to

FRED WESLEY AJAX, B.A., M.A.
ASSOCIATE DEAN OF STUDENTS

who

As Coordinator of Veterans Affairs and Placement Officer has devoted his energies and efforts in an untiring manner to the students and to the advancement of the Georgia Institute of Technology.

WE GIVE CREDIT WHERE CREDIT IS DUE.
The part that Dr. Marion Luther Brittain has played in the expansion of the Georgia Institute of Technology cannot be overemphasized. For more than two decades he guided the efforts of Georgia Tech on its climb to prominence. Dr. Brittain will long be remembered for the part he has played in the growth of Georgia's educational system.
Vice President

Georgia Tech is indeed fortunate in having a man of the caliber of Cherry Logan Emerson as its Vice President. A concrete witness to his outstanding ability and personality is the rapid expansion which has taken place on the Tech campus during the past year. No member of the administration has a more difficult job, and no one could carry out the responsibilities of this office more ably than Cherry Emerson.

Executive Dean

Phil Blasier Narmore, as Executive Dean, is responsible for enforcing the regulations of the school. He has performed this difficult task with the quietness and firmness characteristic of a true leader. His energetic and tireless work has figured prominently in the improvement and expansion of Georgia Tech.

Dean of Students

One of the most indispensable members of the administration from the standpoint of students and faculty is George C. Griffin, Dean of Students. Thousands of students pass through his office for advice and assistance and his friendly, helpful attitude has won him the admiration of all those who have come in contact with him.
In his position of Dean of the Faculty, Dean Chapin has shown remarkable ability in handling the academic affairs of the Institute. Students and faculty alike have come to admire the spirit of friendliness and rare executive ability which he possesses.

The administration of the engineering division comes naturally to Dean Mason who formerly coordinated the affairs of the School of Chemical Engineering. In his two years as Dean of Engineering, he has proved his real ability as an administrator.

As Dean of General Studies, Dean Hefner has carried out his administrative duties with an air of warm sincerity and exceptional capability. His fairness and friendliness have won for him the high regard of the student body.

OFFICE OF THE PRESIDENT
Marion Luther Brittain, A.B., L.L.B. . . . President Emeritus
Elizabeth Koenig . . . Executive Secretary to the President
Jean D. Hinson . . . . Receptionist

OFFICE OF THE VICE PRESIDENT
Cherry Logan Emerson, B.S. in M.E. and E.E. . Vice President

SCABBARD AND BLADE is a national military honor society composed of the outstanding advanced students of the Army, Navy, and Air R. O. T. C. Candidates are selected semi-annually on the basis of demonstrated leadership, interest in military affairs, and scholastic standing. The Tech Company was founded in 1921, and for many years has sponsored the annual Military Ball. Also during the year, Scabbard and Blade promotes lectures and discussions for the purpose of supplementing military class work and disseminating intelligent information concerning the military requirements of our country.
Homecoming celebrations really began several days before October 29, when quiz weary Tech students learned that no classes were to meet on Saturday. With spirit rising through the remainder of the week, homecoming tensions exploded on the Georgia Tech campus at midnight on Friday. The judging of the homecoming decorations was a gala affair with throngs of students, alumni and interested visitors jamming sidewalks and roadways.
Satirizing on Duke University’s tobacco background, fraternities and independent organizations went all out in the night’s Homecoming Day prelude. The ATO’s walked away with top honors with their ingenious representation of the “story of tobacco.” As the morning sun rose over the flats our alumni returned once again to their alma mater. Theirs was a full schedule of barbecues and pleasant reunions with old classmates. At 10:30 those who were still asleep were awakened by screaming sirens, backfiring engines, and billowing smoke as the annual “ramblin’ reek” parade got under way. Eager crowds watched in anticipation as the line of ‘recks chugged and puffed up Fourth Street to the reviewing stand. First prize went to the SAE’s unique Yellow Jacket wrecker with the Duke blue devil in tow.

As the smoke cleared still another pregame activity took place in the running of the freshman cake race with a field of 500. With a short break for lunch the homecoming crowd took its place in Grant Field Stadium to witness a football thriller that kept all of them on the edge of their seats. Halftime activities included another splendid performance by the Georgia Tech Band. A note of charity was struck as the stands contributed generously to the World Student Service Fund.

Beaten but never disheartened, Tech students and alumni carried on to have one of the most successful homecoming dances of all time. Music was by the popular Auburn Knights. Everywhere in evidence were the initiates of the Bulldog Club, our most colorful organization. Highlight of the gala social event was the ANAK tapping.

As the clock struck twelve on Saturday night, we found ourselves able to state in truth that Tech had witnessed this year one of the most successful homecoming celebrations of all time.
Last year, hardly a week end passed but what students and their dates tripped the light fantastic. Seasonal frolics, fraternity formals, football dances, organizational dances, and an endless variety of others, filled our schedule of social events to the brim. These pedatorial pastimes gave us a much needed respite from the factory grind. Come Friday night, we could wangle a date, move the old jalopy off the lot and "rock it till the break of dawn".

Every dance saw 'les belle femmes' out in both quantity and quality. Perhaps we missed their presence in class, but no "squirrel chits" were unfilled on Friday and Saturday nights.

Our selection of bands was strictly 4.0—Charlie Spivac, the Auburn Knights, Jesse Duckworth, and a host of other fine orchestras were present.

Looking back on last year's gala social whirl, we can offer no less than "a job well done" to those who made these highlights of collegiate entertainment possible.
Also she sang Kappa Sigs' leadout. Everybody wants to get in the act.
In previous years the beauties presented in the BLUE PRINT have been selected by nationally known experts in the field of feminine pulchritude. The 1950 BLUE PRINT staff, in an attempt to give the students of Tech a more personal interest in the beauties who appear in the yearbook, sponsored this year a contest in which each student voted for the girl whom he considered most beautiful. On the following pages we present those girls who, in the opinion of the student body, are worthy of representing Tech as members of the 1950 BLUE PRINT Beauty Court.

Lambda Chi's Laureen B. and Hoagy C.

Momma—Buy me one—

Who let them in?

And just who is the h— do you think you are?
Sadly lacking a supply of feminine beauty in the flats during the week, we relished the never ending display of pulchritude that passed beneath our hungry stares on autumn Saturdays. No one could receive an ovation such as was rendered cheer leaders and majorettes of visiting bands as they strutted past the Tech stands. During the South Carolina game, the old bass drum opened up to introduce the first Tech majorette in recorded history.

No athletic contest in the world could boast as many "cats" and "clowns" as we saw this season. The witty remarks and antics of our classmate comedians received more laughs than an honor system motion in a faculty meeting. Yes, our sidelines were great this year.
Last one out is a sissy.

Joe, Mildred, Dolly, Ned, and the flowers.

Let's get back before someone gets our seats.

And we went to Tech—

They had us worried—for a while.

244
To the INTERFRATERNITY COUNCIL of Georgia Tech, falls the task of regulating, expanding, and integrating the activities of the twenty-six national fraternity chapters located here on the campus. Operating under the general supervision of Dean George C. Griffin, its fifty-two members yearly increase the scope and value of fraternal life at Tech.

A realization of the large accomplishments which a council of this type is capable of contributing to the school has caused the IFC to long be a leading factor in the promotion of athletic, scholastic, welfare, and social events. Competition is the keynote of all council undertakings, and thereby not only are results obtained, but pride is built up in each member for his particular chapter.

Softball, football, basketball, and many other sports constitute the principal athletic program of the IFC. Not only does the council promote intramural sports, but it furtheres scholastic improvement by awarding an annual scholarship trophy to the fraternity with the highest scholastic average for that year.

Best illustrating the welfare work of the council is its part in the "Empty Stocking Fund" Drive conducted each Christmas by the Atlanta Junior Chamber of Commerce. Rounding out the phases of campus life, the council is socially famous for the annual dances that it sponsors in the spring and fall.

The Interfraternity Council as a whole and its members individually are constantly seeking new opportunities to promote a better student life at Georgia Tech.
ALPHA EPSILON PI Fraternity was founded at New York University on November 7, 1913. It was the first national social fraternity to be founded at the Washington Square Campus.

From the beginning, the founders planned a national fraternity. No other chapter was added, however, until 1917, when the Beta Chapter was installed at Cornell University. Zeta Chapter was installed at Georgia Tech in 1920 as one of the first southern chapters of the fraternity. Reactivated in 1946, it has grown to be the largest Jewish fraternity on the Georgia Tech Campus.

The fraternity has as its goal the development of a high standard of social and intellectual fellowship among its members so that they may be better fitted to take proper seats in the universities and communities of America.

ALPHA TAU OMEGA, the first Greek letter fraternity organized after the Civil War, has expanded since September 11, 1865 until now there are one hundred five active chapters throughout the United States and Canada. Georgia Beta Iota has the distinction of being the first active fraternity chapter at Georgia Tech, having been chartered September 18, 1888.

The present membership has upheld the tradition of active participation in social and campus activities. Among the awards won this year was the Annual Homecoming Decoration Contest. Members were also active in intramural sports, taking first places in swimming, track, and cross-country.

ATO's are numbered among the members of the honorary groups on the campus, and many of the responsible student positions are administered by brothers of the chapter. A complete social program balances our scholastic and extra-curricular interests.

House party at Lake Burton.

Time out for egg-nog and a snack.
Since its founding in 1839 at Miami University, Beta Theta Pi has become one of the more prominent national social fraternities. It now has ninety-five chapters located in thirty-seven states and in two provinces in Canada.

The local chapter, Gamma Eta, was installed at Tech in 1917 when Alpha Pi was granted a charter by Beta Theta Pi. The chapter has long been active in campus activities, and it has placed more than its proportionate share of men in offices of importance.

The social activities have included numerous buffet suppers, and house dances. The Betas again gave their annual Christmas party, complete with Santa Claus, for a group of orphans. The social year was climaxed by the Beta Kid Party.

On December 24, 1824, the Princeton Order of Chi Phi was founded at the College of New Jersey, now Princeton University. From that time forward, chapters of Chi Phi have been established at the outstanding colleges and universities throughout the country.

