Beautiful Phi Delta Theta House Is Latest Addition to Fraternity Row

The newest addition to Tech's Fraternity Row, and it is truly a beautiful addition, is the new Phi Delta Theta house. The house was begun on June 3, 1940, and on November 2, the upstairs was occupied. The downstairs was finished on December 2, and the house opened fully on the open house held Saturday night, December 7.

The Phi Delta house has a capacity of twenty-two boys and a house mother. Before the house was built, the boys had been housed in some one of their father's house. Until just recently, there were practically no houses north of the Tech Fraternity House, but this year there have been several new ones.

A large and well-furnished living house provides a pleasant atmosphere from the full-length front porch with its white columns and blue and black make up the color scheme of the living room furniture, while the walls and ceiling carry out the fraternity's colors—blue and white. There are seventeen paneling walls in the living room, and a large fireplace adds much to its homelike atmosphere.

There are seventeen seating places for the library, which has cane furniture and a large fireplace. The Phi Delta house is the newest and largest fraternity house on the campus, and all the boys are mighty proud of it.

Boogie Woogie!

Will Bradley and Band Rated As Swing Sensation of Year

This Bradley Crew is truly terrific. And anyone who tells you differently is either a fool or a fifth columnist! First off—to correct a few rumors going around the base that Will Bradley is not a big band—this is a big band and it is wonderful. The band is young, formed a little over a year ago, and has enjoyed, from the start, a lifting by the public rivaling that of Bobby Byrne. They've picked up shots from New York to Honolulu; they've been making records ever since they got together; in fact, right now they're playing at the Biltmore in New York and are on the air every night over WAGA at 10:30.

Will Bradley and his band began in a Detroit jazz band, but most of his personnel has been with studio bands—André Kostelantz, Victor Young and Ray Noble. Will and Ray were roommates at one time and after the latter left Jimmy Dorsey, they met again. The result—our Mid-term Dance Band.

Now for the band proper: It is one of my pet raves, and anyone who would like to play on a team or can organize separate teams of their own.

Four servants are kept all the time, two cooks and two butlers, to serve the large group that eats there. There are several cooks and several butlers.

The house is paneled in red and brown, and dark maple chairs and tables make the finished combination for the big dining room, which seats fifty boys. Gas is used for cooking.

Ballot Boxes Stuffed as Students Compete for Unique Campus Honor

Fraternities Begin 'Get-Acquainted' Dinners After Xmas

New System Will Be More Popular and Convenient

On January 9, Tech's fraternities will begin their annual "get-together" dinners, a scheme, inaugurated last year, has been shortened in an effort to keep the interest high.

For having four transmitters, the club operates on the 10, 20, 40, and 80-meter amateur bands, also using radiotelephone on 10, 20, and 75 meters. The club plans to obtain new equipment for the ultra-high frequencies.

Overs of the Radio Club for 1940-41 are as follows: Ray Griffin, president; Lee Apple, secretary; and Roy Morrison, treasurer.

Radio Club Given New Receiver Set By Student Council

This year the Georgia Tech Radio Club boasts much new equipment, making it one of the finest club stations operated by college students.

The latest addition to the Club's equipment is a Super-Pro receiver, which was paid for by an appropriation from the student council. This new receiver is used in conjunction with the older receiver.

Having four transmitters, the club operates on the 10, 20, 40, and 80-meter amateur bands, also using radiotelephone on 10, 20, and 75 meters. The club plans to obtain new equipment for the ultra-high frequencies.

Overs of the Radio Club for 1940-41 are as follows: Kay Gaffin, president; Lee Apple, secretary; and Roy Morrison, treasurer.

FLASH!

Sydney McCaul is the unfortunate winner with 488 votes. He will receive a handsome jacket from Rehn's in addition to a beautiful engraved mirror, with frills, with which he may gaze upon a beautiful example of the fickle finger of fate and the fury of mother nature. Other prizes and their donors are a shirt from Zech's, a tie from DePorce, a pair of suspenders from Main's, and a penknife from the College Inn.

