The Tech unit of the Independent Students Organization, a national club, has done much to aid the non-fraternity man. This organization is devoted to helping its members to become well rounded in their college life. The I. S. O. has done much toward this goal since their organization on the campus.

HONORARIES
OMICRON DELTA KAPPA

OMICRON DELTA KAPPA, national leadership honor society for men, was founded in 1914 at Washington and Lee University, and the local circle was established in 1932. Members are selected on a point basis, a definite number of points being given for each honor or position attained by the student. When a student has amassed enough points and a definite scholastic average he is eligible for election. ODK ranks with ANAK as the highest honorary organization on the Tech campus.
ANAK SOCIETY

C. N. UMSTEAD
Vice President

ELLIOIT DUNWODY
Secretary

WILLIAM DEAN

ROLAND HOLT
The Georgia Tech ANAK Society was organized on January 1, 1908, to honor select men from the Senior Class who were outstanding among their fellow students by their achievements and services to Georgia Tech. ANAK has contributed, from its membership, many Tech men who have become leaders of national prominence. ANAK ranks with Omicron Delta Kappa as the highest honor a Tech student may receive.
THE KOSEME SOCIETY, established by Anak in 1938, recognizes juniors and third-quarter sophomores who have been outstanding in extra-curricular activities. Not merely an honorary, Koseme each year undertakes several service projects, among them the preparation of the instructor-course list at the beginning of each quarter.

Phi Kappa Phi is the oldest national scholastic honor society on the Georgia Tech campus. Founded in 1897, it now has chapters in more than 50 colleges and universities. Membership in Phi Kappa Phi is awarded to those members of the senior class who are outstanding in scholarship during their first three years at Georgia Tech. The local chapter conducts the annual Honors Day exercises and awards a cup each year to the senior with the highest scholastic average.

STUDENT OFFICER:
Jack A. Kenyon
Student Vice President
TAU BETA Pi is the leading engineering honor society in the nation today. The Georgia Alpha Chapter was installed on this campus in 1925 and is one of the largest of the 90 undergraduate chapters now in existence. It is active in various projects on the Tech campus and annually awards a cup to the outstanding engineering senior.

Engineering students who rank in the upper eighth of the senior class or in the upper tenth of the junior class are eligible for membership. Election is also based on excellence in character, leadership, personality, and service.

THE BRIAEREAN SOCIETY was founded in 1912 for students of the co-operative department to promote high ideals and scholarship. Upper-classmen are selected for membership on the basis of scholarship, leadership, and character. Since the society was founded, over five hundred Briaereans have graduated from Tech and attained positions of leadership in all phases of engineering.

The Section I group attends school during the winter and summer quarters, while Section II attends during the spring and fall quarters. Men from each group work in industry while not in school.

PHI ETA SIGMA, a national freshman honorary scholastic fraternity, was established at Georgia Tech in 1930. Membership in Phi Eta Sigma is the highest scholastic honor a freshman can attain at Georgia Tech. Only those men who have a point average of 3.5 for the first quarter, or an overall average of 3.5 for the entire freshman year are eligible for membership. Each spring the fraternity presents a cup to the freshman having the highest scholastic average for the first quarter.
ALPHA CHI SIGMA is a national professional fraternity for students majoring in chemistry, chemical engineering and related fields. Though primarily a medium for social and professional contact among its members, Alpha Chi Sigma also sponsors a chemical safety program, each pledge being required to prepare a poster stressing some phase of laboratory safety. Further, speakers and field trips bring the practical side of chemistry to the members.

Students are eligible for membership when they have reached second quarter sophomore status and have shown at least average ability scholastically.

ALPHA PI MU

ALPHA Pi Mu, a national honorary industrial engineering fraternity, was founded at Georgia Tech in the fall of 1948 as a society for the recognition of industrial engineers with superior abilities.

The local chapter was granted its charter by the Student Council on January 25, 1949, and was recognized by the state of Georgia on March 17, 1949.

Membership is limited to juniors, seniors and graduate students of high scholastic standards, who possess traits of high leadership, character, and ethicality. Only those juniors who are in the upper one-fifth, and those seniors in the upper one-third of their classes are eligible.

CHI EPSILON

CHI EPSILON is the only honorary fraternity limited entirely to those men in the field of civil engineering. Founded in 1922 at the University of Illinois, the fraternity recognizes the qualities of scholarship, character, practicality, and sociability in civil engineering undergraduates throughout the country. The Georgia Tech chapter of Chi Epsilon, founded in 1943, was formed from Civil Crew, the oldest honorary society on the Tech campus. The chapter seeks to represent the students on questions concerning changes in curricula or policy in the School of Civil Engineering.

