Anak is the highest honor to which twelve of the most outstanding members of the senior class are selected. Founded in 1910, it is the oldest honorary organization on the Tech campus, and is dedicated to the promotion of interest in all campus activities. New members are tapped from the senior class at the mid-term and final Interfraternity Council sponsored dances.

One of the greatest honors that can be awarded to a student of Georgia Tech is membership in ODK. Members are selected by a system of awarding points on the basis of the student's participation in campus activities, a certain number being required for selection. The Tech Chapter of ODK was established in 1930 and is one of the outstanding honorary fraternities in the country.

Phi Kappa Phi honors those members of the senior class who have distinguished themselves on the basis of scholarship and leadership. Next to the oldest honorary society on the campus, Phi Kappa Phi, a national scholastic fraternity, was established at Tech in 1914. Members are selected from the upper seven percent of the senior class including all departments. Phi Kappa Phi awards a cup to the senior having maintained the highest scholastic average while at Tech. Phi Kappa Phi also sponsors the annual Honor Day Exercises at which recognition is awarded the deserving students.

**OFFICERS**

The officers of Phi Kappa Phi are chosen by the faculty members from the faculty members.

**PHI KAPPA PHI**

Phi Kappa Phi honors those members of the senior class who have distinguished themselves on the basis of scholarship and leadership. Next to the oldest honorary society on the campus, Phi Kappa Phi, a national scholastic fraternity, was established at Tech in 1914. Members are selected from the upper seven percent of the senior class including all departments. Phi Kappa Phi awards a cup to the senior having maintained the highest scholastic average while at Tech. Phi Kappa Phi also sponsors the annual Honor Day Exercises at which recognition is awarded the deserving students.

Tau Beta Pi, national honorary engineering fraternity, was installed at Tech in 1925. Students are selected on the basis of character, scholarship, and leadership, and membership in Tau Beta Pi is considered one of the highest honors to engineering students throughout the country. Tau Beta Pi awards a cup to the senior judged by the faculty from a selection by Tau Beta Pi.

The Briaerean Society, honorary organization for Co-ops, selects members of the Co-op Department who have distinguished themselves in leadership, scholarship and character. Membership in the Briaerean Society is the highest honor given to Co-op seniors and juniors. The society is divided into two sections to accommodate both sections of the Co-op Department. The Briaerean Society offers scholarship cups to an outstanding Co-op freshman and senior at the Annual Honor Day exercises.

Alpha Chi Sigma, national chemical fraternity, was founded at the University of Wisconsin in 1904, and the Georgia Tech chapter, Alpha Omega, was installed in 1932. It is the second largest chemical society in the world and is devoted to the advancement of the social, professional, and scientific ideals of men interested in chemistry. The organization draws its members from the juniors and seniors of the Chemistry and Chemical Engineering Departments. Alpha Chi Sigma offers a handbook annually to the junior having made the best record in Chemistry and Chemical Engineering courses.

The national honorary electrical engineering society of Eta Kappa Nu was founded on the Tech campus in 1940. Outstanding electrical engineering juniors and seniors are elected into Eta Kappa Nu. The society promotes scholarship by awarding a handbook to the electrical engineering sophomore having the highest scholastic average for his first three semesters at Tech. It is considered one of the highest honors for an electrical engineering student to be elected to Eta Kappa Nu.
The national honorary mechanical engineering society of Pi Tau Sigma was founded in 1915 and the local chapter was installed at Tech in 1932. From the junior and senior classes of the Mechanical Engineering Department outstanding students are selected for membership on the basis of character, leadership, and scholarship. At the Annual Honor Day exercises Pi Tau Sigma presents an engineering handbook to the highest ranking mechanical engineering sophomore, and engraves the name of the most outstanding senior on a plaque which rests in the Mechanical Engineering Building.

Devoted to the purpose of encouraging interest and furthering knowledge of the field of electrical engineering among students, the Georgia Tech chapter of the American Institute of Electrical Engineers was installed on this campus in 1915. The society is composed of members of the Electrical Engineering Department and offers lectures and papers on electrical engineering subjects as part of its activities.

The American Institute of Chemical Engineers, national society of professional chemists, established a student chapter on the Tech campus in 1933 for the purpose of stimulating interest in the field of chemistry. Students in the senior and junior classes in the Chemical Engineering Department comprise the membership of the society. Motion pictures, surveys, and lectures by prominent men are part of the programs presented by this organization during the term.

