ALPHA SIGMA CHAPTER

The Kappa Alpha Order was founded in 1865 at Washington and Lee University, at the time when General Robert E. Lee was president of this school. Using the great southern hero's life as a guiding light of their own, the men of Kappa Alpha have made it one of the leading national fraternities. The seventy-seventh active chapter was added this past fall to the "Grand Old Gang," which extends from coast to coast across the central and southern portions of our country.

Alpha Sigma is now in its fifty-fourth year on the Tech campus, and its present membership has upheld the tradition of active participation in social and campus activities.

But Kappa Alpha places emphasis on scholarship as well as "campusology" and strives to maintain its usual position above the all-school average.

The past year was highlighted by an "Old South Ball," held in the spring, the Christmas party, the Convivium, which is a celebration of Robert E. Lee's birthday, the spring house party and the winter formal.

ALPHA TAU CHAPTER

Founded at the University of Virginia in 1869, the Kappa Sigma fraternity has grown until it is now the third largest college fraternity in America. With a total of 126 active chapters in the United States, Canada, and Hawaii, Kappa Sigma is known and represented on every part of the continent.

The Alpha Tau chapter of Kappa Sigma had its beginning here at Georgia Tech in 1895. It is the third oldest fraternity on the campus.

The chapter has now been in its new, seventy-five thousand dollar house for two years. With its annual Black and White formal, house party outings, house dances, and rush parties, Alpha Tau chapter is definitely a leader in the social phase of life at Tech.

On the other hand, scholarship, leadership, and sportsmanship all receive a great deal of attention from the brothers. The fraternity is always well represented in the many honorary societies on the campus and has long been a leader in the intramural sports program.

BETA KAPPA CHAPTER

Lambda Chi Alpha Fraternity was founded in 1909 at Boston University. Now it has matured into one of the largest social fraternities in America. It boasts a total of one hundred and forty-four chapters and three colonies in forty-three states and three provinces of Canada. Although one of the youngest of national fraternities, Lambda Chi Alpha is already rich in tradition.

The Beta Kappa Chapter was established at Tech on October 6, 1942, after its honorable and enviable record during its affiliation with the old Beta Kappa National Fraternity.

Some of the chief assets of Lambda Chi Alpha are its spirited and aggressive leaders, its proud traditions, and the true brotherhood within the chapter.

Men of Beta Kappa Chapter will be found in scholastic and honor societies, student government, school athletics and publications, and many other campus activities at Georgia Tech.

With a highly successful rush season and many interesting parties and dances, Beta Kappa has enjoyed a very successful year.

A hilarious (?) skit!

GEORGIA DELTA CHAPTER
Founded in 1848 at Miami University in Oxford, Ohio, Phi Delta Theta has grown into an international fraternity with over 80,000 members in 115 chapters located throughout the United States, Nova Scotia, and Canada. Besides leading all other fraternities by having the most members selected as Rhodes scholars and All-American football players, Phi Delta Theta has prominent members in every field of endeavor, including the presidency of the United States.

The Georgia Tech chapter, Georgia Delta, founded on June 4, 1902, has constantly strived to uphold the principles upon which Phi Delta Theta was founded. As in the past Georgia Delta was represented in campus organizations, honorary societies, and student government, varsity athletics and publications.

The social life was upheld by the house parties, dances and numerous parties held during the year. Again, Georgia Delta enjoyed a successful year on the Georgia Tech campus.

XI CHAPTER

Since the beginning, at College of the City of New York on November 23, 1904, Phi Epsilon Pi Fraternity has grown to its present membership of well over 10,000 members, 37 active chapters, and 35 alumni associations. Phi Epsilon Pi has chapters in Canada and at all leading colleges in the United States. The national headquarters are located at Philadelphia, Pennsylvania.

The Xi Chapter now active on the Tech campus was founded January 15, 1916. Xi's fraters hold high positions in campus affairs and can boast of National Activity Cups for all these achievements. Social life has been held high with the Phi Ep's starting Rush Week, Homecoming, Dream Girl Dance, and finishing up with the IFC Week-end. Scholarship is at no time disregarded but rather kept on an honorable level promoted by a chapter scholarship trophy. The Phi Ep's participate in intramural sports with great spirit and sportsmanship both of which are part of our high ideals.

