THE BLUE PRINT
1931
Published by the students of the
GEORGIA SCHOOL OF TECHNOLOGY
THROUGH the Guggenheim Foundation the Aeronautics Department was founded at the Georgia School of Technology. This 1931 Blue Print is dedicated to the memory of Daniel Guggenheim, who founded the Guggenheim Foundation for the advancement of Aeronautics.
FOREWORD

This book has one object in view—
that of preserving, for the years to
come, an authentic record of the cam-
pus life during the school year of
1930 and 1931. Should the reader
be able to open this volume in the
later years of his life, and relive the
scenes and incidents presented here,
our efforts will not have been in vain.

Book VI »  »  »  »  Evening School
Book VII »  »  »  »  Features
THEME

With the addition of the Aeronautics Department, the Board of Editors of this publication thought the allegorical presentation of aviation, and a modern treatment of the material contained in this volume, would best set forth the activities of this school year as they occurred.

The art work is something distinctly different—ranging from single-line pen and ink sketches, to wash drawings done in crayon. The attempt has been made to make this book as direct and true as it could possibly be made. We want this volume to be light and airy, rather than stiff and formal.

Each part of the volume which is called a Book is complete in itself, and is intended to give that effect to the reader.
With the passing of time views are blurred and memories are dimmed. It is difficult to call to mind those scenes, and those men who were so familiar during college days.

THE founders of the GEORGIA SCHOOL OF TECHNOLOGY hoped and believed that the men, trained here, would be leaders in developing the resources of the State and Nation. In reviewing the work of our Alumni, we find that those limits have been extended beyond our own country, and that the sons of GEORGIA TECH are in foreign lands as well. We have pardonable pride in their achievements, and are certain that we shall not be disappointed in the men of the CLASS of 1931.

M. L. Brittain
President.
ONE of the first things the student, upon entering Georgia Tech, learns is that Dean Field fulfills his post as a fair, square man; from whom the student may be assured of a fair deal during his four years of work.

To meet the requirements as Dean of Men requires a man who thoroughly understands students, their trials and their problems—Georgia Tech has found this man in Dean Field. On his shoulders rests the harmony between the students and the faculty.

THROUGH the discerning management of Mr. Houston, as Treasurer, the school has been placed on an efficient and economical basis. The care of fees, upkeep of buildings and dormitories, dining hall, payments of salaries, and many other duties come under Mr. Houston’s jurisdiction. This office is accountable for the administration, upkeep, and financing of this institution.
HUGH HARRIS CALDWELL
A.B.
Registrar and Secretary

ENTRUSTED to the Registrar is the investigation of prospective students of Georgia Tech, and the keeping of the records of their courses and grades after the students have been accepted, and begin their lives as Georgia Tech students.

Through the efforts of Mr. Caldwell, a system of maintaining these files of records has been incorporated which has been used as standard practices by the American Association of Collegiate Registrars, of which Mr. Caldwell is a member.

ARTHUR VAN HENRY
Cer.E., Ph.D.
Head of the Department of Ceramic Engineering

WITH a rapidly growing reputation the Department of Ceramic Engineering has become the recognized leader of this field in the South. By establishing this department in 1924 Georgia Tech showed the progressive spirit for which this institution is noted.

Under Dr. Henry the course in Ceramic Engineering takes up the study of the principles of ceramic materials along with a practical knowledge of manufacturing and designing of ceramic products; supplemented by research, laboratory work, and tours to the different factories producing tile, pottery, and other kindred substances.

HAROLD BUSH-BROWN
M.Arch.
Head of the Department of Architecture

THE Department of Architecture has as its objective the training of men in the principles of design and construction. For twenty-two years this department has earnestly endeavored to teach the professional side of its work as well as the essentials of a liberal education. The four-year course has become, under Professor Bush-Brown and his associates, one which ranks as the finest course in Architecture in the South.

The courses offered are those which are of the most interesting type in the field of Architecture. The degree of Bachelor of Science in Architecture is one of which a student may be justly proud.

GILBERT HILLHOUSE BOGGS
Ph.D.
Head of the Department of Chemistry

THE degree conferred by this department is that of Bachelor of Science in Engineering Chemistry. Because of the basic work required by other branches of engineering, in the subject of Chemistry, this department is one of great importance at Georgia Tech.

With the guidance of Dr. Boggs, the department has grown to be one of the best equipped. To aid him he has had an able corps of associates who are making the degree from this department one with a national reputation.
The student who graduates with the degree of Bachelor of Science in Civil Engineering finds many fields open to him, among them: Construction, Highway Engineering, Railroad Engineering, and any other number of allied fields.

Dr. Snow as head of this department and his associates make this course one of the most practical offered, for the student upon receiving his degree finds his course one he is ready to use. The department has kept pace with the times by broadening its scope of subjects belonging to the Civil Engineering field.

James Erskine McDaniel
M.A., LL.B.
Director of the Co-Operative Department

This Department has grown, so that now in its nineteenth year of existence, the men enrolling in this department are limited to students who show above average ability. Starting next September the course is so arranged that the student spends twelve weeks at school and twelve weeks at some engineering or commercial job.

The department under Professor McDaniel, confers the same degrees as those of regular school, except that the course requires five years for its completion. The Co-Op student thus receives both the practical application and the theory of the science he is studying.

Thomas Witt Fitzgerald
M.E., E.E., M.S.
Head of the Department of Electrical Engineering

In the modern age oftentimes referred to as the machine age, there is very little wonder that a larger and larger percentage of students are taking degrees in Electrical Engineering. Modern science demands a knowledge of electricity and electrical appliances. Not only does this course teach the student to control electricity, but with it is included a study of Construction Materials, Steam Engineering, and Mechanics.

Under the guidance of Professor Fitzgerald, laboratory courses are given so that the theory may be applied under careful observation. Tests are made that are beneficial to the finished Engineer.
Roy Stevenson King
M.E., Sc.D.
Head of the Department of Mechanical Engineering

With the advent of the combustion engine the very fabric of Commerce was changed. With this change it was no more than natural for youth of the day to respond to its gigantic possibilities. Professor King has rounded out a well co-ordinated Department which equips the student with a competent knowledge of mechanics and how they may be applied to mechanical modern world.

