Those associated with departmental organizations, fraternities, clubs, and various societies know the great effect all groups have upon "rounding out" an education. Along with school expansion, the organizations on our campus have increased in size and activity. Through their efforts we can look forward to a closer companionship, and a better understanding of the things that make our college education worth while.
Fraternities at Georgia Tech joined in the progress of the school in the past year by increasing their membership and admitting two new members to the fraternal family. Fraternities on the campus have contributed not only to the school's social progress, but also to the renewed interest in extra-curricular activities of the student body. Progress at Tech is a group project, and the fraternities are bearing their share of the load in leadership, intramural sports, and school-wide activities.
THE INTERFRATERNITY COUNCIL, composed of two representatives from each national fraternity on the Tech campus, is the governing board for all fraternities. Under the general supervision of Dean George Griffin, the council controls all interfraternity and school-fraternity relations. It promotes interfraternity competition in all sports and scholarship. Each year the council sponsors two sets of dances which are the highlights of the social calendar.

ALPHA Epsilon Pi was founded at New York University in 1913. Since that time, it has expanded to forty-five active chapters in the United States and Canada, and to seventy-five hundred members. The Zeta chapter was reactivated at Georgia Tech in March, 1946; and its short period of activation has been marked with great progress. Zeta has acquired a house and large dining-recreation hall annex; both of which are dedicated to the memory of Harold Rubin, a brother who died in the war. The fraternity has entered every phase of campus life, from publications and honor societies to athletics and social functions.

ALPHA TAU OMEGA, the first Greek letter fraternity organized after the Civil War, has expanded since September 11, 1865, until there are now one hundred two chapters throughout the United States and Canada.

Beta Iota has the distinction of being the first active fraternity at Georgia Tech, having been chartered September 18, 1888. The present membership has upheld the tradition of active participation in social and campus activities. ATO's are members of the honorary groups on the campus, and many of the responsible student positions are capably administered by brothers of the chapter. A complete social program balances our scholastic and extra-curricular interests.

CLOCKWISE: These are the three who make our parties a success... The officers take it easy... The girls take over the house the weekend of the formal... Our presidents past and present at the formal.
Since its founding in 1839 at Miami University, Beta Theta Pi has become one of the more prominent national social fraternities. It now has ninety-three chapters located in thirty-seven states and two provinces of Canada.

The Gamma Eta chapter was installed on the Tech campus in 1917. It has been very well represented in campus activities and organizations. With its luxuriously remodeled playroom to house its social functions, it has one of the most beautiful fraternity houses on the campus.

The social activities have included numerous buffet suppers, house dances, and outings. The Betas again this year gave a Christmas party, complete with Saint Nick himself, for a group of orphans. The social year was climaxed by the annual Beta Kid party.

Chi Phi
Omega Chapter

CHI PHI, founded at Princeton in 1824, is one of the oldest national fraternities. The conservative and highly selective national expansion policy of the fraternity has resulted in the formation of thirty-three chapters, of which our Tech chapter, Omega, is among the foremost.

The Omega chapter was founded at Tech in 1904, and it was the first fraternity on the campus to own its own house. The membership of the chapter, now numbering ninety actives and pledges, continues, as in the past, to be highly active athletically, scholastically, and socially.

Iota Delta Chapter

Since its founding at Union College, Hamilton, New York, on May 20, 1841, Chi Psi has grown to its present size of twenty-six chapters. Still small in number as compared with some of the other national fraternities, it has been a strong believer in conservatism and has placed the stress on quality rather than on quantity. Because of this policy the ties between the chapters and the national fraternity have always been exceptionally strong.

Alpha Iota Delta of Chi Psi has now reached the quarter century mark of its existence, being founded at Tech on December 15, 1923. Through the years there have been many ups and downs as is characteristic of any infant organization, but hard work has brought what we feel to be a well-rounded fraternity.

DELTA SIGMA PHI was founded at City College of New York in 1899. From this it has grown to its present strength of fifty-five chapters, eleven of which were installed last year. This expansion of our national organization is continuing with ten more chapters scheduled to be installed this year.

Delta Sigma Phi came to the Tech campus as the Alpha Gamma Chapter in 1920. During the last two years the chapter has undergone a rigorous reorganization program which extends from remodeling the downstairs to acquiring one of the strongest and most closely knit chapters that the fraternity has ever experienced. In the next few years the chapter is looking forward to having a new home.

