STOP DRINKING

Are You a Potential Alcoholic?

ANSWER YOURSELF THE FOLLOWING QUESTIONS

1. Do you drink because you can’t leave it alone?
2. Do you try to stop but only go so far?
3. Do you make promises and try to keep them but cannot?
4. Does alcohol relieve you when extremely nervous?
5. Do you resent your family and friends trying to help?
6. Do you feel that there is something wrong but can’t explain why you keep on drinking?
7. Does the night before leave you very nervous next day?
8. Do you find it harder to stop drinking each time you quit and start drinking again?
9. Is drinking affecting your home and business but you won’t admit it?
10. Does one drink call for another until you humiliate your family and friends by being irresponsible?
11. Do you experience mental haziness and lack of concentration after a debauch?
12. Do you begin to get nervous and irritable when you have gone a certain length of time without drinking, but get relief soon after you have had several drinks?
13. Do you know in your own mind that you are slipping?
14. Has drinking passed the playful stage with you?

If any seven of the fourteen questions above apply to you personally, you are a potential alcoholic—it is time to stop now for good, as continued use of alcohol can only lead to increased suffering.

In from seven to ten days’ treatment at the White Cross Hospital every one of the above symptoms is completely removed with no further desire or craving for alcohol in any form.

The White Cross treatment has gained the interest, respect and good will of leading business and professional men and women in Atlanta and throughout the South. Write or phone WALnut 7042 for confidential information or personal interview. Folder sent upon request.
