Overseas with the Tech Glee Club

Six Delts meet a fellow Reck.

On to Vienna and the Russian Zone from Salzburg.

Make mine country style in the Alps.

The Ramblin Yodlers are tagged for home.

McPherson and Collat show us the "American Way."
MAJOR HONORS
The Georgia Tech ANAK Society was organized on January 1, 1908, to honor select men from the Senior Class who were outstanding among their fellow students by their achievements and services to Georgia Tech. ANAK has contributed, from its membership, many Tech men who have become leaders of national prominence. ANAK has also been responsible for the founding of nearly all of the other organizations existing on the campus today.

OMICRON DELTA KAPPA, national leadership honor society for men, was founded in 1914 at Washington and Lee University, and the local circle was established in 1932. Members are selected on a point basis, a definite number of points being given for each honor or position attained by the student. When a student has amassed enough points and a definite scholastic average he is eligible for election. ODK ranks with ANAK as the highest honorary organization on the Tech campus.

THE KOSEME SOCIETY was reorganized on the Tech campus last spring after a period of several years' inactivity. The Society is climbing high in recognition as one of the outstanding honorary organizations on the campus. Members are selected from the students of the junior and third-quarter sophomore classes who have been outstanding in extra-curricular activities.

TAU BETA PI is the largest honorary engineering fraternity in the country. Eligible for membership in the society are the upper eightieth of the engineering junior classes and the upper fifth of the engineering classes in their senior year. The principal activity of the chapter has been the sponsorship of Engineers’ Day, designed to acquaint the prospective student, industry, and the general public with the aims and accomplishments of Georgia Tech. Tau Beta Pi has also inaugurated a campus-wide tutoring plan this year, which is administered and carried out by departmental honor societies under the direction of Tau Beta Pi.
PHI KAPPA PHI is the oldest national scholastic honor society on the Georgia Tech campus. Founded in 1897, it now has chapters in more than 50 colleges and universities. Membership in Phi Kappa Phi is awarded to those members of the senior class who are outstanding in scholarship during their first three years at Georgia Tech. The local chapter conducts the annual Honors Day exercises and awards a cup each year to the senior with the highest scholastic average.

PHI ETA SIGMA, a national freshman honorary scholastic fraternity, was established at Georgia Tech in 1930. Membership in Phi Eta Sigma is the highest honor a freshman may attain at Georgia Tech. Only those men who have a point average of 3.5 for the first quarter or the entire freshman year are eligible for membership. Each spring the fraternity presents a cup to the freshman having the highest scholastic average for the first quarter.
SECTION I

The BRIAREAN SOCIETY was founded in 1912 for students of the Co-operative Department to promote high ideals and scholarship. It offers the highest honor available to upper-classmen who are outstanding in scholarship, leadership, and character. The Section I group attends school during the winter and summer quarters and works with industry during the other two quarters.

The Tech students selected for membership in Who's Who are chosen on the basis of their outstanding contributions to the school and to their classmates. These activities will be listed in the annual edition of the national publication.
DEPARTMENTAL HONORS
ALPHA CHI SIGMA

ALPHA CHI SIGMA is the national professional organization for chemists and chemical engineers. Students are eligible for membership when they have reached second quarter sophomore status and have maintained a 2.5 over-all point average. The local chapter provides exhibits for the student body and sponsors lectures on scientific subjects.

ALPHA PI MU

ALPHA PI MU, the youngest of the scholarship fraternities, was founded at Georgia Tech in the fall of 1948 as a society for the recognition of industrial engineers with superior abilities.

The local chapter was granted its charter by the Student Council on January 25, 1949, and recognized by the state of Georgia on March 17, 1949.

Membership is limited to juniors and seniors of high scholastic standards and who possess traits of high leadership, character, and ethicality. Only those juniors who are in the upper one-fifth, and those seniors who in the upper one-third of their classes are eligible.

