We Dedicate

The Class of 1951 and the staff of the 1951 BLUE PRINT respectfully dedicate this edition of our yearbook to Dr. David Melville Smith, Professor and former Head of the Department of Mathematics. Dr. Smith has dedicated his life to Georgia Tech, and his prestige and wisdom have added immeasurably to the stature of our school.

Dr. Smith joined the faculty in 1913 as an instructor, and his delicate sense of humor soon made him a much sought after speaker. Of the thirty-eight years that he has been at Tech, sixteen were spent as Department Head.

Dr. Smith is a member of Sigma Chi fraternity, the American Mathematics Society, the Mathematics Association of America, Phi Beta Kappa, and Phi Kappa Phi.
Georgia Tech, as were all colleges, was faced with the actuality of another war-time program and problems when the spring quarter of 1951 came to an end. Drastically reduced enrollment was the outlook for the fall term with the likelihood of there being military trainees again on the campus.
The Administration Building as seen from the front campus.
The President

The Georgia Institute of Technology has long been proud of its presidents. They have always been distinguished and respected men who have heaped renown upon our school. In like fashion Dr. Blake Ragsdale Van Leer has guided Tech during the crowded post-war days and has helped to mould it into a school that stands unequaled in the South. Dr. Van Leer has ever striven for greater expansion and commensurate equality. Georgia Tech stands as evidence of the outstanding success of Dr. Van Leer's efforts.

We are proud of his progress, and we are secure in the faith that he will shepherd our school wisely through the troublesome days to come.
The part that Dr. Marion Luther Brittain has played in the expansion of the Georgia Institute of Technology cannot be overemphasized. For more than two decades he guided the efforts of Georgia Tech on its climb to prominence. Dr. Brittain will long be remembered for the part he has played in the growth of Georgia's educational system.
Georgia Tech is indeed fortunate in having a man of the caliber of Cherry Logan Emerson as its Vice President. A concrete witness to his outstanding ability and personality is the rapid expansion which has taken place on the Tech campus during the past year. No member of the administration has a more difficult job, and no one could carry out the responsibilities of this office more ably than Cherry Emerson.

EXECUTIVE DEAN

Phil Blasier Narmore, as Executive Dean, is responsible for enforcing the regulations of the school. He has performed this difficult task with the quietness and firmness characteristic of a true leader. His energetic and tireless work has figured prominently in the improvement and expansion of Georgia Tech.

DEAN OF STUDENTS

One of the most indispensable members of the administration from the standpoint of students and faculty is George C. Griffin, Dean of Students. Thousands of students pass through his office for advice and assistance and his friendly, helpful attitude has won him the admiration of all those who have come in contact with him.
In his position of Dean of the Faculty, Dean Chapin has shown remarkable ability in handling the academic affairs of the Institute. Students and faculty alike have come to admire the spirit of friendliness and rare executive ability which he possesses.

As Dean of General Studies, Dean Hefner has carried out his administrative duties with an air of warm sincerity and exceptional capability. His fairness and friendliness have won for him the high regard of the student body.

The administration of the Engineering Division comes naturally to Dean Mason who formerly coordinated the affairs of the School of Chemical Engineering. In his two years as Dean of Engineering he has proved his real ability as an administrator.

Herewith the BLUE PRINT presents the four undergraduate classes and the graduate school. The huge class of veterans was graduated by June 1951, but a sizeable number remained in the Class of '51 to distinguish it from the subsequent classes which were largely younger boys, fresh from high school.
Metallurgy is an integral part of chemical engineering as is shown in the laboratory picture above.

THE SENIOR CLASS

LESLIE VAN ARSDALE ABBOTT, JR., Louisville, Kentucky; Architecture; Phi Delta Theta; Tau Delta Pi; Architectural Society, 2.

ALFRED L. ADAMS, Tampa, Florida; Industrial Engineering; Phi Delta Theta.

MARCUS C. ADAMS, JR., Atlanta, Georgia; Mechanical Engineering; Officer, Air R. O. T. C.

ROBERT WILLIAM ADAMS, Red Bank, N. J.; Civil Engineering.

WILLIAM WALTER ADDISON, New Orleans, Louisiana; Civil Engineering; Chi Epsilon; American Society of Mechanical Engineers, 4.

MELVIN EUGENE AKRIDGE, Atlanta, Georgia; Industrial Management; Tech Management Club, 3, 4; Junior Hotel Men of America, 3, 4.

FRANCIS EARL ALBAUGH, Tarpon Springs, Florida; Electrical Engineering; Lambda Chi Alpha.

WILLIAM K. ALEXANDER, JR., Atlanta, Georgia; Industrial Engineering; Sigma Chi; Alpha Phi Omega, I; Band, 2; Society for Advancement of Management, 4; American Institute of Industrial Engineers, 4.

FRANK ANTHONY ALFANO, Tampa, Florida; Architecture; Architectural Society, 3, 4; Track, 1; Cross Country, 1, 2.

CLARENCE KENNETH ALLEN, Atlanta, Georgia; Industrial Management; Beta Theta Pi; Bulldog Club, 2, 3, 4; Industrial Management Society, 4.

HIRAM CHISM ALLEN, Decatur, Georgia; Textile Engineering; Chi Phi; "T" Club, 3, 4; Football Manager, 1, 2, 3, 4; Wrestling Manager, 3, 4.

KARL ALLEN, Jonesboro, Georgia; Mechanical Engineering; American Society of Mechanical Engineers, 4.
LOUIE JOE ALLISON, Gainesville, Georgia; Textile Engineering; American Association of Textile Colorists and Chemists, 4.

JOHN ODELL ALLRED, Savannah, Georgia; Chemical Engineering; Tau Beta Pi, 4; A. I. Ch. E., 4; American Chemical Society, 4; Dean's List, 2, 3, 4; Georgia Tech Chemistry Club, 4; Geechee Club, 4.

ROBERT ELAM ANDERSON, Washington, Georgia; Industrial Engineering; Sigma Chi; Omicron Delta Kappa; Phi Eta Sigma; Tau Beta Pi; Omicron Delta Kappa; Alpha Phi Omega, 3, 4; Treasurer, 4; Student Council, 3, 4; A. I. I. E., 4; S. A. M., 4; Publications Board, Secretary, 3; Dean's List, 2, 3, 4; Treasurer, 4; Engineer, 3, 4; Associate Editor, 4; Who's Who Among Students in American Universities and Colleges.

ROY ANDERSON, Jr., Gulfport, Mississippi; Industrial Engineering; Alpha Tau Omega; Scabbard and Blade, 4; Football, 4.

FREDERICK EUGENE ANDREWS, Americus, Georgia; Civil Engineering; Kappa Sigma; American Society of Civil Engineers, 3, 4; Alpha Phi Omega, 3, 4.

JACK E. ANDREWS, Jr., Atlanta, Georgia; Industrial Management.

ROGER GERARD ARCHAMBAULT, West Lynn, Massachusetts; Aeronautical Engineering; Phi Eta Sigma; Tau Beta Pi; Institute of Aeronautical Sciences, 4; Dean's List, 1, 2, 3, 4; Bridge Club, 1, 2, 3, Treasurer, 4.

MANUEL R. ARELLANO, Havana, Cuba; Chemical Engineering; Delta Sigma Phi.

MAURICE JOHN ARILDSEN, Roxbury, Massachusetts; Chemical Engineering; Camera Club, 2; American Institute of Chemical Engineers, 2; American Chemical Society, 1.

WALLACE ARKOWITZ, Brooklyn, New York; Textile Engineering; Alpha Epsilon Pi; Delta Kappa Phi, 4; Bulldog Club, 4.

T. THOMAS ARMEMAKI, New York, New York; Industrial Management; Phi Gamma Delta; Junior Hotel Men of America, 1, Secretary and Treasurer, 2, Vice President, 3; President, 4; Field and Mask Society, 1; Table Managers Association, 4.

STANLEY W. ARMISTEAD, Atlanta, Georgia; Architecture; Sigma Alpha Epsilon.
• CHARLES RUDOLPH ARMOUR, JR., Atlanta, Georgia; Architecture; Architectural Society, 4, 5; Band, 2, 3; American Society of Civil Engineers, 4, 5.

GLENN KARRER ARMSTRONG, Clemson, South Carolina; Chemical Engineering; American Institute of Chemical Engineers, 3, 4; Technique, 2; Lt. Colonel, R. O. T. C.

• ROBERT JAMES ARMSTRONG, Brooklyn, New York; Civil Engineering; Independent Students' Organization, Secretary, 4; American Society of Civil Engineers, 3, Treasurer, 4; Newman Club, 3, 4.

LELAND BARDWELL ARNOLD, Meridian, Mississippi; Civil Engineering; Independent Students' Organization.

The supreme Goal, the highest achievement of all the brass-shining, mirror-gazing officers of the Army Air Force and Navy Cadet Corps is the National Society of Scabbard and Blade. It is composed of men who have proved to be the best in leadership and intelligence, as far as the military is concerned. Theirs is a national honorary military society. The principle aim of the organization is to promote a feeling of unity among the military leaders and to maintain a standard in the military activities of the corps. This year Scabbard and Blade brought to the campus Tex Beneke and his orchestra for the annual Military Ball.

Pershing Rifles is a fancy drill team which is a national military society of the college Army R. O. T. C. units located throughout the nation. All members of this organization have joined of their own free will and have met the standards and qualifications of good citizenship and discipline as set forth by their founder, John J. Pershing. Pershing Rifles, wearing their white leggings, white gloves, and white helmets, represent Georgia Tech and the Army R. O. T. C. in drills and competitions. This unit is composed largely of basic students who drill twice a week and attend meetings in the evening.

Sports at Georgia Tech have always enjoyed a position of major importance in campus life. Yellow Jacket teams are popular across the country, and the progressive policies of the Athletic Association are carrying Tech to new peaks of sports achievement.
The Georgia Tech gymnastics team forms a silver tableau typifying sports endeavor.
THE ATHLETIC ASSOCIATION

Coach Bobby Dodd, as Athletic Director, has given that duty the same progressive service as did the late, beloved Coach William A. Alexander. He is assisted by men who believe in manly sportsmanship and winning teams. It is through their efforts that the A. A. has won a position of highest respect among the nation's colleges and universities.

LEFT TO RIGHT: Don Judd, Dr. W. C. Whitley, Mr. C. M. Griffin, Dean Narmore, Mr. H. A. Wyckoff, Bruce Sams, Lamar Wheat, Dean Chapin, Vice President C. L. Emerson. SEATED: Mr. L. W. "Chip" Robert, President Blake R. Van Leer, Mr. John O. Chiles.
Under the master exponent of the terrific "T" can be found one of the ablest coaching staffs in the country. Yearly they achieve greater popularity with the fans as well as with the players. Their thorough knowledge of their particular phase of the game and their keen sense of value for any innovation, novel and deceptive, has been invaluable help for head coach Bobby Dodd.

Coach Dodd has continued to add fame each season to his fabulous career. Leading his Jackets to one upset victory after another, he has earned the title of "Most shoulder- hoisted coach in the nation."

Assistant coach Ray Ellis joined the Tech staff in 1945 and has won fame for his shrewd diagnosis of flaws in the offensive and defensive sets. A product of the University of Kentucky, he learned his football know-how as head coach at Madisonville, Kentucky for a number of years before coming to Tech.

Dwight Keith won his appointment as varsity backfield coach in 1945. He has been instrumental in developing some of the finest backs ever seen in the SEC. Keith came to Tech in 1942, and coached all freshman sports until his present assignment.

Line coach Ray Graves' work at Tech has been marked with one success after another. Aside from developing three All-American linemen, he gave Tech, in 1948, an All-American line that racked up the best defensive collegiate record in the country.

Head freshman coach, Lewis Woodruff, came into his own this year by developing the most promising freshman team in Tech's history. The smooth operating first-year men bested all opponents to give an indication of Woodruff's ability.
Team play was the key-note of the 1950 Yellow Jackets. Although it lessened the number of individual honors passed out, it paid rich dividends in crucial games. Sports writers selected two seniors and two sophomores for individual honors.