INDUSTRIAL MANAGEMENT SOCIETY

The INDUSTRIAL MANAGEMENT SOCIETY is the honorary professional organization in the Industrial Management Department. Members are selected from seniors and third quarter juniors on the basis of scholastic and extra-curricular leadership. Candidates must also show outstanding leadership and interest in the field of management. The purpose of the society is to give the members a practical view of industry.

THE GEORGIA TECH CHAPTER of Keramos Fraternity was founded in February of 1949. The history of the fraternity dates back to 1902, when the organization had its beginning at Ohio State, thus making it the oldest national professional fraternity in existence.

Many of the United States' outstanding leaders in the field of ceramic education and engineering are members of Keramos, and the entire organization has as its goal the promotion of professional ethics and attitude among ceramic engineers.

The founding of the Institute of Ceramic Engineers was fostered by Keramos Fraternity, and although the Institute is now an affiliate of the American Ceramic Society, its purpose is the protection of the interests of professional ceramic engineers throughout the nation.

KERAMOS
PHI LAMBDA UPSILON was founded as an honorary chemical society in March, 1899, at the University of Illinois. A charter was granted at Georgia Tech in 1951. The aims and purposes of the society were from its inception "the promotion of high scholarship and original investigation in all branches of pure and applied chemistry." At the present time there are 46 chapters of the society at major universities throughout the nation, with a total membership of twenty thousand.

All students of chemistry, chemical engineering, and allied fields who are in the upper 20% of their class and who have an overall average of not less than 3.0 are eligible for membership. Election of members is on a scholastic basis and elections are held semi-annually.

Pi Tau Sigma is the national honorary mechanical engineering fraternity, selecting its members from junior and senior mechanical engineering students. To be eligible for membership, a student must be outstanding in leadership and character, as well as in scholastic ability.
Tau Omega, the newest departmental honorary fraternity on the campus, was founded February 9, 1951. The purpose of Tau Omega, the leading honorary aeronautical engineering fraternity in this country, is to foster and maintain a spirit of fellowship and cooperation among the students of aeronautics; to promote scholarship; and to help, to the best of their ability, the progress of aviation.

Pi Delta Epsilon is the national honorary journalism fraternity at Tech. Its members are men who have served in an outstanding manner for at least two years on the staff of one of the four publications. It seeks to establish a code of ethics among the staffs of the individual college publications. Several projects are undertaken each year. Professor rating sheets were established by PiDE. PiDE also publishes a pamphlet explaining publications to incoming freshmen and plans to start putting out the student directory. Each year trophies and certificates are awarded to those men who have contributed the most to the individual publications and to all publications as a group.

THE YELLOW JACKET
PUBLICATIONS BOARD

PUBLICATIONS
The Blue Print, which is the official yearbook of Georgia Tech, is published by the students during the latter part of the spring term. Sections of each yearly issue are devoted to classes, faculty and administration, athletics, fraternities, features, and campus organizations in an attempt to present a complete coverage as possible of the various activities which take place on the Tech campus during the school year. For many years the Blue Print has ranked high in the field of collegiate yearbooks, having received in the last four years, two First Class and two All-American ratings.

The Georgia Tech Engineer is a technical publication issued by the students of Georgia Tech eight times each year. It contains reports of research by Tech professors, and other scientific articles by students and faculty, as well as articles on social and economic problems which confront the engineer at work in society. Staff work includes writing, art, and business management.

The Technique is the semi-weekly newspaper of the Georgia Institute of Technology, published each Tuesday and Friday of the school year by the students of Georgia Tech. Its primary purpose is the publication of student news, including news of organizations, campus activities, sports, and other events of interest. Student opinion on current affairs is also expressed through the medium of an editorial page containing letters to the editor, opinion polls, and discussion articles.

The **Yellow Jacket** is the Georgia Tech humor magazine. The main objective of the **Yellow Jacket** is to serve as an outlet for creative writers, cartoonists, artists, and photographers on the campus. Articles of technical or even semi-technical nature are of no concern to this publication. The expected results of the **Yellow Jacket** embrace all forms of enjoyment. The students who read the magazine do so for the pleasure that they receive, rather than for practical knowledge.

The Publications Board, made up of representatives from the student publications, is the governing body on policy and scope of coverage as pertains to each. The editors, business managers, and faculty advisers from the Blue Print, Engineer, Technique and Yellow Jacket are automatically members of the Board together with a representative from the Student Council and Pi Delta Epsilon.
