The World Student Fund Committee, an outgrowth of the World Student Service Fund Committee, is now receiving applications from foreign students in an effort to select the two students to enter the United States under the provisions of the GI Bill who intend to continue his education this summer in a different country. The GI Bill provides for veterans to be granted certificates of eligibility, VA said. These certificates of eligibility will be issued to veterans who are now attending or plan to attend an educational institution registered with the Department of Veterans Affairs.

The GI Bill provides for veterans to be granted certificates of eligibility. These certificates will be issued to veterans who are now attending or plan to attend an educational institution registered with the Department of Veterans Affairs. The certificates of eligibility will be valid for a period of two years from the date of issuance. Each certificate of eligibility will authorize the holder to be reimbursed for tuition, fees, and other educational expenses. The amount of reimbursement will be equal to the amount of tuition and fees charged by the educational institution. The certificates of eligibility will be valid for a period of two years from the date of issuance and will authorize the holder to be reimbursed for tuition, fees, and other educational expenses. Each certificate of eligibility will authorize a maximum of $20,000 in tuition and fees.

At the time of election, a letter applying for membership must be submitted and a form must be submitted. All applications must be submitted before the deadline, which is 4:00 p.m. Thursday, May 19. The final vote will be Thursday, May 19. The final vote will be held in the Technique box in the Admissions Office on or before May 19. The final vote will be held in the Technique box in the Admissions Office on or before May 19.

Admissions Office

The World Student Fund Committee has been most fortunate in securing the services of two of the executives of Eastman Kodak Company. Both the vice-president, Mr. W. D. Muntz, and the head of the installation, Mr. Nagel, have been interested in this sort of service. Both are high in the company and most in personally interviewing the applicants.

High emphasis has been placed on

Annual Interstate Song Contest
To Be Held Sunday at The ‘Y’

The annual Interfraternity Song Festival will be held this Sunday afternoon, May 8, at 3 p.m. in the Tech T.Y.M.C.A. auditorium. The event has no double.

The competition is open to single and double quartets. At the Sunday preliminary the战火 will be selected from the competing group to sing at the finals on Sunday. The "All Night," a cappella, on the basis of each group's rendition of the song, the group will be announced immediately following the contest.

"All Night" will be sung a cappella on the preliminary. The competition will be judged by all competing fraternities. The songs will be scored on the same basis as will be used on Sunday, and points will be prima one-half of the total obtainable.

The two songs that will be rendered

Technicians Will Play Saturday

Valuable Prizes Will Be Given

Summer School Vets Should Check With VA

Voters planning to go to summer school under the GI Bill should begin now to make necessary arrangements for Veterans Administration certificates of eligibility, VA said. A veteran already in the service should, for the benefit of the veteran's family, establish an adequate choice. In the hope that more men will enter, the deadline has been advanced to 4:00 p.m. Thursday, May 19.

Candidates Platforms

The candidates for class officer positions in the Tech Will be elected by the Board of Directors. The requirements adopted by the Board of Directors will take place at the middle of this month. The requirements of the candidates who will apply must submit a letter of application, not greater than two pages in length, to Dean Griffin's office and should be submitted before the deadline.

Positions to Be Filled

The positions to be filled will be editors, managers and business managers for The Technique and The Engineer. The requirements adopted by the Board of Directors will take place at the middle of this month. The requirements of the candidates who will apply must submit a letter of application, not greater than two pages in length, to Dean Griffin's office and should be submitted before the deadline.

Expressions of Interest Model

On display this week in the Engineering Building is a working model of an expressway. The model is designed to illustrate the superiority of this type of roadway over conventional facilities. The five lanes wide and twenty feet wide. It consists of two miniature four-lane highways, a conventional city street, and an expressway. The expressway has been shown all over the United States.

