THE BLUEPRINT

The official yearbook of the Georgia Institute of Technology
Blue Print

Published by the students of the
GEORGIA INSTITUTE OF
TECHNOLOGY
ATLANTA, GEORGIA

Editor . . . JAMES R. WILLIFORD

Business Managers
MARC BRABANT  CLARENCE JONES
We're going to forget...

We're going to forget many of the things that made our college days worth while; we'll lose some of the enthusiasm and eagerness we now have; and even a few of our cherished memories will be lost with the passage of time.

It is the job of this BLUEPRINT to keep those memories living. Its purpose is to record the year's activities in such a way that the turn of each page will lead us back over the old paths, cause us to relive our experiences, renew old friendships, and in some small way recapture the moments that are gone.

Let tomorrow come! Let Tech, through the years, progress and expand beyond our recognition. All of us will glory in it. And now with the turn of these pages we can catch a fleeting glance of the Tech we knew.

A NEW INSTITUTION came into being on July 1, 1948. For the most part it consisted of the same students, faculty buildings and courses that comprised the Georgia School of Technology. There were, however, notable improvements. You, and all of us, have watched the new Georgia Institute of Technology mushroom: in area, from 44 to 125 acres; in number of students, from 2,678 in 1939 to 6,000 in 1949; in the quality of instruction, as evidenced by the influx of prominent engineers and teachers on the faculty; in actual educational size, by the establishment of the Technical Institute; in buildings, as shown by the construction of three huge dorms, a new textile engineering building, a chemical annex and two groups of modern apartments; in progressive effort, by the raising of a fund for a student act building and a host of minor building improvements. This progress is not just the inevitable result of a veteran crowded school, for with the issue of this yearbook the bulk of veterans is graduating—and the institution remains crowded and bustling. There is no doubt about it; the Georgia Institute of Technology is truly building today for a better future tomorrow.
In Gratitude

We Dedicate

THIS 1949 EDITION
of the
BLUE PRINT
to
GEORGE CLAYTON GRIFFIN
Dean of Students
Georgia Tech Class of 1922

as an expression of the sincere appreciation of three decades of Tech students to whom "George Griffin" has been another name for good sense, good humor, fine sportsmanship, contagious friendliness and unflagging kindness.
More than any other way, Tech has progressed educationally. Evidence is all around us—a new Textile Engineering building, increased classroom facilities, the addition of nationally known educators to our faculty, and also the readjustment of the administration to meet an expanded educational program. The prospects of a brilliant educational future make even the bright present seem somewhat overshadowed.
COL. BLAKE RAGSDALE VAN LEER
The Georgia Institute of Technology, as the outstanding engineering school of the South, is indeed fortunate in having Col. Blake Ragsdale Van Leer as its president and the guiding force in the continuing advancement of Tech to preserve its position of leadership.

Acclaim for our progress should rightfully be directed to President Van Leer, whose tireless and capable direction has achieved the great strides of recent years.

We salute our President for his able administration of the affairs of this institution. His direction of every phase of the activities of our rapidly growing Alma Mater has been wise and efficient.

Thanks, Colonel.
It would be impossible to give too much praise to the influence, both executive and spiritual, of Dr. Marion Luther Brittain, President Emeritus. One of the greatest living southern educators, Dr. Brittain for more than two decades guided the efforts of Georgia Tech on its climb to prominence.
 Vice-President

Cherry Logan Emerson  
Vice President

The promotion of Dean Emerson to Vice President is a tribute to his great leadership ability. We are indeed fortunate in having a man of his wisdom and foresight to direct the expansion of the school. Cherry Emerson is one of our great alumni.

Bigger and better

Faculty Foreman

Dean of the Faculty

Lloyd W. Chapin  
Dean of the Faculty

Georgia Tech has many real leaders among the administration and faculty. The position of Dean of the Faculty is capably filled by Dean Chapin. His warm sincerity and executive ability have earned for him the admiration of students and faculty alike.
With the characteristics of a true leader, Dean Narmore has carried out his difficult duties as Executive Dean. He has performed the task of enforcing the regulations of the school with firm fairness that has gained for him the respect of both faculty and students.

The friendly, helpful attitude of Dean Griffin has made him admired and respected by all those who have come in contact with him. His interest in and wise administration of student affairs has greatly promoted harmony between the faculty and students.
DEAN OF ENGINEERING

JESSE W. MASON
Dean of Engineering

The record and reputation made by Dean Mason as head of the Department of Chemical Engineering are excellent. His appointment as Dean of Engineering is ample proof of that fact. His personality and ability serve us well.

DEAN OF GENERAL STUDIES

RALPH A. HEFNER
Dean of General Studies

As Dean of General Studies, Dean Hefner has administered his duties with fairness, helpfulness and good humor. His great responsibility over the non-degree granting departments has been performed in a manner of which we are all proud.

"Sir, it mentioned Georgia Tech"

LESLEY F. ZSUFFA
Director of Public Relations
The Schools

On September 1, 1948, sweeping changes in the administration of the Georgia Institute of Technology became effective. The new offices of Vice President and Dean of the Faculties were created and the degree-granting departments were designated as schools.

These changes are external evidence of the many-sided growth and expansion of the Georgia Institute of Technology. The physical plant and the size of the student body have greatly increased in the past few years, and the division of the academic administration into the College of Engineering and the General College emphasizes this expansion.
The Division of Graduate Studies is that body through which the faculty of the Georgia Institute of Technology grants advanced degrees in engineering, science, and management. It offers the superior student an opportunity to realize the full extent of his capabilities; it gives him a chance to gain the intimate acquaintanceship with the fundamental concepts of his field that will enable him to achieve the highest degree of professional competence.

Graduate study is particularly recommended for those students whose interests and aptitudes carry them beyond routine application. It is for the student of engineering who wishes to work in research, development, or highly technical design; it is for the student of science who feels a curiosity about the unknown; it is for the student of management who aspires to the formulation as well as the administration of policy; and it is for those who desire to enter the profession of scientific or engineering education. It is not, like undergraduate study, a carefully charted path through familiar landmarks of established fact; it is a staging ground for an expedition into the unknown.

Industrial Management
The School of Aeronautical Engineering was established in 1919 through a gift of $300,000 from the Daniel Guggenheim Fund for the promotion of aeronautics. The purpose of this award was to establish opportunities at the Georgia Institute of Technology for study and research of the highest order in the field of aeronautics.

The recent progress in the fields of jet propulsion, rocket power, and supersonic flight makes the course in aeronautical engineering especially significant. In addition to the undergraduate curriculum, advanced work is offered for those desiring graduate study at a master's level, and plans are in the making for offering the doctoral degree. Opportunities are also afforded for research.

The physical plant, housed in two buildings on the campus and in a hangar on the nearby Marietta Air Base, is well equipped for offering laboratory work to augment and lend interest to the theoretical courses. Most of this equipment is also suitable for research projects. Study and research are facilitated by the accessibility of the special library reference collection maintained in the center of the plant.

The primary aim of the School of Architecture is to provide a broad and thorough preparation for future architects through the course designated Architectural Design. Architectural Engineering is offered as a second option for those who may wish to engage in the practice of architecture or allied fields as specialists in construction.

With the advent of industry in the South, a need has been seen for a course in Industrial Design to give adequate preparation, with a technological background, for men entering this new profession. While this course was inaugurated before the war, a full offering of courses awaits a new building.

Philadelphia, Penn.
In 1923 the School of Ceramic Engineering was organized at Georgia Tech. Prior to this time the ceramic and mineral industries had grown to such a degree that a department somewhere in the South was considered necessary. There was an urgent need for a laboratory to which the industries could turn for advice and for aid in the solution of their problems. And so a number of industrial leaders considered the matter and finally decided that, due to its location and prominence in engineering education, the Georgia Institute of Technology was a logical place in which to establish a department.

The course of instruction covers a period of four years and leads to the degree of Bachelor of Ceramic Engineering. It is so arranged that upon graduation a student has the foundation that should enable him to succeed in production, research, administration and sales of any of the ceramic industries.
CLASS OF '49

JOHN HENRY BIRCHALL
Plymouth, Mich.

Gainesville, Ga.
Chi Phi
American Ceramic Society Secretary, 3, 4.

MILTON FIVEL, E.E.
Tau Beta Pi, Phi Kappa Phi,
Vice President Eta Kappa Nu,
Assistant Editor Blue Print
The first degree in Chemical Engineering was awarded in 1903. Since then over eight hundred more have been conferred. On the graduate level courses are offered leading to the degrees of Master of Science and Doctor of Philosophy.

The School of Chemical Engineering provides excellent training for the five hundred undergraduates in that field and offers many courses required by the curricula of other schools. The need of industry for trained men in this field will always be great and Georgia Tech graduates will continue in key positions in this highly technical phase of production. The success of these graduates in their profession attests the high standards of the School of Chemical Engineering.

Paul Weber, A.B., M.S., Ph.D. Professor

The School of Chemistry at Georgia Tech instructs all freshmen in the basic course in general chemistry and in addition serves several Schools of Engineering by offering more advanced courses and laboratories required in their courses of study.

The school offers a curriculum leading to the Bachelor of Science in Chemistry and graduate courses leading to the Master of Science degree. It is on the accredited list of the American Chemical Society, and many of its graduates have continued in graduate work and now hold the Ph.D. degree.

Civil Engineering is the oldest of the engineering professions. The civil engineer works in the broad fields of surveying and mapping, sanitation, transportation, hydraulics, structures, mining, irrigation and reclamation.

It is the civil engineer who designs and builds highways, railways, airports, structures of all types and sizes, dams, sewage and water supply systems, harbours, bridges, docks, tunnels, aqueducts, reclamation systems for swamps and wastelands, river system developments, and irrigation projects.

The School of Civil Engineering supplements the classroom work with training in four laboratories. These are in soil mechanics, hydraulics, highway and concrete materials, and sanitary.

The curriculum of the School of Electrical Engineering is planned to give a comprehensive training in the fundamental sciences. It provides for adequate training in the scientific and applied aspects of important branches of engineering other than electrical.

The electrical power engineering option has to do with the theoretical and practical phases of power generation, distribution and utilization. It deals with the principles of alternators, transformers, motors, converters and the transmission and distribution of electric power.

Students desiring to specialize in radio, electronics and telephony may choose the communications and electronics option. This option offers theory and laboratory courses in radio, electronics, telephony, wave filters, transmission lines, antennas and radiation.

The Department of General Engineering provides a broad scope of training for prospective engineers. The curriculum is of an extremely technical nature and is chosen from the courses offered by the various schools of engineering. Since its inception in 1923 the department has produced over two hundred and fifty graduates whose training covered many phases of the engineering field.

Following the graduation in 1951 of all students now enrolled in the department it will be discontinued. Many factors, including the present demand for specialized training, have contributed to its dissolution.

