The Student Council Announces Election Plans for Amendments and Councilmen

Petitions Must Be Completed May 5; Primaries on May 12, Finals May 19

By Homer Pittman

Student Council elections will get under way on May 12 and will be completed on May 19 with students cast their final vote. Petitions for candidacy are to be completed and turned in.

The Student Council election committee, headed by Bill Carroll, announced that candidates this year will be required to sign a code of ethics before entering the race. Carroll stated that certain proposed amendments to the constitution of the student government were passed on elections for sophomores, juniors, and senior class officers would be held concurrently with this election.

According to this abstract from the constitution, Article V, Section 2, the following members will be elected:

1. The rising Senior class of each degree granting department shall elect one rising senior member of that department. This member shall consist of at least 50% of the regular or returning students in good standing, between the old and the new.

2. All departments having less than fifteen rising seniors shall be considered and will be covered by the above rules for departments.

3. The junior, sophomore, and freshman membership in the council shall be as follows:

Pre-Registration Poop For Summer Is Released

All students (except first and second quarter freshmen) who wish to remain enrolled for the summer quarter or return in the fall shall have a schedule conference with an advisor during the week of May 11-12. Degree-granting schools will post their schedule conference hours and the conference will be held after April 30.

An I.B.M. punch card, with the student's name printed on it, will be placed in each student's campus post office. If a student fails to receive a card by April 18 he should call the Office of the Registrar for a duplicate at once.

1. Students who will not be enrolled at Tech after the current quarter:

2. Students who will be enrolled at Tech after the current quarter:

a. Freshmen who will not schedule any sophomore subjects in chemistry, mathematics, or physics should write "summer" on the face of the card and deposit it in the Office of Dean Hefner, Room 206, Administration building. No schedule conference will be necessary.

b. All other students who will not return for the summer but who wish to return in the fall shall present the punched card (with "fall" written on its face) to an advisor in their school of specialization. The purpose of the conference with the advisor is to receive a course list for summer registration. This form must be presented to a schedule advisor at the time of registration, June 23.

3. Students who will not be enrolled during the summer quarter but wish to return in the fall:

a. Freshmen who will not schedule any sophomore subjects in chemistry, mathematics, or physics should write "fall" on the face of the card and deposit it in the Office of Dean Hefner, Room 206, Administration building—no schedule conference will be necessary.

b. All other students who will return except the Freshman Class officers shall be held on Monday, June 23.

Fall quarter registration for old students returning will be held Monday-Tuesday, June 23-24.

Degree Candidates Must File Petitions

Every student who is expecting to be a candidate for a degree during the school year ending in May must file a petition. Petitions are filed in the candidate's school of specialization and should be submitted during the quarter preceding the one in which the candidate expects to complete the requirements for the degree. Petitions must be filed before May 1 if students expecting to receive a degree in June of this year and who has not already filed this petition should do so at once.

Engineers' Queen Candidate

MARLENE WEINSTEIN, a very interesting candidate for the post of Engineers' Day Queen is shown above in a very interesting pose. She is one of the many competing candidates, one of which will be announced as the Engineers' Hall, April 23.
DramaTech Releases Casting As Judged by Zenas Sears

On April 11th, Mr. Zenas Sears, prominent disc-jockey and adviser to DramaTech, released his selections for the cast in the club's new production, "Heaven Can Wait." The judging was the result of a series of exhaustive tryouts conducted last week.

Chosen as principal characters were: Tony Pellegrino to star as Joe Francisci as Mr. Ames, and Al Boissy as Tony Abbot, Bill Hasbany as Max Devon, Joe Da Francisco as Mr. Ames, and Al Bottry as William.

The feminine portion of the cast has not been chosen yet, but some difficulty will probably be experienced in finding a body for his soul. The time and place have not been definitely set, but the production will take place on some date late in May.

