Presenting Georgia Tech
1858-1938

Fiftieth Year
COMMENORATING GEORGIA TECH'S 50TH
The 1938 BLUE PRINT
Published by the students of the Georgia School of Technology
Atlanta, Georgia

YEAR OF SERVICE AND PROGRESS
THE EDITORS SAY...

Our one aim and objective throughout the composing of this volume has been to create a symbol of the Class of 1938, a record of its achievements, a living memory of its days at Georgia Tech. At the same time we have attempted, in a new way, to commemorate Tech's fiftieth year. In an effort to avoid a duplication of the many old-fashioned anniversary yearbooks, we have built this book on the progress that Tech has made in its fifty years. To typify this progress our artists have illustrated on the main division pages the growth of the school by decades with full color drawings which symbolize the various departments added in each decade. The sub-division pages blend together the commemoration of the fiftieth anniversary and the portrayal of a year of college life at Tech in semicomical, two-color drawings of scenes from campus life.
TO OUR ALUMNI...

For half a century the Georgia School of Technology has taken proud reckoning of the myriad prominent graduates whose distinctions reflect glory and honor on their alma mater. The aspirations, the traditions, the ideals of these men are faithful guarantors that coming generations of students may forever find guidance to a higher destiny, inspiration to a deeper faith.

To our alumni—that their glories may go not unrecorded—this, the Thirty-first edition

of the

BLUE PRINT

is, in proud tribute, dedicated by the students and faculty of the Georgia School of Technology.
THESE FIFTY

Have brought progress, growth, and achievement, and have revealed the expansion of a school from a mere idea to a flourishing institution which ranks with the outstanding technical schools of the world. Georgia Tech began as a resolution of the General Assembly of Georgia in 1882. This resolution established a commission of five men which, headed by the Honorable N. E. Harris, in 1886, chose Atlanta as the site for Georgia Tech. By means of an appropriation from the State, this commission purchased five acres of land and erected on it two buildings—the Academic Building, which still stands, and the old Shop Building, which was destroyed by fire in 1892. Justly proud of these meager assets as a beginning, the Georgia School of Technology opened its doors on the seventh day of October, 1888.

The first decade of Tech's existence was largely a period of entrenchment. It found the school digging in, seeking a foundation, rather than growing to any appreciable extent. The campus consisted merely of two buildings and nine acres of rough, uncleaned land, surrounded by a few unpaved, deeply-rutted streets. One hundred and twenty-nine students entered in the fall of 1888 and were divided into four groups: the Apprentice Class, now called Freshman; the Junior Class, now the Sophomore; the Middle Class, now the Junior; and the Senior Class. Later, due to the lack of preparation of students, a Sub-apprentice Class was established and served until 1916 to instruct students in high school subjects. Dr. I. S. Hopkins served ably as Tech's first president until his health failed in 1896. He was succeeded by Dr. Lyman Hall, Professor of Mathematics and a graduate of West Point. Mechanical Engineering was the only course of study available until 1896, at which time the demands of business for more specialized engineers brought about the installation of Electrical and Civil Engineering. This addition was the beginning of the most important evidence of Tech's growth—the constant increase in variety of its curricula. For the first few years no student activities or athletic sports existed at Tech. These began to develop in the new decade, under the impetus of the famous football game of which General Wood almost single-handedly defeated the University of Georgia.

A period of slow but constant growth marked Tech's existence from 1888 to 1898. Campus life became something other than mere class attending. The coming of an able director of athletics, Mr. J. W. Heisman, opened the door for inter-collegiate sports, and through that door a constant parade of outstanding athletes has passed, ever growing in quality and number. The Y. M. C. A. was operating on a sound basis by the year 1907. The BLUE PRINT and Yellow Jacket came, established themselves, and furnished valuable experience for students in journalistic activities. Physical growth of the school was evidenced by the addition of Knowles Dormitory, the Textile Building, Swann Hall, the Electrical Building, the President's home, the Chemistry Laboratory, and the Library. Textile Engineering, Chemical Engineering, and Chemistry came to fulfill the desires of students and industry for more variety in specialized engineers. Much of this expansion was the direct result of the able leadership of Dr. K. G. Matheson, who succeeded Dr. Hall as president in 1905. That Dr. Matheson labored constantly for the betterment of Tech is evidenced by the progress of the school during the next two decades.

The next decade of Tech's history saw a marked increase in enrollment. Under President Hall the number of students reached the five hundred mark, but shortly thereafter a sharp increase brought the total to within the one thousand mark. By the
close of the 1908-1918 decade the number was substantially above one thousand. This welcome increase in enrollment was accompanied by a similar growth in physical size and curricula variety. Five new buildings were erected, the most outstanding of which were the Hospital, resulting from a Carnegie donation; the Y. M. C. A. Building, given by the Rockefeller Foundation; and the Military Building, which was to play an important part in Tech's life during the war. The Architecture and Co-operative Departments were added; the latter, coming in answer to the growing demands of industry, gave evidence that Tech was abreast of the times. Due largely to the efforts of the Anak Society, the Technique began to be published in 1911. Growth of accredited high schools in the South allowed the Sub-apprentice Class to be abolished, and the other groups to be given their present classifications. The close of the decade brought the war and the beginnings of a war-time situation to Tech.

Opening its fourth decade of life, Georgia Tech offered itself whole-heartedly to the government in support of war preparation. The entire school was placed under military supervision, and every student was required to live on the campus. To accomplish this, cots were placed in all available rooms, and tents dotted the campus. Approximately five hundred students were sent over in the summer of 1918, and those who returned in February were given credit for a semester's work. After the war another period of expansion set in. A serious campaign for a "Greater Tech" resulted in many contributions by friends and alumni, and these gifts in turn resulted in new and modernly equipped buildings. Nine new buildings were constructed by 1928. Graduate study in many courses, General Science, and Ceramic Engineering also came to Tech in this period. President Matheson, after seventeen years of faithful service, resigned in 1922 to become president of Exel Institute. His successor and our present president, Dr. M. L. Brittain, has been largely responsible for the constant development of Tech since 1922.

Recognition of Tech as a leader in inter-collegiate athletics became a reality in the fifth decade. On January 1, 1929, the Golden Tornado of Georgia Tech defeated the Golden Bears of the University of California to win, in the Tournament of Roses Contest at Pasadena, the football championship of the world for that year. This advancement in athletics can be attributed in a large measure to Coach William Alexander, Director of Athletics. Other activities kept pace with athletics. Many outstanding honor societies and engineering groups recognized Tech with their chapters. This period has also seen the culmination of the "Greater Tech" drive and has realized fully the benefits of it. By the aid of the Works Progress Administration and through gifts, new buildings have continued to be erected. The Aeronautical Building and the Department of Aeronautical Engineering came to Tech as a result of a gift of the Guggenheim Board. The latest departments added, General Engineering and Industrial Management, serve to complete a well-rounded variety of courses from which the prospective student may choose. An enrollment of twenty-three hundred and fifty students in the school's fiftieth year indicates that the number of these prospective students will grow even larger in the years to come.

This, briefly, is a record of Georgia Tech's first fifty years. To say that Tech has reached its height would be a gross misstatement; but, to say that it has progressed substantially and will continue to do so in the future would be a statement justified by this record.

COLLEGE

UP THE HILL TO THE ADMINISTRATION BUILDING
Beginning its existence in 1888, Georgia Tech offered only MECHANICAL ENGINEERING to meet the demands of a rapidly expanding Nation for technically trained men.
Answering the call of a Nation for more highly developed transportation facilities, Tech began offering CIVIL ENGINEERING in 1896.

ELECTRICAL ENGINEERING, established in 1896, resulted from the widespread application of electricity as power and light to industry and home.

Those
WHO INSTRUCT
As a true gentleman, an eminent educator, and a prominent leader in civic affairs, Dr. Brittain, during his sixteen years as Tech's leader, has, by his energetic work and co-operative spirit, endeared himself in the hearts of all Tech men, both alumni and students alike.

For fourteen years Tech students have been guided by the excellent advice and kindly spirit of Dean Skiles. In his position as chief counsellor, he has won the admiration and love of the entire school by his friendly smile and his constant desire to be of assistance to everyone.

AS the CANDID

PROFESSORS AT WORK—This panorama of unusual camera studies gives mute evidence that professors do work. From it we also realize that during their work many of our distinguished educators assume grotesque positions and display comical expressions. The camera shows us our “profs” as we like to remember them—as good fellows sprawled on a desk, exclaiming from the blackboard, or cussing and discussing around the campus. It very carefully avoids calling to mind memories of those situations in which we, on the receiving end of a very embarrassing moment, could have cheerfully and delightfully wrung the “prof’s” neck.

Here we see some of the men we can thank for our education. We need not compliment them on their poseability since, in almost every case, they “watched the birdie” in utter ignorance of their actions. We can only hope that in the few seconds immediately following the camera’s “click” they remained in utter ignorance—this time of the cameraman’s actions.

OFFICERS
of the
SENIOR CLASS

THOMAS FLETCHER SIMS, JR. . . . President
JOHN LOGAN CHIVINGTON . . . Vice-President
JACK UHL NIXON . . . Secretary and Treasurer

"Fletch," "Jack," and "Nick," by their outstanding work on the gridiron and their friendly words to everyone on the campus, have proven themselves well worthy of the honor of leading their fellow seniors throughout the year. They have been men whom every senior will remember long after many other classmates are forgotten.

William Akins Miller
River Edge, New Jersey
CIVIL ENGINEERING
Phi Kappa Tau
Honor Roll, 2, 3; Civil Crew; Interfraternity
Council, 2, 3, 4.

Cooper Newton Mills
Griffin, Georgia
MECHANICAL ENGINEERING
Phi Delta Theta
A. S. M. E.

James Paul Mills
Atlanta, Georgia
TEXTILE ENGINEERING

Robert Alfred Mills
Cleveland, Ohio
CHEMICAL ENGINEERING
Alpha Chi Sigma; "T" Club; "Y" Cabinet; "Y"
Singers; Track, 1, 2; Cross Country, 1, 2.
PAUL JONES MITCHELL
Hampton, Georgia
CHEMICAL ENGINEERING
Phi Delta Theta
Co-op Club, President, 4; Alpha Chi Sigma; Student Council, 3, 4; Pi Delta Epsilon; Technique, 2, 3, 4; Yellow Jacket, 1, 2, 3, 4; Managing Editor, 4; Blue Print, 2, 3.

LOUIS ROBERT MOBLEY
Athens, Georgia
CO-OP MECHANICAL ENGINEERING
Honor Roll, 1, 2, 3, 4; Tau Beta Pi; Phi Eta Sigma; Pi Tau Sigma; Brixen Society; Freebody Club; A. S. M. E.; Band, 2, 3, 4.

SPENCER VIRGIL MONTGOMERY
Atlanta, Georgia
ELECTRICAL ENGINEERING
Pi Delta Epsilon; Technique, 1, 2, 3, 4; Feature Editor, 4.

CHARLES ALEXANDER MOORE, JR.
Atlanta, Georgia
ELECTRICAL ENGINEERING
Pi Kappa Phi
A. I. E. E.

HOMER MOORE, JR.
Atlanta, Georgia
INDUSTRIAL MANAGEMENT
Pi Kappa Sigma
Scientia Club; Interfraternity Council, 2, 3, 4.

WILLIAM EDWARDS MOORE
Hartford, Arkansas
INDUSTRIAL MANAGEMENT
Delta Sigma Phi
Honor Roll, 3, 4; Omicron Delta Kappa; Bulldog Club, President, 4; Pi Delta Epsilon; Scientia Club; "T" Club; Tennis, 1, 2, 3, 4, Captain, 3, 4; Yellow Jacket, 2, 3, 4; Technique, 1, 2, 4; Blue Print, 4; Marionettes.

JESSE LEE MORRISON, JR.
Atlanta, Georgia
ARCHITECTURE
Band, 1, 2, 3, 4.

JAMES PERRY MORGAN, JR.
West Plains, Missouri
CIVIL ENGINEERING
Pi Kappa Phi
Bulldog Club; Student Council, 3, 4; Civil Crew; Skull and Key; Class Officer, 2, 3; Football, 2, 3, 4.

JAMES THOMAS MUNDY
Atlanta, Georgia
CO-OP MECHANICAL ENGINEERING
Honor Roll, 1, 2, 3, 4; Phi Kappa Phi; Tau Beta Pi; President's Gold "T"; Pi Tau Sigma; Brixen Society; Co-op Club; A. S. M. E.; Captain, R. O. T. C.

ALTO REYNOLDS MUNDY, JR.
Atlanta, Georgia
INDUSTRIAL MANAGEMENT
WILLIS DORMINEY PAULK  
Fitzgerald, Georgia  
INDUSTRIAL MANAGEMENT  
Pi Kappa Phi  
Pi Delta Epsilon; Scientia Club.

WILLIAM HAMILTON PAXTON  
Atlanta, Georgia  
AERONAUTICAL ENGINEERING  
Alpha Tau Omega  
I. A. S., President, 4; Scabbard and Blade; Yellow Jacket, 1; Captain, R. O. T. C.

WILLIAM AUSTIN PEAVY, JR.  
Byron, Georgia  
CHEMICAL ENGINEERING  
A. I. Ch. E.

CHARLES RALPH PEASE  
Cohutta, Georgia  
TEXTILE ENGINEERING  
Honor Roll, 3; Band, 2, 3.

JOHN BRITTAIN PENDERGRAST, JR.  
Atlanta, Georgia  
TEXTILE ENGINEERING  
Chi Phi  
Honor Roll, 1, 2, 3; Omicron Delta Kappa; Phi Kappa Phi; Tau Beta Pi; Phi Eta Sigma; Bulldog Club; Pi Delta Epsilon; Phi Psi; Blue Print, 1, 2, 3, 4; Technique, 4; "Y" Singers, 1, 4.

WILLIAM RICHARD PENN  
Rome, Georgia  
CHEMICAL ENGINEERING  
Phi Delta Theta  
Honor Roll, 1; Phi Eta Sigma; A. I. Ch. E.; Track, 1; Football, 1.

FREDERICK FUNSTON PHILLIPS  
Siluria, Alabama  
TEXTILE ENGINEERING  
Chi Psi  
Bulldog Club; Phi Psi; Student Council, 4; Interfraternity Council, 2, 3, 4; President, 4; Yellow Jacket, 3, 4; Technique, 3, 4.

SAMUEL RUSSELL PHILLIPS  
College Park, Georgia  
CO-OP TEXTILE ENGINEERING  
"Y" Cabinet, 1, 2, 3, 4.

JAMES ELMER PIERCE  
Kirkswood, Missouri  
CIVIL ENGINEERING  
Beta Theta Pi  
Civil Crew.

CLINTON BADGER PIKE, JR.  
Birmingham, Alabama  
CO-OP MECHANICAL ENGINEERING  
A. S. M. E.
GEORGE DELORIAN RAY, JR.
Salem, Missouri
MECHANICAL ENGINEERING
Beta Theta Pi
Honor Roll, 3, 4; Tau Beta Pi; Pi Tau Sigma; A. S. M. E.

JAMES HOWARD PINES
Salem, Missouri
MECHANICAL ENGINEERING
Beta Theta Pi
Honor Roll, 3, 4; Tau Beta Pi; Pi Tau Sigma; A. S. M. E.

JAMES CONRAD PLATT, JR.
Guilford, Georgia
TEXTILE ENGINEERING
Kappa Alpha
Phi Psi.

EDGAR ALLEN POE
Newcotton, Louisiana
ELECTRICAL ENGINEERING
Manager Football Band, 3, 4; Lieutenant, R. O. T. C. Band.

ARTHUR GRAY POPE
Atlanta, Georgia
CHEMICAL ENGINEERING
A. I. Ch. E.

GEORGE DELORIAN RAY, JR.
Atlanta, Georgia
TEXTILE ENGINEERING
Honor Roll, 1; Phi Eta Sigma; Phi Psi.

ROY EDGAR RAYLE
Eastover, South Carolina
MECHANICAL ENGINEERING
Honor Roll, 1, 2, 3, 4; Phi Kappa Phi; Tau Beta Pi; Pi Tau Sigma; Briaecan Society.

PAUL A. REDMOND, JR.
Birmingham, Alabama
TEXTILE ENGINEERING
Phi Psi.

ERNEST REES, JR.
Fayetteville, Tennessee
TEXTILE ENGINEERING
Sigma Alpha Epsilon
Honor Roll, 1; Phi Eta Sigma; Phi Psi.

