Give Credit Where Credit Is Due" ... 

We believe that by thus dedicating the 1941

Blue Print to Dr. Stamy, we are honoring

one of the most deserving men at Tech.

DAVID LESLIE STAMY
From the beginning of the work on the 1941 Blue Print, a definite effort was made by the staff to take the Blue Print off of the "beaten paths" of formalized yearbook construction. We have always felt that an annual should be essentially a picture book, and that one of its major sore spots was the monotony caused by the repetition of the class sections. To remedy this the presentation of the seniors has been given a shakeup. Our idea is to present in one section three prime features of our school —The Seniors, The Departments, and The Life at Tech. The rest of the annual has under-
gone no radical change except for a little face lifting here and there in the form of more informal pictures.

We are proud of this year's Blue Print and feel that the ideas brought out in this book will stand on their own merits.

M. L. BRITTAINE

Dr. Brittain, born and educated in Georgia, has devoted his life and energies to the furthering of education in Georgia. In his position as President of Georgia Tech for 19 years, he has guided its growth to national prominence.
"The Dean," as he is known to all students, is the typification of all that students want as the Dean of their school. He is constantly impressing those he meets with his fairness and never failing courtesy.

OFFICERS OF ADMINISTRATION

These are the men who, because of their responsible positions, determine to a large extent the success of our school. It is they who formulate the general policies and then direct their successful execution. Too much credit cannot be given to these men for the reputation that Tech now enjoys.

DEAN FLOYD FIELD . . . . . . . . Dean of Men
H. H. CALDWELL . . . . . . . . Registrar
F. K. HOUSTON . . . . . . . . Treasurer
J. E. McDaniel . . . . . . . . Director of Co-op Department
A. H. ARMSTRONG . . . . . . . Superintendent of Dormitories
DR. HAROLD BUNGER . . . . . . Director of Research
GEORGE C. GRIFFIN . . . . . . . Assistant Dean of Men
DR. J. L. HENRY . . . . . . . . School Physician
THE STUDENT COUNCIL . . .

. . . is the governing body on the Tech campus, elected by the student body itself. The purpose of the Council is to represent the student body in all matters affecting student interest, to provide a medium of communication between the students and school authorities, and to preserve the customs and the traditions of the school. The Council also supervises the election of editors and business managers of the publications, promotes and supervises the annual election of class officers, and elects student representatives on all student-faculty committees.

VOTING MEMBERS

Robert Aderhold  President Senior Class

Ralph Wood  President Freshman Class

Aderhold, holding center of interest by expressing his views on a question.
THE STUDENT-FACULTY HONOR COMMITTEE

... was organized in an effort to eliminate dishonesty among the students at Georgia Tech. Each year the President appoints three faculty members and the student council elects three student members to act as the committee. The functions as stated in the constitution are: "Any faculty member who suspects a student of dishonesty in school work must report such student, together with evidence, to the Student-Faculty Honor Committee. The committee investigates the case and determines whether or not the student is guilty as charged. If, in the opinion of the committee, the student should be disciplined, it remands the student to the Executive Committee of the faculty." Few cases have called for such discipline, as the committee has proved most successful in executing its purpose.

ments of senior life in the Senior Section of the Blue Print has been our aim. Scattered throughout the Senior Section will be found what we called "Atmosphere shots." These pictures present the life at Tech as the senior lives it. Here will be found scenes of work and play—both essentials of a good education.

Above: Seniors as well as others frugis homeward at six after a hard day. . . . Right: Seniors McInoe, Weir, and Marshall spending an afternoon welding in the W. E. lab . . . Below: Seniors McInoe, Pliner, and Sabourin relaxing Friday evening at the bowling alley.
The Georgia School of Technology operates in two divisions—The School of Engineering and the Departments of General Study.

**The Schools of Engineering**
- Aeronautics
- Architecture
- Biology and Public Health
- Ceramics
- Chemistry and Chemical Engineering
- Civil
- Electrical
- General
- Industrial Management

**The Departments of General Study**
- Economics and Social Science
- Engineering Drawing and Mechanics
- English
- Geology
- Mathematics
- Physics

This division into two parts, although not closely observed in teaching practice, is used as an administrative tool.

---

**PIETRO DOMENICO SAVANT**
Dean

To many students Dean Savant is merely a power in the Electrical Engineering Department and the Director of the General Engineering Course, but to the people behind the scenes who devise the curricula to be offered by Tech, he takes on a new role—that of Dean of Engineering. Specifically it is his job to approve all changes in curricula, usually at the suggestion of the head of a department, but when these suggestions are not forthcoming to make the necessary changes himself. His is one of the most important single jobs at Tech.
The march of time is relentless, yet eventually offers reward to those who persistently keep grinding! College! Four years out of life, yet the basis of a genuine foundation on which the remainder of your span shall rest. Seniors! How immense that fact looms, none but seniors can know; and this realization comes only in a moment of deep meditation as with an array of Blue Prints before us, we retravel the long journey that is nearing completion. As we review in our minds manifold experiences shared with classmates and friends, we realize that life has been an epoch of carefree existence after all. However, momentous events have taken place that have and will be instrumental in shaping our future destinies. We are made cognizant of our responsibility that comes to us with our diplomas from Georgia Tech. In this time of memories and self valuations, we realize that the old proverb—"As ye sow, so shall ye reap"—is not true; and under the influence of that deep insight that impels us to honesty we admit that we are prepared for life's destinies in a direct ratio to the efforts we have thus far expended. The standard of our Alma Mater shall ever be a beckoning light urging us to worthier goals.

Minor disturbances such as campus politics, the two fraternity factions, the inevitable deficiency list and notes from the Dean fade into our album of cherished pictures as we take the diploma and attempt to put into our jobs the same enthusiasm and drive that we put into college.
The Daniel Guggenheim School of Aeronautics was established in 1930. Students enter this department after three years of basic work in General Engineering, and after two more years of concentrated work in aeronautics receive a degree of Bachelor of Science in Aeronautical Engineering.

Professor Knight received a degree of Bachelor of Science in Electrical Engineering at M. I. T. in 1922, following with a study of physics at Harvard and Johns Hopkins. For four years previous to becoming the head of Aeronautical Engineering at Georgia Tech in 1930 he served on the National Advisory Committee for Aeronautics at Langly Field. Since then he has become an associate fellow of the Institute of Aeronautical Sciences and has conducted the Helicopter research for the State Engineering Station.
THE SENIORS—

- JACK BURGESS, Atlanta, Ga.; Chi Phi; American Institute of Aeronautical Sciences... ROBERT M. CONWAY, Atlanta, Ga.; President of Sigma Phi Epsilon; Student Council; Interfraternity Council; Bulldog Club; Skull and Key; Yellow Jacket Club; Kappa Kappa Psi; Band; Debating Team; Institute of Aeronautical Sciences; Pi Delta Epsilon; Editor of Technique 1940; BLUE PRINT; Yellow Jacket; Who's Who Among Students in American Colleges and Universities; Student Lecture Association.

- MARCY BARAT FANNON, Atlanta, Ga.; Sigma Chi; Institute of Aeronautical Sciences; American Society of Mechanical Engineers; Ensign U. S. N. R.... W. M. JOHNSTON, Atlanta, Ga.; Institute of Aeronautical Sciences; Institute of Aeronautical Engineering.

- EDWARD LEROY JONES, Atlanta, Ga. . . . WILSON NEWTON McGOUGH, Texarkana, Ark.; Sigma Nu; Honor Roll 1, 2, 3; Tau Beta Pi; Engineers' Council; Institute of Aeronautical Sciences . . . DAVID H. THOMPSON, Little Rock, Ark.; Sigma Alpha Epsilon; Institute of Aeronautical Sciences.
THE SCHOOL—

The course in Architecture, which originated in 1908 and is accredited by the American Institute of Architecture, requires five years of work for the degree of Bachelor of Science in Architecture.

THE PROFESSOR—Harold Bush-Brown, A.B., M. Arch.

Professor Bush-Brown received degrees of Bachelor of Arts and Master of Architecture at Harvard. Before coming to Tech in 1922 he was associated with the architectural offices of Jackson and Moreland and with Cram and Ferguson. He became head of the department in 1925 and at one time since then has held the office of president of the local chapter of the American Institute of Architecture. In 1935 he was district officer for the American history survey for Georgia. Professor Bush-Brown collaborated with the other members of the Architecture department in designing all the recent buildings erected on the Tech campus.
THE SENIORS—

JOSEPH WARNER MORGAN, LaGrange, Ga.; Pi Kappa Phi; Omicron Delta Kappa; Architectural Society; Student Council; Interfraternity Council; Bulldog Club; Pi Delta Epsilon; Editor of Yellow Jacket; Blue Print; Technique; “T” Club; Track; Cross Country . . . VERNON MCCOY SHIPLEY, JR., Savannah, Ga.; Delta Tau Delta; Honor Roll 1; Architectural Society . . . WILLIAM CONNER THOMSON, Decatur, Ga.; Kappa Alpha; Architectural Society; Yellow Jacket; Freshman Fencing . . . THOMAS WILLIAM TISDALE, Nashville, Tenn.; Kappa Alpha; Architectural Society; Interfraternity Council; Bulldog Club.

HIRAM HOLLISTER VAN BUREN, Columbus, Ohio; Phi Gamma Delta; Architectural Society; Honor Roll 1, 3; Interfraternity Council; Yellow Jacket; Track; Cross Country . . . WILLIAM RUSSELL WOFFORD, Atlanta, Ga.; Architectural Society, Debating Society . . . THERON EDWIN WRIGHT, Decatur, Ga.; Architectural Society; Treasurer of Second Lieutenant’s Club; Second Lieutenant R. O. T. C.
SCHOOL OF CHEMISTRY AND CHEMICAL ENGINEERING

The department operates in two divisions—The Division of Chemistry and the Division of Chemical Engineering.

THE DIRECTOR—G. H. Boggs, Ph.D

Dr. Boggs received the degree of Bachelor of Science at the University of Georgia and became Doctor of Philosophy at the University of Pennsylvania. During his school career he was elected to Phi Beta Kappa, Phi Kappa Phi, Sigma Xi, Omicron Delta Kappa, Seaboard and Blade, Alpha Chi Sigma, and the American Institute of Chemists. He taught at the University of Maine before coming to Tech in 1903. Dr. Boggs is also a member of the American Chemical Society and the Georgia Academy of Science.

DEPARTMENT OF CHEMISTRY

THE SCHOOL—

The course in chemistry is fundamentally laboratory work and research leading to a degree of Bachelor of Science in Chemistry.

THE PROFESSOR—John L. Daniel, A.B., M.A.

Professor Daniel received his A.B. degree at Hampden-Sydney and later his M.A. at Washington and Lee. He was a member of Phi Kappa Phi and Omicron Delta Kappa while an undergraduate. His teaching experience began at Tech in 1912, where he has been a member of the faculty since that time. Professor Daniel is a member of Alpha Chi Sigma, Alpha Chi Rho, American Chemical Society, American Association for the Advancement of Science.

THE SCHOOL.

Chemical Engineering deals with plant operation, large scale production, and the more practical uses of pure chemistry groundwork. A degree of Bachelor of Science in Chemical Engineering is offered after four years of study.

THE PROFESSOR—Harold Allen Bunger, B.S., Ph.D.

Professor Bunger attended Minnesota University where he received the degrees of Bachelor of Science and Doctor of Philosophy. He is a member of Sigma Alpha Epsilon social fraternity and Phi Gamma Epsilon, Tau Beta Pi, Sigma Xi, A.I.Ch.E., and Alpha Chi Sigma honorary societies. Professor Bunger worked with the Hercules Powder Company before coming to Tech eleven years ago and now has a consulting practice in Atlanta.

THE SCHOOL—

The importance of Civil Engineering may be seen everywhere in buildings, bridges, highways, and maps. The course at Tech offers four years of training in the theory and application of construction and design after which time a degree of Bachelor of Science in Civil Engineering is conferred.

THE PROFESSOR—Franklin C. Snow, B.S., D.Sc.

Professor Snow graduated from Ohio State University with a degree of Bachelor of Science in Civil Engineering and continued with a Doctor of Science degree at the University of Georgia. He is a member of Phi Kappa Alpha social fraternity and Tau Beta Pi, Briaerean Society, A. S. C. E., and Civil Crew honorary societies. He taught several years at Montana State College before coming to Tech in 1920 as head of the highway department, and in 1933 he assumed his present position as head of the department. Professor Snow does consulting work with the city, county, and state on highway, bridge, and sanitation engineering and, in addition, is an expert on materials of construction.

SCHOOL OF ELECTRICAL ENGINEERING

THE SCHOOL—
The use and applications of electricity are becoming more and more important to our modern age; hence the need for a good training in electrical engineering is apparent. Students become familiar with the theory, design, construction, and operation of motors, power plants, and radio equipment before receiving a degree of Bachelor of Science in Electrical Engineering.

THE PROFESSOR—Thomas W. Fitzgerald, B.S., M.S.
Professor Fitzgerald attended West Virginia College where he received a degree of Bachelor of Science in Electrical Engineering and Emory University where he received a Master of Science degree. During school he was elected to Tau Beta Pi, Phi Kappa Phi, and Kappa Eta Kappa honorary societies. Later he worked with the Westinghouse student engineers training corps, the Pocahontus New-River Consolidated, and the Ray Consolidated Copper Company.

**SENIORS 1941**
SCHOOL OF GENERAL ENGINEERING

THE SCHOOL—
The course in General Engineering was established at Tech primarily for the students who desire a thorough foundation in all engineering principles rather than a specialization in any one particular field. After the four-year course is completed, a Bachelor of Science degree in General Engineering is conferred.

