Igor Sikorsky Presents Lecture, Movies Here

Famous Aircraft Builder Will Talk On Helicopters

By Hugh Powell

Igor Sikorsky, a key commander of the Second World War production battle, will lecture at the Georgia Tech Auditorium, March 10, at 8:30 p.m. The public is invited free of charge. Sikorsky, who is one of the world's foremost aeronautical engineers and manufacturer, will give a lecture on helicopters, which are fast becoming a part of our modern transportation system.

FIRST TO SEE PICTURES

"Tech people are the first to see Sikorsky coming to Tech on charge. A feature of intense interest to students of the Aeronautical Engineering Department, "to have the privilege of seeing these films. Not a regular lecture, Sikorsky is coming to Tech on the invitation of the Student Enter-

ment Commission of Georgia Tech, and is visiting the Southeastern Aviation Series Committee and Pro-
duction Commission in Atlanta for arranging this unexpected visit.

"Formerly a professional aeronautical engi-

neer, Sikorsky is in charge of the famous Air Corps Experimental Station, the headquarters of which is at New York, where it has vast poten-
tialities. Already noted naval experts are considering the possibility of using Sikorsky on merchant ships for conveying troops in the battle areas of the world, where this high-speed facility would enable it to land on a small shipboard platform.

"Pioneer Designer

Long a pioneer in aircraft design in general, and helicopters in particular, Sikorsky is a Russian by birth, who entered this country with $400, no knowledge of English, and a genius for making flying contraptions. He is the creator of the famous Sikorsky-Clippers, the great flying boat which has been flying in the far east for years, and more recently, Sikorsky, with his invention of the helicopter, was on the scene with his "bellows" invention, that will soon be on the market, and will enable Sikorsky to set up a new standard of aviation.

"How to Beat the Blackout

or Why We Dislike B.O. Wardens'

Wardens Won't Co-operate With Students' Enthusiasm

By Bob Cady

With the blackout situation improving about having dates for last Thro-

ny's blackouts, and bringing them sound to the house for the duration, it was not very surprising to find all the first-houses on the campus quiet as Willisy the day after elec-

tions. The exception, Phi Kappa Sigma, provided enough all-out ritzing to make up for the quietness of the re-

s of the campus and have a good bit left over. When we passed, around nine o'clock, long before the alums rounded, their blackout was already in progress.

"One room had been set aside for blackout purposes and was as dark as the center of a four-foot cube of coal. All the rest of the lights in the house were ablaze. Lone light left after the signal was the traffic light on West Peachtree and North Ave. Cause was the lack of gas. We turned in our electric clips, and was the way on toward giving Amer-

ica another new germ in the air-

"This HELICOPTER, one of the many achievements of Igor Sikorsky, a well-known war production manager, will be featured by the inventor in a lecture and movie in the auditorium March 10.

In Pacific theatre, Sikorsky is making flying contraptions. He is known as the "Bellows" inventor, and helicopters in particular, have been drafted into the war effort. Sikorsky is one of the greatest inventors of the world, and has been responsible for making flying contraptions. He is known as the "Bellows" inventor, and helicopters in particular, have been drafted into the war effort.

ROTC Camps Now Abolished

For the duration of the war, there will be no summer camps for senior E. O. T. C. students. So far there are no definite plans as to what will serve in place of these camps, but some indications have been received.

"Requirements Lowered

Besides increasing its enrollment, the CPT has lowered registration requirements. Now, only 15 college semester hours are required for those who enroll in the elementary course. Any man who has a private pilot's certificate from CPT is now eligible for the secondary and advanced courses, regardless of his credit hours. The present age limit is from 18 to 30 years.

"Under the new regulations, ad-

Students’ Duty Is Here, Don’t Desert

College men of today occasionally have the ugly epithet, “slacker,” hurled in their faces by well-me­unting but short-sighted patriots who consider the armed forces the proper place for all able-bodied young men. As war conditions grow more serious, this condition is very likely to be averted into real danger to our ultimate war effort.

No man, especially a free American, like to be called a coward. For that reason, it is probable that college students will enlist in increasingly large num­bers as armed forces begin falling to the enemy and the public gets “slacker-conscious.”

