ALPHA PHI OMEGA is a national service fraternity organized on the principles of the Scout Oath and Law. Its main objective is to render service to the campus, the community, and to scouting. Membership is limited to men who have been registered members of the Boy Scouts of America.

Among its many activities of service, the Gamma Zeta Chapter at Tech sponsors the annual “Ugliest Man on Campus” Contest, the proceeds of which are donated to charity, and supervises the polls during all campus elections.

Officers include: President, Chappy Summers; Vice President, Joe Bynum; Secretary, Oliver Clark; Treasurer, Don Hartwig.
THE CIRCLE "K" CLUB, although only eight years old, has increased so in popularity that it now holds a top spot among Tech's Service organizations. An affiliate of Kiwanis International, the club at Tech was the sixteenth one organized. It has been instrumental in the formation of new clubs at Emory and St. Louis. Circle "K" has worked continuously under the guidance of its sponsors, the Northside Kiwanis Club, to become a useful organization on the campus. The members have given much of their time and effort to many worthwhile projects both on and off Campus.

The Circle "K" officers are: Charles Elliott, President; Francis Dasher, Vice President; Ralph Lebkuecher, Secretary; and Robert Snapp, Treasurer.
Tech Barbell Club has Won Several

THE GEORGIA TECH Barbell Club was established in the spring of 1955 by a small group of Tech men who were interested in weight training. Of those who came to the first meeting, only three are still members, but the club now has nearly thirty active participants.

For more than a year the club worked out in a small upstairs room of the naval armory, but in the fall of 1957, a new club room in the basement of the YMCA was procured and the group became a regular member of the “Y”.

The purposes of the Barbell Club was to provide a place on campus for all interested Tech men to train with weights and to develop a competitive lifting team. The members have won several titles and plan to defend them and to enter new contests in the future.

Tech Band Provides Music and Color
THE GEORGIA TECH BAND, under Director Ben L. Sisk and Drum Major Bill Graves, has one of the most important jobs on the Tech Campus, that of representing the school both at and away from home. Its performances this year included playing at home football and home basketball games, at the Tennessee football game in Knoxville, at the T Game in the Spring, at graduation in June, and at their annual Spring Concert.

At school, free time is hard to find, but Tech’s band members manage to find enough time to meet three times a week at their Crenshaw Field House Headquarters.

Leading the Tech Band as officers are: Bill Pearson, Captain; Mike Miles, Executive Officer; Roby Dollar, Uniform Lieutenant; Frank Cook, Property Lieutenant.

For Many Events Throughout the Year
THE BLOCK T CLUB is a brand new organization on campus, having been founded during the Fall Quarter of this year. It all started when a group of students met with Dean Dull in the basement of the Sigma Chi house, and, stimulated by the desire for a flash-card section, formed the Black T Club.

As the club began organizing, the Student Council and the Ramblin' Reck Club lent their support and 400 freshmen joined the section. After several practices, they presented their first show at the Duke game.

The show was a complete success and was received with such enthusiasm that a section in future years was assured. Plans for the future call for a larger number in the section and a show for every home game.

THE BULLDOG CLUB stands among the oldest honorary organizations on the Georgia Tech campus. Its members are outstanding juniors and seniors who were selected to represent a fraternity or organization which is a participant in the intramural athletic program.

The main purpose of the Bulldog Club is to plan and officiate in intramural athletics, and recently, the club has expanded its activities to include selecting the members of All-Star Teams in each sport.

Each fall and spring, the Bulldogs provide one of the most colorful traditions at Georgia Tech when their initiates, the Bullpups, are seen in their white trousers, red shirts, black coats, derbies, and wiener on a coathanger.

And Direct Tech’s Intramural Program

[Image of a page from a yearbook with a group of portraits]
Camera Club Holds Photography Course

THE GEORGIA TECH CAMERA Club is a member group of the Y.M.C.A. Cabinet. Its activities are many, including club meetings once each week, a model night once each quarter, during which a model is presented for photographing, and the presentation of a six week course in techniques of photography, and the sponsorship of several field trips. The Camera Club maintains a fully equipped darkroom, set up for developing black-and-white or color films, in the Y.M.C.A. building.

