The forty-six editions of the Blue Print have been published with but one objective: to catch a year between its covers ... and your '53 staff knew no better way to present its year than to use a design and layout that is typically Tech, the informal ... we have tried, wherever possible, to use devices and pictures that will let every page loosen its tie, so to speak ... to set the mood we open with some quick glimpses at a few of the things that are traditionally Georgia Tech ...
As traditional as the Ramblin' Reck on the cover or the Administration Building on the opening page, are the people and the ways of doing things that are unescapably Tech.

THE MECH DEPARTMENT

... typified here by Professor Johns, the Mech Department has long been the common ground for engineers, aeronautical through textile, to meet and complain in unison about how hard they work.

DR. SMITH

... no account of Tech could possibly be complete without mention of the grand old prof of the Math Department, Dr. Smith.
THE WHISTLE . . . its faithful screech at 5 'til has roused many an engineer from peaceful slumber.

SIDWAYS

. . . Tech's mascot, though long departed to Canine Heaven, lives on in spirit.

A COFFEE BREAK AT THE "ROBBERY"

the one and only
DEAN GRIFFIN

. . . despite the barrages of good-natured abuse thrown his way, Dean Griffin always manages to be the Dean of, by, and for the students.
NO STUDENT CARS PERMITTED
...death unto those who fail to heed
the small print at the bottom of the sign.

T'S FOR TWO
...the newest thing in haircuts.

BRITAIN DINING HALL

THE GYMNASIUM
APPLE AND MRS. JIM
... from 8:00 class to 6:00 lab, you'll always find Jim and his wife at their stand by the gym.

THE RATS
... traditionally, freshmen must stand and wave their caps during the "Ramblin' Reck."

GEORGE P. BURDELL
... the symbol of all long suffering Tech students is George P., who, according to best authority, has been continuously enrolled since 1885!
and last but not least among TECH'S TRADITIONS is the new:
new buildings and new ideas

THE LIBRARY
... now under construction, the new ultra-modern library will be completed sometime this year.

THE ARCHITECTURE BUILDING
... Tech's newest and finest.
Fall, 1952, marked the beginning of the Era of the Coed. The first brave souls to set foot on the Hill were Elizabeth and Diane. During the winter quarter the coed population doubled—to four—with the registration of Pat and Fran. Hardest hit by the change was the Army (left) which had no SOP to cover the emergency. Reaction elsewhere varied from blase (about 10) to favorable (the rest).
DEDICATION

In being hailed again and again as the greatest handler of men in football today and in being named among the top coaches of the year, Bobby Dodd has received acclaim this season for talents that we here at Tech have appreciated for years. Indeed, it has taken more than good luck to pilot the Jackets through two successive undefeated seasons; it has taken a coach who combines the qualities of football skill and a sincere understanding of the men who play; it has taken Coach Dodd.

As some small recognition for the honor that he has brought to himself, to his teams and to Georgia Tech, the 1953 Blue Print staff proudly and sincerely dedicates this the 46th edition to Coach Robert Lee Dodd.
This year for the first time, we have put the administration, faculty and classes under one breaker... for, after all, prof's, students and everything else that is part of THE HILL are like one... as inseparable, for example, as Dean Griffin and his hat...
THE PRESIDENT

COL. BLAKE R. VAN LEER
The fact that Georgia Tech has always enjoyed a position of prominence and respect among engineering schools is no mere accident: it is the work of leaders like Colonel Blake Ragsdale Van Leer, under whose guiding influence Tech continues to prosper and progress.

The school year 1952-53 alone saw the opening of the new Architecture Building and work proceeding rapidly on the new Library Building, to mention only a few of the material signs of progress.

Acclaim for these achievements and credit for the spirit of co-operation that has been fostered in every phase of the activities of the school are rightfully directed to our President and our friend, Colonel Van Leer.
It would be impossible to give too much praise to the influence, both executive and spiritual, of Dr. Marion Luther Brittain, our President Emeritus. One of the greatest living southern educators, Dr. Brittain for more than two decades guided the efforts of Georgia Tech on its climb to prominence, and he will be long remembered for the part that he played in our expansion.
Georgia Tech is indeed fortunate in having a man of the caliber of Cherry Logan Emerson as its Vice President. A concrete witness to his outstanding ability and personality is the rapid expansion which has taken place on the Tech campus during the past year. No member of the administration has a more difficult job, and no one could carry out the responsibilities of this office more ably than Cherry Emerson.

The Georgia Tech Infirmary

23
The School of Aeronautical Engineering was established in 1930 through a gift from the Daniel Guggenheim Fund for the Promotion of Aeronautics. The purpose of this award was to establish opportunities at the Georgia Institute of Technology for study and research of the highest order in the field of aeronautics.

The recent progress in the fields of jet propulsion, rocket power, and supersonic flight makes the course in aeronautical engineering especially significant. In addition to the undergraduate curriculum, advanced work is offered for those desiring graduate study at the master's level, and plans are in the making for offering the doctorate. Opportunities are also afforded for research.

The physical plant, housed in two buildings, is well equipped for offering laboratory work to augment and lend interest to the theoretical courses. In addition to classrooms and offices, these buildings include a 9 ft. wind tunnel, a 2½ ft. wind tunnel, a supersonic tunnel, a structures laboratory, a model and machine shop, a library, a seminar room, a lecture hall, and a large drafting room.

Enrollment for the 1952-53 year approximates two hundred and fifteen students (fifty per cent of whom are freshmen) with about thirty-five scheduled to receive aeronautical degrees at the June 1953 commencement.

The School of Architecture was established as a separate degree granting department in 1908. The primary aim of the school is to provide a broad and thorough preparation in the design professions of architecture, city planning, and industrial design.

At the graduate level the school offers to qualified students a two year program in city planning and a one year Masters program in architecture.
In 1923 the School of Ceramic Engineering was organized at Georgia Tech, because ceramic and mineral industries had grown to such a degree in the South that a laboratory was needed to which the industries could turn for aid. Tech was selected because of its location and prominence in engineering education.

Ceramic Engineering has to do with the processing and uses of non-metallic minerals in the manufacture of such products as brick, tile, glass, cement, etc.

The course of instruction covers a period of four years and leads to the degree of Bachelor of Ceramic Engineering. It is so arranged that upon graduation a student has the foundation that should enable him to succeed in production, research, administration and sales of any of the ceramic industries.
The first undergraduate degree in Chemical Engineering was awarded in 1903. Some 60 undergraduate degrees will probably be awarded in June, 1953.

The first Ph.D. degree conferred by Georgia Tech was in Chemical Engineering in 1950. There are a total of 22 graduate students enrolled at present, 16 of whom are pursuing doctoral programs.

The undergraduate curriculum of the School of Chemical Engineering is accredited by the Engineers Council for Professional Development and provides excellent training for the men in that field.

Chemical engineers develop and operate chemical and manufacturing processes in which materials undergo chemical change to make them usable. The need of industry for trained men in this field will always be great and Georgia Tech graduates will continue in key positions in this highly technical phase of production. The success of these graduates in their profession attests the high standards of the School of Chemical Engineering.

Chemistry has been in the basic curriculum of Georgia Tech since the establishment of the institution in 1888. It is required of almost all freshmen and more advanced courses are required in the curricula of several other departments.

Besides the Bachelor of Science, the School of Chemistry offers the Master of Science and the Doctor of Philosophy degrees.

The undergraduate curriculum in chemistry contains a number of electives and is therefore attractive to those students who expect to change into other fields such as law or medicine.

The Doctor of Philosophy, the most advanced earned degree, can be obtained in the fields of organic, physical, inorganic, or analytical chemistry.

Civil Engineering is the oldest of the engineering professions. The civil engineer coordinates the resources of nature, men, and machines toward the goal of better living for mankind. He works in the broad fields of surveying and mapping, sanitation, transportation, hydraulics, structures, mining, irrigation and reclamation.

It is the civil engineer who designs and builds highways, railways, airports, structures of all types and sizes, dams, sewage and water supply systems, harbors, bridges, docks, tunnels, aqueducts, reclamation systems for swamps and wastelands, river system developments, and irrigation projects.

The Civil Engineering Building, completed in 1938, contains modern classrooms, laboratories and drafting rooms.
The curriculum of the School of Electrical Engineering is planned to give a comprehensive training in the fundamental sciences. It provides for adequate training in the scientific and applied aspects of important branches of engineering other than electrical. The electrical power engineering option has to do with the theoretical and practical phases of power generation, distribution and utilization. It deals with the principles of alternators, transformers, motors, converters and the transmission and distribution of electric power.

Students desiring to specialize in radio, electronics and telephony may choose the communications and electronics option. This option offers theory and laboratory courses in radio, electronics, telephony, wave filters, transmission lines, antennas and radiation.

The increasing magnitude and complexity of modern industrial plants has demanded the development of a new branch of engineering now widely recognized as Industrial Engineering. The field of the industrial engineer is that of the process and production expert engaged in planning, organizing, improving, managing and operating various processes for producing manufactured products of all kinds.

To meet the need of industry for this new kind of engineer, the School of Industrial Engineering was formed. The first degree was awarded in 1946. The enrollment of the School is now over 300.

During 1952, additional space was made available to the School which will permit the development and extension of much needed laboratory facilities.
The objective of the School of Industrial Management is to train students for such positions in industry as are not regarded as highly technical such as is the case with engineering schools. Those aspects of management in industry are stressed which have to do with management of capital, management of finances and accounting, employment, training and management of personnel, making the best utilization of already known markets, and discovering new markets. Particular emphasis is placed upon the personal development of the individual personalities of the students with the view of realizing the kind of leadership that is exemplified in the life and work of successful persons. While a knowledge of the subject-matter of the courses offered is not minimized, it is not stressed so as to overshadow the importance of the individual student and the broadening of his individual vision of the part he is to play in the future as an industrial leader.

The School of Mechanical Engineering was the only degree-granting department of Georgia Tech from the opening of the Institute in 1888 until 1896. The course of study has changed through the years to the present curriculum in which broad application of fundamental theory is emphasized.

Mechanical Engineering embraces the science and art of the generation, transmission, and utilization of heat and mechanical energy as well as the production of tools, machines and their products.

There are no optional courses in mechanical engineering but electives are provided whereby a student may have some choice of subjects most suited to his individual desires. The curriculum is designed to provide the basis for future advancement of mechanical engineering graduates as professional engineers and as citizens.

In the last few decades, physicists have emerged from their laboratories to participate more directly in the work of the world. The pace of technical progress has become so fast that industry is ready for the next scientific discovery before it has been made, and physicists are wanted to work side-by-side with engineers in developing practical applications. This, and the increasing complexity of industrial and military equipment calls for the education of more physicists, and for the education of engineers with more fundamental training in physics.

The School of Physics meets the need for training in physics by offering basic service courses to all sophomores and by offering advanced work leading to either a bachelor's or master's degree in physics. The curriculum for a degree includes advanced general courses with a liberal choice of electives. A student may thus prepare either for the newer and more direct participation in industry, or for a scientific career of the more traditional type.
Opportunities for trained people in the textile industry are unusually diverse and numerous. Few industries today offer as many chances for leadership and success to young people who prepare themselves for responsible jobs. There are positions available in practically all branches of the industry. Designers, salesmen, chemists, engineers, laboratory technicians, overseers, inspectors and specialists in machine operation and efficiency, personnel problems, testing, time studies, merchandising, and product development are but a few of the numerous trained men needed by the textile industry.

In order to provide the textile and related industries with prospects for supervisory, administrative and executive positions, the School of Textile Engineering offers courses leading to the degrees of Bachelor of Textile Engineering and Bachelor of Science in Textiles. The work leading to these degrees may be taken in one of three options, viz., Textile Engineering, Textile Chemistry and Dyeing, and Textile Manufacturing. Each of these may be taken as a regular four-year course, or in accordance with the five-year cooperative plan.

Graduate courses are also provided leading to the degree of Master of Science in Textiles and M.S. in Textile Engineering.

The purpose of the A. French Textile School of the Georgia Institute of Technology is to give to each and every student entering the school the advantage of the best training and advice possible in the textile field.
Regardless of his field, no engineer has received proper training without adequate knowledge of certain basic subjects—service courses, as they are called. This division offers such courses in two fields—Engineering Drawing and Mechanics—with the purpose of providing students of the Georgia Institute of Technology with sufficient knowledge of these subjects to perform the services required of an engineer.

Engineering Drawing, fortified by descriptive geometry, is designed to give students a basic skill in making and understanding drawings, and putting their ideas into graphical representation. Mechanics concerns forces and their effects in producing and changing motion and in altering shapes of bodies. This is the foundation for the design and construction of machinery, structures and bridges.
The English Department is one of the largest and oldest departments on the campus. Its twenty-one members have taught at Georgia Tech a total of more than two hundred years. The department teaches required courses to all freshmen, all sophomores, and eighty per cent of the juniors, in addition to offering elective courses for a large number of upper classmen.

It is especially interested in campus organizations and supplies faculty advisers to such organizations as the Debate Club, The Technique, the Y.M.C.A., the Blue Print, and ODK. But its chief aim is to see that every Tech student speaks well, writes correctly, thinks clearly, and reads widely.
The Department of Mathematics provides instruction for every student who enters Georgia Tech. Thus, in the fall quarter of the current year 2340 students were registered in this subject. All schools of engineering require two full years of mathematics and several require other courses. In addition, the department offers a series of graduate and semi-graduate courses. It also offers the M.S. Degree in Applied Mathematics.

The Mathematics Building

The Department of Modern Languages seeks first to give the student sufficient mastery of a foreign language to enable him to read and understand with reasonable facility the scientific and technical literature of that language. Further, it seeks to inform the student, through the medium of the foreign language, of the civilization and literature of the countries where that language is spoken.

JAMES DIXON WRIGHT, A.B., M.A., Ph.D. . . . . . . . Professor
Head of Department
ROBERT M. ERVIN, A.B., M.A. . . . . . . . . . . . Professor
JOSEPH A. CAMPOAMOR, A.B., M.A., LL.B. . . Associate Professor

K. REED THOMPSON . . . . . . . . . . . . . . . . . . . . . Secretary

LEFT TO RIGHT: Campoamor, Walker, Ervin, Wright.

The Department of Social Sciences serves the college as an integral part of its program of general education. To be a fully educated citizen the engineer must have a broad background of general training in fields not specifically technical. Among these are courses in government, history, sociology, current affairs, and applied economics. The election of these courses tends to broaden the view of the prospective engineer and to help him understand the far-reaching problems of our complex modern society.

GLENN N. SISK, Ph.D. . . . . . . . . . . . . . . . . . . . Professor

LEFT TO RIGHT: Leach, Schaf, Wright, Sisk, McAfee, Hendricks, Gaston.
PHYSICAL TRAINING

Strength of body and mind are closely correlated. The Department of Physical Training presents a two year course with two primary objectives: (1) keeping the student physically fit while a student in our institution, and (2) giving the student such instruction and motivation in "carry over" sports that he will continue to pursue some of these activities after he leaves Georgia Tech.

ARTHUR M. COLEMAN, M.A. Professor
Head of Department

LYLE B. WELSER, M. Ed. Professor

FREDERICK R. LANOUE, M.Ed. Associate Professor

NORRIS C. DEAN, B.S. Associate Professor

JOHN C. HYDER, B.S. Assistant Professor

JULIAN H. PETTARD, B.S. Assistant Professor

TOMMY PLAXICO, B.S. Assistant Professor

JAMES H. McAULEY, B.S. Assistant Professor

JOHN T. FOSTER, B.A. Assistant Professor

MRS. FOREST HARRIS Secretary

PUBLIC HEALTH & BIOLOGY

Students of engineering, chemistry, management, and indeed all who intend to assume positions of responsibility in industry, are vitally concerned with problems of health and sanitation, both industrial and environmental. The Department of Public Health and Biology provides courses in industrial and environmental sanitation, water and food sanitation and the modern methods and techniques used by industrial and governmental agencies in the solution of the problems of the public health.

H. A. WYCKOFF, M.S. Professor
Head of Department

R. S. INGOLS, Ph.D. Professor

A. E. CANNON, M.S. Associate Professor

H. E. MILLER, M.S. Associate Professor

PSYCHOLOGY

The Department of Psychology was established at Tech as a service unit in 1945. The philosophy of the department has been to stress the importance of the human factor in all phases of engineering. An attempt has been made to make students sensitive to the whole man, his attitudes, his feelings, his fears and his desire for recognition and security.

JOSEPH E. MOORE, Ph.D. Professor
Head of Department

JOHN A. BARLOW, Ph.D. Instructor

RAYFORD T. SAUCER, M.A. Instructor

LILLIAN BRIDGES Secretary
The Federal Government maintains, at the Georgia Institute of Technology, a Senior Division of the Air Reserve Officers' Training Corps. General objectives of the course of instruction are to produce junior officers possessing the qualities and attributes essential to their progressive and continued development in the Officers' Reserve Corps of the United States Air Force and in the Regular Air Force. Training in military leadership is emphasized.

Instructor

**KENNETH K. WILCOX, Captain, USAF**

**LEROY W. WOLF, T/Sgt.**

Instructor

**Notes:**

The Federal Government maintains at the Georgia Institute of Technology, a Senior Division of the Army Reserve Officers' Training Corps, consisting of six units: Antiaircraft Artillery, Infantry, Chemical Corps, Corps of Engineers, Ordnance Corps, and Signal Corps. General objectives of the course of instruction are to produce junior officers possessing qualities and attributes essential to their progressive and continued development in the Officers' Reserve Corps of the Army of the United States and in the Regular Army. Training in military leadership is emphasized, with instruction being given in subjects common to all branches of the Army and in tactics and technique of the several branches.

The complete course of instruction of the Senior Division ROTC program comprises four years, with approximately 130 hours of instruction in each of the two years of the basic course, and 160 hours of instruction in each year of the advanced course with the addition of a summer camp.

The Naval Reserve Officers Training Corps Unit at the Georgia Institute of Technology is one of the fifty-two units at colleges and universities throughout the United States. Its purpose is to provide both regular and reserve officers for the U. S. Navy and Marine Corps. Courses are offered leading to a commission as Ensign, Line or Supply Corps in the Navy and Naval Reserve, and Second Lieutenant in the Marine Corps and Marine Corps Reserve. A portion of the students attend Georgia Institute of Technology under the Navy scholarship program in which most of their expenses are paid by the Navy. The number who may enroll is limited by a quota established by the Bureau of Naval Personnel each year.

LAWTON E. GRANT, Atlanta, Georgia; Industrial Management; Football, 1, 2, 3, 4.

RUSSELL AVERY GRAVES, Calhoun, Georgia; Industrial Management; White and Gold Club, 5, Vice-President, 4; Publications Board, 3, 4; Blue Print, 1; Scabbard and Blade; First Lieutenant, Army R. O. T. C.; Football, 1, 2, 3; Baseball, 1, 3, 4; Glee Club, 3, 4.

ROBERT CLAY GILLESPIE, Hapeville, Georgia; Industrial Management; Phi Kappa Tau.

HERMAN O’DANIEL GODWIN, Panama City, Florida; Civil Engineering; American Society of Civil Engineers, 3, 4.

FRED WILLIAM GOETHE, Macon, Georgia, Electrical Engineering; American Institute of Electrical Engineers, 3, 4; Army Pistol Team, 3, 4.

LEONARD GOLDNER, Amityville, New York; Industrial Management; Alpha Epsilon Pi, Treasurer, 4; Swimming, 1; Rifle Team, 3, 4; Navy Rifle Team, 1, 2, 3, 4; Captain, Navy Rifle Team, 4; Management Club, 4.

DONALD HOWLE GORDON, Atlanta, Georgia; Industrial Management; Alpha Tau Omega; Omicron Delta Kappa, Treasurer, 4; ANAK; Koseme Society; Phi Eta Sigma; Pi Delta Epsilon, 2, 3, President, 4; Student Trial Board, 4; Activities Council, 2, Secretary-Treasurer, 5, President, 4; White and Gold Club, 5, Vice-President, 4; Publications Board, 3, 4; Blue Print, 1; Scabbard and Blade; First Lieutenant, Army R. O. T. C.; Football, 1, 2, 3; Baseball, 1, 3, 4; Glee Club, 3, 4.

IRA ULMONT GRANT, JR., Ft. Myers, Florida; Industrial Engineering.

LAWTON E. GRANT, Atlanta, Georgia; Industrial Management; Football, 1, 2, 3, 4.

RUSSELL AVERY GRAVES, Calhoun, Georgia; Industrial Management; White and Gold Club, 5, Vice-President, 4; Publications Board, 3, 4; Blue Print, 1; Scabbard and Blade; First Lieutenant, Army R. O. T. C.; Football, 1, 2, 3; Baseball, 1, 3, 4; Glee Club, 3, 4.
IRWIN GREEN, Laurelton, New York; Industrial Engineering.

WILLIAM BENJAMIN GREEN, Alexandria, Virginia; Chemical Engineering; Sigma Alpha Epsilon; American Institute of Chemical Engineers, 4; Captain, Army R. O. T. C.

JOHN JEREMIAH GRIFFIN, Savannah, Georgia; Industrial Management; Chi Phi; Flying Club, 1; Geechee Club, 1, 2; Treasurer, 3; Management Club.

SHEROD ZELLNER GRIFFIS, Waycross, Georgia; Industrial Management; Phi Tau Chi, 3; President, 4; Wesley Foundation, 1, 3; President, 2; Treasurer, 3; Glee Club, 3, 4; Band, 1, 2; Management Club, 3, 4.

GEORGE EMORY GRIFFITH, Eatonton, Georgia; Textile Engineering; Lambda Chi Alpha, Secretary, 3; Arnold Air Society, 2, 3; White and Gold Club, 2, 3; A. A. T. C., 3, 4; Captain, Air R. O. T. C.

THOMAS RALPH GRIMES, JR., Atlanta, Georgia; Mechanical Engineering; Phi Eta Sigma; Pi Tau Sigma, 3, 4; American Society of Mechanical Engineers, 3, 4; Second Lieutenant, Army R. O. T. C.

EARL SIMMONS GROCHAU, Memphis, Tennessee; Civil Engineering; Chi Epsilon; American Society of Civil Engineers; Society of American Military Engineers.

LEROY WIRT GROSS, Norfolk, Virginia; Civil Engineering; Phi Eta Sigma; American Society of Civil Engineers, 3, 4.

JACK GRUSS, Passaic, New Jersey; Architecture; Independent Students Organization; Architectural Society, 3, 4; Track, 1.

JOSEPH P. GUNNESS, Ridgewood, New Jersey; Civil Engineering; Lambda Chi Alpha; Bulldog Club, 3, 4; White and Gold Club, 2, 3, 4; American Society of Civil Engineers, 3, 4; Newman Club, 2, 3, 4.

JOHN PRATT GUNTER, Atlanta, Georgia; Industrial Management; Phi Kappa Sigma, Treasurer, 2, Secretary, 3, President, 4; Table Managers Association, 2.

ELLIS T. GURRY, JR., Aurora, Illinois; Industrial Engineering; Sigma Chi; Glee Club, 1; Student Concert and Lecture Committee, 2, 4; Chairman, 3; Colonel, Air R. O. T. C.
ROBERT LEWIS HALE, Chattanooga, Tennessee; Industrial Management; T Club; Baseball, 1, 2, 3; Captain, Air R. O. T. C.

BENJAMIN RUFUS HALL, Atlanta, Georgia; Architecture; Tau Beta Pi; American Society of Civil Engineers, 4.

THOMAS VINEYARD HAMMOCK, Kingsport, Tennessee; Chemical Engineering; Lambda Chi Alpha, Secretary, 3; Arnold Air Society, 3, 4; Kappa Kappa Psi, 3; Vice-President, 4; Alpha Chi Sigma, 2, 3, 4; Georgia Tech Band, 1, 2, 3, 4; American Institute of Chemical Engineers, 3, 4.

GEORGE GANTT HAMNER, West Palm Beach, Florida; Mechanical Engineering; Phi Delta Theta; T Club, 3, 4; Society of American Military Engineers, 3, 4; Football Manager, 1, 2, 3; Head Manager, 4; Gym Team, 1.

