Registration of Regular Students Completed As Classes Begin

All States In Union Represented By Scholastic Average

Registration of regular students for Georgia Tech has been completed with the enrollment totalling slightly more than two thousand three hundred un­dergraduates. By classes, there are nine hundred seniors, six hundred sophomores, three hundred juniors, and four hundred seniors. Cooperative stu­dents will register early next month since they expected that approximately seven hundred will enroll. The entire regis­tration of regular and cooperative students will be more than three thousand, a new high in the school's history of Tech. Not only in every state in the United States represented at Georgia Tech, but also several states, with undergraduates from Mexico, Canada, Cuba, Puerto Rico, Panama, Germany, and Austria.

In accordance with the usual tech­nical courses that are offered at Tech and the excellent faculty to teach them, Georgia Tech has a high reputation as one of the foremost colleges in the country. Cooperative programs have been so rapid in the last decade that applications have had to be rejected.

Tech Begins Year With Enrollment Far Above Average

New Instructors Added to Faculty

Last Monday Tech began its fifty­fourth academic year. In order to meet the student interest, there has also been an increase in the per­sonnel of the faculty.

Professor Asdil Schiltz, recently connected with the new Dahan in College of Architecture, has joined the department. This new department will be under the direction of the depart­ment of architecture, and will be one of the finest in the country.

Faculty Members

The following additions have also been made to the faculty:

Commander George Tech Y.M.C.A. Secretary

All Tech students who have not al­ready done so, should take advantage of the first opportunity to meet Chap­lin Commander, the new secretary of the Y. M. C. A. Chaplin has just taken over the post held so long by the past secretary, Walker McNeil.

Commander was born in Florence, South Carolina, where he attended the Florence High School. After gradu­ating from high school, he entered in the College where he received his Bachelor of Chemistry degree. Upon receiving his degree there he went to the Yale School of Divinity where he was graduated in 1939.

Before coming to Tech on Sep­tember 1, Charlie was stationed at V. P. I. and the New York University. Since being at Tech, he has been a member of the Y. M. C. A. since 1929.

I wonder what you and I would have said and thought about Galileo and his revolutionary beliefs in regard to the nature of the universe had we been living in his time. I am afraid we would have joined the throng in saying, "It cannot be true; I have never heard of it before." I do not believe we know the feeling that says, "I'll get this before somebody else does," that makes you think of individuals as merely means for accomplishing your own desires. I do not believe we understand the principle of the nobility of labor. You have been told that you must work hard here, and that, in order to be a "good citizen" and an "American," you must belong to the army or the navy. We have forgotten these principles and a good many others.

Let's Get Started Early!

In order to continue its policy of providing a forum for all Georgia Tech students, the Student Council recently appointed the following officers: Mr. Edward Butler, President; Dr. John C. O'Hara, Vice-President; Dr. H. T. Long, Secretary; John R. Smith, Treasurer. Other members of the council are: Mr. T. E. Stewart, Mr. W. H. D. Powers, Mr. E. D. Powers, Mr. J. R. C. Clark, and Mr. W. H. C. Thompson.

In conclusion, I should like to say: "Let's get started. Let's do our best! Let's be better than our predecessors!"

THE TECHNIQUE, ATLANTA, GA.
CADET OFFICERS SELECTED FOR TECH NAVAL R. O. T. C.

Parks, Wright To Head Units

Authorities of the Ga. Tech Naval R. O. T. C. have announced the following cadet officers to command the battalion for the coming year.

All cadet officers are members of the Senior class at Tech.

To the post of battalion commander was appointed Lieut. Commander Edward Schley Parks, J. A. Hodge, Dames Ferry, N. B. Ayers, Atlanta; E. P. Oliver, Decatur, and petty officers: G. L. Kendrick, Arlington, Va.; Lieut. H. H. Wright, Decatur, sub-commander; W. B. Longino and E. F. Lindgreen, Atlanta.

Other battalion officers to be announced in a later issue of the "T" Book.

Phi Eta Sigma Society Welcomes Incoming Freshmen

Only Honor Society Exclusively for Frosh

The officers and members of the local chapter of Phi Eta Sigma welcome the incoming freshmen. Phi Eta Sigma is for freshmen and is the only honorary society exclusively for first year men. The society is national, having chapters in leading colleges in the United States. From time to time requirements for membership will be explained to this year's freshmen, and when qualifications are met membership will be conferred.

Officers of the local chapter are: President, J. H. Travis of Tallahassee, Florida; Vice President, J. G. Hammond of Winter Park, Florida; Secretary, D. F. Eichhorn of Baltimore, Md.; Treasurer, G. W. Burge of Passaic, N. J.; and Historian, W. G. Quinn, Atlanta. J. G. Hammond was the winner of the Phi Eta Sigma scholarship, 1939-1940 year.