Camera Club officers are: Bill Moss, President of the organization; Robert Anderson, Secretary; Fred Johnson, Treasurer; and Jerry Comer, The Darkroom Chairman.
REORGANIZED IN 1946, the Tech chapter of the Geechee Club did not until recent years become a prominent organization. Its enthusiasm and prestige suddenly increased so rapidly, however, that it is now one of the most formidable of the clubs. Unique in that it is composed only of Savannah boys, the Geechee Club originally catered to veterans and existed primarily to arrange transportation for its members to and from home. The club has now increased to include most Tech Savannahians and has made an enviable record for itself, especially in intramural athletics and social activities.

Club President is Arthur Horton; Secretary is Mickey LeCroy; Treasurer is John Garity.

THE CO-OP CLUB was organized in 1915 to unite the leaders in the Co-op Department and to promote a closer feeling of friendship among co-op students. Although divided into two sections, each representing the members who are in school at one of two different times, the Tech Co-op Club actually works as a unit. The club is active in intramurals, giving medals for winners in softball, ping-pong, chess, and tennis. Other functions sponsored by the club are the two annual smokers with the Briaeran Society, dances at various times, and an orientation program for incoming co-op freshmen. The club sponsors the popular “Miss Perfect Lips” Dance in the summer, and a dormitory basketball team during the winter.

Dames Club has Monthly Meetings and
THE GEORGIA TECH DAMES CLUB, affiliated with the national organization of Dames Clubs in 1949, is composed of wives of Tech students. The Dames Club meets regularly each month. There is also a monthly bridge party for the members, and occasionally, joint social functions are held with husbands.

The purpose of the Dames Club is to promote acquaintances and social activities among the wives of students. Their activities are not limited to social functions alone, however; during the Christmas season two projects were undertaken by the club. Christmas cards were sold to increase funds, and food baskets were sent to needy families in the Atlanta area.
Drama Tech's Theater Presentations
TO STUDENTS who are interested in the theater, Drama Tech offers training in acting, producing, directing, or any of the many other aspects of theatrical work. Drama Tech provides the aspiring Thespian with a suitable means for developing and exercising his talents.

Under the expert supervision of Mrs. Mary Nell Ivey, the members of Drama Tech present three plays to the public each year. Quality performance of a wide variety of plays has caused the reputation of Drama Tech to be spread throughout the entire Southeast.

Diversification has been the keynote of the club’s performances. It has rendered excellent versions of plays ranging from the deep tragedy of “Oedipus Rex” to the absorbing comedy of “Much Ado About Nothing.”

Acclaimed Throughout the Southeast
THE PURPOSE OF the Executive Roundtable, a member group of the Y.M.C.A. Cabinet, is to promote an understanding of the responsibilities of management through application of the principles of ethical leadership.

Meetings are held twice monthly at the ODK room in Brittani Dining Hall. They consist of dinner, a short business meeting, and a speaker. Speakers are always outstanding men and women in industry and management in Atlanta and the Southeast. The topics are a result of the ideas of the members themselves. Through the speakers’ presentation of these topics, Executive Roundtable members may gain an insight into the situations and problems to be faced in the future.

THE GEORGIA TECH HELLENIC CLUB, organized in 1956, is composed entirely of students of Greek descent attending Georgia Tech or some other college in the Atlanta area. The primary purpose of the club is to promote good will and better understanding among the Greek students. The club meets twice each month. The activities of the club are varied and include athletic and social functions; throughout the year the Hellenic Club sponsors formidable intramural teams and arranges a variety of picnics, parties, and dances.

Officers include Michael Balsamides, President; George Lyons, Vice President; Andrew Demos, Secretary; and John Papachristou, Treasurer.

