2004 Yellow Jackets Sting
Chili Cook Off

Everybody enjoyed this year’s Chili Cook-off. It was held at the Alexander Memorial Coliseum. Despite many challenges, the committee pulled it through. There were several new and popular events in this year cook off. Terrence Fisher of Area 5 was the DJ. He did a great job in playing the music and keeping the party lively. We also had KAREOKE. Several attendees tried it out and their performances were enjoyed by everybody present. One of the most popular events after sampling the chili was the massage. We had four masseuses who gave a 15 minute massage for free. The Custodial Department sure can make chili. Four of their teams won. The Custodial Zone 2 came in first place (recipe on page 6.) Followed by Custodial Zone 6 and Zone 4 in second place. Landscape, Custodial Zone 6, and Recycling tied for third place.

Vickie Clark came in first in the dessert contest. She prepared Carolina Apple Cake (recipe on page 6.)

Chalette Banks, Lolita Ringfield, and Lisa Hart from zone 2 had the best of 19 chili recipes.

As far as sport, Malcolm Swann won the Putt-Putt contest and Harrison Sheats won the 3 points shoot-out.

Earth Day Celebrations at Tech

Georgia Tech’s 7th Annual Earth Day Celebration was a huge success. The weather was beautiful (it never rains on Cindy’s big day). There were 49 informational booths, including the EPA, the Earthkeepers, Clean Air Campaign plus loads of interesting information to give out. Of course everyone enjoyed going through the Environmental Maze to get their free T-shirt. The Earth Day Committee presented Dr. Chameau, our Provost with the first annual Environmental Leadership Award. If you liked music we had it. Emerald Rose and Grand Slam kept us entertained all day long. Good job Cindy!
The speculation about where the O&M folks in the King Building and surrounding buildings are going to move is over. The moving company has been to visit us and most of our moves will take place in July. Here is a run down of where folks will be moving to.

Staging and the Utilities shop will relocate to the ground floor of O’Keefe.

The Lock Shop will also go to the ground floor of O’Keefe, but not until this fall. The people in their space can not move until the Food Processing Building is complete and then we have to do some work to get ready for the Lock Shop move.

Jon Fraker’s and Mike Leasure’s office staffs will relocate to the first floor of O’Keefe along with Irene and myself.

In addition some of the Building Services’ staff will relocate to the first floor of O’Keefe.

Waste Management and the Landscape breakroom/lockeroom will relocate to the area Staging is vacating.

The Storeroom will relocate to the space currently occupied by ORGT in the basement of the O’Keefe Gym Building.

Another area impacted by our move is the gravel parking lot (W24). The construction documents are complete and the contractors will be at work next month to convert the gravel lot into a storage and equipment parking area for Landscape and Waste Management. Our goal is to have this complete and operational by the end of July 2004.

If you have a parking permit for the gravel lot for this year you will be moved to the deck starting in May 2004 through the end of July 2004. To insure this happens, you need to let your supervisor know so we can tell Parking.

Speaking of Parking, don’t forget to apply for your 2005 parking permit. You may apply by going online to Parking website.

In closing, we are at the end of another very successful school year for Georgia Tech. Not only did the basketball team give us a lot to be proud of, but also again Georgia Tech was recognized for excellences in the classroom by maintaining its high national rankings in numerous areas. Each of you is a part of this excellence and have the right to be proud.
**ACCOUNTING**

Vickie Clark is excited about her trip to Alaska this June. Sharon Harrah and family enjoyed a trip to Gatlinburg where Sharon beat Mark twice in Putt-Putt. Welcome to Sheila Hilts who is working with Oveta and Deborah. Judith Butler is proud of her son Justin for graduating from Georgia Southern University next month. He will be an Electrical Engineer. If you know of any opening, please let Judith know. He is looking for a job. Her daughter, Alexandra is also graduating from middle school. She will be traveling to New Orleans with her school.