Shh! Don't leak the secret out, but there will be a very popular Publications (this year's crop) present when the prizes are awarded, and it is said that he won't be at all surprised when all the pictures are taken of the event. She might even have a kiss for the winner!

The money collected in the contest will be turned over to local Boy Scout troops, who will use it to buy Christmas presents for the needy.

The Taraguarda and Alpha Phi Omegas wish to thank every person who bought a ballot and wish that everyone who is able to take part in the election will be able to do so.

For example, each chapter will prove the relations existing between franchises on the Tech campus.

On OTHER PAGES

For example, each chapter will formulate the rules according to the conduct of a successful baseball league.

The league will begin early in January and continue until each team has played all other teams. Team captains will meet with Coach McArthur and Charlie Commander to formulate the rules according to which the games will be played, and the later outside other matters necessary to the success of a conductful baseball league.

League games will be played in the Naval Armory, according to a schedule to be planned by Coach McArthur. Plenty of space for practice will be available.

All interested students can participate in the league and non-dormitory residents can play on a dormitory team or can organize separate teams of their own.

Dirty Politics—This Time More Votes Than Students; F.B.I. Was Telephoned for Help; Kisses and Prizes for the Winnah!

They were "politicking" for themselves. Votes were being bought right and left. There were rumors that the ballot box had been stuffed heavily. Candidates were making stump speeches. Sixteen people were crushed in the rush to the polls. It was the Ugly Man Contest.

THE AMERICAN RED CROSS

So many people have such utterly distorted ideas about the American Red Cross. To them it is just another charitable organization. Yes, one expresses—"to extract money from everybody for the unknown." It's true, indeed, that when a person makes a donation to an organization, it is naturally interested in knowing precisely what it will be used for. And it is for this reason that so many Red Crosses are reluctant to part with their hard-earned money. However, if these skeptics would just have the ambition to inquire into the machinery of that great organization, the American Red Cross, they would be amazed at the amount of clothing and supplies their money is helping to purchase.

Last week, the Tennessee staff visited the American Red Cross headquarters for the Atlanta area, situated in the downtown Y. M. C. A. building, to see the fine work the local chapter is carrying on toward helping to alleviate the indescribable human suffering in England. Every day since the outbreak of the war, more and more aid has been required by the bombed-out people, with the cheery greetings of the Germans and the Italian soldiers eating the sweet against the thunder of cannon. The cheery greetings of the Germans and the Italian soldiers eating the sweet against the thunder of cannon. The cheery greetings of the Germans and the Italian soldiers eating the sweet against the thunder of cannon. The cheery greetings of the Germans and the Italian soldiers eating the sweet against the thunder of cannon.

In America, for the present at least, we can say "Merry Christmas to all" and mean it. In comparison with the rest of the world we probably have greater reason to be happy and thankful than at any other time in our history. We are swapping gifts instead of bullets; business is rapidly improving, and men have less hair on their heads than you can imagine.

Miss Kay Young, left, and Miss Gene Moseley, right, will attend the S.A.E. Christmas Formal, to be held at the Ansley Hotel this evening, with Bobby Thompson, president, and Bob Warnock, treasurer.

S.A.E. Christmas Formal to Be Feature Attraction of Pre-Holiday Week-End

The Georgia Phi Chapter of Sigma Alpha Epsilon will be host at a Christmas formal, Friday night, December 20, from 10 to 2, at the Dinkler Room in the Ansley Hotel. Members and pledges of the fraternity and their dates will assemble for dinner at 6 o'clock, after which dancing will be enjoyed.

Music will be furnished by one of the most outstanding college orchestras in the country, the Auburn Knights. Purple and gold, the fraternity colors, will form the attractive decorations. The Christmas motif will be carried out with groupings of evergreens and tinsel.

Officers and their dates will be Bobby Thompson, president, with Miss Kay Young; Fred Murphy, vice-president, with Miss Helen Diggs; Jimmie Wilkins, secretary, with Miss Betty Smith; Allen, Jr., J. F. Glenn, treasurer, with Miss Gene Moseley.

