Sad, poor
We are deeply indebted to Milton Caniff, creator of "Terry and the Pirates" and "Steve Canyon", for judging the 1948 Blueprint beauties. In his own words... "All of your fair ladies are so beautiful and such a pleasure to look upon I found it trying, indeed, to get at the task of calling them off by the numbers."

The ATO-mic powered wreck, under the guidance of Commander Vevera, poses for its picture.
Mech and physics problems were thrust aside as once again the spirit of homecoming prevailed on the Tech campus. The various and sundry fraternities which are so much a part of the social activities of the school went all out to decorate their respective houses with such appropriate slogans as "All bowls will shine come November 29" and "Weeping Wally will wail today"—which added much to the local color and enthusiasm of the students and faculty. Alumni returned to witness the efforts of a great Tech team stomp the Georgia Bulldogs 7 to 0.

A parade of Ramblin' Reeks toured the campus with the judges keeping a wary eye peeled. The novel and imaginative decorations were as usual nightmares dreamed up after a rough night at Duffys. The competition was close with Sigma Chi topping first honors.

In all it was typical of the great and glorious school spirit that the students feel for their Alma Mater—the spirit which has helped make Tech the school it is today.

That night a stimulating and riproaring shindig was sponsored by the Bulldog Club which featured the Auburn Knights, one of the outstanding college bands of the South. During intermission Anak tapped five prominent seniors for one of the highest honors at Tech. The auditorium was crowded to capacity by a gleeful crowd who had watched its team cheered to victory that afternoon. It was the culmination of another momentous day for the student body.
TOP, LEFT TO RIGHT: The SAE wreck of Bulldog Stew . . . Here's the Beta wreck in slow motion . . . The huddle before the Georgia game . . .