THE PROFESSOR—D. P. Savant, B.S., M.S., E.E.
Dean Savant graduated from Rose Polytech in 1912 with a B.S. in E.E., later returning to Rose for two more years during which time he received a M.S. and an E.E. degree. He is a member of Phi Kappa Phi and a fellow of A. I. E. E. Since the time Dean Savant came to Tech, he has steadily risen until now he occupies many important committee posts and is the Dean of Engineering. When the General Engineering course was first offered a few years ago, Dean Savant was placed in charge and has done a fine job in improving the course both as to curricula and equipment.

THE SENIORS—
- JAMES ROBERT ALLISON, Tipton, Ind.
- WILLIAM LAWRENCE AYCOCK, Lincolnton, N. C.; Institute of Aeronautical Sciences; Scabbard and Blade; Captain R. O. T. C.
WILLIAM JOSEPH CARTER, III, Washington, D.C.; Sigma Alpha Epsilon; Foil and Mask; Fencing. ALBON CHASE COWLES, JR., Decatur, Ga.; Honor Roll 1, 2, 3; Pi Tau Sigma; Institute of Aeronautical Sciences; Naval Rifle Team; Ensign N. R. O. T. C.; Track; Cross Country. CRAIG CARLTON DAVIS, JR., Atlanta, Ga.; Beta Theta Pi; Honor Roll 1, 2, 3, 4; Secretary of Phi Eta Sigma; Tau Beta Pi; Phi Kappa Phi; President’s Gold “T”; Pi Tau Sigma Scholarship Award; President of Omicron Delta Kappa; Student Council; Engineer’s Council; Pi Tau Sigma; Oil Can Club; Institute of Aeronautical Sciences; Glee Club; Scabbard and Blade; Captain R. O. T. C.; Pi Delta Epsilon; Editor of Technique; Foil and Mask; Captain of Fencing Team; Engineer; Who’s who Among Students. CHARLES LINWOOD FELL, Westfield, N. J.; Chi Psi; Honor Roll 1, 2; Phi Eta Sigma; Tau Beta Pi; Pi Tau Sigma; Oil Can Club; Interfraternity Council; Institute of Aeronautical Sciences; Track Manager; Cross Country Manager. ROY WASHINGTON FERGUSON, Atlanta, Ga.; Institute of Aeronautical Sciences; Scabbard and Blade; “T” Club; Track; Cross Country. LEONARD LOUIS GAUBIS, Westfield, N. J.; Chi Psi; Institute of Aeronautical Sciences; Engineer. BENJAMIN RIEGEL GRIFFIN, Bethlehem, Pa.; Institute of Aeronautical Sciences; Engineer. CHARLES A. NAEGELI, JR., Maywood, N. J.; First Lieutenant R. O. T. C.; Institute of Aeronautical Sciences; Swimming.
JOHN MARION PARR, Savannah, Ga.; Phi Delta Theta; Institute of Aeronautical Sciences; Engineering Council ... MONROE LIVINGSTON PLAXICO, Atlanta, Ga.; "T" Club; Track ... RALPH WERNER SEIFERTH, West New York, N. J.; Honor Roll 1, 2, 4; Phi Eta Sigma; Institute of Aeronautical Sciences; Captain of Foil and Mask; Fencing ... GENE SHAW, Fort Worth, Texas; Football; Baseball ... PARIS GEORGE S. SINGER, Columbus, Ga.; President of Chi Psi; Honor Roll 1, 2, 3, 4; Phi Eta Sigma; Tau Beta Pi; Phi Kappa Phi; Skull and Key; Freshman Y. M. C. A. Council; Secretary-Treasurer of Sophomore Class ... GEORGE HOWARD STEWART, Cedartown, Ga.; Honor Roll 1, 2, 3; Tau Beta Pi; Second Lieutenant's Club; Second Lieutenant R. O. T. C.; BLUE PRINT ... EUGENE R. TROBAUGH, Tampa, Fla.; Pi Kappa Alpha; Second Lieutenant's Club; Second Lieutenant R. O. T. C. ... EDWIN RUSSELL VAN BUSKIRK, Fair Haven, N. J.; Institute of Aeronautical Sciences; A. S. C. E.; Tennis ... JAMES HOMER VOYLES, JR., Morrow, Ga.; Honor Roll 3; Institute of Aeronautical Sciences; President of International Relations Club; Lieutenant R. O. T. C.; Y. M. C. A. Cabinet ... ROBERT ELMER WILSON, St. Petersburg, Fla.; President of Institute of Aeronautical Sciences.
THE SCHOOL
For the first eight years following the founding of Georgia Tech, the department of Mechanical Engineering was the only one offering a degree. It has grown steadily since that time and the degree of Bachelor of Science in Mechanical Engineering is still one of the most popular offered at Tech.

Professor King received a degree of Bachelor of Science in Mechanical Engineering at Ohio State University, Master of Science at Minnesota University, and Doctor of Science at University of Georgia. During that time he was elected to Sigma Xi, Tau Beta Pi, Phi Kappa Phi, Pi Tau Sigma, and A. S. M. E. honorary societies. Later he studied at Chicago University, taught at Minnesota, and gained industrial experience with the National Cash Register Company, United States Steel Corporation, Fairbanks and Marshall, Hall Cronan and Company, and the Ainine Power Company. Professor King is a figure of national importance in mechanical engineering circles and is recognized as such by his membership in Who's Who in Engineering and American Men of Science.

The course in Public Health Engineering is arranged to meet the increasing demand for men who have knowledge in the principles of sanitation, public health, and industrial hygiene. The department works closely with the Biology and Chemistry departments to train its men.

THE HEAD OF DEPARTMENT—H. A. Wyckoff, B.S., M.S.

Professor Wyckoff received a degree of Bachelor of Science at Missouri Wesleyan College and of Master of Science at the University of Chicago. During school he was a member of Sigma Xi, Phi Kappa Phi, and Theta Tau Delta honorary fraternities. Later he served as principal of the Burnett Academy, Mathiston, Mississippi, in the United States Army Medical Corps, and as professor of chemistry at Missouri Wesleyan College. He holds active membership in the American Society of Bacteriologists, the American Public Health Association, the American Water Works Association, and the Georgia Academy of Science.

SCHOOL OF TEXTILE ENGINEERING

THE SCHOOL—

Excellent facilities for shop and laboratory work make this one of the most successful courses at Tech. Four years of theory and practice lead to a degree of Bachelor of Science in Textile Engineering.

THE PROFESSOR—C. A. Jones, B.S.

Prof. Jones, who began teaching at Tech in 1906, is a Tech graduate of the class of 1904. While he was a student at Tech, he was a member of Phi Psi, honorary textile fraternity. Prof. Jones has had a large amount of industrial experience, having worked in dyeing laboratories and plants, and having been a consulting textile chemist in dyeing. He is now a member of the American Society for Testing Materials and the American Association of Textile Chemists and Colorists.

MAN, Carrollton, Ga.; Phi Psi; Co-op Club . . .
JOHN GREGORY WHITAKER, Atlanta, Ga.;
Sigma Alpha Epsilon . . . MEADOW SEIFEIT
WILLIAMS, JR., West Point, Ga.; Phi Psi.
Industrial Management provides a thorough foundation to those who expect to become executive heads in both industry and business. Although the principles of business and management are stressed, the Industrial Management course includes the basic principles concerned in many technical subjects. After four years of study, a degree of Bachelor of Science in Industrial Management is conferred.

Prof. Dunkin obtained his B.S. degree in Mechanical Engineering at the University of Illinois. His wide industrial knowledge results from fifteen years work in farm machinery design. His teaching experience is wide, having taught for three years at the University of Illinois and at Tech since 1922.
TED HARRIS ABBEY, JR., Atlanta, Ga.; Honor Roll 3, 4; Treasurer of Industrial Management Society; Swimming ... ROBERT ADEHOLD, East Point, Ga.; Honor Roll 3; Anak; Student Council; President of Senior Class; Scabbard and Blade; Major R.O.T.C.; "T" Club; Alternate Captain of Football Team; President of Industrial Management Society ... ROBERT FRANKLIN ALGEO, Tahlequah, Okla.; Beta Theta Pi; Yellow Jacket.

FRANK WALTON ALLCORN, III, Atlanta, Ga.; Sigma Alpha Epsilon; Honor Roll 3; President of Anak; Omicron Delta Kappa; Student Council; Vice-President of Sophomore Class; President of Skull and Key; Industrial Management Society; Bull Dog Club; Scabbard and Blade; Battalion Adjutant N.R.O.T.C.; Pi Delta Epsilon; Chairman of Southern Collegiate Press; Technique; Yellow Jacket; Blue Print; Swimming ... JOSEPH STRALEY BARTLETT, Asheville, N.C.; Football; Track ... JOSEPH THOMAS BAYER, JR., Nashville, Tenn.; Kappa Eta Kappa; Secretary of Sophomore Class; President of Junior Class; Vice-President of Senior Class; Student Council; Who's Who Among Students in American Colleges and Universities; President of Y.M.C.A.; Skull and Key; Student-Faculty Honor Committee; A.I.E.E.; Freshman Football.

WALTER ALBERT BEAUMONT, JR., Atlanta, Ga.; Chi Phi; Blue Print ... ROBERT EARL BEERS, Newman, Ga.; "T" Club; Football; Track; Freshman Basketball ... HENRY DeWITT BEE- SON, Winston-Salem, N.C.; Freshman Y.M.C.A. Council; Football Manager; Basketball Manager ... CHARLES CLYMER BERRY, Harriman, Tenn.; Sigma Nu ... LOUIS CHARLES BODENHEIMER, Atlanta, Ga.; Phi Epsilon Pi; Vice-President of Skull and Key; International Relations Club; Bull Dog Club; Glee Club; Interfraternity Council; Pi Delta Epsilon; Technique; Associate Editor of Blue Print ... HOWARD L. BURPO, III, Jenkins, Ky.; Industrial Management Society; "T" Club; Basketball; Alternate Captain of Baseball Team.
CHARLES E. BURROUGHS, Brandywine, Mo.; Basketball; Football . . . DAVID THOMAS BUTTS, J.R., Milledgeville, Ga.; Tennis . . . JAMES FERRIS CANN, JR., Savannah, Ga.; Delta Tau Delta; Industrial Management Society . . . NEIL MOTT CAVETTE, Memphis, Tenn.; Anok; "T" Club; Captain of Football Team; Captain of Baseball Team . . . JOHN LEONARD CLARK, Radford, Va.; Pi Kappa Alpha; Skull and Key . . . ROBERT LEE CLIEFT, Atlanta, Ga.; Chi Phi; Honor Roll 1, 3.

JACK T. CLIFT, Atlanta, Ga.; Chi Phi; Honor Roll 1; Track . . . HENRY LAMMER COLLIER, Atlanta, Ga.; Sigma Alpha Epsilon; Honor Roll 2 . . . JAMES GLASS COOLEY, Lawrenceville, Ga.; Honor Roll 2; Industrial Management Society . . . CALEB PICKENS CROSBY, West Point, Miss.; Delta Kappa Epsilon; A. S. C. E.; Industrial Management Society; Second Lieutenant's Club; Second Lieutenant R. O. T. C.

CHARLES LAFORRESTER CUDLIPP, Atlanta, Ga.; Honor Roll 3; Industrial Management Society; Second Lieutenant's Club; Second Lieutenant R. O. T. C . . . JACK WATSON DARBY, Jacksonville, Fla.; President of Alpha Tau Omega; Honor Roll 1; President of Skull and Key; Secretary of Interfraternity Council; Secretary of Freshman Class; Industrial Management Society.
• WILLIAM DARIUS FERRIS, JR., Decatur, Ga.; Honor Roll 3; Industrial Management Society; First Lieutenant R. O. T. C. . . . PHILLIP DAVID FLETCHER, Appalachie, Va.; International Relations Club . . . CARROLL NEWTON FREEMAN, Atlanta, Ga.; Sigma Nu . . . JOHN JUNIUS FULLENLOVE, Louisville, Ky.; President of Delta Tau Delta; Treasurer of Student Council; Interfraternity Council; Skull and Key; Vice-President of Pi Delta Epsilon; Managing Editor of BLUE PRINT; Yellow Jacket; Baseball Manager . . . RICHARD GIBIAN, Montgomery, Ala. . . . CHARLES MASON GOODMAN, JR., Orlando, Fla.; Alpha Tau Omega; President of Yellow Jacket Club; Basketball Manager.

• C. P. GOREE, III, Atlanta, Ga.; Phi Delta Theta; Honor Roll 3; Vice-President of Anak; Vice-President of Industrial Management Society; Bulldog Club; Scabbard and Blade; Lieutenant N. R. O. T. C.; Technique; "T" Club; Football; Track . . . JOHN RALPH HAEGER, Avondale Estates, Ga. . . . BEN HARRISON HALL, Atlanta, Ga. . . . WILLIAM CHARLES HAMES, Decatur, Ga.; Glee Club; Alpha Phi Omega; Foil and Mask; Fencing . . . PRESLEY DANIEL YATES, Jr., Atlanta, Ga.; Phi Delta Theta; Yellow Jacket; "T" Club; Golf . . . WILLIAM RALPH ZIEGLER, College Park, Ga.; Honor Roll 2, 3, 4; Industrial Management Society; Tennis.
DEPARTMENT OF GENERAL STUDY

DEAN OF GENERAL STUDIES
W. G. PERRY, B.A., M.A.

The Departments of General Study comprise those departments of the school which do not grant degrees. Under the directorship of W. G. Perry, these departments round out the educational program at Tech.

DEPARTMENT OF ENGLISH

No education could be called complete without ample instruction in the use of the language. One year of rhetoric and one year of literature are required of all students for graduation.