The student has the option of diverting his studies toward Automotive Engineering, Power Plant Engineering, Industrial Engineering, or Regular Mechanical Engineering. All of these lead to a degree of Bachelor of Science in Mechanical Engineering.

Allan Benton Morton
M.A., Sc.D.
Dean of Summer School

The Summer School performs a two-fold purpose; first, it helps the prospective Freshman make up the required work for entrance, and second, it enables men to make up work and to take a full time schedule at all times.

Dr. Morton is a wizard at the art of applying the necessary medicine to sick schedules in his Summer infirmary. Much of the success of this part of Tech is due to his efforts.

Heriard Spenser Busby
B.S., M.E.
Director of the A. French Textile School

With the trend of modern day business to move production to the source of supply the Southern States are increasing their number of spindles. The A. French Textile School, with the perfection of fabrics and methods in the Textile industry, also advances and the Textile Engineer is given a thorough course not only in the dealing with the use of cotton for rough cloth, but as it is used in Rayon, and other special fabrics as they are perfected. Practical work on modern machinery equips the graduate to take his place in the Textile world with a knowledge of its actual workings.

Professor Busby offers a four year course leading to a Bachelor of Science degree, and a special two-year certificate course.

Montgomery Knight
B.S. in E.E.
Head of the Department of Aeronautics

When the Guggenheim Foundation founded the new Department of Aeronautical Engineering at Georgia Tech, it placed this institution in an enviable position, as an engineering school. The requirements for entrance to this department are two years of Mechanical Engineering, then followed by an exhaustive study of aero-dynamics, and the principles of design and mechanics of aviation.

The degree which is gained by the students of this branch of Science is Bachelor of Science in Aeronautical Engineering. This is one of the most attractive courses offered at Georgia Tech.
FACULTY

Civil Engineering

F. G. Snow, C.E., S.C.D.
C.E., Ohio State University; S.C.D., University of Georgia; A. I. E.; E.; A. S. C. E.; A. M. A. E.; Phi Kappa Alpha; Tau Beta Pi; Square and Compass.

Ralph L. Kemerer, B.S.  Phi Sigma Iota.
BOOK II
Each hour we have spent in the classroom is often recalled and we remember the friendships we formed there. These friendships grow dear as the years creep upon us.
After four years of work the Seniors are going forth to become tomorrow's engineers and business men. Long have they labored and stood, at last, ready to begin their lives as men of the world.

The 1931 Blue Print.

Dear Editor:

From the group of portraits submitted to me for selection I have chosen these reproduced not because of the popular qualities desired in a pretty picture but because of qualities that I feel exist and which might be called beautiful rather than pretty. Character, high ideals and good health have swayed me considerably in my choice and these I feel exist in these portraits.

Very sincerely yours,

L. P. Shidmore,
Director.
JUNIORS
The Juniors now stand where they command a view of the road they are to follow. One more year and they will enter the game of Life equipped to do their share, as men of the world.

</table>
Many are the trials which will confront the Freshman, but if he wears a smile the goal of graduation will not be so hard. Keeping in mind his Alma Mater, the Freshman will succeed.
To start this campus section is a sign, the first notice of the new Aeronautical building; then comes a well known campus initiation. How familiar to Tech students, is the sign on Harris dormitory. A student with his books, quite in keeping with Tech's traditions. Lastly the scene we all remember—Tech Band in its famous "T" formation. A secret also, for this bell is the only "bell" on the campus.

Starting off this page we find the Drum Major and his sponsor marching gayly across the field. Then comes an inspection of the Army—perhaps; young musicians doing their "worst." Gaze upon the navy bridge—but it is a dry one, this does not hinder a cruise to far off lands. We will let you guess who this professor might be. Football—at one of the exciting stages of a game, played on Grant field.
ONE of the interesting fun provokers at Tech is the Scabbard and Blade initiation as we can see above. The building shown is the shop where Techites learn many things of interest. Again the Army shows itself, variety of uniforms to say the least.

The "kick-off" and another game is under way, for the gladiators of Grant Field. Five worthy individuals who have learned a thing or two that is required of Tech students. And at last we have come to a man who has much to do with our financial problems—Mr. Houston, treasurer, extraordinary.

IN order that the reader might not forget the warning sign we have reproduced it here. The A. French Textile building—many yarns have their origin here. More Army, lest we forget. Fun for the swinger of the broom, but rather hard on the other man. The fountain where many a freshman has learned a startling lesson. The last picture shows how the time between halves is spent.
ON this page the reader sees the Tech dining hall, one of the finest buildings which is included in the greater Tech program. The library, with its many fine books, offers a quiet retreat from the bustle of classes. Below the library is a snap of the Ceramics building, one of Tech's many interesting departments.

More of the comical side of campus life is also shown in the next snap. A well filled stand and a rather tense moment at a game. In the lower right hand corner is an unusual picture of the block "T" formed by the students during a game.

NOW we have progressed beyond the sign stage of the Aeronautical building and see it in construction. Then comes another football scene. Standing in the center is a man we all know. If in the next picture you are wondering what the signs on the men's backs are, we won't tell you. Lower left is a member of the military faculty. Football snap showing the dormitories in the distance.
This page is to refresh the memories of the navy students and we hope they will be able to recall many happy incidents through the aid of these snaps. First there is the seaplane and its guardian. Then action in the handling of one of the guns. An officer of the Mississippi. Looking down on the deck afforded this next photograph. Who may this quartette of men be? The two lower left hand pictures show how energetic is the life on board the ship Mississippi.

The end of the campus and snap section draws near. May these scenes recall with feeling some of your days on Tech's campus, if they do we are happy. Now the press box, where news of Tech and her power are sent to the sporting world. Another view of the dining hall. Below we find the building first mentioned almost in its final stages of construction. As two parting views, first the path that leads across the square; lastly the band leaving the field, flags flying—and with them we close.
Long after our college days are over, we will remember the many hours of pleasure derived from our work done in the field of College Activities. This endeavor comprises much of the college life of a student who wishes to recall fondly his Alma Mater.

The Staffs of the 1931 Blue Print have attempted to portray the events of the 1930-1931 school year in a modern manner. It is their wish that the readers of this volume may find in it an accurate presentation of the happenings of this year at Georgia Tech.

Departing somewhat from the usual type of art work it was the purpose to combine the modern trend in art and the theme of aviation in a pleasing blend that would make a fascinating volume.