Gamma Psi Chapter

Delta Tau Delta was founded in 1859 at Bethany College, Virginia, and has grown and prospered through the years until it now stands securely with seventy-seven active chapters throughout the nation and over forty thousand alumni. The Gamma Psi chapter of Delta Tau Delta was established on the Tech campus in April of 1921.

Advocating an active college life for its members, Gamma Psi has continually displayed that spirit on the Tech campus by having Delts in ANAK, O.D.K., Student Council, THE BLUE PRINT, Technique, and Yellow Jacket, and other extracurricular activities.

The social aspects of fraternity life were again realized to the fullest with buffet suppers, hayrides, informal dances, house-parties, and the annual Delt Rainbow Ball. Rounding out a full year of activity, the Delts participated in all intramural sports.

The Kappa Alpha Order was founded in 1865 at Washington and Lee University. There are seventy-two chapters in the Order, all of which are located below the Mason-Dixon Line. The fraternity has eighty-two alumni chapters which are located in the larger cities in all parts of the country. Alpha Sigma chapter was founded in October, 1899, and throughout the years down to the present, the fraternity has maintained a prominent position on the Tech campus scholastically, socially, athletically, as well as in the extra-curricular activities. Highlights of the social season include the Convivum—celebration of Robert E. Lee's birthday, the winter quarter formal dance, and the annual house-party.

Alpha Tau Chapter

The Kappa Sigma fraternity was founded December 10, 1869, at the University of Virginia. It now ranks third in size among the national fraternities, with one hundred fourteen chapters located in forty-seven states and Canada and a total membership of nearly sixty thousand.

Alpha Tau chapter was chartered at Tech on the 18th day of October, 1895, and is one of the oldest fraternities on the campus. Our chapter has always supported extra-curricular activities and has men in key positions in many campus organizations and publications.

We are fortunate in having a very active alumni chapter in Atlanta, and with their help we are progressing rapidly with our plans for the building of a new house in the near future. We have had a very successful year, socially, with a number of dances, costume parties, and outings. Our outstanding social event is the annual Kappa Sigma Black and White Ball.

The Lambda Chi fraternity was founded at Boston University in 1909. During the relatively short time since its organization, Lambda Chi Alpha has become one of the largest international fraternities.

The Beta Kappa chapter was installed in 1942 after thirteen years as Alpha Gamma of Beta Kappa fraternity. Since that time it has maintained a policy of participation in campus activities, and has produced several campus leaders and last year a basketball team that won the IFC championship. Highlights of the year were moving into our new house at 792 Techwood Drive, and the annual winter formal.

Georgia Delta Chapter

The Phi Delta Theta fraternity was founded in 1848 at Miami University in Oxford, Ohio. The fraternity seeks to promote the complete development of its members, intellectually, physically, and socially. In the furtherance of these objectives, Phi Delta Theta has initiated more than seventy thousand members, and now has one hundred and ten chapters located over the entire United States and in Canada. The Georgia Tech chapter, Georgia Delta, was established in 1902.

The fraternity's social activities include an annual Spring formal dance, house parties, the Bowery Ball, and house dances. Phi Delta Theta annually contributes leaders to the campus life, including the fields of student government, class officers, publications, honor societies, and athletics.

XI Chapter

PHI EPSILON PI was founded November 24, 1904, at the College of the City of New York. The national fraternity has expanded considerably since its early beginning and now boasts of thirty-three chapters extending over the entire nation. Xi Chapter was established on the Tech campus January 15, 1916.

Always one of the leaders in participation in campus activities, The Phi Eps are once again proud of their record of campus work. In addition to their intramural athletic endeavors, The Phi Eps are members of almost every honorary, professional, and scholastic organization on the campus.

During the past year, the fraternity purchased the ground for the erection of its new and modern home. Having been forced to vacate its old house because of the new superhighway, the fraternity now occupies temporary quarters and looks forward to the opening of its new home.

PHI GAMMA

Gamma Tau Chapter

PHI GAMMA DELTA had its origin at Jefferson College, Canonsburg, Pennsylvania, in 1848. It was founded primarily as a southern fraternity, but just before the War Between the States it became a national organization. Phi Gamma Delta now has a membership of forty-seven thousand and is represented on seventy-nine campuses. Gamma Tau chapter was installed at Tech in 1926 when Gamma Tau Delta, a strong local fraternity, was granted a charter by Phi Gamma Delta.