HEAD OF DEPARTMENT
W. G. PERRY

Doctor Perry attended Davidson College where he received the degree of Bachelor of Arts, Master of Arts, and Doctor of Literature. He is a member of Kappa Alpha social fraternity and was elected to Phi Beta Kappa and Phi Kappa Phi honorary fraternities. He extended his education with graduate work at Columbia before coming to Tech in 1901. At present he is a Mason and a member of the South Atlantic Modern Language Association and the Atlantic Rotary Club.

DEPARTMENT OF MATHEMATICS

At a technical school mathematics is probably the basic subject as it is the foundation upon which all engineering rests. So it is that every engineering student is required to take at least two years of mathematics including algebra, trigonometry, analytic geometry, and calculus.

HEAD OF DEPARTMENT
D. M. SMITH

Dr. Smith attended Vanderbilt University where he received the degrees of Bachelor of Arts and Master of Arts and Chicago University where he became a Doctor of Philosophy. During school he was elected to Phi Beta Kappa, Sigma Xi, and Phi Kappa Phi honorary fraternities. Before coming to Tech in 1913, Dr. Smith taught at Chicago University and Southern University. At present he is a member of the American Mathematical Society and the Mathematical Association of America.

PERRY SMITH
The work of the department of Geology is designed to give the student a working knowledge of the basic principles of Geology and Minerology and their application to practical engineering.

HEAD OF DEPARTMENT
C. D. GIBSON

Professor Gibson received Master of Science and Doctor of Philosophy degrees at Emory University and a Master of Science in Civil Engineering at Georgia Tech. During that time he was elected to Phi Beta Kappa, Omicron Delta Kappa, Scullion and Blade, Alpha Phi Omega, Civil Crew, and A. S. C. E. honorary societies. He is now a member of the New York Academy of Science. Gibson is also a Major in the Engineering Reserve of the army and a Lieutenant Commander in the Naval Reserve.

ENGINEERING DRAWING AND MECHANICS

All engineers are required to take at least one year of Engineering Drawing. Mechanical, Aeronautical, Electrical, and Civil engineers complete extensive courses in the Mechanics department. Studying Technical Mechanics, Kinematics, and Resistance of Materials.

HEAD OF DEPARTMENT
W. B. JOHNS, JR.

Professor Johns received degrees of Bachelor of Science in Engineering and Master of Science in Aeronautical Engineering at Georgia Tech. He is a member of Phi Kappa Phi and the Britannian Society. His teaching career at Tech began in 1922 when he was a student assistant in the Mechanical Engineering Department.

FACULTY
P. H. NADROH, F. M. HILL, M. H. BRAY
H. B. WEBER, F. J. BIRDS, R. E. LOUIS
J. E. BROWN, J. P. VIROST, R. K. JACOBS

JOHNS

GIBSON

DEPARTMENT OF GEOLGY
DEPARTMENT OF ECONOMICS AND SOCIAL SCIENCE

The department of Economics and Social Science includes courses intended to broaden the student and acquaint him with some of the problems facing our economic system. Courses in business management, accounting, government, law, and finance are offered.

HEAD OF DEPARTMENT
H. E. DENNISON

Professor Dennison graduated from the University of Tennessee with a Bachelor of Arts degree and did graduate work in psychology and philosophy. He is a member of Alpha Tau Omega social fraternity and Delta Sigma Pi and Phi Kappa Phi honorary fraternities. Before coming to Tech in 1919, he taught at West Tennessee State Normal and at the University of South Carolina. He quit teaching in 1923 to practice law but returned to his position on the faculty in 1929.

Faculty
A. H. Armstrong  M. R. Brewster  H. K. Stanford
N. Warren  M. A. Steckland  J. C. Brown
F. B. Wenn  W. J. Proctor  W. F. Lord

Both elementary and advanced courses in French, German, and Spanish are offered to those who wish to combine a knowledge of modern tongues with their particular branch of engineering work.

HEAD OF DEPARTMENT
J. B. CRENSHAW

Dr. Crenshaw was graduated from Johns Hopkins University where he received his Doctor of Languages degree. Dr. Crenshaw is not only a master of languages, but is also quite athletically minded. He was an excellent lacrosse player and was Tech's lacrosse coach when this game was played at Tech. Dr. Crenshaw is now a member of Tech's athletic board.

Faculty
R. M. Ervin  J. A. Campion  M. G. Brown

DEPARTMENT OF PHYSICS

All engineering students are required to complete at least one year of work in the Physics department. The basic principles of mechanics, heat, sound, and electricity are thoroughly covered in combination with extensive laboratory work.

HEAD OF DEPARTMENT
J. H. HOWEY

Professor Howey received a Bachelor of Arts degree at Woster College where he was elected to Phi Kappa Phi and Sigma Xi honorary fraternities. He continued his study at Yale receiving a Doctor of Philosophy degree before teaching at that institution for four years. Before coming to Tech five years ago he worked two years as research physicist for the Firestone Rubber Company. Professor Howey informs us that the Physics department is planning to offer a degree within the next two years. The course is to train students in general fundamentals of Physics and to prepare them for research.

Faculty
J. B. Edwards  J. E. Boyd  W. P. Ewalt  L. D. Wyly
N. S. Turber  G. A. Roskelot  L. V. Johnson  G. F. Wheeler
E. E. Borelli  E. T. Prosser  S. E. Whitemore
The Student-Faculty Lecture Association is one of the more recent additions made in committees at Tech. It was formed at the insistence of several faculty members who realized the need of more and better entertainment for Tech students. Under the chairmanship of able Dr. H. S. Friedman the committee has succeeded in bringing to Tech a variety of entertainers, lecturers, dance bands, and other features. The committee receives its financial backing from the students and faculty alike.

**THE COMMITTEE IN CHARGE**

**Faculty Members**

- Dr. H. B. Friedman, Chem.
- Dr. R. A. Heffner

**Student Members**

- F. P. Hudson
- W. W. Taylor
- M. L. Shatzen
- T. G. Doffer
- T. N. Kell

- Dr. P. B. Narnmore, Prof. G. W. Rainey

GEORGIA TECH . . .

. . . opened the 1930 Southeastern Conference race as one of the favorites along with Tennessee and Tulane. Only one of these three came through as expected, with Tulane and Georgia Tech boasting strong teams that missed out only in the final scores.

Many of the sophomores this year proved their mettle while last year's sophomores and juniors showed that their past performance was not just a flash in the pan. All through the year the Jackets were a force to be reckoned with—although at times the defense slackened, and we were beaten out of proportion to the relative merits of the two teams. The teams as they appear in this section were not chosen by the staff but by the Athletic Association. The basis for this selection was time played.
Coach "Alex," head athletic coach, is the fellow who, win or lose, shows that fighting spirit of our team. No excuses when we lose; no bragging when we win; but a swell coach who with all his heart has given Tech the reputation of a college with a sporting heart and a will to win. This year, with tough breaks striking at every turn, the football team has certainly traveled the rough road. The comebacks of the Jackets in the Alabama, Georgia, and California games has truly shown the ability of the "grand old man."

"Mac" Tharpe, varsity line coach, again turned out a line that dug in for all it was worth, a faculty typical of Georgia Tech lines since Tharpe has been coaching them. Mac is well into his second decade here, having served as freshman coach after his graduation from Tech where he ranked as an All-Southern tackle.

Bobby Dodd, our backfield coach since 1932, is largely responsible for Tech's tricky backfield play which has earned the Yellow Jackets a country-wide reputation. Coach Dodd, who was an All-American halfback at the University of Tennessee, has contributed much to our success since he has been at Tech.
Norris Dean is the man every freshman meets who comes out for football, basketball, or track. He is the key man in getting good high school players prepared to be good college players. With the graduation of seniors each year, someone must come up to take their places and those men come from the freshman squads; so the importance of the good job that Coach Dean is performing is easily seen.

Roy MacArthur has a twofold purpose in the coaching scheme here at Tech. In addition to being recognized as one of the most competent scouts in the country, he has charge of the “B” team. Under his tutorage many of the stars of the Tech teams of the past have progressed from being only a country ball player to a man equal to competition against the best in the country.

VARSTY LETTERMEN

Twenty-seven members of the varsity squad received letters this year.

Seniors were: Cavette, Ison, Sutton, Aderhold, Wilkins, Beers, Goree, Lee, Nettles, Shaw, Burroughs, and Sprayberry.

Juniors were: Webb, Sanders, Bosch, Muerth, Jordan, Dyke, Bates, Wright, Arthur, Quigg.

Sophomores were: Plaster, Anderson, Hancock, Dodd, Marshall.

*Home Games.
ROBERT ISON . . . End . . . Bob is known to everyone who has seen Tech play by his strength on defense, his fine running, and his pass receiving. He was probably the most consistent performer as he played well in all the games.

ALBERT (Red) MUERTH . . . Tackle . . . Red was a power house on defense at his tackle spot, playing his best in the Vanderbilt and Alabama games.

NEIL (Hawk) CAVETTE . . . Guard . . . Hawk captained the 1940 Golden Tornado while playing good ball at guard. He was outstanding in the Alabama game, which he played while running a high fever.

S. B. (Slim) SUTTON . . . Center . . . Slim was a fine defensive player at the center post, performing his best in the Florida game.

ROBERT (BUTCH) ADERHOLD . . . Guard . . . Butch was alternate captain and consistently played well to prove his value to the team.

THE TEAM
A flu epidemic made some substitutions necessary.
To strengthen the defense, Charlie was moved from guard to tackle where he played well in addition to doing much of the kicking for the team.

George had more playing time than any other member of the squad and being an unerring pass receiver was one of the greatest offensive threats throughout the season. He played best in the Alabama and Duke games.

Blocking back, the position of all work and no glory, was capably filled by Wilkins who showed his strength on defense and his good field generalship on the offense.

Hard running and strong defensive play gave Ralph a starting position in his first year of varsity ball. He was at his best in the Georgia game.

Another fleet-footed sophomore who made good, Jack played his best in the Alabama and Florida games. However, he is best known for his brilliant kick-off return against Notre Dame.

Johnny was the key to Tech's attack with his fine passing and deceptive running. He played well consistently, reaching a peak in the Georgia and California games.
HARRY ARTHUR . . . End . . . Harry was a good pass receiver and defense man, but he was hampered most of the season by a bad knee.

ELMER DYKE . . . Tackle . . . Elmer was constantly threatening to replace one of the first string tackles by his strong defensive play, especially in the Vanderbilt game.

CARLTON LEE . . . Guard . . . King Lee played a great deal by virtue of his hard work and good play in the guard slot.

JIM WRIGHT . . . Center . . . Although he was out with injuries much of the time, Jim was one of the best at backing up the line.

WEX JORDAN . . . Guard . . . Wex was outstanding in the Vanderbilt game and continued his good playing throughout the season.
TOMMY ANDERSON . . . Tackle . . . Tommy, also a sophomore, won his letter by strong defense play around his tackle position.

JACK MARSHALL . . . End . . . Given a real chance in the Kentucky game, Jack proved that he was well capable of holding down the end position.

GENE (BUCK) SHAW . . . Back . . . Cowboy did much of the signal calling for Tech's tricky offensive in addition to his fine play at blocking back and backing up the line.

ROY GOREE . . . Back . . . Roy was outstanding in line bucks and backing up the line, reaching his best in the Alabama game.

BOBBY BEERS . . . Back . . . Another player constantly bothered with injuries, Bobby was a good passer and fast runner, playing best in the Auburn and Georgia games.

DICK BATES . . . Back . . . Continuing his excellent passing and with much improved running Dick was the leader of Tech's attack much of the time.
CHARLIE BURROUGHS . . . End . . . Advancing from the “B” team, Charlie earned much playing time by his consistent hard work.

BILL CARDEN . . . Tackle . . . Big and fast, Bill added much to the team’s defense.

HAL LAMB . . . Guard . . . Changed from blocking back to guard, Hal strengthened the center of the line considerably.

BUBBER QUIGG . . . Center . . . Bubber was a valuable replacement at the center spot, backing up the line well.

CHARLES HOOD . . . Guard . . . Red played a fine defensive game against Kentucky and saw much service in the remainder of the season.
The Yellow Jackets

THIRD TEAM

GEORGE HOLLY . . . Tackle . . . George, who came up from the "B" team, was a valuable replacement and played good defensive ball.

PAUL SPRAYBERRY . . . End . . . Paul was a good pass receiver and defense man but was kept out of many games with injuries.

JACK BRADFORD . . . Back . . . Brick advanced from the Freshman squad to earn a varsity berth. He was at his best in the Notre Dame game.

BOBBY DODD . . . Back . . . Bobby is another Sophomore who was outstanding, mainly because of his hard running.

JACK NETTLES . . . Back . . . Jack played at the wingback position and was a fine pass receiver. He played best in the Notre Dame and Auburn games.

PLUTO OLIVER . . . Back . . . Pluto, coming up from the "B" team this year, was at his best when running back punts, especially in the California game.
THE SEASON IN REVIEW

OUR TEAM IS RED HOT!
Tech 35—Howard 0 . . . Grant Field
A bright Georgia sun, a multitude of ardent supporters as Captain Neil Cavette leads his Orange Bowl champions onto the fresh green turf at Grant Stadium . . . the first quarter, Tech kicks off and Dodd intercepts an early Howard pass . . . neither team threatens, and the spectators sit back guzzling Coca-Colas in an effort to cool off . . . second period, interest revived as Tech's first team begins to move . . . the mighty mite Bosch around end, Hancock through the center, Bosch to Webb in the air, Bradford, Bosch to Webb again and then to Arthur as Dodd plows over for the first score of the 1940 season . . . Plaster makes it seven with a perfect placement . . . Jackets fill the air with passes as Bates hits Nettles for a second score . . . Bulldog line torn to shreds in final quarter as Dodd and Plaster drive over twice more . . . sun sinks behind Knowles dorm, students and fans happily leave the scene of combat still raving about that pass attack that can't be stopped . . .

