Anak Society Roster Reannounced As
School Opens

At the close of the past school year Anak Society made announcement of the election to membership of five mem-
bers. Those who were honored by being tapped for the senior society were Earle Dunlap, Norman Carter, Fleming Cooper, Vance Maree and Steve Brocko. Other Anaks who are back of school this year—Earl Haun, Hobey Law, and Red Terrell—bring the total membership of the society to eight.

Earle Dunlap, a Beta Theta Pi, is known in all who are even remotely connected with Tech. Variety quarter-
back for two years he carries with him some honors. Last year, president of the Senior Class and a member of the Interfraternity Council, the Interfraternity Coun-
cil, O. D. K., Bull Dogs, Koseme, Skull and Key, the Cotillion Club, and many other honorary organizations. His abili-
ties as an athlete are unchallenged as his thriftiness is known to all who are even remotely connected with Tech.

WELCOME

Home of Guggenheim School of Aeronautics

New Building Appears on Campus

With construction on the new Aeronau-
tical building well completed, the Guggenheim School of Aero-
fastics assumes a concrete form on the enlarge-
ing of the center is at Tech this fall.

This addition to Tech's newer Engi-
nautical College style buildings design-
ated by Professors Bush-Brown, Chief
of the department of Architects, will reach completion about Oc-

ober 15, but will not be fully

equipped to house the classes until the beginning of the next academic season in

February. The cost of the edifice alone is estimated at $800,000.

Among other equipment to be install-
ed in the building will be a regulation

fifteen foot propeller fan will circulate air at a hundred mile an hour speed.

The banquet is to be held at the Y. M. C. A., Monday, Sep-
tember 22, at seven o'clock. All Junior and Seniors on the staff are asked to be present.

Notice

The Yellow Jacket Staff will meet in the offices on the main floor, T. M. C. A., Monday, Sep-

The rules of the Interfraternity council in effect this year concerning rushing follow those of last year.

A—Pledge—

1. No social fraternity or affiliated matricu-

lum shall enter Georgia Tech pledged in any fraternity or other social organization or group, not approved by the Tech campus. Georgia Tech has been pledged in no other way, or at any time, for a period of twelve days. A full list of candidates for the ensuing year will be furnished the Tech students when the Student Council is organized. A full list of candidates for the ensuing year will be furnished the Tech students when the Student Council is organized.

FRATERNITY RUSHING, Running Twelve Days, Ends Sat., Sept. 27

Fraternity rushing which began on the campus Tuesday of this week will continue until Sunday, September 27, 1 P. M. From then until the following Sunday noon it will be a quiet period so that the freshmen make their choice of fraternities, at the expiration of which time the freshman is to go to the house of his choice alone. The rules of the Interfraternity council in effect this year concerning rushing follow those of last year.

These rules are as follows:

Why An Editorial Page?

What a destructive thing that little intervention can be. The machinery of democracy is so complex, so vast, so subject to sudden and wild gusts of public opinion and public will, that there is perhaps no other place where a little tolerance seems as badly needed.

Yet we should not let our fears and yet we find ourselves as we approach this task feeling that several very grave errors may prove difficult to make this page interesting to the student body.

It is true that we would find among the readers of the editorial pages of our larger daily newspapers, among influential members of society, that question creeps in as to what can be done to make this section of the school paper to make it interesting to the student body.

The Starting Whistle

When the whistle blew for the first time during the match between Tech and Southern, we had been clattering mill-gear still. Their pictures quivered. Their eyes on the lawn. Before the first whistle, they were very, very, like race horses trained and ready. They are able to forget the temptations in writing, to bring the big game—the first of every year and refunded at a certain September in a certain year.

That's why we get up early in the morning, that's why we get up in the heat of the sun, that's why we get up in the heat of the sun, that's why we get up in the heat of the sun, that's why we get up in the heat of the sun, that's why we get up in the heat of the sun.

The day, in fact, when he starts on the ball and Coach Aleck and Company rush milk this year.

The need for the column will prove interesting to all Tech men.

Editor's Note: Peter will endeavor to bring the column to a high point of the styles, activities and traditions of other college campuses, gathering phrasings of fun and of interest into the Tech men. Much of the success of the column depends upon the cooperation of the other colleges. We are really unable to say what they will expect and that the column will prove interesting to all Tech men.

The Starting Whistle

The Modern Hackes is generally on certain with the first number of her memoirs with the modest statement that she would not ask anyone to entertain her at home if she was not writing for Tech men.

The Starting Whistle

Dear Ma:

Well, Ma, here we are again at Tech. Handily yes to see the boys again, that in all that were fortunate enough to meet. The sophomore class is still only a mere skirriff of the freshman class. It is the cream of the family that are missing this year. So do miss them—seems that members of the family have gone. Say what you please, but after associating with the "polite" of that I did last year, especially my fraternity brothers, a lamp comes to my tossing when I think of the fact that I may never see any of these again.

The campus is a maze of yellow cups. Ma, I don't know that I was physically possible for persons to exist without it and still be as dumb. Notice that the score reads me a lack. I suppose that it was putting it mild compared to last year. Sure was good to get the reception that most of the boys received this year. Quite a contrast from the one last year living with a bunch for a year surely does make a lot of difference.

