Proud Eagle of U. S. Georgia to Adorn Grant Field Stadium

Tech Army Trains in Immediate Vicinity

Ordinance and Signal Corps Go To Benning

The sites for the summer training camps of the Tech R. O. T. C. units at last have been definitely decided upon, according to advice from Colonel W. H. Curtis, the Camp Commander. The camps were chosen with due regard to the following conditions: no encroachment in accordance with the government; the infantry unit will be trained at Camp Benjamin, near Chattanooga, Tenn.; the coast artillery boys will go to Fort Benning, Ga.; and the marine defense head with bronze scroll work from the bow of the ship was presented by the Government to the State of Georgia as a relic. Recently the governor of the state presented the eagle and scroll work to Georgia Tech. From a business point of view the entire scroll engineering was designed and constructed at the Southern Intercollegiate is the highest honor that can come to a school. The Southern Intercollegiate offers two examinations, one for the students and the other for the professors. The student who passes the examination will be awarded a distinguished rating by the National College Press Congress. The professors of the school are deep in the throes of the contest and expect many of the leading colleges to pass the examination. The contest is open to any school, and the entire scroll work extending from the wings in the throes of the contest is best presented to the national press.

The Woodrow Wilson Foundation is a new and interesting movement. Its purpose is to bring together men and women of the organization is to further its aims, and the principles of the man who may be the most influential political figure of our century. The basis of this principle will be best presented to the student who has charge of the subject.

Preparations have begun under the direction of the state signal corps to mount the eagle, and it will be presented at the annual meeting of the National College Press Congress in the spring during an athletic event on Grant Field with the military band playing an important part.

The U. S. Georgia was launched in 1904, and operated with the Atlantic fleet under the command of Captain Richard Davison. In 1918 it accompanied the fleet on a trip around the world. The ship operated with the American Navy during the World War, and was awarded a distinguished rating by the National College Press Congress in the spring during an athletic event on Grant Field with the military band playing an important part.

The Tech Contract was awarded in 1927 as a sequel to the Washington Conference.

To Award Medals To Outstanding Co-ops

Two gold medals will be given to the two best all-round co-operators of the year. This subject was discussed at the last meeting of the Briarean society Wednesday night, Feb. 11.

The students will be selected from the co-op freshmen class by the captains of the athletic teams, and on the basis of good marks and real service at the beginning of the new term.

The Briarean society is exclusively for co-op students who have completed at least a year's work at Georgia Tech. The highest honor of a co-op student may be the opportunity to compete for a co-op medal.

Cracker and Cluster Also Recognized

The A. French Textile School of Georgia Tech was honored by the Textile Department of the Georgia Institute of Technology, the Woodford Reference books offer "The Foundation at age are offered to those who are over the limit of the Southern Intercollegiate. The subjects discussed by these divisions included art, chemistry, physics, and mathematics, each studying a different phase of clay work. The subjects discussed by these divisions included art, chemistry, and mathematics, each studying a different phase of clay work. The subjects discussed by these divisions included art, chemistry, and mathematics, each studying a different phase of clay work.

The meeting was divided into seven sessions, each lasting from 9 to 11 a.m. and from 2 to 4 p.m. The subjects discussed by these divisions included art, chemistry, physics, and mathematics, each studying a different phase of clay work.

It's a pleasure to publish this collection of Georgia Tech's Architectural Department's books on the World's Fair, and we are pleased to be able to share these books with the world's students. The Georgia Tech's Architectural Department's books on the World's Fair are available for viewing online at the Georgia Tech Digital Library. This collection of books includes the following titles:

- "The Architecture of the World's Fair"
- "The Architecture of the World's Fair, Part II"
- "The Architecture of the World's Fair, Part III"
- "The Architecture of the World's Fair, Part IV"
- "The Architecture of the World's Fair, Part V"

These books are available for viewing online through the Georgia Tech Digital Library. If you would like to access these books, simply visit the Georgia Tech Digital Library website and search for the collection by title. You will be able to access the books online and view them as they were originally published. This collection of books includes hundreds of images and detailed information about the architecture of the World's Fair. We hope you enjoy exploring these books and learning about the architecture of the World's Fair. The Georgia Tech's Architectural Department's books on the World's Fair are a valuable resource for students and researchers interested in the history of architecture.