SAXON
CHI EPSILON

CHI EPSILON is the only national fraternity composed entirely of men in the field of Civil Engineering. Chi Epsilon recognizes and encourages the qualities of scholarship, character, practicality, and sociability in the undergraduate Civil Engineer. The Georgia Tech chapter of Chi Epsilon, founded in 1943, was formed from the Civil Crew, the oldest honor organization on the Tech campus. Among its many activities are field trips, guest speakers presenting news of the profession, and movies on various engineering subjects.
A recent addition to the list of campus honorary organizations is Delta Kappa Phi, in the Textile Engineering Department. The new group has already demonstrated leadership qualities, and the Tech chapter of this national textile fraternity will soon rank among the most respected on the campus.

ETA KAPPA NU is a national Electrical Engineering fraternity of which the Beta Mu chapter was installed at Georgia Tech in 1941. The membership is composed of outstanding juniors and seniors in Electrical Engineering.
The Industrial Management Society is the honorary professional group in the Industrial Management Department. To be eligible for membership in the organization, the student must be a member of the department and be in the upper third of the class and must have shown outstanding leadership and interest in the field of his studies. The purpose of the Society is to give the senior student a practical view of industry that is sometimes neglected in the classroom.
PHI PSI is a national honorary textile fraternity which has as its aim the promotion of better feeling and closer relations between the textile students, and to strengthen the position of the textile industry. Election to membership is limited to a percentage of the junior and senior textile students.
PI TAU SIGMA

PI TAU SIGMA, the honorary Mechanical Engineering fraternity, selects its membership from the outstanding juniors and seniors of each year. To be eligible for membership, a student must not only have high scholastic standing in his class but also fulfill requirements of character and leadership.

SIGMA PI SIGMA, Physics Department honor group, is one of the new fraternities organized on the Tech campus. The society, which has no secret ritual, endeavors to promote interest in physics through lectures and demonstrations which are open to the public. It has made exceptional progress in its first year and is expected to be one of the leading departmental honorary fraternities in the near future.
The Blue Print which is the official yearbook of Georgia Tech is published by the students during the latter part of the spring term. Sections of each yearly issue are devoted to classes, faculty and administration, athletics, fraternities, features, and campus organizations in an attempt to present a complete coverage as possible of the various activities which take place on the Tech campus during the school year. For many years the Blue Print has ranked high in the field of collegiate yearbooks and is a publication of which Tech students are justly proud.

The Technique is the semi-weekly newspaper of the Georgia Institute of Technology, published each Tuesday and Friday of the school year by the students of Georgia Tech. Its primary purpose is the publication of student news, including news of organizations, campus activities, sports, and other events of interest. Student opinion on current affairs is also expressed through the medium of an editorial page containing letters to the Editor, opinion polls, and discussion articles.
The Georgia Tech Engineer is a technical publication issued by the students of Georgia Tech eight times each year. It contains reports of research by Tech professors, and other scientific articles by students and faculty, as well as articles on social and economic problems which confront the engineer at work in society. Staff work includes writing, art, and business management.

The *Yellow Jacket* is the Georgia Tech humor magazine. The main objective of the *Yellow Jacket* is to serve as an outlet for creative writers, cartoonists, artists, and photographers on the campus. Articles of technical or even semi-technical nature are of no concern to this publication. The expected results of the *Yellow Jacket* embrace all forms of enjoyment. The students who read the magazine do so for the pleasure that they receive, rather than for practical knowledge.

The Publications Board, made up of representatives from the four student publications, is the governing body on policy and scope of coverage as pertains to each of the four. The editors, business managers, and faculty advisors from the Technique, Yellow Jacket, Blue Print, and The Engineer are automatically members of the Board together with a representative from the Student Council and Pi Delta Epsilon. Associate Dean of Students John J. Pershing is the permanent chairman of the board.

The Student Council, now in its twenty-eighth year, is the governing body of the Student Government of the Georgia Institute of Technology. Through its duly elected members it represents the student body in all matters affecting student interest, provides a medium of communication between the students and school authorities, and preserves the customs and traditions of the school. The members are elected by popular vote in the spring quarter of each school year, with the exception of the freshmen who are elected at the first of the fall quarter.
ISO COUNCIL

The Tech unit of the Independent Students Organization, a national club, has done much to aid the non-fraternity man. This organization is devoted to helping its members to become well rounded in their college life. The I. S. O. has done much toward this goal since their organization, and they now rank as one of the top social organizations on the campus.