But that is precisely what we must not do. As we have been assured, this is not a day of adventure but of production. The ability of the United Nations to overcome the Axis with its production effort relies on the ability of American engineers, and Geor­gia Tech must produce its share of men well-trained in the technical skill.

The first duty of every Techman is to remain in school and get a good technical education as soon as possible. Though the smearing looks may be hard to take, we must heed the advice of our nation’s leaders and learn how to produce what Americans must have to fight with.

**Dean, Meadow Are Council Nominees**

H. G. Dunn and F. J. Meadow were nominated in the recent co-op primary elections, March 2, as candidates for a place on the student council.

The final elections will be held on March 9, at which time one of these two men will be elected for a term of one year. The candidates, both of the pre-junior class, were elected by the co-op sophomores and pre-juniors only.

40% of Students Say Allies Fighting To Save Democracy

AUSTIN, Texas.—Four out of every ten college students believe that the United Nations are fighting this war for the same reason usually given for fighting—World War I—to preserve democracy, a national sampling of Student Opinion Surveys of America shows.

**Battle For Bill of Rights**

Tolled on campus coves all over the country, the poll reveals that 40 per cent of the students, a group more than twice as large as any other group giving a different answer, believe that World War II is being fought for the continuance of democracy or, as some put it, "for the Bill of Rights," or "for freedom and liberty." Eighty per cent, the next largest group, think we are fighting primarily to defeat the Axis powers.

**Why Are We Fighting?**

Without suggesting any possible answers, interviewers were asked, "What would you say we are fighting for in this war?" The complete results, shown in eight different groupings of answers, follow:

- To preserve democracy...40%
- To defeat the Axis...18%
- For economic reasons...10%
- For political reasons...9%
- For England...4%
- Because of Pearl Harbor...4%
- For a lasting peace...
- Other reasons or no opinion...

**40% of Students Say Allies Fighting To Save Democracy**

In these critical times engineers at Western Electric are at work harder than ever developing advances in the art of manufacturing—engineers who are involved in producing the latest types of military communications equipment—now being turned out on a large scale for our fighting forces on land, sea and air.

For a lasting peace...
Wex Jordan was this year's winner of the award but was not present so the coach received it. For the past two weeks, the basketball team has been divided into two divisions, the "White" and the "Gold" league. From Georgia Team Tech Marksmen Win Qualifying Postal Matches. The Freshman team completed the season by defeating the only team that could beat them, the University Prep team."ard, 179; Gowen, 178; Baker, 177; Richards, 182; Kearney, 179; Wood- iley). 3:22.8. The only place where you get the correct record, Meantime library business was suspended. The Joe Rhodes football trophy, which is given to the most valuable player on the Tech team each year, is being exhibited to Mrs. James D. Robinson, Jr., and Red Barron by Coach Alex. Wex Jordan was this year's winner of the award but was not present so the coach received it for him.

**Fraternity Basketball Nears Finish; Seven Teams Play in Quarter-Finals**

For the past two weeks, the basketball teams of the different fraternities have been battling nightly at the Naval Armory. The teams have been divided into two divisions, the "White" and the "Gold" league. The Sigma Chi's, the Beta's, the S. A. E's, and the K. A.'s are in the quarter finals of the "White" League, while the Sigma Nu's, the Kappa Sig's, and the Phi Kappa Sig's reached the quarter finals in the "Gold" league. The final winners will be determined by a round-robin starting March 9th. Four teams will be in the round-robin—two from each league, and each team will play three games. The team having the highest percentage of wins in the round-robin will win the first prize and the team with the next highest percentage will receive second prize. If one team lose, it does not mean that this team will be out of the running. It will only lower the percentage point of the team. The round robin will be finished on March 12th and the final winners will be announced.

All Students May Engage In Summer Sports Program

Wide Variety of Sports Will Be Taught Undergraduates

By Milton Morris

Coach Alexander has given his promise to the student body that his year’s additional semester will not entirely be taken up with lectures on mechanics, math, slide rules, and the like. The novel situation of the entire student body attending school during the sunny months of the year has given birth to a new summer sports program in which the whole school is invited to participate.

