Mr. W. B. Stubbs
Leads Y Club in Spring Concert

First of a Series of Conferences to Be Held Feb. 28.

"How Much of the Bible Shall We
Use in Christian Worship?" will be
the theme of a conference to be held at
10 o'clock, Thursday, February 28, in
the "Y" Cabinet. The conference, under
the direction of the Rev. F. Mitchell
Mullen, will open this new series, for it
is planned that a new conference will be
opened each month beginning with this
one.

Mr. Mullen, who is a graduate of
Emory University, will give the initial
talk. The following questions will be
asked by Mr. Mullen:

1. How much of the Bible is used
in Christian worship, as compared to
how much is not used?

2. Why do these two kinds of
writings differ, both in their
characteristics and in the way
they are considered by Christians?

3. What is the origin of the
writings that are used in Christian
worship?

4. What is the origin of the
writings that are not used in
Christian worship?

5. What is the significance of
these differences?

The conference will be followed by
an open discussion among those present.

Georgia University System Has Faculty Meeting on Teaching

The presidents and several faculty members met last week in Athens, Ga., for a four-day faculty meeting at the University of Georgia. The meeting was called to discuss the teaching of the university's courses.

The meeting was attended by the presidents of the following universities:

- Emory University
- Georgia State University
- Georgia Tech
- Georgia College
- Mercer University
- Morehouse College

Band Schedules Spring Concert For Maj. Garing

Very Lively and Amusing Program Promised By Maj. Garing.

In order to show their professors and guests the kind of music, the boys will play sev­ereral tunes which are popular among the "Y" Undergraduates." William Tell," "Victor Her­rington of 'The Wedding of the Winds.' Better known songs which are popular among the "Y" Class include "The Yellow Jacket March," "The Magnificent Serenade," and "Annie Laur­rie." The former has never heard played cor­rectly, and several other school songs, including "Oyez . . . Oyez," "The Master of Ceremonies," have promised to get new jokes for the occasion. The "band's popularity is a letter of thanks signed in twenty.

(Continued on Page 5)

Mr. F. B. Rees, Dean of the College of Engineering, will address the council on "What Are We Doing to Make Tech a Better College?"

Professor Rees has taken a great interest in the engineering faculty. He has com­mented on the need for a more active recruitment of students who wish to pursue higher education. Professor Rees addressed the meeting on "The College of Engineering and the Future of Tech." He emphasized the importance of continuing education and the need for a strong engineering program.

The Freshman Y Council is planning to hold a tournament in the near future. The exact date of which will be announced in The Technique.

Suggestions Needed For Faculty Squad

Who shall play on the two faculty soccer teams that must be decided soon. The number of players on each team will be limited. The two teams will play each other before the semester ends.

The Tech Debating team was the winner of the "Y" Cabinet's Basic Philosophy Tournament, which was held on Saturday, February 12, at 3 o'clock. Scheduled to lead the discussion in this year's "Y" Cabinet is Mr. W. A. Stubbs, associate professor of biology and religious education.

Also included in the conference will be a discussion of the National Student Federation and its role in Christian worship. The conference will be followed by an open discussion among those present.

Student Election — Politics

In the past it has been the custom at Tech to elect men to school offices on the basis of their political affiliations, and to some extent personal acquaintance. In a couple of months we will be holding another series of elections. In these elections, as in the past ones, the average student will probably be chosen by some mystical intuition of the mind of the average student. Actually it is plain politics and everyone knows it. These people are to be held up as examples of how elections should be conducted. While it is admitted that political affiliations and an athletic record are to be held in account, they are by no means the only factors in the selection of an officeholder. Everyone knows that the average football fan at Tech on a platform? Is it not an indication of a lack of awareness of issues, ability and willingness to work for the good of the student. As it is they unquestionably vote for a man of whom they have some kind of sympathy. If the majority of students even knew the basis on which offices are to be held tonight at East Lake Country Club.

TOMIGHT the annual "Mechanical Ball" will be held at Peachtree Gardens. Bill Maxey and his orchestra will furnish the music and the ball will be at the City Athletic Club postmarks.

How can we improve the quality of life in the Soviet Union? It is easy enough to say that the problems are too complex, the solutions are too difficult, and the results are too uncertain. But the fact remains that the Soviet Union has achieved a remarkable degree of success in the field of economic planning. The government has set ambitious goals for the future and has taken steps to meet them. The results have been impressive. The Soviet Union is now one of the leading industrial countries in the world. The country has made significant progress in the field of education, health care, and social services. The living standards of the people have improved, and the government has taken steps to ensure that these gains are shared fairly.