Prominent alumni attending will be Baxter Maddox, Ivan Allen, Jr., J. F. Glenn, Cob Beirne, Henry D. Morgan, Robert L. Cousins, Robert W. Chamblee, Charles N. Daniels, Jr., Strother Finning, W. H. Glenn, Jr., Bryan M. Grant, Rollins Jones, Jr., John O. Childs, Bobby Jones, David L. Long, Jr., Claude A. McGinnis, Ed Thomas, Mrs. O. A. Barge and Mr. and Mrs. Frank Allcorn.

Helen McDuffie, Ruby Love Johnson, Dottie Lowe, Harriet Smith, and Bob Warnock, treasurer, with Miss Gene Moseley.

O. Childs, Bobby Jones, David B. Long, Jr., Claude A. McGinnis, Dean Skiles or Colonel Gross for information concerning their time for induction into the service.

Draftees!!

Student whose prior numbers for selective military service are between 1 and 3,000 will please see Dean Skiles or Colonel Gross for information concerning their time for induction into the services.

Sigma Phi Epsilon Plays Santa Claus

To Needy Children

Twenty-Six Kids Made Happy With Gifts of Toys At Party Last Saturday

Last Saturday afternoon, December 14, the members of Sigma Phi Epsilon fraternity gave a Christmas party for twenty-six needy children from the Atlanta Home Mission on Trinity Avenue. Santa Claus was there in all his glory and distributed his gifts to those five kids a little prematurely, as Christmas is still a few days off. He seemed to enjoy seeing Atlanta before his regular visit, and he probably discovered many other children that would appreciate a party of fun and frolic.

Midway of the afternoon he stood in front of the mantel, beside the huge tree, and, joking with each and every one of them, gave them toys, candy, and toys. Then, like the jolly good soul he is, he laughed while the whole party sang songs in his honor. Standing by his side and telling him what they wanted him to bring them for Christmas were a few of Atlanta's prettiest girls: Catherine Moore, Elizabeth Standen, Mary Bishop, Mary Zellers, Mary Anne Atkins, and Jane Krog. The S.P.E.'s reserved their want lists till after the party because the chubby gentleman had all he could handle with the small boys and the girls hanging on his coat-tails.

SIGMA PHI EPSILON

We missed telling you all in advance about the fine formal the Sigma Phi Epsilon fraternity is to be held on Friday night, and also in the parties to be given at various fraternity houses. We love this time of the year—bells chiming softly in the distance; the sweet of Christmas trees in the air; boys wandering hurry­ing on the streets; the atmosphere of goodwill toward man about us; everybody feeling a bit sentimental.

But—speaking of the lesser things in life, the Beta's are really pitching into so that McColl can keep the ugly prize. The Sigma Nu Horace Boy, Shirty Jett, is really a con­vinced one—he believes himself to be too good-looking to win without help, so what does he do but pay Tom Doctor to vote for him.

Speaking of something or other—the Phi Delta's claim their house is the Brightest, while the Phi Phi claim the Beta's on either side of them they live on Fowler Street. Get in the groove, boys.

Sight of the week: Milton Hoch­bein telling Miss Mary E. McClaugherty (quote), "You smile too much" (end quote). Bert Clinghan replied with a right hand brought up from the floor. Exit Hochbein.

Ed Demere's secret is to subscribe to the theory about* making them all opposite? Who knows?

* (whispering sweet nothings, of course).

Charlie Fitzgerald going to lay along with the famous Miss who's going to Hollywood, or what familiar night? Last seen with Phi Gavans: Baby Adams with the ever faithful Bob White; Jane Jarvis and the ever-famous, Rochelle Williams. We still want to know—Why shouldn't Lockheed Trigg have a date with Betty Boyles?