On June 2, 1904, the charter of the Omega Chapter was granted. In 1910 a chapter house was obtained making Chi Phi the first fraternity on the Tech campus to own its house. The present house was built in 1928.

Chi Phi has always been an outstanding fraternity on the campus not only socially, but also athletically and scholastically. The fraternity has had a most enjoyable social season climaxed by a winter formal and an informal sport dance in the spring.

CHI PSI

Iota Delta Chapter

CHI PSI was founded at Union College on May 20, 1841. It was the fifth fraternity at Union, where the Greek letter fraternity originated. Iota Delta was established at Tech on December 15, 1923. Chi Psi now has twenty-seven chapters throughout the country, four of which are in the Southeastern area.

Chi Psi encourages a well-rounded college life for its men. Emphasis is placed on scholarship, and a two hundred dollar scholarship award is given annually to the man in each chapter with the best scholastic record. Sports, organizations, and other campus activities round out a full college program. Informal dances, house parties, and costume parties help maintain the social interests.

At Tech, Chi Psi is a relatively small fraternity, but in number of members only. The ties between the brothers are very strong, and the spirit of unselfish cooperation between the brothers ranks very high.

Almon  Benson  Campbell  Daley  Arellano  Buffone  Coler  Davison
Since its founding in 1899 at City College, New York, New York, Delta Sigma Phi has grown to sixty-three chapters and fifteen colonies. Following the pattern of national growth, Alpha Gamma is doing its part for expansion by working with colonies in nearby universities.

Alpha Gamma itself was established on the Tech campus in 1920. The chapter has grown considerably since the end of the recent war when only ten men returned to reopen the house.

The house itself is newly redecorated and contains one of the most modern and complete kitchens owned by any campus fraternity. But expansion is the word, and plans have already been started for construction of a new and larger house.

DELTA TAU DELTA was founded in 1859 at Bethany College, Virginia. Since that time it has grown to its present size of eighty-four undergraduate chapters throughout the United States and Canada. Our numerous alumni chapters are active in all the major cities of the nation. Gamma Psi was established on the Tech campus in April of 1921.

One of the chief assets of Gamma Psi is our house-mother, Mrs. Jane Wilson. Mother Wilson has been with us for two years, and by her presence the Shelter is made a true home away from home.

Another very definite asset we have is the Parents Club, which takes an active part in our fraternity life. Their services have been invaluable, and to them we owe many, many thanks.

The year was rounded out by full participation in all extra-curricular activities, and by our usual social functions, including hayrides, costume parties, barbecues and the annual Rainbow Ball.
ABOVE: Santa Vanderbleek and the kids.  RIGHT: Nathan gives out some Christmas cheer.

THE KAPPA ALPHA Order was founded in 1865 at Washington and Lee University. The Alpha Sigma Chapter celebrated its fiftieth year on the Tech campus last fall, having been installed October 21, 1899. Kappa Alpha has seventy-two chapters stretching from coast to coast across the central and southern sections of the country. The fraternity has some 31,000 alumni distributed among ninety alumni chapters.

This year, as usual, Kappa Alpha has produced an exceptionally large number of leaders in all phases of campus politics, publications, organizations, and various other activities.

The year was highlighted by our Golden Anniversary celebration last fall, "Old South" ball, the Convivum, which is the celebration of General Robert E. Lee's birthday, and a house party in the North Georgia mountains this spring.

It couldn't be that funny.

The pride of the chapter.

The General on his way to school.
Alpha Tau Chapter

THE KAPPA SIGMA Fraternity, founded in 1869 at the University of Virginia, now has a total of one hundred seventeen chapters in the United States, Canada, and Hawaii. At Tech, the Alpha Tau Chapter which has been on the campus for fifty-four years, is very active with members in nearly all of the honorary and scholastic organizations "on the hill". The membership also takes part in all of the intramural activities of the school, whether it is a rugged football game, or a singing contest; and have taken their share of the first places in all competitive events. Our Black and White Ball is the big event of the year, but house parties and outings are frequent which help round out our social calendar.

Relaxation?
THE LAMBDA CHI ALPHA National Social Fraternity was founded in 1909 at Boston University. Since then it has grown and matured into one of the largest social fraternities in America. It has a total of one hundred thirty chapters in the United States. Lambda Chi Alpha, being rich in tradition and proud of its eminent prestige in American colleges, views the future with confidence and promise.

The Beta Kappa Chapter was established on the Tech campus on October 6, 1942, after achieving an enviable record during its affiliation with the old Beta Kappa National Fraternity.

Beta Kappa has enjoyed a very successful social year which was highlighted by the annual Winter Formal which was held at Peachtree Gardens; the annual Christmas party, and Founders Day Celebration. The local chapter has been well represented by its members in nearly all campus activities and organizations.

The Phi Delta Theta Fraternity was founded on Christmas Day, 1848, at Miami University in Oxford, Ohio. Since that day over a hundred years ago, it has grown to include one hundred ten chapters located in the United States and Canada and over seventy thousand initiates, fifty thousand of whom are living today. The Georgia Tech chapter, Georgia Delta, has initiated over 800 members since its founding in 1902.

In addition to its social activities, which include the annual Spring Formal and Miami Triad Dances, the Bowery Ball, house-parties, etc., Phi Delta Theta contributed more than its share toward the leadership of the campus. Phis were found in the fields of student government, publications, honor societies, and all principal organizations; as well as in the field of athletics, which included many Phi Delts among its letter-men.

PHI EPSILON PI

Xi Chapter

PHI EPSILON PI was founded on November 23, 1904, at the College of the City of New York. The national fraternity has expanded considerably since its early beginning and now boasts of thirty-three chapters. Xi Chapter was established on the Tech campus January 15, 1916. The Phi Eps are once again proud of their record of campus work. In addition to their athletic endeavors, the Phi Eps are members of almost every honorary, professional, and scholastic organization on the campus. At the recent National Convention of Phi Epsilon Pi held in Atlanta in September, Xi Chapter received the national activities award for having the most outstanding record of participation in campus activities of any Phi Ep chapter.

During the past year, the fraternity purchased ground for the erection of its new home. Forced to vacate its old house because of the new superhighway, the fraternity now occupies temporary quarters and looks forward to the opening of its new home.

PHI GAMMA DELTA

Gamma Tau Chapter

PHI GAMMA DELTA, the thirteenth oldest Greek-letter society in America, had its origin at Old Jefferson College (now Washington and Jefferson) at Canonsburg, Pennsylvania, in 1848. It was founded primarily as a southern fraternity, but just before the War Between the States it became a national organization. Phi Gamma Delta is represented on the campuses of seventy-nine leading colleges in the United States and Canada.

Gamma Tau Chapter was installed at Georgia Tech in 1926 when Gamma Tau Delta, a strong local fraternity, was granted a charter by Phi Gamma Delta. The chapter has been very active in extra-curricular and intramural activities. High points in the social calendar were the annual Founder’s Day Anniversary Ball, the Norris Pig Dinner, and the big week-end house party in North Georgia.

PHI KAPPA SIGMA

Alpha Nu Chapter

PHI KAPPA SIGMA was founded in 1850 at the University of Pennsylvania. The Alpha Nu Chapter at Georgia Tech was established in 1904, and distinguished itself in founding the ANAK Society, the highest local honorary society on the campus. Phi Kaps have always been among the campus leaders and have been continually striving for better relations among the new students arriving quarterly. Although Phi Kappa Sigma has a relatively small chapter on the Tech campus, one can always find a Phi Kap in the midst of any worthwhile activity. Plans made in past years are now becoming a reality, and new and improved plans are being made for the future.

PHI KAPPA TAU

Alpha Rho Chapter

PHI KAPPA TAU first appeared on the Tech campus when Pi Lambda Delta, a local fraternity, received its charter as Alpha Rho Chapter of Phi Kappa Tau on April 27, 1929. Phi Tau was conceived at Miami University at Oxford, Ohio in 1906. It is one of the few fraternities which own their own national headquarters buildings. Most of the present chapters own their houses.

At the Dream Girl Dance at Peachtree Gardens last Spring, Miss Helen Carter was selected as Phi Tau "Dream Girl of 1949". Other social activities included the Christmas party for underprivileged children, a barn dance at Fernwood, and a circus party.

Phi Tau continues to win honors in scholarship and all fields of intramural athletics, and its members are active in all phases of campus life.

PHI SIGMA KAPPA

Kappa Deuteron Chapter

PHI SIGMA KAPPA was founded at Massachusetts State College on March 15, 1873. It has since grown to fifty-two chapters which are located primarily in the northeastern section of the United States. In line with Phi Sig's newly initiated expansion program, four carefully selected institutions have been granted charters this year; and Zeta Deuteron Chapter at the University of Wisconsin is being reactivated. The installation of these chapters is expected in the near future.

Kappa Deuteron Chapter was established at Tech in March of 1923; since then Phi Sig has maintained a prominent position in varsity and intramural athletics, campus organizations, school publications, and other extra-curricular activities. Our social calendar includes hay rides, house dances, costume parties, and picnics, and is highlighted each year by a Christmas Party and Moonlight Girl Dance.

With the aid of our active alumni chapter, Kappa Deuteron is anticipating the acquisition of a new home within the next few years.

PI KAPPA ALPHA was founded in 1868 at the University of Virginia. At first definitely southern, PiKA became national in 1909. Since that time it has grown steadily and now includes one hundred seven chapters in all parts of the country. Alpha Delta Chapter at Georgia Tech became the twenty-eighth chapter when it was granted its charter in 1904. Alpha Delta owns its house which is on Techwood Drive. The chapter numbers sixty members with twenty pledges.

During its busy social season, Alpha Delta plays host to neighboring PiKA chapters at its annual Possum Hunt, Christmas Party, Black and White Ball, and the spring house-party. The chapter has long encouraged academic achievement and is proud of the record of its members in this field, and in other campus activities.