Few Candidates Submit Petitions;
Deadline for Entry Is Extended

The number of petitions for candidacy in the coming student council and class officer elections that are now required is far from adequate. According to elections chairman Bill Carasik, the number of candidates is far from adequate. According to elections chairman Bill Carasik, the number of candidates is far from adequate. Dr. Widenseat Will Speak At The Presidents' Club Banquet

According to Roy Barnes, acting as coordinator for the President's Club, a prominent personage, Dr. I. M. Widenseat, has been secured as after-dinner speaker for the President's Club Banquet on May 15th.

Dr. Widenseat has been a well-known figure in the circles of higher learning for almost a decade and a much sought after speaker for an even longer period of time. "The President's Club," stated Barnes, "is indeed fortunate in gaining his services for the dinner."

The club, which is composed of all the presidents of the various campus organizations, meets quarterly to discuss the problems and responsibilities appertaining to sound leadership. Omirion Delta Kappa, the student leadership organization, sponsors the banquet and secures the speaker.

Presidents of all organizations formed on the campus since last quarter and recognized by the Committee on Student Activities and the Student Council should contact Dean C. G. Griffin for reservations for the banquet.

ANAK Will Unveil Monument to Roman

ANAK Society and the Georgia Tech Band will unveil a monument erected to the memory of Frank Roman, director of the Georgia Tech Band from 1914-1928, at the Greenwood Cemetery, Cascade Road, Atlanta, Georgia at 3 p.m., Sunday, May 8.

This monument was made possible through the generosity of Mr. D. B. Donaldson, president of the Greenwood Cemetery, who donated the lot to the ANAK Society, Mr. M. L. McNiel, vice-president of the McNiel Company, the alumni members of the ANAK Society, and the Georgia Tech Band.

Roman orchestrated the present music of "Rambin' Reck," and in addition wrote the original music for the Georgia Tech Alma Mater song. Mr. L. H. Granath, alumnus of Georgia Tech, wrote the words for the Alma Mater.

A short program will precede the unveiling of the monument by Mr. George Brodnax, president of the ANAK Society. Mr. George W. Mcarty, first president of the ANAK Society, will make a short address, followed by Mr. Harry Seigle, a former member of the Tech band.

The dedication program will be concluded with "Taps," played by a member of the present band.

Smoke a LUCKY To feel your LEVEL best!

Luckies' fine tobacco picks you up when you're low...calms you down when you're tense—puts you on the Lucky level! That's why it's so important to remember that LUCKY STRIKE MEANS FINE TOBACCO—mild, ripe, light tobacco. No wonder more independent tobacco experts—auctioneers, buyers and warehousemen—smoke Luckies regularly than the next two leading brands combined! Get a carton of Luckies today!
Navy's New 'Constitution' To Be in Atlanta May 23

By Hub Danell

The world's largest transport type airplane, the Navy's new Lockheed Constitution, is scheduled to arrive at Condit Airport on May 23rd, for a 2 day public showing.

The two-deck, low-wing monomotor transport was constructed at the Airplane Factory of the famous square-rigged frigate Constitution built in 1774, which was a U.S. Navy vessel in the War of 1812.

It has been the responsibility of the Navy to fly itself and test the plane. Since its commissioning it has been carrying passengers and freight in non-stop cross-country flights and is presently on a 20 city tour.

The Navy is sponsoring the Constitution's 10,000 mile, six-week trip for a career in the officer or enlisted ranks of the U.S. Navy.

As well as giving the people of this area a look at the most advanced design and engineering in transport aircraft, the Constitution also will have aboard various up-to-date equipment exhibits of other naval aircraft and aircraft exercises.

With the expansion of the post war commuter airlines toward larger and faster planes, the Constitution and other hour Constitution affords tremendous commercial purposes as a cargo or passenger craft, of a combination of passenger and cargo space as the present model, the new plane has attracted the attention of the entire aviation field.

The Constitution is being evaluated thoroughly to determine its performance and wartime operational limitations and capabilities. Operating between the Naval Air Station at Moffett Field, Calif., and the present Maryland, the plane since its commissioning Monday, May 2nd, is also providing a needed air lift connecting the two coasts, and the Atlantic and Pacific Fleets, on a non-stop basis.