OH, FOR A FIFTH QUARTER!
Tech 20—Notre Dame 26 . . . South Bend, Indiana
Fifty thousand enthusiastic spectators, sixty-six mighty men in green, and thirty-three gallant fighters in gold provide the scene for today's great battle . . . Tech supporters hope run high as Bosch takes a kick to the Notre Dame twenty-three at the start . . . no score as Tech hammers at the goal line throughout the first period . . . fresh Irish replacements, weary Dixie fighters pave the way for second period scores . . . gloom covers the flats as Notre Dame kicks off late in the second quarter . . . Hancock takes the ball on the ten, heads up the center and cuts to the right avoiding tackler after tackler on to the forty, thirty, twenty, ten and a TOUCHDOWN! . . . hats lost, radios ruined, furniture mutilated.
as supporters go wild... the frenzy carries past the half as the inspired Jackets continually pound at the goal. But alas, the hand of fate strikes as a kick is fumbled... but the Golden Tornado is yet to show its power... Bates completes a long one to Arthur and Bradford with sheer power carries the ball over... again the Tornado strikes as Beers passes to Nettles, Bradford runs, and Beers passes to Webb on the sixteen... Bosch returns to the game and immediately connects to Webb at the four, and Plaster drives over for another score... the final gun is music to the fighting Irish who are content to take their small margin and call it quits.

Tech, still burning from the Notre Dame defeat, is out to take vengeance on Vanderbilt... Bradford takes a punt to the Commodore thirty-three... Bosch passes to Beers, Webb, and Ison and Plaster drives over from the three... but the team has only begun as a vicious tackle by Dyke causes a fumble which Webb quickly gathers in... Bosch and Beers run to the eleven before Bosch connect to Ison for the second tally... Vandy comes back passing but Nettles quickly intercepts... Bosch and Plaster alternate running until Bosch goes over from the three... Bosch, Beers, Ison, and Webb star on the offense... Wright, Mueth, Jordan, and Dyke stop the Vandy backs while Nettles and Lee break up the passes... a great day for the Jackets who look more powerful than ever...

GLOOM OVER THE FLATS
Tech 7–Auburn 16... Grant Field
Jackets are in high spirits as they trot onto the field to face the Auburn Tiger from down in Alabama... Mike Connor, commissioner of the Southeastern Conference, is on hand to watch two of his best teams... but the fates frown on the home team at the very start as the opening kickoff is fumbled and quickly converted into an Auburn score... Tech fights back in the second period with Bosch leading the attack... he intercepts a pass and runs thirty yards to the Auburn forty-one... from there he passes to Plaster, then to Nettles, and to Plaster again for the score... Goree puts the Jackets out in front with the seventh point... but the joy is short as another fumble sets up an Auburn touchdown.
and a field goal extends the lead... Jackets are forever threatening, but two intercepted passes and a fumble thwart every attempt... Bosch, Nettles, Beers, and Plaster marvelous on offense... defense weakened with big Jim Wright out... Ison played his usual brilliant game but forced out with knee injury... fortune turns against Tech as they top Auburn in statistics but not in score...

**OH, UNHAPPY DAY IN DURHAM**

Tech 7—Duke 41... Durham, North Carolina

Homecoming in Durham... decorations galore, beautiful floats, innumerable gala bands as the Blue Devils meet the Yellow Jackets in an all-important game... but lightning strikes the tired gold shirts as Duke runs rampant in the first half... Bosch is injured to take away the last flicker of hope... but an intermission talk by Coach Alex brings back a fighting team that more than holds its own in the remainder of the game... Tech thrusts across a score apparently by sheer nerve and will power... Bates passes to Webb, and Plaster literally carries the Duke team the remaining fifteen yards to the double stripe... Beers is hurt and carried from the field on a stretcher... Plaster and Hancock in the backfield and Webb in the line carry the fight for the Jackets... All-American Rob Ison is outstanding even in defeat as he played a magnificent game...

**THE WILDCATS GO WILD**

Tech 7—Kentucky 26... Louisville, Kentucky

Jackets travel to the blue grass country to attempt a comeback from the Duke encounter... Ison and Cavette shifted to the backfield to in-
crease offense power . . . seemingly to no avail as the Wildcats grab two quick scores . . . Tech gets back in the ball game with a sixty-seven yard march for a touchdown . . . Ison takes an end around, and then Bosch connects with a beautiful pass to Webb for a gain of forty-five yards . . . Bosch and Plaster take turns toting the pigskin until Plaster drives over from the three . . . Kentucky comes back strong after the half, and the Jackets are unable to score even after driving to the sixteen . . . Hood and Marshall were outstanding on Tech's defense . . . Plaster kept the Wildcat defense alert with his bull-like charges into the line . . . and little Johnny Bosch played another great game even while losing . . .

*Vandy cheerleaders—yeah! Vandy.*

---

**CHEER FOR THE BRAVE AND BOLD**

Tech 13—Bama 14 . . . Grant Field

The Jackets don the blue jerseys of the Orange Bowl as they come forth to meet the overconfident Crimson Tide from Tuscaloosa . . . but 'Bama finds they must dig in and fight as Tech starts rambling from the opening whistle . . . Hancock runs right end for sixteen yards and Bosch left for fifteen . . . Bosch and Hancock collaborate on a lateral to carry to the Tide twenty-one . . . Bosch and Hancock again before Johnny passes to Ison for the score . . . pandemonium breaks loose in the stands at the unexpected thrust of the underdog . . . but the joy is short as the kickoff is returned for a 'Bama score . . . a blocked kick in the second half is converted into another score as the Elephants take eight plays from the thirteen yard line . . . but the Yellow Jackets and their blue jerseys don't give up easily . . . Bates passes to Ison for thirty yards, Goree blocks the line, and Bates connects this time to Webb at the twenty-nine . . . Bates fades to the forty and lofts the ball downfield . . . Webb and DeShane go high into the air and juggle the ball between them . . . but the big right end for Tech snatches the ball away and carries over for the second score . . . again the Yellow Jackets come raging back . . . Bates passes to Webb and twice to Ison at the 'Bama four . . . Bates kneels at the twelve yard stripe with Roy Goree standing ready behind him . . . thirty thousand spectators stand looking on in dead silence . . . the ball is snapped . . . the steady toe swings into the ball . . . but a big red shirt looms between the ball and the goal posts, and the game is over . . .

*Razzle Dazzle for One Point*

Tech 7—Florida 16 . . . Grant Field

A gloomy day as rain threatens to deluge the battle between the Gators and the Jackets . . . a gloomier day as Florida scores a field goal, intercepts a lateral for a touchdown, and goes over for another score all in the second period . . . Tech comes back after the half determined to turn the tide and win the ball game . . . Bates runs for five yards, passes to Ison for twenty, and then heaves a long one which Hancock grabs deep in the end zone . . . then the try for the extra point . . . Plaster's kick is blocked but
he recovers the ball and laterals to Bates as Florida tacklers close in. The tacklers head for Bates so he passes over their heads back to Plaster. In the mean time a Florida man comes forward and deflects the ball into the arms of amazed Plaster who scrambles the remaining distance to the double stripes, all that for one point. Tech carried the fight for the rest of the game driving to the twenty, the fifteen, and the nine yard lines but never able to score. Son, Bates, and Sutton were outstanding as Tech once again led in statistics but too little for one point.

UP WITH THE WHITE AND GOLD

Tech 19—Georgia 21... Athens, Georgia

Sanford Stadium is packed with spectators as the blue shirted Golden Tornado renews an old rivalry with a slightly favored Georgia eleven. Tech wins the toss and elects to receive. Bosch takes the ball at the three and returns to the twenty-seven. Plaster hits the line, and Bosch runs twice before passing to Beers at the Georgia eleven. Tech supporters cheer madly for the few remaining yards. Plaster pounds the line three times to the three, and Beers covers the remaining distance. Only three minutes gone and Tech leads 7 to 0. Kicking duel follows until Sanders recovers a fumble on the Bulldog four yard line. Plaster bucks the line for the second Tech counter. Tech backers sit back smiling, confident of victory with such a substantial lead. But Georgia and
Sinkwich drive back with three scores before the end of the third period... Jackets, back against the wall, start to move in the final quarter... Bates runs for sixteen yards then passes to Nettles at the sixteen... Bosch returns to the game and immediately connects to Webb for a score... again Tech comes with a rush as Bosch passes to Nettles, to Ison, to Nettles, and to Webb at the Georgia nineteen... Bosch fades and passes complete to Ison for a TOUCHDOWN... no... the ball is brought back...

offside... groans from the Tech stands... Plaster drops back to try a field goal, enough for victory... the ball travels straight for the cross bars but falls short... a gallant try, a spectacular finish as Dame Fortune once again frowns on Tech's efforts...

WITH THE YELLOW JACKETS SWARMING 'ROUND

Tech 13—California 0... Grant Field

Mud, rain, mire, and more mud welcome the Golden Bears of California after their three thousand mile trip to engage the Yellow Jackets of Georgia Tech... but mud is only a minor problem to the Bears as the Golden Tornado begins to flash some of its power and versatility... the first half resolves into a kicking duel as neither team can hold on to the pigskin... Tech grabs the first opportunity as Muerth recovers a fumble on the California nineteen... Bosch connects to Webb, then takes a lateral from Beers and passes to Ison for the first score... alert Tech linesmen recover another fumble deep in the Bears territory... Bosch hits Ison on the one yard line then cuts over guard for the touchdown... a swell Christmas present, a well-earned victory, and a grand finish for a team that really deserved to win more games...
In every walk of life there is always some group that does the dirty work for which another group receives the glory—in football it is the "B" team. The "B" team is composed of boys who are not quite good enough to make the varsity; they receive none of the glory that the varsity men get but play only because they love the game. Yet, the "B" team is a very vital part of the football team. It practices against the varsity to give the varsity experience, it learns trick plays of future opponents so the varsity won't be caught napping, and it supplies any missing link that the varsity might have.

THE "B" SQUAD

In every walk of life there is always some group that does the dirty work for which another group receives the glory—in football it is the "B" team. The "B" team is composed of boys who are not quite good enough to make the varsity; they receive none of the glory that the varsity men get but play only because they love the game. Yet, the "B" team is a very vital part of the football team. It practices against the varsity to give the varsity experience, it learns trick plays of future opponents so the varsity won't be caught napping, and it supplies any missing link that the varsity might have.

The "Baby Jackets" opened the '40-'41 football season by a 7-7 tie with Mississippi State. Pat McHugh got off on a long run in the early moments of the game, came near scoring, but was downed a few yards in front of the goal line.

Their next game was with the Auburn "Tigers" at Auburn, Alabama. This game was played in the rain and the field was covered with mud, thereby slowing down both teams. At the end of the game the score was 7-0, with the Jackets losing a tough and well-fought game.

However, the big game of the season was with the Georgia Freshmen here in Atlanta. Since the "Baby Jackets" had been carrying on extensive workouts with the varsity and running their signals the preceding week, they were thoroughly disorganized and lost by the disheartening score of 34-0.

Yet the season does not give a true picture of the Freshie team, for we have some of the best players in the history of the school. You can look forward to seeing some brilliant performances from little Davy Eldridge, Pat McHugh, and Al McDonald in the coming years.
The 1941 Yellow Jacket Football Band was one of which Tech could be justly proud. Harried as they were by short and infrequent rehearsals, nevertheless the band consistently put on a good show. Trips to Durham and Athens were taken along with the football team. A new feature of which all Tech benefits is the playing of the band at all Basketball and Baseball games. Late this year the band formed an orchestra from their members and journeyed out to Agora Scott to help with the successful production of H. M. S. Pinafore.
Technique, Yellow Jacket, Bugle, Blue Print—offer to all students an outlet for their journalistic talents. . . .
The **Blue Print**, annual publication of Georgia Tech, has long been one of the outstanding college yearbooks in America. It presents a complete account of the year's activities, and enables graduates to remember the "good old days" in school.

The staff is composed entirely of students, and the Editor and Business Manager for each year are elected by the Student Council at the end of the preceding year. This staff, advised by two faculty members, begins its work early in September and does not finish until the book is distributed in May.

The Technique, weekly publication of Georgia Tech, offers to the student an excellent chance to work in one of the interesting lines of extra-curricular activity on the campus. The Technique is one of the outstanding student newspapers in the south, and its interesting coverage of campus life upholds its title, "The South's Livest College Weekly."

The spirit of Tech is reflected in its humor magazine, The Yellow Jacket, which appears about eight times yearly. Besides being a key to the lighter side of Tech life, it offers an excellent opportunity for many boys to get valuable experience in the field of publications. The talent of the members of its staff has brought recognition to the Yellow Jacket among college humor magazines.

Since its birth three years ago *The Georgia Tech Engineer* has rapidly grown to be one of the outstanding technical collegiate publications of the country. Last year it was voted one of the ten best. Many new ideas and improvements have been added this year, the result being a larger magazine with a much wider scope. The articles are contributed by students, deal with modern engineering practices and developments. The ads are of a purely technical nature and besides reaching a great number of Tech alumni in engineering fields at present, they serve to acquaint budding engineers with the same products which they will be using later on in practice.

