarship "T"; Honor Roll (3, 2).

JOHN PINSON WHEALLER
"Pete"
Alto, Georgia
Electrical Engineering

"The manly thing is to do with might and
main. what you can do."
"Pete" has applied himself during the past four years
unceasingly to the subject and given up many of the
opportunities presented by campus activities. The satis-
faction which comes from having done one's work
well is worth while and if anyone has attained that
certainly J. Pinson must be among the number. We are
glad to announce Westinghouse will soon be "Shorted"
by another W in the field.
R. O. T. C. Football (11;
Technique (3, 2); Assistant
Circulation Manager I 41; Pi Delta Epsilon.

GEORGE HENRY WHEATON, K A
"George"
Griffin, Georgia
Mechanical Engineering

"Do right and fear no man;
Don't write and fear no woman."
We congratulate "Squire" on his accomplishing the
impossible. He stands in a class all by himself for
he has not fallen for a single one of these Atlanta
femmes. And he is not in love with any of those
famous Griffinettes back home as far as we are
able to find out. He has worked hard through four regular
sessions and two summer schools to get his B. S. degree
but, now that he has it, he stands ready to tell the
world that it was worth it.
Oil Can; A. S. M. E.

AUGUST HAWKINS WHITE,
"Gene"
LaGrange, Georgia
Special Textile Engineering

"A big heart, always wishing to do right and
to be friends with everybody."
"Gene" has slowly been chewing on a piece of
string all his life. When he finished LaGrange High
School he decided to take Textile Engineering at Tech
and use that string. He has woven many pieces of cloth
but most of all he has woven into his life sincerity.
Kappa Kappa Psi; Skull and Key.

JOHN DANIEL WHITE,
"Dan"	 "Uncle Bim"
Tifton, Georgia
Electrical Engineering

"sentimentally and organically I am disposed
 to harmony."
"Uncle Bim" came to us from Tifton High School
where he was as popular as he is with his classmates
at Tech today. "Dan" is a hard worker, which is
evidenced when he jumps on an E. E. problem. But
"Bim" is always seen working hardest when he is
blowing his trombone for "Wop" Roman and his band
for the Glee Club Orchestra.
Band 14. 3. 2, 11; Glee Club Orchestra (4. 3, 2. 11):
Captain; R. O. T. C.; Scabbard and Blade; Kappa Kappa
Psi; Cotillion Club.

ALLAN C. WHITEHEAD
"White"
Atlanta, Georgia
Evening School of Commerce

"A prince can make a belted knight, a mar-
quis, a duke, and of that,"
"White" is in a shocking business for his specialty is
electricity. He comes from that antique town of
Athens, Georgia. After having done some work
well he is worth while and if anyone has attained that
certainly A. White must be among the number. We are
pleased to announce Whitehead will soon be "Shorted"
by another W in the field.
Pi Delta Epsilon; Skull and Key.
CARL RAYMOND WHYTE, X Ψ
"Barry"
Bossier, Texas
Electrical Engineering

"I scorn to flit on the wings of borrowed wit."
Carl's list of residences and schools reads like an atlas. He finally landed at Tech, however, back in 1920, and proceeded to startle the publication world with his genius. Carl is the Glee Club's "letter" man this year, handling its correspondence and business.

He has for an ambition: "To invent an automobile with an automatic note retirer and put Henry Ford out of business."

Yellow Jacket (5, 4, 3, 2), Editor-in-chief (5, 4); Blue Print (5, 4); Technical (3, 2); Pi Delta Epsilon (3); Glee Club (5, 4, 3), Business Manager (4), Publicity Manager (3)

GERALD ERASMUS WILCOX
"Jerry"
Fitzgerald, Georgia
Civil Engineering

"The greatest of faults is to be conscious of none."
While he does not go around advertising it, "Jerry" knows as much about his work as the next one (including the fact that answer books in Hydraulics are not available). An eccentric fellow with a temperament, "Jerry" is a thoroughbred in the full sense of the word and one whom to know is to like. He is a Civil Engineer of unlimited possibility and will some day make a certain little girl in Fitzgerald very proud of him.

Boxing Team (3, 2); R. 0. T. C. Football (2, 1); Civil Crew: A. S. C. E.

JOHN GRANT WILKINS, JR., Ζ Φ Ε
"Jack"
Atlanta, Georgia
Electrical Engineering

"The hand that has made you fair made you good."
"Jack" is distinctly an Atlanta product, having been a resident of the city for twenty-one years. He started out on his electrical career at Tech High where the fundamentals were mastered. "Jack" has had to do a healthy amount of plugging to get that diploma. But after all is said and done, it was worth it, eh? "Jack"?

DeMolay Club.

CHESTER FREDERICK WILSON, Σ Χ
"Chet"
Brewton, Alabama
Textile Engineering

"An open countenance often conceals close thoughts."
"Chet" owes his start and practically everything else he has to Brewton, Alabama. He came to Tech after a year at Auburn and entered the Textile Engineering Department as a more or less unknown quantity. He believes in advertising his profession for the clothes he wears are always the very latest out.
LAWRENCE WILLIAM WITTIG
"Wit"
Atlanta, Georgia
Evening School of Commerce
"Give me liberty or give me death."
As "Wit" hails from the smoky city of Pittsburg, Pa., his other nickname of "Smoky" is very appropriate. Just what "Wit" was mixed up in after he was recipient of a diploma from the Horace Mann High School of Pittsburg, very few know. It is said by some that when the call to arms was made during the War, he was among the first to answer. "Wit" has a job with a lot of ups and downs to it for he is in the elevator business.

HARRY FRANTZ WOOD
"Harry"
Dalton, Georgia
Commerce
"He makes a solitude, and calls it—peace."
Harry has made a number of friends at Tech and seems to be known all over Atlanta as well. Among the honors that Harry has received at Tech may be included his membership in Bill Ward's "T" Club which consists of outstanding Commerce men who are selected by the faculty.

JAMES ARTHUR WOOD
"Pee Wee"
James, Georgia
Electrical Engineering
"He lives to build not to boast. A good deed in a naughty world."
When "Pee Wee" graduates from Tech there will be seen another example of the quiet toiler who has pushed his way across the paths of stern professors. If a man were judged by size our friend would hardly be noticed but ability is the measure of a Tech man. "Pee Wee" is rated high, electrically speaking, and has copped his share of scholastic honors. We know we can count on him to come through and make good.

JOHN PYLE WOODALL, "Allwood"
Woodland, Georgia
Mechanical Engineering
"The cautious seldom err."
We never knew that Johnny was possessed of any baseball ability until the Coast Artillery training camp drew us to Pensacola last summer, where "Allwood" pulled down the second baseman's position on the Battery ball team. The professional manner in which he handled himself led some to wonder why he had never displayed any of his talent in Tech ball. He has stepped out wonderfully since reaching our domains four long years ago.

E. O. T. C. Football (1); R. O. T. C. Basketball (1); Captain, E. O. T. C.; Phi Kappa Phi; Tau Beta Pi; Scabbard and Blade; Oil Can Club; A. E. M. E.; Honor Roll (2).
"Better to have loved and lost than nothing to have loved."

Don has kept in close touch with Jackson during his stay at Tech. When not at Jackson he is usually found out Peachtree Street, absorbing knowledge that is not taught in books. This is a simple worker and through his untiring efforts, his success in university and technical work is assured.

"Ray" took to calling Atlanta his home only after his high school days had been completed. He was formerly an Opelika, Alabama, product and did his prepping at H stool. His policy at Tech has been business first. He has proven to the forgetful student that diligence and regularity in school work is the best preparation for a career. His high grades throughout the entire length of his college days have been a source of satisfaction and a touch of intelligence that will get him by anywhere.

"Mark" is one of these fellows who believes absolutely in Nature and never rendezvous as of others. His policy at Tech has been to study and have pleasure afterwards. He has proven to the forgetful that diligence and regularity in school work is the best preparation for a career. His high grades throughout the entire length of his college days have been a source of satisfaction and a touch of intelligence that will get him by anywhere.

Due largely as a result of these courts the class soon became imbued with that undefinable something known as school spirit, and to realize that perhaps it was not quite so important as had been originally believed, but only through toil and ordeal could it become of benefit to Tech.

For various reasons the class was materially depleted as it entered the second year of its career. Though diminished in numbers, the men who returned had increasing spirit and determination to finish Tech, and to give to Tech everything in their power. With Fred Saunders again at 'the helm as President; Pup McWhorter, Vice-President, and Walt Godwin, Secretary, and under these men's able direction the class began planning how it could best carry on. The freshman football team, of which Red Davis, Pup McWhorter, Frank Harris and Six Carpenter were the stars, made a good record; the basketball quintet, whose shining lights were John Menachum, Captain, Halley Martin, and Parrish, also finished with an excellent record; the baseball nine and the track squad displayed several prospective stars for future Tech teams. Others of the class turned their hand to Journalism, to the Glee Club, the Marionettes, the Yellow Jacket—in fact to every activity known at Tech. And, incidentally, everyone discovered the not altogether original fact that to remain at Tech it is necessary to use freely the oil of midnight. To record everything of note that occurred would be asking too much of any one man, but it would be most irregular to omit from these annals mention of the Lyric Theatre Party. Who in the class but recalls the "ovalion" which the struggling actors received on that joyous occasion, or the roof-lifting yells let loose in that decorous old theatre? And so we pass on to the second year of the class of '25.

