Tech to Be Guest on Sat. Eve
At Presentation of “Pinafore”

Army-Navy Exams March 15 At Tech

The third Army-Navy College Qualifying Test for the Army special-
ized training programs and the Navy college program, which will be
given throughout the country on Wednesday, March 15, at 9:00 a.m.,
will be administered at the Georgia School of Technology. Dr. M. L. Brit-
tain announced today a list of general information which should be
an admission-identification form may be obtained at the Personal Office.
This form, properly filled out, will admit to the test students between
the ages of 17 and 21, inclusive, who are high school graduates or who will be
graduated before June 30. The student must take the test in order to be
accepted as some­

Naval ROTC Men Get Commissions

Sixty-eight students of the Advanced Naval ROTC will be com-
missioned as ensigns in the U. S. Na-
al Reserve on March 1, 1944. The awar-
dees are: N. D. Ball Jr., J. T. Arnold, G. B. Beckus, J. S. Bal-
dingham, P. R. Boutilier Jr., F. C. Paul
Jr., E. F. Bell, R. E. Bruce III, S. F.
Bayes, J. R. Gorman, W. G. Co-
ngers, J. E. Council, J. C. Faulkner,
A. E. Geyette, W. B. Gibson, J. B.
Henderson, M. G. G. Hinton, E. A.
Green, H. J. Hailey, J. W. Herb, A.
W. James, C. W. Jones Jr., L. C.
Kline, L. H. Knox, S. R. Kryszak.
J. E. Little, W. C. Mabry, J. J. Man-
ning, F. E. Martin, S. B. McGe-
lee Dr. M. Stillwell Jr., J. W. Williams, D. L. Wil-
lson.

The following students will also be
commissioned:

F. A. Baker Jr., W. B. Breece, T. W.
Kirkpatrick, D. D. Fitts, W. E. Gau-
sen, W. M. Griffith, W. H. Griffin,
Jr., H. K. Johnson, R. H. Peterson,
J. S. Pate, C. E. Parker, C. A. Pye, Jr.
J. R. Bell, R. E. Bruce III, S. F.
Bryan, J. R. Cearman, W. G. Co-
lledge, J. E. Council, J. C. Faulkner,
Mr. University student council spokes-
man,
in the minds of the American people for quite some time. What's more striking and interesting to note is the wonderment of the people as to how it can be an everlasting peace, or at least for more than 25 years. We do not profess to have a solution, but when that day of reckoning does come there are certain things we must bear well in mind.

We, like all Americans, have a clear-cut and definite idea and picture as to what kind of world we'd like to live in. By all means, nothing like a Hitler or Hirohito domination or anything of the sort. Consequently, we must take definite and precise steps to insure that after this war another "land of the rising sun" or "schicklegruberland" will not arise out of the turmoil and ruin of this war to menace the peace-loving nations of the world again.

First and uppermost in all our minds we must remember the Jews and all their offsprings. We have no scruples or morals to go by except the instinct to molest, torture, and kill. We paid dearly to find that out by the loss of the courageous men at Corregidor. The Germans didn't at Rotterdam, nor did the Japanese at Pearl Harbor.

But we are proud that we were able to resume publication last summer, after almost all hope had been given up for our survival. We are proud that we have fought prejudice between service men and civilians, and even between branches of the service. We are proud of the efforts we have made to carry through the present system of make-up and revamped an old idea, that of adjoining Tech students. We are proud of the aggressive editorial policy we have endeavored to follow. From the beginning, the Technique was made to be a "clearing house" for all types of information, rumors, and decisions. The Technique staff has long recognized that Tech possesses and supports a free editorial policy. We are proud of the aggressive editorial policy that Tech possesses and supports. It is due.

The Technique's loss of Professor Ajax, who always kept the paper informed on administration decisions and military changes, Miss Griggs accepted the responsibility to keep Tech informed of her status with the service. She has done that job well and has also prepared bulletins and statements for The Technique for the protection of our students. Miss Griggs has done more than her duty for her service to Georgia Tech. To the Army and Navy officials we give our thanks for their help. Without such help we could never have reached so many of the students as we did.

In leaving we must also express a little pride and make a few apologies. We are proud that we were able to resume publication last summer, after almost all hope had been given up for our survival. In Tournament Seedings

With the approaching of the end of the current cage season, the major interest for the past two semesters—only hope that our readers, both of them, will not have occasionally receive some information and entertainment from this publication or to the lower ranks with Uncle Sam. The latter is most probable. We've enjoyed serving as Sports Editor and columnist completely in charge.

**THE FINAL PARAGRAPH:**

The SEC 1944 tournament is scheduled for March 2, 3 and 4 in Louisville, Kentucky. These games for next season, including Mississippi, Vanderbilt, Alabama, Kentucky, L.U.C. and Clemson.

Only six schools, Georgia Tech, Vanderbilt, Louisville, Kentucky, L.S.U., and Clemson, will be represented in this tournament. Other schools in the conference, including last year's champions, Georgia, L.S.U. and Vanderbilt, the only other teams entering, are expected to be eliminated early in the tournament. None of these quintets have had a very impressive season.