**AREA 2**

Congratulations to our plumber Steve. His son Victor is expecting his first child. It will be Steve’s fourth grandson. Steve is happy to have made his six months probation. Kenny is proud to announce that his daughter Kennethia is on the honor roll at Babb Middle School. Ryan Smith, his wife, and their baby are enjoying their new luxurious apartment. Jeff Payne said “it is too early to start counting down for retirement,” but he is glad his house is paid off. Now he can concentrate on building him a new home in Georgia’s mountain in preparation for his retirement. Mike needs new teeth, but he’ll settle for a fishing trip. He is planning to go fishing the coast of Panama City Beach. Soon Tonya will be the proud owner of a new house. She has been approved to buy one. Tiffany Zachary graduated in December from Tennessee State University with an Electrical Engineering Degree. She is actively looking for a job. Recently, she went on to San Diego for a job interview with Northrop Grumman. Her future employer paid for her complete trip including a first class air fare. Good luck Tiffany.

**AREA 3**

Howdy folks from the stockroom of Boggs. We are the plaque winners again! Wonders never cease. While we were coming in everyday Charles Cooke has been acquiring many recipes and sharing them with some of us. Dennis and his wife Candy had their house painted on the exterior and recently purchased a new Webber grill. William and Mike Picklesimer have their applications in for the Peachtree Road Race. The race is well planned ahead of time and if you don’t have your name in the hat quickly, you’ll be watching it on television like the rest of us. The A/C shop in zone three is downsizing. We are down to a foursome: Andy, Earl, Charlie and Raymond have got things under control though! We’ll help them out every chance we get. Bring on the Georgia summer. It is hot, but it is great. Vladimir Drozin’s son Jakob has joined the U.S. Navy and has completed his basic training in Chicago. His father misses him already. Welcome to our new AC Mechanic Ankar.

**AREA 4**

Floyd is enjoying helping with his son basketball team. Congratulations to Floyd Jr. who has been accepted to the MBA program at Kennesaw. We wish Charlie a good recovery from his surgery.

**AREA 5**

Area V is celebrating their one year anniversary at Technology Square. Welcome to our new employee, Cole Middleton MWI. He started on April 5th. Winfred Whitehead celebrated his 40th wedding anniversary on April 8, 2004. Lee Jarrett has another grandbaby on the way - another boy. Stanley Thomas and his wife thank you for the flowers and well wishes for their daughter's recovery. She is at home now and doing much better.

**BUILDING SERVICES**

Congratulations to Stanley and Uwanna Smith for the delivery of their son, Sutton Alexander. He was born February 5, 2004 weighing 7 Lb 1 oz. Congratulations to Antonio Tutt and wife Valorie on the arrival of their son, Andre Fitzgerald. Andre’ arrived on February 16th and weighed in at 7 pounds and 3 ounces.
Condolences got out to Custodians, Ann Pressley, Jane Adams, and Charbetha Baugh, who lost their mother, Mrs. Elizabeth Adams on March 20th. Condolences to Randy Beasley, Custodian II, Zone 7, whose sister Mrs. Anneta Evans passed in February. Condolences to Brenda Norwood, custodian I Zone 3 whose father, Mr. Calvin Norwood passed in April. Condolences to Kenneth Johnson Custodian I, Zone 4, whose father, Mr. Mervie Johnson passed in February. Condolences to the family of Donald "Duck" Dabney who passed away on Tuesday Feb 5th.

CONSTRUCTION ADMINISTRATION
Jim Hummel and Family visited Valdosta State University this month where his son auditioned for the music department. He received a partial scholarship to play percussion. Congratulation to Rayford for loosing 10 pounds. Congratulation to Frank Lamia on his marriage on April 5th. He honeymooned on a cruise of the Caribbean. Ron Masce retired on March 25, 2004. D & C had a reception for Ron to wish him good bye. He worked at Tech for 30 years.

CENTRAL SHOPS
Revonda is enjoying watching her grand daughter, Taylor play T– Ball. Rodney is happy to be at the storeroom. His birthday is May 7th. He said he accept gifts. George can’t wait for D DAY. He is retiring on December 1st, 2004.

INFORMATION TECHNOLOGY
Anjum and his wife Nadia are expecting their first child. She is expected to come on April 28th, 2004. The grand mom will be visiting to assist in welcoming the baby. Justin Polazzo had the trip of a life time in March. He went to Australia for two weeks. He did a lot of snorkeling and saw all sort of fish, reefs, sharks and turtles.