CLEMENT HUGH RENFROE
St. Augustine, Florida
INDUSTRIAL MANAGEMENT
Sigma Nu
Bulldog Club; Scientia Club.

WILLIAM HERBERT REYNOLDS
Jacksonville, Florida
ELECTRICAL ENGINEERING
JEFF SMITH RHYNE
Marianna, Florida
ELECTRICAL ENGINEERING
Delta Sigma Phi
Kappa Eta Kappa; Kappa Kappa Psi; A. I. E. E.; Track, 1, 2, 3, 4; Lieutenant, R. O. T. C. Band; Rifle Team, 1, 2, 3.

JOSEPH WILLIAM RICKETT
Atlanta, Georgia
INDUSTRIAL MANAGEMENT
Phi Delta Theta
Honor Roll, 3; Football "I", 1, 2, 3; "Y" Cabinet, 3; Student Supply Scholarship, 3, 4.

DOMER FREDERICK RIDINGS, JR.
Kingsport, Tennessee
INDUSTRIAL MANAGEMENT
Pi Kappa Phi
Pi Delta Epsilon; Kappa Kappa Psi.

SAMUEL ANDREW ROBERTS
Decatur, Georgia
TEXTILE ENGINEERING
Phi Psi; "T" Club; Football, 1, 2, 3, 4; Captain, R. O. T. C.

SAMUEL NOBLE ROBERTS, JR.
Atlanta, Georgia
MECHANICAL ENGINEERING
Sigma Phi Epsilon
A. S. M. E.

CARL WASHINGTON ROBESON, JR.
Savannah, Georgia
MECHANICAL ENGINEERING
Alpha Tau Omega
Bulldog Club; Yellow Jacket Club; Interfraternity Council, 2, 3, 4; Scabbard and Blade; Captain, R. O. T. C.

ALBERT JULIUS ROESEL
Augusta, Georgia
ELECTRICAL ENGINEERING
A. I. E. E.

CHARLES EDWARD SAMFORD
Atlanta, Georgia
CIVIL ENGINEERING
Sigma Nu
Civil Crew; A. S. C. E.

NEAL HERBERT SANDERS
Atlanta, Georgia
MECHANICAL ENGINEERING
Track, 4.

CHARLES LANE SCHREEDER, JR.
Atlanta, Georgia
MECHANICAL ENGINEERING
James Arthur Scoggins
Rockmart, Georgia
Mechanical Engineering
A. S. M. E.; Football, "B", 1, 2, 3, 4.

Frederick William Elmer Scott
Atlanta, Georgia
Mechanical Engineering
Delta Tau Delta
A. S. M. E.; Band, 1, 2, 3.

Roy Secord
Jacksonville, Florida
Co-op Electrical Engineering
Majors, R. O. T. C.

William Paul Secord
Atlanta, Georgia
Aerospace Engineering
Delta Tau Delta
Honor Roll, 1, 2, 3; Phi Eta Sigma; I. A. S.

David Silver
Augusta, Georgia
Textile Engineering
Tau Epsilon Phi
Pi Delta Epsilon; Phi Psi; Interfraternity Council, 2, 3, 4; Basketball, Manager, 1, 2, 3, 4; Blue Print, 1, 2, 3, 4; Business Manager, 4; Yellow Jacket, 1, 4; Technique, 1, 2, 3, 4; Sports Editor, 4; G. O. P.; "T" Club.

Morris Silverman
Baltimore, Maryland
Mechanical Engineering
Honor Roll, 1, 2; Phi Kappa Phi; Phi Eta Sigma; Pi Tau Sigma; Freebody Club; A. S. M. E.

Thomas Fletcher Sims, Jr.
Chattanooga, Tennessee
Industrial Management
Phi Delta Theta
Anak; Class Secretary, 2; Class Vice-President, 3; President Senior Class, 4; Student Council, 4; Football, 1, 2, 3, 4; Captain, 4; Basketball, 1, 2, 3, 4; All-Southern Quarterback, 3, 4.

Francis Lee Shackelford, Jr.
Greenville, South Carolina
Chemical Engineering
Phi Delta Theta
Alpha Chi Sigma.

William Henry Shelhorse
Gretna, Virginia
Civil Engineering
Civil Crew: A. S. C. E.; Track, 1; Lieutenant, R. O. T. C.

Charles Thomas Shelor
Atlanta, Georgia
Industrial Management
Phi Sigma Kappa
Honor Roll, 3, 4.
JOHN WILEY SHEPHERD, JR.
Maysville, Georgia
ELECTRICAL ENGINEERING
Honor Roll, 3.

EUGENE BRANSON SLATEN
Atlanta, Georgia
INDUSTRIAL MANAGEMENT

FRED WARREN SMITH
Waycross, Georgia
CO-OP ELECTRICAL ENGINEERING
Co-op Club; A. I. E. E.

RALPH ARNOLD SMITH
Jefferson, Georgia
CHEMICAL ENGINEERING
Sigma Chi
Bulldog Club; Alpha Chi Sigma; Pi Delta Epsilon;
A. I. Ch. E.; BLUE PRINT, 1, 2, 3; Assistant Business
Manager; 3.

ROBERT JAMES SMITH
Atlanta, Georgia
TEXTILE ENGINEERING
Kappa Sigma
Phi Psi

MARION KISER SMITH
Union City, Georgia
MECHANICAL ENGINEERING

WESLEY VERNON SMITH, JR.
Hamlet, North Carolina
CIVIL ENGINEERING
Delta Sigma Phi
Civil Crew; A. S. C. E.; "Y" Singers; Marionettes;
BLUE PRINT, 1.

JAMES WILLOUGHBY SMITHSON
Chicago, Illinois
INDUSTRIAL MANAGEMENT
Sigma Nu
Yellow Jacket Club; M. L. Brittain Debating So-
ciety; Track, 1, 2; Cross Country, 1, 3; Technique,
1, 2; Yellow Jacket; 1, 3.

WILLIAM ARTHUR SNEELGROVE
Savannah, Georgia
CO-OP MECHANICAL ENGINEERING
Non-Fraternity Organization, 1, 2, 3, 4; President,
3, 4; Britaean Society, President, 4; Co-op Club;
M. L. Brittain Debating Society; "Y" Singers; "Y"
Cabinet; International Relations Club.

SAMUEL SOLBERGER, JR.
Sidell, Louisiana
CHEMICAL ENGINEERING
ENGLISH SOLOMON
Macon, Georgia
MECHANICAL ENGINEERING
Phi Delta Theta
A. S. M. E.; Oil Can Club.

JEFFERSON WOODROW SPECK
Frenchmans Bayou, Arkansas
ELECTRICAL ENGINEERING
Pi Kappa Alpha
Kappa Eta Kappa; Kappa Kappa Psi; A. I. E. E.,
President, 4; Interfraternity Council, 2, 3, 4; Band,
Drum Major, 1, 2, 3.

JAMES GAFTON SPENCER
Palatka, Florida
CO-OP ELECTRICAL ENGINEERING
Co-op Club; A. I. E. E.; Captain, R. O. T. C.

GEORGE NICHOLS SPRING, JR.
Atlanta, Georgia
CHEMICAL ENGINEERING
Chi Phi
Alpha Chi Sigma; Skull and Key.

BENJAMIN HILL SPURLOCK, JR.
Atlanta, Georgia
GENERAL ENGINEERING
Technique, 3.

IAN FRASER STALKER
Atlanta, Georgia
INDUSTRIAL MANAGEMENT

CHARLES ALBERT STAPLES
Decatur, Georgia
MECHANICAL ENGINEERING
Honor Roll, 2, 3; Tau Beta Pi; Scabbard and Blade;
A. S. M. E.; "T" Club; Track, 1, 2, 3, 4; Captain,
Naval R. O. T. C.

CADE ALFORD STAPLETON
Decatur, Georgia
MECHANICAL ENGINEERING
Honor Roll, 1; A. S. M. E.

LYNWOOD ALFORD STAPLETON
Decatur, Georgia
MECHANICAL ENGINEERING
A. S. M. E.

EDWARD STAUVERMAN, JR.
Atlanta, Georgia
MECHANICAL ENGINEERING
Honor Roll, 1; Scabbard and Blade; A. S. M. E.;
Football, Manager, 1; Captain, R. O. T. C.
Lloyd Everett Stein
Holyoke, Massachusetts
Electrical Engineering
Radio Club.

DeWitt Alexander Stevenson
Memphis, Tennessee
Civil Engineering
Pi Kappa Alpha
Civil Crew; A. S. C. E.

William Farmer Stokey
Atlanta, Georgia
Mechanical Engineering
Phi Kappa Tau
Honor Roll, 1, 2, 3, 4; Phi Kappa Phi; President's
Gold "T"; Phi Eta Sigma; Pi Tau Sigma; Ensign,
Naval R. O. T. C.

Harold Winton Strickland
Glenville, Georgia
Co-op Civil Engineering
Civil Crew; A. S. C. E.

Thomas Dennis Strickland, Jr.
Atlanta, Georgia
Electrical Engineering
Phi Delta Theta
Kappa Eta Kappa; A. I. E. E.

Henry Lowrey Stulb
Augusta, Georgia
Architecture
Chi Phi
Architectural Society, President, 4.

Ernest Lucian Symms, Jr.
Asheville, North Carolina
Aeronautical Engineering
Honor Roll, 1, 2, 3, 4; Phi Kappa Phi; I. A. S.

Omer Lee Thomas
College Park, Georgia
Mechanical Engineering
Baptist Student Union.

Smith Blythe Thomas
Hapeville, Georgia
Industrial Management

Harmon Scott Tolbert
Atlanta, Georgia
General Engineering
Delta Sigma Phi
LEON ALFRED TOLVE
Atlanta, Georgia
MECHANICAL ENGINEERING

JAMES MURRAY TOWNSEND, JR.
Atlanta, Georgia
INDUSTRIAL MANAGEMENT

Pi Kappa Alpha
Pi Delta Epsilon, President, 4; Bulldog Club; Scientia Club; Interfraternity Council, 2, 3, 4; "Y" Cabinet; Technique, 1, 2, 3, 4; Managing Editor, 4; Yellow Jacket, 3, 4.

ERNST CHARLES TRAMMELL
Hamilton, Georgia
MECHANICAL ENGINEERING

JOHN ROBINSON TUFTS
Atlanta, Georgia
INDUSTRIAL MANAGEMENT

Chi Phi
Bulldog Club; Skull and Key; "T" Club; Track, 1, 2, 3, 4; Cross Country, 1; Marquetttes, 1.

ARMANDO JOAQUIN VALDES
Havana, Cuba
CIVIL ENGINEERING

Pi Gamma Delta
Civil Crew; Cosmopolitan Club.

NORMAN MANNING VAUGHN
Pleasantville, New York
MECHANICAL ENGINEERING

Alpha Tau Omega
Skull and Key; Oil Can Club; A. S. M. E.; Blue Print, 2; "Y" Singers, 2; Track, 1, 2; Band, 2.

WILLIAM ENOCH VAUGHN, JR.
Atlanta, Georgia
TEXTILE ENGINEERING

Phi Psi.

HOLCOMBE MATHURINE VERDERY
Harlem, Georgia
TEXTILE ENGINEERING

Pi Kappa Phi
Phi Psi.

ROBERT RAMSEY VOORHEES
Holmdel, New Jersey
MECHANICAL ENGINEERING

Sigma Chi
A. S. M. E.; Co-op Club.

ALBERT OVERALL WALDON
Atlanta, Georgia
INDUSTRIAL MANAGEMENT

Kappa Alpha
Honor Roll, 3, 4; I. A. S.; Cross Country, 1; Track, 4; Blue Print, 4; Yellow Jacket, 4; Rifle Team, 2; Captain, R. O. T. C.
GEORGE THORPE WAITE
New York, New York
Civil Engineering
Beta Theta Pi
Saelbard and Blade; Civil Crew; Foil and Mask; Fencing, 3, 4; Captain, 4; Blue Print, 1; Naval Rifle Team; Captain, Naval R. O. T. C.

HUGH EDWARD WATTS, JR.
Richmond, Virginia
Co-op Civil Engineering
Civil Crew: A. S. C. E.; Co-op Club; Lieutenant, R. O. T. C.

JAMES MCCLEARY WATTS
West Plains, Missouri
Co-op Electrical Engineering
Braraean Society; Honor Roll, 1, 2, 3, 4; Phi Eta Sigma; "Y" Singers, President, 4; Band, 1, 2, 3, 4.

FRANK KLINE WEBB, JR.
Atlanta, Georgia
Mechanical Engineering
Delta Tau Delta
Honor Roll, 1, 2, 3; Tau Beta Pi; Pi Tau Sigma; Kappa Kappa Psi; Frebodly Club; Saelbard and Blade; A. S. M. E.; Band, 1, 2, 3, 4; Captain, R. O. T. C.

HENRY GRADY WEBB, JR.
West Point, Georgia
Textile Engineering
Phi Delta Theta
Phi Psi, President, 4.

GUY HERBERT WELLS
Milledgeville, Georgia
Industrial Management
Kappa Alpha
Honor Roll, 3; Omicron Delta Kappa; Pi Delta Epsilon; Bulldog Club; Science Club; Tennis, 1; Intramural Council, 3, 4; Yellow Jacket, 1, 2, 3, 4; Business Manager, 4; Technique, 3, 4; Blue Print, 3, 4; Marionettes, 3; G. O. P.

FRANK HALSEY WHALEY, JR.
East Moriches, New York
Mechanical Engineering
Delta Tau Delta
A. S. M. E.; Blue Print, 1; Lieutenant, R. O. T. C.

JOHN CHARLES WHEELER
Murfreesboro, Tennessee
Architecture
Kappa Alpha
Architectural Society; Interfraternity Council, 3, 4.

JOHN DAVID WHORTON
Decatur, Georgia
Industrial Management
Phi Gamma Delta
Honor Roll, 2, 3, 4; M. L. Brittain Debating Society.

ELBRIDGE BUFORD WHITE
Wales, Tennessee
Architecture
Delta Tau Delta
Architectural Society; Blue Print, 1, 2.
HOYT EDWARD WHITE  
Gainesville, Georgia  
CO-OP ELECTRICAL ENGINEERING  
Co-op Club; Captain, R. O. T. C.

REX HARRY WHITE, JR.  
Pensacola, Florida  
MECHANICAL ENGINEERING  
Honor Roll, 1, 2; Phi Eta Sigma; Pi Tau Sigma; Foil and Mask; A. S. M. E.; Fencing, 1, 2, 3, 4; Non-Fraternity Council.

JOSEPH LAWTON WIGGINS  
Hartsville, South Carolina  
AERONAUTICAL ENGINEERING  
Chi Psi  
I. A. S.

LELAND GALE WILCOX  
Tyler, Texas  
CHEMICAL ENGINEERING  
Sigma Alpha Epsilon  
Football, 1, 2, 3; Swimming, 1, 2, 3, 4.

RAY BURNETT WILHOIT  
Atlanta, Georgia  
INDUSTRIAL MANAGEMENT  
Honor Roll, 1, 2, 3, 4; Phi Kappa Phi; President’s Gold “T”; Phi Eta Sigma; Lieutenant, R. O. T. C.

TERRELL HARRISON WILKINSON, JR.  
Cuthbert, Georgia  
TEXTILE ENGINEERING  
Phi Psi.

HAROLD SMITH WILLIAMS  
Atlanta, Georgia  
TEXTILE ENGINEERING  
Phi Psi.

LUCIEN WILLIAMS  
Quitman, Mississippi  
TEXTILE ENGINEERING  
Phi Delta Theta

SAUL DAVID WILLS  
Savannah, Georgia  
MECHANICAL ENGINEERING  
Sigma Gamma  
Honor Roll, 1, 3.

JAMES EDWARDS WILSON  
Dallas, Texas  
MECHANICAL ENGINEERING  
Pi Tau Sigma; A. S. M. E.
JAMES HARVEY WILSON, JR.
Augusta, Georgia
CO-OP CHEMICAL ENGINEERING
Honor Roll, 3; Briarcrest Society; Alpha Chi Sigma;
A. I. Ch. E.; Marionettes.

LEON PORTLOCK WILSON, JR.
Atlanta, Georgia
CHEMICAL ENGINEERING
Honor Roll, 1; Phi Eta Sigma; Alpha Chi Sigma;
Lientensm, Naval R. O. T. C.