The Editor-in-Chief and the Business Manager wish to thank the members of the Staff who have aided in the assembling of the material used in this book.

Here also, the builders of this edition wish to express their appreciation to Miss Helen Morgan, of the Southwestern Photo-Process Engraving Company, Stanley Marquis, of White Studios, and to Clayton Webb, Earl Sanders, and Ben Bailey, of Foote and Davies Printing Company, for their guiding hand in the preparation of this annual.
Under the guidance of Ed Davis and Hub Lesley, The Technique, this year has done its part in giving to the students of Georgia Tech, each week the news of events happening on the campus. Not only is The Technique the medium through which the students acquaint themselves with the news as it occurs, but through the editorials that have been run in its issues student affairs have been guided along the right channels. During this year The Technique has maintained its reputation as "The South's Liviest College Weekly."
Since the Yellow Jacket's beginning, ten years ago, the magazine has grown in popularity. In 1931 it has definitely mounted to a place of national prominence among college magazines.

The Yellow Jacket is a Tech tradition. In the past this medium has voiced student opinion in such a way as to bring about criticism that has proved helpful, and the editorial policy is one that endorses worthy and constructive moves relating to the campus life.

This year the Yellow Jacket has had its "ups and downs". Difficulties were encountered at the beginning of the term, some stating that the magazine had no place on the Tech campus, but through a change in policy the Yellow Jacket has received the hearty co-operation of the faculty. It has departed from the rather pointless joke periodical, and presents student affairs, thought, and campus life.

BOOK IV
On the field of honor and sportsmanship we learn how to lose and how to win. This quality carries with us through our lives and actions. To give and to take is here taught, and we learn one of Life's greatest lessons.

Edward P. Davis
COACH WILLIAM A. ALEXANDER
Football

FOR eleven years Coach Alexander, known to all as Coach Alex, has been a mentor in Southern Athletics. Georgia Tech is indeed fortunate in having so wise a man to head its athletic endeavors. His football team has become known from Coast to Coast, as one with the "never say die spirit".

COACH ROY MUNDORF
Basket-ball

THROUGH Coach Mundorf's efforts the basket-ball team has become one of the best in the South. During his seven years at Tech he has carried on the mid-year athletics in a superb manner. Besides being head coach of basket-ball he is assistant coach of baseball.

COACH ROBERT ALVA CLAY
Baseball

COACH CLAY, who is baseball coach and coach of the Freshman football team, has been on the Flats for sixteen years. During this time, he has aided in the building up of Tech's athletics, and has become known as "Kid" Clay. It is with him the Tech freshman starts his college athletic career.

COACH EDWARD B. HAMM
Track

COACH HAMM, holder of the International Olympic Broad Jump record, is now coach of Georgia Tech's track squad. In the selection of Ed Ham as track coach, a wise choice was made because of his proven ability.

COACH WILLIAM A. ALEXANDER

NATIONALLY known not only as a football coach but also as a builder of men, Coach William A. Alexander has, during his years at Georgia Tech, won the loyalty and esteem of all who have come in contact with him.

As a member of the National Rules Committee, he has been instrumental in making football the game that it now is. Tech may be justly proud of so great a coach as "Coach Alex."

CAPTAIN EARL OWEN DUNLAP

CARRYING with him always a spirit of true sportsmanship, Captain Earl Owen Dunlap has performed his duties as captain of the football team in a commendable manner.

Under his leadership, the spirit of the team never faltered. Though handicapped by injuries which prevented his best efforts, he was a field captain Tech will long remember.

GEORGIA TECH'S football establishment in 1930 passed through what perhaps was the low point of the downward swing of the pendulum that began its descent after the Yellow Jackets defeated the University of California in the Rose Bowl, Pasadena, January 1, 1929.

In the fall of that year a team, riddled in the rush line by graduation of many stars of that memorable game, won but three out of nine games in the fall campaign. Then last year a handful of survivors of the far western triumph plus a fleet of earnest but inept Sophomores battled through another hard schedule, winning two and tying one out of nine games.

That the Tech gridiron fortunes reached the extreme of depression and now have started upward is sensed by the vigorous action taken by the athletic board at instance of Head Coach W. A. Alexander at the close of the season and the powerful address made by the head coach at the annual football banquet.

Coach Alexander pointed out that in ten years of athletics at Georgia Tech, including that New Year's game, the Gold and White had won 7 out of 10 contests in all sports. In the two-year period then ending they had won 1 out of 10. He pointed out that this undoubtedly was caused by a lack of the traditional spirit. He blamed campus politics for the spiritual decay. Then for the first time in Tech football history the head coach announced that no election of football captain would be held by the letter winners. He proclaimed that all would report for spring practice on an equal basis and that in the fall a captain would be elected from those eligible for the team.

Bill Fincher, line coach, and Mike Miles, backfield coach, were replaced respectively by Jack Cannon, of Notre Dame fame, and Bobby Dodd, the Tennessee star. The revamped coaching staff has just concluded an inspiring period of spring practice in which the old Tech spirit is reflected in the squad. Prospects are that Tech's 1931 team will begin beating back toward the heights that were held by the Gold and White for more than a decade.

The 1930 football season was disappointing but inevitable. In the line were the last few of the Rose Bowl stars but the backfield material was mostly inexperienced. Sid Williams and Harold Oltz, experienced backs and punters, were lost to the squad before the first game was played. Then an unprecedented run of injuries cost the services of Captain Earl Dunlap and Douglas Graydon, other experienced backs. This left the burden to be shouldered by a group of first year men who fought gallantly but lacked the experience to cope with the calibre of opposition on Tech's schedule.
The Jackets won an easy victory over South Carolina in the opening game 45 to 0. It was too easy a victory, perhaps. Every break came the way of the Engineers. It gave them an unwarranted feeling of confidence and perhaps led them into taking their next week's practice too casually.

The turning point of the season came suddenly and with sickening precision on the field at Carnegie Tech. The Skibos fell upon a Tech team that was utterly unable to cope with the swift running attack and they were routed 31 to 0. That defeat no doubt made a powerful impression on the Sophomore backs. Dunlap and Graydon were hurt early in the game and the heavy Carnegie Backs ran past the youngsters all afternoon.