In the past 38 years, the Phi Epsilon Pi Fraternity has made itself well known on the campus and will continue to uphold its high traditions of brotherhood, activities, and scholarship.

GAMMA TAU CHAPTER

Founded at old Jefferson College (now Washington and Jefferson) at Canonsburg, Pa., on May 1, 1848, Phi Gamma Delta is the thirteenth oldest Greek-letter society in America. Its solemn vows have been taken by more than 50,000 college men, of whom 40,000 are living. There are 81 undergraduate chapters in leading institutions of higher education in the United States and Canada, with graduate groups in more than 100 cities.

Phi Gamma Delta was chartered here on the Georgia Tech campus in 1926, as an outgrowth of a local fraternity known as Gamma Tau Delta. Except for a brief period during World War II, we have remained firmly entrenched here ever since.

A fraternity analyst, not a member of Phi Gamma Delta, writing an appraisal of our fraternity for the magazine of still another fraternity had the following to say:

"Phi Gamma Delta has today about 45—or 57 percent—of its chapters that are preeminent or in the top 15 percent in the order of importance on their campuses. No other fraternity quite equals this."

ALPHA NU CHAPTER

Phi Kappa Sigma was founded at the University of Pennsylvania on October 19, 1850. The Alpha Nu Chapter at Georgia Tech was established in 1904 and was one of the first fraternities on the campus to own its house.

It is the policy of the fraternity to be conservative in expansion, and there are now forty-four chapters in the leading colleges and universities throughout the United States and Canada. Although Phi Kappa Sigma maintains a relatively small chapter at Tech, one can always find a Phi Kap in the midst of any worthwhile activity.

Alpha Nu is now in the best condition that it has been in many years.
The Phi Kappa Tau Fraternity, founded at Miami University, Oxford, Ohio, 46 years ago, was originally intended only for the campus at Miami. It has grown from one chapter to the present seventy-one chapters and colonies, and today ranks among the nation's top fraternities with a membership exceeding 20,000.

Phi Kappa Tau was installed on the Tech campus in 1929 when Pi Lambda Delta, a local fraternity, received its charter as the Alpha Rho Chapter. Since that date Alpha Rho has made an enviable record at Georgia Tech in scholastic, athletic and social activities.

This year the Alpha Rho Chapter of Phi Kappa Tau celebrates its 25th anniversary on the campus of Georgia Tech and looks forward to many more years of progress.
How'd she get in there?

KAPPA DEUTERON CHAPTER

Phi Sigma Kappa was founded in 1873 at the University of Massachusetts. It attracted as its first students men of the pioneer spirit and of high purpose. From such a group was Phi Sigma Kappa organized.

The growth of Phi Sigma Kappa has been conservative. From an unpretentious beginning it has expanded to 66 chapters. More than 27,000 students have been enrolled as members.

Kappa Deuteron Chapter was founded March 15, 1923 at Georgia Tech. It was an outgrowth of a local fraternity named Delta Sigma Kappa which was organized by a group of men who were living together in a boarding-house.

Inasmuch as our chapter at Georgia Tech is one of the smallest on the campus, we have formed a very close-knit organization. We feel that in order to have the intimate feeling of brotherhood which is necessary to successful fraternity life, we must keep our number small.

For the academic year 1952-53 Kappa Deuteron Chapter not only led the field in scholarship for each quarter, but we also had the highest fraternity point average on the campus for the year. The men in Phi Sigma Kappa are active in many other organizations.

The past year has been a very successful one for our chapter. Some of the activities that we held during the year were a Testimonial Dinner, House Party, and our annual Bad Luck Party on a Friday the 13th.
Pi Kappa Alpha was founded at the University of Virginia in 1868. It was at first a southern fraternity but in 1909 it became a national fraternity. With its more than one hundred ten chapters, it is one of the largest fraternities in the United States in both membership and chapters. PiKA is established solidly in brotherhood at America’s finest colleges and universities. Pikes pride themselves with their many prominent members during the past and the present.

The Alpha Delta Chapter was founded in 1904 here at Georgia Tech, and has since planted its banner solidly. This year we celebrated our 50th year on the Tech campus. The Chapter owns its house on Techwood Drive where home life and recreation are provided for its members. Pi Kappa Alpha encourages academic achievement and campus activity and is justly proud of the record of its members.