JOHN ENOS WOOD, JR.
Washington, District of Columbia
MECHANICAL ENGINEERING
Phi Gamma Delta
Scribed and Blade; A. S. M. E.; Yellow Jacket, 2.

JOHN HENRY WOODALL
Woodland, Georgia
MECHANICAL ENGINEERING
Alpha Tau Omega
Bulldog Club; Yellow Jacket Club; Basketball Manager, 1, 2, 3, 4.

BENJAMIN DAVID ZAKHEIM
Atlanta, Georgia
INDUSTRIAL MANAGEMENT
Sigma Gamma
Honor Roll, 1, 2, 3, 4; Phi Kappa Phi.
OFFICERS of the JUNIOR CLASS

ROBERT W. MURPHY

ROBERT E. ANDERSON

WILLIAM G. THRASH

ROBERT W. MURPHY . . . . . President
ROBERT E. ANDERSON . . . . Vice-President
WILLIAM G. THRASH . . Secretary and Treasurer

These three Juniors, recognized and respected by every Tech student, are famous for their abilities on the football field and their popularity among all students. By their able leadership of the Junior Class, this year, they promise to be outstanding among next year's graduates.

OFFICERS
of the
SOPHOMORE CLASS

CHARLES R. WOOD . . . . . . . . . President
W. ROANE BEARD . . . . . . . . . Vice-President
JOSEPH T. BAYER, JR. . . . . . . . Secretary and Treasurer

Stepping this year, along with the other Sophomores, from the ranks of "rats," "Charlie," Roane and "Joe" have shown their capabilities as leaders in every field. They will undoubtedly prove to be prominent campus leaders in the next two years.

Election to an office of the Freshman Class constitutes one of the highest honors available to first-year men. Only men who readily adapt themselves to new conditions and new personalities are elected to these positions. This year's officers are by no means an exception to this general rule. They have so conducted themselves as to justly deserve the honor that their fellow Freshmen have given them.

Seniors—happy, blue, cold, busy, thoughtful, hungry, and contented. Here we see them in their various moods. Here they are in poses which call to mind their personalities far more vividly than can any written word. Here they are as we have seen them, as we know them, as we want to remember them.

True, these compose a small number of the total, but they represent the life, the tone, the spirit of the whole class. In years to come they will bring to mind once again our “hall sessions,” our between-class antics, and our everyday campus actions. Among them can be found campus “big shots,” scholars, journalistic leaders, outstanding athletes, military geni, socialites, “Y” workers, school spirit leaders, and all-round good fellows. Thus beats the pulse of the Senior Class—every man a friendly individual, every individual a working unit striving with his own abilities for the betterment of himself, his fellow students, and Tech.
College life as interpreted by the camera. On the left page are scenes of students going to classes, and shots of places and things that will long be remembered. Here we see two interesting and unusual likenesses of the Administration Building—in one it is bent, in the other it burns. A dissected frog exposes his anatomy from a wax pan in the Biology Lab., while the ten-cent cameraman and the trick card artist entice students to part with their father's "dough." Two well-known athletes play pool, a freshman dreams of the one and only at home, and bleary-eyed engineers stare at a freak of the automobile industry.

The right page reveals us at work in the classroom and at so-called study at night. In the classrooms we see a would-be photographer delivering an oration, a machinist calipering, a "monkey" welding, and an architect hard at work—sleeping. Among the night "study" shots one will find an occasional scholar intermingled with love-sick writers, construction job robbers, and amateur barbers.

Here, grouped around the Military Color Guard, are the results of the candid camera's visits to the military camps and drill fields. Close observation will reveal that the whole is made up of three distinct groups. At the top are the shots made at the Coast Artillery summer camp in Pensacola, Florida. Wearing uniforms that look "cool" enough to fry an egg in December are the boys of the C. A. C. who labored for six long weeks at the "Country Club" of Pensacola. We see them manning the big guns on the coast, preparing to fire on the pistol range, and loafing in the sun with an Army "big shot."

Gathered in the center are shots made at school during drill. Here one can find Colonel Martin and staff in the reviewing position, scenes from the Armistice Day celebration at Grant Field, platoons in line, and the C. A. C. officers at "front and center."

To complete the page our camera clicked at the Infantry camp in Anniston, Alabama, probably better known as Hades, Inc. By so doing it has shown here the various activities of the boys in the land of excessive sunshine and scarce shade. One shot is of particular interest,—always we are interested in the fairer of the opposite sex.
An outstanding source of many of Tech’s "tall tales" is the annual naval cruise. To some of us who are not naval students, many of these tales seem almost incredible. Consequently, to avoid being nominated for the liar’s club, last summer’s cruisers brought back substantiating evidence in the form of candid camera shots. For four weeks these men traveled in the vicinity of Cuba and Puerto Rico aboard two of Uncle Sam’s cruisers. That their activities were varied and somewhat unusual cannot be denied. Above they may be seen visiting an old fort, courting dusky senoritas, exhibiting their "chest spinach" in the sun, dancing at the Governor’s Ball, and performing the favorite pastime of all naval cruises—beer guzzling.
The expansion of the Textile Industry into the home states of cotton brought about the establishment of TEXTILE ENGINEERING in 1899.
The growing knowledge of the value of scientific research in industry prompted the setting up of a degree in CHEMISTRY in 1906.

CHEMICAL ENGINEERING came to Tech in 1901 to fulfill the requirements of industry for men who could better its products and broaden its markets.
The INTERFRATERNITY COUNCIL
Local Governing Body of the Fraternities

This group, composed of two representatives from each fraternity, determines, in conjunction with the Dean of Men, the regulations by which each local chapter shall abide. House rules, rush-week laws, and pledge and membership regulations are under its jurisdiction. Its main activity is the presentation of two sets of dances each year. One, the Mid-Terms, follows examination week in February; the other, the Finals, comes after class work is completed in June. These dances are occasions of much enjoyment for all students, and the Council is to be commended for its fine work in presenting them.

A shot of a Council meeting over the heads of President Phillips and Secretary Bickerstaff.
Known the campus over as the oldest fraternity at Tech, the A. T. O's continued this year their many and varied activities, even as they have every year since Tech opened its doors. Numbered among its members are many outstanding athletes and loyal school spirit workers. Among those with whom the brethren must part this year are: Ed Jones, Jack Nixon, and Bill Jordan, stalwarts of the gridiron; Bo Johnston, lanky basketball star; Carl Robeson, Billy Paxton, and Johnny Woodall, military and school spirit workers; and Jack Clark, accomplished aeronautics student and musician. By finishing near the top in the Bulldog Bowling Tournament, and battling the Betas in the finals of the Intramural Basketball Tournament, the A. T. O's established themselves firmly among the foremost fraternities in intramural contests. To complete a well-rounded year, their social activities have included buffet suppers, house dances, and one large dinner dance to which almost all Tech flocked.

LEAVING Beta Kappa are two well known Seniors: W. S. James, a member of the Bulldog Club, Phi Psi, and a student in Textile Engineering; and “Puss” Singleton, a member of the Architectural Society. Beta Kappa’s underclassmen promise to replace the graduating Seniors adequately. This fact is proven by their aiding the fraternity to win second place in the interfraternity scholastic competition and to secure the fraternity loving cup in the Thanksgiving Day Cake Races. During the football season and throughout the Winter, the members of Beta Kappa enjoyed a number of house parties and dances. Social activities were climaxed with a formal dance in late Spring for all the fraternity friends of Beta Kappa.

As one of the most representative fraternities on the Tech campus, the Betas boast members in Omicron Delta Kappa, Tau Beta Pi, and Phi Kappa Phi; three of the six highest ranking Seniors in the Naval ROTC; presidents of four campus organizations; and officers in eight other organizations. Among Beta's outstanding Seniors are: R. E. Burks, honor student and Naval leader; Vic Cooper, football manager and school spirit worker; H. W. Criswell, honor student; George Waite, Naval student and fencing enthusiast. Intramurally, the Betas have been outstanding. They won the Basketball Championship by defeating A. T. O's in the finals. The third best Homecoming decoration, a fourth in the Ramblin' Wreck Contest, and the fourth rank among fraternities scholastically—all these achievements have helped the Betas attain an enviable position on the campus. Their annual Kid Party, held every Spring, is a social function of long outstanding reputation.

FAMOUS over the nation as the first Greek letter fraternity to be chartered, Chi Phi has existed since 1824. At Tech its fame is equally as great. Among representative Seniors are: Britt Pendergrast, OA member and scholastic honor student; George Blanchard, gold “T” winner and honor man; Lowry Stubb, president of the Architectural Society; John Tufts, track star; and Billy Caldwell, Captain in the Reserve Officers Training Corps and officer in Scabbard and Blade. ¶ Chi Phi is represented in nearly every social and honorary organization on the campus, including all three publications, and was leader in the Bulldog Bowling Tournament. One of its social traditions on the campus is a series of Tea Dances which are held in the Fall, one dance following each home football game. Other functions of the year have included an Alumnus Dinner Dance, two supper dance-swimming party combinations, and an Alumni Football Breakfast.

Known the country over as the first fraternity to build a chapter house, Chi Psi has continued this record until today it owns every dwelling that houses its members. Its house at Tech is one of the largest and most beautiful on the campus. From it have come many famous Tech men. Prominent among those leaving this year are: Fred Phillips, Interfraternity Council President, Charles Calhoun, Bulldog member and faithful "Y" worker, Sam Fowler, track manager, John Earle and Doug Fink, well known Chemist and Chemical Engineer. Intramurally, the chapter stands well in athletics and social activities. Their several events include a Hallowe'en Dance, a Christmas Party, a Spring Formal, and an annual Birthday Ball. It is interesting to note that every Chi Psi social function, except the exclusive Birthday Ball, is attended by members of every fraternity on the campus.

With an attractive decoration of a dinner for the Tech team consisting of a roasted Georgia Bulldog as the main course, and previously defeated Tech rivals as the minor courses, Delta Sigma Phi won much comment and a cup for the best fraternity decorations during Homecoming. Led by Puss Miller, Junior Anderson and Red Givens, the Delta Sigs have enjoyed and gained notice for their visits to the Atlanta Federal Penitentiary. However, they went as a football team, not as inmates. Those brethren that the Delta Sigma Phis regret to see leave are: Eddie Carmack, diminutive varsity football guard; Bill Moore, twice captain of the Tech tennis team and Atlanta Tennis Champion; and Jeff Rhyne, track star and military leader.

During the year open houses, informal dances, and a Spring formal dance served to fill the Delta Sig social calendar.
Through graduation Delta Tau Delta will lose several members well known on the Tech campus. Among them are: "Possum" McLean, Senior Football Manager and Vice-President of the Student Council; "Peanut" Webb, prominent honor student, Captain in the R.O.T.C., and a member of Scabbard and Blade; and Hugh Bowden, candid cameraman for the Blue Print. Intramurally, Delta Tau Delta stood out this year, by winning second place in the Homecoming Decoration Contest with a decoration that consisted mainly of a Yellow Jacket meat grinder making sausage out of the Georgia Bulldogs. Throughout the Fall a number of informal dances and buffet suppers provided entertainment for the Delts. During Tech's Homecoming, an all-State banquet and dance was held for all Georgia Delta Tau Deltas and alumni. As in the past the Artists and Models Ball provided a big treat to all socially inclined Tech men.

Establishment at Tech in 1889 makes Kappa Alpha one of the oldest fraternities on the campus. During its long life the members have brought many honors to the lodge. Typical of this record are its leading Seniors: Guy Wells, member of OAK and other organizations, Business Manager of the Yellow Jacket, and president of the fraternity; Morgan Lewis, militarist and ace architect; and Albert Waldon, infantry officer. The Kappa Alphas hold semi-annually a social function that is the envy of every other fraternity on the campus. It is a house party given at Lakemont, Georgia, on Lake Rabun, and it consumes the major portion of half a week. In addition, numerous house dances are held during the year, together with an annual Yachting Party Dance given each Spring.

Kappa Sigma has gained much athletic recognition on the Tech campus through an abundance of football playing members. Representing the Kappa Sigs on the gridiron are: “General” Wood and “Tarzan” Lackey of line fame, and “Juno” Page, Billy Gibson, Bobby Beers, and “Bad Boy” Ector who “carry the mail” for the Yellow Jackets. Numbered among the Seniors Kappa Sigma will lose are: Wally Moye, journalist and Chemical Engineering student; Chester Gavin, member of the Yellow Jacket staff and Industrial Management student; and Hugh McDonald, a member of A. S. M. E. and a student in the Mechanical Engineering Department. Social activities for the Kappa Sigs have included a series of dances during the football season and the seventeenth annual Christmas party given in conjunction with Kappa Sig’s sister sorority, Chi Omega. The formal dance given in the Spring was enjoyed by all attending students.

PARALLELING Phi Delta Theta's national reputation of the largest social fraternity in the world, the Tech chapter holds the local reputation of the largest fraternity on the campus. Outstanding among its graduating Seniors are: Fletcher Sims, Captain of the 1937 football team; Jack Chivington, President of the Student Council and a member of O. D. K.; Parmer Lee Martin, Colonel in the R. O. T. C.; "Chick" Aldridge, holder of the Southeastern Conference record for the two-mile run, and Stanley Holditch, a star on the Tech Golf Team. The Thetas have had strong teams in all intramural sports despite the fact that their numerous varsity athletes were ineligible. The Southeastern District Regional Convention of the national organization was held in Atlanta in December and was sponsored by the Tech chapter. This gathering included among other activities, a dinner dance at the Georgian Terrace Hotel for the members and delegates. Other social activities have included house functions and a Spring formal dance given for all fraternity men.

Through graduation Phi Epsilon Pi will lose Irving Gassenheimer, fraternity leader and student of the Electrical Engineering Department, but coming up from the Junior Class are David Goldstein, Textile Engineering student, and Bob Levin, prominent honor student in the Co-operative Department. In the field of varsity athletics Phi Epsilon Pi is represented by Gerard Kwilecki, accomplished high jumper. Besides informal dances and buffet suppers at the lodge Phi Epsilon Pi gave a formal dance in the Fall followed by another in the late Spring. Both dances were held at the Standard Club, and were attended by all socially inclined Techsters.

The Fi-Jis will lose several members through graduation who have brought recognition to Phi Gamma Delta on the Tech campus. Among those leaving are: Johnny Wood, a Captain in the Cadet Corps, and a member of Scabbard and Blade; Joe Brasfield, honor student and member of Tau Beta Pi, Pi Tau Sigma, and Phi Eta Sigma; and Armando Valdes, a member of Civil Crew and well known Civil Engineering student. To Juniors Irving Bull, Dick Bull, Les Woodworth, and Earl Wheby will be left the job of filling the shoes of the graduating Fi-jis. Social activities at the Fi-ji mansion have been numerous and interesting. During the Homecoming Celebration at Thanksgiving, the actives entertained the alumnae with a successful formal dance. Buffet suppers, open houses, and informal dances served to complete a well-rounded social year.

PHI KAPPA SIGMA lose several Seniors who have done much to build up and strengthen the fraternity at Tech. Through his untiring efforts, President Homer Moore has been largely responsible for the growth of Phi Kappa Sigma at Georgia Tech. Others the fraternity regrets to see leave are J. E. Hite, honor student in Chemical Engineering, well known military student, and member of Scabbard and Blade; and H. G. Beall, a student in Mechanical Engineering.

During the year house dances and buffet suppers given every other week-end have provided entertainment for the members and friends of the fraternity.

Graduation will cause Phi Kappa Tau to miss several Seniors who have helped bring recognition to the fraternity on the Tech campus. Among the members leaving are: Frank Floyd, president and student in the Electrical Engineering Department; W. F. Stokey, honor student of the Mechanical Engineering Department; and W. A. Miller, scholar of the Civil Engineering Department. Bill Roux, intercollegiate bowler and prominent Junior, will help to fill this vacancy left by the graduating Seniors. Although not at the top, Phi Kappa Tau has made a very good showing in intramural bowling, basketball, and baseball. This year's social activities have featured a set of informal house dances, buffet suppers, and open houses held for the alumni.