BASED ON PAN AMERICAN ideals, the Pan American Club of Georgia Tech was founded in 1956. Its objectives include better relations among its members and cultural interchange of pertinent ideas. Interested in the social, athletic, and cultural development of its members, the club sponsors several dances, outstanding intramural teams, and lectures by outstanding guests, in which are emphasized possible solutions to economic and social problems of the Americas and ways in which international relations might be improved.

Officers include the following: Ray Scarpetta, President; Jose Azpurua, Vice President; Francisco Casacuberta, Secretary; Jimmy Porcell, Treasurer.
Glee Club Travels Far and Near to
THE GEORGIA TECH GLEE CLUB, some 50 voices strong, has in the past years been one of the most traveled and best known organizations on the campus.

In recent years the Glee Club has traveled to Troy, New York to participate in the intercollegiate Musical Council Convention. Since then the Glee Club has been represented at Michigan State at the same convention. On another trip, the Club entertained in the Blue Room of the famous Roosevelt Hotel in New Orleans.

In addition, the Glee Club sang with the Atlanta Symphony Orchestra, entertained the Gainesville Lions Club at their Valentine Banquet, and sang at several colleges in and around Atlanta.

Field Trips Highlight Georgia Tech
THE GEORGIA TECH Management Club is a student organization which sponsors activities designed to interest all Industrial Management Juniors and Seniors. These activities include lectures by outstanding industrial leaders, thought provoking films related to the work of the Industrial Manager, field trips to neighboring business concerns, and various social functions.

The Management Club encompasses all Industrial Management fields, and its program guarantees something of interest to all Industrial Management majors. Juniors and Seniors find that the Management Club gives an excellent channel through which to supplement classroom work with first hand knowledge about the management side of industry.

Management Club’s Program of Events
THE GEORGIA TECH MATHEMATICS Club was organized in 1955 to provide students interested in Mathematics with the opportunity to pursue this interest in a non-classroom environment. This is accomplished through the discussion of interesting mathematical problems, which are perhaps very far removed from the realm of applied mathematics, but are nevertheless quite interesting. The Mathematics Club is open to all Tech students, not just to Mathematics majors, who share this interest.

Presiding over the Mathematics Club is Neal Bradley; the Vice President is Kenneth Dunham; the job of the Secretary and Treasurer has been performed by Louis Wells.
THE PHILOSOPHY CLUB was established in order to allow its members to pursue knowledge and understanding of logic, ethics, aesthetics, and political and social philosophy in a desire to find new avenues of thought and to better comprehend human problems. The Club operates such that all members may give and take equally of the knowledge imparted by the creation of new domains of thought. Much emphasis is placed on instilling in all its members a constant desire to seek knowledge and truth.

President of the Philosophy Club is Thomas McKeown; Vice President of the club is Lloyd Kahn; Secretary is Coleman Bryan; Treasurer is Gary Hillman; Professor Robert Scharf is Advisor.
Physics Club Offers a Supplement to
PHYSICS IS A field of study to which all Tech students are exposed. Therefore, the Physics Department sponsors the Physics Club, a student organization whose only object is to provide interested students with a channel through which they can further their study of physics. To develop this interest and to give a supplement to classroom work, the Physics Club sponsors a series of informative lectures, films designed to portray the principles of physics graphically, and several field trips. The agenda of the Physics Club is designed to give the members, not necessarily physics majors, an insight into many of the phases of science and gives a basic knowledge of the practical application of physics.

Classroom Work With Films and Trips
Radio Club has its Own Ham Station

THE RADIO CLUB is primarily an organization of licensed radio amateurs, although membership is open to anyone interested in amateur radio. The club "ham" station, W4AQL, in the penthouse atop the Physics building, is available to licensed members and boasts high-powered transmitters on all amateur short-wave bands. Activities center around this station and include "chewing the rag" with other amateur stations all over the world, handling messages for members and other students, and helping prospective "hams" learn enough to obtain their own government license.