Every organization must have recognized leaders. Realizing this fact the class elected Fred Saunders as President; Pup McWhorter, Vice-President, and Walt Godwin, Secretary, and under these men's able direction the class began planning how it could best carry on. The freshman football team, of which Red Davis, Pup McWhorter, Frank Harris and Six Carpenter were the stars, made a good record; the basketball quintet, whose shining lights were John Menachum, Captain, Halley Martin, and Parrish, also finished with an excellent record; the baseball nine and the track squad displayed several prospective stars for future Tech teams. Others of the class turned their hand to Journalism, to the Glee Club, the Marionettes, the Yellow Jacket—in fact to every activity known at Tech. And, incidentally, everyone discovered the not altogether original fact that to remain at Tech it is necessary to use freely the oil of midnight. To record everything of note that occurred would be asking too much of any one man, but it would be most irregular to omit from these annals mention of the Lyric Theatre Party. "Better to have loved and lost than nothing to have loved."

Don has kept in close touch with Jackson during his stay at Tech. When not at Jackson he is usually found out Peachtree Street, absorbing knowledge that is not taught in books. This is a simple worker and through his untiring efforts, his success in university and technical work is assured.

"Ray" took to calling Atlanta his home only after his high school days had been completed. He was formerly an Opelika, Alabama, product and did his prepping at H stool. His policy at Tech has been business first. He has proven to the forgetful student that diligence and regularity in school work is the best preparation for a career. His high grades throughout the entire length of his college days have been a source of satisfaction and a touch of intelligence that will get him by anywhere.

"Mark" is one of these fellows who believes absolutely in Nature and never rendezvous as of others. His policy at Tech has been to study and have pleasure afterwards. He has proven to the forgetful that diligence and regularity in school work is the best preparation for a career. His high grades throughout the entire length of his college days have been a source of satisfaction and a touch of intelligence that will get him by anywhere.

Due largely as a result of these courts the class soon became imbued with that undefinable something known as school spirit, and to realize that perhaps it was not quite so important as had been originally believed, but only through toil and ordeal could it become of benefit to Tech.
their correct position. And so we passed the second lap on the road to knowledge, with a lessened sense of our importance as the year grew shorter, and a deeper feeling of loyalty and love to Tech.

In September, 1924, returned a still smaller number of the class, with words of greetings to their friends, a check for their tuition, and a firm resolve to earn, by honest toil, a sheepskin from this institution, now that the first two years had been successfully completed, and Chemistry and Calculus passed.

The leaders selected to pilot the Junior class of '25 were Tom Blackman, President; Bip Farnsworth, who had been bequeathed to us from the class of '24, as Vice-President, and Lawson Johnson, Secretary and Treasurer. And so we journeyed onward, wondering who was responsible for the statement that the first two years were the hardest, and with the sweet knowledge of becoming in the near future the most revered of college men—Seniors. Gone was the happy ignorance of the Freshman; gone was the inflated sense of importance of the Sophomore; in their place the earnest, steadfast purpose of the Junior, with a deeper sense of responsibilities of the college man, who should by right be a leader among men.

As usual, our class was well represented in all of the activities, and on their shoulders fell much of the responsibility of keeping Tech in her rightful place as a leader in everything. It would be unpardonable to omit from this chronicle the Junior Banquet. Up to the Junior year, for various reasons, we had never held a class banquet. Realizing that this condition could not exist unless the class of '25 suffer dire criticism, we resolved to stage a class banquet of outstanding scintillation. And that is exactly what transpired. With over two hundred members present, an abundance of food and a wealth of good speeches, that banquet was one that will not be soon forgotten.

And now we come to the final stage of our career. Some four hundred Seniors assembled with confidence in the future and at once assumed their rightful place as leaders of the school. As class officers we find again Tom Blackman President, aided by Herbert Hutton, Vice-President; Hugh Sussay, Secretary, and Lee Sessions, Treasurer. As leaders in activities we find George Gardner, Captain of the Football Team; Fred Moore, another legacy from the class of '24, Captain of the Basketball Team; Joe Palaniman, Captain of the Baseball aggregation; Varsity Johnson, pilot of the Track Squad; Hollingsworth, Swimming Captain, and Winkie Jackson, Tennis Captain. In the literary field are Herbert Hutton, Editor of the Technique; Abston Bushy, Commander-in-Chief of the Blue Print; Carl Whyte, Editor of the Yellow Jacket. Frazier Law, as President of the Marionettes, and Al Holder, head of the Glee Club, represented the leadership of the class along histrionic and musical lines. With these leaders of the activities and others whom space does not permit to mention, the class of '25 is, as it should be, the models of the finished product of a college education.

Before we close let us say that there are many men who have not been mentioned who have been of inestimable aid in making our class what it is. The whole class is and has been throughout its career characterized by earnest, honest effort, and by conscientious co-operation. As we stand now at the open threshold of the world, with sweet memories of four years of companionship and work together, and with the knowledge that soon we will be scattered all over the country, who of us can suppress a tear? And yet, these four years have been the happiest of our lives. And so we close, with sincere wishes for the success and happiness of the members of the Class of 1925.

—Don Howe, '25.

The oldest and largest of the units at the Georgia School of Technology is the Infantry. No honor can come to the regiment as a whole without reflecting glory upon this department. The Infantry unit was established at Tech in 1917 as the first branch of the R. O. T. C. to enter the school.

The Infantry is composed of the foot-soldiers of the army; the men who carry rifles and bayonets for weapons, and who fight in the open, hand to hand, or in the mud of the trenches. Many times has the infantry been called the “ Backbone of the Army,” and it is, in the largest sense of the word. It does the fighting, and is supplemented by the other branches of the army, which enable it to fight effectively.

The Coast Artillery is one of the principal branches of the Service. During the World War it performed many functions. Officers and enlisted personnel manned the fixed defenses near the important harbors and naval bases. In France, they undertook to handle trench mortars, anti-aircraft guns, heavy tractor artillery and railway artillery.

In any future war directed against us by a strong naval power, the Coast Artillery would take as its principal mission the protection of the important harbors and naval bases from the enemy by use of mobile and fixed guns and mortars, submarine mines and anti-aircraft guns. At strategical railway centers they would also command and man the Railway Artillery Reserve. This Reserve would be ready at all times to go quickly to the assistance of the threatened points and supplement the harbor defenses in repelling a naval attack or a troop landing in the vicinity of the harbor defense.

The Signal Corps established its first course of R. O. T. C. training at Georgia Tech in the month of December, 1919. The desirability of placing a course in that branch of the service at Tech was quickly recognized by the founders of the R. O. T. C., since the students who took this training would, due to the nature of the school, be interested in the type of work that is the foundation of the Signal Corps activities.

The Signal Corps Unit at Tech is one of the eleven in the country and is one of the largest. Only two of these units are in the South, the other being at Texas A. & M. This course gives the student, primarily, the fundamentals of Signal Corps practice and, specifically, the foundation of Radio engineering—a branch of science which has already proved itself one of the greatest factors in the scientific development of this decade. It has made practical things which have seemed far beyond reason. It has fairly revolutionized methods of communication and continues to find adaptability in new fields.

Junior Poem

Oft times we flee our places in the scheme,
As though an unseen bond we cast aside,
To hide away in thought’s domain, and dream
That Fact has made our each ideal his bride.
The world seems like a faded tapestry,
With spots of lovely hue, with spots threadbare,
All woven, in a dulcet symmetry
Of joy and grief and hope, with boundless care.
No matter how the wheels of fortune turn,
They shall not grind our faith in man to dust;
No matter how life’s crucible may burn,
It shall not dim our goal or char our trust—
What worth are Ceres’ treasures if the game
Has not been fair? O honor, ever reign.

—J. E.

ATHLETICS
Coach Alexander, better known as "Alec", was born at Greenville, Kentucky. When quite a young boy his parents moved to Macon, Georgia. He attended the public schools there for a while and then returned to Kentucky, and went to Greenville High School.

He entered Tech in the fall of 1906. Here he scrubbed for four years on the football squad, but made his letter in 1911. He graduated in 1912 with the degree of B. S. in Civil Engineering. Since that time he has been at Tech, save for the time he served to aid in the defense of the stars and stripes.

He was made head coach of athletics in 1923, and has served well in this capacity since. The valor of Tech's teams is only a manifestation of his ability as a coach.

Coach Clay, popularly known as "Kid" Clay, was born at Monroe, Georgia, and graduated at Monroe High School. He came to Tech in 1910, and graduated in 1915 with the degree of B. S. in Electrical Engineering. Here he scrubbed for four years in football and made his letter in 1915. He also scrubbed for four years on the baseball squad. He has been coaching here since he finished school, except for the two years of service rendered in the cause of our country. He is head coach of baseball. His coaching ability is revealed in the courage and sportsmanship of his teams.

Coach F. F. Wood

He was born at Syracuse, N. Y. Attended the public schools of that city, then went to Mercersburg Academy. After finishing there, he entered Notre Dame University. Pursued a course in law and graduated in 1910. While at Notre Dame he was a star in football, basketball, and track. He played tackle and end on the football team, and was high hurdler on the track team. He organized the first basketball team while there.

He came to Tech in the fall of 1918. He is now head line coach for football. Before coaching here he coached Boys High School team of Atlanta. Aside from his coaching he has charge of all claims in the Southeastern states for the Hartford Life Insurance Co.