Starts in June

This program has been started under way about a week after the start of the new semester. Among the sports to be taught will be softball, baseball, swimming, gymnastics, track, wrestling, fencing, tennis, or golf with ample opportunity to improve his abilities. For those so inclined, it is wished to include more than one sport in their afternoon time, the schedule will be well-arranged throughout the week. The classes will be held late in the afternoon so as not to interfere with the summer courses.

Each activity will be under the supervision of the coaches connected with that department.

Varsity Football

Coach Alexander has arranged that, while the varsity football will be in summer practice, this will not interfere with the physical education classes of the body. The tennis, golf, baseball, swimming, and track teams will also be in full swing. They will feature matches with other teams in city leagues and schools that have also adopted the summer program.

No Schedules Yet

Definite schedules have not as yet been adopted, but they will be published in THE TECHNIQUE as soon as possible.

Rinksters!

Tech Roller Hockey Six Beat Lakewood In Easy Victory, 7-4

Last Friday night the Rinksters ’B’ defeated Lakewood 7-4 in the annual intercity hockey meet at the Lakewood Six rink. This was their third consecutive victory against the puck-soaked Lakewood hockey team, the Hockey Club’s sixth win in as many starts and the third consecutive victory.

Better Defense

During the first period the ’Ricks suffered the defense as it had done in previous games, scoring few goals. In the second period the Tiger team gained the upper hand, but Tech was always one goal ahead and as the last quarter ended led 7-4.

Last Game

This was the last game of the regular season, although some out-of-town games are being scheduled. The ’Ricks were at their peak, although some injured players were suffering. Red Nicholas was high scorer, scoring two goals unassisted and three on passes.

Jeff Breger played an inspired game as goalie and was named left defense and center with Capt. Rod, Jimmy Withers, veteran of the Tech team, back, turned in a good game at forward.

Jacket Cage Team Bows to ’Bama Five In Thriller, 37-32

By Milton Morris

College youth, on the threshold of active participation in adult life, is having to postpone its plans for marriage as young people is perhaps the most significant of social upheavals. A national sampling of Students Opinion Surveys of America indicates that while a year ago only about half of the students attending colleges and universities hoped to be married within two years after leaving school, today one-third of them have the same expectation.

Interviewing students of all ages and in a proportional cross section, the Surveys placed this question before hundreds of college students. "Do you leave college do you hope to be married or recommended?"

Before leaving college

Women: 154.7% of those who said
Within 1 year: 13.1% of those who said
Within 2 years: 38.20% of those who said
Within 3 years: 9.1% of those who said
Within 4 years: 8.9% of those who said
Within 5 years: 6.6% of those who said
Within 7 years or more: 6.6% of those who said
Depends on the war: 37.14% of those who said
Already married: 11.1% of those who said
Don’t know: 17.1% of those who said

The problem, it may be noted, is not so much marriage than the future of the men. Each year, for example, 22 percent wanted to settle down within a year after leaving school; now only 14 percent of both sexes have that hope.

Engagements, on the other hand, appear to be comparatively high. "Would you mind telling me if you are engaged?" 94.7% of those who said
Would not answer question: 5.3% of those who said

S. C. TOURNIER

The Southern Conference cage tourney, scheduled for March 5, 6, 7, is now well under way, with the Blue Devils from Duke as odds on favorites to take the title. A glance at the season’s records shows that there is no logical way for the Blue Devils to be dethroned by the 12 teams of the Southern Conference. Georgia Washington and Temple. The Devils play Washington and Loy, 8th ranking team, in the first round. If they survive, they will meet either Wake Forest or North Carolina in the next, and that will be a mighty upset to earn a berth in the tournament. Thursday, the last day swamped the Mehen gun, to win a scant 37-32.

Lewis Leading Scorer

It was the Jacket’s inability, or, more exactly, its inability to control the rebounds that spelled its demise in this end. This, along with their nice floor game and general head-start, led the ‘Bamans off to a flying start and by half time they had built up a 21-12 lead. Despite their unaccustomed, sensational long shots in the closing stanza, this proved a handicap a bit too difficult for the Jackets to overcome.

Captain Carlson Lewis led the Yellow Jacket cause by swishing thirteen points into the net, 10 in the last period. The conference Adair for individual honors.