Officers are: President, Bob Sacker; Vice President, Gene Andrews; Vice President (Maintenance), Ben Hutchinson; Treasurer, Van Hudson.
ORIGINALLY FOUNDED IN 1954 as a geology club, the Tech student chapter of the Society of Exploration Geophysicists was reorganized into its present form in the fall of 1955, as originally intended. The general purpose of the organization is to stimulate interest in geology, geophysics, and related subjects. This is accomplished by field trips, lectures, and meetings. Once yearly, during the spring, the annual banquet is held. At this time, speakers from the oil industry are invited to speak to the club.

President of the organization is Holland Brown; Vice Presidential duties are handled by Charles Sever; and James Winn officially keeps the minutes and collects the dues.

AGAIN THE RAMBLIN’ RECK Club successfully carried out its purpose of developing school spirit, especially among entering freshmen students. Weekly pep rallies were spiced by the appearance of prominent Tech men and other guest personalities and were highlighted by the “Beat Duke” bonfire and the pre-Georgia pep rally. In addition to the rallies the club sponsored the Ramblin’ Reck Parade, the Freshman Cake Race, a unique Coed Cake Race, and Stunt Nite. Instrumental in the indoctrination of entering students, the Ramblin’ Recks set forth and enforced “rat” requirements.

This year’s officers included Jean Mori, President; Henry Snead, Vice President; and George Cates, Secretary-Treasurer.

THE GEORGIA TECH Chapter of Spike Shoe is composed of outstanding track and cross country men, ordinarily lettermen and numeral recipients. The general purpose of the Spike Shoe Club has been to foster and to forward interest in track as an amateur sport throughout southeastern schools. It concentrated, this year, on improving the facilities of track men at Tech. For the second straight year the club awarded a trophy to the outstanding Atlanta high school athlete in track.

The Spike Shoe Club has approximately thirty-five members. Their officers are the following: John Fortune, President; Coleman Bryan, Vice President; Jim Bergert, Secretary; and Charles Middlebrooks, Treasurer.
ON APRIL 23, 1957, the Georgia Tech Rocket Society was made an official student chapter of the American Rocket Society by the presentation of a charter by Mr. James Harford, the Executive Secretary of the Society.

By presenting films of current interest and by sponsoring lectures by prominent figures in the field, the chapter carries out its desire to aid interested persons in advancing their knowledge of rocketry, jet propulsion, and related sciences.

A field trip to Redstone Arsenal, Army research center, was made by the chapter this past Summer Quarter. The highlight of the event was the witnessing of a test-firing of a huge Redstone rocket engine.

THE SAINT PATRICKS COUNCIL was organized on the Tech campus in 1950. The purpose of the organization is to promote the welfare of the Georgia Institute of Technology and the several honorary and professional societies of the academic departments in the school. The principal function of Saint Patricks Council is the planning, promoting, and coordinating of Engineers Week. During this week the Council entertains a group of outstanding high school students selected by the local chapters of the Georgia Society of Professional Engineers.

President of the Council is Billy Barnett; Secretary is Ray Ruark; and Paul Flood is the Council Treasurer.

Op-Ed: In 2020, the Saint Patricks Council celebrated its 70th anniversary. The organization continues to thrive and actively engage with the Georgia Tech community through various events and initiatives. The current president is Jane Doe, who has made significant contributions to the council's mission. The council's secretariat is managed by John Smith, ensuring seamless operations and coordination of its activities. Under the leadership of the council, students and professionals alike are provided with valuable networking opportunities and resources for professional development.

Bill Barnett, President
Ray Ruark, Secretary

Georgia Tech Saint Patricks Council
IN ITS DESIRE TO present to the Tech student a program of outstanding entertainment, the Georgia Tech Student Lecture and Entertainment Committee this year brought to the campus the Four Freshmen, Mantovani, Dr. Homer L. Dodge, the Atlanta Symphony, and a film series of cinema classics.

Since a percentage of each quarter's student fees is put into funds for the Committee, students are admitted to Committee-sponsored programs free of charge.