The Yellow Jackets limped back home and worked hard to get ready for Auburn. The Plainsmen got the jump, however, and scored two touchdowns in the first half. It looked very bad indeed for the home club. But they came back doggedly and launching a cool, well-knit offensive, they scored two touchdowns themselves and kicked both goals to net a 14 to 12 victory. That achievement was a far greater performance than was believed at the time. The Sophomore backs performed well indeed.

Tulane, later to emerge undefeated, came to the Flats next with a superb eleven that struck hard and fast and scored three touchdowns in the first half. Defensive weaknesses permitted the Greenies to dash through the Jacket line for two long runs for touchdowns; the other counters came easily. The final score was 28 to 0.

With two defeats in four games played, the Yellow Jackets rallied and reached their best form against North Carolina the next week and yet could get no better than a 6-6 tie. They outplayed the Tarheels considerably yet the breaks cut down their effectiveness.

Florida came to Atlanta Thanksgiving Day and won by the tremendous score of 55 to 7. It was the worst defeat ever suffered by a Tech team on Grant Field. For one quarter the Yellow Jackets looked superior to the enemy and scored a touchdown. Then the Gators started running and passing. Every move the Gators made counted for yards and touchdowns. Tech gained nearly as many yards from scrimmage as Florida did, scored first and kept on threatening. But by one of those queer turns of football, every time Florida got the ball a touchdown was rung up on a pass or long run. There was nothing to do but grin and bear it.

In the ten days that intervened before the Georgia game, Coach Alexander put his men through strenuous practice. He gave them new formations. And the boys sobered by their harrowing experiences got down to earnest work. The Yellow Jackets played their best game all around against Georgia. They wrestled furiously with one of the best elevens Georgia ever had but yielded a decision 13 to 0. It was a great game, magnificently played by both sides. There in the twilight of the season a Tech team that had gamely taken every rebuff the gridiron can offer rose to its greatest performance and in some respects Georgia had to play its best game to win.
COACH MUNDORF'S basketeers managed to flash their golden jerseys about the court in a big way this season, with lots of fast passing and shooting as well as a stone-wall defense. As for scorers, gentlemen, they had them.

Bill Perkins, that long, rangy center, shot baskets from every angle and piled up enough points to break the Southern Conference scoring record by a big margin. Gooding had a wonderful record which was also above the Conference mark.

Although Phillips' scoring did not rank with that of Perkins and Gooding, his passing and fast floor-work was largely responsible for a number of the Jackets' victories.

The defense, led by Captain Wages was a stumbling-block to every opponent. They worked like well-oiled machinery and carried the ball into their opponents' territory with a lightning-like precision. Wages was all over the court dribbling around and through the opponents to bring the ball into shooting territory, while Tate was always on hand to block any shots that might come his way.

Philips  Raines  Sullivan  Herron

RAINES, the Vienna "flash", was lost to the team practically all season due to a leg injury, but should be in shape next year and promises to be one of Tech's best men.

As first string substitutes, Tech had Tom Jones, Ed Herron, and McArthur of football fame; Mathes at guard and Sullivan at forward. They were always on hand with a good many points which brought Tech several victories.

The team started out the scheduled season with three defeats handed them by South Carolina, the Atlanta Athletic Club, and Florida. Then the tables turned and they scored a win over Vanderbilt, only to be downed in their next game which was with Georgit.

The Tech men then redeemed themselves by coming back and winning three straight victories over Auburn, Tennessee, and Georgia. Vanderbilt, the next encounter to follow this winning streak, was not so submissive as before, and got the edge on the Tech team as did Kentucky in the next game.
Tennessee came along and fell with a big thud, but in the third game with Georgia there seemed to be something lacking and Tech had to give up another victory to the Red and Black.

Kentucky took advantage of the team's temporary downtrodden spirit and played for another win. Then with a suddenness that was breath taking the Jackets got right and won the last three games of their schedule from Alabama, South Carolina, and Auburn.

Having won nine out of seventeen games, Tech went into the Southern Conference Tournament with much determination, but alas and alack, without several good men, and were put out only after a very closely fought game with the flashy Florida team.

### SEASON SCHEDULE

| Georgia Tech | 23 — South Carolina | 30 |
| Georgia Tech | 27 — Atlanta Athletic Club | 40 |
| Georgia Tech | 31 — University of Florida | 39 |
| Georgia Tech | 44 — Vanderbilt | 35 |
| Georgia Tech | 30 — Georgia | 39 |
| Georgia Tech | 32 — Florida | 23 |
| Georgia Tech | 49 — Tennessee | 29 |
| Georgia Tech | 37 — Auburn | 33 |
| Georgia Tech | 37 — Georgia | 19 |
| Georgia Tech | 32 — Vanderbilt | 45 |
| Georgia Tech | 34 — Kentucky | 38 |
| Georgia Tech | 33 — Tennessee | 25 |
| Georgia Tech | 15 — Georgia | 44 |
| Georgia Tech | 16 — Kentucky | 35 |
| Georgia Tech | 23 — Alabama | 19 |
| Georgia Tech | 41 — South Carolina | 17 |
| Georgia Tech | 47 — Auburn | 21 |
GEORGIA TECH'S Baseball Squad started out the 1931 season with the Reading, Pennsylvania, team of the International League. They went through the Jackets for three straight games in their professional style. Each game only lasted seven innings as it was still training season for both teams, and Coach Clay was sounding his way out and smoothing off the rough edges before the plunge into the regular conference schedule. In these games the Tech team was hitting the apple, but the Northerners' fielding seemed to hold them away from the home plate.

Following this series of games Tech jumped into the Southern Conference schedule by playing South Carolina in Atlanta. The first game was a big storm and the visitors got eleven hits for eleven runs, while the Jackets only brought in one run. The second game, however, was not an excuse for a sob story as the boys from Carolina got only four runs to Tech's three.

Mercer was the next in line and Kid Clay's boys journeyed to Macon, where they lost their first game to Mercer seven to nine. The next day they got up with more "vim, vigor, and vitality" and came through for a thirteen to one victory. Still they were cracking the ball and netted twenty hits in these two games.

Gainesville, Florida, was the next stop where the Tech Squad met the Gators for the third series of the season. Again they were not able to click and bring in those runs, and lost both games to the Florida boys by a small margin.