At a time when the nation's need for additional air transport is becoming more and more evident, the Navy hopes to perform a useful service in this area by appraising this new type of super-transport aircraft. Both transportation of passengers and cargo operations are being fully explored. From the million-square-mile footprint, such specialized fundamentals as troop transport and the evacuation of litter cases are being fully investigated.

During the Constitution's two days in Atlanta, the Navy hopes to show the plane to all of the area people who are interested in modern-day aviation.

Elevation of Army Drill Field Will Be Increased by Sand

Great quantities of the earth currently being removed from the Williams Street Expressway in preparation for the construction of the Buford Heights which is the site for its new studios.

Adjacent to the WGST site, grading the available drilling area to 155,000 sq. ft., continues to use Rose Bowl Field due to the continuing construction activities which are under the direction of the F. M. S. & T. of the ROTC Unit. This field is to continue to use Rose Bowl Field due to the large size of the unit.

T.E.'s Have Started Moving to New Site

Mr. Horace A. Dickert, director of the A. French Textile School, has announced that operations have begun for moving the machinery to the new building.

The work, which commenced on April 4th, has progressed so rapidly that all of the light machinery has been moved to the new building, and the moving of the smaller machinery, the sewing, harness and dyeing along with semi-works equipment have also been transported to the new site.

Although construction on the new textile building will not be completed until July, some labs, such as weaving and dyeing, are already being held in the new classrooms. However, full operation of the new physical testing laboratories will not be realized before mid-summer.

Delts' Rainbow Ball Highlights Weekend

By Bruce Kidd

Breaking a tradition started in the early '20's, the Delta Tau Delta this year will replace their annual costume ball with a "Rainbow Ball."

This Rainbow Ball, named in honor of the Rainbow Fraternity which controls the Delta Tau Delta, will be given from nine till one on Wednesday, May 11 at the American Legion Post No. 72, formerly Joe Veale's. The dance music will be continued with a hayride and barbecue.

The focus of the dance will be the crowning of the "Delta Tau Delta Queen" for the Delts' big weekend, May 6th and 7th.

In keeping with the name of the ball, the officers and their dates are as follows: Jack Vanderbloom, pres., and Joyce Peters; Hank McCamish, vice pres., and Betty Jo Payne; Joe Powell, treasurer, and Virginia Dunn; Jimmie Don Lindsey, recording sery., and "Libby" Shostak; Dan Uscher, corres. sery., and Baha Ferguson.

A Dissertation on Education

Learning in this country is too dependent on geography.

In the spring of 1942 I sat through an average of five lectures per day for a period of two weeks at Harvard University. Admittedly, the lectures were hand-printed and were top men in their fields.

It was the finest and yet saddest experiences I have had. It was fine in that every day I could sit and hear— and make note of the marvels with brilliance and quickness of summarizing records of achievement in their fields talked of with knowledge and experience.

It was sad in that every day and night I was made to realize that a man at Harvard was working—was willing—was brilliant which was far superior to that which a man at any Southern college. At Harvard, Yale, Princeton, Michigan, Wisconsin— to name those to which we seem to be so closely connected—— a man walks three feet of a dozen great teachers to every one found at one of our average State universities. It seemed to me that every man whom I heard sparked my mind. Many an evening I was so keyed up by the brilliance of the lectures and the stimulation of thought it was difficult to go to sleep. Looking back at my years at Vanderbilt University I could recall only two professors who had ever stimulated me as much. (Dr. Daniel and Dr. R. L. Newcomb) Dr. At Bosley, Don Gray, Nevetty Groves, Eam Mme., Marc Pennington, Lester Brannan, Nelson Saylor, Dr. James Bryant, and Dr. Robert younger.)

The administration has placed in the hands of these men the delicate task of judging their students. This is to be a complaint to the entire student body. So far the Trial Board has not had occasion to handle anything but its. With the cooperation of students in reporting such disciplinary matters to the Executive Dean, the Trial Board can then handle these complaints. The rules for the forthcoming student government provide that only members of the board may judge the case.