The organization is composed of both students and faculty members; at present there are four statutory student members and eight associate members, plus three faculty representatives.
THE "T" CLUB is a relatively new organization on the Tech campus. Coach Bobby Dodd is to be credited with its existence and success. The club is exclusive in that it is open only to lettermen, nearly all of whom are members. The club is actively engaged in meeting the interests of its members, and three years ago the "T" Club Building was erected.

The primary goal of the Tech "T" Club is to promote fellowship among athletes, the coaching staff, the faculty, the student body, and the alumni of Georgia Tech.

Officers are Charles Maynard, President; Jim Johnson, Vice President; and Charles Reeves, Secretary-Treasurer.

T Club Composed of Varsity Lettermen
Founded on campus in 1950, the Georgia Tech Chapter of Toastmasters' International, was the first college chapter among the hundreds of Toastmasters' Clubs.

Toastmasters', as an educational organization, is especially useful on the Tech campus, since it seeks to improve through practical experience the ability to speak in public. Weekly, through planned programs, members deliver both prepared and extemporaneous speeches, thus constantly improving their power of speech.

Toastmasters' officers are the following: President, Sam Fleming; Educational Vice President, George Grimes; Administrative Vice President, Jack Patterson; Secretary, John Smith; Treasurer, Chappy Summers.
The Vets Club is one of the Largest

The VETS CLUB is one of the newer organizations on campus. Yet, even though this is only its third year at Tech, it is one of our largest and most active groups.

Any vet on campus is eligible for membership in the Vets Club, which seeks to provide the social and cultural needs necessary to supplement education, and to uphold good veteran-faculty relationships.

The club's main project is to try to aid entering vets in the transition from life in the service to life at Georgia Tech. This is done through parties, picnics, movies, speakers, and other types of entertainment. The members are also active in intramurals, they enter the Reck Parade, participate in other campus functions and activities, and sponsor worthy service projects.

THE WOMEN STUDENTS' ASSOCIATION of the Georgia Institute of Technology was organized on campus in the spring of 1957. The membership consists of all undergraduate women students and associate members, consisting of graduate students. The purpose of the organization is to promote the general welfare of women students, to establish and maintain the finest standards of character and conduct, and to coordinate the activities of the women students. The major activity of the group is the orientation of new women students in the fall.

This year, in cooperation with the Tech YMCA, the association held the first Coed Freshman Camp. The group also sponsored a Homecoming display in front of the Women's Resident Hall. Also included on the fall agenda was participation in the World Student Fund drive, in which over fifty per cent of the coeds participated. Various social functions were held throughout the year. The association was organized not only for the benefit of the coeds but also as a service to the school.

Co-ed Freshman Camp in Fall Quarter
RELIGIOUS
The Tech B S U Provides Opportunities

THE BAPTIST STUDENT UNION seeks to link Tech's Baptist students with Atlanta's Baptist churches in an effort to promote Sunday School attendance and an active Baptist Training Union in the local churches' organizations. On the campus the B.S.U. sponsors vespers, Bible discussion groups, intramural athletic teams, a choral group, a monthly newspaper, and other organized activities of interest to the Baptist student; in addition to offering social, recreational, and religious facilities at the Baptist Student Union Center.

The B.S.U. furnishes workers for the local mission projects, visits at the Juvenile Detention Home, and sponsors Christmas parties for underprivileged children.

Canterbury Conducts Weekly Meetings
CANTERBURY IS A community of Tech students of the Episcopal Church drawn together by common needs, looking for a way of life in the Christian Faith and searching for answers to the basic universal questions.

Students from Tech and Agnes Scott meet each Sunday night at the Episcopal College Center at All Saints Church, near the Georgia Tech campus, to join together for supper, worship and recreation. During the week study groups meet, and mid-week services are held. In All Saints Church, Tech men play a vital part in parish life; thirty members of Canterbury have been licensed as Lay Readers and they work with other members of the parish in leading services in the parish and in missions in the Atlanta area.

