FINANCIAL ASSISTANCE

The graduate program provides financial assistance through (1) scholarships and fellowships with awards based on academic merit; (2) graduate research assistantships and a limited number of teaching assistantships with awards based on academic merit; (3) a very limited number of out-of-state tuition waivers for exceptionally qualified students; and (4) loans, grants, and work-study positions based on financial need and academic merit in cooperation with the Institute's Office of Scholarships and Financial Aid.

GEORGIA TECH

The Georgia Institute of Technology has a current enrollment of nearly twelve thousand students from every state and over eighty foreign countries. During the past decade, the Institute has become one of the major research universities in the country with numerous graduate programs having national and international distinction.

ATLANTA

Georgia Tech is located on the northern edge of downtown Atlanta in the center of a metropolitan area with a population of more than 2.5 million. As the established center of the southeastern United States, Atlanta has a vital economy that supports diverse opportunities for architectural practice and sustains an aggressive community interest in the theater, cinema, and the visual arts. Atlanta is within a two-hour drive of the Appalachian Trail and within a six-hour drive of Atlantic and Gulf Coast beaches.

APPLICATIONS

The deadline for applications is February 1 for the following fall. Each applicant must have an outstanding undergraduate record, must submit a portfolio of creative work, and preferably have at least one year of work experience beyond the baccalaureate degree. The Graduate Record Examination is required for all applicants for the 1990-91 academic year and beyond. A TOEFL score of 560 or higher is required of all foreign applicants.