PI KAPPA PHI

Iota Chapter

PI KAPPA PHI was founded at The College of Charleston, Charleston, S. C., on December 10, 1904. At present, there are forty-four undergraduate and thirty-three alumni chapters located throughout the United States and Canada. Iota Chapter was chartered at Georgia Tech in 1913 and has been a campus leader ever since. The fraternity's activities include full participation in scholastic, social, and athletic events. The most famous of these are Pi Kappa Phi's Founders' Day Celebration every December and its annual spring Rose Ball at which the "Rose of Pi Kappa Phi" is presented.

The proletariat disagrees with DWU's divine relations.
SIGMA ALPHA EPSILON is now ninety-four years old, being founded in 1856 at the University of Alabama. It has grown to be the largest national college fraternity in America with one hundred twenty-seven chapters and seventy-six thousand members in forty-seven of the forty-eight states. Always a leader among fraternities, SAE is noted for fostering the National Interfraternity Conference, establishing the first national leadership school, and erecting the first national headquarters building.

SAE came to Tech in 1890 with the chartering of the Georgia Phi Chapter, five years after the school was founded. During the year 1948-49, SAE continued to be a campus leader by winning the Intramural Athletics Trophy and the IFC Activities Trophy. This year the chapter won the Ramblin' Reck contest for the third time in four years thereby gaining permanent possession of the Golden Gibbon Trophy.

THE SIGMA CHI FRATERNITY WAS FOUNDED IN THE YEAR 1855 AT MIAMI UNIVERSITY IN OXFORD, OHIO. TODAY, THERE ARE OVER A HUNDRED SIG CHAPTERS THROUGHOUT THE UNITED STATES AND CANADA.

THE BETA PSI CHAPTER OF SIGMA CHI WAS FOUNDED AT GEORGIA TECH IN 1922, UPON THE ABSORPTION OF PI ALPHA SIGMA, A LOCAL FRATERNITY. IT HAS SINCE THAT TIME GROWN IN SUCH A WAY THAT IT IS TODAY ONE OF THE MOST OUTSTANDING FRATERNITY CHAPTERS ON THE CAMPUS. YEAR AFTER YEAR IT CONTINUES TO RANK HIGH IN SCHOLASTIC STANDING, SCHOOL LEADERSHIP, AND INTRAMURAL ACTIVITIES.

THE SOCIAL CALENDAR OF THE CHAPTER IS ALWAYS FULL. AS IN THE PAST, THE MOST NOTEWORTHY SOCIAL EVENT OF THE YEAR WAS THE ANNUAL SWEETHEART BALL IN NOVEMBER AT WHICH MISS ALICE DAVIS WAS CROWNED "SWEETHEART OF SIGMA CHI" BY THE CHAPTER PRESIDENT, JOE MCKINNEY.

SIGMA NU

Gamma Alpha Chapter

SIGMA NU had its beginning at V.M.I. in 1869 as the Legion of Honor. Since that time it has grown to be one of America's largest national fraternities, having representative chapters in forty-six states, the District of Columbia, and in Canada.

Gamma Alpha Chapter was established at Tech in 1896. During a period of fifty-three years, the chapter has initiated more than 800 members. The activities of the past year included a "White Star" formal which was held at the Ansley Hotel; and an all-Sigma Nu formal of the four Georgia Chapters at the Peachtree Gardens Club. Rush period in the fall also summoned social events including costume parties, square dances, and other novelty parties.

At the present time, Gamma Alpha is anticipating the building of a new house on fraternity row. It is hoped that construction will be started in the very near future.

SIGMA PHI EPSILON was founded in the year 1901 on the campus of Richmond University in Richmond, Virginia. In the period of forty-eight years since its founding, it has grown to the stature of over thirty-four thousand members, ninety-nine active chapters in principal colleges throughout the country, and eighty-five alumni chapters. Sigma Phi Epsilon’s primary aim, however, is not that of becoming the largest fraternity, but to grow in strength and character following a normal course of expansion.

Georgia Alpha chapter of Sigma Phi Epsilon came to Georgia Tech’s campus on April 1, 1907, and is one of the older fraternities on the campus. Their total active membership is about thirty-five while their pledges number eighteen. Out of this group came last year’s I.F.C. basketball and softball champions, which attests to the spirit with which the “Sig Eps” do things. This past year, the S.P.E.’s also took second place in the “Rambling Reck” parade and enjoyed a highly successful intramural football season.

Some of the social highlights of the past year on the S.P.E. calendar included their annual Christmas Party for some twenty of Atlanta’s underprivileged kids, the Pledge Party, which each year seems to get more hilarious, and the “Sig Ep” Golden Heart Formal.

With all their varied activities, they have not forgotten their principal purpose for coming to Georgia Tech... to receive an education. The “Sig Eps” keep an observant eye on their scholastic average and constantly strive to develop and encourage scholastic improvement.

TAU EPSILON PHI

Phi Chapter

TAU EPSILON PHI, the outgrowth of a professional fraternity, was founded at Columbia University on October 10, 1910. Phi Chapter was installed on the Tech campus in 1922.

The chapter at Tech along with Mu Chapter from Emory, Nu Chapter from the University of Georgia, and Epsilon Beta Chapter from the Extension Division of the University of Georgia, sponsor the annual Georgia Conclave, a week end of fun which the T.E.P. men never forget. The highlight of the Conclave was a formal banquet and ball at the Ansley Hotel.

Other chapter activities during the year consisted of numerous social affairs and athletic events. Tau Epsilon Phi has held the I.F.C. award for the cleanest house and grounds since the inception of the award.
**Beta Pi Chapter**

TAU KAPPA EPSILON was founded on January 10, 1899 at Illinois Wesleyan University. T.K.E., which stands among the larger national fraternities, has sixty-two active chapters and an ever-increasing membership, which now totals over fifteen thousand men.

Beta Pi Chapter has now completed its second full year on the Georgia Tech campus. The installation of this chapter, which was held on June 5, 1948 has proven to have been the springboard for the 'Teke's entrance into full participation in campus activities. In the short time since they have been a chapter, they have proven themselves worthy of the recognition the school has given them.

*TOP TO BOTTOM: The gang's all here. . . Seven Hearts is the bid. . . Ted didn't get the joke.*
THETA CHI

Alpha Nu Chapter

THETA CHI was founded at Norwich University, Norwich, Vermont, in 1856. In the ninety-four years since its inception, ninety-two chapters have been added to make Theta Chi the oldest and largest college fraternity with an unbroken chapter roll.

Alpha Nu Chapter was installed at Georgia Tech in the spring of 1923; and, thus, it has enjoyed its twenty-seventh birthday as a part of the Tech campus. The well-integrated group of Alpha Nu has been able to enjoy a well-planned social life and participate in all campus activities without losing sight of the fraternity’s ideals of scholarship and brotherhood.

Theta Xi Colony

THETA XI had its beginning at Rensselaer Polytechnic Institute in 1864. Since that time, it has grown to forty-two active chapters from coast to coast.

Established here at Tech in 1948, Theta Xi’s membership and functions have steadily increased. Our home, which was recently acquired, has been the scene of several social functions including our Founder’s Day Celebration in April. Although still in its infancy, Theta Xi is making great strides and is endeavoring to establish itself as one of the finest fraternities on the campus.

MAJOR HONORS
The Georgia Tech ANAK Society was organized on January 1, 1908, to honor select men from the Senior Class who were outstanding among their fellow students by their achievements and services to Georgia Tech. ANAK has contributed, from its membership, many Tech men who have become leaders of national prominence. ANAK has also been responsible for the founding of nearly all of the other organizations existing on the campus today.

OMICRON DELTA KAPPA, national leadership honor society for men, was founded in 1914 at Washington and Lee University, and the local circle was established in 1932. Members are selected on a point basis, a definite number of points being given for each honor or position attained by the student. When a student has amassed enough points and a definite scholastic average he is eligible for election. ODK ranks with ANAK as the highest honorary organization on the Tech campus.

THE KOSEME SOCIETY was reorganized on the Tech campus last spring after a period of several years' inactivity. The Society is climbing high in recognition as one of the outstanding honorary organizations on the campus. Members are selected from the students of the junior and third-quarter sophomore classes who have been outstanding in extra-curricular activities.

TAU BETA PI is the largest honorary engineering fraternity in the country. Eligible for membership in the society are the upper eighth of the engineering junior classes and the upper fifth of the engineering classes in their senior year. The principal activity of the chapter has been the sponsorship of Engineers' Day, designed to acquaint the prospective student, industry, and the general public with the aims and accomplishments of Georgia Tech. Tau Beta Pi has also inaugurated a campus-wide tutoring plan this year, which is administered and carried out by departmental honor societies under the direction of Tau Beta Pi.
PHI KAPPA PHI is the oldest national scholastic honor society on the Georgia Tech campus. Founded in 1897, it now has chapters in more than 50 colleges and universities. Membership in Phi Kappa Phi is awarded to those members of the senior class who are outstanding in scholarship during their first three years at Georgia Tech. The local chapter conducts the annual Honors Day exercises and awards a cup each year to the senior with the highest scholastic average.

PHI ETA SIGMA, a national freshman honorary scholastic fraternity, was established at Georgia Tech in 1930. Membership in Phi Eta Sigma is the highest honor a freshman may attain at Georgia Tech. Only those men who have a point average of 3.5 for the first quarter or the entire freshman year are eligible for membership. Each spring the fraternity presents a cup to the freshman having the highest scholastic average for the first quarter.
The BRIAREAN SOCIETY was founded in 1912 for students of the Co-operative Department to promote high ideals and scholarship. It offers the highest honor available to upper-classmen who are outstanding in scholarship, leadership, and character. The Section I group attends school during the winter and summer quarters and works with industry during the other two quarters.

ALPHA PI MU, the youngest of the scholarship fraternities, was founded at Georgia Tech in the fall of 1948 as a society for the recognition of industrial engineers with superior abilities.

The local chapter was granted its charter by the Student Council on January 25, 1949, and recognized by the state of Georgia on March 17, 1949.

Membership is limited to juniors and seniors of high scholastic standards and who possess traits of high leadership, character, and ethicality. Only those juniors who are in the upper one-fifth, and those seniors who are in the upper one-third of their classes are eligible.