Tech Men Complete Basic Air Course at Army Flying School

MELHALLFIELD, Texas, Feb. 27 — Former Georgia School of Technology

Student Officers at Randolph Field — were militarily “at ease” today after completion of the Army Flying School training courses. The pilots were graduated from the 13th training group at Randolph Field with the Class of ‘41 and the Class of ’42 — the last two classes to graduate from this famous training facility.

Council Passes Distribution Plan; Starts New Year

At its last meeting the Georgia Tech Student Council finally took action upon the new distribution plan for the profits of THE TECHNIQUE passed the system, making it become effective the next school year. The Council refused to pass the new distribution set-up, given the present editor and business manager their position under the old system expecting that system to continue.

According to statements made at the Council meeting by several members, the new system is expected to help the newspaper considerably by increasing the number of staff members and making it worthwhile for well qualified students to work on the paper.

Following is the distribution of THE TECHNIQUE profits in percentages under the new system:

Editor: 25%  
Business Manager: 30%  
Student Council: 30%  
Managing Editor: 5%  
News Editor: 4%  
Sports Editor: 4%  
Feature Editor: 4%  
Business Staff: 8%  
Editorial Staff: 7%

New Army Captain Assigned to Tech

Captain Paul Hayden Gates has recently been assigned to the Georgia Tech Coast Artillery Corps as officer-instructor in the elementary and advanced training courses. He has been ordered here to supplement the staff of the Coast Artillery Unit, which was established by the transfer of Major William J. Burke to New Orleans, Louisiana. Captain Gates was formerly stationed at Camp Davis, North Carolina, anti-aircraft training school.

Captain Gates, prior to World War II, attended the University of Vermont, where he received a three-year military course, similar to the R.O.T.C. course here at Tech. When the United States entered the first World War, Captain Gates was stationed at Fort Monroe, Virginia, as an officer in training. It was here that he received his commission. On completion of his training, Captain Gates was sent overseas, where he was stationed for the duration of the conflict.

Chi Psi Holds Annual Formal Tonight at Georgia Terrace

Dining Room, Ball Room Will Be Decorated Extensively With Fraternity's Colors

This evening at the Georgia Terrace Ball Room the Chi Psi will give their well-known formal dinner.

Before the dance the members and the pledges will entertain their dates at a dinner. The dining room and ball room will be decorated with the fraternity colors, purple and gold.

Officers and their dates are:
- President Hect McNeill and Miss Charlotte Thomas.
- Vice-President Joe Griffin and Miss Patty Spellman.
- Secretary Billy Bergen and Miss Jeanne Hodges.
- Treasurer Allen Anderson and Miss Doris Hester.
- Business Manager Joe F. Butler and Miss Jean Thames.
- Business Editor E. M. Hester and Miss C. W. Betty Linane.
- Sports Editor M. R. (Minor) Crowl and Miss W. P. Kathleen Budde.
- Feature Editor S. E. Weeks and Miss Glen A. Lucille Griser.
- Social Chairman W. J. Weeks and Miss Patricia Spellman.
- Social Secretary C. W. Betty Linane and Miss Betty Lovett.
- Business Secretary W. P. Kathleen Budde and Miss Betty McCaully.
- Business President F. K. Virginia McCaully and Miss Lucille Griser.

Sikorsky— (Continued from Page 1)

... the Sikorsky brothers to break in a pilot to make a two-motored plane in the world, the first first-motored plane in America, the first trans-Atlantic craft, and the famous Pacific Clipper, the first to break in a pilot to make a two-motored plane in America.

This record makes Sikorsky interesting to many types of people. Not only aeronautical students and technicians, but anyone interested in the trend of world affairs today would be interested.

Miss Charlotte Thomas and Miss Patty Spellman will head the leadout with their dates, "Bandy" McNeill, President, and Joe Griffin, Vice-President, respectively, at the Chi Psi Formal Dance which will be held tonight in the Georgian Terrace Hotel.

The jobs are many and varied. There is news writing, sports writing, editorial writing, proof-reading, rewrite work, and make-up work to be done. Practically any capable man can find a type of work that will please him.

The officers who would like to work on THE TECHNIQUE should be present at the next editorial staff meeting, which will be held in the basement of the YMCA this Tuesday at 7:30 p.m.
