Our Thanks to You

It is a tradition of long standing among college journalists that in the last issue of the publication there must appear a farewell editorial. This is the time when there is an opportunity to thank publicity those who have given their time and energy to the paper during the past year. So here we go—

The first vote of thanks goes to Dr. J. Z. Walker and his valiant group of error-detectors, who had the task of wading through reams of copy every week huntsing for misplaced adjectives and absent commas. The evening correcting grammatical errors is no vacation for an English professor, and we hope that they were not too discouraged by some of the masterpiece written by the staff.

Thanks also goes to the Y.M.C.A. for providing and maintaining so well the staff meeting room. And last but not least come the advertisers, upon whose support the Technique is dependent to a great extent for its existence.

This school year has seen its usual quotas of quizzes passed and quizzes busted, football games, dances, and the inevitable campus politics. The life of the school has gone on much the same as ever although it perhaps has been altered a little by the administration that most of us may be hiding behind a smoke-screen now and then instead of a mulberry bush. Trying to reflect this life and college spirit in the Technique has caused all of us plenty of headaches, but it has always given us a great deal of fun.

We have tried to center the contents of the paper around Tech and its students much more, believing that the college should be the theme of the college newspaper. If we have fallen down on our job at times, we ask leniency on the grounds of our ambition.

We hope that you have enjoyed reading the Technique as much as we have enjoyed writing it. And in winding up the year we want to wish this year's crop of graduates the best of luck, and we hope that we will be seeing the rest of you back with us in September.

TECH BOOSTERS

It should be of great interest to all Techsters to learn that there is a new organization on the campus known as the "Boosters' Club." It is being sponsored by the Anak Society and has several lofty aims and purposes. Among these may be mentioned an aroused effort to enhance Tech's already commendable position, and the sponsorship of a better planned, more appealing and entertaining program for the annual Homecoming celebration. Membership in the club is by invitation from the Anak Society and eligibility is based on campus leadership and evidence of a marked devotion to Tech and her traditions. The club has been promised the whole-hearted cooperation of both faculty and alumni officers, and with the Anak Society's guid ance it has great hopes for splendid achievement during the coming year.

CUPID'S WORK

Well, sir, "Dead-End Dan" Cupid has been spraying his feathered shafts hither and yon with amazing precision. Two of the newest targets of his collection are Professor Fred Ayx and the lovely Miss Anne Blake Morrison, who, beginning with the evening of June 3rd, expect to demonstrate to the whole world that two can live as cheaply as one. And then, just to make Techsters feel old age creeping upon them, lovely little Marge Armstrong's engagement is announced. (In case the freshmen are inanely ignorance, little Marge is Professor Armstrong's charming daughter.)

MORE OF CUPID

But—that's not all! Close your eyes and concentrate as you hear the next one. Tech's very own John Cherry has announced with almost bursting pride his betrothal to that very lovely "Bud" Gebara. Rebecca and John will make a truly charming couple. So—what will you add up this rather formidable list? You can plainly see what a fine group of Freshmen Tech will have about 1890. The students join with this column in extending heartfelt congratulations and all good wishes to ALL Tech's "chubs.

AND SO, 30!

With the approach of these exasperating little inventories, your columnist must begin to burn the midnight oil; but, before his pen runs dry, he would like to extend best wishes to the seniors in their army, navy and industrial adventures. To his fellow students, he wishes much success in their final exams and a very happy summer.

CONGRATULATIONS

Congratulations to the Blueprint staff for the excellent year-book that has just been released. The Technique staff joins with the entire student body in saying that this year's Blueprint is one of the most excellent year-books which has just been released. Primary, Secondary Courses Will Be Offered in Summer Flying Program

All boys who will be in summer school and would like to take advantage of the offer of civil pilot training are requested to apply in room 25 at the Aeronautical Building. There will be two courses offered: the primary course, consisting of 96 hours of ground work and 40 hours of flight school; and the secondary course, 168 hours of ground school and 40 hours of flight school. As usual, there are educational requirements that the applicants will have to meet. Tech students who have completed one full year of work with a 2.00 average will be accepted. Other students, however, must indicate that they have had at least two years of college work before they can be accepted.

