Prominent Alumnus
Elected To Post
Of Honor
L. W. "Chip" Robert was elected to the Board of Regents of the University System of Georgia Monday afternoon, March 29. Mr. Robert is an alumnus of Tech, having graduated in the Class of ’06, and receiving his B. S. degree in Civil Engineering.

"Chip" Robert has held positions of leadership in sports in the state and nation. From 1933 to 1936 he was Assistant Secretary of the Treasury; and 1933-36 as Secretary of the Democratic National Committee.

He took a student at Tech. Mr. Robert was elected to Phi Kappa Phi, the highest national honor society in an evening school. He was a member of the latter’s Atlanta Fraternity and played on the Tech football team. While on the Tech faculty, he served on the physical and social committee. About three years later he returned to Tech and played football in the junior period.

Until 1935, when the Board of Regents took over the management of Tech, Mr. Robert was a trustee of the school. For a number of years he was President of the Board.

"Chip" Robert has always shown a great interest in Tech, and in 1933 received the first President’s Plaque for service to the school and general outstanding accomplishments. He is a native of Monticello, Georgia, and is owner, organizer and head of Robert and Company, consulting engineers of Atlanta.

Texas Tech Copies Ga. Tech Plans
Texas Tech, located in Lubbock, Texas, is patterned after Georgia Tech. L. W. "Chip" Robert, alumnus of Georgia Tech and president of the firm Robert and Company of this city, laid the plans.

E. W. Camp planned and equipped the textile department at Texas, and later became head of the department. He was formerly connected with the textile department of Georgia Tech.

Mr. Robert was succeeded by Prof. M. E. Heard, graduate of the textile department of this school from the class of ’24. Prof. Heard is assisted in his work by another Georgia Tech graduate, E. D. Redding, of the class of ’22.

Delegates Attend Press Conference
The Southern Federation of College Students and Press Representatives will hold its annual convention in New Orleans, on the 8th, 9th and 10th of April, with Tulane University serving as host.

The Student Council of Georgia Tech has elected Dick Bevis, member of the Student Council and Anak; George Bevis, member of the student council and O. D. K.; and Paul Mitchell, member of the Student Council and Associate Editor of the Yellow Jacket, as the representatives from Tech to the convention.

New Type Social Fraternity Successful In First Year
The size of Pi Alpha Chi is limited, to no more than 12 members from each chapter. A number, however, may be different when actuated by any enthusiasm created the fraternity, are no longer here to carry it on. The constitution and by-laws provide for this convention. The initiation is only one of many interesting activities of the convention.

The program was started with a dinner last night at the Biltmore, and was followed with a ceremony on the nearby campus. The initiation banquet will be held at the M. L. Drake Hotel. Guest speakers are D. K. President Guy Strasbaugh as the speaker. The dinner will be followed by a formal ball in the Georgia ballroom of the Biltmore.

The "Y" Cabinet and Freshman Cabinet, in joint honorary plague, William Wallace, and Jack McKenmnon. A number of prominent Tech students are being selected as recruiters and Keedy, Allen, are also aiding in making arrangements.

Georgia School of Technology

"A Technical School With a National Reputation"

The Georgia School of Technology offers to young men of ability and ambition a preparation which will fit them for positions of responsibility and power. The national reputation of the School is due to the fact that its graduates have not only excelled in every walk of life, but have made successful careers in the productive work of the world. Their accomplishments are a direct result of the training they have received in Georgia Tech.

Courses in Civil, Electrical, Mechanical, Textile, General, Ceramic, Chemical, and Aeronautical Engineering, Architecture, Chemistry, Mathematics, and the Liberal Arts.