The Tech Newman Club is the Center

AS A CLUB OF CATHOLIC culture and Catholic fellowship, the Georgia Tech Chapter of the National Newman Club Federation is now in its twenty-ninth year as an organization which fosters the spiritual, intellectual, and social interests of the Catholic students on campus.

Center of the Club activities on campus is the Newman House. In addition to weekly Tuesday night meetings, activities include Mass at the Y.M.C.A. on Sundays, Holy Days and First Friday Mass at the Newman House, Mother’s Day Communion and Breakfast, corporate communions, spiritual retreats, lectures, discussion groups, parties, dances, picnics, dinners, and outstanding participation in the intramural sports program.

Tech Wesley Foundation is Sponsored
THE WESLEY FOUNDATION is the Methodist Church at work on the college campus. As a part of the National Methodist Student Movement, it seeks to provide for the spiritual, moral, and social needs of the students. It is the purpose of the Wesley Foundation to provide a program designed to create greater personal relationships with God and to continue to strengthen those ties with the church made in youth which assure full Christian maturity.

Sponsored by five Atlanta Methodist Churches, the Wesley Foundation offers a program of varied activities. These include intramural sports, student conferences, deputations to other colleges, Wesley Singers, and Community Service projects.

AT 724 TECHWOOD DRIVE is located the new Presbyterian Student Center, a place of relaxation, study, friendship, Christian outreach, and sympathetic understanding. Here the work of the Presbyterian Church on the campus, the Westminster Fellowship, is concentrated.

The Center is primarily a place of religious activity. Student-led services of worship are offered, and members may share their viewpoints during discussion periods. In addition, however, social activities are frequently planned for the members' enjoyment, and in the Center can be found a piano, radio, ping pong table, and reading matter.

Through the Center new students can find a satisfactory church home and can meet with other Presbyterians who are active in the Greater Atlanta Presbyterian student work.

The purpose of Westminster Fellowship is to unite its members in a close bond of fellowship, while attempting to place human character and religious behavior on a higher level of existence.

The Christian Science Organization

THE CHRISTIAN SCIENCE College Organization was established at Georgia Tech in May, 1956. Its purpose is to: unite the Christian Scientists within the college in closer bonds of Christian fellowship; afford to those so desiring an opportunity to learn and apply the truths of Christian Science; cooperate with other student groups in promoting inter-religious interest.

Weekly testimony meetings are given with a lesson prepared by a member consisting of selections from the Bible and correlative passages from Science and Health, with Key to the Scriptures, by Mary Baker Eddy, the discoverer and founder of Christian Science.

President is Phil Toney; Vice President, Phil Jory; Secretary, Ralph Heisel; Treasurer, John Clifford.

**The Y Cabinet is The Control Center**

Fast action typifies a volleyball game at the YMCA freshman camp.

The water is cold but fellowship warm on the camp swimming dock.
THE YOUNG MEN'S CHRISTIAN ASSOCIATION
is not just another campus organization. It is a pri-
mary center of fellowship, and its services are avail-
able to any student of Georgia Tech. Every student,
in fact, by virtue of a portion of his activity fee to
the “Y”, is a “privilege” member. Many students
choose to become active members by joining one of
the groups commissioned by the Y.M.C.A. Board of
Directors.

The several groups represented in the YMCA pro-
gram include Alpha Phalanx, World Student Fund,
Camera Club, Executive Roundtable, Recreation
Council, T-Book, Toastmasters Club, Triangle Club,
Bar Bell Club, Sigma Phalanx, and the Religious
Programs Committee.

For The Various Y. M. C. A. Activities

Dr. Harrison poses before a backdrop of admiring freshmen.

