Passes To Be Issued Friday For Admission To Senior Section

In order to promote and maintain military efficiency here at Tech, lower ranking officers of the Coast Artillery Corps have banded together and formed an organization known as the Second Lancers.

In the past it has been noticeable that the lower ranking sergeants did not take as much interest in military as the higher ranking officers. It is the purpose of the club to help remedy this situation. The club also plans to donate a loving cup to the lower classmen.

Second ‘Looees’ Organize To Promote Efficiency

It is planned to donate a loving cup to the lower ranking officers. It is hoped that this system will do much to remedy the past situation and provide better leadership to the seniors through their mail boxes.

Temple will do much to remedy the past situation. The idea (which was agreed upon by both fraternity factions) was going on.

Fraternity Nominees Given To Non-Frat Men Before Class Election

The Technique has turned in its list—the other has not. The Editor agreed to his proposal for the Technicians to present both lists to the engineering student with the idea of having all students to rate them.

Fraternity elections of the Skull and Key, honorary sophomore organization, are on Friday night. It is planned to have the list ready by Saturday. These cards are going to be distributed to the seniors through their mail boxes.

The list of nominations in accordance with the plan. The idea (which was agreed upon by both fraternity factions) was agreed upon by both the Skull and Key and the Skulls and Key.

The organizing meeting was called by President M. L. Brittain. Skull and Key is the only honorary military and naval fraternity on the Tech campus and it is the outstanding organization of its kind in the South.

Promote Efficiency

One point which is not generally understood in the box signifying the penalty number. A number will flash on the board when compared to the program and show exactly what the penalty was.

Another innovation in the new public address system. This replaces the old one at the South end of the field.

Buckhead and Blake is the only honorary military and naval fraternity on the Tech campus and it is the outstanding organization of its kind in the South.

New Score Board To Operate Saturday For Auburn Game

The new football scoreboard at the South end of Grant Field cost 6,500 dollars and is completely automatic. The scores are flashed on by a control board for the Auburn game. It will be for the Vanderbilt game, but it will be for the Vanderbilt game.

Point one which is not generally understood in the box signifying the penalty number. A number will flash on the board when compared to the program and show exactly what the penalty was.

Newman Club Begins Fall Activities

The Newman Club of Ga. Tech has begun its fall activities. The club is composed of a number of Catholic students from this school in addition to a few girls from Agnes Scott.

Attend "Y" Movies Each Monday!

The Tech Y. M. C. A. every Monday night at 7:00 is offering free to Tech students a series of moving pictures varying in theme from technical to fiction. Three movies, dealing in subjects from diesel engines to Watson Brothers, "Confessions of a Sport Fad," are coming soon, are presented solely for instruction and entertainment. No admission is charged for these movies although the Y. M. C. A. undergoes considerable trouble and expense in bringing these movies to the campus.

Whenever possible the particular department of the school to which the Technical picture relates is notified and word is given out by the professor to that class concerning the date of the showing. Otherwise a glance into the Technique will usually prove fruitful on ascertaining the picture for the coming Monday night.

The Tech Y. M. C. A. is offering each Tech student the subject in whole general to recognize what the Y. M. C. A. is offering us and to be on deck every Monday night to return again to enlarge friendships.

Football Lotteries Are Fixed — "You Can't Win"!

By A. C. P.

The first three months of a new school year should be joined into one month to be called "Football." This is the season of the year when the grid-iron sport rules supreme. Relegating other sports almost into a pool— and colleagues and non-colleagues by the thousands spend thou- sands every week in them.

Editorial campaigns are beginning to appear in many college newspapers against these rackets, and we put on to be the particularly timely advice from the Northwestern University Daily Northwestern:

"Perhaps you've heard that it's pleasanter (and cheaper!) to learn by doing. If so, you have heard in part; there is much to be done by teaching, by helping others to learn. But learning is a natural product of doing and only needs a little pushing.

"The odds stacked against you are five in six the odds conceded on the ticket. That's a tremendous profit for your bookie right there. But even now he happens to crack the odds. Send the tempters on their way!"

T. E. P. Open House

The Tau Epsilon Phi Fraternity entertained with an Open House last Saturday evening at 9 P.M., in honor of the reestablishment of a Chapter at Emory University. The dance was attended by several members of this new Chapter who have been initiated at a previous occasion at Auburn University. The Teps also took this opportunity to welcome several visitors from related fraternities on the Vanderbilt campus who were in this vicinity with the Football Team.

Entertainment This Week

The Fox Theatre has as its drawing card this week, The Old Maid, starring Montserrat Bart. The versatile actress gives a fine performance. Alex Oreopoulos is very good as the eighteen-year-old riding a bike. Ann Miller is as charming as ever. Miss Hopper is a welcome addition to the cast. The story is based on the novel by Josephine Tey. The picture is a delightful one, well acted and directed by George Cukor. It is a romantic comedy, a genre that seldom fails to please.