The physical requirement is the same as that of the regular army air corps. This will include 20-20 vision in each eye without glasses. It is estimated that the course will cost each applicant about $25.00 for a medical exam fee, an insurance fee, and a deposit.

Tau Beta Pi Elects Greer As President

At a recent meeting of Tau Beta Pi, national engineering scholastic honorary, the following officers were elected for next year: President, Leon Dyer; vice-president, Blanton Haskell; secretary, Bill Green; treasurer, Gerald Walters. The fraternity revised its requirements by making eligible for membership the upper ten percent of the junior class and the upper eight percent of the senior class.

SENIORS!!

Seniors who will graduate in June may obtain their drawings on the third floor of the Engineering Drawing and Mechanics Building at any time from 8 to 12 Thursday, May 29th, and 1 to 4, Friday, May 30th.

(Continued from page 1)

The organization lists its purposes as five: First, to aid and assist in the preparations for the Homecoming dances including sponsoring of same. Second, to aid the alumni secretary in contacting the alumni and arranging for increased alumni activity during Homecoming week. Third, to increase the publicity of Homecoming. Fourth, to perform any services which may enhance or improve the scope of Homecoming. Fifth, to perform any other services which these services may entail. The officers of the organization are President, Greer As President; vice-president, Ray Fussell; treasurer, Bill Green; secretary, Bill Green; corresponding secretary, Bill Green.

Scout Circus Will Feature Athletics, Emergency Display

The annual Boy Scout Circus sponsored by the Atlanta Area Council will be presented tomorrow (Saturday) at Grant Field. The admission price is twenty-five cents. One of the main features of the show will be exhibitions in athletics, such as chariot and wheelbarrow races, obstacle races, and wall scaling. Another feature will be a cycle race on Green Field's cinder track. And, of course, much hilarity will be provided by the always popular clowns. Of great interest to many former Scouts will be the excellent demonstrations of scoutcraft, which will include fire building, Indian dances, bridge building, first aid, and fourteen different types of signaling. Perhaps the most spectacular event on the program will be a demonstration of every phase of the Emergency Servicewell Corps training program, put on by the Senior Scouts, which will be climaxd by a portrayal of the act rendered by British Scouts during an air raid.

It's a white Palm Beach Suit for all the warmer moments in a college man's life. Cool, light, washable— with fullback's shoulders and polo-vulture's waist. At your clothier today $17.50—today. Pastels and deep tones.

Palm Beach Evening Formal (white jack- et and black trousers), $20. Palm Beach Shakes, $32.50, suitably tailored by the same summer wear specialists—the new Goodall Tropic Weight-top value in lightweight worsted suits, $25.

Sherr a tear, give forth a lament; the year is almost over and another Senior class is about to leave the flats. They won't be forgotten quickly, though, as their guiding hand will be noticeable at many posts. They won't be unring for their accomplishments, either, and their achievements will accompany them wherever they go. Good luck to 'em.

A Face in Two Acts. Head Cheerleader Bill Sny and KA Bill Edgeland one another for Elise Merriam's favor. . . plenty of action . . . plenty of suspense. Comes the climax when she announces her engagement to a Purdue Phi Delta . . . plenty of surprise . . . plenty of disappointment.

Squawk of the Town: A lot of things came to light this week. Junior Vice-President Jane Brooks and Nelson McCaa are keeping close tab on each other, and for quite some time, too. The wonders are out as to whether he will follow in the footsteps of his brother, now an ex-Tech married man.

Best Song Title of the Week: "I'm Looking for the Fellow That Plays Alto and Baritone, and Doubles on the Clarinet, and Wears a Shirt 37 Suit." Listen to Ozzie Nelson for a rendition.

PLAYING THE GAME

By WALTER PENNEY

There's no doubt about it: the three fraternalists in the Blue League softball set some sort of record. We could discourse at length how the Phi Kappa Sig's, Tau Eps and Pi K. A's played round robin until the cows came home and still a champion could not be decided.

To be specific, THREE times each team played the others and every time the teams ended in a tie. Finally Coach McArthur threatened to play up the softball field so the teams had to cut the cards. Probably not the best way to decide, but all that could be done under the circumstances.