The Pike house is the scene of many colorful parties the year round. These social functions are high-lighted by the Possum Hunt every fall, its annual Black and White Ball during the winter when the “Dream Girl of PiKA” is crowned, and their mountain house party every spring.

IOTA CHAPTER

Pi Kappa Phi was founded at the College of Charleston, Charleston, South Carolina, in December, 1901. It now has forty-six undergraduate chapters and thirty-three alumni chapters in the United States and Canada.

The Georgia Tech chapter of Pi Kappa Phi was granted a charter in 1913 and has since been active in all school activities. The fraternity's activities include full participation in scholarship, social, and athletic events. The most famous of these are the Pi Kappa Phi Founders' Day Celebration every December, and its annual Rose Ball at which the "Rose of Pi Kappa Phi" is presented.

Backed by an enthusiastic alumni association in Atlanta and the largest pledge class since the war, Iota is on its way back to being the "tops" on the Tech campus.
In the ninety-eight years since its founding at the University of Alabama on March 9, 1856, Sigma Alpha Epsilon has steadily increased in size and standing in the college fraternity world, and is recognized today as one of the leaders among college fraternities.

SAE now has 136 active chapters in all of the forty-eight states and the District of Columbia, and over 85,000 initiates.

SAE was the first fraternity to inaugurate a leadership school, to which promising underclassmen are sent each year to be instructed in all phases of college and fraternity leadership.

The second fraternity to be installed at Tech, the Georgia Phi Chapter has always been in the vanguard of the campus fraternities. The chapter is represented in every phase of campus activity, with its members taking part in all varsity athletics, student government, honorary societies, publications, and dramatics.

True to its tradition as a leader among the fraternities here at Tech, SAE was off to a fine start this year, highlighted by an excellent rush season, winning first place in the homecoming house decorations contest, and an outstanding touch football team.

Scientists triumph over tigers' brawn
Sedate, but it's early yet.

Well, we tried.
In the 98 years since its founding at Oxford, Ohio, on June 28, 1855, the Sigma Chi Fraternity has grown to become one of the largest college fraternities today. There are 123 active chapters, including three in Canada.

The Beta Psi chapter was founded at Tech in 1922 and is now one of the foremost fraternities on the campus. Last year through the efforts of all, actives and pledges alike, Beta Psi won the coveted Interfraternity Council cup, which signifies the outstanding fraternity in interfraternity competition. After its entry had won the “Ramblin’ Reck” Parade, the chapter went on to win championships in swimming, cross country, golf, bowling, and tennis.

The highlights of the social calendar include the Sweetheart Ball, the Miami Triad, and the Spring Formal. At this year’s Sweetheart Ball, Margaret Burwell received the cherished White Cross, signifying her as the Sweetheart of Sigma Chi.

GAMMA ALPHA CHAPTER

The first chapter of Sigma Nu was founded at the Virginia Military Institute at Lexington in 1869. During the latter part of the nineteenth century, it rapidly expanded to national scale and was recognized throughout the country as a group of mature college men with high ideals and a deep sense of honor. Now Sigma Nu has grown to a total of 106 chapters throughout the nation with every major college represented.

The heart of our fraternity is fellowship, the congenial companionship of men with mutual interests and ideals. Through this fellowship we strive to create better men and better citizens.

The chapter at Georgia Tech was founded in 1896 and has functioned as an integral part of the school ever since. It is active in all phases of college life and each member feels a deep sense of responsibility toward their chapter and their school. Nearly all campus organizations are represented in the chapter and as a result, Sigma Nu at Tech has played a leading role in all developments and activities on the campus. The chapter tries to keep its enrollment within certain limits so as to have complete fellowship among all the brothers and to insure a tightly banded group of men united in common interests and ideals.

Every member in the Gamma Alpha Chapter of Sigma Nu here at Tech strives to maintain its high level of fraternal spirit and is proud to call himself a Sigma Nu.