FRANK NICHOLAS HANDAL, Flower Hill Manhasset, New York; Textile Engineering; Phi Gamma Delta, Secretary, 3; Newman Club, 1, 4, Secretary, 2, Vice-President, 3; Spiked Shoes, 3, 4; Yellow Jacket, 1; Second Lieutenant, Army R. O. T. C.; Cross Country Team, 2, 3, 4; A. A. T. C.

JAMES EDWARD HANNIGAN, Jacksonville, Florida; Aeronautical Engineering; Sigma Chi; Arnold Air Society, 3, 4; Institute of Aeronautical Science, 1, 2, 3, 4; International Relations Club, 2; Baptist Student Union, 4; Y. M. C. A., 2, 3; Major, Air R. O. T. C.

ALLEN SAGE HARDIN, Atlanta, Georgia; Industrial Management; Phi Delta Theta; T Club, 3, 4; Society of American Military Engineers, 3, 4; Football Manager, 1, 2, 3; Head Manager, 4; Gym Team, 1.

WYNE B. HARDSON, Carter's Creek, Tennessee; Mechanical Engineering; Independent Student Organization; Pi Tau Sigma, 3, 4; American Society of Mechanical Engineers, 2, 3, 4; Pershing Rifles, 2; First Lieutenant, Army R. O. T. C.

MARVIN LEE HARDY, Atlanta, Georgia; Civil Engineering; Phi Epsilon, 4; American Society of Civil Engineers, 3, 4.

ARNOLD WHITMAN HARRINGTON, Sanford, Florida; Electrical Engineering; Alpha Tau Omega; Eta Kappa Nu, 3, 4; Tau Beta Pi, 4; Activities Committee, 3, 4; St. Patrick's Council, 3, 4; Swimming Team, 1.

CLAUDE B. HARRIS, Alexandria, Virginia; Mechanical Engineering; Theta Chi, Treasurer, 4; Bulldog Club; Lt. Colonel, Air R. O. T. C.

WELDON CLARKE HARRIS, JR., Atlanta, Georgia; Civil Engineering; Delta Sigma Phi; American Society of Civil Engineers, 3, 4; Cross Country, 1; Pershing Rifles, 1.
FRANK E. HINCHEY, Detroit, Michigan; Civil Engineering; American Society of Civil Engineers, 3, 4; Newman Club, 4.

LEONARD O. HINTON, JR., Dacula, Georgia; Textile Engineering; Lambda Chi Alpha, 3, 4; Delta Kappa Phi, 3, 4, Secretary, 4; American Association of Textile Colorists and Chemists, 3, Secretary, 4; Baptist Student Union, 2, 3, 4.

LOUIS HOCHSTAEDTER, New York, New York; Textile Engineering; Phi Epsilon Pi, Treasurer, 3; Bulldog Club, 3, 4; White and Gold, 2, 3; Alpha Omega, 2, 3; Pi Delta Epsilon, 3, 4; A. A. T. C. C.; Technique, 1-2; Circulation Manager, 3.

THOMAS FORBES HOEHN, Memphis, Tennessee; Industrial Management.

JACK HERMAN HOGAN, Atlanta, Georgia; Industrial Management; Lieutenant, Air R. O. T. C.; Track; Cross Country, 1.

ROBERT LEE HOGAN, Hapeville, Georgia; Industrial Engineering; Phi Kappa Tau; Tau Beta Pi; Eta Kappa Nu, 3, 4; Alpha Psi Mu, 4; Scabbard and Blade, 3; A. I. I. E., 3, 4; I. R. E., 3, 4.

CHARLES LOUIS HOHENSTEIN, JR., Savannah, Georgia; Industrial Engineering.

ALEXANDER ANDREW HOLECZY, Pittsburgh, Pennsylvania; Electrical Engineering.

JEROME ALLEN HOLIBER, Brooklyn, New York; Industrial Engineering; Alpha Epsilon Phi; Vice-President, 3; President, 4; Society for the Advancement of Management, 4; American Institute of Industrial Engineers; Blue Print, 1, 2; Technique, 2.

HAROLD FERRELL HOLLAND, Howey-in-the-Hills, Florida; Civil Engineering; Cooperative Plan; Chi Epsilon; Co-op Club, Secretary, 4.

EATHEL HOLLEY, Columbus, Georgia; Electrical Engineering; American Institute of Electrical Engineers, 4.

ROBERT LAFAYETTE HOOKER, Loudon, Tennessee; Chemical Engineering.
JAMES CLINTON HORNSBY, East Point, Georgia; Textile Engineering; Band, 1; American Textile Colorists and Chemists.

BILLY FULLER HORTON, Macon, Georgia; Civil Engineering; Sigma Alpha Epsilon; American Society of Civil Engineers, 3, President, 4.

JAMES MARVIN HOSKINS, Orlando, Florida; Chemical Engineering; Lambda Chi Alpha; Tau Beta Pi; Phi Eta Sigma; Alpha Chi Sigma, 3, Recorder, 1; Phalanx Club, 3; Naval Activities Committee, 4; A. I. Ch. E., 4; Scabbard and Blade; Phi Kappa Phi.

MAX JOSEPH HOYER, Thibodaux, Louisiana; Industrial Engineering; Pi Kappa Alpha, Secretary, 3, 4; Army Rifle Team, Treasurer, 4; Society for the Advancement of Management, 4; First Lieutenant, Army R. O. T. C.

JAMES D. HUDDLESTON, III, Boston, Georgia; Electrical Engineering, Cooperative Plan; Independent Students Organization, Secretary, 4; Eta Kappa Nu; Lieutenant, Army R. O. T. C.

JEWELL BELL HUDGINS, Toccoa, Georgia; Industrial Management; Beta Theta Pi; Band, 2; Football, 1; Arnold Air Society, 4; Management Club, 3.

WILLIAM GEORGE HUMPHREY, Toledo, Ohio; Mechanical Engineering; Beta Theta Pi; Interfraternity Council, 3, 4; American Society for Mechanical Engineers, 4; Engineer, 1, 2; Major, Air R. O. T. C.

JAMES REGINALD HUMPHRIES, Savannah, Georgia; Chemistry; American Chemical Society, Vice-President, 4; Army Rifle Team, 5, 4; Lieutenant, Army R. O. T. C.

FRANKLYN DeWITT HURST, Waycross, Georgia; Industrial Management; Sigma Nu; Camera Club, 1, Secretary-Treasurer, 2, 3; Management Club, 4; Technique, 3, 4; Blue Print, 3, Photo Editor, 4.

ROBERT WINN HURST, Atlanta, Georgia; Industrial Management; Sigma Alpha Epsilon; Football, 1; Scabbard and Blade, 3, 4; Industrial Management Society, 3, 4; Captain, Air R. O. T. C.

DOUGLAS HYNDS HUTCHINSON, Richmond, Virginia; Industrial Engineering; Phi Kappa Sigma.

HERBERT ALAN HUTCHINSON, Maspeth, New York; Aeronautical Engineering; Tau Omega, 3, President, 4; Institute of Aeronautical Sciences, 3, 4; Society of American Military Engineers, 2, 3; Y Council, President, 1.
SENIOR CLASS

JULIUS HYMAN, Brooklyn, New York; Textile Engineering; Alpha Epsilon Pi; Secretary, House Manager, 3, 4; Bulldog Club, 3, 4; American Association of Textile Chemists and Colorists, 2, 3, 4; Alpha Phi Omega, 3, 4, Vice-President; Delta Kappa Phi, 4.

ROBERT WARREN INGALLS, Miami, Florida; Industrial Management; Kappa Alpha; Wrestling, 1, 2, 3.

C. ROBERT IVES, St. Petersburg, Florida; Industrial Management.

JOSEPH WILLIAM JACKSON, Jr., Palmetto, Georgia; Electrical Engineering; Pi Kappa Alpha; International Relations Club, 2, Treasurer, 3.

BRANYON ORVILLE JARRETT, Augusta, Georgia; Mechanical Engineering; Alpha Tau Omega; American Society of Mechanical Engineers; Camera Club, 4; Toastmaster’s Club, 4.

LELAND EDWARD JEFFERIES, Jr., Bradenton, Florida; Electrical Engineering; Phi Gamma Delta; Eta Kappa Nu, 3, 4; Baptist Student Union, 1, 3, 4; Secretary, 2; Lieutenant, Army R. O. T. C.

GEORGE FREDERICK JENSEN, Key West, Florida; Ceramic Engineering; Pi Kappa Phi; Secretary, 4; Bulldog Club; St. Patrick’s Council; American Ceramic Society; Captain, Army R. O. T. C.

JOE WILBURN JERNIGAN, Chattanooga, Tennessee; Industrial Engineering; Sigma Chi; Secretary, 3, Treasurer, 4; Tau Beta Pi; Alpha Phi Mu; Phi Kappa Phi; Scabbard and Blade; Captain; Captain, Navy R. O. T. C.; Who’s Who in American Colleges and Universities.

ARTURO PEDRO JIMENEZ, Havana, Cuba; Mechanical Engineering; Independent Student Organization; Latin American Club; Secretary, 2, Treasurer, 2.

FREDERICK ALEXANDER JOHANSEN, Atlanta, Georgia; Industrial Management; Sigma Alpha Epsilon; Captain, Air R. O. T. C.

CLAUDE ELLIS JOHNSON, Senoia, Georgia; Electrical Engineering; Eta Kappa Nu, 4; American Institute of Electrical Engineers, 2, 3, 4.

RICHARD CLAYTON JOHNSON, Atlanta, Georgia; Physics; Phi Kappa Sigma; Tau Beta Pi; Sigma Pi Sigma, 3, Vice-President, 4; Phi Eta Sigma; Math Club; Physics Club; Phi Kappa Phi.
WILLIAM FRANKLIN JOHNSON, JR., Dublin, Georgia; Industrial Management; Kappa Alpha.

THOMAS SIDNEY JOHNSTON, Athens, Alabama; Industrial Management; Industrial Management Society.

GERALD V. JOINER, Woodbine, Georgia; Civil Engineering, Cooperative Plan; Independent Students Organization, Treasurer, 3, 4; Chi Epsilon, 3, 4; American Society of Civil Engineers, 3, 4.

RONNIE EDWIN JOINER, Americus, Georgia; Electrical Engineering; American Institute of Electrical Engineers.

JACK CARTER JONES, McCaysville, Georgia; Civil Engineering; Chi Epsilon, 3, 4; American Society of Civil Engineers.

JAMES COOPER JONES, JR., Valdosta, Georgia; Civil Engineering, Cooperative Plan; Chi Epsilon, 4; President, 3; American Society of Civil Engineers, 3, 4; Major, Army R. O. T. C.

RONALD HENRY JONES, Buffalo, New York; Civil Engineering; American Society of Civil Engineers, 3, 4.

ROY C. JONES, JR., Carrollton, Georgia; Electrical Engineering; Callaway Club, Secretary, 3; I.S.O. Council, 3; I.R.E., 4; A.I.E.E., 3, 4.

WILLIAM A. JONES, Elk Point, South Dakota; Physics; Physics Club.

CHARLES WILLIAM JORDAN, Valdosta, Georgia; Industrial Management.

JOHN HAMILTON JUDD, JR., Chamblee, Georgia; Industrial Engineering; American Institute of Industrial Engineers, 4; Society for the Advancement of Management, 4.

CARL L. CLARENCE KAH, JR., West Palm Beach, Florida; Chemical Engineering; Kappa Sigma; Phi Kappa Phi, 4; Tau Beta Pi; Kappa Kappa Psi, 3, 4; Phi Lambda Upsilon, 3, 4; Bars, 1, 2, 3; A.F.C.A., 2, 3, 4; Captain, Army R.O.T.C.
ROBERT EMMET KANE, Greenfield, Massachusetts; Electrical Engineering; Sigma Nu; Newman Club; Math Club; American Institute of Electrical Engineers; Camera Club.

BENJAMIN KEE CHI, Newark, New Jersey; Industrial Management; Independent Students Organization; Chinese Club, 1, 2, 3, 4; Management Club, 4.

BRUCE CLEVELAND KELLY, Atlanta, Georgia; Industrial Management; Pi Kappa Alpha; Foil and Mask Society, 2, 3, 4; Management Club, 3, 4; Marketing Club, 3, 4; Captain, Air R. O. T. C.

WILLIAM RICHARD KELLY, Memphis, Tennessee; Industrial Engineering; Alpha Pi Mu, Secretary; Scabbard and Blade; Wesley Foundation, 1, 2, 3, 4; Lieutenant, Navy R. O. T. C.; Navy Rifle Team, 2, 3, 4.

GEORGE STANLEY KELSEY, Avon Park, Florida; Electrical Engineering; Pi Kappa Alpha; Tau Beta Pi, 3, 4; Dean's List, 2, 3, 4.

ARCHIE JEFFERSON KEMP, Atlanta, Georgia; Electrical Engineering; Society for the Advancement of Management; American Institute of Electrical Engineers.

GLENN S. KENASTON, Huntington, West Virginia; Chemical Engineering; Cooperative Plan; Pi Kappa Alpha, Vice President, 4; Co-op Club, 2, 3, 4; Bulldog Club, 3, 4.

DANIEL COOK KENNEDY, Atlanta, Georgia; Architecture; Beta Theta Pi; Architectural Society; Engineer, 2.

EDWARD GLENN KERR, Atlanta, Georgia; Electrical Engineering; Theta Chi; St. Patrick's Council, 3; Pershing Rifles, 1, 2, 3; Scabbard and Blade, 3, 4; A. I. E. E., 2, 3, 4; Major, Army R. O. T. C.; Distinguished Military Student.

JAMES JOSEPH KERR, Rosemead, California; Mechanical Engineering; Newman Club, 3, 4; American Society of Mechanical Engineers, 4; Yellow Jacket, 4.

RUPERT E. KEY, Anthony, New Mexico-Texas; Mechanical Engineering.

WALTER LYNN KILBOURN, Panama City, Florida; Industrial Engineering.
DONALD CHARLES KILBY, Artesia, California; Chemistry; Theta Chi; American Chemical Society, 2, 3, 4; Alpha Chi Sigma, 4; Philosophy Club, 3, 4.

WILMER H. KIMBERLY, JR., Atlanta, Georgia; Electrical Engineering; Society of American Engineers, 2, 3, 4; American Institute of Electrical Engineers, 2, 3, 4; Lieutenant, Army R. O. T. C.

C. RAIFORD KING, Atlanta, Georgia; Textile Engineering; Pi Kappa Alpha.

GEORGE A. KING, St. Albans, New York; Mechanical Engineering; Pi Kappa Alpha, Vice-President, 3, Treasurer, 3, 4, President, 4; R. C., 2, 3, 4; Interfraternity Council, 3, 4; A. S. M. E., 3, 4; Wrestling, 1, 2.

JOEL GULLEDGE KING, JR., Jackson, Mississippi; Electrical Engineering; Theta Chi; Tau Beta Pi, President, 4; Eta Kappa Nu, 3, 4; Scabbard and Blade, 3, 4; Chi Kappa Phi; A. I. E. E., Vice-President, 3, 4; I. R. E., President, 3, 4; Radio Club, 1, 2; White and Gold Club, 2, 3, 4; Activities Council, 3, 4; Society of American Military Engineers, 3, 4; Dean's List, 3, 4; Lieutenant Colonel, Army R. O. T. C.; Who's Who in American Universities and Colleges; Omicron Delta Kappa.

J. ALEXANDER KIRIAZE, Athens, Greece; Industrial Engineering; Independent Students Organization; Camera Club, 3, 4; Debating Society, 3, 4; Phalanx Club, 4; Greek Club, President, 3, 4; Second Lieutenant, Air R. O. T. C.

RUSSELL CHALMERS KIRK, Brooklyn, New York; Industrial Management; Beta Theta Pi, Treasurer, 3, 4; Interfraternity Council, 3; Marketing Club, 3, 4; Secretary-Treasurer, 3; Management Club, 3, 4; Wrestling, 2, 3.

THOMAS RICHARD KIRKLAND, Augusta, Georgia; Industrial Management; Phi Delta Theta; Bulldog Club, 2, 3, 4; Ramblin' Reck Club, 2, 3, 4; Scabbard and Blade, Treasurer, 4; Football, 1; Colonel, Air R. O. T. C.

EUGENE S. KNIGHT, Atlanta, Georgia; Industrial Management; Sigma Nu; Marketing Club, 3, Secretary, 4; Management Club, 3, 4; Camera Club, 3, 4; Blue Print, 1.

GORDON EMMETT KNIGHT, Lakeland, Florida; Chemical Engineering; Cooperative Plan; Y. M. C. A. Cabinet, 1, 3, Secretary, 2; T Book, 2; Radio Club, 2.

JOSEPH MARION KNIGHT, JR., Tampa, Florida; Physics; Delta Sigma Phi, Treasurer, 2; Tau Beta Pi; Sigma Pi Sigma, 3, Secretary, 4; Pi Delta Epsilon, 3, 4; Arnold Air Society, 3, 4; Camera Club, 3, 4; Physics Club, 2, 3, Secretary, 4; I. A. S., 1; Engineer, 1, 2, 3, Associate Editor, 4; Second Lieutenant, Air R. O. T. C.

JOHN EDWARD KNIGHTON, JR., Covington, Virginia; Chemical Engineering; Phi Kappa Sigma, President, 4; American Institute of Chemical Engineers, 3, 4; Bulldog Club, 3; Captain, Army R. O. T. C.
FRANK HON-HING KOO, Hong Kong, China; Aeronautical Engineering; Independent Students Organization; Tau Omega, 3, 4; Institute of Aeronautical Sciences, 3, 4; Glee Club, 2, 3, 4; Chinese Student Club, 2, 4; President, 3; Band, 2.

PHILIP KORMAN, New York, New York; Ceramic Engineering; Alpha Epsilon Pi; American Ceramic Society; Alpha Phi Omega.

JAY LAWRENCE KORNFELD, Laurelton, New York; Architecture; Alpha Epsilon Pi.

ROBERT MERRILL KRASNOFF, Bishopville, South Carolina; Industrial Management; Alpha Epsilon Pi; Interfraternity Council, 3; Management Club, 4.

ROBERT LOUIS KUZMA, Bayside, New York; Aeronautical Engineering; Pi Kappa Alpha; Institute of Aeronautical Sciences, 3, 4; Society of American Military Engineers, 3, 4; Arnold Air Society, 3, 4.

FRANK LAMAR LAMB, Swainsboro, Georgia; Textile Engineering; Sigma Alpha Epsilon.

THAD JOHN LANDON, Atlanta, Georgia; Industrial Management; Management Club, Vice-President, 4; Baptist Student Union; Arnold Air Society; Colonel, Air R.O.T.C.

ROBERT H. LANDSMAN, Brooklyn, New York; Architecture; Tau Epsilon Phi; Drama Tech, 1; Yellow Jacket, 1.

JOSEPH LAMAR LATIMER, Alexander City, Alabama; Textile Engineering; Sigma Nu.

EARL LENARD LAUBER, Miami, Florida; Electrical Engineering; Vice-President of Senior Class; Phi Eta Sigma; Kappa Kappa Psi, 2, 3, Secretary, 4; Eta Kappa Nu, 3, 4; Tau Beta Pi, 3, 4; Phi Kappa Phi, 4; Dean's List, 3, 4; Band, 1, 2, Executive Officer, 3, Captain, 4; Major, Air R.O.T.C.; Distinguished Military Student Award; Who's Who in American Colleges and Universities; Omicron Delta Kappa.

JOSEPH ERNEST LAVELLE, Waban, Massachusetts; Aeronautical Engineering; Delta Sigma Phi, Treasurer, 3; Institute of Aeronautical Sciences, 2, 3, 4; Flying Club, 3, 4.

ROY MARTIN LAW, Shellman, Georgia; Mechanical Engineering; Cooperative Plan; Phi Kappa Tau; Dean's List, 3, 4; Pi Tau Sigma, Treasurer, 4; Tau Beta Pi; Y.M.C.A. Cabinet, 1, 2; Wesley Foundation, 2, 3; Toastmasters' Club; A.S.M.E.; Briaerean Society, 5.
ERNEST GASTON LAYTON, Hapeville, Georgia; Civil Engineering; Phi Kappa Tau; American Society of Civil Engineers.

ROBERT WILLIAM LEE, Atlanta, Georgia; Industrial Engineering; Sigma Chi; Society for Advancement of Management, 3; American Institute of Industrial Engineers, 4; Technique, 1, 2; Ensign, Navy R.O.T.C.

JAMES MICHAEL LEHOSKY, Maple Heights, Ohio; Industrial Engineering; Independent Students Organization.

DEAN JORDAN LENNARD, Tennille, Georgia; Mechanical Engineering; Kappa Sigma, Treasurer; Pi Tau Sigma; A.S.M.E.; Distinguished Military Student; 2nd Lieutenant, Army R.O.T.C.

ERVIN CARL LENTZ, Beloit, Wisconsin; Mechanical Engineering; Cooperative Plan; Phi Kappa Tau; President, 2, 3, 4, 5; Tau Beta Pi, Cataloger, 5; Phi Eta Sigma; Pershing Rifles, 1, 2; A.F.C.A., President; A.S.M.E.; Blue Print, 1; Anak Award, 1; A.F.C.A. Award, 2; Major, Army R.O.T.C.; Phi Kappa Phi; Briarcliff Society; Pi Tau Sigma; Dean's List, 1, 2, 3, 4.

LAMAR AUGUSTUS LESTER, Christiansburg, Virginia; Industrial Management; Phi Sigma Kappa, President, 3; Interfraternity Council, 3; Lieutenant, Army R.O.T.C.

RICHARD ROLAND LEVEILLE, White Plains, New York; Civil Engineering; Tau Epsilon Pi; President, 4; Chi Epsilon, 3, 4; Tau Beta Pi; Phi Kappa Phi; A.S.C.E.; Dean's List, 3, 4.

JOHN HICKS
President, Koseme Society
Football Team

RAYMOND HAROLD LEVY, Baltimore, Maryland; Ceramic Engineering; Tau Epsilon Phi; Bulldog Club, 3, 4; American Ceramic Society, 2, 3, 4; Armed Forces Chemical Association, 3, Vice-President, 4.

FRANK HERBERT LEWIS, JR., Chamblee, Georgia; Civil Engineering, Cooperative Plan; Delta Sigma Phi; Kappa Sigma Phi, 2, 3, 4; Chi Epsilon, 4; Secretary, 3; A.S.C.E., 2, 3, 4; Rund, 1, 2, 3; 1st Lieutenant, Army R.O.T.C.; General Lucius D. Clay Memorial Scholarship; Phi Kappa Phi; Dean’s List, 3, 4.

PAWEL MARTYN LIBERMAN, Sao Paulo, Brazil; Architecture; Tau Kappa Epsilon, President, 3; Koseme Society; Toastmasters Club, 4, President, 5; Student Council, 2, 3, 4; W.A.N.A., 3, 4; Drama Tech, 1, 2, 3, 4; WTJY, 3, Vice-President, 5; Chess Club, 2, 3, Vice-President, 4, 5; Swivet, 1, Editor, 2, 3; Yellow Jacket, 1, 2, 3, Technique, 1; Publications Board, 2, 3; Debating Society, 1; Activities Council, 4, 5; Latin American Club, 1, 2, 3; Who’s Who in American Colleges and Universities.

WALTER MADISON LIGON, Toccoa, Georgia; Chemical Engineering; Cooperative Plan; Independent Students Organization; Vice-President Textwood Unit, 3; A.I.Ch.E., 3, 4; American Chemical Society, 2, 3, President, 4; Philosophical Society, Secretary-Treasurer, 4; Glee Club, 3, 4; Spiked Shoe Club, 4; T Club, 4; Bulldog Club, 4; Captain, Army R.O.T.C.; Cross Country, 2, 3, 4; President’s Club; St. Patrick’s Council.

OWEN LILLY, JR., Memphis, Tennessee; Architecture; Alpha Tau Omega; Interfraternity Council, 2, 3, 4.