The third rule requires more elaboration on our part. According to chairman Carasik, postings are to be placed only on the special sign.
DR. EVATT BLAMES GREAT POWERS FOR TENSION

On April 3, 1949, the General Assembly of the United Nations set up again to try to solve some of the pressing problems in the world. Speaking president of the General Assembly, Mr. Evatt opened the session with some words that contained more truth than most of us were willing to admit. His words were received coldly by some, warmly by others, the powers, the United States and the Soviet Union. Considering the text of the speech, it is no surprise that these nations did not like it for it was aimed directly at them.

In commenting on international discussion, Mr. Evatt said, "It is impossible to ignore the fact that great difficulties have arisen in the last few years and that there has often been suspicion and lack of cooperation. However, I made a statement which I think cannot be controverted and the truth of which is crystal clear: that these difficulties have not been caused by the United Nations. All these difficulties would have been far greater without the United Nations because the organization does serve as a meeting ground for constant, these difficulties have not been caused by the United Nations. All these difficulties would have been far greater without the United Nations. However, the organization does serve as a meeting ground for constant, sustained, altruistic effort to solve problems through free discussion on the basis of the great principles set forth in the Charter. The fact is that many of the difficulties of the United Nations have been caused by one factor: great-power disagreements outside the United Nations, and completely independent of the United Nations.

United Nations' Accomplishments

Dr. Evatt then extolled the many accomplishments of the United Nations in the cause of international peace. He held Palestine forth as a notable example. He said that the efforts of the late Count Bernadotte, Dr. Ralph Bunche, and their associates have certainly averted a major conflict. He cited Iran, Kashmir, The Balkans, and the Berlin Blockade, and the freedom of information and the press convention. He said, "I would say this to you, and say it with complete frankness, that the importance of the items on the agenda shows that the United Nations remains today the cornerstone of effective international action to maintain peace and security and to promote higher standards of welfare throughout the world.

Primary Instrument of Peace

"This Charter and this organization are the primary instruments of international peace. The Charter provides that all other objectives of the individual nations may be subordinated to and must be in accordance with those set forth in the Charter of the United Nations.

1. the United Nations is the Supreme international body. It alone can give a common impetus and purpose to the efforts for peace made throughout the whole world.

In concluding, Dr. Evatt said: "What are the leaders at the Assembly who held the presidency of the world of their hands. They had indicated that the peoples of the earth were behind them in the work for peace... the peoples the world certainly will support the leaders here today who strive to help the United Nations at all times, and who remember that what was cited to the carrying into effect of three great objectives: firstly, international peace; secondly, international justice; and thirdly, international welfare."

Who knows, maybe he's right.

of the Democratic National Committee) warned vigorously that the American and Hungarian coalition had planned to use "scare tactics" in the fight against the bill. McCormick forecasted the public that the following statements to be used were not of the same scare tactic:

1. The A.M.A. estimates that the national health insurance would cost from $10,000,000,000 to $18,000,000,000.

2. The estimate is that the plan would require 400,000 to 500,000 additional Federal workers.

3. The A.M.A. will assert that medical standards would be lowered and a third party would be put between the physician and the patient.

Senator Wherry (Republican, Nebraska) commented against the bill, "You just can't get away from it—it's nothing but expensive socialized medicine."

Dr. Elmer L. Henderson, speaking for the A.M.A.'s 160,000 members, said, "the American people will sign a blank check for such an ambiguous program" if the bill is passed.

**Techmen Win By 83%-42% Margin Without Services of Four Ailing Stars**

By Bob Daniel

The Yellow Jacket infielders proved to be a better medium than the Bulldogs of Athens Saturday afternoon as the Tech team packed away their fourth dual meet of the season with a score of 83% to 42%. The Jackets with speedy time of 10 flat and 21.5, considering the condition of the track.

GMA star, overtook Bobby Joe Anderson's Techwood in a dash to the tape in the 10 yd. high hurdle, but Bradberry captured the 220 lows in 21.1%. The Jackets shelled Weisman off the plate 132% feet.