Married students who live in the Callaway Apartments belong to the Callaway Unit of the ISO. Members of this unit, participating in all ISO functions, have distinguished themselves in their scholastic and extra-curricular activities. They are leaders in football and other intramural sports.
The Latin American Club of the Independent Students Organization is composed of Latin students on the Tech campus. This unit strives to acquaint the Latin students with their new environment and at the same time to furnish social functions with students of their native lands. This unit has been very active in all ISO functions and has generally met with success in all their ventures.
Independent Students’ Organization members in Smith Dormitory belong to the Smith Unit of this organization. The Smith Unit is one of the larger units and has gone far since its recent organization. This unit actively participates in all activities of the ISO.
Co-op members of the ISO belong to the Techwood Unit. Changing membership each quarter, this unit meets slightly greater organizational difficulties than confront the other units. Despite this the Techwood Unit is one of the most active of the group.
The student chapter of the American Association of Textile Chemists and Colorists is now functioning in the Textile Engineering Department. This organization sponsors speakers that are prominent in the field of Textile Engineering, motion pictures on various processes, and field trips to mills and other points of interest in the textile field.

The American Ceramic Society was originally organized on the Tech campus in 1926. The purpose of this organization is to unify the students of the School of Ceramic Engineering so that the students, in the spirit of cooperation and fellowship, may work together toward their common goal of personal development and professional achievement.

The Student Chapter of the American Chemical Society at Georgia Tech was founded in the Fall Quarter of 1948. Membership in the Chapter is open to all graduate and undergraduate students of Chemistry and Chemical Engineering. The organization affords an opportunity for the student to become better acquainted with the professional aspects of Chemistry. Its purposes are to foster a professional spirit among the members and to instill professional pride in Chemistry.

The purpose of the student chapter of AIChE is to provide opportunities for the professional development of students in Chemical Engineering. It is recognized that the professional associations made during student days become valuable in later years, and that the professional attitudes acquired at that time set the pattern for later life. A scholarship award is made each year to the junior in the chapter who has attained the highest scholastic average during his first two years. This award is a student chapter emblem, either pin or lapel button, together with certificate of award.
ELECTRICAL ENGINEERS

The Georgia Tech Chapter of the American Institute of Electrical Engineers was established in 1915. The organization is dedicated to furthering the knowledge of electrical engineering students in their chosen field. The organization stimulates the interest of its members by lectures, tours, and movies.

The American Institute of Industrial Engineers is an organization within the Industrial Engineering Department. The organization strives to acquaint the future I.E.'s with the problems and full particulars on the factors that they will face upon graduation. The AIE believes that these factors are not sufficiently covered in classroom work and attempt to enlarge their knowledge through lectures and discussions with practicing engineers in that field.

**OFFICERS**

- E. L. Cook, Secretary

**MEMBERS**

The Georgia Tech Architectural Society was formed in 1910, one of the oldest organizations of its type on the campus. In 1943 the organization affiliated with the American Institute of Architects, thus bringing student members in direct contact with the country's leading architectural designers and engineers. The Society has several functions: educational, economical and social. Lectures are given and field trips made. The Society subscribes to several magazines and often purchases books for the departmental library and special equipment for student use.

The Georgia Tech Student Chapter of American Society of Civil Engineers obtained its charter in 1924. All Juniors and Seniors in Civil Engineering are eligible for membership and are welcome at the meetings. The Student Chapter is active in obtaining movies, speakers and field trips. At least one student-faculty social function is held each quarter.
The student branch of the American Society of Mechanical Engineers gives the student an opportunity to broaden his acquaintance with the practical side of mechanical engineering. It helps him to keep abreast of recent technical developments and enables him to establish fraternal contact with fellow students and with active engineers.
The Georgia Tech Management Club represents a major step of the School of Industrial Management in coordinating management studies with industry. The club sponsors tours and lectures by prominent men of the country. The Tech Management Club is developing future leaders in business and good industrial managers are becoming more synonymous with Georgia Tech.