LANDSCAPE
George Roberts is looking forward to his vacation in August. He plan to take the train to New Orleans then get on a cruise to Jamaica for a fishing trip. Donna assisted in building her Fiftieth home through Habitat for Humanity. She has been volunteering for the past 10 years. She is now working on designing the Memorial Garden for their main office. She said it is very rewarding. If you are interested in helping and gaining some practical experience, feel free to ask Donna.

DESIGN & CONSTRUCTION
Congratulation to Todd Bermann. His 3rd boy, Bauer was born on March 6th. He weighed 7 lbs 10 ozs.

EH&S
Vanessa Keel was one of nineteen volunteers who traveled to Puerta Lempira, Honduras in February. The purpose of the trip was to begin construction on the First Baptist Church. The church construction is scheduled to be completed in May and it will seat about 400 people. Also, work was done on a radio station that is located on the church property. When completed, it will be the 4th radio station in the area and the 1st fulltime Christian station. This trip is part of the ongoing partnership of the Noonday Baptist Association and Missionaries Jim and Viola Palmer to minister to the Miskito Indians.
Many people are not aware of services of the power plant and its staff. Can you tell us what services the power plant provide? We maintain the Holland Central Heating and Cooling Plant, the Tenth Street Chiller Plant, and Tech Square Chiller Plant. Those plants provide all steam and chill water to the campus. We also maintain the Alternate LP fuel systems for Holland and West Campus gas.

How many boilers and chillers you are responsible for? We maintain and operate 10 chillers. There are 8,000 tons at Holland plant, 7,000 tons at the tenth street plant, and 1,600 tons at Tech Square plant. There are three main boilers at Holland plant which are capable of generating 210,000 lbs of steam per hr. We are also responsible for operating and maintaining 29 satellite boilers and all exterior steam piping systems on campus.

How many employees are there in the power plant? There are 15 employees: 6 Stationary Engineers, 2 Boiler Operators, 1 Chiller Mechanic, 2 Steam Mechanics, 1 Welder, 2 Tech Temps, and 1 Superintendent.

What would it be like if we close the power plant for a week? No heat, no hot water, no cooling, no comfort. The steam plant shuts down for one week each year in May after graduation ceremony for preventive maintenance and repairs to the total steam system. The Holland Chiller plant shuts down for one week per year in the winter for cooling tower cleaning and maintenance. The 10th chiller plant and Tech Square plant do not shut down due to alternate cooling tower systems.

What is a typical day like for a power plant employee? Work, then do more.

What is the hardest aspect of your job? Motivating the team-consistently. Remembering my employees have the same needs, feelings, hardships in life that I do. Being consistent on treating all the same.

What do you like the most about your job? The whirlwind of activities.
Yellow Jackets Sting Chili Cook-Off 2004

Milton of Area 5 doing the KEREOKE

An employee enjoying the massage

Terrence Fisher keeping the crowd jamming

Malcolm Swann displaying his 1st place plaque in Putt-Putt.

Yellow Jackets Sting Chili Cook-Off 2004
**Vickie Clark’s Carolina Apple Cake**

<table>
<thead>
<tr>
<th>Ingredient</th>
<th>Quantity</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-1/2 cups oil</td>
<td>1 cup cashews</td>
</tr>
<tr>
<td>3 cups diced apples</td>
<td>3 eggs</td>
</tr>
<tr>
<td>2 cups sugar</td>
<td>1 cup golden raisins</td>
</tr>
<tr>
<td>1 cup all purpose flour</td>
<td>1 tsp salt</td>
</tr>
<tr>
<td>1 tsp cinnamon</td>
<td>1 tsp baking soda</td>
</tr>
<tr>
<td>1 tsp vanilla</td>
<td></td>
</tr>
</tbody>
</table>

Cream oil and sugar until well mixed. Add eggs one at a time, mixing well. Add salt, cinnamon, baking soda, cinnamon and vanilla, mixing well. Add flour one cup at a time, mixing well the vanilla after each cup. From this point, batter will be very thick and must be stirred by hand. Add apples, cashews, and raisins, mixing well. Bake in a well greased, well floured bundt pan at 350 degrees for one hour. (May take a little longer).