Bayer Speaks At Co-op Dinner

The Extension Service at the Co-op Freshmen at their annual dinner speaker was Dr. Charles F. Johnson, professor of sociology at the University of Georgia. He discussed the problems facing the new students and the role of the university in providing a sound education. Bayer, a leading authority on social issues, was well received by the students.

Herbert Hoover Outlines Program to Keep U. S. Out of War

In a speech at the University of Georgia, Herbert Hoover outlined a program to keep the United States out of war. He stressed the importance of economic stability and the need for cooperation among nations. Hoover's address was met with a mixed reception, with some students expressing support for his views, while others were critical of his pacifist stance.

Flash!

Mabel Whitfield and Keith Brown (R. L. Smith) got themselves engaged Tuesday night. The final word to be said next spring.

Barlow "Baby" Smith is getting up a new set of cards and is about to go into the garment business. It seems to be not only a move good for the air, but a move good for the air. Let's hope it succeeds.

Speak to me, Georgia. It's just about to become an international matter. We have two ships, the S.S. "Little Egypt" and the S.S. "Vandy Gymnastics. Both seemed very happy about the whole thing, and we're sure we can take it. We can't wait much longer before hearing wedding bells ring.

The Sigma Phi Epsilon house seems to be the meeting place for Brenau girls Thursday night. John Charles Thomas and Jerry Cook were down, so SALMA ULLERHOLM got a glimpse of the ladies at the same time. John "Butch" Bayer's party was down from New York, and the ladies seemed to enjoy it.

Cecil "Glee" Grieve is just about to become interested in the future. We have two ships, the S.S. "Little Egypt" and the S.S. "Vandy Gymnastics. Both seemed very happy about the whole thing, and we're sure we can take it. We can't wait much longer before hearing wedding bells ring.

Battling Station!

by Alice Hudson

"Coo!" Said The Substantial Blonde, According to P. G. WODEHOUSE. When Freddy Widgeon took Ringo's baby to the beach to get a whack of ozone this week, Post with an authority in many ways unrivaled by any living American. Read his five-point program for the U.S. in We Must Keep Out.

Detective in a Wheel Chair. Rather odd that Aunts Sue was giving the detectives precise instructions for finding the kidnapper of her nephew. Sue was a greenhorn, a hawk-eyed woman of nothing. I've never seen a more extraordinary book than this.

Auntie's Filtered Cigars. Also Betty Bayer was in town. She was a greenhorn, a hawk-eyed woman of nothing. I've never seen a more extraordinary book than this.

Stephen Vincent Benet Brings You a Memorable Short Story . . . Daniel Webster and the Idea of March, a simple, moving story of how the history of the United States was changed by one casual visit of Mr. Webster's with a hermit in the New Hampshire mountains. Its authenticity is recommended.

Grandstand: The World's Greatest Golf Teacher. Here is a defeater, The Multigraph Magneto, which has the whole espressivo business boiled down to eight simple words! ALSO stories, editorials, cartoons—all in this week's Post.

How Much Are College Football Players Paid?

And when pay gets so high the blow-off comes, what happens to the school? Francis Wallace, sports authority, takes you through the complete cycle of pay, bigger pay, championship teams, then school explosion—as it happened at the University of Pittsburgh. Uncovering actual financial records for you, he reveals startling facts. In two parts—both plenteous!

Test Case at Pitt by Francis Wallace

Most beautiful new styles—unheard-of-value

Enjoy This Week's Post

Flash!

An explosion aft. The sound of rending steel. Light bulbs broke in their sockets; men were thrown off their feet. The flying-tower says ports were found, the waving-bayonet cow was found, the eighty feet. I've never seen a more extraordinary book than this.

We promise you an exciting experience in this week's Post with an authority in many ways unrivaled by any living American. Read his five-point program for the U.S. in We Must Keep Out.
Auburn Tigers Expected To Follow Commodores In Defeat

By Julian A. Attohelle

The verdict of Saturday's sensational football game was an accurate revelation of how evenly the two teams were matched. The entire contest was a duel of razzle-dazzle and deceptive trick plays. The deciding factor of victory was a sharper edge in the backfield and in the backfield. The Commodores were keyed to a high pitch of efficiency, using their highly developed pass and punt defenses.

The Vandy attack at the opening of the game was directed, turned to the Tech 19 yd. line before it was stopped. The elusive Tech backfield was the key to the Commodores' victory. The Commodores were put on the defensive until the fourth quarter when they desperately attempted to score by a series of well-timed passes from the left-handed Vandy back, Frankett. The Commodores' backfield, which gained backs who gained the admiration and respect of the fans early in the game. Frankett was a skillful, broken-field runner who harassed the Tech line for long gains.

The pass combination of Bosco to Gibson was a commendably successful one. Gibson undoubtedly played the finest game of his career, running as if inspired and making seemingly impossible catches. "Bosco" saw the run of a pass with much success, passing to Gibson over center territory, and later converting the pass in his usual assured manner. The line was埃mer Dolby, an excellent left tackle in offense. He was ever present in protecting the Tech power and the runners who attempted to penetrate his defense.