Coach Hansen comes to us highly recommended. His entire life has been spent along athletic lines. Playing half, he was an integral part of that still famous 1916 Minnesota eleven, which won nationwide attention. Graduating from the University of Minnesota in G.E., he left an excellent record in basketball and football. During the World War he was enlisted with the Engineering Corps. Besides his training under "Doc" Williams, his
present knowledge of coaching has been derived from similar nark at St. Thomas College,
Hamline University, and the University of Minnesota. Although this is his first year at Tech, Coach Hansen has already established for
himself a fine "rep" on the campus and in the locker-rooms. We are all proud to have
him as one of us.

COACH GEORGE GRIFFIN

"Days may come and days may go", but George remains faithful to Tech. Everyone
knows him except the ones yet to come. Although possessing knowledge and ability along
all athletic lines, Coach Griffin is most contented when rounding Tech's track men into
shape. A track meet on Grant Field without George officiating would look as queer as a
railroad minus rails. He has almost become a department at Tech, like the E.E. or C.E.
We hope he will stick with us forever.

Although endowed with marked reserve, once you have penetrated this outpost the
real George stands revealed, an able and comradely man, with Tech's interest ever his
paramount concern.

COACH TALLEY JOHNSON

Four years playing half for Tech, Captain of the Golden Tornado in '16, aero service
during the World War, and now back at Tech pursuing advanced Textile work—that
would be a brief summary of Coach Johnson's life since he donned his Freshman cap.
In 1923, placed in charge of all Rehab athletics, his excellent work was indisputable.
This past season he has been coaching the "backfield" of the Freshman squad with marked
results. The Freshmen were undefeated throughout their entire schedule, establishing a
record which, though it may be equalled, may never be surpassed.

Personally, Talley is a frank, pleasant sort of fellow with a fine personality, all of
which explains his ability to train men. Receiving his training under Johnny Heisman,
it is unnecessary to state that he knows the game from A to Z, and we are fortunate to
have him working in Tech's interests.

GEORGE GARDNER
Tackle

“Cap” George has led the 1924 Tornado with peerless skill. For a long time George played end, but he sacrificed his own desires for the good of the team, and at tackle he made good with a rush. George follows the ball with uncanny precision. He practically won the Penn State fracas by intercepting a pass and scoring. “Cap” George has played varsity football for three years.

A Review of the 1924 Georgia Tech Football Season

BY CHARLES SHONESY
Football Writer, The Georgian and American

To the outsider, whether rank or not, Tech’s 1924 football season could not be considered the most successful of the institution’s history, yet to those on the inside, Tech was satisfied with the showing of their last Golden Tornado.

STEPHEN DOUGLAS WYCOFF
Fullback

Doug is as good a backfield man as Tech has ever had. He is a terrible driver and one of the greatest punters in the country, averaging 60 yards against Notre Dame. “Sixty-minute” Wycoff has played 13 games without once having to stop because of injury. Doug was given an All-American berth by Lawrence Perry, who said of him, “Wycoff of Georgia Tech, a 195-pound scintillator, is a covering fullback, a man who is elusive in the open and deadly when he crashes into the line, a punter who drives far and places his kicks, a thrower of the ball and a catcher of overhead heaves.” Doug will captain next year’s eleven.

IVAN WILLIAMS
Halfback

Ivan, the Terrible, has the best educated toe in the South, barring none. On more than one occasion his three points have given Tech the victory. He is perhaps the hardest tackler on the team and a terrible line plunger. Ivan is a son of Arkansas, coming from Little Rock.
WALTER GODWIN

Guard

Walt is commonly known to his teammates as "Cupid." He was shifted from the backfield to his present berth. This human tank is stocky and speedy and grabs the runner in a vise-like embrace. Walt would play football every day, solely because of his love for the sport. He was elected alternate captain of the '25 Tornado. His brand of football is All-American stuff. All-Southern.

STARLING CARPENTER

Guard

"Little Six," as he is inaccurately called, is a flower of Newnan. He is one of the best guards in the South, and he and Walt Godwin make a splendid pair. His grim pose just before the ball is snapped is calculated to throw terror into the heart of the bravest. Six will be back with the squad next September.

JOSEPH USRY

Tackle

According to the freshmen who inhabit the dormitories, Baby Joe is everything but what the name implies. He has held his own on the varsity for three years and this year especially he played jam-up ball. Baby Joe was mentioned on the All-American honor roll.

MERCER MCCALL THARPE

Tackle

"Mac" is a ferocious player. Though out of school part time last year, he lost none of his art. He uses his hands better than any man on the squad and his arms as well as any. "Mac" will be a great tackle next year.

Tech won five games, lost three, and tied one. The high light of the season, of course, was the brilliant 13 to 13 victory over the famed and feared Lions of Penn State. That victory, however, cost Tech much in playing strength, and weakened the varsity to such an extent Coach Alexander was never able to muster his full strength after this game.

Bob Reeves, veteran halfback, Gus Merkle, veteran end, and Fred Moore, veteran quarterback were all put out for the remainder of the season. Captain Gardner and a few others were not themselves for two weeks after the fierce struggle. The loss of these men was certainly felt in the games that followed.

Tech opened the season with a 19 to 0 victory over Oglethorpe University, a team which later was unanimously acclaimed the champion of the S. I. A. A. No other southern team was able to do anything at all with the Stormy Petrels.

In the second game of the season, The Tornado defeated V. M. I., 8 to 0, when Ivan Williams kicked a placement goal. This was the first game in some five years in which the Flying Cadets failed to score.

University of Florida tied Tech at 7 and 7 for the second consecutive year in the third game of the season in one of the most brilliant struggles of the year. Without attempting to take any credit from Florida, it must be said this was one of the poorest games the Jackets played during the fall campaign.
Gus Merkle
End
Gus is without doubt the fastest man on the squad. He, too, is a hero with the women. Last year he played tackle, but injuries received in the Penn State game kept him out the rest of the season.

Gordon Nabelle
End
Fast and scrappy are apt epithets with which to describe Monk. He is a product of Tech Hi and one she can well be proud of. Monk played on Tech's first freshman team and has worked his way up to the varsity by tireless effort. Going down under punts, he looks like greased lightning.

Clifford King
End
Cliff sprang into prominence all of a sudden this year and stayed there. When Gus Merkle was injured, Cliff stepped in and carried on admirably. He is fast and plays "heads up" football. After nearly every play Cliff may be seen extricating himself from the pile; he is here, there, and everywhere.

John H. Marshall
End
Some jealous hounds have called Johnny "Jelly," but his reputation is untarnished. He is fast, steady on his feet, and an excellent stancher of rushes. Johnny played a good game against the Vapers. That he answers when called on is shown by his heroic efforts in the Vandy game.

Williams kicks field goal—Penn State game

Tech's great victory over Penn State was one of the surprises of the season, as every one well knows. As long as Coach Alexander left the varsity in the game, Tech not only held Penn State scoreless but had piled up fifteen points. Penn State scored its thirteen points after injuries and experience had caused Tech's head coach to remove the first string players.

University of Alabama defeated Tech 14 to 0—the first time since the fall of 1919 a southern eleven has been able to defeat Tech. The Crimson scored a touchdown in the last ten seconds of the first half on a long forward pass. This paved the way for their victory. Tech uncorked two fine drives in the second period that seemed certain to produce points, but both fell short.

University of Alabama defeated Tech 14 to 0—the first time since the fall of 1919 a southern eleven has been able to defeat Tech. The Crimson scored a touchdown in the last ten seconds of the first half on a long forward pass. This paved the way for their victory. Tech uncorked two fine drives in the second period that seemed certain to produce points, but both fell short.
Tech reached its greatest strength in the game with L. S. U., which Tech won 28 to 7. In this game Wycoff again went wild, scoring all four touchdowns, and making several very long runs.

Vanderbilt defeated Tech 3 to 0 in the game that followed, a field goal being the only points scored. Tech had the ball on the 2-yard line for first down once but a missed play prevented the score.

In the last game of the season, Tech defeated Auburn 7 to 0. It was a brilliant struggle in which Wycoff again distinguished himself with his brilliant play.

Tech scored 82 points during the season to 78 by her opponents.
CARTER BARRON  
Halfback

"Little Red" has been handicapped by following in the footsteps of his illustrious brother, but he has surmounted that obstacle. He is fast like David Irenus and a steady worker. Carter is fast coming to the top and should be one of the best backs on the team next year.

VAUGHN CONNALLY  
Halfback

This boy uses more towels than any other member of the team. "Hot Towel" prepped at Staunton Military Academy, entering Tech in 1923. He combines weight with speed, and is a hard driver. He has bright prospects ahead and merits a great deal of attention.

BETHEL FARNSWORTH  
Halfback

Finding holes in the hostile line is what Bip does nothing else but. He will sprint down the line, halt suddenly, then turn and dive and squirm his way forward: a system which is good for three yards every time. Bip has been a mainstay in the backfield for three years.

CRAIG WILTON  
Quarter

Craig was ineligible last year but made his letter this season. He hails from Washington, D.C., and before coming to Tech, he played with the Maryland freshmen. He showed up well at quarter, but was considerably handicapped by sickness. Craig should do even better next year.

Ivan Williams, a big halfback; Six Carpenter, a guard; Sam Murray, a halfback, Fred Moore, a quarterback, and Bip Farnsworth, a halfback, were other players to distinguish themselves during the season.

