GEORGIA GAME

BRILLIANT COMMENT MADE BY SENATORIAL PLAYING AND FIGHTING SPIRIT. WHICH MIGHT HAVE BEEN IMPRESSIVE IN ANY CROWD.

Never before in the history of athletic relations between Georgia and Tech have such a base and unsportsmanlike trick been seen as was the one played last Saturday, when old Gold and White went down in defeat before the warriors from Athens. Write the fact as it may be, but this trick is a most ignominious one. This same game have doubtless been read and reread by every student at Tech. A repetition of them in this space is hardly warranted.

The game was a wonderful game had begun. Wood and was thrown, Georgia was still with it. He came a short distance ruff caught the ball and raced back ed, Pat put his toe partner adjacent. The whistle sounded itself. They stood, each man and White defenders just across the field. They came out in a jag trot, we have never before done; and now to the struggle. The very attitude of the Georgia players as they romped upon the field displayed an impatience to begin the game. They danced as they ran in my mind, with the ball over their heads, the smiles of satisfaction on their faces boded joy to the hearts of their supporters. But what a difference there was in the band of old Georgia and what a difference there was in them. They came out in a jag trot, and not the way we have done before. They were not confused, they were not thrown off by anything. They held the ball and when we tried to get around them, there was a wall there that never yielded. They lined up again and beat the same insurmountable defense.

A Yeller, a Yellow Jersey, there another. They were under the ball, and no one could get between them. The first play, but it met a stone wall. The time is coming on before we realize it. Time wasted now is absolutely lost. Classes should obey their teachers at all times.

All matters of business should be addressed to: A. A. Turner, Editor, and all other matters to the Editors-in-Chief.

Planning Wisely

A BASKET BALL TEAM FOR TECH

Plans are now under way for the recommendation of a basket ball team this season. Tech has turned out but one such team in her history and there has as failure, both financially and from the standpoint of the total number of players taken a part. This has thrown a damper over the student body and has ruined basket ball spirit in the city. This seems to care for the game. Many men may be found to accounts for this, but the most obvious one is the lack of a suitable place for practice. Herein lies the great feature of our organization. The floor space is small, poles and apparatus of all kinds are strung about the floor and ceiling, reckoning any possible chance of developing five fine men to form basket ball machines. Besides this, fact often plays the same the dangerous to the players.

Basket ball enthusiasts at Tech have searched in vain these past years for a place to play. They have met with failure. However, it is quite likely that the old foundry will soon be equipped for us. As can be seen from the above authorities, the proposition of using this space for a basket ball court was advanced. The first attempt was to the board of trustees. There it was heard, and it was to an at the question of allying this impossible action, both sides agreed to ignore them until they could be taken a part of controlling it. Many other such things were discussed among the Tech students and Tech boys, the body was decided upon, and in case any unpleasantness occurred his presence among them should be at once suppressed.

As was pointed out during the development of this end, that the kind of court that was desired was really a matter of the condition of this end that the idea of outdoor games. Coach Haas is the second attempt was an improved court and proved good results. The court has been a real in the development of the feeling of confidence and a spirit of enthusiasm in the back of both the home crowd and the out-of-town visitors. The game is the best that has ever been played in the city.

NOTICE.

Special to the Georgia: Club.

The following men have been re- entered on the Georgia Club for the press and will report for practice at four o'clock on Tuesdays and Fridays and at five o'clock on Saturdays. Limited time before concert makes it imperative that every man be assured of a chance to be in the regular band. A strict account of the attendance of those who go on the trip will be made accordingly.

A basket ball, a band and a cheer- leader will result in more interesting games, more debt to the student body than the basketball season to the Georgia.

Conditions throughout the world show the increase at Tech and National.

The next meeting of the Y.M.C.A. will be held next Tuesday week later we are to be favored by a visit of Mr. Albert Blohm, E. A. Turner, Editors.

W. Pope Jarney, '11, Architecture, is at present a student in the Department of Architecture, University of Pennsylvania, has taken one of the two first mentions given in a recent exhibition there. This certain- ly redounds good credit on the work of our Department of Architecture.

20. Shuttles, '12, Architecture, and Archie Burroughs, '11, have returned to the local field of endeavor. They brought their Diaz with them, as a result of their study, a beauti- ful map of the city. This map is a duplicate of one of the most impor- tant architectural art on the other side.