**Translating Kinsey Report Selling Briskly in France**

By Bill Dunn

The "Wooden Horse" of the St. Petersburg Junior College brings us news of how well the latest of America's "great works" is going over in Europe. In France, Dr. Alfred C. Kinsey's "Sexual Behavior in the Human Male" is going briskly in translation and another edition on the way. Because most French critics don't think the figures in the book apply to Frenchmen, the publisher, enticed the translation "Sexual Behavior in the American Male." Snearing at the tammes applied by Dr. Kinsey's estimate that about half of all American husbands are unfaithful, the weekly "Sunday S Lust," proudly headlined one of its articles on the book: "In France, 90% of the husbands are unfaithful!" The publisher is pleased with responses to the book, but says no comparison to the terrific ovation which greeted the French translation of "Forever Amber." ★ ★ ★

A $75,000 damage suit was filed against the local chapter of the Zeta Psi Fraternity on the University of California campus, last week. It seems that during a dance held at

Rhodes Scholarship Open; Applications Due Oct. 29

Go. Tech Can Recommend Five Men To State Committee for Selection

By Bruce Kidd

Any student who is interested in competing for a Rhodes Scholarship to Oxford University, London, England, should make an application to the Secretary of the Committee of Selection for the state from which he wants to enter before October 29 of the year in which he desires to enter on the basis that he must be a male, unmarried citizen of the United States between the ages of nineteen and twenty-five. He must have attended at least a junior standing in a recognized school. Cecil John Rhodes, Great Britain's statesman and imperialist, set up these scholarships in his will for the purpose of unifying the British Empire by the spreading of culture.

Rhodes Scholarship Open; Applications Due Oct. 29

The eligibility requirements for a candidate are that he must be a male, unmarried citizen of the British Empire by the spreading of culture. He also granted thirty-two scholarships to him; he who is qualified he may read for an advanced course of study. A Rhodes Scholar can obtain no bad character and leadership; physical health as shown by interest in sports, and a dance which climaxed the conference.

At Auburn AIChE Conclave

The next meeting will be held Thursday, April 21, at 7 p.m., in the south lounge of Techwood dormitory.

Engineers Day Founded by Stubbins and Kneisel

By Dave Crane

Dr. Ray L. Swenerton, long active in Engineers' Day, founded the first Engineers' Day to die in World War II. He was elected to the office of President of the Student Chapter of the Engineers' Day. As an effort to be the sole purpose of an Inter-Honor-Fraternity Council, and through their initiative the first Engineers' Day became a strong on that basis. It was not until after the war that Engineers' Day became under the direct coordination of Tau Beta Pi.

Joseph Stubbins, an outstanding electrical engineering student from Birmingham, Alabama, was president of Tau Beta Pi, president of Eta Kappa Nu, and a member of the Honor Roll for 4 years. He was elected to the office of President of the Student Chapter of the Engineers' Day. As an effort to be the sole purpose of an Inter-Honor-Fraternity Council, and through their initiative the first Engineers' Day became a strong on that basis. It was not until after the war that Engineers' Day became under the direct coordination of Tau Beta Pi.

Langstaff Elected President At Auburn AIChe Conclave

At the Southern Regional Conference of the Student Chapters of the Chemical Engineering Society held at Auburn, Alabama, on April 10, 11, 12, and 13, Wilt Langstaff, delegate from the Georgia Tech Chapter, was elected to serve as president of the conference for the coming year. Langstaff is at present a third quarter junior majoring in chemical engineering.

In addition to the technical sessions, field trips to all the industries in Auburn and surrounding cities were also scheduled for all those desiring to attend.

Social Events

The three main events on the social program were a smoker, a banquet, and a dance which climaxed the convention.

The Georgia Tech chapter of the A.I.Ch.E. was represented by Dr. W. E. Addicks, the faculty advisor; Frank Cheely, Wilt Langstaff, Leon Meyer, Stanley Gray, and James Fisher.

Techwood ISO Club Elects New Officers

The Techwood Club branch of the I.S.O. met Tuesday night, April 12, with election of officers as its main objective. Officers were elected as follows: president, Stuart Richmond, vice-president, Hugh Fisher; secretary, Aubrey Nabers; treasurer, Gene Franklin.

A committee consisting of Jerry Clark, Jerry Welden, and Ernest Schickler was appointed to draw up a constitution. Art Heywood, George Kneisel, and Jack Fabel were appointed as a membership committee.

Bob Cleft, athletic director for the club, announced that the I.S.O. will sponsor a square dance open to the school. No admission will be charged.

CORRECTING WEAKNESSES
Proposed constitution amendments will promote efficiency.

On Wednesday of next week, all students will have a chance to vote on changes and additions to the Student Council’s constitution. Amendments and changes to the student constitution will be distributed on that day, and time will be reserved for students to vote. We cannot overestimate the importance of studying these proposed amendments and casting votes.

We add that these amendments have no “political” implications whatsoever. They are the result of careful study by the council members and other students who have been working in student affairs and have discovered the weaknesses of our constitution—weaknesses that restrict and hamper our efforts and progress toward self-government; weaknesses that weaken our positions in negotiations with the administration; and weaknesses that reduce the strength of our bargaining power.