At the 1925 football banquet, given at the Biltmore Friday night, December 12, twenty-three men were awarded letters as a recognition of their faithfulness and ability as football players. But before getting down to the serious business of eating, the team chose their leaders for next year, captain and alternate captain.

The banquet was held after the election, and it was a football banquet from start to finish. There were plenty of eats, and gold footballs, sport writers, and football talkers, nothing being omitted that might have added to the sportsmanlike atmosphere of the place. Dr. M.L. Brittain was toastmaster of the evening. Many of the Yellow Jackets demonstrated their ability in public speaking, and Mr. Clark Howell furnished much spirit for the occasion by offering a fine trophy for next season's stellar contestants, Tech and Georgie. This offer was the spark that started a discussion of the great game between Tech and Georgie, and there was much evidence of the fine spirit which will prevail when these two great southern teams meet to vie once more for honors.
The members of the team did not forget Coach Alexander, and many fine tributes were paid to the man who so successfully guided the Tornado through the past season. Monk Nabelle, as the representative of the football team, presented Coach Alec with a suit of clothes, and John Staton presented Wycoff with a present most suitable for a warrior who was a star in all the games of the past season. The present was a wood-mounted action picture of the great Wycoff in a most characteristic football pose. Nor were the seniors, who had played their last game for Tech, unmentioned. They were all presented with gold "T" cuff links by Dr. J. B. Crenshaw, and though merry, they were all impressed by

**Sam Murray**

*Halfback*

Though having entered in 1923, Sam has already made an enviable record for himself. He showed up extraordinarily well in the Auburn game, when he exhibited all of his good qualities, to-wit, a powerful runner, a good defensive player, a fighter, and a hard worker. Sam came to Tech from Newnan High School.

**H. L. Erwin**

*End*

With persistence and determination, "Hammer Head" has fought for his letter. He was changed from backfield to end and he is better suited to the latter position. Hammer Head is such a hard tackler, that in every game a runner he has tackled has fumbled.

**Roy Huffines**

*Tackle*

Tripping around the campus with his large sombrero, Uncle Roy looks more like the hero of a western romance than a football devotee. But on the gridiron the goodly-goosey man literally eats 'em alive. He played under Heisman in 1920. It is claimed by some that Uncle Roy has been at Tech longer than anyone on the faculty. He plays a great defensive game.

**Wallace Forrester**

*Guard*

Wallace spent his prep school days at Gordon. He scrubbed up until this year, and when he got his chance he made good. Wallace runs interference well, is a hard tackler and is very fast, both in football and civilian togs. His technique has won for him the title, "The Girl's Delight."
DOUGLAS WYCOFF
“Sixty-Minute” Wycoff, All-Southern–All American, Tech’s First Four Letter Man.

All Southern–All American

DOUG WYCOFF

It is hard to refrain from the use of too many superlatives when describing this young man. Yet regardless of how highly he is praised it all seems feeble when compared to his record. A good student, a gentleman in every sense of the word, and undoubtedly the greatest all-around athlete that ever attended Georgia Tech. He is the first man to win letters in all four of the major branches of athletics at Tech.

In football he has been called “Sixty Minute” Wycoff, because he does not require a substitute. Coach Rockne of Notre Dame has called him the greatest half-back in the land, and everyone that has seen him play knows the reason. On the offensive he smashes the line with the drive of a locomotive, or skirts the ends with the grace and care of a toe dancer. In a broken field he keeps you on your feet—breathless as he twists from the grasp of a world of tacklers, side-steps, turns, and stiff-arms his way through. His punts are the kind that thrill you as they rise and sail forty, forty-five, fifty-five yards—sometimes more. On the defense he is no less efficient, backing up the line like a stone wall and tackling with that sure aim and power that brings the runner down without gain.

In basketball he is a very important cog in the machine, playing at center and running guard. His ability in this branch of sport is well illustrated by the fact that he was the high-point scorer in many of the games during the past season. He has an uncanny ability to steal the ball away from the opposing teams when they start down the floor, and he has many times this year turned the tide from defeat to victory.

He is probably the most valuable man on the baseball team playing first base and leading the team in hitting. He covers the initial sack with the grace of a natural born first baseman, fields his position well, and his hitting is the kind that you dream about. He batted well over .450 last season and he has bettered that record just a trifle so far this year. His hits are clean and hard usually going for extra bases and many of them are home runs.

Despite all this activity he has found time to master the science of putting the shot. He hurling the sixteen pound shot something around forty feet he took first place and thereby won his letter. He is truly a wonderful athlete and the Georgia School of Technology can well feel proud of him.

Review of the 1924 Freshman Football Season

The 1924 freshman football season was one of the most successful, if not the most successful in the history of this freshman form of sport at Tech. Though there were not many games scheduled, those played were played well and a victory chalked up against our opponents in every instance with the exception of one tie game. A most reassuring thought, it seems as if our varsity of next year will receive some material strength from the fresh squad of this past season.

The first game of the season was played on October 25, in Atlanta against G. M. C., in which the Milledgeville cadets were shut out to the tune of 37–0. Not a very exciting game but one in which our freshmen showed up in good form.

Second came a match with the Mercer rats, also played on Grant Field, the Mercerites were repulsed to the tune of 14–7, a much more interesting game to watch and fought hardly by both sides.

The only journey to foreign territory of the season followed in the next game when our greenies met the Baby ‘Gators in Gainesville, Fla., November 8. Once again our frosh team emerged victorious from the conflict with a score of 19–7.

Then followed quickly the last two games in Atlanta, two hard fought thrilling battles in every respect. The first with Spring Hill College, on November 15 ended with the freshmen holding the larger end of a 12–7 score. The last game, and probably hardest, was against the Auburn rats on November 21, and furnished the spectators a most thrilling and entertaining afternoon. This conflict resulted in a draw.

Truly a successful season, one that can be boasted of to a great extent, for
none were "set-ups", all of the games against hard fighting freshmen teams of some of the foremost universities in the South.

Fred Moore had the honor to captain the first real indoor basketball team that we have ever known.

Fred was one of the outstanding guards of the team and it was mainly through his efforts several times that defeat was staved off.

Fred was hindered to some extent during the season from injuries, but in spite of all this, he was a source of inspiration to his teammates.

## Review of 1925 Basketball Season

**By Fred Moore**

Although defeated in their opening game the Jackets made a remarkable showing against their more experienced opponents. Everyone expected the Clubbers to win by a much larger margin and it was a very agreeable surprise that Coach Hansen gave the large first night crowd. The shooting of Pat Stephens for the Club and the defensive work of the entire Tech team were the features.—Atlanta Athletic Club, 23; Tech, 22.

Showing a complete reversal of form from that exhibited the previous night against the Athletic Club the Jackets went down to a two point defeat at the hands of Clemson. The Tigers fought an unusually hard game and seemed able to shoot goals when needed.—Clemson, 20; Tech, 18.

The height and experience of Tink Gillam's Mercer Bears proved too much for the Tech team and they were forced to take the short end of the score in the
third start of the season. Skinner and Smith did the bulk of the work for the winners while Denicke looked best for the Jackets.—Mercer, 28; Tech, 18.

With their opponents leading by a seven-point margin and only eight minutes to go the Indoor Tornado began to function. Sixteen points were scored by the Tech team before the timer could call a halt to the game. Bill McKinney led the attack for the Plainsmen while Skinner Denicke and Doug Wycoff tallied points for Tech. This is the second time that the Jackets have defeated the Tigers on their court—Auburn, 21; Tech, 28.

It took three extra five minute periods to decide the winner of this game. The Soldiers led at the end of the half by a large margin but Tech came back strong in the second period and tied up the count just as the game ended. Grant had a keen eye for the basket and accounted for most of Fort McPherson's points, while Bob Moreland's four points were big factors in the extra periods for Tech.—Infantry, 26; Tech, 28.

Vandy and Coverdale won a rather listless game from the Jackets during the mid-term exams. The Jackets seemed to be dead on their feet while the Commodores, much abetted by the above mentioned Mr. Coverdale, had a good eye for the basket. Coverdale accounted for twenty-five of Vandy's points.—Vanderbilt, 37; Tech, 28.

Tech won its first game on its own court when it defeated the University in the first regular scheduled athletic contest since 1919. Georgia led throughout the game until the last few minutes. Then Wycoff and Denicke began to drop them in from all angles. It was a great game in every respect and a tribute to the players and students of both institutions.—Georgia, 25; Tech, 30.

Fate seemed to have fastened her clutches on the Tech team and they once more went down to defeat by a two-point margin. The boys from the Blue Grass state seemed to have just a little the best of the Jackets in a great defensive game.—Kentucky, 18; Tech, 16.

Revenge for their defeat in Auburn was gained by the Tigers in the return game on the Tech court. The only foul shot made by the winners in the entire game proved the undoing of the Jackets. McKinney shot the deciding point with thirty seconds to play.—Auburn, 15; Tech, 14.

The first game of the road trip went the wrong way when the Bears won the
second and last of the Tech-Mercer series. The Jackets made a valiant rally near the end of the game but they failed to overcome the lead of the Maconites.—Mercer, 28; Tech, 21.

With the score tied and twenty seconds to play one of the Clemson guards dropped the ball through the hoop from the center of the floor and won the game for his team. This made the fifth game that Tech had lost by either one or two points.—Clemson, 32; Tech, 30.

