P&I E Holds Contest For Student Writers

Prizes to Be Given for Winning Short Story and News Article

The Tech chapter of Pi Delta Epsilon has just announced plans for a Writers Contest which it will sponsor on the Tech campus. The contest has been divided into two—short story and news story class. The writer of the winning story prize of $7.50, and there will be but one winner in each class.

At the end of the contest, which will last two weeks, the prize-winning news story will be published in THE TECHNIQUE, and the best short story will appear in "The Yellow Jacket." The purpose of the contest, according to the Pi D E contest committee, is to stimulate interest in the campus publications and to discover new journalistic talent at Tech. The rules for the contest, as drawn up by the committee, appear below:

General Rules

1. The contest is limited to those Georgia Tech freshmen, sophomores, and juniors who are not connected with the editing staff of any publication.

2. All entries in both classes must be typed and double-spaced on one side only of regular typing paper. Each entry must be labeled either "short story" or "news story" at the top of the first page; the contestant's name must appear in the upper right-hand corner of each page.

3. All entries must be placed in Georgia Tech Post Office box 1245 by 1:00 p.m. Friday, April 10, 1942.

Short-Story Rules

1. Story must not exceed 1500 words.

2. Story must be suitable for use in a Tech yearbook.

3. There are no restrictions as to plots or types of material which can be used in the story, except those of material which can be used in the story, except those

News-Story Facts—(Ed. Note: The following mixed-up facts are to be used in all stories that are entered in the News-Story class of the Pi D E Writers' Contest; they do not relate true happenings.)

The three-story air-flat Rambler Apartment House, located at 200 North Avenue, burned to the ground at 2:19 this morning. The only persons in the building at the time were Mr. and Mrs. Henry S. Smith and their roomer, George P. Burdell, who lived on the third floor. The other tenants were away on vacation trips.

The fire was discovered by Mrs. Smith at about 2 o'clock. She was awakened by the crying and coughing of her 6-months-old baby, Susan. When she opened her eyes, she found that the room was full of smoke. She awakened her husband, called the baby, and started for the front door. Mr. Smith shouted to Burdell and followed his wife. When the front door was opened, a cloud of smoke poured into the apartment and overcame Mrs. Smith. While Mr. Smith was trying to resuscitate his wife with cold water, Burdell went to the back room and found the outside stairway in flames. All escape seemed cut off, and Burdell, taking his revolver... (Continued on Page 6)

Clean Up Week Begins April 19

Atlanta's annual "Clean Up, Paint The Town, Fire Prevention" campaign will be tapered during the week of April 10-13, under the auspices of the city police, fire and sanitary departments of the city of Atlanta.

"This year's campaign, more than ever before, calls for a united cooperation," said Mrs. Segovia, director of the drive, "because the Federal Government has need for all waste paper, old metal and many other types of materials which can be used in the drive."

The city police, fire and sanitary departments have pledged cooperation in this year's drive. Department trucks will pick up and carry away all debris.

A new feature, brought on by the war, will be lectures by fire department officials on dealing with incendiary bombs. (See Editorial, Page 2)

Stamp Selling Is the Berries," Scott

Total Defense Stamp Sales Amount to $100

According to Bierd and Blaisdell and President Ed Scott, the Defense stamp sale sponsored by Bierd and Blaisdell did not go over as well as was expected. However, said Scott, "the sales amounted to approximately $100,000, which is pretty good for the Tech students in the middle of the month."

The sale was highlighted by the presence of Miss Barbara Dillon and Miss Mary Katherine Timmons, who graciously offered their assistance for the patriotic sale. The main event was the "payoff" when several boys received kisses as a reward for their purchases. "If everyone had been rewarded in the same manner," said President Scott, "Uncle Sam would have taken in enough money to pay off the national debt."

WILLIAM VVATT. Barbara Connolly, Warren Terry are shown in a scene from "Pirates of Penzance," Gilbert and Sullivan opera which will be put on by members of Agnes Scott and Tech Glee Clubs Friday and Saturday nights at Agnes Scott's Presser Hall.