SENIOR CLASS
THOMAS CORKHILL LINCK, Daytona Beach, Florida; Civil Engineering; Callaway Club, 4; American Society of Civil Engineers, 3, 4.

GEORGE CLARK LINDSEY, JR., Atlanta, Georgia; Textile Engineering; Delta Kappa Phi; American Association of Textile Chemists and Colorists; Secretary, 3.

GEORGE M. LINGENFELSER, Savannah Beach, Georgia; Industrial Engineering; Independent Students Organization; Callaway Club; Geechee Club; A. I. E. E.; A. S. M. E.; S. A. M.

ADAMS DELEON LITTLE, JR., Marietta, Georgia; Industrial Management; Alpha Tau Omega; Industrial Management Society; Secretary, 4; Phi Delta Epsilon, 3, 4; Scabbard and Blade, 3, 1st Sergeant, 4; Bulldogs Club, 3, 4; Ramblin' Rock Club, 2, 3, 4; Blue Print, 1, 2, Sports Editor, 3; Cross Country, 1; Track, 1; Lieutenant, Navy R. O. T. C.; Who's Who in American Colleges and Universities.

HOWELL PARK LITTLE, Commerce, Georgia; Architecture; Sigma Chi; Swimming, 1.

WILLIAM STANLEY LITTLE, Atlanta, Georgia; Chemical Engineering; Cooperative Plan; American Institute of Chemical Engineers, 4; Cross Country, 1.

ROBERT BROOKS LIVINGSTON, Orlando, Florida; Chemical Engineering; Lambda Chi Alpha; Tau Beta Pi; Phi Lambda Upsilon, 3, 4; Kappa Kappa Psi, 3, 4; Band, 1, 2, 3, 4; A. I. Ch. E., 3, 4; Camera Club, 1, 2; Vice-President, 3; President, 4; Activities Council, 3; Dean's List 2, 3, 4; Scabbard and Blade, 4.

HECTOR LLENZA, Hato Rey, Puerto Rico; Architecture; Architectural Society, 3, 4; Latin American Club, 1, 2, 3; Captain, Air R. O. T. C.

RICHARD DEWITT LOCKHART, Memphis, Tennessee; Industrial Management; Delta Tau Delta; Drama Tech, 2.

EUGENE EDWARD LORENZ, Winter Park, Florida; Industrial Management; Newman Club, 1, 4, Secretary, 2, President, 5; Industrial Management Society, President, 4; Debating Society, 2; Technique, 1, 2, Sports Editor, 3.

KENNETH ARNOLD LUNDBERG, Bridgeport, Connecticut; Ceramic Engineering; Phi Kappa Sigma; Kappa Kappa Psi, 3, 4; Band, 2, 3, 4; Glee Club, 3, 4; Ensign, Navy R. O. T. C.

CLYDE COURTNEY LUNS福德, JR., Darien, Georgia; Textile Engineering; Phi Kappa Sigma; Kappa Kappa Psi, 3, 4; Band, 2, 3, 4; Glee Club, 3, 4; Ensign, Navy R. O. T. C.
MATTHEW ANDREW LYONS, Augusta, Georgia; Industrial Management; Newman Club; Industrial Management Society; T Club; Arnold Air Society; Lieutenant Colonel, Air Force R. O. T. C.; Football, 2, 3, 4.

JOHN WILLIAM MACPHERSON, Atlanta, Georgia; Chemical Engineering; Phi Kappa Sigma; Bulldog Club; American Chemical Society.

EDWARD A. MAHLIN, Brandon, Florida; Industrial Management; Phi Kappa Sigma, Secretary, 3; Naval Activities Committee, 1; Camera Club, 1; Flying Club, 3; Tech Tiller, Circulation Manager, 1, 2, 3; Ensign, Navy R. O. T. C.

WILLIAM ALLEN MAIJALA, Burton, Ohio; Electrical Engineering; Eta Kappa Nu, 4.

RICHARD LAWRENCE MALONE, Washington, D. C.; Industrial Engineering; Society for Advancement of Management; American Institute of Industrial Engineers; Lieutenant, Air R. O. T. C.

RICHARD ROBERT MARINARO, White Plains, New York; Industrial Engineering; Callaway Club, 4; Secretary, 3; American Institute of Industrial Engineers.

EUGENE D. MARKS, JR., Augusta, Georgia; Mechanical Engineering; Phi Delta Theta; Pi Tau Sigma, 3, 4; Student Council, 4; A. S. M. E., Secretary, 4; Golf Team, 3, 4.

GERDIS M. MARTIN, Haleyville, Alabama; Industrial Management; Kappa Sigma; Interfraternity Council; Football, 1, 2, 3, 4.

MEDARDO M. MARTINEZ, Habana, Cuba; Electrical Engineering; American Institute of Electrical Engineering; American Society of Mechanical Engineers.

JOHN CHRISTOPHER MARSCHER, JR., Merion, Pennsylvania; Industrial Engineering; Theta Chi; Bulldog Club; American Institute of Electrical Engineers, 3, 4.

MARVIN EUGENE MATHIS, Atlanta, Georgia; Industrial Engineering.

NICHOLAS EUGENE MATSOUKAS, Pensacola, Florida; Industrial Management; Delta Sigma Phi.
JAMES HOWARD MAULDIN, Panama City, Florida; Physics; Theta Chi, Secretary, 3, Vice-President, 4; Phi Eta Sigma; Tau Beta Pi; Sigma Pi Sigma, 3, President, 4; Physics Club, 2, 3, 4; Phi Kappa Phi.

WILLIAM SIDNEY MAYTON, East Point, Georgia; Architecture; Yellow Jacket, 3, 4.

JACK DONALD McALLISTER, Orlando, Florida; Aeronautical Engineering; Phi Eta Sigma; Tau Beta Pi; Phi Kappa Phi; Tau Omega, 3, 4, A, S., 2, 3, Chairman, 4; Swimming Team, 1.

WILLIAM ROBERT McCAHAN, Linthicum Heights, Maryland; Civil Engineering; Theta Xi; American Society of Civil Engineers, 4.

CHARLES BLASE McCARTHY, Brookhaven, Georgia; Civil Engineering; Chi Epsilon, 4, Vice-President, 3; American Society of Civil Engineers, 3, 4; Newman Club, 1, 2, 3, 4; St. Patrick's Council, 4.

ROBERT GLYN McCLELLAN, Atlanta, Georgia; Mechanical Engineering; Kappa Sigma, Secretary, 4; Pi Tau Sigma, 3, 4; Tau Beta Pi; Scabbard and Blade, 4.

BENNIE DEE McCLENDON, Atlanta, Georgia; Industrial Management.

JAMES BOBBY McCOLLUM, Bainbridge, Georgia; Industrial Management.

ROBERT I. McCOMAS, Stuart, Florida; Aeronautical Engineering.

TROY JACKSON McDaniel, Dublin, Georgia; Industrial Management; Lambda Chi Alpha.

JOHN EVANS MCDONALD, Ashburn, Georgia; Mechanical Engineering; Kappa Sigma; Pi Tau Sigma, 3, 4; Toastmasters' Club, Secretary, 5, Vice-President, 4; Flying Club, 3, President, 4; Activities Council, 3; World Student Fund Committee, 4.

DAVE FRANKLIN McDOWELL, Decatur, Georgia; Architecture; Sigma Phi Epsilon; Band, 2, 3, 4.
JOHN FRANKLIN McGEHEE, Atlanta, Georgia; Electrical Engineering; Society of American Military Engineers.

WILLIAM BURSON McGUIRE, Fitzgerald, Georgia; Industrial Management; Phi Delta Theta; Captain, Army R.O.T.C.

HAROLD C. McKENZIE, Atlanta, Georgia; Industrial Engineering; Kappa Alpha, Vice-President, 4; ANAK, Treasurer, 4; Kappa Society; Ramblin’ Rock Club, 2, 3, 4; Activities Council, 3, 4; Interfraternity Council, 2, Treasurer, 4; A.L.E.; S.A.M.; Chairman of Freshmen Orientation, 3; Who’s Who in American Colleges and Universities.

DONALD RODERIC McLAIN, Los Angeles, California; Mechanical Engineering; Cooperative Plan; Pi Kappa Alpha; Phi Eta Sigma; Tau Beta Pi; Reunion Society, Treasurer, 3; President, 3; Pi Tau Sigma, 3, Treasurer, 4; A.S.M.E., President, 4.

RAMON M. McLEOD, Albany, Georgia; Industrial Engineering; Alpha Tau Omega, Secretary, 3, Eta Kappa Nu; Bulldog Club; Interfraternity Council, Lt. (j.g.), Navy R.O. T. C.

ROBERT BARKER McTYIER, JR., Memphis, Tennessee; Chemical Engineering; Phi Kappa Tau, President, 3; Band, 1; Interfraternity Council, 3, 4.

DONALD DRESSLER MEASE, Hershey, Pennsylvania; Industrial Management; Tau Kappa Epsilon; Glee Club, 1.

RICHARD LEE MENDLER, Charlotte, North Carolina; Industrial Management; Theta Chi; Marketing Club; Management Club.

HUGH MERCER, JR., Savannah, Georgia; Architecture; Phi Kappa Phi; Drama Tech, 1, 2, 3, 4.

WILLIAM NEAL MERRITT, Cairo, Georgia; Chemical Engineering; American Institute of Chemical Engineers.

ERNST JOHN MESSERSMITH, JR., Baltimore, Maryland; Architecture; Theta Chi, Vice-President, 3; Interfraternity Council, 3, 4; Architectural Society, 2, 3, 4; Arnold Air Society, 3, 4; Baseball, 1; Captain, Air R.O.T.C.

THOMAS EUGENE METHVIN, Jeffersonville, Georgia; Industrial Management; Independent Students Organization; Management Club, 4.

J. G. KING
President, Tau Beta Pi
Phi Kappa Phi
WHO’S WHO
HUGH LANE MIDDLETON, Thomasville, Georgia; Textile Engineering; Cooperative Plan; Kappa Alpha; Phi Psi, 3, Secretary, 4; St. Patrick's Council, 3, Vice-President, 4; Bulldog Club, 3, 4; Student Council, Secretary, 4; White and Gold Club, 2, 3, A.A.T.C.C., 2, 3, 4; Co-Op Club, 3, 4.

EDWARD FARRER MILLER, Luray, Virginia; Industrial Management; Glee Club, 1, 3, Vice-President, 2; Management Club, 4.

FRANK RICHARD MILLER, Atlanta, Georgia; Civil Engineering; Phi Gamma Delta, Treasurer, 3, 4; Technique, 1; Naval Activities Council, 1.

MEYER HENRY MILLER, Atlanta, Georgia; Industrial Management; Management Club; Captain, Army R.O.T.C.

MILTON MIRO, Santurce, Puerto Rico; Architecture; Architectural Society, 3, 4.

FLEM GOODE MITCHELL, Atlanta, Georgia; Mechanical Engineering.

WALTER MITCHELL, III, Florence, Alabama; Civil Engineering; Sigma Chi; American Society of Civil Engineers, 3, 4; Major, Air R.O.T.C.; Distinguished Military Student.

JAMES THOMAS MONAHAN, JR., Jacksonville, Florida; Industrial Management; Pi Kappa Alpha; Newman Club, 1, 2, 3, 4; Society of American Military Engineers, 3, 4; Second Lieutenant, Army R.O.T.C.

GEORGE BROWN MOORE, Jacksonville, Florida; Civil Engineering; Pi Kappa Alpha; Tau Beta Pi; Chi Epsilon; American Society of Civil Engineers.

THOMAS EUGENE MOORE, Decatur, Georgia; Textile Engineering.

ROBERT WORTHINGTON MOOREHEAD, JR., Miami, Florida; Industrial Management; Phi Delta Theta; Student Council; Ramblin' Reck Club; T Club; Captain, Army R.O.T.C.; Football, 1, 2, 3, 4; Baseball, 1.

FRANK AUGUSTIAN MORGAN, Jacksonville, Florida; Chemical Engineering; Kappa Alpha; Tau Beta Pi; American Institute of Chemical Engineers, 2, 3, 4.
MILLARD F. MORGAN, Bailey, North Carolina; Architecture; Architectural Society.

CHARLES STEPHEN MORRIS, Atlanta, Georgia; Industrial Engineering; Delta Tau Delta; American Institute of Electrical Engineers.

GEORGE A. MORRIS, Vicksburg, Mississippi; Industrial Management; Phi Delta Theta; T Club, 2, 4; President, 4; Ramblin’ Rock Club, 2, 3, 4; Captain, Army R. O. T. C.; Football, 2, 3, Co-Captain, 4; Baseball, 5; Who’s Who in American Colleges and Universities.

THOMAS SCOTT MORRIS, Birmingham, Alabama; Chemical Engineering; Pi Kappa Phi, President, 3, Treasurer, 4.

WILLIAM EDGAR MORROW, JR., Gadsden, Alabama; Industrial Management; Bulldog Club, 3, 4; Management Club, 4.

ROY McCLELLAN MUNDORFF, JR., Atlanta, Georgia; Industrial Management; Phi Gamma Delta; Phi Eta Sigma; Industrial Management Society, 3, 4; ANAK Award, 1, 3; Phi Kappa Phi; Football Manager, 1, 2, 3, 4; T Club, 3, 4; Lieutenant, Navy R. O. T. C.

JACK BERNARD MURPHY, Newport, Rhode Island; Mechanical Engineering; Pi Tau Sigma, 3, 4; St. Patrick’s Council, 4; A. S. M. E., 2, 3, 4; Naval Activities Committee, 1; Math Club, 2, 3.

RICHARD DIXON NEAL, Columbus, Georgia; Textile Engineering; Sigma Chi; Tau Beta Pi; Phi Psi, 2, 3, 4; Scabbard and Blade, 3, 4; Glee Club, 1, 2, 3; Pershing Rifles, 1, 2; Activities Council, 3; A. A. T. C. C., 2, 3, 4; Colonel, Army R. O. T. C.; Dean’s List, 3, 4; Intramural Tennis Champion, 3.

ROBERT B. NELSON, Cartersville, Georgia; Industrial Management; Delta Tau Delta; Phi Eta Sigma; Phi Kappa Phi; Dean’s List, 3, 4; Scabbard and Blade, 3, 4; Kappa Kappa Psi, 2, 3, Treasurer, 4; Industrial Management Society, 3, 4; Marketing Club, 3, 4; Band, 1, 2, 3, 4; Management Club, 3, 4; Glee Club, 3, 4.

CLAUDE FOX NIX, JR., Arlington, Virginia; Industrial Engineering; Theta Chi; American Institute of Industrial Engineers; Captain, Air R. O. T. C.

WILLIAM ALBERT NOBLE, Smyrna, Georgia; Architecture; Bulldog Club, 3, 4; Secretary, 3, Vice-President, 4.

XAVIER OLIVO-AMOROS, Mexico; Aeronautical Engineering; Institute of Aeronautical Sciences.

JACK OGLESBY ORR, Atlanta, Georgia; Textile Engineering; Kappa Sigma, Vice-President, 4; A. A. T. C. C., President, 4.

FRANCIS JOSEPH OTTO, Ware, Massachusetts; Industrial Management; Industrial Management Society, Treasurer, 4; Newman Club, 1, 2, Secretary, 3, President, 4; Management Club, 3, 4; Yellow Jacket, 1; Technique, 2; Major, Air R. O. T. C.

CARLTON JAMES OWENS, Newnan, Georgia; Industrial Management; Kappa Sigma.

JOE ANSLEY PAGET, College Park, Georgia; Industrial Engineering; American Institute of Industrial Engineers, Secretary, 4.

WILLIAM LEONARD PARADICE, JR., Atlanta, Georgia; Industrial Engineering; St. Patrick's Council, 4; A. I. T. E., 3, President, 4; S. A. M., 4; Toastmasters Club, 4; Drama Tech, 4; Technique, Summer Editor, 3, Assistant News Editor, 4.

JOHN THOMAS PARKERSON, Decatur, Georgia; Industrial Management; Alpha Tau Omega; Bulldog Club, 3, Secretary, 4; Major, Army R. O. T. C.

CHARLES HOWARD PARR, LaGrange, Georgia; Mechanical Engineering; Cooperative Plan; Phi Kappa Sigma; Phi Eta Sigma; Philosophy Club.

JAMES R. PATRICK, JR., Atlanta, Georgia; Chemical Engineering; Independent Students Organization, Towers I, 8, O, Unit, Vice-President, 2; President, 3; I. S. O. Council, Secretary, 2; Vice-President, 3; Pi Delta Epsilon, 3, 4; Alpha Chi Sigma, Treasurer, 3, 4; Alpha Phi Omega, Secretary, 4; Camera Club, 1, 2, 3, 4; A. I. Ch. E., 3, 4; Bulldog Club, 3, 4; White and Gold Club, 3; Activities Council, 3; Blue Print, 1, 2.

EUGENE T. PATRONIS, JR., Quincy, Florida; Physics; Sigma Pi Sigma, 3, 4; Captain, Army R. O. T. C.

JACK DRAYTON PATTERSON, Kingsport, Tennessee; Industrial Management; Beta Theta Pi; Major, Air R. O. T. C.; Football, 2, 3, 4; Track, 2, 3.

JOSEPH A. PEACOCK, JR., Atlanta, Georgia; Architecture; Sigma Phi Epsilon; Marketing Club.
HUGH STEPHEN PEARSON, Jacksonville, Florida; Mechanical Engineering; Phi Gamma Delta, Treasurer, 3, President, 3.

HERMAN A. PEED, Macon, Georgia; Chemical Engineering, Cooperative Plan; Alpha Tau Omega; American Institute of Chemical Engineers.

JOSEPH THOMAS PEGRAM, Statesville, North Carolina; Architecture; Phi Eta Sigma; Tau Beta Pi; Technique, 1; Architectural Society; Student Concert and Lecture Committee, 3, Chairman, 4.

ANTHONY DANIEL PELLEGRINO, Bridgeport, Connecticut; Electrical Engineering; Newman Club, 3, 4; Drama Tech, 1, 2, 3, 4; Lieutenant, Air R.O.T.C.

DEWEY H. PENDLEY, Dalton, Georgia; Civil Engineering, Cooperative Plan; Tau Beta Pi; Ikarian Society; Phi Kappa Phi; Arnold Air Society, 3, 4; Scabbard and Blade, 4; Distinguished Military Student; 1st Lieutenant, Army R.O.T.C.

DAVID L. PERRY, Miami, Florida; Electrical Engineering; Sigma Chi; Phi Eta Sigma; Circle K Club, 3, 4; American Institute of Electrical Engineers, 4; Graduate Club, 4; Ensign, Navy R.O.T.C.

OWEN ERRETT PERRY, Atlanta, Georgia; Civil Engineering; American Society of Civil Engineers; Wesley Foundation.

LOUIS HENRY STAHL, Moultrie, Georgia; Civil Engineering, Cooperative Plan; Tau Beta Pi; Scabbard and Blade; Briaerean Society; Co-Op Club; A. S. C. E.; Lieutenant Colonel, Army R. O. T. C.; Phi Kappa Phi; Chi Epsilon.

ROBERT THOMAS STANCIL, Tate, Georgia; Aeronautical Engineering, Cooperative Plan; Theta Chi, Secretary, 4; Phi Eta Sigma; Briaerean Society, Vice President, 3; Tau Omega, 3, Treasurer, 4; Tau Beta Pi, Secretary, 4; Phi Kappa Phi; Glee Club, 1, 2, 3, 4; Flying Club, 1, 4; President, 2, Secretary, 3; I. A. S., 3, Treasurer, 4; Y. M. C. A. Cabinet, 1; Co-Op Club, 4.
PETER YORK STANTON, Great Neck, New York; Textile Engineering: Phi Kappa Sigma.

CULLEN GEORGE STARNES, McRae, Georgia; Industrial Management: Phi Delta Theta; Industrial Management Society. 

PASCAL HERBERT STEED, Fitzgerald, Georgia; Industrial Engineering.

JOHN STEINICHEN, III, Atlanta, Georgia; Civil Engineering, Cooperative Plan: Chi Epsilon, 3, 4; American Society of Civil Engineers, 2, 3, 4.

OSCAR BLACKNALL STEWART, JR., Decatur, Georgia; Civil Engineering; American Society of Civil Engineers; Society of American Military Engineers; First Lieutenant, Army R. O. T. C.

DAN DASHER STUBBS, Claxton, Georgia; Industrial Management.

JAMES DUNCAN STULTZ, Decatur, Georgia; Architecture; Delta Sigma Phi; Secretary, 3, Vice-Pres., 4; Schubert and Blake, 3, 4; Basketball Club, 3, 4; Architecture Society, 3, 4; Society of American Military Engineers, 2, 3, 4; Lieutenant Colonel, Army R. O. T. C.

GEORGE LACY SUTTON, Monroe, North Carolina; Physics, Cooperative Plan: Pi Kappa Phi; Tau Beta Pi; Sigma Pi Sigma; Pi Sigma; Phi Eta Sigma; Band, 1; Radio Club, 1, 2, 3; Camera Club, 3; 1, R. F., 1, 2, 3, 4; Physics Club, 3, Treasurer, 4; WTJY, 2, 3, President, 4; First Lieutenant, Air R. O. T. C.; Distinguished Military Student, 3; Phi Kappa Phi; Arnold Air Society, 4; Activities Council, 4.

FRANK TRACY SWEARINGEN, Winter Haven, Florida; Industrial Engineering; Alpha Tau Omega; Ensign, Navy R. O. T. C.

ULLMAN JENKINS SWINSON, Statesboro, Georgia; Civil Engineering; American Society of Civil Engineers; Swimming, 1.

ROBERT ANDREW TAIT, Chester, Virginia; Chemical Engineering, Cooperative Plan; Y. M. C. A., 1, 2; Secretary, 3; Co-Op Club, 2, 3, 4; Treasurer; 4; American Chemical Society, 1, 4; A. I. Ch. E., 3, 4; Camera Club, 2, 4; Alpha Phi Omega, 1; Technique, 2, 3, 4.

MOORE TAPPAN, JR., Helena, Arkansas; Industrial Engineering; Sigma Chi; Blue Print, 1; S. A. M., 3, 4; A. I. E. E., 4; Basketball, 1; St. Patrick's Council, 3.
F. W. B. TAYLOR, JR., Decatur, Georgia; Civil Engineering; Lambda Chi Alpha; American Society of Civil Engineers.

LARRY LOUIS TAYLOR, Louisville, Mississippi; Industrial Engineering; Kappa Alpha; Alpha Pi Mu; St. Patrick's Council.

ROBERT TECHO, New York, New York; Chemical Engineering; Alpha Chi Sigma, 2, 3, 4; Pi Delta Theta, 4; American Chemical Society, 2, 3, 4; Engineer, 2, 3, 4.

BILLY EUGENE TEEL, Columbus, Georgia; Electrical Engineering, Cooperative Plan; Lambda Chi Alpha; Eta Kappa Nu, 3, Vice-President, 4; Dean's List, 4; American Institute of Electrical Engineers, 3, 4; Captain, Army R. O. T. C.

GEORGES SPENCER THENAULT, St. Cloud (S&I) France; Mechanical Engineering; Sigma Alpha Epsilon; American Society of Mechanical Engineers.

CHARLES LOUIS THOMAS, JR., Atlanta, Georgia; Industrial Management; Sigma Alpha Epsilon; Second Lieutenant, Army R. O. T. C.

GEORGE HAROLD AYER THOMAS, Hapeville, Georgia; Industrial Management.

KENNETH REED THOMPSON, Alma, Georgia; Electrical Engineering, Cooperative Plan; Phi Kappa Tau, Treasurer, 3, Vice-President, 4; Eta Kappa Nu; Tau Beta Pi; Beta Eta Society, Treasurer, 4; Co-Op Club; A. I. E. E.

LEON FRANCES THOMSON, Soperton, Georgia; Industrial Management.

STANLEY EDWARD TISDALE, Jacksonville, Florida; Electrical Engineering, Cooperative Plan; Lambda Chi Alpha; Kappa Kappa Psi; Band, 1, 2, 3, 4; Camera Club, 4; Institute of Radio Engineers, 4; A. I. E. E., 3, 4; Radio Club, 4.