Together with the football team, Phi Sigma Kappa will feel the loss of "Dutch" Konemann and "Red" Collins. With "Red" Collins paving the way, the "Ole Koon" played a great part in this year's successful football campaign and won the Technique award for the Senior having the most playing time on the gridiron. Other Phi Sigs graduating are: Bill Evans, Captain in the R. O. T. C. and a member of Scabbard and Blade; Bill Painter, Y. M. C. A. campaigner and school spirit worker; and Hooper Almond, a student of the Industrial Management Department. As in the past Phi Sigma Kappa again upheld its scholastic standards this year by capturing the Interfraternity Scholastic Cup with one of the highest scholastic averages ever made by a fraternity on the Tech campus. A series of buffet suppers and informal dances given during the football season was climaxed by an alumni dance held after the Georgia game. Social activities were continued in the Spring with a dinner dance for the members and a formal dance for the friends of the "Staggering Ts".

Pi Kappa Alpha is proud to have representation in many campus organizations. They claim ten members of publication staffs, two football managers, two basketball men, one track man, and twenty-five members in other social, honorary, and class clubs. Jimmy Townsend, a prominent Senior, is President of II A E and Managing Editor of the Technique. Other outstanding Seniors are: J. W. Speck, President of A. I. E. E. and well known E. E. student; and Joe Ebdon, baseball and basketball star. ¶ Aside from campus activities, II K A has entertained with several social events during the year. Not only the annual Spring dance, but their many house dances were well attended and enjoyed. Also, during the Spring, there is a formal affair, the Founder's Day Ball, which is exclusive to the members of Pi Kappa Alpha.

 Upholding its reputation as the journalistic fraternity of the campus, Pi Kappa Phi boasts this year among its Seniors John Boy, Editor of the Technique, and Archie Lewis, Editor of the Yellow Jacket. Two unusual members Pi Kappa Phi will lose by graduation are Willis "Jeff" Paulk and Eddie "Mutt" Fambrough, the long and short of it on the Tech campus. Others Pi Kappa Phi will find it hard to replace are J. P. Morgan, a bulwark at the wing position on the football team; J. Huff Gordy, well known Civil Engineering student; and Doug Crocker, a guiding hand of the chapter. Intramurally and socially the Pi Kappa Phis have been outstanding this year. They were awarded the "Golden Gaboon" for constructing the worst wreck in the Ramblin' Wreck Contest staged during Homecoming. A colorful Masquerade Ball given just before Christmas was their outstanding social function of the year. Many minor functions were held at the house to complete the social year.

SIGMA ALPHA EPSILON
GEORGIA PHI CHAPTER
Installed, 1890

OFFICERS

W. G. KIRST  President
C. A. BICKERSTAFF, JR.  Vice-President
E. REES  Secretary
D. MUNFORD  Treasurer
The second national fraternity on the campus, Σ Δ E, was installed at Tech in 1890, and has contributed such prominent alumni as Bobby Jones, world-famous Golf Champion, and Peter Pund, All-American Captain of Tech’s 1928 Rose Bowl Team. During the year Σ Δ E has produced six lettermen—three in football, two in swimming, and one in golf. Senior brethren holding prominent positions in campus activities include: Pat Munroe, President of the Y. M. C. A., Charlie Bickerstaff, Secretary of the Interfraternity Council, and Nat Harrison, O. D. K. and Senior Football Manager. By winning the Interfraternity Track Meet two years in succession, the Σ Δ Es have established themselves among the leading fraternities, intramurally. This record is paralleled by an equally outstanding social year. Upholding their reputation as leaders in the social world, the Σ Δ Es have entertained with house dances, an annual outing at Marietta, and a large Founder’s Day Ball, given in conjunction with the Georgia and Emory chapters.

LED BY "Mush" James, intercollegiate bowling champion, the Sigma Chis pledged the largest number of Freshmen of any fraternity on the Tech campus. These pledges, totaling twenty-seven, will be a great help in replacing graduating members. Along with President James, who is also Business Manager of the Technique, and a member of Anak, the other members Sigma Chi regrets to lose are: Jack Pierce, track and bowling star; Tom Allen, footballer; John Hayes, Bob McKenzie, and Ralph Smith, scholars; and W. O. Baker, militariast. ¶ In Russel Bobbitt, high ranking national tennis player, Sigma Chi will have campus and national prominence on the courts this coming season. A formal dance in the late Spring will climax the year's social activities which have consisted of a series of buffet suppers and informal dances given in reciprocation with the Emory University chapter during the Fall and Winter.

INSTALLED at Tech in 1896, Sigma Nu was one of the first national social fraternities on the campus. In Morely Hudson, president, they boast a very outstanding and representative Senior, his most important achievements being membership in Ω Δ Κ, staff of all three publications, Ω Δ E, and other honorary and social clubs, winner of the Gold "T" and Captain in military. Other well known Seniors include Earnest Haile, Hugh Renfroe, and Jimmy Smithson, all of whom are active in campus organizations. It has become a tradition and looked-forward-to occasion to attend the Sigma Nu breakfasts given after each series of big dances held at Tech. Those given this year have been no exception. Several house dances, and the annual Spring Formal rounded out a successful social year.

Sigma Phi Epsilon, the tenth fraternity to come to Tech, has done much to establish itself prominently on the campus. Lester Hubbell, Treasurer of the Interfraternity Council, and R. Daniels, winner of Gold "T" and scholastic honor student, represent outstanding members of the Senior Class. Track, military, and publications are other fields of activity participated in by its members. Intramural honors included winning of the Tennis Trophy and taking second place in the Ramblin’ Wreck Contest. The ΣΦΕ’s annual social calendar consists of a local Founder’s Day Ball in November, a National Founder’s Day Ball in April, and a formal dinner dance in the Spring. These events are supplemented by other parties and house dances.

The fame of Tau Epsilon Phi on the campus rests mainly on its activities in publications and its outstanding scholastic record. The eight Tau Eps who work on the publications' staffs are topped by Dave Silver, Business Manager of the Blue Print. Dave is also manager of Tech's basketball team. Mortimer Goldman, another Senior, well represents the high scholastic standing of his fraternity by his accomplishments in the classroom. His honors include membership in O. D. K., Tau Beta Pi, and Phi Kappa Phi.

The annual Conclave of the ten southern chapters of Tau Epsilon Phi was held in Atlanta during Thanksgiving and was sponsored by the Tech chapter. The social events held for the members and delegates at this Conclave topped the Tau Ep's social year. Other functions during the year furnished social entertainment in the form of house dances and two formal dinner dances.

BY ENTERTAINING the orphans of Atlanta at a Christmas party, the Theta Chis performed a worthwhile deed and set a precedent for such on the Tech campus. Representing Theta Chi at Tech are: Lucien Harris and Ben Alsobrook, honor students, and Louis Lawrence and Roy White, campus socialites. The construction of a winner in the Ramblin' Wreck Contest brought Theta Chi intramural recognition. During the football season, dances were held for visiting brothers from schools of rival football teams. Social activities were carried on in the Spring with a series of informal dances combined with buffet suppers.

ACTIVITIES and ORGANIZATIONS
The need for more men with practical experience in all branches of engineering led to the establishment of the CO-OPERATIVE PLAN of schooling in 1912. The student works three months in an industry of his chosen field, and then...
studies the principles of his field for three months at Tech.

The Department of ARCHITECTURE was started in 1908 to aid in solving the problem of housing an ever increasing population and an ever growing business world.

The STUDENT COUNCIL
Student Governing Body

OFFICERS

J. L. CHIVINGTON ........ President
O. C. McLEAN ............ Vice-President
J. U. NIXON ............... Treasurer
R. E. ANDERSON .......... Secretary

The objects and duties of the Student Council, as stated in its Constitution, are "to represent the whole student body in matters affecting student interests; to afford a suitable and convenient medium of communication between the students and the school authorities; and, in general, to create and preserve the excellent customs and traditions of the school." To carry out these duties the Student Council takes charge of all mass meetings called to consider questions of school welfare, supervises student body vote on matters requiring a definite expression of student sentiment, disciplines students when necessary, represents the student body on Faculty Committees, promotes and supervises annual elections of class officers and Council representatives, and supervises all publications, annually electing their editors and business managers. The Student Council is composed of the President of the Senior Class, the President of the Interfraternity Council, the President of the Y. M. C. A., the Editor of the Technique, five members elected from the Senior Class, four from the Junior Class, two from the Sophomore Class, two from each section of the Co-operative Department, and the following members who have seats but no votes: Presidents of the Junior, Sophomore, and Freshman Classes, and Editors of the Blue Print and Yellow Jacket.

The Council's accomplishments this year have been numerous. In addition to its regular activities, it has been responsible for a movement to change the date of the final dances from June to May. As this is written the issue is still unsettled, but indications are that the desired change will be made.

The STUDENT-FACULTY HONOR COMMITTEE

FACULTY MEMBERS
Prof. J. L. Daniel  Dr. R. A. Hefner  Prof. W. B. Johns, Jr.

STUDENT MEMBERS
R. E. Anderson  J. L. Chivington  E. H. Mattingly

The Student-Faculty Honor Committee, an organization for the elimination of dishonesty among students, grew out of the failure of a lax honor system and ineffectual faculty control. Under the impetus of a movement originated by the Student Council, it was established in 1932 and has functioned continuously since then. Three faculty members, appointed by the President, and three student members elected by the Student Council, compose its personnel. The functions of the committee as outlined by its Constitution are: "Any faculty member who suspects a student of dishonesty in school work must report such student, together with the evidence, to the Student Faculty Honor Committee. This committee investigates the case and determines whether the student is guilty or not guilty as charged. If, in the opinion of the committee, the student should be disciplined, it remands the student to the Executive Committee of the faculty."

Six years of successful operation and the approval of both the faculty and the student body of its methods assures the continued success of this group in the future.

Major
ANAK Society, the oldest honorary group on the Tech campus, constitutes the highest honor of a local nature attainable by a Tech student. During its long years of faithful service, Anak has numbered among its members many Tech men who have since become national leaders in their fields of endeavor. This record serves as an inspiration to its annual new members, causing them to ever increase their fame and bring greater glory to their Alma Mater.

Members of Anak are elected twice yearly from the Senior Class. They are men who stand out among their fellow students by right of their school-wide popularity and their constant service for the betterment of Tech and Tech students.
Having existed at Tech only eight years, the Alpha Eta Circle of Omicron Delta Kappa has, in this comparatively short time, grown so rapidly in importance that today it shares, with Anak, the distinction of being the highest honorary organization on the campus.

Omicron Delta Kappa is a national honorary activities fraternity for men. It endeavors to reward, by recognizing their abilities, those men who prove themselves leaders in every field of college activity. A unique method of electing new members has been largely responsible for O. D. K.'s phenomenal growth since it was founded in 1914. Members are elected on a point basis, a definite number of points being given for each honor received or position attained by the student. When the student has secured a minimum of thirty points and maintained a definite scholastic average, he is eligible for election. His ultimate election depends upon his character and popularity among other students. In this way, O. D. K. chooses outstanding men—men of whom it can be justly proud.
O. D. K. and ANAK ACTIVITIES through the CANDID CAMERA

**O. D. K. is surpassed by no other organization and equaled only by ANAK in the performance of beneficial campus activities. Each year, in conjunction with the faculty, O. D. K. sponsors Honor Day. On this occasion the school is thrown open for inspection to the parents of all students, and exercises are held in the morning at which those students who excel scholastically are rewarded for their efforts. Furthermore, this year O. D. K. has undertaken its most comprehensive program—the raising of sufficient funds for the construction of a Banquet Hall. The candid camera has recorded at the left scenes of the Honor Day exercises and the announcement of O. D. K.'s Banquet Hall Campaign.**

**Each year the Anak Society sponsors a series of Saturday night dances held at the Naval Armory during the Fall, the proceeds of which are applied to the Adair-Old known Scholarship Fund. Climaxing this series is a set of fine dances held at Homecoming. This year Art Kassel and his orchestra from New York furnished the music for a very successful set. Among its other activities Anak presents medals to outstanding military and naval men at the end of each year. At right we see scenes from Anak's unique tapping exercises, and shots of Anak Dances, the presentation of medals, and announcement of its Homecoming plans.**

**85,000 Addition To Dining Hall Is Circle Goal**

Money to be Raised By Sponsoring Tech B Team Football Games.

In its most ambitious program in the history of the organization, the Executive Council of O. D. K. has launched a two-year campaign to finance a large addition to the dining hall. The present dining hall will be expanded and new facilities added, including a student union room, according to an announcement made this week by the president.

To be built atop the kitchen of the new addition, the new dining hall will be equipped with modern equipment and will be able to accommodate 1200 people. The student union room will be a social center for the students, and will be equipped with a bar, a lounge, and a dance floor. The addition will also include a new entrance, a new staircase, and a new lavatory.

Funds for completing the new addition will be raised by the O. D. K. in various ways. However, the Circle expects at least half of the funds from the solicitation of the alumni. The proceeds from the sale of bonds will also be used to finance the project.

Completion of the new dining hall is scheduled for completion in 1950. Until then, the new facilities will be used for various purposes, including meetings and social events.

---

**Theft of Gas Meter From Co-Ed Dorm**

Police and detectives are seeking the thief of a gas meter from the Co-Ed dormitory. The meter was stolen from the second floor of the dormitory early yesterday morning. The investigation is being conducted by the campus police, and anyone with information is urged to contact the campus police department.

PHI KAPPA PHI

Senior Honorary Scholastic Fraternity

PHI KAPPA PHI is a national honorary scholastic fraternity founded in 1897 to recognize scholarship in all of its branches. The Georgia Tech chapter has been exceedingly active since its installation in 1914. Only Seniors from the upper seven per cent. of the class are eligible for membership in this strictly scholastic organization. As its main activity, Phi Kappa Phi presents a cup to the Senior maintaining the highest scholastic average while at Tech. It also aids O. D. K. in sponsoring the annual Honor Day Exercises which are held each Spring to recognize students of outstanding scholastic ability.

As one of three national honorary scholastic fraternities, Tau Beta Pi is the largest engineering fraternity in existence. Eligible for membership are the upper eighth of the Junior Class and the upper fourth of the Senior Class. The members are chosen for their excellence in scholarship, character and activities. The fraternity promotes good scholarship and all-round development in engineers by recognizing the best.
Phi Eta Sigma
Freshman Honorary Scholastic Society

The highest honor a Freshman can receive is admission to Phi Eta Sigma, a national honorary scholastic fraternity. Its eligibility requirement is a 3.5 average which is equivalent to approximately one-half As and one-half Bs. The fraternity encourages scholastic excellence by recognizing those who are proficient in it. It presents a cup each year to the Freshman attaining the highest average during the first semester of his work at Tech.

HONORARIES
ALPHA CHI SIGMA
Professional Chemical Fraternity

The only organization at Tech being a member of the National Professional Interfraternity Council, Alpha Chi Sigma, by binding chemists together as fraternity brothers, seeks to further chemistry as a science. The Alpha Omega chapter at Tech selects its members from those men in the Junior and Senior classes of Chemistry and Chemical Engineering who are highest in grades, character, and activities. The chapter gives a chemical handbook yearly to the Junior in the chemical department with the highest average.

AMERICAN CERAMIC SOCIETY

Professional Ceramic Society

Originally founded in 1926, the present student branch of the American Ceramic Society was reorganized in 1936. It exists to foster a spirit of mutual interest among the ceramic students and to promote an interest in ceramics in the South. Activities include: field trips to nearby centers of ceramic activity, making souvenirs for departmental distribution, entertaining guest speakers at regular meetings, an Annual Ceramic Carnival, and various social affairs.

AMERICAN INSTITUTE OF
CHEMICAL ENGINEERS

Professional Chemical Society

Although young among the professional organizations on the campus, the student chapter of the American Institute of Chemical Engineers has repeatedly proven its ability. In the spring of 1936 the first Southern Regional Meeting of the student chapters was held here. This organization offers membership to Juniors and Seniors in the Department of Chemical Engineering with the aim of better acquainting them with actual conditions in the industrial world. This is accomplished through the medium of plant tours, lectures and instructive films.

ARCHITECTURAL SOCIETY

Professional Architectural Society

As an honorary architectural society this organization has been on the campus since 1910, with the prime motive of advancing the study of current architectural problems. Several times during the year the society hears from practicing architects, who give the student a viewpoint of the profession as it is in actual practice. The society is valuable in promoting fellowship among student members, and among student members and commercial architects.

MEMBERSHIP IN BRIAEREAN SOCIETY constitutes the highest co-operative honor available to students of the Co-operative Department. This organization is composed of two sections which operate in alternation as the sections of co-operative students change. Section One, acting in accordance with the policy of both sections, carries out many activities beneficial to Freshman Co-ops. Its members aid the new men by conducting tours of the campus, entertain them with a smoker, and reward them by presenting an engraved knife to the outstanding co-operative Freshman.