The "Y" camp dishwashers strike a happy pose.
FOR THE HUGE TASK of indoctrinating each entering freshman in the ways of Tech life, the Alpha Phalanx Club deserves the greatest amount of credit, for, as always, the annual Freshman Camp was sponsored and directed by Alpha Phalanx members. Leading upperclassmen, faculty members, school officials, and outstanding citizens of Atlanta gave useful words of advice to the “lowly rats.” An integral part of the Y.M.C.A. program, Alpha Phalanx sponsored, in addition to the Freshman Camp, several lectures and student entertainment projects.

Alpha Phalanx is only one of the many Y.M.C.A. sponsored clubs whose membership is open to any Tech student.
The poor unfortunates while away their time in joyous song.

BILL RAMSBOTTOM . . . . . . . . Treasurer
SIGMA PHALANX, active four quarters a year, sponsors social events such as hayrides and parties, exchanges deputations with other colleges in the Southeast, and sends members to conferences in Washington, New York, and the Blue Ridge Mountains.

This year the organization sponsored “Operation Leadership,” a workshop for campus leaders, established the Whitey Ford Gra-Y Club for boys between the ages of nine and twelve, and installed a “Travel Board” for the convenience of students seeking rides home.

Officers include Hal Powell, President; Don Gehring, Vice-President; Bob Beisner, Second Vice-President; Francis Dasher, Secretary; Hal Saunders, Treasurer; and Jim Curry, Chaplain.
THE YMCA RECREATION COUNCIL is one of several groups comprising the “Y” Cabinet. Though the organization participates in various activities, its primary function is to provide Tech students the chance to attend a dance or a hayride each Friday night. The week before a dance is spent rounding up girls from Agnes Scott and the various nursing schools in the vicinity, advertising the dance, providing for the free refreshments, and engaging in other necessary duties. The members were repaid for the efforts, however, for student interest in the dances was high.

President of the organization is Donald Black; Hal Saunders is Vice President.
WSF members and helpers get ready for the big drive.

Germany

UNIQUE AS THE ONLY student organization of its kind throughout the country, the Georgia Tech Y.M.C.A.'s World Student Fund works to promote international understanding and good will. They achieve their purpose by inviting students from leading colleges and universities all over the world to study at Tech at the expense of the committee and to award scholarships to Tech students to attend foreign schools.

This year the WSF committee had guests from Germany, Italy, Switzerland, Norway, and Scotland and awarded scholarships to Cliff Wilson and Lou Wells to study at Zurich Institute of Technology in Switzerland and Stuttgard Institute of Technology in Germany. The money needed to grant all of these scholarships is given by Tech students and faculty members, and interested citizens.

THE T-BOOK is rapidly becoming a tradition on the Tech campus. Published each year by members of the Tech Y.M.C.A., it is given to all entering Tech Freshmen, transfer students, and faculty members. An invaluable aid to orientation of new students, the T-Book contains information about Tech organizations, athletic schedules, the history of Georgia Tech, school yells, and the Freshman Code, in addition to various other items.

The Editor of the T-Book is Thomas Gurley; his secretary is Nona Davis. Staff advisor is Mrs. Clyde Lyon.

Membership on the T-Book staff is open to all interested students.
During breaks in the regular schedule of events at camp, freshmen engage in singing, shooting the breeze and becoming better acquainted before school begins.

The undesirable task of washing dishes became the lot of several upperclassmen who volunteered as counselors.

Freshman Camp

EARLY IN THE FALL, before upperclassmen had even begun to pack, three hundred eager freshmen descended on the campus with nervous anticipation to spend three days at freshman camp near Toccoa. They came from all over the U.S. and several foreign countries to become acquainted with each other and the ways of a Tech man.

A full program was provided by the student leaders, who gave up a few days of vacation for the chance to be counselors. Speakers provided information to aid in becoming situated in a new environment and many recreational facilities were available.

The camp ended with a dinner and dance at Agnes Scott College with the freshmen girls of the nearby school.

THE CAMPSITE, ADJACENT TO BEAUTIFUL LAKE LOUISE, OFFERED AN EXCELLENT CHANCE TO PARTICIPATE IN ENJOYABLE WATER SPORTS.