One of the highlights of the year was the opening of the dining room in January. The chapter has been very active in extra-curricular and intramural activities, and has enjoyed a full social life this year with the annual house-party in north Georgia, the Norris Pig Dinner, and the many parties and dances at the house.

PHI KAPPA SIGMA

Alpha Nu Chapter

PHI KAPPA SIGMA, now composed of forty-two active chapters, was founded in 1850 at the University of Pennsylvania. The Alpha Nu chapter was founded in 1904 and distinguished itself in founding the ANAK Society, the highest local honorary society on the Georgia Tech campus.

Besides being very active socially, the Phi Kappa Sigs are well represented in the worthwhile organizations and activities on the campus. The chapter recently moved into a new house at 172 Fourth Street, and already many fine plans made in the past are beginning to materialize. At last the Phi Kappa Sigs are returning to their pre-war status of influence at Tech.

THE PHI KAPPA TAU fraternity was first organized at Miami University, Oxford, Ohio, in 1906. It has since grown to fifty-two chapters which are widespread throughout the United States. Phi Kappa Tau is one of the few fraternities which own their own headquarters buildings, and most of the chapters own their own houses.

The Alpha Rho chapter was first established at Georgia Tech in 1929, but became inactive during the war. In September, 1946, the chapter was reactivated with the initiation of seven members. Since then, it has grown steadily in size. This year the chapter moved into its new house which has been enlarged and redecorated. Phi Kappa Tau enjoys a high scholastic rating on the campus in addition to participating in many extra-curricular activities.

PHI SIGMA KAPPA was founded at Massachusetts State College on March 15, 1873. The chapters were located in the Northeast until a conservative expansion policy was adopted in 1900. Since that year Phi Sigma Kappa has grown until it now has forty-four chapters across the nation.

Kappa Deuteron Chapter made its debut on the Tech campus in March, 1923. Through the years that have followed, the members have participated in many extra-curricular activities and have enjoyed a full fraternity life with many parties, dances, and outings.

Alpha Delta Chapter

ALPHA DELTA chapter of the Pi Kappa Alpha fraternity was granted its charter at Georgia Tech in February, 1904. The twenty-eighth chapter to be installed since the fraternity's founding at the University of Virginia in 1868, PiKA has grown to be one of the outstanding fraternities on the campus. At first definitely southern, the national fraternity has grown to include ninety chapters in every section of the country. Alpha Delta owns a house on Techwood Drive, and now has sixty members and twenty pledges.

Among their many functions, the chapter has been host to the neighboring PiKA chapter at their annual 'possum hunt, Christmas party, and Black and White Ball. The chapter has long encouraged a high scholastic average among the members as a whole. At a result, the PiKA's have continually been proud of their high place in the ratings of the various campus organizations.

Pi KAPPA PHI is entering its forty-fifth year as a national social fraternity. Founded at the College of Charleston on December 10, 1904, it now has thirty-eight chapters giving it representation from coast to coast. Iota chapter was installed locally in 1913, and has been well represented by its members in nearly all campus organizations and activities.

Along with Tech's expansion program, Iota has increased its membership and acquired a new home. A full social calendar of house-parties, picnics, dances, and rush-week affairs was highlighted in December by a week-end celebration of Founders' Day.

B. L. DeLoach . . . . . . President
I. G. Boudoucies . . . . . Treasurer
G. L. Anton . . . . . . Secretary

Two in the hand is worth one in the bush.

We had a wonderful time at Sky Lake.
Georgia Phi Chapter

SIGMA ALPHA EPSILON was founded at the University of Alabama in 1856 and by 1948 has grown to the size of a hundred and nineteen chapters which are at colleges and universities in forty-eight of the forty-eight states. The Georgia Phi chapter, chartered in 1890, was the second national fraternity founded on the Tech campus.

The past two years have been profitable ones for SAE at Tech. The redecoration of the fraternity house in 1947 and '48 won the Dean's Trophy for The Most Improved House Appearance.

The SAE's have also been very active in all extra-curricular activities on the campus, having won the IFC football championship for the third consecutive year, the IFC Volleyball Tournament, and the Rambling Wreck contest. Having placed second in the Homecoming decoration gives the SAE's a bright outlook toward taking the IFC trophy for the year 1948-49.

