Classes
The senior class of 1963 arrived on the Georgia Tech campus in September, 1959, not knowing exactly what awaited us in this new kind of life called the college community. We had a few good ideas, or at least we believed we did, but most of these beliefs and dreams were to vanish as we faced the cold life of the Techman.

Freshman camp was the first inkling for some of us, and the upperclassmen there were looked upon with some degree of awe—they were well on their way to becoming what we all desired to be: a Tech graduate. The road to this lofty attainment would not be without trials and pitfalls, but somewhere along the way we began to take pride in what we were doing, and in our fellow classmates—the class of 1963. As rats we proudly wore our famous symbol of recognition, and we waved it madly as we cheered the football team on to victory from behind the end zone in Grant Field. We pulled out the ends of our shirts and, in something akin to mob action, stormed to downtown Atlanta to enjoy our own unique institution, the shirttail parade. Also, fraternity life began to make its impression on some of us, as we endured the lowly life of a pledge, but at the same time growing to love a brotherhood of men known to the outside world only through mystic Greek letters.
Somewhere along the line that first fall quarter, we realized Georgia Tech was all that it was cracked up to be: hard. We cussed and recussed as deficiency slips brought stern letters from home, but at the end of the quarter we couldn’t wait to get home and brag to all our friends about how hard it was.

It was not all work though, for we saw and enjoyed the Kingston Trio, at the Coliseum, even though we had to get in line at 4:30 AM to get a ticket. We experienced the Collegiate ritual known as Homecoming for the first time, ran dutifully in the Cake Race, and saw Tech lose to Duke on that Saturday afternoon. Coach Bobby Dodd took the Jackets and his perfect bowl record to the Gator Bowl that year and came home after suffering his first post-season defeat. This might have been an indication of things to come, for while we were here we never saw the football team win on TV or in a bowl game. This is not to say by any means that we did not support the team, for we jammed the student section every time Tech played at home and cheered them on with a special kind of frenzy.

Winter brought basketball season each year and we saw a sharp-shooting guard named Roger Kaiser develop into All-America and Bobby Dodd’s nomination for “Tech’s greatest athlete.” Led by Kaiser, the team won second place in the SEC and second place in the NCAA Mid-Eastern Regional Tournament.

We elected our class officers that first year after having listened to them in the dorm, seen their posters all over the campus, and maybe doing a little politicking of our own on the side. After it was all over, Hattie Carter, Jerry Cox, Terry Gerber, and Dekle Rountree were our first class leaders.
From then on, it became a little difficult to remember which quarter we dated who, what profs we had when, and so on, because each quarter was just blending into the past as we concentrated more on a day in June when we would be walking across the stage of the Fox Theater to receive a certain sheepskin. Some of our classmates left, though, and we would remember them as well as those who came from other schools to replace them. As we looked about at graduation, and saw only about half of our original class remaining, we would remember a solemn intonation by Dean Griffin at Freshman camp: "Look at the man on either side of you, boy, because when you graduate they won't be here."

We saw many additions to the physical plant at Tech during our stay here—we helped initiate the New Classroom Building our first quarter, we saw the new dormitories open, those lucky EE's who made it through sophomore math and physics moved into the new Electrical Engineering building, and our senior class became the first to enjoy the new upper deck on top of Grant Field.

"Prohibition" hit Georgia Tech along about our junior year, and as an outgrowth of this and other student problems, a special committee of student leaders was formed to work beside Dr. Harrison on the problem of so-called "student apathy." We did a lot of talking about this problem for as long as we were here, but we never did solve it, and we left it behind for the next class to tackle.

We saw a complete revamping of the "Campus Cops" during our stay at Tech, quite a change from the cigar-chewing "Humpty-Dumpty" to the smartly-dressed, efficiently-operating force which has come to be respected by the student body.

While we were here, we saw and enjoyed many fine nationally-known entertainers brought to the campus by
A new era at Georgia Tech.

Ray Charles!

Highwaymen at winter concert.

Spring quarter and the Dukes of Dixieland outside on the library lawn.

the Student Lecture and Entertainment Committee, the Interfraternity Council, and the Bulldog Club. Among these standouts were the Dukes of Dixieland, the Brothers Four, Fred Waring and his Pennsylvanians, Dave Guardner, the Hi-Lo's, the Limeliters, Les Paul and Mary Ford, the Four Freshmen, the Highwaymen, and Ray Charles to start off that weekend of all weekends, the Alabama game.

Alabama arrived that November afternoon with 26 straight victories, a No. 1 national rating, and a coach that reportedly had said that a Dodd-coached team would never beat him again. He was wrong. Tech took to the field with fire in their eyes and determination to atone for the acts of a certain Darwin Holt. It was a hard-fought, cleanly-played game, and when the final gun sounded it was bedlam in Grant Field. —Tech 7, Alabama 6.

There were many other things which came to mean Georgia Tech to us, but they were personal things that mean different things to each of us. As a class, though, we left our mark on Tech and it most certainly left its impression on every one of us, the class of 1963.

Graduation at last!