1. Rewards for the cake race go to the freshest-looking freshman who can hold out and keep in the best score of runners.

2. Harriet Steckman and "Tec" Rusk watch the cake race in the junior style.

4. Bill Fossum, Gloria Russee, Brooks Sheldon enjoy an end run for Tech despite the outcome.

5. Let's rumble—a good long gain for the home team. Home are big . . . for a white.

6. Sponsors, amid the glowering gold and white, keep stockholders' gold forth for the Yellow Jackets.

7. A heart wave brings out the sympathies of all fans—even down to newspapermen.

8. Bob Cooper and Duke drive late and search frantically for seats before the kickoff.

9. Walter Shadwell and wife survey some of those important extra points.

10. Bill Kelli and Donald Van Amburde take it hard as we lose another fumble.
RAMBLIN' WRECKS

1. The winning wreck complete with dancing party. Alvin Hargre is lack leads.
2. Judy Campos and the Rambling Wreck Contest and entertained by the cheer leaders, Scott Mannon, etc.
3. Rob Taylor and Jimmy Williams wear a hat on one of the more interesting wrecks.
4. "Kev" will sure look Auburn's game" hopefully portrayed on a wreck.
5. Lowering theeated one from his scaffold draws even the participants' attention.
6. The little-liked K. A. buildings around Grant Field complete with black rain and megaphones.
7. The tuxedo winner the Pi Kappa Phi try desperately for a third.
8. A wreck of more recent vintage holds its own midst its ancestors.
9. The Auburn Tiger string up on the Sigma Nu gla朔 mong wagon.
10. Stirring up the pot that gave forth those choking fumes, much to the crowd's anguish.
11. "Balled in hand" Sigma Chi wreck displays remains of many a bouncy night.
AND THE DANCES

1. Explore Lattis and Hula companions admire some liver bugging.
2. Blond and comedy Harriet Edwards sits out a tap dance for a native that revolves.
3. Grace Harvey Wright and date pose for a snap at the Pi Kappa Phi Masquerade Ball.
4. Forever Unfriended, given back with some rage indifference while her partner smiles.
5. The Technicians call out some sweet notes while the ladies curl their tails for her.
6. More unique costumes from the Pi Kappa Phi Masquerade Ball—she's only taking her pulse, McDaniel and Rowles.
7. Some of the boys gather around to display the features of colorful costumes—and their faces.
8. Hugh Wright, Peter Driscoll and Chi Phi members enjoy the punch bowl at one of their tea dances.
9. Bill Ayres' spread out in his uniform takes advantage of its appeal with the younger sex.
10. Captain Guy Ferguson enjoys a dance with his date at the Navy Ball.
11. Hugh Wright fascinates Mary Lee Davidson with stories of the sea—in a limited sense.
12. Pat Finkle's committee mañana does his bit toward putting the dance over.
13. Frank Allborn and Anna Lake shine for Photographer Percy Potts at the Navy Ball.
14. Bobby Gibbs and his O. A. I. Jeanie Ode- born enjoy a set in the ballroom. She's a Phi Beta Kappa at Scott.
Midst the glorious colors of the falling leaves the campus shone as never before. 'Twas Homecoming for all the grads complete with football, dances, decorations and house parties. Bobby Byrne's orchestra furnished the music and did a well admired job. Dorothy Claire was the vocalist.

Decorations were novel and well done. They amply displayed Tech's confidence in their crippled team. Their confidence was not wrongly vested either, for the Homecoming thriller with Alabama showed the boys were still fighting. The team did an admirable job of holding the powerful Alabama team to a one-point victory.

**The Decorations**

1. The Pho of Homecoming.
2. The Chi Psi's portrait an emotive thought in a display of words and pictures.
3 and 5. The Yellow Jacket burling plant at the Men's Ten Venue house during Homecoming.
6. The Pi Kappa Phi Homecoming decoration displayed a couple winking in publi—such a display.
Anak, one of the highest honors a senior may obtain, was founded at Tech in 1908 and is the oldest honorary organization on the campus. Many members of Anak have gained national prominence since graduation.

This year, Anak sponsored the Homecoming dances, the interfraternity track meet, organized the Booster's Club, and aided in the revitalization of the Bulldog Club and the Skull and Key Society.
Omicron Delta Kappa, national college activities fraternity, was founded in 1914 at Washington and Lee University. The Alpha Eta Circle has been active at Tech for a period of eleven years, and is one of forty-two circles in U. S. colleges and universities. Membership in ODK is awarded only to those students who have proved their worth as leaders in campus activities.

The series of campus beautification and improvement projects sponsored by ODK has seen this year the completion and furnishing of the student banquet hall. Work has been started on a new wall and gateway for the campus, and the first steps have been taken toward raising the necessary funds for a Student Union Building.

Tau Beta Pi is recognized as the largest and most respected honorary engineering fraternity in existence. Numbered among its members are leaders in almost every industrial and engineering field.

To obtain the honor of election to Tau Beta Pi, the student must maintain an average to put him in the upper eighth of his class if a junior, or in the upper quarter if a senior. In addition to these scholastic requirements, he must be of outstanding character, and a leader among his fellow students.

Among other activities, the local chapter awards a cup annually to the senior with the highest average in the engineering school.

Phi Kappa Phi, a national honorary scholastic fraternity founded in 1897, was established at Georgia Tech in 1914. Since its installation the Tech chapter has been very active. Eligible for membership are seniors who are in the upper seven per cent. of their classes.

Phi Kappa Phi, as its primary activity, awards a cup annually to the senior who has made the highest scholastic average while attending Georgia Tech. It also aids in the sponsoring of Honor Day, the annual exercises which recognize the students who have been outstanding scholastically.

In 1922 the Briaerean Society was founded at Georgia Tech as an honorary Co-op organization. It offers the highest honor available to upperclassmen who are outstanding in scholarship, leadership, and character.

The installation of a chapter at Auburn last year gave the Briaerean Society a place among the national honorary organizations.
The Briaerean Society serves freshmen by providing smokers, conferences, and campus orientation. As special activities, it also presents a cup to both the outstanding Co-op freshman and the senior with the highest scholastic average. Each March, when both sections are at school, the Briaerean Annual Formal Ball is held.

When the strains of this famous marching song resound across the campus—backs straighten and spines tingle—the deep-rooted pride in Tech comes to the fore and the realization that they are Tech men is in the hearts of all students—cares and worries fade as the “Tech Spirit” prevails.
Artillery, Infantry, Navy, Ordnance, Signal Corps—give all students the basic work in one of these five branches—offer to those selected an advanced course leading to a reserve commission...
The Reserve Officers Training Corps at Tech comprises four branches: Infantry, Coast Artillery, Signal Corps, and Ordnance. These courses are compulsory for all students for two years, and may be elected for four years. Upon graduation from the four-year course and one summer training camp of six weeks duration, the student receives, if qualified, a reserve commission in the branch of the army in which he specialized.

Always, and particularly in these times of national stress, the R. O. T. C. will stand as a symbol of preparedness.

Scabbard and Blade, a national society, was founded at the University of Wisconsin in the fall of 1904. The organization is modeled upon that of the U. S. Army, the various chapters being designated "companies" organized into regiments in the order of their establishment. In 1921, the chapter at Tech was established as Company "M" of the Second Regiment.

The purpose of the Scabbard and Blade is to raise the standard of military training in American colleges and universities. The qualifications for membership are not based on scholarship alone, but also on those of leadership, initiative and character.

As one of the handful of selected schools for Naval training in the country, Tech takes great pride in the excellence of its unit. A four-year course in Naval Science and Tactics is offered to all students of outstanding scholarship and physical qualifications, leading to a regular commission of ensign in the navy. Cruises are taken during the summer months, two being required for completion of the course.

This training is designed to build a well-trained reserve corps that can be relied on in time of crisis. Many Tech graduates are now helping to sail Uncle Sam's ships.

Longahots, peanuts, crib shots, and cokes give Basketball goers an unforgettable evening.
The Jackets started off the season by defeating the South Carolina Gamecocks three games in a row. On December 30th, the Jackets played the Gamecocks in Augusta, Ga., and with only two juniors and four sophomores, the Jackets defeated Carolina in an overtime period by the narrow margin 39-34. Sophomore David Crosby began to show his merit by being the offensive star of the game with fourteen points to his credit. In their next encounter with South Carolina, the Jackets emerged victorious by the score of 44-35. Jimmy Hearn led the team with eighteen points and this was just too much for...
the Gamecocks. The Jackets defeated Carolina 41-34 on January 7th, in Tech's new gymnasium. The game was mostly a defensive encounter with only five points being scored in the first twelve minutes. At the half Carolina led 16-12, but in the second period Tech's offense began to click and Tech again won. Carlton Lewis showed his defensive and offensive form that has made him one of the best guards in the Southeastern Conference.

In the fourth game of the season the Jackets really went on an offensive spree and defeated the Clemson Tigers by a score of 63-51. The Jackets scored the first nine points of the game, and with Lewis, Blackwell, and Stevens consistently making the net cords swish, the Tigers were never able to catch up with the Jackets. It was in this game that Tech's sensational sophomores began to get over their nervousness and began to play the basketball that they were capable of playing.

Rallying in the second half, the Yellow Jackets stung Ole Miss by a score of 60-47 to gain their first Southeastern Conference victory.

Tech won their sixth game of the season from Vanderbilt with the score of 55-48. The highlight of the game was the work of Buck Stevens who added to his point average by shooting eleven points. At this point in the season, the Jackets were at the top of the Southeastern Conference standings.

Then the story changed, the greenness of the
sophomores began to show. As the team went after their seventh straight victory, the Jackets suffered their first defeat of the season at the hands of Kentucky by a score of 47-37. The Southeastern Conference Champs displayed an experienced, skilled and superior ball team that just could not be beaten. Although the Jackets outplayed the Wildcats during the second half, the lead gained by Kentucky in the first half proved sufficient to win the game.

On the Jackets first road trip, Clemson revenged their previous defeat at the hands of Tech by the small margin of 52-49. In spite of the fact that Carlton Lewis shot twenty-three points, the Tigers came out the victor in a highly exciting game that was won only after playing an overtime period.

In their next encounter, which was with Tulane, the Jackets again came out on the wrong end of the score, 37-20. Tech had one of those nights in which nothing could be done right and everything could be done wrong. Tulane took advantage of these weaknesses and defeated the Jackets decisively.

In a two-game series with Auburn, the Jackets won the first game 48-37 but lost the second game 51-45. The Jackets showed great form in defeating the team which was at that time at the top of the Southeastern Conference standings. Carlton Lewis recovered his shooting eye and accounted for twenty of Tech's points. Down at Auburn it was a different story. Although Hoyt Blackwell shot seventeen
points, at the end of the game the Jackets were still six points behind.

Tech traveled next to Athens where the University of Georgia defeated the Jackets 31-26. Even though Tech allowed Georgia only eight points in the last half, Tech's defense was lax during the first half, and this permitted the Bulldogs to build up a lead that the Jackets could not overcome.

In the most exciting game of the season the boys from L. S. U. defeated the Jackets 34-32. This game was close all the way and L. S. U. won only in the last thirty seconds of play.
With only Alabama, Vanderbilt, Kentucky, and Georgia left to be played, the Jackets are almost assured of two wins out of this group. The Southeastern Conference Tournament is yet to be played but you can rest assured that Tech's Jackets will be in there fighting from start to finish. Some folks might complain but it can always be said—Tech led the Conference for a while.

**Yep! THE FROSH HAVE A TEAM TOO!**

Don't forget about the freshmen. They have a team also. The team this year was formed around Jake Lance, and with Jake acting as a bulwark they have already won their first two games.

The first game was with McCallie and they were literally swamped by the freshmen to the score of 39-31. Jake Lance led the offensive side of the game with twenty-three points while defensively it was Charlie Scruggs that saved many a basket.

In their second encounter the freshmen played a much more organized game of ball and defeated Baylor 16-28. Using a fast breaking offense, the freshmen forged into the lead at the first of the game and were never headed. Jack Reckard shot fourteen points to lead Tech offensively.

With improvement being shown every day, the freshmen are almost sure to defeat their remaining opponents, Monroe A. & M. and Darlington.
Give to their members remembrances they will never forget—a feeling of brotherhood that will long endure....
The Interfraternity Council is the governing board for all fraternities on the campus. Having two representatives from each national fraternity, with Dean Floyd Field as an adviser, it controls all interfraternity and school-fraternity relations. It promotes interfraternity competition in sports and scholarship. As its major activity, the council sponsors two sets of dances each year—the first series, Midterms, at the end of the first semester, and the second series, Finals, at the end of school. This year the Interfraternity Council was host to the Southern Interfraternity Conference at its annual convention.

Alpha Tau Omega, well-known as the oldest fraternity on the Tech campus, this year has the largest membership in the chapter's long history. As in years gone by, A. T. O's again were outstanding in campus activities and organizations with the seniors leading the way. Among them are King, business manager of the BLUE PRINT, Omicron Delta Pi, Anak, and Tau Beta Pi; Stovall, Anak, and Student Council; Hamilton, president of the Engineers' Council; Goodman, Senior basketball manager; Munn in track; Darby, secretary of the Interfraternity Council; and Cochran, Davis, Lowry, Olive, Perritt, Staton, Tribble, and Wadsworth. The Alpha Tau Omega formal was one of the finest of the season, and along with numerous house dances, buffet suppers, and hay rides rounded out the social activities.

MEMBERS

CLASS OF '44—D. H. Mercer, Jr.

From the portals of Beta Kappa this year goes one of the most outstanding groups of seniors we have ever produced. These men include Ed Marshall, President of Interfraternity Council, Bob Check, Editor of the Georgia Tech Engineer, Richard Culpepper, Lester Neely, George Fay, Ray Kolb, Bill Maynard, Elmer Mount, Tom Ricks, and Ken Wright. Beta Kappa has the distinction of winning the scholarship cup given by the Interfraternity Council for five out of the past ten years. With annual formal dance and numerous house parties and other functions, Beta Kappa has been one of the most successful social leaders.