The increasing magnitude and complexity of modern industrial plants has demanded the development of a new branch of engineering now widely recognized as Industrial Engineering. The field of the industrial engineer is that of the process and production expert engaged in planning, organizing, improving, managing, and operating various processes for producing manufactured products of all kinds.

To meet the need of industry for this new type of engineer the School of Industrial Engineering was formed. The first degree of Bachelor of Industrial Engineering was awarded in 1946. Now the enrollment of the school is over six hundred.

The Objective of the School of Industrial Management is to train students for such positions in industry as are not regarded as highly technical as in the case with engineering schools. Those aspects of management in industry are stressed which have to do with management of capital, management of finances and accounting, employment, training and management of personnel, making the best utilization of already known markets, and discovering new markets.

Particular emphasis is placed upon the personal development of the individual personalities of the students with the view of realizing the kind of leadership that is exemplified in the life and work of successful persons. While a knowledge of the subject-matter of the courses offered is not minimized, it is not stressed so as to overshadow the importance of the individual student and the broadening of his individual version of the part he is to play in the future as an industrial leader.

The School of Mechanical Engineering was the only degree-granting department of Georgia Tech from the opening of the Institute in 1888 until 1896. The course of study has changed through the years from the original one, largely of vocational nature, to the present curriculum in which broad application of engineering theory is emphasized.

There are no optional courses in mechanical engineering but electives are provided whereby a student may have some choice of subjects most suited to his individual desires. Courses of cultural and humanitarian aspects are included as a necessary part of a curriculum designed to provide the basis for future advancement of mechanical engineering graduates as professional engineers and as citizens.

The School of Physics at Georgia Tech offers training in leading to either a bachelor's degree or a master's degree. The last few decades have been a spectacular development of physics in the field of nuclear energy, and an ever increasing complexity in industrial and military equipment. The changes call for the education of more physicists and for the education of engineers with more fundamental training in physics.

A thorough foundation of physics is particularly necessary for engineers who wish to specialize in development and research work. To meet these needs, the course of study in physics has been designed to give a thorough fundamental training with considerable emphasis placed on the industrial applications of physics. Flexibility in the undergraduate schedule makes it possible to obtain a bachelor's degree both in physics and in some specialized branch of engineering in five years.

In order to provide the textile and related industries with prospects for supervisory, administrative and executive positions the School of Textile Engineering offers three options leading to the degree of Bachelor of Science in Textile Engineering. The student may choose Textile Engineering, Textile Chemistry and Dyeing, or Textile Manufacturing as his field of specialization. Courses are also offered leading to the degree of Master of Science in Textiles.

It is the purpose of the A. French Textile School to continue giving each student the advantage of the best training possible to fit him for a place of leadership in community and industry.

Regardless of his field, no engineer has received proper training without adequate knowledge of certain basic subjects—service courses, as they are called. This division offers such courses in two fields—Engineering Drawing and Mechanics—with the purpose of providing students of the Georgia Institute of Technology with sufficient knowledge of these subjects to perform the services required of an engineer.

Engineering Drawing, fortified by descriptive geometry, is designed to give students a basic skill in making and understanding drawings. Mechanics includes kinematics, dynamics, statics, kinetics, and mechanics of materials. In all of these it is hoped a foundation will be laid for a comprehension of a force and its effects externally and internally on a body.
The English Department is one of the largest and oldest departments on the campus. Its twenty-nine members have taught at Georgia Tech a total of more than two hundred years, and in college for a total of more than four hundred years. The department teaches required courses to all freshmen, all sophomores, and eighty per cent of the juniors, in addition to offering elective courses for a large number of upper classmen. It is especially interested in campus organizations and supplies faculty advisers to such organizations as the Debate Club, The Technique, the Y.M.C.A., the Blue Print, and ODK. But its chief aim is to see that every Tech student speaks well, writes correctly, thinks clearly, and reads widely.

ANDREW JACKSON WALKER, A.B., M.A., Ph.D., Professor
Head of Department

The Department of Mathematics provides instruction in the subject that is the basic foundation of an engineering education. Two years of mathematics is required by every school of engineering and each quarter between three and four thousand students schedule courses in this department. In addition to the basic courses there are offered many excellent advanced courses that are offered at few other schools in the South. The problem of finding teaching personnel has been solved to a great degree by selecting specially able underclassmen and graduate students. These men have proved quite conclusively that the training they received was of a high caliber by their excellent performance.
The Department of Modern Languages seeks first to give the student sufficient mastery of a foreign language to enable him to read and understand with reasonable facility the scientific and technical literature of that language. Further, it seeks to inform the student, through the medium of the foreign language, of the civilization and literature of the countries where that language is spoken.

In addition to conventional methods, the instruction of the department is supplemented by regular work in its sound room. This laboratory, with a collection of recordings and containing instruction tables equipped with headphones, enables the department to make available to its students the most recent oral-aural methods of foreign language instruction.
Physical Training
DEPARTMENT

Strength of body and mind are closely correlated. To condition the body of the student during the years of study the Department of Physical Training presents two years of courses leading to well-rounded muscular development.

The first year is spent in developing a sound physical condition. Included in the freshman work are swimming, gymnastics and track. During the second year the course is designed to maintain the condition developed in the first year and to teach skills in games and other events. Included in the sophomore training are indoor and outdoor games and combat.
The Department of Psychology was established at Tech as a service unit in 1945. The philosophy of the department has been to stress the importance of the human factor in all phases of engineering. An attempt has been made to make students sensitive to the whole man, his attitudes, his feelings, his fears, and his desire for recognition and security. The position has been taken that graduates of Georgia Tech are going to supervise employees and work with others. The advancement and success of graduates will be due, in no small part, to how well they understand, direct, motivate, and manage other human beings. It is towards these major goals that the staff directs its efforts.
The Department of Public Health and Biology is a service department on the undergraduate level and a degree-granting department on the graduate level. Students who elect certain selected courses offered by this department may qualify as sanitarians with the health services.

In the courses offered by this department the biological rather than the physical aspects of organic chemistry are emphasized. The sanitary engineering option of the School of Civil Engineering requires many courses offered by this department. Students may upon completion of this course seek the degree of Master of Science in Public Health Engineering.

Hugh A. Wyckoff, M.S.  
Head of Department  
Professor

Harold E. Miller, M.S.  
Associate Professor

Albert E. Cannon, M.S.  
Assistant Professor

William E. Brillhart, M.A.  
Instructor
The Department of Social Science serves the college as an integral part of its program of general education. To be a fully educated citizen, the engineer must have a broad background of general training in fields not specifically technical. Freshmen are required to take either a year of social science or a modern language. Upper classmen may elect many valuable and interesting courses in the broad field of social science. Among these are courses in government, history, sociology, current affairs, and applied economics. The election of these courses tends to broaden the view of the prospective engineer and to help him understand the far-reaching problems of our complex modern society.

The development of new industrial processes and materials is rapidly increasing the requirements of industry, business and government for engineers with an understanding of accident-prevention fundamental as well as highly-trained specialists in safety engineering.

To accomplish an awareness of the accident problems in the chosen field of each engineering student a course in industrial accident control, is offered to supplement the information gained through the inclusion of appropriate safety materials in the content of other courses. The engineer is thus equipped to weigh safety considerations with those of strength, efficiency and economy in problems of design, construction and operation.
Even psychology embraces time and motion study.

The sparks fly during an electric welding demonstration.

Architects confer over some modernistic building plans.

A round the Armory

TOP: Receiving line at the Navy dance. BOTTOM: Applying Naval science and tactics.

TOP: The Naval Armory. MIDDLE: The Navy's championship rifle team. BOTTOM: Recruits getting basic instructions.
Camps and Cruises
RIGHT OPPOSITE PAGE, TOP TO BOTTOM, LEFT SIDE: My, what a big ocean. Big men and big guns at work . . . Services on the ship. . . . RIGHT SIDE, TOP TO BOTTOM: Tech men learning a trade . . . Perfect fit and the latest style . . . Taking a ten minute break. THIS PAGE, TOP LEFT: Looks big from any angle, doesn't it? . . . TOP, RIGHT: Getting the poop on the poop deck. . . . MIDDLE, LEFT: Tech was never like this . . . MIDDLE RIGHT: Bull session in the barracks. . . . LOWER LEFT: “Aaa those caissons go rolling along.” . . . LOWER RIGHT: Hank Langford receiving awards from Captain Adams.
Those associated with departmental organizations, fraternities, clubs, and various societies know the great effect all groups have upon "rounding out" an education. Along with school expansion, the organizations on our campus have increased in size and activity. Through their efforts we can look forward to a closer companionship, and a better understanding of the things that make our college education worth while.
Fraternities at Georgia Tech joined in the progress of the school in the past year by increasing their membership and admitting two new members to the fraternal family. Fraternities on the campus have contributed not only to the school's social progress, but also to the renewed interest in extra-curricular activities of the student body. Progress at Tech is a group project, and the fraternities are bearing their share of the load in leadership, intramural sports, and school-wide activities.
THE INTERFRATERNITY COUNCIL, composed of two representatives from each national fraternity on the Tech campus, is the governing board for all fraternities. Under the general supervision of Dean George Griffin, the council controls all interfraternity and school-fraternity relations. It promotes interfraternity competition in all sports and scholarship. Each year the council sponsors two sets of dances which are the highlights of the social calendar.

ALPHA

Zeta Chapter

ALPHA EPSILON PI was founded at New York University in 1913. Since that time, it has expanded to forty-five active chapters in the United States and Canada, and to seventy-five hundred members.

The Zeta chapter was reactivated at Georgia Tech in March, 1946; and its short period of activation has been marked with great progress. Zeta has acquired a house and large dining-recreation hall annex; both of which are dedicated to the memory of Harold Rubin, a brother who died in the war. The fraternity has entered every phase of campus life, from publications and honor societies to athletics and social functions.

ALPHA TAU OMEGA, the first Greek letter fraternity organized after the Civil War, has expanded since September 11, 1865, until there are now one hundred two chapters throughout the United States and Canada.

Beta Iota has the distinction of being the first active fraternity at Georgia Tech, having been chartered September 18, 1888. The present membership has upheld the tradition of active participation in social and campus activities. ATO's are members of the honorary groups on the campus, and many of the responsible student positions are capably administered by brothers of the chapter. A complete social program balances our scholastic and extra-curricular interests.

CLOCKWISE: These are the three who make our parties a success... The officers take it easy... The girls take over the house the weekend of the formal... Our presidents past and present at the formal.
Since its founding in 1839 at Miami University, Beta Theta Pi has become one of the more prominent national social fraternities. It now has ninety-three chapters located in thirty-seven states and two provinces of Canada.

The Gamma Eta chapter was installed on the Tech campus in 1917. It has been very well represented in campus activities and organizations. With its luxuriously remodeled playroom to house its social functions, it has one of the most beautiful fraternity houses on the campus.