BRIAERean SOCIETY  
Honorary Co-operative Society

SECOND SECTION

As the second half of the Briaerean Society, Section Two operates while the second section of cooperative students is in school. Both sections select as their members, from the Junior and Senior cooperative classes, those men who are foremost in every line of college endeavor. Section Two also benefits Freshman co-ops with conferences, tours, a smoker and a knife award. It also holds an annual Initiation Banquet and, in conjunction with Section One, sponsors a large formal dance each March when both sections meet at school.

M. L. Brittain Debating Society

Founded in 1924 through the efforts of Professor E. H. Folk, this society has done much to promote public speaking in the engineering profession. Named after a man whose sincerity of interest in this phase of education is unwavering, the club represents Tech in debating against other recognized schools. Several overnight trips are taken by members, who are picked from all men interested in the debate.

Members

Fifth Row: N. G. McLean, D. Munter, F. M. Murphy, L. O'Callaghan, Jr., L. Peacock.

H. E. Cobb . . . . . . . Secretary
CHARACTERIZED by the distinctiveness of its initiation and the fact that its functions are considered rather as traditions, the Bulldog Club is the oldest organization of its kind on the campus. The club picks its members from the outstanding Juniors and Seniors recommended to it by the social fraternities. Among the "traditions" sponsored by this group are the Thanksgiving Day Cake Race for the Freshmen, the Interfraternity Bowling Contest, and the decoration of fraternity houses during Homecoming.

Civil Crew

Civil Engineering Honorary Society

The Civil Crew, installed on the Tech campus in 1909, is a student chapter of the American Society of Civil Engineers. It is a Civil Engineering honor society whose members are selected from the outstanding students in the Junior and Senior classes. The activities of this society include a dinner once each month with some outstanding engineer as guest speaker, inspection tours of projects, and the showing of movies and models illustrating great engineering achievements. Not to be overlooked by any means is that outstanding dance sponsored by the Civil Crew each Spring.

COSMOPOLITAN CLUB
Honorary Foreign Relations Society

AN ORGANIZATION of students from foreign countries, the Cosmopolitan Club acts both as a social and foreign relations group. It sponsors social functions, which take the form of dances and outings, and educational lectures or debates given by guest speakers. In an effort to broaden its scope, the club has attempted this year to link itself with similar groups at other colleges in the city.

CO-OP CLUB
Honorary Co-operative Social Club
SECTION ONE

Like the Briaerean Society the Co-op Club is made up of two sections. Section One functions while Section One of the Co-ops is in school. It carries largely the duty of aiding those co-operative students who enter school at the beginning of the summer. For these Freshmen Section One entertains at a Cake Race, a Watermelon Cutting and a Tug-o'-War, all held during the summer months. In the winter term, the members bend their efforts toward building up the Scholarship Loan Fund which both sections sponsor.

CO-OP CLUB

Honorary Co-operative Social Club

SECTION TWO

Alternating in existence with Section One, Section Two of the Co-op Club functions during the Fall and Spring months. Membership of both sections is composed of upperclassmen of the Cooperative Department who are outstanding in popularity. In addition to working jointly with Section One in building the Loan Fund, Section Two also sponsors numerous social activities, the annual Masquerade Ball given each Fall being the most outstanding.

FOIL AND MASK

Honorary Fencing Club

Composed of men who are intensely interested in fencing, Foil and Mask has been largely responsible for the increased recognition which the athletic association has given fencing in the last few years. Although most members are Tech men, there are some honorary members from other schools. Each Winter the members sponsor a fencing tournament between Battalion teams, giving a cup to the winner.

FREEBODY CLUB
Honorary Mechanics Society

FOUNDED TO GIVE RECOGNITION to those men who are primarily outstanding in mechanics and secondarily prominent in campus activities, the Freebody Club has worked towards the most commented upon goal of any organization on the "Flats"—the establishment of a technical magazine to be written and published by the faculty and student body of Tech. Membership is limited to thirteen, men who must have completed at least three years of work.

Plans for Technical Publication Given By Free Body Club

The Free Body Club, the honorary Mechanics Society of Tech, has for the past few years been working earnestly to found a technical publication on Tech campus. In fact, one of the basic ideas in the founding of this society was that it should try to establish at Tech an engineering magazine of high quality that would be a credit to Georgia Tech. The members of the present senior and junior classes will remember that in the spring of 1936 a poll was taken among the entire student body asking whether the students were in favor of a technical publication and whether they were willing to support the magazine by adding twenty-five cents to their tuition. The vote was extremely favorable towards the magazine, but it was taken so late in the term that nothing further was done about it for the remainder of the year.

This year the present members of Free Body have taken up where the previous members left off, and they have submitted to Dr. Brown and the faculty their plans and ideas for the establishment of this publication. These plans are all tentative, however, and no definite decision has been de-

It is proposed that initially the magazine be conducted by a committee of the Free Body Club with the assistance of an advisory board of department heads, and under the direct supervision of the following faculty advisors: Professor R. D. King, Professor W. M. Johnson, Professor R. E. Swint, Professor R. A. Macfarlane, and Mr.

(Continued on page 4)

Announcement of Freebody's Plan for Technical Publication.
INSTITUTE OF AERONAUTICAL SCIENCES

Professional Aeronautical Society

As a student chapter of the parent professional organization, the Institute of Aeronautical Sciences, the Tech Chapter fosters interest in aeronautics by means of lectures given by authorities in the field, demonstrations and films. Its membership is composed of outstanding men of the Aeronautics Department and men in other branches of study who exhibit a special interest in aeronautics.

INTERNATIONAL RELATIONS CLUB

Current Topic Discussion Group

The International Relations Club, which is sponsored by the Carnegie Endowment for International Peace, has as its purpose the promotion of interest in world affairs and the provision of an opportunity for self-expression in fields of international concern. Each year this organization places for reference in the Tech Library a number of selected books on international affairs. At the bi-monthly meetings of the club, interesting speakers from other colleges, as well as from other countries, express their views on matters of international concern.

KAPPA ETA KAPPA

Honorary Electrical Fraternity

An honorary professional electrical engineering fraternity, Kappa Eta Kappa promotes electrical engineering as a profession by binding together the outstanding students of the E. E. Department with the bonds of a fraternal brotherhood. The chapter sponsored a very successful national convention here in November, 1937, at which the delegates were entertained by prominent speakers at several banquets. At the end of each year this group presents a slide rule to the Junior attaining the highest average in E. E.

KAPPA KAPPA PSI

Honorary Musical Fraternity

One of the twenty-seven chapters of Kappa Kappa Psi, national honorary band fraternity, the Tech chapter, along with Mr. Garing, manages the band. The captain of the band is the president of this organization, which picks its members from those men in the band showing the most interest in things musical. Last year Kappa Kappa Psi was instrumental in obtaining new uniforms for the band, giving sweaters to the Seniors, and a key to the outstanding Junior.

Three Publications Sponsored By Pi Delta Epsilon.
Pi Tau Sigma, a National Honorary Mechanical Engineering Fraternity, was founded in 1915, but the Georgia Tech chapter was not installed until 1932. The membership is composed of outstanding mechanical engineering students of the Junior and Senior classes. In an effort to stimulate scholarship, Pi Tau Sigma awards two engineering handbooks each year, one to the regular M. E. Sophomore making the highest grade, and the other to the co-op M. E. Pre-Junior having the highest scholastic average. Each year, Pi Tau Sigma has the name of the most outstanding M. E. Senior placed on a plaque which the fraternity presented to the M. E. Department in 1923.

RADIO CLUB

Tech Amateur Radio Club

Organized to promote interest and activity in amateur radio among the student body, the Radio Club now owns and operates amateur station W4AQL. Men in school who are interested in radio are offered membership. Throughout the year the club hears speakers on the different phases of radio, and makes trips of inspection to the amateur and broadcast stations in the Atlanta vicinity.

SIGMA GAMMA

Local Jewish Social Fraternity

The opening of a house for its members this year marked the last of a series of improvements and achievements which have brought this local Jewish social fraternity to the attention of all on the campus. Led by B. D. Zakheim, an outstanding student, Sigma Gamma is seeking both consolidation into a national organization and admittance to the Interfraternity Council. Its activities are of a fraternal as well as a social nature.

YELLOW JACKET CLUB
School Spirit Club

Founded in 1931 by Coach Alexander to promote school spirit and to teach the Freshmen school traditions, the Yellow Jacket Club has grown in importance until today it is an integral part of every student’s life. Besides being in charge of cheering at football games, holding pep meetings, and being responsible for the school spirit, the members also see that the Freshmen wear rat caps and observe the other Freshmen traditions. Members are those who have shown a prominent interest in school spirit during their Freshman and Sophomore years. The organization also sponsors the annual Ramblin’ Wreck Contest.

"Y" SINGERS

The Georgia Tech "Y" Singers is an organization composed of members of the student body who are talented in choral singing. This organization, which is directed by Dr. Ben Potter, Atlanta organist, is sponsored by the Y. M. C. A. Following the Christmas holidays each year, the Singers go on tour and present a series of concerts in the schools and churches of the Southeast. The main objective of this group is the promotion of interest in chorus singing and the affording of pleasure for its members and listeners.

The CANDID CAMERA at INITIATIONS

Periodically throughout the school year, Tech's campus is dotted by students who appear to be freaks rather than human. Their roughish attire and clownish actions are the direct result of their being elected to some one of Tech's many honorary organizations. They play soldier on the campus, father shaggy members of the canine species, waddle in imitation of elderly members of the opposite sex, blare forth in tuneless melodies, carry miniature telephone poles—in fact, pages of description are necessary to properly relate their many and varied antics. Among those organizations here represented by our camera are Bulldog, Kappa Eta Kappa, Scabbard and Blade, the Co-op Club, Skull and Key, the Yellow Jacket Club and Kappa Kappa Psi.
The LIBRARY

FEATURES
To answer the call for highly trained experts in the engineering fields, Tech established MASTER OF SCIENCE degrees in the leading engineering courses in 1922.
GENERAL SCIENCE was installed in 1923 to give industry a supply of graduates well rounded in the principles of both science and business.

Georgia's unusually rich deposits of ceramic minerals were largely responsible for the addition of CERAMIC ENGINEERING in 1924.

Introduction
The Finals
Homecoming
The Mid-Terms

Dancing
HIGHLIGHTS
To entertain the Engineers this year three sets of successful dances have been held. Numerous individual dancing parties were staged by various fraternities and organizations throughout the year, but the three sets of five dances each, sponsored by the Interfraternity Council and Anak Society, are those that the entire student body attended and enjoyed.

Under the direction of last year's Interfraternity Council, Bob Crosby and his Orchestra, triumphant from a nation-wide tour, came to Tech to play for the Finals of 1937. The Anak Society, as part of its tremendous Homecoming celebration during Thanksgiving week-end, presented music by Art Kassels and his Band at the annual Homecoming set in November. To rival the work of last year's Council and to successfully entertain all Tech, this year's Interfraternity Council brought out of the golden West Jan Garber and his Orchestra for the Mid-Terms held in February.
On the following pages, the Blue Print presents its eye-view of these three sets of dances by means of pictures and words. No attempt has been made to photograph each and every individual at the dances—such a task approaches the impossible. The objective here is to present as many shots of Tech's more famous dancers as is possible in the space available, with the ultimate aim of recording on these pages a living memory of the way we have danced. For any omission or excessive duplication of individuals, the editors must beg forgiveness. Photographs, by their inherent nature, limit the possibility of their own use.

In appreciation of a splendid task well done by a master craftsman at the art of photography, the editors wish to here pay tribute to Hugh Bowden, Photographic Editor of the Blue Print, for his fine work at the dances. The results of his work as recorded on the following pages are adequate proof of his worth.

To introduce the dances our cameraman here presents a group of shots typifying our moods and actions as we arrive for the dances. Smiles of happiness and expressions of keen expectancy are predominant. Since the shots of this group are all informal, they express the actual temperament and tone of all the individuals and couples as they arrive.
ON THIS AND THE FOLLOWING dance pages the reader will notice a series of individual pictures of separate couples. Without specific reference to the identity of the individuals, these pictures portray a story which serves to tie together the three sets of dances. They typify the average Tech student as he goes through the procedure of attending the dances. On this, the first page, our "players" in this drama of dance life show us the typical student as he dates, and, on the opposite page, as he and his one and only leave home for a big time.

Famous the world over as the younger brother of the great Bing, Bob Crosby has built in his Orchestra a musical aggregation that has played to the dancing elite of the world. His mellow voice, his featured vocalist, Kay Weber, and his incomparable drummer and brass section are parts of his organization that Tech will never forget. The comic trio, with their renowned fan dance, helped to complete Bob's well-rounded display of entertainment.

The Finals began with the Freshman Tea Dance on Thursday afternoon, June 10. Led by President Roane Beard the "rats" held sway for the last time in their capacity as Freshmen. That night the Juniors took the spotlight with their famous Prom. In addition the colorful Junior Lead-out, the Anak Tapping Exercise, age-old campus tradition, took place. Six leaders of the Junior Class were rewarded with Tech's highest local honor. Friday night brought the Pan-Hellenic, the most colorful dance of the set. Headed by last year's retiring officers, the Interfraternity Council members were an impressive sight in their summer formal outfits as they, along with their dates, paraded the floor at lead-out time. On Saturday afternoon the Sophomores were honored at a Tea Dance, and that night the Senior Ball served as a fitting close to the set.

In the accompanying display of snapshots, one may find, grouped around a shot of the Orchestra and crowd, scenes of the Orchestra's antics, of the Anak Tapping, and of the Pan-Hellenic Lead-out. Other products of the camera include likenesses of various individuals and groups. These personalities are pictured as they danced, listened, talked, sat, drank,—in fact, as they carried on every activity that is typical of a Tech dance.
Presents BOB CROSBY and his for the 1937 FINALS
The ANAK SOCIETY Presents ART
PLAYING for HOME
KASSEL and his KASSELS in the AIR
COMING---1938

HOMECOMING . . . Thanksgiving . . . holidays . . . big football games . . . turkey dinners . . . famous dances . . . Art Kassel. All these things happened in three short days. Three days that were jammed full of excitement and good times, that broke the monotonous school work that had been in order since September. They were welcome days and will be long remembered days.

As we move into a description of the Homecoming set, we notice two more episodes in the drama of dance life. Typical Techsters show us the usual procedure followed upon confronting the doorman and in dancing when finally on the floor.

Art Kassel and his Kassels in the Air, widely known as the band that entertained the World's Fair in Chicago for two years, came to Tech to uphold the reputation of a leader in America's list of college entertainers. His smooth, mellow music, by its unbeatable rhythm, won the admiration of all who attended the dances. Art's most famous entertainer, Marion Holmes, charmed the Engineers with her appealing good looks and melodious songs. To accompany Marion at the mike were Art himself and Billy Lee, as amiable a male vocalist as Tech has had the pleasure of hearing. The outstanding feature of the Orchestra's novelty numbers was the now famous "Beat Georgia" comedy skit. It will long live in our memories.

Establishing a precedent toward maintaining a better relationship between Tech and Georgia, the Anak Society this year shared its lead-out honors with the Sphinx Society of the University. The two groups were an impressive sight as they marched down the Armory floor during lead-out time at the Friday night dance. At the other four dances the individual classes were honored by special lead-outs and no-breaks. The last dance of the set on Saturday night was a mixture of Tech, Georgia, and Emory students, all on the same friendly plane, all happy and enjoying themselves.

In the "blub" of camera studies are various shots which picture the Orchestra, its leader, and its vocalists, and exhibit, in general, informal Tech at dance time.
INTERFRATERNITY COUNCIL
AIR LANES, PLAYING

OPENING OUR RECORD of the Mid-Terms are two more acts in the dance life drama. Here we see two of its most enjoyable stages—at intermission and after the dance.