Captain Bob Bossons was picked on the All-Southeastern Conference team. Auburn, Florida, and Kentucky chose him as their toughest opponent at center. Bossons received bids to play in the North-South Shrine bowl in Miami and also the Senior bowl in Mobile. His leadership and sportsmanship won for him the coveted William A. Alexander trophy for 1950.

Tech's powerful fullback, Bobby North, was chosen as an offensive back on the All-Southeastern Conference team. He was also honored with a bid to play in the North-South Shrine bowl.

John Weigle, although a sophomore, won acclaim for his fast, glue-fingered play at end. He was selected on the All-Southeastern Conference Sophomore team.

Hal Miller, another sophomore with a future, was picked for a place on the All-Southeastern Conference Sophomore team for his rugged play at tackle. His great play was noted by the sports writers although he was out half the season with a leg injury.
Georgia Tech's Yellow Jackets opened the 1950 season by journeying to Texas to play the Southwest Conference title contender, Southern Methodist University. Kyle Rote, SMU's All-American half-back, played according to pre-season predictions in running and passing his team to a 33-13 victory.

Tech's TD's came in the second quarter after drives of 35 yards and 76 yards respectively. Crawford crashed over from the 2 yard line on the second of two quarterback sneaks to put the Techster's back in the ball game. The final Tech tally preceded the midway point in the game by two minutes when Bobby North buckled the middle of the Mustang line for five yards to score. The half-time score was 21-13.

Tech's cause was not without honor, however. Their ground offensive produced more yardage than their opponent could muster. First downs were 17 to 12 in the Yellow Jacket's favor. North, Humphreys and McCoy provided the offensive kick in Tech's back-field. They ground out gain after gain behind a fast offensive line that produced the running space.

It might have been a different tale in Dallas had not hard luck dogged the Jackets just as their second half drives were reaching Gloryland. Penalties and pass interceptions were the gremlins that turned the course of the game.

Tech repeated ancient football history when an upset-minded University of South Carolina team topped the Jackets 7-0. Not since 1903 has a Georgia Tech team struck out twice the first two times at bat. That was also the last time the Gamecocks defeated Tech, but there is no consolation in history.

The Gamecocks came to Grant Field armed with a
rugged line that limited offensive-minded Tech to 42 yards on the ground. The air game fared no better with 7 interceptions chalked up by Carolina.

Both teams played cautious ball the first quarter with neither goal being threatened. The Carolinians' go-team, sparked by the well-oiled halfback named Wadiak, started rolling in the second quarter with two determined drives that carried inside the twenty. One reached the thirteen, and as the chain moved, an anxious hush fell over the student section in the east stands. The Yellow Jacket line, anchored by Fred Smith and Ray Beck, dug in and three plays later the Gamecocks found themselves in the unprecedented situation of facing fourth down with 60 yards to go for a first down.

Tech started moving in the third quarter with Robinson pitching strikes from his quarterback position to Humphreys, Cobb and Patton. Harvin made a miraculous catch on the fourteen that was the highwater mark for the Engineers. A fumble on the next play and a pass interception a few plays later shut the door on Tech's scoring opportunities.

Carolina took over, and 91 yards later Wadiak bulled over for the win as time was running out.

**TECH 16 . . . FLORIDA 13**

Grant Field

25,000 thrilled fans saw the perfect story-book finish as the never-say-die Engineers defeated a red hot Gator team within 7 seconds of game's end. It was a Frank Merrywell finish with cool-nerved Jim Patton playing the leading role.

Tech went 60 yards in the first three minutes to score. Ever-dependable Bobby North put teeth in the drive with a beautiful 30-yard run. Humphreys scored from eight yards out.

Midway the second quarter, the Floridians got back in the game when a three yard plunge culminated a 44-yard march. The Yellow Jacket line took the extra point away from the 'Gators and the half ended with Tech leading 7-6.

Three bush-whacking Techsters give Florida ball-handling trouble. Patton heads for the pack.
Early in the fourth quarter, the aroused University team scored again on a long pass. The conversion was good, and clouds gathered over Tech.

The Jackets took the kick-off at their 36 yard line and their job was cut out for them. Playing ferocious ball, they were unstoppable as they executed one of the most determined drives ever seen on the Flats. Sykes, a brand-new quarterback, butted over from close up and the game was tied with two minutes left.

The desperate Tech line threw the 'Gators for an 18 yard loss in three plays and forced a punt to give the Jackets possession on their 41 with one minute left. Tech's linemen blocked like madmen to clear the way for a first down on Florida's 43. With forty seconds left the one-for-the-books finish began. Tech went into a spread formation. Sykes heaved a 37-yard beauty to Harvin that was ruled complete on Florida's six. The stands went wild. Seniors and rat caps were in complete disarrangement.

Seven seconds were left as "Red" Patton came in as if on a Sunday afternoon stroll and calmly split the uprights for the winning three points that took the heart out of a gallant Florida team.

Every Techman was proud of the unbeatable spirit displayed on Grant Field that Saturday.

TECH 13 . . . . LSU 0
Batons Rouge

The Yellow Jacket offense that came to life in the last half of the Florida game continued to find itself after intermission in Baton Rouge. The fighting Techmen upset the experts as well as LSU when two pass plays clicked in the third and fourth quarters. The final score was 13-0.

Both teams spent the first quarter backing up as fierce line play dominated. The Tech linemen played bone-cracking ball in handling the Tigers’ forward wall that was supposed to win the game for LSU. The second quarter produced touchdown-minded drives by both teams, but defense was still the key-note and the half ended with nothing having been decided.
What the Jackets hadn't been able to do in the first half, they achieved in five plays and two minutes of the second half. Quarterback Crawford guided Tech's offense up to their 47. Crawford's pass to Harvin who lateraled to Maloof for more yardage was the key play in this drive. Bubba Sykes came into the game with a spread play and threw a long one to the speeding Weigle who gathered it in on the 10 and pounded on across. Patton converted to give the Jacket's a 7-0 lead, but they wanted more. Tackle Lamar Wheat started Tech on it's second touchdown jaunt when he led a determined line in and blocked a punt. Linebacker George Morris picked up the bounding ball and ran it to the LSU 37. Fullbacks Ross and Maloof pounded to the 2. With fourth down and those two big yards left, Sykes pitched out to Cobb who threw the first pass of his college career. Agile Weigle grabbed the oval while stretched out in a prone position in the end zone, and that iced the ball game.

The Engineers again showed the SEC that their fighting spirit was something to be reckoned with.

**TECH 20 .... AUBURN 0**

**Grant Field**

A fired-up Auburn aggregation, shouting "War eagle" and looking for an upset, acted like their boast had substance for almost half the game, but were finally downed by the Jackets, 20-0.

Not until midway the second quarter was the outcome foreseen. An attempted pass didn't do what it was supposed to because of the hard charging Tech linemen. McCoy intercepted and was across the goal-line before the Tigers could recover. Auburn threatened in the closing minutes of the quarter. Their drive carried to the 14. Captain Bossons and Gilbreath led a defense that would allow no further trespassing, and the half ended with the Plainsmen way back.

The third quarter was all defense as the two lines hit with supercharged fury. The Jackets got a drive working that carried to the 29, but were unable to cash in. An exchange of punts favored Tech as Templeton returned the Auburn kick to their 27. North

North piledrives over Gain for a gain. It was flat and fast, and Harvin got 12 yards from Kentucky.
ripped the middle for 22 yards to give Crawford the score on a quarterback sneak. Patton converted, and the tension eased in the Tech stands.

The game was in its dying minutes when Sykes and Crawford started a passing orgy that carried 65 yards for the final seven points. Sykes passed to Weigle who in turn lateraled to tackle Lum Snyder. Snyder scat-backed 30 yards before he was finally hemmed in on the 13. Fast moving Weigle scored on the second of two passes from Crawford. Patton again converted to wind up the scoring and give Tech a clear-cut victory, and the SEC lead.

**TECH 14...KENTUCKY 28**

Grant Field

For the third straight year Tech's Homecoming weekend was marred by a football defeat. This year it hurt less than in the past because of the superb football the Engineers displayed for 60 thrill-packed minutes. They fought Kentucky to a standstill most of the way, and yielded only to a weight advantage and superiority in two positions.

The Yellow Jackets scored first and last while the Wildcats crossed into the end zone four times in between. Minutes after the opening kick-off Kentucky found itself hemmed in close to its own goal as a result of fine Robinson punts and deadly kicking coverage. Attempting to break out, the Kentuckians fumbled and the Techmen had their chance from 21 yards out. On the first play McCoy took a pass from Crawford on a clever change of direction to cross standing up. Patton added the seventh point to set off a roar from the partisan east stands.

All-American Vito Parilli and Company came back strong to push across scores in the last three quarters as Tech's lighter defensive line began to show wear and tear. The Jackets' offensive unit was not able to function dangerously again until late in the game. Starting on their 39, they moved to Kentucky's 36 in three plays. Sophomore back Rhino delivered the haymaker by cutting off tackle to goal. Patton added the point and that was that at 28-14.
**TECH 21 . . . DUKE 30**

Durham

The Yellow Jackets used up nine minutes of the first quarter to build up a 21 point lead only to have Duke take it away from them in the second and fourth quarters. The game ended 30-21 in the Blue Devils’ favor.

Tech leaped into a three touchdown lead on three major plays before all the spectators had found their seats. On the Engineers’ second play from scrimmage, offensive-minded McCoy went 55 yards on a hand-off. North bulled over from the 4 yard line. On Duke’s first play after the kick-off, line-backer Morris pulled in a Cox pass and returned it to the Blue Devils’ 25. Patton was then called upon to jump-pass to Ferris in the end zone for the score. Duke again tried but ran out of steam on the 50, where tackle Beck threw Cox for a 13-yard loss. Then Akins, a sophomore tackle, got into the act by crashing through, taking the ball off the punter’s toe, and proceeding 42 yards for the third score. Ever-steady Patton converted three times to give Tech a 21-0 edge.

This orgy of touchdowns did not finish Tech for the day but Duke’s superior manpower plus depth soon got Duke back in striking distance. It was the same old story that has handicapped Tech all season. Duke scored twice and got a safety as the half ended 21-16. Two more tallies in the fourth quarter gave the Devils their margin of victory.

Although Tech’s line was worn down toward the end of the first and last halves, Beck, Bossons, Williams, Frizzell, and Gilbreath stood out in the terrific struggle.

**TECH 13 . . . VMI 14**

Grant Field

The VMI Kaydets pulled the biggest upset of the season by downing a sluggish and misfiring Yellow Jacket machine 14-13. It was a stunning blow to the Techmen although a well-deserved victory for the visitors.

Amid confusion below, Ferris grabs pass for points. North bulls through the mass and over the secondary to score.
Toward the end of the first quarter, the Kaydets got wound up and pushed across a score at the end of a 75 yard drive. Passing proved to be their main weapon. Tech rebounded fast to score on a pass from Crawford to Harvin. Patton’s extra point was wide, and the half ended with Tech trailing 6-7.

The Engineers started fast in the third stanza but a 15-yard penalty blunted the fine offensive edge of the Jackets. VMI took over and shortly thereafter administered what proved to be the coup de grace. A short pass that went 45 yards and two line plunges gave VMI 7 more points and an iced-up ball game. Again Tech came back with a long drive that produced 7 points when Weigle grabbed a Crawford pass and went over standing up. In the waning minutes Tech tried mightily to find the right passing combination to give them the needed score but the Keydets proved equal to the occasion with their pass defense.

Beck and Ferris were outstanding in Tech’s defensive line but Morris, Miller, and Wheat, sidelined with injuries, were sorely missed.

TECH 19....ALABAMA 54

Grant Field

Tech suffered its worst defeat in twenty years as a big Crimson Tide got the jump at the first whistle and deluged the Yellow Jacket goal line with touchdowns. Resting on a 28 point lead at half-time, Alabama used their big weight advantage to push over three more TDs in the tiring minutes of the last half. It ended 54-19.

Oddly, it was one of Tech’s best offensive efforts of the year. The game statistics showed the excellence of Tech’s effort under severe pressure. The hard hitting offense racked up 291 yards. ‘Bama controlled the ball the majority of the time, and that was the big difference.

