Three Seniors Honored by Anak Society

George W. Milling, meteorologist of the University of Georgia, is one of the three seniors who are honored by the Anak Society, a social fraternity, at the Tech dining hall today. The other two initiates are Don Johnston, economist of the University of Georgia, and Billy Dean, public relations director of the Tech.Y.M.C.A.

ANTICIPATION—Two dancers! Hearts were all a-flutter with the news that Miss Helen Aycock would be dancing with a certain Sooner for the First Jackson舞会. That's what do you want to hear? "Ish Kabibble!" To Henry Swift who did the samba, to Shep Fields saying, "Come on here Sully Mason," and "Two's a crowd," wafting down West Peachtree.

I N BRINGING to Georgia Tech one of the finest series of dances in the history of the Inter-Fraternity Council, the organization and the members of the dance committee are due the sincere thanks of the student body. Under the able leadership of the president of the Council, Henry Swift, the dance committee, composed of Henry Swift, Billy Evans, Sid Nell, and Lawrence Hayes, was able to secure Shep Fields and Kay Kyser, whose excellent music, combined with the carefully arranged programs, made these dances so outstanding.

The decorations committee departed from the customary decorations of the Army, with the result that the dances were more than the usual dozens of uniforms. The decorations committee, led by the able leadership of the president of the Council, Henry Swift, the dance committee, composed of Henry Swift, Billy Evans, Sid Nell, and Lawrence Hayes, was able to secure Shep Fields and Kay Kyser, whose excellent music, combined with the carefully arranged programs, made these dances so outstanding.

For more than a decade the Army Inter-Fraternity Council has brought to school two sets of dances—the Mid-Terms and the Senior Prom. Among graduates, the Mid-Terms were the most effective ever. These strikingly different decorations transformed an Army and basketball court into an attractive ballroom and were contributing factors in making the Mid-Terms the success they were. The decorations committee is to be congratulated on their fine work.

THE TECHNICAL SCHOOL WITH A NATIONAL REPUTATION

EMIGRANT DIEST

E. J. W. D. S.

THE DONKEY he are a funny bird.

And a hell of a lot of he are kick.

Said the tutor to the tooters:

"A Technical School With a National Reputation"
Knickerbocker And Raymond Visit Tech

Last Friday morning, the Tech students were provided with an unusual program. Through the efforts of Dr. Brittain, we had with us Mr. Knickerbocker, a Spanish revolution correspondent, and Alex Raymond, creator of Flash Gordon.

Mr. Raymond was the first to address the enthusiastic audience, and his drawing of the characters of his famous strip provided unusually good entertainment for the eager Tech men who watched his magical fingers at work. He apparently concluded his entertainment and was ready to "sign off," but his admirers could not let him go until he had portrayed a rocket ship.

Mr. Knickerbocker held his audience spellbound with his accounts of the adventures which he had as a correspondent. Bombs falling and machine guns spattering out death and destruction were all a part of Mr. Knickerbocker's work. His several narrow escapes were told in such a manner that he actually seemed to have taken Spain and brought it before the eyes of all who heard him.

A figure-finder at Northwestern University has discovered that rainwater dissolves the structures in 72,000 years. Students danced so hard during the Charleston rage some 10 years ago that Indiana University officials were forced to prohibit dancing in the Student building for fear the buildings would shake down the structure.

Lehigh University chemistry students break more than 14,000 test tubes every year.

All-Star Faculty Is Selected By Profs.

Philadelphia, Pa. (ACP) — When sports writers had finished their all-star picking, the University of Pennsylvania faculty took advantage of the fall and did a little choosing on its OWN account—but not in the sports field.

Given the opportunity of voting for a mythical all-star faculty of ten members from all the history of the world and from any field of knowledge and work, faculty men and women of the Pennsylvania selected Dr. Albert Einstein, Socrates, Plato, Aristotle, Da Vite, Shakespeare, Galileo, Newton, Darwin, and Pasteur. Dr. Einstein is the only living man included.

A CHURNING flood had taken out the telephone line across a Colorado stream. Repairmen couldn't wade it because of quicksand—couldn't cross elsewhere and bring back the line because of obstructions.

Then Kayo's master had an idea. He went upstream, crossed, came back and whistled. Kayo jumped in—swam right to him. He hauled in a cord tied to his collar. Winding this cumbersome wire was soon pulled over—communication was restored.

A small incident. But it typifies the ingenuity which helps Bell System men and women to give you the world's most dependable telephone service.

5. Have a college education, although in special cases of merit candidates who did not quite graduate may be considered.

Aviation Cadets are selected by a Board of Naval Officers who travel throughout the South and meet in the principal cities. Each candidate will be advised of the dates and places of the meetings of this Board.

