Memories of the Mid-Terms

Student Faculty Draft Registration Held Here

All Men From 20 to 45 Not In Service Must Register Today

There will be a special registration today for all students or anyone else connected with Georgia Tech, between the hours of 10 and 5, in the Georgia Tech Auditorium. This registration at Tech will take the place of the regular nation-wide registration of February 16.

Qualifications

Students at Georgia Tech who have not previously registered are required to do so if they:

(1) Have reached the age of 20 by December 31, 1941;
(2) Have not reached the age of 45 by December 31, 1941;
(3) Those who do not meet the above qualifications;
(4) Enlisted men
(5) Enlisted Reserve officers
(6) Advanced military or naval officers
(7) Admitted cadets to West Point or Annapolis

In addition there will be students at Georgia Tech to get deferred must have a good scholastic standing at all times and his record must be approved as such by the Dean of Georgia Tech.

Use Tech Address

It has been suggested that Georgia Tech students use their Tech address for their official addresses on the registration card; that is, the address they give on their card must correspond exactly with that on their Georgia Tech address book. The new use of the Whirlwind is in the苤n manufacture of all types of military air
craft.

Makes Allied Aircraft

The engine division manufactures air-cooled radial engines of from 230 to 600 horsepower, both 9, 12, and 16 cylinder models. The famous Whirlwind and Thunderbolt are found in all parts of the world. A new use of the Whirlwind is in the new Army M-33 tanks.

The propeller division makes mod-

Campus Big Wigs Think New War Time 'Amoozing' But 'Confrozin'; Still Get Hungry When Twelve O'Clock Arrives

Dave 

One day we were awakened at seven o'clock by our faithful alarm clock. Though it was late, it was still cold, dreary, and very, very dark. The day was February 19, 1942, and we had been waking up an hour later because of 'Wartime'. When we walked into our small first class dormitory there was nothing but a faint glow of light from our cots and the usual 200 watt "lampy" on the wall.

This is our story of two fresh men. Some of Tech's better known students were more elaborate in what they had to say, but this is what they tell, everything is still the same—

Bill Cromarchie: "We should go by the old time, it may inco-

Polly Foohs: "It's O.K. for now, show."
Why Doesn’t the IFC Use Its Own Profits?

Before the Student Council is a measure aimed at the pursuit of non-fraternity students, brought up as the last meeting and to be voted on at the one pending, provides for a $150 appropriation by the Council. The money is to be used to help pay for a pamphlet to be issued to all incoming freshmen, a pamphlet that will ostensibly acquaint the freshman with Tech organizations but will in reality serve as the opening flap for the annual freshmen week of the fraternity. By openly sponsoring the motion, the Inter-Fraternity Council thus makes it clear that it is the true aim of the council, together with Tech organizations but not the social fraternity, to receive all needed publicity in the school catalog.

It is self-evident that the student body as a whole be asked to contribute toward the welfare of a group that doesn’t even consider a majority of Tech students. It is but a thin camouflage since these groups already receive all needed publicity in the school catalog.

Three Semester Year First of Sacrifices

The ever widening waves of upheaval and change, originating on the battlefields of Europe and the Far East, have at last begun to reach Georgia Tech. These waves, after penetrating through the thick skin of our citizens into the army, are now making even the college student contribute to the modern army. It is a common phenomenon of the seriousness of the struggle in which our nation is involved.

The road of sacrifice is just begun. Many Americans have already sacrificed something, from the الفقراء מייסשים למשה גורם הנשקיה, come and become to serve in the armed forces. Some will give all, but most of Tech, who are students, in the land, mentally, physically, and spiritually. With this uprooting goes a heritage of responsibility and lead-ership. The problems that lie ahead are enormous, but we have already made the first step in the service of the world.

“YOUTH AND BEAUTY REVUE”

Friday, February 13, 1942

Scree Scoops

We have a flock of good new movies this week that will keep us interested and satisfied with the cinema world.

“GREEN HOW WAS MY VALLEY” STARTS THURSDAY AT FOX “Two’s in the Army Now” is the midnight preview at the Fox Saturday night. Jimmy Durante, Phil Silvers, and Jane Wyman star in this comedy which tells of the mechanization of a cavalry unit and the way in which the boys were “axed” in “How Green Was My Valley,” which starts Thursday at the Fox, is the picture version of Richard Llewellyn’s best-selling novel. It stars such favorites as Walter Pidgeon, Maureen O’Hara, Donald Crisp, Anna Lee, Roddy McDowell, and others. It has made great raves in the movie world.