This cake is good without icing, but if you want to add the cream cheese icing, here it is. **ENJOY!**

Mix one stick butter, 1 8 oz. package cream cheese, 1 box confectionate sugar, 1 tsp vanilla. Put on cooled cake.

**Passion of Christ Puzzle**

**Across**

1. One of the soldiers _Jesus in_.
2. Who was the high priest?
3. The mob yelled (2 wds) to Pilate to do what with Jesus?
4. Who was released from prison instead of Jesus?
5. Christ was found guilty of _by the high priest._
6. Which disciple betrayed Jesus with a kiss?
7. Who was the Roman governor?
8. What were the disciples doing while Christ prayed in the Garden?
9. What is the meaning of Golgotha or Calvary?

**Down**

10. How many people were crucified?
11. Name the garden where Jesus prayed?
12. The mob yelled (2 wds) to Pilate to do what with Jesus?
13. One of the soldiers _Jesus in_.
14. Who was the high priest?

Answers on Page 12
Many of us have occasional back pain. Our lifestyles are often largely to blame. We might not use good body mechanics and maintain proper posture. The following are basic guidelines for good posture, body mechanics, flexibility, and safe exercise to help prevent back problems.
If we consider how many hours a day we spend in our "normal" postures, it is not hard to imagine how many problems develop if our posture is improper.

**POSTURE**

It is important to develop and maintain good posture in sitting, standing, and walking. When standing, gravity is causing a downward force through the body. If a person stands straight, with shoulders back, chin tucked in, and buttock tucked, the force of gravity will be equally distributed through the spine. If one stands with rounded shoulders and a forward head all force is applied to the neck region (lower cervical spine).

A. **Standing.**
   1) Stand straight with shoulders back, chin tucked such that the ears are directly over the shoulders, buttock tucked, maintaining a normal curve in the low back.
   2) Keep weight evenly distributed.

B. **Sitting.**
   1) Sit erect with the shoulders back, chin tucked, low back maintaining curve.
   2) Modifications of the work place; use a rolled towel or small pillow, adjust the height of the chair so that knees are slightly elevated.

**BODY MECHANICS**

Proper body mechanics can help you to prevent injury. How one lifts and moves can directly affect the health of the back. Understanding the principals of good body mechanics is essential to back care.

A. **Lifting**—NEVER BEND AT THE WAIST!
   1) Bend the knees
   2) Keep a slight curve in the lower back
   3) Squat down
   4) Pick up the item
   5) Bring the item to waist level, close to your body, your center of gravity
   6) Lift with your legs, NOT WITH YOUR BACK

B. **Things to Avoid**—
   1) Bending at the waist
   2) Lifting anything without bending the knees
   3) Twisting and lifting especially when shoveling
   4) Sitting in a slouched posture
   5) And never hold your breath when lifting

**FLEXIBILITY**

If one considers muscles and ligaments as tissue that allows movement, it is not difficult to understand that tight musculature or ligaments may re-
strict movement. If a tissue is too tight and forceful movement is performed a sprain (ligament injury) or strain (muscle injury) may occur. In the back there are several ligaments and muscles involved in everyday movement. It is important that these structures be as flexible to allow motion without injury.

Note: If you are recovering from a back problem follow the advice of your doctor or physical therapist. Do not attempt these stretches and exercises without their permission.

Components of Good Flexibility

A. Normal flexibility
1) Flexion— the ability to touch your toes with the spine rounded over
2) Extension— the ability to bring the body parallel with the floor in a press up
3) Sidebending— the ability to bend at the side and reach the knee
4) Rotation— the ability to turn the back to look behind about 90°
5) All these motions must take place for normal flexibility

B. Flexibility exercises
1) Flexion— lying knee to chest
2) Extension— press up
3) Sidebends— pole stretch side to side
4) Rotation— pole stretch turning to look back

C. WARNING SIGNS!
If any exercise causes pain to radiate down to the leg, especially below the knee, seek medical attention, rest, and ice.