Fencing Tournament Is In Full Swing With Navy Team Leading

McMurry, Hard Are Favored to Win Individual Honors

The Intramural Fencing Tournament, sponsored by Foil and Mask, has been in full swing. As we go to press, the Navy team, composed of Graeme, Winkleman, and McMurry, has assumed a commanding lead. This team has defeated all other teams; Non-Military, 7 to 0, with two bouts unplayed, and Battalion II, 6 to 1. The Navy team was the pre-tournament favorite, but was not expected to have such easy sailing. Much of this was due to the good showing of the number two and number three men, Winkleman and McMurry.

TEAM CHANGES

The Battalion II team, headed by Straight, Harding, with Harris and Fry as his returning men, has won two matches and lost one. On the form shown in its win over the rest of the matches undefeated, and if Navy should slip on one of the two matches remaining, there is a chance for a tie in matches. Best bet to defeat Navy is the strong Battalion I team with Dick Schwarz fencing number one, followed by Hais and Cohen. Cohen is fencing his first matches and is showing up very well indeed. Cohen and Bark of the Battalion III team were the only men in the tournament who have not had previous experience either at Tech or in prep school. This is the first season in which there has not been a high percentage of beginning fencers in the intramural and this consequence is of interest in fencing throughout the country.

INDIVIDUAL BOUTS

For the individual honors and the privilege of fencing for the individual bout, the Navy team, composed of Graeme, Winkleman, and McMurry, has been in full swing, encountering the powerful Georgia State Championship. The outcome of this game will be significant. If the Tech team can emerge with a victory, it is likely that it will have another undefeated season. Three of last year's men have returned, and, aided by the addition of several newcomers, this squad will be much more powerful than that of last year. Although roller hockey is still in its infancy, this very game may mark the beginning of a new inter-collegiate sport. The surface, rules, and in this area have been considering the start of roller hockey teams for the impending spring. Friday night's affair may provide the driving force for them.

The probable starting lineup will have Jack Spitznagel at goal, Al Ritter and Tony Zangrilli at defense, and Paul Eggli, "Pretty Boy" Davis, and "Red" Nichols on the front line. Spitznagel, Zangrilli and Nichols are holdovers from last year's team; while Ritter, Eggli and Davis are rookies who will play their first game of roller hockey as Tech Engine- gers.

The game will start at 10 o'clock after the regular skating session.

Playing the Game

By Walter Penney

In a recent poll of the varsity starting football eleven of Boys' High as to what college each of the eleven men wanted to attend following graduation, sixty-six out of seventy-four voted for Tech. It is WANTED TO COME TO TECH, two showed preference for Georgia, one for North Carolina, two for Ohio State, and two for Alabama. Tech is gaining two thoughts that they wanted to play professional baseball.

The four that pledged allegiance to Tech were: Jenkins and Cox, line- men; Fischer and Burman, backs. Castleberry was one that expressed his desire to play baseball.

According to our way of thinking Charlie Commander and Coach McArthur have hit on a good idea in promoting dormitory basketball competition among the first year men placed Frank Sinken for the dormitory basketball league. This team will then play the victims of the White League and the winner will play the Navy.

The White League still has one more game left, and should they win, the results can be computed. At present, only the Navy and Theta PI team is holding the lead. Last week

JACKETS AND BEARS ARE TWO HARD LUCK TEAMS

The Techsters will probably be in the best physical shape of the season, for bad knees and ankles are coming around. With the team physically fit and in a fine frame of mind, they should give the spectators a fine game next week.

Varsity Quintet Rounds Into Shape

S. Carolina Promises Good Game

Jan. 16

After nearly three weeks of practice, Coach Mandel's basketball squad is beginning to work into shape. The team, as a whole is beginning to make their shots and is making a good deal better than they have previously been doing. They are also beginning to work together as a team, instead of individually.

The team will be greatly strengthened after the holidays when several college players will join the ranks of the. Techsters. Boys had to keep on practicing football for the California game, but just as soon as this game is over, the basketball team will mesh its full capacity. The first game of the season will be played against North Carolina, on January 16. During the holidays the team will play several practice games here at the flats in order that they may become a little more hardened, tough scheduled ahead of them. With several lettermen coming back from the holidays, the Techster team of last year's varsity has now a Christmas present for themselves.