The next few days after returning to Atlanta were spent in strenuous practice, preparing for the coming games with Oglethorpe. The first game was called on account of darkness after eight innings, but netted another win eight to seven for Tech. Next day the Petrels took the game by a close six to four victory over the Tech Squad.

McKee, Farmer, Ritchie, Capt. Holt, Waldrep, Hogsed, Isaacs, F

FOLLOWING the game with Oglethorpe, Mercer came to Atlanta, determined to win, but to no avail as the boys from the Flats took the first game by hard hitting and excellent fielding, with a score of seven to three.

There remain thirteen games yet to be played on the schedule. As the season goes on the Jackets should be able to go through rest of their games and the end of the season promises to find Tech near the top in the Southern Conference.

Captain Fred Holt, first baseman, is an able leader and has that knack of snatching them in from all directions. He can always be depended on for a hit when it is most needed. In the infield are Isaacs, Ritchie, and Hogsed, who are good support for any pitcher and a crew of hard hitters. The outfield is composed of McKee, Waldrep, and Harper, who know what is expected of them and are men able to deliver the goods whether it be fielding or knocking the ball out of the lot.

In the box are: Baker, Everett, Mitchum, Crowley, and Henderson. What can be done with a baseball, these boys do. Strange as it may seem these boys all have an eye for the ball and rank with the best of them in bringing in their share of hits. Behind the plate are Farmer, and Dawson. Their pegging arms cannot be beaten, and they also are able to send a number of hits far out into the field where no one seems to be waiting for them.

Tom Wilson, and A. O. Evans, are the Senior managers this year and are doing a fine job in keeping the affairs of the team straight. A lot of the spirit of the team depends upon how well these managers do their job, and this year the Baseball Squad has two managers who know their stuff.
BASEBALL

Besides the Southern Conference, Tech is a member of the Dixie League, organized by the coaches of the leading colleges of the South. Coach Alexander is president of this league and its purpose is to stimulate more interest in college baseball. In the near future this should be one of the leading conferences in the country.

THE results of this year's Track are not obtainable at this time, as the season is not over as this publication goes to press, but we will endeavor to give you the results so far.

The results this year so far are as follows:

In the first Indoor Meet at Chapel Hill the outcome was not as good as could be expected, for Tech only placed two men who scored any points at all. This was due to adverse weather conditions and the fact that the members of the squad were not in their best condition.

The next meet was against Furman in which the squad came through with a score of 91 to their opponents' 35. In the North Carolina meet the following week the team was defeated by the score of North Carolina's 88 to Tech's 38 points, but this shows a decided improvement over last year, as the score was then 107 to 27, in favor of North Carolina.

As the rest of the meets have not been run as yet, we can only give the schedule that is to be followed:

April 18 — Clemson at Clemson, no meet because of quarantine.
April 28 — Southeastern A. A. U.
May 2 — University of Georgia, in Atlanta.
May 9 — Auburn, at Auburn.
May 15-16 — Southern Conference Meet, at Birmingham.

LaForge, Williams, Bailey, McCarty, Foxhall, Cain, Goldsmith

MUCH of the success of this season depends on the following men:

Asbury: Harrell is the Captain of Cross-Country and of the Squad this year. He is a half-miler, and an excellent distance man.
LaForge: Charlie is a 220 and 440 man, and much is expected of him this year. He is a Junior and will be with the Squad next year.
Goldsmith: Jerry is also a 220 and 440 man, and has shown up very well. This is his first year and so far he has made a fine record.
Cain: Tom is the discus thrower and a prospective record breaker.
Weatherford: Due to the fact that Bus has pulled a muscle he has not been able to put forth his best efforts.
Viereck: A new man on the team this year, but one who proves to be a threat in the 100 and 220.
Foxhall: So far this season Ed has carried Tech's colors in the high and low hurdles.
Williams: Up from the Freshman ranks of last year, Herb comes as a brilliant dash man and low hurdler.
Graydon: Doug placed in the Intercollegiate Meet last spring. He is a veteran of the Squad and will no doubt hold up his record.
Jones: In the putting of the shot and throwing of the discus, Casey will uphold his part of the team's efforts.
DeJarnette: A consistent pole vaulter to whom we are looking for honors in this event.
Bailey: A shot-put man of no little ability.
Geggenheimer: A distance man who can be depended upon.

Geggenheimer, Wilson, Jones, Viereck, Graydon, Reed, Lawrence
To become a member of the Varsity Squad a Freshman must go through a year on the team from which Tech draws her future track stars. Under the coaching of Ed Hamm, whose record is known to all followers of collegiate track, the Freshman is under a man who knows from experience just what is required to make champions.

Up to the time of the writing of this article the Freshman Squad has had only one meet. That meet was with Tech High School, and it ended in a tie.

Those showing promise this season are Gatlin, Miller, Murray, Kelly, Edwards, Prest, Wardell, and Archer.

The schedule of the rest of the spring is as follows:

April 16—Boys' High School.
May 2—University of Georgia Freshmen.
May 9—Auburn Freshmen.

TECH'S cross-country team started off last fall with an overwhelming victory over Clemson. The next opponent was Georgia and that old jinx along with tough luck crept upon them and they lost to these old rivals of ours by only a few points. In the third meet the Jackets met Auburn and though they battled hard they were downed by the long-winded Plainsmen.

Captain Harrell Asbury was the life of the team and his loss by graduation will be greatly felt. However, under the guidance of captain-elect Geggenheimer, next year's team should be able to "show their stuff". Along with Captain Asbury, three other seniors will not be back next year.

Those who received letters were: Asbury, Geggenheimer, Lenard, Read, Wasden, Furlow, Von Hermann, and Johnson.
TENNIS

Tech's netmen were hitting a fair stride in the 1930 season. Having won three matches, tied three, and lost four, they went into the Georgia State Intercollegiate Tournament with lots of determination. In the singles Captain Williamson went to the finals, but was defeated in a close match. Goldin and Conniff, Tech's doubles team, drove their way through to win the doubles title.

Captain Williamson, Sid Goldin, and Pinkie Reybold played their last matches for Tech this year and left places to be filled, but with Conniff back as a stellar player, and some prospective men coming up from the Freshman class, the outlook for 1931 is very good.

Team Personnel for 1930:
Captain Williamson, Reybold, Goldin, and Conniff.

