New Draft Board Letter
Sets Draft Regulations

As a result of the discussions with National Headquarters, Selective Service officials have decided to conduct an emergency supplement to No. 09 the following telegram was dispatched by General Hersey to all State Directors of Selective Service:

"Please advise local boards that Operations Bulletin No. 1 does not supersede Section 6(12) of the Act which provides for the postponement of the induction of a college student who while preparing for a full-time course is engaged in activities of an educational nature. In such case a student is said to be engaged in such activities if he is engaged in a group separate from the regular student body, and which is under the supervision of any teacher employed by the school and directed to the development of the student's aptitude and interests in a matter not necessarily a part of the regular course of study of the student body. This group must be separate from the regular student body, but may be conducted by a teacher and may be under the direct supervision of an instructor.

In such case the student will be required to complete his educational activities for a period not to exceed 120 days before he is to be assigned to the draft. This period is to be added to the time under which he is subject to the provisions of the Act. The time to which a student is subject to the provisions of the Act is to be determined from the date of the notice sent to the student under Section 6(12) of the Act.

This telegram should clear up the confusion on the part of Local Boards on postponement and deferment of students who are now enrolled in school. In case a Local Board refuses to postpone the induction of a student now enrolled and making satisfactory progress in a full-time course, the local board is urged to attend.

The State Publications Board, at a special meeting Wednesday afternoon, has also approved the submission of eight hundred dollars by the Publications Board, and the appropriation of two new issues of the "Swivet" to underwrite any net losses the student publications may incur.

Georgia Pregame
Bonfire

Mickey Sargent, president, of the Ramblin' Reck Club, has announced that plans for a pre-Georgia Tech bonfire have been approved. The bonfire will be held on the Fourth Street drill field on Friday, December 1, at 7:00 p.m.

All fraternity pledges will cooperate with the Ramblin' Reck Club by accumulating boxes and fuel for the bonfire. This fuel will be deposited on the Fourth Street field on Tuesday, November 30. The scheduled pep rally will take place at that time. All students are urged to attend.

Billy Graham to Speak
To Enroll Student Body

Students and Faculty Invited
To Special Meeting Tuesday

At eleven o'clock next Tuesday morning, November 7, the students and faculty of Georgia Tech will have the opportunity to hear a special address by Dr. Billy Graham and members of the youth division of the "Swivet" body. The event will be held in the Tech gym. At present Dr. Graham is a teaching student at the University of California. The address is scheduled to last approximately one hour and will be attended by all students and faculty of the Georgia Tech and the University of California.

The address will be held at the Tech gym, with the auditorium set up for a large audience. The address will be followed by a question and answer period. The address will be open to all members of the Tech community, including faculty, students, and alumni.

Swivet Given Approval, Funds
By School Publication Board

By Dick McClosky

The Student Council, acting on a recommendation of the Georgia Tech Publicist's Board, has approved the submitted constitution and by-laws of the Tech's new publication, "The Swivet". The Board, at a special meeting Wednesday afternoon, has also approved the appropriation of eight hundred dollars from the joint publications sinking fund, to be used to finance the publication of two issues of the "Swivet". The appropriation is for the first half of the year, and the second half not to be allocated until the first issue has been published.

The appointees to the new publication are as follows: Dr. Billy Graham, for the first issue, and Mr. Van Leer and Mr. E. W. Cook, for the second issue. The publication will be produced by the Swivet staff, and will be distributed to all members of the Tech community.

The "Swivet" will be published twice a year, in the spring and fall. The first issue will be distributed on the campus, and the second issue will be mailed to all alumni and other interested parties.

Swivet Staff Members

The staff of the new publication will be composed of members of the Tech community, including faculty, students, and alumni. The staff will be selected by the new publication board, and will be responsible for the content and quality of the publication.

The "Swivet" will be distributed to all members of the Tech community, and will be available for purchase by the general public.

Welding Society Will Present Cash Awards for Prize Papers

The American Welding Society will award $700.00 in cash prizes and $150.00 to the publica
tion in which the prize winning paper will appear. These awards are made annually by the American Welding Society under the conditions of the A. F. Davis Undergraduate Welding Award program. The donor of the funds for this event is A. F. Davis, Vice President and Secretary of The Lincoln Electric Company, Cleveland, Ohio.

Howard F. Kallen of Cornell University and The Cornell Engineer received the 1949-50 first prize awards; the second prize awards went to Ray
tric Company, Cleveland, Ohio.

