PLANS MADE FOR BLUE RIDGE CONFERENCE

THE SOUTHERN STUDENT CONFERENCE

NEW STUDENT COUNCIL MEMBERS ARE ANNONCED

Wagner Is Only Old Member Re-elected

As a result of Tuesday and Wednesday's election, the following men have been chosen as student council representatives:

Jalor: Charles Wagner, Harry Winer, R. H. Benken, Benjamin sulmores; Williams Peteron, E. H. Mansfield.

The new council will consist of practically all new members. O. C. W. Magill will be acting as the only present member re-elected.

Tech Ralated Excellent By Military Inspectors

As an aftermath of the recent inspection undergone by the Georgia Tech Military Department, there is a great deal of interest in the inspection over every particular of the inspection. The inspection is quoted from the "Conclusions and Recommendations" of the President of the Inspecting Board:

"Military inspection at this institution is expert in every respect. The splendid cockpit material in this institution would suggest a much higher class in this work. (In the number allowed by the War Department to take Advanced Military.)"

The inspection covered a general inspection of formations, field work, General Military Time and Serenity. "Handbook and Conduct of Officers, General Military Time and Serenades..." (O. C. W. Magill) is on and off the Campus at all times and examination will be made off campus.

"Military inspection at this institution is expert in every respect. The splendid cockpit material in this institution would suggest a much higher class in this work. (In the number allowed by the War Department to take Advanced Military.)"

Cosmopolitan Club Is Entertained by Rotarians

The head chapter of the Cosmopolitan Club enjoyed a dinner on April 21st at the Capitol Club catered by the Rotarians.

A program, strictly made up by the foreign students attending, was eagerly carried out. Emily Jordan, Omicron Sorority, and Georgia Tech had part in the program. The Societies of Tech gave a select number of songs in Spanish. Kenneth Nahas, secretary of the local club, gave a talk on the international sympathy of the foreign students.

"Several of the foreign students were also present." A delightful evening was spent according to the program.

Blue Print to Make Its Appearance by May 26

Another edition of Georgia Tech's best year book, the Blue Print, will make its appearance on the campus, or about May 26th. The bluebook has been sent in the printers and returned. At the present time the Killic- meyer, Fred, Stevenson, and Benken are carefully scanning the proof for possible mistakes, misprints, misplacements and the other side-steps that proof serves the purpose of correcting.

This year's annual will be quite sure to roll up with last year's—the one that brought Tech the big three foot high silver cup for being the highest the 1000 college annual in the United States. Moreover, it is certain that Mr. Stevenson and his staff have done good job and have a real masterpiece.

A college year book is a treasure to the intercollegiate community. As the book becomes more and more treasured, and the outside world becomes interested in the Blue Print has gained in recent years only to prove itself more valuable.

Many Tech Students Will Attend

The conference will attract many Tech students and old comrades there. Dr. Geo. Bland, chairman of the Inter- al Hunstons, will give good ac- knowledgement to her help. The Blue Print has gained in recent years only to prove itself more valuable.

MOTHER'S DAY BREAKFAST

To Be Given at "Y"

Mother's Day Breakfast will be held in the entire program from 8:15 until 9:15 a.m. The special Mother's Day Breakfast to be held May 10 at the Georgia Tech Dining Hall from 8:15 to 9:15 on a very pleasurable one. Music is to be provided throughout the entire program.

A special Mother's Day Breakfast to be held May 10 at the Georgia Tech Dining Hall from 8:15 to 9:15 will be organized by a few women.

CONFERENCE ATTRACTIONS

GROUP OF STUDENT LEADERS

"Y" Cabinet Officers for Next Year Are Announced

The officers of the Tech Y. M. C. A. Cabinet recently elected by the student body were brought to hold office during the coming year, 1931-32, are: President, Howard Mitchell; First Vice-President, George Breithaupt; Second Vice-President, W. C. White.

The Cabinet itself will be composed of all the last year's members who were in the cabinet of 1930-31.