Sigma Phi Epsilon was founded in the year 1901 at the University of Richmond in Richmond, Virginia. Georgia Alpha Chapter was chartered on the Georgia Tech campus on April 1, 1907. Sig-Ep has grown in the last fifty-two years to become one of the largest national college fraternities in America. Over 42,000 members in 123 chapters throughout the country have made the fraternity what it is today. The aims of Sigma Phi Epsilon are to grow in strength and to build character and leadership in all its members.

The outstanding social events of the year are the “Sig-Ep Golden Heart Formal” and a weekend house party in the spring. Hayrides, house dances, costume parties, and the pledge party given to the active chapter by the pledges just before the Christmas holidays round out the social calendar.

Scholarship, as well as participation in sports and campus organizations, is stressed at the SPE house.

No, she's our sweetheart!

Laugh while you can — pledges.
PHI CHAPTER

The Phi chapter of the Tau Epsilon Phi fraternity was established on the Georgia Tech campus in 1922, and since its inception has been one of the leading fraternities on the campus.

The boys are not only first rate athletes, but first rate in all campus activities. During the past school year the boys have brought their fraternity into the finals of the intramural sports competitions, and have placed first in their classification in the Red Cross blood drive and the Old Newsboys' campaign.

In addition to this great fraternity spirit, the boys also have wonderful school spirit. Tau Epsilon Phi is proud to number among its members leaders in Tau Beta Pi and Phi Eta Sigma.

The brothers are also active in the Bulldog Club and in the Pershing Rifles, Air Force Drill Team, Drama Tech, and Alpha Chi Omega. The fraternity is well represented in the professional societies on the campus; among these, Delta Kappa Phi, Phi Psi, the American Ceramic Society, and the Architectural Society. Members are also to be found on the staffs of the Yellow Jacket and the Technique, and also on the cross country and gym teams.

"Tep" can certainly be classed as one of the all-around fraternities on the Georgia Tech campus.

**BETA PI CHAPTER**

Tau Kappa Epsilon was founded on January 10, 1899, at Illinois Wesleyan University. The Beta Pi Chapter was founded here at Georgia Tech in 1948. TKE, although still among the smaller fraternities on the campus, is one of the larger national fraternities, having at present over one hundred chapters and twenty-one thousand members.

The local chapter has recently remodeled the interior of the chapter house and at present is undergoing a period of rapid expansion. TKE is known as the "fraternity for life" because it is not only a home at college but also a place where lifelong friendships are made.

The members are in various campus organizations and honor societies. "Tekes," as they are known, well deserve the recognition the school has given them.

Theta Chi was founded in 1856 at Norwich University, Norwich, Vermont. In the ninety-eight years since its beginning, it has come to be known as one of the most progressive nationals. Since its inception, one hundred eleven chapters have been added to make Theta Chi one of the largest college fraternities.

The Alpha Nu Chapter was installed at Georgia Tech in the spring of 1923 and thus it has enjoyed its thirty-first birthday as part of the Tech campus. Since its installation, the members of Alpha Nu have taken an active part on school activities without losing sight of the fraternity's ideals of scholarship and brotherhood.

The chapter social calendar is always full. The events that are enjoyed most of all, however, are the annual Carnation Ball which takes place during the winter quarter and at which the “Dream Girl of Theta Chi” is crowned; and the house party which is held during the spring quarter.

Theta Xi was founded on April 29, 1864, at Rensselaer Polytechnic Institute in Troy, New York. There are at present fifty-two active chapters and three colonies encompassing thirty-eight states, all of which shows the conservative and well-organized growth of Theta Xi.

Beta Alpha of Theta Xi was established on the Georgia Tech campus in the fall of 1947. The charter was granted to Beta Alpha on January 27, 1951. Since our installation we have been striving always to maintain the high standards set for us by our founders eighty-nine years ago.

Socials are held when they do not interfere with the school activities, but yet, often enough to relieve the strain of college studies. Theta Xi has intramural championships in softball, football, basketball, and volleyball.

The climax of the year for us is playing Santa Claus for the unfortunate children of this area.
The letters, ISO, stand for Independent Student Organization. The ISO is a member organization of the NISA, National Independent Student Association. This group was formed on the Tech campus in the early part of 1948. It is an inexpensive organization that sponsors social activities and intramural sports, open to everyone who is not a member of any social fraternity. This organization is devoted to helping its members to become well rounded in their college life.