C. C. DAVIS .................. Vice-President
J. F. WEAR .................. Secretary
R. E. FORREST .................. Treasurer

The Dean couldn’t get the door opened even if he wanted to.
Beta Theta Pi is entering its 102nd year of continuous existence as a national social fraternity. Founded at Miami University in 1839, it now has ninety chapters, with a total membership of more than forty thousand. The local chapter, Gamma Eta, was installed at Tech in 1917 and has been well represented by its members in nearly all campus organizations and activities.

Outstanding among the Beta seniors are Craig Davis, member of O. D. K., Pi Delta Epsilon, and editor of the "Technique"; R. T. Spangler, chapter president, and president of Kappa Eta Kappa, electrical engineering society; Bruce Bailey, editor of the BLUE PRINT and member of Alpha Chi Sigma, honorary chemical fraternity; Dick Forrest, member of Phi Psi, honorary textile engineering fraternity and associate editor of the "Georgia Tech Alumnus"; and John Wear, business manager of the "Yellow Jacket", and president of Glee Club.

Beta Theta Pi is also prominent socially, having numerous house dances and parties during the year, climaxxed by the annual Beta Kid Party.
D. R. BERRY  	  President
H. E. WRIGHT  	  Vice-President
E. B. DAVIS  	  Secretary
R. L. CLIETT  	  Treasurer

Known as the first Greek-letter fraternity to be chartered, Chi Phi has been in existence since 1824. The chapter will this year graduate one of the largest and most outstanding groups of Seniors since its existence on the Tech campus. Everyone knows the Chi Phi house as the place to go after the football games, as a bid is graciously extended to all the fraternity men.

Other house functions throughout the year helped round out a successful social season. The athletic teams also actively entered all intramural contests, and the bowling team was a constant threat in the White League.

CLASS OF '44—W. A. Darrin, A. D. Williams, F. E. Harvey.
Chi Psi is celebrating its hundredth year of continuous existence as a conservative national fraternity. It has the distinction of owning all of its chapter houses. At Tech, its social events include the annual Halloween house dance, the Christmas party, the Chi Psi Formal, the annual Spring House Party, and the Birthday banquet and dance. Chi Psi is represented in Phi Kappa Phi, Tau Beta Pi, BLUE PRINT, track, cross country and track manager, departmental honoraries, and campus leadership. The seniors, outstanding both on the campus and in the fraternity, include Ed Phillips, Gene Pirog, Walt Bedinger, “Doc” Sheffield, Pat Singer, Ronald Murray, Charles Fell, Leonard Gembis, John Morris, and Charles Rowland.

After a great deal of study and research on the subject, the Delta Sigs built a Ramblin' Reck which aroused many comments during that classic contest of the jaloppies. Much work was also done on the homecoming decorations, but the results justified the labors.

Much of the social whirl of the Delta Sigs was centered around the Ansley Roof Garden, and parties were held there at the time when Brothers Kemp and Garber were furnishing the music. A number of parties and house dances completed the round of activities. Another cup was added to the collection when a Delta Sig pledge won the annual Freshman Cake Race.

Seniors leaving the fraternity this year include Ed Graf, treasurer and member of A. S. M. E.; Johnny Bozeman, from Panama; and Bob Sturgis. These boys are well known around the campus and will be missed by the school as well as by the chapter.

Third row: Parmenter, Rucker, Sandhagen, Shipley, Sims, Smith, Stribling,
Teague, Trammell, Woodard, Woodruff, Woods.
Under the incentive supplied by the new Delta Shelta, Delta Tau Delta had one of the most successful years it has enjoyed since it has been on the Tech campus. This success was due mainly to the seniors who will graduate this year: Dick Brinkman, Ferris Cann, John Follenlove, Jack Horner, Nelson McCaa, Vernon Shipley, and Bill Teague. The chapter was widely represented on the staffs of all Tech publications and in all athletic managerial posts. The Delts also continued their excellent scholastic record. The Artists Ball proved again to be one of the major social functions on the campus.

Kappa Alpha, a southern fraternity for seventy-five years, derives its principles from the chivalry of long ago.

Sixty-seven chapters in twenty southern states carry on the high ideals of the Kappa Alpha Order.

The primary idea of K. A. fraternity life is four years of good fellowship which in later life may be recalled with pleasant memories.

The Alpha Sigma chapter was established on the Tech campus in 1899 and since that time has repeatedly been among the leaders in all types of the various fraternal activities.

The Kappa Alpha social season, always one of the best, was highly successful throughout the year. The principle social events included numerous house dances, a week-end house party in the mountains of North Georgia, and, as a climax, the annual Yachting Ball.
CLASS OF '41—H. S. Burnes, W. C. Smith.

Equaling Kappa Sigma's reputation as one of the outstanding National Fraternities, the Tech chapter is among the foremost fraternities on the campus.

Among the graduating seniors are Hugh Burnes, student in Textile Engineering and member of Phi Psi; Sam Lewis, outstanding student in Mechanical Engineering; Billy Smith, Industrial Management student and President of the Bulldog Club.

Kappa Sigs have won a high standing in all intramural sports and contests.

Among the ranking social activities of the year were the annual Christmas Tree Party, hay rides, and numerous house dances during the year. Although these affairs were splendid, the highlight of Kappa Sig's entertainments was the Spring Formal.

Wilson, Wingo, Yancey, Yates.
After completing a successful rushing season, the Phi Dels in December took their position on fraternity row in a brand new house overlooking Brittain Drive. The Seniors have only a short time in the new house but leave an outstanding record for the underclassmen to follow. Bryan in Anak and track; Cole, in Omicron Delta Kappa, Anak, and captain of Scabbard and Blade; Walton, business manager of the Engineer; Coppock, in Scabbard and Blade; Goree, in football; Yates, in golf; Parks, Price, Yancey, Wilson, Carmichael, Wagner, and Averett will all be missed at Tech as well as the chapter. The Phi Dels entered the social whirl with tea dances, buffet suppers, and house dances, climaxing the year with a sport dance which all the fraternity men thoroughly enjoyed.

Phi Gamma Delta will lose three prominent seniors through graduation this spring. They are Chris Kurtle, fraternity leader and treasurer of Yellow Jacket Club; Stan Elam, captain of the Tech Band; and Charles Perkins.

The Fi-Jis have entered strong teams this year in interfraternity athletics and have also been prominent in other campus activities. Our contribution to Tech's social life has been our annual Formal Dance and many enjoyable house dances.
CLASS OF '41—J. T. Duggan, J. P. Smith.

CLASS OF '42—J. P. Hite, W. L. Hole, D. F. Johnson.

Founded in 1904, Phi Kappa Sigma is one of the older fraternities on the Tech Campus. The Phi Kaps are losing only two members through graduation. They are two of the Fraternity’s most valuable men, Jimmy Smith and John Duggan. With the fine group of men returning, the Phi Kaps will retain their place of prominence on the campus next year. A formal dance in the late spring climaxed the year’s social activities, which consisted of numerous buffet suppers and informal dances throughout the year.
W. J. HICKLIN  
F. L. SHERAM  
J. W. THOMPSON  
J. S. SMITH

CLASS OF '41: W. J. Hicklin, J. K. Primm.

The formation of an Atlanta Alumni Association during the past year marked one of Phi Sigma Kappa's greatest achievements since its establishment on the Tech Campus in 1923. This new organization was honored at the annual Founder's Day Banquet on March 15. Our other social functions during the year were the biannual Formal Dance, the Christmas Party, and a number of house dances during the football season. The Phi Sigs actively participated in interfraternity athletics, "Rambling Wreck" contest, and the homecoming exhibits. We will lose President Billy Hicklin in Civil Engineering, and Johnny Primm in Electrical Engineering by graduation.

Pi Kappa Alpha is a national fraternity founded in the South during the days of the Confederacy. The Tech chapter is known on campus for its friendliness and hospitality. Major honorary organizations in which we are represented are Tau Beta Pi, Phi Eta Sigma, Briaerean Society, and the Student Council. Outstanding positions held by Pikas include president of the Student Council, Oil Can Club, Pi Delta Epsilon, the Freshman Class, and Commander in the Naval R.O.T.C. Besides the numerous house dances, the annual Black and White Ball, the Founders Day banquet, the annual 'possum hunt, and the weekend house party rounded out our social season.

We lose through graduation Chet Link, Harold Couch, T. O. Day, Clay Griffin, Al Hawkins, Tom Kell, Ed Parks, and Frank Hudson.

Pi Kappa Phi again held its place among the publications with Pop Morgan, editor of the Yellow Jacket and Bob Weatherford, business manager of the Technique. Other Seniors who will be hard to replace are McClanahan, Spurlock, Welchel, Wright, Cahill, Calderan, Hard, Holly, Johnson, and Lindgren. Pi Kappa Phi was again outstanding in intramural sports and activities as well as winning first prize for homecoming decorations. A number of house functions and a formal dance which was thoroughly enjoyed by all rounded out a successful year on the social calendar.

Sigma Alpha Epsilon was founded at the University of Alabama on March 9, 1856. Since this time it has expanded to one hundred and thirteen chapters and over fifty thousand members. On March 8, 1890, the Georgia Phi chapter was established on the Tech campus being the second national fraternity here at that time. This past year was one of the most successful years enjoyed by the fraternity. We initiated the largest pledge class in our history, won first place in the annual Rambling Wreck contest, and, overshadowing all else, we moved into the new SAE house. The Auburn Knights played at the Christmas Formal which proved to be one of the better social occasions of the year.
BETA PSI CHAPTER

OFFICERS

E. E. MACMORELAND ............... President
W. S. RAMBO .................. Vice-President

First row, left to right: Althobellis, Axton, Axton, Bell, Bower, Caree, Carkoff, Clark, Delameter, Delameter, Deen, Dyke, Galey, Galey, Haas, Haas, Haas, Jackson, Jackson, Kester, Kilpatrick, Lodder, Long, MacMoreland, Marchenks, Metzger, Merson, Murray, Murray, Oliver, Pollen, Q. Rambo, R. Rambo, Robertson, Sanders.

At the beginning of the school year, Beta Psi of Sigma Chi moved into its larger and remodeled house at 717 Spring Street. After a very successful rushing season, the chapter made plans for many activities. An open house was held in honor of the alumni; then there was the Christmas party. The big dance of the year was held on March 14. There were numerous smaller functions throughout the year. We have raised our fraternity scholastic standing from 19th to 6th. Sigma Chi boasts of its outstanding men. Dyke and Oliver are our football members, but “Pluto” is better known as the star pitcher on the baseball team. Schulze holds most of the scholarship trophies and is a member of many of the societies at Tech. MacMoreland in Military and a flock of future admirals and aviators round out this year’s chapter.

CLASS OF '41—M. Brick, R. G. Cohn.

Enjoying the view—from the porch of the new lodge.
Tau Epsilon Phi has concluded the first year in its new home with the largest group of actives and pledges in its history. Prospects for future years look exceedingly bright as only two seniors are lost by graduation. We will miss however, Dick Cohn, honor student and member of Tau Beta Pi and Omicron Delta Kappa, and Meyer Brick, whose attainments on the interfraternity athletic field have endeared him to the other members. The sixteenth annual Southern Conclave of Tau Epsilon Phi was held in November and was one of the outstanding events on the Tech social calendar. In addition, a series of house dances helped to provide a very enjoyable social year.

Societies

Professional Societies and Clubs—the backbone of the school—always doing something...
The Engineering Council was formed last year as a governing board for the professional societies and fraternities on the campus. It tries to regulate and somewhat standardize these societies and bring them closer together. Each professional organization on the campus chooses from its membership a representative to the Council. The Council sponsors an Engineers' Fair on St. Patrick's Day. At this fair every department holds open house for prospective Tech men and any one interested in engineering and in learning more about work that is being accomplished on this campus. On the night of St. Patrick's Day they sponsor an Engineers' Ball at which every true engineer kisses the Blarney Stone.

Alpha Chi Sigma is a professional chemical fraternity and is today the second largest society of its kind in the world. It is composed of chemists and chemical engineers who unite themselves for the mutual advancement of their social and professional ideals.

The chapter at Georgia Tech tries to promote an interest in chemical affairs by sponsoring movies, exhibits, and lectures. In addition, it awards a handbook annually to the junior chemist or chemical engineer with the highest scholastic average.

Eta Kappa Nu is a national honorary electrical engineering fraternity founded in 1904, the local chapter being installed in 1941. The membership is composed of those junior and senior electrical engineering students who are outstanding in scholarship, character, and leadership.

Their activities include a program of lectures, discussions, and movies to create interest in electrical engineering. In order to encourage high scholastic achievements among electrical engineering students, Eta Kappa Nu awards annually an engraved slide rule to the sophomore in the department having the highest average.

Phi Psi is a national honorary textile fraternity which has as its aim the promotion of better feeling and closer relation between the textile students and the strengthening of the position of the textile industry. Election to this fraternity is limited to a certain per-centage of the junior and senior textile students.

Each year this organization sponsors the Linthead Ball which is one of the big social events of the season.

PI TAU SIGMA

Mechanical Engineering Fraternity

Pi Tau Sigma is an honorary mechanical engineering society composed of outstanding members of the junior and senior classes who have proved themselves worthy in scholarship, leadership, and character. In order to promote interest in high scholastic achievements, the society presents an engineering handbook to the sophomore in the department who has the highest average, and has the name of the most outstanding mechanical engineering senior engraved on a plaque.

The local chapter of the American Ceramics Society, organized in 1926, tries to create interest among Ceramics students and to promote Ceramics as a science. By taking numerous trips to nearby centers of ceramic activity and by sponsoring lectures and motion pictures, this chapter has prompted great enthusiasm for ceramics in Georgia.