Designed to encourage original thought, the national Institute of Aeronautical Sciences coordinates the different phases of aeronautics, including education, engineering, and production. By opening its rolls to aeronautical students, it gives the prospective engineer an opportunity to become acquainted with many aspects of the field outside the classroom.

The Institute of Radio Engineers was organized in 1912, to advance the art and science of radio communication and related fields, and to promote the professional welfare of engineers engaged therein. Only recently established on the Tech campus, the I. R. E. is at present chiefly concerned with building its membership among the Electrical Engineering students and those interested in radio and related topics.
The Society for the Advancement of Management is the recognized national professional society of management people in industry, commerce, government, and education. The society was formed in 1936 by the merging of the Taylor Society, organized in 1912, and the Society of Industrial Engineers, founded in 1917. The Tech chapter of S. A. M. was granted its charter on June 6, 1946. Since that date, the chapter has actively engaged in the promotion of various activities sponsored by the School of Industrial Engineering. Membership in the chapter is limited to students of Industrial Engineering.
The American Society of Military Engineers was organized in 1920 for the purpose of preserving and studying the experiences of the engineering profession in World War I. The purposes of the Society are: to advance knowledge of the science of military engineering; promote efficiency in the military engineer; encourage, foster and develop among military engineers and other arms of the military service a spirit of co-operation and mutual understanding of their respective duties, powers, and limitations; to hold meetings for the presentation and discussion of appropriate topics that should be helpful and of interest to the organization's members.
ALPHA PHI OMEGA, national collegiate service fraternity, this year celebrates its 10th year as an active organization of the Tech campus. APO sponsors the U. M. O. C. contest, the “Get Out the Vote” drive, the Student Book Exchange, and other services. APO is striving to be of more service to the community and the nation than ever in the past and is gaining a wide reputation on the campus for service and dependability.

The Bulldog Club is one of the best known and most active local organizations. It was founded in 1910 by ANAK to promote school interest and later in 1933 merged with the Junior Koseme Society to form the present organization. The members are selected from the most outstanding juniors and seniors on the campus. The organization is responsible for the annual Homecoming Dance, Homecoming Decorations Contest, and the Freshman Cake Race. Characteristic of the club is its distinctive initiation which is considered one of the traditions of the campus.
DramaTech was founded late in 1946 to stimulate student interest in dramatics and to give potential engineers a chance to develop their acting abilities. This year Drama Tech produced two fine plays—"Room Service", a light comedy, and "Command Decision", a drama of our wartime Air Force. The club is now under the very capable guidance of their new director, Mary Nell Ivey.
Abide with me.
The First section of the Co-op Club was organized in 1915 for the purpose of promoting interest in Co-op activities and fostering a spirit of fellowship among students in the Co-operative Department. It is one of the oldest social organizations on the campus. Members of the Co-op Club are selected from upper-classmen in the Co-operative Department who are outstanding in leadership and character and who have manifested an interest in Co-op activities.

SECTION II

The Second Section, which is in school during the Fall and Spring quarters, and the first section are heavy competitors in scholastic and extracurricular activities. This competition has led Co-op students to attain higher levels of scholastic nature. Both of these units rank high on the Tech campus as social and scholastic groups.

PI DELTA EPSILON is the honorary journalism fraternity. Its membership is composed of students who have been outstanding on one of the four publication staffs for at least two years. This organization sponsors talks and open discussions so that all members can express their views concerning the publications.

The Ramblin' Reck Club is an organization whose purpose is to keep up and magnify school spirit. Members are chosen from among juniors and seniors and the number is kept small to insure efficiency. During the 1947 football season, the Recks organized and promoted the highly successful flash-card section. At the beginning of each school year, the Reck give instructions to the new freshmen on the duties of a "rat" and also sponsor each fall a Ramblin' Reck contest between the different organizations on the campus.
SPIKED SHOE CLUB

The Spiked Shoe is a national honorary track and field society. Membership is composed of outstanding lettermen on the varsity track team. Spiked Shoe has as its purpose the fostering of competitive athletics in track and the growth and recognition of track and field events. Each year Spiked Shoe sponsors the intramural track meet and also officiates at high school field and track meets.