To anyone who so much as reads these suggestions, it is quite obvious that these amendments are needed. If you are one of such, but can of insatiable value to the student body?

It is pointed out that the faculty and administration officials are carefully watching the results of this ballot. We have screamed that we are an embryo and are capable of handling our own affairs for so long and so loudly that we have gained quite a bit of attention. There are a number who don’t believe us and are convinced we are not taking the ball into our own hands. There are still others who firmly support us and are counting on us to prove our contentions.

WHERE WERE THE BOYS?

Only six organizations showed up for Reck’s Stomp. The Interfraternity Council has definitely decided to file a complaint against the Dean’s Team plainly announces to all that he is such. Unfortunately for the students there is no such list present for the delinquents of our professor. At one time Pi Delta Epsilon used a faculty rating sheet. These were gone and so the profs the pretense of good rating were dropped. This rating system obviously was a good idea, far better than that of printing the Technique the names of the profs who were teaching certain courses at certain times. The student-faculty relations not a whit. Instead it will serve to emphasize the poorness of some profs through the lack of class attendance, which in turn will cause even more hard feelings.

On Revolutionists and Thieves

Are students with the “word” to be classed as common thieves or as revolutionists against tyranny?

No lawbreaker ever lived who failed to justify himself. The thief has been a raw deal to society and the revolutionists have been given a raw deal by the government.

Rarely is the thief “justified”, but often the revolutionists are. However, the government has failed to see the distinction the thieves and the thieves place themselves in the category of revolutionist, not against the government, but against society as a whole.

Today crawling with thieves and revolutionists, depending upon who is doing the labeling: The hooligans are being caught, and the revolutionists constitute a very small fraction of the boys with the “word”.

Constitution Amendments

(Continued from page 1)

class officers shall be elected in the same manner herein prescribed for Student Council members.

Section 6: The following shall be added: Paragraph C. of the present Editor and Business Managers of the publication the present Editor and Business Manager of the publication being voted on shall have one (1) vote each.

The following shall be added: "Except those of a personal nature."

Section IX: Create Section 8 as follows: "The accused shall be allowed to present evidence and speak in his own defense. All witnesses shall be questioned by the Chairman of the Trial Board and submit his case directly to the Executive Dean.

Create Section 9 as follows: "No person other than students and members of the faculty of the Georgia Institute of Technology shall witness the proceedings of each meeting. He shall report all of the pertinent information and the names of the persons to be called as witnesses.

The amended section shall be presented to the faculty for approval.

Section XII: Add "and further provided that the amendments be approved by the faculty."

Faculty Bulletin

(issued by Department of Public Relations)

NOTE DAKE BAND CONCERT—For the first time the University of Notre Dame Band is making a tour into the South, and has included the University of Georgia in their itinerary. It will appear here for two performances, 2:30 and 8:30 p.m. on Saturday, April 14, at the Large School Auditorium. Tickets are on sale in the Union, or may be obtained at the door at the time of the performance.

RED CROSS DRIVE—The Red Cross, through its Georgia Tech chairman, Dean George G. Griffis, has expressed its appreciation to all those who contributed to its solicitation of funds and contributions. According to a report issued March 28, Georgia Tech gave a total of $1,260.08 to this cause.

NEWCOMERS—A welcome to the new faculty members who have joined our ranks as of the Spring Quarter. Among these assuming teaching status at this time are: Dr. M. W. Johnson, Assistant Professor of Civil Engineering; M. A. Gaertner, Assistant Professor of Chemistry; Caraker D. Paschal, Design Critic in Architecture; Perry M. Smith, Instructor in Engineering Drawing and Machinery; K. G. Pfeifer, Instructor in Mechanical Engineering; and O. S. Adams, Instructor in Psychology.

CORRECTION—A. L. Starrett, Captain C. C. Houston and Lt. G. K. Mullins, from the Student Council, one to the Executive Dean, and one to the Chairman of the Trial Board.

Students seeking to be a member of the committee on English in Pre-professional Programs shall be added: Paragraph C. of Section 3.

The following shall be added: "The accused shall be allowed to present evidence and speak in his own defense. All witnesses shall be questioned by the Chairman of the Trial Board and submit his case directly to the Executive Dean."

The amendment be approved by the faculty.