Dr. Poteat's forthcoming lecture tour will be held May 10 at the Georgia Tech Dining Hall from 8:15 to 9:15 a.m.

"Y" Cabinet Officers for Next Year Are Announced

The officers of the Tech Y. M. C. A. Cabinet recently elected by the student body were brought to hold office during the coming year, 1931-32, are: President, Howard Mitchell; First Vice-President, George Breithaupt; Second Vice-President, W. C. White.

The Cabinet itself will be composed of all the last year's members who were in the cabinet of 1930-31.

Dr. Poteat's forthcoming lecture tour will be held May 10 at the Georgia Tech Dining Hall from 8:15 to 9:15 a.m. Many Tech Students will attend.

The conference will include such colorful speakers and leaders as Dr. E. M. Poteat, of the Southern Student Conference, who will lead the Personal Adjustment period; Dr. George Bland, of the Assembly, who will present the personality and emotional adjustment period; and Reverend E. McClain Foster, of the Pulmon Memorial Church in Raleigh, who presented his ability as a speaker by his dynamic personality and eloquent delivery some months ago at Tech.

The list of leaders and speakers further includes Reverend George Haverty, Dr. Charles E. H. Halsted, Dean F. W. Snow, President of the American Association for the Education of Foreign Students and a number of Tech men, who are to hold office during the coming year, 1931-32, are: President, Howard Mitchell; First Vice-President, George Breithaupt; Second Vice-President, W. C. White.

The Cabinet itself will be composed of all the last year's members who were in the cabinet of 1930-31.

Dr. Poteat's forthcoming lecture tour will be held May 10 at the Georgia Tech Dining Hall from 8:15 to 9:15 a.m. Many Tech Students will attend.

Mother's Day Breakfast will be held in the Georgia Tech Dining Hall from 8:15 to 9:15 under the auspices of the Tech Y. M. C. A. Decoration, a special breakfast, and an interesting program are among the events which will make this the most popular Mother's Day Breakfast.

A special Mother's Day Breakfast to be held May 10 at the Georgia Tech Dining Hall from 8:15 to 9:15 will be organized by a few women.

Several amphibian planes were exhibited, ranging in size from the Irate to the Futuro."
THOUGHTS ON BLUE RIDGE

By DEAN FLOYD FIELD

The thought of the blue ridge mountain ranges that lie between the states of Virginia and North Carolina has been uppermost in the mind of many Georgia Tech students since they have been on campus for a few weeks. It is the mountain range that lies at the head of the Blue Ridge business department, and it has been the subject of many discussions among the students.

The blue ridge mountains are known for their beauty and their wildness. They are a place where one can find solitude and peace.

The blue ridge mountains are also known for their wildlife. There are many different species of animals that can be found in the area, including deer, elk, and bear.

The blue ridge mountains are also known for their scenery. The mountains are covered in forests, and the valleys are filled with rivers and streams.

The blue ridge mountains are also known for their history. The area was once a place where the Cherokee Indians lived, and there are many different sites that can be visited to learn about their culture.

The blue ridge mountains are also known for their activities. There are many different ways to explore the area, including hiking, backpacking, and camping.

In conclusion, the blue ridge mountains are a wonderful place to visit. They are beautiful, wild, and充满历史遗迹。
the spacious floor

Again, the petroleum engineering output has been healthy. We are informed that the vogue started by one of the insurance editors last year has been carried out again this year and that the trend toward Europe or any other large market has been reinforced with capital and resources. We wonder if this is continuous or just

The Petroleum Field is now history. The oil of the plains and the oil of the sea is flowing. The oil is being used and handled as the number of wells continues to increase. We have seen a few more warrants issued and a few more warrants sold to the owners of the wells. The trend is all over the map.

The expanding market of the B.A. University has been returned to the winners' circle. We are pleased to see the growth of the university. However, it should be noted that the number of students has increased and the enrollment has expanded. We are happy that the university is doing well and that the future looks bright.

The university, however, is still in the process of expanding. It is a big step forward in the beautification of the campus. The Academic Building is serving as the focal point for the intellectual and social activities of the university. The Student Council has done a fine job and has had a long time on the campus. The university has been considered rather successful. Here's hoping that the university continues to flourish.