CHI EPSILON

CHI EPSILON is the only national fraternity composed entirely of men in the field of Civil Engineering. Chi Epsilon recognizes and encourages the qualities of scholarship, character, practicality, and sociability in the undergraduate Civil Engineer. The Georgia Tech chapter of Chi Epsilon, founded in 1945, was formed from the Civil Crew, the oldest honor organization on the Tech campus. Among its many activities are field trips, guest speakers presenting news of the profession, and movies on various engineering subjects.
A recent addition to the list of campus honorary organizations is Delta Kappa Phi, in the Textile Engineering Department. The new group has already demonstrated leadership qualities, and the Tech chapter of this national textile fraternity will soon rank among the most respected on the campus.

The Industrial Management Society is the honorary professional group in the Industrial Management Department. To be eligible for membership in the organization, the student must be a member of the department and be in the upper third of the class and must have shown outstanding leadership and interest in the field of his studies. The purpose of the Society is to give the senior student a practical view of industry that is sometimes neglected in the classroom.
PHI PSI is a national honorary textile fraternity which has as its aim the promotion of better feeling and closer relations between the textile students, and to strengthen the position of the textile industry. Election to membership is limited to a percentage of the junior and senior textile students.
PI TAU SIGMA, the honorary Mechanical Engineering fraternity, selects its membership from the outstanding juniors and seniors of each year. To be eligible for membership, a student must not only have high scholastic standing in his class but also fulfill requirements of character and leadership.

SIGMA PI SIGMA, Physics Department honor group, is one of the new fraternities organized on the Tech campus. The society, which has no secret ritual, endeavors to promote interest in physics through lectures and demonstrations which are open to the public. It has made exceptional progress in its first year and is expected to be one of the leading departmental honorary fraternities in the near future.

The *Blue Print*, which is the official yearbook of Georgia Tech, is published by the students during the latter part of the spring term. Sections of each yearly issue are devoted to classes, faculty and administration, athletics, fraternities, features, and campus organizations in an attempt to present a complete coverage as possible of the various activities which take place on the Tech campus during the school year. For many years the *Blue Print* has ranked high in the field of collegiate yearbooks and is a publication of which Tech students are justly proud.

The Technique is the semi-weekly newspaper of the Georgia Institute of Technology, published each Tuesday and Friday of the school year by the students of Georgia Tech. Its primary purpose is the publication of student news, including news of organizations, campus activities, sports, and other events of interest. Student opinion on current affairs is also expressed through the medium of an editorial page containing letters to the Editor, opinion polls, and discussion articles.
The Georgia Tech Engineer is a technical publication issued by the students of Georgia Tech eight times each year. It contains reports of research by Tech professors, and other scientific articles by students and faculty, as well as articles on social and economic problems which confront the engineer at work in society. Staff work includes writing, art, and business management.
The *Yellow Jacket* is the Georgia Tech humor magazine. The main objective of the *Yellow Jacket* is to serve as an outlet for creative writers, cartoonists, artists, and photographers on the campus. Articles of technical or even semi-technical nature are of no concern to this publication. The expected results of the *Yellow Jacket* embrace all forms of enjoyment. The students who read the magazine do so for the pleasure that they receive, rather than for practical knowledge.

The Publications Board, made up of representatives from the four student publications, is the governing body on policy and scope of coverage as pertains to each of the four. The editors, business managers, and faculty advisors from the Technique, Yellow Jacket, Blue Print, and The Engineer are automatically members of the Board together with a representative from the Student Council and Pi Delta Epsilon. Associate Dean of Students John J. Pershing is the permanent chairman of the board.

The Student Council, now in its twenty-eighth year, is the governing body of the Student Government of the Georgia Institute of Technology. Through its duly elected members it represents the student body in all matters affecting student interest, provides a medium of communication between the students and school authorities, and preserves the customs and traditions of the school. The members are elected by popular vote in the spring quarter of each school year, with the exception of the freshmen who are elected at the first of the fall quarter.
The Tech unit of the Independent Students Organization, a national club, has done much to aid the non-fraternity man. This organization is devoted to helping its members to become well rounded in their college life. The I. S. O. has done much toward this goal since their organization, and they now rank as one of the top social organizations on the campus.

Married students who live in the Callaway Apartments belong to the Callaway Unit of the ISO. Members of this unit, participating in all ISO functions, have distinguished themselves in their scholastic and extra-curricular activities. They are leaders in football and other intramural sports.
The Latin American Club of the Independent Students Organization is composed of Latin students on the Tech campus. This unit strives to acquaint the Latin students with their new environment and at the same time to furnish social functions with students of their native lands. This unit has been very active in all ISO functions and has generally met with success in all their ventures.
Independent Students’ Organization members in Smith Dormitory belong to the Smith Unit of this organization. The Smith Unit is one of the larger units and has gone far since its recent organization. This unit actively participates in all activities of the ISO.
TECHWOOD UNIT

OFFICERS

G. O. Kelbert  Vice President
E. L. Collins  Secretary
J. G. Moss  Treasurer

Co-op members of the ISO belong to the Techwood Unit. Changing membership each quarter, this unit meets slightly greater organizational difficulties than confront the other units. Despite this the Techwood Unit is one of the most active of the group.
The student chapter of the American Association of Textile Chemists and Colorists is now functioning in the Textile Engineering Department. This organization sponsors speakers that are prominent in the field of Textile Engineering, motion pictures on various processes, and field trips to mills and other points of interest in the textile field.

The American Ceramic Society was originally organized on the Tech campus in 1926. The purpose of this organization is to unify the students of the School of Ceramic Engineering so that the students, in the spirit of cooperation and fellowship, may work together toward their common goal of personal development and professional achievement.

The Student Chapter of the American Chemical Society at Georgia Tech was founded in the Fall Quarter of 1948. Membership in the Chapter is open to all graduate and undergraduate students of Chemistry and Chemical Engineering. The organization affords an opportunity for the student to become better acquainted with the professional aspects of Chemistry. Its purposes are to foster a professional spirit among the members and to instill professional pride in Chemistry.

The purpose of the student chapter of AIChE is to provide opportunities for the professional development of students in Chemical Engineering. It is recognized that the professional associations made during student days become valuable in later years, and that the professional attitudes acquired at that time set the pattern for later life. A scholarship award is made each year to the junior in the chapter who has attained the highest scholastic average during his first two years. This award is a student chapter emblem, either pin or lapel button, together with certificate of award.
The Georgia Tech Chapter of the American Institute of Electrical Engineers was established in 1915. The organization is dedicated to furthering the knowledge of electrical engineering students in their chosen field. The organization stimulates the interest of its members by lectures, tours, and movies.
The American Institute of Industrial Engineers is an organization within the Industrial Engineering Department. The organization strives to acquaint the future I.E.'s with the problems and full particulars on the factors that they will face upon graduation. The AIE believes that these factors are not sufficiently covered in classroom work and attempt to enlarge their knowledge through lectures and discussions with practicing engineers in that field.
The Georgia Tech Architectural Society was formed in 1910, one of the oldest organizations of its type on the campus. In 1943 the organization affiliated with the American Institute of Architects, thus bringing student members in direct contact with the country’s leading architectural designers and engineers. The Society has several functions: educational, economical and social. Lectures are given and field trips made. The Society subscribes to several magazines and often purchases books for the departmental library and special equipment for student use.

AMERICAN SOCIETY
The Georgia Tech Student Chapter of American Society of Civil Engineers obtained its charter in 1924. All Juniors and Seniors in Civil Engineering are eligible for membership and are welcome at the meetings. The Student Chapter is active in obtaining movies, speakers and field trips. At least one student-faculty social function is held each quarter.

OF MECHANICAL ENGINEERS

The student branch of the American Society of Mechanical Engineers gives the student an opportunity to broaden his acquaintance with the practical side of mechanical engineering. It helps him to keep abreast of recent technical developments and enables him to establish fraternal contact with fellow students and with active engineers.
The Georgia Tech Management Club represents a major step of the School of Industrial Management in coordinating management studies with industry. The club sponsors tours and lectures by prominent men of the country. The Tech Management Club is developing future leaders in business and good industrial managers are becoming more synonymous with Georgia Tech.

Designed to encourage original thought, the national Institute of Aeronautical Sciences coordinates the different phases of aeronautics, including education, engineering, and production. By opening its rolls to aeronautical students, it gives the prospective engineer an opportunity to become acquainted with many aspects of the field outside the classroom.
The Institute of Radio Engineers was organized in 1912, to advance the art and science of radio communication and related fields, and to promote the professional welfare of engineers engaged therein. Only recently established on the Tech campus, the I. R. E. is at present chiefly concerned with building its membership among the Electrical Engineering students and those interested in radio and related topics.

The Society for the Advancement of Management is the recognized national professional society of management people in industry, commerce, government, and education. The society was formed in 1936 by the merging of the Taylor Society, organized in 1912, and the Society of Industrial Engineers, founded in 1917. The Tech chapter of S. A. M. was granted its charter on June 6, 1946. Since that date, the chapter has actively engaged in the promotion of various activities sponsored by the School of Industrial Engineering. Membership in the chapter is limited to students of Industrial Engineering.
The American Society of Military Engineers was organized in 1920 for the purpose of preserving and studying the experiences of the engineering profession in World War I. The purposes of the Society are: to advance knowledge of the science of military engineering; promote efficiency in the military engineer; encourage, foster and develop among military engineers and other arms of the military service a spirit of co-operation and mutual understanding of their respective duties, powers, and limitations; to hold meetings for the presentation and discussion of appropriate topics that should be helpful and of interest to the organization’s member.

ALPHA PHI OMEGA, national collegiate service fraternity, this year celebrates its 10th year as an active organization on the Tech campus. APO sponsors the U. M. O. C. contest, the "Get Out the Vote" drive, the Student Book Exchange, and other services. APO is striving to be of more service to the community and the nation than ever in the past and is gaining a wide reputation on the campus for service and dependability.