In addition the AIChE also annually awards a key to the senior ChE maintaining the highest scholastic average, and also presents a handbook to another outstanding junior ChE.
Membership in the Georgia Tech student chapter of the Institute of Aeronautical Sciences is open to aeronautical engineering sophomores, juniors, and seniors. The Society promotes interest in aviation and aeronautical engineering by giving lectures and pictures and various social activities throughout the year.

Students of the Civil Engineering Department are eligible for membership in the student chapter of the American Society of Civil Engineers, which was established at Tech in 1939. The society has as its purpose the enrichment of the student's college life by increasing his knowledge of civil engineering and by forming contacts which will prove valuable in his later professional life.

Since its establishment at Georgia Tech in 1916, the American Society of Mechanical Engineers has been one of the most active departmental honoraries. Membership is open to seniors and juniors of the Mechanical Engineering Department who are interested in the advancement of their knowledge and the creation of better interest in the field of mechanical engineering. The society affords the opportunity for the young engineer to make valuable associations with his fellow professional engineers. Movies, lectures, and discussions are offered as part of the semester's program.
Membership in the Industrial Management Society is awarded to outstanding non-engineering students on the basis of their scholarship and leadership. The Industrial Management Society was formerly known as the Scientia Club, the name being changed because of the fact that the industrial management course replaced the general science course. As part of the activities of the society, it awards annually a certificate of scholarship to the senior in the Industrial Management Department who ranks first on the basis of his scholastic record at Tech.

The M. L. Brittain Debating Society was founded at Tech in 1927 for the purpose of affording the opportunity for men interested in public speaking to display their abilities in debates. The society arranges debates and forums between Georgia Tech and nearby educational institutions and maintains an active program throughout the year. The society was organized principally through the efforts of Professor Folk, of the English Department, and was named in honor of Dr. M. L. Brittain, president of Georgia Tech, whose interest and efforts have meant so much to this institution.
The "T" Club is a Tech organization formed for the purpose of further honoring those athletes who have earned varsity letters in a major sport or who have won a conference championship in a minor sport. The club has its own clubroom and lounge in the Naval Armory.

During a period when Tech spirit seemed lax, Coach Alexander organized the Yellow Jacket Club for the purpose of promoting greater interest and enthusiasm in Georgia Tech sports. That was in 1930 and the club has continued its activity ever since. Among its activities is the authority to enforce the traditional rules regarding Tech freshmen, and the club is the sponsor for pep meetings during the football season and the annual "Rambling Wreck" contest. Members are elected from the freshman class at the end of each year.

One of the most active organizations on the campus is the Bulldog Club, which is composed of twenty outstanding members of the junior and senior classes. At the beginning of each second semester these men are selected to be initiated. The distinct nature of this initiation has made it one of the traditions of Georgia Tech. The Bulldog Club sponsors the interfraternity tennis and bowling tournaments, the Freshman Cake Race, and the Homecoming Decorations contest as part of its activities.

MEMBERS

The Camera Club was established at Georgia Tech in 1940 for the purpose of creating and furthering interest in the art of photography. The club has its own dark room and sponsors photograph contests among its members.

**Officers**

1943
- President: J. B. Downs
- Vice-President: H. J. Meyer, Jr.

- I. Weinberg

The Glee Club has had to curtail its trips out of town to various colleges due to the war, but has had a number of concerts in Atlanta and its vicinity. The club has produced two of the Gilbert and Sullivan operettas in collaboration with the Glee Club of Agnes Scott under the direction of Walter Herbert. These past two operettas were "The Gondoliers" and the "H. M. S. Pinafore." This last opera was first shown in Presser Hall of Agnes Scott and then in the Tech Naval Armory with extraordinary success as the first show of its kind ever shown on the Tech campus. "Pinafore," the most famous of the Gilbert and Sullivan operettas, is a satirical comedy about the British Navy. The Naval Armory lent quite a nautical air to the show.

The Glee Club gave a memorial concert with Josephine Antoinette, star of the Metropolitan Opera Company, in the early part of the winter, and received much praise from this famous singer.

Many of the concerts in Atlanta have been at the various churches around Atlanta: the North Avenue Presbyterian, the Ponce de Leon Baptist, where they sang negro spirituals and other appropriate selections.

One of the most active groups around the campus, the Glee Club has done much to spread the name of Tech in good favor wherever they go. It remains active as one of the only cultural organizations alive on the campus.