The social activities have included numerous buffet suppers, house dances, and outings. The Betas again this year gave a Christmas party, complete with Saint Nick himself, for a group of orphans. The social year was climaxed by the annual Beta Kid party.

BELOW: Don't let that whale get away!

Henry Ford's jealous
CHI PHI, founded at Princeton in 1824, is one of the oldest national fraternities. The conservative and highly selective national expansion policy of the fraternity has resulted in the formation of thirty-three chapters, of which our Tech chapter, Omega, is among the foremost.

The Omega chapter was founded at Tech in 1904, and it was the first fraternity on the campus to own its own house. The membership of the chapter, now numbering ninety actives and pledges, continues, as in the past, to be highly active athletically, scholastically, and socially.

Since its founding at Union College, Hamilton, New York, on May 20, 1841, Chi Psi has grown to its present size of twenty-six chapters. Still small in number as compared with some of the other national fraternities, it has been a strong believer in conservatism and has placed the stress on quality rather than on quantity. Because of this policy the ties between the chapters and the national fraternity have always been exceptionally strong.

Alpha Iota Delta of Chi Psi has now reached the quarter century mark of its existence, being founded at Tech on December 15, 1923. Through the years there have been many ups and downs as is characteristic of any infant organization, but hard work has brought what we feel to be a well-rounded fraternity.

DELTA

Alpha Gamma Chapter

DELTA SIGMA PHI was founded at City College of New York in 1899. From this it has grown to its present strength of fifty-five chapters, eleven of which were installed last year. This expansion of our national organization is continuing with ten more chapters scheduled to be installed this year.

Delta Sigma Phi came to the Tech campus as the Alpha Gamma Chapter in 1920. During the last two years the chapter has undergone a rigorous reorganization program which extends from remodeling the downstairs to acquiring one of the strongest and most closely knit chapters that the fraternity has ever experienced. In the next few years the chapter is looking forward to having a new home.

DELTA TAU DELTA was founded in 1859 at Bethany College, Virginia, and has grown and prospered through the years until it now stands securely with seventy-seven active chapters throughout the nation and over forty thousand alumni. The Gamma Psi chapter of Delta Tau Delta was established on the Tech campus in April of 1921.

Advocating an active college life for its members, Gamma Psi has continually displayed that spirit on the Tech campus by having Delts in ANAK, O.D.K., Student Council, THE BLUE PRINT, Technique, and Yellow Jacket, and other extra-curricular activities.

The social aspects of fraternity life were again realized to the fullest with buffet suppers, hayrides, informal dances, house-parties, and the annual Delt Rainbow Ball. Rounding out a full year of activity, the Delts participated in all intramural sports.

Kappa Alpha

Alpha Sigma Chapter

The Kappa Alpha Order was founded in 1865 at Washington and Lee University. There are seventy-two chapters in the Order, all of which are located below the Mason-Dixon Line. The fraternity has eighty-two alumni chapters which are located in the larger cities in all parts of the country.

Alpha Sigma chapter was founded in October, 1899, and throughout the years down to the present, the fraternity has maintained a prominent position on the Tech campus scholastically, socially, athletically, as well as in the extra-curricular activities.

Highlights of the social season include the Convivum—celebration of Robert E. Lee’s birthday, the winter quarter formal dance, and the annual house-party.

Call and raise you two!

Alpha Tau Chapter

The Kappa Sigma fraternity was founded December 10, 1869, at the University of Virginia. It now ranks third in size among the national fraternities, with one hundred fourteen chapters located in forty-seven states and Canada and a total membership of nearly sixty thousand.

Alpha Tau chapter was chartered at Tech on the 18th day of October, 1895, and is one of the oldest fraternities on the campus. Our chapter has always supported extra-curricular activities and has men in key positions in many campus organizations and publications.

We are fortunate in having a very active alumni chapter in Atlanta, and with their help we are progressing rapidly with our plans for the building of a new house in the near future. We have had a very successful year, socially, with a number of dances, costume parties, and outings. Our outstanding social event is the annual Kappa Sigma Black and White Ball.

The Lambda Chi fraternity was founded at Boston University in 1909. During the relatively short time since its organization, Lambda Chi Alpha has become one of the largest international fraternities.

The Beta Kappa chapter was installed in 1942 after thirteen years as Alpha Gamma of Beta Kappa fraternity. Since that time it has maintained a policy of participation in campus activities, and has produced several campus leaders and last year a basketball team that won the IFC championship. Highlights of the year were moving into our new house at 792 Techwood Drive, and the annual winter formal.

Georgia Delta Chapter

The Phi Delta Theta fraternity was founded in 1848 at Miami University in Oxford, Ohio. The fraternity seeks to promote the complete development of its members, intellectually, physically, and socially. In the furtherance of these objectives, Phi Delta Theta has initiated more than seventy thousand members, and now has one hundred and ten chapters located over the entire United States and in Canada. The Georgia Tech chapter, Georgia Delta, was established in 1902.

The fraternity’s social activities include an annual Spring formal dance, house parties, the Bowery Ball, and house dances. Phi Delta Theta annually contributes leaders to the campus life, including the fields of student government, class officers, publications, honor societies, and athletics.

Xi Chapter

PHI EPSILON PI was founded November 24, 1904, at the College of the City of New York. The national fraternity has expanded considerably since its early beginning and now boasts of thirty-three chapters extending over the entire nation. Xi Chapter was established on the Tech campus January 15, 1916.

Always one of the leaders in participation in campus activities, The Phi Eps are once again proud of their record of campus work. In addition to their intramural athletic endeavors, The Phi Eps are members of almost every honorary, professional, and scholastic organization on the campus.

During the past year, the fraternity purchased the ground for the erection of its new and modern home. Having been forced to vacate its old house because of the new superhighway, the fraternity now occupies temporary quarters and looks forward to the opening of its new home.

PHI GAMMA DELTA had its origin at Jefferson College, Canonsburg, Pennsylvania, in 1848. It was founded primarily as a southern fraternity, but just before the War Between the States it became a national organization. Phi Gamma Delta now has a membership of forty-seven thousand and is represented on seventy-nine campuses. Gamma Tau chapter was installed at Tech in 1926 when Gamma Tau Delta, a strong local fraternity, was granted a charter by Phi Gamma Delta.

One of the highlights of the year was the opening of the dining room in January. The chapter has been very active in extra-curricular and intramural activities, and has enjoyed a full social life this year with the annual house-party in north Georgia, the Norris Pig Dinner, and the many parties and dances at the house.

Phi Kappa Sigma, now composed of forty-two active chapters, was founded in 1850 at the University of Pennsylvania. The Alpha Nu chapter was founded in 1904 and distinguished itself in founding the ANAK Society, the highest local honorary society on the Georgia Tech campus.

Besides being very active socially, the Phi Kappa Sigs are well represented in the worthwhile organizations and activities on the campus. The chapter recently moved into a new house at 172 Fourth Street, and already many fine plans made in the past are beginning to materialize. At last the Phi Kappa Sigs are returning to their pre-war status of influence at Tech.

Alpha Rho Chapter

THE PHI KAPPA TAU fraternity was first organized at Miami University, Oxford, Ohio, in 1906. It has since grown to fifty-two chapters which are widespread throughout the United States. Phi Kappa Tau is one of the few fraternities which own their own headquarters buildings, and most of the chapters own their own houses.

The Alpha Rho chapter was first established at Georgia Tech in 1929, but became inactive during the war. In September, 1946, the chapter was reactivated with the initiation of seven members. Since then, it has grown steadily in size.

This year the chapter moved into its new house which has been enlarged and redecorated. Phi Kappa Tau enjoys a high scholastic rating on the campus in addition to participating in many extra-curricular activities.

PHI SIGMA KAPPA was founded at Massachusetts State College on March 15, 1873. The chapters were located in the Northeast until a conservative expansion policy was adopted in 1900. Since that year Phi Sigma Kappa has grown until it now has forty-four chapters across the nation.

Kappa Deuteron Chapter made its debut on the Tech campus in March, 1923. Through the years that have followed, the members have participated in many extra-curricular activities and have enjoyed a full fraternity life with many parties, dances, and outings.

Alpha Delta Chapter

Alpha Delta chapter of the Pi Kappa Alpha fraternity was granted its charter at Georgia Tech in February, 1904. The twenty-eighth chapter to be installed since the fraternity's founding at the University of Virginia in 1868, PiKA has grown to be one of the outstanding fraternities on the campus. At first definitely southern, the national fraternity has grown to include ninety chapters in every section of the country. Alpha Delta owns a house on Techwood Drive, and now has sixty members and twenty pledges.

Among their many functions, the chapter has been host to the neighboring PiKA chapter at their annual possum hunt, Christmas party, and Black and White Ball. The chapter has long encouraged a high scholastic average among the members as a whole. At a result, the PiKA's have continually been proud of their high place in the ratings of the various campus organizations.

Iota Chapter

Pi KAPPA PHI is entering its forty-fifth year as a national social fraternity. Founded at the College of Charleston on December 10, 1904, it now has thirty-eight chapters giving it representation from coast to coast. Iota chapter was installed locally in 1913, and has been well represented by its members in nearly all campus organizations and activities.

Along with Tech's expansion program, Iota has increased its membership and acquired a new home. A full social calendar of house-parties, picnics, dances, and rush-week affairs was highlighted in December by a week-end celebration of Founders' Day.

Two in the hand is worth one in the bush.
We had a wonderful time at Sky Lake.
SIGMA ALPHA EPSILON was founded at the University of Alabama in 1856 and by 1948 has grown to the size of a hundred and nineteen chapters which are at colleges and universities in forty-five of the forty-eight states. The Georgia Phi chapter, chartered in 1890, was the second national fraternity founded on the Tech campus.

The past two years have been profitable ones for SAE at Tech. The redecoration of the fraternity house in 1947 and '48 won the Dean's Trophy for The Most Improved House Appearance.

The SAE's have also been very active in all extra-curricular activities on the campus, having won the IFC football championship for the third consecutive year, the IFC Volleyball Tournament, and the Rambling Wreck contest. Having placed second in the Homecoming decoration gives the SAE's a bright outlook toward taking the IFC trophy for the year 1948-49.

G.I.T. got cleaned up.

That fearless foursome at the Gay Nineties Party.
LEFT: Handsome Hugh and Martha do the honors for Ninetta Wall, our '48-'49 Sweetheart. ABOVE: Strictly candid shot at Jekyll Island house-party. Buzz and Virgil looking very unnatural.
The Sigma Chi fraternity was founded in 1855 at Miami University in Oxford, Ohio. There are now one hundred and fourteen chapters of the fraternity throughout the United States and Canada. Beta Psi chapter was chartered at Georgia Tech in 1922, upon the absorption of Pi Alpha Sigma, a local fraternity.