The Jackets were 34 points down in the middle of the second quarter when their offense started showing good signs. Taking over on the 50 yard line, the Techsters went the remaining 50 in two plays. Humphreys got the first 11, then North broke into the open and refused to be headed as he crossed standing up.

Tech came back strong after the half and moved the
pigskin 67 yards to goal. Salome passed to Ferris who took it from between two defenders for the touchdown. The Yellow Jackets' morale never dimmed as they struck again in the final minutes. Salome, throwing passes to beat the clock, got Tech to the 14. North blasted for 9. Then Patton carried for the last 5 yards and the touchdown to wind up the fracas.

TECH 46 . . . DAVIDSON 14
Grant Field

Despite the coldest day in Grant Field history, the Yellow Jackets reacted according to predictions by polishing up their offense and a spirited, but outclassed, Davison team 46-14. The hot Techmen started slow, scoring only once in the first quarter but completely overwhelmed the North Carolinians with five trip-hammer touchdowns in the second.

Tech got the first break midway the opening quarter on a recovered fumble. North and McCoy chewed up yardage right down the middle with McCoy covering the last yard for the TD. The Jackets traveled 66 yards for their second score which North produced on a three-yard burst down center. Tech tallied again on a spectacular 70-yard pass play that Junior Joe Salome heaved to John Weigle. Number four came just a few plays later on a fourth-down gambling pass that Harvin caught in the flat and delivered his Swan Song to the Flats by weaving the remaining 43 yards. Patterson accounted for the fifth score by intercepting a pass on the final play of the first half and legging it 41 yards to pay dirt.

After Davidson scored once in the third and again in the fourth quarter, the Jackets came back with two quick show-stoppers just before game's end. Two sophomore flashbacks made the deliveries behind ample interference. Wright went 85 yards for the longest run of the year from scrimmage. The finest line play occurred on Wright's mad dash when tackle Beck shook him loose by racking up two threatening tacklers.

Tech's seventh and final score beat game's end by several minutes. Rhino put an end to a 49 yard advance with a 16 yard burst around right end on a pitch-out.
Displaying a pass defensive brilliance and a line that fought the heavier Bulldog line to a standstill, Tech's Yellow Jackets showed 50,000 stunned fans their finest hour in 1950. They went 74 yards to score in the second quarter, then intercepted five passes and recovered two fumbles to keep their goal-line uncrossed for the afternoon. There were no individual stars. It was a team victory. It led Coach Bobby Dodd to say, "We Tech people will be a long time forgetting this game."

Neither team threatened in the first quarter as they cautiously looked for a break. It came early in the second quarter when tackle Lamar Wheat broke through to cover a bad snap on Tech's 26. From here the Jackets set their sights and engineered the pay-off drive. North, Malooff, and McCoy carried for two first downs. A Salome strike to Weigle for eleven yards and a roughing penalty got Tech close enough for quarterback Crawford to sneak over. Patton place-kicked true and the day's scoring was over. But not the day's thrills. Tech's biggest task was ahead of them.

Georgia came directly from the dressing room with touchdowns on its mind. Their initial drive carried to the four for a first down, but then those boys that won the game got in the action. The whole center of the Jacket line smacked the Bulldog fullback hard enough to cause him to give up the ball to a heads-up Jacket. Sheffer got Tech out to midfield with an effective end-over-end kick away from the safety-man. Nine other times Sheffer used that weapon to ease the pressure, and it proved to be one of the big factors in the victory.

In the last quarter Georgia, in desperation, took to the air-waves only to find an alert pass defense that was there when the ball arrived. Bossons, Morris, Moorhead, and Rudolph grabbed five away from red-shirted receivers to deal the final blow to the striving University men. Credit the magnificent job turned in by the Engineer line in rushing the Bulldog passers into hurried throws. Wheat, Beck, Bethea, and Snyder moved heavier men all afternoon in leading Tech's line to greatness.
THE 1950 B TEAM

No group of athletes at Tech deserve more praise than the toiling Yellow Jacket Red Shirts. Their week’s sweat and strain doesn’t end with a Saturday afternoon filled with thrills and glory. Their thrills come as a personal satisfaction of having contributed to the varsity’s success on the gridiron. Some “B” team members spend their four years submerged in the anonymity of Rose Bowl practice sessions. Others are called upon at a moment’s notice to bolster a weak position on the varsity. Whether the varsity call comes or not, the Red Shirts continue to fill their important position of preparing the varsity for football victories.

The “B” team provides the opposition for varsity timing practice.

Sprinted Red-Shirts stop the varsity for no gain.
Georgia Tech's greatest freshman team has filled alumni everywhere with dreams of football victories in the years ahead. Displaying talent in every department, the Baby Jackets won going away every game on their schedule. So dominating was the freshman line that only three touchdowns were pushed over on them, while the jet-propelled offensive unit ran and passed for fifteen TDs in three games.

They gave fans an indication of their greatness in the season-opener by submerging a big Alabama team 19-0. A super-smooth passing attack was the lethal weapon that brought victory. Quarterbacks Rodgers and Redford found expert receivers in Davis, Hair, Turner, and Hardeman to pile up 178 yards through the air.

In the mud at Auburn, the Babies relied on the ground troops to down the Cubs 26-14. With Redford directing, and Hardeman, Turner, and Blackman providing the backfield power, the Jackets churned for 209 yards on the ground. Stoudt, Goss, and Frey anchored the all-powerful freshman line.

The Scottish Rite Charity contest provided the setting for the final development of the full potential of the Baby Jacket machine. The Bullpups from Athens were the hapless victims of an unstoppable passing and running attack, and a rock-bound defense. The young Engineers garnered 467 yards in overwhelming the Pups 54-6.

Redford's pass to Hardeman was good for six more points.

The "ole jinx" followed the 1950 Georgia Tech basketball team through another season. The Engineers played good basketball in almost every contest, but hard luck rode right with them. The only time the Jackets were able to shake the jinx was during mid-season when they won four straight games and vaulted into fourth place in the conference standings.
During the Christmas holidays the cagers made a weary eight-game trip to the west coast, and returned to the Flats without a win. The Techsters encountered such national stalwarts as Bradley, Louisville, and California. Perhaps the explanation for the disastrous jaunt was the absence of mainstays Keener and Cline, but the lack of experienced reserves also hindered the McArthur men. Only two of the defeats were conference foes. The Louisiana State Tigers dropped the Jackets 68-49, and then the Green Wave of Tulane nosed Tech by a score of 49-45 in a game which saw the lead change many times.

The Georgia Bulldogs came to town and at halftime it looked like the Jackets were going to lose their ninth straight as Georgia had a 31-24 halftime lead. In a second half rally the Engineers closed the gap to tie the score with seconds left. Three quick baskets gave

the Jackets their margin of victory as the game ended.

"Pencil" Pete Silas and Teeter Umstead led the second
half onslaught when they began hitting from all angles.
The final score was 56-50.

After overcoming a fifteen point half-time deficit,
the Yellow Jackets were nipped 56-54 in the very last
second in an upset victory for the Florida Gators.
Traveling to Athens the hoopsters were beaten by the
Bulldogs, and returned home only to lose to the ever-
powerful Kentucky Wildcats. The only consolation in
the 82-61 defeat was that Tech ran through the Ken-
tucky defense for more points than any other team
had managed to do.

A rejuvenated Yellow Jacket team took a two-game
road trip to the big river state and returned home with

hats. The visitors toppled State 55-46 and then wal-

Ole Miss 73-59 as Silas racked up 22 points. The determined Jackets continued their great play by blasting Auburn 64-44. Tennessee fell next to the red-hot Techmen by a lopsided 71-57 score. Pete Silas continued leading the Jacket scorers while all the Jackets were hitting a high percentage of their shots.

The University of Georgia team cooled off the home team with a 54-53 last minute victory, and Kentucky and Vanderbilt, the Conference's top teams, threw more cold water on the Jackets by scores of 75-42 and 65-47 respectively.

Despite the brilliant play of Bill Cline and Teeter Umstead, a revengeful Auburn team dumped the Tech men 75-63 as a last half rally fell short. A precision Alabama machine, on the upsurge from the conference depths, blasted the Engineers 59-49 in a well-played game.
Playing one of their finest games of the season the hoopsters were topped 69-67 by the champion Vanderbilt team. It was another one of those heart-breakers in which the Jackets were edged out by a last second bucket.

Teeter Umstead, continuing his phenomenal shooting average of the last four games, led the Jackets to a 74-64 win over the Tennessee Volunteers in the final home tilt. The Techmen journeyed to Pennsylvania and dropped an 83-77 decision to the Quakers. The Engineers blew a 23-point lead in losing the season finale.

The season record of 7 wins and 18 losses is not representative of the 1951 hoopsters. The Yellow Jackets were far better and have earned the praise of the entire student body.

"Pencil" Pete lays in two points.

BASEBALL
The Yellow Jacket baseball team turned in a 7-11 won-loss record for the season to finish with the mass in the SEC race. A lack of reserves on the pitching staff proved to be Tech's big handicap for the season.
After Buddy Thompson lost a tight pitcher’s duel to Vanderbilt’s John Jewell in the first game of a season-opening doubleheader, the Jackets came back with fourteen hits to take the nightcap, 13-9. At the end of four innings Herb Bradshaw led the Commodores 12-5, but rather than hurt his arm in the damp weather coasted through for the win.

On April 6, the Kentucky Wildcats won a 14-9 slug-fest from the Techmen to sweep a two game series on Rose Bowl Field.

Tech journeyed to Nashville on April 21 to split two high-scoring games with Vanderbilt. The Gold and White slammed out nineteen hits to take the opener, 23-2. Vandy won the second game 11-3 as good pitching cooled the hot Engineer bats.

In their second series with Tennessee, the Jackets lost a heart-breaker, 4-3. Thompson pitched a jam-up.
game until the eighth when a three-run rally by the Vols overcame his lead.

Bob Bosson’s tremendous three-run homer led the Jackets to an 8-4 victory over Auburn in the first game of a two-game series. In the second game Tech pulled a triple play but still couldn’t stop the Tigers as they won, 8-3.

Tech played Georgia in the three final games of the season. In the opener Thompson hurled four hitless innings to edge the Bulldogs, 5-4, in Athens. Thompson again took the mound at Rose Bowl Field and won the game and the series by turning in an excellent pitching job. Bobby North and Bob Bosson provided the hitting power as both slammed out homers. The final score was 5-3. In the final game of the series and the season, the University boys squeezed out a 9-7 victory in a game which took an extra inning and two and a half hours to complete.

Although the Yellow Jackets’ season was mediocre, the team showed fine spirit throughout the season and always extended their opponents to the limit.

The 1950 track team, while short of talent due to injuries, commanded plenty of respect from their Southeastern and Southern Conference opponents. "Red" Smith, star distance runner, and Buddy Fowlkes, the team's leading point-getter, were unable to compete throughout the whole season.

In spite of handicaps the Yellow Jacket cinderella ran their dual meet victory string to sixteen with a $63\frac{1}{2}-62\frac{1}{2}$ victory over the Florida Gators. "Rapid Robert" Renshaw provided the needed margin by taking second place in the broad jump, the last event. Stowers, deserting his favorite 440 race, ran the 100 and 200 yard dashes and captured both for the home team. Coons was also a double winner for the Jackets, taking both hurdle events.

The Green Wave of Tulane cracked the Engineers' victory string with a 70-61 setback, taking ten firsts.
in the fourteen events. The Jackets scored most of their points in the running events, being unable to cope with Tulane's strength in the field events.

Despite Tom Coons' double victory in the hurdles and an overall good showing by the whole team, the Engineers were upset by the Tennessee Vols 68-63. The Jackets' lack of depth enabled the Volunteers to capture many second and third places and push their point total above the Jackets'.

Over in Athens the Techsters proceeded to pound the Georgia Bulldogs 79-47 in a downpour of rain. Glover took first in the mile while Stowers bested Georgia's Sutton in a hot 440 race. Ward cut the tape in the half-mile run as the Techmen won first in all but three events.

Powerful North Carolina bested Tech 81 1/6-49 5/6 in a fast-stepping meet on Grant Field. Stowers ran a blistering 48.6 in the 440 to take first for Tech. Coach Dean had great praise for Ward and Lupton who also captured firsts.