History Of Georgia Tech
By Paul Peter

The first Ga. Tech faculty was composed of the following members: James R. Park, H. E. C. Swain, Milton P. Higginbotham, Rev. Charles Lane, and R. B. Stetson. The site was chosen by William E. Hammond, H. E. Duncan, G. E. Cooksey, Horace De L. Colquitt, and M. J. T. Mitchell, in conformity with the Acts of the Legislature the locating object of the school, which was to teach the principles of science, especially those which relate to the useful arts and manufactures. The school offered an education of high quality and could provide instruction in the English language, the physical sciences and drawing; at the same time it was decided to teach the students some kind of living. There were elective courses, each student being required to follow the prescribed courses, both mechanical and scholastic. In each department special prominence was given to the element of actual practice in that department. The method set forth for teaching was the same as that which had been followed in the Technological Schools of Europe and at the Virginia Military Institute and was emphasized in those modifications which adapted it to the particular needs of this section.

The school received $20,000 from the State of Georgia, and $12,000 from the city of Atlanta. The latter source of income was to be only for the year from the date of the organization of the school.

And there is to be added as a qualification for admission to the so-called Apprentice Class was the stipulation that the applicant be of good moral character, and of sufficient ability to pass examination, in the following subjects:

Arithmetics, including elementary calculations, fractions, compound proportions, and expression in figures. The students who remained were asked to hold themselves up to the best in their work and should be able to read English fluently, spell accurately, and write legibly.

The school is located on the corner of Peachtree and Broad streets, thirty-five men, all of whom were Georgia boys. There were two classes, the Junior Class, ten in the Middle Class, and two in the Senior Class. No tuition was to be paid during the first year. The school was in cooperation with the Southern Railway Company. Professor J. H. Spies was added to the Mathematics Department, thus bringing the total number of students in the Junior Class, thirty in the Middle Class, thirty-nine in the Senior Class, and eight in the evening. In the Junior Class, fifty-five men. In the Middle Class, seventy-four, and in the Senior Class, eighty-five men. In the Junior Class, thirty-five men. In the Middle Class, thirty-nine and in the Senior Class, eighty-five men. In the Junior Class, five men. In the Middle Class, ten men, and in the Senior Class, fifteen men.

With spring coming on and the prospect of a trip to the beach, many Tech students turn their eyes toward the shore and their wish to break the strain and monotony of their work at Georgia Tech. With this in mind, the students are able to spend some time at the beach.

Henry Heinz and W. K. Hailey, both licensed pilots, have been flying for more than one year. They have spent much time and make numerous trips in some of the planes at the place of manufacture. They are known to be reliable and have been able to land safely at a short distance after a period of time in the air. They have recently returned from a trip to the beach with their friends, and several friends have accompanied them.

Bryan McInerney, R. E. Lee and L. I. Gavre, more or less older students, have had several such flights and are well on the way toward commercial licenses. Jeff Ross, W. M. Johnson, James W. Jones and Charles S. Johnson have all made short flights, and-fluid in the Georgia Tech solo pilots' squadron.

The old custom of buying drinks for a crowd at the beach has come back into fashion of one of the gang, is a popular event among the shore mentioned and it appears as if Jeff Dylan will make his first public appearance at the beach for the first time in a week during the coming week.

There are eight planes at the disposal of Tech students at the Blevins Airplane hangars where licensed pilots are under the control of the instructor. The planes include: Taylor A. D., Curtiss T. E., Wright B. F., and one Waco Cabin ship.

Flying lessons to Tech students had been available at this point, but a sudden cut in instruction cost and the change of the regulations have stopped the discussions doing away preliminary student licenses.

Spring Sport Schedule Announced

Track Team Sees Lack of High Jumpers; Frosh Prospects Good

With the truck rolls dwindled to 125 men, Tech bids to have a varsity team that should win three perhaps four of the six meets; and a freshman team that has fine prospects of being the best freshman team in some time.

The team has fair sprinters in the persons of Jones, Kenenmann, and Parks, who will run the 100, and 220 yard dashes. The main strength of the team lies in the 440, 800, the mile and the two mile events. The team is sadly in need of high hurdlers, broad jumpers, and high jumpers. Any upperclassmen who have had previous experience are urged to come out for these events. In the field events the team has a good prospect. Wood, Lackey and Board will have the shot; the discus will be handled by Board, Wood and Kirtland; the pole vault will be handled by Peoples and Norkus; the javelin will be thrown by Kenenmann, Wood and Johnson; the high jumpers will be Swedek, Chastock and McKee; the broad jumpers will be Christopher and McKee. In the low hurdles Tech is expecting a champion in Charlie Bellfer. Behber, Bickerstaff, and Staples will run the 440, while Peaco, Bickerstaff and Small will run the 880. For the mile run Tech is pinning her hopes on these "Twenty Grand" and already the letter man of the football squad.