The Bulldog Club is one of the best known and most active local organizations. It was founded in 1910 by ANAK to promote school interest and later in 1933 merged with the Junior Koseme Society to form the present organization. The members are selected from the most outstanding juniors and seniors on the campus. The organization is responsible for the annual Homecoming Dance, Homecoming Decorations Contest, and the Freshman Cake Race. Characteristic of the club is its distinctive initiation which is considered one of the traditions of the campus.
DramaTech was founded late in 1946 to stimulate student interest in dramatics and to give potential engineers a chance to develop their acting abilities. This year Drama Tech produced two fine plays—"Room Service", a light comedy, and "Command Decision", a drama of our wartime Air Force. The club is now under the very capable guidance of their new director, Mary Nell Ivey.

The First section of the Co-op Club was organized in 1915 for the purpose of promoting interest in Co-op activities and fostering a spirit of fellowship among students in the Co-operative Department. It is one of the oldest social organizations on the campus. Members of the Co-op Club are selected from upper-classmen in the Co-operative Department who are outstanding in leadership and character and who have manifested an interest in Co-op activities.

SECTION II

The Second Section, which is in school during the Fall and Spring quarters, and the first section are heavy competitors in scholastic and extra-curricular activities. This competition has led Co-op students to attain higher levels of scholastic nature. Both of these units rank high on the Tech campus as social and scholastic groups.

PI DELTA EPSILON

PI DELTA EPSILON is the honorary journalism fraternity. Its membership is composed of students who have been outstanding on one of the four publication staffs for at least two years. This organization sponsors talks and open discussions so that all members can express their views concerning the publications.

OFFICERS

R. J. FOX President
H. F. MacAMISH Vice President
R. L. DAY Secretary-Treasurer
The Ramblin' Reck Club is an organization whose purpose is to keep up and magnify school spirit. Members are chosen from among juniors and seniors and the number is kept small to insure efficiency. During the 1947 football season, the Recks organized and promoted the highly successful flash-card section. At the beginning of each school year, the Reck give instructions to the new freshmen on the duties of a "rat" and also sponsor each fall a Ramblin' Reck contest between the different organizations on the campus.

The Georgia Tech Glee Club is one of the "up and coming" organizations on the campus. Under the direction of Mr. Walter C. Herbert, head of the Department of Music, the club is yearly increasing its scope of activity. This year, in addition to making visits to nearby towns and colleges, the singers made a three-week tour of Germany and Austria during the Christmas holidays, entertaining American troops and families.

KAPPA KAPPA PSI is the national honorary Band fraternity. The purpose of this fraternity is to furnish for its musically inclined members an outlet other than the normal scholastic life of the student. To this aim it sponsors both musical and social activities. To become a member, a student must possess high character qualities, be outstanding in his school, and be an accomplished musician.

The Table Manager's Association is composed of the table managers of the social fraternities on the Tech campus. A Constitution for the Fraternity Manager's Association was modeled after the one at Ohio State University. The Fraternity Manager's Association is a separate corporation formed under the laws of Georgia to purchase goods for fraternities as Georgia Tech and to supply information and services to the member fraternities. The corporation is controlled by a Board of Trustees made up of four alumni and four student members. The purpose of the T. M. A. is to obtain better food at lower prices for the fraternities through wholesale buying.

The GEECHEE CLUB was reorganized in 1946 by a group of students from Savannah who were interested in organizing all Tech students from that area. The club is very active during the school quarters, and has outstanding social events in Savannah between quarters. One of the many advantages of the Geechee Club, and its purpose of organization, is a car pool system for rides between Tech and Savannah. The organization is unique on the campus and very restricted in its membership; only Savannah students are eligible.

CAMERA CLUB

The Georgia Tech Camera Club was organized in 1940 for the benefit and instruction of the many amateur photographers in the student body. The club maintains a well-equipped darkroom which is available to all members. The Camera Club Photographic Achievement Key is awarded to those members who have obtained a required minimum number of points in the quarterly photographic competitions. To climax the year's activities, the annual Photographers Ball is held in the spring. This is an affair to which members come attired as fantastic photographers and their dates attend as models.

The International Relations Club, founded in 1938, serves as a meeting place for students who are interested in discussing and learning the engineer's art in international affairs. The meetings are highlighted by speeches either by foreign students from the campus or by notables who have participated in the shaping of our foreign policy. The club plans to sponsor speakers on questions of immediate interest and importance, thus keeping in step with the everchanging foreign scene.
The Georgia Tech Radio Club, one of the many Radio Clubs throughout the nation and the world, was founded in the early 1920's. The club's purpose, as set forth in its constitution, is "to secure for ourselves the pleasures and benefits of the association of persons interested in amateur radio by promoting better cooperation among its members, developing individual efficiency, and furthering the interest of radio in the general community." The club has gone far toward this goal as evidenced by its recent acceptance by M. A. R. S. (Military Amateur Radio Service), and A. R. R. L. (American Radio Relay League).

The Masonic Club is made up of Master Masons in attendance at Tech who desire to carry on their Masonic activities away from home. All Master Masons are invited to visit and join this organization.
"Meet me at the Y", has come to be a common expression around the Tech campus, for the facilities of the "Y" Building and Camp are available to all students. The building houses all the publications, the Glee Club, and religious organizations, also serving as a meeting place for many campus clubs and a student lounge. The newly acquired camp is the Techman's Country Club. The Y. M. C. A. Cabinet plans and presents various activities, such as Open House, Bible Study, Movies, Chapel and conferences, in which every student is invited to participate.

The Georgia Tech Newman Club, organized at Tech in 1928, is one of the local chapters of the National Federation of Catholic College Clubs. Its purpose is to provide for Catholic students a better contact with their religion during their years at college. The basic objective of the club is of a religious nature; but it also promotes the intellectual, social, and athletic interests of the students.

The Wesley Foundation is the Methodist student organization on the campus. Actually it is the Methodist Church at work in the college community, seeking to provide for the spiritual, moral, and social needs of the student. Among its objectives are the creation of a greater personal relationship with God, the developing of each person so that he might be a shining light to those about him, and the strengthening of those ties with God made in youth so that the individual may become a mature Christian citizen.

He has achieved success who has lived well, laughed often and loved much; who has gained the respect of intelligent men and the love of little children; who has filled his niche and accomplished his task, and who has left the world better than when he found it.

—ROBERT LOUIS STEVENSON
ATHLETICS
THE ATHLETIC ASSOCIATION

Under the direction of Athletic Director William A. Alexander, the Georgia Tech Athletic Association has continued its progressive policy of producing winning teams and at the same time scheduling strong opponents from other sections of the country. The intensive and aggressive program of the A. A. has paid dividends in the popularity and successes of the various Tech teams.
FOOTBALL
Tech's football coaching staff is well-nigh incomparable, principally the four-man brain trust of Head Coach Bobby Dodd, Ray Ellis, Assistant Coach, Ray Graves, Line Coach, and Dwight Keith, Backfield Coach.

Beginning in 1931 as backfield coach, Bobby Dodd soon became the logical successor to Athletic Director William A. Alexander when the latter stepped down as Head Coach in 1945. Employing the "T" formation, Dodd has become the master of "razzle-dazzle" football throughout the south. Astoundingly popular with his players and with the fans, Coach Dodd has turned out exceptional teams every season at the Flats.

Ray Ellis joined the Tech staff the same year that Dodd took over, and his shrewdness has paid great dividends in subsequent years.

Line Coach Ray Graves brought an outstanding record with him when he joined the Tech staff in 1947. He served as line coach at Tennessee, scout and assistant coach for the Philadelphia Eagles, and earlier as a player for the Eagles. Graves' work with the Jacket forward wall has earned him the highest praise.

Dwight Keith was coach of all freshman sports from 1942 until his appointment as varsity backfield mentor in 1945. Since that time he has done a superb job of developing scatbacks for Coach Dodd's deceptive "T" attack.

Lewis Woodruff, head freshman coach, came to Tech in January, 1947 after two years at Decatur High School where his teams won their conference championship both seasons. Starting as assistant B team coach and scout, Woodruff was appointed freshman mentor for the 1949 season.
Singling out any exceptional players was a difficult task and somewhat unfair to the entire squad. Led by Captain Tom Coleman, the 1949 Yellow Jackets were one of the most evenly balanced teams in the conference; however, the sports writers selected four of the group for honors.

Coleman, North, and Jordan were picked on the All-Southeastern Conference team, North making both offense and defense selections. Dick Harvin received All-American Honorable Mention from Colliers magazine. Bobby North was named the SEC "Player of the Week" for his work in the Auburn clash.
The 1949 Georgia Tech football team upset the pre-season ratings by winning seven of its ten games scheduled. Tulane, Alabama, and Duke were the elevens responsible for Jacket defeats, and these games were close scoring affairs.

Bobby North and Jimmy Jordan were probably the most spectacular performers throughout the season, but the iron-man play of Captain Tom Coleman, center Bob Bossons, and quarterback Jimmy Southard were as much a part of Tech's glory. Little more could be asked of the entire team, and every player deserves nothing less than the highest praise. Faced with the loss of many of the '48 lettermen, Coach Dodd called on his sophomores frequently and each one came through with superior performances. Their experience should pay rich dividends during 1950's eleven game schedule.
Vanderbilt was rated among the top ten teams in the country and was set to beat Tech by at least a touchdown, but the Jackets ignored the dopesters and after three minutes of play Tech led 6-0. Southard's pass to Griffin netted the score.

Vandy snapped back and went 75 yards before Bill Wade fumbled on the Tech 24.

Halfway through the third quarter, the Nashville team scored its only TD after a 65-yard drive. The extra point gave Vandy the lead. Bossons grabbed a Commodore bobble deep in Tech territory, and the Jackets set sail. Colin Anderson made an impossible catch of Southard's toss and gained 33 yards. McCoy got 23, and Humphreys and North went to the Vandy seven. Then Humphreys outran the secondary to score six winning points.
Someone said that a good, big man was better than a good little man, but it took the Green Wave giants to prove it to the gamest Tech team we have seen. Saturday, October 1, was a dreary, wet day in New Orleans but the Yellow Jackets' spirits never waned.