The road weary Jackets sustained the most severe loss of the season when they seemed unable to stop the attack of Red Johnson & Co. Failure to shoot goals and to cover their opponents, about sums up the whole affair.—N. C. State, 35; Tech, 12.

Davidson furnished the curtains to the road trip when they won the last game by a nine-point margin. Numerous Tech alumni turned out to cheer for their Alma Mater, but it was of no avail.—Davidson, 36; Tech, 27.

Minus the services of Denicke and Rosser the Jackets journeyed over to Athens and dropped the final game of the regular season. Richardson and Huguley led the attack for the Athenians while George Wilde, captain-elect for 1926, was high point man for the losers.—Georgia, 34; Tech, 24.

Cecil Jamieson

Cecil came into his own during the tournament and in the last Georgia game. He was one of the real stars in these games and should earn a regular berth in the coming campaign.

Clarence Denicke

Skinny has been one of the outstanding forwards in the south for the past three years and it was due chiefly to his efforts that the Jackets won the first Georgia game. Skinny is a finished basketball player in every respect and will be hard to replace next year.

The S. I. C. Tournament

Tech surprised even its most staunch supporters by running wild in the opening game of the tournament against Sewance. Doug Wycoff scored fourteen points while Cecil Jamieson played a good defensive game.—Sewanee, 14; Tech, 31.

Pitted against the winners of the Southern Conference tournament the Jackets played their best game of the season and held the champions to an eight-point victory. Tech actually outscored Carolina in the second half and threw quite a scare into them. Doug Wycoff continued his spectacular shooting and accounted for fifteen points.—North Carolina, 34; Tech, 26.
Freshman Basketball

The freshman basketball season of 1925 was a most successful one in every respect, the freshmen meeting some of the best university freshman teams in the south, and in every instance save one they emerged victorious.

MORGAN, D. H. ................. Utility

Johnny Baum, captain of the 1924 baseball team, concluded his college career by playing a wonderful game on third. The loss of Johnny will be felt very keenly this year as he was a terror in the infield and was one of the most dependable hitters in college baseball. Always ready with his winning smile “Johnny” never failed in the pinches. Many times it was a single from his bat that brought victory to Tech. He will be sorely missed here this year.

Review of Baseball Season 1924

The 1924 season found the going a bit rougher than in former years. For the past three years Tech has won the Southern Championship. Loss of veterans through graduation and deficiencies in scholastic work kept the team handicapped during a portion of its schedule.

Of the total of twenty-two games played, nine were won. Eight of the thirteen games which were lost, were lost by one run; showing that the team did not lack the Tech fighting spirit. All of the games played were bitterly contested until the final minute. Several went for extra innings.

Penn State was defeated in their series. We made a clean sweep with Auburn and broke even with Virginia, which had the strongest team in the Southern Conference.

The work of the infield was beyond reproach. Brilliant and resourceful, they more than held their own throughout the season.

Enloe pitched a no-hit, no-run game against Penn State upon his first appearance of the season. He was the most consistent winner of the season. Allison also pitched well. The pitching staff felt the loss of Collins very keenly.

In hitting, the entire team batted well as an average. Wycoff led the team in this respect.

In a brief summary of the season, the team appearing a bit unsteady at the beginning of the year soon steadied down and played the game that Tech teams are capable of. The season as a whole was a success. This year around the nucleus of old men another formidable nine will be developed.

Much credit of the season was due to captain Baum and Coach Clay. With the closing of the 1924 season, Palmisano was elected to pilot the 1925 nine. With the untiring efforts of the coach and the co-operation of the students we are out for the Southern Championship this year.

Totals: 69 in freshman baseball.

The freshmen awarded numerals for their faithful work throughout the entire season were: Angley, Bryan, Bullock, Callahan, Davies, Jamieson, Moreland, Reynolds, McClellan, Quinn, and Langston.
Results 1924 Track Season

GEORGE GRIFFIN ........................................... Coach
HOMER WHEELEH ........................................... Captain
A. L. CARROLL ........................................... Manager

With the close of school last year the season ended one of the most successful years of Tech on the track. Piloted by one of the most popular captains, Homer Welchel; a brilliant season was enjoyed.

This young man in his last year on the track closed his collegiate career by being selected as one of the javelin hur-...
Swallowing their disappointment the Tech squad put in a half month's preparation for the approaching Second Annual Southern Relay Meet. Although knowing full well that here the odds were greatly against them, they put forth every effort to make the best possible showing. They did it—placing second in final results; which, all things considered, was a remarkable feat. Five hundred athletes participated in this carnival, making it the greatest meet of its kind ever held in the Southland. Mississippi A. & M., with an excellent team, emerged victorious after breaking an American, a Southern, and four Relay records. Their score totaled 47 points.

Feeling considerably better, the Tech team went to work and put "the skids" under their opponents in the S. E. A. A. U. events. This meet speedily shaped itself into a triangular affair between Tech, Georgia, and the A. A. C., each striving desperately for first honors. Victory went to Tech; being none the less sweet because Georgia was her closest rival. However, the reaction was not so gratifying. One week later we made a disastrous trip to Montgomery for the S. I. C. meet and returned home nursing a defeat. Here as in the Relays, Mississippi A. & M. outstripped the field.

Another three-cornered affair followed at the Georgia State Meet, between Tech, Georgia, and Emory. Tech failed to win the meet but her men were outstanding. Williams, of Tech, was high point man, while Captain Homer Whelchel broke the javelin throw record—with 195' 3-2". The Georgia aggregation piled up the largest score—71 5-16 points. Tech followed closely on her heels with 66 7-12 points.

Such were our ups and downs for the season. Every team must have an off year. Tech had hers in '24; but—"the darkest hour comes just before the dawn!"

Captain Whelchel completes his track career at Tech this season. His exit from our college athletics was probably the most interesting and spectacular in the history of our school. Hurling the javelin 196' 7" he won the Southern Olympic tryouts, while representing Ga. Tech. On June 14th, in Boston he captured third place for Tech on the American Olympic Team. At Paris, however, as a representative of Uncle Sam, he failed to place in the Olympic Games. Following this defeat, Homer sailed to London with the American Team for the British Empire vs. U. S. A. Meet. Here he placed first in the javelin throw; defeating two men who had won places in the previous Olympic events. This was the man who captained our '24 squad; and needless to state his loss will be widely felt. He leaves behind, outside of his brilliant and enviable field record, a host of friends, who wish him the best of luck and fortune in track prowess.

"Varsity" Johnson steps up to fill the vacancy left by Whelchel. Winning his numeral in his freshman year, Johnson has exhibited steady progress during these
last three years on the Jacket Squad. His election as Captain was unanimous and we feel certain he will make good in every sense of the word.

The yearlings of track made an excellent showing this year. Although these men are eligible for the varsity only by breaking a record, they are an important and integral part of the track organization. From these track and field aspirants, are developed the varsities of Tech for later years. Already stars have developed—one freshman receiving his "Varsity T". by merit of breaking the shot put record at the A. A. U. Meet. This man was the first to profit by the inauguration of the Freshman Rule at Tech. At Coach Griffin's first call, half of the freshman class reported. They had pep, will, endurance—competition and interest were paramount in all phases of the work. These were the qualities which made the Fresh team the strongest in our history.

Success to any track squad can only come from complete co-operation, and confidence in the Coach. Tech has one of the best coaches in the South; she has utter confidence in him; all of which acts as a stimulant for the '25 team. From a wealth of good material we are certain that George will develop for next year the best squad Tech has ever turned out; and it looks likely that Tech will once more resume her stellar role in this great sport.

The 1924 Track Squad was composed of the following men:

Barnett, J.
Boyd, A. H.
Branson, J. R.
Cooper, R. L.
Crowder, W. N.
Fincorn, J. E.
Goodburn, R. A.
Harrin, D. D.

Review of Freshman Track Season

The freshman track season of 1924 was a most spectacular and exciting one, and brought out quite a number of stars, to uphold the honor of their Alma Mater on the Varsity in the years to come.

The meets held and the results for the season follow:

Atlanta Amateur Athletic Federation meet—Piedmont Park, May 17: Tech Freshmen, first with 102 points, O'Keefe Junior High, second with 89 1-2 points.

Triangular meet with G. M. A. and Boys High—Grant Field, April 17: Freshmen 88, G. M. A. 22, B. H. S. 16.

In the A. A. U. meet the freshmen placed fourth with 17 points.

In a dual meet with Boys High, the freshmen scored 77 1-3 to 39 2-3 for B. H. S.

In the A. A. U. meet Nixon broke the S. E. A. U. record for the shot put, with a throw of 41 feet, 9 inches.

The freshmen earning numerals for their conscientious effort were: Schwalb, Strickland, Welsh, Griffin, Holt, White, Cobb, Haynesworth, Jaynes, DeJarnette, Wilmor, Brewer, Richardson, Rainier, Perkins, Gray, Wilton and Nixon.
Review of 1924 Lacrosse Season

Making its debut this year in the list of minor sports at Tech, lacrosse proved a very popular and interesting sport. While taking quite some time to get this sport introduced and a team organized, two matches were engaged in during the season, and from the numbers out for the sport some very interesting games played between the contestants.

The matches were played with the Fort Benning team, one at Columbus and a return match on Grant Field. Both resulted in a victory for the soldiers 3-0 and 3-1.

