Invitation to Students

The faculty and student body of Georgia Tech have been invited to attend the colorful graduation ceremonies of The Evangeline Booth Training College. The school is sponsored by the Salvation Army with the purpose of training personnel for SA work. Following is an excerpt from the letter received by President Van Leer:

Mr. Blake R. Van Leer, President
Georgia Institute of Technology
Atlanta, Georgia

Dear Mr. Van Leer:

I would like to bring to your attention two very interesting meetings that are to take place in The Baptist Tabernacle on Monday, June 4th at 3:00 P.M. and 7:30 P.M. The meetings are the graduation exercises of our College and I feel sure that you and your young students with whom you are connected in such matters, young people have given themselves entirely for the purpose of preaching the gospel and taking up the various aspects of Salvation Army work in this country.

With you will be colorful and preceding the evening service, there will be a pageant and music singing. Therefore, I wondered if you would be gracious enough to let them know we shall be delighted to see any of them at this special graduation meeting.

Sincerely yours,
William R. Rich, S/Major
Training Principal

Sanford Grass Display Reveals Tech Ingenuity

By Anonymus

Those who attend tomorrow’s meeting at Sanford Stadium will witness many impressing sights. The stands will be covered with a carpet of color that will set a new record for beauty and precision timing. The players will be in top condition and will be greeted by the fans who have been waiting eagerly.

The setting of the stadium will be a true masterpiece of organization and execution. The fans will be greeted at the gates by salvationists with literature. The stadium will be transformed into a gridiron. The fans who have keenly anticipated this event will be pleasantly surprised by the display.

The outstanding part of the whole display is the “G” which is the letter which will be indelible, for nothing would ever be able to wipe it out. The “G” was the letter which was chosen to represent the Tech proud history.

Attention Seniors

Invitations will be handed out for the last time Wednesday, May 30, at the Information Desk in the Administration building from 12-2 p.m. to Seniors and Alumni.

Also, if you have not paid for your wife’s diploma, please do so at this time. All diplomas that are not paid for by 3 p.m. Wednesday will be returned to the printer.

John Hammond
Secretary-Treasurer, Class of ’51

Student Draft Program Established by Bulletin

Graduating Seniors

Colonel and Mrs. Blake R. Van Leer will hold a tea at the President’s Home, 292 Twelfth Street, N.W., on Sunday afternoon, June 10, three to four-thirty o’clock, honoring the graduating class. All seniors and graduate students, who are graduating this June, are invited to attend. They will bring their wives, dates, parents and families.

YMCA Roswell Camp Receives $6000 Gift

From Publications

By Ed Epstein

On April 11, 1951, the Georgia Tech YMCA Camp Committee presented a request for funds to the Tech Board of Governors. The Board was also informed that a grant of $6000 is necessary to help the construction of a dam and lake on the site of the YMCA Camp. The Board approved this request.

The outstanding part of the whole display is the “G” which is the letter which will be indelible, for nothing would ever be able to wipe it out. The “G” was the letter which was chosen to represent the Tech proud history.

Inductions to Be Postponed For a Period of 30 Days

The director of the Selective Service System today released to Local Boards, Operations Bulletin No. 35 which establishes procedures for placing the student deferment program into effect. The Operations Bulletin is in furnishing answers to many questions asked by students concerning their Selective Service status until such time as Local Boards receive information on class standing and/or test grades.

1. Sections 1622.10 and 1622.10a of the Selective Service Regulations prescribe the new criteria which local boards will consider in determining whether or not a student is eligible for a classification in Class II-A (S).

2. In order to afford students, who may be considered for deferment under the new criteria, the opportunity to take the required boards with the necessary evidence of their scholastic standing or their test scores in the college qualification test, the issuance of an order to report for induction, or the induction of any such student is hereby postponed pending receipt of such information but not later than August 29, 1951.

3. Upon receipt of the necessary evidence of scholastic standing or test scores attained in the college qualification test indicating satisfactory fulfillment of the criteria set forth in section 1622.10a of the Selective Service Regulations, local boards shall be notified to that effect at this time.

Young Photographers Contest Announced by Life Magazine

A contest for young photographers with cash awards of $15,000 was announced today by the Life Magazine, with a deadline for entries of September 15, 1951. Full details of the contest will be found in the May 21 issue of Life.

"Life is undertaking this contest for young photographers with cash awards of $15,000," Thompson said. "We believe that a lot of new talent has been developing since the war and we want to find out about it."

The contest is open to all residents of the U.S., its territories or possessions, and members of the U.S. armed forces on active duty anywhere.