GLEE CLUB

The Georgia Tech Glee Club is one of the "up and coming" organizations on the campus. Under the direction of Mr. Walter C. Herbert, head of the Department of Music, the club is yearly increasing its scope of activity. This year, in addition to making visits to nearby towns and colleges, the singers made a three-week tour of Germany and Austria during the Christmas holidays, entertaining American troops and families.

KAPPA KAPPA PSI is the national honorary Band fraternity. The purpose of this fraternity is to furnish for its musically inclined members an outlet other than the normal scholastic life of the student. To this aim it sponsors both musical and social activities. To become a member, a student must possess high character qualities, be outstanding in his school, and be an accomplished musician.

The Table Manager's Association is composed of the table managers of the social fraternities on the Tech campus. A Constitution for the Fraternity Manager's Association was modeled after the one at Ohio State University. The Fraternity Manager's Association is a separate corporation formed under the laws of Georgia to purchase goods for fraternities as Georgia Tech and to supply information and services to the member fraternities. The corporation is controlled by a Board of Trustees made up of four alumni and four student members. The purpose of the T. M. A. is to obtain better food at lower prices for the fraternities through wholesale buying.

The GEECHEE CLUB was reorganized in 1946 by a group of students from Savannah who were interested in organizing all Tech students from that area. The club is very active during the school quarters, and has outstanding social events in Savannah between quarters. One of the many advantages of the Geechee Club, and its purpose of organization, is a car pool system for rides between Tech and Savannah. The organization is unique on the campus and very restricted in its membership; only Savannah students are eligible.

The Georgia Tech Camera Club was organized in 1940 for the benefit and instruction of the many amateur photographers in the student body. The club maintains a well-equipped darkroom which is available to all members. The Camera Club Photographic Achievement Key is awarded to those members who have obtained a required minimum number of points in the quarterly photographic competitions. To climax the year’s activities, the annual Photographers Ball is held in the spring. This is an affair to which members come attired as fantastic photographers and their dates attend as models.

The International Relations Club, founded in 1938, serves as a meeting place for students who are interested in discussing and learning the engineer's art in international affairs. The meetings are highlighted by speeches either by foreign students from the campus or by notables who have participated in the shaping of our foreign policy. The club plans to sponsor speakers on questions of immediate interest and importance, thus keeping in step with the everchanging foreign scene.
The Georgia Tech Radio Club, one of the many Radio Club
throughout the nation and the world, was founded in the early
1920's. The club's purpose, as set forth in its Constitution, is
"to secure for ourselves the pleasures and benefits of the asso-
ciation of persons interested in amateur radio by promoting
better cooperation among its members, developing individual
efficiency, and furthering the interest of radio in the general
community." The club has gone far toward this goal as evi-
denced by its recent acceptance by M. A. R. S. (Military
Amateur Radio Service), and A. R. L. (American Radio
Relay League).
The Masonic Club is made up of Master Masons in attendance at Tech who desire to carry on their Masonic activities away from home. All Master Masons are invited to visit and join this organization.
"Meet me at the Y", has come to be a common expression around the Tech campus, for the facilities of the "Y" Building and Camp are available to all students. The building houses all the publications, the Glee Club, and religious organizations, also serving as a meeting place for many campus clubs and a student lounge. The newly acquired camp is the Techman's Country Club. The Y. M. C. A. Cabinet plans and presents various activities, such as Open House, Bible Study, Movies, Chapel and conferences, in which every student is invited to participate.

The Georgia Tech Newman Club, organized at Tech in 1928, is one of the local chapters of the National Federation of Catholic College Clubs. Its purpose is to provide for Catholic students a better contact with their religion during their years at college. The basic objective of the club is of a religious nature; but it also promotes the intellectual, social, and athletic interests of the students.

The Wesley Foundation is the Methodist student organization on the campus. Actually it is the Methodist Church at work in the college community, seeking to provide for the spiritual, moral, and social needs of the student. Among its objectives are the creation of a greater personal relationship with God, the developing of each person so that he might be a shining light to those about him, and the strengthening of those ties with God made in youth so that the individual may become a mature Christian citizen.