The Yellow Jackets matched first places with the Auburn Plainsmen, but again their lack of depth caused their downfall as the Tigers won 76 1/2-49 1/2. Shiver

was high-point man for the Tech thinclads, taking firsts in the low hurdles and the broad jump and third in the 100 yard dash. Stowers turned in another outstanding performance by winning the 440 and 220-yard dashes.

The Tech cindermen, defending SEC champions, placed seventh in the 1950 Conference meet. Only Stowers, Shiver, and Coons were able to place in the stiff competition. Alabama replaced the Jackets as champions, compiling 43 1/3 points.

Alabama led the SEC to an 81-50 trouncing of the Southern Conference in the annual interconference meet. However, Tech’s Stowers provided the big thrills for the spectators. After being nipped at the finish of the 440 by Chambers of N. C. State, Stowers ran toe-to-toe with Chambers in the anchor leg of the mile relay and pulled ahead at the finish to establish a new record.

The Yellow Jacket cindermen, although not as successful as the 1949 team, had a good season, and upcoming sophomores are expected to provide Coach Dean with a power-packed squad for next year.

When the Georgia Tech swimming team began the process of getting in shape for the coming season, Coach Lanoue brought out the crying towel. Missing because of graduation or scholastic reasons was almost the entire squad which led Tech to the 1950 SEC championship. However, the mermen managed to take four out of nine duel meets, place second in the Georgia AAU, and third in the SEC.

The Yellow Jackets traveled to North Carolina and lost their first two meets of the season. The University of North Carolina Tarheels bested the Jackets 51-23, and the N. C. State Wolverines triumphed by a 42-33 count. Only sophomore Jim Thrasher was able to capture an individual first. He splashed in first in the 50 and 100-yard freestyle against the Wolverines. The Tech 400-yard relay team defeated both opponents to prove they were one of the best combines in the South.
Williams rolls water back with powerful breast-stroke. Hays, another breast-stroke artist.

Vanderbilt proved to be the Jackets' first victim as the team matured into seasoned swimmers. The final score found the Techsters on the long end, 44-31. With the sweet taste of victory still with them, they lost no time in downing Emory 39-36 behind the fine stroking of Mathis, Harrison, and Thrasher.

Georgia bettered the SEC 100-yard free style record as the Bulldogs won over the Engineers, 51-24. Mathis, Harp, and Crouch churned to wins for Tech. The following week the Jackets dropped another close one to the Florida State Seminoles by a 41-34 count. However, the team broke even in the Citrus State by winning a victory over the University of Florida Gators, 40-35. The fine relay team composed of Watson, Thrasher, Harrison, and Crouch came through with a win in the final event to give Tech the victory.

The Georgia University swimmers battered the Techs 51-24 for the second time. Thrasher provided Tech's only win in the nine event meet. Smarting from their five defeats, the Yellow Jackets swam all around the Kentucky Wildcats in the final dual meet of the season and triumphed by a smashing 46-9 score.

In the Georgia AAU, the Tech mermen placed second and also captured third place in the SEC meet. The Yellow Jacket relay quartet of Thrasher, Edelson, Harrison, and Crouch established a new SEC record to pace the Engineers in the final encounter.

The 1950 tennis team emerged from the season with a record of five wins and eight defeats. Most of the losses were by narrow margins, thus showing that the team was better than the record indicated.

A powerful Davidson team came to the Flats to hand the Jackets a 7-2 defeat in the opening meet of the season. The Yellow Jackets bounced right back to take an 8-1 victory from the Georgia Bulldogs as Louis King and Gordon Statham shone brilliantly.

The victory feeling was short lived, however, as the LSU, Florida, and Duke racquetmen invaded the home courts to hand the Techsters successive defeats. The Tigers from Baton Rouge won a heart-breaking 6-3 decision. The power-packed Florida and Duke teams delivered Jacket setbacks by identical 8-1 scores. In the Florida meet, King and Statham scored the team's only point by winning their doubles match. Tom Graham and Don Ferguson turned the same trick in the Duke encounter.

After bouncing their traditional rivals, the Georgia Bulldogs, for the second time by a score of 8-1, the Yellow Jackets traveled to the home courts of Vanderbilt and Tennessee only to be humbled by both teams 8-1. Again King and Statham saved the Engineers from shutouts.

The netmen rallied to down Auburn and Emory for two consecutive wins for the victory column. Coach Bortell's men had little trouble in downing the Plainsmen 6-3, and then completely outplayed the Emory Teasippers by a 9-0 score.

The SEC champion Tulane squad handed the Techmen a 5-1 defeat, and from there the Yellow Jackets journeyed to Nashville to place seventh in the SEC tournament. The Engineers were bested by a powerful Tennessee squad for the second time with a 9-0 shutout but finished the season with a 6-3 victory over the Wildcats of Kentucky.
The 1951 gym team finished second to Florida State University in the Southern Intercollegiate Gymnastic League Championships, thus changing a mediocre season into a successful one. The aerial perfectionists, under the direction of coaches Welser and Neiger, topped North Carolina by thirty points, then dropped a dual meet to Florida State and one to Maryland.

In the North Carolina meet the Engineers performed skillfully for wins in six of the seven events. Jim North broke the Southern Gymnastic League record in the rope climb with a 4.9 seconds time in the twenty-foot climb. Co-Captain Hagler scored 274 out of a possible 300 points for a clear-cut victory in the horizontal high-bar.

The Florida State gymnasts supplemented Tech's efforts to produce the best gym meet of the season in Atlanta. Florida State won, 70\(1/2\) to 40 \(1/2\). The Jackets' work was not entirely secondary, however. North bettered his rope-climbing record by pulling to the top in 4.6 seconds. Agramonte gave a tremendous effort to win the trampoline event.

The Techsters took four first places in the Maryland meet but could not garner enough place and show spots to win. The final score was 63\(1/2\) to 47\(1/2\). North had no trouble in winning his specialty, the rope-climb. Pippin mustered 231 points to win on the side-horse, and Hagler gave a sterling 275 point performance in winning the horizontal high-bar event. Ferrell edged to a win in the difficult tumbling event.

To climax the season Tech brought home second place in the Southern Gymnastic League tournament. The Jackets also set a new record that will probably stand for a long time. Bowes, who had been placing but not winning all year, finally came into his own by climbing the rope in the amazing time of 4.3 seconds. Hagler, Ferrell, and Agramonte captured second place in the horizontal bar, tumbling, and trampoline events respectively. Pippin had a well-earned third on the side-horse.

The 1951 Gold and White Grapplers, short of experienced men in the lower and middle weight divisions, finished the season by placing third in the AAU Championships after a regular season record of three wins, six losses, and one tie.

The Engineers opened the season in fine style by out-classing the Chattanooga Moccasins, 26-7. Ward, Ivey, and Rhodes were the big guns for Tech as each pinned his opponent. After dropping a close match with Vanderbilt, the Techsters turned back Emory in another thriller, 14-13. The Jackets needed nine points with but three matches left. King, Rhodes, and Beck came through with three-point decisions to give Tech the victory.

Auburn, V. M. I., Duke, and Oklahoma A. & M. won successive matches from the Tech matmen as inexperience began to show against more mat-wise opponents.

Heavyweight Beck pinned his opponent to gain for Tech a 14-14 tie with Maryville. A return match with Vanderbilt found the much-improved Techmen on the long end of a 24-5 score. Tech ended the regular season with a loss to the SEC champion Auburn team.

In spite of the return of only one of the outstanding runners of the 1950 team, the harriers of 1951 had a successful season. "Red" Smith, 1949 SEC champion again injured his foot and was unable to run. Uncle Sam added another blow to the team by calling Roy Cooper, Tech's number two man in 1950.

The harriers opened the 1951 season with a 15-47 triumph over the University of Georgia team. Stowers took first with a time of 21:49.

Running in terrific heat at Gainesville, the Yellow Jackets were overcome by Florida's Gators. The Techmen, unable to run their best in the intense heat, later bested the Gators in the conference meet.

Tennessee's Homberg ran a blistering 21:41 to establish a new course record in Knoxville and led his Volunteer teammates to a victory over the Jackets. Roy Harris received the praise of Coach Griffin for his fine performance in leading the Jackets across the finish line.

A powerful Duke team bested the Techsters in Durham. The Blue Devils are the Southern Conference champions and have several of the country's outstanding distance runners.

The Jackets trounced the Auburn Plainsmen by finishing all five runners before the Plainsmen could get a man across the finish line.

After finishing third in the SEC Meet, the harriers won high praise from the Tech coaches and a winning team is expected for next year since almost the entire team will return.

CROSS-COUNTRY OF 1950
The 1950 Tech Linksters split even with Southeastern Conference competition by winning five matches, losing five, and tying one. For the most part the team was brand new with only three men with college experience behind them. The team was closely matched in ability from the number one man right on down.

After losing the season opener to the powerful Auburn team, the Jacketmen came back strong to overwhelm Florida and Tennessee on the tough North Fulton course. In the Gator meet all six Jacket linksmen carded under 75 for the par 71 course. The Volunteers fared no better as the Engineers won five of the six pairings to win 15 1/2 to 2 1/2. Arnold won medal honors with a one-over par, 72.

The Tech stroke-masters out-knocked Emory then pointed towards their return match with Auburn. Meeting on neutral ground in Columbus, the steady Jackets got sweet revenge by whipping the Tigers 12 1/2 to 5 1/2. La Clair, Howell, and Bachman registered individual wins for the Engineers.

The Georgia Bulldogs, new SEC champions, cornered a hard-earned victory from the Jackets to break their winning streak at four. The Gold and White linksmen bounced right back to tie the strong Vandy golfers, 9 up. Harrison turned in an excellent game to defeat the Commodore's number one man. He then teamed with Barnes to out-stroke Vandy's best twosome.

A round-trip through Tennessee and Kentucky brought one more victory and two defeats to close out the season. The Volunteers fell before the Engineers, 11-7, but Kentucky out-pointed the Jackets twice.
INTRAMURALS
It takes speed to win honors in intramural football.

Set it up, then smash it; that's the formula.

**INTRAMURAL FOOTBALL**

With the inclusion of several safety-first rules there were less infirmary cases this year, but enthusiasm was as high as ever. The popular, hard-hitting sport was played by some 600 students. Playing with varsity seriousness, every team showed unusual football know-how with their tricky offensive sets and flexible defensive formations.

The Newman Club added another honor to their growing sports list by annexing the Independent championship. Their defeat of the Southern Rebels, last year's Independent champions, qualified them for the school championship play-off against the Fraternity champions.

In the Fraternity play-off, the SPE and Chi Phi touchdown-minded teams reached the finals. Tying 7-7 in their first game, the Chi Phi power overcame the SPE speedsters for a close 6-0 win in their next meeting.

The Newmans and Chi Phi's squared off three times in their quest for the school championship trophy. The first two battles ended in deadlocks. Their second game produced the biggest thrill as the Newman Club scored on the very last play of the game to snatch victory from the Chi Phi team with a 6-6 tie. Their
last meeting equalled their second in thrills, but it proved to be at the expense of the Newmanites. With time left for only one play, a long Chi Phi pass into the end zone was good for the only touchdown of the game. The extra point was good, and the Chi Phi fraternity received the trophy as 1950 school champs.

INTRAMURAL VOLLEYBALL

In a game that requires skill and experience and unfailing teamwork, there was a wide gap between the better teams and the average teams. Those teams winning league championships usually did so with plenty to spare.

Reaching the Fraternity play-offs were the net-wise Theta Xi, Alpha Tau Omega, Alpha Epsilon Pi, and Lambda Chi Alpha teams. Displaying a well-balanced six, the ATO's won eight of their nine games to emerge victors.

The Latin American Club came through in fine style to win the Independent League play-off.

Vying for the school championship, the Latin American Club was bested by the ATO fraternity. The ATO's proved their mettle by overcoming a 14-5 deficit to win the second game, and the school cup.

The SAE's strive for a point against the Betas.
Sure could use a strike.
The scores for the best two-out-of-three series were 15-11 and 16-14.