Jimmy Slocum Takes Place on Coaching Staff as End Tutor

The loss of Georgia's captain, Jack Faver, left the guard on that last part of the second half and hence the other members of the class of '35; being both a member of Anak, O. D. K., and a three member of the football squad. Tech's elongated center was high to the occasion and made a clean sweep of the two game series. Tech's elagated center was high point man of the game with 5 field goals and 4 fouls, for a total of 17 points. Jimmy Slocum, Georgia's slant-sided forward led the enemy's attack with 11 points.

With both teams keyed to a tense pitch, the game was thoroughly enjoyed by the spectators, and was a brilliant show of basket ball all the way.

The varsity schedule is as follows:

April 2—Clemson at Clemson.
April 10—Georgia at Georgia.
April 16—Florida at Gainesville.
April 20—Ga. at Athens.
May 7—Vanderbilt.
May 14—Auburn.
May 28-29—Conference meet at Birmingham.

In addition to these other meets scheduled with Atlanta High Schools.

Jackets Come From Behind To Defeat Bulldog Basketers

Tech's mighty men of the basketball court out Georgias fighting five by the scores of 22-27 and made a clean sweep of the previous game series, having won the first game in an od over whelming manner.

Bo Johnston, Tech's great center, provided the needed point by singling a crisp shot in the last 30 seconds of play. A few seconds before, McGehee tied the score at 27 all to give the Georgia supporters new hope and to cause little worry for the Tech men.

A good game was opened by the two opposing teams in the first half, with Tech leading 13-11. Though Georgia was in need of high hurdlers, broad jumpers, and high jumpers. Any upperclassmen who have had previous experience are urged to come out for these events. In the field events the team has a good prospect. Wood, Lackey and Board will have the shot; the discus will be handled by Board, Wood and Kirtland; the pole vault will be handled by Peoples and Norkus; the javelin will be thrown by Kenenmann, Wood and Johnson; the high jumpers will be Swedek, Chastock and McKee; the broad jumpers will be Christopher and McKee. In the low hurscles Tech is expecting a champion in Charlie Bellfer. Behber, Bickerstaff, and Staples will run the 440, while Peaco, Bickerstaff and Small will run the 880. For the mile run Tech is pinning her hopes on these "Twenty Grand" and already the letter man of the football squad.

Jimmy Slocum, a former Tech graduate, was added to the coaching staff of the football squad this week. He will assume the duties of end coach. He was an outstanding member of the class of '35; being both a member of Anak, O. D. K., and a three member of the football squad. Tech's elongated center was high to the occasion and made a clean sweep of the two game series. Tech's elagated center was high point man of the game with 5 field goals and 4 fouls, for a total of 17 points. Jimmy Slocum, Georgia's slant-sided forward led the enemy's attack with 11 points.

Crimson Tide Takes
First Fencing Match
From Yellow Jackets

Last Saturday the Tech fencers suffered their first defeat at the hands of the Crimson Tide of Alabama in a match that ended with the score tied 8½ to 8½ in bouts, but showed a total of 62 points for Alabama against 58 for Tech. Behind the steady fencing of George Waite and Rex White the Jackets took the foil bouts by a score of 3-1.

The Tide, however, came back in the saber bouts, winning 3-1 to take a lead of 7-6 over the Jackets. In the epees Cokkies Bartha and Reingolf lead of 7-6 over the Jackets. In the opening bout Waite and Waite were best, each having two victories and a defeat in the epees. Bartha kept his epee record for the season started.

Tomorrow afternoon the Dualists seek their second victory when they meet the Atlanta Fencing Club. The meet will be under the direction of Capt. George Waite since Coach Morenz will be in the Fencing Club's lineup.

Chi Phi's Take Lead
In Inter-Fraternity Bowling Tourney

Competion for individual scoring in the Bulldog Bowling League washed some Friday night when Artie Small of Chi Phi, returning from an Injury, rolled 781 in the league record with a three-game score of 407. This score placed Sigma Chi 500-509-470.

Chi Phi in the leading position for the Baby Jackets.