Bob Renshaw won the event, tying record both Tommy Green and Duck Swann fired 74's followed by Bill Pritchett. Gordon Clay and Corridan edged past Hadaway with a 76, Gordon Clay and Corridan inched past Hadaway only yards from the tape to take the second and third spots.

Tech golfers take first place in the longer run in the 880, was shut out in the first. They blasted Sunset Thompson for 14 hits in all. Florida's Montedores yielded seven hits, struck out seven, and allowed only two walks. Monk Jordan, Tech's shortstop, collected three of these hits in five times at bat. Ed Brown, Gator first sacker committed the only error of the afternoon.

Engineer Diamonders Split Twin Bill With Florida's Gators, 3-6 and 11-1

By Bob Kimzey

This weekend the Yellow Jacket nine will journey to Lexington, Kentucky to meet the Kentucky Wildcats for the second two game series of the season. In the first encounter here at Rose Bowl Field the Cats took both games from Tech, 14-5 and 9-6.

Last Saturday afternoon, after dropping the first game 6-3, the Tech diamond squad came back in the second to hand the Florida Gators an 11-4 pasting and split a doubleheader. Taking advantage of a hill in the rains Tech went on Rose Bowl Field against the visiting Gators in two games originally scheduled for Friday and Saturday afternoon.

Gators Take Opener

In the opener the Florida nine collected one run in the second inning and then pushed over five more in the sixth. They blasted Sunset Thompson for 14 hits in all. Florida's Montedores yielded seven hits, struck out seven, and allowed only two walks. Monk Jordan, Tech's shortstop, collected three of these hits in five times at bat. Ed Brown, Gator first sacker committed the only error of the afternoon.

Jackets Shell Weisman

Tech roared back in the nightcap behind the five hit pitching of Buddy Cooper, who finished third in the mile, took first place in the longer run in 11:18.6.

**Roses to Cindermen**

The roses that go to the track team this week should be especially red, for they indicate that the rival Bulldogs without the services of ace dashman Buddy Fowlkes, who was sidelined with a sprained ankle. The only haven't doubled an opponent's score in a dual meet this year. The Jackets T-Day Successful

An estimated three thousand students and guests turned out to see Bobby the crowd that turned out for the T-Day game was one to warm our heart. Despite a one-day postponement and threatening skies Saturday night, there was no more scoring in the last half. The ball was in the possession of the Whites most of the time, and the Gold's scored and evened the count 6-6. But in the second half it was the weight of the Gold team that gave them victory as they tied the score 6-6 twice. The entire Jacket squad, in an attempt to get back into the winning column, journey to Alabama May 7 to meet the Plainsmen of Auburn in the third round of the annual T-Day game.
Golds Beat Whites in T-Game
(Continued from page 7) line in the first quarter. Southward was exceptionally outstanding as he connected for 11 out of 10 attempts while only one pass was intercepted. One important detail noted was that he had all the time in the world to let loose with a pass. The backfield blocking for him was excellent and that is a great asset. Coach Dodd also had special praise for Harvin's snuggling ability and McCoy being back in good running form. He also pointed out Jordan and Thompson as being outstanding for the Whites. Ray Beck and Pete Farris also received acclaim as hard hitting linemen.

The head coach pointed out the fact that the team will be hand-capped next season by lack of weight. He did say that Tech will win, and that Tech will win their league lead by downing the hapless Georgia team on May 23, 24 and 25.

A SPECIAL OFFER TO THE GRADUATING CLASS ... JUNE '49

You May Be Accepted for an Early U. S. Air Force Aviation Cadet Training Class
If you are a college graduate, married or single, between the ages of 20 and 26, and physically and morally qualified, you may be accepted for assignment in the U. S. Air Force Aviation Cadet classes starting in late summer or early fall.
You get a well-planned course, valued at $35,000; this includes about 275 hours of flight training, and the finest aviation education and executive training in the world.

Win your wings and then start a career with a future...