When first semester exams are over, Tech men are relieved. They relax. At this, the opportune time, the Interfraternity Council sponsors the Mid-Terms. This set of dances has long been Tech's most famous by right of its wide attendance and splendid music. To continue this fame, the Council this year signed Jan Garber and "his gang of cut-ups." Never have Tech men been so royally entertained. Never have we seen such a group of accomplished vocalists gathered together in one musical aggregation. Curly-headed Russ Brown, blond trumpeter Fritz Heilbron, mellow voiced Lew Palmer, and operatic Tony Allen—these four not only startled us with their vocal abilities, but also led the Band in that continuous stream of clownish actions for which they have become famous the world over. Basing his type of music on his renowned theme song "My Dear," the Idol of the Air Lanes produced melodies in every tempo, but those of smooth fox-trot time were predominant. Tech men will long remember Jan and his Band as the most informal renderers of the best music ever heard at the Armory.

The five usual individual dances composed the Mid-Term Set. At the Junior Prom on Thursday night, Anak at its semi-annual tapping exercises, honored three leading Seniors. On Friday night, at the Pan-Hellenic, the Interfraternity Council members paraded in a colorful lead-out. The intricate formations resulting from this parade, which was led by President Phillips, Vice-President Burks, Secretary Bickerstaff, and Treasurer Hubbell, were the highlight of the entire dances. Closing the set was the Senior Ball on Saturday night to which flocked students from every college in Georgia. A tribute of praise is rightfully due the Council for its presentation of an unparalleled set of dances. Our photographer has gathered an unusual array of shots from this set. Around the center picture of Fritz and Jan before a portion of the crowd, are grouped numerous informal scenes of the Band, of groups, and of individuals. They show that the "good time" attitude of the Orchestra filtered out and affected every student attending.
Presents JAN GARBER, IDOL of the for the 1938 MID-TERMS
So numerous were the splendid shots of our cameraman that the editors were compelled to close the dance section with this page of scenes from all three sets. Here, as on the previous pages, are interesting camera studies of groups and couples in the act of enjoying themselves at the dances. Appearing here also and serving as a fitting close to the dance section, is the last act in our drama of dance life. Every student either ends, or hopes to end some day, a dance night in the manner shown.
The A. FRENCH TEXTILE BUILDING

ATHLETICS
When industry began requiring men trained in engineering principles and their application, but not specialized in any branch of engineering, Tech established GENERAL ENGINEERING in 1934.
AERONAUTICAL ENGINEERING, made possible at Tech in 1930 by Daniel Guggenheim, furnishes men capable of solving the problems of the world's youngest, yet most rapidly growing major industry.

The cry for more men trained to fill industry's executive positions caused the institution of INDUSTRIAL MANAGEMENT, the latest addition to Tech's curricula, in 1934.

1928 - 1938
Coach Alexander, more affectionately known by all as "Alex," has just finished his nineteenth year as Head Football Coach and Director of Athletics at Tech. During this time he has placed Tech athletics on a plane level with that of any college or university in this country. At the same time he has produced numerous football teams that have gained world-wide fame. To him should be given, and justly so, the greater part of all the glory and recognition that has been Tech's on the fields of sport.
COACHING STAFF

M. M. Tharpe
Line Coach

In 1926 Ga. Tech produced an All-Southern Tackle on her varsity of that year—"Mac" Tharpe. The following year "Mac" became Freshman Coach and served until 1935 when he was named Varsity Line Coach. Through all these years, by his diligent work, Coach Tharpe has shown himself to be one of the outstanding line authorities of the South.

R. L. Dodd
Backfield Coach—Baseball Coach

Coach Dodd, as All-American halfback at the University of Tennessee, established himself as an immortal in the annals of Southern football history. He has served at Tech since 1932, and the caliber of the backfields he has produced is proof of his worth. By his friendly spirit he has won a place in the hearts of all Tech men.

J. R. MacArthur
"B" Team Coach

In his position as "B" Team Coach and Chief Scout, Coach MacArthur fills an important place in Tech's Coaching Staff. He is largely responsible for the "B" Team's successful schedule and their important work in preparing the varsity for their weekly battles.

N. C. Dean
Freshman Coach

Coach Dean, a former Tech football and track star, served ably this year for the first time as Freshman Coach. His is the all important task of preparing new men to enter the ranks of the varsity after their first year. His work this year assures his continued success in the future.

Roy Mundorff
Basketball Coach

Dividing his time between the jobs of Basketball Coach and Math Professor, Coach Mundorff performs both tasks efficiently. So well has he acted as Basketball Coach that Tech has had in two years two basketball squads which have ranked with the leaders of the nation. His success can be attributed to his ability to carry into basketball his excellent knowledge of mathematical science.

G. C. Griffin
Track Coach

Known the campus over as the busiest man at Tech, Coach Griffin fills the positions of Track Coach and Assistant Dean of Men. By his kind and co-operative spirit he has won a high place of esteem for himself in the estimation of every Tech man, student or alumni. A constant parade of outstanding track stars shows his worth on the cinder path.

E. E. Bortell
Tennis Coach

This diminutive director of the sport of the rackets is widely liked, both as a Professor of Physics and as Tennis Coach. He has been responsible for Tech's unusual success on the courts.

- A. L. Wilson: Guard, Sophomore
- C. R. Wood: Tackle, Sophomore

The Managers

- N. C. Harrison, Jr.: Financial Manager
- O. C. McLean: Equipment Manager
SNAGGED!!—Jordan takes Sim's pass to score on Vandy.

Not since the golden days of 1928 have Tech's valiant gridmen reached such inspiring heights. Losing by one point to the fiery Blue Devils, one touchdown to the Rose Bowling Tide, and three touchdowns to an unbeatable Auburn team, Tech completed the season with an otherwise clean slate.

Led by brilliant Fletcher Sims, All-American and Captain, Tech's famous precision, three-year backfield has played its last for the Gold and White. Besides the tricky Sims, the backfielders were Harry Appleby, hard, fast, and smashing; "Ole Koon" Konemann, shifty and powerful; George "Scrappy" Edwards, nimble, spunky, and elusive; and "Red" Collins, fierce and steady. Playing together for four years this famous quintet has become a name, a fighting tradition, a glorious memory.

Rising from a six-year gridiron depression in 1935, a courageous sophomore team overpowered the Rose Bowl seeking Blue Devils, returning later to the first victory over the Georgia Bulldogs since '28. The next year's team even more spectacularly scored the greatest number of points of any of the nation's major teams, and on the day after Christmas met and conquered the same California team that was to win in the Rose Bowl one year later.

A long, long time has gone by since General Wood's first Tech eleven walked down the shadowy road that leads to football's glistening past. Many Tech teams have followed—some great—some weak. Still all were true sports; all were clean fighters. Down this dim road have gone greater teams than this of '38, more powerful teams, perhaps more spectacular teams. Inspiring these teams were football's great, such as the incomparable Strupper, the All-American Bum Day, mighty Fincher, the relentless Guyon, Barron, Wycoff, brilliant Peter Pund.

Yet none of these have surpassed the courage and clean spirit of our men. None have and none will. And now down the same misty road following the immortals go the great Sims, the Super Jordan, the Starr Konemann. These men have gone, but as long as Tech football lives they will live also.

SEPTEMBER 24 . . . NIGHT GAME . . . ATLANTA

In the First Game of the Year Tech Marches Over Presbyterian College from South Carolina to the Tune of 59-0

Presbyterian trots out in beautiful blue and white uniforms . . . look big and husky now . . . wait till later—Tech terrific from the first . . . picks up speed with each succeeding play . . . Konemann loose again and again . . . Sims to Jordan . . . Sims to Jones . . . Sims to anybody . . . Appleby cuts the line wide open . . . substitutes run rampant . . . "Scrappy" Edwards never fails to gain . . . Billy Gibson comes sailing through . . . Sims' kicking is colossal, long and straight, out on the three-yard line—Captains Caldwell and Ison lead a fighting Presbyterian team, against the unbeatable—another Tech team takes its bow with a mighty surge of power.

Sidelights: A lovely night . . . lovely girls . . . happy crowd—band blossoms out in new white and gold uniforms . . . are we proud? The '37 season is on . . . turn Tech loose . . . it can't be stopped—gala music, lights, color—Jones, Appleby, Konemann, Nixon, Jordan, Sims, and Morgan begin their last year for Tech.

OCTOBER 2 . . . ATLANTA

Tech Defeats Mercer With a First-Half Rush 28-0

The October sun is brilliant . . . The Golden Tornado is hustling, howling . . . the Mercer team with ten new men is green, unaccustomed to the crowd . . . not so with the Jackets . . . they are machine-like, relentless, methodical . . . they sweep through the first half without allowing the outclassed Bears the consolation of a first down . . . Harry Appleby charges time and again, scoring two touchdowns . . . Little "Paddle Foot" Gibson thrills the fans with long runs . . . Fletcher Sims can't miss . . . every punt is long, just where it should be . . . the whole line shows plenty of power . . . backs are fast and deceptive . . . the team looks swell and the students are already yelling "beat Kentucky."
ON, WILD WIND

Old Bill Alexander, the Fox of the Flats, has seen enough . . . he substitutes an entire new team for the second half . . . the reserves are not quite as smart, not quite as experienced, not quite as fast, but just as full of fight—Lake Russell, Mercer coach, is also smart . . . he has talked to his men between halves and made them forget their stage fright . . . made a game, hard fighting crew out of a group of inexperienced replacements . . . so Mercer is better. Tech necessarily weaker—result . . . the two teams fight ferociously, courageously, but find their weapons not quite enough, the other's defense a little too much—so the game ended . . . Mercer satisfied with the second half stand, Tech anxious to meet Kentucky and Duke.

Sidelights: Everyone's happy . . . Tech to win . . . Bears to be in the Big City—Crowds colorful in the frosty sunlight . . . freshmen joyful, laughing, battling, yelling . . . mobs pushing, throbbing—Goodbye Bears . . . good to see you again after twenty-one years.

OCTOBER 9 . . . LEXINGTON, KENTUCKY

Seemingly Invincible the Jackets Took Their Third Straight Game Today by Beating the Blue Grass Boys 32-0

Low skies . . . gray stands . . . it had been raining since dawn on shiny slick blue grass . . . in a moment a Golden Cyclone will sweep the same shiny blue grass . . . wait, here come the Colonels . . . big and blue . . .

CRASH!!—Chivington stops Duke's Hackney on a twenty-five yard kick-off return.
famous thoroughbreds . . . revengeful thoroughbreds . . .
seeing only red and a 34 to 0 Tech defeat that crushed their season last year—Crowds roaring, screaming, kill those Yellow Jackets . . . comes the Tornado, slower, surer . . . Fletcher Sims takes the kick-off . . . on a sliding, driving sprint, ten, twenty, thirty, thirty-two yards he goes . . . almost to a magic touchdown . . . till Garland nails him . . . stands breathless, weak . . . then the first scrimmage . . . Sims goes back, waits, waits . . . cool as the day . . . then a bullet . . . straight to the mighty “Dutchman,” who is in full stride on the Kentucky fourteen . . . goes over . . . like a good burlesque . . . Wildcat fans weaken . . . Colonels on defense forever . . . on, cagey, tricky . . . Tech playing brings another scoring march of sixty-one yards before the quarter . . . still Sims and the “Dutchman” . . . another long Tech journey before the half . . . Wildcats panicky . . . Tech scores . . . 20 to 0 . . . Sims and Konemann . . . stands very quiet . . . skies very quiet . . . half . . .

_sidecaps:

Tech in dazzling repeater . . . Tech won first game over the Wildcats last year . . . set on keeping them down-trodden . . . Tech’s brilliant line charged Colonels to death . . . yards gained almost even . . . colorful Blue Grass Davis brothers starring against Jackets for third straight year . . . Tech can do no wrong.

October 16 . . . Atlanta

Duke’s Blue Devils Come Out On Top of a 20-19 Score in the Best Game of the Year.

_sidecaps:

All football . . . time for nothing else . . . 171 yards in passes for Tech . . .
first Duke score on Grant Field . . . largest crowd since days of yore . . . wild cheering . . .
terrific pace . . . everybody exhausted, voices gone . . . still more noise . . . never relaxing . . . then we lose . . . defeat . . . dejection . . . dismay . . . someone must lose . . . why us?
OCTOBER 23 . . . ATLANTA
The Auburn Tigers Came to Atlanta to Hand Tech Its Worst Defeat of the Season . . . 21-0.

Hopes are high . . . skies dreary . . . spectators shivering, shaking . . . winds icy . . . people bundling, excited—the Tornado expects to avenge its heart-rending loss to Duke . . . blue and gold against white and gold . . . Tech makes a high kick-off . . . Tiger tears back . . . Jackets confused by Tigers' spearhead defense . . . Jacket line porous . . . Tigers ferocious, snarling . . . substitute Kelly is head Tiger . . . head Tiger rips Jackets open . . . Auburn drives sixty yards, hard, fast . . . on Tech's twenty-one . . . hero Kelly fires pass, low, too low . . . Page intercepts . . . is away for ten . . . tackled hard by Antley . . . collision, confusion . . . Sivell steals ball . . . is away . . . goal—Tech receives . . . punches first down . . . Tech fumbles . . . famous

Fenton recovers . . . dashes nine yards, sparkling . . . next play Fenton cracks the Tech center for a thirty-one yard score—From now on it's all Auburn . . . all Tiger . . . all blue for Tech . . . Auburn and Kelly score again . . . Tech is flat, low . . . excepting Sims, brilliant, scintillant . . . he never fails, rushed, pushed, crowded . . . his punts keep coming through . . . Duke has taken its toll . . . Tech has not recovered.

Sidelights: Cheer leaders' fiesta . . . Auburn Co-ed cheer leaders score also . . . Frosh capture "Wreck Tech" banner . . . Big Anak Dance . . .
everybody still unhappy . . . . Vandy victorious over L. S. U. . . . L. S. U.'s first regular defeat in seven years . . . Vandy at Grant Field next week . . . we may not win, but we are still fighting . . . come on Commodores.

**OCTOBER 30 . . . ATLANTA**

_Vanderbilt Tastes First Defeat of the Season From Our Golden Tornado . . . 14-0_

The Commodores . . . confident . . . backed by the dopesters . . . fresh from New Orleans and covered with the blood of the Bayou Tigers . . . on way to Rose Bowl . . . they marched on the field, spectacular in black and gold . . . the kick-off . . . the Tornado swells, digs in, battles back ferociously . . . first quarter, no score . . . Vandy slightly dismayed . . .

---

_William S. Knapp, Joe Brown, and Stan Lee_ review the events of the game:

"KOON" KONEMANN, "The Flying Dutchman"

they tighten . . . run too hard, fumble . . . Collins recovers . . . a mighty wind blows . . . it's golden . . . it's the Jackets . . . Sims fades, pauses, dodges . . . he throws . . . Jordan is in clear . . . like a steed he races . . . eternity passes as the oval soars toward him . . . it's too high . . . no! . . . he stretches, twists, snags . . . a few steps and a score—Commodores set for revenge . . . elusive Marshall passes from behind own goal, desperately . . . there's no receiver . . . but, yes there is . . . it's "Juno" Page who intercepts and races for the tally . . . 14-0—Shaken, Vandy is stopped at every turn . . . that is all . . . the Seven Strong Men have failed . . . J. L. Brooks in a Sampson's role . . . Sims kicks an exhibition . . . Vandy's Hinkle at center hero for a lost cause.

_Sidelights:_ The Golden Tornado redeemed . . . on to Alabama . . . "Light Horse Harry" gives Nashville his regards . . . it's home to him . . . day is fair and brighter . . . our hearts are lighter.

**NOVEMBER 6 . . . ATLANTA**

_Tech Revenges Last Year's Clemson Defeat by Turning Back the Tigers 7-0_

Appleby throws a pass . . . Clemson has been trying to stop him on bucks and spinners all afternoon . . . they expect another . . . fourth down, five yards to a score . . . Sims, now all brains, calls a fake . . . Appleby tosses to Konemann . . . the "Koon" has just caught one from Sims . . . that one set up the touchdown . . . he catches this one for the touchdown . . . Sims' placement is perfect—Pretty close, only three minutes to play . . . Tech hasn't been able to score . . . outplayed the Tigers all the way . . . passing never better . . . just too many fumbles . . . couldn't score until now . . . game's in the bag now, almost over . . . that big Willis has given the Jackets plenty of trouble . . . Bailey has recovered two fumbles . . . but they're not enough . . . the Tornado
has too many powerful reserves, too many tricks in the bag . . . the Engineers won't be beat . . . get hard breaks . . . come back to win . . . after they score, Clemson gets nowhere . . . Tech holds lead and cops game . . . still it was close.