ROBERT HUMPHREY TOMLINSON, III, Atlanta, Georgia; Industrial Management; Theta Chi; Management Club, 3, 4; Activities Council, 3.

GERALD EDWIN TOWNSEND, Savannah, Georgia; Industrial Management; Theta Chi; Marketing Club; Management Club; Wrestling, 1, 2.
WILLIAM ALFRED TOWNSEND, Brunswick, Georgia; Civil Engineering; Phi Kappa Sigma; American Society of Civil Engineers.

L. BLAIR TREWHITT, Chattanooga, Tennessee; Industrial Management; Alpha Tau Omega, Vice-President, 4; Secretary, 2; WTYJ, 1, 2, 4; Management Club, 4; International Relations Club.

JOHN GRIFFIN THWEATT, JR., Forsyth, Georgia; Chemistry; Phi Lambda Upsilon, 3, 4; Phi Eta Sigma; American Chemical Society, 4; Technique, 1.

EMORY LLOYD UPSHAW, JR., Newnan, Georgia; Industrial Management; Major, Air R.O.T.C.; Tech Management Club, 4; Arnold Air Society, 4.

HARRY A. VANN, JR., Boston, Georgia; Architecture; Kappa Alpha; Yellow Jacket, 5.

WILLIAM RICHARD VAN PELT, JR., Rome, Georgia; Civil Engineering; Sigma Nu; American Society of Civil Engineers, 3, 5; Lieutenant, Army R.O.T.C.

JAMES IADISLAUS VARGA, Carteret, New Jersey; Aeronautical Engineering; Institute of Aeronautical Sciences, 4.

THOMAS MARTIN VARNSON, Pensacola, Florida; Industrial Engineering; Delta Tau Delta, Secretary, 3; Kappa Kappa Psi; Glee Club, 1, 2, Secretary, 3, Vice-President, 3, President, 4; Band: Major, Air R.O.T.C.

GEORGE PETER VASLOS, Flushing, New York; Aeronautical Engineering; Gym Team, 1, 2.

EDGAR DANIEL VAUGHAN, JR., Long Beach, Mississippi; Industrial Management; Sigma Alpha Epsilon, Secretary, 4.

EDGAR LEE VAUGHAN, Louisa, Virginia; Industrial Management; Sigma Phi Epsilon; Wesley Foundation; Toastmaster's Club.

JOHN LOUIS VIBBERTS, Atlanta, Georgia; Industrial Management; Delta Tau Delta.

WILLIAM ALFRED TOWNSEND, Brunswick, Georgia; Civil Engineering; Phi Kappa Sigma; American Society of Civil Engineers.

L. BLAIR TREWHITT, Chattanooga, Tennessee; Industrial Management; Alpha Tau Omega, Vice-President, 4; Secretary, 2; WTYJ, 1, 2, 4; Management Club, 4; International Relations Club.

JAMES IADISLAUS VARGA, Carteret, New Jersey; Aeronautical Engineering; Institute of Aeronautical Sciences, 4.

THOMAS MARTIN VARNSON, Pensacola, Florida; Industrial Engineering; Delta Tau Delta, Secretary, 3; Kappa Kappa Psi; Glee Club, 1, 2, Secretary, 3, Vice-President, 3, President, 4; Band: Major, Air R.O.T.C.

GEORGE PETER VASLOS, Flushing, New York; Aeronautical Engineering; Gym Team, 1, 2.

EDGAR DANIEL VAUGHAN, JR., Long Beach, Mississippi; Industrial Management; Sigma Alpha Epsilon, Secretary, 4.

EDGAR LEE VAUGHAN, Louisa, Virginia; Industrial Management; Sigma Phi Epsilon; Wesley Foundation; Toastmaster's Club.

JOHN LOUIS VIBBERTS, Atlanta, Georgia; Industrial Management; Delta Tau Delta.
JOHN EDWIN VINES, Bessemer, Alabama; Industrial Management; T Club, 3, 4; Football, 1, 2, 3, 4.

GEORGE VIVEIRDS, Fall River, Massachusetts; Civil Engineering; Theta Xi; American Society of Civil Engineers, 3, 4; Newman Club, 3, 4.

WILLIAM ERWIN VOSS, Columbia, Tennessee; Chemical Engineering, Cooperative Plan; American Institute of Chemical Engineers; Lieutenant, Air R. O. T. C.

ROBERT CARY WADE, Hampton, Virginia; Chemical Engineering; American Chemical Society, 3, 4; American Institute of Chemical Engineers, 3; Arnold Air Society, 4; Lieutenant, Air R. O. T. C.

HOWELL C. WALKER, JR., Dublin, Georgia; Textile Engineering, Cooperative Plan; Sigma Chi, President, 3; Bulldog Club, 3; American Association of Textile Colorists and Chemists; Track, 1; Baseball, 3.

MAX CARLISLE WALKER, Atlanta, Georgia; Industrial Engineering.

SIDNEY M. WALKER, New York, New York; Architecture.

CLARENCE WATSON WALL, College Park, Georgia; Textile Engineering; Sigma Chi, Treasurer, 3; Phi Delta Epsilon, 3; Vice-President, 4; Glee Club, 1, 2, 3, 4; Activities Council, 1, 4; A. A. T. C. C.; Technique, 2; Yellow Jacket, 2; Associate Editor, 3; Pi Delta Epsilon Staff Award, 3.

JOSEPH HANSON WALL, Ellerton, Georgia; Industrial Engineering; L.S.O., Vice-President, 3; American Institute of Industrial Engineers; Society for Advancement of Management; Rifle Team, 2, 3; Lieutenant, Army R. O. T. C.

MERT WALLEN, Phoenix, Arizona; Architecture; Tau Epsilon Phi; World Student Fund, 3, 4; Secretary, 4; Bulldog Club, President, 3, 4; L. F. C., 3, 4; Technique, 1, 2; Cross Country, 1, 2; Track, 1, 2.

EDMUND ARNOLD WALLER, Atlanta, Georgia; Industrial Management; Delta Tau Delta; Blue Print, 1, 2; Baseball, 2, 3, 4; Wesley Foundation, 1, 2; American Chemical Society, 2; T Club, 4; Management Club, 4.

ALLEN BURSON WALLS, Hogansville, Georgia; Electrical Engineering; Phi Eta Sigma; Eta Kappa Nu, 3, 4; Tau Beta Pi; International Relations Club, 3; I. R. E., 3, 4; A. I. E. E., 3, 4.
EDWARD FORREST WARD, Miami Shores, Florida; Chemical Engineering; Delta Sigma Phi, Secretary, 2; Vice-President, 3; President, 4; Phi Eta Sigma, Vice-President, 1; Phi Lambda Upsilon, 3, 4; Tau Beta Pi; American Chemical Society, 2, 3, 4; A. I. Ch., E., 3, 4; Alpha Chi Sigma, 2, 3, 4; St. Patrick's Council, 3, 4; Math Club, 1; Pershing Rifles, 1, 2; Technique, 1; Distinguished Military Student; Captain, Army R. O. T. C.; Dean's List, 3, 4.

JOHN R. WARREN, Atlanta, Georgia; Electrical Engineering; American Institute of Electrical Engineers.

WALTER BRUCE WARREN, JR., Durham, North Carolina; Electrical Engineering; Pi Kappa Alpha, Treasurer, 3, President, 4; Phi Kappa Nu, 2, 3, 4; International Relations Club, 1, 2, 3; Tau Beta Pi; Phi Kappa Phi.

JAMES F. WATSON, Atlanta, Georgia; Industrial Management; Phi Delta Theta, Treasurer, 3, President, 4; Dean's List, 3, 4; Koseme, 4; Pi Delta Epsilon, 4; Scabbard and Blade, 4; I. E. C., Treasurer, 4; Industrial Management Society, Vice-President, 4; Yellow Jacket, Advertising Manager, 3; Business Manager, 4; Swimming Team, 1, 2; Lieutenant Colonel, Air Force R. O. T. C.; Who's Who in American Universities and Colleges; ANAK.

JOHNNY THOMAS WATTERS, Savannah, Georgia; Mechanical Engineering; Pi Tau Sigma, 3, 4; Dean's List.

SUMNER L. WAYNE, Brookline, Massachusetts; Mechanical Engineering; Alpha Epsilon Pi; American Society of Mechanical Engineers; Rifle Team; Technique; Major, Air R. O. T. C.

IKE BRANTLEY WEATHERS, JR., Atlanta, Georgia; Architecture.

PAUL LESLIE WEBB, Leary, Georgia; Electrical Engineering; American Institute of Electrical Engineers, 3, 4; Institute of Radio Engineers, 4.

JAMES WEI, Shanghai, China; Chemical Engineering; Alpha Chi Sigma; Phi Kappa Phi; Tau Beta Pi; Phi Lambda Upsilon; Dean's List 2, 3, 4; Chinese Club; A. I. Ch., E.; American Chemical Society.

CLARENCE ERNEST WEIGOLD, JR., Jamaica, New York; Architecture; Newman Club, 1, 2, 3, 4; Architectural Society, 4.

JOHN LEE WELLS, Tillman, South Carolina; Industrial Management.

CHARLES NEIL WELSCH, San Antonio, Texas; Civil Engineering; Sigma Chi; Scabbard and Blade; Society of American Military Engineers; American Society of Civil Engineers; I. E. C.; Captain, Army R. O. T. C.
WILLARD LEE WENDT, Rome, Georgia; Industrial Engineering; Theta Chi; American Institute of Industrial Engineers; Society for Advancement of Management.

WILLIAM HENRY WHATLEY, Reynolds, Georgia; Architecture; Sigma Chi.

HARRY ANTHONY WHEELER, Bronx, New York; Electrical Engineering; Theta Xi, President, 4; Eta Kappa Nu, 3, 4; Tau Beta Pi; Bulldog Club, 3; A. I. E. E., 1, 2, 3, 4; Phi Kappa Phi; First Lieutenant, Army R. O. T. C.

JAMES EMERSON WHITE, Macon, Georgia; Mechanical Engineering; Sigma Alpha Epsilon; Eta Kappa Nu; Student Council; Debate Club, President, 4; Dean’s List, 2, 3, 4; Student Trial Board; Who’s Who Among Students in American Universities and Colleges; Air Force Rifle Team; Major, Air R. O. T. C.

JERRY ANDREW WHITE, Winder, Georgia; Civil Engineering; Delta Tau Delta; American Society of Civil Engineers.

RALPH ALVIN WIDELL, West Palm Beach, Florida; Electrical Engineering; Alpha Tau Omega; Eta Kappa Nu.

JOHN THOMAS WILEY, Pine Lake, Georgia; Industrial Management; Scabbard and Blade; Society of American Military Engineers; Industrial Management Society; Management Club; Captain, Army R. O. T. C.

ABBOTT GRIFFIN WILLIAMS, Birmingham, Alabama; Chemical Engineering; Alpha Tau Omega; Alpha Chi Sigma, 2, 3, 4; Math Club, 2, 3, 4; American Chemical Society, 3, 4; American Institute of Chemical Engineers, 3, 4.

JOHN BLAIR WILLIAMS, Wichita, Kansas; Mechanical Engineering; Beta Theta Pi, Secretary, 3, 4; American Society of Mechanical Engineers, 4; Engineer, 2.

MACK LEMUEL WILLIAMS, Waycross, Georgia; Chemical Engineering; Independent Students Organization; Burge Club, 3, President, 4.

TED WILLIAMS, Atlanta, Georgia; Electrical Engineering.

TROY WILLIAMSON, Jr., Williamson, West Virginia; Industrial Management; Yellow Jacket, 2.
JOHN THOMAS WILLS, Scranton, Pennsylvania; Industrial Management; Independent Students Organization; Newman Club, 1, 2; Treasurer, 3, Vice-President, 4; S.A.M.E., 3, 4; Management Club, 3, 4; Marketing Club, 3, 4; Lieutenant, Army R.O.T.C.; Football, 1, 2, 3, 4.

ROBERT DAVID WILROY, Dallas, Texas; Civil Engineering; Sigma Tau, 3; Treasurer, 4; American Society of Civil Engineers, 2, Secretary, 3, 4.

RANDOLPH KENT WILSON, Savannah, Georgia; Industrial Management; Sigma Nu; Industrial Management Society, 4; Camera Club, 2, 3, 4; Marketing Club, 3, 4; Management Club, 4.

WILLIAM SAMONS WILSON, Fulton, Kentucky; Civil Engineering; Delta Tau Delta; Chi Epsilon; Pi Delta Epsilon, 3, 4; S.A.M.E., 4; Treasurer, 3, 4; A.I.Ch.E., 3, 4; Blue Print, 1; Fraternity Editor, 2.

HUGH POWELL WISE, East Point, Georgia; Industrial Management; Marketing Club, 4; Tennis, 1.

WILLIAM K. T. WONG, Hong Kong, China; Architecture; Chinese Student Club; Wesley Foundation.

HOWARD WEI-SUN WOO, Savannah, Georgia; Civil Engineering; Cooperative Plan; Independent Students Organization; Chinese Club, 1, 2; Secretary, 3, President, 4; Blue Print; American Society of Civil Engineers; 1st Lieutenant, Army R. O. T. C.; Chi Epsilon; President's Club, 4.

FREDDIE HAAS WOOD, JR., Milledgeville, Georgia; Textile Engineering; Alpha Tau Omega, Vice-President, 3, President, 4; Tau Beta Pi; Phi Psi, 3, 4; Dean's List, 3, 4.

JOHN HENRY WOODY, JR., Chattanooga, Tennessee; Chemical Engineering; Sigma Chi, Treasurer, 3, President, 4; Phi Eta Sigma; A.I.Ch.E., 3, 4; American Chemical Society, 3, 4; Blue Print, 1.

CARL EDWARD WOODYEAR, North Little Rock, Arkansas; Electrical Engineering; Independent Students Organization; American Institute of Electrical Engineers, 3, 4; Toastmasters Club, 4.

JAMIE THOMAS WRIGHT, Columbus, Georgia; Industrial Engineering; Tau Beta Pi; Alpha Pi Mu, 3, 4; Glee Club, 2; Captain, Army R.O.T.C.

PAUL W. WRIGHT, Genoa, Nebraska; Electrical Engineering; American Institute of Electrical Engineers.

JAMES E. WHITE
President, Debating Club
Student Council
WHO'S WHO

SENIOR CLASS
WALTER LOUIS WRIGHT, Lubbock, Texas; Industrial Management.

WILLIAM RALPH WRIGHT, Atlanta, Georgia; Chemical Engineering.

JEROME HOWARD WYATT, New York, New York; Industrial Management.

DANIEL JACKSON WYLIE, Vestal, Kansas; Industrial Management.

CARLOS LEE YGARTUA, Homestead, Florida; Industrial Management: Lambda Chi Alpha; White and Gold Club, 1, 2, 3, 4; Drama Tech, 1, 2; Baseball, 3.

CLYDE A. YOUNG, JR., Dawson, Georgia; Industrial Management; Dean's List; Football, 1, 2, 3, 4; Baseball, 3, 4.

ERNEST N. YOUNG, JR, East Point, Georgia; Textile Engineering; Tau Beta Pi; Delta Kappa Epsilon.

JOE BERNARD YOUNG, Valdosta, Georgia; Industrial Management; Phi Delta Theta; Technique, 3, 4.

RAY CURTIS YOUNG, Birmingh, Tennessee; Textile Engineering; Independent Students Organization; Phi Eta, 3, 4; American Association of Textile Chemists and Colorists, 3, 4.

RALPH A. YOUNGBLOOD, JR., Pooler, Georgia; Electrical Engineering; Theta Chi, President, 4; American Institute of Electrical Engineers, 3; Geechee Club, 2, 3; First Lieutenant, Army ROTC.

EMILIO MANUEL ZORRILLA-VAZQUEZ, Mexico City, Mexico; Industrial Engineering; Tau Kappa Epsilon; Delta Pi Mu, Treasurer, 4; American Institute of Industrial Engineers, 2, 3, 4; Philosophical Society, 3, Treasurer, 4; Sigma Y Phi Epsilon Club, 3, 4.

ULRICH ZWEIG, Cologne, Germany; Industrial Management.
JOSEPH SAMS BOND, Decatur, Georgia; Alpha Tau Omega; Pershing Rifles, 1; President, 2; Scabbard and Blade, 3; President, 4; I. E. C., 1, 2, 3; Architectural Society, 4; Blue Print, 1, 2, 3; Lieutenant Colonel, Army R. O. T. C.; Distinguished Military Student.

ALBERT CARL BREVETTI, Brooklyn, New York; Newman Club, 1, 2, 3, 4, 5; Architectural Society, 4, 5; American Society of Civil Engineers, 3, 4, 5.

CHARLES RAY GARDNER, Jackson, Mississippi; Kappa Alpha, Secretary, 3; President, 4; American Society of Civil Engineers; Blue Print, 1, 2; Architectural Society.

HARRY WILSON HOWELL, Sevierville, Tennessee; Sigma Alpha Epsilon, Secretary, 4; Tau Beta Pi; Phi Kappa Phi; Architectural Society.
WILLIAM NASON HOYER, Fort Lauderdale, Florida: Sigma Phi Epsilon, Secretary, 3; Kappa Kappa Psi, 3, 4; Architectural Society, 3, 4, 5; I. F. C., 3, 4; Band, 1, 2, 3, 4; Lieutenant, Army R. O. T. C.

DAN TERRELL HUGHES, Gainesville, Georgia: Beta Theta Pi, Vice-President, 3; Kappa Kappa Psi, 3, 4; Architectural Society.

HENRY GUY JENKINS, JR., Atlanta, Georgia: Architectural Society, 3, 4, 5.

VERNON ELLSWORTH JOHNSON, Atlanta, Georgia: Phi Eta Sigma, Treasurer; Phi Kappa Phi, 3; Tau Beta Pi; Architectural Society, 3, President, 4.

GEORGE CARL LUNDGUST, Kenmore, New York; St. Patrick's Council, 1, 4; Architectural Society, 3, 4, 5; Wesley Foundation, 1, 2, 3, 4; Y. M. C. A. Cabinet, 2, 3.

CARL EMIL MATTHEIS, JR., Biloxi, Mississippi; Tau Beta Pi; Phi Kappa Phi; Architectural Society, 3, 4, Vice-President, 5.

ROY MICHAEL SIMON, Delray Beach, Florida: Sigma Phi Epsilon, Secretary, 4; Pi Delta Epsilon, 4, 5; Alpha Phi Omega, 3, 5, Secretary, 4; I. F. C., 3; S. A. M. E., 4; Blue Print, 3, 4; Second Lieutenant, Air R. O. T. C.; Yellow Jacket, 5; Architectural Society, 5.

PRESTON STANDISH STEVENS, JR., Atlanta, Georgia: Chi Phi; Architectural Society, 3, 4, President, 5; Toastmasters' Club, Secretary, 4, President, 5; Pershing Rifles, 1, 2.

HARVEY GENE STRONG, Memphis, Tennessee: Tau Beta Pi; Phi Kappa Phi; Architectural Society, 3, 4, 5.

FREDERICK RICHARD SUCHKE, Atlanta, Georgia: Architectural Society, 4, 5.

GLEN MEREDITH SWIGEGOOD, Dothan, Alabama: Towers I. S. O.; I. S. O. Council, Vice-President, 4; Kappa Kappa Psi, 2, 3, President, 4; Scabbard and Blade, 4; R. S. U., 1, 3, 4; Secretary, 2, President, 5; Band, 1, 2, 3, 4; Architectural Society, 2, 3, 4, 5; Arnold Air Society, 3, 4; W. T. Y. J., 4, 5; Lieutenant Colonel, Air Force R. O. T. C.

Membership in the National Society of Scabbard and Blade is the aspiration of every cadet officer of the Army, Navy, and Air Force Cadet Corps. It is a military honor society whose purpose is recognition of men exhibiting outstanding character and leadership abilities as well as being outstanding in scholastic work.

The principal aim of the organization is to promote a feeling of unity among the military leaders and to maintain a high standard in the military activities of the Corps.
MEMBERS

WADE, R. C.

The Arnold Air Society is one of the youngest of college honor societies. The members of this society are selected from Air Force R.O.T.C. advanced students with at least a "B" average in military and who show outstanding interests and abilities as Air R.O.T.C. cadets. The organization is designed in purpose to promote closer and more efficient relations among students of the Air Force R.O.T.C. program.

ARNOLD AIR SOCIETY
This is the second year of existence for the Activities Committee as a campus organization, but the "Committee" has long been serving the unit and the N. R. O. T. C. students at Georgia Tech.

Membership in the Committee is comprised of four midshipmen from each of the four classes who are chosen in a general election to represent their particular year.

Unofficially, the Activities Committee provides all the social functions for the unit, and conducts and guides the unit's extracurricular activities, at the same time acting as the unit's student council.

Pershing Rifles is a fancy drill team which is a national society of the college Army R. O. T. C. units throughout the nation. All members of the organization have joined of their own free will and have met the standards and qualifications of good citizenship and discipline as set forth by the founder, John J. Pershing. Pershing Rifles, wearing their white leggings, white gloves, and white helmets, represent Georgia Tech and the Army R. O. T. C. in drills and competitions.

The Midshipmen turn socialites at fall dance.
UNDER SPORTS, bordered in Tech's gold color, we present with great pride Tech's fine varsity teams, especially our Sugar Bowl and SEC football champs... plus some unposed and unrehearsed shots of the intramural program...
The Georgia Tech Athletic Association, headed by Coach Robert L. Dodd, has more than kept pace with the mushrooming sports world. The intensive and aggressive policy of the A.A. has paid dividends in the success of the various Tech varsity squads. Georgia Tech has consistently led the Southeastern Conference in scheduling powerhouse teams from far sections of the country.
varsity sports

HAL AND GEORGE PERFORM PRE-GAME DUTIES.
FOOTBALL COACHES

Under the master exponent of the terrific "T" can be found one of the most able coaching staffs in the country. Yearly, they achieve greater popularity with the fans as well as with the players. Their thorough knowledge of their particular phase of the game and their keen sense of value for any innovation, novel, and deceptive, has been invaluable help for Head Coach Bobby Dodd.

As Head Coach and Athletic Director, Coach Dodd was instrumental in making the Jacket's offensive one of the most colorful and successful in the country. Much of the success of this year's squad can be attributed to the optimistic spirit.

Assistant Athletic Director, Arthur M. (Tonto) Coleman, works on the coaching staff in the capacity of Defensive End Coach. "Tonto" came to Tech from the University of Florida in January, 1952.

Ray Graves, Assistant Coach, as star center at the University of Tennessee and later for the Philadelphia Eagles, was named Head Line Coach at Georgia Tech in January, 1947. At Tech he has developed some of the nation's outstanding college linemen.

Holding down the position of Backfield Coach is Frank Broyles. Coach Broyles, a former all-round Georgia Tech great, joined the coaching staff after the 1950 season.

Assisting in the line coaching was Coach Whitey Urban. Before coming to Tech he was Head Football Coach at Sewanee Military Academy. Coach Urban is a graduate of the University of Chattanooga.

Facing several of the outstanding passers in the nation, Tech's pass defense, under the direction of Assistant Backfield Coach Lewis Woodruff, was tried and proven many times.

End Coach Melvin (Sam) Lyle joined the Jackets staff as End Coach in the summer of 1951. Prior to his duties here he was a star end and Assistant Coach at L. S. U.

The Head B Team Coach is Bob Bossons. Bob finished a colorful career at Tech in 1950, and then joined the Jacket Coaching Staff.

H. B. (Bo) Hagan joined the Coaching Staff in September, 1951. He came from the University of South Carolina and is now head Freshman Coach.

Robert N. (Bob) Miller has been coaching at Tech since 1941. Besides his work with the B team, Coach Miller has been the Wrestling Coach.

Aside from his duties as Baseball Coach, J. H. (Joe) Pittard is Assistant B Team Coach. Coach Pittard has been with Tech since 1943.