College men are today's leaders of the U. S. Air Force. With new and complex aircraft and equipment being developed, scientific research becomes more and more important, increasing the need for college-trained men. As a college graduate you will have an unlimited future in aviation fields of personnel management, operations, materials, supply, research and development. It's a year of learning, flying and time for recreation with a handpicked top-string team of Americans.

Upon assignment to an Aviation Cadet class you will be sent to one of the U. S. Air Force bases in Texas for the world's finest aviation training. Here you will receive about 175 hours of flying instruction in the Texan T-6 trainer plus an extensive course in aviation education and executive training. Navigation, fuels, weather, radio and radar are some of the subjects you will take.
During this training period you'll find plenty of flying time, for you will have your own airplane, flying all day long. The best athletic facilities are available. Upon completion of training, you will fly your silver wings and receive a Reserve commission as second lieutenant in the U. S. Air Force. Outstanding graduates receive Regular commissions upon graduation.

OFFICER CANDIDATE SCHOOL FOR COLLEGE GRADUATES
If you can meet the high standards required of candidates for officer training, there's a real future for you in the U. S. Air Force. Capable, young executives are needed for positions of responsibility in non-flying assignments ... management, communications, engineering, research and other fields. That is why the Air Force is offering qualified, ambitious men and women with college training an opportunity to prepare for leadership in the air age.

Broadcast Engineers Hold Meeting Here
Georgia Tech, in cooperation with the Georgia Association of Broadcasters and the Atlanta Section of the Institute of Radio Engineers, is holding a Broadcast Engineers Conference at the Biltmore Hotel on May 23, 24 and 25.

The purpose of this conference is to present new technical developments and information in the field of radio broadcasting according to Ben Akar, chief engineer of WGST, general chairman. A similar conference held two years ago was attended by a large and interested group.

A program comprising about twenty technical papers on topics of interest to the broadcasting industry is planned. Manufacturers of equipment of interest to broadcasters will have displays set up at the Biltmore Hotel during the conference. Many items will be presented for the first time in this area.

Eight Games Postponed As Monsoons Hit Intramurals
By John Huskisson
Rain, muddy fields, and a confused schedule took its toll from the Intramural softball play for the past weekend. Of the sixteen scheduled games were played. In the Gold League, the hard-hitting ATO squad whalloped a tough SAE nine to take undisputed possession of first place. Behind the five hit hurling of George Burke, the ATO sluggers totaled ten hits, winning 16-8. George Kirkpatrick for ATO and Tom Fausor for SAE each potted out triples. All other games in the Gold League were postponed.
White League play was also limited to a single contest. Phi Kappa Alpha moved into a three way tie for the league lead by downing the hapless Beta 6-2 as Sam Young hurled a one hit masterpiece. C. E. McKen and Dave Jackson slammed out doubles for Phi K to lead the six hit attack. In the Yellow Jacket League, Chi Phi turned TXR 7-5, Brynnales hurling five hit ball and adding a second inning triple. Chi Psi scored a single run in the first frame, then scored the second, and three more in the third. Phi Gamma Delta, in a win column by trimming Phi Epsilon Pi 5-1. Don Yousman, Phi Gam mound-man, came out eight and a half during his five hit effort. Dennis Page and Bob Heffy each registered a double, and Joe Paslick smacked a triple for the winners.
Independent League suffered as badly as only four games completed. M.O.T.C. No. 2 dropped the Ducons from the Blue League lead. The Navy boys amassed 13 runs on 16 safeties while the Ducons could muster only 7 tallies for 12 hits. Atkins and Osborne hit four buggers as did Cooper who also connected for a triple. Joem was the winning pitcher. The Latin-American Club won by forfeit from Wesley Foundation in the Blue League.
The Tornado League was the most active of the day. Smith Dorm rode out Techwood 18-9; Langcake and Harris were the winning and losing pitchers respectively. Towers beat Glenn Dorm 18-6; and Calloway Apt's, won by forfeit from Lawson Apt's. The Baptist Students beat N.R.O.T.C. No. 1, 6-4, to maintain their Red League lead.