STRENGTH

Another important aspect of total back care is strength. Proper muscle tone allows for stabilization of the spine, pelvis, and legs in standing. It also allows for stability during activities. Proper posture helps to maintain good muscle tone as our bodies work against gravity. We will list here exercises needed to strengthen the low back (lumbar region), which is the area of most common involvement.

Exercise every day. Fifteen minutes in the morning and fifteen minutes in the evening. Always warm up for several minutes. Limber up by alternately tightening and relaxing your arms and legs. Don't overdo it! Start slow. Working slow is always more effective than fast jerky movements. If you have any pain as result of bending or working the muscles seek the advice of a doctor or physical therapist.

A. Low back exercises

Components of Strength

1) Abdominals, half sit ups and pelvic tilts, standing and lying
2) Hip extensors and buttock, pelvic lifts and hip extension

Total back care is simple once the basic information is understood. If the guidelines presented are followed the chances of sustaining an injury may be significantly reduced. If a back injury does occur you will be equipped with enough information to seek medical attention and avoid further injury. Most importantly—listen to your body! Seek professional help should an injury occur.

To avoid injury use good posture, good body mechanics, stay flexible, and maintain good muscular strength.

The Georgia Tech Environmental Health & Safety Department can provide training in Back Safety for your group. Each area is encourage to borrow one of our video training program:

1. **Back Protection:** Defending Your Safety Zone: Compares the physical rigors workers may face on the job to the physical challenges of many professional athletes, always stressing the right techniques for back safety.

2. **Back Safety For Landscape, Custodial & Maintenance Workers video:** Most back injuries are the result of workers not following safe lifting and carrying procedures. This program is an invaluable guide to the basic steps that landscape, maintenance, warehouse and custodial workers should follow in order to avoid back injuries.
Recreation

Life Rules !!!

Rule 1: Life is not fair – get used to it!

Rule 2: The world won’t care about your self-esteem. The world will expect you to accomplish something BEFORE you feel good about yourself.

Rule 3: You will NOT make $60,000 a year right out of high school. You won’t be a vice-president with a car phone until you earn both.

Rule 4: If you think your teacher is tough, wait till you get a boss.

Rule 5: Flipping burgers in not beneath your dignity. Your Grandparents had a different word for burger flipping – they called it opportunity.

Rule 6: If you mess up, it’s not your parents’ fault so don’t whine about your mistakes, learn from them.

Rule 7: Before you were born, your parents weren’t as boring as they are now. They got that way from paying your bills, cleaning your clothes and listening to you talk about how cool you thought you were. So before you save the rain forest from the parasites of your parents’ generation, try delousing the closet in your own room.

Rule 8: Your school may have done away with winners and losers, but life HAS NOT. In some schools they have abolished failing grades and they’ll give you as MANY TIMES as you want to get the right answer. This doesn’t bear the slightest resemblance to ANYTHING in real life.

Rule 9: Life is not divided into semesters. You don’t get summers off and very few employers are interested in helping you FIND YOURSELF. Do that on your own time.

Rule 10: Television is NOT real life. In real life people actually have to leave the coffee shop and go to jobs.

Rule 11: Be nice to nerds. Chances are you’ll end up working for one.

The Classic IQ Test

1. Which one of the five choices makes the best comparison? LIVED is to DEVIL as 6323 is to
   a) 2336 b) 6232 c) 3236 d) 3236 e) 6332

2. Which one of these five is least like the other four?
   a) Horse b) Kangaroo c) Cow d) Deer e) Donkey

3. Which number should come next? 144 121 100 81 64?
   a) 17 b) 19 c) 36 d) 49 e) 50

4. HAND is to GLOVE as HEAD is to?
   a) Hair b) Hat c) Neck d) Earring e) Hairpin

5. A fallacious argument is
   a) Disturbing b) Valid c) False d) Necessary

6. If you rearrange the letters “ANLDEGN,” you would have the name of
   a) Ocean b) Country c) State d) City e) Animal

7. A boy is 4 years old and his sister is three times as old as he is. When the boy is 12 years old, how old will his sister be?
   a) 16 b) 20 c) 24 d) 28 e) 32