FRESHMEN! Here's One Rule

Not In The Book

You may have to wear a freshman cap, but there's no rule against wearing Arrow shirts. No doubt you've discovered by this time that more college men wear Arrow shirts than any other brand shirt. There are reasons:

The superb Arrow collar, the Mitoga cut, the anchored buttons, and the permanent fit (Sanforized-Shrunk, fabric shrinkage less than 1%). All these extra values plus authentic styling are yours for the small sum of $3.

Buy a stock of Gordon oxfords as a starter—you'll never regret it.

IMPORTANT!

All students who have not had their physical exam must take this exam on October 1, from 8 to 1 P. M. Students must pay a $2.00 fee for this exam except those turned away on Saturday, September 21, or those who have an excuse from Dean Skiles. A receipt from the treasurer's office for ELI10 must be presented at the time the examination is taken.

FRESHMEN! Have You Received Your "T" Book?

Handbook May Be Obtained at Y.M.C.A.

Information pertaining to any activity included in the Georgia Tech curriculum can be found in the Tech "T" book, edited this year by Tom Hill. The "T" book is put out each year by the permission to serve as a guide for freshmen. By signing at the Tech Y. M. C. A. desk, any freshman may obtain one without cost. Its purpose is to help the freshmen become acquainted with both school and extra-curricular activities. In it can be found information about the calendar, Atlanta churches, student activities, honor societies, social organizations, the fraternity directory, athletics, songs and yells, and a map of the campus.

HAWK CAVETTE, high-kicking guard from Memphis, Tenn., who will captain the 1940 Golden Tornado on its road to football fame.
**FLATS FEATS**

**By FRANK GRAHAM**

“Our! Ah, I mean, ‘va, what a boost! If Carver can keep sending ‘em out like that I’ll be seeing you at the Rose Bowl!”

That’s the gist of the conversation down on the flats these days. There is a lot of excitement in the air, and with the prospects of cool fall days in the offing, interest is centering around football—and our grand old man with his great golden team.

**STUDENT INTEREST AT A NEW HIGH**

Every day now you can drop around to the afternoon sessions down Rose Bowl way and find a lot of other students with the same idea, watching the Golden Tornado in its pre-season workouts. Not since the team of the 1937 championship has interested on the campus reached such a peak. Can we come out on top of the offing’s schedule? Can we get a bowl bid? Can we BEAT GEORGIA? Those are the questions that are in the minds of Dr. Brittain’s prospective engineers. That old football feeling is creeping back into the wind and lends a certain glamour to this humdrum business of getting started back to school.

**GREAT THINGS TO COME**

No one is expecting Coach Alexander and his highly efficient assistants to pull a sporting miracle out of an equipment bag, but it looks like it will take just that to persuade the greatly touted dope experts that the Techs will be the team in the SEC. However, few fail to recognize that some of the brightest stars of southern football this year will run under the White and Gold banner. Several even go so far as to say that in Bob Ison and George Webb we have tied up both ends positions on the All America team—and it’s a fact in itself to be made light of.

**BACKFIELD STARS RETURN**

In the backfield little John Bosch has a lot to live up to—5½ out-paced the number one halfback of intercollegiate football last year in the Orange Bowl and promises to be even better in the coming season. Roy Goree is being groomed to fill the shoes of last season’s biggest Kid, and if we are to believe the sideline quarterbacks he looks like an even more vicious plunger. The two backs are—Backs—Parr and Body, and nevy to have the wingback sit but well, but we’re looking for Sophomore Jack Hancock to hand them a lot of competition.

Tech has always been an interesting team to watch, and this year the students are promised even more of the kind of play that has been so popular on the flats over the years open and deceptive, so hold your hats freshies, the big day is October 5!

---

**Swimming Team Will Organize in Early October**

Coach Fred Lanoue

**Expects Big Turnout**

This year’s first meet for the freshman and varsity teams will be held Monday, October 7, at 5 P.M. in the pool. Coach Lanoue hopes for a large turn-out this year in order to fill the losses from last year’s team.

There are a few changes on this year’s Varsity because of the graduation of so many from last year’s squad. All divers graduated, and we have backstroke, breaststroke, and free-style men are needed. The turnover for last year’s Freshmen team was poor, and so it is hoped that a large group will report this year. With a large group of boys turning out, the Varsity record last year of 5 and 6 last should be improved. Tech placed fourth in the Conference last year and should improve at least one place.

**Varsity Schedule**

The Varsity has meets scheduled with Univ. of Georgia, Florida, L.S. U., Kentucky, Auburn, Tennessee, Clemson, Miami U., and Emory and the Southeastern Conference Meet will be held at the Tech pool late in March. The Freshmen have six of seven meets along with the Varsity big plans are being made for the teams this year. A separate dressing room has been given the squads in the pool building and new robes and suits are ready for the team members.