The Pi K. A's won and thus won the right to play K. A. for the championship of all three leagues.

This ended all the fun for the season as the K. A.'s won the championship and the S. P. E.'s and Pi K. A.'s played for the all-con flag cup.

The outstanding achievement of the year in a magnificent and efficient manner, the staff has committed by Dick Power on the sports staff.

The Pi K. A's defeated the S. P. E.'s by a score of 11-8 in the final game for the championship of the three fraternity leagues.

Wednesday afternoon the P. K. A's defeated the S. P. E.'s by a score of 6-4 and thereby won the runner-up trophy.

Both games were examples of the fastest softball competition seen on the flats in many a year.

Must a summer shirt be a country cousin?

A BOW says: "No!" . . . and proves it with city bred summer shirts that are comfortably cool, yet as neat and smart as any you own.

Arrow shirts have the famous Arrow collar to take you handsomely through the hottest days. They have the renowned "Mitoga" athletic fit and stiffness of creaseless Arrow "Cub Cooler Shrink" (fabric shrinkage less than 1%). In meshes, arrowed by W. S. Bulkley 2 up. Arrow summer ties $1 to $1.50. Yours for a better cooling system. See your Arrow dealer today.
JACKET TRACK TEAM WINS
THIRD PLACE IN SEC MEET

By DICK POWER

The "Bayou Boys" of Louisiana State can thank their lucky stars that they had a tail, lanky chap by the name of Billy Brown in uniform at Birmingham as the S.E.C. track and field championships were run off last week-end, for it was this one-time schoolboy member of the 1936 Olympic team that enabled his team to hang onto the trophy which they have won eight times in the nine-year history of the affair.

Without Brown's record-breaking 47 points his mates would have had to be content with third place, for they scored but 47 points, an all-time low winning total.

Tough Competition

As predicted, it was Alabama and Tech that got in the Tigers' hair; for the first time these two outfits saw their chance, and with this impetus they pushed L.S.U. all the way. As predicted, it was Alabama and Tech that got in the Tigers' hair; for the first time these two outfits saw their chance, and with this impetus they pushed L.S.U. all the way.

McGuire and Couglinh came through for second and third. The first four men could easily have been covered with a small blanket as they hit the tape. Conley, Cash, Dittel, Bradley, Bryan, and McDonald, performing in brilliant fields, garnered the additional points required to bring Tech in third.

Surprising Season

The Engineers' showing far surpassed the expectations of even the most optimistic; it was done the hard way, too, for several of the fellows, namely, Ryckley, Cash, McGuire, Couglinh and Couglinh, had to hit the peak of their careers to place, while the rest were all dangerously close to their previous records.

This was but another feather in the cap of Coach Griffins, who has developed many stars of national and international prominence. Only once before, however, has he been blessed with the material available this past season, which he formed into a squad powerful enough to win the S.E.A.A. championships, go through a tough schedule with but two close defeats, and top the season off with their performance last Saturday.

GEORGIA TECH COLLEGE INN
Last Saturday night Eta Kappa Nu, national honorary electrical fraternity, formally installed Beta Mu chapter at Georgia Tech. This chapter, the thirty-fourth one nationally, was inducted by national officers with thirty-seven outstanding seniors and juniors of the electrical engineering department as members.

Following the initiation a banquet, was given in the ODK student banquet hall. Among the many prominent men present at the occasion were Dr. M. L. Brittain, who gave the opening address, Dean Floyd Field, Dean D. P. Savant, head of the Electrical Engineering department, and other members of the E.E. department.

Caro Wolfe, president of the Atlanta Gas Light Company, was toastmaster for the evening. Mr. Altore B. Zerby, executive secretary of the company was president of the national council, spoke on the ideals and objectives of Eta Kappa Nu. Several alumni from other chapters and several student members of the Auburn chapter were present at the initiation and the banquet.

The new president, Bill Moody, received the charter from Bruce Ravanel, who was president of Eta Kappa and was one of the new officers are W. A. Coleman, vice-president; M. J. Fein, treasurer; and Ed Overstreet, secretary.