A man deserving much credit is Henry "Buck" Andel, the trainer. "Buck" is one of the best in the business. He was appointed to the position of trainer in July, 1948.
CO-CAPTAINS
1952

HAL MILLER
GEORGE MORRIS

George Morris and Hal Miller speak at the Duke bonfire.
ATLANTA, September 20—Glory bound Tech popped the cork on a fresh magnum of championship football at Grant Field Saturday afternoon, and the fizz could be heard from coast to coast. In what amounted to nothing more than mental calisthenics, the Yellow Jackets scored every way possible and flexed their nationally known muscles at will while disposing of Citadel, a Southern Conference school afflicted with permanent deemphasis, 54-6.

The Jackets compiled seven TD’s, seven PAT’s, a safety, and a field goal as they pounded it on the Citadel Bulldogs in their highest scoring game since they last played the Citadel back in 1948.

With Brigman from the quarterback slot handing off to Teas, Ruffin, and Hardeman, the Jackets raced up and down the field at will scoring touchdowns by the minute. Retiring at the end of the first quarter the first team left an impressive 28-0 score.

Bill Teas returned the opening kick-off to the Tech 31, and seven plays later Larry Ruffin scored on a well-executed 32-yard shake down. Pepper Rodgers added the first of seven PATS. Granite-like defensive play forced the ‘Dogs to punt shortly after they received the kick-off, but Teas and ten blocking ‘Recks escorted the ball all the way back to make Citadel wonder if punting was such a good idea in this game. Rodgers made the score 14-0 after five minutes of play.

Citadel fumbled the next kick-off and Tech recovered on the twenty-two. A Brigman-Martin pass gained eighteen yards, fullback Glenn Turner went two more, and then Leon Hardeman scored. Rodgers added another and after six and a half minutes, 21-0; simple as that.

Another kick-off, three running plays which lost 19 yards, fullback Glenn Turner went two more, and then Leon Hardeman scored. Rodgers added another and after six and a half minutes, 21-0; simple as that.

Another kick-off, three running plays which lost 19 yards, fullback Glenn Turner went two more, and then Leon Hardeman scored. Rodgers added another and after six and a half minutes, 21-0; simple as that.

At this point the first team found themselves a place on the benches and the junior members took over. “Skin” Edge passed but it was intercepted at the Tech 35 and the Bulldogs went on to score; from this point on the subs regained the upper hand and added 26 more points.

Anyone who saved a copy of the daily newspaper of January 2, 1952, may find the story of Georgia Tech's 17-14 victory over the University of Florida at Grant Field. As the shadows crept across the turf, Franklin (Automatic) Rodgers kicked a field goal that broke a 14-14 tie with six minutes left on the clock and sent 32,000 people home limp in relief.

The third time the Gators got the ball after the kickoff, they moved 53 yards in eight plays to score. Burford Long struck off tackle from 5 yards out and Dave Hurse, the barefoot kicker, came out with one shoe and his pink toes gleaming to convert and take a 7-0 lead.

This was a kick in the pants for the Engineers as they took the kickoff to move 70 yards in 11 snaps to tie. Big moves were passes from Brigman to Martin for 23 and 19. The Yellow Jackets were at the Florida 10 as the quarter ended. On the second play Brigman hung one in the end zone that Martin took in stride near the corner. Rodgers, wearing shoes on each foot, converted to tie, 7-7.

A Tech fumble set up Florida's big scoring play. Jay (Poppa) Hall, darted inside tackle, reversed his field, and outran Tech tacklers to go 64 yards to goal. The "Barefoot Boy" converted and the Gators led 14-7.

Opening the final quarter, a 19 yard pass to Martin and a first down punched out by Hardeman and Ruffin brought the Engineers within striking distance. Brigman twirled one into the end zone which Knox caught and scored. Rodgers coolly tied it.

Late in the final quarter Ruffin and Hardeman again worked the ball down into enemy territory where Rodgers went into his act and the game was gift wrapped.

DALLAS, October 4—Halfbacks Leon Hardeman and Bill Teas led the Tech Yellow Jackets to a smashing 20-7 victory over the Southern Methodist Mustangs, as once again the hard hitting offense and push ‘em back line of Georgia Tech warned the opposition the way the train was going and told them to get off the track.

The Engineers drew "first blood" late in the initial period when quarterback Bill Brigman handed off to Hardeman who crashed into the end zone. Rodgers missed his first PAT of the season.

On the first play after the kick-off, Charlie Branch intercepted a deflected pass and the Jackets were in command on their own 45-yard line. Teas climaxed the 52-yard drive on the first play of the second quarter by scampering into the end zone. Rodgers came in to make the scoreboard read Tech 13, SMU 0.

Tech again gained possession of the pigskin on the first play following the kick-off. George Morris stole the ball after a hand-off at SMU's 24 and ran the ball back to the 19. The Jackets couldn't gain and Glenn Turner tried a field goal that fell short.

The Mustangs drove to the Tech 15 following the kick-off, but the Jacket defense stiffened and the ball went over on downs. The Jackets marched downfield to the 7-yard line where Teas streaked across the double stripes. Rodgers converted and SMU was trailing 20-0.

As the third quarter ended the Mustangs, with a confusing series of pass patterns, got a drive started. Don Pace took over and culminated the drive with SMU's only score.

**TECH—20**

SMU—7

**TOP:** Where did that thing go?

**BOTTOM:** Martin, Miller, and Brown pave way for Teas.
ATLANTA, October 11—Georgia Tech, breathing hard, picked up the top of a 14-0 score late on a dark afternoon at Grant Field after a prodigious football battle with Tulane that kept 30,000 people glued to their seats until the last 20 seconds of play.

In the opening quarter of the game the Engineers took possession of the ball and marched from their own 15 yard line, but were stopped 29 yards from the goal line. The Tech backs ate up the yardage, but when the shadow of the uprights came into sight, the big Tulane line dug in and held the Ramblin’ Recks. Tulane could not get their offenses clicking and after a series of downs they were forced to punt. Several times Tech marched deep into Greenie territory but lacked the scoring punch.

In the waning minutes of the first half, Jakie Rudolph intercepted a pass by Tulane’s Pete Clement and the Jackets took possession of the ball on their own 46 yard line. From there the sensational passing of Bill Brigman brought Tech to pay dirt. Brigman first hit Bill Teas, who carried to the 35. Another pass into the arms of Buck Martin spelled touchdown for the Yellow Jackets and Tech led 6-0. Rogers converted and Tech left the field leading 7-0.

The third quarter seesawed but was featured with a 34 yard run by Hardeman. The final score came when McGee fumbled the ball momentarily when he was attempting to kick and was forced to run. He did not make enough for a first down and the Jackets took over deep in the Green Wave's territory, Bill Teas took the first play from scrimmage and bulled his way down to the 24 yard line. Hardeman then picked up two and Teas was stopped on third down cold at the line. Brigman pulled his fourth down pass to Martin, again by a classy fake and with less than a minute to go, Hardeman hammered for six and again for three. Johnson, subbing for Turner, pushed over and Rodgers converted with 20 seconds left in the game.

ATLANTA, October 18.—The Yellow Jackets rolled to their nineteenth game without a defeat by overpowering a gallant Auburn eleven 33-0. The highly spirited Auburn eleven put up a stubborn resistance the first half, but as the second half wore on, the powerful Golden Tornado quenched what little fire there was left in the Tigers. The Engineers could account for but one touchdown the first half, but tallied for two in the third quarter and two in the fourth quarter.

The power that was displayed came primarily from the Engineers' defensive team which scored two touchdowns and set up another by jolting tackling and alert recovery of fumbles. Some indication of the rugged line play is shown by the fact that Auburn bumbled no less than six times. Heading the Jacket defense was Bobby Moorhead, defensive halfback, who stole two passes from Auburn's Dudley Spence and returned them both for touchdowns. Another outstanding figure in the defensive rampage was Tech's co-captain George Morris, who grabbed an Auburn fumble on their own five yard line to set the stage for a Jacket score by Bill Teas a few plays later. Twice when the pressure was on, the defensive unit was called upon to stop sustained Auburn drives, one ending at the Tech two yard line and the other at the Tech eighteen.

Aside from his usual duties of taking care of the PAT, Pepper Rodgers got his first serious workout as a field general. Along with his excellent ball handling and signal calling, Rodgers displayed his ability as a passer with nine attempts for five completions, one of these being good for a touchdown. Also the game marked the debut of the Jackets' split-T hopeful, freshman quarterback Jack Hall.

In the latter part of the game, men in clean white jerseys came out from the Tech bench and went to work on a tired Auburn team. It was this group that scored the final touchdown for the Yellow Jackets.

ATLANTA, Ga., November 25.—Big game hunter Bobby Dodd strung up another football carcass in Georgia Tech's smokehouse. The gold and black of Vanderbilt University was killed and skinned to the tune of 30-0 before a 37,000 homecoming day crowd.

The scoring didn't get started until the second period when Leon Hardeman, on the second play of the period, took a hand off from quarterback Bill Brigman. He burst into the clear with only nominal resistance, ran into an enemy pocket at the 10, but lowered his head, butted the Commodores out of the way and rammed the ball home for a 41 yard run. Andy Novak blocked Pepper Rodgers' only foiled-up conversion of the afternoon.

The second half opened with Dave Redford kicking off for the Jackets. On the first play from scrimmage Bill Krietemeyer, the sensational Commodore freshman quarterback, fumbled the pigskin on the Vandy 9 yard line. Roger Frey, Tech's big defensive right guard, pounced on the ball and Tech took possession with first down and goal to go. In two plays Hardeman carried the ball down to the two; Bill Teas then swept around end for the Engineer's second score of the game. Rodgers' second conversion try was good and Tech led 13-0.

The last quarter saw Tech marking off yardage as though they owned it. Hardeman ran off tackle from the two for the third marker and his second of the day. Jimmy Johnson bucked three yards for the last touchdown and Glenn Turner added three more points by kicking a 26 yard field goal. When the final whistle blew Tech had a 30-0 lead.
DURHAM, November 1.—Georgia Tech's devastating ground attack and a superior defense crushed unbeaten Duke 28 to 7 in the game of the nation before a spirit filled crowd of 45,000.

From the minute the first foot sank into the ball Tech's offense was on the move. The first score came early in the first period when after receiving a punt on their 22 yard line, Tech drove 78 hard fought yards for the initial TD. This drive showed the glowing performances of Hardeman, Teas, and Turner as they, led by a powerful line, made three first downs on this march to the goal and victory.

Big Bob Sherman cleared his way through the line, took a mighty leap, and blocked a kick which Cecil Trainer fell on at the Duke 19. Tech's very effective offense took over again and flattened out the Devils' defense with Glenn Turner going over for the second touchdown. The green and white lights now read Tech 14, Duke 0.

Tech's roving plainsman, Leon Hardeman, scored from the 1 yard line after the offense had fought their way 90 yards to get there. Starting from Tech's 10 yard line, Bobby Moorhead made a 37 yard run back of a punt to start the drive. Tech's final touchdown in the second half was on a pass from Brigman to Jeff Knox, offensive end.

Quarterback Bill Brigman's cool, calm, calculating mind cleverly mixed offensive plays and traveled on the ground as the 'Recks blasted out a 21-0 lead at the close of the first half.

Charlie Smith scored from the five for Duke after a brilliant second half comeback drive. Their hopes of making a game out of it were wiped out by interceptions by Moorhead and Hunt. Late in the game Sam Hensley knifed through and another punt to practically give Tech its final score.

ATLANTA, November 8.—The old Army Mule took one of its worst defeats in a little over a decade as the Yellow Jackets rolled to a 45-6 victory over the cadets from the United States Military Academy.

The highlight of the game was an 80 yard punt by Dave Davis which set up Tech's first touchdown by Leon Hardeman. It was during the first quarter that Army quick-kicked and put the Jackets back on their own eleven. At this time Mr. Dave "Toe" Davis entered the game and proceeded to boot the ball while standing in his own end zone to the Army six-inch-line. The Cadets didn't ever fully recover from this maneuver and after the exchange of punts, Hardeman took the ball over for the score.

Before the final gun was sounded the Jackets had managed to push over a total of six touchdowns to Army's lone tally. It seemed as if once the Engineers' steam roller got started, it just rolled and rolled.

One low point in the game for the Techmen was the loss of Leon Hardeman early in the first half with a sprained ankle. A preliminary examination of the injury indicated that Leon would be out for quite a while.

ATLANTA, November 15.—Toward sundown on a beautiful day for football, Tech walked out the winner, and still champion over a much proven and extremely dangerous Alabama team, 7-3.

On the very first play from scrimmage, Bill Teas took the ball and ran swinging and swaying forty yards down the field. This opening Tech drive was cooled down by the fine Alabama defense, which rushed in and threw Brigman for a loss on the next two straight plays. The ball changed on downs and 'Bama punted. Brigman attempted a pass from his own 35 which was intercepted and run back to the Tech 30 by Alabama's Marcus. Tech's defense kept the Crimson Tide from scoring a TD. Bobby Luna kicked a 15 yard field goal to put Alabama out in front 3-0 after 10 minutes of play. Perhaps the greatest defensive show at Grant Field this year was the result of a Tech fumble. Ralph Carrigan recovered the fumble on Tech's 21 and Tommy Lewis sparked a ground drive which stopped at the Tech four. Tech tried and failed and then Davis kicked for the first time of the afternoon moving the ball through the air 64 yards.

Alabama couldn't gain ground either, so Wilson did the punting on the fourth down. Then the Tech offense sprang into action and got the ball down to the 'Bama 18 before losing the ball on downs. Alabama fumbled and Morris recovered on the Crimson Tide's 28 to give the Jackets their first big break. This was followed by a 15 yard roughing penalty against Alabama, which put the ball on the 9 yard line. Rodgers, in the quarterback slot, handed the ball off to Dick Pretz who scored Tech's only touchdown of the afternoon. Rodgers added the extra point to complete the afternoon's scoring. Another Tech drive failed at the 'Bama 18 with only 2 minutes and 50 seconds left in the half.

In the fourth quarter Tech fumbled and the ball was recovered by Alabama. This was the most spirited drive of the day by 'Bama, but Tech's second great goal-line stand of the day stopped the Alabama team on Tech's 14 yard line.

ATLANTA, November 22.—Tech unleashed her furious offense Saturday afternoon which began with Glenn Turner crashing into the end zone only ten minutes after the starting whistle. The Jackets, before 25,000 fans, pounded out a 30-0 victory over the winless Florida State Seminoles.

Florida State started the game like a bunch of wild Indians but Tech’s defensive stalwarts finally got themselves together and took possession on the 36 after a fourth down pass attempt by F.S.U.

Tech’s offense came on the field and in nine quick plays traveled 65 yards with Turner making the first six points. Rodgers booted the ball over the bar to give Tech a 7-0 lead.

Tayler of Florida State carried the ball, after a 15 yard penalty had set F.S.U. back to the 34, only to fumble on the 20 yard line and Thaden recovered. Tech offense, now rolling, added another six points in two plays.

In the next quarter Tech scored a safety when the snap from center went over Dobosz’s head. Sam Hensley was credited with the two points.

After a very spectacular half-time show the Tech first-stringers came back into the game and moved for a TD without giving up the ball. Bobby Gilliland and Dick Pretz, working together, scored the tally. Rodgers’ kick was good and tied a Southeastern Conference record of 17 consecutive extra points.

Tech’s final touchdown came on a 54 yard gallop by line busting Turner the next time Tech took possession of the pigskin. Pepper Rodgers kicked for the fourth time true and set a new SEC record in doing so.
"Robert Lee Dodd's finest hour was fashioned in four 15-minute periods under gray skies on Sanford Field."

Ed Danforth

"Georgia Tech suffered the fright of its recent unbeaten football life this bleak Saturday afternoon in Sanford Stadium, but before the annual family argument with Georgia was done, the Jackets had turned up enough defensive points for a 23-9 victory and sole possession of the 1952 Southeastern Conference Championship."

Furman Bisher

"Bobby Dodd's Georgia Tech Yellow Jackets proved themselves great champions Saturday as they got up off the floor after being outplayed in the first half by a fighting and well-prepared gang of Georgia Bulldogs."

Harry Mehre

"Tech won like champions. They had to win that way."

Ed Danforth

ROGER FREY  SKIN EDGE  DICK BEARD  JOHNNY HUNSGER
FOOTBALL

ATHENS, November 29.—Georgia Tech put forth all their fighting spirit to come from behind and beat the Georgia Bulldogs 23-9 in the final game of the year.

Miller and Morris won the toss and elected to receive. Sam Mrvos started the activity by kicking the ball deep into the Tech end zone. Dick Pretz pulled it in and started up field, but was finally brought down at the Tech 21.

Bill Brigman bobbled the first center and Georgia had the ball at Tech's 20 yard line. Before the Engineers could gather their thoughts, Bratkowskie had engineered a Bulldog touchdown.

After the kickoff Georgia stopped our offense again and Dave Davis punted. Campagna returned the punt to the 26 but Georgia didn't get much farther. After swapping punts Tech wound up with the pigskin on Georgia's 35. Turner and Teas carried to the 10. With it and five Coach Dodd sent Pepper Rodgers into set a new SEC field goal record.

Georgia started from her 29 after the second half kickoff and handed over the ball on another "Brat" punt after three plays had netted only four yards. Pretz and Turner churned for 9 of the 10 necessary yards but on the next play the unusual happened. Turner was stopped cold. With it and one on Tech's 42 Rodgers came in with the play. It was his own and he sneaked 5 yards to the 47 for a first down. This was the inspiration Teas, Turner and Gilliland needed to carry the ball to the position for fate to smile on Chappel Rhino. The play started with a belly play to Turner who faked while Brigman pitched out to Rhino. Rhino then threw a running pass to Buck Martin in the end zone.

There was an exchange of punts and Bratkowskie's offense started as he fired precision passes all over the field. They rammed the ball down to the Tech 6 before the nation's number one defense realized their precarious position. Larry Morris took charge on the next play and threw Madison at Tech's two and Tech took over. Coach Dodd pulled the surprise play of the game as little Pepper Rodgers went back in punt formation and then dropped to one knee giving Georgia an intentional safety and a precious two points as the score was now 10-9.

Georgia, gambling for another score, gave the Jackets two more scoring opportunities in the fourth period. Bobby Moorhead intercepted a Bratkowskie pass on the Georgia seventeen and ran it back to the one yard line. Pepper Rodgers sneaked over for the score but missed the conversion, thus ending his streak. Tech led 16-9.

Bratkowskie was unable to make any more passing yardage on the next series of plays and Tech took over on downs at the Georgia 20. On the fourth down the Magnificent Glenn Turner went through the line all the way to the end zone for another score. Pepper's kick made the score read Tech 23, Georgia 9.

NEW ORLEANS, January 1.—After giving all the Tech fans the scare of their lives in the first few minutes of play, the Yellow Jackets came fighting back to prove themselves one of the greatest football teams in the nation by winning the 1953 Sugar Bowl Classic.

In the opening minutes of the game the Rebels from Ole Miss, behind the pitching arm of Jim Lear and the running of Wilson Dillard, blasted their way to a 7-0 lead. After a quick exchange of downs the Rebs recovered a Tech fumble on the Tech 19. When the smoke had finally cleared away, it was the Engineers' ball on their own six-inch line. That immovable object—the Tech Line—had held again. Once again early in the second quarter the boys from Ole Miss tried a repeat performance, but this time the Jackets stopped them at the Tech three-yard-line. From this point on it was all Tech's ball game.

One of the most encouraging items for the Techmen was that all the regular backfield were back in action. Teas, Ruffin, and Hardeman were in there chewing up the yardage at full speed.

To single out any particular action as the outstanding event of the game would be extremely difficult, but if such can be made it would undoubtedly be the two goal-line stands made by the Tech defense. In the Georgia game they were given a severe test, but in the Sugar Bowl they proved their merit.

ALL-AMERICANS

As we take a look at football at the flats, we see a group of red-shirted men. These men don't share the glory of the varsity, but they have the satisfaction that any victories the varsity has is due to the effort these B-Teamers have put forth during the week.

They not only fought varsity during the week, but they had four games of their own. Opening with Tennessee, they played a good game, had bad luck, and were beaten by an extra point with the final outcome: Tech 6, Tenn. 7.

Everything went from bad to good as they took on the Florida Gator's B-Team and really romped. In the first quarter, defensive end Hunsinger snatched up a free-rolling fumble and scatted into the end zone. Ray Anderson kicked the extra point. Just as the half was running out, Grant cocked his arm and threw the oval into the hands of James Morris for the second touchdown. During the fourth quarter, Wiley, on a draw play up the middle, went on to score the third 6-pointer and the Junior Varsity came home with a 28-0 victory.

On a journey to Tuscaloosa, the Tech Bees worked hard, but could not overcome the three TD lead they had spotted the Baby Tide of Alabama in the first half. Bobby Gilliland started the climb back in the third quarter by scoring and Richard Hanenstein climaxied a brilliant day by stealing an Alabama fumble and racing into the end zone for the second and last touchdown as they lost 19-14.

Before a Homecoming Eve Day crowd, the Junior Varsity showed their defense as they intercepted three passes and turned them all into touchdowns. After the offense took over, a blocked punt also added to the brilliant triumph of the Red Shirts over the Vandy Bees. Grant, passing to Anderson and Sennett, got two of the scores in a 27-0 rout.
The Baby Jackets

Coach Bo Hagan’s 1952 Baby Jacket squad show up as a promising hard-fighting team as they strain to replace their varsity brothers on the gridiron. Perhaps the most surprise-filled game the Baby Jackets played all season or certainly the one with the greatest number of fights and penalties was a thrilling game on November 12 with the Auburn freshman team. They went at it fighting in their customary fashion. When it was all over, the Baby Jackets had scored a 13-8 victory but not before more than a half dozen players had been excused by the officials. With Brooks and Anderson spark plugging the team they hung grimly to their slim lead.

The 20th Scottish Rite game went in favor of Tech although it was anybody’s ball game with the Georgia freshmen nursing a one-point margin for three quarters until Tech exploded for three fourth-period touchdowns to win, 33-13.

The Georgia Tech freshman team ended their third straight successful year by beating Georgia’s freshman squad Thanksgiving Day. This game marked the end of the frosh’s football season and the beginning of many new varsity players who have proved themselves worthy.

Ray Anderson on a quick sweep.

Not only are the Georgia Tech Cheerleaders gifted at coordinating the cheers of the student section at the football games but they are also versatile gymnasts. The cheers are usually ended with a snappy back-somersault and during the half-time, the squad puts on various gymnastic acrobatics.

Each year all boys interested in trying out for the squad begin practice in the spring and after the practice session, the squad is chosen by the Ramblin' Reck Club. Incidentally, the back-somersault is one of the necessary qualifications in order to make the squad.

This year's squad was captained by Tommy Alnutt, a senior from Cartersville, Georgia. Ably assisting Tommy were four juniors and one sophomore. The juniors are Bobby Elder, Truman Raspberry, and Charley Homan, all from Macon, Georgia, and Arthur Bruce from Greenwood, Mississippi. The sophomore and only married man on the squad is Billy Binford who hails from Memphis, Tennessee.

In addition to raising the familiar chant “Give ’Em Hell Tech” at all the home games, the cheerleaders made two road trips with the Yellow Jacket Football Team. One trip was to Durham where they led perhaps the largest Tech pep rally ever held off the Tech campus in the quadrangle at Duke. The other trip was to Athens where they cheered the Golden Tornado on to victory over the Georgia Bulldogs.
Basketball at the flats got off to a bad start as Coach "Whack" Hyder's 1953 Basketeers failed to find the range in their first four starts and failed to enter the winner's column. The young hoopsters, suffering from lack of experience, rallied to the famous "Ramblin' Reck" and rose up to crush their arch rival, the Georgia Bulldogs, in their fifth outing, 71 to 54. The courtmen only had the service of 5 returning men: Captain Pete Silas, Eric Crake, Gene Anderson, Bill Sennett, and John Harwell. A freshman, Bill Cohen, moved into the center spot vacated by Bill Cline. Cohen played like a veteran, even though he had had no experience with college basketball. Great things are expected of him in the next three years.