The Georgia Tech chapter of the American Society of Civil Engineers offers membership to all Civil Engineering students. The purpose of the organization is to aid the student through associations and contacts which will aid them as a practicing engineer. This is accomplished by means of luncheons, investigations, trips to nearby construction work, and lectures by practicing engineers.

Skull and Key is the honorary social society for sophomores. Its membership is limited to twenty-four men, twelve who are elected at the end of their freshman year, and twelve who are elected during the first term of their sophomore year. The purpose of this organization, which was founded in 1912, is to form a closer relationship between the leaders of the sophomore class.

Skull and Key is modeled after the Bulldog Club and aids the Bulldog Club in its activities. The entire student body looks forward to the hilarious Skull and Key initiations—the boys with the aid of their pillows do make very charming belles.

The Yellow Jacket Club is one of the best known clubs on the campus—especially by the freshmen. In 1930, when school spirit at Tech had reached an exceedingly low ebb, it became apparent to a group of spirited students that some kind of an organization to regain this spirit was necessary. As a result of this, the Yellow Jacket Club was founded. The club is composed of eight seniors, eight juniors, and sixteen sophomores, eight of whom are elected for junior membership.

The club acts as a protector for the freshmen against the upper classmen; yet, at the same time, requires the freshmen to attend all pep meetings, which it sponsors. The cheer leaders are chosen from the membership of the club. Since the Yellow Jacket Club has been functioning the school spirit and loyalty of the student body has greatly increased.

The Yellow Jackets keep the freshmen under control.
The Bulldog Club is one of our best known local organizations. It was founded by a group of seniors in 1910 to promote college spirit and interest. The club merged with the Junior Koseme Club in 1933 to form the present organization, whose members are selected from the most outstanding juniors and seniors on the campus.

Every year the Bulldog Club sponsors a Thanksgiving cake race for freshmen; the Homecoming Decoration, awarding a loving cup to the winning fraternity; a Thanksgiving dance; and the bowling tournament. The Bulldog Club is best known, however, for its colorful initiations—the sight of the boys, dressed in tails and knickers, leading a dog around the campus always gets a laugh.

Bulldog Club members list their names in the column below.
Alpha Phi Omega, honorary scouting fraternity, is chartered by the national council of Boy Scouts of America. Its purpose is to assemble college and university men in the spirit of the scout oath and law, to develop friendship and promote service to the youth of America.

Active membership is granted only to students who previously have been affiliated with the Boy Scouts of America, either as scouts or as scout leaders. The chapter at Tech is a recent establishment; however, they have already sponsored several noteworthy projects. Best known among these projects is the blood bank whereby the charity patients of Atlanta hospitals may receive free blood transfusions.

Kappa Kappa Psi is a national honorary musical fraternity established at Tech in 1924. It elects to membership those men from the upper classes who have upheld the highest standards of character, leadership and musical ability.

The Tech chapter is in charge of the football band and in many ways has helped the group attain a marked position on the campus.

Founded in 1915, the Co-op Club is one of the oldest and most active social clubs on the campus. Its purpose is to promote interest in college activities and to achieve a friendly spirit of cooperation among the students.

SECTION I

Section I, active during the summer and winter terms, sponsors such events as a Tug-O-War, Field Day, Freshman Watermelon Cutting, Softball League, a Basketball Tournament, and a Mechanics Ball.

The club, with the cooperation of the Y. M. C. A., has edited the Sum-O-Tech for the past seven years.

Sections I and II of the club have worked during the last few years toward the establishment of a Co-op Loan Fund. This fall a charter was granted to the club making it possible to set the Loan Fund on a firm footing.

Section II sponsored the Touch Football League during the fall and a softball team and tennis tournament in the spring.

The feature event of the fall term was the annual Masquerade Ball.

Pi Delta Epsilon is the honorary journalist fraternity. Its membership is composed of students who have been outstanding on one of the four publication staffs for at least two years. The organization has talks and open discussions so that all members can express their views concerning the publications. As its major activity, Pi Delta Epsilon sponsors an Easter Fashion Show in the spring.

Foil and Mask Society is an honorary club for all students interested in fencing. The purpose of the club is to unite all the students who are interested in fencing, whether or not they are members of the fencing team, and to create more interest in fencing among the student body at large. The society sponsors a tournament each year among the battalions of the R.O.T.C. unit—a cup being presented to the winner.

One of the most active groups on the campus from the standpoint of creative work is the Glee Singers. It is a choral organization under the direction of Mr. Walter Herbert whose interests toward the organization have made it very successful with its entertainment programs.

The Glee Singers give programs before other colleges, city clubs, and churches. The past year brought forward a program of Christmas carols led by the group.

Group rehearsing.
The Y. M. C. A. at Tech is made up of two separate units—the Freshman Council and the “Y” Cabinet. The “Y” Cabinet, being the more important unit, is composed of upperclassmen who have shown their desire to enter an extra-curricular activity of a religious nature.

The “Y” strives to show the students the part that religion plays in school life as well as in business. This is done by means of retreats, discussions, and lectures. The “Y” also sponsors a program of activities that consists of movies, receptions, and tournaments in table tennis, handball, and horseshoes.

THE FRESHMAN CABINET

Each year, under the guidance of senior Y members, the freshmen organize a Y Cabinet. Their plans, business, and objectives parallel those of the upperclassmen, but are not so wide in scope.

PAUL EARLSON,
President.
The Radio Club was organized primarily for amateur radio operators. The club now owns and operates the amateur station W4AQL. At their meetings the members discuss the many obstacles that they have encountered and the new developments in radio. They make numerous trips to other radio stations, both amateur and commercial, during the year.

The radio room where Fein gets the static.
Baseball, Tennis, Track, Swimming, Fencing, Golf—ordinary students do their bit for the school—long hours of practice—victory...
The return of most of the 1940 squad, the baseball team played a red hot brand of ball for the first eight games. The season started with two victories over Tennessee at home on the 4th and 5th of May. The Jackets took to the road over Easter and beat Vanderbilt and Kentucky two games each. The season was now well under way and Howard Burpo led the batters with Hearn a close second. The best team in the Southeastern Conference went to Auburn the next weekend and beat them two straight games. By this time all of Tech was impatiently waiting for the day when the Yellow Jack...
ets would knock Bob Smith of Georgia out of the box; but after splitting a two-game series with Florida, and losing two games to Auburn, sportsmen began to wonder about the outcome of the Georgia-Tech series on May 2nd and 3rd. Finally the big day dawned. The Jackets all but knocked Smith off the mound in the eighth to score four runs, but in their half of the ninth Georgia scored five runs after Pluto Oliver walked three men to fill the bases. Tech failed to score in their half.

THE 1941 SCHEDULE

April 4-5 . . . . . . Tennessee at Atlanta
April 9-10 . . . . . . Vanderbilt at Nashville
April 11-12 . . . . . . Kentucky at Lexington
April 16-17 . . . . . . Auburn at Auburn
April 23-24 . . . . . . Florida at Atlanta
April 25-26 . . . . . . Vanderbilt at Atlanta
April 28-29 . . . . . . Auburn at Atlanta
May 2 . . . . . . . . . . . Georgia at Atlanta
May 3 . . . . . . . . . . . Georgia at Athens
May 9 . . . . . . . . . . . Georgia at Athens
May 10 . . . . . . . . . . . Georgia at Atlanta

Loosening up the swing for the big game.
of the ninth, and went down in a bitter 9-7 defeat. The second game of the series, played in Athens, went to Georgia.

Although the last half of the season resulted in a slump, many individual abilities were brought out. Howard Burpo, who went from first base to the mound this year, proved that the old saying, "Pitchers don't make good hitters," was wrong. He led the team all the way through the season with an average of .412.

BATES
KING
LEEDY
McAULEY
Bush

The 1941 swimming team undertook the most ambitious schedule in the history of the school by meeting every leading college team in the South.

Ward, Demere, and McCarty were a good combination in the distance events, while Bates, Stradtman, and Newman took care of the sprints.

The diving squad this year was composed of "Dynamite" Goodloe, Lewis, Goforth, and Wannamaker. Newman, McCarty, Stradtman, and Bates formed the fastest relay team in the school's history. Cargile, Blackhear, and Hulbert took care of the breast-stroke events in good style.

With reinforcements from last year's undefeated freshmen, and under the guidance of Captain Ward, the season's record proved to be very good.

In the conference meet, which was held again this year in the Tech pool, the Tech team pressed Florida for team honors.
The tennis schedule this spring is one of the longest and toughest we have ever encountered. The loss of Russell Bobbitt, one of the outstanding college players in the south, leaves the team weakened considerably. But with several of last year's netmen returning, the squad will probably develop into a strong and formidable team ready to face any school in the south.

1941 Schedule

March 29 - Clemson in Atlanta
April 2 - Florida in Atlanta
April 5 - Alabama in Tuscaloosa
April 7 - Princeton in Atlanta
April 11 - Davidson at Davidson
April 12 - Duke in Durham
April 17 - Kentucky in Atlanta
April 19 - Georgia in Atlanta
April 26 - Vanderbilt in Atlanta
April 29 - Alabama in Atlanta
May 3 - Georgia in Athens
May 8-9-10 - Tournament at Vanderbilt
THE VARSITY

Coach Griffin
The 1941 season opened with the North Carolina Indoor invitation meet at Chapel Hill. Five Georgia Tech men participated and those five men brought home a third place for the Tech cinder team. Dick Power won the high jump. Plaxico and Bryan placed in the hurdles, Mumma in the dashes and Smith in pole vault, to give Tech 13 points and a third place in the meet.

A creditable showing was made in the Annual Florida Relay. The Tech team came fourth in a field of twelve. Particularly outstanding was George Webb's javelin throw of 195 feet.

Captain Monroe Plaxico then led the Tech team through its season of dual meets. Only one defeat and that at the hands of Alabama in the first meet of the season. Florida, Georgia, Tennessee and a victory over the Smith's best in the A. A. U.

Billy Weeks vaulted over the bar with the standards set at 13 feet four inches for a new school record. He was full.
lowed closely by Loftin Smith, who is expected to duplicate Weeks' feat in meets to come.

Ed Ryckely has no doubt provided Tech fans with big thrills by pushing his 200 pounds down the track at the rate of 100 yards in 10 seconds. Harlan Mumma and Plaxico finished just behind Ed in both dashes.

Captain Plaxico has been hard to beat this year in the 220-yard low hurdles and he and Morris Bryan have alternated winning the 120 high hurdles. Another strong runner is Whitney who specializes in the 440.

Ed Coughlin and Bill McGuire running the mile and half mile runs have proved to be hard to beat. Walter Connelly in half mile has also proved his worth.

In the field events besides Webb in the javelin, the Jackets boast of such strong men as Bartlett, Wist, and Saunders.

**THE FRESHMAN TEAM**

Left to right: Dick Powers, Captain Monroe Plaxico, John Scott, Farmer.
The 1940 Track Team captained by Artie Small and coached by George Griffin, had a very successful season in winning five dual meets and placing well in the conference meet in Birmingham. Most of last year's team is returning this year to face the same hard schedule with the addition of the S. E. A. A. U.
ON THE LINKS

THE SQUAD

J. F. Collins       R. M. Thompson
J. P. Clay          P. D. Yates
T. S. Crowle       W. C. Gaye
H. N. Florence     E. C. Gunn
S. A. Gayle        G. T. Sargent

H. E. DENNISON       Coach

Tech's golf team, weakened by the graduation of five of its members, is supported this year by the return of Dan Yates, Bob Thompson, Harold Florence, and Sidney Gayle, all members of last year's squad. So far this season, the team has defeated Tennessee twice, Alabama, and Florida, while losing only to Michigan. The team is rounding into shape well and shows promise of a very successful season.
Under the direction of Coach R. T. Morenus the fencing team has excellent chances for a very successful season, with most of last year's squad returning and several promising freshmen coming up. Starting the season with a bang, the foils men have won their first two matches, beating Kentucky 9-7 and Vanderbilt 10-8.

THE SCHEDULE

Date          Opponent
January 18    Vanderbilt
February 8    Kentucky
February 15   Fort Benning at Columbus
February 22   Fort Benning
February 23   Vanderbilt at Nashville
March 1       Kentucky at Lexington
March 8       Atlanta Fencing Club
March 15      Atlanta Fencing Club
March 21-22   Tournament at Williamsburg

THE FRESHMAN TEAM

J. Teitlebaum  E. Cohn
J. Ritz       H. Harris
M. N. Kassel  B. Hans
R. Stark      T. R. McMurray

Captain Davis
THE ROLLER HOCKEY TEAM

A new addition to sports at Tech is the Roller Hockey Team. Although the team is not sponsored by the school it enjoys the support of the entire student body. This year the Roller Hockey Team defeated teams from all over the Southeast.

Ed Raiford	Red Nicholls
Tony Zaladella	Fred Finkbeiner
L. H. Harmon	Paul Ertle
Jack Spitko	June Cathcart, Sponsor
Al Ritter

Not in Picture
Hank Churchman	John Monck
Stubby Hamilton	Karl Newman

INTRAMURAL SPORTS

This year many intramural sports were available to the members of the student body without the ability to play on the varsity teams. The Interfraternity Council sponsored the interfraternity basketball in the winter and softball and tennis in the spring. Every Friday night the fraternities participated in the bowling league sponsored by the Bulldog Club. Also included among the intramural sports were basketball and softball among the dormitories and basketball among the co-op classes. A great number were given the opportunity to participate, and everyone enjoyed the friendly contests.
Juniors, Sophomores, and freshmen—do the dirty work and keep the wheels rollin'.
As Freshmen we lived in a maze, as Sophomores we began to grasp a few basic principles, and as Juniors we have struggled to make a beginning in mastering the essential theories. The fact has definitely been forced upon us that the third year is the turning point of our college career. Those who had not thus far received recognition in scholarship nor taken part in campus activities were more or less left out in the cold, and those who had merited distinction were forced to put forth even greater efforts to meet the keener competition.