Highpoint of the social calendar for 1948-49 was the Sweetheart Ball at Peachtree Gardens, where Miss Ninetta Wall was presented as Sweetheart of Sigma Chi. The intramural activities were climaxed by the winning of Georgia Tech's first annual Interfraternity Activities Trophy.
Gamma Alpha Chapter

SIGMA NU had its beginning at V.M.I. in 1869 as the Legion of Honor. Since that time it has grown to be one of America's largest national fraternities, having representative chapters in forty-six states and the District of Columbia.

Gamma Alpha was established at Tech in 1896. During a period of fifty-two years the chapter has initiated more than seven hundred members. The activities of the past year included a "White Star" formal, which was held at the East Lake Country Club, and a house party at Sky Lake. Rush period in the fall also summoned social events including dances, hayrides, and costume parties.

At present Gamma Alpha is anticipating the building of a new fraternity house. For this reason and many others, 1949 was welcomed with hope and determination by its members.

Alpha Chapter

SIGMA PHI EPSILON was founded in 1901 on the campus of the University of Richmond, Richmond, Virginia. From the original twelve founded, the Sig Ep's have grown to eighty-six chapters with over thirty-one thousand brothers. Sig Ep has active chapters in thirty-six states and the District of Columbia.

The Georgia Alpha chapter was established at Tech in March, 1907, being the seventeenth fraternity to appear on the campus. While participating actively in intramural activities and enjoying a well-rounded social life, the Sig Ep's have never lost sight of their ideals of brotherhood and scholarship.

Phi Chapter

TAU EPSILON PHI, the outgrowth of a professional fraternity, was founded at Columbia University on October 10, 1910. Phi chapter, being installed in 1922, began its twenty-sixth year on the Tech campus this year. Tau Epsilon Phi was one of the first fraternities on the campus to boast of a television receiver, this being installed early in October.

Over the Thanksgiving week-end, the chapter at Tech, in conjunction with the chapter at Emory, held the annual conclave. The highest of the week-end affair being a banquet and formal dance at the Hotel Ansley. Other chapter activities included numerous social affairs and athletic events. In addition, Tau Epsilon Phi continued to place high in scholarship.

E. EDELMAN . . . . . Treasurer

LEFT: Miller, Greer, and Baskind, practicing for the Infantry. BELOW: Dear Folks, thanks for the car.
TAU KAPPA

Beta Pi Chapter

TAU KAPPA Epsilon was founded on January 10, 1899, at Illinois Wesleyan University. Since that time it has grown to sixty-two active chapters, thus making TKE approximately fifteenth in size among national fraternities. There are now around fifteen thousand members.

Beta Pi chapter of Tau Kappa Epsilon one of the newest fraternities on the Georgia Tech campus. This chapter was installed on June 3, 1948. Since the chapter was installed it has been expanding and gaining prestige for itself among all the other organizations here. In our first rushing season we were able to pledge all the men to whom we extended bids. Now that we have cleared the first obstacle of formation, look to us for great attainments.

Alpha Nu Chapter

THETA CHI was founded in 1856 at Norwich University. Today it has grown to an organization of seventy-six chapters throughout the United States.

Alpha Nu chapter was installed at Georgia Tech in 1923. Since its appearance on the campus, Theta Chi has played a very active part in extra-curricular activities as well as having attained an enviable position of scholastic achievement. The chapter has also been very active socially, having had many house dances, hayrides, and other varied functions. Today, Theta Chi's influence is expanding to far wider horizons than ever before attained.

LEFT: Mother Max Ellis and her problem child, Murray Cleare "Jr." out looking for Daddy.
RIGHT: How can they treat such a beautiful hunk of woman so rough?
BELOW: Shotgun wedding with doughnut rings.
Jim Willis helps entertain the kids at the Christmas party.
Theta Xi Colony

THETA XI is new to both the Blue Print and Georgia Tech. The plans for a Theta Xi chapter at Tech were formulated in December of 1947. The first new members of this colony were pledged soon afterwards, and the first initiation was held on Nov. 13, 1948 at the University of Alabama.

The increasing membership of the colony has been active in all phases of social and extracurricular activities, and Theta Xi shows promise of contributing much to fraternity life on the campus.

EAT, DRINK, AND BE MERRY!
The physical expansion of Georgia Tech has been accompanied by a corresponding enlargement of social activities. Not since before the war have social functions been at such a high level. Hardly a week went by this year when there wasn't a dance—the Spring IFC's, Homecoming Dance, Engineers' Day Dance, and the various fraternity formals to mention a few. Aside from the dances there were scores of parties ranging from the Betas' Kid Party to the Dels' Mountaineer Party. Every fraternity on the campus entered the house decoration contest and a majority entered the Reck contest to make Homecoming the biggest ever held at Tech. Each of these social endeavors is an indication of the growth of Tech in the field of student entertainment.
Alumni had a double purpose in returning to the flats this year. Tech's gigantic and progressive building program had received publicity in such nationally known mediums as *Architectural Forum*; Tech's football team was as yet underfeated and was ranked sixth nationally.

The festivities began early Friday night with the judging of house decorations. Heavy rains and strong winds destroyed many of the decorations, but when the final count was made Sigma Chi came in first with SAE close behind. Social events Friday night centered around fraternity parties.

Activities got off to an early start Saturday morning with the Ramblin' Reck parade. Fifteen Reeks, powered by every kind of engine known to man and a few unknown, paraded around the campus in view of thousands of spectators. SAE "mowed 'em down" and raked up first place, the TEP "moonshiners" drank up second place, and Sigma Phi Epsilon literally smoked into third place.

At noon the alumni gathered in Peters Park to hold a barbecue. Tech grads from as far back as 1892 attended.

By game time the only thing that could spread gloom over the flats seemed impossible. A few hours later, 40,000 people walked away from Grant Field stunned by the 13-7 upset handed to Tech by Tennessee.

Homecoming came to an end Saturday night with a dance sponsored by the Bulldog Club in the gym. During intermission Anak tapped four new members, Castleberry, Cox, Crossley, and Mann.

All in all it was one of the most successful homecomings ever held on the flats.
COMING

Top Row, Left to Right: ATO Rock goes up in smoke. SAE cleans up with second place decorations. Bullpups advertise dance. MIDDLE ROW: Cadillac, Sigma Chi style. Everybody's sad except Tennessee. BOTTOM ROW: Alumni barbecue on Peters Park tennis courts. And it even worked.
B. B. Brown presents Klosterman of SAE with the "Jimboon"

TOP: Maybe they really are hillbillies...

BOTTOM: The Betas didn't kill him "daid" enough.
LEFT COLUMN: Where's the kitchen sink?  

"But I love her still."  

RIGHT COLUMN: Junior birdmen with band mascot.  

The Confederate Flag never sets on KA.  

"and I drink my whiskey clear."  

UPPER RIGHT: Brodnax taps Castleberry for ANAK.
TOP ROW, LEFT TO RIGHT: And this is part of an initiation? Let's transfer to Auburn. MIDDLE ROW: Krupa's vocalist packs 'em in. Mr. and Mrs. Mighty Mike. BOTTOM: Sponsors before game time.
OFFSET: Can this be Bullpuppy love?
TOP ROW: Registration mob . . . Well, that's one way to get your name in print . . . Nothing like good, clean, American fun . . . MIDDLE ROW: What do you want, blood? . . . If it looks easy this way, turn it upside down. BOTTOM ROW: Try this one for size . . . What goes on behind the iron curtain?
AND IN THE FLATS
The 1949 Blue Print is deeply indebted to Al Capp, creator of the famous comic strip character "Li'l Abner" and founder of the national holiday "Sadie Hawkins Day," for his work in judging the beauties shown on the following pages.

S O R S
1949 found Tech with sixty-seven organizations. All of these, with their aims and accomplishments, have contributed much to the growth of Georgia Tech. A few of the outstanding examples are the student book exchange, faculty rating sheets, lectures by international figures, and the increase in the cultural aspects of engineering through plays and symphonic presentations. These organizations have provided a needed outlet for our hobbies and interests, and have also served as a showcase and proving ground for progress through leadership.

Friday night "Open House"
The Young Men's Christian Association is indeed the focal point of student life and activities. Every student is a member and all the facilities of the "Y" are at his disposal. The Y.M.C.A. Cabinet sponsors many varied educational, recreational, and religious programs. Among these are Bible study, movies, Open House, Conferences, and Forums. Each student is invited to take part in all or part of the many activities of the Tech "Y."

ALPHA PHI OMEGA

is a national service fraternity founded on the principles of the Scout oath and law. Its main objective is to render service to the campus, to the community, and to the nation. Membership is limited to students who have at sometime been registered as Boy Scouts.

Alpha Phi Omega administers the information desk and also handles student elections and other campus services. Each year it also sponsors the Ugly Man contest with the proceeds given to national charities.

Drama Tech is one of the newer and more active campus activities. Since its inception in the spring of 1946, Drama Tech has given five major productions and several radio plays. This year's season found Drama Tech with a new director and a full season of three plays planned. Drama Tech was founded to stimulate student interest in dramatics and back stage work, and requires varied talents and skills. Acting alone does not make the play and much credit for success must be given to the active support of all members of the stage and business crews.

The Camera Club in action.

First prize in the Camera Club's photo contest.

Bullpups on parade.

The Flying Club's pride and joy.

The Lambda Chi Alpha's wreck going up in smoke.
Our participation in the various activities of the school—whether it be varsity football, publications, honor societies, or intramural baseball—is the very essence of that intangible, school spirit. Most of us have given unstintingly of our time and effort in a variety of ways to bring about a great and respected Georgia Tech.

The Georgia Tech ANAK Society was organized on January 1, 1908, to honor select men from the Senior Class, who are outstanding among their fellow students by their achievements and services to Georgia Tech. ANAK has contributed from its membership many Tech men who have become leaders of national prominence. Also ANAK has been responsible for the founding of nearly all of the other organizations existent on the campus today.

OMICRON DELTA KAPPA

OMICRON DELTA KAPPA, National Leadership Honor Society for men, was founded in 1914 at Washington and Lee University and the local circle was established in 1932. Members are selected on a point basis—a definite number of points being given for each honor or position attained by the student. When a student has amassed enough points and a definite scholastic average he is eligible for election. O. D. K. ranks with ANAK as the highest honorary organization on the Tech campus.
Tau Beta Pi, the largest national honorary engineering fraternity, was founded at Lehigh University in 1885. The Alpha chapter was established on the Tech campus in 1926. Eligible for membership are the upper eighth of the junior class and the upper fifth of the senior class. Selections for this society are made on the basis of scholarship, loyalty, character, personality, leadership, and extra-curricula activities. The local chapter annually gives a scholarship cup to the senior with the highest four-year average in the engineering school.