**Early Start Important**

Coach Fred Lanoue is anxious that all boys who plan to come out for swimming during the year attend this meeting. The men who participate in fall sports and games come out after the fall season should contact the coach as soon as possible. There are places for at least four or five menages, so any interested boy should attend this first meeting.

**Important Notice at top of Page 4!**

---

**CAVETTE, ADERHOLD HEAD 1940 GOLDEN TORNADO**

Both to Play Guard Positions;

**Cavette to Do Most of Punting**

The entire football squad at a surprise meeting several weeks ago, elected Neil “Hawk” Cavette Captain and Robert “Butch” Aderhold Alternate Captain of the 1940 Golden Tornado.

“Hawk” Cavette is a Senior, height 6 feet 1 inch, weight 195 pounds. He was the most valuable man on team as a Sophomore when he played as blocking back and did the kicking. Trained to go in last season, he was the chief rival to Captain Burck Murphy as the team’s most valuable player. “Hawk” is an exceptional down field blocker and still does the punting, at which he is considered without equal in the South. He is a graduate of Monroe (Ga.). A. M. and holds from Memphis, Tenn.

Robert “Butch” Aderhold is a Senior, height 5 feet 11 inches, weight 185 pounds. “Butch” came to Tech unheralded from Russell High School, East Point, Ga., near Atlanta, served an apprenticeship on the scrubs as a sophomore, made his varsity debut as a running back last year against Notre Dame and got first call throughout the season.

**THE LINEUP**

Left End—BOB ISON—200
Left Tackle—RED MURRETH—190
Left Guard—HAWK CAVETTE—200
Center—IM WRIGHT—190
Right Guard—RUTCH ADERHOLD—187
Right Tackle—GEORGE WEBB—197
Fullback—JOHNNY BOSCH—150
Halfback—Bobby Pair—150
Ends—JOHN BURCH—100
Wingback—JACK HANCOCK—190
Blocking Back—ROY GOREE—190

Torchlight Parade
Slated For Tonight

A.P.O. Holds Council Fire
For Frosh and Transfers

Alpha Phi Omega, national service fraternity, is scheduled to meet tonight at 7:30 p.m. in the Administration building chapel. The meeting will be the organization meeting at which plans for the year will be formed. All freshmen and upperclassmen interested in debating with the team this year are urged to be present at this meeting. Several debates will be planned for this year.

The information booth in the administration building was maintained by Alpha Phi Omega and the maps handed to the freshmen with their "TV" books showing the locations of all the buildings of the Tech campus, including all fraternity houses, was sponsored by Alpha Phi Omega.

All freshmen and transfer students are invited to attend a torchlight parade and council fire this Friday night. All students who have ever been a member of the Boy Scouts of America are especially invited to attend. The torchlight parade will leave the Y. M. C. A. at 7:30 tonight.

Cabinet, Council
Hold First Meeting

The Y. M. C. A. Freshman Council held its first meeting last Tuesday night at 8:00 P.M. and the "TV" Cabinet for upperclassmen met for its first meeting Wednesday night at 7:00 P.M.

Every work from now on these two organizations will hold regular meetings, at their respective times, with planned programs such as speakers, debates, discussion, etc.

All students are welcome and cordially invited to participate in these meetings.

1940 Baby Jackets Offer
Strong Combination; 32 Report

Schedule Includes Mississippi State, Auburn, And Georgia; Frosh Grill With Red Devils

Under the tutelage of Coach Norrie Dean and Assistant Coach Tarzan Lackey of last year's varsity, the Baby Jackets have been rounding into form. The boys have been working since the first of the month to perfect this year's freshman team. Some few have reported late, but now the whole squad numbers thirty-two.

Prospects are much brighter than last year's were and from all indications the team will be a strong combination. Several of the yearlings have been running with the Red Devils and are giving the varsity squad some stiff competition.

Freshman Schedule

The freshman schedule consists of three games. The first is on October 24, when they will encounter the Mississippi State Fresh at Albany. Next they journey to Auburn for a game with the Auburn Fresh. Then on Thanksgiving Day (we refuse to protect the date) the Baby Jackets will play their annual charity game at Grant Field stadium against the University of Georgia Bull Pups. The squad and, of course, the whole school will be anxious to see them avenge the last year's defeat of 33-0 handed to them by the Georgia Bull Pups.

Freshman Schedule

The Baby Jackets will be strong in every department and should offer any team a good fight. The roster of the squad follows:

F. J. Redd, Fresh; Houston, Sr., Phonographs:
G. F. Sharp, Fresh, Catalogs:
J. C. Allen, Jr., Fresh, A. F. Cup:
J. M. Johnson, Fresh, Music:
L. C. Toler, Fresh, A. C. E.:
T. W. Spear, Fresh, Catalogs:

First school of engineering in the United States was Rensselaer Polytechnic Institute, founded at Troy, N. Y., by Stephen van Rensselaer in 1824.