The university should have known better than to try to do too much at the same time. The university has had radio announcers since 1930. We wonder whether the universities are simultaneously stating:

"We are now about to broadcast the correct time, through the courtesy of the Wiltch Watch Co., and when the song womans, it will be exactly 5 P.M., D. R. S. T. And don't forget Dumpster junk, won't hurt her or Bous or Fords."

"Now the student may be on time for class or meet up with friends."

"The campus has become a very special place, being about 1/3 million long and 3/4 wide."

Cincinnati itself possesses one of the most diversified industrial centers in the United States. Hundreds of large manufacturing concerns are located here. To enumerate the hundreds or thousands of large concerns would take space that is quite prohibitive, some of them are:

1. The Timken Wheel & Axle Co., which manufactures ball and roller bearings.
2. The Goodyear Tire & Rubber Co., which produces tires and tubes.
3. The Proctor & Gamble Co., which produces a wide range of consumer goods.
4. The Union Carbide Corp., which produces chemicals and plastics.

The university is proud to have such a diverse industry. This diversity provides a wide range of opportunities for students and graduates. It is a source of pride for the university and the city of Cincinnati.

In the near future, the university will celebrate its 100th anniversary. This is an opportunity to reflect on the past and look forward to the future. The university has come a long way since its founding. It has grown and changed, and it continues to do so.

The university is committed to providing a quality education to its students. It is dedicated to preparing its students for success in their chosen fields. The university is proud of its tradition of excellence and will continue to strive for greatness.

The university is a source of pride for the city of Cincinnati and the state of Ohio. It is a testament to the commitment of its founders and the generations that have followed. The university is a vibrant community that is full of life.

The university is proud to have produced many successful graduates. They have gone on to make a difference in their communities and the world. The university is proud of its alumni and will continue to support them in their endeavors.

Tennis Team Preps for Conference Tournament

The Tech netters have just about come to the end of their season. There will be no more individual inter-collegiate matches, but there is one big event left to climax the season—The Southern Conference Tournament. The team will have about five weekends for New Orleans where the tournament is to be held. Everybody joins in wishing them good luck.

In the last three matches that Tech has played, the Jackets have taken one and lost two. Tech defeated the University of the South three and two. During the same week Florida took a fire to win over Tech and Kentucky took the Jackets down for a tally of five and two.

The netmen have just about finished their season. The Tech netmen will have had two weeks of uninterrupted practice by the time the Southern Conference tournament starts and they should make a good showing.

Frost Mermen Finish Season by Sinking Tech High

Fraternity Baseball Is Drawing Interest of Athletic Greeks

Practice on Campus for Last Few Weeks

Springtime, when a Greek's thoughts naturally turn to winning, is here, and it obviously the Panhellenic Association's big event out of the annual Panhellenic baseball contest on all the unaffiliated campuses.

But the Greeks are not so innocent and unthinking as they appear to be. With such important problems on the dissented, the various teams have been putting plenty of time towards polishing off the rough edges of their line-up and with the opening of the games the contesting off will come to a remarkable show of ability along that line.

The Phi Delta Thetians, who have been practicing bitterly are showing their finest form, and the Delta Rigantes are also in fine shape.

Varsity, Frosh Lacrosse Teams Meet Georgia

Both the Frosh and Varsity Loosie teams leave here Monday for a precocious series with the Geor-
dia Bulldogs in Athens. The first games will be played this afternoon and the second tomorrow.

Both Froshmen and Varsity squads are extremely anxious to make a come back from the overwhelming defeat they suffered at the hands of Georgia in the pool at the At-
talia Hellenic baseball contest on all the unaffiliated campuses. Wary of each other's proficiency on the dissented, the various teams have been putting plenty of time towards polishing off the rough edges of their line-up and with the opening of the games the contesting off will come to a remarkable show of ability along that line.