**Phi Kappa Phi** is the oldest national scholastic honor society on the Georgia Tech campus. Founded in 1897, it now has chapters in more than 50 colleges and universities. Membership in Phi Kappa Phi is awarded to those members of the senior class who are outstanding in scholarship during their first three years at Georgia Tech. The local chapter conducts the annual Honors Day exercises and awards each year a cup to the senior with the highest scholastic average.

The Student Council, now in its twenty-seventh years, is the governing body of the Student Government of the Georgia Institute of Technology. Through its duly elected members it represents the student body in all matters affecting student interest, provides a medium of communication between the students and school authorities, and preserves the customs and traditions of the school. The members are elected by popular vote in the spring quarter of each school year, with the exception of the freshmen who are elected at the first of the fall quarter.
The men listed on this page have been selected as outstanding students on the Tech campus. Their college activities will appear in the 1948 edition of Who's Who Among Students in American Universities and Colleges.

FIRST ROW, LEFT TO RIGHT: Barnes, Bennett, Boissy, Brannon, Brodnax, Cox, Crossley, Damon. SECOND ROW: Daniels, French, Green, Hemingway, Johnston, Kennedy, Kirk, Lansing, LaRoche. THIRD ROW: McCoy, Morris, Moscrip, Nolan, O'Rear, Stumberg, Watson, Williford, Wolf.

PHI ETA SIGMA, a national freshman honorary scholastic fraternity, was established at Georgia Tech in 1920. Membership in Phi Eta Sigma is the highest honor a freshman may attain while at Georgia Tech. Only those men who have a point average of 3.5 for the first quarter or the entire freshman year are eligible for membership. Each spring the fraternity presents a cup to the freshman having the highest scholastic average for the first quarter.

FIRST ROW, LEFT TO RIGHT: Galphin, Gilmore, Goodyear, Gregorie, Guthman, Hall, Hilsman, Holliman, Hutton, Janczys.

ALPHA CHI SIGMA is the national professional organization for Chemists and Chemical Engineers. Students are eligible for membership when they have reached second quarter sophomore status and have maintained a 2.5 overall point average. The local chapter provides exhibits for the student body and sponsors lectures on scientific subjects.
The Architectural Society was formed in 1910 and is one of the oldest organizations of its type on the campus. Each year the society enters the work of outstanding students in a national contest. The society not only sponsors lectures and field trips each year, but also subscribes to several trade magazines and purchases books for the departmental library.

Chi Epsilon

Chi Epsilon is the only national fraternity composed entirely of men in the field of Civil Engineering. The Tech chapter of Chi Epsilon, founded in 1943, was formed from the Civil Crew, the oldest honor organization on the Georgia Tech campus. It sponsors many activities such as field trips, guest speakers, and movies on engineering subjects.

Kappa Kappa Psi

Kappa Kappa Psi is a national honorary musical organization for college band members. Membership is limited to those bandmen who are not only good musicians but also exhibit a genuine interest in the activities of the band. The purpose of this fraternity is to help raise the standards of college bands and promote fellowship among the many school bands.

The BULLDOG Club is one of the best known and most active local organizations. It was founded in 1910 by ANAK to promote school interest and later in 1933 merged with the Junior’s Koseme Club to form the present organization. The membership is composed of outstanding Juniors on the campus. Through the guidance of Coach Roy Mundorff, the faculty advisor, the club sponsors all the intramurals on the campus. The organization is also responsible for the annual Homecoming dance and week-end and Freshman Cake Race.

The Pershing Rifles is a national honorary military organization comprised of select and proficient college ROTC students. The Pershing Rifles sponsors a crack drill team, which in the past has given exhibitions at football. The members may be distinguished by the fact that they wear, in addition to the ROTC uniform, a blue and white fourragere, and shoulder insignia shields.

The officers being initiated at the Military Ball.

The Ramblin' Reck Club is an organization whose purpose is to keep up and magnify school spirit. Members are chosen from among juniors and seniors and the number is kept small to insure efficiency. During this past football season, the Recks organized and promoted the highly successful flash-card section. At the beginning of each school year, the Recks give instructions to the new freshmen on the duties of a rat and also sponsor each fall a Ramblin' Reck contest between the different organizations on the campus.

The publications kept well abreast of the expansion and progress at Tech. Evidence of this abounds with each issue. Progress itself was attained and explained through the medium of our technical publication. The school newspaper diligently informed the student body of the changes brought about by a capacity student body and its activities. Our humor magazine poked fun at the inevitable shortcomings and growing pains. Faithfully recording all this advancement was our school yearbook. Working together, the publication staffs helped Tech and its graduates put their best foot forward in all journalistic fields for a broader understanding of the world tomorrow.

Engineer Staff planning the next edition of the Engineer.

Monday night meeting of the editorial staff of the Technique.

The editorial staff of the Technique setting up the paper.
Sweat and Strain

The past months were gratifying for Tech in the sports' world. The spirit of both players and student fans was never higher, and we can scarcely over-emphasize the success of our varsity and freshman teams.

With the optimism born of pride, we look forward to future years as even greater chapters in the history of athletics at Georgia Tech.
The Georgia Tech Athletic Association, headed by Coach William A. Alexander, has more than kept pace with the mushrooming southern sports world. The intensive and aggressive policy of the A.A. has paid dividends in the success of the various Tech varsity squads.

Georgia Tech has consistently led the Southeastern Conference in scheduling powerhouse teams from far sections of the country.

A veteran Associated Press executive, Chick Hosch, joined the staff during 1948 to take over full time publicity work and allow Coach Dwight Keith to devote his full efforts to his coaching duties.

Giving support to a flash card section in the student stands and a larger cheerleader squad was a big step forward for the Tech Athletic Association.
MEN WITH A PLAN

THE COACHES

Tech's football coaching staff is well-nigh incomparable, principally the four man brain trust of Head Coach Bobby Dodd, Assistant Coach, Ray Ellis, Line Coach, and Dwight Keith, Backfield Coach.

Beginning in 1931 as backfield coach, Bobby Dodd soon became the logical successor to Athletic Director William A. Alexander when the latter stepped down as Head Coach in 1945. Employing the "T" formation, Dodd has become the master of "razzle-dazzle" football throughout the south. Astoundingly popular with his players and with the fans, Coach Dodd has turned out exceptional teams every season at the Flats.

Ray Ellis joined the Tech staff the same year that Dodd took over, and his shrewdness has paid great dividends in subsequent years. A graduate of the University of Kentucky, Ellis was head football and basketball coach at Madisonville, Kentucky high school for seventeen successful years before coming to Tech. In 1946 he was moved up to Assistant Coach.

Line Coach Ray Graves brought an outstanding record with him when he joined the Tech staff in 1947. He served as line coach at Tennessee, scout and assistant coach for the Philadelphia Eagles, and earlier as a player for the Eagles. Graves' work with the Jacket forward wall has earned him the highest praise, and there is every reason to feel confidence that future Tech lines will set the pace in the SEC.

Dwight Keith was coach of all freshman sports from 1942 until his appointment as varsity backfield mentor in 1945. Since that time he has done a superb job of developing scat-backs for Coach Dodd's deceptive "T" attack. Until the summer of 1948, Keith also served as Publicity Director for the Jackets and equalled his performance on the practice field.
Although the Yellow Jackets did not have a really outstanding season, two of the first team were picked to All-American first team selections. Co-captain George Brodnax was chosen at end, and Bill Healey earned a guard spot on the nation's top football honor group. Both boys were truly great. Their play throughout the season was consistently superb, and they sparked both offensive and defensive play for Tech.

Fullback Frank Zeigler brought wild cheers from the stands every time he carried the ball. He had no equal in the south for sheer power, and his quick kicks set our opponents back on their heels on numerous occasions.

Co-captain Jimmie Castleberry received only a part of the praise that was due him for his courageous, aggressive play at end for the Jackets. His election as Co-captain attests to his popularity with his team mates both for his playing ability and for his leadership talent.
The 1948 Georgia Tech football squad was one of the most colorful in recent years. The team led the country for defensive play and was among the leaders in passing offense. Handicapped by a lightweight squad, the Jackets won seven of their ten game schedule, dropping close contests to Tennessee, Alabama, and Georgia.

The season's play brought out several outstanding players, among them a number of second and third year stalwarts of whom much is expected in future games. To mention a few, Dick Harvin, sophomore end, Bob McCoy, sophomore halfback, Frank Zeigler, All-Southeastern fullback, and a senior, George Brodhax, who was Co-captain and an All-American first string end, Bill Healey, also a first team All-American at the guard spot, Lewis Hook, a 165 pound terror at center, and pint-sized Jimmie Jordan, who showed the big boys how in the Tech backfield.

Despite the three losses, the season provided the utmost in thrills, spectacular individual performances, and good football.
Opening the season in Nashville, the Jackets backed up the pre-game predictions with a 13-0 win over the Commodores of Vanderbilt on September 25. Quarterback Joe Brown, who couldn't pass, according to advance notices, literally won the game with his infallible tosses. The first score came in the second period when Brown flipped a 23-yard aerial to Dick Harvin in the end zone. It was Harvin's first play in his college career. Dinky Bowen's point gave Tech a 7-0 lead.

Early in the last period, Brown took the ball on a reverse and hit Jimmie Jordan who scampered 22 yards to score. The extra point was blocked.

It was Tech all the way, as Vandy threatened only once. The Tennesseans failed to muster a first down during the first three quarters, an indication of the defensive play of Hook, Healey, Brodnax, and Zeigler.

A bright spot for the Gold and White was the punting of Buster Humphries who bettered 40 yards per try.

Jimmy Southard shared passing chores with Brown, and the effectiveness of the Tech aerial game hinged to a large measure on the glue-fingered flankmen. Bob McCoy's pass defense was air-tight, and Dinky Bowen did more than his share of blocking to help shake loose the Jacket backs. Bill Healey's line play prepared the fans for his ultimate selection as All-American.
Tulane Coach Henry Frnka brought a rough-tough eleven to Grant Field on October 2, but the Jackets deception earned them a 13-7 victory.

Fullback Frank Zeigler teed off against the Green Wave early in the contest with a 53-yard touchdown jaunt. This was just a sample of Zeigler's afternoon's work as he ripped the Tulane defense to pieces. Quarterback Jimmy Southard pushed across the other Tech score in the second quarter after setting up the tally with a 40-yard toss to Bob McCoy.

The Green Wave marker came in the second frame climaxing a 62-yard drive.

Tech was superb on defense, limiting the New Orleans club to a meager 90-yards gain on the ground.
The Gold and White ran the string to three straight wins as they walloped a game, but outclassed Washington and Lee team 27-0 on Grant Field October 9.

Jimmy Southard was the offensive star of the day. He master-minded the Tech "T" formation and flipped two touchdown passes, as the Jackets rolled up 218 yards gained on the ground and 113 via the air. Washington and Lee could muster only 58 ground yards, but Mike Boyda, rubber-armed General quarterback connected with 16 of 34 passes to net 166 yards in the air.

