The Features section this year may seem to have been shortened. We have spotted in some snapshots through the other sections, however, and we think that the coverage in this section is fairly comprehensive.
Shown above is part of the ATC Homecoming display.
Following last year's Blue Print, we started out this year's plans to include the most magnanimous extravaganza that the campus has seen in the form of the BLUE PRINT BEAUTY REVIEW. In previous years the beauties presented in the Blue Print have been selected by nationally known experts in the field of feminine pulchritude. So again this year the Ramblin' Recks, famous beauty experts of Georgia Tech, were the judges of this section. From a field of 43 contestants, we present these five winners as Tech's best in the BLUE PRINT BEAUTY REVIEW.