The squad was composed of the following men: Godwin, Parrish, Carpenter, Wilton, Waters, Carson, Leffler, Tharpe, Minter, Smith, Eager, Smith, E. T., Gunn, Atkinson, Douglas, Carter and Shrumo.

Review of 1924 Cross Country Season

The cross-country season of 1924 while not being an outstanding success, was far from being a failure in any sense of the word. We did well and all the team put out their utmost. Entering five meets during the season, the team won two, tied one, finished second once, and third in one also.

A. A. U. Meet: Tech. 37; Georgia. 38; Clemson. 49; Florida. 99; and Oglethorpe. 102.

Dual meet with Clemson: Tech. 19; Clemson. 36.

Dual meet with Georgia: Tech. 28; Georgia. 28.

Southern Conference meet: V. P. I., first; W. & L., second (Lexington, Va.); Tech, third; Univ. Va., fourth.

Birmingham meet: Georgia. 66; Tech. 79; Miss. A. & M., 88; Auburn, 93; B. A. C., 122; Miss. College. 152; Birmingham Southern. 254; Univ. of Miss., 184.

Those winning their letters for their prominent work during the season were: Mitchell. Captain; Blodworth, Farmer, Bulloch, Farmer, Glover, Hollingsworth, Meyere, Murray; Roberts and Shefflin.

Review of 1924 Golf Season

The golf season of 1924 was a very active one and the Tech team had plenty of opportunity to distinguish themselves in the various meets they engaged in. The results of the season were as follows:

<table>
<thead>
<tr>
<th>Date</th>
<th>Opponent</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>February 28</td>
<td>University of Florida</td>
<td>9</td>
</tr>
<tr>

<td>7</td>
</tr>
</tbody>
</table>

The golf team was composed of Bill Spalding, J. H. Lynn, J. H. Taylor, and Bip Farnsworth, captains, with Walker Eames as alternate.

Review of 1924 Swimming Season

The 1924 Varsity swimming was a very successful one from the number of victories chalked up to our credit, however, we were unfortunate in not securing as many matches as should have been played.

The results of the season were as follows:

<table>
<thead>
<tr>
<th>Date</th>
<th>Opponent</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>March 29</td>
<td>Meet with Florida</td>
<td>59</td>
</tr>
<tr>
<td>April 12</td>
<td>Meet with South Carolina</td>
<td>40</td>
</tr>
<tr>
<td>April 19</td>
<td>Meet City Invitation Meet</td>
<td>57</td>
</tr>
<tr>
<td>May 3</td>
<td>Triangular meet with College of Charleston and Citadel in Charleston</td>
<td>57</td>
</tr>
</tbody>
</table>

The members of the swimming team were: Sidworth, Farmer, Bulloch, Farmer, Glover, Hollingsworth, Mccoy, Murray, Nissen, Race, Rockwell, Turner, Virginia, and Whitt. Armstrong, captain, and Bulloch, manager.
Review of 1924 Tennis Season

The results of the tennis season of 1924, which was composed of three meets and two tournaments, follow:

April 19: Alabama, singles, Tech 3-1; Doubles, Tech, 1-1.
April 26: Furman, singles, Tech, 4-0; Doubles, Tech, 1-1.
May 1: S. I. C. Tournament, Tulane, winner; North Carolina, runner-up. Tech eliminated by Tulane, 5-0.
May 3: Sewanee, Doubles, Tech 5-0.
May 17: Georgia State Tournament, Emory winner singles, Tech winner in the doubles.
The team was composed of Carnes. Jackson, Van Winkel and Matheson, captain.

Review of 1924 Freshman Swimming Season

The tennis season for the freshmen during 1924 was a very successful one and developed some remarkable talent, which will be used to advantage during the coming season with the varsity.

Entering several meets the freshmen team showed up well, defeating Tech High 45 to 19, winning first place in every event with the exception of one. In this meet Rahner, a Tech freshman, lowered the Tech record for the 40-yard, free style, set by Weiss, in 1920, time 20 1-5 seconds.

In two meets with the varsity the freshmen pushed the varsity hard for a victory falling short by close scores. In the city invitation meet the freshmen scored 6 points. Results: Tech varsity, 48; Tech High, 15; Boys High, 11; and the Atlanta Athletic Club, 13.
The freshmen comprising the team were: Rahner, Connally, Noyes, White, Ed., Walsh, McKay, Ott, Barnett, Wardlaw and Virgin.

ACTIVITIES
The Technique Staff at Work
The 1925 Blue Print

We began this work with high ideals and aspirations, some of which we have been able to carry through, others have been lost by the wayside. Mistakes have been made and some things have been left out to make space for those of more importance. We have tried to catch the happy spirit of college days and to transmit it to these pages so that it might live even when college days are over.

The many hours that have been spent in compiling this volume of the Blue Print have not been hours of drudgery. They have been willingly and cheerfully spent. The members of the staff have given freely of their time and talents and the student body has given its support. It has been a privilege and a pleasure to work with such a combination.

We are presenting to you the finished product that you may judge the degree of our success. We have tried to place the 1925 annual in the front rank of year books of the United States. Our work is done. May you read it with as much pleasure as we have found in preparing it for you.
With the passing of the years Tech grew rapidly, and by 1911 the original student body of one hundred and thirty had doubled itself several times. Accompanying the growth of the school came the inevitable difficulties of keeping the students in touch with each other and with the authorities, and of disseminating information of common interest.

The lack of some medium with which to perform these functions gradually made itself more and more keenly felt. In answer to this want, The Technique made its appearance in November of 1911.

The paper was given its greatest impetus the following year, when "Genial Gene," Editor-in-chief and business manager combined, enshrined it firmly as a Tech institution. From 1912 to 1918 the Technique passed through a transitional period. In the spring of 1918, an excellent form was adopted which has remained unchanged until the present, with the exception of a number of minor modifications.
The Yellow Jacket

Tech's humorous publication came into existence in the Spring of 1920 under the name of "The Golden Tornado". As soon as the horrified faculty had recovered from the shock occasioned by its release of sparkling wit, orders were issued that the new-born magazine be suppressed, and that was the last of "The Golden Tornado.

The following fall saw the revival of the magazine under its present name with J. E. Biggs as editor and R. Beamon as business manager. "The Yellow Jacket" prospered in this second year of its life, and soon became recognized as one of the campus fixtures. Iver Granath took the editorship of the magazine for its third year, and started "The Yellow Jacket" on the road to its present fame by his clever writing under the pseudonym of Lord Knockemoff.

Carl Whyte, the present editor, succeeded to his post in the Fall of 1923, and for two years has conducted the magazine on a par with the best of its type in the country. He has been ably supported by the capable staff which has been chosen to assist him.

Review of Season

THE Glee Club was up to the high standard which all Tech organizations set for themselves this year. Indeed, to judge from the comment from all sides, the Glee Club men rather outdid themselves this season. New music with all the snap and pep in the world, chorus and solo voices of excellent quality, two orchestras that any musical organization would be proud to own, and special acts worthy of the best vaudeville stage combined to make a show which drew enthusiastic applause wherever it was presented.

Rehearsals started immediately after the opening of school. Nearly two hundred men tried out for places on the club. An abundance of unusually good material made the task of choosing the most promising fifty somewhat difficult. Al Holder proved that he was as proficient a wielder of the director's baton as he had been as star performer the year before, and by January 17 he had the show ready for presentation.

The first appearance of the season in Marietta was highly successful, and encouraged the directors to book several week-end performances for the club before taking it on the annual long trip. Washington Seminary in Atlanta, and Griffin were played on February 6 and 7. The following week-end was spent in Cartersville and in Rome. To Madison the glee men went on February 21.

Florida was invade again this year on the long trip, although Tallahassee instead of Jacksonville was the objective this time. The boys left Atlanta on March 17, playing in Dawson, Tallahassee, Valdosta, Tifton, and Macon before returning on the following Sunday. The trip was an unqualified success and made many new friends for the club and for the school.

The Atlanta performance on April 4 was a fitting climax to this most successful season. Fraternities turned out to fill their rows and boxes, while other Tech men and Atlanta people filled the remainder of the Atlanta Woman's Club Auditorium, where the performance took place. The dance following was as good as the performance itself, and everyone voted the evening a perfect success from every point of view.

Much of the success of the club this season has been due to the men who have directed and managed it. Al Holder as president and head director has brought his Tech Glee Club career to a brilliant close. Holder, as president; William Spalding, vice-president and director of the mandolin club; Frank Roman, who has given invaluable assistance in directing the orchestras and in arranging the music; and Carl Whyte, capable business manager, have proved to be as competent a staff of officers as the Glee Club has ever had. Nor can too much praise be given to the men in the cast, who worked sometimes under very unfavorable conditions, yet who by their work helped make the Glee Club season the success it has been.

Review of Season
By A. L. Bartlett

Just as the season of 1923 began a new era in the history of the Marionettes of Georgia Tech, the spring of 1924 marked the culmination of the united efforts of the club in the magnificent staging in Atlanta of "The Seventh Veil", which still retains the distinction of being the most ambitious production ever offered by a Southern amateur dramatic organization.

"The Seventh Veil" marked the entry of the club into a new field of dramatic endeavor, and with its production came such fame as had hitherto been considered the property of Ziegfield and George White. When Harry Ellerbe, director of the Tech Marionettes, wrote, for a cast of male pulchritude, a lavish musical satire steeped in the spirit of the mystic East, and rich in the treasures of a thousand and one nights, the play was on the caravan trail to success, and the snappy songs, the grand entrances, the haunting melodies and oriental dances by Harry Pomar, well-known Atlanta composer, contributed that professional element which made the production the great success it was.