Fifth Frosh Ordered To Attend Rat Court To Answer Charges

By Orlando J. Callow

Last Thursday, another rat court was held at the "77" club room. The
rat court was made up as the previous meeting, and the setting was just as ic
ductive, if not more so. Five fresh-
men were called, with two being ab-
sent.

Fred Stichter was called first. Fred had missed the first rat court, and his claim was that he did not get a notice. Therefore didn't know that he had been called. Since the notice had been sent to him, his excuse was not accepted, and Fred was penalized. He had to help decorate the Gym for the Building club Homecoming dance.

Bill Conlew was called next. His charges were that he had missed a pop meeting, and that he didn't wear a cap. The court decided to put the man on probation. From then on, he would be closely watched, and his name called in ever pep rally. He would be also called in the cake race, and in any shirt tail parade that we may have. Bill would be checked on for further details.

Dean Ajax Addresses Seniors About Job Placement Service

By Bill Bell

Dean Ajax spoke to the Senior Class on the subject "Organization for Placement" at the following points regarding the job interviews:

1. Seniors graduating in March, June, or September, 1951 are vitally concerned.

2. Seniors wanting any information about permanent or employment service are to see Dean Ajax personally, or if he is not available, Mr. Dautry or Miss Weams in Room 104 Knowles. Seniors under no circumstances should get the "word" from "Joe" about anything concerning placement.

3. Seniors should prepare them-

self for season of employment serv-
ces "yesterday". Today at the latest.

4. All seniors expecting to graduate in March, June, or September, 1951 should be active in the coming inter-

views. This means the seniors who are going into the armed services and those who already have a lead on a job.

5. Seniors should check their post office boxes daily for interview slips and be on time for interviews.

Seniors who were not at the meet-

ing held in the Gym Tuesday, Octo-

ber 31, are not enrolled in the Place-

ment Plan. They should see Dean Ajax immediately.

Each year the Office of Dean of Students offers the above-mentioned service to seniors, graduate students, and alumni. Approximately 100 industries in any shirt tail parade that we may have. Bill would be checked on for further details.

Enjoy your cigarette! Enjoy truly fine tobacco that combines both perfect mildness and rich taste in one great cigarette - Lucky Strike!

Perfect mildness? You bet. Scientific tests, confirmed by three independent consulting laboratories, prove that Lucky Strike is milder than any other principal brand. Rich taste? Yes, the full, rich taste of truly fine tobacco. Only fine tobacco gives you both real mildness and rich taste. And Lucky Strike means fine tobacco. So enjoy the happy blending that com-

es perfect mildness with a rich, true tobacco taste. Be Happy—Go Lucky!

CE's May Apply for Scholastic Aid Under General Clay Award

Several scholarship awards of $300 were made to outstanding students in civil engineering at Georgia Tech, according to Controller Jamie R. Anthony. These awards would be made either by General Lucius D. Clay or the Georgia Tech Scholarship Committee. General Clay Scholarship Fund are available this year to outstanding students in civil engineering at Georgia Tech, according to Controller Jamie R. Anthony. These awards would be made either by General Lucius D. Clay or the Georgia Tech Scholarship Committee. **Mexico Is Represented By Leopoldo Lieberman**

By Marshall Graham

Exemplifying the growing spirit of understanding and co-operation between the nations of the American continent is the Mexican visitor, Leopoldo Lieberman, one of the Mexican students who is attending Georgia Tech this year. Leopoldo is from Mexico and is continuing his higher education at Georgia Tech through the generosity of his country's government.

Leopoldo, who has acquired the nick-name of "Polo" while here at school, has lived in Mexico City all of his life. His parents are originally from Mexico, and the family have been resident there for years. Leopoldo's father, Adolfo Lieberman, is a prominent Jewish intellectual, and his mother, Rosa Vigil, is a noted poet and writer. Leopoldo has three brothers, one of whom is a medical doctor.

Leopoldo enrolled at Georgia Tech in September of 1949 and is attending the school that "Polo" went to before coming here to Tech.

Five Years Recess

Lieberman spent five years at the "Universidad Nacional Autonoma De Mexico," which is the National University of Mexico. All of the students are required to go five years before they graduate from this school.

The University is split into several divisions such as Engineering, Medicine, Liberal Arts, etc. These divisions are further divided into sub-divisions. There are no dormitories or fraternity houses, and all of the students room and board in various homes in the city. Construction has begun upon a campus for each of the different divisions which will be completed the next year and the campus to be finished sometime in 1952.