Tech, Scott Give Opera

The Georgia Tech Glee Singers, in collaboration with the Agnes Scott Glee Club, will present Gilbert and Sullivan's "Pirates of Penzance" tonight, Friday, March 27, and tomorrow night, March 28. The performance, in Presser Hall at Agnes Scott, will start at 8:30 P.M.

Mr. Warren Lee Terry, of the New York stage, will take the leading part, namely, that of the Major General. He has spent the past week directing the final rehearsals. Other principal parts will be sung by students of Agnes Scott and Georgia Tech.

Last year these groups gave "Pianofors," also by Gilbert and Sullivan, and this year the two choirs combined to present a Christmas Carol program.

The opera is one of the major attractions on the Tech Glee Singer schedule for this year. In preparation for it, both musical organizations have been practicing both separately and jointly since the Christmas holidays. Tickets are on sale at the Tech "T." The price for reserved seats is 50c and general admission is 40c.

23 Will Attend Press Convention

Tech will send twenty-three delegates to the Southern Federation of Student Publications and Press Representatives to be held next week in Baton Rouge, Louisana, decided in student council meeting Wednesday night. An appropriation was made to send representatives from the council.

Delegates to each publication was an equal sum to be used to send the editor, business manager, and the editor and business manager for the next year, who will be elected next Wednesday. Also going to the convention will be two members of the staff of "Sam-O-Tech," the summer weekly. Delegates will be housed in dormitories on the Louisiana State campus. A report on the proceedings will be held for each delegate, and this fee will include meals and lodging.

Student Council Finalists Given

Next Monday the Student Council election finals will be held in one of the closest political contests seen in many years.

The campaign began last Monday with the primaries, after which two-twenty-two men remained in the running. The unusual feature of the primary results, and the cause of much speculation, was the even split between the two parties in the final list.

Of the two-twenty-two in the final list, they will be elected in the other half being divided as follows: five juniors, four seniors, their wives, four sophomores, and two freshmen. While the candidates are members of the above stated classes, they are running for senior, junior, and sopho-
Let's All Take Part In 'Clean-up Week' Campaign

In cooperation with Atlanta's annual "clean-up" week, THE TECHNIQUE is asking all Tech students to pay particular attention to the welfare of the present emergency. Uncle Sam today needs our help more than ever before. Everything we can do in cooperation with the effort, whether it's operating a machine gun or saving old paper, brings war nearer victory. If each student would make a concerted effort to clean up the campus as well as his fraternity house or dormitory, not only would he improve the appearance of the college, but he would be effectively aiding the defense drive to conserve paper.

Except for a few spots, our campus is little more than a sea of waste paper besprinkled with hundreds of paper cups. The same is true of neighboring Cherry Street. The campus is a garbage dump on the east side of Cherry Street.

We hope the student body will take this opportunity to accomplish two jobs in one.

G. E. K.

National Defense
Not A Simple Matter

(By Associated Collegiate Press)

"The task of winning this war is relatively simple. Only one relatively simple one of accumulating arms, munitions, ships, soldiers, and all the other means of destruction. It is also one of mastering a steady flow of intelligent, well-educated, conscientious, skilled citizenry into the population. The safety of our country, which is a matter of life or death in time of war, is therefore a matter of life or death in time of peace. The mechanized citizenry, adequate in every way, is the foundation for our young people, and proper consideration of the problems of a post-war world. To weaken the educational system today is as at any time to increase definitely and materially the vulnerability of the nation." -President Alexander G. Root of the University of Michigan urges its institution to maintain its teaching standards and keep together its teaching staff.

Great Men Are Men Aflame with Energy

Great men are men aflame with energy. They are invariably tremendous workers. It is said that in one year dynamic Mussolini grabbed audiences to 60,000 people—more than 1,000 a week or 150 a day. During the same year he had almost two million papers laid before him by his secretary. And this was only a part of the work he did!