“WOMAN OF THE YEAR” AT GRAND TOMORROW

"Your Honor’s Dead!"

“YOUTH AND BEAUTY REVUE” AT COTillion HALL

"NO Hands on the Clock," with Jean Parker, Chester Morris, and many others, is offered on the screen along with the “Youth and Beauty Revue” on the stage of the Capitol today. “WOMAN OF THE YEAR” at the Capitol.

One of Metro’s hottest releases, “Woman of the Year,” starts Wednesday at the Grand. Katherine Hepburn and Spencer Tracy make this picture one that everyone will want to see. Is it about as famous, international columnist who happens to be the editor of her own paper. This picture has received much advance comment.

"A YANK ON THE BURMA ROAD" NOW AT RIALTO

Laraine Day and Barry Nelson are in Metro’s new specialty picture playing at the Rialto. It is the story of one of the American who tackled the Japs a long time ago, and has been made a film of the story by Hollywood, with Jack Adams and John Fullen- while a member of the army and on furlough, he displayed the check he received from King’s College. This picture has received much advance comment.

The Army ROTC Camp is Postponed Until After Graduation

The Army ROTC summer training camp has concluded for the present juniors, and all other classes thereafter, graduate. Under the new program the present junior class will graduate in February, 1949, and will receive its period of training immediately thereafter. Diplomas will be withheld until completion of the training period. All R. O. T. C. units will assume the same station as the A.R.T. units and will follow their program accordingly.

A possibility was expressed by headquarters that the training units may attach themselves to active detachments in regular service. This would introduce a more rigorous training program. The exact stations of training are not known.

The time for the Naval ROTC Camp will come in either June or late September, and it is believed that the training will be held out at the "Mechanics Hall" tonight.

Faculty and Wives Honor Senior Mech Students With Tea

The senior mechanical engineering students and their dates were honored by the mechanical engineering faculty and their wives at a tea given last Sunday afternoon at the home of Mr. and Mrs. Richard Trever.

Receiving the guests with Mr. and Mrs. Trever were: Mr. and Mrs. B. Holman, head of the department, and Mr. and Mrs. D. G. Shearer, president of the student A. S. M. E., and Miss Eleanor Horch; and Douglas Hanes, president of Phi Tau Sigma, honorary mechanical engineering fraternity.

One feature of the afternoon was the unveiling of the portrait of Dr. King. This portrait, in the portrait of the faculty and the M. E. class of '42 to Dr. M. L. Brittain, who accepted it for Georgia Tech.

The high points of the afternoon were the unveiling of the portrait in behalf of the faculty students and their dates were honored by the mechanical engineering students and their dates were honored by the mechanical engineering faculty and their wives at a tea given last Sunday afternoon at the home of Mr. and Mrs. Richard Trever.

"Glass and porcelain bombs and mines, porcelain sparkplugs, crucibles and linings for metallurgical furnaces, glass lenses and prisms for military and naval instruments, and glass separators for storage batteries used in submarines are but a few of the ceramic products which are today attracting attention in the war effort." The Ceramic Engineer is the man who controls the manufacture of many of the vital industries which make the hope war production of munitions and supplies possible. Thus was Lane Mitchell, head of the Department of Ceramic Engineering, explain the war role of the ceramic engineering field to a recent gathering of interested engineering students.

Thus was Lane Mitchell, head of the Department of Ceramic Engineering, explain the war role of the ceramic engineering field to a recent gathering of interested engineering students.

The students were told that the Ceramic Engineering Department is at present not definitely set, but some general problems of this field will be discussed at a meeting of the Engineering Society.

Besides the white kaolins which are Georgia's most valuable single mineral resource, there are other clays and minerals which can be used as co-refractories and for making light-weight kilns, for which there is a demand in the United States. The students were told that the Ceramic Engineering Department is at present not definitely set, but some general problems of this field will be discussed at a meeting of the Engineering Society.