The Engineering Division of the School is set up under a unique plan. All of the teachers have jobs in out-of-town industries and the campus is split into two sections a day. The students go to school from seven until eleven o'clock at night and return in the afternoon. The school is open seven days a week, and usually go to classes until ten o'clock at night. The students do their intermediate work during the time between morning and afternoon classes.

**Politics Dominate**

At one time, the students chose the Principal of the University, but this practice has been abandoned. The government of the University is elected by the students. There are no political parties in Mexico but there is a political home, and it is through the political home that the students are active in the government of the University. The political home is the chief political force in the University.

Leopoldo states that the school year in Mexico is divided into quarters or semesters. They usually have only one or two exams during the school year on any one course. The school year has a break from December through February which corresponds to our summer vacation.

**Low Cost**

The cost of attending "Universidad National Autonoma De Mexico" is practically nil, since it only costs thirty dollars a year. This is a great help to many students as it enables them to save for a trip to Europe. The student passes through the University without any examination. The general educational program consists of six years of study, divided into two semesters, and the student must pass the final examination at the end of the second semester. The first course consists of general studies in which the student must pass with a grade of at least 70 in order to be admitted to the second course. The second course consists of four years of study in a specific field of knowledge.

Large "Balls" a Year

Two of these balls are on Tuesday night and last until five o'clock in the morning. The other one starts around five o'clock in the afternoon and continues until eleven o'clock in the morning. Another event of interest is the "Ballbells" which are held by the students. The balls are not nearly as large as the ones seen in the professional ring; nevertheless, the fights are interesting to watch.

Traveled United States

Lieberman came to the United States last year with a group of students from the National University. They traveled extensively throughout the United States studying various engineering projects. This tour was sponsored by the school.

Leopoldo states that he is thankful that he has the chance to come to Tech to study, and he is endeavoring to make arrangements with his school whereby they can accept exchange students from the United States.

**The Technique WORLD EVENTS**

**POLITICAL CHARGES**

**America Has Lowest Vote Participation**

The American political scene tensed this week for the last rounds of the many election fights throughout the nation. Pollsters were predicting the usual low turnout of voters that comes with every congressional election during the years between the presidential elections. The usual sensational charges and countercharges emerged as candidates used them as desperation measures.

In New York, the spotlight was on the state gubernatorial and senatorial races and the contest for the mayorality of New York City. Republicans were worrying about the effect of the "Huey Long" letter exposed by the Democrats. Most observers pick Dewey for Governor, Lehman for Senator, and Impellitteri for Mayor. However, since the 1948 prediction fiasco, this observer wouldn't be surprised if Donald Duck was elected.

In other states across the nation most of the interest centered around senatorial races. Old stalwarts like Bob Taft were seeking re-election.

Here in Georgia, the main item of interest on the ballot is the county unit amendment. Talmadge forces are pumping hard for the law which would extend the famous system to the general election. It is this observer's opinion that passage of the law would mean that Georgians would have to say goodbye to a truly representative government for many years to come.

James Reston, staff writer of the New York Times and political writer for the W.S.F., has published a book, "The Politics of Destiny," which has become a best-seller. Mr. Reston believes that radicals both on the right and left sides of the fence are rapidly losing favor with the people. Any such movement, this observer believes, would be a welcome change in American politics.

"This Arsenal of Democracy," has had the lowest voting record of any democratic nation on earth. This is a matter of past fact. Less people go to the polls in relation to our population. This fact should be a matter of personal concern to all Americans. Democratic government implies a responsibility on the part of the citizen to vote and to vote intelligently.

---

**ANNOUNCEMENT**

By the generous response of our courteous friends, we will stay open every Sunday from 8 A.M. to 12 midnight.

For faster service and greater variety of fine foods — it's the Reck — 2 to 1!
The Student Council has put into action a plan which will allow various faculty members to check the progress of their students. This plan is scheduled to begin next Tuesday. Professor Bob Brown, of the School of Architecture, will be the first faculty mem- ber to invite students to attend the meeting and we hope that he will be able to pay this visit.

There are individuals who will complain that the Student Council is losing its indepen- dence. However, in order to achieve better understanding between these two important factions on the campus, the Student Council has launched a primary election.