After their victory over the University of Georgia, the Jackets went on a four-game losing streak. The next seven games were a split. Alabama and Auburn cagers came to the Tech campus looking for easy victories over the Engineers. Both schools, however, were defeated in stunning upsets by a rapidly improving Yellow Jacket team. Tech won over Alabama 69 to 67 and over Auburn 79 to 61. Vandy also fell before the sharp-shooting of Harwell, Silas, and Crake. Next came Furman where they compiled a top season score of 93 points, but this did not prove to be enough to overcome the 111 points racked by Furman.

They met the Bulldogs again in the rubber game of the 3-game series and took it 78-73, making it a 2-1 for the series with Georgia. The Techmen lost their remaining six games and finished the season with a record of 5 wins against 17 losses and a 5-12 record in the Southeastern Conference race.

Pete Silas received unanimous choice as an all-S. E. C. player, after making the second team last year. Pete became the first Jacket cager to ever break into the 1,000 points scored column for four years play.

Next year's team should prove much better as they will have much needed experience. They will be led by Johnny Harwell, who was elected the new captain.
Harwell fires for the basket.

Sneed registers two points in Vandy Scuffle.

Bill Sennett sneaks in two points.

The Ref didn't even see this one!
Pete's favorite shot—2 points.

Sneed gets his man.

Give it to me John!

God! It's a bird, it's a plane—
There will be no argument here.
The Jacket Diamondmen completed the 1952 season with an 8-11-1, won-loss-tie record, the lone tie being with the Auburn Tigers. This was a slight drop from the 11-12 record posted by the 1951 team.

Although the pitching was somewhat weak, it was practically made up for by the strong hitting-power of the team. Those men who turned in excellent batting averages for the season were George Maloof, Vaughn Dyer, Charlie Brannon, and Leon Hardeman.

The Yellow Jacket nine opened the season in Gainesville, Florida with the Florida Gators. Tech bowed to the Floridians 3-9 in the first game and 2-13 in the second.

In their first home game, the Jackets fought to a 4-4 draw with Auburn. The game had to be called on account of darkness. In the second game, the Tigers humbled the Techmen 4-11. The remaining two games of the series were played in Auburn but this time the Jackets' luck had changed. Tech took both games, the first, 10-3, and the second, 3-2.

Following the series with Auburn, the White and Gold team moved on to Knoxville for their first encounter with the Tennessee Vols. The Jackets lost two very close tilts, 6-7 and 4-5. For the other two games of the series, Tech played host to the Vols on Rose Bowl Field, with Tennessee taking the third game of the series 1-12, and Tech taking the final game, 9-5.

The Yellow Jackets continued their home stand with a two-game series with the Kentucky Wildcats. Tech swept the series by winning the first game, 25-11 and the second 6-5. Starring for the Jackets in the first game was Charlie Brannon, who led the Tech attack by slamming two singles, a double, and a home run, in six trips to the plate. In the second game of the series, Chappell Rhino, the Jacket captain, turned in a beautiful game on the mound.

After the two games with Kentucky, the Techmen traveled over to Nashville to split two games with Vanderbilt. Tech took the first one 14-4, but the Commodores came back to win the second, 8-12.

Returning home the Jackets handed the University of Florida its first defeat of the season. Big George Morris skipped football practice long enough to beat the Gators with a 350 foot home run. The Engineers won the game, 6-5, Florida bounced back to take the second game, 5-13.

In the final series of the season, Tech proved no match for the Georgia Bulldogs. The Jackets edged Georgia in the first game 6-5, but Georgia took the second 7-15, the third 6-9, and ended the season by defeating the Techmen, 1-5.
The Thinclads opened their season in Chapel Hill at the Southern Indoor Games. Going to the game with only three returning varsity men and a group of promising sophomores and freshmen, they came home with a gratifying second in the non-conference group. The pre season favorite, Alabama, came in with first place honors. The freshman, Bobby Barron, paced the Tech squad with four medals. The other freshman standout was muscular Fred Berman, who placed third in the shot put with a 47 feet and 3 inch heave.

Their next encounter was in Gainesville, Florida where they entered the Florida Relays. There was no team winner in this meet but the three “B”s Barron, Baskin, and Berman, brought home points for Tech in the broad jump, javelin, and shot, respectively.

Before starting their regular season against the University of Tennessee on April 19, the Thinclads entered the Southern Relays in Birmingham. Baskin was the lone star for Tech here as he took first place honors in the javelin with a toss of 184 feet and 3 inches.

The first regular meet found the tracksters invading Volunteer land as they matched talents with the University of Tennessee Track and Field Team. The Volunteers came from behind to defeat Tech 66-64. The victory was not decided until the final event. The Vols were trailing by three points when Jack Patterson pushes for first in relay. the mile relay. Berman set a new school record in the shot put event with a throw of 50 feet and 2 inches.

Florida State University’s Seminoles came on with a rush in the final events to beat slightly-favored Tech 66½ to 59 in a triangular meet at Grant Field. The University of Georgia Bulldogs were third with 45½ points. This was the first home meet for the Tech men. Freshman Bobby Barron shone brightly on his home field to take first place honors with 16 points.

In their second home meet of the season the Georgia Tech Cindermen met defeat at the hands of the Auburn Tigers despite 17 points racked up by Bobby Barron. The biggest upset of the day was when Fred Berman beat Olympic hopeful Jim Dillon in the shot put with a heave of 51 feet and 11 inches.

The next meet of the season was a triangular meet with Alabama and Mississippi State. Again Tech found herself faced with powerful Alabama who piled up 88½ points; more than Mississippi’s 40 and Tech’s 31½ together. Baskin, throwing the javelin 190 feet, was the first place winner for Tech.

The final and big meet of the year was the SEC meet in Birmingham. As was expected, Alabama took first place honors. A first in the javelin by Baskin, and seconds by Fred Berman and Bobby Barron in the shot and 220-yard low hurdles respectively put Tech seventh place with 15 points for their efforts.

The annual fifth district AAU meet put the wraps on the 1952 track season. Tech finished second to Auburn and Bobby Barron received honors for high MAN of the meet.

The Yellow Jacket tankmen got off to a rocky start by dropping their first three meets. In the first meet of the season the Techmen ran up against one of the strongest teams North Carolina State has had in many years. The outcome was NCS 66—Tech 18.

Following the NCS meet the Jackets journeyed over to the University of North Carolina to be ducked by a score of 59-25. It seemed as if the Carolina boys were not swimming against Tech but were swimming against the times posted by NCS in the previous meet.

Next the Jacket mermen played host to Florida State University in what was supposed to be a one-sided victory for the Florida men. As it turned out, FSU won 48-36 with the meet depending on the last relay to decide the winner. Outstanding for the Jackets in this meet was Bob Browne who won both the 220-yard and 440-yard freestyle events.

The first meet the Engineers put in the win column was with Emory. This was another close meet with Tech emerging on the long end of a 46-38 score.

In their next meet the Techmen took another drubbing at the hands of the Georgia Bulldogs by a score of 62-22. Frank Strickland set a new varsity 200-yard backstroke record for Tech while Reid Patterson was the big gun for the Bulldogs.

Getting back into the win column the Jackets sunk the Commodores from Vanderbilt by a score of 64-20 and then turned their guns on the Cadets from the Citadel. The Citadel score was 45:39 in favor of the Engineers.

In their last two meets Tech lost to Duke 43-41 and to the University of Florida 55-29. In the Duke meet Tech’s Childress, who was this year’s captain, and Strickland took first places in their events. In the Florida meet Strickland broke his own backstroke record which he had set in the Georgia meet.

The Yellow Jackets took third place in the Southeastern Conference meet which was held in Athens. First place was held by the University of Florida while the Georgia Bulldogs came in second.

Tom Brown up for air.

Walker, Van Leer, and Bob Browne make like Dolphins.

Third place Southeastern Conference

Strickland won the SEC 100 yard back stroke with this form.

Bill Herrera demonstrates his breast stroke.

A Duke boy cuts the water in this dual meet with Tech.
The Tech Netters did just as their Coach "Shorty" Bortell had predicted. They won half of the matches they played. This year's group of racquet men were some of the best that Tech has had. They always looked good even in losing.

These Tennis Ball Beaters started the season by jumping on Georgia for a 7-2 win then following suit with an 8-3 defeat of Alabama. The Jacket Netters then played a foreign team from the Hoosier State and were overwhelmed coming out on the short end of a 7-2 score. After this loss they followed with an 8-1 loss to Florida. These Techmen raised their nets and let Mississippi State fall to the sound of a 6-3 score. The racquet men's joy was short lived as Vanderbilt demonstrated their ability and handed Tech an 8-0 shutout. The Emory Tea Sippers made the mistake of engaging Tech's services while Tech had shutout on their mind and were served a 9-0 loss by the Techsters. After losing a close one to LSU the Jacket Netters returned Auburn's serves for a 7-2 win. They then engaged Georgia for the second time and defeated them likewise but were saddened by Tennessee and came out on the wrong end of the score. From here they attended the SEC at New Orleans where they brought home the 7th place position.
The 1952 season started out very unfavorably for the Techsters as they dropped their first dual meet to Alabama by an overwhelming score of 19-36; however Coach Griffin was encouraged by the showing that two freshmen made in the meet. The next encounter of the farriers of the institute was with Tennessee who is the conference champion and showed championship form as they trounced the boys from the flats 17-40.

Hope was placed in the engagement with Maryville that what was to follow would come out better, but fate struck and put Roy Cooper, a point maker, in bed which introduced Tech to another defeat.

After another defeat by Florida, the Ramblin’ Recks went to combat Auburn in a dual meet and the Plainsmen were the favorites, but were displaced by the Techsters’ will to win for the coach. Hugh Tannerhill was the leader as the other boys followed and brought the victory with them.

The next week was the SEC meet with 44 runners off at the starting gun. Tennessee saw their championship nearly taken from them by Kentucky. Auburn finished third and Tech fourth.
The Yellow Jacket linksmen began practice with Pete Ferris, Charlie Harrison, Tommy Bachman, Noble Arnold, Lamar Smith, and J. Myland all returning lettermen and Donald Coles, John Maddox, and Jakie Rudolph to fill the gaps left by the other departing lettermen. With these men the golfers prepared to meet the many strong opponents that they were to face. This practice showed results later in the season but at first it seemed in vain. After suffering a defeat to the University of Florida and losing a close one to Florida State while on the road, the Tech golfers jumped on the Emory linkers to give Tech its first win of the season. These men matched irons and woods with the best in the conference and came out on top until they were tripped by their arch rivals, the Georgia Bulldogs.

After a repeat defeat was handed Tennessee, the Jacket linksmen met the rest of the conference in the SEC meet to see who was best. The sideline caddies said this was the most outstanding Tech team to come this way. These Tech linkers drove, putted, and prayed their way to a 3rd place Conference position. Jakie Rudolph was the surprise of the SEC meet by holding the lead until the end of the third round. Campbell Smith and Tommy Bachman gave the added drive Tech needed for their third place.

After the Conference meet Tech split two matches. The Linksmen lost to Georgia and won from Vanderbilt with Tommy Bachman and Charlie Harrison leading the way. This wound up a very successful season.
The Georgia Tech gym team resumed intercollegiate competition again this year after a two-year layoff. They are again under the tutelage of the capable coach, Lyle Welser.

Although the season had not been completed when the Blue Print went to press, the Yellow Jacket gymnasts had already seen action in a number of meets. At the time of this writing Tech has been in competition with Duke and UNC. Up at Durham, Hubert Puckett added his bit to a losing cause by collecting a first place in the horizontal bar event. Co-Captain Bobby Elder came through with a second in the free exercise as the Duke "Blue Devils" took the meet 70.5 to 39.5.

The story was not quite that good up at UNC as the Tarheels amassed a total of 81 points while the Engineers could only muster 31. Co-Captain Roger Weber led the losers cause with a second in action on the parallel bars. The rope climb gave Puckett a chance to pick up a third place as Lenard Caveney got a fourth on the horse.

The SIGL tourney in Hattiesburg featured the Florida State Seminoles along with many other entries. The Seminoles held their highly honored place in gymnastic circles as they scored 120.6 points; more than all of the other teams put together. Tech managed to capture six of the remaining points on the efforts of Elder in the free exercise, Holman and Coleman in the rope climb.

Ronald Kolman in Full Scale.

Co-Captains Elder and Weber.
intramural sports
Was it interference?

Stetina off right tackle.

Intramural Football—1952

Competition was strong as some 35 teams battled with the pigskin for honors on the gridiron as always football proved to be one of the major intramural sports as both fraternity and independent squads fought tooth and nail for the 1952 school championship.

The SAE's captured the fraternity championship as a climax to an undefeated and untied season. The playoff games were won by 20-0 over Tau Epsilon Phi, 18-7 over Delta Tau Delta, 26-14 over Sigma Phi Epsilon, and 20-6 over ISO. The Delta Tau Delta's came in second with the Sigma Phi Epsilon taking a close third. All squads displayed a great deal of spirit and fight in a game that requires skill, experience, and unfailing teamwork.

While the Sigma Alpha Epsilon's were defeating teams on all sides, the Techwood team was doing the same in the independent. In the final game the SAE won easily over the Techwood team thus obtaining the right to be called school champion of intramural football.
Intramural Basketball
1953

The 1953 Intramural Basketball program got underway with Phi Delta Theta being the favorite as they have been the past couple of years. They proved a good bet as they finished the season with only one blemish on their record and that at the hands of the ATO's. The winners of the four fraternity leagues were Phi Delt, Delta Tau Delta, SPE, and Theta Xi. In the Independent leagues, Navy Gold and Smith Dorm came out on top. The basketball intramurals were won by the Phi Delts as they beat the other three league winners to give them the interfraternity championship.

The Phi Delts then faced Navy and defeated them 71 to 63 to give them the school championship. Navy beat Smith Dorm, 95 to 44 to put them in the running for school champs.
Intramural Softball—1952

The intramural softball title was won this year by Alpha Tau Omega with Phi Kappa Tau coming in second and Sigma Chi bringing up third place.

This year as in the past, it was a pitchers' duel to the finish. Bob Sharp was the ace hurler for the ATO's, with Fred Lutter representing the Phi Taus, and Eric Crake twirling for the Sigs.

In the playoffs, the top two teams from each league were matched together. Representing the Gold League was Alpha Tau Omega in first place and Sigma Chi in second. The Lambda Chi's were first in the White League with Phi Kappa Tau second, and in the Tornado League, the Alpha Epsilon Pi's were first while the Theta Xi's came in second.

In the ISO League, the Newman Club emerged victorious followed closely by the Chinese Club. This was the Newman Club's third straight Independent championship.

The ATO's defeated the Newman Club in the final playoff to gain the school championship.
In the final event of the afternoon a surprising ATO 880-yard relay team roared past the bewildered Phi Dels to snatch first place honors from them and end the meet in a dead tie.

The competition throughout the afternoon was keen, but the climax was reached in the 880-yard relay. At the start of this the final event the Phi Dels had a 30 to 28 lead over ATO. There were six teams entered in this relay, but the ATO team composed of Smith, Schuler, Sherman, and Harwell finished ten feet in front of the Phi Dels' anchor man. This added seven points to the ATO's score and five to the Phi Dels', making the final results a 35-35 tie.

The field event which attracted the largest gallery of spectators was the high jump. This event started off with about 25 entries, but immediately after the start the spectators decided that Gene Simmons, a 5 feet 6 inch ATO, was their favorite. With a strong heart and a pair of strong legs, he stayed in the race until the bar reached the height of 5 feet 10 inches where he and Lamar Lamb of SAE failed in their three tries to clear the bar and wound up in a tie for third place. Pete Silas (Phi Delt) and John Maddox (SAE) cleared the bar at 5 feet 10 inches, but neither could go higher and a first place tie was in order.

Saterbach and Sherman took firsts in the 100 and 440 respectively for the ATO's; while Metcalf and Blackburn were taking firsts in the 220 and broad jump for the Phi Dels.

The final team scores showed the first place tie followed by SAE with 26½, Delta Tau Delta with 9.
Intramural Swimming 1952

The intramural swimming meet this year was undoubtedly the closest, most evenly matched intramural event staged at Tech in quite some time.

The match ended with Sigma Chi and Chi Phi tied for first, each finishing with 51 points. Alpha Tau Omega came in a close third with 49 points and Phi Delta Theta took fourth with 33 points.

Sigma Chi took first place in the 220-yard medley-relay, 75-yard medley, and the 200-yard freestyle relay. Chi Phi took first place in the tug-of-war; second place in the plunge for distance, and tread with weights. First place in fancy diving and the 100-yard freestyle was taken by ATO. Delta Tau Delta took first place in the plunge for distance, and Phi Delta Theta took first in the tread with weights.
Intramural Cross Country 1952

The cross country race had a good turnout with approximately 65 entrants. Sigma Chi Fraternity won the team championship and dominated the individual competition by placing three of their men among the five men receiving medals. The individual race was won by Bobby Adams of Beta Theta Pi. Second place was won by an unknown runner from ISO and the other three places were won by Mike Cady, Jack Peavy, and Brian Head, all of Sigma Chi. The team coming out with the lowest score was Sigma Chi with 25; second place was won by Alpha Tau Omega with 47 and third by Beta Theta Pi with 69. This race was run over a fine course of two miles with the casualty fairly high.

Intramural Volleyball 1952

Volleyball, in the leagues, was very close with the SAE and AEPi winding up in a tie for first place, making a play-off necessary with the SAE’s coming out on top. Both of these teams had tough times in their own leagues and then after the tournament started. The Theta Xi’s and the Sigma Nu’s were the victims of these two fine teams. This is a good indication of the fervor that the teams practice and play.
Intramural Gym
1953

Again the Georgia Tech gym was the scene of mass chaos as Alpha Tau Omega emerged the victor in the 1953 Intramural Gym Tournament. The victor placed 3 men in first place slots; Custer, high horizontal; Bond, parallel bars; Jordan, novel. The victor also recorded 3 seconds and four 3rd place winners. The second place winner, Phi Delta Theta, defending champs, with 41 points, never threatened the ATO's who collected a total of 52.5 points.

Intramural Golf
1952

Intramural golf wound up in a tie for first between the Chi Phis and the Phi Delts for the title and Glen McKelvy the champion golfer of Tech. Art Edge of Phi Delta Theta beat SAE’s Comer in the first flight with Render Crayton of the Phi Delts beating Tom Newberry of ATO in flight three. The other winners were Harwell of ATO in the fourth, Jacobson of Chi Phi in the fifth and O’Connor of Sigma Chi in the sixth flight. Glen McKelvy bested Lynwood Johnson very easily by having a four-hole advantage after leaving the fifteenth hole.
Intramural Tennis 1952

The 1952 Intramural Tennis Tournament wound up with Dick Neal holding the honors for the school championship. Play in Peters Park was hard and fast all during the season with many of the favorites being tumbled from the ranks as play progressed. Maurice Coffee of Phi Delt beat Lamar Russell in one division. Dick Belardi bested Render Crayton for a position in the playoff spot while Dick Neal beat Ken Pickren to win the honor of meeting Belardi for the school championship.

Intramural Bowling 1953

This year there was an increased amount of interest shown in bowling and as a result there were three leagues formed compared to the two that have been formed each year previously.

The league winners this year were Sigma Chi from the Gold League, Sigma Phi Epsilon from the White League, and Alpha Epsilon Pi from the Tornado League.

The first and second place winners of each league squared off in the playoffs with Sigma Chi taking top honors for the school championship by winning two games from Sigma Nu and three games from Sigma Alpha Epsilon. The second place honors in the playoffs went to the SAE’s who were also second in the Gold League.

Intramural Paddle Ball 1953

The Intramural program was faced with the introduction of a new sport this year, as paddle ball replaced wrestling on the winter sports agenda. Play was feverish as a large number of 2-man teams turned out to try their skill at this challenging sport. When all the shouting was over, Stahl and Lansman of the Geechee Club had beaten McCallister and Shaw of KA for the school championship. The SAE’s came up with the most points to be the Intramural champs.
As much a part of the American scene as universities themselves are the social fraternities . . . and no different is Georgia Tech with its 26 active national chapters . . . typifying the good brotherhood of the Tech GREEKS is the now traditional beer mug outlined opposite. . . .
To the Interfraternity Council of Georgia Tech falls the task of regulating, expanding, and integrating the activities of the twenty-six national fraternities located here on the campus. Operating under the general supervision of Dean John J. Pershing, its fifty-two members increase the scope and value of fraternal life at Tech.

A realization of the large accomplishments which a council of this type is capable of contributing to the school has made the I. F. C. a leading factor in the promotion of athletic, scholastic, welfare, and social events. Competition is the keynote of all council undertakings, and thereby not only are results obtained, but pride is built up in each member of his particular chapter.

Softball, football, basketball, and many other sports constitute the principle athletic program of the I. F. C. A tremendous interest in these sports and also in scholarship is obtained by the presentation of a trophy each year to the fraternity who has acquired the most points in the athletic and scholastic competition.

Best illustrating the welfare work of the council is its part in the Empty Stocking Fund drive conducted each Christmas by the Atlanta Junior Chamber of Commerce. Also this year, the council organized a "help week" in which the pledges from all the fraternities took part. Rounding out the phases of campus life, the council is socially famous for the annual dance that it sponsors in the spring.

The Interfraternity Council as a whole, and its members individually, are constantly seeking new opportunities to promote a better student life at Georgia Tech.

In March, 1946, Zeta Chapter of Alpha Epsilon Pi, inactive for twenty years, was re-established on the Georgia Tech campus. With the brothers of Sigma Gamma Fraternity as a nucleus, Alpha Epsilon Pi expanded its membership very rapidly and is now the largest Jewish fraternity at Tech.

The chapter has as one of its goals the development of a high standard of social and intellectual fellowship among its members, so that they may better be fitted to take their proper seats in the universities and communities of America.

For the first time in AEPi history, two national awards were given to one chapter, and Zeta was the recipient of both the National Loyalty Cup and the National Athletic Trophy.

BETA IOTA CHAPTER

For the second consecutive year, Alpha Tau Omega has won the I. F. C. cup, which is awarded annually to the fraternity most outstanding in all fields of competition—scholarship, intramural sports, etc. This cup climaxed a year long effort by the chapter: championships in softball, volleyball, and track, and first place in Stunt Night, Homecoming decorations, and scholarship.

ATO has the distinction of being the oldest fraternity on the Georgia Tech campus, and Beta Iota chapter has been continuously active since its founding, September 18, 1888. The national organization was founded at Virginia Military Institute, September 11, 1865. ATO was the first Greek letter social fraternity founded solely upon Christian principles.

ATO now has 114 active chapters which extend throughout the United States and Canada.

Beta Iota is well represented in the campus honorary and service organizations, including ANAK, ODK, Koseme Society, Ramblin' Rock Club, Bulldog Club, Tau Beta Pi, Phi Kappa Phi, the Student Council, and various campus publications.

Balancing the extra-curricular activities and scholarship, social life is very complete. The House Party at Lake Occonee, the Spring Formal, and the Senior Banquets highlight the year's social activities.

GAMMA ETA CHAPTER

Founded in 1839 at Miami University in Oxford, Ohio, Beta Theta Pi has always maintained a position among the leading social fraternities of the nation. Beta Theta Pi now has ninety-seven chapters in the United States and two provinces in Canada.

Gamma Eta Chapter was installed at Georgia Tech in 1917 and moved into the present chapter house in 1927. Always among the campus leaders in scholarship, Gamma Eta has won the Sigma Chi scholarship trophy for the two years it has been offered. The chapter also has an excellent record in other phases of campus life, including athletics and extracurricular activities. Last year Gamma Eta was selected as one of the fifteen outstanding chapters of Beta Theta Pi.

Beta Theta Pi endeavors to teach men high ideals, cooperation, and the way to a successful future. Toward this end, the chapter sponsors extensive social activities, including several buffet suppers, house dances, outings and formal parties during the year.