**INTRAMURAL BASKETBALL**

As the intramural basketball season rolled into the finals, a seemingly ever-powerful Phi Delta Theta team again captured the school championship. The Phi Delts completely mastered their competition in the Gold League and went on to smash the other Fraternity League champs to enter the school finals. A strong Newman Club team defeated Burge Apartments and the Blue Demons to win the Independent League crown. However, the Newmanites were unable to stop the undefeated Phi Delts and succumbed by a 38-30 score.

Pi Kappa Alpha repeated as champions of the White League, while Theta Xi finished undefeated to capture the Yellow Jacket League title. Sigma Phi Epsilon compiled a fine 9-1 record to lead the Tornado League. Burge Apartments defeated each participant in the ISO League at least once to capture first as the Blue Demons and the Newman Club racked up 8-2 and 10-1 records respectively to prove themselves tops in the other Independent Leagues.

It was a fine season for all teams, and the prowess...
of the players was shown by the high-scoring of each contest.

**INTRAMURAL BOWLING**

The 1951 bowling season proved to be a hot one. Only two leagues were formed, but each one had over ten members.

Alpha Tau Omega brushed aside their competition and captured first place in the White League, with Phi Delta Theta finishing second. The Alpha Tau team averaged over 500 points per game and ATO Charlie Eitel led both leagues in individual averages with a sizzling 110. Alpha Epsilon Pi nosed out Sigma Nu to take the Gold League championship.

In the school play-off, the Phi Delts were first with Alpha Tau Omega, Alpha Epsilon Pi, and Sigma Nu finishing in that order. The season was highly successful as shown by the keen spirit and competition.

**INTRAMURAL SWIMMING**

Phi Delta Theta's tankmen rallied in the last two events to take the 1950 intramural swimming championship by two points over the ATO swimmers. The Phi Delts displayed a balanced team by winning three.

Sharp lets go a fast one.

Matthews is safe by plenty at third.

Hardin had a good forehand, and gained the finals.
first places and placing in all but two events. The ATO mermen led until the last two events where a win in the 200-yard freestyle relay and a second in the tug-of-war gave the Phi Delt the victory.

McKenzie aided the Phi Delt's cause by winning the diving contest. First places for ATO were won in the 200-yard medley relay and the 100-yard freestyle. The tankmen from the Pi Kappa Alpha fraternity won the 75-yard individual medley relay, the plunge for distance, and the tread-with-weights event. The SAE swimmers were third in the meet with the Delta Tau Delta fraternity a close fourth.

**INTRAMURAL SOFTBALL**

This season saw softball become the major intramural sport due to the intensity of competition and the exceptional playing ability of most of the forty teams.
The emphasis was on defense with good pitching as the keynote. The end of the season found the best defensive ball clubs in the play-offs.

The ATO fraternity, with an excellent pitcher and a good fielding team had the right combination to edge to victory in the Gold League, and then to withstand the onslaught of the SPE, PiKA and Theta Xi teams to grab the fraternity championship.

In the Independent League's play-off, the Newman Club bested the Southern Rebels in the rubber game of a hard-fought series to earn the right to vie for the school championship.

Bob Sharp, the ATO ace hurler, gave up only five scattered hits while his teammates pounded out three runs to down the Newman's 3-0 and win for themselves the school championship and trophy.

The championship was much closer than in previous years. The Phi Delts edged out the Kappa Alpha racquetmen 13-12, for first place. Sigma Alpha Epsilon and Sigma Chi tied for third place with ten points each, and Alpha Tau Omega captured fourth with nine points.

**INTRAMURAL TENNIS**

Many prospective Jack Kramers crowded the tennis courts to battle for honors in the 1950 intramural tennis tournament. Almost all of the fraternity and independent groups, as well as several unattached players, were represented. More than one hundred entrants participated.

Allan Hardin, unattached, won the individual school championship, while Morrison and Blemker led the Phi Delta Thetas to first place in the fraternity competition.
Hicks shows speed and heels in the fastest century.

**INTRAMURAL TRACK**

The ever-popular intramural track meet was won by the Phi Delta Theta speedsters with a score of 33 2/3 points. Sigma Chi placed second, amassing 21 1/3 points. Right on their heels were the Alpha Tau Omega cindersmen, with Beta Theta Pi finishing fourth.

SAE Johnny Hicks proved to be the King of the Cinders with brilliant wins in the century and 220-yard dash. Other firsts were garnered by Beck of the Phi Delts in the shot-put, Henry of ATO in the mile, Cline of the Betas in the 880, Floyd of Theta Chi in the 440, and Nicolini of the Newman Club in the broad jump. Montague, Ottomier, and Hunt cleared the bar at 5' 8 1/4" for a three-way tie in the high jump.

Johnson, Clark, and Lusk watch Hunt get one away.
The relays proved to be the big point-getters for the win and place teams. The Phi Delts' shuttle-hurdle relay team came in with a fast time of 1:01.3 to win handily. In the 880 relay, the Sigma Chi's picked up needed points with a swift win. The Beta's displayed a winning 440 relay team that finished yards ahead of second.

**INTRAMURAL GOLF**

Gaining in popularity with the students, the 1950 tournament drew eleven teams and many individual entries. The tourney proved to be hotly-contested with team honors undecided until the last matches were played. Jakie Rudolph played consistent golf to win the championship flight. He teamed with other excellent Beta Theta Pi golfers to add the team trophy to their collection. Their team total was 12 points.

The Sigma Chi's were second with 10 points, while the Phi Delts were pushing them hard with 9. In fourth place was Delta Tau Delta with the SAE's and PiKA's tied for fifth.

Intramural track day is getting to be an eagerly-awaited event. Last year, nearly 500 spectators were on hand to cheer for their favorite teams. The hard-working Bulldog Club is planning an even bigger event for 1951.
This year we have included the ISO groups in the Social section, because they accomplish a function parallel to that of the fraternities. The past year was one of increased social activity on the part of the independent units.
A group of party-goers takes a break at the Phi Ep house.
All fraternities are based on three basic principles: scholarship, brotherhood, and faith in God. At Georgia Tech the fraternities join together through the Interfraternity Council to promote these principles and to maintain the high standards to which they have pledged themselves.

The Council's program of constructive competition in scholarship, athletic, welfare, and social events has long been an asset, not only to the school, but to the fraternities by creating a better understanding between themselves.

Highlights of the year are the dances which the Council sponsors in the spring and fall at which time individuality among fraternities ceases, and all band together to present the outstanding social event of the year.

The Interfraternity Council as a whole and its members individually are constantly seeking to promote a better student life at Georgia Tech. Its programs are constructive, its attitude toward college activities healthy, and its interest in the progress of Georgia Tech outstanding.

ZETA CHAPTER

ALPHA EPSILON Pi was founded at New York University in 1913. Since that time, it has expanded to fifty-five active chapters in the United States and Canada, and to seventy-five hundred members.

The Zeta chapter was reactivated at Georgia Tech in March, 1946; and its short period of activation has been marked with great progress. Zeta has acquired a house and large dining-recreation hall annex; both of which are dedicated to the memory of Harold Rubin, a brother who died in the war. The fraternity has entered every phase of campus life, from publications and honor societies to athletics and social functions.

BETA IOTA CHAPTER

"To unite fraternally the young men of the south with those of the north and to foster a Christian brotherhood dedicated to the task of achieving and cherishing permanent peace."

These were the principles upon which Alpha Tau Omega Fraternity was founded on September 11, 1865. Today, eighty-six years later, this fraternity has expanded until there are one hundred and nine active chapters in the United States and Canada, boasting a membership of over 65,000.

The fifty-ninth chapter of Alpha Tau Omega Fraternity was organized on the Georgia Tech campus on the 18th of September, 1888. Since then it has grown, until this year, sixty-two years later, the 1000th member was initiated.

Members of Alpha Tau Omega Fraternity will be found in the honor societies, student government, school athletics, school publications, and many other activities at Georgia Tech.

Many social functions balance out our scholastic and extra-curricular activities.

GAMMA ETA CHAPTER

The Beta Theta Pi fraternity was founded in 1839 at Miami University in Oxford, Ohio, and since that time has become one of the leading national social fraternities. Beta has grown until now it has ninety-six chapters in thirty-seven states and two provinces in Canada.

Gamma Eta, the local chapter, was installed at Tech in 1917 and moved into its present house in 1927. Gamma Eta has always been active in campus activities. Last year it distinguished itself in the fields of both scholarship and athletics. This year the chapter has produced an exceptionally large number of leaders in campus activities, especially in organizations and publications.

Buffet suppers and house dances have been included in the numerous social activities of the chapter. The Betas also held their annual Christmas party for orphans from the Baptist Children’s Home and took part in another Miami Triad Dance during a social year which was climaxed by the Beta Kid Party.

OMEGA CHAPTER

On December 24, 1824, the Princeton Order of Chi Phi was founded at the College of New Jersey, now Princeton University. From that time forward, chapters of Chi Phi have been established at the outstanding colleges and universities throughout the country.

On June 2, 1904, the charter of the Omega Chapter was granted. In 1910 a chapter house was obtained making Chi Phi the first fraternity on the Tech campus to own its house. The present house was built in 1928.

Chi Phi has always been an outstanding fraternity on the campus not only socially, but also athletically and scholastically. The fraternity has had a most enjoyable social season climaxed by a winter formal and an informal sport dance in the spring.

IOTA DELTA CHAPTER

Since its founding at Union College, Hamilton, New York, on May 20, 1841, Chi Psi has grown to its present size of twenty-seven chapters. It was the fifth fraternity at Union, where the Greek letter fraternity originated. Iota Delta was established at Tech on December 15, 1923.

Still small in number as compared with some other fraternities, Chi Psi has been a strong believer in conservatism and has placed the stress on quality rather than quantity. Because of this policy the ties between the chapters and the national fraternity have always been exceptionally strong.

Encouraging a well-rounded college life for its men, Chi Psi places its emphasis on scholarship. A two hundred dollar scholarship award is given annually to the man in each chapter with the best scholastic record. Rounding out a full college program are sports, organizations, and other campus activities.

ALPHA GAMMA CHAPTER

Founded December 10, 1899 at City College, Delta Sigma Phi has expanded to a position where it now has 72 chapters and 9 colonies. We are one of the few fraternities that have ever been allowed at Washington and Lee University. Delta Sigma Phi was the first fraternity to establish a chapter at SMU. With the main offices in Denver, Colorado, Delta Sigma Phi engulfs the United States from the east to the west coast and from the Gulf of Mexico to the Canadian border, with a chapter at McGill University, Montreal.

The Alpha Gamma Chapter received its official charter in January of 1920. Stressing scholarship primarily, we encourage our members to take part in as many school activities as possible and as a result have representatives in the honor societies, school government, and athletics. Fundamentally a social fraternity, Delta Sigma Phi is a leader in the social world and is particularly famous for its Carnation Ball.
As the evening wore on . . . so did we!

Don't we look suave, though?

DELTA TAU DELTA was founded in 1859 at historic Bethany College in Virginia. Since that time it has grown to its present size of eighty-five undergraduate chapters throughout the United States and Canada. Our alumni chapters number eighty-five also, and are located in all major cities of the nation.

Gamma Psi Chapter came to the Georgia Tech campus on April of 1921. Not only is Delta Tau Delta one of the older fraternities at Tech, but it also consistently ranks among the leading fraternities. This is evidenced by the fact that many campus leaders are Delts. This year, through much hard work, we won first place in the Homecoming Decorations Contest.

One of the chief assets of Gamma Psi is our house-mother, Mrs. Jane Wilson. Mother Wilson has been with us for three years, and by her presence, the Shelta is made a true home away from home.

The year was rounded out by full participation in all extra-curricular activities, and by our usual social functions, including hayrides, costume parties, house-parties, and the annual Rainbow Ball.

THE KAPPA ALPHA Order was founded in 1865 at Washington and Lee University. The Alpha Sigma Chapter celebrated its fifty-first year on the Tech campus last fall, having been installed October 21, 1899. Kappa Alpha has seventy-two chapters stretching from coast to coast across the central and southern sections of our country. The fraternity has some 31,000 alumni participating in the life of its ninety alumni chapters.