Tech's chances for winning the tournament will be made clearer tonight when the Jackets play the Cardinals at the Georgia Tech Coliseum, in a local gym. This Fort Benning team, composed of former college and professional basketball stars, is expected to be one of the strongest in the Southeast. Coach Keith believes that if the Jackets come out victorious in tonight's contest, Tech's chances for winning the tournament will be made clearer tonight when the Jackets play the Cardinals at the Georgia Tech Coliseum, in a local gym. This Fort Benning team, composed of former college and professional basketball stars, is expected to be one of the strongest in the Southeast. **Swimming Squads Lose Contest To Athens' Preflight Aggregation**

**Tankmen to Engage Dukesters Saturday**

Georgia Tech's tankmen lost to the Georgia Navy Preflight swimming team, 60-90, last Saturday afternoon, in Athens in a meet in which swimmers strove best suited to sustaining life on the open sea or rescuing an injured comrade were substituted for swimming strokes best suited to sustaining life in the pool.

The cadets won the free-style relay, the medley relay, and the underwater shuttle.

Only those scores meets are scheduled for the Georgia Tech swimming team this season. Tomorrow night the Jacket tankmen meet Duke in a return meet in the Tech pool. Previous to our team defeated the Blue Devils in a meet in Durham.

Next Saturday afternoon the Tech swimmers meet Athens Preflight in a "rat race" here, while Saturday night swimmers meet Athens Preflight in a meet in Durham.

**Jackets Win Games Over Mercer, GMC**

The Jackets got back into their habit of winning basketball games last week-end, when they defeated Mercer Friday night, 67-35, and Georgia Medical College, 68-45, Saturday night in games played in Mercer and Augusta.

Although handpicked by the slick floor at Mercer, some observers say that the Engineers reached their sea-floor at Mercer, some observers say that the Engineers reached their sea-

Upper Ten Suffers Most By Rationing

(ACP)—It's the cavies and truffle fanciers, not the red beans and rice folks, who have the most complaints about rationing.

That is the conclusion 17 Newcomb College students have drawn after knocking at doors all over New Orleans to find from housewives what difference point rationing has made in their choice of foods. The survey results were reported in The Tulane Holla-Ha.

Conducted under the direction of Miss Elizabeth K. Nottingham, assistant professor of sociology at Newcomb, the survey revealed that rationing has made very little change in the eating habits of lower income groups, but that higher income groups, accustomed to more lavish diets, felt the cramps of rationing strongly.

"We found, in general, that people were eating more vegetables and less meat, and more fresh food and less canned food," Miss Nottingham pointed out. "Some people told us they were 'most-eaters' and so felt the hardships of rationing—but many also commented that they had been in the Army and felt they had no right to complain about such minor hardships as rationing."

To make the survey, Miss Nottingham said, the girls visited every thirteen- block designated block of each census tract in order to cover all income levels of the city. Only housewives were supposed to be included in the interviews.

"In one area—the Irish Quarter—we found it a bit difficult; most of the people eat in restaurants rather than at home," she said.

Last Laugh!

When Field Marshal Rommel inspected Denmark's defenses a few weeks ago, a crowd of Danes waited for him to emerge from his Copenhagen hotel.

Rommel came out and drove away. The Danes remained. Next police tried to break up the crowd, and finally acted out of sheer desperation.

"Oh, we are waiting for Montgomery," was the reply. "He always comes along right after Rommel."

Shortage of Nazis To Pursue Physics

(ACP)—Speaking of physicists—the Nazis would seem to be suffering from a more serious shortage of people than ourselves. The Office of War Information in Washington has learned that only two students enrolled for the physics course at University in Nazi-occupied Holland which institution opened for its fall term. This information was not reported to OWI until last week, when a Dutch underground newspaper leaked the great news out of Holland.

Normal instruction for the course before occupation authorities demanded "declarations of loyalty" from Dutch students, was 250.

Notice

This is the last issue of The Technique for this semester. Publication will be resumed one week after the new semester begins, on March 6th. Several members of the staff are making this their last issue. To those the TECHNIQUE wishes the best of luck.

AST Program Has Long Range Plans

"The purpose of the Army Specialized Training Program is not continued entirely in the needs of the present war effort. Close examination will show that it has a long-range objective—the development of the full benefits of the coming peace," said General Thomas A. Terry, commanding officer of the Second Service Command Center.

"It was announced that perhaps the last meeting of the Council would be held the next Thursday night. A motion was made and passed that this be a dinner meeting, and a committee was appointed for arrangements. The editors of the Technique and Blueprint and their respective business managers announced that recommendations for their successors would be presented to the Council at the following meeting."

Due to the leaving of the senior officers of the Council, an election of officers will be held at that time also.

Plans were discussed for the making of all business begun by the council this term. The meeting then adjourned.

President Wesley Paxson, Treasurer Connor Weaver, Editor of the Technique, John Gatley, president of the I.F.C; Locke Thomison, editor of the Blueprint; Ed Huffman, business manager of the Technique, and Jack Baldwin, business manager of the Blueprint, are the members of the Council leaving at the end of the semester.