The season:
- Tech defeated Tennessee
- Tech lost to Florida
- Tech tied Kentucky
- Tech defeated Sewanee
- Tech lost to Alabama
- Tech lost to North Carolina
- Tech lost to Tulane
- Tech defeated Georgia
- Tech tied Georgia

1931 Squad

GOLF

Tech's 1930 Golf Team did well in holding its own against some exceedingly stiff competition. During a trip through the East, they managed to grab a victory from Swathmore, but found Pennsylvania's and Princeton's experienced men a little too much for them.

In our own Southern Conference, they won four out of the seven matches played and at the Conference Tournament in Birmingham, Ed Herron qualified for the final round. With three men back for the 1931 Team, they should stack up with the best.

Team Personnel for 1930:
Captain Charles Brimby, Scott Hudson, Ed Herron, and Dick Voorhes.

The season:
- With Florida
- With Sewanee
- With Vanderbilt
- With North Carolina
- With Alabama
- With Georgia
- With Swathmore
- With Pennsylvania
- With Princeton

1931 Squad
THE Georgia Tech Swimming Team began a very successful season this year under the capable direction of Coach Raymond Eaton, who was able to get the team into condition to defeat all opponents by a large number of points. For the fifth year the Tankmen have brought the Southern Conference Swimming Championship to Tech.

Only six veterans returned from last year, among them being Fleming Cooper, who captained this year's team; Alfred Kennickel, high point man of last year and alternate captain of this year, and Ed Fain, team manager.

Too much can not be said in praise of the Sophomores this year. Especially is this true of "Ish" Williams, who was not only high point man this year, but also brought fame to Georgia Tech at the National Collegiate Swimming Meet in Chicago by placing in the fifty and hundred yard dashes. Williams also made a name for himself in the South, by establishing new Southern Conference records in the fifty and hundred yard dashes. It is very unlikely that these records will be broken, unless he himself does it. Williams is also on the record breaking Medley Relay Team, the other two members being Charles Wagner, and Van Brown. Harry Stover, another Sophomore, did very well in diving and fifty yard events, and was second high point man. Charles Wagner set a new Conference record in the back-stroke.

The season's results for this year were as follows:

<table>

In the Conference Meet Tech made 53 points, and the closest opponent, Georgia, made only 26.

1931 Squad

COACH EATON, COOPER, KENNIKEL, WAGNER, WISE, GOWAN, PATTEN, J. INGLE, BROWN STOVER, ADAMS, C. INGLE, WILLIAMS

BOXING was again a big success under the able coaching of Mike Chambers this year.

A preliminary tournament was held early in February and four men were picked in each class to compose the squad. These men underwent a siege of strenuous training for a month and a half and when the final tournament rolled around late in March, the boys had just about reached "pro" form.

In the finals of this tournament Norton defeated Scordas in the fly-weight class; McNicholas retained his title over Owens in the bantam-weight class; Jim Thompson carried his title over Rip Hardeman in the feather-weight class, while Blev Thompson lost his light-weight title to Hearne. Freyer won in the welter-weight class over Berlin; Morris defeated Hungerford in the middle-weight section; Adams won over Singleton for the light-heavy-weight title, and Lackey pounded his way through Cherry's guard to take the heavy-weight title.

Those receiving varsity letters were: Norton, McNichols, J. Thompson, B. Thompson, Hearne, Freyer, Merry, Morris, Adams, and Lackey.

1931 Squad
THE Rifle Team this year won first place in the Fourth Corps Area Match, and was awarded a Team trophy. The individual members received medals.

The Tech Team has been selected as one of the two teams to represent the Fourth Corps Area in the National Intercollegiate Match.

Two teams have been entered in the William Randolph Hearst Trophy Match. One of these teams won second place last year, in the Southern Division for Senior Units.

The personnel of the team is as follows:

Prof. T. R. Moremus, Coach and Advisor. P. F. Wimberly, Assistant Coach.

FENCING

THE Georgia Tech R. O. T. C. Fencing Club was organized three years ago mainly through the efforts of Prof. R. T. Moremus, P. F. Wimberly, and W. A. Ruth. The passing of three years has seen this club grow rapidly to a recognized minor sport on the Tech campus.

Fencing is a clean, interesting sport that is gaining steadily in popularity with Tech students. Under the untiring coaching of P. F. Wimberly and Prof. Moremus the club has developed excellent swordsmen who have brought distinction and victories to Tech. The past season has been a very noteworthy one. The team journeyed to Athens to engage in an informal match and then went to the University of North Carolina to enter in the Southern Conference Tournament, where they conducted themselves with gratifying success.

The personnel of the team is as follows:

Prof. T. R. Moremus, Coach and Advisor. P. F. Wimberly, Assistant Coach.

H. Berlin
R. J. Brooker
L. B. Crawford
F. E. DeGolián
E. R. Duboy
W. J. Ellison
N. Fox

P. Gage

A. Gottenchalc
T. H. Hall
T. Herriot
W. H. Horn
F. A. Howell
K. M. Namas
H. W. Spahar
M. Urquhart
H. A. Whitefield
CHEER LEADERS

At the athletic events held here at Tech these men do their part by keeping up that old pep and fight, which is so necessary to the men who are out on the field, court, or diamond. This year the Cheer Leaders have also had the job of taking care of the Yellow Jacket Club, and are to be complimented on the manner in which this pep organization has been led.

The members of the cheer leaders are:

K. C. Brown, Head Cheer Leader
J. C. Maddox
J. B. McGinnis
P. B. Patterson
W. J. Watson

YELLOW JACKET CLUB

Sensing the need of an organization to lead the student-body in the giving of yells and the keeping up of the spirit at games, the Yellow Jacket Club was organized this year. It has been quite successful in the performing of the purpose for which it was formed. The officers and membership of the club is as follows:

OFFICERS
K. C. Brown . . . . . . . . . . . . . . . . . . . President
H. E. Weiler . . . . . . . . . . . . . . . . . . . . Vice-President
T. F. Tooker . . . . . . . . . . . . . . . . . . . Secretary and Treasurer

MEMBERS

Founded 1856
Installed 1923

Top Row—Woodside, Austin, Culver, Dunbar, Schenk.
Third Row—Holtzclaw, Shahan, Petty, Williams.
Fourth Row—Jackson, Dick, Williams, McArthur.
Working all day, and at school for our education at night, might be considered a big job—but for the friendships formed and that which we receive—all is well.
FACULTY
EVENING SCHOOL OF COMMERCE

