Dances Planned for Benefit of ALL Tech

There has been a good deal of comment on the fact that non-fraternity men are being excluded from one of the final dances at Tech. Renunciation has arisen among the non-fraternity men, because they feel that they are being barred from one of their own dances, a Tech dance.

Such a feeling is entirely unexpected at the Interfraternity Council because the situation was not aimed at the non-frat men in the first place. Because the mid-term dances were so crowded last February, the fraternity men, who annually sponsor the dances, wished to have some room in which to dance at this set of finals. So a certain dance, the Pan-Hellenic, was set aside for fraternity men. By setting this dance aside, the Council meant that no outside tickets would be sold for the dance. Non-fraternity men who had bought block tickets were not to be excluded.

We feel certain that the non-fraternity men realize that such an exclusion is not aimed at them, but was merely to keep the crowd down at one of the dances, they will understand that the Interfraternity Council is holding their final dances for all of Georgia Tech, as usual.

Ramblin’ Wreckonings

By Maxwell L. Shatzkin, Jr.

Friday, your 4 (or 5 or 6) years at dear old Georgia Tech, you witness the splendid changes which are brought in man’s character and note with some gratification that even a week like freshmen may, within the period of a short, blossom forth as a true and worthy leader, he should be an enormous satisfaction to you. Such a change is a phenomenon and the sorority of the American public. You have been a great joy the glorious music of Tony Pastor’s lads. The dances are CERTAIN to be successful!

The time has come, after all these many enjoyable years, when your bard must relinquish his saucy old customary “Farewell and—30.”

NOW FOR COLLEGE MEN — A NEW OFFICERS’ TRAINING PLAN

* New Deferred Service Plan Allows You to Continue Your Education *

In the skies over America the mightiest air fleet in the history of the world is mobilizing for victory!

The U. S. Army Air Forces need Flying Officers and Ground Crew Officers. And many of them must come from the ranks of today’s college students — men who make their plans now for the necessary Aviation Cadet training.

Thanks to a newly created Air Force Reserve plan, men of all classes — aged 18 to 26, inclusive — can enlist for immediate service or continue the scholastic work required for graduation before being called to active duty.

You must meet the requirements for physical fitness, of course. In addition, you take a new simplified test to determine your ability to grasp the training. A college man should pass it easily.

**$75 A MONTH DURING TRAINING**

Those accepted who wish immediate duty will go into training as rapidly as facilities permit. As an Aviation Cadet, you are paid $75 a month, with subsistence, quarters, medical care, uniforms, equipment, traveling expenses.

In 8 months you can win an officer’s commission as a bombardier, navigator or pilot — and be well started on your way to serve America and advance yourself in aviation.

MANY BRANCHES OF SERVICE

There are also commissions awarded in ground crew service. College men particularly will be interested in the requirements for Armaments, Communications, Engineering, Meteorology, Photography. If you have engineering experience your chances of getting a commission are excellent.

This past year about 80% of all Aviation Cadets were commissioned as Second Lieutenants — about 67% as flying officers. Those who do not qualify remain in the Air Forces on an enlisted status and have further opportunities.

As a Second Lieutenant on active duty with the Army Air Forces, your pay ranges from $183 to $245 a month.

**ACT AT ONCE**

If you want to fight for America, this is where your blows will count.

If you want the best training in the world, and years of solid achievement in aviation — the great career field of the future — this is where you belong. Your place is here — in the Army Air Forces.

If you plan to enlist immediately, start getting your necessary papers ready for the Aviation Cadet Examining Board when it meets in your locality. For complete information, see your Faculty Air Force Advisor. You can take your mental and physical examinations the same day you apply. Get further information now.

NOTE: If you wish to enlist and are under 21, you will need your parents’ or guardian’s consent. Birth certificates and three letters of recommendation will be required of all applicants. Obtain the forms and send them home today — you can then complete your enrollment before any Aviation Cadet Examining Board.

Jacket Track Team Wins SEAAU Championship

Baseball Squad Drops Road Games to Vanderbilt, Georgia

Tech's baseball team found it tough going as they invaded the homes of Vanderbilt and the Georgia Bulldogs during the past week. Although Tech started off by beating Vandy 10-7 last Friday, they lost to the Commodores 10-5 the next day and were routed Tuesday by the hard-hitting Bulldogs 19-5 in Athens.