Almost every man can do more work than he thinks he can. Walter Pittkin says that the average man can double his output. He tells us that there is more power in an atom than man can measure, and more work laid up of billions of atoms. So we have no reason to feel weak or powerless.

What we need to do is awaken our latent powers. The spark that sets these powers aflame is a great ideal, purpose, or aim in life.

Dirty Politics Shows Poor Sportsmanship

Last Monday morning the primary election of Student Council was held. The Tech campus was literally covered with signs and posters of many types. The signs were of all sorts and sizes, and it takes lot of time to make them. It is very bad sportsmanship to tear up these signs without your permission, which is the American way. Your action should be met with the same action. The Student Council would like to take this opportunity to remind Tech students that all advertising space must be in the hands of the Business Manager.

Ramblin' Wreckonings

By MAXWELL W. SHATZEN, JR.

Free Cures

Most of you have attended a performance of Ringling Brothers' Circus and you have witnessed clowns and acrobats leaping through the circular hoop of fire. Until recently, your reporter has always felt that such a demonstration was well worth the admission price, but last week be changed his views, for here on Tech's very own campus he witnessed the identical performance free of charge and from a ring-side seat. It was in Organic Qual. Lab. That the performance came to pass, and it was Chemist Schilcher who was operating an oil heating-bath at 250 degrees Centigrade, when something gave way and hell broke loose. The oil spilled and burst into a perfect and complete circle of fire similar to that which surrounded the ring of fire in the Ringling Bros. circus. Well, sir, you never saw so many Schilchers and Shambaugh smothering such agle agaricines in all your life.

Long-Haired Loyalty

Of course, you too have probably witnessed a couple of customs marks as you walked behind an attractive dwarf, and you, too, were probably charmed when she turned around and you observed that she was 15 years older than the Ringling Bros. dwarfs. The small white card which you found by your elegant dinner plate.

Music-loving Morton gave Trect and Barbara Benning to enjoy the efforts of the Cincinnati Symphony Orchestra. Of course, they were enchanted by the music but they both were simply gur-poor about the harpist. So "Rocky" Morton then took the train to see the harpist before he left. The girls were much, much disappointed—(why do harpists have to be so eld?) But, at a distance, he
New "Y" Directors
Are Dr. Broyles, Gibson, Winship

Besides the student officers who were elected in the recent Tech Y.M.C.A. election, there was also elected a new board of directors of the "Y". The results of this election have just recently been released.

The three men who were chosen as members of the Tech Y.M.C.A. Board of Directors are as follows:

Mr. George Winship, who served on last year's board and was re-elected.
Mr. Gibson, pastor of the North Avenue Presbyterian Church, was elected to serve on the board for the first time. He has been a friend of Tech students and has always shown interest in the Tech "Y".
Mr. Broyles, a prominent Tech alumnus, is president of the Morris Plan Bank. He has long been interested in boys' work and is also a member of the Board of Directors of the city Y.M.C.A.

Dr. Broyles Added
Zeta Phi Epsilon, brother of Sigma Phi Epsilon social fraternity, here in Atlanta, is planning to distribute an "I'm a Y with the Tech Y.M.C.A. Board of Directors. The work on the campus".

A.Davison's

Naval Unit Grad Decorated for Fine Work on Submarine

Recently decorated for extraordinary heroism at Honolulu was Ensign Schottler. He was a member of Sigma Phi Epsilon social fraternity, and is president of the Tech Y.M.C.A. Board of Directors. The work on the campus.

Kappa Alpha Yachting Party
Will Sail Tonight at Gardens

M. S. Schottler was a member of the Tech Y.M.C.A. Board of Directors. The work on the campus. Ensign Schottler expressed the hope that "Dr. Broyles is a man who will strengthen the 'Y' work on the campus."

MISS MARY HILL, MISS BETTY MATTHEWS AND MISS PATTY BARBOUR will lead the Kappa Alpha Yachting Party tonight with their dates respectively; Charlie Turner, retiring president; Doug Kolos, vice-president, and Jack Kouns, president-elect.