Tech pushed across a score in the first period on Frank Zeigler's 4-yard plunge, a pair in the second quarter on passes by Southard to McCoy and Queen, and the last tally in the final frame when Bob McCoy southpawed a pass to Jimmy Petit.

Tom Coleman set something of a record for tackles; he and Bill Healey made most of the stops during the game.
Thirty-eight thousand fans saw Tech hang up its fourth straight win at Grant Field on October 16 in a game interrupted by a free-for-all involving spectators as well as players.

Ever-dependable Southard chunked to Harvin for 31 yards and a score late in the first quarter, and Jimmie Petit found Jim Nolan for another in the second period.

Tech held the Tigers to a startling minus four yards rushing while the Jackets rolled up 113 on the ground.

Bob McCoy and Frank Zeigler led the Engineer running attack, and Joe Brown shared passing honors with Jimmy Southard, who completed 14 of 22 aerials for 257 yards.
Florida’s Gators, twenty points shy in the pre-game figures threw a scare into the 40,000 Tech fans in the renewal of rivalry between the two schools on October 23 in Atlanta.

Marching 55 yards in a sustained drive early in the first period, the Orange and Blue became the first team in the young 1948 season to lead the Jackets. Chuck Hunsinger All-SEC halfback ripped off long gains almost at will to set up John Cox’s score. Tech snapped back in short order and scored twice in each of the last three periods. Early in the second stanza, Frank Zeigler climaxed a 74 yard drive by the Gold and White.

Zeigler again counted for Tech with Joe Brown passing and running the ball to the Florida three.

Southard went nine yards in the third quarter to register, and Dinky Bowen added the PAT. Bowen kicked six for six during the afternoon.

Joe Brown hit Dick Harvin in the end zone for number five. Morris Harrison and Bobby North scored in the final frame as the reserves took over.
Showing their best offensive power of the season, the Gold and White took Duke into camp in a rough-tough game played in Durham on October 30.

A blocked punt set up the only Duke tally. In the first period DeRogaris blocked Humphries punt and the Blue Devils scored in two plays to lead 7-0. Jimmy Southard dropped a 49-yard pass into the arms of end Jack Griffin for six points, but the PAT failed, and Tech trailed 7-6 as the second period opened. Two more Tech scoring threats were squelched before the first half ended.

In the second half, it was Tech all the way. Jordan ran 33 yards to the Duke 27, and the Devils watched Zeigler bull over from the one. In the third frame, the Jackets marched 55 yards in 13 plays. Joe Cobb scored the final Tech touchdown as he dashed over from the seven.

The Yellow Jackets outclassed the Durham lads in the statistics going for 199 yards on the ground to 19 for Duke. In the air however, Tech was edged 147 yards to 129, although the Jacket aerials were more effective.

Tech’s deception did not become fully effective until the second half, but then Dodd and company swamped the stubborn Devils. Jimmy Jordan was easily the outstanding man on the field. The mighty mite was like a greased pig as he zipped through the Duke team almost at will.
At Grant Field on November 6, a gang of Volunteers from the University of Tennessee halted the Yellow Jackets' eighteen home game win streak as they capitalized on breaks and a muddy field to down Tech 13-6.

General Neyland's lads cashed in on fumbles by their heads-up ball playing. Frank Zeigler let the wet ball slip through his fingers behind the goal line and Slack recovered for Tennessee, and the Vols led 6-0.

Five Jacket drives were stymied during the first half as Tech tried desperately to recover from the shock of the early game miscue. In the third quarter, Bob Lund snagged a pass from Hal Littleford and sidestepped his way to score. The play went 53 yards.

The light weight Jacket squad could not sustain a drive until the final period when the Gold and White rolled 80 yards for six points.
On November 13, before a stadium full of revenge hungry fans in Grant Field, the Jackets fell 14-12 before the Crimson Tide of Alabama. Clay Mathews, Lewis Hook, and Tom Coleman played heads up football for the Gold and White, but their efforts were not quite enough to stop the underdog Tide.

Jimmy Petit’s fumble on the Tech five gave Alabama its first score, Cadenhead going over. There was no more scoring during the first half as both teams battled on even terms.

Dinky Bowen covered 31 yards in two plays to tally for Tech as the second half opened. Southard’s passing set up the second Jacket marker, as it had done so often during the season.

An intercepted Jacket aerial by ’Bama’s Speed went 62 yards for the winning TD.

The Yellow Jackets again outshone their opponents in statistics but could not find that scoring punch. Tech rolled up 153 yards to ’Bama’s 124 on the ground, and completed 11 of 17 passes for 164 air yards to Alabama’s 65. Tech counted twelve first downs while the Tide got ten.
The Citadel visited Grant Field on November 20 as a breather for the Jackets before the Georgia game, and the Cadets succumbed 54-0 before a vastly superior Tech eleven.

The Jackets set a new SEC record for yards gained in a game—they rolled up 710 during the afternoon.

Bob McCoy and All-American end George Brodnax each accounted for two touchdowns, and Dick Harvin, Billy Queen, Al Lansing, and Buddy Fowlkes each scored once.

Guard Hayes McKinney tried vainly to score from the fullback spot. His reward was to be a new automobile, but on his last play the scrappy lineman was taken from the game with a broken ankle.

In spite of the Jacket lead of 34-0 at half time, the Citadel never stopped fighting.

Whelan, Gregory, and Fabian earned as much praise as any player on the field.

Bob McCoy's 87 yard touchdown jaunt and Red Patton's 23 yard jump pass to Brodnax were the high spots of the contest.
In the annual all-out Tech-Georgia clash, the Jackets found the combination of Rauch and Geri too tough to overcome. In the muddy Stanford Stadium on November 27, the Engineers suffered from lack of weight against the power and brawn of the Bulldogs. The Jacket defense was stubborn but outguessed.

Rauch passes, Geri and Maricich on foot carried the Red and Black to their first score. The game formula added another as Tillitski bulled over from the four.

An intercepted Tech pass from the Georgia 16 robbed the Engineers of a first half score.

Clay Mathews blocked Geri’s punt in the third period, and Brodnax caught the ball on the bounce and fell into the end zone for Tech’s first touchdown.

A Georgia punt return went all the way and the Bulldogs led 21-7. The Jackets caught fire and marched to pay dirt in ten plays from their own 39. Passes by Southard and runs by McCoy and Queen put the ball on the four where Bowen skirted left end to score.
THE TECH BAND AND CHEERLEADERS

The band shows its marching precision.

Tech's cheerleaders worked hard on this one.

Schlosser — up and over.

Head man Anderson.

Attaway and Hullinger.

The band's version of the Ramblin' Rock.

Chuck Farrell.

On parade in Durham.
Throughout a none too impressive season, several of the Jacket freshmen showed promise of being the stars of the next three years on the gridiron for Tech. Darrell Crawford seemed sure of seeing plenty of action at the signal calling post. His passing was first rate and his field strategy canny. Pete Ferris, glue fingered flankman teamed with Crawford in the frosh aerial attack. George Maloof, a local product, ran at fullback and displayed drive and deception.

The Junior Jackets split the season, losing to a powerful Auburn team and lacing Georgia. The Tech ground attack bogged down against the Plainsmen and the Jackets went down 14-12. Crawford to Ferris was the scoring equation.

Playing host to the Baby Bulldogs on Thanksgiving, the Jacket frosh fought to a 7-7 deadlock and then Harkness booted a perfect field goal to give Tech a 9-7 victory. The game was marked by rough, excellent play by both teams. The passing of Darrel Crawford was the equal of any seen on Grant Field during the entire season. Maloof, Sheffer, and Patterson were nearly flawless in the backfield for Tech.

The pre-season games the 1949 Gold and White Cagers rolled over Birmingham-Southern 75-45, Howard College 62-42, and Chattanooga 81-45, giving Tech fans hope of a successful season.

However in their first conference tilt the Jackets fell 73-52 to Tulane in New Orleans and in Baton Rouge the following night dropped number two to L.S.U. 65-59. Nolan got 17 against the Green Wave, and Dold hit 19 points against the Bengals.

In a startling upset, Auburn's Tigers toppled the Jackets 41-33. Dold swished 10 points for Tech.

Bouncing back with the starting five of Anderson and Sermersheim at guard; Dold and Keener, forwards; and Nolan at Center playing the entire game, the Engineers walloped Alabama 51-38. Nolan netted 21 points and Mel Dold hit 13 for Tech.

The mighty Kentucky Powerhouse rolled on with only occasional opposition as Tech went down 56-45 before Adolph Rupp's boys. Tech outscored Kentucky in the last half but could not overcome their All-American opponents' lead.

Tulane did it again, 56-49, in Atlanta after the Yellow Jackets lost 74-60 to Georgia. The loss of Jim Nolan on fouls wrecked the Tech attack against the Bulldogs, and the towering center hit 20 points against the Green Wave. Tech led 29-23 at half time.

Little Mickey Sermersheim hit 19 points from the center to spark Tech to a 56-49 lacing of Georgia's Bulldogs in the second of the three game series.
Tennessee brought Paul Wathier to Athens and the flashy forward scored 26 points as the Volunteers won 63-56. In a return tilt, the Jackets snatched a 72-71 overtime victory from the Volunteers. Benny Regis- ter, reserve guard, dropped in the winning basket. Tech dropped another to L.S.U., 72-63 as the Bengals roared to life in the final minutes of the game. Nolan scored 15 points to pace the Jackets.

Journeying to Durham, the Techsters took a 53-42 licking at the hands of a strong Duke squad. Mel Dold and Jim Nolan each racked up 12 points.

Barry Blemker, understudy to Nolan at center turned in one of his best jobs against the Florida Gators as the Jackets won out 57-49. It was two in a row over Georgia as Tech eked out a 60-58 win over the Bulldogs in the Tech gym.
minutes before the final whistle. Nolan dropped in eighteen markers and limited Bob Schloss, Georgia center, to ten.

Playing without the services of Captain Nolan, the Tech basketeers travelled disastrously to Lexington where they took a 78-32 drubbing from the Kentucky Wild Cats.

Tech walked off with a 64-57 win over the Auburn Plainsmen in a return battle, Nolan scoring 16 points.

Closing a none too gratifying season, the Yellow Jackets conquered a stubborn University of Florida five 66-56 in Gainesville. Mickey Sermersheim and Mel Dold shared scoring honors with 15 points each. Tech led 34-32 at the half.

The Engineers won eleven out of 23 for 1949, but several of their defeats were heart breakers.
Schoening’s jump shot is good for two points.

Keener drives under.

Anderson sinks it in spite of Schloss.
The 1948 Baseball Team

Capt'n Hook

Kair

Stewart

Childress

Coaches "Uncle Joe" Pittard and "Whack" Hyder molded a top notch team for the 1948 season from a nucleus of six veterans, and the Jackets finished the campaign with eleven won and seven lost to take runner-up slot in the Eastern Division of the SEC.