Hansell Speaks

To Georgia Tech Engineer Group

Speaking recently before the stu­

dent chapter of the American Society of Civil Engineers, R. A. Hansell, chief of construc­
tion, Georgia Railroad Company, said that the present sewerage system in Atlanta, a product of

a 1902 at Tech, said has taken him

20 years to convert the city authori­
ty to the present plan and that before a new system is laid down the surrounding counties must be made.

At present there is no sewerage system in the county except

a sewer which is being built about a half mile south of the city limits by the city authority.

Hansell said Mr. Ralph.

R. A. Hansell

Director of the present sewerage system in Atlanta, said that the present system leaves something

satisfactory in the country. At present the city has 30 per cent of its sewage expenditures

entailed.

The plants are designed

after the fashion of the city of Philadelphia's plant, the best known method.

The fact is

the sewer system in the city of Atlanta is

the only line of its kind in the United States.

"Every steam leading from Atlanta

is contaminated," Mr. Hansell

said.

Something must be done to remedy the situation or the courts will take a hand. A mere 100 dollars of the bond issue will do a

The Red Pavilion

BY JOHN GUNTER (Harper and Brothers)

Most people who read latest John Gunter will read it with the hope of getting shocked. And for that very reason, which is to say, the shock will not be appreciable, although the shocks were somewhat mild.

The scene revolves around students, faculty and students of the University of Chicago. Shirley and Richard Northway, a young married couple, have been caught up in the main theme of the plot: Doris's desire to prove her virtue just for the sake of the god of virtue, and to do so by confessing her sins. The story is a satire on the hypocrisy of religious institutions and the absurdity of trying to prove one's worthiness through confession.

The novel is a dark comedy that explores the themes of virtue, sin, and the nature of goodness. It's a touching tale that will leave readers thinking long after they've turned the last page.
VANDERBILT WINS CONFERENCE TOURNAMENT

SYRACUSE MEETS TECH AND GEORGIA IN LACROSSE

Easterners Among Best In Country

One of the strongest collegiate lacrosse teams in the country will venture South for the first time in the history of lacrosse competition early in April for a series of games with Southern teams, including those of Tech and Georgia. According to Dr. Crenshaw the Easterners will play the Jackets in Atlanta on April 13.

Lacrosse has gained a large following in the South during the three years since Dr. Crenshaw, who was a star at Johns Hopkins, started the game at Tech. Since that time Tech has won the Southern Conference title each year and from the outlook this year it looks as though they will annex the championship again. How­ever, the competition will be stronger than ever before and it will be more difficult than in former years.

The Northern team is planning to play the University of Georgia on the day before they tackle Tech, so they will have a couple of very busy days. The Syracuse eleven is considered one of the foremost teams in the country, but should find the Tech and Georgia teams worthy of their best efforts.

CROSS-COUNTRY RACE DRAWS LARGE ENTRY LIST AS DATE NEARS

Wealth of Material Reports for Tennis Practice

A number of promising candidates reported to the first practice of the 1927 tennis season Monday when Capt­ain Berry Grant called the prospective material together to begin mold­ing out another championship squad. Last year the racquet team swept all competition away and won both the state and conference championship and with the loss of only one member of this team, G. R. Stadler, and with the men from the freshman outfit a considerably stronger team is expected this year.

Berry Grant, "Scotty" Morton and "Pawnee" Perry, who were on the first team last year, have returned along with Jim Lewis, Wright Swice­good, Walter Merkle and Walter Jones, who also composed the varsity squad, and are in their usual stride. The change was necessitated by the loss of only one member from the line of tempting cakes as prizes. Besides this, the grandstand as the gun sounds off and back is a tradition of long stand­ard. The experience gained from the start at the ground company as the men are trained both to think scientifically and to work efficiently.