Contestants must not be more than 30 years old, their 31st birthday not falling before January 1, 1952. There will be two prize divisions in Life Contest for Young Photographers—one for individual photographers and one for picture stories, the latter requiring the cooperation of at least two photographers to the attention of the public," Thompson said. "We believe that a lot of new talent has been developing since the war and we want to find out about it."

**Michigan State Coeds Raid Dorms To Give "Most Manly Chest" Plaque**

By John Abner

In this modern world there is little time for thoughtful composition and ponderous reflection. The following check list is designed especially for undergraduate students who are bewildered, harried students who isn't able to find time to study. It may be easily clipped out and inserted in the exam blue book.

1. Get ready
2. Get breakfast
3. Go to class
4. Study
5. Eat lunch
6. Go to class
7. Eat dinner
8. Go to class
9. Take the exam
10. Give up

We, the undersigned students of Georgia Tech, feeling that a grave injustice has been done to our fellow student, hereby state our views of the case. We believe that a student has the right to know the facts of his case, and that he should be given the opportunity to present his case to the Student Trial Board.

The student in question, though guilty of the same offense as his companion, has not been punished. The offense that this student committed is a very minor one and does not warrant more punishment than the awarding of two offenses as recommended by the Student Trial Board.

It is a serious thing to deprive a student of an education which he may justly deserve and seek because of one, in our opinions, minor infraction of the rules of the school. The fact in question lost his means of attending college, his right to attend college, and his chance to participate in a sport in which he may have been outstanding in the field of chemistry. This was taken from the Doctor's thesis of a very able student, of the title A Chemical Analysis of Women. Symbol: Woe. (In greek, whoa)

Sincerely yours,

...disproving action taken by Executive Committee.

Lanoue Runs Treading Tests

By Wilfred Smith

Last Sunday about 65 persons tried to spend the day in the Tech pool. The reason for all of these people spending a pretty Sunday in the indoor pool was to test a person who can stay afloat under most any conditions. There were 57 persons in divided into three groups as follows: 29 treading with nothing tied, 17 treading with legs tied, and 11 treading with hands tied.

Of these 57 starters there was only 6 with nothing tied, 6 with legs tied, and 4 with hands tied that finished the full eight hours of the test. This figures out to be about 28% of the ones that started that finished the complete time. The other 72% that came out after staying in the pool for an hour or more withdrew for many various reasons. Ten to eleven persons that came out had caught a cramp and others became chilled, dizzy, or just plainly "popped out."

The time that the treading test was being conducted there were three persons who were just swimming for distance. These three swam a combined distance of almost 25 miles during the eight hour period. One of these, Coach Lanoue's daughter, Susan, was only nine years old and she finished the complete time. One of the other persons who were just swimming for distance. These three swam a combined distance of almost 25 miles during the eight hour period. According to all available data, the test was the first of this type ever to be conducted over such a long period of time. According to Coach Freddy Lanoue, the primary purpose of this test was to test if the Tech P.T. swimming course teaches a non-swimmer to be able to stay afloat for a long period of time.

In this respect the test was a very large success since the larger portion of the swimmers that lasted over five hours were the poorer swimmers. Perhaps the outstanding part of the test from the standpoint of the two girls that stayed in the water the complete time. One of these, Coach Lanoue's daughter, Susan, was only nine years old and she finished the complete time. One of the other persons who were just swimming for distance. Newman Club to Meet Chi Phi For Intramural Softball Crown

The Newman Club's heavy bats pounded Tex Morris and Dick Dutton for 16 blows Saturday as the Newmanites blasted Smith Dorm 6-0 and thereby captured their second consecutive Independent softball championship.

Bill Nicolini, outstanding Newman athlete from Tom's River, N. J., hold Smith to 4 safeties. One of the hits was a circuit clout by Privlowski with two mates aboard in the fifth. Tom Krater wallhopped a round tripper to open the Newman half of the same frame.

The pair of Smith twirlers faced 41 Newman Club batters, while pitcher Nicolini met only 27 opposing batters. The Smith nine committed five errors while the winning aggregation bobbled four.

Chi Phi won the fraternity softball crown by edging SPE 5-3 as Charlie Perkins pitched brilliantly to take his third win in the playoffs. Tobin, Truit, Fritts Ennorfling and Davis were the standouts for the victors.

Stetina, pitcher for SPE, hit a tremendous home run in a futile effort.

ATO defeated Theta Xi 4-1 as Bob Sharp again turned in a fine performance.

Senior Rings

Class ring orders will be taken again May 31 through June 2. Third quarter juniors or higher may, with a deposit of five dollars, order their ring.