THE SIGMA CHI fraternity was founded in 1855 at Miami University in Oxford, Ohio. There are now one hundred and fourteen chapters of the fraternity throughout the United States and Canada. Beta Psi chapter was chartered at Georgia Tech in 1922, upon the absorption of Pi Alpha Sigma, a local fraternity.

Highpoint of the social calendar for 1948-49 was the Sweetheart Ball at Peachtree Gardens, where Miss Ninetta Wall was presented as Sweetheart of Sigma Chi. The intramural activities were climaxed by the winning of Georgia Tech's first annual Interfraternity Activities Trophy.
Gamma Alpha Chapter

SIGMA NU had its beginning at V.M.I. in 1869 as the Legion of Honor. Since that time it has grown to be one of America's largest national fraternities, having representative chapters in forty-six states and the District of Columbia.

Gamma Alpha was established at Tech in 1896. During a period of fifty-two years the chapter has initiated more than seven hundred members. The activities of the past year included a "White Star" formal, which was held at the East Lake Country Club, and a house party at Sky Lake. Rush period in the fall also summoned social events including dances, hayrides, and costume parties.

At present Gamma Alpha is anticipating the building of a new fraternity house. For this reason and many others, 1949 was welcomed with hope and determination by its members.

Alpha Chapter

Sigma Phi Epsilon was founded in 1901 on the campus of the University of Richmond, Richmond, Virginia. From the original twelve founded, the Sig Ep’s have grown to eighty-six chapters with over thirty-one thousand brothers. Sig Ep has active chapters in thirty-six states and the District of Columbia.

The Georgia Alpha chapter was established at Tech in March, 1907, being the seventeenth fraternity to appear on the campus. While participating actively in intramural activities and enjoying a well-rounded social life, the Sig Ep’s have never lost sight of their ideals of brotherhood and scholarship.

PHI

Phi Chapter

TAU EPSILON PHI, the outgrowth of a professional fraternity, was founded at Columbia University on October 10, 1910. Phi chapter, being installed in 1922, began its twenty-sixth year on the Tech campus this year. Tau Epsilon Phi was one of the first fraternities on the campus to boast of a television receiver, this being installed early in October.

Over the Thanksgiving week-end, the chapter at Tech, in conjunction with the chapter at Emory, held the annual conclave. The highest of the week-end affair being a banquet and formal dance at the Hotel Ansley. Other chapter activities included numerous social affairs and athletic events. In addition, Tau Epsilon Phi continued to place high in scholarship.

BELOW, LEFT TO RIGHT: Conclave—eat, drink, be merry, and listen to speeches. Marks, Byer, Rosenthal, and Marx enjoying Sunday morn at the house.

TAU KAPPA

Beta Pi Chapter

TAU KAPPA Epsilon was founded on January 10, 1899, at Illinois Wesleyan University. Since that time it has grown to sixty-two active chapters, thus making TKE approximately fifteenth in size among national fraternities. There are now around fifteen thousand members.

Beta Pi chapter of Tau Kappa Epsilon one of the newest fraternities on the Georgia Tech campus. This chapter was installed on June 5, 1948. Since the chapter was installed it has been expanding and gaining prestige for itself among all the other organizations here. In our first rushing season we were able to pledge all the men to whom we extended bids. Now that we have cleared the first obstacle of formation, look to us for great attainments.

Alpha Nu Chapter

THETA CHI was founded in 1856 at Norwich University. Today it has grown to an organization of seventy-six chapters throughout the United States.

Alpha Nu chapter was installed at Georgia Tech in 1923. Since its appearance on the campus, Theta Chi has played a very active part in extra-curricular activities as well as having attained an enviable position of scholastic achievement. The chapter has also been very active socially, having had many house dances, hayrides, and other varied functions. Today, Theta Chi's influence is expanding to far wider horizons than ever before attained.
Jim Willis helps entertain the kids at the Christmas party.
THETA XI is new to both the Blue Print and Georgia Tech. The plans for a Theta Xi chapter at Tech were formulated in December of 1947. The first new members of this colony were pledged soon thereafter, and the first initiation was held at Nov. 1948 at the University of Alabama.

The increasing membership of the colony has been active in all phases of social and extra-curricular activities, and Theta Xi shows promise of contributing much to fraternity life on the campus.