This year, as usual, Kappa Alpha has produced a large number of leaders in all phases of campus life—politics, publications, organizations, and various other activities.

The year was highlighted by an 'Old South' Ball, the Convivum, which is the celebration of General Robert E. Lee's birthday, a house-warming party for the new house, and the annual spring house party.

ALPHA TAU CHAPTER

The Kappa Sigma fraternity was founded at the University of Virginia in 1869 and has since become one of the five largest fraternities in the country. The Georgia Tech chapter, Alpha Tau, being chartered in 1895, was one of the first fraternities on the Tech campus.

While advocating a well-rounded college life for its members, the Alpha Tau chapter is collectively interested in maintaining a high scholastic standing and in keeping an important place in campus affairs. An active social year is achieved through outdoor parties, informal dances, and house parties; while an active participation in intramural events completes a full program.

A new fraternity house to be built in the near future and a strong pledge class make our future seem bright and promising.

BETA KAPPA CHAPTER

Founded in 1909 at Boston University, Lambda Chi Alpha fraternity has matured into one of the largest social fraternities in America. It boasts of a total of one hundred and thirty-seven chapters in forty-two states of the United States and two provinces of Canada. The national fraternity, although one of the youngest, is already rich in tradition.

The Beta Kappa chapter was established on the Tech campus on October 6, 1942, after achieving an enviable record during its affiliation with the old Beta Kappa national fraternity.

With an highly successful rush season, a Christmas party, and a winter formal at the Biltmore hotel serving as the highlights of a sparkling social season; and with many members of the chapter quick to take their places as prominent campus personalities, Beta Kappa has enjoyed a successful year.

GEORGIA DELTA CHAPTER

The PHI DELTA THETA fraternity was founded on Christmas Day, 1848, at Miami University, Oxford, Ohio. Since that day over a hundred years ago, it has grown to include one hundred thirteen chapters located in the United States and Canada and over seventy thousand initiates, fifty thousand of whom are living today. The Georgia Tech chapter, Georgia Delta, has initiated over eight hundred members since its founding in 1902.

In addition to its social activities, which include the annual spring formal and Miami Triad dances, the Bowery ball, house-parties, etc., Phi Delta Theta contributed more than its share toward the leadership of the campus. Phis were found in the field of student government, publications, honor societies, and all principal organizations; as well as in the field of athletics, which include many Phi Delt lettermen.

Phi Delta Theta won the coveted IFC trophy, and the Athletic trophy that is presented by the Athletic Association to the fraternity winning the most intramural athletic events.

XI CHAPTER

Always active in campus affairs, XI chapter of Phi Epsilon Pi continues its activities for another banner year on the Tech campus. With an active membership of twenty-five fraters, Phi Ep hopes to achieve even greater honors and success in both the activity and scholarship fields than has been won in the past.

The national fraternity was founded at the College of the City of New York, on November 23, 1904, and the chapter here at Tech was instituted January 15, 1916. Since that time the name of Phi Ep has been associated with almost every activity on campus. The fraternity has always striven for a small membership consisting of the most active men in school affairs.

Social life too is an integral part of Phi Epsilon Pi life. The social season starts in the fall with the rushing season, and continues throughout the year with at least one function per month in addition to regular dating. The spring quartet is highlighted by an annual weekend house party, usually at one of the many beautiful lake resorts of North Georgia.

With all these activities, scholarship is still maintained at a high level. Phi Ep consistently ranks among the top three fraternities on campus for scholarship.

The Phi Ep fraternity house, first modern, post-war house to go up at Tech, was officially opened last October by President Van Leer, who originally broke ground for the house.

PHI GAMMA DELTA originated on the old Jefferson College (now Washington and Jefferson) at Cannonsburg, Pennsylvania, in 1848. It is the thirteenth oldest Greek-letter fraternity in America. Since its founding, Phi Gamma Delta has spread throughout the United States and Canada and now has a membership of forty-nine thousand. Of the eighty-one schools and universities on which Phi Gam chapters are represented, 68 per cent are rated among the first four fraternities of the respective campuses.

Gamma Tau chapter was installed at Georgia Tech in 1926 when Gamma Tau Delta, a strong local fraternity, was granted a charter by Phi Gamma Delta. The chapter is active in extra-curricular and intramural activities, and each year enjoys a full social life. The annual house party, the Norris Pig Dinner (Alumni gathering), a Christmas party for underprivileged children, and other dances and parties help to round out the school life.

PHI KAPPA SIGMA was founded in 1850 at the University of Pennsylvania. The Alpha Nu Chapter at Georgia Tech was established in 1904, and distinguished itself in founding the ANAK Society, the highest local honorary society on the campus.

Phi Kaps have always been among the campus leaders and have been continually striving for better relations among the new students arriving quarterly. Although Phi Kappa Sigma has a relatively small chapter on the Tech campus, one can always find a Phi Kap in the midst of any worthwhile activity. Plans made in past years are now becoming a reality, and new and improved plans are being made for the future.

ALPHA RHO CHAPTER

THE PHI KAPPA TAU fraternity was first organized at Miami University, Oxford, Ohio, in 1906. It has since grown to sixty-six chapters which are widespread throughout the United States. It is one of the few fraternities which own their own headquarters buildings, and most of the chapters own their own houses.

Phi Tau first appeared on the Tech campus when Pi Lambda Delta, a local fraternity, received its charter as Alpha Rho chapter of Phi Kappa Tau on April 27, 1929. The chapter was dormant during the war but it was reactivated in 1946 and is now recognized for its participation in the scholastic, athletic and social aspects of campus life.

PHI SIGMA KAPPA was founded at Massachusetts State College on March 15, 1873. It has since grown to fifty-two chapters which are located primarily in the northeastern section of the United States. In line with Phi Sig's newly initiated expansion program, four carefully selected institutions have been granted charters this year; and Zeta Deuteron Chapter at the University of Wisconsin is being reactivated. The installation of these chapters is expected in the near future.

Kappa Deuteron Chapter was established at Tech in March of 1923; since then, Phi Sig has maintained a prominent position in varsity and intramural activities. Our social calendar includes hay rides, house dances, costume parties, and picnics, and is highlighted each year by a Christmas party and moonlight girl dance.

With the aid of our active alumni chapter, Kappa Deuteron is anticipating the acquisition of a new home within the next few years.

PI KAPPA ALPHA was founded at the University of Virginia in 1886. It was at first a southern fraternity but in 1909 expanded nationally until today its chapters number over 100 with a Pike house at almost every major college in the nation.

Alpha Delta chapter was installed at Tech in 1904 and has since taken an active part in all campus activities, being especially successful in its sports program.

The social side of college life is kept going with many parties and dances throughout the year. The highlights are the possum hunt every fall, the Black and White ball during the winter quarter, and the many house parties in the spring.

With many of its brothers graduating last spring, the chapter roles dropped to around fifty, but a successful rush season brought in twenty-three good boys, bringing the chapter back to full strength.

IOTA CHAPTER

PI KAPPA PHI was founded at the College of Charleston, Charleston, South Carolina in December, 1904. It now has forty-four undergraduate and thirty-three graduate chapters in the United States and Canada.

The Georgia Tech Chapter of Pi Kappa Phi was granted a charter in 1913 and has been a campus leader since that date. The Iota chapter of Pi Kappa Phi has been active in all school activities, both social and scholastic.

The most important social function held by the Pi Kappas is the Rose Ball. The fraternity "Rose" is presented at this dance.
Since its founding at the University of Alabama in 1856, Sigma Alpha Epsilon has steadily grown until it now stands as the largest national college fraternity in America. At present there are 127 SAE chapters in 47 states with a total of almost 78,000 initiates.

From its very beginning SAE has been a leader in the fraternity world. Sigma Alpha Epsilon was the first college fraternity to erect a shrine dedicated to the memory of outstanding brothers. This shrine, the Levere Memorial Temple, also houses the national offices of the fraternity, and its classic beauty lives in the memories of SAE's who have visited it. SAE is also noted as the first college fraternity to inaugurate a leadership school for the training of its potential officers.

The Georgia Phi chapter of SAE was the second fraternity to be installed on this campus, and, since its chartering in 1890, its members have continued to hold that spirit that made SAE one of the foremost fraternities. Every year SAE ranks tops on the campus of Georgia Tech with men in all extra curricular activities and on all the varsity teams.

The events of the social calendar are highlighted by a mountain house party in the spring and a formal dance in the winter. These are, of course, chaperoned by our house mother, Mother Lou, who has been with the chapter for five years.

THE SIGMA CHI fraternity was founded in the year 1855 at Miami University in Oxford, Ohio. Today, there are over a hundred Sig chapters throughout the United States and Canada.

The Beta Psi chapter of Sigma Chi was founded at Georgia Tech in 1922, upon the absorption of Pi Alpha Sigma, a local fraternity. It has since that time grown in such a way that it is today one of the most outstanding fraternity chapters on the campus. Year after year it continues to rank high in scholastic standing, school leadership, and intramural activities.

The social calendar of the chapter is always full. As in the past, the most noteworthy social event of the year was the annual Sweetheart ball in November, at which Miss Joanne Lloyd was crowned "Sweetheart of Sigma Chi" by the chapter president, Bill Knight.

SIGMA NU fraternity was founded at Virginia Military Institute in 1869 as the Legion of Honor. There are over one hundred chapters in forty-six states, the District of Columbia, and Canada.

Gamma Alpha was installed at Georgia Tech in 1896. The chapter has initiated over 800 members in a period of fifty-four years. The White-Star formal highlighted our spring activities, and a house party at Lake Burton was thoroughly enjoyed by all who attended.

We are still anticipating the construction of our new house on fraternity row. Despite no house during this year, the chapter has been held together by having parties almost weekly.

The ties between the brothers are very strong and the spirit of unselfish cooperation between the brothers ranks very high.

SIGMA PHI EPSILON was founded on the campus of Richmond University in Richmond, Virginia, in the year 1901. In the forty-nine years since its founding, Sig Ep has grown to the present stature of over thirty-seven thousand members in one hundred and five active chapters in principal colleges throughout the country. The aim, in contrast, is not that of becoming the largest fraternity, but rather to grow in strength and character through a normal program of expansion.

Georgia Alpha chapter of Sigma Phi Epsilon was chartered on the campus of Georgia Tech on April 1, 1907, and is one of the older fraternities on campus. Since its chartering, Georgia Alpha has initiated nearly seven hundred men into its brotherhood. While not seeking an unwieldy membership, the "house with the red door" is ever open to those seeking fellowship and brotherhood.

The past social season of Georgia Alpha was highlighted by the annual Christmas party for some of Atlanta's underprivileged children, an unusual Pledge party which proved to those present to be the "informal" of the year, a joint ball with their "good-neighbor" fraternity, Tau Epsilon Phi, and the annual "Sig Ep Golden Heart Formal" held in conjunction with two other chapters in Alabama.

With all their varied activities, the Sig Eps ever keep an observant eye on scholastic standing and diligently strive for scholastic improvement.

Always a leader in campus affairs, Phi chapter of Tau Epsilon Phi is looking forward to another outstanding year on the Georgia Tech campus. With an active membership of thirty-five boys, the "Tep's" hope to maintain their standing as the finest fraternity on the campus.

Several of the brothers are outstanding members of the I. F. C., Bulldog club, Hillel, Technique, Tau Beta Pi, Pershing Rifles, Arnold Air Society, Scabbard and Blade, R. O. T. C., and Who's Who Among Students in American Universities and Colleges. The "Tep's" are well represented in just about every honorary, scholastic, and professional society at Tech.

Another item of which Tau Epsilon Phi is proud are the three scholarship trophies, won in recent years, and the I. F. C. trophy for the best house on campus which they won the first time it was awarded and have not lost since. These trophies plus the President's trophy stand out on Tau Epsilon Phi's trophy shelf.

TAU KAPPA EPSILON was founded on January 10, 1899 at Illinois Wesleyan University. TKE, which stands among the larger national fraternities, has well over eighty active and alumni chapters, and an ever-increasing membership, which now totals almost eighteen thousand members.

Beta Pi Chapter has now completed its third full year on the Georgia Tech campus. The installation of this chapter which was held on June 5, 6, 1948 has proved to have been the springboard for the Tekes' entrance into full participation in campus activities.