In the past the council has had to go through a very tough time in dealing with students, and sometimes this has led to hard feelings on both sides. If various faculty members are given the opportunity to attend these meetings, they will be better able to help the council in achieving its aims. In the past, the council has always invited visitors, but few faculty mem- bers have felt free to attend. This situation is changing now, and the council has taken steps to encourage faculty attendance. Faculty members have been invited to attend the council meetings, and we hope that every professor will take advantage of this opportunity to attend. There will be no point in ex- tremely many invitations.

**FRESHMEN CANDIDATES!**

Get your petitions in by November 7 for the primary elections.

The dates for the freshman primary and final elections have been announced and the candidates should be planning their campaig- n. So far the number of candidates is disappointingly small. As of Tuesday night only Michael Brown, a sophomore at the Student Council lounge. To be eligible for the election it is necessary to fill out a peti- tion and turn it in before November 7. The position of class officer or student coun­ cil representative is a job that carries not only honor, but a chance for better understanding on the campus. It is the active men who obtain the top campus pad that it is essential for a freshman to start as a freshman generally leads to the top positions during your junior and senior years.

There are individuals who will complain that the campus to take a greater interest in the election. Their representatives strive to do their best, but there are often matters of general in­ terest which we are not aware of, and that is that the student body has some interest in the school. Their representations are often very small, and that is the reason that seniors cannot obtain date tickets for the Georgia game as they do for the other away games. The Tech AA is the only organization on the campus which means the tickets must be spread over as many fans as possible. The only way this can be accomplished is by limiting the num­ ber of date tickets issued to seniors.

While we are discussing the subject of tickets, we would like to call attention to the fact that the Georgia Tech Athletic Department will be holding a drawing for two season tickets, one for each of the Tech AA. It is hoped that the Tech AA will be held to determine which number of students would be interested tickets. A drawing for tickets will be held to determine which number of students would be interested in attending the Tech AA. It is hoped that the Tech AA will be held to determine which number of students would be interested in attending the Tech AA. It is hoped that the Tech AA will be held to determine which number of students would be interested in attending the Tech AA. It is hoped that the Tech AA will be held to determine which number of students would be interested in attending the Tech AA. It is hoped that the Tech AA will be held to determine which number of students would be interested in attending the Tech AA. It is hoped that the Tech AA will be held to determine which number of students would be interested in attending the Tech AA.

**FOR BETTER RELATIONS...**

students and faculty are urged to visit the Student Council.

While we are on the subject of students, we must concern ourselves with the problem of the student body as a whole. The council meetings are open to all students, but too few for some reason the council chamber is not being used by everyone. We try to encourage our students to be involved in these meetings, and to attend. For some reason the council chamber is not being used by everyone, we try to encourage our students to be involved in these meetings, and to attend. APO Ugliest Man Contest Will Be Held This Month

By Dave L. Cofar

Who is the ugliest man on the campus? We will soon find out. Sometimes in November Alpha Phi Omega, the National Service Fraternity on the campus, will sponsor a contest to determine who this creature will be for the remainder of the year. The winner, chosen by student vote and be presented with an award signifying their distinction. Not only does the contest contribute to a worthwhile cause on behalf of Tech students, but it turns out to be one of the most entertaining activities of the year.

Past years have shown a growing interest in the Ugliest Man on the Campus Contest. Last year's contributions totaled a new high of $20. It is hoped, and seems highly probable, that this year's contest will be even more successful and interesting.

Applications at Ad Building

All organizations, social and otherwise, are urged to enter a candidate. Application blanks are mailed to each organization's president, and others desiring to enter may pick one up at the Information Desk in the Administration Building. Returning the completed application blank and a photograph of your candidate will be the only entrance requirements.

As usual the election will be held in the Administration Building. Painted jars bearing the name and photograph of the contestant will be placed on the information desk. For the ballot, you are casting your vote for the person who is most deserving of this distinction.

Applications must be started as soon as possible. The new winner will be selected as the one getting more money through the sale of tickets. The tickets will be sold at the Ad Building beginning Monday, November 6. The winners will be kept secret until the presentation of awards are made. The winners will be presented November 17 and 18 at Spring Street School. The play is a farce comedy about three lawyers and their crazy client. The plot concerns the lawyers of the plunders who while looking for a business suddenly acquire as a client an eccentric millionaire whose avocation is chasing women. The three lawyers are played by Tony Pellegreno, as Arthur Lee, Frank Talley as Pete Russo, and Bob Hutton as Joe O'Rourke.

