SCABBARD AND BLADE

The supreme goal, the highest achievement of all the brass shining, mirror-gazing officers of the Army, Air Force and Navy is the National Society of Scabbard and Blade. It is composed of men who have proved, in the eyes of the military, outstanding leadership and intelligence.

There is a national military honorary society. The principal aim of the organization is to promote a feeling of unity among the military leaders and to maintain a high standard in the military activities of the corps. This year Scabbard and Blade brought Louis Armstrong and his orchestra to Atlanta for the annual Military Ball.
The Arnold Air Society is one of the youngest of college honor societies. The members of this society are selected from Air Force R.O.T.C. advanced students with at least a "B" average in military and who show outstanding interests and abilities as Air R.O.T.C. cadets. The organization is designed in purpose to promote closer and more efficient relations among students of the Air Force R.O.T.C. program.

First Platoon.
Pershing Rifles is a fancy drill team which is a national society of the college Army R.O.T.C. units throughout the nation. All members of the organization have joined of their own free will and have met the standards and qualifications of good citizenship and discipline as set forth by the founder, John J. Pershing. Pershing Rifles, wearing their white leggings, white gloves, and white helmets, represent Georgia Tech and the Army R.O.T.C. in drills and competitions.
Although the name might be new, this organization has been quite active around the naval unit for the past few years. The purpose of the council is to foster spirit and unity in all of the midshipmen's extracurricular activities. Members of the council organize and help administer the unit's participation in intramurals. The annual Navy Ball in the fall and the Spring Picnic are direct results of this organization's labors.

Membership is determined by election from all four classes. The officers of the Council are elected by the members.
Military Glimpses

Caught Off Guard

Summer camp isn't all work.

Linwood Roberts, right, counts his bulls' eyes.

Some work; some play.

Testing the hams of England.

Mo, Joe, and Smoe.