"A TECHNICAL SCHOOL WITH A NATIONAL REPUTATION"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of re­sponsibility and power.

The national reputation of this institution is based not on claims, but on results. The greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed be­cause they have been trained both to think scientifically and to work efficiently.

Courses in CIVIL, ELECTRICAL, MECHANICAL, TEXTILE, GENERAL, AND CERAMIC ENGINEERING; CHEMISTRY, ARCHITECTURE, COM­MERCE, AND GENERAL SCIENCE.

Georgia School of Technology
It was a nice trip and afforded a world of excitement. Try it some time, it will do you good.

The swimming team after many weeks of hard practice is making final preparations for the trip to New Haven for the big meet with Yale following the one held last fall by Brooklyn Y. M. C. A. in New York. Three times we are going to be fast ones and will mark the first time that a Tech swimming team has ventured that far. Captain Bill Myers has done wonders with the team.

It is the cream of basketball talent in the south and for the filled boxes and put up as great an exhibition as seen in the past.

The Sigma Chi's of Emory gave a dance last week, we were told, but as we were not there we will simply pass this information along to you for what it is worth.

The Saturday night dance at Georgia Tech was dating at Agnes Scott last Saturday night, the parlors being crowded to capacity. This will be the last of the Tech social lights, however,青春 we were not nice we will simply overlook, considering the present defunct state of our bank account. Promptly at nine-forty-five the lights went down and the visiting Don Juans prepared to depart, their going being sometimes accelerated by Miss Hopkins' (generally known as HOP) who demonstrated the door. The expediency of HOP advances to kiss the male visitor goodnight whereupon he usually departs via the window taking part of the frame with him.

Wednesday night we attended the scheduled K. D. K. dance at Druid Hills and though a dignified Senior should have known better, entered into the spirit of the occasion by dressing in the required Bowery costume. We began to realize, however, that we weren't as young as we used to be and although we had it in the K. D. K.'s for throwing a good dance, we wish that we might have rolled back the years half a decade or so. Anyway, the orchestra was good, the dance was happy and we observed many sweet young things who will make stunning Debutantes some day. Perhaps our future wife was there, who knows?

The sensation of the Billmore Dinner Dance a week ago was the debut of Gilbert Boggs into the mad social whirl. Although we tremble to think what the Doctor says, we welcome him into the ranks of those who have already gone to the dogs (as Offense Fair Debutantes) with open arms. Ask Gilbert how much the evening cost him! The Billmore last Saturday afternoon, according to Bill Scherffius, was up to its usual standards of entertainment, although the usual financial stringency at the end of the month was reflected in the scarcity of the "Collitch" crowd.

The Beta Psi chapter of Sigma Chi announces a formal dance to be given at the Atlanta Billmore the night of April 1 in observance of the anniversary of the installation of the local chapter in 1922. Very ambitious plans are being made for the occasion and a restricted invitation list and a separate chapter in 1922. Very ambitious plans are being made for the occasion and a restricted invitation list and an excellent orchestra promise to make it one of the best dances of the spring.

At this publication comes from press, this evening, the Chi Psi Fraternity will be giving its first and ready to go, but in spite of the (official) name we understand that any fancy dress costume from now on to Eskimo will be entirely acceptable and socially in order. AND THAT'S THAT.

Co-ed: "Had a big laugh the other night.
Girl Friend: "What happened?"
Co-ed: "Well, after I started to walk home he couldn't start his car and had to walk home after me."

Perhaps our future wife was there, who knows?

Gene Turner and Dean Skiles Address Frosh

First Spring Orientation Held

Last Tuesday, March 1, the first of a series of Spring Orientation Conferences was held.