On December 24, 1824, the Princeton Order of Chi Phi was founded at the College of New Jersey, now Princeton University. From that time forward, chapters of Chi Phi have been established at the outstanding colleges and universities throughout the country.

On June 2, 1904, the charter of Omega Chapter was granted. In 1910 a chapter house was obtained making Chi Phi the first fraternity on the Tech campus to own its house. The present, well-situated house was built in 1928.

Chi Phi has always been an outstanding fraternity on the campus not only socially, but also athletically and scholastically. The fraternity has had a most enjoyable social season topped-off with a big winter formal.

ALPHA GAMMA CHAPTER

Founded December 10, 1899, at City College of New York, Delta Sigma Phi has expanded to where it has 72 chapters and 9 colonies. We are one of the few fraternities that have ever been allowed at Washington and Lee University. Delta Sigma Phi engulfs the United States from the east to the west coast and from the Gulf of Mexico across the Canadian border, having two chapters at Canadian universities.

The Alpha Gamma Chapter received its official charter in January of 1920. Stressing scholarship primarily, we also encourage our members to take part in as many school activities as possible, and as a result, we have representatives in the honor societies, student government, and athletics. Fundamentally a social fraternity, Delta Sigma Phi is a leader in the social world and is particularly famous for its Carnation Ball and Sailor's Ball.

OFFICERS

JAMES STULTZ . . . . . Vice President
ROBERT FRAZIER . . . . . Secretary
ALLEN MACKNIGHT . . . . . Treasurer
Delta Tau Delta was founded in 1859 at Bethany College, Virginia and has grown and prospered through the years to where it now stands securely with eighty-four active chapters throughout the United States and Canada and over fifty thousand alumni. The Gamma Psi Chapter of Delta Tau Delta was established on the Tech campus in April, 1921.

Advocating an active college life for its members, Gamma Psi has continually displayed that spirit on the Tech campus by having Delts in ANAK, ODK, the Student Council, the Blue Print, Technique, and Yellow Jacket, as well as having three Delts selected for Who's Who in 1952-1953.

The social aspects of the fraternity life were again realized to the fullest with buffet suppers, hayrides, informal dances, house-parties and the annual Delt Rainbow Ball. Rounding out a full year of activity, the Delts participated in all intramural sports.

ALPHA SIGMA CHAPTER

The Kappa Alpha Order was founded in 1865 at Washington and Lee University, and since that time has become one of the leading national social fraternities. Today there are seventy-six active chapters extending from coast-to-coast across the central and southern sections of our country.

Alpha Sigma celebrated its fifty-third year on the Tech campus last fall and with the present membership has upheld the tradition of active participation in the social and campus activities.

Kappa Alpha’s are numbered among the honorary groups as well as administering many responsible student positions. KA consistently ranks among the top fraternities on the campus.

This year was highlighted by an “Old South Ball,” Convivium, which is a celebration of Robert E. Lee’s birthday, the Christmas party, the KA Rose Formal, and the annual spring house party.

KA Sweetheart of 1952

"The Sheriff moves in."

"Big Ben"

"The Roundup."
The Kappa Sigma Fraternity was founded at the University of Virginia in 1869. Since that time, the total number of chapters has risen to 124 in the United States, Canada, and Hawaii.

The Alpha Tau Chapter of Kappa Sigma was established in 1895, being the third oldest fraternity on the Georgia Tech campus. We strive to be well represented in all extra-curricular activities on the campus, and have been very successful in doing so in the past. Scholarship is one of our primary goals which we strive to stress with vigor. Our social functions are very good throughout the school year with the Black and White Ball our big event. We are proud of the fact that we have a new $75,000 house which will help us grow more rapidly.

BETA KAPPA CHAPTER

Founded in 1909 at Boston University, Lambda Chi Alpha Fraternity has matured into one of the largest social fraternities in America. It boasts a total of one hundred and forty-three chapters in forty-three states and two provinces of Canada. The national fraternity, although one of the youngest, is already rich in tradition.

The Beta Kappa chapter was established on the Tech campus on October 6, 1942, after achieving an enviable record during its affiliation with the old Beta Kappa national fraternity.

With a highly successful rush season, the winning of the homecoming decorations, a Christmas party, and a winter formal serving as the highlights of a sparkling season; and with many members of the chapter quick to take their places as prominent campus personalities, Beta Kappa has enjoyed a successful year.

GEORGIA DELTA CHAPTER

Founded in 1848 at the Miami University in Oxford, Ohio, Phi Delta Theta has grown into an international fraternity with over 75,000 members in 115 chapters located throughout the United States, Nova Scotia, and Canada. Besides leading all other fraternities by having the most members selected as Rhodes scholars and All-American football players, Phi Delta Theta has prominent members in every field of endeavor, including the presidency of the United States.

The Georgia Tech chapter, Georgia Delta, founded on June 4, 1902, has constantly strived to uphold the principles upon which Phi Delta Theta was founded. Not only being represented in all campus organizations, honorary societies, student government, varsity athletics, and publications; Georgia Delta won the Intramural Athletic Cup for the third straight year.

The social life was upheld by the house parties, dances, and numerous parties held during the year. As in past years, Phi Delta Theta enjoyed another successful year on the Georgia Tech campus.

XI CHAPTER

Since its beginning, at the College of the City of New York on November 23, 1904, Phi Epsilon Pi Fraternity has grown to its present membership of over 10,000 members, 37 active chapters, and 35 alumni associations. With its new main offices in Philadelphia, Pennsylvania, Phi Epsilon Pi has chapters in all the leading universities. The first Canadian chapter was organized in 1951 at McGill University, Montreal, Canada.

Xi Chapter was founded on the Tech campus on January 15, 1916. It has grown to enormous heights. Its new modern ranch-style chapter house was opened October 7, 1950, and has 21 men living in its spacious quarters. The fraternities of Xi are active in campus affairs and can boast National Activity Cups for these achievements. Social life is maintained as an integral part of the Phi Ep's activities. From the very beginning of "Rush Week," through Homecoming Week-end, IFC Week-end, to the end of the year, they keep a social program of high caliber. Scholarship is stressed, and kept at a high level. Recently Xi Chapter won the blood donor trophy for contributing the most blood of any fraternity on the Tech campus. Xi went on to win the National Fraternity's trophy for donating 100% to this cause.

In the past 37 years the Phi Epsilon Pi Fraternity has made itself well known on the Tech campus and will continue to uphold its high traditions of brotherhood and scholarship.

GAMMA TAU CHAPTER

The Fraternity of Phi Gamma Delta is one of the leading national fraternities in the United States. Founded in 1818 by John T. McCarty, Daniel W. Groff, James Elliot, Jr., Ellis B. Gregg, Naaman Fletcher, and Samuel B. Wilson; it has steadily grown to its present strength of 82 undergraduate chapters and 76 active alumni chapters throughout the United States.

Phi Gamma Delta was chartered here on the Georgia Tech campus in 1926, as an outgrowth of a local fraternity known as Gamma Tau Delta. It has remained firmly entrenched here ever since, except for a few years during World War II.

Like our national organization, we here at Gamma Tau are forever building for the future, and now we believe that it will be just a matter of a few years before we will realize our dream—a new house for the Tech Fijis!

PHI KAPPA

254
Phi Kappa Sigma was founded at the University of Pennsylvania on October 19, 1850. The Alpha Nu Chapter at Georgia Tech was established in 1904 and was one of the first fraternities on the campus to own its house. It was also responsible for the founding of the ANAK Society.

It is the policy of the fraternity to be conservative in expansion, and there are now forty-four chapters in the leading colleges and universities throughout the United States and Canada. Although Phi Kappa Sigma maintains a relatively small chapter at Tech, one can always find a Phi Kap in the midst of any worthwhile activity.

Alpha Nu is now in the best condition that it has been in many years.

OFFICERS

DOUG HUTCHINSON . . . Vice President
JULIAN DANIEL . . . . Secretary
WILLIAM FRAMES . . . . Treasurer
The Phi Kappa Tau Fraternity was founded at Miami University, Oxford, Ohio, 45 years ago. Originally intended only for the campus at Miami, it has grown from one chapter to seventy and today ranks among the nation's top fraternities with a membership exceeding 19,000.

Phi Kappa Tau was installed on the Tech campus in 1929 when Pi Lambda Delta, a local fraternity, received its charter as Alpha Rho Chapter. Since that date Alpha Rho has made an enviable record in the scholastic, athletic, and social activities of Georgia Tech.

Backed by a large alumni association in Atlanta and an enthusiastic pledge class, Phi Tau is looking forward to another year of progress.

258
Pi Kappa Alpha is one of the five largest fraternities in the United States. It is a solidly established brotherhood, with strong chapters in the best American colleges and universities; a highly regarded member of the fraternity system.

Since its founding in 1868 at the University of Virginia, Pi Kappa Alpha has successfully planted its banner in college after college. Alpha Delta Chapter was chartered at Georgia Tech in 1904—fifty years ago.

The chapter owns its house on Techwood Drive where home life and recreation are provided for the members. Among PiKA's social functions are its annual Possum Hunt, Black and White Ball, and the spring house party. PiKA encourages academic achievement and is justly proud of the record of its members in this and other fields of campus activity.

OFFICERS

DON MURRAY . . . . . . Treasurer
Pi Kappa Phi was founded at the College of Charleston, Charleston, South Carolina in December, 1904. It now has forty-six undergraduate chapters and thirty-three alumni chapters in the United States and Canada.

The Georgia Tech chapter of Pi Kappa Phi was granted a charter in 1913 and has always been active in all school activities. The fraternities' activities include full participation in scholarship, social, and athletic events. The most famous of these activities are Pi Kappa Phi's Founders' Day Celebration every December, and its annual spring Rose Ball at which the "Rose of Pi Kappa Phi" is presented.

After one year without a house, Iota Chapter finally moved into a house at 128 Fifth Street, N. W. All the members of the fraternity are satisfied with it and now are sure that Pi Kappa Phi will again be "tops" on the Tech campus in the near future.

SIGMA ALPHA
Since its founding at the University of Alabama in 1856, Sigma Alpha Epsilon has grown in size and prestige until it is now the largest national college fraternity in the United States. There are 130 chapters in 47 of the 48 states with a total membership of over 80,000. SAE is noted for fostering the Interfraternity Council, establishing the first national leadership school, and erecting the first national headquarters building.

The Georgia Phi Chapter of SAE was the second fraternity to be established on the Tech campus. Since its chartering in 1890, its members have continued to hold that spirit which has made SAE one of the foremost fraternities. Each year SAE ranks with the best on the Tech campus. This year SAE made a fine start by getting the outstanding pledge class and thus far leading their league in football and volleyball.

The events of the social calendar are highlighted by two formal dances and a mountain house party, augmented by numerous informal gatherings at the house, all chaperoned by our beloved House Mother, Mother Lou.

Our football team.

That's what ginger ale will do.

Deal 'em!
The Sigma Chi Fraternity was founded on June 28, 1855, at Oxford, Ohio. Today there are 129 active chapters, including three in Canada.

The Beta Psi Chapter was founded at Georgia Tech in March of 1922 upon the affiliation of Pi Alpha Sigma local fraternity. This year the Sigs of Beta Psi are enjoying their first year in the new house located at the corner of Techwood and Fourth Streets. It has grown in such a manner that today it is a leading member of the Interfraternity Council here at Georgia Tech. Year after year it continues to rank high in scholastic standing, leadership, brotherhood, and intramural activities.

The social activities of Sigma Chi make a full calendar. The highlight of this year's activities was the Sweetheart Ball in November, where lovely Harriet Allen was presented the cherished White Cross, signifying her as the Sweetheart of Sigma Chi.

What's so funny?
Sigma Nu was founded at the Virginia Military Institute in 1869, and was originally known as the Legion of Honor. During its eighty-three years of existence, Sigma Nu has become one of the leading fraternities in America. There are now 116 chapters in all the forty-eight states, the District of Columbia, and Canada.

Gamma Alpha Chapter was established at Georgia Tech in 1896, and in fifty-six years has initiated almost 900 men. The past year has been a most active one. The chapter has been successful in intramural sports, homecoming activities, and the various other activities on the campus. Several house dances are held each quarter, and hardly a weekend passes without a party of some kind. The outstanding events of the year include a Christmas banquet and dance, a house party, and the White Rose Formal.

The "sunny" south. Let's go have a beer.
GEORGIA ALPHA CHAPTER

Sigma Phi Epsilon was founded in the year 1901 at Richmond University in Richmond, Virginia. Georgia Alpha Chapter was chartered on the Georgia Tech campus on April 1, 1907. Sig Ep has grown in its first fifty-one years to one of the largest national college fraternities in America. Over 40,000 members in 115 chapters throughout the country have made the fraternity what it is today. The aim of Sigma Phi Epsilon is to grow in strength and build character and leadership in all its members.

The outstanding social events of the year are the “Sig Ep Golden Heart Formal” and a weekend house party in the spring. Hayrides, house dances, costume parties, and the pledge party given to the active chapter by the pledges just before the Christmas holidays round out the social calendar.

The emphasis around the Sig Ep house is placed on scholarship. Activities consist of participation in sports and campus organizations.

OFFICERS

GORDON ALBURY . . . . . President
ROY SIMON . . . . . Vice President
GEORGE PURCELL . . . . . Secretary
RAYMOND WOOD . . . . . Treasurer
Always a leader in campus affairs, Phi Chapter of Tau Epsilon Phi is looking forward to another outstanding year on the Georgia Tech campus. With an active membership, the "Tep's" hope to maintain their standing as the outstanding fraternity on the campus.

Several of the brothers are outstanding members of the I. F. C., Bulldog Club, Hillel, Technique, Tau Beta Pi, Pershing Rifles, Arnold Air Society, Scabbard and Blade, R. O. T. C., and "Who's Who Among Students in American Universities and Colleges." The "Tep's" are well represented in just about every honorary, scholastic, and professional society, at Tech.

Another item of which Tau Epsilon Phi is proud are the three scholarship trophies, won in recent years, and the I. F. C. trophy for the best house on campus which they won the first time it was awarded and have not lost it since. These trophies plus the President's trophy stand out on Tau Epsilon Phi's trophy shelf.

EPSILON PHI
Our wreck! Enough said.

The latest morbid news, at the Funeral Party.
Tau Kappa Epsilon was founded on January 10, 1899, at Illinois Wesleyan University. The Beta Pi Chapter was founded here at Georgia Tech in 1948. TKE, although still among the smaller fraternities on the campus, is one of the larger national fraternities, having at present over one hundred chapters and twenty-one thousand members.

The local chapter has recently acquired a new house and at present is undergoing a period of rapid growth. One of the main ideas of the fraternity is that the individual is more important than the group, and this fact is one which makes TKE a "fraternity for life." The members are in various campus organizations and honor societies. "Tekes," as they are known, well deserve the recognition the school has given them.

OFFICERS

Pawel Liberan . . . . President
William McCaskill . . Vice President
Robert McClellan . . Secretary
Richard Phelps . . . . Treasurer

Norway was never like this.
Theta Chi was founded in 1856 at Norwich University, Norwich, Vermont. In the ninety-seven years since its beginning, it has come to be known as one of the most progressive nationals. Since its inception, one hundred and nine chapters have been added to make Theta Chi one of the oldest and largest college fraternities.

The Alpha Nu chapter was installed at Georgia Tech in the spring of 1923, and thus it has enjoyed its thirtieth birthday as a part of the Tech campus. Since its installation, the members of Alpha Nu have taken an active part in all school activities without losing sight of the fraternity's ideals of scholarship and brotherhood.

The chapter social calendar is always full. This year was highlighted by the opening of the new Theta Chi house at 840 Techwood Drive, and in the new surroundings the social life flourishes. The event that is enjoyed most of all, however, is the annual Carnation Ball at which time the "Dream Girl of Theta Chi" is crowned.

Theta Xi was founded on April 29, 1864, at Rensselaer Polytechnic Institute in Troy, New York. There are at present fifty-two active chapters and three colonies encompassing thirty-eight states, all of which shows the conservative and well organized growth of Theta Xi.

Beta Alpha of Theta Xi was established on the Georgia Tech campus in the fall of 1947. The charter was granted to Beta Alpha on January 27, 1951. Since our installation we have been striving always to maintain the high standards set for us by our founders eighty-nine years ago.

Socials are held when they do not interfere with the school activities, but yet, often enough to relieve the strain of college studies. Theta Xi has intramural championships in softball, football, basketball, and volleyball.

The climax of the year for us is playing Santa Claus for the unfortunate children of this area.

What a Party!!

The "Silver Streak"
IOTA DELTA CHAPTER

Since its founding at Union College, Hamilton, New York, on May 20, 1841, Chi Psi has grown to its present size of twenty-seven chapters. It was the fifth fraternity at Union where the Greek letter fraternity originated. Iota Delta was established at Tech on December 15, 1923.

Chi Psi encourages a well-rounded college life for its men. Emphasis is placed on scholarship, and a two hundred dollar scholarship award is given annually to the man in each chapter with the best scholarship record. Informal dances, house parties, and costume parties help maintain the social interests.

At Tech, Chi Psi is a relatively small fraternity, but in number of members only. The ties between the brothers are very strong, and the spirit of unselfish co-operation between the brothers ranks very high.

honoraries

Pete Dunlap, ANAK president, taps Dean Davidson at Homecoming Dance.
Omieron Delta Kappa, national leadership honor society for men, was founded in 1914 at Washington and Lee University, and the local circle was established in 1932. Members are selected on a point basis, a definite number of points being given for each honor or position attained by the student. When a student has amassed enough points and a definite scholastic average he is eligible for election. ODK ranks with ANAK as the highest honorary organization on the Tech campus.
The Georgia Tech ANAK Society was organized on January 1, 1908, to honor select men from the Senior Class who were outstanding among their fellow students by their achievements and services to Georgia Tech. ANAK has contributed, from its membership, many Tech men who have become leaders of national prominence. ANAK ranks with Omicron Delta Kappa as the highest honor a Tech student may receive.
The Koseme Society, established by ANAK in 1938, recognizes juniors and third-quarter sophomores who have been outstanding in extra-curricular activities. Not merely an honorary, Koseme each year undertakes several service projects, among them the preparation of the instructor-course list at the beginning of each quarter.

Phi Kappa Phi is the oldest national scholastic honor society on the Georgia Tech campus. Founded in 1897, it now has chapters in more than 50 colleges and universities. Membership in Phi Kappa Phi is awarded to those members of the senior class who are outstanding in scholarship during their first three years at Georgia Tech. The local chapter conducts the annual Honors Day exercises and awards a cup each year to the senior with the highest scholastic average.

Tau Beta Pi is the leading engineering honor society in the nation today. In 1925 the Georgia Alpha Chapter was installed on this campus and is today one of the largest of the ninety undergraduate chapters now in existence.

Engineering students who rank in the upper tenth of the junior class or in the upper eighth of the senior class are eligible for membership. The election of members is also based on excellence in leadership, character, personality, and service.

Tau Beta Pi is actively supporting the establishment of the campus radio station, WTYJ. The chapter also assisted Georgia Tech in co-sponsoring an Atomic Energy exhibit at the Crenshaw Field House this year.
Phi Eta Sigma, a national freshman honorary scholastic fraternity, was established at Georgia Tech in 1930. Membership in Phi Eta Sigma is the highest scholastic honor a freshman can attain at Georgia Tech. Only those men who have a point average of 3.5 for the first quarter, or an overall average of 3.5 for the entire freshman year are eligible for membership. Each spring the fraternity presents a cup to the freshman having the highest scholastic average for the first quarter.

The Briaerean Society was founded in 1912 for students of the co-operative department to promote high ideals and scholarship. Upperclassmen are selected for membership on the basis of scholarship, leadership, and character. Since the society was founded, over five hundred Briaereans have graduated from Tech and attained positions of leadership in all phases of engineering.

The Section I group attends school during the winter and summer quarters, while Section II attends during the spring and fall quarters. Men from each group work in industry while not in school.

Alpha Pi Mu, a national honorary industrial engineering society, was founded at Georgia Tech in the fall of 1948 as a society for the recognition of industrial engineers with superior abilities. The local chapter was granted its charter by the Student Council on January 25, 1949, and was recognized by the state of Georgia on March 17, 1949.

Membership is limited to juniors, seniors and graduate students of high scholastic standards, who possess traits of high leadership, character, and ethicality. Only those juniors who are in the upper one-fifth, and those seniors in the upper one-third of their classes are eligible.

Since 1937, the Industrial Management Society has selected those seniors and third-quarter juniors whose scholastic achievement, general campus leadership, and interest in the field of industrial management qualify them for membership in the departmental honorary organization.

Plant tours, talks by business leaders, occasional social events, and the unique annual Bullrymple Golf Tournament comprise part of the Society's activities.

In addition, the Society functions to stimulate interest among the student body in the field of industrial management, and to promote the friendly student-faculty relationships which mark the IM department.
Phi Lambda Upsilon was founded as an honorary chemical society in March, 1899, at the University of Illinois. A charter was granted at Georgia Tech in 1951. The aims and purposes of the society were from its inception "the promotion of high scholarship and original investigation in all branches of pure and applied chemistry." At the present time there are 46 chapters of the society at major universities throughout the nation, with a total membership of twenty thousand.

All students of chemistry, chemical engineering, and allied fields who are in the upper 20% of their class and who have an overall average of not less than 3.0 are eligible for membership. Election of members is on a scholastic basis and elections are held semi-annually.

Pi Delta Epsilon is the national honorary journalism fraternity at Tech. Its members are men who have served in an outstanding manner for at least two years on the staff of one of the four publications. It seeks to establish a code of ethics among the staffs of the individual college publications. Several projects are undertaken each year. Professor rating sheets were established by PiDE. PiDE also publishes a pamphlet explaining publications to incoming freshmen and plans to start putting out the student directory. Each year trophies and certificates are awarded to those men who have contributed the most to the individual publications and to all publications as a group.

Sigma Pi Sigma, the Physics Department honor society, endeavors to promote interest in physics through lectures and demonstrations which are open to the public. It sponsors the Physics Club and assists physics majors in their choice of electives outside the department. While membership is not strictly limited to physics majors, it is necessary that a candidate for admission take a sufficient number of junior and senior physics courses and maintain a superior academic average.
The national chapter of Tau Omega, a national honorary fraternity for Aeronautical Engineering students, was founded at the University of Oklahoma in 1927. The Theta chapter was installed at Georgia Tech on May 18, 1952, following six months of planning by the Aeronautical Engineering students. The purpose of Tau Omega is to create, foster, and maintain a spirit of fellowship and co-operation among the Aeronautical Engineering students; to promote scholarship; and to help to the best of its ability the progress of aviation. The requirements for membership are scholarship, character, and willingness to work.
student government

The Student Council in action.
The Student Council, which was first established in 1922, is the student government organization. It serves as the principal liaison agent between the student body and the school authorities and is the authoritative voice of the students. The Student Council controls the use of student activity fees and handles all financial matters involving the general student body. The council is also in charge of all elections of class officers and Student Council representatives. The members are elected by popular vote in the spring quarter of each year, with the exception of the freshmen who are elected at the first of the fall quarter.

The Blue Print, which is the official yearbook of Georgia Tech, is published by the students during the latter part of the spring term. Sections of each yearly issue are devoted to classes, faculty and administration, athletics, fraternities, features, and campus organizations in an attempt to present as complete coverage as possible of the various activities which take place on the Tech campus during the school year. For many years the Blue Print has ranked high in the field of collegiate yearbooks, having received in the last four years, two First Class and two All-American ratings.
The Georgia Tech Engineer is a technical publication issued by the students of Georgia Tech eight times each year. It contains reports of research by Tech professors, and other scientific articles by students and faculty, as well as articles on social and economic problems which confront the engineer at work in society. Staff work includes writing, art, and business management.

The *Yellow Jacket* is the Georgia Tech humor magazine. The main objective of the *Yellow Jacket* is to serve as an outlet for creative writers, cartoonists, artists, and photographers on the campus. Articles of technical or even semi-technical nature are of no concern to this publication. The expected results of the *Yellow Jacket* embrace all forms of enjoyment. The students who read the magazine do so for the pleasure that they receive, rather than for practical knowledge.