**Sidelights:** That Clemson platoon looked good . . . complicated formations, with Navy's rifles, and white gloves . . . Tech Band didn't look bad . . . new uniforms are swell . . . Band marches better too . . . Dr. Brittain's box filled with distinguished guests . . . and pretty girls . . . yellow chrysanthemums visible all over stadium . . . another nice afternoon . . . everybody is happy.

**NOVEMBER 13 . . . BIRMINGHAM, ALABAMA**

*Tornado Rages for Fifty-seven Minutes Only to Fall Before the Crimson Tide in the Closing Seconds of the Contest . . . 7-0.*

Friday night . . . a swollen and drunken city staggers and yells all night long . . . armies of urchins selling white and gold, red and white . . . hotels jammed, buzzing . . . no sleep . . . big motorcade from Atlanta . . . everybody's laughing, shouting, swearing . . . Tech knows Tech will win . . .

'Bama knows 'Bama will win—Legion Field . . . terrific crowds . . . thousands turned away . . . here they come . . . 'Bama with a gigantic line . . . Tech with a flashy backfield . . . the kick-off . . . 'Bama plunging, fighting . . . Tech's ball on their own 17 . . . a beautiful kick by Sims deep in Tide's territory . . . Tide tries to plunge . . . no gain . . . Tide tries to pass . . . knocked down . . . the Tide tries in vain . . . a kick, raced back by Tech . . . a line smash, good for ten . . . another, still good . . . Tide here we come . . . snap . . . Chivington to "Koon," fast on an end around . . . full interference, running parallel to the line . . . stop . . . "Koon" throws a long high one to the other side of the field . . . Jones in the clear . . . fifteen yards to goal . . . smash! it hits Jones . . . he takes a step, ball drops . . . Tech hearts drop . . .

'Bama . . . elephants swearing, sweating . . . Ryba, Monsky, Kilgrow . . . it does no good . . . Jackets march . . . three times Jackets are on 'Bama three-yard line . . . but stopped . . . 'Bama only in Tech territory three times . . . Sims drops back . . . it's a long one to Jones . . . Jones with the ball, hitting on all eight . . . tackled, but keeps his feet . . . lunge over . . . touchdown . . .

**Sidelights:** First downs, Tech made twice as many . . . yards gained, Tech's over twice 'Bama's . . . yards passing, same story . . . fighters all . . . everyone either mad, sad, or glad . . . or "tight."

**NOVEMBER 20 . . . GAINESVILLE, FLORIDA**

*Tech Journeys to Florida to Hang Up Sixth Victory—12-0.*

Dizzy game . . . crazy sixty-yard sprints to gain four yards . . . Sims fading back forty yards to pass and then running to make thirteen
... Konemann taking a pass from Sims and skimming the boundary line for thirty yards and a touchdown... everybody's gone hog-wild—Even the weather is nutty, cold as ice down in sunny Florida... may be cold but "Koon" Konemann and the University's Captain Mayberry are red hot... "the Flying Dutchman" returning kicks back to where they were kicked... Mayberry, the whole Florida offense, making as much yardage as all the Tech backs—Others thrill spectators... General Wood, powerful sophomore tackle, blocks punt... Wilcox, always alert, recovers... Sims scores... Tech breaks through after scoreless first half... Tornado has the resourcefulness to win... Florida, trying to match Jackets' flashy attack, is inconsistent... lose thirty yards on one play, gain forty-four on next... all Mayberry... he can't do it all, is fatigued, removed from game... gets tremendous ovation... 'Gators can't match Jackets' reserve strength... game ends with Tech glad to win, Florida still happy over beating Georgia.

Sidelines: Big, celebrant Homecoming crowd jammed into Gainesville... hotels full... traffic almost stopped... Fraternity houses gaily decorated for game, filled with brothers from Tech chapters... beautiful campus, perfectly arranged... imposing stadium... filled with thousands of colors... makes swell picture at kick-off... a little bit cold, but swell time, grand gals, and a nerve-racking game.

NOVEMBER 27... ATLANTA
Bill Hartman's Ninety-three Yard Run Evens Up the Score With the More Powerful Jackets—6-6

Big day... big crowds... big excitement... big hopes—Rain... damp, wilted, excited people... colorful people... to see the oldest, most spectacular football rivalry in Dixie... New York... Chicago... Akron... Dallas... East, West, North, South... they come... old grads... new grads... "big dogs"... "little dogs"... pretty girls... funny, silly, drunk girls... all bright, all shiny... like new silver...
shouting . . . thirty thousand gay, swaying, lightheaded fans—Tech's drab Jackets, in . . . out . . . flashy Bulldogs, in . . . out . . . gallant Captain Fletcher Sims in his last game waddles out to the center of the field . . . Big Bill Hartman, the Georgia Captain, meets him halfway . . . Hartman to play his last game also . . . a coin is tossed . . . Sims wins, for the tenth consecutive time this year . . . every flip—The kick-off . . . Captain Sims toes a wet ball to Captain Hartman . . . caught on 15 . . . Big Rimmer pounds him out on the 32 . . . Hartman drives, Chivington stops . . . Cate drives, Wood nails him . . . Bulldogs smash . . . always Jackets, stinging Jackets, devastating Jackets . . . devastating Nixon, Brooks, Wilcox, Fiery Jones, superb Jordan . . . a soggy first quarter . . . with Tech a rising, powerful tide . . . sweeping the Bulldogs like dust . . . but no score . . . second quarter . . . no score . . . half.

Kick-off . . . “Rabbit” Hartman catches a high, slick ball . . . drops it . . . scoops it up . . . is away . . . straight down the field with only the big Jordan in pursuit . . . ninety-three miraculous yards, not a side step, not a break in stride . . . over in a clean goal . . . miss point . . . Georgia 6, Tech 0—Third quarter . . . Bulldogs hard pressed, hard driven . . . fumble . . . Tech recovers, on Georgia's 17 . . . a bullet from Sims to “Koon” puts it on the one-yard line . . . Fletcher crashes over . . . Lumpkin blocks kick . . . game Tech 6, Athens 6—Georgia happy . . . Tech not sorry . . . bood-bye Golden Tornado . . . we are proud of you!!

**Sidelines:** Tech had no penalties . . . Georgia tried no passes . . . Tech gains 208 yards to Georgia's 62 . . . Georgia, other than Bill's goal, came no closer than 59 yards to scoring . . . happy Bulldogs, Lumpkin, Hurdler Towns, Tinsley . . . stadium lights go dim . . . go out . . .

**CORNERED!!**—Konemann, Chivington and Wood bear down on Fordham of Georgia to smear him for a substantial loss.
The "B" TEAM

This year's "B" team came through the entire season without losing a single game, and having only one tie game—that with Armstrong Junior College. In their other games the decisive scores show the brand of football these men were playing.

A great deal of credit for the "B" team's performance is due to Coach Roy MacArthur, not only for scouting Tech's opponents but for his work in teaching their plays to the "B" team.

This season's record is really remarkable in view of the fact that every week the "B" team learned and practiced against the Varsity an entire new set of the plays of the team which Tech played the following Saturday. They had little if any time to perfect teamwork among themselves. During the season they learned and used in their games some two hundred or more plays from several basic systems.

Their use of Vanderbilt's hidden-ball play, which achieved such national fame, was met with extraordinary success, resulting in a touchdown against Cochran A. & M. and the Varsity in practice. It was also run in the Munroe game but resulted only in a good gain.

During the last two years the "B" team has lost only one game. The new system inaugurated last year of having scheduled games for the "Bees" has again proved a decided success.

The Baby Jackets looked very promising and strong at the first of the football season in their game with Monroe Aggies, they lost by a score of 19-7. During the next game the Freshmen displayed more power and experience which resulted in a 7-7 tie with the Auburn Polytechnic Freshmen. Auburn scored in the first half but the Jackets came back to tie the score in the second half. This is the first time the Baby Jackets have even so much as tied the Auburn Freshmen. In the biggest game of the year, that with the Georgia Freshmen, things looked dark for the diminutive Tornado, whom the papers favored, in the early stages of the game. However the Tech Freshmen came back in the second quarter to play with all the force and power of a Baby Tornado to win over the Georgia Freshmen by a score of 20-12 for the first time since 1934. The display of teamwork and co-ordination in the Georgia game pointed out a number of outstanding linesmen and valuable backs who promise, by their ability as kickers and passers, to fill the graduating vacancies in the Jacket Varsity.

Pitcher Carl Waits was elected Captain of the team at the first official practice. "Whack" Hyder was elected Alternate Captain.

Waits, a star on the team for two previous years, was an outstanding pitcher. Hyder, hard hitting fly catcher, rung up a new type of record in Tech's athletic history with his election, being also Captain of the Basketball and Track teams.

The team, after two weeks' practice, opened the season with a home game against Auburn and lost to the Tigers by one run, 3-2. It was a tight game, the winning run not being batted in until the eighth inning.

The next two games, a series with Florida at Gainesville, were both dropped to the 'Gators by the scores of 11-10 and 5-4. The first game was marred by the many errors made, three for Tech and eleven for Florida, whereas in the second game Florida's star hurler, Burress, was simply too much for the gentlemen from the Flats.
Ten days later the Jackets faced Alabama, one of the strongest collegiate teams ever assembled. Playing in Atlanta, the hard-hitting Tidesmen took two games, 7-1 and 3-1. Alabama was too heavy in the slugging line, although Tech displayed able handling of the ball in the field.

Traveling to Auburn the Jackets took their revenge and first victory in a hard fought battle, the score being 3-2. Losing in the first of the two-game series, the Techsters came through in the second by out-slugging the Tigers in the seven inning conflict which resulted in a close pitching duel.
Auburn scored first in the first inning, the Jackets ran in three in the second, and Chivington then held the team from Alabama to one more run. Both teams played beautiful defensive games and all hits were closely played.

Tech split the first two-game series with Georgia by the score of 5-4 and 13-8. The two teams were evenly matched, and although in the first game the pitching was not outstanding, the fielders had a big day. The Jackets did have a slight edge in the hitting. With the game running into three extra innings, the Jacket fielding was tight throughout the entire game.

The last two games of the season were played with Georgia and the Jackets won both by the score of 16-11 and 6-5. Both games were real thrillers. In the first, an old-fashioned slug fest, Appleby and Adams poled out homers for Tech. The season closer was just the opposite. Running for ten innings, all scores were made in the first three innings, except the winning tally.

Yellow Jackets

On the
For three years, four brilliant athletes have performed for Tech on the hardwood floor. During this time, Tech basketball has reached heights never dreamed of by many and predicted only by the few who knew the caliber of these four stalwart sons of Tech. Bo Johnston, Bill Jordan, Fletcher Sims, and Ed. Jones, coming to Tech as the outstanding athletes of their respective high schools, gave early indication of their eventual superiority in Southeastern Conference basketball. As Sophomores, they furnished the spark that ignited the flame which began to blaze a three-year trail across Tech's already illustrious athletic history. Last year, as Juniors, these four men, assisted by two Seniors and two Sophomores, completed a season of no defeats. However, the culmination of and the reward for this brilliant court play was not to come until the following year. At the Southeastern Conference Tournament of last year, Tech lost...
its only game of the season to a powerful Kentucky team in the finals. The loss of that game, the most crucial of the season, was a stunning blow to the four men who had fought constantly for two years to gain basketball supremacy in the South.

Consequently, these same four men opened this year's season with an indomitable determination to capture the Southeastern Conference Basketball Crown. This unconquerable spirit, coupled with their uncanny court ability, brought to Jones, Jordan, Johnston, and Sims the reward for which they had fought so faithfully. They returned from the Southeastern Conference Tournament, along with the other six members of the team, triumphant as the South's leading basketball aggregation and hailed by all Tech as the heroes of the 1937-1938 athletic year. They reached the goal which, three years before, they set for themselves. They, the four of them, formed the nucleus of a quintet that unknowingly but deservingly engraved its name deep in the annals of Tech's brilliant athletic history. Returning with them and sharing their glory was Coach Mundorff. To him goes the praise for producing a basketball machine never before equaled at Tech. Under his expert direction and able leadership these four men developed into the basketers that thrilled Tech for three consecutive years. No praise is too high for Coach Mundorff, who by his skill on the court and friendly attitude on the campus has won the heart of all Tech men.

The opening of the 1938 season found Tech with only ten men from which it might build a championship team. The four lettermen from last year, Jones, Jordan, Johnston, and Sims, were joined this year by Seniors Joe Ebdon and George Pef fal, Juniors George Smith, Junior Anderson, and Dillard Munford, and Sophomore Walter Haymans. With remarkable speed, Coach Mundorff molded these ten men, five of whom had just completed a strenuous season of football, into a co-ordinating, ball-passing, basket-shooting machine. In less than four weeks after practice started, this team was ready for action against its first opponent.

On January 8 a seasoned North Carolina State team, fresh from four early season victories, came to the flats to test the unseasoned Jackets. Taking an early lead, Tech led 24 to 10 at the half, but the experienced State team came back strong in the second period to narrow the Jackets' lead to two points. In the last minutes of play, Tech's four Seniors, aided by guard Junior Anderson, tightened up, ending the game with Tech on the upper side of a 35 to 30 score.

A week later Vanderbilt came to the Armory for the first encounter of a two-game series. Approaching their best play of the season, the Jackets very decisively defeated the Commodores in the first game, 59 to 25. Outstanding in this game was the brilliant second half scoring spurt by Fletcher Sims who had been held scoreless in the first
half. He amassed a total of fifteen points in the second period. The second game, played February 12 in Nashville, found the Jackets a bit shaky on a strange court. Inspired by the cheers of their classmates, the Commodores stayed close on Tech's heels throughout the entire game. Only by constant fighting did Tech finally win, 40 to 35.

Within the next two weeks, the Jackets won three games. A two-game series with Mercer University, one played at the Armory and the other in Macon, ended in two easy victories for Tech. Although these were the roughest encounters of the season the Techsters had little trouble winning. Our ancient rivals, the Crimson Tide of Alabama, gave us our first scare of the season at the Armory. The final score of Tech 36—Alabama 24 is not truly indicative of the close game that took place. Until the last two minutes of play the Jackets were unable to maintain a lead of better than four points. The last minute spurt, typical of the Yellow Jackets throughout the season, gave Tech a win in one of the best thrillers of the year.

Two more victories marked the Georgia series. Paced by illustrious Bo Johnston, lanky center who scored twenty points, Tech smeared the Bulldogs 51 to 28 at the Armory, January 29. However, on February 19 in Athens, the same Bulldogs made the going mighty hard for the favored Jackets. When the final whistle blew Tech led 29 to 27.

Wearied by first semester exams, a tired Tech team left Atlanta February 3 for the land of the bayous. They returned four days later dejected over two lost games. They fell before the attacks of L. S. U. and Tulane by the scores of 35 to 47 and 22 to 37. That these two losses were only the result of a mid-season slump was adequately proved when Tech won the Conference Championship later in the season.
A tribute of praise is due Coach Mundorff for his excellent work in bringing the Jackets back to normal after these two disheartening defeats. Bounding immediately back to championship form, the Tech machine easily defeated South Carolina in a two-game series, and Sewance, Clemson, and Florida in one-game encounters. The Auburn Plainsmen offered somewhat stiffer competition in their two games. The first of the season was a scoring feast for both quintets, with the Jacket five emerging victorious by a one-point margin, 43 to 42. The second contest, last on Tech’s regular schedule, showed the Jackets beginning to approach their brilliant tournament form. Again Bo Johnston led the scoring, amassing a total of 24 points to bring Tech through an easy winner, 54 to 32.

At the Southeastern Conference Tournament held in Baton Rouge, La., March 4, 5, 6, Tech drew Vandy as an opponent in the quarter finals. Due to an injured ankle, Ed. Jones was forced from the line-up. His place at forward was ably filled by George Smith. At the other forward was Bill Jordan, at center, Bo Johnston, and at guards, Fletcher Sims and Junior Anderson. From the opening whistle to the final blast, it was all Tech. So effective was the guarding of Sims and Anderson that Vandy was able to score only 18 points during the entire game. Likewise, so brilliant was the shooting of forwards Jordan and Smith and center Johnston that Tech walked from the floor with an unbelievable total of 51 points. This was only the beginning.

The next day, in the semi-finals, the Jackets could see only red, and feel only the unsatisfied urge for revenge against Tulane. The same five men who the night before had smeared Vandy again played a brand of basketball characteristic of champions. Under the impetus of superb ball handling by Bill Jordan, the Jackets soared to new heights to defeat a fighting Tulane five 44 to 29. On the same night a brilliant Ole Miss team defeated L. S. U. and won the right to meet Tech in the finals.

