Book Four
This section contains the material necessary to fulfill the purpose of presenting a record of the school year, but which could not be conveniently located elsewhere. These "featured" parts are the favorites, the most important dances and the snapshots which are all so pertinent to a college yearbook.
The VISITING Orchestras

For dancing entertainment during 1939 Tech has had three very successful dances with three of the nation's most well known dance bands. Congratulations to the Interfraternity Council and Anak for the best year of dancing on the Tech campus in several years.

For the 1938 Finals last year's Council presented Will Osborne and his famous orchestra, nationally known as one of the most popular bands playing slide swing music. The Anak Society, serving to help commemorate Tech's Fiftieth Anniversary, presented the orchestra of Red Norvo and Mildred Bailey, "Mr. and Mrs. of Swing," at the Annual Home-coming in November. During the Home-coming Dances, Tech's new gym was dedicated and proved to be the ideal dance hall for the school. Not to be outdone by last year's Council, the 1939 Interfraternity Council presented Hal Kemp and his sweet swing music at the Mid-Terms. A series of six dances, starting with the Pan-Hellenic and including a unique breakfast dance, proved to be the best set of dances since the Class of '39 were freshmen.
In the accompanying two pages of snapshots one may find the antics of Hal and Judy, Mildred Bailey swinging out with Red Novo, and Will Osborne directing his swing trumpets. Other snaps show the students as they danced, changing partners, at the check room, or "sat out" the dance.
Headed by the shot of the Council officers in the Pan-Hellenic leadout, the following panel continues the pictures of Tech's dances. Among the shots showing the moods of various individuals and groups are found snaps of the faculty swinging out, Mildred Bailey signing autographs, and Mrs. Hal Kemp getting a big rush by the Engineers. On the opposite page are snaps of the 1938 Finals with a few miscellaneous dance scenes intermingled. In the group of camera scenes are found shots of the feet of a couple shagging, 1938 Council leadout, couples arriving, Will Osborne "sissy britching," and the Dean and his wife looking on the dances.
