

Globalization & Innovation & Development

The Sam Nunn School of International Affairs and the Center for International Strategy, Technology, and Policy proudly present the Globalization, Innovation and Development speaker series. This series provides insight into the dynamics of innovation and economic development in a globalizing world. Our aim is to engage Georgia Tech faculty and students with cutting edge research from a multi-disciplinary perspective and encourage new research activities and collaboration. Participants in this series are both leading and promising researchers, and will spend a day at Georgia Tech to meet faculty and students in addition to presenting their current research.

We cordially invite you to join us in this truly exceptional program. A reception follows each presentation.

Co-Sponsored by the Industry Studies Program
of the Alfred P. Sloan Foundation

J P Singh, Georgetown University

“Negotiation and the Global Information Economy”

11:00 AM, Thursday, March 26, 2009

Neely Room, Georgia Tech Library

J. P. Singh is Associate Professor at the graduate program in Communication, Culture and Technology at Georgetown University and Editor of the Wiley-Blackwell journal *Review of Policy Research*, the politics and policy of science and technology. He is the author of *Negotiation and the Global Information Economy* (Cambridge 2008), *Leapfrogging Development? The Political Economy of Telecommunications Restructuring* (1999), and co-editor of *Information Technologies and Global Politics* (with James N. Rosenau, 2002). His current book projects are: *The Arts of Globalization* (Columbia, forthcoming) and *United Nations Educational, Scientific and Cultural Organization: Creating Norms in a Complex World* (Routledge, forthcoming). He has also authored over three-dozen scholarly articles. He has been a visiting scholar at the World Trade Organization in Geneva and the New America Foundation in Washington, DC.