Student Study Tours Offered By NSA Plan

"Operation Amigos"—NSA-sponsored student study and travel groups in Mexico this summer—is now open to students in all colleges and universities throughout the country. This was announced recently by Bob West, NSA International Chairman.

"Operation Amigos" offers students two distinct types of programs: a six week summer session at the National University of Mexico, including a ten day sojourn in Acapulco; or leisurely grand circles of Mexico of 66, 40, or 30 days.

Costs of the summer session will be from $800 up, including transportation to and from Mexico, tuition, room for six weeks in Mexico City, insurance, and room and board for the ten days in Acapulco. Cost for the 66 day program ranges from $507 to $675, and this, too, includes transportation to and from Mexico, all hotel accommodations, board in all but three of the 36 cities to be visited, insurance, and all other expenses except those of a personal nature.

The costs will vary, depending upon the departure point in the U. S., and the method of transportation. If desired, arrangements can be made to leave from almost any airport in the country. Costs for the 40, 66, and 90 day travel programs will cover the same items, and will be proportionately less.

Veterans planning to attend the summer session under the G.I. Bill will have their tuition paid for by the government, and will receive subsistence allowances; they should contact their local VA office soon to make the necessary arrangements.

These summer projects of study and travel are offered by NSA to give students a better understanding of our neighbors to the South. For further information and for a complete list, contact George Nalamson, Box 2305, or write to NSA Inter-American Travel Commission, Room 2 Eshleman Hall, University of California, Berkeley, California.

Phi Eta Sigma Initiates 65 Outstanding Freshmen

Sixty-five men who have achieved outstanding records in their freshman work were initiated into Phi Eta Sigma, national honorary fraternity, Thursday afternoon, April 14. Election to Phi Eta Sigma is based entirely on minimum point average requirement of 3.5 for the first quarter or first two of the freshman year. The men initiated yesterday include all those who have been eligible since the winter quarter of last year.

The list of new initiates follows: Aronsbekah, Roger Gerald; Bailey, James Christy; Bennett, Donald F.; Branchley, Raymond Bryant; Brownes, Thomas Carelon; Candio, Anthony Nicholas; Cavozeo, Steve Nick; Cawley, Vernon Robert; Cipert, John Louis; Clanton, Neil Archibald; Clay, Ernest Charles; Cohen, Marvin Bert; Cooper, E. Paul, Jr.; Delevaux, Joseph Lafayete; Drury, Warren Edwin, Jr.; Fosman, John William; Friedan, Paul Harold; Fuss, Leon, Roy, III; Gambill, Wallace Russell; Groomett, Ansuel Samuel; Gordon, Louis; Guy, Daniel Voorhees, Jr.; Hartley, Edwin Morton, Jr.; Harvey, Donald Melvin; Hewett, James; Ragsdale, Jr.; Holloway, Benjamin Gargozy; Jenkins, Claude William, Jr.; Johnson, Richard Clayton; Jones, Geoffrey F., Jr.; Kalbach, James South; Kennedy, Clyde Marion, III; Koon, John Ed; Woodle, John Corbett; Woody, John Henry, Jr.

Revived Netmen Take To Court at Davidson, Duke

By Lew Lennox

Tech's strengthened tennis team will find themselves on the courts at Davidson, N. C., this afternoon playing their second match with Davidson this season. Tech could be considered the underdog in this match, since they were soundly beaten in their first meeting, 8-1.

Tomorrow, the Yellow Jacket court men will travel over to Durham to meet the Duke tennis aggregation. Coach Bortell could say nothing definite as to the strength of the Blue Devils, but his outlook for the match was nothing but pessimistic.

Georgia Boys

The tennis outlook is not entirely black for Tech, however, since the tennis team can now boast of walloping the Georgia Bulldogs' highly over-rated Coach Bortell could say nothing were sounding beaten in their first meeting, 8-1.

The tennis outlook is not entirely black for Tech, however, since the tennis team can now boast of walloping the Georgia Bulldogs' highly over-rated Coach Bortell could say nothing were sounding beaten in their first meeting, 8-1.

As for Coach Bortell, he really had his curve breaking Ed Adams, playing No. 1 for the Georgia Tech Yellow Jackets, was a major factor in the match's outcome. Tech won five singles and two doubles and lost one singles and one doubles, a total of 7-2.

Tennis Outlook

The outlook for Tech's strengthened tennis team will find themselves on the courts at Davidson, N. C., this afternoon playing their second match with Davidson this season. Tech could be considered the underdog in this match, since they were soundly beaten in their first meeting, 8-1.