Jackets Outhit

Although outhit in Friday's game, fourteen safeties to ten, Tech capitalized on bases on balls and errors to outlast Vandy. The Engineers jumped into a lead which they never relinquished, in their first inning with two singles, a double and an error resulting in two runs. In the second game the tables were turned as Vandy pounded Crawford and Lewis for ten runs. The second game was a sweet revenge for Vandy as they also lost two previous games to Tech in Athens.

Distance Runner!

ED COUGHLIN, distance runner who wore the white and gold during the SEAAU meet, won many helpful points for the Jacket squad by winning the mile event in that meet.

Tech Racketeers Trounce 'Bama, Lose To Spring Hill; Frosh Beat Boy's High

Georgia Tech's good tennis team split a pair of matches with strong opponents, defeating Alabama, 7-2, and losing to Spring Hill College, 6-1. It was Alabama's initial defeat of the season undefeated. Abell has an excellent chance to close the season undefeated.

Records Broken

Another mark nearly bit the dust as Ed Couglin, rated the top 800-yarder in the state, ran away from the field to win in 2:05.5, a mere .9 of a sec. off the record. Ed Ryckley tasted defeat in the century for the first time this year, and the second in varsity competition, when fellow footballer, Georgia's Davis, breathed the tape in 10.2. In the 110 hurdles, Ryckley checked, Ryckley closed with a terrific burst of speed to pull within inches of the Spring Davis. Squatty came back to square things in the 220.

Auburn's 36-34 victory over Georgia Tech as the Jackets were defeated by a powerful line, who unleashed his powerful frame a couple of times to bag top honors in the weights. It was Captain Billy Weeks, however, who did the record breaking. Taking off on another of his sky-scraping solo flights, Weeks nailed over 13 feet 3.5 inches to claim the standard he set last fall.

Jacket Track Team Wins SEAAU Championship

Two Successful Years

Tech's mighty Engineers ransacked and wrecked general havoc all over Grant Field last Saturday as they walked off with the SEAAU championship for the second year. Gobbling up just about all the hardware in sight, including, in addition to the impregnable championship trophy, 9 gold medals, George Griffin's galloping scantily clad brigade went away with an aggregate 59-1-4 points, to Auburn's 41-3-4 and the 26 chipped up by Vandy's small but potent squad.

Mills High Scorer

High point man for the Jackets was Bob Jack Helms, who unleashed his powerful frame a couple of times to bag top honors in the weights. It was Captain Billy Weeks, however, who did the record breaking. Taking off on another of his sky-scraping solo flights, Weeks nailed over 13 feet 3.5 inches to claim the standard he set last fall.

Splash! SAE Places First In Skull and Key Swimming Tourney

With the winner undetermined until the last event, the Skull and Key interfraternity swimming meet presented plenty of thrills last Thursday night. Emerging victorious after being pushed hard by the Sigma Chi’s, the SAE team collected 38 points to the Sigma Chi’s 32, for second place. The Phi Delt team was close behind with 28, followed by the ATO’s with 22 points.

Phi Delta’s Place

In the first event, the 50-yard free style, Johnson gave the Phi Delt team a first place by beating Pierce and Brantley in the time of 25.7 seconds. Bill Whisley then captured the 50-yard back-stroke easily enough and gave the SAE’s a slight lead. The Sigma Chi’s then entered into the competition when Mankin took the 50-yard breast stroke in 33.2 seconds.

Plunge Record Broken

The next event, the plunge, created perhaps the most interesting event of the meet. According to the rules, the contestant must dive from the end of the pool and coast as far as possible outside the constant continental United States. With the winner undeterred, it was soon apparent that first place was easily taken by Gordon Colledge beating Bill Whatley then capturing the 50-yard free style in 25.7 seconds. Turner gave the Phi Delts a style, Turner gave the Phi Delts a first place by beating Pierce and Brantley in the time of 25.7 seconds.

Friend or Enemy? They’re taking no chances

Day and night thousands of civilian volunteers at Army authorized observation posts report Aircraft Flash Messages to Army “filter” centers—by telephone. From this information, each plane’s course is charted on filter maps, to relay to operations bases such as the one shown above—by telephone. Should checking prove the aircraft to be an enemy, the telephone would play an important part in the defensive strategy...in warning endangered communities...in mobilizing civilian defense units.

Bell System men cooperated with Army authorities in designing and providing the telephone facilities used by the air defense system. This is but another example of a wartime job well done.