Tech Geologists See Rare Jewels

The members of the Geology 44 class visited Maier & Berkleje jewelry store on Tuesday afternoon, where an additional stock amounting to $400,000 was on display. Of particular interest was a rare green diamond valued at $22,500 in the Wm. Schuman collection, only two of three green diamonds being known to be in existence. Other fine diamonds ranging in colors of black, canary, yellow, blue, and pink, were on display. Of equal interest were the star sapphires and emeralds. Invisible glass protected the front show window display of a hand-carved solid ivory elephant brought to America from India. The harness was decorated with precious stones and fine jade.

Constitution Exam Is Required of Seniors For Graduation

Students Considered:

All seniors except those who have passed B.S. (American Government) will be required to attend the lectures and pass the examination on the State and Federal Constitutions.

Time of Lectures:

Monday, April 5, at 10 o'clock
Tuesday, April 6, at 8 o'clock
Friday, April 9, at 11 o'clock

Time of Examination:

Saturday, April 10, at 11 o'clock.

These students who are required to take the examination will be excused from other school duties from 9 to 11 o'clock on that day.

Place: Chapel in the Main Building. Regulations:

(a) With no absences the minimum grade of D (65) shall be required to pass the examination.

(b) With one absence a grade of C (75) shall be required to pass an examination.

(c) With two or more absences a student shall be required to take as many coaching lessons as he has missed lectures and make a grade of not less than C (65).

STETSON HATS AT ZACHRY

87 Peachtree
$5. & $7.50

Hat this hat down as a "must" for Spring... and wear it wherever duty calls. That wide-ish brim, cupped up in back, that low band on a low crown, that long "nap" well back to the bow, are sure signs of the smartest style. Stetson has done it again!
Track Team Meets
Tigers On Grant
Field Tomorrow

Tomorrow afternoon the Tech track team will meet Clemson on the cinder path of Grant Field for the first meet of the 1937 season. The Techers do not seem to stack up as a very pow-
erful squad this season, and the loss of Pierre Walker will be felt in the dashes and field events. With Walker, Ben Jones, and Doyle Butler, all out of school now, Coach Miller has lost a trio of high jumpers who could all do better than six feet.

The mile and two-mile runs will be headed by Conference Champ "Chick" Aldridge, supported by several mem-
bers of Tech’s championship cross-country team. Ralph Kestler has recently shown surprising speed in the half-mile and should supply much needed strength in this event.

The greatest weakness seems to lie in the field events, but there are many new candidates who have yet to prove themselves in a meet.

The Jackets are not concealcd much chance of winning many meets this year and Clemson figures that they have a cinch tomorrow, but we will not be surprised if the Tech runners pull an upset against the Tigers.

Golf Team Meets
Vandy Tomorrow

The Jacket golf team journeyed down to Fort Benning last Saturday, and while the last hole has not been felt noted returning home with a 20-10 victory. Tommy Barnes, playing in Number One position, and Stanley Holditch, in Number Two place, tied for low scores, each shooting a 76.

The Tech golfers won all but three matches. Barnes and Major Rose of Fort Benning halved their match, while Billy Eager went down before Lieuten-
ant Britl. Fort Benning managed to halve one foursome, but were unable to win or break even in any other events.

Holditch beat Captain Parks and Williamson Smith won over Major McCabe, in the rest of the first team matches. Other victorious Tech golf-
ers included Lee Shackelford, who de-
feated Major Miller; Bill Currier, with a win over Lisot, Elders; and English Solomon, who won over Major Hutch-
een.

Tech Debaters Host
To Mercer Orators

On last Monday week the Georgia Tech debaters were hosts to the or-
ators from Mercer College. The Mer-
cer speakers were on a tour which was to include Birmingham-Southern, Ala-
mana, Montevallo, and Spring Hill among the stops. While the Mercer varsity debated Tech on the subject of minimum wages and maximum hours, the freshers were debating Emory, Mr. Johnston and Mr. O’Neil of Mercer were opposed by Degree and Goette of Tech. The debate was a no-decision discussion.