8. Two girls caught 25 frogs. Lisa caught four times as many as Jen did how many frogs did Jen catch?
   a) 4 b) 5 c) 8 d) 10 e) 15

9. Inept is the opposite of:
   a) Healthy b) Deep c) Skillful d) Sad e) Happy

10. A car traveled 28 miles in 30 minutes. How many miles per hour was it traveling?
    a) 28 b) 36 c) 56 d) 58 e) 62

Fred Dolder is looking forward to his two weeks trip to Switzerland. He and his wife plan to visit family and friends and hike the Alps and eat. Gary Petherick is recovering well from his hand injury that he received while skateboarding. Gary Leave that for the youngens. His son Brandon is attending Kennesaw, his daughter Brittany is cheerleading, his Ansley is attending 1st grade. April 28th was John Duconge 14th marriage anniversary. Congratulations to him and his wife, Debbie. Congratulations to Gary Phillips for completing his Master of Facilities Management degree from GT. He said he is glad it is over. Next time you see Gary, tell him how proud you are of him for Loosing 35 lbs. Ron Leroy, Jim Larkin, and Gary Petherick are preparing for the Peachtree Road Race. Happy First Birthday to “Popi” Elvia’s dog.

AREA 1

We want to welcome Malcolm Swann to Area 1. He was promoted to AC Mechanic II. Ben, Bubba, Eric, and Howard are getting ready to go to Clark Hill Lake in South Carolina for a three days fishing trip. They promised to bring enough fish to feed the whole shop.

LOCK SHOP

Kelly and wife are planning their summer vacation. They don’t know where to. Lee and Son went to Las Vegas during spring break. Lee wouldn’t say how much money he won. Sonny’s son Chad can’t wait to get his driver’s license in May. His Dad promised he’ll lend him the Toyota T100.

UTILITIES & ENERGY

Good luck to Mike Leasure who is getting ready to test for 2nd Degree Black belt. When Charles Lyons was asked how he feels about being in charge when Hopkins is gone he said “Fabulous.”
The Georgia Tech Facilities Division receives special recognition for their work with the Goodwill Organization.

Several years ago the Georgia Institute of Technology Building Services Department forged a partnership with the Goodwill organization. By way of training, this partnership has made it possible for the Institute to offer much needed job opportunities to members involved in this worthwhile organization. This collaboration has been both beneficial to Georgia Tech and the Goodwill Organization. The Goodwill Organization is able to further its mission by finding career opportunities for individuals that have a greater need and Georgia Tech receives a trained individual in some critical areas.

The success of this program must be attributed to the hard work of Stanley Lamar Smith, Program Coordinator II for the Building Services Department.

Stanley has been instrumentally involved with this program and has succeeded in retaining approximately 80% of the individuals we have recruited.

Darryl did a fabulous job on the large vault floor. It has probably been 20 years since that floor was cleaned since "stuff" was stocked all over it. It looks almost new now. We are so very pleased! Once again Darryl has outdone himself. Please thank him for us.

Miriam N. Golob
Financial Analyst
Office of the Registrar

I would like to comment on the excellent job Robin does cleaning our offices. She has always gone above and beyond and we appreciate the extra effort she puts into her job. We really appreciate her work.

Hyacinth, we just wanted to thank your crew for the fast response in removing the tree at the AWPL.

The drivers that make deliveries at the location will appreciate not having their trucks scratched up anymore.

Another job well done for Landscaping!!

Becky Fitzgibbond

Tommy, I was over at the Couch this afternoon and commented to Dr. Clark and Christine about how clean the building looked. They are very pleased with the job Willie Wright is doing over at the Couch. I know that she has taken extra care in cleaning and waxing the steps in the stairways to prepare for the Open House the Dean is hosting on March 29. I am sure he will be pleased as well. Please let Willie and her supervisor know that we appreciate all her work. She is an asset to your staff.

Warren Page congratulates the team at Area 3 for having the lowest rate of sick leave for the year. Area 3 won the award for the second time. CONGRATULATION!