The staging of the play left little to be desired, the massive and elaborate scenery, the artistic lighting effects and the gorgeous costumes taking the play far above the realm of amateur efforts.

The club cannot express enough appreciation and gratitude for the wonderful work done by Miss Marion Dabney, of the Greenwich Village Follies, who gave so many of her hours of holiday time to the arranging of all the colorful dances and choruses which were such a feature of the production.

Landon Clark as Salome (the wicked, wicked queen) and Fraser Law as Samson (the mighty conqueror), were the stars but were ably supported by Jimmy Whitfield, as Mecca and the largest cast ever assembled in a Marionette spectacle.

The Fall saw the club again don the cloak of orthodoxy and return to the dramatizing of New York comedy. The play chosen for the vehicle of the club was the delightful comedy of George S. Kaufman and Marc Connelly "Dulcy" which saw such a phenomenal run in the North and East and enjoyed such popularity on the silver screen with Constance Talmadge in the leading role.

Lawrence Petri, famous female impersonator of the Marionettes for three years took the stellar role and reached the climax of a most colorful career with the club while Fraser Law followed up his success in "The Seventh Veil" by an equally memorable characterization of Mr. Forbes. Other outstanding stars were Henry Ligon and David Harland.

The club took two trips with "Dulcy" in November. The first of these was to Griffin where the play received a most enthusiastic reception and the second, to Forsyth met with equal success. The Atlanta performances were given the nights of December 12 and 13 before capacity audiences, the first night being alumni night and the second, Tech night.

The great event of the spring, however, was the big South Carolina trip which was taken early in February.

The opening performance was staged at Anderson this year followed by one in Greenville the following night. The next performance was given in Sumter, a field not hitherto invaded by the club, and from fresh praises there, the company journeyed to Newberry, while Saturday night at Converse College, Spartanburg, concluded a week filled with enjoyment.

On this trip, as on previous ones, the Marionettes were entertained in the homes of friends and alumni of Georgia Tech and their kindness and hospitality contributed immeasurably to the pleasure and success of the ventures.

This trip concluded the season of 1924-1925 and with greater plans already made, the season of 1925-1926 glows brightly in the East.

"THE SEVENTH VEIL"
The Singer Bartow Ford
Mme. Jerusalem Jello, premier danseuse Fulmer Wells
Insomnia Ipicac, the gate-keeper Allen Bartlett
Mecca Nostrilla, Salome's maid Jimmie Whitfield
Fuzzy Suchamess, a lily of the valley Frances Lashmett

Honorary Organizations

The Pi Delta Epsilon is a national honorary journalistic fraternity. Men are elected to the fraternity only after they have completed two years of successful work on student publications. Because of the high standing of the fraternity nationally and on the campus, it is quite an honor to be a member.

The Scabbard and Blade, which is a national honorary military fraternity, holds a very high position on the campus. Members are elected who have shown a very decided interest in the military activities of the school.

Tau Beta Pi is an honorary engineering fraternity. Men are elected to this coveted honor from the upper quarter of the Senior class. Tau Beta Pi was installed only this year and already has taken an important place on the campus. Members are limited to men of high scholastic standing and general efficiency.

Kappa Kappa Psi is an honorary musical fraternity. It is composed solely of musicians from the band and the school. Under its direction a much better co-operation can be had among the students, and a better spirit is fostered throughout.

Phi Kappa Phi. Election to the Phi Kappa Phi, which is an honorary fraternity, depends upon the student’s scholarship and activities in which he is engaged. Seniors who have for three years shown themselves thoroughly capable in their work are elected to this coveted honor.

The Bulldogs, which is purely social in its activities, is one of the oldest on the campus. Its members include upperclassmen who are prominent in school activities, and are outstanding in school. It is considered a very high honor to become one of its members.

Kozume. This society is one of the most influential of the several honorary organizations on the campus. The members of this society are elected yearly from the Junior class, their sole purpose being to improve the conditions around Tech. The Kozumes have charge of the annual cross country run, besides the management of the various Freshman class activities.

Anaks. Election to the Anaks is the highest honor that can be conferred upon a Senior at Tech. The members are selected upon a basis of character and leadership as displayed in student activities. The society originally had charge of activities on the campus, but since then, some of the powers have been vested in other organizations.

The Alpha Delta Sigma is an honorary commercial journalistic fraternity. Members are elected only who take Advertising or Marketing in the Commerce Department. Election to the fraternity gives admittance to membership in the Associated Advertising Clubs of the World.

Alpha Kappa Psi is an honorary commercial fraternity. Membership is limited to those who have shown marked ability along their chosen line of work. Members are elected from the School of Commerce alone.

Beta Sigma Pi started a few years ago and since that time has grown into one of the strongest of the honorary commercial fraternities. Membership to the fraternity is limited to those of the upper classes of the Commerce Department who have outstanding ability in their class work and are prominent upon the campus.

RELIGIOUS ORGANIZATIONS
In Parting

We have hardly sufficient space here to acknowledge all of the work that has been expended on the subject matter between the covers of this eighteenth volume of the Blue Print, but the service of some stand out so that we cannot send this last page of copy to the press without recognizing their invaluable assistance.

The student body have proven themselves faithful friends of the annual by voting to place the entire cost of the book in the fees. It is they that have made possible the improvements of this year's book and to them is due the credit, should any be warranted. Dr. Side has been more than an adviser. He has been a kind friend and counselor and we want to thank him here for his able assistance.

The student that has done the most for the 1925 book is Will W. Griffin, the Art Editor. Little can be said here, but his work will speak for itself. Some kind fate prompted him to leave Northwestern University and enter Tech and he has practically single-handed turned out all of the art work for this volume. We are also indebted to Mr. E. M. Jackson, a graduate of Georgia Tech who is now a successful artist, for the frontispiece of this book. Out of love for his Alma Mater he was kind enough to give of his talent and valuable time, and I am sure that each Tech man will look with pride on the product of his labors.

White Studio and Lane Brothers have given us the kind of service that makes it possible to record a photographic history of the past year. We have tried to tell the story through pictures, where possible, and for this reason we have installed the rotogravure section. Some pictures have been left out, for which we are truly sorry, but some mistakes must enter into the handling of several thousand pictures.

It has been a pleasure to work with such men as Narmore, Butterfield, Bartlett, Griffin and Marshall. These men have all given many hours from their studies that you might have this book. We have ever kept in mind that Tech should have an annual that is worthy of the institution. It has been a labor of love and we present to you the Blue Print of 1925. May it mean to you—Georgia Tech.

The Editor.

Georgia School of Technology

"A TECHNICAL SCHOOL WITH A NATIONAL REPUTATION"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power. The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Courses in CIVIL, ELECTRICAL, MECHANICAL, TEXTILE, GENERAL, AND CERAMIC ENGINEERING, ENGINEERING CHEMISTRY, ARCHITECTURE, COMMERCE, INDUSTRIAL EDUCATION AND GENERAL SCIENCE.

Coast Artillery, Signal Corps, Air Service, Infantry, and Ordnance Units of the R. O. T. C.

KULL AND SKEY HAS PARTY
Entertain and Mingle With Brother Organization

The Kull and Skey, Sophomore selective sewing circle for Molly Maguires, last night entertained their allies, the Phi Kappa Phis at an informal tea slinging brawl.

To cement their friendship, the two organizations stuck together till a late hour. A special invitation was tendered the Hod Carriers Union, but, due to the fact that the President was out on a bat at the time in the gang’s dress suit, none of them were able to attend.

The entertainment consisted of a number of skits by the skittish members of the auxiliary. Miss Uneeda Date gave a clever impersonation of a chorus refusing a dinner invitation. The feature of the evening was a debate: “Does Mortar Keep Bricks Apart or Together?” which was won by the affirmative.

SPEAKER HERE FOR CHAPEL

Many Surprises

Today’s Chapel will be featured by the appearance of the Rt. Honorable Henry T. Earnsuff who will speak on the difficulty of catching the Pategonian Peewee in the Algerian Steppes. The speaker has traveled extensively and knows his oil from Castor to Tea Pot Dome.

The Collegiate Limps will furnish their usual ear-splitting music. They announce that they have secured the services of Eddie Thompson to play the tom toms exclusively for this performance.

Al Holder will cap the climax by singing the old blackface favorite, “Kitty of the K. K. K.”

NOT THAT

“Do you have a date tonight?”
“Yeas.”
“Tomorrow night?”
“Yes.”
“Next Friday night?”
“Yeas.”
“Now I hope you won’t go away and tell that I tried to get a date with you.”

Staff Photographer: “I’ve got a snapshot of the fleeing burglar.”

City Editor: “Good! Now take a time exposure of the police in pursuit.”

Old Lady: “Pardon me, are you a minister?”

Rough Party: “What the Hell did you say?”

Old Lady: “Nothing.”

Doc. Shirk: “Give me a short definition of a polygon.”

Pupil: “A polygon is a dead parrot.”

Negri: “Why don’t you use listerine?”

STUDENT CALENDAR

Yesterday: Girls’ Benefit Bridge, Mrs. Foster’s.

Someday: Art Ball, Roseland.

Tomorrow: Ted Lewis, Chapel. Y. M. C. A. Cabinet, Garber Hall.