I sure am looking forward with much anxiety to the rat courts this year never have I believed the saying more that "It is not the dogs we hate, but the ones that bite them" than do I this year. The fact that we established in my town "that a candle in the hand is better than several elsewhere" and then too, there are so many distinctive features. The fraternities are quite busy, meeting in their houses in shape, polishing up on their various routines so that the last year's handicap—or man hunt, or what have you?

Most of last year's club went west in Europe—the Atlanta girls who went away at school come. What a picture of the young men made on the Atlanta girls of Africa could not have been like the boys. She will never forget the real girls of Atlanta. I am sure that they will have changed a lot. The college girls are practically all gone to their various schools and the SV's at the Seminary are sifting with a bit of relief now that they have taken their turn at the chop. They are doing away the old system of how to be a social success and raising a few at the college set. It won't be long before they will again reform society. More about that later.

Ma, while the boys were away from home (Continued on page 6, column 2)

Knight Heads

(Continued from page 1, column 2) also being based upon aeronautical research, such as in progress in the various governmental aeronautical laboratories. In either case, however, the board is in the position to give the student an undergraduate training, if the fundamentals of outline. It is in the project of the present year, let alone the work of actual, that the college class will be able to overcome whatever difficulties which he may have. It is true that this is a national facility for students to be able to overcome whatever handicaps he may have. SPORTS

Jackets End Third Week of Practice

Jackets Have Great Pair of Tackles

Kene Rocke said something about “give me two good tackles and you’ve got fifty per cent of a football team.” A little skeptical about such things. Anyway we hope he is because they are playing like the tenue of the game. They are ready to step onto the field for the great parade before cheery and cheering throngs. They will be out Saturday to show all before company.

All over the country they have been playing through their drab for three weeks. Now they have published their movements to the point where a sensation has been achieved. Backfields have been taught to work in a unit and backs to carry the ball correctly, to side-step, to stiff-arm, to kick, to punt and to pass, and to block and tackle.

Linebackers have been taught to charge and to resist charges, to block and tackle and to run interference.

Tennessee Is Conference Favorite

Vandy and Georgia Also Favored

VOLS HAVE VETERAN ELEVEN

Tennessee, Georgia, and Vanderbilt look like the best of the lot among the Southern Conference eleven right now. Alabama and North Carolina will give somebody plenty of trouble, but they can hardly be classed as championship material.

Of the three teams named above, Tennessee looks like the one to watch the season unfold. For the last two seasons the Vol schedule has not featured any team that has scored more than 16 points this season. Even with their strong efforts against Notre Dame, the Volunteers have scored only 5 points against the Fighting Irish institution accorded its usual interest of football followers with the majority of other major western institutions, including Notre Dame, obstacles and the Western conference hold the interest of football followers with the wealth of reserve strength.

It'll be interesting to keep your eye on the line all three of them anyway.

GA. TECH STUDENT SUPPLY

Georgia School of Technology

"A Technical School With a National Reputation"

The Georgia School of Technology offers to young men of ability and ambition a training which will fit them for positions of responsibility and power.

The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Courses in Civil, Electrical, Mechanical, Textile, General, and Ceramic Engineering, in addition to Scientific Preparation.

Coast Artillery, Signal Corps, Air Service, Infantry, and Ordnance Units of the R. O. T. C.

For Further Information Address THE REGISTRAR GEORGIA SCHOOL OF TECHNOLOGY ATLANTA, GA.
Fraternity Rushing

(Continued from page 2, column 3) on the Georgia Tech campus shall have his pledge automatically broken upon notice.

2. A fraternity pledge is a registered student of Georgia Tech who has signed his full name to a Fraternity Rush Week card declaring his acceptance of the offer of membership in any fraternity made by him. A fraternity pledge shall be accompanied by two members as witnesses.

3. Immediately upon signing such statement, the pledge shall be given a pledge button which he must wear at all time, coat or shirt of attire (where usually observed) until his name appears on the published list.

B—Busted Pledge

1. If a pledge is broken, written report with date of such action must be made to the Council by the fraternity representative at the next busi- ness meeting. Such broken pledges shall not be eligible for pledge to another fraternity for a period of three months after report is given to the Council. (Penalty for such re- plying $10.)

2. No fraternity shall talk fraternity matters with any man wearing the pledge button of another fraternity or whose name has been posted on the public list.

C—Rushing

1. At noon on the Sunday following rush week, each man who has received a bid will go to the house of his choice and he must be in the house of his choice on that Sunday. (Penalty, $10.)

2. Any student who has completed rush shall immediately become a miniature golf course for those who desire to play. (Penalty, $5.)

3. Students who enter Georgia Tech at any time must immediately become eligible for rushing or pledging.

4. The following rules are given in the actions of all fraternities during rush week:

a. All pledges to fraternities on the Tech campus shall be automatically broken upon notice.

b. Rushing season to begin the Tuesday after the closing date of all fraternity chapters and shall end two weeks later.

5. At the dinner of closing the most desirable of the crop of members of Alpha Sig in the lapel of the best rush week yet. The Alpha Sig's are looking for- ward to the best rush week yet. The other fraternities had better wake up or they will awake and find the Georgia Tech Sigma Sig in the lapel of the most desirable of the crop.

The football team used to look good this year with the return of the line, the eligibility of Barrow and the shifting of Sid Williams to the fullback position. The guards from the four broken are entirely new for the fall, and the Geo. Tech eleven are sure that you and I will see much better this fall than you fellas enough to attend any of them. Your Son,

PETE.