The Tekes at Tech now have twenty actives and twenty pledges with a host of alumni. Having moved from their former house, the Tekes are planning and looking forward to the purchase of their own chapter house.

ALPHA NU CHAPTER

Since 1856 when Theta Chi's first chapter was founded at Norwich University in Norwich, Vermont, the fraternity has expanded to over one hundred chapters in colleges from coast to coast. The Alpha Nu chapter was installed at Tech in 1923, and during the past quarter century has participated fully in intramurals and all other extra-curricula activities. While maintaining a well-balanced social plan, Alpha Nu endeavors to develop the necessary and admirable ideals of scholarship and brotherhood.

BETA ALPHA CHAPTER

THETA XI was founded at Rensselaer Polytechnic Institute in 1864. Since that time, it has grown to forty-seven active chapters from coast to coast.

Established here at Tech in 1948 as the Theta Xi Colony, the group has actively participated in all fraternity activities. During the fall of 1951, the colony was chartered as the Beta Alpha chapter. As part of the installation celebration the first formal dance of the chapter was the scene for the presentation of the Sweetheart of Beta Alpha of 1951, Miss Anne Turner of Columbus, Georgia.

The Tech unit of the Independent Students Organization, a national club, has done much to aid the non-fraternity man. This organization is devoted to helping its members to become well rounded in their college life. The I. S. O. has done much toward this goal since their organization, and they now rank as one of the top social organizations on the campus.
The Callaway Unit of the I. S. O. is composed primarily of married students who live in the Callaway Apartments, and functions as a member unit of the main I. S. O. on the campus. This unit has one of the highest scholarship standings on the campus and is very active in athletic, social and civic affairs.

IN LOVING MEMORY

JOHN HENRY HENIKA

November 11, 1855—February 19, 1951

PROFESSOR OF MECHANICAL ENGINEERING

Although he was officially Professor John Henry Henika, this grand old man will forever remain "Uncle Heinie" to Tech and Techmen. He retired at the early age of eighty-five, but he never stopped being a confidante and adviser of everyone connected with his beloved Georgia Tech. It is really hard to tell who was more dear to whom—Tech to Uncle Heinie or Uncle Heinie to Tech—but everyone knows Tech has lost a staunch supporter.

OMICRON DELTA KAPPA, national leadership honor society for men, was founded in 1914 at Washington and Lee University, and the local circle was established in 1932. Members are selected on a point basis, a definite number of points being given for each honor or position attained by the student. When a student has amassed enough points and a definite scholastic average he is eligible for election. ODK ranks with ANAK as the highest honorary organization on the Tech campus.

THE KOSEME SOCIETY was recently reorganized on the Tech campus after a period of several years' inactivity. The society is climbing high in recognition as one of the outstanding honorary organizations on the campus. Members are selected from the students of the junior and third-quarter sophomore classes who have been outstanding in extra-curricula activities.
PHI KAPPA PHI

PHI KAPPA PHI is the oldest national scholastic honor society on the Georgia Tech campus. Founded in 1897, it now has chapters in more than 50 colleges and universities. Membership in Phi Kappa Phi is awarded to those members of the senior class who are outstanding in scholarship during their first three years at Georgia Tech. The local chapter conducts the annual Honors Day exercises and awards a cup each year to the senior with the highest scholastic average.

The Tau Beta Pi Association was founded on the campus of Lehigh University in 1885 and is the leading honorary engineering fraternity in the nation. The standards of Tau Beta Pi are those which every student in the engineering field seeks to attain. Membership thus signifies the attainment of excellence in scholarship, character, leadership, personality, and service.

The Georgia Alpha chapter was established on the Tech campus in 1925. Only those engineering students who are in the upper one-eighth of the senior class or the upper one-tenth of the junior class are eligible for membership.

The local chapter is active in various campus projects. Engineers' Day was founded at Tech by Tau Beta Pi in 1940. Since that time, Engineers' Day has grown into Engineers' Week, and the St. Patrick's Council was organized in 1950 to assume the responsibility for the organization and direction of the various activities associated with Engineers' Week.

Tau Beta Pi annually awards a cup to the outstanding engineering senior and sponsors a campus-wide tutoring program which is administered and carried out by departmental societies under the direction of Tau Beta Pi.
MEMBERS

PHI ETA SIGMA, a national freshman honorary scholastic fraternity, was established at Georgia Tech in 1930. Membership in Phi Eta Sigma is the highest scholastic honor a freshman can attain at Georgia Tech. Only those men who have a point average of 3.5 for the first quarter, or an over-all average of 3.5 for the entire freshman year are eligible for membership. Each spring the fraternity presents a cup to the freshman having the highest scholastic average for the first quarter.

WHO’S WHO

AMONG STUDENTS IN AMERICAN UNIVERSITY AND COLLEGES

WHO’S WHO is a national organization that selects distinguished students throughout America for their scholarship, leadership, cooperation in educational and extra-curricular activities, general citizenship, and promise of future usefulness. Who’s Who was organized in 1934-1935 to give recognition to those students who contributed most to school life.

Students nominated and accepted will be listed in the annual directory of distinguished students from colleges and universities throughout America. This annual will give a biographical sketch and write-up of each student selected.

ALPHA PI MU, the youngest of the departmental honorary fraternities, was founded at Georgia Tech in the fall of 1948 as a society for the recognition of industrial engineers with superior abilities.

The local chapter was granted its charter by the Student Council on January 25, 1949, and recognized by the state of Georgia on March 17, 1949.

Membership is limited to juniors, seniors, and graduate students of high scholastic standards who possess traits of high leadership, character, and ethicality. Only those juniors who are in the upper one-fifth, and those seniors who are in the upper one-third of their classes are eligible.

ALPHA PI MU
CHI EPSILON

CHI EPSILON is the only national honorary fraternity limited entirely to those men in the field of civil engineering. Founded in 1922 at the University of Illinois, the fraternity recognizes the qualities of scholarship, character, practicality, and sociability in civil engineer undergraduates throughout the country. The Georgia Tech Chapter of Chi Epsilon, founded in 1943, was formed from Civil Crew, the oldest honorary society on the Tech campus. The chapter procures speakers to present the latest news in the profession and also seeks to represent the students on questions concerning changes in curricula or policy in the School of Civil Engineering.

The INDUSTRIAL MANAGEMENT SOCIETY is the honorary professional group in the Industrial Management Department. To be eligible for membership in this organization, the student must be a member of the department and in the upper third of the class. He must also show outstanding leadership and interest in the field of his studies. The purpose of the Society is to give the member a practical view of industry that is sometimes neglected in the classroom.

The Georgia Tech Chapter of KERAMOS fraternity, a relatively new organization on the campus, was founded in February of 1949. However, the history of the fraternity dates back to 1902, when the organization had its beginning at Ohio State, thus making it the oldest national professional fraternity in existence.

Many of the United States' most outstanding leaders in the field of ceramic education and engineering are members of Keramos, and the entire organization has as its goal the promotion of professional ethics and attitude among ceramic engineers.

The founding of the Institute of Ceramic Engineers was fostered by Keramos Fraternity, and although the Institute is now an affiliate of the American Ceramic Society, its purpose is the protection of the interests of professional ceramic engineers throughout the nation.

PUBLICATIONS
The BLUE PRINT which is the official yearbook of Georgia Tech is published by the students during the latter part of the spring term. Sections of each yearly issue are devoted to classes, faculty and administration, athletics, fraternities, features, and campus organizations in an attempt to present a complete coverage as possible of the various activities which take place on the Tech campus during the school year. For many years the BLUE PRINT has ranked high in the field of collegiate yearbooks and is a publication of which Tech students are justly proud.
THE GEORGIA TECH ENGINEER

The GEORGIA TECH ENGINEER is a technical publication issued by the students of Georgia Tech eight times each year. It contains reports of research by Tech professors, and other scientific articles by students and faculty, as well as articles on social and economic problems which confront the engineer at work in society. Staff work includes writing, art, and business management.

The TECHNIQUE is the semi-weekly newspaper of the Georgia Institute of Technology, published each Tuesday and Friday of the school year by the students of Georgia Tech. Its primary purpose is the publication of student news, including news of organizations, campus activities, sports, and other events of interest. Student opinion on current affairs is also expressed through the medium of an editorial page containing letters to the editor, opinion polls, and discussion articles.

The YEllow JACKET is the Georgia Tech humor magazine. The main objective of the YEllow JACKET is to serve as an outlet for creative writers, cartoonists, artists, and photographers on the campus. Articles of technical or even semi-technical nature are of no concern to this publication. The expected results of the YEllow JACKET embrace all forms of enjoyment. The students who read the magazine do so for the pleasure that they receive, rather than for practical knowledge.

The Student Council, now in its twenty-ninth year, is the governing body of the Student Government of the Georgia Institute of Technology. Through its duly elected members it represents the student body in all matters affecting student interest, provides a medium of communication between the students and school authorities, and preserves the customs and traditions of the school. The members are elected by popular vote in the spring quarter of each school year, with the exception of the freshmen who are elected at the first of the fall quarter.

ST. PATRICK'S COUNCIL

SAINT PATRICK'S COUNCIL was organized during the fall quarter of 1949 by Tau Beta Pi, a national honor society, whose purpose it is to coordinate the ideas and efforts of all the engineering divisions on the campus.

The membership of Saint Patrick's Council consists of at least two representatives from each school of engineering, two each from the schools of Physics, Chemistry and Industrial Management, and two from the Department of Public Health.

The chief function of this council is to promote the interest in the Georgia Institute of Technology and the several honorary and professional societies within its academic school and departments. It also plans, develops, promotes and coordinates all of the several activities leading up to and included in the annual celebration of Engineers Week.

THE AMERICAN CERAMIC SOCIETY exists on the campus as a student branch. The organization was instituted during the year 1926. Among the many activities of the student branch are presentation of technical papers by students, talks by prominent ceramic engineers, and participation in social functions. Every effort is made to reach that combination of academic achievement and social development to give a well-rounded personality to students in the School of Ceramic Engineering.

The Student Chapter of the AMERICAN CHEMICAL SOCIETY at Georgia Tech was founded in the Fall Quarter of 1948. Membership in the Chapter is open to all graduate and undergraduate students of Chemistry and Chemical Engineering. The organization affords an opportunity for the student to become better acquainted with the professional aspects of Chemistry. Its purposes are to foster a professional spirit among the members and to instill professional pride in Chemistry.

AMERICAN INSTITUTE OF INDUSTRIAL ENGINEERS

THE AMERICAN INSTITUTE OF INDUSTRIAL ENGINEERS is a national organization for Industrial Engineers or professional men who are performing duties in phases of this field. The aim of the Tech chapter is to create and develop a keen interest in the field of Industrial Engineering. To do this, an opportunity to further study the principals taught in class is given to the members by having qualified speakers, illustrative movies, and plant tours. By becoming affiliated with the student chapter, the member may join the senior chapters after graduation at a reduction in dues. This technical group offers the student and the graduate engineer a medium of communication and companionship, and also the opportunity to exchange ideas in his field.

THE ARCHITECTURAL SOCIETY was formed in 1910 and is one of the oldest organizations of its type on the campus. Each year the Society enters the work of outstanding students in a national contest. The Society not only sponsors lectures and field trips each year, but also subscribes to several trade magazines and purchases books for the departmental library.

ARCHITECTURAL SOCIETY
The purpose of the student chapter of A. I. Ch. E. is to provide opportunities for the professional development of students in Chemical Engineering. It is recognized that the professional associations made during student days become valuable in later years, and that the professional attitudes acquired at that time set the pattern for later life. A scholarship award is made each year to the junior in the chapter who has attained the highest scholastic average during his first two years. This award is a student chapter emblem, either pin or lapel button, together with certificate of award.

The Georgia Tech Student Chapter of AMERICAN SOCIETY OF CIVIL ENGINEERS obtained its charter in 1924. All Juniors and Seniors in Civil Engineering are eligible for membership and are welcome at the meetings. The Student Chapter is active in obtaining movies, speakers and field trips. At least one student-faculty social function is held each quarter.
Weekly meetings of the Georgia Tech Student Branch of the American Society of Mechanical Engineers gives the mechanical engineering student the opportunity to develop a professional outlook. Prominent engineers are invited as speakers to discuss current advances in engineering and the place of the engineer in society.