After a 16-1 warm-up lacing of Ft. McPherson, the Jackets took two straight from Vanderbilt and a duo from Tennessee. Little "Monk" Jordan at short sparked the Gold and White in the first Vandy tilt as Dick McMillin racked up his first win.
Henry Kalb limited the Vols to three safeties to win the opener 9-1, and centerfielder Hank Lankford slammed a home run with a man on to give the Engineers a 9-7 edge over Tennessee in the finale.

Auburn’s Tigers, behind the slants of Willard Nixon, top pitcher of the conference, served Tech its first setback of the season, 17-4, but “Old Man” Henry Kalb bested the Plainsmen in the nightcap 10-8 with the aid of three round trippers.

The Vols from Knoxville suffered again as Sunset Thompson’s relief hurling saved Tech’s 14-8 margin. All-American cager Paul Walther gave up only seven hits in the second game of the series and Tennessee won 8-4.

Tech’s third loss was the work of the Kentucky Wildcats. Sunset Thompson’s injured leg forced him from the game with a three run lead, and Henry Kalb, coming in from right field without a warm-up, allowed six hits to give the Lexington lads a 7-5 win. Dick McMilin weathered one shaky inning in going the route in the final game of the series as the Jackets won 18-6. Captain Henry Schoening poled homers in both contests.

Returning the Wildcat’s visit, Tech dropped the first game 5-4, but overpowered the Kentucky nine 12-8 in the nightcap.
The SEC Eastern Division crown was at stake as the Georgia Bulldogs tripped Tech 11-9 in Athens. The Jackets outhit Charlie Trippi's charges 14-10 at Rose Bowl Field to annex the finale of the meeting. The first game went twelve frames.

Pennant hopes soared in the Jacket camp when the Gold and White journeyed to Auburn and dumped the division leaders in both ends of their series. Henry Kalb walloped four singles and a triple in six trips to push across six Tech tallies and score four himself in the first game. Willard Nixon, Tiger mound ace suffered his only defeat of the season in the second game. The Yellow Jackets shelled Nixon for six markers in the twelfth frame to break a six inning deadlock.

The double win boosted the Jackets to within a half game of first place.

Ironically, Georgia killed Tech's flag hopes by sweeping the last series of the year for the two arch rivals. The Bulldogs out-hit the Jackets for a 13-11 edge in the initial game and served up an 8-3 lacing to end the season.

The Yellow Jackets finished the campaign with a sensational .307 team batting average with eight men topping .300. Freshman Bob McCoy slapped five homers.

J. B. "Sunset" Thompson led the hurlers with three wins against no losses. Henry Kalb and Dick McMillin both registered 4-3 records.
Despite costly injuries throughout the season, Coach Norris Dean's 1948 track squad went undefeated in the season competition, placed fourth in the Southeastern Conference meet at Birmingham, and walked off with the SEAAU title.

Prior to regular conference competition, the Yellow Jacket thinclads entered the Florida Relays on March 27 in Gainesville and copped first in the broad jump and the 440 relay. Buddy Fowlkes gave a preview of his season's performance when he leaped 22'-10" and ran a brilliant anchor position to give Tech its two wins.

As the SEC grind got under way, Florida's Gators came to Atlanta on April 3 for a two way tiff with the Engineers. Tech's power-balanced squad rolled to a crushing 87 1/6 to 37 5/6 victor. It was Fowlkes again as the Jacket iron man won the 100, 220, 220 low hurdles, and the broad jump. George Bailey and Billy Queen followed to cinch all three places for Tech in the 100 and the 220. Jack Corridan and Red Smith, ever dependable, romped to victories in the mile and two mile runs, respectively.
CINDERMEN

The Jackets stepped out of the SEC for their next dual meet and journeyed to Chapel Hill on April 10 where they won over North Carolina 69-62. Billy Queen, Bobby Joe Anderson, Al Lansing, and George Bailey took the mile relay, the last event of the meet, to give Tech the victory. Herb Bergman heaved the shot 48 ft. 8 3/4 in., and Bob Renshaw bettered the Tech half-mile mark with a 1:56.4 time.

Win number three came for the Jackets at the expense of the Tulane Green Wave in New Orleans, 69-62 with the mile relay the deciding factor. Bergman scored a double in the shot put and the discus; Tommy Coons won the high hurdles, and Bill Reiser and Frenchy Legette tied for first in the pole vault.

Five track records fell during a three team meet as the Gold and White trounced Tennessee and Georgia in Athens on April 24. Coach Dean’s boys amassed 93 1/2 points to 40 1/2 for the Vols and 28 for the Bulldogs. George Bailey did the 220 in record time of 21.7 for Tech’s only record smasher. The Jackets took eleven first and eight second place honors.

Duke’s cindermen became the next victims of the Engineers on May 1 at Grant Field. Despite the herculean efforts of Roger Neighborgall, Blue Devil middle distance ace, Tech pounded out a 78-53 decision. Red Smith took both the mile and two-mile, and George Bailey copped the 100 and 220.
In its last dual meet of the season, the Yellow Jackets jumped on Auburn at Grant Field and took the measure of the Plainsmen by a 73 1/2 to 52 1/2 score on May 6. Bailey repeated his doubleton in the 100 and 220; Tommy Coons ran brilliantly to upset Auburn's Domedicus in the low hurdles; Al Lansing won the 440; and injured Buddy Fowlkes tied for first in the high jump.

Birmingham was the scene of the 16th annual SEC Track meet May 15 with LSU a heavy favorite to repeat its 1947 victory.

Despite his bad ankle Buddy Fowlkes jumped 22 ft.-11 1/2 in. to win the broad jump, and sophomore Bob Renshaw served notice of future greatness as he turned the 880 in first place time of 1:56.4.

Tech's best efforts netted them only fourth place as the favorite, LSU, Auburn, and Tulane finished in that order.

Little Billy Queen came out of relative obscurity to win the gruelling 440 yd. hurdles as Tech snapped back into form to annex the SEAAU title in a meet on the Grant Field oval May 22. Queen had never run the hurdles in competition but his experience as a sprinter carried him across the tape in record time of 57.2, a new SEAAU mark. Tech and Auburn battled on even terms until Queen's amazing victory, and the Jackets added unneeded points with a second place in the mile relay.

The Tech Freshmen previewed future triumphs for the Yellow Jackets winning two dual scraps and a four way tussle. Walt Mitchell and Shiver were outstanding for the Junior Jackets.
SWIMMING

TENNIS

GOLF

GYM

WRESTLING

CROSS COUNTRY
For the Yellow Jacket swimmers 1949 was the best season in years. The Tech Tankmen dropped a decision to the University of North Carolina for their only defeat of the season. Victorious in all other duals meets, the Jackets annexed the SEAU Championships in Miami and edged Georgia to win their third straight Southeastern Conference Crown.

Tech jumped on Emory in the season’s opener and rode to a 57-18 triumph. Charlie Flowers, Tommy Fowles, and Oscar Crouch, Tech’s relay team set a new S.E.C. record of 3:07.2. Fowles also won the 200-yard breast stroke went in record time of 2:35.8. Team Captain Johnny Hiles copped both the 220-yard and 440 yard free-style.

The Jackets journeyed to North Carolina and edged N. C. State 39-36, only to go down 28-47 to U.N.C. Hiles took first in the 220 and 440 free-style at Raleigh and won the 220 free-style at Chapel Hill.
Against Duke's Blue Devil swimmers, the Tech men got back on the credit side and defeated the Dukes 40-35. The Jacket relay trio again bettered their S.E.C. mark in 3:06.7 time. Fowles churned to victory in the 200-yard breast stroke, cutting 1.8 seconds from the Conference record.

Johnny Hiles and Florida's Billy Pepper, scrapped neck and neck in the 220-yard free-style when the Gators visited Atlanta. Hiles moved out in front during the last 20 yards to edge Pepper, his close friend of high school days. Tech went on to a 46-29 victory over Florida.

Georgia, the final dual meet Tech opponent, offered unexpected fight and pushed the Jackets all the way, only to fall 38-37. Fowles and Griffin finished one-two in the 200-yard breast stroke to give Tech the margin.

In the SEAAU, Miami's Hurricane tank squad were within one point of the Yellow Jackets until the Tech relay team splashed to victory and the championship.

Tech and Georgia were deadlocked midway in the S.E.C. meet. Flowers, Fowles and Crouch, in the final event, again copped the relay to overcome a 60-59 Georgia margin. Captain Johnny Hiles established a new conference mark in the 440-yard freestyle, lowering it to 5:01.3.
Georgia Tech's netmen, sparked by Dick Collier and Ed Adams, romped over their Southeastern Conference competition during the 1948 season, emerging the victors in nine of twelve matches. The Jackets placed a close second to Tulane in the SEC tourney in New Orleans.

Tech opened shakily against a top-notch Davidson team and fell 8-1 on the Peters Park courts.

On April 10, the Engineers played host to Florida's Gators by trouncing them 5-2 in Atlanta, the first conference victory.

Coach Shorty Bortell's squad toured to Athens on April 14 and brought home an 8-1 win over the Georgia Bulldogs.

April 18 saw the Jackets on the road again, swamping Tennessee 8-1, and on the 23rd the Gold and White downed Vanderbilt 7-2 in Nashville for their fourth straight victory.

The following day in Lexington, Tech whitewashed Kentucky 9-0.

Auburn came to town on April 28, but their welcome was a sorry one as Tech took a 7-0 match to run its string to six in a row.

The 1948 SEC champs from Tulane handed the Jackets their first

Southeastern Conference Tournament—Tech, 2nd place.

THE SQUAD

Dick Collier  Tom Fowler
Ed Adams      Frank Owens
Bert Warsham  Bill Johnson
Tim Durrett

The conference set-back 5-0 on May 6 at Peters Park in a match that was shortened to enable the Greenies to catch their train. In the feature singles battle, Dick Collier extended Jack Tuero, former southern champion, to three sets before being bested 2-6, 7-5, 8-6.

The following Saturday, Duke’s Blue Devils edged Tech 5-4 in Atlanta in the last dual encounter before the SEC tournament.

Ed Adams, No. 2 Jacket netter, stole the show at New Orleans on May 15. The two-handed star from Columbus, Georgia, steam through his first and second round tests and then accomplished the impossible by downing Tulane’s Jack Tuero, 0-6, 6-4, and 6-1. Wade Herrin, also of Tulane, dropped Dick Collier in a third round match and went on to take the measure of Adams in the singles finals. Tech’s doubles combination also fell before the Green Wave in the final match.

Winding up the season at home, The Yellow Jackets aced Georgia 9-0 on May 22.