A more exciting game has never marked the finals of a Southeastern Conference Tournament. Mississippi’s “Country” Graham, considered one of the world’s best basket shots, and Tech’s ever dependable Bo Johnston furnished a thrilling exhibition in their duel for scoring honors. Johnston was the victor by right of his thirteen field goals for a total of twenty-six points as against a total of twenty-three for Graham.
Taking an early lead, Tech left the court at the half leading 32 to 21. Returning, the Jackets continued to dominate the play, and with fifteen playing minutes left Tech led 44 to 31. Suddenly Mr. Graham's uncanny basket eye began to work, and within seven minutes Ole Miss had brought the score to 44 to 42. At this point, Ed. Jones, ankle and all, came into the line-up. He furnished the necessary stimulus to steady the Jackets and led them on a scoring spree that ended in a final score of 58 to 47 and the Southeastern Conference Championship.

Outstanding the whole season was the play of the six best basketeers in the South. Bill Jordan led the Jackets in brilliance with his superb ball handling. Never has
Tech seen a man as capable of deceiving opponents by passes as Bill. Paralleling Jordan in brilliance was lanky Bo Johnston. His steady, nonchalant basket shooting was a sight thrilling to behold. Ed. Jones stood out for his fine work in "clip" shots which resulted from his speedy retreat to the opponents' basket after a scuffle under the Tech ring. Guarding splendidly the entire season, Sims and Anderson were largely responsible for keeping opponents' scores to a minimum. Especially spectacular was Anderson in taking the ball from the board. George Smith very ably played forward in alternation with Jones and Jordan. Ebdon, Haymans, Peffal, and Munford served well as reserves for the first six men. Their work was also outstanding, and without them the season would not have been successful.

David Silver and Johnny Woodall, as managers, share the glory that has fallen to the entire squad.

Varsity letters were awarded to Jones, Jordan, Sims, Johnston, Anderson, Smith, Ebdon, and Peffal. Of these eight men only Smith and Anderson return to form a nucleus for next year's varsity.

Coach "Alex" announcing a meet.

Belcher and Staples off in the "four-forty" against Florida.
before the cinder teams of the flats developed another champion of the caliber of these two. Last year a sturdy little Aldridge flashed to his fourth Southern Championship, two in cross country and two in the two-mile, twice defeating the famous Hamilton of L. S. U., to break the twelve-year-old Conference mark. In Milwaukee last summer, these same wiry legs carried “Chick” to a National A. A. U. 5,000 meter victory, and at the Sugar Bowl Meet in New Orleans the following New Year, brought him a third place against two of the world’s

THREE TIMES in Tech track history have the teams of the Gold and White held national track figures. Fourteen years ago the mighty Homer Welchel was chosen as a member of the American Olympic javelin team, and the summer after the games was victor in that event between America and the British Empire. The same year that the Golden Tornado captured the Rose Bowl Championship saw a sensational Eddie Hamm jump to an Olympic Championship and a new world’s record, for the most colorful athletic event of the season. A decade passed

greatest distance runners—spectacular Don Lash and the incomparable Rideout twin.

Equally spectacular runs the cinder record of Charlie Beleher, ace quarter miler from the flats, who was undefeated in the Conference last year, and who sped to a fourth in the National A. A. U. Meet. Being the Conference champion was a mere beginning for Charlie. Later in the summer he was chosen as the quarter miler on an American Track Team that toured Europe, and
Tech opponents can expect only trouble in the half-mile this year. Charlie Bickerstaff, Artie Small, and "Slim Jim" Pearce will compete in this event. Bickerstaff established himself among the outstanding Tech runners by his splendid work in the half-mile and quarter-mile relay last year. Small, a Freshman of last year, is Tech's brightest half-mile and mile prospect, having already set a new school record of 1:58 for the half-mile. Pearce, Frosh track captain of 1935, will show a speedy pair of heels to any half-mile opponents.

With Aldridge and Small in the mile run, the Jackets should have little trouble in taking every first and second place in this event, even against the mighty Fredrickson of Georgia, ex-National A. A. U. Mile Champion. The Tech Southern Championship Cross Country Team has provided the track squad with some of the finest two-milers in the South. Aldridge, Fambrough, Giles, and the Manleys will compose one of the strongest distance teams in southern competition.

with the exception of one second place in England, won every race while competing in Belgium, France, Holland, and Switzerland.

Last year's sprinters will return this year in total. Tom Jones, brilliant dash man who last year placed first in all but three meets, will again be assisted by "Koon" Konemann and Charlie Staples. The unusually good form of O. E. Parks, crack Freshman sprinter of last year, assures him of a place among this year's fastest runners. This aggregation of sprinters bids fair to bring the Jackets many points in coming meets. 

Konemann and the javelin.
The versatile Konemann will toss the javelin, as well as the shot and the discus, and will be aided in the weights by big Charlie Wood and Sophomore Roane Beard. The loss by graduation of hurdlers Hyder and Tufts leaves Tech slightly weak in this event. However, Sophomores MacIntyre, Cheatwood, and Wilson promise to adequately replace them. Likewise the Jackets are weak in the high and broad jump events, with McKee the only veteran and Rickett and Gregory as possibilities. Able Ben Peeples, Missouri champion, will head the vaulters and expects a good season.

This array of able tracksters, along with the other members of the team, holds the destiny of Tech's 1938 track record. All indications are that the season will be finished very successfully.

MINOR SPORTS
LED BY CAPTAIN BILL MOORE, the Jacket netmen this year will attempt to uphold its record of two defeats in fifty matches in the last five years. Tech lost one hard-fought match to the University of Florida last year but defeated their traditional rivals the University of Georgia without losing a single match in two team encounters. Loss by graduation in June of Captain Moore, who has been defeated in only one match in his college career at Tech, will be heavily felt by the team, but Sophomore Russell Bobbitt, former Southern Junior Tennis Champion, can be ably counted upon to fill Captain Moore's shoes. Teamed together, Moore and Bobbitt this season have already defeated the famous southern doubles team of "Bitsy" Grant and Malon Courts. By this sterling doubles play, these two men promise to place Tech among the top contenders for the Intercollegiate Doubles Championship during the coming summer. Additional help from Carl Lindsay, "Red" Hill, and the other members of the varsity assures Tech of a ranking position in Southeastern Conference Tennis.

The Freshman team, led by Selesky and Dreger, should uphold the splendid record of past Freshman squads, and give added strength to next year's varsity.
The Tech swimmers started the '38 season with a defeat at the hands of a powerful Kentucky team. In the next meet, however, they came back to win from Auburn by a wide margin. They were defeated in the next two meets with Florida and Tennessee, but won the third from Clemson. They split the last two meets, losing to Georgia and winning from Miami University. There remains at this time only the Southeastern Conference meet to complete the season.

This team has been considerably hampered, as have been other Tech teams in past years, by the lack of a pool near the campus. Having to practice at the down-town Athletic Club pool, the team has been able to hold few regular practices as a group. The members of the team are to be commended for their work in the face of these difficulties.

Probable high point man for this year will be Alyn Jones, with second place probably falling to Homer Hutchinson and third place to Conrad Duncan. Duncan has been outstanding this year in his diving, having taken first place in all but one meet, this meet being one in which he did not participate. Villageliu placed second to Duncan in all the meets and won the one in which Duncan was not entered.

The expectations for a strong team next year have been strengthened by some of the members of this year’s Freshman team. High hopes are held for Berry, Doherty, Alcorn, Van Arsendale, Abbey, Brannon, Dunn, and Bailey.
The training period of the fencing team is divided into two major portions; the first semester of the school year is spent in the training of the new men under the tutelage of the varsity squad, and the second semester is spent in competition with other schools. During the second week of the school year the members voted George T. Waite their captain. Waite's swordsmanship in meets this year has proven him one of the finest fencers ever developed at Tech.

In December, the foils men fenced a pre-season match with Rollins College. Traditionally one of the strongest opponents in the country, Rollins over-rode the Tech team, depleted by graduation of last year's Seniors and by the fact that Captain Waite was out with a broken leg, to the score of 14 to 3.

Work continued through the winter under the direction of Coach Morenus, the father of fencing at Tech. It was Coach Morenus' unwavering enthusiasm for fencing that was largely responsible for the formal recognition of the sport by the Athletic Association some years ago, and it is this same enthusiasm which has brought Tech to its present position as an important fencing center.

The regular season was opened with a win over Fort Benning, 11 to 7. Next came a tie with Alabama, and a win from Vanderbilt, both meets being held in the Armory. Matches yet to be fenced are with Stetson College, North Carolina, Atlanta Fencing Club, and return matches with Vanderbilt, Fort Benning, and Alabama.

The Freshman squad, in its matches with Atlanta High Schools, has shown up well. Its members bid fair to adequately replace the graduating varsity next year.
GOLFERS

E. H. DENNISON . Coach

LETTERMEN
T. W. BARNES S. N. HOLDITCH E. W. SMITH

CANDIDATES
R. B. WILHOIT W. L. CALLEY E. SOLOMON
F. L. SHACKLEFORD M. F. LEGG W. C. CROMER

RETURNING THIS YEAR from last year's varsity are three outstanding golfers. Tommy Barnes, Stanley Holditch, and W. W. Smith, who played numbers 1, 2, and 4, respectively. Two more men are yet to be picked from the candidates for the varsity squad. Of the candidates competing the following are the most outstanding: Bill Calley, Ray Wilhoit, English Solomon, Lee Shackleford, Frank Legg, and Billy Cromer. So consistent have been the scores of these men that Coach Dennison, at the time of this writing, is at an utter loss as to the two that will be his final choice. Regardless of his final decision, any two of these men will serve ably as numbers 4 and 5 on the varsity squad.

Barnes and Holditch, who have played on the golf team every year of their four at Tech, are golfers of whom Tech can be justly proud. Barnes, holder of many local championships, is at present Atlanta Open Champion, having won this title over the Druid Hills course last May. Last summer, accompanied by Charlie Yates, he toured the West Coast and there made an impressive record for himself and Tech in the National and Western Amateur Championships. Stanley Holditch is a holder of many of the South's leading golf titles. Among the tournaments he has captured during his stay at Tech are the Radium Springs Invitation and the Columbus Invitation. In the National Intercollegiate held last year at Oakmont Country Club in Pittsburgh, Stanley led the field the first day with a fine 74 and then went on to qualify and reach the quarter finals in match play. By this splendid exhibition he brought nation-wide recognition of his abilities upon himself and nation-wide fame to Tech.
The 1937 cross country team successfully upheld the record set by the teams of the past two years in completing the season undefeated. The team also made a sweeping finish on a rainy track to win the Southeastern Conference meet by a tremendous margin. Thus, the cross country team completed its third consecutive year without a single defeat—a marvelous record for any team to strive for.

The season opened with a meet against Mississippi State. Led by Captain "Chick" Aldridge, Theodore Manley, and Artie Small, the Jackets swamped Mississippi by a score of 17 to 41. Auburn was later defeated, 19 to 39, with the same trio taking the first three places. In the Alabama meet, Aldridge, Small, and Manley had a three-way tie for first place and also for a new Conference record. The Alabama meet was the only one this year in which the team made a perfect score, 15 to 49. The next meet was with Georgia, and again Tech was victorious to the tune of 17 to 56. The Conference meet, run on a rainy track, was another sweeping victory for Tech. Aldridge, Manley, and Small again took the three first places. These three boys ended up the season with the same number of points, and with a record of wins and places between the three that will go down in cross country history at Tech.

"Chick" Aldridge is the only man that the team will lose through graduation this year. Though his loss will be felt a great deal, it seems that next year's team will be strengthened by members from the Freshman team, which also came through the season without losing a meet. Next year's team will have an enviable goal to work toward in upholding the undefeated record of the last three years.
Here are shots from the Ramblin' Wreck Contest, Pep Meetings, and the Cake Race. Sponsored by the Yellow Jacket and Bulldog Clubs, these three occasions are highlights of the football season. Competition between fraternities in presenting the most disreputable looking automobile is the objective of the Ramblin' Wreck Contest. That this year's wrecks held their own is easily understood. Pep Meetings are held each Friday night before a football game on Saturday. At them the Freshmen listen to prominent speakers, learn and practice yells and burn symbols of opponents in effigy. The Thanksgiving Day Cake Race, sponsored by the Bulldog Club, brings into competition all Freshmen. They traverse the two-mile course in an effort to finish among the first and receive as a reward a beautifully decorated and very edible cake.
FOOTBALL GAMES are the cameraman's golden opportunity. No other collegiate activity offers such a rich variety of subjects, such a collection of interesting scenes. Our camera clicked continuously the whole season, producing the above outstanding shots along with hundreds of others.

On the left page are scenes from the games, shots of between halves, presentations and likenesses of lovely cheer leaders and fancy dressed band members. Among them are petite cheerers from Auburn and Florida, bands from Vandy and Duke, and Clemson's crack platoon.

The right page shows the crowds and personalities at the games. A true record of the games' progress is clearly written here in the expressions and attitudes of individuals. A spirit of gaiety and excitement seems to be predominant, except in a few cases where the bottle has outrun the game.
GAMES with the CANDID CAMERA
THE SPRING of 1937 brought baseball back to Tech after an absence of two years. Our candid camera snooped in on practice a number of times and visited all the home games. Here we see the results. Two left-overs of the Ramblin' Wreck Contest blend in with shots of the crowds and of players in various moods and actions. The Coach, the President and E. M., a petite and frequent visitor of our campus, help to round out this, the last page of snaps in the 1938 BLUE PRINT.
ADVERTISEMENTS
The BLUE PRINT Staff wishes to urge every Tech student to patronize the advertisers—not only because these advertisers have contributed much to the success of this book but also because they have shown themselves to be loyal Tech supporters. It will be greatly appreciated if Tech students will mention the BLUE PRINT when buying from our advertisers.

FEATURES: Georgia Tech's fifty years have produced many champions in athletics. As a feature this year we have chosen the athletes who we think were the best in their field.

We have omitted many good players who could probably stand up against our choice all day—even terms, but these all time teams are useful if they start arguments and they usually do.

The BLUE PRINT is very thankful to Ed Danforth, R. Carmichael, Morgan Blake, "Uncle Billy" Van Heuten and Dr. Crenshaw, who have helped us to arrive at our decisions.
To the graduates of 1938 we express our sincere best wishes for success in the business world—and to those who remain our neighbors at Tech, our message is the desire to continue to serve.

"A Technical School With a National Reputation"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power. The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Courses in Civil, Electrical, Mechanical, Textile, Chemical, Ceramic, Aeronautical and General Engineering, Architecture, Industrial Management and Chemistry.

Coast Artillery, Signal Corps, Infantry and Ordnance Units of the R. O. T. C., also Naval R. O. T. C.

Your 1938 BLUE PRINT is the 15th consecutive issue of this important annual publication to be bound in Molloy Made covers.

The BLUE PRINT, in common with many other Georgia yearbooks—from the largest University books to the smallest high school books—has recognized the value of taking advantage of a service which has proved itself to be dependable and helpful at all times.

This service succeeds because its nucleus lies in individual attention to each yearbook editor's needs.

THE MARK THAT IDENTIFIES THE SOUTH’S FINEST YEARBOOKS
In Printing

There are many reasons why successful annuals require the services of experienced and expert craftsmen. Foote & Davies Co. have these services... and the most necessary components of all really fine books including a special annual sales and service organization, creative designers and layout artists, abundant equipment... modern and complete. Prices representing maximum in value.
IN TRIBUTE

To those behind the scenes of the 1938 Blue Print

Now that our task is completed, we, the editors of the 1938 BLUE PRINT, look back over the year's work and recognize more fully the invaluable services that our friends behind the scenes have so cheerfully given us. To the staff of Gaspar-Ware Studios, particularly to Mr. Henry Gaspar and Mr. Marion Ware; to the personnel of Photo-Process Engraving Co., especially to Mr. George Way, Miss Helen Morgan, and Mr. Walter Dargan; and to the employees of Foote & Davies Co., principally to Mr. Charles Young—to all of these, we are deeply indebted. Their smiling faces, their ever faithful efforts, and their cheerful attitudes have made many apparently unconquerable tasks seem only pleasant interludes. May any glory for this volume that by chance becomes ours reflect equally upon them.