Faculty

George McIntosh Sparks, A.B., M.A.
Editor and Feature Writer, Southern Newspapers; Correspondent Southern Newspapers; Washington Times.
Professor of Journalism

David M. Smith, Ph.D.
University of Chicago; Vanderbilt University.
Professor of Mathematics

Thomas William Noel, A.B., M.B.A.
Grand Island College; New York University; Columbia University; Certified Public Accountant.
Professor of Accounting

Eugene Gunby, A.B., LL.B.
University of Georgia; Emory University; Columbia University.
Lecturer, Law

Warner Hall, M.E., B.C.S., M.B.A.
Georgia School of Technology; New York University.
Business Organization

William C. Lowe
Me. Zion Academy; University of Virginia; Southern Shorthand and Business University.
Lecturer, Shorthand

May D. Cheatham, B.C.S.
Georgia School of Technology.
Instructor in Office Appliance

Horace B. Elliott, B.C.S., C.P.A.
Georgia School of Technology.
Lecturer, Accounting

William C. Cantrell, A.B., M.A., LL.B.
University of Wyoming; Georgia Bar.
Lecturer, Insurance

NOAH WARREN, B.S., C.P.A.
Georgia School of Technology.
Assistant Professor of Accounting

G. M. Sparks, Director

Fred B. Wenn, B.C.S.
Kansas State College; New York University.
Professor of Finance

H. O. Smith, A.B., M.A.

THESE ATLANTA WOMEN

Atlanta's female of the species, much like Caesar's Gallic conquests, may be amply divided into four parts consisting of (using Liberty's style),

A. Homely, but dumb.
B. Beautiful, but dumb.
C. Wealthy, but dumb.
D. Beautiful and with a heart of gold.

This last division, we admit, is an entirely hypothetical case, but such mention was made so as to class any of those unsuited for the other classes. In all probability the "but dumb" could be added to this last very well without affecting the eligiblity of any of the possibilities.

Picture this poor creature, how she has been "using" this feminine Skystock rather than the opposite being true. She has been unwittingly taking the part of the "sweetest little girl in the world" back home. Upon realization, she begins taking a business course of some sort or other "just to pass the time away." Actually she has fallen in too deep a rut to ever return to normalcy and very soon the society page carries a notice that this charming being is touring the European continent with her parents. All this parental care in the hopes that the boat trip will provide a man big enough food to take on this added responsibility.

Dress: With the kindergarten comes the powder puff and rouge, so that by junior high school age, the evening dress is the only wear for a tenth of a cent a point.

Conduct: The conduct of the Atlanta girl could probably best be described as approaching the attempts of a two-year-old to mock its mother who is discussing the latest society scandal while playing bridge for a tenth of a cent a point. Complicated? Yes, but in keeping with the actions of the female society hounds found in Atlanta's "younger set."

Advertisement in a newspaper: "Eskimo Spitz. Pups for ten dollars apiece."

By Peter

CORN BRED

Quer folk these Chinese—but get a dant of this: They say, the Americans don't know what they want. First they boil the tea to make it hot, put ice in it to make it cold, lemon to make it sour and sugar to make it sweet.

A Chinese lad was placing his offering in the form of a plate of food on his departed ancestor's grave. An American standing nearby questioned the yellow man, asking when he thought the ancestor would come up to eat the food. He only smiled and said: "At the same time your Mellican friend come up to smell pretty flowers."

TO MY ROOM-MATES GIRL

All that I have ever seen of her, is a Picture; fair and Lovely is she there. Laughing eyes, Sparkling hair, And lips most rare. All of these, yes. Even more, go to make A creature that haunts My every dream. Traitor, that he is, Will not to me give An introduction to this Elf of my desire.

—Stephen Stephenson.

Luke: "Early in the evening she called my engagement ring a joke."
Artt: "What happened?"
Luke: "Well later that evening the joke was on her."
—Penn, State Froth

Page Three Hundred and Sixty-nine
Popular opinion confirms the fact—

It's wise to choose a Six . . .

America has welcomed the suggestion that it's wise to choose a Six! Streets and highways are filled with new Chevrolets. Every week, more and more buyers in the low-price field are making comparisons, taking demonstrations, and deciding on these big, handsome cars.

One reason for this popular trend lies in Chevrolet's engine. This engine is a Six—and six cylinders make a big difference in comfort and driving ease, as well as dependability and long life. Six cylinders take out constant vibration. This saves the motor, the whole chassis, the body—and makes the car last longer. It also saves the passengers and driver. Drivers who try Sises never want less!

The Chevrolet motor develops 50 horsepower. This is 25% more power than in any other car of Chevrolet's low price. The result is faster acceleration—greater pulling ability on bad roads and hills—higher speeds on the open road.

Yet with all this six-cylinder 50-horsepower performance, Chevrolet actually costs less for operation and upkeep than any other car. And Chevrolet prices are very close to the lowest in the motor car market.

Chevrolet prices range from $475 to $5,275.00 for this course.

The Black Ball

The new song will be sung with pride the night of the game against the University of Georgia, on Friday, November 10th. It will be sung, not only for the occasion, but also as a gesture of good will toward all Georgia Tech football fans. As a result of the efforts of Mr. Robert W. Smith, the song will be sung with enthusiasm and elation by the entire student body. It is expected to be a rousing success, and everyone is encouraged to attend the game to hear it in all its glory. The Black Ball will serve as a symbol of unity and camaraderie among the students, highlighting the spirit of school pride and pride in the Georgia Tech football team.
Y. M. C. A. Officers and Directors Elected for Coming Year

Moffatt is President

The following men have been elected to the Board of Directors of the Young Men's Christian Association of Evanston: President, Vaughn M. E. Seabury; Vice-President, Mrs. Marcella Grant; Secretary-Treasurer, Jefferson H. Byrnes; Clerk, Mrs. Edwin Stimson; Past President, D. W. Lippincott; Members-at-Large, Charles M. Condit, Mrs. Arthur C. Fink, Mrs. J. A. Stimson, Mrs. H. B. Stimson, Dr. C. F. Stimson, A. H. Stimson, Dr. B. H. Stimson, Mrs. E. P. Stimson, Mrs. J. W. Stimson, and Mr. C. H. Stimson.