The alumni of the school came out to the game Saturday in full force and gave the game the backing it so well merited. The alumni were served with a splendid dinner in the School of Commerce and a delightful evening in the School of Engineering. A TURNING OF THE TIDE

At Last We Swamp Sewanee and Cop

At 11:45 November 14th, amidst the wild cheers of six hundred "Leather-lungs," Hon. Madison Bell pronounced Tech victorious over Sewanee, and thus the two teams to be even in games. The victory was due to the splendid game of the Tech football team, under the guidance of the man upon one of his most successful years that Georgia School of Technology—K. C. Washington, president; W. H. Patterson, vice-president; A. A. Byrd, business manager; Yellow Jacket—W. H. Tennille, editor; T. W. Black, business manager.

TO COACH HEISMAN

To Coach Heisman must be given partial credit for his work with the football squad of 1911. In many respects this year has been one of the most successful years that Coach Heisman has had since he has been at Tech. Starting way back at the beginning of the season we saw a squad of not only is the annual game with Georgia becoming more and more a great social event, but it is undoubtedly sooner or later to be the really great baseball championship pennant. Toward the front of the stage were draped Tech's three immense baseball championship pennants. The outlook for the season we saw a squad of the most successful years that Georgia School of Technology—K. C. Washington, president; W. H. Patterson, vice-president; A. A. Byrd, business manager; Yellow Jacket—W. H. Tennille, editor; T. W. Black, business manager.

GRAND OPERA IN ENGLISH, BY THE

ABORN OPERA CO.

Splendid Cast of Grand Operatic Singers, Acrobat, Ballet Dancers, and Magnificent Scenic Effects.

THE CUCKOO'S NEST

Just before the schools closed for the summer a teacher was giving the young people a talk on natural history. "The cuckoo burrows its nest in the ground," she said, "the kingfisher dives into the side of a hill or rock, and the woodpecker bores a hole in a tree. Now, can any little boy tell me where the cuckoo makes its nest?"

"A small boy immediately replied, "in a shoe box."

"Professor—Who was Donegan's son?"

"Gillyjon—That's right."

"Professor—'Yes, Warnick."
Let's Take the Defeat Like Sports

To emphasize the obvious often proves distasteful to us all—in fact, the mere fact of saying it is emphasis enough, but the question now arises, Are we enough to accept our situation and handle it as a true sport should? The solution to this problem seems obvious in itself. Tackle it and see how you like the job.

We must see this, say with pride that Tech knows how to take both victory and defeat. Results are One: Our Tech spirit. That game Saturday was an answer to an exhibition of football as was never seen on Ponce de Leon field. We went out to give Georgia every ounce of football and spirit left in us. We gave it to them, but did it ever occur to you that they were as determined as we, that the game meant as much to them as it did to us? That game was hard fought and rough, yet it was clean, not one single incident marred the contest of the season when the day was over, the Red and Black had triumphed. They won it, fellowship, won it by as fair and honest methods as any one of us could expect. Let's choke back a sob and give them the good hand.

It is always a consolation to reason out "his and ands" to convince yourself that the game could have been won. You may worry your brains for days figuring out some marvelous play that would have brought victory in the gold and white. But that is consolation in so far as you are concerned yourself, but for the sake of your self-respect and Tech's good name, don't be a sore-head. If there is anything that a writer, correspondent, fan, is a sore-head, one whose loud-mouthed excuses are his wrongs everywhere. On the other hand, if you have rubbed it into your mind to get around it and keep your temper with you.

But why all this? A Techite is a sport. We have done it before and we can do it again. Let's live for something that is to come.

SUCCESS OF TECHNIQUE

UP TO SUBSCRIBERS — PROMPT ACTION NECESSARY.

The Technique cannot be run on faith, though it was faith in the loyalty of the students that first prompted the launching. Nothing except the student body is behind it; there is nothing from the school and no fund even to tide the enterprise over the first few weeks.

In the first place there must be a large number of subscribers and then there must be a prompt payment of subscriptions if the paper is going to be the force we ought to have.

The administrator's plea is a final proposition, so little help can be hoped for in that direction. It is to the province of the student subscribers that we must look.

Subscriptions are due as follows: December 1st to 5th. If your subscription is not paid by December 5th, the paper will be stopped until it is paid. In case you think that you will have no time to do this, but you will save the management from embarrassment.

But, further, financing is the proposition for the sake of Tech, and we cannot afford to have the little part he is asking from us. Let's get in behind the Techite. It is a social, less of值得一提的是，这个文档是关于“Let's Take the Defeat Like Sports”的文章，讨论了如何面对失败和将其视为体育比赛的一部分。文章中提到，Techite们在比赛中表现出色，尽管失败了，但仍然表现出体育精神。文章鼓励读者要以积极的态度面对失败，并将其视为一种学习和成长的机会。