Little Jimmy Jordan sparked a Tech drive following the kick-off, but the Greenies stalled it on their own eight yard line. A twenty pound per man weight advantage kept the ball in Tech territory most of the game after that surprising initial drive. The Jackets missed two scoring opportunities in the first half when a Patton-to-Harvin pass missed and sophomore Lum Snyder let Jimmy Southard's aerial slip through his fingers.

Tulane's deception took nine plays in the first quarter to tally, but a battered Tech line staved off numerous drives until the final period. Tulane added two more touchdowns as the two-platoon system finally whipped down the Jackets.

TULANE TROUNCES JACKETS, 18-0

North rolls against the Greenies.

POPE

BECK

418
Little Jimmie Jordan was the spark of the Jacket offensive against the Washington and Lee Generals, October 8, at Grant Field as he ran 75 and 55 yards on two punt returns to score twice for Tech. Jordan's 24 yard romp put the ball on the W. and L. 4 yard marker and set up the third Jacket tally. Morris Harrison bulled over for the score.

Big Clay Matthews added two points when he rammed through to block a General punt with only four minutes remaining in the game. Two rapid touchdowns ran the score to 36-0.

The play of the reserves in the game was gratifying and the majority of the squad saw action during the afternoon.
The Yellow Jackets dominated play for three quarters at Grant Field on October 15, running up 28 points only to see a determined Tiger squad roar back with three tallies in the final period. A score in the waning minutes assured the Engineers a hard-earned victory. Bobby North was personally responsible for the first Tech TD, running for a first down almost every time he got the ball. Quarterback Jimmy Southard churned 15 yards to register, and Harrison blocked a punt for two points. McCoy sparked a 65-yard drive to pay dirt, and Maloof added number four.

Tidwell and Tucker passed and ran to spark the Auburn rally. Langner scampered 13 yards for the third TD. Humphreys carried tacklers with him as he fought his way over for Tech’s final marker.
The Yellow Jackets invaded the home field of the Florida Gators on October 22 and spoiled the Florida Homecoming with a 43-14 lacing of the big Gator team.

Jimmy Southard called a near perfect game, and the Dodd brand of deception completely baffled the SEC “dark horse” team during the second half. Florida scored first on a well-executed drive; only to have Tech score on six plays and knot the score. The Gators’ power netted them another seven points midway in the second period after the Jackets had taken the lead 14-7. Southard called a pitch-out to Buster Humphreys that put Tech in the lead 20-7 with seconds remaining in the half.

The second half was all Tech, as the elusive Bobby North and brainy Southard highlighted the attack that scored a safety and three more tallies over a visibly exhausted Florida squad.

Tech’s quarterbacks connected for 10 out of 18 aerials for 173 yards. Dick Harvin, stellar end, had his best day on the receiving end for the Jackets.
A big, aggressive Duke Blue Devil eleven gave the Jackets their second licking of the year, October 29 at Grant Field. Lady Luck rode with the Devils, but Tech's grid men seemed unable to coordinate the excellent play of several individuals. The Engineers tallied first on a hand-off from Southard to Humphreys who passed to Dick Harvin for the score. The Blue Devils, particularly Earon, left end, rushed Southard badly throughout the game, and the Tech quarterback was relatively ineffective with his aerials. Duke's first score came on a three yard buck by Mounie. Their other tallies came as the result of two pass interceptions and a partially deflected pass in the end zone. Roy Thompson scooted 30 yards in the final period for Tech's second touchdown.
TECH DAZZLES VOLS, 30-13

An injury-ridden Tech eleven journeyed to Knoxville on November 5, and completely reversed the predictions with a 30-13 rout of a favored sophomore Tennessee team.

Sophomore quarterback Darrell Crawford earned the highest praise for his job in replacing injured Jimmy Southard. Tech's running attack proved its worth as the dazzling Jacket backs churned for 369 yards gained, while passing netted but 36. Tennessee got 84 on the ground and 130 by air.

Coach Bobby Dodd won acclaim as "Coach of the Week" for his handling of the Tech team, and Crawford in particular. The rookie ball handler was as ready as a veteran and his field generalship largely accounted for the four Jacket touchdowns. Dan Bradach, suffering from a paralyzed larynx, was flown to Knoxville at the last moment and turned in one of his best performances for Tech. The entire Engineer squad played their finest game of the season.
Three tough ones in succession proved too much for the Jackets, and a well-balanced Alabama Crimson Tide offense lashed Tech with a 20-7 margin on Legion Field in Birmingham, November 12. The Engineers scored first after Bob McCoy intercepted a ‘Bama aerial in the second quarter. Humphreys tossed to Dick Harvin who took the ball away from three Tide defenders in the end zone. The second half saw the Red Elephant power and passing pay off after superior kicking kept the Jackets bottled up. Alabama played their best ball game of the season to preserve their jinx over the Gold and White gridmen.
A battling team of Gamecocks visited Grant Field on November 19, and held the Yellow Jackets to a 3-0 deficit for three bruising periods until the Tech offense perked up enough to net two touchdowns and one extra point. Colin Anderson's spectacular catches and Bobby North's nearly unstoppable line smashes were the margin over the South Carolina lads. Bill Killoy booted a thirty yard field goal for Carolina early in the first period, and the Gamecocks doggedly held on until the last frame. Crawford scored first for Tech on a sneak from the one, and Buster Humphreys climaxed North's 41-yard drive from the Carolina four.
Spotting the Bulldog line a considerable weight advantage and pre-game build-up, the Yellow Jacket forward wall completely out-fought the Big Red and provided the impetus for the Tech victory as Red Patton booted the winning extra point.

Statistics showed the Engineers a greater team than was indicated by the scoreboard. Tech garnered 21 first downs to 9 for the Bulldogs, and totalled 284 yards gained to 218 for Georgia.

After the opening kick-off, both teams sustained drives that went deep toward scoring territory but failed to cross the double stripe. From the Georgia 45 in the second period, Mal Cook flipped a pass that John O'Neill missed by inches only to have Gene Lorendo catch and race into the end zone. Durand's try for the PAT was wide, and the Red and Black lead 6-0. After the kick-off, the Jackets mounted a drive from their own 24 that was stopped on the Georgia 23 when Maricich intercepted a Southard to Griffin aerial.
Opening the second half, Tech failed to make a first down, and Buster Humphreys booted to the Georgia 10. Maricich returning to the 22. A penalty put the ball back on the seven, but "Breezy" Reid scooted to the Bulldog 48 before Sheffer hauled him down from behind. The Jackets finally stopped the march on their 24. Tech again couldn’t gain and Sheffer quick-kicked to the Bulldog 10. Tech held and Jordan took Field’s kick back to the Georgia 39. Humphreys made it first and ten on the 29. O’Neill and Humphreys worked the ball to the five, and Bobby North was short of a first down on the one. Jimmy Southard, in tape and padding to protect his cracked vertabrae, drove over on a quarterback sneak. Patton’s kick was perfect.

Humphrey’s fumble on the Georgia four ended a potential scoring march. After an exchange of punts, the Jackets worked the ball to the Red and Black 21 as the clock ran out.
THE JUNIOR JACKETS

Although the season's record for the Junior Jackets was not impressive, varsity coaches are looking confidently toward the addition of weight and football prowess that the fresh will give to the varsity squad. The beefiest forward wall in many years promises to be the crowbar for breaking out those scat-backs that are traditional at Tech.

Alabama's rugged freshman squad dumped the Tech first year men 20-9 in the first game of the '49 season. A few weeks later, however, the Jacket power lived up to its reputation and the Junior Jackets romped over Auburn's frosh 14-2. In the annual Turkey Day Shrine classic, the Georgia Bullpups rolled to an 18-0 win at Grant Field.

Hal Miller, George Morris, Aymond Cooper were the standouts in the Jacket line, while All-Southern prep halfbacks Harry Wright and Chappell Rhino and fullback Pete Brown made varsity backfield coach Keith's eyes shine with dreams of future games.
If judged by their home game record, the 1950 Georgia Tech basketball team had an excellent season; however, a jinx rode with the Yellow Jackets on road games. Only the Southeastern champions from Kentucky bested the Jackets at the Tech gym, but the only trip victory that the Engineers could muster in SEC play was over the Auburn Plainsmen.

During the Christmas holidays the cagers played a circuit of seven games, among which they won third place in the Dixie Tournament at Raleigh, N. C. On this pre-season jaunt, Tech met Bradley, St. Louis, and Michigan State, winning the latter contest.

Opening their SEC schedule, the Jackets dropped two heart-breakers to LSU and Tulane. The Tigers downed the Tech

men, 63-52 in a much closer game than the score would indicate. Tech led the Greenies by two points with only a minute to play only to have a Tulane surge snatch the win from them, 64-62. Back in Atlanta for their first home stand, the Jackets upset a high-riding Auburn quintet, 65-49, with Mel Dold capturing scoring honors for Tech. In Tuscaloosa the Alabama walloped the White and Gold five, 73-39, to continue the road jinx.

The ever-powerful Kentucky Wildcats handed the Jackets their only home loss. Coach Rupp's boys were extended to win, 61-47 from the scrappy Tech quintet. Repeating the gridiron upset, the Engineers rolled over Tennessee 68-57 less than a week after the Vols had beaten Kentucky. In a return tilt with the Tulane
Green Wave, Colin Anderson, Tech's All-SEC forward bucketed 24 points and sparked the hosts to a 59-55 revenge win.

The Vols evened the score in Knoxville, dumping Tech, 69-56. Keener's thirteen markers gave him high scoring honors. In their highest scoring game of the season, Tech jumped all over LSU, 85-58. A capacity crowd saw the Jackets hit 33.8% of their shots against the Bengals. Florida's baffled five fell, 69-38 as the Jackets ended their home schedule.

In two previous encounters, Tech and the Georgia Bulldogs had split, Georgia taking the first game, 67-55 and Tech the second, 56-51. Playing in Athens, the final contest went into overtime and the Bulldogs edged the Jackets 73-72. Bob Healey's free toss was the winning point. Bill Spivey, the cloud-scaping Kentucky center, netted 40 points as the Wildcats drubbed Tech 97-62. Sophomore center Bill Cline led the Tech men with 15 tallies.