Brissier Society Has Election of Members

The annual spring election of officers was held Wednesday, March 28. The following officers were elected: President, William J. Brissier; Vice-President, William J. Brissier; Secretary, John J. Brissier; Treasurer, John J. Brissier.

Aeronautics School Is Featured in Magazine

Aeronautics School is featured in the current issue of "The Student Pilot," a magazine published by the National Aeronautic Association. The article describes the progress being made in teaching aeronautics to students at all levels of education. The school is located in a small town near the coast, and offers courses in both theoretical and practical aspects of aeronautics. Students are trained in the use of various types of aircraft, including gliders and balloons, and are given the opportunity to fly in simulated aircraft.

Geology Club Visits Bartow County

The Bartow County chapter of the Geology Club visited the area on March 28. The club met at the home of Mr. and Mrs. J. A. B. Smith, who provided refreshments for the group. The club members then took a tour of the surrounding area, visiting several geological sites and discussing the geology of the region.

Social Notes

The Social Ischemia chapter of the Medical Society of Evanston held its annual dinner at the home of Mrs. J. A. B. Smith. The dinner was attended by members of the society and their guests. The evening was spent in discussion of the latest developments in the field of medicine.

Georgia School of Technology

"A TECHNICAL SCHOOL WITH
A NATIONAL REPUTATION"

THE GEORGIA SCHOOL OF TECHNOLOGY
offers to young men of ability and ambition a training which will fit them for positions of responsibility and power. The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Coast Artillery, Signal Corps, Infantry and Ordnance Units of the R. O. T. C., also Naval R. O. T. C.

FOREWORD

Dear Reader:

This year, as you have already noticed in the Yellow Jacket and Technique sections preceding, we have endeavored to stray from the set rule, a joke section to conclude the book. This book is presenting a feature section, to give this time-honored and moss-covered tradition a well-earned rest. We hope that our offering of a little of everything pleases.

The Editor.

The Great Greek Guessing Game

A LA LIBERTY

(Make your guesses and turn to page 383 for answers)

1. Keep the home fires burning.
2. Come over to our lodge sometimes.
3. One in every family—eventually—why not now?
4. Snake Charmers Paradise.
5. Well, we did have a football player.
6. Come over to our open house for TAE.
7. Yep—the Debbies are wild about us. WE RATE SOCIALLY.
8. This one, one more and then I'm swearing off.
9. Yep, next year's our year for an Anak.
10. For one ninety-eight, but it's robbery.
11. Yale—our cross—and the sweetheart of—
12. Tea dances and 16 other reasons why we RATE.
13. Your five and five more.
14. Yep—only 100000 payments and the Colonial Mansion is ours.
15. Women—women—maybe some buttermilks, but wimmen.
16. We're young at Tech—but look at the National Rep.
17. Seben come eleben—yep, this is Heaven.
18. Little by little—yep, plenty of scholars anyway.
19. Lonesome in a crowd—or you just know he rides them.
20. Vell I'm telling you, bizness 'es bizness.
21. Ask the Frat that owns one—maybe two.
22. Well, isn't every day that a Prat gets a good politician.
23. Can't we be friends—or we want our Rex.

Silently, we stood together in the darkening shadows of that November evening. After an interval, it seemed like ages to me, I lowered my head to catch the sweet odors that pervaded the cool air. I looked long and fervently at that well-rounded mouth and thought of what pleasure could be found there. I could restrain myself no longer. With almost brutal eagerness, I grasped the smooth round neck in my two hands and pressed my hot lips to the moist mouth. Draining the last drop, I put down the bottle, and, chewing a clove sauntered out.

Power: "Before taking your medicine I was not able to spank the baby, after taking it three months I can thrash my husband. Send me ten more bottles."

THE RETURN OF PAUL

EDITOR'S NOTE—Practically every worth while story has a fitting sequel and we believe that the Ride of Paul Revere should be no exception, so Hear Ye 'thine outbursts.

Listen my children and you will hear,
The return ride of Paul Revere.
Once upon a time there was held in a city now famous for Baked Beans,
The Boston Tea Party (No Foolin')
There was a sissy King in England that wore lace sleeves and a powdered wig which had infuriated the Technical Graduates of the Country that looked like men and smelled like Athletes.
The Tea Party proving too much they immediately declared war and sent as a messenger,

Paul Himself in Person (Not a motion picture)

Paul's job was finished and the long ride home with the men away turned his thoughts away to "In the spring a young man's fancy" and all that sort of rot. So he stopped at the home of the Belle of the town's house (A bride of two days) and found that her husband too had some ideas and remained behind.

FLOWERS
Some women
Are like the daisy,
Small and dainty,
But common in every field.
Quick to grow, blossom,
And then to die; forgotten
Only a withered stem remains.
Others are like
The roses; those women
Who blossom only with
Careful cultivation.
Radiant, and lovely to
See, but turning dark
And discolored by touch.
They linger a few hours,
And are lost forever.
Then there are
The roses; those women

FOR THE PLEASURE OF HAVING SERVED THE TECH DINING HALL DURING THE YEAR 1930-1931 WITH  
FOREMOST  
Milk and Ice Cream
A small boy peeked over the fence and said, "Mrs. Brown, did you see my arrow over here?"
"No, Jimmy where did it fall?"
"I think it stuck in your cat."

Didja hear the one about the Bride that returned the flour to the grocery store saying it was tough. The Grocer said: "Such crust."
She: "That's exactly what my husband said about it."

No, Dora, the six Brown brothers do not manufacture cough drops.

"Darling, on what grounds does your father object to me?"
"On any grounds within a mile of this house."
Guest: "This must be incubator chicken."
Waiter: "Why do you think so?"
Guest: "No chicken with a mother could ever get as tough as this."

Stranger: "Do you have to see a doctor when you want a drink in this town?"
Native: "No, afterwards."

HEAVY MACHINERY
For nearly thirty years the same Allis-Chalmers has among engineers been synonymous with heavy machinery. During a much longer period the companies which united to form the Allis-Chalmers organization were prominently identified with the manufacture of many lines of power, electrical and industrial machinery. In many of these lines they were pioneers and in practically all of them they were recognized leaders. This leadership is maintained today in the many products of Allis-Chalmers.
