The BLUE PRINT Staff wishes that every person of the Georgia Tech Campus would patronize the advertisers. They have contributed much to the success of our yearbook and have also shown themselves to be very loyal Tech supporters. It will be greatly appreciated if the students will mention the BLUE PRINT when buying from the advertisers.

Over 150 NOPCO Processing Chemicals are busy making Better Textiles

NOPCO TEXTILE CHEMICALS INCLUDE:

Nopco 1921-D
Weaving yarn finish for viscose type rayon yarns applied as an emulsion in the wet finishing operation. Suitable for production of both filling and warp yarns.

Nopco 2169-M
Lubricant for rayon tire cord yarn. Imparts excellent flexibility to the yarns resulting in good strength. Has unusual heat stability.

Whether it be wool, worsted, cotton, silk, rayon or nylon, Nopco textile chemicals are enabling manufacturers throughout the world to profit by economies in processing, and to obtain superior products.

In solving textile processing problems, it always pays to investigate Nopco's outstanding chemical products.