Mel Dold dropped in 17 points to lead the Jackets to their lone road game win.

The Engineers' control of the backboards was the margin of victory over Auburn's
top bracket squad, 61-53. The last game of the season found Florida rising up to take a 59-41 win from the Jackets in Gainesville.

Moving to Louisville for the annual SEC tourney, the men from the Flats met Tennessee in the first round, and despite Cline's 14 points, the Vols advanced with a 63-56 win. Tech went cold midway in the second half after fighting on even terms until then. Teeter Umstead earned praise for his fill-in job at guard when Mel Dild went out on fouls.

The entire 13-man squad earned cheers from the stands whenever they took the court, and we count the 1950 cagers among the best at Tech.
After a pre-season swing through Florida, the Jackets opened their regular SEC season on April 7, playing host to the University of Kentucky. Although Sunset Thompson hurled superior ball in the first game, Tech lost it due to the lack of clutch hitting and an experienced backstop. In the second and last game of the series, the Jackets played the Wildcats on even terms throughout most of the game; but the Kentuckians came through with a late inning rally to ice the series.
The Engineers snapped their six game losing streak by beating Tennessee on fifteen hits. Herb Bradshaw allowed the Vols only six hits in pitching his best game of the season up to that date.

Ten errors turned the Jackets' first meeting with Auburn into a nightmare with the Tigers coming out on top. In the second game, it appeared that the Alabamans were going to come
Schoening stretches.
Yellow Jacket "wrinkle makers" talking over the art of making them break.

Through with their second victory, but the boys from the Flats saved the day with a thrilling two-run ninth inning rally to split the series.

On April 29 and 30, Tech fought the Florida Gators to a draw, each team winning one game apiece. Sunset Thompson pitched superb ball in limiting the Floridians to only five hits while his mates pounded out eleven runs off of three Gator hurlers.

The Jackets met the University of Georgia for the first time of the season in May, winning two of the four games played. To show the intense rivalry between the two teams, all four games were decided by one point margins. Hank Lankford, Tech outfielder, showed that he had the range of the outfield fence in the first game by blasting out two home runs, and he continued to be the terror of the Bulldog pitchers during the remainder of the series.

Although Tech did not have an impressive season, some of the individual performances were worthy of mention. Hank Schoening led the hitters with a lusty .452 average followed by Dick Harvin with .391. Eight other men hit .300 or better during the season. In the pitching department, Sunset Thompson and Herb Bradshaw bore the brunt of the attack for the Jackets.
TRACK
During the 1949 season, the Georgia Tech track team was supreme in the conference and in the south. The Jackets stretched their dual meet victory string to fifteen, won the SEC crown, and repeated their victory of 1948 in the SEAAU clash. Coaches Norris Dean and Tommy Plaxico rate unbounded praise along with team members for the banner 1949 season.

The Yellow Jackets started the season by scoring 36 points at Chapel Hill in the Southern Conference Indoor Meet to place first in the non-conference division. Buddy Fowlkes streaked to wins in the 70-yard high and low hurdles; Dick Harvin took honors in the shot put; and the White and Gold relay team of Lansing, Fowlkes, Anderson, and Stowers romped home first in the mile event.

Fowlkes ran a 9.6 second 100-yard dash to spark the Engineers to an 85-41 lacing of Florida's Gators. Red Smith and Jack Corridan took the two-mile and the mile runs respectively, and Fowlkes also captured the 220 low hurdles and the broad-jump.

The Green Wave from Tulane University was the next victim of the Tech powerhouse, although the Greenies' Paul Bienz literally churned to victories in the century and the 220-yard dash. The tiny New Orleans speedster edged Buddy Fowlkes in both events by a mere 0.1 second. Bienz later set a new Tech record in the 220-yard low hurdles with a 23.3 seconds trip.

Long-striding Robert "Red" Smith loped to a 9:45.5 two-mile, the best of his career, to

Shiver, Coons, and Forward take an early lead for Tech.
1949

SEAAU Meet—Tech 1st place

Stowers wins as Anderson strains for close second.

'"Rapid Robert" Renshaw edges Tiger in his greatest finish.'

spotlight the Jacket rout of Tennessee 91-0. In the 440, Stowers, Anderson, and Renshaw finished in that order for Tech.

The Jackets were crippled for the Georgia meet with Fowikes, Bailey, and hurdler Ed Forward ailing. However, Johnny Stowers stepped into Fowikes' shoes and streaked to first place in the 100 and 220 dashes. Big Bob Saxon tallied his best heave of the season when he won the shot put event with a 46 foot, 11\(\frac{1}{4}\) inch toss. The Jackets came out with a 41 point margin over the Bulldogs.

Auburn's thinclad athletes gave the Techmen their closest battle of the season. The teams were separated by only five points going into the final two events of the meet. Tech captured eight firsts to six for the Plainsmen, and Tech took its 15th straight dual meet.

In the SEC encounter, Tech greased by L. S. U. and Auburn by four and six points respectively to earn the 1949 conference title. Buddy Fowikes was high point man for the meet, rolling up 14 tallies. Tech's 39 1/5 points was the lowest winning score in the history of the meet, attesting to the intense competition during the afternoon.

Inaugurating the Inter-Conference Meet, Auburn led the SFC to a 92-39 point...
The Yellow Jackets' winning mile relayers: Stowers, Anderson, Renshaw and Lansing.

Nolan gets off good discus throw.

The season finale saw Tech proving its superiority over teams from schools throughout the South with a repeat win in the SEAAU meet held at Grant Field on June 4. Tech men shattered four records in rolling up 62 1/2 points for a 25 1/2 point margin over second place Auburn. Fowlkes set new marks in the 220-yard dash and the 220-yard low hurdles. Lansing, Anderson, Renshaw, and Stowers lowered the mile relay mark to 3:18.7. Miler Jack Corridan switched to the 440-yard hurdles and bettered the previous mark of 57.2 seconds set by Tech’s Billy Queen at the 1948 encounter. Corridan’s time was 56.8 seconds.

The Yellow Jackets will lose live of the cinder stalwarts before the 1950 season but Coach Dean hopes to have another power-packed squad to lengthen the victory string.
The Tech mermen teed off against the Auburn swimmers and won handily 46-29. The Techsters took the opening event and were never headed. Bobby Harp and John Chapman were the standouts for the Jackets. Traveling across town, Coach Freddie Lanoue's boys bested Emory. Led by their ever-dependable captain, Johnny Hiles, the Jackets came from behind to outpoint the North Carolina State Wolfpack 41-34 for their third straight win. Hiles snared two firsts and swam the anchor leg of the winning 400-yard freestyle relay. Georgia's relay team set a new record in the freestyle event and eked out a 40-35 win over Tech in the last race of the meet. The Techmen skinned by Vanderbilt 44 to 31 by winning the same event that defeated them at Athens.

Three records fell as the North Carolina mermen topped the Jackets 50-25. Tommy Towles won the 200-yard breaststroke for Tech's only first place, but Macky Mulherin finished second in the diving competition, and Hiles won close seconds in the 200-yard freestyle and the 440 freestyle. The White and Gold tankmen dropped their third meet of the season to the FSU Seminoles, 51-24. Hiles and Towles churned to
wins for Tech. Johnny Hiles set a pool record in the 150-yard backstroke to gain Tech a 38-37 win over Florida. It was sweet revenge for the Jackets as they drowned the Bulldogs from Athens 44-31 in the Tech pool. Towles and Page Griffin scored their usual one-two finish in the 200-yard breaststroke.

In the SEAAU meet it was Johnny Hiles who brought in Tech's only individual honors with his third place in the 150-yard freestyle, Tech placing sixth.

The Tech pool was the site of the annual SEC championship meet, and the Jackets were doped to repeat their win of 1949. Hiles and Towles with their wingmen, Griffin and Chapman were the big guns in Tech's repeat victory. The Jackets racked up 82 points to edge Georgia with 75 and Florida with 71.
Coach Bortell’s 1949 tennis team, although slightly off their 1948 game, ended the season in fine style by romping over Tennessee 10-0, and placing second in the Southeastern Conference Tournament.

The Jacket racquet men started the season during spring vacation by touring Florida. They opened brilliantly against the Jacksonville Naval Air Station by conquering them, 8-0.

Ferguson was the only Techster able to cope with the power-packed Rollins team as the Jackets lost, 8-1.

The third and final stop in the "land of oranges" was at Gainesville, where the White and Gold again went down to defeat, 6-3.

Returning home, the Techmen suffered their third defeat at the hands of the powerful Davidson aggregation, 6-2.

The Yellow Jackets swore vengeance and got same the following week in out-stroking both Tennessee and Georgia by similar scores, 7-2. The Bulldogs from Athens met a new and improved brand of Jacket tennis, and lost five singles and two doubles before being sent to the showers.
Coach Bortell's men in white continued their fine playing by white-washing Emory's netmen, 9-0.

After losing to Vanderbilt, the Jacket team bounced right back by trimming the Auburn Tigers, 6-3. Ed Adams and Frank Owens turned in smashing games in winning their singles and doubles matches.

The team journeyed to New Orleans for the SEC encounter with high hopes and much determination for a repeat on last year's fine showing. They were not disappointed. Ed Adams and Frank Owens, playing their best tennis, brought back second place to the Flats. Jack Tuero, Tulane's brilliant entry, bested Owens in the semi-finals, and eased past Adams in the finals.

The Yellow Jackets closed out a successful season with their greatest margin of victory by blanking the Tennessee Volunteers, 10-0.

FRANK OWENS LOUIS KING
JIM DURRETT DON LYLE

STATHAM
Although the season had not been completed when the Blue Print went to press, the Georgia Tech gymnasts had already added several victories to the record achieved under the direction of Coaches Lyle Welser and Warren Neiger.