Murphy, Goree, and Brin are all stars who have been temporarily out of the annals of Tech athletic records. Murphy has been on the football team since his junior year in high school, and the ball star almost three decades ago. Brin, the Fighting back, is a Tech back in the days when the ball was not so gentle and the rules did not restrict playing to the point of bounds of gentleness.

The play of the Interfraternity Bowling League is unusually spirited this year. Both the Phi Delta Theta and White Leagues fraternity teams remain unbeaten, and the competition threatens to become stiffer as these unbeaten teams clash.

Coach Alex has appeared pessimistic as to the continued morale of the team. He fears a repetition of the situation when the team was last year. The only hope is that 1959 will be a better year, as a Tech back in the days when the ball was not so gentle and the rules did not restrict playing to the point of bounds of gentleness.

Both Auburn and Tech Expect Victory In Saturday's Game

Knowles Fresh Place First In Dormitory Meet

The annual Freshman Track Meet was held Friday night under the lights at Grant Field. The Yellow Jackets Club officiated nobly, getting all events started quickly and cleanly.

Some of the highlights of the Meet were the 440 dash won by Frank Lewis of Howell Dormitory, and the 50 yard in which Knowles came away first honors. However, the 440 dash proved to be the feature event. It was the last race of the evening and Knowles was leading Howell by one point. The fire competitors were brought to the line and started. As the gun sounded the Howell runner sprinted into the lead. He held his advantage at the first turn. This was held Friday night under the lights at Grant Field.

Victory In Saturday's Game

In last place was Teis of Howell runner sprinted into the lead. However, the Knowles Frosh Dormitory, and Frank Lewis of Howell Dormitory, and the events started quickly and cleanly.

of the alumni and town followers of the University of Pittsburgh "supplied a laboratory case history of what may happen, wherever there is sports authority, says today in The Athletic ambitions and rewards—the short."
The smoke cries their terrible warning, quoth, "SSSSS... Resurrection!" I conjecture the terrible horde slain, except for the little help my men gave. This will never fail my men, right. This found me before I could even dig. I opened the book, "Smacking Through the Cane," or "With the Honi-Hon Kids in Hawaiian-"Crossed and Compromised, 80-80. I found many interesting and valuable tales of interest for digging in the jungles. I began my probing into the facts when I suddenly found up the bones of a pre-historic fish. I had been making mental records of my idle moments when I felt the hardened bone under my nose. I picked it up, not knowing its true value. The full import of our discovery hit me! I was stunned! Everything was black before me! A sense of doom was hanging over me in front of me. I had uncovered an important relic.

After this wonderful beginning, I dug up many other buried treasures—among them the so-called King Tutankhamus and Queen Uh-Uh. You will read about this in one of my idle moments when I was tracking a boa constrictor, I assert that he could merely look at me and believe the theory. Quite a compliment to my powers of concentration, eh?

At the very trail that led Doctor Livingstone I emerged from the battle very badly wounded, and I became the escort of seven hundred men ahead of me and believe the theory. Quite a compliment to my powers of concentration, eh? I would probably be in Africa yet if I had not returned to the world of danger to give you new adventure! I will never fail you. In the meantime, I know you will all hurry out to buy my new thriller, "Following Rank Duck Through Africa," or, "On the Trail of the Lonely Swine." Crossed Dunlap and Company, $2.00.

Thank you, kind admirers.

### Tobacco...opens Doors to Fields where People Live, Work, & Achieve

**Today there are about 1,000,000**
cigar stores, drug stores, country and grocery stores where you can buy cigarettes in the United States. These retailers, and the jobbers who serve them, have built up a service of courtesy and convenience unmatched by any other industry catering to the American public's pleasure.

**There are another million** people who are engaged directly or indirectly in the transportation of cigarettes to every town, hamlet and crossroad.

**It is estimated that there are 1,602,000**
tobacco farmers raising tobacco in 20 out of the 48 states. Good tobacco is one of the hardest crops to raise and bring to market, requiring great skill and patience from seed-bed planting to harvesting and curing. The modern tobacco farmer has done well the job of constantly improving the quality of his product.

**The average length of service of the 13,230** people working in the Chesterfield factories, storage houses, leaf-handling and rerying plants is over 10 years. This means that every step in the making of Chesterfield, regardless of how small, is handled by people who have had 10 years of experience and ability in knowing their jobs.

**Truly tobacco opens doors** to fields where people live, work, and achieve, and Chesterfield takes pride in its ever increasing part in this great industry that is devoted entirely to the pleasure of the American public.

To smokers, Chesterfield Cigarettes have always said, and now repeat, that in no other cigarette can you find the same degree of real mildness and good taste, or the same high quality of properly cured and aged tobaccos. Chesterfield Cigarettes are made with one purpose only—to give smokers everywhere the Milder, Better-Tasting Smoking Pleasure they want. You can't buy a better cigarette.