The eccentric millionaire is played by Dave Cunnie. One of the victims of his pranks is the lawyer's secretary played by Tora Rehm. Tickets for the play will go on sale at the information desk on Wednesday, November 8. Reserved and unreserved are available for both performances will be $7.50. For those who have purchased season tickets, or for your secret society, a ticket may be picked up at the Information Desk beginning Monday, November 6. (Continued on Page 8)

Council Minutes

October 26, 1950

President drone has called the meeting into order. The roll was taken and all members present were accounted for. October 14, were read and approved.

Mr. Cofar reported for the Welfare Committee. He stated that theUG Ach-10 was placed up in the APO building from the work that he had performed. It is still to be moved at present. Lights will be installed soon, and then it will be open. The committee recommends that the lights be carried on the honor system because they had been turned off by Mr. Bush-Brown, Secretary of the student council.

The Treasurer reported on the Publications fund and stated what was left for the current year. This year the funds will be turned over to the APO for the current year. The fund for the future will be turned over to the APO treasurer for presentation to the Atlanta Journal Empty Stocking Fund.

Mr. Snelson moved that $5.00 be presented next week. Mr. Seckman seconded. Moved that $5.00 be appropriated for posters for announcing freshmen elections' procedures.

The meeting adjourned at 8:10 p.m.

Respectfully submitted,
Bill Kennedy, Secretary.

(APO Ugliest Man Contest)

GENERAL ELECTION DAY—Tuesday, November 7, is election day. This year the main interest in the General Election will be a myriad of proposed amendments to the Georgia State Constitution, several of which are of vital interest to either the state or to the Atlanta metropolitan area. VOTE AS YOU PLEASE, BUT VOTE. Remember that this privilege is your American heritage.

SOUTHWESTCHEMICAL CONFERENCE—Members of the faculty and graduate students made a large contribution to the organization and program of the recent Southwestern Chemical Conference held at the Biltmore Hotel, October 16-18. Dr. H. L. Edwards, Associate Professor of Chemistry, was chairman of the supervisory committee which was responsible for all of the arrangements for the meeting and in addition assisted over the General Session of the Conference. Dr. W. T. Ziegler, Experiment Station, and Dr. W. H. B. Eberhardt, School of Chemistry, presided over two of the sessions of the Physical and Inorganic Chemistry Section. Research papers were presented by Mr. John Blomecke, Dr. W. T. Ziegler, and Mr. Clyde Orr, Experiment Station. Also presenting papers were Dr. J. M. Dallal, Vail, School of Chemical Engineering, and Dr. Eling Gorenstein, Dr. Jack Hink, Dr. J. A. Staud, Mr. D. L. Lee, Mr. E. F. Cox, Mr. Ralph Earle, Mr. J. L. Heck, and Mr. A. T. Trimbile, all of the School of Chemistry. In addition, Dr. Nathan Sugarman, Experiment Station, and Mr. W. H. Burrows, School of Chemistry, served as chairman of two committees making arrangements for the meeting.

FACULTY NOTES—Dr. J. E. Moore, Dr. S. Q. JANUS, ALBERT S. GLICKMAN, E. H. LOVELAND AND JAMES M. RICHARDS, psychology, will attend the Georgia Psychological Association Meeting in Savannah, November 15-16—Director REESE A. DICKERIT, A. French Textile School, will attend the Visiting Corporation, Little Rock, Arkansas, Nov. 9-10.

Successful Season Doubtful Says Tech Swimming Coach

By Wilfred Smith

"For the first time in about ten years, our chances for a successful season are very doubtful," is the manner in which Coach Fred Lanoue, the varsity swimming coach, sums up the prospects for the varsity squad this season. Graduation almost completely stripped the squad of last season. Even though the season does not start until Christmas, several swimmers have already won Coach Lanoue's nod of approval. Among these are: Bert Edleson who is a very good all around swimmer; Bobby Harp, a back and breaststroke specialist; Bobby Laughlin, a very brilliant sprinter and Bert Edleson who is a very good all around swimmer; Bobby Harp, a back start until Christmas, several swimmers have already won Coach Lanoue's nod of approval. Among these are: Bert Edleson who is a very good all around swimmer; Bobby Harp, a back and breaststroke specialist; Bobby Laughlin, a very brilliant sprinter and...
Tech Faces Duke at Durham In Devils' Homecoming Clash

Wallace Wade Still Seeking 200th Win; Duke's Captain Billy Cox Is Top Passer

By Gene Loven

Last Saturday's homecoming game on the Plains featured one of the nation's most brilliant passers operating from the T formation. The Commerce afternoon at Durham, North Carolina, with the Yellow Jackets, Coach Bobby Dodd's 12-year-old, will be an occasion of much excitement. Tech-homecoming day will also feature the Yellow Jackets, Coach Bobby Dodd's most successful Saturday afternoon at Durham, North Carolina.