Tech Cagers Near Season’s End

Engineers Outscore Fort Benning

The Georgia Tech basketball team beat out Fort Benning in the last minutes of the game to win by a score of 53-44 on January 9. On January 21 and 22, the Tech team played against the Auburn team, holding a series with the Auburn team. Tuesday evening at the Auburn court, the second on the Auburn court. In an invasion of Louisiana, each winning the game on his own court. In an invasion of Louisiana, where the score was held, won with a 48-38 score. The total of 48 points over Auburn's 42. The events of the game were as follows:

1. Crosby finished the night's work with fourteen points.
2. Lewis, who is the Jackets' captain, came on strong in the second half, scoring fifteen points.
3. Hearn was directly responsible for the game's outcome, scoring ten points.
4. The total of seventeen points scored by the opposing team was not enough to win.

Tech Swamped

In the 12th game against Fort Benning, the Tech team got off to a slow start and was down by fifteen points. However, the Tech team rallied to take the lead by the end of the first half. The Tech defense held Fort Benning to 19 points in the second half, winning the game 48-38. The Tech team was led by Crosby with 14 points, Lewis with 10 points, and Hearn with 8 points. The Fort Benning team was led by their captain with 13 points and their second scorer with 10 points. The Tech team's defense was key in securing the win.

Additional Games

Tech also played the University of Kentucky and Tulane. Against Kentucky, Tech won 61-53, with Crosby scoring 14 points and Hearn scoring 10 points. Against Tulane, Tech won 102-60, with Crosby scoring 21 points and Hearn scoring 8 points.

Basketball Season

The Georgia Tech basketball season has been successful so far. The team has won several games, including a close match against Fort Benning. The season has been challenging, but the team has shown resilience and determination.

Georgia School of Technology

A Technical School With a National Reputation

The Georgia School of Technology offers opportunities for young men of ability and ambition to train which will fit them for positions of responsibility and power. The national reputation of the Georgia School of Technology has been established by the high quality of the education and work efficiency.

Courses in Civil, Electrical, Mechanical, Textile, General, Ceramic, Chemical, and more.

Institution: Architecture, Chemistry, and Industrial Management

Coast Artillery, Signal Corps, Navy, Infantry, and Ordnance Units of the R. O. T. C.

For Further Information Address

The Registrar Georgia School of Technology Atlanta, Ga.
Newman Club to Hold Retreat Tomorrow

Saturday, February 14, the Georgia Tech Newman Club will hold a Retreat Day at Sacred Heart Church. The Retreat will begin with mass at 9 o'clock and end with a Holy Hour at 3 o'clock. The order of events is as follows:

Morning
9:00—The Holy Sacrament of the Mass.
10:00—Conference.
10:15—Spiritual Reading.
11:15—Stations of the Cross.
11:45—Lunch and Conference.

Afternoon
12:45—Conference.
1:15—Rosary.
1:30—Private Devotion.
2:00—Question Box.
2:00—Holy Hour.
4:00—Meditation.
5:00—Sermon.

Benediction of the Most Blessed Sacrament.

The Retreat Master will be Rev. Father Francis P. Conlon, O.M.I.; and Rev. Father C. T. Martin, C.A.C.

All Tech Catholics will be excused from Saturday morning classes. A dance at 9 o'clock in the Newman House will follow the Retreat.

Professor Daniel Heads Conference

Delegates from colleges throughout the state came to Atlanta last week for the twenty-sixth annual meeting of the Association of Georgia Colleges, which opened at the Biltmore Hotel at 7 o'clock last Friday night.

Numerous talks concerning college and the present emergency were given, and the conference closed after a noon business session Saturday day, when new officers were elected.

Professor John L. Daniel, of Georgia Tech, presided over the conference as head of the association.

The Ceramic Engineering Department head stated that students in that course have been deferred from Saturday morning classes.

Cereamic—From Page 3

red clay, fuller's earth, ochre, barite, glass sand, granite waste, mica, kaolin, feldspar, and marble. A current investigation in the Ceramic Engineering Department concerns the potting of small objects in a shape which will substitute for the Maccabre large shape, the supply of which has now been cut off. Other investigations concern the use of waste in insulating bricks such as is needed in many types of furnaces.

The Ceramic Engineering Department head stated that students in that course have been deferred from Saturday morning classes.