Making It Work and Making It Sell

Jacket Trackmen Invade Auburn Tiger Tomorrow

Coach Ed Hamm's tracksters invade the "broadest campus" tomorrow where they will encounter William's星期 Tiger Tracksters.

This contest will offer the stiffest opposition that the Jackets have faced since they took the invincible Georgia Tech's tally four weeks ago.

But the Greeks are not so innocent and unthinking as they appear to be. With such important problems on the dissented, the various teams have been putting plenty of time towards polishing off the rough edges of their line-up and with the opening of the games the contesting off will come to a remarkable show of ability along that line.

Coach Hamm's men turned in a brilliant perfor-
mance by hitting every point scored, if the Jackets will be able to overcome the momentum of their early meet. Georgia started off with a rush by sweeping first, second, and third places in the 100 yard dash, and almost repeated this winning streak in the 200 yard dash. There the Jackets settled down and began their devastating attack in all three places in the quarter mile and the half mile pot to forge ahead. From then on the meet was a matter of affable from then on with the contests entailing not the fastest men, but the real issue. The Jackets proved to be the faster men, however, and scored 126 points to Georgia's 61. Asbury in the mile run, Cain in the two mile, and Baker in the shot put. Owen, of Georgia, was the high scorer for the Jackets. However, the Jackets' two point spread over Georgia was due to the tourney's design, for a score of 7-6 though they showed much
more power in the field, for the remaining eighteen events.

The second game of the series turned out to be a pitching duel between Spur-
chambers, Georgia's number one, and Asbury in the mile, with the former Assuming at a somewhat lower rate. Both pitchers threw the full nine innings of the game, but it was the second game which came out to be the more important of the two, as the Jackets made six strikes facing the game, the Bulldogs laid only one error chaffed against them.

The annual inter-fraternity track meet will be held at Tech tomorrow afternoon at 2:30 o'clock. Practically all events held in the inter-collegiate competition will be included and a plaque will be presented to the winning fraternity. Much interest is expected in the competitions throughout the fraternity and some real con-
The Farmer, by getting five kiss out of five attempts at Tech, put the outstanding star for Tech, in the first game, while Mal_and, by hitting in three Jacket runners, proved to be the hero of the second game.

The story is around that every year, all students will have a physical examination before entering school. While there is no guarantee that this student is in the right manner. From what we have heard, one of the medical plants has a red rate for just acquiring this student. It is because the student cannot be examined if there is anything worse than not among them when you think is offered, it is having one of which you are not aware.

The physical exams, however, from the parents to be very interesting and very few undergoing them is because many times there is anything worse than not being aware of such when you think is offered, it is having one of which you are not aware.

CHATTER

GIVING, GIVING (we admit) in such a way is not for the unbusiness into an improved physical program at Tech. Most of the large schools have such free services and we possibly in the near future may join their ranks.

Some appear to be in the thousands of such Modern schools on the spacious Tech campus on leading this column from the morning to the afternoon.

There still is a possibility that the student may be fine, but not the worst, and not the best.

We hope the students may be set aside for the student to be free for new students to be free for all classes, because they aren't. Cool. Oh, well, no school will live by itself.

And still we don't know why it is not for the unbusiness into an improved physical program at Tech. Most of the large schools have such free services and we possibly in the near future may join their ranks.

**Alpha kappa Psi will hold steak Fry tomorrow**

The Tech chapter of Alpha Kappa Psi, professional Commercial Fraternity, held its regular meeting and dinner at noon Tuesday, May 9, beginning about 4:30 P. M.

Other than the usual business, plans were made to initiate the new men next May 17th. The chapter will entertain guests. A socially correct address. Opposite home. Excellent food. Pent House, site Gramercy Park. References required.

**Georgia School of Technology**

"A Technical School With a National Reputation"

The Georgia school of technology offers to young men of ability and ambition a training which will fit them for positions of responsibility and power.

The national reputation of this institution is based not on claims, but on results. Its greatest assets is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Courses in Civil, Electrical, Mechanical, Textile, General, Ceramic, Chemical, and Aeronautical Engineering, Architecture, Commerce and General Science.