Planninc Signals

Left to right: Harry Appleby, Bill McNinney, and Carl Waits

Alabama Trimmed;
By Tech Fencers

Last Saturday at the Naval Armory the Tech Fencers defeated a strong team from Alabama, 11-6. This vic-
tory was due largely to the Jackets' superiority in the foils which they won 7-2. The sabres and epees were tied at two-all.

"Bama" was supposedly very strong in the foils with one fencer who had once advanced to the semi-finals of the national collegiate fencing tourney. However, this weapon proved to be the Jackets' main strength.

Next week Tech will go to Tuscaloosa to again take on Alabama. Even though the Jackets seem to be the stronger team the results may be dif-
ferent, for it is a decided advantage to fence on one's own home ground.

Carl Waits Elected Captain;
Hyder Named Alternate

The Tech baseball team at the prac-
tice last Wednesday elected Carl Waits as captain of the Jacket nine for the coming season. Waits is the star pitcher of the Tech diamond team this year. He was a consistent winner on the last Jacket nine two years ago, and should run up a string of vic-
tories with this year’s excellent ma-
terial to back him up.

"Whack" Hyder, heavy hitting fly chaser, was chosen the alternate cap-
tain. Hyder was captain of the basket-
team, is also the captain of the track team, and now his election as alternate captain of the baseball nine seems to give him a record in Tech's (Continued on Page 5)

Tennis Team Wins
First Three Meets
Of Current Season

After winning their first three en-
gagements of the current season, Georgia Tech’s tennis team will be set for another victory this afternoons when they will be hosts to the setting of Mississippi State. Having won ev-
ery match since the first of the 1937 season, the Jackets will be stringing today for their third-consecutive vic-
tory.

According to Coach Bortell, this year’s team seems to appear in Tech’s excellent standard. Led by Burton Broadwater, national colleges ranking star, the squad also includes such top-notchers as Moore, Silva, Scott, Hill, Lindsey, Brown, Miles and Dunlap.

This year’s freshman team will be strengthened greatly by the presence of Russell Bubblit, national ranking junior player. Holland, Vano, Gar-
er, Dunbar, and O’Keeffe compose the squad which opened their season last week with a 5-3 tie against Fort Benning.

To date the victims of the varsity include Davidson, Fort Benning, and Clemson, and everybody is hailing forward to another victorious sea-
son.

Sizes 31 to 38.
Margaret Sullivan says Luckies are the answer for her throat

"I am not sure which is more critical—a Broadway audience or the movie microphones. At any rate, whether in Hollywood or New York, an actress has to be certain that her performances are always up to the peak. And that means being careful of the voice and throat. That's why, though I enjoy smoking thoroughly, I try to use Luckies because of their protection. In the long run, Luckies are the best for my throat. Alabama Colleges Debated By Tech

Continuing the spring season, Tech debaters will journey to Alabama for two major encounters with Alabama colleges. Scheduled to leave Thursday, the team will debate Birmingham-Southern University in Birmingham the same day, the subject being: Resolved, That students in the United States should refuse to participate in any war outside the continental limits of this country. On Friday the team will meet the University of Alabama at Tuscaloosa on the subject: Resolved, That Congress should be empowered to enact legislation governing maximum hours and minimum wages.

The speakers to represent Tech and the M. L. Brittain Debating Society, who sponsors the trip, will be Arthur Robensohn and George Puffal.

New System Tells Grades By Odor

(A.C.P.)—When physics text marks slid below par, instructor John Maddox, at the College of St. Thomas, makes his students pay through the nose.

Displayed with poor grades on a recent quiz, Mr. Madison, aided by chemist colleagues, conveyed sensually his general opinion that most of the answers were patrind by scenting the papers—good and bad.

Those of the A and B class were sprayed with “Paris Night” and “Eau de Cologne”—perfumes that reminded the boys of letters from “heartbeats” back home.

C and D papers wrinkled noses with the medium-strength odor of rotten eggs—hydrogen sulphide.

But the seven of the E and F class snarled with the staggering smell of rancid butter—butyric acid.