The Student Branch conducts field trips and holds at least one social event each quarter. All engineering students are eligible for membership. Membership in the Society is the young mechanical engineer's first step toward acquiring professional standing in the engineering community.
THE ARNOLD AIR SOCIETY is one of the newest organizations on the Tech campus. The members of this society are selected from Air Force R. O. T. C. advanced students with at least a "B" average in military and who show outstanding interests and abilities as Air R. O. T. C. cadets. The organization is designed to promote closer and more efficient relations among students of the Air Force R. O. T. C. program.

Designed to encourage original thought, the national Institute of Aeronautical Sciences coordinates the different phases of aeronautics; including education, engineering, and production. By opening its rolls to aeronautical students, it gives the prospective engineer an opportunity to become acquainted with many aspects of the field outside the classroom.

The Institute of Radio Engineers was organized in 1912, to advance the art and science of radio communication and related fields, and to promote the professional welfare of engineers engaged therein. Only recently established on the Tech campus, the I. R. E. is at present chiefly concerned with building its membership among the Electrical Engineering students and those interested in radio and related topics.
The Georgia Tech Management Club represents a major step of the School of Industrial Management in coordinating management studies with industry. The club sponsors tours and lectures by prominent men of the country. The Tech Management Club is developing future leaders in business and good industrial managers are becoming more synonymous with Georgia Tech.

THE PHYSICS CLUB was founded by the Georgia Tech chapter of Sigma Pi Sigma, honorary physics society, for the purpose of creating an interest in physics among the students. The only requirement for membership in the Physics Club is an interest in physics. Although it was founded less than a year ago, the Physics Club shows signs of becoming one of the most active and progressive organizations on the campus.

The Society for the Advancement of Management is a professional society for members of management in industry, commerce, government, and education. The society was formed in 1936 by the merging of the Taylor Society, organized in 1912, and the Society of Industrial Engineers, founded in 1917.

The Georgia Tech chapter of S. A. M. was granted its charter on June 6, 1946. Since that date its members have actively engaged in the promotion of various educational activities. Membership in the Tech chapter is limited to students of Industrial Engineering who possess a keen interest in management.

The Society of American Military Engineers was organized nationally in 1920 in the interest of national defense. There are eighty-five posts spread throughout the country in the larger cities and colleges. The Georgia Tech Student Post was chartered in 1942 and is composed of advanced Army, Navy, and Air Force R.O.T.C. cadets. Activities of the society consist of showing technical and military movies and obtaining speakers on military engineering problems.
ALPHA PHI OMEGA, national collegiate service fraternity, celebrates its eleventh year as an active organization on the Tech campus. APO sponsors the U. M. O. C., the Student Book Exchange, and aids in the student elections and other various services. The purpose of APO is to assemble college men in the fellowship of the Scout Oath and Law, to develop friendship and to promote service to humanity. APO is striving to be of more service to the community and the nation than ever in the past and is gaining a wide reputation on the campus for service and dependability.
BULLDOG CLUB

As in previous years, the Bulldog Club was again one of the campus' leading organizations. The club, with the help of the Athletic Association, sponsored and directed all intramural sports contests. It also conducted the Freshman Cake Race, the Ramblin' Reck Parade, and the annual Homecoming Dance. The organization has also done its usual good job of maintaining school spirit through participation in many worthwhile school activities.

THE CO-OP CLUB was organized in 1915 by a group of outstanding Co-op students for the purpose of promoting interest in Co-op activities and fostering a spirit of fellowship among students in the Co-operative Department. This club is one of the oldest social organizations on the campus. Members of the Co-op Club are selected from upper-classmen of the Co-operative Department who are outstanding in leadership and character, and who have manifested an interest in Co-op activities.

The Co-op Club is divided into two sections, each representing the separate sections of the Co-operative Department. Section I is active during the Winter and Summer quarters, and Section II is active during the Fall and Spring quarters. Although the two groups are entirely separate, co-operative spirit is their primary purpose and close harmony is maintained to achieve this.

Members of both sections of the Co-op Club are heavy competitors in scholastic and extra-curricular activities. This competition has led Co-op students to attain higher levels of scholastic nature. Both of these units rank high on the Tech campus as social and scholastic groups.

DRAMA TECH was founded late in 1946 to stimulate student interest in dramatics and to give potential engineers a chance to develop their acting abilities. This year Drama Tech produced three fine plays—"See My Lawyer," a comedy; "The Traitor," a light drama, and "Boy Meets Girl." The club is under the very capable guidance of Mary Nell Ivey.

The "See My Lawyer" cast studies their parts.

THE GEORGIA TECH CAMERA CLUB was organized for the benefit and instruction of the many amateur photographers in the student body. The club maintains a well-equipped darkroom which is available to all members.

The activities of the club include instructive lectures by well known photographers, movies, photographing visiting models, field trips, and competitions. The field trip to Amicalola Falls was one of the interesting and entertaining highlights of last year's activities.

Members receive the best possible instruction in the quarterly salons. At this time the prints or color transparencies are judged and criticized by outstanding photographers.

The Georgia Tech FLYING CLUB was organized for the purpose of providing instruction, training flights, and low cost flying time to all Tech students and faculty members. It is the club's policy to give free dual instruction to student pilots and assist them in any way possible to get their private license. The club is now operating its own Aeronica 7AC "Champ" from Parkaire Field. It welcomes all men interested in flying whether they have their license or not.

The GEECHEE CLUB was reorganized in 1946 by a group of students from Savannah who were interested in organizing all Tech students from that area. The club is very active during the school quarters, and has outstanding social events in Savannah between quarters. One of the many advantages of the Geechee Club is a car pool system for rides between Tech and Savannah. The organization is unique on the campus and very restricted in its membership since only Savannah students may join.

The Georgia Tech GLEE CLUB, under the able direction of Mr. Walter C. Herbert, is one of the fastest growing organizations on the campus. Its membership, the largest it has been in many years, has reached a total of eighty-eight men.

Recent highlights of the club are its European tour under the auspices of the Special Services branch of the Army which included Berlin, Vienna, and many other cities of Germany and Austria. Also presented during the winter quarter of 1950 was the Gilbert and Sullivan operetta, "H.M.S. Pinafore."

The Glee Club in conjunction with Music 201, 202, and 203 is a real stride toward rounding out the education of many students, and it furnishes a pleasant diversion from the more technical subjects offered at Georgia Tech.

GLASS CLUB
The INTERNATIONAL RELATIONS CLUB, founded in 1938, serves as a meeting place for students who are interested in keeping abreast of conditions, developments, and trends of international affairs. The meetings are highlighted by speeches either by foreign students from the campus, by members of the faculty, or by notables who have participated in the shaping of our foreign policy. The club sponsors speakers on questions of immediate interest and importance, thus keeping in step with the ever-changing foreign scene.
KAPPA KAPPA PSI is the national honorary fraternity for band members. Although membership in Kappa Kappa Psi is restricted to men, there is a sorority, Tau Beta Sigma, which acts as a sister organization.

Both Kappa Kappa Psi and Tau Beta Sigma were founded on the campus of Oklahoma A. & M. College, and now have chapters all over the country.

Iota chapter, at Georgia Tech, was founded in the early nineteen-twenties, and has continued active ever since. Membership is based primarily on musical ability, although leadership and band activity play a large part in the selection of members. The chapter sponsors an annual banquet for members, their wives and dates, as well as an occasional wiener roast or barn dance. The A. J. Garing award is presented annually by Iota chapter to the outstanding graduating senior in the Tech band.

The LATIN AMERICAN CLUB is composed of Latin students on the Tech campus. This organization strives to acquaint the Latin students with their new environment and at the same time to furnish social functions with students of their native lands. This unit has been very active on the campus and has generally met with success in all their ventures.

The TECH MARKETING CLUB is the student branch of the American Marketing Association. The purpose of the club is to promote friendly relations between students and faculty so as to develop sound thinking in marketing theory. Lectures by prominent men are sponsored by the club to foster scientific study and research, to encourage and uphold honest practices, and to keep marketing work on a high ethical plane.

PI DELTA EPSILON is the national honorary journalism fraternity at Tech. Its members are men who have served in an outstanding manner for at least two years on the staff of one of the four publications. The organization sponsors talks by prominent journalists, and each year awards a trophy and certificates to those men who have contributed the most to the individual publications and to all publications as a group.

The GEORGIA TECH RADIO CLUB, one of the many Radio Clubs throughout the nation and the world, was founded in the early 1920's. The club's purpose, as set forth in its constitution, is "to secure for ourselves the pleasures and benefits of the association of persons interested in amateur radio by promoting better cooperation among its members, developing individual efficiency, and furthering the interest of radio in the general community." The club has gone far toward this goal as evidenced by its recent acceptance by M. A. R. S. (Military Amateur Radio Service), and A. R. R. L. (American Radio Relay League).
The RAMBLIN 'RECK CLUB is an organization whose purpose is to create and magnify school spirit. Members are chosen from among sophomores, juniors, and seniors, and the number is kept small to insure maximum efficiency. At the beginning of each school year, the Recks give instructions to the new freshmen on the duties of a "rat," and also sponsors each fall a Ramblin Reck Contest between the different organizations on the campus. Also, in the spring the club sponsors the highly successful "Stunt Night" program.

The WHITE AND GOLD CLUB operates the flash card section at Georgia Tech. Its primary aim is to further school spirit by installing and operating a creditable flash card and cheering section for the benefit of the school and the entertainment of the football fans. In this, the second year of the club's existence, remarkable strides have been made in the quality of the tricks. Picture as well as word messages have been transmitted through this new found medium. The members of the club not only supervise the operation of the card section but create and design the tricks each week of the football season.

The BAPTIST STUDENT UNION serves as a connecting link between the college campus and the Baptist churches in the college community. Any student who becomes a member of the church in the college community or of any unit organization within that church may consider himself a member of the B. S. U. The B. S. U. Council endeavors to serve its purpose by furnishing students information concerning local church activities, and sponsoring socials, devotions, deputations, missions, and youth revivals. The Tech B. S. U. works very closely with the B. S. U.'s on other college campuses.

Because of the need for a definite ministry to the many Methodist students and faculty members at the Georgia Institute of Technology, the work of the Tech Wesley Foundation was inaugurated in the year 1937. It has been active on the Tech campus since that time.

The Reverend B. C. Speers, Jr., has served as Director of the Tech Wesley Foundation since August, 1948. With the help of many Georgia Methodist people, a house has been purchased on the campus at the corner of Fourth and Fowler Streets. This house is now being used daily as the Methodist Student Center. Open at all times to the more than one thousand Methodist students enrolled at Tech, this Center is dedicated to Christian leadership and guidance for all students seeking to know and understand the Christian way of life.

The Georgia Tech chapter of the National Newman Club Federation was founded in 1928. Its purpose is "to strengthen and fortify the spiritual lives of students; to stimulate and increase their interest and knowledge of their religion; to direct and assist them in their intellectual and educational interests; to bring about their mutual acquaintance; and to engender a feeling of solidarity and strength through social contacts with students of their own age, of their own faith, and of their own Catholic outlook on life."

Religious activities of the club include weekly lectures by the chaplain, corporate communions, and spiritual retreats. The athletic program consists of active participation in all intramural sports. Social functions include parties, dances, picnics, etc.
The Features section this year may seem to have been shortened. We have spotted in some snapshots through the other sections, however, and we think that the coverage in this section is fairly comprehensive.
Shown above is part of the ATC Homecoming display.
BEAUTIES

Following last year's Blue Print, we started out this year's plans to include the most magnanimous extravaganza that the campus has seen in the form of the BLUE PRINT BEAUTY REVIEW. In previous years the beauties presented in the Blue Print have been selected by nationally known experts in the field of feminine pulchritude. So again this year the Ramblin' Recks, famous beauty experts of Georgia Tech, were the judges of this section. From a field of 43 contestants, we present these five winners as Tech's best in the BLUE PRINT BEAUTY REVIEW.