Tomorrow, the Yellow Jacket court men will travel over to Durham to meet the Duke tennis aggregation. Coach Bortell could say nothing definite as to the strength of the Blue Devils, but his outlook for the match was nothing but pessimistic.

As for Coach Bortell, he really had his curve breaking Ed Adams, playing No. 1 for the Georgia Tech Yellow Jackets, was a major factor in the match's outcome. Tech won five singles and two doubles and lost one singles and one doubles, a total of 7-2.

The tennis outlook is not entirely black for Tech, however, since the tennis team can now boast of walloping the Georgia Bulldogs' highly over-rated Coach Bortell could say nothing were sounding beaten in their first meeting, 8-1.

Tech Cindermen Face Tulane's Wave in Initial Home Contest

Both Squads Strong in Dashes But Jackets Favor ed in Distance Runs

By Bob Daniel

Coach Norrie Dean will keep his track squad home this week-end for their second dual meet of the season when they clash with Tulane tomorrow afternoon at Grant Field. The Greenies are bringing a well-rounded team developed to the finest degree.

Tulane showed strength in the sprints and field events last week in the Southern Relays in Birmingham. For made a third place in the broad jump and Price took third in the discus by sailing the platter 132 feet, 6½ inches. Springsburg vaulted in to fourth place by going over the bar at 11 feet 6 inches.

Biscuit Start

Tulane's Paul Benset set a new meet record to win the featured 100-yard dash. The Greenies' sprint medley relay team gathered third place honors behind East Texas State which was first and second place LSU, last year's Southeastern Conference track champions.

On hand to meet the competition will be one of the best Yellow Jacket teams ever to take to the cinders. Both Squads Strong in Dashes But Jackets Favor ed in Distance Runs

Top Meet

The meet with Tulane will be one of the season's best, so if you want to see two really fine track teams compete, come out to Grant Field Saturday afternoon.

It serves her right!

MARY JANE gives the telephone in her house a real work-out. But we're not worried a bit. We know Mary Jane's telephone is going to keep right on delivering good service year after year. Because the Bell System puts a lot of time, thought, and testing into making telephone equipment as rugged and trouble-free as possible.

Tests are constantly under way at the Bell Telephone Laboratories. There, for example, new types of telephone instruments are put through a school of hard knocks. Dial and other parts are given strength and wear tests. Even the bottom of the telephone set has been designed and checked to make sure that it will not scratch or stain furniture. Such tests—on little things as well as on big things—help give you the world's best telephone service at the lowest possible cost.
Netters Trounce Georgia—
(Continued from page 6)
shutting him out by a score of 6-1, 6-1. Doug Ferguson, No. 3, had an easy time against Dick Budd, defeating him 6-2, 6-3.

Nick Raber playing No. 4 for the Athens lads couldn't provide much of a match for Gordon Statham of Tech, going down by 6-2, 6-0. Tim Durrett in the No. 5 hole for the Techmen couldn't find the endurance to finish a match playing in the fireball fashion that he did during the first games.

Doug Ferguson and Lyles staged the marathon for the day by going down before Budd and Simon 7-5, 4-6, 6-3. Statham and King, playing against a discouraged combo of Raber and Karf, eased through the match 6-3, 6-4.

If they continue to improve their play as they have in Tennessee and Georgia matches, the Gold and White racquetters should give Davidson, Duke and Emory, next in line, some tough matches.

Campus Golf Tourney Opens
Spring is here now, and all Tech students can get out the old golf bag and clubs to use on their free (7) afternoons. The intramural golf tournament will be getting underway after April 19, and everyone can get ready for a few hot rounds of their favorite sport.

General intramural eligibility rules will be in effect and all persons except members of the varsity and freshman teams will be eligible. Each team captain must designate the four players who will compose his team before the play begins, and each match won will give the winner one point. Awards will be made to the winner of the elimination tournament and to the winning team. The team compiling the most points will be declared winner.

Intramural Net Information Released by Athletic Office
Assistant Athletic Director Roy Mundorf this week distributed to the local fraternities and several campus organizations the rules governing the 1949 Intramural Tennis Tournament. Any persons or organizations desiring this information can obtain a copy from Mrs. Moseley in the AA office.

There will be no seeding of players in the tournament and all persons or team representatives interested must register with Mrs. Moseley on or before 12 o'clock noon Tuesday, April 19.