The members of the Baptist Student Union include all members of the Baptist church who are students at Georgia Tech. The Baptist Student Union Council directs the activities of the Union on the Tech campus. The group plans a Student Evangelistic Week, Vocational Training Week, student night services, and courses in church and Bible training. The council sends delegates to the state and Southern Baptist Student Union conventions. The council affords the connecting link between the student and the neighboring Baptist churches and takes an active part in promoting the religious activities of the student body.

- A. L. Amos: B. T. U. Representative
- R. Maurer: Chorister
- R. Hoema: Organist
- J. C. Perry: Editor sliderule
As a chapter of the Federation of Catholic College Clubs, the Newman Club was established at Georgia Tech in 1913. The club is devoted to the unity of the members of the Catholic faith at Tech and to the presentation of religious and social functions for the enrichment of the student's life outside classes. The Newman Club has until recently maintained a house for the use of its members.

Sixth row: Smith, Valladares, Williams.
Each year the student body elects to represent them in the Georgia Tech Y. M. C. A. a group of men who they think are interested in the ideals and purpose of the Y. M. C. A., so that these men can help present the "Y" program in a better and more appealing manner to the students. This group is called the Y. M. C. A. Cabinet. The Tech Y. M. C. A. seeks to help each student to find friendships and has many activities to make his college life more wholesome. Discussions, lectures, social and church functions are part of the activities of the Y. M. C. A. in addition to the sponsorship of many clubs on the campus.

Founded as a local fraternity in 1927, Sigma Gamma played an energetic part on the campus until 1939, when the organization became inactive.

In February of 1942, Sigma Gamma was reorganized as a social and athletic club for Tech students without fraternity affiliations. Under the leadership of Bob Finkelstein and Alan Kurtis, a new organization evolved, consisting of twenty-two charter members. Many of these men graduated soon afterwards, but the others built up the club to unexpected strength, having forty-five members and pledges one year later.

Since then, the never-to-be-forgotten advice, "keep calm, study hard, join the E. R. C.,” has had telling effect on us, as on everyone else. But despite the war, Sigma Gamma has remained on its feet, and will, we sincerely hope, continue to do so.

In the memory of all Sigma Gams are recollections of the Indian Springs picnic, our Blue and White annual dances, and the many small, but always lively, parties. Also, our own B. T. O.'s. In October, we lost "Boss" Gritz and room-mate Lee Burton, plus Jerry Teitelbaum and Art Shalloway. And this June we bid fond farewell to Prexy Cenker and V.-P. Bob Stein, the inseparable Capelouto and Rousso, "Goldbricks" Jaffe, Ruback, and Weinberg, along with Stan Itscovitz and Billy Silverman.

First row, left to right: Gunshar and Ruth making believe it's a car. Pre-draft days—three down, two to go. Bronco busting a Second row: Angels. Three water g-nom-es. Sunday in the park.
One of the most active organizations on the Tech campus is the national service fraternity, Alpha Phi Omega, which was installed at Georgia Tech in 1940. One of the requirements for membership is previous association with the Boy Scout movement, upon which the ideals and purpose of Alpha Phi Omega are based. The fraternity is dedicated to the promotion of friendship between its members and of service to humanity. One of the outstanding activities of the society has been the forming of a band of blood donors here at Tech.

This BLUEPRINT, the thirty-seventh annual of Georgia Tech, is in truth a two-year book. As a direct result of the existing national emergency it was necessary to effect this change. For the two years its three sets of editors, business managers, and staffs have worked continuously so that this record of the school and the school life shall be an accurate and well integrated one.
In spite of the War, the Technique has remained one of the most active and popular publications at Georgia Tech. Edited weekly by Tech students, the Technique has full coverage of all campus news. This publication has been one of the outstanding college newspapers in the South and provides valuable journalistic experience for its staff members.
Since the Navy came to Georgia Tech, the Nautilus has become more and more popular with everyone. By replacing the Yellow Jacket, which has been discontinued for the duration, the Nautilus has brought to the boys in the Navy much of the spirit and traditions of Tech, and made Tech seem more their own college while stationed here. The Nautilus is published monthly and has its office in the Naval Armory.

The Yellow Jacket was traditionally known here at Tech for the variety of humor which each issue displayed. In 1943 three regular issues and one farewell issue appeared before its publication was curtailed for the duration because of war restrictions, but the day of its return to Tech is looked forward to by all.