Sailor Costumes Will Be Featured at Nautical Ball

The Kappa Alpha's will entertain with their annual Yachting Party which will be held at Peachtree Gardens. Dancing will take place amid a gay panorama of nautical flags and costumes. Bill Clark and his band will sound off with "Anchors Aweigh" at nine o'clock and the good ship, "K.A.," will sail the briny deep for a very merry four hours. All persons reporting aboard the ship are expected to be clad in the uniform of the day (anything nautical).

Buffet Supper

Before the cruise the members and pledges will entertain their dates at a buffet supper, and immediately after dropping anchor all members and their dates will convene at the Ship Ahoy for an early morning snack.

Chaperones

Other members and pledges attending are Charlie Turner, president, with Miss Mary Hill; Doug Kolos, vice-president, with Miss Betty Matthews; and Stokes Ramsaur, secretary, with Miss Elea Jones.

Chaperones for the dance will include Dr. and Mrs. M. L. Brittain, Mrs. R. T. Speer, all of Atlanta.

Chaperones for the dance will include Dr. and Mrs. M. L. Brittain, Mrs. R. T. Speer, all of Atlanta.

O.D.K. Point Reports
Due on April 1

In order to receive credit for ODK points for this year, campus organizations must turn in their reports to the personnel office in Swann Hall not later than April 1.
ON THE DIAMOND The opening of Tech's baseball season is just one week away, and we're beginning to wonder just what kind of team the Jackets are going to put on the field this season. Things look none too bright. We've lost all but two of last year's regulars, including some of the best ballplayers that ever dug a cleat into the Rawhide turf, Jimmy Keyes, last year's slugging star, now plays for the Cardinal chieftain, Howard Burpo, pitcher, outfielder and slugger, graduated. Pluto String catcher, graduated. Things look pretty bad, but by the time the umpire calls play ball, we'll have a team on the field that will look something like this; Walt Laxton at first, Bonyai at second, McNinney at short, and Oliver, our pitching mainstay, and Buck Stevens, star outfielder, are now ineligible. Shortstop Johnny Bosch is in the Army, and Cowboy Shaw, first-baseman, is in the Navy. The Tech freshman squad, will also see action against his old teammates.

FAREWELL TO BASKETBALL Those big court tourneys at Kan­dle Field are scheduled to begin the first week away, and we're beginning to wonder just what kind of team the Jackets are going to put on the court this season. After the long, hot summer ahead of us, we'll welcome the diversion that football brings all the more.
Baseball Line-up Complete As Team Prepares for First Game

Team Will Be Further Strengthened If SEC Council Allows Freshmen to Participate in Varsity Classes

Those ball plugging some of Tech's fans were surprised to find that Tech will soon be at it again. The varsity lineup is getting into shape, and the line-up most likely to click is: for catcher, Harper, or Crawford alternating at third base, Bonyai holding down shortstop, Snyder and Crawford alternating at third base, Quick at left field, Young in center position, Vanden Hevel in right field, and Forrest Smith, Boc­cieri, or Brock doing the pitching.

All tech enthusiasts at Georgia Tech may have the use of all eight courts, "said Coach Bortell in an interview this week. "Due to bad weather the courts could not be surfaced for one hour at some later time during the middle of April to decide the court surface."

"The freshman team," said Coach Bortell, "has the best prospects of any in several years and should furnish several good varsity players for next year." Among these freshmen are several prep-school champions, and their experience should be invaluable in collegiate competition.

"The varsity schedule is as follows: April 3, Clemson, here; April 4, Mississippi, here; April 6, Presbyterian, here; April 11, Alabama, there; April 17, Vandy, there; April 18, Kentucky, there; April 24, Alabama, here; May 7-9, S. C. Tournament, New Orleans."