We found this to be the year of decisions on which not only our senior work but perhaps our whole lives will depend—granting that we are not soon in the Army or Navy.

As we take the rank of Seniors we shall challenge ourselves to be the type of class that will be instrumental in keeping Tech the great school we thought it when we entered as Freshmen.

The 1941 BLUE PRINT
1. "Pop" and cutie give their best smiles.
2. Vondle, the track man, working out on the dance floor.
3. McCall and Britton are ready, willing and able.
4. Down the drain line in Biology Lab.
5. Three seniors planning the dirty work for the Friday Night Dance.

1. Two industrious young lads heading for lab.
2. From the Mills Building during the time between classes.
3. Rough and tough junior sergeants—the freshmen's pet hate.
4. Pork-eye and Mose talk it over in sign language.
5. The robber looks another nickel.
7. Mary Anne gets twisted.
Trivial things have passed! This has truly proved to be a year of actualities; nothing has been offered to us; everything expected. With this rude awakening we were startled into action and whispers of warning were a stimulus to long hours of study and labs—the two elements that make up the sophomore year of college at Tech.

This year we began to find out what really keeps the ball rolling. The realization that a college education is not composed of books and classes alone, has come to us. It was not long before we, too, were taking part in the extra-curricula activities, and enjoying the pleasures of the social whirl. Disappointments have visited us also, in the form of deficiency reports which caused no end of questions from Dad.

Before this year was finished, ambitions had to be reset, challenges met and decisions made. These demands were a steadying factor in an otherwise bewildering year.
Phi Eta Sigma is the highest scholastic honor a freshman can receive at Georgia Tech. The fraternity, which was installed on this campus in 1930, is composed of freshmen who have an average of 3.5 or better for the first semester or as an average of both semesters of their freshman year. The most important activity of this group is having its members visit the students who are confined in the hospital. Every spring Phi Eta Sigma presents a loving cup to the freshman having the highest scholastic average for the first semester.

1. Steve Epsten and Bill Counts in gym lab.
2. Frank Mummi, Bob Sherman, and Joe Fuller listen to Julian Lehrer read his senior report.
3. Locke Urdag, Bob Muir, and Jim Sudderth heading for an A in French.
5. Tom Dodier and Al Wilson learn how to perform the perfect crime.
6. Anne Wheater, Diliver Smith, Jim Jeffries, and Austin Tides gaze at—Laverne Curtis.
7. Dan Edwards, Penny Cook, and Sam Cohen in chem lab.
8. Roy Allen and date.

2. Bob Smith, J. Mayer, and Bill Weiss getting to get there dates.
3. Elmer Burruss and Prof. Bolton going over one of those quiz papers.
4. Jobbie Bebhide, Don Black, and Frances Dennington building around.
5. Ron Aycock takes the first look before the quiz.
6. Dan straining and Jack Lynch rising and starting to shine.
8. King Smith sleeps while Lamar Sellers cooks Esquire and "Buc" Shepherd studies.
The time finally arrived when we could bare our head to the elements without fear and trembling: and this one milestone was passed. Ere this fraternity-minded did much to lessen the pain of loneliness that we would have experienced otherwise, the hair-raising tales of "rat court" marred many a peaceful dream, but the realities proved less severe than upperclassmen had foretold. The glamorous thoughts of mid-term dances and even formals were diminished by the spectre of exams, and the admonitions from Dad which were becoming more disturbing. The burning of the midnight oil became a reality; but Aladdin failed to appear with knowledge so longed for. Nightmares vanish, however, as daylight appears and brings with it a dim panoramic view of anticipated goals that were attained. Though our ranks have thinned, we feel fortified by our years of accomplishments and stand ready to conquer all obstacles that might lie in the path of further technical knowledge.

THE GREEK REVIEW

The last remnant of the ability to take and deal out the razzberries remains but in the much criticized halls of brotherhood. It is not the intention of this review to evoke animosity or distress of mind on the part of any lodge or persons connected therewith. (Would that our pulchritudinous campus were blessed with sororities, so that they also might share with the fraternties the dubious advantages of this review.)

To these hallowed institutions described below we send a wish for their future good fortune and enduring success.

ALPHA TAU OMEGA

When it comes to “pink-chasing,” the A. T. Os lead the league. If their roll were called at any Buttermilk Brawl, the majority of the boys would be present. Familiar sights at the A. T. O. house include: Frank Stovall in that black politician’s suit; Jim Bruce talking to anyone who will listen; Bucky Goodman whining for Florida. Their one ambition is to receive a chapter bid to one of the Debutante Parties. Among the better investments are Hamilton, Darby, King, Mumma and Stovall.

BETA KAPPA

In case anyone is interested, this house can be found on some corner next to a laundry where an alley runs behind. Ed Marshall manages to keep the campus well stirred up while Lester Neely attempts to steer the Beta Kappa ship on a straight and narrow course. Bridge hounds? Boy, I'll say! Some of their neighbors say that they play all night. (Bridge.) What if one or two of the boys do have private telephones in their rooms—that’s their own business. Our hats are off to Bob Cheek—some record he’s got.

DENMARK’S GROCERY

SPRING AND NORTH AVENUE

YORK’S RECREATION PARLOR
ONE OF THE SOUTH’S FINEST
For a while, the Betas had the best knitting team in the conference, but Henry Mayo sprained his thumb. This organization is said to indulge in other college sports besides dancing. It has been told that they carry on some very interesting Chess Games in the basement room every Saturday night. Their proudest achievement of the year was the .999 scholarship rating of Willie Jones. In activities they have quite a few of the big ones including Bunkie Bailey, Davis (CC), Happy John Wear, Dick Forrest and R. T. Spangler.

Gill PHI

It's not hard to figure out how the Chi Phi's have the inside track on this Debutante Chasing. Most of the boys were born and raised in Atlanta. You can't fall out of those second story windows now—the Ceramics Building gets in the way. Those fall tea dances were fine—wish that they would start a spring set also. Among the better and bigger boys are Randal Henry, Hunter Stewart, the Miller boys and Hugh Wright.

Telephone Hog
Sally Rand Comes To Town
CHI PSI

The Chi Psis can be found living in the middle of that huge plot of earth that they call a lawn. It’s some job to dress for supper every night but that’s the way they like it. These boys should join the lumber-jack union if they are going to continue to remove lumber from that construction job next door. Some of the underclassmen should get Walt Beeding’s list of Pensacola night spots. Other seniors who should have equally vital information are Charlie Fell, Ronald Murray and Pat Singer.

DELTA SIGMA PHI

By rights, that other Delta Sig should be traced down and stood alongside his frat brother before a fair judgment can be made on the boys. The majority of the men in their chapter are enrolled in school—that is by the last census. We wonder why John Monck didn’t win that ugly man contest. He rightfully deserved it. Ed Graf and Roy Lange handle the greater part of the machinery and manage to keep things in running condition.

DELTA TAU DELTA

The Delt lads can be found most any old time holding down that new Delta Shanteh on tin can alley. Their principal occupations seem to be hot-wiring around the countryside in large Buicks and taming horses (ergo “Wild Bill” Teague and “Wurry Wart” Horner). Their affairs of state repose gracefully in the hands of that “Weedy” character “Sucrose” Fullenlove.

KAPPA ALPHA

Known locally as the "marrin' clan" (wonder why), these boys can be found holding up the walls of their lean-to on Williams Street. There is an ugly rumor circulating that they now own a radio. Principal occupation (exception above) is counting the Williams Street Debutantes as they file by. The guiding lights are Tom Tisdale, Cooper Shackelford, Robert E. Lee, Fat Boy Adams and also lusty "Duck" Hensler.

KAPPA SIGMA

It's nothing short of a miracle. The Kappa Sig house still stands in one piece although the Bulldog Club initiation did take place there last fall. When their new neon sign was first put out on the front of the house, passersby thought that the neighborhood was blessed with a new juke joint. Tough luck, Dinney Coit, Jeff Dykes and Hugh Burnes are some of the better boys. They still hide Bagganly when they are trying to pledge a boy.

PHI DELTA THETA

The Lord's favored chillun are now segregated in that new house overlooking Peter's Park. The Phi Dels pledge quite a number of freshmen. It has been rumored around the campus that they offer the choice of a vest or sleeveless sweater with each pledge pin. Dan Yates is a famous member. Billy Parks is more sane. Some of the other B.M.O.C.s are Matt Cole, Roy Goree, Morris Bryan (sometimes referred to as Snuffy's brother-in-law) and Rob Ison.

PHI GAMMA DELTA

Chris Kurrle, Bob Steudel and Charlie Perkins wave the banner for these stalwarts. There is a rumor that these lads are the real McCoy when it comes to lady-killing. Don't quote us though. The most strenuous activity they engage in all year is a knock-down and drag-out softball game with the Betas for a keg of good cheer. Everybody gets excited except Stan Elam—he doesn't care.

PHI EPSILON PI

These followers of Israel live in a very sordid neighborhood (between the K. A. and the Phi Gam) with the other Williams Street herd. Their favorite occupation is butting heads with the Tau Eps. Phi Ep floor trembles 'neath the tread of behemoth B. M. O. C. Shatzen. Other notables include Lew Bodenheimer, Dick Herzog and Phil Solomon.
When last heard of the Phi Kappa Sigs were getting settled in that reconditioned house on Spring Street. Their favorite amusement is making life miserable for their neighbors. Their greatest achievement was the graduating of last year’s senior class. Immediately after pledging the new crop, Geechie Smith shows the young ’tins how it’s done on the campus in the wicked world of politics.

When last heard of the Phi Kappa Sigs were getting settled in that reconditioned house on Spring Street. Their favorite amusement is making life miserable for their neighbors. Their greatest achievement was the graduating of last year’s senior class. Immediately after pledging the new crop, Geechie Smith shows the young ’tins how it’s done on the campus in the wicked world of politics.

It’s a mystery how these fellows can hold a high scholastic rating and browse around as much as they do. Some superman instincts in this lodge—no doubt. That station wagon of Hicklin’s seems to be an inducement to stay constantly on the go. One of the boys was seen going into that church next door many weeks ago. How are those Saturday donut parties, anyway?
Georgia School of Technology

A Technical School With a National Reputation

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power. The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Coast Artillery, Signal Corps, Infantry and Ordnance Units of the R.O.T.C., also Naval R.O.T.C.

for FURTHER INFORMATION, ADDRESS

The Registrar

Georgia School of Technology

ATLANTA GEORGIA
For excitement they give hayrides and those unmentionable parties. For five years now they have had a man who brought them—we wonder what. You must know him that—some call him Nick Gatt Dodson. While with a steadier hand to guide their destiny is old Tom Kell. Some of the others still pursuing engineering are Vie Baran, T. O. Day, and Harold Couch.

The Pi Kappa Phis live in the last house in Fulton County and pretend to like it. Their main talking point to rushers is the healthy exercise they get in walking to and from civilization. On the other hand, though, look how close they are to C. Thomas. This should be another talking point for them. Some car old Leedy’s got, eh!

Dave McClanahan, Bob Weatherford, Pop Morgan, and Duck Cahill are some of the “bigger dogs” that hang around.

SIGMA ALPHA EPSILON

When it comes to rushing, the S. A. E. gang is not as shrinking as its chosen flower—the violet. Each fall the survivors send for another gross of pledge pins and start out to do what they can to the human race. It was at one time maintained that the S. A. E.s stressed quality. However, the belief that they will pledge anyone is probably a bit overdrawn. The bigger guns include Frank Allcorn, Bob Thompson, Weenie Whitlock, Fred Murphy and Pook-eye Warnock.

SIGMA CHI

The Sigma Chis live in that large old house with an uplifted face and are quite the boys now. Their female neighbors say that their worst habits are failing to pull down their shades to conceal their brawny bodies, and playing foul music at all times during the night. The familiar names include Pluto Oliver, Ed MacMoreland, Bob Ral (Garland L.) Kendrick, Wimpy and Ralph Willis. Schultze stays at the throttle and keeps activity drummed up around the house.

These Sigma Nus really get around. Taylor Sams and Wilson McGough take care of everything on the hill, while Tom Hill and Ed Scott take care of the women. Sigma Nus total assets are some old-fashioned dining room tables, a condemned house, and Bert Smith—imagine—writing a whole paragraph without mentioning that second floor 'we pledge 'em here' back room.

Among the future fathers of America, we find such outstanding personalities as Harold Van Arsdale, Frank Gray, Hugh Paxton, and Pedro Ponce. They are very active in intramural sports and lay claim to one of the best group cases of athletes foot known on the Tech campus. Besides bowling, their next two outstanding sports are beer drinking and beer guzzling.

SCHWARTZ'S
FORSYTH CORNER WALTON
Lured by the lassies of the Lovable B. Company, these hardy Tau Ep brethren recently moved into the seven-gabled barn vacated by the boys of sweetheart fame. Their greatest desire is to graduate Sak Gershin. We'll give them six more years to accomplish this task. Other men of prominence include Dick Cohn, Dick Schwartz, and Dave Saul.

Was it the landlord or the one-armed bandits, incorporated (cigarette machine company) that caused the Theta Chis to abandon their former location and move further up Spring Street? Favorite indoor sport—(censored). Next favorite indoor sport—Tiddleywinks. Jack Adams, George Orr, and the Quillian boys are some of their B.S.O.C.s (note to you, gentle reader).