Climaxing the 1949 season, Tech won both the Novice and Junior SEAAU championships. The Jackets took top scores in all events to win the Novice division with 64½ points to 36½ for Duke. In the Junior division, led by Dick Gunter, Tech amassed 86 points while LSU and Duke tallied 24 each.
So far this year Tech has won a dual meet with LSU, placed second in a three-way battle, and lost dual meets to FSU and Maryland.

Florida State University, boasting some of the top talent in the country, was pushed to beat the Yellow Jackets 68-44 in the Tech gym. Roetzheim, an Olympic competitor and considered the best all-around U. S. gymnast, scored 24 points for the Seminoles, winning every event he entered.

Top performers for the 1950 Jackets were:

- Hagler, 37½ points—Rope and high bar
- Davenport, 33 points—Parallel bars and rings
- LeGette, 28 points—High bars and parallel bars
- Garner, 23 points—Rings and high bar
- Farrell, 23 points—Tumbling and trampoline

Captain Garner executes a fly-away off the rings.
The Yellow Jacket cross-country team ended a line season by winning every one of its regular season meets and placing second to Tennessee in the SEC encounter.

The 1949 Harriers opened the season in high gear by out-running the entire Georgia team. Led by "Red" Smith, the 1949 SEC champion, the entire squad crossed the glory line before a Georgia runner showed. This reflects directly on the emphasis that Coach Griffin and the entire team place on training.

Smith showed his heels to Florida and Duke to continue his amazing pace. He ran his best race of the season in beating Tomlinson of Duke by 14 seconds. His time was 22:49.5 for the four miles. Roy Cooper placed third in the Georgia, Florida, and Duke meets.

Tech was hard pressed in the Auburn Meet as Tigers Overton and Steele crossed the finish line together to edge Smith. The Yellow Jackets had to rely on a large number of early finishers to win.

In the SEC Meet, the Jacket distance runners were edged out by Tennessee whom they had beaten early in the season. Smith came in fourth behind the only three men who had finished in front of him during the season.

Southeastern AAU Meet—Tech third place

THE WRESTLERS OF 1950

The 1950 Yellow Jacket matmen, under the guidance of Coaches Miller and Griffith, turned in a 3-4-1 record for the season. Opening against the Chattanooga Moccasins in Chattanooga, Tech won 15-11, and followed up with a 24-5 lashing of Vanderbilt in Nashville. The powerful Plainsmen squad from Auburn continued their mastery of SEC wrestling with a 24-8 win over the Jackets.

On consecutive nights the Techmen dropped a meet to the crack V. M. I. team 22-5 and tied Duke’s Blue Devils. Bill Erb in the 145-lb. class, was the lone Jacket to gain a decision against the V. M. I. men. Beck took the last bout to give Tech a draw in the Duke encounter. Boasting two Olympic contenders, the Oklahoma A. and M. grapplers shut out the Jackets 36-0 in the first inter-sectional match. Ray Beck, Tech’s heavyweight, provided the thrills as the Maryville College matmen outpointed Tech 19-11 in the Tech gym. In a return match, the White and Gold grapplers bested Vandy’s Commodores a second time, 19-8.

Bringing the season to a close, the Techmen copped third place in the Southeastern AAU meet, with Beck, Rhodes, and Philopoulas the top performers for the Jackets.
THE GOLF TEAM OF 1949

Five seniors wound up their golfing careers at Georgia Tech by bringing the SEC championship back to the Flats. Led by "Duck" Swann, team captain and number two man behind Gordon Clay, the Tech Linksme men finished the season with a record of nine victories against two losses. The par-busting graduates are Gordon Clay, Albert Swann, Tom Pritchett, Charlie Ewing, and Tom Green.

The team's winning ability lay in its depth of strength. There was very little difference in the score cards turned in by the number one and number two men, and in the cards of the other two team members and substitute players. It seemed that if the top men had an off day, the lower division boys approximated par or thereabouts to pile up enough points for the victory.

Mentor Dennison, the able golf coach for a number of years, praised his boys highly: "The Tech team was as strong and as well balanced as any team we have ever had. The substitute players were almost as good as the regular team players. They won all of their games but two in spite of the fact that the competition was the keenest its been for years. The reason is the overall skill of the team and its determination to win."
FOOTBALL

With the Tech infirmary geared for the emergency, six leagues totaling 36 teams, played 10 weeks of knock-down, drag-out football. When the smoke cleared, the Sigma Phi Epsilon Fraternity of the Tornado League emerged as the 1949 school champions. Their efficiency at blocking and knocking carried them through the regular season and the Fraternity play-off without a loss or tie.

The school championship was decided when the SPE team bested the Southern Rebels, winner of the Independent Section, in a close thriller.

There were 35 deadlocked games during the season which gives a good indication of the intense competition and spirited rivalry among the teams.
Sigma Alpha Epsilon made it two years in succession as they downed the Geechee Club of the Independent Section in the final volleyball play-offs.

**Volleyball**

The four fraternity league winners stormed through the season's play with four victories against two defeats, and the three independents likewise put undefeated teams into the school play-offs. SAE won the Gold League of the Fraternity Section and polished off KA, AEPi, and SPE for the fraternity crown. The Geechees outlasted Techwood Dorm and Latin-American Club to win the other play-off berth. The lanky SAE six was extended to three games to turn back the scrappy Independents.
Bowling

The bowling season proved to be strictly a fraternity affair with only two leagues filled. However, spirit was at the highest and the season was a successful one. Pi Kappa Alpha rolled to the school championship after winning first place in the White League. Beta Theta Pi was runner-up in that league. In the Gold League, Tau Epsilon Phi and Phi Gamma Delta finished in that order. Pi Kappa Alpha outpointed the three challengers in the round-robin play-offs.

Basketball

Emerging from perhaps the keenest competition in intramural basketball seen in many years, Phi Delta Theta powered over the Blue Demons, Independent Section and four from the fraternities. The Callaway married men had little trouble winning the ISO League crown.
The school champs couldn’t stop this one. Ervin sinks one Phi Delta Theta.

While in the Bounce League the Navy R. O. T. C. five wound up in first position. The Blue Demons, Dribble League winners, bested both Callaway and the Navy cadets for the play-off title.

All four fraternity leagues featured aggressive play and close scoring contests down to the final game. Alpha Epsilon Pi scored more than one upset on their march to the Tornado League championship. Phi Sigma Kappa scrambled to number one place in the Yellow Jacket League, and the White League titlist was the Pi Kappa Alpha quintet. The Gold League included the teams from the largest fraternities and, according to some, the play in this circuit was tops for the season. Phi Delta Theta was not undefeated in gaining the nod for the league, but their well-rounded team proved too powerful for the other three champs.

The victorious ATO tankmen.

CROSS-COUNTRY  A clear, crisp day was afforded the fifty or more cross-country entrants who charged out of Rose Bowl Field, and a large crowd of spectators cheered the boys as they broke from the start. Granville Henry, victor in the Freshman Cake Race, stuck with Guy Jackson, the pacer, all the way and was an easy winner for Alpha Tau Omega. Ward took second for ATO, Krescanko was third for Phi Kappa Tau, and Sutton copped fourth for ATO.

SWIMMING  The 1949 Intramural Swimming Meet was won by a strong ATO team, which amassed a total of 42 points. The well balanced ATO team took firsts in the 100 yard freestyle, the 200 yard medley relay, the 75 yard medley swim, and seconds in fancy diving, and the 200 yard freestyle relay. The second place, SAE team tallied 35 points, while taking the 200 yard freestyle relay, and placing second in the 200 yard medley relay, the tug-o-war, and thirds in several other events. The fancy diving event was taken by I. S. O. as was the plunge. Kappa Sig took the tug-o-war in a battle of sheer power. The tread water event was won by PiKA.
SOFTBALL

Speedballs were in the wind this year as Intramural Softball teams fought for the winning playoff title. Pitchers, such as: ATO’s George Burke, SAE’s Joe Ferguson, and Dave Albury of the SPE’s, as well as the PiKA hurler, Sam Young, proved to be the backbone of their teams.

The SPE team fought its way through the four fraternity leagues on to the playoff—here it met the independent Calloway team. Having been victorious over three independent leagues, the Calloway team turned on the power to win the school crown, 10-4.

INTERFRATERNITY CHAMPIONS
Sigma Phi Epsilon

INDEPENDENT CHAMPIONS
Calloway Apartments

SCHOOL CHAMPIONS
Calloway Apartments
GOLF

Many students from the fraternity and independent groups around the campus entered the links tournament this year in hopes of winning the championship flight; however, B. B. Balentine won the championship by defeating Pete Ferris one up on the twentieth green. Other flight winners were Bob January, Barry Blemker, Charles McCanless, Robert Welch, and S. J. Mitchell.

TENNIS

Courts were crowded this spring as intramural tennis began with over one hundred entries coming from fraternity and independent groups, as well as unattached persons.

Doyett Payne won the individual championship and led the Phi Delta Theta team to a sixteen point victory over the Sigma Chi's ten points. KA and Kappa Sigma tied for third place, having seven points each, while the Calloway Apartments placed fourth with six points.

In the individual championship T. C. Tabor (unattached) made a strong showing as runner-up.
Duplicating their victory of 1948, the well-balanced Alpha Tau Omega cinder team outlasted strong bids by Phi Delta Theta and Sigma Chi men to capture the 1949 track championship. ATO totalled 30½ points to 28 for the Phi Delts and 18 for Sigma Chi.

The largest crowd to view an intramural event during the year witnessed the early surge by I.S.O. entrants to a substantial but short-lived lead. Harris took first in the mile and Ladner posted the fastest time for the century. ATO soon showed its power as the dash events were run. George Everitt won the 440-yard dash; Jim Mathews placed third in the 100; and lanky Andy Hall tied Sigma Chi's George Kirk for winning time in the 220.

The Phi Delts edged ATO in the 880-yard relay and took second in the shuttle hurdle relay to pull within a hair's breadth of the lead.

The decision rode with the winners of the 440-yard relay, the final event of the afternoon. The Alpha Tau Omega foursome of Pitman, Anderson, Mathews, and Everitt legged the baton to a decisive 49.5 second first over Phi Delta Theta's 50.1 second runner-up time.