The squad’s record of nine wins and three losses speaks for itself of the spirit and skill of the team and their coach, E. E. Bortell.
Under the expert and aggressive leadership of Coach Lyle Welser, the Georgia Tech gymnastics team continued its climb toward being a major sport and showed the way in the southeast in the increasing popularity of gymnastic exhibitions.

Many new members joined the squad after developing their ability and interest in physical training classes, and these men have proved to be valuable additions.

During the basketball season, Coaches Welser and Neiger exhibited their well-trained charges in frequent performances during half-time periods at the Tech home games. The small number of spectators who left the gym during the half-time break attest to the interest and popularity of the sport.

On March 12 some twelve hundred fans witnessed the third annual home gym exhibition and were thoroughly delighted by what they saw. The squad formed 16 man pyramids; formed intricate tableaux depicting various sports, the machine age, co-operation, and aspiration, in which the dozen men participating were completely covered with bronze paint; as well as going through intricate free arm drills.

Co-Captain Dick Gunter displayed his remarkable skill and muscular control in feats on the flying rings, the high bar, and in hand to hand balancing.

A note of comedy was included in the exhibition as Judy Attorney and Neal Rothfuss cut capers on the high bars to the immense enjoyment of every spectator.

In their first competition of the 1949 season, the Yellow Jacket gymnasts lost in a three-way meet with Maryland and Duke. The experienced Maryland squad amassed 50½ points, Duke 15, and Tech 14½. Results of the meet found the Techmen taking second place in the long horse event, fourth in the rope climb, fourth place on the rings, a third place tie on the parallel bars, third on the side horse; and third and fourth places in the tumbling.

In a dual meet with the Duke Blue Devils, Tech gained some measure of revenge as they bested the Durham team 87-41 in the Tech gym. Hey, Clemons, Stewart, Trevino, Garner, Hardin, and Wolf captured first places for the Jackets.

This was the only dual meet of the season for the Jackets; however, the
Southeastern Committee on Gymnastics is attempting to get teams formed at Florida State, Georgia, Emory, Alabama, and Auburn.

Winding up the official season, the Tech squad completely dominated the SEAAU meet at the Tech gym, winning both the junior and novice division crowns.

In the junior competition, the Jackets rolled up 86 points, while Duke scored 24, L.S.U. 24, Georgia 16, G.M.A. 11, and Howard 9. Neil Rothfuss took first place on the high bar, and F. D. Garner was number one on the flying rings. After a very close battle, Dick Gunter nosed out Turner of L.S.U. for all-around honors.

Taking firsts in all events, the Gold and White scored 61 points to win the novice title. Duke was second with 38 1/2, and L.S.U. took third with 11 markers. Pippin won the parallel bar event, Clemons took honors on the high bar, Becker had the speed to win the rope climb, and Hey and Benning added points by winning the tumbling and flying rings respectively.

Members of the squad and Coaches Welser and Neiger can take pride in their work for the year and point for greater strides next season.
The 1948 cross-country season was indeed a successful one. Tech conquered Georgia, Florida, and Tennessee in dual competition. Injuries to Gunn and Glover crippled the squad in the meets lost to Duke and Auburn.

In the SEC meet, still without Gunn and Glover, the Yellow Jacket harriers were edged at the wire as Auburn won the meet by one point. The work of Red Smith was outstanding throughout the season, as he won every dual meet except the Auburn encounter. Overton, a former Olympic star, bested Smith, but the tables were turned in the SEC meet, and Smith became conference champion. John Corridan showed vast improvement and placed third in the conference battle.

The squad holds promise of a really great season in 1949.

SOUTHEASTERN AAU WRESTLING TOURNAMENT SUMMARY

By R. N. MILLER
Georgia Institute of Technology

The Southeastern AAU Wrestling Tournament was held at Georgia Tech in Atlanta, Georgia, on March 4th and 5th and proved to be the biggest wrestling tournament ever held in the South. Almost 100 wrestlers representing ten different teams were entered. Auburn, Baylor, Chattanooga, Emory, Georgia Tech, Georgia Tech Freshmen, Maryville, Vanderbilt, Atlanta YMCA, and Nashville YMCA were represented. Several Navy teams would have entered but for a Navy Tournament which was held in Pensacola that same week-end.

Despite stiff competition, the well balanced Auburn team dominated the meet and scored 63 points. Chattanooga was second with 27 points while Georgia Tech and Maryville tied for third with 22 points each.

The competing teams did not wish to wrestle under AAU rules so the NCAA rules were followed in the matches. One of the features of the tournament was a rules interpretation meeting in which coaches and officials agreed on all questionable points in the rules before the tournament began. This session enabled the tournament to proceed with an unusual degree of smoothness and should also aid in bringing about uniform officiating in the South. The tournament matches were exceptionally well officiated by Lou Bauerle of Illinois and Charles Adams of Springfield College.

Interest in intercollegiate wrestling in the South reached a new high this season. The average attendance at Georgia Tech's dual meets was 1400. Additional interest was created by television broadcasts of most of the home meets. Over 1000 spectators were present at the tournament finals despite the competition of the state basketball tournament.

SOUTHEASTERN INTERCOLLEGIATE TOURNAMENT

Swan, Clay, and Green Qualified

The 1948 Tech golf squad shot a good bit better than par for the course during the season, winning nine matches and losing five.

Duck Swan, playing in the number three slot, provided the outstanding thrills of the season. He carded a 37-36 for a medal 73 in the Southeastern Intercollegiate Tournament at Athens, and later against Kentucky, Swan shot a double eagle to pace the Jacket linksmen to a 14-4 triumph.

Gordon Clay was ever dependable in match play and played in the number one position. Tom Green completed the top three aces and consistently added to the Tech victories.

Coach Dennison, who is also the head of the Industrial Management Department, deserves much praise for his skillful handling of the Jacket golfers.

With Clay, Green, and Swan returning in '49, Tech links enthusiasts hold high hopes for an even better season.
INTRAMURALS
FOOTBALL

Intramural football at Georgia Tech is characterized by hard line play, much passing, and many bruises. The rules are the same as in varsity football except that the game is supposed to be two handed touch instead of tackle. This year saw 38 different teams in spirited action. All the teams were well rounded and lots of spirit.

Perhaps from the final results the Sigma Alpha Epsilon would be considered the best individual team. They finally won the school fraternity championship title. It is interesting to note that they were tied three times which games they played again to win. This shows the high spirit and closeness of the teams.

High scorers were: Ludlow 38; Brownlee 36; Jones 30; McClanahan 30.

Scoring passers were: Ingram 63; Hensen 43; Milam 43; Sproesser 42.

Klosteman, Fancher, and Pound starred for the Sigma Alpha Epsilon team.

In the independent leagues Lawson finally nosed out Callaway in an extra quarter to win the Block league championship. In the independent playoff Newman and Lawson tied their first match. In their second match Lawson finally won a hard fought campaign.

BASKETBALL

Ranking as one of the top three intramural sports in popularity, basketball attracted 46 teams representing fraternities as well as independents. The games followed the varsity schedule and were played in both the gym and armory courts.

Chi Phi, Delta Tau Delta, Sigma Phi Epsilon, Chi Psi, Geechie Club, Techwood Dormitory, and the Smithies were the victors in their respective leagues. SPE won the fraternity play-off title, and Techwood Dormitory annexed the independent championship.

An added feature of this year's play was the round-robin between teams representing the four classes. The seniors carried off the trophy, and each man on the team was presented with a medal.
SOFTBALL

One of the three major intramural sports, softball runs concurrently with the varsity baseball season and far outstrips the latter in attendance. The fraternities and other organizations are grouped into five leagues with each team playing all the other teams in its league twice. The games are scheduled on week-end afternoons on the four diamonds on Rose Bowl Field.

The distribution of the many teams into leagues was very successful and resulted in hot championship drives in all leagues.

INDEPENDENT LEAGUE CHAMPIONS
Baptist Students
Twenty teams totaling three hundred participants made the 1948 intramural track meet one of the most successful innocent years. Sporting a squad strong in the speed and distance events, the Alpha Tau Omega entry took first place with 36½ points. Phi Delta Theta scored 24 points for second; Chi Phi was third with 21, Sigma Chi fourth with 19, and Kappa Alpha trailed making 17.

The meet was sponsored by the Spiked Shoe Club, a national honorary track organization.

Physical training classes had a definite effect on the quality of the individual performances.

The largest single crowd to attend an intramural sports event cheered lustily during all the competition.
**SWIMMING**

Early in the spring quarter of each year the intramural swimming meet is staged in the Tech pool with the majority of the organizations on the campus represented. Very unlike a regular swim meet, the intramural battle features a tug-of-war and an egg race in which each contestant must swim the distance holding in his mouth a spoon which in turn supports an egg. Needless to say, the contestants as well as the spectators are royally entertained throughout the meet. Offsetting the comic aspect, many stellar performers exhibit their talents at the annual meet, and more than one varsity stalwart was discovered during the intramural events.

VOLLEY BALL

Volley ball is team play at its best. This is a game of skill, position, setups, and spikes. Many of the teams play this game all year around and during the league play have garnered a well rounded and high spirited group.

Each team is composed of six men, usually mixed with short and tall. Most points are scored when a good setup is played to the net men who try to place the ball or spike it to the ground.

Outstanding players of this season were Klosterman and Smith of the champions and Cook and Henry of the runner ups.

GOLF

When the spring time breezes begin each year, students by the score appear at the many golf courses around Atlanta. North Fulton Park is the scene of the annual intramural golf tourney which draws entries from most of the fraternities and independent groups on the campus. More than one hundred men were grouped into six flights. The champion, Tom Bachman, was presented with a medal as were the flight winners. Also, the three top fraternities as determined by point score were awarded cups.

Beta Theta Pi 12 points
Alpha Tau Omega 6 points

BOWLING

Intramural bowling attracts perhaps the greatest interest among the non-varsity participants, with 24 teams encompassing some three hundred individuals entered in the competition. Because of the popularity, the teams roll duck pins. The five members of the winning team each receives a medal, and the team receives a trophy.

Mike Goldstein bowled the high game of the 1948-49 season registering a remarkable 190, while Whickers had the high average of 112 for the season.

PLAY OFF

Pi Kappa Alpha 8-1
Phi Kappa Tau 5-4
Tau Epsilon Phi 3-6
Kappa Alpha 2-7
WRESTLING

This year saw some twenty teams entered representing about 300 different entries. The elimination bouts were run over a period of one week. The final matches were held in the gym. Good sportsmanship, good refereeing, and speed of bouts added to the interest of the crowd. From the looks on some faces, get in shape before you try this. Sigma Chi was presented the winners cup.

Heartiest congratulations from the Atlanta Biltmore, where you and yours have enjoyed many a happy hour. We hope you will return again and again to partake of our unique combination of indoor and outdoor attractions... and to you who still remain at Tech there is no need to remind you of all the advantages afforded by the Biltmore, not only as a comfortable hotel but as a place for joyous entertainment.