A talk on the courses open to sophomores was given by Dean Skiles. Featuring the Dean’s talk was the course of General Science, which, according to the Dean, would be an excellent course, preparatory to courses in Law and Medicine, or it would also be good for anyone who is interested in following teaching as a profession.

The course includes engineering (regular Freshmen engineering), for its first year’s work. In his Sophomore year the General Science student will get Modern History (19), Physics (3 or 9) in addition to the regular Math, English and Military. The Junior year will include Biology (1, 6), Geology, Public Speaking and Psychology, also Math 25, which is Astronomy. The entire Sophomore year will be elective.

The next speaker was one, well known to all Tech students, none other than Gene Turner, who made such an enviable record here a number of years ago.

Gene spoke about the Blue Ridge Convention, which is held each year, twenty miles from Asheville, during the month of June. He told about the first Convention, at which Georgia Tech was represented by a picked body of athletes. As can be expected the Tech delegations run away with all the honors in the athletic events.

This Convention is of great benefit to a character builder, as well as a place to learn your fellow man.

Gene Turner says of the Blue Ridge Convention, “It opened a new life to me, and new visions of my fellow men.”

Dean Fields, who was at the Convention two consecutive years, says of it, “If you want to find out about things that are going on in this world, the Blue Ridge Convention will benefit you more than any other ten days you can spend.”

Conference Swimming Meet To Be Held Here

A quadrangular swimming meet in which Tech will meet Georgia, Vanderbilt and Florida is to be held at the Atlanta Athletic Club on the night of April 5, according to an announcement made by Dr. Crenshaw. The Southern Conference title will be at stake and the winner is to be awarded the title. Early in the season Dr. Crenshaw invited all conference teams to a conference swimming meet to be held in Atlanta some time this season, but only Georgia, Florida and Vanderbilt have entered, the other teams declaring that they did not have teams or the facilities for producing a team.

Tech will open its season with a meet with the Central Y. M. C. A., of Brooklyn in New York, March 12, and will follow this meet with one with Yale University at New Haven. This is the first time in the history of the school that the swimming team has made a trip north and a great deal of interest is being manifested.

Following the quadrangular meet, Tech will journey to Charleston for a meet with the Citadel, an annual duel of old rivals.

Present indications are that Tech will have another championship team this year, and as always with such stars as Captain Bill Noyes, Red Holleman, Dick McKinstrey, Wadley Glenn, Dave Young and others on hand.

STUDENTS!

Our speciality is making clothes for students at special prices. Clothes made in our own shop on premises where a “try on” can be had. Our suits pressed free.

An order will make you a booster. Remodeling.

Football Candidates Put Through Hard Scrimmages

Alexander has been putting his large squad of football candidates through hard scrimmages every afternoon down on Grant Field. The squad has been divided into two groups, one being used on the offense and the other on the defense. It is the idea to alter the groups each week so as to give each a great amount of work on both the offense and defense. This will enable the players to accustom themselves to playing in one position and apply the fundamentals that are being taught.

Coach Flancher has an unusually large amount of good material work on his line and a great forward will be fighting on Grant Field next fall.

It has been many years since there have been as many good men for the backfield positions and indications point to one of those backfields which made the Tornado famous in years gone by.

Peach Blossom Festival!

2-Trouser Suits

$26.75

Recent Groom Writes From Hospital

My Dear Percy:

Before I attempt to declare my in-

nocence to the world, I wish to in-

form you of certain events that will

make your heart ache for the one

who, as your suite-mate, never

dreamed of the peril that has re-

cently beset him.

You know, my dear Percy, of the

perils that have recently beset him.

I have spent Christmas with a boy

friend, I leave the Atlanta Bastille.

Had I not recaptured my eyes

until her skirt was restored to its

strategic position. When

these lads approached me near the

Howard Theater, as I was returning

to the Bastille, and suggested that

I marry their sister, I feared the point

with the utmost delicacy. But, Percy,

imagined my surprise when they be-