Phone Wal. 1910

This part for good-looking readers only.

My, some people are conceited!

"Has you brother come home from college yet?"

"I guess so, or else the car's been stolen."

"I almost sold my shoes yesterday." "You did?"

"Yeh, I had 'em half soled." "Where can I get some gardeners?"

"I heard him softly hiss—"

"I'd like to find the guy who said that ignorance is bliss."

"I almost sold my shoes yesterday." "The sweet young thing: "Aren't you ever homesick?"

"Has you brother come home from college yet?"

"I heard him softly hiss—"

"I'd like to find the guy who said that ignorance is bliss."

"I almost sold my shoes yesterday." "The sweet young thing: "Aren't you ever homesick?"

"Has you brother come home from college yet?"

"I heard him softly hiss—"

"I'd like to find the guy who said that ignorance is bliss."

"I almost sold my shoes yesterday."
Doctor: "What's the excitement?"
Door-man: "Quick, the fire eater just burned his finger!"

"What's the matter, Mac?"
"Oh, I wrote my mother about initiation; and now she tells me she's planning to bring the family up to see it and wants me to get tickets for it right away."

Annette—"Ralph told me last night he's a woman hater."
Nanette—"Is he broke again?"

---

A woman is like an old house: The front view is the best. She requires lots of paint. The top story is empty and the roof shingled.

"You're hard to take," said the five-year-old to the bottle of castor-oil.

Absent-minded Professor P. D. Smith had left his berth in the sleeper to find a drink of ice water and was hopelessly lost in the middle of the aisle. It was about midnight, and the train was speeding through the country.

"Don't you remember the number of your berth?" asked the conductor.
"I'm—er—afraid not," was the reply.
"Well, haven't you any idea where it was?"
"Why, uh—oh, yes, to be sure."
The professor brightened up perceptibly. "I did notice at one time this afternoon that the windows looked out upon a little lake!"

"You never have any difficulty getting the connection?"
"No, the operator was a Co-ed. She gave me the line immediately."

---

**HINTS TO FRESHMEN**

**How to Make a Hit on Your First Fraternity Invitation**

Since most freshmen when they hit the campus, are of a color not unlike green, it has been deemed advisable to present in compact form several simple and helpful suggestions which will be a material aid to them in making a fraternity right off.

When the invitation comes, it will probably be to dinner, and, dressed immaculately, you should present yourself at the door exactly on the appointed hour. If you have any knowledge at all of hardware, you should be able to manipulate the meal fairly easily; but it is after the meal is over that the real test will come. After the demi-tasse, it will not be improper for you to draw attention to yourself by telling a very funny story; for instance, this one of Johnny Dooley's:

"I say," said the big hen to the little one, "how much do you get for your eggs?"
"Sixty-five cents a dozen," said the little hen.
"Sixty-five cents? Why don't you lay nice big eggs like mine? I get seventy cents for mine," said the big hen.
"Huh!" said the little hen. "You needn't think I'm going to exert myself for five cents a dozen."

A witty story like this will set all the fellows roaring and will establish your reputation as a humorist for once and for all. This display of tact on your part will practically assure you of a bid. Just about this time the cook will probably come around with a tray full of glasses of "punch," and he will probably ask you with all politeness, "With—or without?" There is of course, but one answer for you to make. You should immediately say, "No! I never touch the stuff! You know, when I was a kid I used to be president of a temperance league, and of course I am against all drinking." Fraternity men are constant admirers of virtue, and will long to welcome a man of your moral character into their midst. Your little speech will probably have so moved the man next to you that he will promptly say, "With."

When offered a cigarette you will again be faced with one of the fraternity chapter's tests of a man. The slightest hesitation and you will be lost irreparably! You should at once blurt out, "A cigarette? No! I have never touched a cigarette or any tobacco and I never will! I think it is a vile habit. I don't see what men get out of it. If I were a girl, I'd never even go with a man who had about him the detestable and disgusting odor of nicotine."

The men will about have you sized up by now, and you have but to comply with the following suggestions to clinch their opinion:

One of the men thinking it about time to start the Victrola will politely inquire (for fraternity men are gentlemen) your preference in music. This is a crucial point, and only too many freshmen have been lost by a reply made on the spur of the moment. I am sure that, with a little reflection, you will agree that this is the correct answer under the circumstances:

"Oh, any record sung by Challiapin—or Caruso!—or Alma Gluck!—simply thrills (clasping hands) me, and I'd love to hear some of their records!"

"Do you like jazz?" will be the next question.
"No," should be your prompt response.
"I think it the most senseless, shallow, (Continued on Page 350)"

insipid and pointless form of music, and I am speaking calumny to call it music. It is the harmony of the pagan, and has no place among civilized people."

"And do you dance?" (This question is bound to come; so you will do well to memorize this little speech by heart.)

"Dance? Well I should say not! I'm thoroughly disgusted every time I see a couple shuffling about—touching!—wasting hour after hour in this immoral, silly and unwholesome amusement. Reform must come, I tell you. It must come; and I am glad to think that I will be associated in this fraternity with a group of sensible fellows who can see the ruination to which the epoch of jazz is rapidly leading us."

In the impressive pause which follows, some one or two of the fellows will say "Amen" to signify their whole-hearted approval of your views, and tears will be streaming down their manly cheeks. If you find that a great many have suddenly left the room, you will know that your victory is complete. You will know that they have been deeply touched—that your talk has awakened in them thoughts of home and mother-love—and that they have gone to the privacy of their rooms to hide their weakness.

With a couple of hours necessary studying as an excuse, you should leave promptly at ten o'clock. Everybody will shake hands, but few, if any, will be able to look you in the face, for fear of giving vent to their true feelings before you—and before their fraternity brothers. If you have followed these suggestions closely, you have absolutely nothing to fear. You may go home with assurance and self-satisfaction. All you will have to do then is to wait for your bid—and wait, and wait, and wait.

---

**Wise Guy:** "What's the difference between a frog and pole-cat?"

**Dumb:** "I don't remember."

**Wise Guy:** "Well, the frog has a green back and all the pole-cat has is a scent; so the difference is about 99c."

There was a young girl in a fury,
Who took her case to a jury.
She claimed trolley 3
Had injured her knee,
But the jury said, "We're from Missouri."

The motto of a certain German society in this country seems to be "La Follette, we are beer."

"I heard a man who had thirteen spades and got the bid, but only took one trick."

"How come?"

"His partner led an ace, he trumped it, and his partner shot him."

The tightest man in the world is the Scotchman who shot off his pistol outside his house on Christmas Eve and then came in and told the children that Santa Claus had committed suicide.

"May I kiss you on the forehead?"

She: "Not unless you want a bang in the mouth."

Y: "Yes my wife has gone to the Indies."

O: "Jamaica?"

Y: "No, she wanted to go."
When the time comes for the graduates of the Textile Department to decide practical manufacturing problems, call freely upon our organization, which has been founded upon more than one hundred years experience in building Textile Machinery.

We build all the equipment necessary to manufacture cotton from the bale into finished yarn.

Stage Manager—All right, run up the curtain.

Green Stagehand—Say, watcha think I am—a squirrel?

He kissed her in the garden,
When the moon was shining bright,
But she was a marble statue, and he was drunk that night.

"Helen, I declare, your dress barely covers your body."
"What's the matter with my body?"
"How are you getting along with your girl?"

"She won't speak to me any more. I kissed her, and when she said it wasn't nice, I admitted it."

"Why didn't you kick that last field goal, Jake?"

"Sorry, sir, but I promised never to touch another drop."

"I'll bite, what is it?" said the mosquito to his mate, as they landed on the wax model.

"Do you know how to approach a woman with a past?"

"No; how?"

"With a present."

Conductor—What street did you say you wanted?

Soused—What streets have you?

She (after a tiresome evening)—Well, good night. Be good!

He (brightly)—I always am.

She—Yes, I'm afraid you are.

Freshman—Two milk shakes.

Freshman (later)—Change mine to a limeade.

Clerk—What do you think this is? A sleight-of-hand-show?

"There goes a corker."

"Yeah, she's working in the bottling works."
The simple construction of Clark Axles provides motor trucks with greater operating efficiency and longer life.

CLARK EQUIPMENT COMPANY
Buchanan, Michigan
Wilson—"That girl reminds me of a packing house."

Brothers—"How's that?"

Wilson—Well, when you get your Armour 'round her she's Swift—& Company.

The customs-officer eyed the bottle suspiciously.

"It's only ammonia," stammered the returning passenger.

"Oh, is it?" said the customs-officer, taking a long swallow.

It was.

Our idea of a soft job is that of assisting a florist to pick the flowers off the century plants.

Temperance Lecturer: If I lead a donkey up to a pail of water and a pail of beer, which will he choose?

Soak: The water.

Temperance Lecturer: And why?

Soak: Because he is an ass.

A large majority of the girls aren't as dumb as they look; they couldn't be.

When I was a boy, a girl to me
Was a wonder of beauty and modesty;
In a simple frock and a ribbed hat
And a peeping bit of well-shod toes.
But of legs and ankles and knee high hose,
Take my word
Though it sounds absurd.
There was really truly none of that.

The co-ed today is a different affair
In Russian boots and Bolshevik hair
Curled and kinked in a two-dollar wave,
Powdered and rouged with no sense of guilt
Less a girl than a crazy quilt
To look twice at
A girl like that
Indeed, my boy, you must be brave.