Candidates who are interested in this excellent and unusual aviation opportunity and who feel they can meet all requirements are encouraged to obtain further information from the Naval Unit on the campus or to write the following addresses: Senior Member, Naval Reserve Flight Selection Board, Naval Air Station, Pensacola, Florida.

Anak Taps Three
Seniors at Dances
(Continued from page 4)

Mit FitzSimmons
Mit is an outstanding man on the Tech campus. Captain of football team, all-Southern guard for two years. Member of T Club, Bulldog Club, Athletic Board, and a member of the Phi Delta Theta social fraternity.

Billy Dean
Billy Dean is a member of the Student Council, Bulldog Club, PhiPi, Pi D. E., Seaboard and Blue, and a member of the S. A. E. social fraternity.

The signal honor of membership in Tech's oldest honorary society comes to those three men in recognition of their accomplishments and their prominence in campus activities.

Purpose of Anak
Founded in 1908 with the purpose of originating or helping to develop by carefully outlined plans such measures as will make for the betterment of Georgia Tech, The Anak Society is composed of those seniors who have shown the greatest interest and zeal in promoting and helping any movement which tends to uplift and develop the different phases of college life.

Officers
The present officers of Anak are: Dick Board, president; Lawrence Hayes, vice president; Henry Swift, secretary, and George Hightower, treasurer.

"The Voice of Experience"

the man with the million dollar throat insists on a light smoke

"My voice is my career. It has inspired more than five million people to confide in me their personal problems. During 25 years, first on the lecture platform and then on the air, I have never missed a single engagement because of my throat. I am a steady smoker, and because my throat and voice are vital to my career I insist upon a light smoke. In Luckies I find a light smoke plus the enjoyment of fine tobacco... and that's why Lucky Strikes have been my choice for 14 years."

AGAINST IRRITATION—AGAINST COUGH
When Paul Whiteman, King of Jazz, arrives in Atlanta with his talented troupe of entertainers to give Atlanta another taste of his famous modern music at the Erlanger Theater Wednesday afternoon and night, February 17, he will have with him in a featured spot a graduate engineer. Bob Lawrence, handsome young baritone of radio and stage fame, is grateful to Paul Whiteman for his rise from obscurity to the popular place he holds in the entertainment field. Bob Lawrence was an up-and-coming young engineer, a graduate of Cornell, who lost his job when the depression came along. Faced with this loss, he turned his glee club experience to account and applied for a job at a New York night club and was hired. One day after he had finished a number he was called to the phone and was asked by Mr. Whiteman for an audition. The audition, of course, proved favorable. And so on Wednesday, February 17, at the Erlanger Theater, we will have an opportunity to see and hear an engineer go into his song.

Student Out Filibusters Huey Long
W. A. Mann, University of Texas law student, is sick of hearing his own voice. He wagered his roommates that he could better the late Huey P. Long's filibuster record of 16 hours. When they took him up on his boast, he launched into a non-stop monologue time and again as lengthy as any that Cornelia Otis Skinner has ever given. Talking on astronomy, religion, politics, economics, his life history and many other things, Mann lasted 16 hours and 10 minutes—10 minutes longer than Long. Student Out Filibusters Huey Long

Two to One Against R.O.T.C. At U.N.M.
Albuquerque, N. M.—(A.P.)—Undergraduates at University of New Mexico showed a two-to-one antipathy to any form of R.O.T.C. on their campus in a poll conducted on January 14. Of 734 ballots cast, 434 were against military training, 227 in favor, and 73 indifferent. According to the New Mexican, feelings came out in pen and ink, comments were unearthed on the backs, “I’ll boycott the whole . . . mess.” “I’ll go to a different school—a simple “Stiffs” opposite the names of powerful choices.

FROM TOBACCO FARM TO SHIPPING ROOM . . . AT EVERY STAGE IN THE MAKING OF CHESTERFIELD CIGARETTES . . . JOB NUMBER ONE IS TO SEE THAT CHESTERFIELDS ARE MADE TO SATISFY.

In the fields . . . at the auction markets . . . and in the storage warehouses . . . job number one is to see that Chesterfield tobaccos are MILD and RIPE.

In the Blending Department job number one is to "meld" our home-grown tobaccos with aromatic Turkish to the exact Chesterfield formula.

In the Cutting and Making Departments job number one is to cut the tobacco into long clean shreds and roll it in pure cigarette paper.

Chesterfields are made to give you the things you enjoy in a cigarette—refreshing mildness . . . pleasing taste and aroma. They Satisfy.