LEONARD O. HINTON . . . . . Secretary
CLARENCE W. WALL . . . . . Treasurer

The student chapter of the American Association of Textile Chemists and Colorists was originally formed on the Tech campus in 1935. The Association affords an opportunity for the student to become better acquainted with the chemistry and dyeing of textiles through the medium of motion pictures, field trips and speakers prominent in the textile field. Its purpose is to promote an increase in knowledge of the application of dyes and chemicals in the industry, to encourage research on chemical processes and materials of importance to the industry, and to establish channels through which the interchange of professional knowledge among members may be increased.

The American Ceramic Society was instituted on the Tech campus in 1926 as a student branch of the National Organization. The activities of the American Ceramic Society are numerous, some of which include frequent talks by prominent engineers and business men in the ceramic industry and participation in social functions. Thus the members are unified and led in the spirit of cooperation and fellowship toward a common goal of personal development and professional achievement.
The purpose of the student chapter of the American Institute of Chemical Engineers is to promote the professional development of students of chemical engineering. Further, A. I. Ch. E. endeavors to foster a professional spirit among its members and instill a professional pride in chemical engineering. The Georgia Tech chapter recognizes scholastic achievement by presenting annual awards to those who have distinguished themselves in chemical engineering, and, in addition, sponsors numerous social functions throughout the entire school year. Other chapter activities include lectures, movies and presentation of technical papers to the annual national convention.

The Georgia Tech Student Chapter of the American Chemical Society is affiliated with the national American Chemical Society. The national society was founded in 1876 while the idea of student affiliate chapters was adopted in 1937. The purpose of the society is to afford an opportunity for the students of Chemistry and Chemical Engineering in the Georgia Institute of Technology to become better acquainted, to secure the intellectual stimulation that arise from professional association, to secure experience in preparing and presenting technical material before chemical audiences, to foster a professional spirit among the members, and to install a professional pride in chemistry and chemical engineering.

The American Institute of Electrical Engineers was founded in 1884, when the possibilities of an organization which would foster and encourage electrical development were beginning to be realized. The objects of the institute are the advancement of the theory and practice of electrical engineering, maintenance of a high professional standing among its members, and the development of the individual engineer. The institute has contributed largely toward the remarkable progress that has taken place in the electrical field since the latter part of the nineteenth century. All branches of electrical engineering are represented in the membership.

The Georgia Tech Chapter of A. I. E. E. was established in 1915, and is one of 127 student branches in leading technical institutions of the country. Activities to stimulate student interest here include lectures, demonstrations, movies, tours, and an annual delegation to the national convention to present technical papers written by Georgia Tech students.

The American Institute of Industrial Engineers is a national organization for industrial engineers or professional men who are performing duties of the industrial engineering field. The student chapter of Georgia Tech was organized after the opening of the Industrial Engineering School on the campus in 1946. The aim of the Georgia Tech student chapter is to create, develop, and maintain a keen interest in the field of industrial engineering. To do this, an opportunity to further study the principles taught in the classroom is given to the members by having qualified speakers, illustrative movies, and plant tours to the many diversified types of industry in the Atlanta area. The chapter represents the School of Industrial Engineering in the various campus activities and functions and acts as an agent to its members for the dissemination of the latest industrial engineering developments.

The Georgia Tech Chapter of the American Society of Civil Engineers obtained its charter in 1924. All juniors and seniors in the Department of Civil Engineering are eligible for membership and all students of the department are welcome at the meetings.

The Student Chapter is active in obtaining movies, speakers, and sponsoring field trips which relate the theory of civil engineering to the practical methods of construction industry.
The Georgia Tech branch of the American Society of Mechanical Engineers gives the mechanical engineering student an opportunity to become better acquainted with the professional part of engineering by conducting weekly meetings. To these meetings are invited prominent engineers who discuss the current advances in engineering.

All mechanical engineering students are eligible for membership in A.S.M.E. Membership in this society is a real step toward acquiring professional standing in the engineering community.

ROBEY, W. F.
WILSON, J. M.
The Architecture Society, one of the most influential groups on the campus, is spokesman for the students in the School of Architecture. It is widely recognized as an important factor in maintaining high standards in student design through the lectures it helps to sponsor and the recognition it bestows upon outstanding students. During the past three years the school has been honored by the lectures of Hugh Stubbins, Marcel Breuer, and Frank Lloyd Wright. An important lecturer this year will be Walter Gropius of Harvard.

A festive occasion each year is the Beaux Arts Ball, sponsored jointly by the Society and its parent organization, the American Institute of Architects.

A student who joins the Society has taken the first in a series of steps that leads to active membership in the American Institute of Architects.

The Society for the Advancement of Management is the recognized national professional society of management people in industry, commerce, government and education. Representing no special interest, it is motivated by a selfless zeal to spread the benefits of scientific management wherever management is required. It has constantly adhered to the purpose of helping executives approach all phases of the management problem—Production, Distribution, Administration, Industrial Relations—in the engineering manner.

The student chapter of Georgia Tech was the first departmental society in the Industrial Engineering department, but has since opened its membership to all departments. Representation of all the engineering fields provides a more complete understanding of management problems.

The Society of American Military Engineers was organized in 1920 for the purpose of preserving and studying the experiences of the engineering profession in World War I. The purposes of the society are: to advance knowledge of the science of military engineering; promote efficiency in the military engineer; encourage, foster, and develop among military engineers and other arms of the military service a spirit of co-operation and mutual understanding of their respective duties, powers, and limitations; to hold meetings for the presentation and discussion of appropriate topics that should be helpful and of interest to the organization’s members.

There are eighty-five posts throughout the country in larger cities and colleges. The Georgia Tech Student Post was chartered in 1942, and is composed of Army, Navy, and Air Force R. O. T. C. cadets.

Kappa Kappa Psi is the national honorary fraternity for band members. It was founded on the campus of Oklahoma A&M College, and now has chapters all over the country.

Iota Chapter at Georgia Tech was founded in the early twenties, and has been active ever since. Membership is based primarily on musical ability, although leadership and band activity play a large part in the selection of members. The chapter sponsors an annual banquet for members, their wives and dates, as well as an occasional wiener roast or barn dance. The A. J. Garing Award is presented annually by Iota Chapter to the outstanding graduating senior in the Tech band.

The Activities Council strives to acquaint all Tech students with the various organizations on the campus. Each fall the Council presents the annual Activities Fair, where students have an excellent chance to learn of the projects and work of many different activities. Each organization has a member who serves as Councilman and prepares the project for his activity to be presented at the fair. During the past year the Activities Council accepted and performed many new duties and responsibilities which were for the betterment of all campus organizations and Georgia Tech as a whole. The past success of the Activities Council clearly shows that it will be a mainstay here on the Tech campus for many years to come.

PEAY, J. H.

ACTIVITIES COUNCIL
The St. Patrick’s Council was organized in the early part of 1950 on the Georgia Tech campus. The purpose of its organization was to promote the interest of the Georgia Institute of Technology and the several honorary and professional societies within its academic schools, departments, and divisions. Its primary undertaking at the present time is to promote, plan, develop, and coordinate all of the several activities leading up to and including Engineer’s Week celebrations, to the end that such societies shall be encouraged to compete in their contributions to the professional developments of management, engineering and science students.

Members are elected by the active honorary and professional societies in their prospective fields.

The purpose of Alpha Phi Omega is to assemble the men of Georgia Tech in the fellowship of the Scout Oath and Law, develop friendship, leadership, and association among Scout trained men, promote service to the student body and faculty, to youth and community, to members of the fraternity, and to the nation as participating citizens.
The Georgia Tech Camera Club was organized for the benefit and instruction of the many amateur photographers in the student body. The club maintains an adequately equipped darkroom which is available to all members.

The activities of the club include instructive lectures by well known photographers, Visual-Aid movies, planned model nights, field trips, and two salons each quarter. One of the interesting highlights of last year was a visit to the Academy of Charm during which many glamorous professional models posed for the cameras of the members.

Members receive the best possible instruction in the quarterly salons. At this time well known Atlanta photographers judge and criticize the prints and color transparencies submitted.

As in previous years, the Bulldog Club was again one of the campus' leading organizations. The members are selected from the most outstanding juniors and seniors. The Bullypup's colorful initiation in the fall and spring of each year is a campus tradition.

The club, with the help of the Athletic Association, sponsored and directed all intramural sports contests. It is responsible for the annual Homecoming weekend, which includes the Homecoming decorations contest, the Homecoming dance, the Freshman Cake Race, and the Ramblin' Reck Parade.
The Chinese Club, which is composed of Chinese students enrolled at Georgia Tech from here and abroad, was organized on the campus in the fall of 1948. All Chinese students are encouraged to join and participate in all the club’s activities.

The purpose of the club is the promotion of mutual understanding and good fellowship among all students, be they foreign or native. It is thought that only with such an organization could there be smoother harmony and a better resolution of the conflicts which divide the East and West. It is hoped that the Chinese Club has met with some measure of success in that endeavor.

The Circle K Club was organized on the Tech campus in 1950 by its parent organization, the Northside Kiwanis Club of Atlanta. Membership being based on leadership, service, and character, the group has endeavored to promote various worthwhile activities.

Being a member of a rapidly expanding organization, sponsored by Kiwanis International, the club at Tech was the sixteenth one organized. To date the Tech Club has been instrumental in the formation of new clubs at Emory University and St. Louis.

With a growing membership and service as its main theme, Circle K is constantly striving to be one of the most progressive and useful groups on the campus.
The Co-op Club was organized in 1915 by a group of outstanding co-op students for the purpose of promoting interest in co-op activities and fostering a spirit of fellowship among students in the Co-operative Department. This club is one of the oldest social organizations on the campus. Members of the Co-op Club are selected from upperclassmen of the Co-operative Department who are outstanding in leadership and character, and who have manifested an interest in co-op activities.

The Co-op Club is divided into two sections, each representing the separate sections of the Co-operative Department.
Section I is active during the winter and summer quarters, and Section II is active during the fall and spring quarters. Although the two groups are entirely separate, co-operative spirit is their primary purpose and close harmony is maintained to achieve this.

Members of both sections of the Co-op Club are heavy competitors in scholastic and extra-curricular activities. This competition has led co-op students to attain higher levels of scholastic nature. Both of these units rank high on the campus as social and scholastic groups.

DramaTech was founded in the year 1946 to stimulate student interest in dramatics and to give potential engineers a chance to develop their acting abilities. Last year the club took a great step forward by constructing a "theatre-in-the-round" in the Crenshaw Field House, and achieved striking success with their first two presentations, "Yellow Jack," and "The Milky Way." Also in the works of the club this past year is the widely acclaimed, "Stalag 17." The club annually presents three plays, one per quarter, thereby giving their audiences a very diversified bill for their entertainment. This past year the club has been under the very capable guidance of professional director, Gerald Appy.

FLYING CLUB

OFFICERS

JOHN MCDONALD . . . . . . . President
CARL HITCHCOCK . . . . . . Vice President
LARRY LYMBURNER . . . . . Secretary
SID POWERS . . . . . . . . . Treasurer

By providing low cost flying and instruction, the Georgia Tech Flying Club gives every air-minded Yellow Jacket the opportunity to further his aviation interests. Actual flying, coordinated with interesting basic ground school subjects, provides all the requirements for becoming a licensed pilot. Through the cooperation of the Aeronautical Engineering Department and the College Inn operating costs are kept at a minimum. In the near future plans call for installation of a more powerful engine and night-flying equipment in the club’s Aeronca Champion aircraft.

The Tech chapter of the Geechee Club was reorganized in 1946. It was composed largely of returning veterans. Since then it has been one of the outstanding independent organizations. Its chief purposes are to give the students from the Savannah area an opportunity to work together and to arrange rides to and from Savannah. Several parties are planned during and between quarters.

The Georgia Tech Glee Club, some forty voices strong, has in the last few years become one of the top organizations on the campus. Under the able direction of Mr. Walter Herbert, the Glee Club spent its fourth New Year's season in a row away from home when they climaxed a wonderful southern tour by singing in the famous Blue Room of the Roosevelt Hotel, New Orleans, on New Year's Eve with orchestral support from Tommy Dorsey.

The New Orleans appearance was preceded by a tour to Miami, Florida, in 1951, Greenland, Newfoundland, and Bermuda in 1950, and to Europe for the Armed Services Christmas of 1949.

As you can see from this glittering record, the Glee Club is the most widely traveled group on the campus, and there are definitely bigger and better things in store for the Singing Engineers.

DICKENSON, R. D. MOSS, J. G.
The Tech Management Club is the student organization of the Industrial Management Department embracing all fields of Industrial Management work. Its membership is open to all Industrial Management juniors and seniors. The members and advisors are greatly interested in all Industrial Management students participating in this club so that they might learn firsthand about the management side of industry. The club now boasts a membership of over one hundred, which is one of the largest in its history.

During the school year the club sponsors many activities of interest to the student of Industrial Management. Some of its more outstanding activities are talks by outstanding industrial leaders, field trips, and social events.

The Georgia Tech Radio Club is primarily an organization of enthusiasts of amateur radio. Its primary aim is to promote the general welfare of its members and to maintain an active interest in communication by amateur radio. To fulfill that aim, the club owns high-powered transmitters which cover all the active "ham" bands. This equipment is in the club "shack," which is located in back of the Civil Engineering Building.

A second purpose of the club is to provide instruction in the principles of amateur radio for aspirant "hams," to enable them to qualify for the required government license. Code practice machines, lectures, and training films accomplish this purpose.

The final goal of the club is to provide a common meeting place for those interested in radio, so that they may become acquainted with each other, exchange technical information, and become members of a radio brotherhood at Georgia Tech.
This year the Ramblin' Reck Club has been very successful in carrying out its purpose of developing enthusiastic school spirit. The pep rallies held by the club during the football season were highlighted by the spectacular "Beat Duke" bonfire rally which was attended by more than two thousand students. The club also sponsored the Ramblin' Reck contest during the fall and the "Stunt Night" program during the spring. In addition to these activities the Ramblin' Recks set forth and enforced the requirements of the freshmen "rats."

The Spiked Shoe Club is a national honorary track and field society. Membership is composed of outstanding lettermen on the varsity track and cross country teams. Spiked Shoe has as its purpose the fostering of competitive athletics in track and the growth and recognition of track and field events. Each year Spiked Shoe sponsors the intramural track meet and also officiates at high school field and track meets.
The Georgia Tech Chapter of Toastmasters' International, founded in 1950, was the first college chapter among the hundreds of Toastmasters' Clubs.

Toastmasters' is more than a club—it is an education. It is specially useful on a technological campus, since it seeks to improve, through practical experience, the ability to speak in public. Weekly, through planned programs, members deliver prepared and extemporaneous speeches, thus constantly improving their power of speech.

W.T.Y.J., the Student Voice of Georgia Tech, is a limited radiation standard type broadcast station, operated by Tech students for Tech students. The station presents music, news and sports on a nightly 4-hour schedule, plus programs from the Intercollegiate Broadcasting System. Future plans for the station include permanent studios in Glenn Hall and a remote studio on the main campus.
The Baptist Student Union serves as the link between Tech's nine hundred Baptists and the local churches, promoting not only Sunday School and Training Union but active participation in the local churches' organizations. On the campus the B. S. U. sponsors vespers, discussion groups, intramural athletic teams, a choral group, a bi-weekly newspaper, and other organized activities, in addition to offering social, recreational and religious facilities at the B. S. U. Center.

In cooperation with the B. S. U.'s of other Atlanta schools, the Tech group furnishes workers for local mission endeavor, donating Thanksgiving baskets to needy families, and sponsors Christmas parties for underprivileged children.

As a club of Catholic culture and Catholic fellowship, the Newman Club is organized in order to deepen the spiritual and enrich the temporal lives of its members through a balanced program of religious, intellectual, and social activities; to weld the Catholic students into a common union; and to assist the college and its students whenever possible.

The Georgia Tech chapter of the National Newman Club Federation was established in 1928. Since that time, under the spiritual guidance and assistance of its chaplains, the Club has been cited as the campus organization which most nearly achieved the purposes for which it was founded.

Center of Club activities on campus is the Newman House, adequately equipped with intellectual and recreational facilities. In addition to weekly meetings, activities include corporate communions, spiritual retreats, lectures, discussion groups, parties, dances, picnics, and outstanding participation in the intramural sports program.
Is everyone happy?

The Georgia Tech Wesley Foundation is the official agency of the Methodist Church at work on the Tech campus. The organization is housed in the Methodist Student Center located at the corner of Fourth and Fowler Streets. The purpose of the Foundation is to provide a program that creates a greater personal relationship with God, and continues to strengthen those ties with the church, made in youth, which assure full Christian maturity.

Activities of the Wesley Foundation include participation in Intramural sports, Student Conferences, Deputations to other Colleges, Wesley Singers, Worship programs, Community Service projects, and World Friendship aid to foreign colleges. These activities are administered by a Student Council under the direction of the Director of the Wesley Foundation.
The "Y" Camp near Roswell is open to any group on the Tech campus. Located near a mountain brook and equipped with barbecue pits and a rustic lodge, the camp has become a very popular place for picnics and all-day outings.

Again this year a Freshman Camp was conducted before Orientation Week to help the incoming freshmen become acquainted with each other as well as with the activities of the Y. M. C. A.

The Sigma Y Phalanx group enjoys a wiener roast.

Jerry Cox entertains on the guitar at the Freshman Camp.

President Van Leer at the Freshman Camp.
The Georgia Tech Young Men's Christian Association, often called the hub of student activities, is interested in every phase of student endeavor. To improve and aid in developing the varied aspects of campus life, a variety of program activities are sponsored by the "Y."

The Phalanx Clubs have been sponsoring such projects as hayrides at the "Y" Camp located near Roswell, Georgia, preparation-for-marriage discussions, the Freshman Camp, the "T" Book, free movies, and the student-faculty luncheons. The Recreation Council conducts weekly dances, the Camp Committee contributes much to the development of the camp, and the Society for Religious Inquiry continues its search for religious understanding.

All these groups are co-ordinated by the Y. M. C. A. Cabinet.

Louie Prima at the spring I. F. C. Dance.

SPRING 1952

Courtesy of Esquire Inc.
Everyone likes to dance! This year the Interfraternity Council held its big dance of the year with Louie Prima providing the music for all of the fraternity men to enjoy. The informal dance Friday night was held on the tennis courts and then on Saturday all of the Greeks moved over to the City Auditorium to end up the weekend with a big formal which turned out to be quite a success.

The year was climaxed for the Co-op Club with their annual “Perfect Lips” dance. Miss SuEllen Holiman was crowned as “Miss Perfect Lips of 1952” while Bobby Henson and his orchestra furnished the music for the evening’s entertainment at the Crenshaw Field House.
Engineers' Week is sponsored each year by the St. Patrick's Council. It provides a means of showing to the general public practical applications of various phases of engineering. Crenshaw Field House is the site of the actual exhibits with the entire Tech campus playing host to the many high school students and the public.

First place went to the Civil Engineers for their working model of a sewage disposal plant. Second and third places were won by the Ceramic Engineers and Textile Engineers respectively.
WEEK

1952 STUNT NIGHT
INTERFRATERNITY SING

Sponsored by the Rummblin' Reck Club, Stunt Night enables us to unleash our "creative" talents. Each year the Fraternities and Independents produce skits that range from the sublime to the ridiculous. This spring Alpha Tau Omega won first place with SAE and Beta Theta Pi running second and third.

The Interfraternity Sing is sponsored by the I. F. C. and provides an outlet for the abilities of our more talented students. Beta Theta Pi was proud possessor of the most musical vocal cords this year with Sigma Chi and Phi Delta Theta following in that order.
David William Harris, president and a director of Universal Oil Products Company, Chicago, Illinois, delivered the address at the 69th Commencement Exercises of the Georgia Institute of Technology, on June 9, 1952, at the Fox Theatre. Mr. Harris is an alumnus of Georgia Tech, having graduated in 1912.

President Van Leer conferred degrees on 1068 graduates with 968 Bachelor, 94 Master of Science, and six Doctor of Philosophy degrees being awarded.
The Sigma Chi Reck takes first place at Homecoming celebrations.
One of the highlights of the fall quarter is homecoming, which is that time of the year when the Tech alumni visit their alma mater amid all of the festivities of a mardi gras. The fraternities decorate their houses and build a bucket of bolts they fondly call a Reck. The decorations carry out the theme of defeating Tech's opponent in the football game of the afternoon. The houses are judged for their originality and appeal, this year's winner being Lambda Chi Alpha. ATO and Sigma Nu tied for second place with the Beta's taking third place.
The Ramblin' Reck Club sponsors the Ramblin' Reck Parade on the morning of Homecoming. Classes are let out for this exciting affair and the campus is soon crowded with alumni and students watching the Greeks coax their entries down Third Street. Prizes are presented to the best Recks, and this year Sigma Chi's entry took top honors. The Ramblin' Reck Club also sponsors a cake race which the Tech freshmen are "invited" to participate in, the winner receiving a cake. This year's race was won by Al Butler.
RECKS

The Phi Epsilon Pi's proudly present their Reck.

The Sigma Nu Reck predicts rough sailing for the Commodores.

Al Butler happy yet exhausted after winning the freshman cake race...

The gallant stalwarts stream out of Rose Bowl on the first lap of the cake race.

John Longford and the Theta Chi Reck...
During the half time at the football games, many and varied forms of entertainment are presented, and this fall was certainly no exception. The highlight of the season was the exhibition presented by the famous circus of FSU. The “Million Dollar Band” of the University of Alabama gave its usual sterling performance. The Engineers also were entertained by opera star James Melton, and a fancy drill team composed of naval air cadets from Pensacola, Florida. The Tech Band and its mascots were on hand each Saturday to aid in the festivities. The army mule, mascot of the cadets of West Point, added humor as well as a flair of the unusual.

WINTER
1953

Courtesy of Esquire Inc.
To a capacity crowd in the Tech gym, the faculty officially "let down their hair" in the first Faculty Fracas. Held to promote interest in W. S. F., the event could be called no less than a complete success.

Under the emceeing of "Gorgeous George" Griffin, "talent" emerged from strange places indeed, as is evidenced by the scenes pictured here.
An Allison engine and a turbo-jet engine, part of the Mechanical Engineers’ display.

The Civil Engineers took top honors with this combination dam, water flow, and power plant.

Is this where nylons come from?
For the second consecutive year, top honors in Engineers' Week went to the Civil Engineers. Main attraction at the C.E. exhibit was an originally designed working dam and power plant model; added attractions were models of the Golden Gate Bridge, a new type of concrete suspension bridge, and the Leaning Tower of Pisa.

Just behind the bridge builders came the Architects and Industrial Engineers who won the second and third prizes respectively.
PARTIES...

IN MEMORY OF the fall quarter, the Parties Pictures have been appropriately placed at the trailing end of the winter quarter section.

Though the Era of the T (not for Tech) Party produced its share of festivities, many Techsters still wanted to be shown 100% proof of the evils of the days when “George” was only Mr. Thomas’ first name.

Albert Fowlkes has troubles with his tail at the ATO Hell Party.

This foursome is enjoying a Serenade at the Pi Kappa Alpha house.

The SAE’s roll up their carpets for a formal dance.

The ATO's demonstrate the proper techniques of constructing a Reck.

So you thought the rest of our photography is poor!!!

Miss Julia Adams obliges some autograph seekers at the Fox Theater.
Our Advertisers

The BLUE PRINT Staff wishes that every person of the Georgia Tech Campus would patronize the advertisers. They have contributed much to the success of our yearbook and have also shown themselves to be very loyal Tech supporters. It will be greatly appreciated if the students will mention the BLUE PRINT when buying from the advertisers.

_Happy Memories!

Heartiest congratulations from the Atlanta Biltmore, where you and yours have enjoyed many a happy hour. We hope you will return again and again to partake of our unique combination of indoor and outdoor attractions . . . and to you who still remain at Tech there is no need to re- mind you of all the advantages afforded by the Biltmore, not only as a comfortable hotel but as a place for joyous entertainment._