The Yellow Jackets will be the team to meet the Yellow Jackets on the morning of Saturday, November 2, 1950. The match will be played in front of a crowd of 15,000 fans, including many from the surrounding area.

The Yellow Jackets are coming off a 24-14 win over the Florida State Seminoles last Saturday. This win put them in position for a spot in the ACC Championship game, which they are expected to win. The Yellow Jackets are currently ranked #3 in the nation and are looking to solidify their position with a strong showing against Duke.

Duke, on the other hand, is coming off a close loss to the Virginia Cavaliers last Saturday. The loss snapped their three-game winning streak and put them in a must-win situation for Saturday's game.

The match will be played at Wallace Wade Stadium, home of the Yellow Jackets. The stadium has a capacity of 50,000 fans and is known for its loud and loyal student section.

In preparation for the game, Coach Dodd has been working with his team to improve their passing game. The team has been practicing their T formation and has been working on their protected passing game.

The game will feature some of the nation's best passers, including Duke's Captain Billy Cox. Cox has been a key player for Duke this season and is looking to lead his team to victory.

The game is expected to be a close one, with both teams looking to get a conference victory. The ACC is known for its close games, and this one is no exception.

In conclusion, the Tech vs. Duke game is a must-watch for football fans. It will feature some of the nation's best passers and will be played in front of a loud and loyal student section. The game is expected to be a close one, with both teams looking to get a conference victory. Make sure to tune in and see who comes out on top.
Poetry Contest to Be Held

The National Poetry Association announces the seventh annual competition of College Students Poetry. The closing date for the submission of manuscripts by all College Students is November 5. Any student attending either junior or senior college is eligible to submit his verse. There is no limitation as to form or theme. Shorter works are preferred by the Board of Judges, because of space limitations. Each poem must be typed or printed on a separate sheet, and must bear the name and home address of the student, as well as the name of the college attended, and the college year.

Thousands of Entries

In 1949, some 21,000 manuscripts were received in the college competition from practically every college in the country. There are absolutely no fees or charges for either acceptance or submission of verse. All work will be judged on merit alone.

Manuscripts should be sent to the offices of the Association, National Poetry Assn., 3210 Selby Ave., Los Angeles 34, Calif.

Rat Court—

(Continued from page 2)

his knowledge of the school songs, which every freshman should know perfectly.

Next man on the list was David Colcord. Freshman Colcord was nervous of having missed a pop quiz, but was dismissed when he proved that his absence was due to sickness.

The two men absent, Herber Wyrkoff and Bill Weir. Having finished their business for the day, the court adjourned.

DramaTech—

(Continued from page 5)

Season memberships are now on sale at the Information desk for $1.80. All holders of these memberships will be given first choice of seats.

Several members of the cast who have never participated in a play before are showing great promise. Mary Nell Ivey, DramaTech's director has pointed out that many people would be very good on the stage but they never give their talents a chance to develop. All Tech students who feel they have some dramatic talent are urged to try out for the next production which will be given next quarter.

Tech Men Outstanding

As Carbine Marksmen

The AA ROTC Summer Camp, held at Fort George G. Meade, Maryland, disclosed Georgia Tech student to be more than proficient on the rifle range. Tech student assigned to Battery "L" which unit was the only one of the entire camp qualitying 100% of its personnel as either Experts, Sharpshooters, or Marksman, received, in addition to their service medals, a special Certificate of Award for overall standings in the competitive firing with the .30 Cal. Carbine. W. C. Jones won second highest in the entire camp and R. G. Kreiling won fifth place. These artillerymen received their awards at the final review held on the last day of camp.

As Carbine Marksmen

The Williamson rating including all games played through last Saturday places Duke in fourth place and Georgia Tech seven notches down the list.

Civils Publish Paper

Following the lead of the Industrial Engineering School, the School of Civil Engineering has published a departmental paper. The first issue, distributed earlier this week, contains news and features of interest to the civil students. Brief sketches of the new faculty members and graduating seniors were published. Notices, cartoons, and jokes made up the remainder of the paper.