Prominent alumni swapped yarns with players at the annual football banquet during which Fletcher Sims was presented the Rhodes Trophy for the most valuable player of '37. Seated (left to right) are: Coach Alex, Everett Struppner, J. D. Robinson, Jr., Fletcher Sims.

Standing (left to right): G. M. "Pub" Phillips, Al Loeb, Rex Barron, and Bobby Jones.

Fletcher Sims Awarded Rhodes Trophy as '37's Most Valued Man

Captain Fletcher Sims, Tech's All-conference quarterback, received the Rhodes most-valuable-Tech-player of '37 trophy at the annual dinner in honor of the football team last Friday night. The banquet is given by Mrs. Everett Struppner who was Mrs. Joe Rhodes before his death four years ago, and Mr. Rhodes Perdue who is a nephew of Mr. Rhodes. Several prominent alumni were present and joined in the merriment by swapping yarns with the players. Highlights of many a crucial moment with his cool thinking. He was not only a very talented ball carrier and a sharp-shooting punter, but his signal-calling and passing was the envy of every opposing coach. President of the Senior class, member of Anak, the Student Council, and the Athletic Board, and basketball star, Sims is known as the unaffected friend of freshman and upperclassmen alike. With his graduation in June, Tech will lose a valuable athlete, a fine campus leader, and a swell fellow.

Eleven Freshmen Get Basketball Numerals

Those receiving numerals for their class, member of Anak, the Student posing coach. President of the Senior class, member of Anak, the Student Council, and the Athletic Board, and basketball star, Sims is known as the unaffected friend of freshman and upperclassmen alike. Fresrman Basketball Ends With Victory
Over Canton High

Georgia Tech's Freshmen basketball team ended its 1938 season with a victory over Canton High School, and a loss to Dahlonoga last week-end. The Freshmen grabbed an early lead in the Canton game last Thursday, and they never lost this advantage. The final score was 43-36. The Baby Jackets were able to make many of their long shots good and the defense was functioning well. Jim Hughes, center for the locals, led the offense with 12 points.

"George P. Burdell Is Thru!"
States His Brother, "Hog Eye"

You have all heard of George P. Burdell. His career as a Tech man has never been surpassed to date. He is a snake of snakes, a jelly of jellies, Burdell. His career as a Tech man and a B. M. O. T. C. without parallel. However, gentlemen, his day has come and never more will he reign without challenge. A man has appeared who will hold with him on every field. A man who to this time, also, has never met his match and who is willing, able; yes, even eager to see someone to keep his business out of debt. Tradition? I come from the best family of bootleggers in the hills. Never let a revenuer get away since the Civil War. I could go on for hours, but what's the use when right here at Tech is the original, always ready to oblige any of you poor S. Y. T.'s who haven't had a chance to meet the sternessor of your prayers. It is a very simple procedure. All you have to do is track us down, give your name, address, and qualifications, and your case will be given every consideration. Now of course if you want extra quick service, doing a little shine step as you come up would be a help. And then too, if you step out of a Packard as you pull up to the curb you won't do half bad.

Gentlemen, that man is none other than the man addressing you, George P. Burdell's younger brother, Hog-Eye, straight from the hills of Tennessee. Yes sir, gentlemen, I am that man. For four years, George (we always called him Drizzle because he never could spit over his chin) well, he did wrong. No, folks, that's the honest truth. Girls, I am sorry you haven't yet met me. It is indeed a shame and I have myself solely to blame for your sad plight. From now on let there be no lagging back. I have flunked out in the first six weeks in order that all my time may be devoted to your well being. The stage is set, the audience is waiting, let the curtain be raised. The stage is set, the audience is waiting, let the curtain be raised.

Swimming Schedule (Continued From Page 4)
February 12—Auburn.
February 19—Tennessee.
February 25—Presbyterian at Clinton.
February 26—Clemson at Clinton.
February 27—Ohio State at Tennessee.
April 1, 2—Southeastern Conference at Knoxville.

Glen Gray To Play At Mosque
An event of extraordinary interest to devotees of modern dance music, is the announcement of the return engagement of Glen Gray and The Casa Loma Orchestra, who will play for a dance at The Shrine Mosque Thursday, March 3rd, from nine to one o'clock. On the orchestra's initial appearance here in August, 1936, they were greeted by a capacity crowd. Glen Gray and The Casa Loma Orchestra just completed a three months appearance in The Terrace Room, Hotel New Yorker, in New York City, and were selected from many other celebrated bands to play for the President's Birthday Ball at the White House on January 25th.