The tentative freshman schedule is as follows: April 1, Clemson, here; April 4, Mississippi, here; April 6, Presbyterian, here; April 11, Alabama, there; April 17, Vandy, there; April 18, Kentucky, there; April 24, Alabama, here; May 1-3, below.

NOTICE!

Seniors, check your senior write­ups for the BLUE PRINT on the main bulletin board in the administra­tion building. Cards will be available in Mrs. Taylor's office for correction on Monday and Tuesday, March 30th and 31st.

Tech Is Host to Statewide Inter-American Affairs Meet

“How Can We Best Implement The Good Neighbor Policy” Is Subject

This Saturday, March 28, Tech will be host to the other colleges in the State of Georgia at the district conference of the National Extemporaneous Discussion on Inter-American Affairs. Early this spring similar conferences are being held in most states all under the sponsorship of the Office of Coordinator of Inter-American Affairs.

At two-thirty on Saturday afternoon, in the Tech Y.M.C.A., several round table discussions will commence on the general subject: How to best implement the Good Neighbor Policy. Selected representatives of the various schools will participate in these forums, covering the general topic in a well-directed manner. Tech speakers are Holton Harris and Edgar Howard.

The outstanding participants of the afternoon discussions will be invited to give short talks in the evening, starting at eight o’clock in the Y.M.C.A. auditorium. The public is invited to attend both afternoon and evening gatherings, and members of the listening audience are encouraged to participate in the evening forum.

Some of the objectives of the Office of Coordinator of Inter-American Affairs are to promote Inter-American friendship and cooperation; to stimulate a nationwide study of Inter-American affairs; to inform the general public concerning relations in this area; and to formulate solutions for international problems.

In endorsing these programs the national President Roosevelt stated that “Now, under the impact of the defense emergency — it is more important than ever that the people, and particularly the students in our colleges and universities, be encouraged to assemble freely to discuss our common problems . . . . this is one of the freedoms that we are determined to defend.”

A.S.C.E. Has Firm Executive Speak

The Georgia Tech chapter of A.S.C.E. held their latest meeting on Wednesday, March 18, in the Civil Engineering building. The speaker during the meeting was Mr. Wiedeman, the engineering firm of Wiedeman and Singleton.

“People will be plenty of engineering jobs open after the war for civil engineering graduates,” said Mr. Wiedeman. He also added young civil engineers get to as much varied experience and to travel as much as possible. In the business meeting, the chapter decided to hold a hayride on April 11.

The honorary civil engineering society, Civil Crew, held its annual banquet and initiation last Tuesday night in the O.D.K. banquet hall. Initiated were E. Owen, P. Rose, A. Zucarelli, B. Burk, J. Ross, and C. Shankford. The speaker for the evening was Doctor Snow, head of the C. E. department.

class is composed of Mr. Glenn Rainey and Mr. Comer, professors of English, and John Fullenlove, editor of “The Yellow Jacket.”

4. Stories will be judged on the basis of originality and interest.

News-Story Rule

1. News story must not exceed 400 words in length.

2. Story should be written in standard news inverted style, presenting the most important facts first and subordinating the less important facts. The ideal story will be one in which each paragraph is more important than the one which precedes it, less important than the one which follows it.

3. The story should answer specifically all the questions that the reader would ask.

4. All stories in this class must deal with only those facts which are presented in the column adjacent to this article under the heading, “News-Story Facts.”

5. Stories will be judged on the basis of style and the ability of the story to hold the attention of the reader.

When the fires were started, it was Brown Dormitory, which was awakened by the shots, saw the smoke, and telephoned to the fire department.

When the firemen arrived, a crowd of students and neighbors had gathered and were trying to keep Burdell from going back into the burning building to rescue Mr. and Mrs. Smith lying on the second floor, overcome by smoke. They were rescued and uninjured.

The building was completely destroyed—loss $50,000. The fire is supposed to have been started by spontaneous combustion in a closet in the rear of one of the second-floor apartments.

The federal government is spending $5,000,000 on college ROTC units for the year ending June 30, 1942.
